John Bercow: To ask the Secretary of State for Education and Skills whether all local education authorities have arrangements in place for identifying children missing from education. [53582]

Maria Eagle: All local authorities now have a named individual responsible for receiving details of children found missing education, and for brokering support for them through the most appropriate agencies. From contacts with the named individuals, we know that while some local authorities and their partners have improved their wider arrangements to identify such children, progress is patchy. The Government have recently commissioned a research organisation to conduct an independent survey of all local authorities to assess in more detail their progress in this area. We expect to publish the results in the summer.

The Government are concerned about any child missing education, as it is not just the child's educational attainment that is at risk, but also potentially his/her safety and welfare. That is why we signalled our intention, in the White Paper 'Higher Standards Better Schools for All', to introduce in the Education and Inspections Bill a new statutory duty on all local authorities to make arrangements to identify children missing education.

School Buildings

Mr. Hoyle: To ask the Secretary of State for Education and Skills when the new school in Buckshaw village in Chorley will be built; and how many school places it will provide. [53354]

Jacqui Smith: The Department makes capital allocations directly to local authorities and schools. It is the responsibility of authorities to determine how they allocate funds to capital projects, including building new schools, taking into account of local needs and priorities set in their asset management plan. I am aware that local discussions will commence shortly to investigate the need for a new school in Chorley but have no plans to intervene in what is considered to be a local decision.

For 2006–07, Lancashire county council and its schools have been allocated £51.2 million for capital projects.

In addition to the capital allocation above, Lancashire is in wave 1 of Building Schools for the Future (BSF) in which 11 secondary schools (eight in Burnley and three in Pendle) will be replaced by five 11–16 schools in Burnley and two 11–16 schools in Pendle along with a 16–19 centre in Burnley. The indicative funding for this wave is £166 million. The remainder of Lancashire's secondary school estate will be covered in five future BSF waves.

Capital allocations to local authorities and schools are higher than ever before. In 2005–06 they are £5.5 billion and they are planned to increase to £6.3 billion in 2007–08, an increase from £683 million in 1996–97.

School Closures

Daniel Kawczynski: To ask the Secretary of State for Education and Skills how parents may appeal against a decision to close a school taken by a school organisation committee. [50059]

Jacqui Smith: The procedures established by the School Standards and Framework Act 1998 for deciding changes to school organisation do not provide for appeals against decisions on statutory proposals taken by the local School Organisation Committee. Any SOC decision on statutory proposals must be unanimous. Where a SOC cannot reach a unanimous view proposals are decided by the independent Schools Adjudicator.

School Curriculum

Dr. Kumar: To ask the Secretary of State for Education and Skills what legislative provision governs *(a)* the curriculum for and *(b)* the recruitment of teaching staff in religious education in (i) community schools, (ii) schools with a religious ethos and (iii) academies. [53524]

Jacqui Smith: Legislative provision for the curriculum in religious education in (i) community schools and (ii) maintained schools with a religious ethos is contained in the School Standards and Framework Act 1998 (Schedule 19). The requirements on (iii) academies with regard to religious education are held within their Funding Agreements with the Secretary of State.

The relevant legislative provisions for the recruitment of staff in religious education in (i) community schools and (ii) maintained schools with a religious character are sections 54 and sections 58–60 of the School Standards and Framework Act 1998 respectively. Academies are governed by general employment laws. However, as with maintained schools with a religious ethos, where an Academy is designated as having a religious character, teachers may be recruited on the basis of their religious views and practices.

Dr. Kumar: To ask the Secretary of State for Education and Skills what legal provisions govern *(a)* the content of and *(b)* the rights of pupils and teachers to request withdrawal from religious worship in (i) community schools, (ii) schools with a religious ethos and (iii) academies. [53525]

Jacqui Smith: The provisions covering the nature of Collective Worship are covered by Schedule 20 of the School Standards and Framework Act 1998.

Section 71 of the School Standards and Framework Act 1998 governs the rights of parents to request withdrawal of their children from religious worship in (i) community schools and (ii) maintained schools with a religious ethos. The rights of pupils to be withdrawn from religious worship in (iii) academies are held within the Academy's Funding Agreement with the Secretary of State, and are the same as in all maintained schools.

The rights of teachers in (i) community schools are covered by section 59 of the same Act, and in (ii) maintained schools with a religious character by section 60 of the same Act. As independent schools, any rights which teachers may have to withdraw from religious worship in (iii) Academies will be contained in their employment contracts with the Academy.

School Finance

John Bercow: To ask the Secretary of State for Education and Skills which schools will receive extra targeted financial help in 2006–07 because they have the highest numbers of pupils who have fallen behind. [53555]

Jacqui Smith: Local authorities are responsible for distributing the grant locally to ensure that it will have maximum impact on the highest number of targeted pupils. The Department does not hold centrally a list of schools which are in receipt of this grant, though it does discuss with individual authorities how the grant is being used to narrow the achievement gap.

Mrs. Hodgson: To ask the Secretary of State for Education and Skills what the annual funding per pupil has been in *(a)* Gateshead and *(b)* Sunderland constituencies in each year since 1997. [54157]

Jacqui Smith: The information requested is only available on the basis of local authority areas. The following table sets out the figures for each financial year from 1997–98 to 2005–06.

Total funding per pupil aged three to 19 in Gateshead and Sunderland

£

	Real terms, excluding pensions transfer to EPS and LSC 1997–98 to 2005–06	
	Gateshead	*Sunderland*
1997–98	2,770	2,820
1998–99	2,910	2,900
1999–2000	3,050	3,030
2000–01	3,340	3,310
2001–02	3,550	3,520
2002–03	3,660	3,610
2003–04	3,860	3,810
2004–05	3,990	3,950
2005–06	4,160	4,150

Notes:

1. Price base: Real terms at 2004–05 prices, based on GDP deflators as at 23 December 2005.
2. Figures reflect relevant sub-blocks of Standard Spending Assessment/Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS and LSC.
3. Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged three to 19 and exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the SSA/EFS settlement calculations plus PLASC three-year-old maintained pupils and estimated three to four-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
5. Rounding: Figures are rounded to the nearest 10.

Status:

2005–06 figures are provisional as some grants have not yet been finalised/audited.

Dan Norris: To ask the Secretary of State for Education and Skills what the annual funding per pupil has been in *(a)* Bath and North East Somerset and *(b)* South Gloucestershire in each year since 1992. [54365]

Jacqui Smith: As a result of data changes and changes to the school funding system, comparable figures are not available for 1992–97. The table sets out the figures in real terms for each financial year from 1997–98 to 2005–06. Total funding includes funding via Education Formula Spending/Standard Spending Assessment and revenue grants allocated at an LEA level.

In 2003–04 an additional £640 million was transferred into Education Formula Spending in respect of teachers pensions. This transfer has been excluded from the figures provided so they are on a comparable basis for years before and after the transfer.

Funding per pupil aged three to 19 in Bath and North East Somerset and South Gloucestershire

£

	Real terms, excluding pensions transfer to EPS and LSC 1997–98 to 2005–06	
	Bath and North East Somerset	*South Gloucestershire*
1997–98	2,680	2,610
1998–99	2,750	2,680
1999–2000	2,890	2,810
2000–01	3,100	2,990
2001–02	3,200	3,090
2002–03	3,300	3,210
2003–04	3,410	3,340
2004–05	3,570	3,480
2005–06	3,760	3,660

Notes:

1. Price base: Real terms at 2004–05 prices, based on GDP deflators as at 23 December 2005.
2. Figures reflect relevant sub-blocks of Standard Spending Assessment/Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS and LSC.
3. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged three to 19 and exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level.

5. Rounding: figures are rounded to the nearest 10.

Status:

2005–06 figures are provisional as some grants have not yet been finalised/audited.

School Food

Anne Snelgrove: To ask the Secretary of State for Education and Skills which schools in South Swindon have received grants for improving school food; and how much each received. [56553]

Jacqui Smith: Every maintained primary, secondary nursery, special school and pupil referral unit in Swindon local authority received a school meals grant in October 2005. Schools were each awarded a lump sum of £1,070 per primary school and £1,500 per secondary school, with an additional amount per pupil. The per pupil amount for PRUs and all schools except nursery schools is 50p; for nursery schools it is 50p for half of FTE pupils, to reflect the fact that fewer pupils in nursery schools take school meals.

The funding distributed in October 2005 was the first of three years of transitional funding which we have encouraged schools to put towards making sustainable improvements in school food and drink. The allocation formula to schools will remain the same for all three years of the grant.

Anne Snelgrove: To ask the Secretary of State for Education and Skills which local authorities have received a targeted school meals grant; and how much each received. [56555]

Jacqui Smith: The following table shows the amount of targeted school meals grant each local authority received in 2005–06.

Targeted school meals grant (grant 5a): allocations for 2005–06

School Management Costs

Derek Wyatt: To ask the Secretary of State for Education and Skills what assessment has been undertaken to compare management costs imposed by local authorities for the administration of her policies in schools. [54175]

Jacqui Smith: The Department does not collect information on management costs within local authorities. However the available information for the costs relating to central administration within local education authorities is given in the following table:

Local authority central administration[1] ranked as a percentage of total education spending for financial year 2004–05[2]

Local authority name	Central administration net current expenditure[1] (£)	Total education spending net current expenditure (£)	Expenditure on central administration as a percentage of total education spending	Ranking (from highest to lowest percentage of total education spending spent on central administration)[3]

Local authority central administration[1] ranked as a percentage of total education spending for financial year 2004–05[2]

Local authority name	*Central administration net current expenditure[1] (£)*	*Total education spending net current expenditure (£)*	*Expenditure on central administration as a percentage of total education spending*	*Ranking (from highest to lowest percentage of total education spending spent on central administration)[3]*
Wigan	3,555,475	200,777,355	1.8	58
Wiltshire	2,867,529	262,171,741	1.1	127
Windsor and Maidenhead	1,487,289	84,086,977	1.8	60
Wirral	3,674,634	223,796,278	1.6	73
Wokingham	1,197,186	92,994,847	1.3	109
Wolverhampton	2,895,380	180,125,791	1.6	76
Worcestershire	6,950,942	315,747,798	2.2	37
York	3,105,994	99,640,100	3.1	14

[1] Central administration covers the overall management of the local authority's responsibility in relation to education.
[2] 2004–05 figures in cash terms as reported by local authorities as at 23 February 2006.
[3] Due to having only one school, Isles of Scilly LA and City of London LA will have a different expenditure pattern than other authorities which will include some fixed central administration costs which are unavoidable regardless of the size of the local authority. Consequently the expenditure on central administration as a percentage of total education spending by City of London and Isles of Scilly LA's should not be compared with other authorities.

School Sport Facilities

Rosie Cooper: To ask the Secretary of State for Education and Skills what funding her Department has made available for improvements to school sports facilities in *(a)* West Lancashire and *(b)* Lancashire in each year since 1997. [53320]

Jacqui Smith: Significant funding is being provided specifically to enhance PE and school sport facilities between 2001 and 2009. In total, £686 million of lottery funding is providing a step change in school sport facilities through the Space for Sport and Arts and Big Lottery's New Opportunities for PE and Sport programmes.

Local authorities and schools may supplement this with the formula capital funding that we provide to them. However, it is the responsibility of the schools and local authorities to determine how they allocate these funds to different projects, including enhancing school sports facilities, taking account of local needs and priorities.

Records are not held centrally that show how much of this funding is spent on school sports facilities, neither am I able to provide a breakdown for West Lancashire and Lancashire.

School Staff (Checks/Disputes)

Ms Keeble: To ask the Secretary of State for Education and Skills whether the restrictions which apply to employment in schools of people convicted or cautioned for sex offences apply to employment in education units in *(a)* secure training centres and *(b)* young offender institutions. [44664]

Ruth Kelly: Anyone who is barred and included on List 99 on grounds of being unsuitable to work with children, including those barred automatically because of a conviction for a sexual offence against a child, and those included permanently on the Protection of Children Act List, is disqualified from working with children under section 35 of the Criminal Justice and Court Services Act 2000. It is an offence under that Act for a disqualified person to apply for, offer to do, accept, or do any work with children in a wide range of settings including secure training centres and young offender institutions.

Harry Cohen: To ask the Secretary of State for Education and Skills what assessment she has made of the implications for independent investigations into allegations of cheating of resolutions between teachers and schools, in lieu of employment tribunal decisions, which include confidentiality agreements. [55873]

Jacqui Smith: The responsibility for undertaking investigations into allegations of cheating in public examinations lies with the awarding bodies.

The Qualifications and Curriculum Authority (QCA),as regulator of the awarding bodies, requires awarding bodies to investigate any instances of alleged malpractice and take such action as is necessary to maintain the integrity of the examination.

Schools Funding

Helen Jones: To ask the Secretary of State for Education and Skills what representations she has received from churches on proposed changes to the way capital funding is channelled to schools; and if she will make a statement. [55898]

Jacqui Smith: When considering options for changes to the way in which we pay capital grant to voluntary aided schools, we established a transition group which included representatives from local authorities, the churches and the voluntary aided sector generally. We have acted on the recommendations of that group in taking our current proposals forward. The churches have been fully supportive of the changes.

Schools White Paper

Miss McIntosh: To ask the Secretary of State for Education and Skills if she will make a statement on the role of local education authorities under the provisions of the Schools White Paper. [41185]

Jacqui Smith: The White Paper sets out an enhanced role for local authorities as commissioner rather than provider of services, and as champion of pupils and parents, responding appropriately to their needs. Local authorities will take a leadership role in relation to school organisation decisions and will have a duty to promote diversity, choice and the fulfilment by every child of their educational potential.

Science GCSEs

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 27 February 2006 to Question 53160, on science GCSEs, what proportion of the timetable *(a)* biology, *(b)* chemistry and *(c)* physics are expected to take up when taught as separate subjects rather than as part of the double award science GCSE. [56688]

Jacqui Smith: Guidance from examining boards suggests around 10 per cent. of the timetable should be spent on studies leading to a single GCSE subject.

Sector Skills Councils

Mr. Boswell: To ask the Secretary of State for Education and Skills which Sector Skills Councils are *(a)* fully compliant, *(b)* in the process of being compliant and *(c)* not compliant with their licence obligations as to the proportion of private sector funding they receive; and if she will make a statement on action she is taking to achieve such compliance. [56244]

Phil Hope: The Sector Skills Council (SSC) license does not contain any specific obligations or requirements around the level of employer sourced funding for SSCs. Consequently, there are no network level explicit targets for employer financial contributions for SSCs to be assessed against.

It should be stressed however that SSCs are encouraged to source funding from employers and other sources where appropriate, recognising that SSCs have been set up to be the voice of employers. The current level of Government sponsor funding for the network is a contribution to the core cost of an effective SSC so alternative funding sources need to be developed. In this context, the SSDA aims to facilitate employer income contributions where appropriate and there is the long term expectation that SSCs, as employer led organisations, will seek to develop additional funding sources.

Setting

John Bercow: To ask the Secretary of State for Education and Skills how many maintained schools *(a)* set and *(b)* group pupils in (i) English, (ii) mathematics, (iii) science, (iv) design and technology, (v) history and (vi) modern languages; and if she will make a statement. [53610]

Jacqui Smith: Ofsted through their school inspections in 2002/03 noted that in secondary schools: 51 per cent. of English; 86 per cent. of mathematics; 70 per cent. of science; 29 per cent. of history and 62 per cent. of modern foreign languages lessons were set by ability.

Sex Education

Dr. Kumar: To ask the Secretary of State for Education and Skills pursuant to the answer of 25 January 2006, *Official Report*, column 2210W, on sex and relationships education, if she will take steps to make the teacher's certificate in personal social and health education compulsory for all teachers expected to teach sex and relationships education. [53353]

Jacqui Smith: We are encouraging all teachers of sex and relationship education to undertake the teachers' certificate in Personal Social and Health Education (PSHE) and almost 5,000 teachers have undertaken the certificate since 2002. We have no plans to make the PSHE certificate a compulsory requirement for teachers of sex and relationship education.

Sign Language (Financial Support)

Anne Main: To ask the Secretary of State for Education and Skills what financial support is available for parents of deaf children to be taught sign language. [54599]

Maria Eagle: The Department supports parents who wish to learn sign language through a public subsidy of sign language courses delivered through further education colleges. In 2004/05 the Learning and Skills Council (LSC), the body that plans and funds post-16 education and training in England, supported 21,491 learners on sign language courses, at a cost of more than £6.7 million. Although we can not specifically identify parents of deaf children separately among these learners we know the majority of them (90 per cent.) were not people with a learning difficulty and/or disability. Therefore, the vast majority of learners on sign language courses do not have a hearing impairment but are undertaking the course for a variety of other reasons which will commonly include being a parent or other relative of a hearing impaired person. We do not currently have comparable data available for 2005/06.

Throughout the prioritisation of funding for 2006/07 we have been clear that provision for learners with learning difficulties and/or disabilities remains a priority and that the LSC has been explicit in its strategic planning guidance to ensure funding for non basic or level 2 employability skills, which accounts for the majority of adult funding available, should be prioritised for courses for learners with learning difficulties and/or disabilities, as well as programmes for those that work with this group which include courses such as lip-reading, sign language and Braille.

There are also measures in place to ensure that learners with low incomes who are in receipt of means tested benefits will receive free tuition on publicly funded courses. For adult learners facing barriers to learning, Learner Support Funds (LSF) provides additional financial support to people undertaking learning.

Where learners are not receiving a means tested benefit the provider may waive fees at their discretion and may make use of LSF in order to provide support. In 2004/05 we know that around half of learners undertaking sign language courses paid no fees either as a result of being on means tested benefits or due to the discretion of the provider.

Special Advisers (IT Allowances)

Keith Vaz: To ask the Secretary of State for Education and Skills whether special advisers in her Department receive an IT allowance. [52671]

Maria Eagle: Special advisers do not receive any IT allowances.

Special Educational Needs

John Bercow: To ask the Secretary of State for Education and Skills if she will list specialist schools which have a special educational needs specialism. [53558]

Jacqui Smith: 12 special schools have been designated in the special educational needs (SEN) specialism, specialising in one of the four areas of the SEN code of practice. The schools are:

Ash Field School and Micro Technology Assessment Centre, Leicester

Clifford Holroyde Centre of Expertise, Liverpool

Cuckmere House School, East Sussex

Firwood School, Bolton

Holly House School, Derbyshire

Marjory Kinnon School, Hounslow

Mary Hare School, Newbury

New Rush Hall School, Redbridge

Penn Hall School, Wolverhampton

RNIB New College, Worcester

The West of England School and College for Children with Little or No Sight, Exeter

West Gate School (formerly Emily Fortey School), Leicester

Additionally, there are 33 special schools designated with a curriculum specialism.

Mr. Stewart Jackson: To ask the Secretary of State for Education and Skills what proportion of Peterborough local education authority's total budget was spent on special needs education in each of the last seven years. [54820]

Jacqui Smith: The available information is contained within the following table. Similar data are not available before 2000–01:

Budgeted net expenditure on the provision of education for children with special educational needs[1,2] by Peterborough local authority since 2000–01

	Budgeted net expenditure on the provision of education for children with special educational needs (£)	*Total Education Revenue Expenditure[3] (£)*	*Budgeted net expenditure on the provision of education for children with SEN as a percentage of total education revenue expenditure*
2000–01	12,325,000	82,092,000	15.0
2001–02	13,410,000	88,259,000	15.2
2002–03	14,787,000	94,086,000	15.7
2003–04	16,936,000	103,083,000	16.4
2004–05	18,620,000	109,591,000	17.0
2005–06[4]	20,337,000	121,620,000	16.7

[1] Includes planned expenditure on the provision for pupils with statements and the provision for non-statemented pupils with SEN, support for inclusion, inter authority recoupment, fees for pupils at independent special schools and abroad, educational psychology service, local authority functions in relation to child protection, therapies and other health related services, parent partnership, guidance and information, the monitoring of SEN provision and inclusion administration, assessment and co-ordination. Also included is the funding delegated to nursery, primary and secondary schools identified as "notional SEN" and the individual schools budget (ISB) for special schools.

[2] The ISB for special schools will include some general education costs for pupils with SEN in addition to those costs specifically for SEN while the figures recorded against "notional SEN" are only indicative of the amount that might be spent by schools on SEN and, from 2004–05 onwards, "notional SEN" delegated to nursery schools was reported on Section 52 for the first time and this accounts for £18,000 of the 2005–06 total. In 2005–06, Peterborough also budgeted £1.7 million for SEN transport expenditure but this is not included in the budgeted net expenditure on SEN as figures are not available prior to 2005–06.

[3] Total Education Revenue Expenditure is the combination of the total schools budget and the total LEA budget.

[4] Cash terms figures as reported by Peterborough local authority as at 27 February 2006.

Note:

Figures are rounded to the nearest thousand pounds and may not sum due to rounding.

The data are drawn from Peterborough local authority's Section 52 Budget Statements (Tables 1 and 2) submitted to the DfES.

Specialist Schools

John Bercow: To ask the Secretary of State for Education and Skills if she will list the high performing specialist schools which have taken on additional functions since the publication of the White Paper, Higher Standards, Better Schools for All. [53549]

Jacqui Smith: 91 high performing specialist schools, tabled as follows, have taken on one or more of the four leading options offered at redesignation in the autumn of 2005. A further 66 schools are currently under consideration and will be informed shortly.

St James Independent School for Senior Boys

Mr. Hancock: To ask the Secretary of State for Education and Skills pursuant to the answer of 14 February 2006, *Official Report*, column 1941W, what the nature is of the investigations of the St. James Independent school for senior boys to which she refers; what the evidential basis was for the assertion that such investigations were taking place; and what steps she has taken in response to the letter to her from the headteacher of St. James dated 24 February. [56228]

Maria Eagle: A historic allegation of abuse was received from a man in his 40s that related to his time as a school pupil in London. Following a thorough joint investigation by the police, social services, the NSPCC and Education Welfare that involved St. James Independent school for senior boys, no further action is being taken by the Metropolitan police. My response to the headteacher of St. James contains this information.

Sure Start

Mr. Stewart Jackson: To ask the Secretary of State for Education and Skills if she will list visits by Ministers in her Department to Sure Start schemes and facilities in England in the 12 months to 5 May 2005; in which parliamentary constituency each facility is; what the cost of each visit was; and if she will make a statement. [53482]

Maria Eagle: The following table shows the Sure Start schemes and facilities visited by each Minister in the 12 months to 5 May 2005. Records of the cost of each visit are not held in the format required and to provide this information would incur disproportionate costs.

Date	Scheme/Facility	Constituency
Charles Clarke		
25 May 2004	Redcliffe Early Years Centre	Bristol East
9 November 2004	Shipley Sure Start Local Programme	Shipley
Ruth Kelly		
18 March 2005	North Wingfield Sure Start Centre	Wingfield
Ivan Lewis		
16 July 2004	Rosehill Nursery	Bolton South East
29 November 2004	Ladybridge Pre-school	Bolton West
Margaret Hodge		
13 May 2004	Redcar Coast and Dormanstown Sure Start Centre	Redcar and Cleveland
26 May 2004	Trust Taplin Nursery	Southampton
11 June 2004	Wellgate Neighbourhood Nursery	Barking and Dagenham
15 June 2004	Birkenhead North Sure Start Programme	Birkenhead
	Wigan Sure Start Centre	Wigan
30 June 2004	Mill Hill Sure Start Centre	Blackburn
	Audley and Queens Park Children's Centre	Blackburn
3 July 2004	Toddlers Play Park Great Massingham	North West Norfolk
8 July 2004	St. Matthews Sure Start Centre	Leicester South
16 July 2004	Headstart Nursery	Barking and Dagenham
3 September 2004	Playland Nursery Vicarage Field	Barking and Dagenham
7 September 2004	Nunsthorpe and Bradley Park Children's Centre	Grimsby
	East Marsh Sure Start Children's Centre	Grimsby
	First Steps with Sure Start Neighbourhood Nursery	Grimsby
27 September 2004	Hollingdean Sure Start Centre	Brighton and Hove
9 September 2004	Rosehill Sure Start Centre	Derby

Date	*Scheme/Facility*	*Constituency*
27 October 2004	Sunshine Corner Neighbourhood Nursery	Aylesham and Canterbury
3 November 2004	Lewisham Children Centre Programme	Lewisham
4 November 2004	Newham Early Start Centre	Newham
9 November 2004	Little Steps Neighbourhood Nursery	Peterborough
18 November 2004	Northcot Early Years Centre	Reading
9 December 2004	Derby Rosehill Sure Start Centre	Derby
14 December 2004	Shrewsbury Sure Start Centre	Shrewsbury
10 January 2005	Kate Greenaway Nursery School	Islington
11 January 2005	Roehampton Neighbourhood Nursery	Roehampton
	Battersea Sure Start Centre	Battersea
13 January 2005	Grove Street Community Play Group	Wirral South
21 January 2005	Waltham Forest Early Intervention Centre	Waltham Forest
28 January 2005	Baby Cafe Wellgate Nursery	Barking and Dagenham
1 February 2005	Sockingfold Early Years Centre and Nursery	Nuneaton
4 February 2005	Seagulls Neighbourhood Nursery	Barking and Dagenham
1 March 2005	Temple Hill Sure Start Centre	Dartford
	All Saints Sure Start, Magpie Hill Road	Chatham and Aylesford
	Sheerness Sure Start Centre	Sittingbourne and Sheppey
8 March 2005	Castlecombe Primary School Nursery	Bromley and Chislehurst
1 March 2005	Dartford Sure Start Local Programme	Dartford
	Charham/Alsford Sure Start Local Programme	Dartford
9 March 2005	Kingsbrook Children's Centre	Bedford and Luton
7 March2005	Bromley by Bow Children's Centre	Bethnal Green and Bow
11 March 2005	Rowley Regis Sure Start Local Programme	Halesowen and Rowley Regis
15 March 2005	Priestley College Early Learning Centre	Warrington South
8 April 2005	Abbey Children's Centre	Barking and Dagenham

Teacher Development

John Bercow: To ask the Secretary of State for Education and Skills if she will extend the provision of services for teachers' professional development in science, mathematics, English and social sciences. [53523]

Jacqui Smith: The Training and Development Agency for Schools is responsible for monitoring the quality and coverage of continuing professional development for teachers in all curriculum subjects including social sciences. Their five year strategy sets out proposals for a challenging new CPD agenda.

Alongside this the DfES has:

Announced plans for personalised learning, as part of the recent Schools White Paper, 'Higher Standards, Better Schools For All', to ensure every child masters the basics of English and mathematics. This includes a programme of training so that every school will have access to leading teachers who are expert in catch-up in these subjects.

Launched the Science Learning Centres, a national network for professional development in the teaching of science, in partnership with The Wellcome Trust. The centres offer training focused on encouraging innovative and exciting teaching practice that will enthuse and inspire young people.

Announced the launch of the National Centre for Excellence in the Teaching of Mathematics. Its aim is to improve mathematics education across all sectors by providing enhanced CPD for all teachers of mathematics. The National Centre is due to open in summer 2006.

Teachers' Pay

Mr. Stewart Jackson: To ask the Secretary of State for Education and Skills what guidance she plans to issue to local education authorities concerning variations of pay agreements under the School Teachers' Pay and Conditions Document, with regard to the non-provision of childcare tax vouchers as a non-cash benefit; whether her Department plans to review this policy; and if she will make a statement. [53803]

Jacqui Smith: I refer the hon. Member to the answer given by my hon. Friend the Minister for Children, Young People and Families on 12 September 2005, *Official Report*, column 2337W, on the "Childcare Vouchers Scheme,". We have since conducted an informal consultation with representatives of teacher unions and employers on making provision in the statutory School Teachers' Pay and Conditions Document to enable teachers to access tax-beneficial schemes, including childcare vouchers, on a salary sacrifice basis, and are currently considering the issues arising.

Chris Ruane: To ask the Secretary of State for Education and Skills what was the *(a)* average pay and *(b)* average yearly percentage change in pay of (i) a classroom teacher on starting salary, (ii) a classroom teacher with seven years' experience, (iii) a deputy head teacher and (iv) a head teacher in each of the last 25 years at current prices. [56209]

Jacqui Smith: The information requested is not readily available and can be obtained only at disproportionate cost.

Information on the average salary of teachers by grade for the years 1997 to 2003 has been published annually since 1998 in the Statistics of Education, School Workforce in England, (including teachers' pay for England and Wales). Copies of these have been placed in the House of Commons Library.

University (Shrewsbury)

Daniel Kawczynski: To ask the Secretary of State for Education and Skills if she will take steps to secure a university for Shrewsbury. [55151]

Bill Rammell: The Higher Education Funding Council for England (HEFCE) commissioned the consultants SQW Ltd. to carry out an option appraisal to look at provision of higher education in Herefordshire, Powys

and Shropshire and published a report in May 2005. The study undertook a comprehensive review of the actual and potential demand for higher education in the three counties and provided an appraisal of the options for meeting that demand.

As a result, HEFCE are currently working with the higher and further education institutions in the area to develop a Lifelong Learning Network (LLN) which will cover Staffordshire, Stoke on Trent, Shropshire and Telford and Wrekin which will seek to enhance existing structures and provision and create new arrangements to facilitate the progression of vocational learners into and through higher education. The LLN will undertake a fundamental role in linking the demand for learning and up-skilling with the appropriate supply of provision, through courses, qualifications and awards, at a variety of levels.

University Staff Salaries

John Barrett: To ask the Secretary of State for Education and Skills if the Government will ensure that part of the additional higher education funding is received by university staff in the form of increased salaries. [55969]

Bill Rammell: The allocation of funding within higher education institutions, including the additional income from variable fees, is not a matter for Government. Universities are autonomous and responsible for determining their own academic and administrative affairs, including deciding what to pay their own staff. Pay and conditions of service are subject to negotiations between employers, their staff and their representative trade union bodies. The Government plays no part in this.

John Barrett: To ask the Secretary of State for Education and Skills if the Government will set aside specific funds to increase the pay of university staff. [55970]

Bill Rammell: Government funding for teaching in English higher education (HE) is allocated via the Higher Education Funding Council for England on a formula basis. Higher education institutions receive this and their funding for research as block grant. It is a matter for institutions, as autonomous bodies, to determine how they use the resources available to them, including determining pay levels for their staff. Pay and conditions of service are subject to negotiations between the HE employers, their staff and their representative trade union bodies. The Government plays no part in this.

John Barrett: To ask the Secretary of State for Education and Skills what plans the Government have to improve the recruitment and retention of university staff. [55972]

Bill Rammell: The responsibility for recruiting and retaining staff lies with higher education institutions (HEIs), as the employers. However, we have instituted a number of measures to support higher education institutions in this area. Through the Rewarding and Developing Staff initiative (R&DS), we have supported HEIs in developing their human resource capability including recruitment and retention as a priority area. A recent evaluation carried out for the Higher Education Funding Council for England (HEFCE) by KPMG identified that about £66 million (of the total £370 million R&DS funding 2001–02 to 2003–04) had been spent on recruitment and retention. The Department has also implemented, through HEFCE, a 'Golden Hello' programme of funding to encourage new entrants into teaching shortage subjects.

We have also asked HEFCE to report to the Department annually on workforce trends, including sector staffing capacity. HEFCE's 2005 report is available at http://www.hefce.ac.uk/lgm/workforce/.

Upskilling

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will make a statement on upskilling staff through the Learning Academy; how many staff have been upskilled; what proportion of these are *(a)* cleaners and *(b)* other non-front-line personnel; and how much is allocated to upskilling in 2005–06. [53161]

Maria Eagle: In the Department, since April 2005, 2,981 people have participated in development provided through the Learning Academy.

The Department outsources most non-front-line services. This means most development for non-front-line staff is undertaken by the contractor organisations to whom we outsource our services, and not by the Learning Academy. The Department's Commercial Services Division supplements development provided by contractor organisations with additional information and development on Department procedures.

The Learning Academy does not hold central records on development provided by contractor organisations or Commercial Services Division.

The Learning Academy has allocated £4,000,000 for learning and development in 2005–06.

William Gibson

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will list the individuals and organisations consulted in helping her reach a decision on William Gibson's List 99 determination. [43403]

Ruth Kelly: Representatives from the following organisations were consulted in reaching a decision:

Borough of Sunderland
Durham Constabulary
National Identification Service, New Scotland Yard
St Joseph's school, Hebburn
Celsian Supply Agency
First Class Supply Agency
STC Consortium Ltd
National Probation Service
A consultant Forensic Psychiatrist

The Department does not release the names of individuals who supply information or evidence.

Written Answers to Questions

Wednesday 8 March 2006

DEPUTY PRIME MINISTER

Thames Gateway

Angela Watkinson: To ask the Deputy Prime Minister how many Government organisations are involved in the administration of the Thames Gateway regeneration scheme. [56650]

Yvette Cooper: The delivery and development of the Thames Gateway programme is lead by the Office of the Deputy Prime Minister and its agencies in partnership with other Government Departments including Department of Health, Department for Transport, Department for Environment, Food and Rural Affairs and Department for Education and Skills.

Sarah Teather: To ask the Deputy Prime Minister if he will list local planning authorities in the Thames Gateway which have in place an urban capacity study which meets his Department's standards. [54612]

Yvette Cooper: The Secretary of State, my right. hon. Friend the Deputy Prime Minister does not keep records of local planning authorities which have undertaken urban capacity studies.

"Planning Policy Guidance Note No 3: Housing", requires regional planning bodies to coordinate the programme of capacity studies undertaken by local authorities in their area and maintain consistency of approach in terms of the methodology used.

Local Government Finance

12. **Paddy Tipping:** To ask the Deputy Prime Minister what proportion of local government expenditure was *(a)* raised locally and *(b)* provided by grants in the 2005–06 financial year. [56653]

Mr. Woolas: Some 25 per cent. of local government revenue expenditure in England in 2005–06 is estimated to be financed from council tax and 74 per cent. from Government grants.

The data are as reported by local authorities on their Revenue Account Budget returns.

District/County Councils

13. **Mr. Francois:** To ask the Deputy Prime Minister what recent meetings he has had with local authority chief executives on the potential abolition of district and county councils. [56654]

Mr. Woolas: The Office of the Deputy Prime Minister has a programme of meetings involving local authority chief executives and Members to hear their views and ideas about future governance arrangements for places. There have been two county dialogues to date, in Shropshire and Gloucestershire, and a Roundtable in the West Midlands for council leaders. Officials in the Office of the Deputy Prime Minister have also held six meetings with council chief executives.

Housing (Northamptonshire)

14. **Mr. Hollobone:** To ask the Deputy Prime Minister what uses his Department proposes to make of the 2021 to 2031 housing projections for North Northamptonshire contained in the Milton Keynes and South Midlands sub-regional spatial

Yvette Cooper: The Milton Keynes and South Midlands sub-regional strategy contains a provisional planning assumption about levels of housing growth in the towns of Corby, Kettering and Wellingborough for the period 2021 to 2031. These figures will be reassessed through future reviews of the regional spatial strategy.

Environmentally Sustainable Housing

15. **Simon Hughes:** To ask the Deputy Prime Minister what steps he is taking to ensure that all new homes are environmentally sustainable. [56656]

Yvette Cooper: The Government are committed to building environmentally sustainable housing. From this April building regulations are being strengthened to deliver a 40 per cent. increase in energy efficiency compared to 2002. This is part of a wide range of measures to improve the environmental sustainability of new homes.

Council Tax

Mr. Betts: To ask the Deputy Prime Minister what level of earnings a single person can have before they start paying council tax if they are *(a)* under 25 years and *(b)* over 25 years; and if he will make a statement. [56891]

Mr. Woolas: Council tax does not take account of earnings. However, entitlement to council tax benefit is based on a number of factors including income, capital and number of persons per household. Also, some properties may be exempt from council tax, for example if they are occupied solely by students or people under the age of 18.

Departmental Staff

Angus Robertson: To ask the Deputy Prime Minister how many staff work in the Local Government and Fire Group; how many are based in (i) London and (ii) each region and nation of the UK; how much was spent on their salaries in the last year for which figures are available, broken down by area; and what estimate he has made of the administration costs associated with the group. [50030]

Jim Fitzpatrick: As at 31 December 2005 the Office of the Deputy Prime Minister had 550,72 staff on full-time equivalent (FTE) basis working in the Local Government and Fire Group, of which 463.97 (FTE) staff were based in London and 86.75 (FTE) staff elsewhere.

The total salary costs for the 2004–05 financial year was £23.762 million and total administration costs was £29.825 million.

The Office of the Deputy Prime Minister does not monitor regional or central London administration costs separately.

The figures above refer to England only.

Angus Robertson: To ask the Deputy Prime Minister how many staff work in the Corporate Strategy and Resources Group; how many are based in (i) London and (ii) each region and nation of the UK; how much was spent on their salaries in the last year for which figures are available, broken down by area; and what estimate he has made of the administration costs associated with the Group. [50031]

Jim Fitzpatrick: The Corporate Strategy and Resources Group brings together strategy and the resources to deliver it. The group includes strategy and performance unit, provides analytical services to the rest of the Department and delivers key corporate junctions including finance, HR, workplace services, IT, procurement, business systems, corporate change and information management.

As at 31 December 2005 the Office of the Deputy Prime Minister had 652.8 staff on full-time equivalent (FTE) basis working in the Corporate Strategy and Resources Group, of these 494.99 (FTE) staff were based in London and 157.81 (FTE) staff elsewhere.

The total salary costs for the 2004–05 financial year was £23.624 million and total administration costs was £26.626 million.

The Office of the Deputy Prime Minister does not monitor regional or central London administration costs separately.

The figures above refer to England only.

Infrastructure Funding (Milton Keynes)

Mr. Lancaster: To ask the Deputy Prime Minister by what medium the press notice issued on 16 February 2006 by his Department regarding funding for infrastructure projects in Milton Keynes was distributed to *(a)* the hon. Member for North-East Milton Keynes, *(b)* the hon. Member for Milton Keynes, South-West and *(c)* the press. [56739]

Jim Fitzpatrick *[holding answer 7 March 2006]:* The press notice was issued on the 16 February on the Office of the Deputy Prime Minister's website, electronically through the Central Office of Information and hard copies were sent to the House of Commons Lobby.

Correspondence

Sarah Teather: To ask the Deputy Prime Minister when he will reply to the letter sent to him by the hon. Member for Brent East, dated 2 December 2005, regarding Mr. Brian Barker. [54693]

Mr. Woolas: I replied to the hon. Member on 1 March.

National Interest Mapping Service Agreement

Mr. Arbuthnot: To ask the Deputy Prime Minister what *(a)* discussions he has had with and *(b)* guidance he has given to Ordnance Survey on the exclusion of mapping products and services that have been wholly or partly funded via the National Interest Mapping Service Agreement from bids for the Pan Government Agreement; and if he will make a statement. [56955]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has not discussed this with Ordnance Survey, nor provided guidance to Ordnance Survey on these matters.

New Deal for Communities

Mr. Davey: To ask the Deputy Prime Minister how much was spent on education and training within the New Deal for Communities programme on *(a)* pre-16-year-olds, *(b)* 16 to 19-year-olds and *(c)* 19 years plus in (i) 2004–05 and (ii) 2005–06; and how much is planned to be spent in (A) 2006–07 and (B) 2007–08. [54843]

Mr. Woolas: New Deal for Communities (NDC) expenditure information on education and training is not held centrally for the age categories required in the question. In order to avoid over-bureaucratic dictates.

Total NDC education spending in 2004–05 was £25.2 million (9.5 per cent. of total spend), and for 2005–06 the forecast figure is £27.4 million (10 per cent.). Forecast education spend for future years is not available centrally.

Northern Way Strategy

Mr. Pickles: To ask the Deputy Prime Minister pursuant to the answer of 13 February 2006, *Official Report*, column 1627W, on the Northern Way Strategy, whether *(a)* Ministers and *(b)* Government Offices for the Regions have responsibility for (i) approving and (ii) signing off the Northern Way Strategy. [54525]

Yvette Cooper: The Northern Way arose as a response to a challenge from the Deputy Prime Minister to the three northern Regional Development Agencies to show how the North could use its assets to allow it to become more prosperous, more competitive and more dynamic.

It is an independent initiative directed by the Northern Way Steering Group and being taken forward by the three Regional Development Agencies. The Northern Way's First Growth Strategy Report, published September 2004, was produced by the Steering Group, which contains Government representatives in its membership. The Steering Group is responsible for the approval and sign off of their strategy, though Ministers continue to follow the progress of the Northern Way closely.

Press Complaints Commission

Mr. Pickles: To ask the Deputy Prime Minister pursuant to the answer of 8 February 2006, *Official Report*, column 1247W, to the hon. Member for Pendle, on the Press Complaints Commission, what the substance was of the complaint in each case; and what the outcome was in each case. [54533]

Jim Fitzpatrick: A complaint against the *Sunday Express* was adjudicated by the Press Complaints Commission in September 2004. A complaint against *The Sun* was resolved in August 2005. Details are already in the public domain and are available to the hon. Member on the PCC website.

Respect Agenda

Mr. Pickles: To ask the Deputy Prime Minister how he is contributing to the Respect agenda. [49819]

Mr. Woolas: The Office of the Deputy Prime Minister is making a very significant contribution to the Respect agenda through the £39 billion Sustainable Communities Plan. The ODPM is in particular making key contributions on the specific themes of housing, family support and working to make neighbourhoods cleaner, safer and greener.

For example:

ODPM, along with the Respect Task Force and Department for Education and Skills (DfES), are key players in a cross departmental initiative aimed at establishing family support projects in up to 50 areas during 2006–07. This will help prevent and reduce homelessness. The projects will be delivered through the Local Area Agreement (LAA) framework.

ODPM is co-funding the Safer and Stronger Communities Fund which will contribute to reduced crime, reducing the harm caused by illegal drugs, addressing antisocial behaviour, empowering communities and improving the condition of streets and public spaces in disadvantaged areas. And the successful Neighbourhood Managers and Wardens programmes will be rolled out more widely.

We have allocated £1.5 billion over 2005–08 to the 86 most deprived local authority areas in England. Local Strategic Partnerships use these funds alongside their main programmes—usually concentrating on crime and antisocial behaviour, educational underachievement, worklessness, housing/environment and health issues—to improve public services and aid long term regeneration.

Our proposed Neighbourhood Charters will provide formal, agreed, identification of the rights, duties and responsibilities between citizens, public services and others at a local, neighbourhood, level.

The Supporting People programme will contribute to the Respect agenda by providing housing related support to vulnerable people and helping them improve their quality of life through the provision of a stable environment.

We are also developing a "Respect Standard" for housing management which will set out the core elements of a good service. We are also working to strengthen the links between enforcement tools and support packages to address the underlying causes of antisocial behaviour while simultaneously acting on the needs of the community.

Thames Gateway

Sarah Teather: To ask the Deputy Prime Minister whether he expects master planning to be undertaken for all major developments in the Thames Gateway; and if he will make a statement. [54681]

Yvette Cooper: The Office of the Deputy Prime Minister would normally expect masterplans to be compiled for all major development locations in the Thames Gateway, for example London Riverside and Ebbsfleet.

Masterplanning has already been undertaken for several areas of the Thames Gateway including Greenwich Peninsula, Stratford and the Lower Lea and Canning Town.

Sarah Teather: To ask the Deputy Prime Minister how many additional new jobs have been created in the five strategic planning locations in the Thames Gateway since July 2003. [54687]

Yvette Cooper: The information requested is not currently held centrally. A monitoring and evaluation strategy is being formulated and the Office of the Deputy Prime Minister plans to publish a baseline report in the summer.

Sarah Teather: To ask the Deputy Prime Minister if he will publish a regular report of progress towards the aspirations and commitments set out in his strategy "Creating sustainable communities: Delivering the Thames Gateway". [54691]

Yvette Cooper: "Creating sustainable communities: Delivering the Thames Gateway", published in March 2005, set out progress to date and outlined the Government's plans for the future development of the Thames Gateway.

Later this year, the Office of the Deputy Prime Minister will publish a Strategic Framework for the Gateway, which will cover latest progress and form the basis of a delivery plan for the future.

PRIME MINISTER

Iraq

Jeremy Corbyn: To ask the Prime Minister when he expects British troops to leave Iraq. [56640]

The Prime Minister: I refer my hon. Friend to the answer given by my right hon. Friend the Secretary of State for Defence to the hon. Member for Berwickshire, Roxburgh and Selkirk (Mr. Moore) on 28 February 2006, *Official Report*, column 619W.

Parliamentary Questions

Lynne Jones: To ask the Prime Minister when he will reply to question 54463 tabled by the hon. Member for Birmingham, Selly Oak, on 16 February 2006 on Guantanamo Bay. [57294]

The Prime Minister: I replied to my hon. Friend on 6 March 2006, *Official Report*, column 1076W.

CHURCH COMMISSIONERS

Ethical Investments

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners if he will make a statement on the policy on Israel of the Ethical Investment Advisory Group of the Church of England. [56241]

Sir Stuart Bell: The Church does not have a blanket policy on investment in Israel. The Commissioners are advised by the Church of England's Ethical Investment Advisory Group. The recent resolution of the General Synod was to review investments in certain companies involved in the Middle East. General Synod however has not resolved to disinvest and the Synod's resolution does not alter the fact that the Church Commissioners have legal responsibility conferred by Parliament to make their own investment decisions.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Badgers

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to ensure that badgers *(a)* killed as part of a cull and *(b)* otherwise found dead are disposed of in a way which does not represent a potential notifiable disease hazard. [53448]

Margaret Beckett *[holding answer 27 February 2006]:* We are currently consulting on both the principle and method of a badger culling policy, including what methods of disposal would be suitable to minimise risk of disease transmission, assist in monitoring a cull of badgers and be practical. Decisions on whether to introduce a culling policy and, if so, how to implement it will be taken only once the consultation period has ended.

It is unlikely that it would be possible to tell whether a badger otherwise found dead was infected with bovine TB. The presence of the bovine TB causative organism (M. bovis) is established by post-mortem examination and the bacteriological culture of samples.

The EU Animal By-Products Regulation requires that wild animals suspected of being infected with diseases communicable to humans and animals, such as bovine TB, are disposed of at an approved plant using one of the following methods:

(1) incineration;

(2) rendering followed by incineration; or

(3) pressure rendering followed by landfill.

Information on the disposal of animal carcasses is available on the Defra website, at http://www.defra.gov.uk/animalh/by-prods/default.htm, and from local Defra animal health offices.

Carcase Disposal

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effects of the ban on burning carcases; and if she will make a statement. [55652]

Mr. Bradshaw *[holding answer 3 March 2006]:* The EU Animal By Products Regulation (EC) No. 1774/2002 prohibits the 'open burning' of animal carcases. It is there to protect public and animal health from any potential risks associated with the burning of fallen stock.

A number of disposal routes for fallen stock are permitted by the regulation including rendering, incineration or sending the carcasses to a knackers yard or hunt kennel. The National Fallen Stock Scheme, aimed at reducing the cost to farmers of disposing of their fallen stock, was launched in November 2004.

Clean Neighbourhoods and Environment Act

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what the expected commencement date is for sections 69 to 76 of the Clean Neighbourhoods and Environment Act 2005, on alarm notification areas. [56222]

Mr. Bradshaw: The sections on alarm notification areas under Part 7 of the Clean Neighbourhoods and Environment Act 2005 will be commenced on 6 April 2006.

Coast Protection Act

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the operation of the Coast Protection Act 1949. [55862]

Mr. Morley: Defra has policy responsibility for flood and coastal erosion risk management in England and provides most of the Government funding for managing that risk. Flood and coastal defence operating authorities (the Environment Agency, local authorities and internal drainage boards) are Defra's delivery partners. Operating authorities have "permissive powers" which means that while they may undertake flood and coastal erosion risk measures, they are not generally obliged to do so.

Coast Protection authorities (district or unitary councils) have permissive powers to carry out works to manage the risk of coastal erosion or encroachment by the sea under the Coast Protection Act 1949. Subject to conditions determined by the Treasury, Defra may make grants towards any expenditure. To satisfy conditions, proposals must satisfy essential technical, economic and environmental criteria and achieve a relevant priority.

The Act also includes provisions for the safety of navigation. Sections 34 and 35 refer to consents to undertake a broad range of marine works in the sea around the coasts of England and Wales. Defra is responsible for administering these provisions on behalf of the Secretary of State. Defra expects to make proposals for improving the regime for regulating works at sea, of which these controls are a component, in a Marine Bill to be introduced later in this Parliament.

Common Agricultural Policy

Mrs. Villiers: To ask the Secretary of State for Environment, Food and Rural Affairs what baseline figures she is using for assessing progress on her Department's targets to *(a)* deliver step-change improvements to the way common agricultural policy schemes are administered, *(b)* rationalise delivery programmes, *(c)* implement the Modernising Rural Delivery plan, *(d)* implement the England Rural Development ICT programme, *(e)* implement the EA Efficiency programme, *(f)* generate efficiencies in flood defence provision in the Environment Agency, *(g)* place a greater emphasis on the provision of online services in the Environment Agency, *(h)* make back-office improvements at the Environment Agency, *(i)* streamline policy-making, *(j)* rationalise back-office functions in her Department, *(k)* improve procurement and *(l)* work with local authorities to deliver efficiency gains on waste services; what progress has been made towards these targets to date; and what the total efficiency savings achieved to date are for these targets. [52928]

Jim Knight: The response is set out in the following table. Baseline figures are provided at programme level where available, although these are mostly held in detail at project level with efficiencies reported through local governance processes. Stated efficiency savings are as reported to OGC in January 2006, at which time quarter 3 information from Executive agencies and non departmental public bodies had yet to be approved by their management boards.

Programme	*Quarter*	*Efficiency savings delivery by end*	*Baseline*	*Target efficiency saving SR04*	*Efficiency savings reported*
Total for DEFRA Efficiency Programme					
£ million	2	2005–06	3,416	610	141
Headcount (FTE[1])	3	2005–06	13,650	2,400	1,016
(a) Deliver step-change improvements to the way common agricultural policy schemes are administered					
£ million	2	2005–06	157,230	32	0
Headcount (FTE[1])	3	2005–06	3,953	1,400	876
(b) Rationalise delivery programmes	[2]—	[2]—	[2]—	[2]—	[2]—
(c) Implement the Modernising Rural Delivery Plan

[1] Full-time equivalent.
[2] No other delivery programmes within DEFRA efficiency portfolio.
[3] 2004–05 resource figures set out in DEFRA's Annual Report 2005 for Natural Resources and Rural Affairs (NRRA) Directorate General, and the Rural Development Service (RDS); and in the 2004–05 corporate plans of the Countryside Agency and English Nature.
[4] Productivity savings measured annually against a calculation of time taken to process number of applications received using previous methods.
[5] Staff complement in 2005–06 RAE.
[6] 2004–05 expenditure.
[7] Determined in detail at project level.
[8] Plus 6.5 non-sustainable in 2004–05.
[9] Defined by local authorities previous year spend. Data reported on Annual Efficiency Statements.

Countryside Stewardship Scheme

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many miles of permissible bridleways exist under the Countryside Stewardship Scheme; how she expects this figure to alter by the end of the scheme; and if she will make a statement. [56514]

Jim Knight: Presently, there are just under 1,100 miles of permissive bridleways in existence under the Countryside Stewardship Scheme (CSS). The CSS closed to new applications in March 2004; therefore the number of bridleways under CSS should not increase in the future.

It is too early to obtain meaningful data on the uptake of bridleways under the new Environmental Stewardship scheme, as the first Higher Level Stewardship agreements have only recently started.

Fly-tipping

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs how many

(a) incidents of fly-tipping were reported and *(b)* prosecutions were made following such incidents in (i) Cambridgeshire and (ii) Peterborough constituency in each year since 1997; and if she will make a statement. [55589]

Mr. Bradshaw: Defra has worked with the Environment Agency to establish a national database on fly-tipping (Flycapture) which has been operational since April 2004. No national data were previously available on illegal waste disposal or fly-tipping. Flycapture collects data at local authority level only.

It is important to note that the data are probably an underestimate and will increase as authorities get better at collecting and reporting the data.

Peterborough city council reported 3,515 incidents of fly-tipping between April 2004 and March 2005 (average of 293 per month) and 5,828 between April 2005 and January 2006 (average 583 per month). During the same time periods all Cambridgeshire authorities reported 8,037 (average of 690 per month) and 9,883 (average of 988 per month) respectively.

No prosecutions have been reported to Flycapture.

	April 2004 to March 2005			*April 2005 to January 2006*		
Authority	*Returns made*	*Number of incidents*	*Monthly average*	*Returns made*	*Number of incidents*	*Monthly average*

Cambridgeshire total	—	8,037	690	—	9,883	988.3

GM Crops

Dr. Strang: To ask the Secretary of State for Environment, Food and Rural Affairs which institution carried out each piece of research commissioned by her Department into the effectiveness and reliability of varietal genetic use restriction technologies (V-GURTS); what the expected duration of the work was in each case; and if she will place a copy of the report of each project in the Library. [56443]

Mr. Morley: My Department has not commissioned research specifically on this issue. Reading university was however asked to undertake a desk study to review and assess effective current and practical, as well as timely and potentially viable, technologies aimed at reducing the dispersal of transgenes into the environment from GM and non-GM crops. The study was undertaken from June to November 2005 and aimed to review all aspects of technologies for biological containment of GM and non-GM crop plants, including evaluation of industrial research effort in this area. The report is currently being peer-reviewed and will be published on Defra's website. I shall place a copy in the Library when it is published.

Night Noise Levels

Mr. Spellar: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department is taking to reduce noise levels at night. [54786]

Mr. Bradshaw: The Clean Neighbourhoods and Environment Act 2005 extends the night noise provisions in the Noise Act 1996 to licensed premises. Local authorities will be able to fine those responsible for excess noise from licensed premises between 11 pm and 7 am. Those found responsible for exceeding the permitted level of noise will be liable to a fine of up to £5,000 upon summary conviction. A local authority will be able to offer the responsible person the option to discharge liability to conviction with the payment of a fixed penalty notice of £500 within 14 days. It is planned to bring these provisions into force in the autumn. They will complement the power to close licensed premises on noise grounds introduced by the Anti-social Behaviour Act 2003.

The Clean Neighbourhoods and Environment Act 2005 also gives local authorities new powers to designate alarm notification areas in which it will be a requirement for those with intruder alarms to register key-holder details with the local authority. Local authorities will be able to contact key-holders in the event that an alarm sounding for 20 minutes continuously or one hour intermittently causes annoyance to those in the vicinity. Local authorities will also be able to enter premises without force, where possible, to deactivate an alarm, and to obtain a warrant to force entry where this is not possible. Silencing misfiring intruder alarms as quickly as possible is particularly important at night. These new powers, which will be commenced in April, are additional to the existing statutory nuisance powers under Part III of the Environmental Protection Act 1990.

The Government is also taking steps to reduce environmental noise at night. The Department for Transport has responsibility for controlling aircraft noise at night at Heathrow, Gatwick and Stansted Airports. Restrictions, comprising a movements limit and supplementary noise controls, are set on a seasonal basis for a 5–6 year period. The Department has recently consulted on a night restrictions regime to apply from October 2006 at Heathrow, Gatwick and Stansted.

At regional airports noise restrictions are set by the Airport Operator, in accordance with any planning conditions which may apply.

Planning Guidance PG5/2 (04)

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what representations her Department has received from industry bodies on PG5/2(04) in the last three years; and if she will place copies in the Library. [56221]

Mr. Bradshaw: The Department has been in regular dialogue with organisations representing the cremation sector throughout the last three years concerning regulation of air pollution from crematoria and PG5/2(04). This has included meetings, telephone discussions, and many exchanges of correspondence with representatives of the National Federation of Cremation Authorities, Institute of Cemetery and Cremation Management, National Association of Funeral Directors, and the Cremation Society. A particular focus of the dialogue has been action to reduce mercury emissions from crematoria. We issued two consultation papers on this subject which can be found at http://www.defra.gov.uk/corporate/consult/crematoria-two/index.htm and http://www.defra.gov.uk/corporate/consult/crematoria/index.htm

I am placing a copy of the representations received in response to the consultation undertaken by the Department as part of finalising statutory guidance note PG5/2(04). The responses to the two consultation papers can be found at the above-mentioned web addresses.

Rats

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 30 June 2005, *Official Report*, column 1644W, on rats, if she will place in the Library a copy of the relevant section of the English house condition survey. [55928]

Jim Knight: Copies of both the 1996 and 2001 English House Condition Surveys are already available on the ODPM website at: http://www.odpm.gov.uk/index.asp?id=1155278

Recycling

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs what the national targets are for recycling *(a)* household waste and *(b)* corporate waste over the next five years. [53844]

Mr. Bradshaw: In Waste Strategy 2000, published in May of that year, the Government set national targets to recycle or compost:

25 per cent. of household waste by 2005

30 per cent. of household waste by 2010

33 per cent. of household waste by 2015.

There are currently no national recycling targets for corporate waste. Waste Strategy 2000 was reviewed in 2005 and a report published on 14 February 2006. This report forms the basis of a public consultation document and following that consultation a revised strategy is due to be published late in 2006; this may include recycling targets for corporate waste.

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to encourage recycling. [53845]

Mr. Bradshaw: In addition to setting national targets to recycle household waste, all local authorities in England have been set statutory recycling targets Waste disposal authorities have also been set landfill diversion targets for biodegradable municipal waste which will drive them to maximise the recycling of this material.

The Household Waste Recycling Act 2003 requires waste collection authorities to provide separate collection of at least two recyclates to all households receiving a general waste collection by 2010.

Funding for establishing recycling infrastructure has been provided, initially through the Waste Minimisation and Recycling Fund (£294 million) and now the Waste Performance and Efficiency Grant (£260 million).

Having established markets for recycled materials the Waste and Resources Action Programme (WRAP) now has additional roles in encouraging recycling. Since 2002,1ocal authorities have been provided targeted support and advice and it has established the Recycling and Organics Technical Advisory Team to spread best practice on recyclate collection methodologies.

This is the third year of WRAP's £30 million three-year waste awareness raising programme; this included a national campaign and advertising local authority initiatives. Work continues on WRAP's £1.45 million research project with Tesco, Sainsbury and local authorities to pilot upgraded supermarket bring banks and undertake an evaluation of their impact on householder behaviour and recycling rates.

The Producer Responsibility Obligations (Packaging Waste) Regulations 1997 (as amended) oblige businesses in the packaging chain to recycle a specified amount of packaging waste.

A voluntary agreement is being negotiated with the construction and demolition industries to raise their use of recycled materials and the amount of construction material they recycle. Voluntary agreements are in place with the Newspaper Publishers Association that will increase the recycled content of newsprint to 70 per cent. in 2006. The Government are negotiating a similar agreement with the Periodical Publishers Association to increase the recycling of magazines.

To help improve the economics of recycling as well as better reflect the true environmental impact of landfill, the Government have committed to an annual increase on landfill tax of at least £3/t until it reaches £35/t.

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the proportion of landfill waste which was recyclable in each of the past five years. [53846]

Mr. Bradshaw: Below are estimates for the recyclable proportion of municipal waste sent to landfill in England in the past five years:

Percentage

	Proportion of municipal waste landfilled that is recyclable
2000–01	71
2001–02	71
2002–03	70
2003–04	69
2004–05	[1]68

[1] Estimate based on household waste management figures.

These estimates assume that about 75 per cent. of all municipal waste could reasonably be recycled, with the best infrastructure and schemes in place, and total

participation in those schemes. This figure of 75 per cent. is derived from compositional studies of our waste, and is supported by best practice in Europe. These figures cover municipal waste only, and work to assess the recyclable proportion of other waste streams is currently in progress through the Department's research programme.

Street Cleaning

Mr. Holloway: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance her Department makes available to local authorities with regard to street cleaning. [54954]

Mr. Bradshaw: This Department has developed several forms of guidance to local authorities in relation to street cleansing services. Guidance covering sections of the Environmental Protection Act 1990, as amended by the Clean Neighbourhoods and Environment Act, relating to street cleaning will be issued to all local authorities in March of this year. A revised Code of Practice for Litter and Refuse will be issued at the same time. Defra produced a document titled 'Achieving improvements in street cleansing and related services', which was sent to all local authorities in November 2005. Further practical guidance on street cleaning services and enforcement will be available through an updated and enlarged 'Knowledge Bank' CD which has been developed in partnership with EnCams, the environmental charity. This will be available from April this year.

Further information and guidance is available at www.defra.gov.uk/environment/localenv/index.htm

Supermarkets (Packaging)

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to introduce legislation *(a)* limiting the amount of packaging that can be used for products sold in supermarkets and *(b)* to require supermarkets to use easily recyclable packaging. [56119]

Mr. Bradshaw: We have no plans to introduce further legislation on packaging.

There are two sets of Regulations which cover packaging in the UK and which encourage businesses (including supermarkets) to minimise packaging and to manufacture packaging which can be recycled.

The Packaging (Essential Requirements) Regulations 2003 (as amended) include a requirement that packaging should be manufactured so that the volume and weight are limited to the minimum adequate to maintain the necessary level of safety, hygiene and acceptance for the packed product and for the consumer. These Regulations also require that

> "packaging . . . be designed, produced and commercialised . . . to permit its . . . recovery, including recycling, and to minimise its impact on the environment . . . ".

The Producer Responsibility Obligations (Packaging Waste) Regulations 2005 are intended to increase the recovery and recycling of packaging waste. Because the amount of packaging waste recycling businesses have to do is determined, in part, by the amount of packaging they handle, they can cut costs if they reduce the packaging used around their products.

Legislation is one way of reducing packaging, but consumers have a part to play. For example, if consumers made a point of choosing goods that are not heavily packaged, or bought 'loose' food rather than pre-packaged, or used their own shopping bags or boxes, manufacturers might be encouraged to reduce the quantity of packaging on their products.

Thames Gateway

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the estimated level of waste in the Thames Gateway is for *(a)* 2006, *(b)* 2010, *(c)* 2015, *(d)* 2020 and *(e)* 2025; what the estimated available capacity is for each year; and if she will make a statement; [54688]

(2) what estimate the Government have made of the likely additional waste arising from population expansion and building programmes in the Thames Gateway. [54698]

Mr. Bradshaw: Estimates of the type sought are not normally made or held by Government. National policy set out in Planning Policy Statement 10 "Planning for Sustainable Waste Management" expects regional planning bodies to prepare regional spatial strategies which aim to provide sufficient opportunities to meet the identified needs of their areas for waste management for all waste streams. In turn, planning authorities are expected to prepare local development documents that reflect their contribution to delivering the regional spatial strategy. At the regional level, regional technical advisory bodies support the work of regional planning bodies and have a key role in assembling data and information on waste including from the Environment Agency.

The ODPM published in December 2005 a sustainability study that assessed across England the environmental, social and economic impacts of additional housing growth scenarios developed in response to the findings of the Barker Review. This study considered the implications for waste management but did not focus down to specific growth areas.

Water Leakage Rates

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what the leakage rates were for each water company in the latest period for which figures are available. [56254]

Mr. Morley: The Director General of Water Services publishes leakage figures annually in the "Security of supply, leakage and the efficient use of water" reports. Total water company leakage for 2004–05, in megalitres per day, was reported as follows:

	Megalitres per day
Anglian	214
Bournemouth and W. Hants	22
Bristol	53
Cambridge	14
Dee Valley	11

	Megalitres per day
Dwr Cymru	226
Folkestone and Dover	8
Mid Kent	29
Northumbrian North	155
Northumbrian South	67
Portsmouth	30
Severn Trent	502
South East	69
South Staffordshire	74
South West	83
Southern	92
Sutton and East Surrey	24
Tendring Hundred	5
Thames	915
Three Valleys	149
United Utilities	500
Wessex	73
Yorkshire	293

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what change there has been in each water company's leakage rate in the last five years. [56255]

Mr. Morley: The Director General of Water Services publishes leakage figures annually in the "Security of supply, leakage and the efficient use of water" reports. Total water company leakage for 2000–01 and 2004–05 and the difference in these figures, in megalitres per day, was reported as follows:

Megalitres per day

	2000–01	2004–05	Change
Anglian[1]	194	214	+20
Bournemouth and W. Hants	23	22	-1
Bristol	55	53	-2
Cambridge	13	14	+1
Dee Valley	12	11	-1
Dwr Cymru	260	226	-34
Folkestone and Dover	9	8	-1
Mid Kent	29	29	0
Northumbrian North	164	155	-9
Northumbrian South	72	67	-5
Portsmouth	30	30	0
Severn Trent[2]	340	502	+162
South East	85	69	-16
South Staffordshire	72	74	+2
South West	84	83	-1
Southern	92	92	0
Sutton and East Surrey	24	24	0
Tendring Hundred	6	5	-1
Thames	688	915	+227
Three Valleys	140	149	+9
United Utilities	463	500	+37
Wessex	84	73	-11
Yorkshire	304	293	-11

[1] In 2003–04, Anglian Water calculated leakage using 2001 census population data for the first time. If the 2000–01 leakage figure was calculated using the same population data as used from 2003–04, leakage would follow a stable trend.

[2] In spring 2003 Severn Trent Water revised its water balance data. The company attributed most of the increase in leakage to methodological changes.

Water Purification

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what research her Department has commissioned into methods of purifying water; and what conclusions she has drawn from the research. [56124]

Mr. Morley: The most relevant area of publicly funded research is the Drinking Water Quality and Health Research programme, managed by the Drinking Water Inspectorate. Such research can provide credible and authoritative information and help to ensure that regulations and standards for water quality provide adequate safeguards. Much of this programme touches upon issues related to water purification and summaries of all the reports can be found on the Foundation for Water Research website at www.fwr.org.

Treatment of the public water supply is an issue for the water companies themselves, although the Research Councils and the European Union's Framework research programmes contribute significant funding to the development of new technologies. Consequently, Defra does not normally fund research into water treatment technologies for drinking water, unless the research is needed to inform new regulations, or where there may be a perceived risk to health.

One example of research that includes methods of purifying water derived from private sources, is the production of the "Manual on treatment for small water supplies systems". This was produced to help local authorities to discharge their statutory duties and functions relating to private water supplies.

Water Supply (Kent)

Derek Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of water *(a)* provision and *(b)* usage in Kent for 2006 to 2017; and if she will make a statement. [55105]

Mr. Morley *[holding answer 2 March 2006]:* Kent is supplied by a number of water companies: Mid Kent Water; Thames Water; Folkestone and Dover Water Services; South East Water, and Southern Water Services.

In common with the other water companies in England and Wales, these companies maintain 25 year water resource plans which seek to reconcile supply with anticipated demand. These water resource plans are produced voluntarily every five years at present but will become a statutory requirement under the provisions of the Water Act 2003.

Water System (New Housing)

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the new *(a)* reservoirs, *(b)* treatment plants and *(c)* sewerage systems that might be needed to accommodate proposals for new house building up to 2016. [55456]

Mr. Morley *[holding answer 6 March 2006]:* Water companies are already factoring new house building into their water resources plans, using projections from ODPM and local authorities. Ofwat has already assumed in its current price limits that almost 1 million new properties will be connected to the water and sewerage service by 2010.

To fulfil their duty to maintain adequate supplies of water, several water companies propose to enlarge existing reservoirs (three in total) or construct new ones (five in total). These proposals are set out in the 25 year water resources plans they prepared in 2004. The Environment Agency has advised Ministers about the appropriateness of these proposals and other measures to ensure security of supply in its report "Maintaining water supply", which was published in July 2004.

Planning for new sewerage systems should be carried out in close and transparent co-operation between planners and water and sewerage companies. The provision of water and sewerage services are key factors in ensuring the sustainability of new housing developments. New sewers are usually laid by developers or requisitioned from the water and sewerage companies.

TREASURY

Business Productivity (Coventry, South)

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what recent assessment he has made of the productivity of business in Coventry South. [56763]

John Healey: Official productivity statistics are published at the national level and Government Office level. Therefore data on the productivity performance of business in the Coventry, South constituency is not available.

At the regional level, the West Midlands has improved relative to the UK average. Between 1996 and 2004, the region enjoyed the fastest increase in productivity of all the regions relative to the UK average.

Data on the Coventry, South constituency shows that since 1997, claimant count unemployment has fallen by over 35 per cent. long-term unemployment has fallen by 92 per cent. and long term youth unemployment has fallen by over 66 per cent. Available statistics on employment show that employment has risen by over 25 per cent. since 1999 in the Coventry, South constituency.

Departmental Contracts

Mr. Laws: To ask the Chancellor of the Exchequer how many members of staff employed by his Department are on temporary contracts. [56947]

John Healey: HM Treasury currently has 18 staff on temporary contracts. These staff are engaged from Agencies to fill short-term gaps in cases of sickness or unplanned leave taken by permanent staff.

Life Expectancy

David Simpson: To ask the Chancellor of the Exchequer what the average life expectancy is for people in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland. [56418]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 8 March 2006:

The National Statistician has been asked to reply to your question regarding the average life expectancy for people in *(a)* England; *(b)* Scotland; *(c)* Wales and *(d)* Northern Ireland. I am replying in her absence. (56418)

The table shows life expectancies at birth for males and females for the four countries requested. These are 'period' expectation of life figures, which are calculated from the mortality rates actually experienced in the years 2002 to 2004. They do not allow for possible changes in mortality in future years.

Period expectation of life at birth by country 2002–04

Years

	Males	*Females*
England	76.6	80.9
Scotland	73.8	79.1
Wales	76.0	80.4
Northern Ireland	75.8	80.6

Source:
Interim Life Tables 2002–04, http://www.gad.gov.uk/Life_Tables/Interim_life_tables.htm

'Cohort' life expectancy figures, which do allow for projected changes in mortality in later years, are available from the Government Actuary's Department's website at: http://www.gad.gov.uk/Life_Tables/Period_and_cohort_eol.htm

Office for National Statistics

Ms Abbott: To ask the Chancellor of the Exchequer (1) whether the relocation plans for the London site of the Office for National Statistics meet the requirements of the impact assessment conducted under the terms of the Race Relations (Amendment) Act 2000; [56507]

(2) what funds have been allocated by the Department for *(a)* redundancy, *(b)* relocation, *(c)* recruitment, *(d)* training and *(e)* travel costs in connection with the relocation of Office for National Statistics London-based staff; [56508]

(3) whether options to retain skilled London-based staff were considered when deciding on the relocation of staff from the Office for National Statistics; [56509]

(4) how much the Office for National Statistics has spent on modernisation in the last five years; and what assessment has been made of the impact of such modernisation; [56510]

(5) what estimate the Office for National Statistics has made of the number of people it requires to deliver key outcomes in *(a)* 2006 and *(b)* 2007; and at what (i) grades, (ii) salary and (iii) sites. [56511]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Dennis Roberts, dated 8 March 2006:

The National Statistician has been asked to respond to your recent Parliamentary Questions on the relocation and modernisation plans of the Office for National Statistics (ONS). I am replying in her absence (56507, 56508, 56509, 56510 and 56511).

(56507)—To ask the Chancellor of the Exchequer, whether the relocation plans for the London site of the Office for National Statistics meet the requirements of the impact assessment conducted under the terms of the Race Relations (Amendment) Act 2000.

ONS carried out a Race Equality Impact Assessment (REIA) on the proposed relocation prior to the final decision being taken. The Commission for Racial Equality (CRE) has confirmed that it welcomes the actions that have been taken by ONS with regard to

the General Statutory Duty under s.71(1) of the Race relations Act 1976, as amended, in respect of employees who will relocate to Newport and Titchfield. CRE has asked ONS to consider whether there need to be further specific measures in place to support ethnic minority staff who choose not to relocate. ONS is currently consulting its Trade Unions and Diversity Groups on these issues.

(56508)—To ask the Chancellor of the Exchequer, what funds have been allocated by the Department for (a) redundancy, (b) relocation, (c) recruitment, (d) training and (e) travel costs in relation to the relocation of Office for National Statistics London-based staff.

Appropriate funds are being held within ONS budgets for all of these purposes. These funds are not measured separately and are held within a number of operating budgets as part of the ONS spending baseline. However, ONS received agreement from the Chief Secretary to the Treasury to provide up to £5 million of extra funding in each of the next two years to match funding already provided for by ONS. This was mainly provided in recognition of the fact that ONS needed to reduce staff numbers quicker than could be achieved through natural wastage in order to deliver the efficiency savings we have identified.

(56509)—To ask the Chancellor of the Exchequer, whether options to retain skilled London-based staff were considered when deciding on the relocation of staff from the Office for National Statistics.

ONS aims to meet targets for relocation in a way that protects our ability to deliver our business and achieves cost savings in order to fund future work. We are providing assistance to staff who wish to relocate. Where staff choose not to relocate we are helping them to move into other skilled roles, often elsewhere within ONS or within Government. Where specific skills are key to the continuity of ONS business, we aim to retain those skills in London until such time as we can replace them on our Newport or Titchfield sites.

(56510)—To ask the Chancellor of the Exchequer, how much the Office for National Statistics has spent on modernisation in the last five years; and what assessment has been made of the impact of such modernisation.

ONS has spend £54.5 million on the Statistical and Technical Modernisation Programme begun three years ago. The Programme has delivered a working prototype for a new statistical database, re-engineered methods and business processes for key statistical systems, new standardised tools and software and a modernised IT infrastructure.

(56511)—To ask the Chancellor of the Exchequer, what estimate the Office for National Statistics has made of the number of people it requires to deliver key outcomes in (a) 2006 and (b) 2007; and at what (i) grades, (ii) salary and (iii) sites.

As indicated in our Departmental Report 2005, the planned number of full time equivalent persons to be employed by ONS in future years is:

1st April 2006—4310

1st April 2007—4000

1st April 2008—3610

Machinery of government changes, since publication of the Departmental Report 2005, are expected to result in some small upward revisions to these figures.

Estimated full time equivalent persons by site:

	1 April:	
Site	*2006*	*2007*
London	770	525–575
Newport	1,275	1,350–1,375
Titchfield	725	750–775
Southport	840	650–700
Field[1]	700	700

[1] Estimate.

All civil service and senior civil service grades will be represented at a range of salaries. Business areas are currently working out the detail in light of confirmed budget allocations and targets.

Population (Gloucestershire)

Mr. Drew: To ask the Chancellor of the Exchequer what the population of *(a)* each Gloucestershire district and *(b)* each ward in the Stroud district was according to (i) figures from the 2001 census, (ii) most recent electoral rolls and (iii) most recent figures for health services users; and what projections he has made for the next five years. [55426]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 8 March 2006:

The National Statistician has been asked to reply to your question regarding the population of *(a)* each Gloucestershire District and *(b)* each ward in the Stroud district according to (i) figures from the 2001 Census, (ii) most recent electoral rolls, and (iii) most recent figures for health service users; and what projections have been made for the next five years. I am replying in her absence. (55426)

The tables attached provide the information you have requested. Data for Gloucestershire Districts are shown in Table 1 and Table 2. Data for wards in Stroud district are shown in Table 3.

ONS publishes annual mid-year population estimates. The latest estimates are for mid-2004 and are given in Table 1. These mid-year population estimates are the best estimates of the resident population in an area. They are based on Census data taking into account ageing of the population and are adjusted for births, deaths, and net migration. Further information on the methodology can be found at: www.statistics.gov.uk/StatBase/Product.asp?vlnk=575.

Population projections for each district in Gloucestershire, for mid-2005 to mid-2011, are also given in Table 1. These projections are based on the mid-2003 population estimates and are the latest population projections available. They assume that trends in fertility, mortality and migration at the time of the mid-2003 population estimate will continue into the future.

Electoral rolls provide counts of the number of people registered to vote. Local/European electorate and Parliamentary electorate counts for districts in Gloucestershire can be found in Table 2. The 2004 figures are given for comparison with population estimates and the 2005 figures are the latest available data. It should be noted that the number of people eligible to vote is not the same as the resident population aged 18 and over. There are a number of reasons for this. For example not everyone who is usually resident is entitled to vote (foreign citizens from outside of the EU and Commonwealth, prisoners, etc. are not eligible), some people do not register to vote and people who have more than one address may register in more than one place.

Further, there is inevitably some double counting of the registered electorate as electoral registration officers vary in how quickly they remove people from the registers after they have moved away from an area or after they have died. These factors have a differential impact from area to area.

The number of people registered with a GP, living in each district in Gloucestershire, in July 2004, can also be found in Table 2. It should also be noted that patient register counts differ from estimates of the usually resident population for a number of reasons.

Patient registers include people who are in the country for at least three months, whereas population estimates are based on a usual residence definition requiring a stay of 12 months or more. The patient registers exclude individuals who are ineligible to be registered with a GP. People may be on a patient register after having left the country and not deregistered with their GP; similarly people may have moved to another area and not re-registered. Some patients may have more than one NHS number e.g. they may have been issued a temporary number for a short period. Again, these factors have a differential impact from place to place.

BEST COPY AVAILBLE

Ward data are shown in Table 3; the points set out above also apply to wards. However, there are some further points to note for wards.

The most recent population estimates for wards are for mid-2002. The closest available geography to current electoral wards, for which population estimates are available, is Census Area Statistics (CAS) wards. This geography was created for outputs from the 2001 Census and is based mainly on 2003 electoral wards. The CAS ward level population estimates have been published with the status of "experimental statistics". Therefore, the estimates, and figures derived from them, should be treated with some care. The margin of confidence for population estimates is proportionately larger at ward level than at local authority level.

The ONS does not produce projections of population at ward level.

Table 3 contains CAS ward electorate counts for December 2002 and 2004 as well as patient register figures for July 2002 and July 2004. The 2002 figures are given for comparison with population estimates and 2004 are the latest available data.

Finally, the local government electorate is definitionally closer to the population estimates; however these data are not available at ward level. Hence, the Parliamentary electorate is shown.

Table 1: Mid-2004 Population Estimates and mid-2005 to mid-2011 Population Projections (2003-based)

Thousand

	Population Estimate	*Population Projections*[1]					
	Mid-2004	*Mid-2005*	*Mid-2006*	*Mid-2007*	*Mid-2008*	*Mid-2009*	*Mid-2010*
Cheltenham	110.9	110.6	110.9	111.2	111.5	111.8	112.2
Cotswold	82.7	82.8	83.3	83.8	84.3	84.8	85.3
Forest of Dean	80.7	81.0	81.4	81.9	82.4	82.9	83.4
Gloucester	110.8	111.4	112.1	112.7	113.4	114.0	114.7
Stroud	109.5	109.9	110.5	111.0	111.6	112.1	112.7
Tewkesbury	78.2	78.9	79.6	80.2	80.8	81.4	82.0

[1] The population projections shown in this table are taken from the 2003-based subnational population projections, the latest set of projections currently available. Therefore they may not be consistent with the 2004 mid-year estimate presented in the first column.

Office for National Statistics

Research and Development

Mr. Holloway: To ask the Chancellor of the Exchequer what the level of nominal gross domestic expenditure on research and development was in each year since 1997 and how much of each sum was accounted for by *(a)* Government spending, *(b)* private spending and *(c)* overseas investment. [54739]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 8 March 2006:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the level of nominal gross domestic expenditure on research and development was in each year since 1997 and how much of each sum was accounted for by *(a)* Government spending, *(b)* private spending and *(c)* overseas investment. I am replying in her absence. (54739)

The attached table shows how research and development in the UK was funded, including from abroad and by EU programmes. Please note that the specified groups are made up of a number of sources as detailed. The period covered is 1997–2003; the 2004 data will be released 24th March.

Sector funding, Research and Development in the UK, 1997–2003

TRADE AND INDUSTRY

British Oil Consumption

Andrew Rosindell: To ask the Secretary of State for Trade and Industry what steps he is taking to reduce British oil consumption; and if he will make a statement. [56839]

Malcolm Wicks: As part of the Government's Climate Change Programme, various policies are in place to promote energy efficiency across the economy, including in the road transport sector where most oil is consumed. These include EU level voluntary agreements with car manufacturers on the fuel efficiency of new cars and company car tax rules. In addition, the Government recently announced the creation of the Renewable Transport Fuels Obligation (RTFO) to introduce renewable fuels into the transport system. The RTFO announcement said that, by 2010, oil companies would be obliged to ensure that 5 per cent. of the fuel that they sell is made from renewable bio-sources.

Gas/Electricity Suppliers

Mr. Lancaster: To ask the Secretary of State for Trade and Industry which companies in the UK are registered suppliers of *(a)* gas and *(b)* electricity. [54888]

Malcolm Wicks: A list of those companies holding electricity and/or gas supply licences can be found on the Ofgem website at the following links:

http://www.ofgem.gov.uk/temp/ofgem/cache/cmsattach/14111_external_gas_list.pdf

http://www.ofgem.gov.uk/temp/ofgem/cache/cmsattach/13892_extemal_electricity_list.pdf

National Institute for Medical Research

Mr. Clappison: To ask the Secretary of State for Trade and Industry (1) what assessment he has made of the impact of the relocation of the National Institute for Medical Research from Mill Hill to Euston on *(a)* the Institute's facilities for dealing with animals, *(b)* the Institute's ability to provide high level containment for dangerous pathogens and *(c)* the Institute's capability for dealing with the changing threats posed by emerging infections; [55854]

(2) what the original estimate was of the cost of moving the National Institute for Medical Research from Mill Hill to Euston; what the most recent estimate is of the cost of the relocation; and whether he plans to re-examine the question of relocation in the light of cost. [55855]

Barry Gardiner: The proposed move of the National Institute for Medical Research (NIMR) is a matter for the Medical Research Council (MRC). My noble Friend Lord Sainsbury of Turville has been briefed by MRC's Chief Executive, Professor Colin Blakemore, on MRC's plans for moving the National Institute for Medical Research (NIMR). I have asked Professor Blakemore to write to the hon. Member.

Post Office Card Account

Mr. Leech: To ask the Secretary of State for Trade and Industry what representations he has received from *(a)* Royal Mail, *(b)* Postwatch and *(c)* sub post offices in response to the Government's decision not to renew the Post Office Card Account contract after 2010. [56788]

Barry Gardiner: I have received representations from the National Federation of Sub-Postmasters.

Water Industry Act

Mr. Harper: To ask the Secretary of State for Trade and Industry if he will introduce legislation to amend the Water Industry Act 1991 to prevent water companies from charging surface water drainage charges to those who do not receive the service. [56046]

Mr. Morley: I have been asked to reply.

This subject is dealt with by guidance under the Water Industry Act 1991.

The Secretary of State has issued guidance that customers should broadly only pay for the services received directly by them and their property. The Office of Water Services (Ofwat) requires companies to provide rebates to customers who can demonstrate that they are not connected for surface water drainage.

In billing customers, the companies assume that they are connected for surface water drainage. Customers are usually better placed to identify where that is not the case and the onus is on them to do so.

Water Services

Mr. Harper: To ask the Secretary of State for Trade and Industry what his assessment is of the number of households that qualify for a rebate on their Surface Water Drainage Charge, but have not applied. [56047]

Mr. Morley: I have been asked to reply.

No assessment has been made of the number of households that may be eligible for a surface water drainage rebate, but have not applied.

The Government expect water companies to give surface water drainage rebates to qualifying customers whenever these are identified. However, companies do not have drainage records for every part of their area and some property owners and occupiers are unclear about how their properties are drained. It is up to customers to apply for a surface water drainage rebate.

TRANSPORT

A3

Sarah McCarthy-Fry: To ask the Secretary of State for Transport (1) what assessment he has made of the impact on the *(a)* environment, *(b)* economy and *(c)* regeneration of Portsmouth of not progressing the A3 Hindhead Improvement Scheme; [56717]

(2) what assessment he has made of the cost-benefit analysis of not proceeding with the A3 Hindhead Improvement Scheme; [56729]

(3) what assessment has been made of the impact on the number of accidents on the A3 at Hindhead if the A3 Hindhead Improvement Scheme is not progressed. [56787]

Dr. Ladyman: Evidence covering these matters was submitted to the Public Inquiry into the published scheme orders for the A3 Hindhead Improvement Scheme. It would not be appropriate to comment on the evidence submitted to the public inquiry while the inspector's report and recommendations remain under consideration.

Sarah McCarthy-Fry: To ask the Secretary of State for Transport what assessment he made of the south-east of England regional assembly's advice on the relative regional priority of the A3 Hindhead Improvement Scheme. [56728]

Dr. Ladyman: We are carefully reviewing the advice from the south-east region on its priorities for major transport schemes, including the proposed improvement of the A3 Hindhead scheme, and plan to announce our response later in the year.

Sarah McCarthy-Fry: To ask the Secretary of State for Transport what representations he has received *(a)* opposing and *(b)* supporting the approval of the A3 Hindhead Improvement Scheme; and what representations he has received on this matter from (i) individuals and (ii) organisations in Portsmouth North constituency. [56776]

Dr. Ladyman: Over 50 representations have been received between 1 January and 3 March 2006 which have been overwhelmingly in favour of the scheme. We have not analysed which constituency the representations have been made from.

Sarah McCarthy-Fry: To ask the Secretary of State for Transport what role the *(a)* South East England Development Agency, *(b)* South East England Regional

Assembly, *(c)* Highways Agency, *(d)* Environment Agency and *(e)* local councils will have in plans for the A3 Improvement Scheme at Hindhead. [56777]

Dr. Ladyman: These bodies explained their role at the Public Inquiry and presented evidence to the Inspector accordingly. In addition, the South East Region (which includes the South East England Regional Assembly, the South East England Development Agency and the Government Office South East working with a wide range of partners and stakeholders) has recently provided advice to Government on the timing and funding of the A3 Improvement Scheme at Hindhead as part of its overall advice on priorities for major transport schemes. The Environment Agency is one of four statutory environmental bodies which advise Government on the environmental impacts of road improvements. Improvement schemes which are approved for funding would be developed and delivered by the Highways Agency.

Sarah McCarthy-Fry: To ask the Secretary of State for Transport what advice the Department will take when considering the approval of the A3 Hindhead Improvement Scheme. [56778]

Dr. Ladyman: I am currently considering the Inspector's report and recommendations in relation to the published scheme orders for the A3 Hindhead Improvement Scheme. If new information that is relevant to the decision and that relates to a matter considered at the Public Inquiry comes to my attention, this will also be considered but all those involved in the Public Inquiry will be given the opportunity to make representations on that information. I have also recently received, and am carefully considering, the advice from the South East Region on the prioritisation of this scheme within the indicative funding allocation for major transport schemes in the South East.

Sarah McCarthy-Fry: To ask the Secretary of State for Transport when he expects to make the final decision on the affordability of the A3 Hindhead Improvement Scheme. [56779]

Dr. Ladyman: We are currently considering the Inspector's report into the A3 at Hindhead following the Public Inquiry which was held last year. We are also considering the advice from the South East Region on the priority it attaches to this scheme within the indicative funding allocation for major transport schemes in the South East. An announcement on the way forward will be made later in the year.

Sarah McCarthy-Fry: To ask the Secretary of State for Transport what the earliest date is on which pre-works could commence on the A3 Hindhead Improvement Scheme if approval is granted. [56786]

Dr. Ladyman: If approval for the A3 Hindhead scheme is granted in spring 2006 then the earliest date on which pre-works could commence would be around the end of the year. However, the actual date would depend on the availability of funds.

Air Passengers (Compensation)

Mr. Fallon: To ask the Secretary of State for Transport how many compensation payments have been made to UK air passengers under EU Regulation 261/2004 in each year since it was introduced. [56477]

Ms Buck *[holding answer 6 March 2006]:* The Air Transport Users Council collects data on the number of complaints it receives in connection with this regulation, but no central record is kept of the number of compensation payments made to UK air passengers, as these are generally dealt with directly between the airline and the passenger.

Mr. Fallon: To ask the Secretary of State for Transport if he will seek amendments to EU Regulation 261/2004 to improve the payment of compensation to air passengers. [56478]

Ms Buck *[holding answer 6 March 2006]:* The European Commission is due to review the operation of the regulation and report back to the European Parliament and Council by 1 January 2007. The Department for Transport, in concert with the Civil Aviation Authority, is monitoring the situation and will carefully consider any recommendations for change made in the Commission's review.

Alternative Fuels

Andrew Rosindell: To ask the Secretary of State for Transport how much was allocated to research into alternative fuel options in each of the last seven years. [56840]

Dr. Ladyman: In the last three years the Department's research expenditure on the environmental performance of alternative fuels was as follows: £274,566 in 2003–04, £15,583 in 2004–05 and £54,500 in 2005–06. Details of research expenditure in previous years broken down by subject are not readily available.

Aviation Safety

David Taylor: To ask the Secretary of State for Transport what representations he has received regarding a safety alert at Nottingham East Midlands airport on 4 February. [56732]

Ms Buck *[holding answer 7 March 2006]:* The Secretary of State has received one written representation dated 2 March regarding an alleged incident at East Midlands airport on 4 February, and has asked the Civil Aviation Authority to investigate as a matter of urgency.

David Taylor: To ask the Secretary of State for Transport when he last met representatives of the Civil Aviation Authority to discuss safety at *(a)* regional airports and *(b)* Nottingham East Midlands Airport. [56610]

Ms Buck *[holding answer 7 March 2006]:* The Secretary of State and the Chairman of the Civil Aviation Authority meet regularly, approximately every three months, to discuss matters of current interest, including any matters relevant to civil aviation safety. Officials within the Department have more frequent regular meetings with the Chairman and with the Authority's Group Director for Safety Regulation, and there is day-to-day contact as necessary on a range of safety matters. No significant safety issues regarding regional airports have been raised in these meetings or discussions.

Canvey Island

Bob Spink: To ask the Secretary of State for Transport (1) what investigations are under way on a new access road for Canvey Island; which body is responsible for undertaking the investigations; and what the budget for the investigations is; [55114]

(2) what the *(a)* terms of reference and *(b)* anticipated times of completion are for each investigation into a possible new access road for Canvey Island. [55115]

Dr. Ladyman: I refer the hon. Member to my answer of 16 January 2006, *Official Report*, columns 930–31W.

Concessionary Transport

Chris Grayling: To ask the Secretary of State for Transport what representations he has received from local authorities about the possibility of shortfalls in funding for statutory free bus travel for the elderly and disabled. [48221]

Ms Buck: The Government are providing an extra £350 million for 2006–07 which is sufficient to fund the cost to local authorities.

Concessionary fares are funded through the formula grant system administered by the Office of the Deputy Prime Minister (ODPM). Local authorities were fully consulted on the distribution of the new formula which takes account of factors that reflect support for disabled people and the needs of areas where take-up is likely to be highest.

336 representations were received during the consultation period. The Government concluded, following careful consideration of the consultation responses, that the new formula was a fairer way to allocate the extra funding.

Correspondence

Mr. Steen: To ask the Secretary of State for Transport when he will provide a substantive reply to Mr. Roger Jobson of Tuckenhay, Chairman of the Riparian and Mooring Rights Owners Group. [54753]

Derek Twigg: Mr. Roger Jobson wrote to Mr. Christopher Garnett, the Managing Director of GNER on 26 October 2005 about the booking of tickets from Darlington to Totnes, copying his letter to my right hon. Friend. The operation of the network is a matter for the train operating companies and I have been informed that GNER has now made contact with Mr. Jobson and report that his query has been resolved to his satisfaction.

Departmental Staff

Dr. Cable: To ask the Secretary of State for Transport how many people were employed by the *(a)* Driving Standards Agency, *(b)* Driver and Vehicle Licensing Agency, *(c)* Highways Agency, *(d)* Maritime and Coastguard Agency, *(e)* Office of Rail Regulation, *(f)* Department for Transport, *(g)* Vehicle Certification Agency and *(h)* Vehicle and Operator Services in each region in each of the last 12 months for which data is available; and how many and what percentage of posts were vacant in each month. [51166]

Ms Buck: The figures requested are published in Civil Service Statistics. Departments should refer to table A which covers staff numbers (FTE and headcount basis) for each organisation. Civil service statistics are available in the Library and at the following address on the Cabinet Office Statistics website: http://www.civilservice.gov.uk/management/statistics/index.asp

The number of vacancies available within each Department/agency for the past 12 months can be found in the following table. These figures are based on the available data.

Vacant posts for the last 12 months (by region where data available)

2005

		Number of vacant posts and region						
	Department/agency	*January*	*February*	*March*	*April*	*May*	*June*	*July*

Note:
These figures are based on available data as not all business units keep records of vacant posts. It is not possible to provide the information requested as percentages.

Grant Aid (Airports/Ports)

Chris Grayling: To ask the Secretary of State for Transport what proposals for grant aid are being considered for *(a)* airports and *(b)* ports; whether clearance for any proposed grant aid (i) has been and (ii) is intended to be sought from the European Commission; how much grant aid is proposed; and for what purposes the grant aid is proposed. [54944]

Dr. Ladyman: The Department for Transport has no proposals to provide grant aid for ports or airports.

High-risk Marine Areas

Andrew George: To ask the Secretary of State for Transport what criteria were used by his Department to determine the marine areas for designation as marine environmental high risk areas. [56551]

Dr. Ladyman: In his report "Safer Ships, Cleaner Seas" Lord Donaldson charged the Department for Transport and the then Department of the Environment with determining how to identify MEHRAs. The Department for Transport, Department of the Environment and now Defra have worked closely with Devolved Administrations and statutory nature conservation advisors to develop the process for identifying MEHRAs through a robust and objective methodology. This included a parallel assessment of pollution from shipping risk and environmental sensitivity. Other environmental protection measures already in place at each location were also taken into consideration.

The assessment of Coastal Pollution risk involved five distinct processes:

1. Hazard identification
2. Establishing ship routeing in UK waters
3. The assessment of accident frequency
4. The assessment of oil pollution spill frequency
5. The ranking of coastal pollution risk

The approach taken to the assessment of the environmental sensitivity of each coastal cell was developed from the considerations outlined in Lord Donaldson's report 'Safer Ships, Cleaner Seas'. The classification of sites was however expanded considerably to include the following categories:

Wildlife designations and sites;

Vulnerability of seabirds to oil pollution at identified sites;

Fishing data, including fish farms, shell-fishing areas etc;

Amenity/Economy, represented by locations such as Blue Flag Beaches, Marinas and Country Parks;

Landscape, including Heritage Coastal, National Parks and Areas of Outstanding Natural Beauty, and

Geological, including World Heritage Sites and Conservation Review Sites

In accordance with this methodology, only those areas which scored highly both in terms of environmental sensitivity and in terms of risk from shipping qualified as MEHRAs. They represent approximately 9 per cent. of the UK coastline, which is consistent with Lord Donaldson's view that not more than 10 per cent. of the UK coastline should qualify as MEHRAs.

Light Rail Schemes

Greg Mulholland: To ask the Secretary of State for Transport when he will publish the guidance for promoters of light rail schemes referred to in the Treasury Minute in response to the Eleventh Report of 2004–05 from the Committee of Public Accounts. [56771]

Derek Twigg *[holding answer 7 March 2006]:* The Department is working with UKTram, which brings together representatives of the light rail industry, on development of the draft guidance. We aim to publish it later this year.

Local Government Finance

Tom Brake: To ask the Secretary of State for Transport how much funding each local transport authority received in each year since 1997–98 *(a)* in total, *(b)* per mile of road and *(c)* per head of population. [51653]

Ms Buck: Table 1, which follows, shows the total funding allocated to local authorities in the local transport capital settlements between 1998–99 and 2005–06 (inclusive) in terms of totals, per mile of road and per head of population.

The funding levels per mile and per head vary between local authorities for a number of reasons. The pressures to invest vary—for example the need to maintain roads, the level of casualties and the levels of bus use

differ between areas in ways that are not directly proportionate to road length or population. Some figures are affected significantly by one-off major projects. The quality of local transport plans and their delivery also affects some capital funding allocations.

Local transport capital funding allocations made to local authorities each year between 1997–98 and 2005–06 inclusive were placed in the Libraries of the House on 18 January 2006 and are also on the DfT website.

Table 1: Funding totals, per mile and per head by local authority area

Local authority name	*Total 1998–99 to 2005–06 funding (£000)*	*Road mileage*	*Funds (£000) per mile*	*Population 2004 (000)*	*Funds (£ per head)*
Bedfordshire county and Luton borough councils	88,388	1,701	52	576.2	153
Cambridgeshire county council	116,149	2,890	40	578.8	201

East Riding of Yorkshire council	59,978	2,136	28	324.8	185
Kingston Upon Hull city council	50,863	458	111	248.5	205
North East Lincolnshire council	36,505	389	94	157.7	231
North Lincolnshire council	28,570	876	33	156.5	183
North Yorkshire county council	147,350	5,746	26	579.9	254
South Yorkshire metropolitan county	331,141	3,747	88	1,278.4	259
West Yorkshire metropolitan county	434,430	5,952	73	2,108.0	206
York city council	38,063	490	78	184.9	206

Notes:
1. Figures are the total local transport capital allocations (in £000) made for 1998–99 to 2005–06. 1997–98 is not included as some councils' boundaries were changed, abolished or created between 1997–98 and 1998–99.
2. London authorities and the Isles of Scilly council are not included as they are not included in the local transport plan system. The Greater London Authority makes transport capital allocations to London boroughs.
3. Figures for metropolitan areas are county wide and relate to the sum of allocations made to district councils and passenger transport authorities.
4. A few other councils have been combined as they produce joint transport plans.

M20

Hugh Robertson: To ask the Secretary of State for Transport when the Government plans to resurface the M20 between junctions 8 and 9 with a noise reducing surface; and why plans for the resurfacing have been delayed. [56485]

Dr. Ladyman *[holding answer 6 March 2006]:* As the surface of the M20 between junctions and 8 and 9 is currently in a satisfactory condition, resurfacing will not be required for at least the next five years. When resurfacing is carried out, a lower noise surface will be used.

Marine Environment

Mr. Carmichael: To ask the Secretary of State for Transport how many accidents involving oil tankers have taken place in each of the last 20 years in *(a)* international and *(b)* UK waters. [56938]

Dr. Ladyman: The Marine Accident Investigation Branch of the Department for Transport only holds data related to accidents involving UK-flagged vessels anywhere in the world, and accidents involving ships of any flag in UK territorial waters (12-mile limit) from 1991 to date. The figures in the table are for all types of accident including groundings, collisions and contacts, founderings, as well as fires and explosions, machinery failures and persons overboard:

Accidents reported to the MAIB involving Tankers/Combination carriers of 100 gross tons and over

	Within UK territorial waters (12-mile limit)	UK-flagged vessels outside UK territorial waters
1991	20	1
1992	23	1
1993	16	1
1994	18	1
1995	22	2
1996	38	4
1997	29	5
1998	17	3
1999	25	2
2000	23	4
2001	15	2
2002	19	3
2003	22	5
2004	23	8
2005	30	6
Total	339	48

Andrew George: To ask the Secretary of State for Transport what assessment of *(a)* environmental importance, *(b)* incidence of marine accidents and *(c)* risk was undertaken before deciding whether the coastal waters around (i) Cornwall and (ii) the Isles of Scilly should be designated as marine environmental high risk areas. [56579]

Dr. Ladyman *[holding answer 6 March 2006]:* I refer the hon. Member to the answer I have given him today (UIN 56551) on the criteria used to assess the location of Marine Environmental High Risk Areas (MEHRAs). These criteria included the key areas of environmental importance, accident frequency and pollution risk.

In his report "Safer Ships, Cleaner Seas" Lord Donaldson said the criteria should be set in such a way that not more than about a tenth of the UK coastline qualifies. Consequently, in accordance with this principle and the methodology, only those areas which scored highly both in terms of environmental sensitivity and in terms of risk from shipping qualified as MEHRAs.

Maritime and Coastguard Agency

Mr. Carmichael: To ask the Secretary of State for Transport what the administration costs were of the Maritime and Coastguard Agency in *(a)* cash and *(b)* real terms in each year since 1997. [56875]

Dr. Ladyman: The figures are only available from 1998–99 onwards and are taken from the published accounts.

£000

	Staff costs	*Establishment and accommodation costs*	*Total*
2004–05	36,488	29,476	65,964
2003–04	34,938	25,139	60,077
2002–03	31,627	25,728	57,355
2001–02	30,229	28,366	58,595
2000–01	28,279	25,524	53,803
1999–2000	26,290	25,926	52,216
1998–99	25,646	20,133	45,779
Total	213,497	170,504	384,001

Mr. Carmichael: To ask the Secretary of State for Transport how many full-time equivalent staff have been employed by the Maritime and Coastguard Agency in each year since 1997; and what plans he has for staffing for the next three years. [56876]

Dr. Ladyman: The number of full-time equivalent (FTE) staff employed by the Maritime and Coastguard Agency (MCA) is only available since 1998, when the MCA came into existence. Figures are shown as follows.

	FTE
1998	986
1999	1000
2000	1062
2001	1024.5
2002	1075.4
2003	1117.5
2004	1177.9
2005	1171.7

Operational staffing figures for the next three years are anticipated to remain the same. There may be reductions following the move to a Department for Transport Shared Service Centre in October 2007.

Maritime Safety

Mr. Carmichael: To ask the Secretary of State for Transport what measures he has taken to improve maritime safety since 1997. [56789]

Dr. Ladyman: Since merchant shipping is an international activity, the UK plays a leading role in the International Maritime Organization (IMO) and in the EU on a range of safety measures aimed at improving the safety of ships. These measures include:

Date	*Action taken*
1997	Introduction of the International and Domestic Safety Management Codes
1999	Introduction of controls on the working hours of seafarers.
2000	UK initiated action at IMO to increase the compensation limit for a shipping accident by 50 per cent. to £177 million
2000	UK supported EU maritime measures on improved port state control and monitoring of classification societies.
2000	UK supported the international Quality Shipping Campaign which led to the introduction of the EQUASIS on-line quality shipping database providing safety-related information on the world's merchant fleet.
2001	Number of Emergency Towing Vessels (ETVs) in UK increased to four and on station all year round.
2001	UK helped secure international agreement to accelerate the phase out of single hull oil tankers.
2003	UK helped secure international agreement on a further acceleration in the phasing out of single hull oil tankers.
2003	UK supported EU legislation on improved stability requirements for Ro-Ro ferries, harmonised seafarer training, and introduction of a vessel traffic monitoring and information system.
2005	UK promoted the introduction of the IMO member state Audit Scheme to assist IMO member states' implementation and enforcement of IMO requirements.
2005	UK Presidency began work on new directives on vessel traffic monitoring and port state control.

Oil Tankers

Mr. Carmichael: To ask the Secretary of State for Transport what estimate he has made of *(a)* the proportion of the global oil tanker fleet that is UK registered and *(b)* the number of oil tankers that have passed through UK waters in each quarter of each of the last 20 years. [56847]

Dr. Ladyman: *(a)* It is estimated that 1 per cent. of the global oil tanker fleet is UK registered.

(b) The Government do not hold the information which has been requested.

Mr. Carmichael: To ask the Secretary of State for Transport what assessment he has made of the level of future use of oil tankers. [56874]

Dr. Ladyman: The Department has not made any assessment of future growth in the use of oil tankers, but their use can be expected to grow broadly in line with the growth in global economic activity.

Public Transport (Rural Areas)

Mr. Steen: To ask the Secretary of State for Transport what steps the Government are taking to improve the provision of public transport in rural areas. [56952]

Ms Buck: The Government are committed to improving public transport in rural areas. Local and central Government provide funding of £1.7 billion annually to support bus services, which provide the majority of local public transport services, including those in rural areas.

We are expecting all local transport authorities to include accessibility strategies in their next Local Transport Plans, due to be submitted this month. These strategies should be based on evidence and analysis of the problems people face in accessing jobs and essential services and facilities. They should include consideration of the accessibility and availability of local public transport. Our guidance to authorities makes clear that the strategies should take account of the particular needs of rural communities.

Since 1998 nearly £450 million has been allocated by this Department to local authorities specifically for the support of rural bus services. The main element of this is rural bus subsidy grant (RBSG) which now totals £53 million annually and which supports some 2,000 services.

Last year we announced "Kickstart" support, totalling £20 million, for 43 projects involving new and improved bus services which will become viable through growth in passenger numbers after an initial period of pump-priming from Government funds. 11 of these schemes will serve areas which are mainly rural in character.

Demand-responsive, flexibly routed and community transport services have a particularly significant role to play in rural areas and we have encouraged their development. Many rural community transport services have since 2002 been eligible to receive the Department's bus service operators grant and regulations were introduced in 2004 to enable flexibly routed bus services to be registered with the Traffic Commissioner.

Renewable Energy

Chris Grayling: To ask the Secretary of State for Transport how much money his Department has spent on research into the use of *(a)* cereal ethanol, *(b)* beet ethanol, *(c)* straw ethanol, *(d)* rape methyl ester, *(e)* wood ethanol, *(f)* wood methanol, *(g)* wood FT-diesel and *(h)* waste oil for hybrid fuel. [54948]

Dr. Ladyman: This Department has funded research in recent years into different aspects of biofuel production and use, but not detailed consideration of these individual biofuels. Our research has focused instead on the potential environmental and other impacts of significant use of biofuels in the longer term, and on the emissions consequences and economics of various bioethanol and biodiesel blends. We have also contributed to projects being managed by the Low Carbon Vehicle Partnership which are aiming to create the carbon and environmental assurance schemes to underpin the Renewable Transport Fuels obligation. Taken together, this Department's expenditure on this research amounts to a little under £200,000. Copies of the reports are available via the DfT website (and can be found by following the links to Roads, Roads and Vehicles, Vehicles, and Vehicles and the Environment).

A number of other Government Departments (including the Department for Trade and Industry and the Department for Environment, Food and Rural Affairs) have also funded research into aspects of biofuel production and use. The DTI-sponsored New and Renewable Energy Research and Development Programme, for example, has included a number of projects on the development of advanced production methods for biofuels. Defra has published various research reports on the environmental and other impacts of biofuel production in the UK. All of these reports are available via their respective websites.

Road Calming

Bob Spink: To ask the Secretary of State for Transport what assessment he has made of the relative merits of flash up speed signs in reducing *(a)* speed and *(b)* road traffic accidents compared with other road calming methods; and if he will make a statement. [55113]

Dr. Ladyman: The Department has not made any assessment of the merits of Speed Indicator Devices which display a vehicle's speed.

In 2002 the Transport Research Laboratory published research into the effectiveness of vehicle activated signs (VAS), which show either the speed limit or a range of hazard warning signs. The study demonstrated that VAS are best used at the approaches to junctions and bends on rural roads.

Road Pricing

Mr. Greg Knight: To ask the Secretary of State for Transport what assessment he has made of the potential impact on urban congestion of a national road pricing scheme. [55754]

Dr. Ladyman *[holding answer 6 March 2006]:* The Feasibility Study of Road Pricing in the UK (2004) estimated that a national road pricing scheme has the potential to reduce urban congestion by around half, from a reduction in urban traffic levels of only 3 to 4 per cent.

Road Projects

Miss McIntosh: To ask the Secretary of State for Transport what criteria are used to reach a decision on whether to undertake road improvement projects; what account is taken when making such decisions of *(a)* economic criteria, *(b)* operational criteria, *(c)* numbers of fatalities and *(d)* general safety issues; and if he will make a statement. [56794]

Dr. Ladyman: All road improvement projects are assessed in relation to their impacts on the economy, safety, the environment, accessibility and integration with wider policies, as summarised in Appraisal Summary Tables which are produced for each scheme. The results contained in Appraisal Summary Tables are used to reach an assessment of a scheme's overall value for money in accordance with the Department's published Value for Money guidance.

In addition to value for money, our decisions also take account of other factors such as: deliverability; affordability; the achievement of central Government, local and regional objectives; and the amelioration of identified problems.

Security (River Thames)

Chris Grayling: To ask the Secretary of State for Transport what steps are being taken to improve the co-ordination of security on the Thames. [54967]

Dr. Ladyman: A security co-ordination group for the tidal River Thames known as the Thames Counter Terrorism Partnership (TCTP) was created in 2004. TCTP meets regularly and brings together key security stakeholders on the river including the Department, the Metropolitan, Kent, Essex and City of London Police Services, Immigration Service, Maritime and Coastguard Agency, HM Revenue and Customs and the Port of London Authority. TCTP has developed a risk register of vulnerable locations within the port and this has been used to support the revision and further development of security plans, tactics, communications and associated contingency plans.

Shipping Accidents

Mr. Carmichael: To ask the Secretary of State for Transport how many shipping accidents involving *(a)* collision, *(b)* grounding and *(c)* fire have occurred in (i) UK waters and (ii) the Pentland Firth in each of the last 20 years. [56870]

Dr. Ladyman: The Marine Accident Investigation Branch of the Department for Transport only hold data related to accidents in UK territorial waters (12 mile limit) from 1991 to date.

(i) Accidents reported to MAIB recorded as occurring in UK territorial waters involving merchant vessels of 100 gross tons and over

	(a) number of collisions	*(b) groundings*	*(c) fires and explosions*	*Others*	*Total*
1991	42	33	21	59	155
1992	26	48	15	49	138
1993	25	36	13	73	147
1994	19	28	11	65	123
1995	19	43	11	93	166
1996	33	48	24	130	235
1997	33	64	20	104	221
1998	22	50	17	92	181
1999	19	34	20	96	169
2000	23	23	9	95	150
2001	19	31	13	74	137
2002	18	20	19	83	140
2003	15	28	15	92	150
2004	15	29	18	93	155
2005	28	46	18	126	218
Total	356	561	244	1,324	2,485

(ii) The Pentland Firth has been defined by the limits of 58°38′N to 58°48′N and 002°55′W to 003°25′W. This area includes Dunnet Head, Duncansby Head, Brough Ness, and Tor Ness.

(ii) Accidents reported to MAIB recorded as occurring in the Pentland Firth involving merchant vessels of 100 gross tons and over

	(b) groundings	*(c) fires and explosions*	*Others*	*Total*
1993	1	1	0	2
2000	0	0	1	1
2004	0	0	1	1
Total	1	1	2	4

UK Waters (Traffic Density)

Mr. Carmichael: To ask the Secretary of State for Transport if he will rank UK waters by traffic density. [56878]

Dr. Ladyman: No, this information is not collected in a format that would make such direct comparisons possible.

Urban Road Network

Chris Grayling: To ask the Secretary of State for Transport pursuant to his answer of 8 February 2006, *Official Report*, column 1061W, on the urban road network, what proportion of the total road network is covered by the 10 largest urban areas. [55259]

Dr. Ladyman: The latest available figures relate to 2004 when the length of the total road network in England was 297,779 km, of which 19.8 per cent. was covered by the 10 largest urban areas. Road lengths, by road class, for individual local highway authority areas are available on the Department for Transport website.

EDUCATION AND SKILLS

Accountable Stores

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will list the accountable stores lost as referred to on page 62 of her Department's resource accounts. [53119]

Bill Rammell: The majority of the losses referred to on page 62 of the resource accounts relate to the disposal of publications purchased with public funds and held at the Department's publications distributor. The Department has established a programme board to drive forward change within the Department in the way that it handles publications. The key aims of the programme are to improve stock control and through improved visibility and advice to ensure that owners of publications can actively manage both existing stock and future production.

In 2004–05 there were 37 cases totalling £866,000 made up as follows:

Details of Loss	*Total number of cases*	*Amount (£)*
Publications distributor—waste stock	14	525,005.00
Obsolete Careers information Stock	16	316,904.44
School Workforce Unit waste, Teaching Assistant and staff induction	1	19,000.00
Teachers Magazines	1	2,824.15
Obsolete Aim Higher publication	1	1,865.70
Social Secretary stock missing/out of date	3	414.51
Date stamped unused stock	1	50.00
Total	37	866,063.80

For comparison in 2003–04 accountable stores losses were £5.724 million of which £5.722 million was one case arising from a major review of waste and obsolete publications held at the publications distributor.

Avian Influenza

Mr. Gibb: To ask the Secretary of State for Education and Skills (1) pursuant to the answer of 6 February 2006, *Official Report*, column 998W, on avian influenza, when she expects to be in a position to issue government guidance on action to be taken in the event of an avian influenza pandemic in schools; [54182]

(2) pursuant to the answer of 6 February 2006, *Official Report*, column 998W, on avian influenza, to which of the answers to the hon. Member for Bury, North on 30 January 2006, *Official Report*, column 96W, she was referring to. [54183]

Jacqui Smith: My Department is contributing on schools to further guidance on wider contingency planning for a possible influenza pandemic which the Government will issue later this spring. Pursuant to the answer of 6 February 2006, *Official Report*, column 998W, that answer should have referred to an earlier reply to the hon. Member for East Devon on 8 November 2005, *Official Report*, column 445W and not to my hon. Friend the Member for Bury, North.

GNVQ Courses

Rosie Cooper: To ask the Secretary of State for Education and Skills how many vacancies there were on GNVQ courses in *(a)* West Lancashire and *(b)* England in each year between 1997 and 2005. [51118]

Phil Hope: The figures requested are not collected centrally.

Influenza Pandemic

Mr. Gibb: To ask the Secretary of State for Education and Skills what provision her Department's UK influenza pandemic contingency plan makes for the operation of schools. [56243]

Jacqui Smith: The Department of Health's contingency plan refers briefly to schools, but officials in the Department and the Department of Health are working together on further guidance. The hon. Member will be aware that I am a Member of the Cabinet Committee on pandemic influenza (MISC 32) that is working to co-ordinate contingency planning for a future pandemic.

National Curriculum (Transport Safety)

Mr. Greg Knight: To ask the Secretary of State for Education and Skills what provision is made in the national curriculum for teaching children about safety issues in relation to *(a)* highways and *(b)* railways. [56598]

Jacqui Smith: Education about safety is included in the curriculum through the non-statutory framework of Personal Social and Health Education (PSHE). In PSHE lessons pupils are taught about rules for, and ways of, keeping safe, to recognise the risks that apply in different situations and then to decide how to behave responsibly. They should be taught to recognise and manage risk, to be aware when pressure from others threatens their personal safety and to develop assertiveness techniques when dealing with unhelpful pressure.

DfES issued 'Safety Education: Guidance for Schools' in 2001 and this references both highways and railways as contexts for safety education although it is for schools to decide on the content of their safety education programme.

Pensions Liability

Mr. Hayes: To ask the Secretary of State for Education and Skills what is the total pensions liability of her Department. [53103]

Jacqui Smith: I refer the hon. Member to the reply I gave on 30 January 2006, *Official Report*, column 73W.

Selection by Ability

Mr. Gibb: To ask the Secretary of State for Education and Skills what proportion of lessons in secondary schools inspected by Ofsted were setted by ability in *(a)* faith schools (i) in total and (ii) broken down by faith and *(b)* other maintained schools. [52560]

Jacqui Smith: This is a matter for Ofsted. HM Chief Inspector, Maurice Smith, has written to the hon. Member and a copy of his reply has been placed in the House Library.

Letter from Maurice Smith, dated 21 February 2006:

Your recent parliamentary question has been referred to me, as Her Majesty's Chief Inspector of schools, for reply.

You asked what proportion of lessons in secondary schools inspected by Ofsted were setted by ability in *(a)* faith schools (i) in total and (ii) broken down by faith and *(b)* other maintained schools.

The tables below summarise the data from inspections of secondary schools between January 2000 and July 2003. From 2002/03 onwards records do not distinguish between setting and streaming (banded).

The proportion of lessons setted by ability in secondary schools by denomination from January 2000 to July 2003

Denomination	*Number of schools inspected here*	*Number of lessons*	*Percentage of lessons inspected that were setted*
Church of England	122	10,763	27
Roman Catholic	223	22,111	39
Other Christian	17	1,302	30
Jewish	2	250	13
Seventh Day Adventist	1	69	9
Sikh	1	105	25
All Denominational	366	34,600	38
All non Denominational	1,672	205,131	37

A copy of this reply has been sent to Jacqui Smith and will be placed in the Library of both Houses.

Special Educational Needs

Ms Angela C. Smith: To ask the Secretary of State for Education and Skills how many pupils in *(a)* each region of England and *(b)* each local education authority in the Yorkshire and Humber region are registered as having special educational needs; and what percentage each figure represents of the total school population in the area. [52786]

Maria Eagle: The information requested has been placed in the House Library.

Thames Gateway Strategy

Sarah Teather: To ask the Secretary of State for Education and Skills when she expects to publish the Skills for Communities plan announced in the Thames Gateway strategy, Creating Sustainable Communities: Delivering the Thames Gateway. [54690]

Yvette Cooper: I have been asked to reply.

The document referred to in Creating Sustainable Communities: Delivering the Thames Gateway is the 'Thames Gateway Action Plan: Skills for Sustainable Communities', which was published by the Learning and Skills Council (LSC) in October 2005. The plan is available on the LSC's website at: www.lsc.gov.uk/thamesgateway

DEFENCE

Abu Ghraib

Harry Cohen: To ask the Secretary of State for Defence if he will list *(a)* visits, *(b)* meetings, *(c)* discussions and *(d)* other liaison activities that have taken place between UK personnel within his responsibility and (i) the US Administration and (ii) other US agencies in relation to Abu Ghraib prison. [55874]

John Reid: Ministry of Defence officials are in regular contact with the United States authorities on a wide range of issues relating to the coalition operation in Iraq. It is likely that Abu Ghraib will have been discussed in the course of some of these contacts, but we do not possess a record of visits, and meetings for which this was the specific subject of discussion.

Afghanistan

Dr. Julian Lewis: To ask the Secretary of State for Defence what estimate he has made of the extent to which insurgents in southern Afghanistan originate from *(a)* Afghanistan, *(b)* Pakistan and *(c)* stateless international terrorist groups. [52768]

John Reid *[holding answer 1 March 2006]:* The number of foreign fighters operating inside Afghanistan is low. The insurgency originates primarily in southern Afghanistan and the border areas of Pakistan.

Mr. Ancram: To ask the Secretary of State for Defence what procedures would be followed by UK forces deployed to Helmand province in the event of the hot pursuit of illegal combatants and other terrorist elements should those elements cross over the border into Pakistan. [55110]

John Reid *[holding answer 2 March 2006]:* To discuss the procedures in such cases would risk operational security and could endanger the lives of our forces.

Mr. Hancock: To ask the Secretary of State for Defence what the *(a)* dates and *(b)* nature of attacks on UK aircraft in Afghanistan were in the last two years; and if he will make a statement. [55543]

Mr. Ingram: An attempt was made to attack a UK C-17 on 3 October 2005 by small Surface to Air Fire. This was not successful and no damage was sustained.

On 13 October 2005 Kandahar Airfield was attacked by two rockets causing shrapnel damage to two GR7 (Harrier) Aircraft, which were on the ground at the time.

British Forces (Arrests)

Dr. Fox: To ask the Secretary of State for Defence whether arrests by British forces on operational duty overseas would be under *(a)* counter-insurgency and *(b)* counter-terrorist rules. [45803]

Mr. Ingram: British forces on operations only detain individuals where there is a legal basis to do so. The powers of arrest and detention are particular to each theatre and depend on the legal basis of the operation.

British Nuclear Deterrent

Mr. Hollobone: To ask the Secretary of State for Defence what estimate he has made of the likely cost of replacing the British nuclear deterrent. [55951]

John Reid: I refer the hon. Gentleman to the answer I gave on 20 October 2005, *Official Report*, column 1217W, to my hon. Friend the Member for Pendle (Mr. Prentice).

Burma

John Bercow: To ask the Secretary of State for Defence what the policy of the *(a)* British Army, *(b)* Royal Navy and *(c)* Royal Air Force is on sourcing goods from Burma. [52159]

Mr. Ingram: The Ministry of Defence's procurement policy, which embraces the procurement activities of the Service Commands, is driven by the need to ensure best long term value for money in accordance with UK Government policy and any relevant international procurement directives. I refer the hon. Member to the reply given to him on 27 February 2006, *Official Report*, columns 124–25, by the Minister of State for Trade.

The Ministry of Defence has no current direct contracts in place with companies in Burma.

Hooding

Adam Price: To ask the Secretary of State for Defence (1) when officials and Ministers in his Department were first informed of the direction by the General Officer Commanding 1 (UK) Armoured Division banning hooding in April 2003; [36483]

(2) for what reason the General Officer Commanding 1 (UK) Armoured Division in Iraq issued a formal direction banning hooding in April 2003. [36585]

Mr. Ingram: Officials were aware of the direction by General Officer Commanding 1 (UK) Armoured Division in the days after it was issued. Ministers were made aware of this order in May 2004.

The direction was issued because it was assessed that there was no longer any military justification to continue the practice of hooding given the prevailing circumstances at the time.

Iraq

Mr. Moore: To ask the Secretary of State for Defence what assessment he has made of whether the use of

munitions containing depleted uranium in Iraq has contributed to an increase in uranium levels in other countries. [56463]

Mr. Ingram: Assessments of the potential health and environmental effects of using depleted uranium munitions have been carried out by the Ministry of Defence and other government and independent academic groups. Information on the Ministry of Defence Depleted Uranium Research Programme was announced in the House on 14 March 2002, *Official Report*, columns 1179–80W. Information on work by other agencies such as the Royal Society and the United Nations Environment Programme is available on the world wide web at: www.postconflict.unep.ch/ and www.royalsociety.ac.uk/du/. These assessments consider how the depleted uranium is distributed in the environment and do not make a distinction between the country in which the material is used and any other country. All the assessments conclude that any DU contamination will be limited and localised. This has been confirmed by independent surveys in Iraq, Kuwait and in the Balkans and in the survey in Iraq by my Department announced in the House on 2 February 2004, *Official Report*, column 746W.

John Hemming: To ask the Secretary of State for Defence what the policy of the Coalition is on the protection and identification of holy sites in Iraq. [56594]

Mr. Ingram: The Iraqi Government has responsibility for the identification and protection of holy sites in Iraq. The Coalition does, however, take very seriously the need to respect Iraq's religious, historical and cultural heritage. UK forces respect sites of cultural sensitivity wherever they are deployed in the world. As part of the Coalition in Iraq, UK forces provide support as necessary to the Iraqi security forces as they continue to build stability and security.

Nuclear Submarines

Mr. Moore: To ask the Secretary of State for Defence which UK ports are being adapted to accommodate nuclear submarine berths. [56451]

Mr. Ingram: No UK ports are currently being adapted to accommodate Z-berth nuclear submarine facilities. The Royal Navy currently uses Z-berths at RNAD Coulport, Loch Ewe, Loch Goil, Portsmouth and Broadford Bay. In a addition, the MOD is working with local authorities in Southampton and Portland to develop and test the emergency planning arrangements needed to re-establish full Z-berth status at those ports. This will not require adaptations to existing facilities. Preliminary discussions have also been held with Sefton metropolitan borough council.

Overseas Deployments

Keith Vaz: To ask the Secretary of State for Defence how many British soldiers are stationed abroad. [50222]

Mr. Ingram: The numbers of personnel posted to each location abroad are shown in "Tri-Service Publication 6, Global Location of UK Regular Forces" (TSP 6).

TSP 6 is published quarterly; the most recent publication shows the numbers of Service personnel at 1 October 2005.

Copies of TSP 6 are available in the House of Commons Library and at www.dasa.mod.uk.

Post Traumatic Stress Disorder

Justine Greening: To ask the Secretary of State for Defence how many British Service personnel on tour in Iraq were sent back to the UK in advance of their scheduled tour end date due to a post traumatic stress disorder or related condition developed whilst on tour in *(a)* 2003, *(b)* 2004 and *(c)* 2005; and if he will make a statement. [53797]

John Reid *[holding answer 27 February 2006]:* Up to 31 December 2005, 200 personnel who deployed to Operation Telic were subsequently diagnosed as suffering from Post Traumatic Stress Disorder. We cannot, however, break these figures down to differentiate between those who were sent back to the UK early and those who presented at a MOD Department of Community Mental Health (DCMH) at a later date, as this information is not recorded. Nor do these figures indicate whether the mental health condition is attributable to service.

QinetiQ

Mr. Hancock: To ask the Secretary of State for Defence what the total value was of payments from his Department to QinetiQ in each of the last four years. [55542]

John Reid: The total value of payments to QinetiQ by the Ministry of Defence in each of the last four financial years was:

	£ million
2002–03	638.7
2003–04	727.5
2004–05	666.1
2005–06 (to end February 2006	665.5

These figures are VAT inclusive.

Royal Gibraltar Regiment

Andrew Rosindell: To ask the Secretary of State for Defence how much was allocated to the Royal Gibraltar Regiment in each of the last 13 years. [56849]

Mr. Ingram: Records of funding allocations are kept for only seven years; for the Royal Gibraltar Regiment, these allocations, including those for the current financial year, are as follows:

£ million

Financial year	*Amount*
1998–99	3.589
1999–2000	3.714
2000–01	4.198
2001–02	4.393
2002–03	4.669
2003–04	4.860
2004–05	5.019
2005–06	5.280

Royal Navy

Mr. Alan Reid: To ask the Secretary of State for Defence what criteria his Department uses to decide whether to grant requests for Royal Naval vessels to attend events organised by private organisations. [56997]

Mr. Ingram: Events are considered according to their potential to support Ministry of Defence interests and those who are likely to attend. This process takes into account security and berthing facilities, ship availability, cost implications, the nature of the event (including ship affiliations and other participants), demographics and levels of anticipated public attendance.

South Atlantic

Dr. Julian Lewis: To ask the Secretary of State for Defence what forces are *(a)* available and *(b)* scheduled to be available in the next 12 months in the South Atlantic; and at what level of readiness. [55988]

Mr. Ingram *[holding answer 7 March 2006]:* Our forces are sufficient to protect the UK's Overseas Territories in the South Atlantic. Assets deployed include fighter and refuelling aircraft, air defence, infantry troops and various maritime and support units. These are supplemented by routine deployments from time to time. They are at varying degrees of readiness appropriate to their role. Force levels are kept under review. There are no plans to change our commitment over the next 12 months.

Spending Review (Efficiency Targets)

Mrs. Villiers: To ask the Secretary of State for Defence what baseline figures he is using for assessing progress on his Department's targets to *(a)* generate annual efficiency gains in logistics and procurement by modernising business processes, *(b)* generate annual savings in its back office through rationalisation and information-enabled business change, *(c)* make better use of its assets and manpower to meet security threats, *(d)* improve the defence information infrastructure, *(e)* improve the Defence estate, *(f)* improve the management of the fleet of military vehicles and *(g)* improve the healthcare of service personnel; what progress has been made towards these targets to date; and what the total efficiency savings achieved to date are for these targets. [52924]

John Reid: Baselines are typically either the position at April 2004 or the centrally agreed financial planning assumptions for the years 2004–05 to 2007–08 made in the Ministry of Defence's Short Term Plan 2004. More information can be found in the Department's Efficiency Technical Note which was published in December 2005.

Good progress has been made in meeting the department's targets, with over £740 million of efficiencies delivered to the end of December. This includes over £280 million-from the Defence Logistics Transformation Programme; £90 million from procurement reform, including travel modernisation; over £20 million from Whole Fleet Management; £40 million from Defence Information Infrastructure; £10 million from Joint Personnel Administration; £180 million from force capability changes; £20 million from estates modernisation; and over £80 million from improving the quality of healthcare.

Efficiencies will be re-invested in the Department's budget, in line with the Defence priorities set out in the Future Capabilities Command Paper, published in July 2004, a copy of which is available in the Library of the House.

WORK AND PENSIONS

Asset Ownership

Greg Clark: To ask the Secretary of State for Work and Pensions (1) what statistics the Government collect on the equality of asset ownership; [56037]

(2) whether the Government collect statistics on the *(a)* dynamics and *(b)* persistence of asset poverty. [56038]

Dawn Primarolo: I have been asked to reply.

Statistics on the Distribution of Personal Wealth are available on the website of HM Revenue and Customs (at www.hmrc.gov.uk/stats/personal_wealth/menu.htm). An additional source of statistics on the distribution of household savings and assets is the Family Resources Survey published by the Department for Work and Pensions (available from www.dwp.gov.uk/asd/frs/index/publications.asp).

There are a number of other Government sponsored surveys which carry questions on some elements of wealth but there is as yet no comprehensive survey of UK data on wealth, savings and debt. The Office for National Statistics, together with other Government Departments, is planning to undertake a comprehensive household wealth and assets survey. This new survey will directly measure household assets, liabilities and wealth in Great Britain.

Benefit Processing Centres

John McDonnell: To ask the Secretary of State for Work and Pensions what criteria are used in making decisions on the *(a)* number and *(b)* location of benefit-processing centres in London. [48984]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking what criteria are used in making decisions on the *(a)* number and *(b)* location of benefit processing centres in London. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

During the late 1980s benefit processing work for a number of offices in London was moved to centres in Glasgow, Makerfield and Belfast as part of a work relocation project. Over the last two years we have progressively centralised the remaining processing work for London mainly in three new centres based in Hackney, Ilford and Stratford as part of the roll out of our new Jobcentre Plus service. The centralisation of this work is now almost complete with around 96 per cent. of benefits processed in one of the six centres.

The aim has been to locate the remaining benefit processing work in as few sites as possible to maximise efficiency, while ensuring the best use of our existing estate and expertise. The key criteria used in determining the number and location of these new centres were therefore:

sites able to house an optimum of 250 people, but at least 100;

locations within reasonable daily travelling distance of trained staff;

the extent of refurbishment needed.

Centralisation of Benefit Delivery is a key part of the modernisation of our business and will provide a much more effective use of resources and more importantly a much improved and more consistent level of customer service.

Buncefield Inquiry

Bob Spink: To ask the Secretary of State for Work and Pensions if he will make a statement on the interim conclusions of the inquiry into the Buncefield fire; and if he will place these interim conclusions in the Library. [55116]

Mrs. McGuire: I have placed a copy of the Buncefield Investigation Progress Report in the Library. The report describes the incident of 11 December 2005 and the response to it. It sets out what the investigation has determined so far about the likely nature of the explosions and fire that occurred, but contains no conclusions about how they occurred. This information is not yet available. The investigation is continuing its work to identify the root causes of the incident, including establishing exactly how the flammable mixture that gave rise to the explosions was able to form. Further information will be published as it emerges from the investigation.

Child Support Agency

Ben Chapman: To ask the Secretary of State for Work and Pensions whether the contractor who supplied the Child Support Agency's updated IT system has fulfilled the obligations set out in the procurement contract. [53738]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to my hon. Friend with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, whether the contractor who supplied the Child Support Agency's updated IT system has fulfilled the obligations set out in the procurement contract.

Under the original contract for Child Support Reform IT services, EDS was required to design, build, finance and operate the new Child Support computer system (CS2) to meet the Child Support Agency's requirements. It has been well reported the new system did not function as well as expected. The Department continues to work with EDS to improve the performance of the system.

In August 2005, the Department further addressed CS2 issues as part of a general realignment of its IT contracts with EDS. Under this realignment EDS will complete the CS2 system as specified, including correcting all agreed defects at no additional cost. Operationally, the live system is now more stable than it was in 2003 and its performance is currently meeting all contracted service level targets.

I hope you find this helpful.

Ben Chapman: To ask the Secretary of State for Work and Pensions what the average number of staff hours spent by the Child Support Agency on assessing a case is under *(a)* old and *(b)* new rules. [53740]

Mr. Plaskitt: The information requested is not available.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many Child Support Agency staff members are allocated to tactical clearance teams at each Child Support Agency centre; and what performance targets have been set for such teams. [54239]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many Child Support Agency staff members are allocated to tactical clearance teams at each Child Support Agency centre; and what performance targets have been set for such teams.

The table below contains the number of staff allocated to each tactical clearance team by business unit:

Business unit	*Number of staff working in tactical clearance teams as at January 2006*
Eastern	29
Midlands	31
South East	14
Scotland and North East England	23
South West	7
Wales and North West	31
Total	135

Notes:

1. Figures are provided as full time equivalents.
2. The table does not include staff doing GB child support work in Belfast, as they are employees of the Northern Ireland Civil Service.

There are currently three performance targets used by the tactical clearance teams. All three targets are associated with the closing of cases and are as follows:

Cases referred to the Agency by Jobcentre Plus where the non-resident parent is either unknown or unidentifiable. The target is 6.66 closures per day per full time member of staff.

Cases referred to the Agency by Jobcentre Plus which cannot be progressed on the new computer system without a technical intervention. The majority of these cases are appropriate for closure and the target is 6 closures per day per full time member of staff.

Cases where the parent with care was in receipt of a prescribed benefit, has subsequently ended the benefit claim and has agreed that their case can be closed. The target is to close 14.3 cases per day per full time member of staff.

I hope you find this response helpful.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many staff were employed as part of the Child Support Agency contingency team in Liverpool and how many were assigned to the new CS2 system; and how many of them were assigned to the legacy Child Support computer system at the end of each of the last 18 months for which figures are available. [54241]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

BEST COPY AVAILBLE

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the chief Executive.

You asked the Secretary of State for Work and Pensions, how many staff were employed as part of the Child Support Agency contingency team in Liverpool and how many were assigned to the new CS2 system; and how many of them were assigned to the legacy Child Support computer system at the end of each of the last 18 months for which figures are available.

The Contingency Team in Liverpool supports the six Child Support Agency centres by answering calls remotely which require access to the legacy Child Support computer system (CSCS). The Contingency Team call-handlers do not deal with calls relating to the new CS2 computer system.

The attached table shows the number of staff employed as part of the Contingency Team in Liverpool at the end of each of the last 18 months.

I hope you find this response helpful.

Staff employed as part of the Liverpool contingency team

Number

	Staff employed[1]
August 2004	42.13
September 2004	43.31
October 2004	44.53
November 2004	42.89
December 2004	44.2
January 2005	41.58
February 2005	41.58

[1] Full-time equivalent.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what the total number of staff employed in each of the six Child Support Agency call centres was in the UK; how many staff in each call centre were assigned to the legacy Child Support computer system at the end of each of the last 24 months for which figures are available; and how many were assigned to the new CS2 system. [54243]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the chief Executive.

You asked the Secretary of State for Work and Pensions what the total number of staff employed in each of the six Child Support Agency call centres was in the UK; how many staff in each call centre were assigned to the legacy Child Support computer system at the end of each of the last 24 months for which figures are available; and how many were assigned to the new CS2 system.

There is a National Helpline team situated in each of the Agency's six centres. The attached table shows the number of National Helpline staff in each of these teams.

Staff on the National Helpline multi-task between the legacy Child Support Computer System and the new CS2 system according to customer demand.

I hope you find this response helpful.

Note:
The figures are whole-time equivalent and include management and support staff in addition to call-handling staff.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions pursuant to his oral evidence to the Work and Pensions Committee on 15 February 2006, how many of his Department's staff he intends to transfer internally to the Child Support Agency as part of the Operational Improvement plan; when he expects those transfers to occur; and whether they will be *(a)* voluntary and *(b)* compulsory. [54455]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions pursuant to his oral evidence to the Work and Pensions Committee on 15th February 2006 how many of his Department's staff he intends to transfer internally to the Child Support Agency as part of the Operational Improvement Plan; when he expects those transfers to occur; and whether they will be *(a)* voluntary and *(b)* compulsory.

A key part of the Operational Improvement Plan is to increase Agency staffing levels by 1,000 in order to address backlogs of work. The Agency is seeking to maximise the contribution made towards achieving this increase in its headcount by transferring in existing staff from other parts of the Department, together with their existing accommodation. Discussions are currently taking place to establish the number of staff who would be available to transfer to the Agency from other DWP sites. Precise numbers have yet to be agreed. It is anticipated that most staff who transfer across to the Agency would do so on a voluntary basis but the need for some managerial redeployment cannot be discounted at this stage.

I hope you find this response helpful.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions pursuant to his oral evidence to the Work and Pensions Committee on 15 February 2006, how many new staff, excluding staff transferred from within his Department, he intends to employ within the Child Support Agency as part of the Operational Improvement Plan. [54456]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions pursuant to his oral evidence to the Work and Pensions Committee on 15 February 2006 how many new staff excluding staff transferred from within his Department he intends to employ within the Child Support Agency as part of the Operational Improvement Plan.

A key part of the Operational Improvement Plan is to increase Agency staffing levels by 1,000 in order to address backlogs of work. It is anticipated that there will be a significant requirement for new recruitment into the Agency in order to achieve this increase in headcount and address forecast levels of natural wastage. The precise levels of new recruitment will not be known until the numbers of staff available to transfer from other parts of the Department have been finalised.

I hope you find this helpful.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what proportion of *(a)* lone parents and *(b)* lone parents in receipt of benefit are in receipt of child support maintenance. [56770]

Mr. Plaskitt *[holding answer 7 March 2006]:* Evidence from the Families and Children Study 2003, shows that *(a)* 30 per cent. of all lone parents receive maintenance and *(b)* 16 per cent. of lone parents who are not working or work under 16 hours a week (not all of whom will be on benefit) are in receipt of maintenance.

The Families and Children Study may under report maintenance receipts especially where the lone parent is on benefit and the non resident parent pays the money to the Child Support Agency.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how much has been collected in child maintenance for each year since 1997. [56774]

Mr. Plaskitt *[holding answer 7 March 2006]:* The administration of the Child Support Agency is a matter for the Chief Executive. He will write to my right hon. Friend with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how much has been collected in child maintenance for each year since 1997.

The total amount of maintenance collected by the Child Support Agency, and recorded in the Agency Annual Accounts in each financial year since 1996–97 is shown in the table.

	Total Maintenance Collected (£ million)
2004–05	585.41
2003–04	580.27
2002–03	572.55
2001–02	528.45
2000–01	502.55
1999–2000	460.68
1998–99	392.38
1997–98	306.16
1996–97	213.21

I hope you find this response helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions what the monthly figures were for the Child Support Agency of *(a)* applications received, *(b)* applications cleared, *(c)* first payments made, *(d)* first child maintenance premium payments made, *(e)* cash compliance, *(f)* case compliance and *(g)* the ratio of costs to maintenance collected between January and December 2005. [41386]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what the monthly figures were for the Child Support Agency of *(a)* applications received *(b)* applications cleared *(c)* first payments made *(d)* first child maintenance premium payments made *(e)* cash compliance *(f)* case compliance and *(g)* the ratio of costs to maintenance collected between January and December 2005.

The information requested for parts *(a)*, *(b)* and *(c)* are included in the attached table.

The latest available information in answer to parts *(d)*, *(e)* and *(f)* can be found in the Child Support Agency's Quarterly Summary Statistics which is published on the DWP website, a copy of which can be found in the House library. The information requested can be found in the following tables:

(d) Table 14

(e) Table 11

(f) Table 7

(g) The Child Support Agency accounts for 2005/06 will not be compiled and audited until the financial year end. For this reason I am unable to provide you with the ratio of costs to maintenance collected for the period requested.

I hope you find this helpful.

Number of potential applications received, cases cleared and first payments made in each month since February 2005

	Applications received	*Applications cleared*	*First payment via collection service, or maintenance direct arrangement arranged in lieu of first payment*
February 2005	25,000	19,000	6,000
March 2005	25,000	24,000	8,000
April 2005	25,000	24,000	7,000
May 2005	25,000	27,000	7,000
June 2005	25,000	26,000	8,000
July 2005	25,000	25,000	7,000
August 2005	23,000	22,000	7,000
September 2005	24,000	28,000	7,000
October 2005	29,000	27,000	8,000
November 2005	30,000	32,000	8,000
December 2005	23,000	24,000	8,000

Notes:

1. An application is defined as cleared if a maintenance calculation has been carried out and a maintenance collection method has been set up and agreed with the non resident parent; a case has been identified as being subject to a reduced benefit decision, claiming good cause, as a change of circumstances to an existing case, as opposed to a new application, or has been closed.
2. Cases in which a maintenance direct arrangement has been facilitated have been included in addition to first payments of maintenance via the collection service, as the former also represent a positive outcome generated for the parent with care by the agency.
3. Figures are rounded to the nearest thousand.

Dr. Pugh: To ask the Secretary of State for Work and Pensions (1) whether the application of servicemen's exemption from the Child Support (Enforcement and Collection) Regulations 1992 will be reconsidered in the current review of the Child Support Agency; and if he will make a statement; [54890]

(2) what recent discussions have taken place with the Ministry of Defence concerning the deduction of Child Support Agency payments from the salaries of serving members of the armed forces. [54891]

Mr. Plaskitt: The Child Support (Collection and Enforcement) Regulations 1992 do apply to service personnel. The only area of difference is that the Agency issues Deduction from Earnings Requests for service personnel rather than Deduction from Earnings Orders, but both work in broadly the same way.

The Child Support Agency and DWP officials meet with Ministry of Defence officials at Agency-run employer forum's, to discuss a range of issues including deductions of child support from pay.

Sir David Henshaw is consulting widely on the redesign and will consider concerns raised during this process.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of the £90 million allocated to improving the Child Support Agency's performance. [56769]

Mr. Plaskitt *[holding answer 7 March 2006]:* The Operational Improvement Plan sets out the actions that will be taken to stabilise and improve Agency performance in the short term. It commits to significant improvements through more effective use of enforcement powers, increasing the productivity and effectiveness of the Agency and increasing debt recovery.

To support the plan, £90 million has been made available from the Department's existing resource over the next three years, with a further £30 million available to contract out some of the Agency's debt recovery.

Debt Centres

Sandra Gidley: To ask the Secretary of State for Work and Pensions how many outstanding cases there were in each debt centre in the Department as at 1 December. [39638]

Mr. Plaskitt: At 1 December the number of cases where recovery action had yet to commence was 422,137 broken down by debt centre as in the table below. This includes 37,194 of the 48,000 cases that were stockpiled awaiting the outcome the Hinchy judgment. The number of cases awaiting action has risen temporarily, as we would expect while successfully undertaking data migration onto a new, standard commercial debt management IT system.

Debt centre	*Total outstanding*
Dearne Valley	57,144
Corby	51,510
Makerfield	39,052
Bradford	59,818
Glasgow	38,778
Stornoway	53,071
Manchester	25,486
Perth	39,408
Nuneaton	57,870
Total	422,137

Employment Advisers (GP Surgeries)

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what plans he has to pilot the placement of employment advisers in general practitioner surgeries; and if he will make a statement; [51734]

(2) what funds will be made available for the placement of employment advisers in general practitioner surgeries; what assessment he has made of the merits of the use of employment advisers from *(a)* Jobcentre Plus, *(b)* private companies and *(c)* voluntary organisations; and if he will make a statement. [51735]

Margaret Hodge: As part of the Pathways to Work approach Jobcentre Plus has been working closely with a wide range of NHS professionals in surgeries and other health settings to promote the health and employment message. Some non-governmental organisations have already placed employment advisers in general practitioner surgeries across the country and our proposals came from this experience.

We want to build on the knowledge gained from these experiments and will be running pilots in five of the seven current Pathways to Work Pilot areas, where we will place employment advisers in general practitioner surgeries. We have already begun piloting this in two surgeries in Bridgend and Paisley. All pilots will be in place by April 2006 and will continue until March 2008.

The pilot will examine if an outreach service in health settings is a good way to engage with people who have a health condition or disability. In particular, we want to see if it is an effective method to reach those who do not currently access work focused support. The lessons learned from these pilots will help to ensure the success of our proposals recently published in our Green Paper; "A new deal for welfare: Empowering people to Work". Any decisions on future roll out or methodology, as part of the Pathways approach, will be taken following an evaluation of the pilot.

EU Citizens

Keith Vaz: To ask the Secretary of State for Work and Pensions how many workers from the new European Union member states are claiming unemployment benefits in the United Kingdom. [56906]

Mr. Plaskitt: The information is not available; no record is kept of claimants' nationalities.

Jobcentre Plus

Mrs. Ellman: To ask the Secretary of State for Work and Pensions what consultation Jobcentre Plus conducted in relation to changes in tendering processes for prime contractors for the new deal in the North West. [51866]

Margaret Hodge: We are introducing new contracting procedures to reduce the bureaucratic costs to Jobcentre Plus and improve performance. Changes to the new deal contract tendering process have been carried out across all Jobcentre Plus regions including the North West region.

Prior notice of the tendering competitions, including our revised Contracting Strategy, was placed on the Provider pages of the Jobcentre Plus website at www.jobcentreplus.gov.uk and promoted through newspaper advertisements. We place an advertisement twice a year in *'The Voice'*, the *Metro* and the *Guardian*, to inform providers of the range of tendering opportunities available on the website, and have also placed an advertisement in the February edition of the Voluntary Services Directory.

We are assisting bidders and potential sub-contractors through supplier briefings at stage two of the contracting process at meetings held in Newcastle, Birmingham and London. We also ensure that the Provider question and answer section on our website is regularly updated.

Throughout the contracting process we have kept the Association of Learning Providers (ALP) and the Employment Related Services Association (ERSA) fully informed of all developments and changes to the new deal contracting process. The ALP and ERSA are working with this Department, the Treasury and the National Audit Office as part of a Provider Task Force to improve the quality and performance of our employment programmes.

Pathways to Work

Danny Alexander: To ask the Secretary of State for Work and Pensions what assessment he has made of the outcomes of *(a)* pathways to work participants who volunteer for the condition management programme and *(b)* participants who have similar conditions but who do not volunteer for the condition management programme; and if he will make a statement. [43143]

Margaret Hodge: The condition management programme is a voluntary option in our successful pathways to work and around 7,100 people have chosen this option. Of these 17 per cent. were no longer claiming benefits and nine per cent were in work within six months.

The information requested is not available on participants who have similar conditions but who do not volunteer for the condition management programme.

Post Office Card Accounts

Hugh Bayley: To ask the Secretary of State for Work and Pensions how much the Post Office used to receive for each order book payment it made before the introduction of the Post Office Card Account (POCA); what other administrative costs the Government paid in respect of each order book transaction; and if he will estimate the average amount per transaction which the Government lost through fraud when using *(a)* the POCA and *(b)* order books. [52624]

Mr. Plaskitt: The information is not available in the format requested. The cost to the Government of an order book payment prior to the introduction of the Post Office card account was about 68p per foil.

DWP used to lose around £50 million a year through order book fraud and around 100 pensioners had their order book stolen each week.

The introduction of direct payment has removed these risks as payments now go direct into accounts nominated by the customer.

There is currently no evidence of any loss to the Government through fraud in the transmission of payments to the Post Office card account.

Mrs. Humble: To ask the Secretary of State for Work and Pensions how many people in Blackpool, North and Fleetwood constituency use Post Office card accounts to receive benefits and pensions. [56556]

Mr. Plaskitt: The information is not available in the format requested.

Information showing the number of DWP benefit and pension payment accounts paid by direct payment into a Post Office card account for each parliamentary constituency has been placed in the Library.

SERPS

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the weekly state earnings-related pension scheme and second state pension entitlement is for someone retiring with *(a)* 10 and *(b)* 20 years' national insurance contributions. [56996]

Mr. Timms: The requested information is in the following table.

	Additional pension (£)
Entitlement based on 10 years contributions:	27
Entitlement based on 20 years contributions:	55

Notes:
1. All figures have been expressed in 2005–06 earnings terms based on constant median full-time adult earnings.
2. We have assumed standard rate class 1 national insurance contributions have been paid, or treated as paid, during the last 10 and 20 years of the individual's working life.

HOUSE OF COMMONS COMMISSION

Plastic Cups

Mr. Leech: To ask the hon. Member for North Devon, representing the House of Commons Commission (1) what percentage of plastic cups used in the House were recycled in the last period for which figures are available; [55848]

(2) what the cost of providing plastic cups for meetings in the House was in the last year for which figures are available. [55849]

Nick Harvey: The cost of plastic cups provided for Committee and meeting rooms in 2004–05 was £2,887. Plastic cups are currently incinerated as part of the waste stream to generate electricity rather than recycled. A new contract for the supply of disposable catering products is about to be awarded. It is intended that bio-degradable cups will be used in catering outlets and, subject to suitability, in Committee and meeting rooms in place of plastic cups.

CULTURE, MEDIA AND SPORT

Community Radio

Ian Lucas: To ask the Secretary of State for Culture, Media and Sport if she will list the community radio licences which have been granted in England and Wales following the enactment of the Communications Act 2003. [56525]

James Purnell: Ofcom are responsible for the awarding of community radio licences. To date, Ofcom have awarded 68 community radio licences in England and Wales, the details of which they have provided below:

Station name	*Location*
Forest of Dean Community Radio	Coleford and Newent, Forest of Dean
Angel Radio	Havant, Hampshire
Cross Rhythms City Radio	Stoke on Trent
GTFM	Pontypridd
Afan FM	Port Talbot and Neath

Further details can be found on the Ofcom website at www.ofcom.org.uk

Departmental Services (Expenditure)

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport how much *(a)* her Department and *(b)* its agencies spent on (i) electricity use and (ii) water and sewerage services in each year since 1997. [46174]

Mr. Caborn: In the last five years DCMS expenditure is as follows:

£

	Electricity	*Water and sewerage*
2000–01	283,931	n/a
2001–02	273,750	n/a
2002–03	276,019	11,138
2003–04	253,616	11,991
2004–05	224,929	12,846

Data for earlier years are not held centrally and could be provided only at disproportionate cost.

Data for the Royal Parks are as follows:

£

	Electricity	*Water and sewerage*
1997–98	332,323	218,900
1998–99	258,096	231,671
1999–2000	213,269	244,680
2000–01	228,428	237,969
2001–02	208,763	190,426
2002–03	245,005	260,542
2003–04	270,154	292,341
2004–05	270,601	211,058

Digital Television

Mrs. James: To ask the Secretary of State for Culture, Media and Sport what progress has been made in developing proposals to provide assistance to *(a)* pensioners and *(b)* people on low incomes to switch to digital television. [56174]

James Purnell: I refer my hon. Friend to the answer my right hon. Friend the Secretary of State gave to the hon. Member for North East Milton Keynes (Mr. Lancaster) on 6 March 2006, *Official Report*, column 588.

International Sporting Events

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 16 February 2006, *Official Report*, column 2198W, on international sporting events, if she will list the individuals concerned; and for what reasons each is visiting the Commonwealth Games. [56572]

Mr. Caborn *[holding answer 6 March 2006]:* The following table sets out the names and positions of the individuals who are planning to visit the Commonwealth Games and their reasons for doing so, as listed in my answer of 16 February 2006.

At the time of my previous answer, Sport England had planned to send six members of staff to the Commonwealth to represent the organisation; this total subsequently fell to three.

For the sake of completeness, I have included in the list a further seven Sport England employees who were not counted for the purposes of my previous answer because they will not in any way represent or work for Sport England at the Commonwealth Games, but will be seconded either to Team England or to the Commonwealth Games Council for England (CGCE) for the duration of their stay. I have also included David Higgins, who is temporarily on the Department's payroll pending establishment of the Olympic Delivery Authority.

Name	*Position*	*Organisation*	*Reason for travel*
Tessa Jowell MP	Secretary of State for Culture, Media and Sport	DCMS	Official visit to support British teams
Richard Caborn MP	Minister for Sport	DCMS	Official visit to support British teams and attend meeting of Commonwealth Sports Ministers
Helen MacNamara	PPS/Tessa Jowell	DCMS	Accompanying Tessa Jowell
	PS/Richard Caborn	DCMS	Accompanying Richard Caborn
Nicola Roche	Director for Sport	DCMS	Meetings with Australian officials and accompanying Secretary of State
	Press officer	DCMS	Accompanying Richard Caborn
David Higgins	Chief Executive Designate ODA	DCMS	Attending to learn lessons from how Melbourne is staging the Games, how they are handling security and how the delivery of the facilities will leave a sustainable legacy for the city.
Sue Campbell	Chair	UK Sport	Chairing meeting of Commonwealth Advisory Body on Sport (CABOS), various meetings, including lunch with Australian Minister (TBC).
John Scott	International Director	UK Sport	Attending CABOS meeting and others with eg Australian Sports Commission and Sydney Olympic Park Authority.
Liz Nicholl	Director of Performance	UK Sport	Attending International Association of High Performance Sports Training Centres (IAHPSTC) Board Meetings 13–14 March. Taking overview of performances across UK teams.
Peter Keen	Performance Advisor	UK Sport	Attending various meetings, eg with Commonwealth Games Associations. Taking an overview of performances across UK teams.
Darlene Harrison	Coaching Consultant	UK Sport	Attendance at swimming holding camp on Gold Coast and coach seminar at Essendon football club. Pre-arranged meetings with elite coaches across sport in respect of potential future coaching need and numbers for 2012.
Lord Patrick Carter[1]	Chair	Sport England	Representing Sport England
Stephen Baddeley[1]	Interim Chief Executive	Sport England	Representing Sport England

Name	Position	Organisation	Reason for travel
Sir Andrew Foster*	Main Board Member	Sport England	Representing Sport England
Matt Crawcour	Head of Media	UK Sport	Secondment as Press Attaché to Team England

[5] The 13th Commonwealth International Sport Conference takes place on 9–12 March in Melbourne. More information at http://www.cisc2006.com/Pub/pStart.asp

Library Services

Mr. Hollobone: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact on book lending rates and library usage of the level of security and protection in public libraries. [56596]

James Purnell: There are no data gathered which attempt to make the link between lending levels, usage levels and security levels within public libraries. However public libraries are usually regarded as trusted and safe spaces for people to use information, acquire knowledge and enjoy reading and discovery.

The level and type of security employed at public libraries is a matter for the parent authorities.

Licensing

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport what recent representations she has received from local authorities concerning decisions by magistrates on the awarding of costs in cases considered under the Licensing Act 2003. [56331]

James Purnell: The Government have not issued guidance to the Magistrates' Association concerning the Licensing Act 2003 (the 2003 Act). Guidance has been issued to licensing authorities (who are mainly local authorities) under Section 182 of the 2003 Act. It is available from: www.culture.gov.uk/global/publications/archive_2004/guidance_issued_under_section_182_of_the_licensing_act_2003.htm

Satellite Television

Ian Lucas: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the proportion of television viewers in *(a)* the UK, *(b)* Wales and *(c)* Wrexham with satellite television. [56526]

James Purnell: Ofcom estimates that 32 per cent. of UK households either subscribe to digital satellite television or receive the free-to-view satellite services. Figures for individual nations or areas are not available at present, although Ofcom will be publishing a report from its Audit of the Nations and Regions in the spring.

TV Licences

Mr. Gregory Campbell: To ask the Secretary of State for Culture, Media and Sport how many addresses in the UK are on the database of TV Licensing as having a television set on the premises. [56414]

James Purnell: I understand that the Television Licensing database records the number of premises with a television licence, rather than the number with a television set. As at March 2005 the number of addresses with a licence was 24.7 million and the estimated television licence evasion rate was 5 per cent.

CABINET OFFICE

Civil Service (Political Activities)

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster when the civil service restrictions on political activities will commence in relation to the 2006 local elections. [56223]

Mr. Jim Murphy: Guidance on this will be issued very shortly.

Departmental Estate

Mr. Liddell-Grainger: To ask the Chancellor of the Duchy of Lancaster what building work other than the installation of security measures has been undertaken at the Cabinet Office in the last three years. [55280]

Mr. Jim Murphy: Building work other than the installation of security measures undertaken at the Cabinet Office in the last three years are as follows:

External cleaning, repairing of stonework and window repainting

Structural work to basements and floor

Internal refurbishment and redecoration

Replacement of flooring

Roof repairs and new access ladder

General building works to enable occupancy

Electrical works

External and internal repairs following water damage

General building repairs

Refurbishment and reinstating of staircases

Re-building of a retaining wall

Construction of new training and student accommodation facilities.

The works specified are part of a continuing programme of works to maintain standards appropriate to a particular buildings role and do not include day-to-day works and planned preventative maintenance.

Ecovert FM

Mr. Liddell-Grainger: To ask the Chancellor of the Duchy of Lancaster how much has been paid to Ecovert FM to control rodents in the Cabinet Office since the beginning of their contract. [55310]

Mr. Jim Murphy: Figures paid to Ecovert FM to control pests, including rodents, in the Cabinet Office since the beginning of the contract are shown in the table. The amounts paid to specifically control rodents cannot be separately identified.

Pest control costs

	Cost (£)
2002–03	25,932
2003–04	26,822
2004–05	27,724

Office of the Civil Service Commissioners

Mr. Laws: To ask the Chancellor of the Duchy of Lancaster when the Office of the Civil Service Commissioners will *(a)* acknowledge and *(b)* answer the e-mail of 21 January 2006 from Mr. Michael Canton, a constituent of the hon. Member for Yeovil. [56389]

Mr. Jim Murphy: The Civil Service Commissioners are independent of government. I understand a reply was sent from the Office of the Civil Service Commissioners to Mr. Canton on 2 March 2006.

Special Advisers

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster how many special advisers worked in the Cabinet Office between 8 September 2004 and 6 May 2005; and what the *(a)* salary and *(b)* responsibilities of each were. [56798]

Mr. Jim Murphy: I refer the hon. Member to the answer given to him by my right hon. Friend the Prime Minister on 30 January 2006, *Official Report*, columns 63–64W.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Henderson: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* estimate his Department has made and *(b)* authoritative estimate his Department has received on the value of (i) poppy growth to the farming community in Afghanistan and (ii) the trade based on poppy farming to the Afghan economy. [56466]

Dr. Howells: The Foreign and Commonwealth Office relies on the United Nations Office on Drugs and Crime (UNODC) for data on the value of opium production both to the farming community and in terms of its total export value to neighbouring countries.

According to UNODC's Afghanistan Opium Survey (AOS) the total farm-gate value of opium production was US $560 million in 2005, equivalent to 11 per cent. of GDP (2004–05). An estimated 309,000 families were involved in opium cultivation in 2005.

Again according to the UNODC's AOS, the total export value of opium to neighbouring countries was US $2.7 billion, equivalent to 52 per cent. of GDP (2004–05). Of this US $2.14 billion is thought to have gone directly to Afghan traffickers.

Algeria and Ivory Coast

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in *(a)* Algeria and *(b)* Ivory Coast. [56016]

Ian Pearson: Algeria's President Bouteflika was voted in for a second term of office in April 2004, in elections judged by independent monitors to reflect the will of the Algerian people. Algeria has since continued to enjoy increasing security and political stability. In September 2005, the Algeria people voted in a referendum for a Charter for Peace and National Reconciliation. We welcomed the participation of the Algeria people in this process. Algeria strengthened its links with the EU when its Association Agreement under the EU's Euromed partnership came into force in autumn last year.

The peace process in Côte d'Ivoire is at a critical stage. International mediation efforts are continuing with the aim of completing all the necessary work needed for elections to be held before the 31 October deadline set by the African Union and UN. We fully support the international community in this role. A meeting was held in Yamoussoukro on 28 February which was attended by key Ivorian figures. We warmly commend this meeting as a useful step in creating a greater understanding between all the parties involved.

British Overseas Territories

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance he issues to officials from his Department on the grade of official appropriate to conduct meetings and negotiations with senior elected leaders of British Overseas Territories during official visits to the UK. [55791]

Mr. Douglas Alexander: There is no formal guidance. Senior visitors are seen at whatever level is appropriate for the subject to be discussed. This could be the Minister responsible for the Overseas Territories, my noble Friend the Foreign and Commonwealth Office Parliamentary Under-Secretary of State, Lord Triesman of Tottenham, the responsible Director, the Head of Department, or the appropriate Desk Officer.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance his Department is giving to British Overseas Territories to negotiate their share of EU regional grants. [55853]

Mr. Douglas Alexander: The UK Overseas Territories (OTs) are not eligible for regional grants from the European Regional Development Fund as they are not full members of the EU. Rather, they are associated to the EU through the UK, their "parent" member state, and their access to EU funding is governed by the Council Decision of 27 November 2001 on the association of the overseas countries and territories with the European Community (Overseas Association Decision). The main source of funding for the OTs is a specific allocation within the European Development Fund. They are also eligible to benefit from other budget lines and community programmes set out in Annex II E and II F of the Overseas Association Decision.

To give practical support to the UK OTs, my Department has a member of staff whose primary functions are to assist the Territories in accessing EU funding, and to represent their interests at the European Union. In this he works closely with members of the Office of the United Kingdom Permanent Representative to the European Union.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 9 February 2006, *Official Report*, columns 1449–50W, on elections, if he will seek treaty changes providing for other British overseas territories to become part of the European Union and their citizens to be entitled to vote in European parliamentary elections. [55947]

Mr. Douglas Alexander: No. Gibraltar's position is unique. The implications of extending UK membership of the EU to the other Overseas Territories are very wide-ranging. It would fundamentally affect the relationship between the UK and the Territories. There is no indication that the Territories would welcome this.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to help British overseas territories to gain access to EU markets. [55948]

Mr. Douglas Alexander: The UK Overseas Territories' (OTs) access to EU markets is governed by the Council Decision of 27 November 2001, on the association of the overseas countries and territories with the European Community ("Overseas Association Decision"), which was agreed between member states. The Territories were not involved directly in the discussion of the Decision, but were consulted by their "parent" member state (the UK). The Decision contains a section dealing with economic and trade co-operation between the overseas territories and the European Community. The Preferential Trade Regime is, we understand, the most beneficial ever granted by the EU in terms of market access.

The Current Decision covers the period 2001–11. The UK OTs will again be consulted when the Decision comes up for review, which we expect to be towards the end of the current period.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to ensure that all representatives of British overseas territories are able to place a wreath on the Cenotaph on Remembrance Day. [56503]

Mr. Douglas Alexander: It is the long-standing practice for my right hon. Friend the Foreign Secretary to lay a wreath on behalf of all the Overseas Territories. I remain of the view that this is the most appropriate arrangement.

Burundi

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received of possible torture and serious misconduct by government police and intelligence agents in Burundi; and if he will make a statement. [56684]

Ian Pearson: We have received reports of human rights violations, including summary executions, arbitrary arrests and detentions, torture and ill-treatment implicating the national security forces. We have raised our concerns with the Burundian Government. At the Partners Conference in Bujumbura on 28th February, the UK stressed the importance we attach to the promotion and protection of human rights. We continue to monitor the situation closely, including through the United Nations and partners in non-governmental organisations. We will continue to encourage the Burundian Government to respect international humanitarian law and to bring to account those who flout it.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* members and *(b)* representatives of the Government of Burundi concerning their commitment to establishing a Truth and Reconciliation Commission and a special chamber within the Burundian court system to deal with serious violations of international humanitarian law during the civil war; what assistance (i) he has offered and (ii) has been (A) requested and (B) accepted; and if he will make a statement. [56685]

Ian Pearson: The Government fully supports the fight against impunity. We believe proposals put forward last year for a Truth and Reconciliation Commission and Special Chamber are the best way forward in terms of justice for crimes past and for national reconciliation. The Government of Burundi has sought support from the UN Peacekeeping Mission to Burundi on putting these bodies in place and we understand a UN team will be visiting Burundi to discuss detail with the government. It is not yet clear what technical or financial assistance will be required, but the UK stands ready to help. We continue to raise issues of justice and reconciliation with the Government, and to encourage them to tackle human rights abuses.

Canada

Mr. Martlew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions on the Canadian seal hunt he had with the Canadian Foreign Minister during their recent meeting; and if he will make a statement. [56759]

Ian Pearson: My right hon. Friend the Foreign Secretary did not raise the Canadian seal hunt with the Canadian Foreign Minister. However, during an introductory telephone call on Monday 27 February 2006, my right hon. Friend the Secretary of State for Trade and Industry raised the seal hunt with Canadian Minister of International Trade.

Correspondence

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letters from Mr. R. G. Ford, a constituent of the hon. Member for Shrewsbury, of 5 January and 25 February. [55663]

Dr. Howells: UKvisas responded to Mr. Ford's letter of 5 January on 1 March, on behalf of my right hon. Friend the Foreign Secretary. The Foreign and Commonwealth Office (FCO) did not receive Mr. Ford's letter until 30 January.

The FCO has not yet received Mr. Ford's letter of 25 February.

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) when he will reply to the letters from the right hon. Member for Birmingham, Ladywood, dated 20 January and 3 February requesting him to receive a delegation of Parliamentarians and lawyers representing the British residents detained at Guantanamo Bay; [56908]

(2) when he will reply to the letter from the right hon. Member for Birmingham, Ladywood, requesting a meeting with Parliamentarians and lawyers regarding British residents detained at Guantanamo Bay. [56905]

Mr. Straw: I replied to a letter dated 19 January about Guantanamo Bay on 10 February. There is no record of the Foreign and Commonwealth Office receiving a letter dated 20 January on this subject. A letter dated 30 January on this subject was received and a reply issued on 7 March. The letter dated 3 February was answered on 1 March 2006.

Defence Export Services Organisation

David Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings officials in his Department have had with their counterparts in the Defence Export Services Organisation at the Ministry of Defence since 18 March 2003. [56322]

Mr. Douglas Alexander: A wide range of Foreign and Commonwealth Office (FCO) officials have contact with Defence Export Services Organisation (DESO) officials. DESO officials also work in some of our missions abroad. There is no record of the number of meetings between FCO and DESO officials. Accurately calculating this number would not be possible.

Democratic Republic of the Congo

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with members of the World Bank on the activities of Gecamines in the Democratic Republic of Congo; and if he will make a statement. [56681]

Ian Pearson: The activities of the Democratic Republic of Congo (DRC) state-owned mining company Gecamines (La Generate des Carrieres et des

Mines) and other state-owned enterprises, form part of our regular discussions with members of the Congolese Government and relevant international organisations, including the World Bank. In all these discussions, we have made clear that corruption within state enterprises must be eradicated so that the DRC's mineral wealth can be exploited for the benefit of the whole population.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the co-operation provided by *(a)* Uganda and *(b)* Rwanda to the United Nations with regard to the illegal trade in minerals from the Democratic Republic of Congo; and if he will make a statement. [56682]

Ian Pearson: While there is no UN embargo on the trade of minerals from the Democratic Republic of the Congo (DRC), the UN Group of Experts on the DRC arms embargo has been investigating the links between resource exploitation and the import of weapons by armed groups and militias in DRC. They have sought information from the Governments of the DRC, Rwanda and Uganda relating to cross-border trade in natural resources, but have not yet received the co-operation they hoped for.

The Group of Experts met with representatives of all three regional governments to underline its continuing concerns. The UK, along with other UN Security Council (UNSC) members, has also urged governments at the highest level during UNSC missions to Central Africa to co-operate with the Group of Experts.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* levels and *(b)* origin of (i) financial and (ii) logistical support provided to non-governmental armed groups in eastern Democratic Republic of Congo since 2003; and if he will make a statement. [56683]

Ian Pearson: Recent events indicate that militia groups operating in the east of the Democratic Republic of Congo remain well-supplied. The most recent report by the United Nations Group of Experts on the UN arms embargo indicated that illegal exploitation of natural resources and cross-border trade contribute significantly to the funding of these armed groups.

The Government strongly support the UN and EU arms embargoes. In November 2005, the UN Sanctions Committee agreed a list of individuals and organisations responsible for arms embargo violations as provided for in UN Security Council Resolution 1596. These violators are now targeted with asset freezes and travel bans. We continue to work with Security Council partners to improve implementation of the arms embargo.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the level of government control and accountability of the OKIMO mining authority in eastern Democratic Republic of Congo; and if he will make a statement. [56742]

Ian Pearson: The recent report by the Democratic Republic of Congo (DRC)'s Parliamentary Commission into contracts signed during the DRC's civil war (the Lutundula Commission) concluded that the gold production company OKIMO (Office des Mines d'Or de Kilo-Moto) had been poorly managed. As a result, the report said that OKIMO had not provided the revenue to the Congolese state that it should have.

We, and international partners and non-governmental organisations, continue to press the Congolese authorities to ensure that the DRC's enormous mineral wealth be used transparently and efficiently for the benefit of the Congolese people.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of *(a)* the overall security situation and *(b)* the level of infrastructural readiness in Democratic Republic of Congo with regard to the proposed June date for elections; and if he will make a statement. [56754]

Ian Pearson: The security situation in the Democratic Republic of the Congo (DRC) remains fragile. Despite the United Nations Peacekeeping Mission (MONUC)'s operations against armed groups, militias and ill-disciplined Congolese army soldiers continue to persecute civilians. We continue to support MONUC's robust approach to protecting civilians and tackling militias.

The DRC is making progress towards holding elections by June 2006. The new constitution has been promulgated, and the electoral law has been agreed by Parliament. The size of the country and its lack of infrastructure bring immense logistical challenges, but the successful referendum on 18 December shows that these are surmountable. We and EU partners will continue to contribute logistical support through the UN and to press all parties to respect the transitional process, stick to the timetable and ensure the elections are free and fair.

Departmental Telephone Numbers

Anne Milton: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public administered by (i) his Department and (ii) agencies which report to him. [56538]

Dr. Howells: The Foreign and Commonwealth Office operate one 0845 telephone number for use by the general public. This number is used for travel advice enquiries. The number is 0845 850 2829.

Egypt

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the decision by the Government of Egypt to postpone local council elections for two years and *(b)* the possible impact this will have upon the transition to democracy in Egypt. [55447]

Dr. Howells: The People's Assembly approved legislation on 14 February which postponed local government elections for two years, to allow efforts to reform local government on more democratic and decentralised principles. President Mubarak pledged to undertake political reform during his election campaign for the first ever multi-party presidential elections.

Gibraltar

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with Spain about Gibraltar. [56820]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary and I are in frequent contact with our Spanish opposite numbers on a range of issues, including Gibraltar.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made on negotiations over Gibraltar's constitution. [56837]

Mr. Douglas Alexander: Following the tabling of proposals to reform the 1969 Constitution by the Chief Minister of Gibraltar in December 2003, there have been two rounds of discussions between Foreign and Commonwealth Office officials and a cross-party Gibraltar delegation. Substantial progress has been made, although a number of outstanding issues remain. These remaining issues will be discussed at talks scheduled to take place in London on 15–17 March.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how much is allocated to promote tourism to Gibraltar in 2005–06; and if he will make a statement. [56838]

Mr. Douglas Alexander: The UK Government does not provide funding for tourism to Gibraltar. This falls to the Government of Gibraltar, which has an official tourist office in London for this purpose.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK citizens have taken up residency in Gibraltar in each of the last seven years. [56842]

Mr. Douglas Alexander: According to the Civil Status and Registration Office of Gibraltar, the numbers of UK citizens taking up residency in Gibraltar in each of the last seven years have been as follows:

	Number
2005	360
2004	241
2003	154
2002	145
2001	158
2000	113
1999	104

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to improve indigenous industry on Gibraltar. [56851]

Mr. Douglas Alexander: None, this is a matter for the Government of Gibraltar.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the government of Gibraltar on increasing desalination capacity. [56853]

Mr. Douglas Alexander: None.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans the Government have to encourage more flights between Gibraltar and the UK. [56855]

Mr. Douglas Alexander: None. The frequency of flights between Gibraltar and the UK is a commercial matter for the airline companies concerned.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent official visits have been made by *(a)* members of the Royal Family and *(b)* Ministers to Gibraltar. [56857]

Mr. Douglas Alexander: The most recent visit to Gibraltar by a member of the Royal Family was by Her Royal Highness the Princess Royal in June 2004, and by a Minister in February 2005, when the Minister of State for the Armed Forces (right hon. Adam Ingram) visited.

Haiti

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on relations between the UK and Haiti. [55585]

Mr. Douglas Alexander: Historically there has not been a close relationship between the UK and Haiti, and direct UK interests in Haiti are limited. The British embassy in the Dominican Republic has responsibility for British interests in Haiti, and our ambassador to the Dominican Republic makes regular visits. The UK also maintains a locally engaged vice-consul in Port-au-Prince, although the consulate's public operations are currently temporarily suspended due to the security situation.

The Government continue to support EU and UN efforts to alleviate the considerable levels of poverty that exist in Haiti and to bring security to the country.

High Commission Offices

Chris Ruane: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings High Commission staff based in South Africa have had with government officials in Lesotho since the withdrawal of the High Commission in Lesotho. [56202]

Ian Pearson: Our High Commission staff in Pretoria have regular and frequent contact with government officials in Lesotho. Our High Commissioner to South Africa, Lesotho and Swaziland presented his credentials to the King of Lesotho on 20 October 2005. He was accompanied by the Deputy High Commissioner, Regional Affairs Officer and Press Officer. While there, they met the Prime Minister, Deputy Prime Minister, Ministers of Home Affairs, Finance and Agriculture, the Acting Foreign Minister and officials from the Ministry for Foreign Affairs and Finance Minister's office. On 17 November, the High Commissioner and Regional Affairs officer met the Ministers of Finance and Trade and the Acting Minister of Foreign Affairs. Staff from the High Commission also visited Lesotho in October 2005 and February 2006. The High Commissioner and his staff have also met Prince Seeiso, Lesotho's High Commissioner to London.

Chris Ruane: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the withdrawal of the High Commission in *(a)* Lesotho and *(b)* Swaziland on relations between each country and the UK. [56205]

Ian Pearson: We continue to enjoy full diplomatic relations with the Governments of Lesotho and Swaziland. We have regular contact with the High Commissioners of Lesotho and Swaziland in London and, through our High Commission in Pretoria, with government and civil society in both countries. When our High Commissioner to Pretoria visited Lesotho to present his credentials on 20 October 2005, he discussed our bilateral relationship, debt relief to Lesotho and the situation in Zimbabwe with King Letsie III, and other members of the Lesotho Government. When he presented his credentials in Swaziland on 16 February 2006, he discussed with King Mswati III and Prince David, Minister for Justice and Constitutional Affairs and Acting Foreign Minister, the questions of human rights, governance, the rule of law in Swaziland and the situation in Zimbabwe and its impact on Swaziland.

Holy See

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent on *(a)* refurbishment, *(b)* redecorations and *(c)* furnishings for (i) the embassy and (ii) the ambassador's residence to the Holy See in the past five years; and if he will make a statement. [54315]

Mr. Douglas Alexander: In the past five years, £129,970.03 was spent on refurbishment of the embassy (this includes £100,975 to prepare the new offices on the Porta Pia compound); £13,888.88 was spent on redecoration of the old embassy offices; and £12,108.49 was spent on furnishings (£10,054 for the new offices).

In the past five years, £48,355.68 was spent on refurbishment of the residence; £26,150.32 on redecoration; and £86,964.37 on furnishings.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* agreements and *(b)* treaties exist between the United Kingdom and the Holy See; and if he will make a statement. [54316]

Mr. Douglas Alexander: There are no formal bilateral agreements or treaties existing between the United Kingdom and the Holy See.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what undertakings were entered into by both parties following the restoration of full diplomatic representation between the United Kingdom and the Holy See in 1982; whether these have been varied by either party since; and if he will make a statement. [54317]

Mr. Douglas Alexander: We have not entered into any binding undertakings with the Holy See since the restoration of full diplomatic relations between the UK and the Holy See in 1982.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what the costs were of *(a)* the lease of the ambassador's residence to the Holy See which is to be surrendered in April and *(b)* the lease of the new residence; and if he will make a statement; [54433]

(2) what the size in square metres is of the residence of the ambassador to the Holy See which will be surrendered in April; and what the size of the new residence is. [55756]

Mr. Douglas Alexander: The rent for the residence of Her Majesty's ambassador to the Holy See under the lease to be surrendered in April is €11,020.22 per calendar month, rising to €11,262.66 in the final two months to reflect annual indexation. A short-term extension has been agreed at a rent of €25,000.00 per calendar month, the current market rate, pending relocation to a new permanent residence. The current residence is 823m^2. We are currently looking for a new residence.

Iran

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he will be taking at the UN Security Conference following the confirmation that Iran is testing a cascade of 20 centrifuges at its Natanz pilot uranium-enrichment plant. [56711]

Dr. Howells: At the request of the International Atomic Energy Agency's (IAEA) Board of Governors, the IAEA Director General wrote to the President of the United Nations Security Council in February, reporting steps required of Iran by the board. Our aim in involving the Security Council is to reinforce the IAEA's authority, and to put the weight of the Security Council behind the board's requests. We will be in close contact with other Security Council members in the coming weeks.

Kenya

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the action taken by the Government of Kenya against the Kenyan media. [56861]

Ian Pearson: In a statement issued on 2 March, we, along with 26 nations, strongly condemned the raids on Kenya Television Network's studios and the offices of the Standard Group, as well as the closing down of their operations. This action constitutes an unacceptable attack on the freedom of the media.

We call upon the Government of Kenya to issue an immediate and comprehensive statement about the incident and explain what actions it will take to investigate what eye-witness reports suggest were cases of assault, theft, unlawful destruction of property, kidnapping and harassment.

Liberia

Mr. Paul Murphy: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the humanitarian situation in Liberia. [55832]

Ian Pearson: Crimes were committed against all parts of society, although particularly against women and children, during the long civil war in Liberia. Hundreds of thousands fled. Around 250,000 Liberians have returned home since the beginning of October 2004, but some 60,000 remain in camps. Most are, or have been, supported by the United Nations High Commission for Refugees.

Soldiers, many of whom were children, have been disarmed and demobilised (DD), and the rehabilitation and reintegration (RR) process continues. The Government strongly supports the DDRR process.

Following the successful election process in Liberia, the UK is now looking to how best to target our assistance in 2006. We are starting to focus on justice sector reform and are currently working with the United Nations to deliver access to justice for all in Liberia.

Pakistan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with the Pakistani authorities the progress made in recovering foreign nationals from madrassas in Pakistan. [56347]

Dr. Howells: We already discuss this important issue with the Government of Pakistan. We welcomed the announcement made by President Musharraf in July 2005 to expel foreign students from Pakistani madrassas. We will continue to encourage him and the Pakistani Government to maintain their efforts in this respect and to promote a tolerant society, devoid of extremism. The UK continues to assist with this: education remains a core focus of our expanding development presence in Pakistan. Our ongoing discussions with the Pakistani authorities regularly include the role of madrassas and inter-faith relations.

People Trafficking

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with Germany on a possible rise in prostitution and trafficking of women during the football World Cup. [56588]

Dr. Howells: The matter was discussed at the Council of Justice and Interior Ministers on 21 February. My noble Friend the Parliamentary Under-Secretary of State for Constitutional Affairs (Baroness Ashton of Upholland) and my hon. Friend the Minister of State for Home Affairs (Tony McNulty) attended. EU member states are examining ways to tackle the potential rise in prostitution and trafficking of women problem through increased co-operation. As a first step the EU Presidency will prepare a paper for discussion at the next Council of Justice and Interior Ministers in April.

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the possible impact on the trafficking of women of the incidence of major international *(a)* sporting and *(b)* other events. [56593]

Dr. Howells: Given the clandestine nature of the crime, it is hard to assess the extent of trafficking of women, particularly in relation to specific events. However, the Government are committed to tackling the serious problem of trafficking wherever and whenever it occurs. We are working hard to improve our understanding of the problem and its relationship with other events.

Russia

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Russia on the exporting of arms where there is a risk that they might be used to commit human rights abuses. [55505]

Dr. Howells: We have a wide-ranging dialogue with Russia both bilaterally and through the EU, on both human rights and export control issues. Most recently, a cross Whitehall delegation visited Moscow on 20 February to discuss building support for an international treaty on the trade in all conventional arms, which included how such an instrument might prevent transfers where there is a clear risk that they might be used to commit human rights abuses. These contacts will continue.

Somaliland

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with representatives of Somaliland. [55507]

Ian Pearson: My noble Friend, the Foreign and Commmonwealth Office Minister for Africa, Lord Triesman of Tottenham, met the Somaliland authorities' Foreign Affairs Spokesperson, Her Excellency Edna Adan, in London on 20 May 2005. Foreign and Commonwealth Officials visit Somaliland regularly, most recently Hargeisa from 31 January to 2 February 2006 to observe the operation of Parliament following the successful elections in Somaliland of September 2005. We have also had discussions with representatives of the Somaliland authorities, international community and civil society on practical issues of mutual interest. Our ambassador in Addis Ababa met with the Head of the Somaliland authorities His Exellency Dahir Rayale Kahin on 27 January.

Sri Lanka

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution he is making to the process of Sri Lankan peace talks. [56819]

Dr. Howells: The Government continue to work with EU and international partners in support of the Norwegian facilitation effort to strengthen the implementation of the Ceasefire Agreement between the Government of Sri Lanka, and the Liberation Tigers of Tamil Eelam (LTTE). My hon. Friend the Foreign and Commonwealth Office Minister for Trade (Ian Pearson), met representatives of the Sri Lankan Government and Tamil Parliamentary parties during his visit to the island on 19–20 January. He advocated to all the need for a constructive approach to the talks. We seek to maintain a regular dialogue with the Government of Sri Lanka and Tamil parliamentary

representatives, and encourage all sides to improve implementation of the Ceasefire Agreement, and indeed the wider peace process.

Sudan

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans have been presented to the UN Security Council regarding the *(a)* size and nature and *(b)* mandate of a UN mission to Darfur; and if he will make a statement. [56439]

Dr. Howells: The UN Security Council has yet to be presented with any plans regarding the size and nature or mandate for a UN Mission in Darfur. On 3 February, the Security Council requested the UN Secretary-General to initiate contingency planning jointly with the African Union (AU), the Security Council, and the parties to the Abuja Peace Talks, including the Government of National Unity, on a range of options for a possible transition from the AU Mission in Sudan to a UN operation. This planning is in its early stages. The UK is contributing one military and one police planner to the UN team. Once the planning process is complete, options will be put before the UN Security Council.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Secretary of State for Defence on the UK's contribution to the planned UN mission to Darfur; and if he will make a statement. [56440]

Dr. Howells: My noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, and my right hon. Friend the Foreign Secretary, have regular discussions about all aspects of the situation in Darfur with colleagues in the Ministry of Defence and the Department for International Development. There are also regular and comprehensive discussions between Government officials on how any transition from the African Union Mission in Darfur to a UN Operation would be managed and how we and other international partners could assist, including through provision of planning and logistical support.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what contingency plans have been drawn up by the United Nations for the planned handover of the African Union mission to Darfur to the United Nations; and if he will make a statement. [56469]

Dr. Howells: On 12 January 2006, the Peace and Security Council (PSC) of the African Union (AU) expressed its support, in principle, for a transition from the AU Mission in Sudan (AMIS) to a United Nations operation. Consequently, on 3 February, the Security Council requested the Secretary General to initiate contingency planning on a range of options for a possible transition from AMIS to a UN operation jointly with the African Union, the Security Council, and the parties to the Abuja Peace Talks, including the Government of National Unity. The Secretary-General has initiated this planning, which is now in its early stages. An options paper has yet to be presented to the Council. A final decision by the AU PSC on whether to request a transition of the mission to UN command is expected on 10 March 2006.

Thailand

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of the *(a)* security and *(b)* political situation in Thailand; and if he will make a statement. [56752]

Ian Pearson: We monitor and regularly review security issues and significant political developments in Thailand, as in all countries. As far as the political situation is concerned, the Thai Prime Minister Thaksin has recently announced the dissolution of Parliament. A general election is set for 2 April. Opposition groups and the Government have organised several political rallies in Bangkok. All have passed off peacefully to date. We regularly update our Travel Advice to warn when and where the rallies are due to take place.

On security, the main concern is the continuing violent insurgency in the far south of Thailand. Our Travel Advice recommends against all but essential travel to the four provinces affected.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* members and *(b)* representatives of the government in Thailand on the on-going protests against Prime Minister Thaksin Shinawatra; and if he will make a statement. [56753]

Ian Pearson: My right hon. Friend the Foreign Secretary has not had the opportunity for discussion with members, or representatives, of the Royal Thai Government on the on-going political demonstrations in Thailand. Officials in the embassy in Thailand, however, have regular discussions with the Royal Thai Government and others on this and a wide range of other issues.

Tibet

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent research he has *(a)* commissioned and *(b)* evaluated on the (i) use of torture and (ii) number of political prisoners in Tibet; and if he will make a statement. [56527]

Ian Pearson: The Government are very concerned about torture and the detention of individuals on political grounds in Tibet. We have not commissioned research into incidences of torture in Tibet. We regularly raise our concerns about Tibetan prisoners, including at a high level. We strongly supported the visit to China by the UN Special Rapporteur on Torture, Manfred Nowak, in November 2005. He subsequently said that he believed that torture, though on the decline, particularly in urban areas, remained widespread and that this was increasingly recognised by Chinese officials. We agree with this assessment and hope that the Chinese Government will consider carefully the rapporteur's recommendations when they issue, with a view to making a wholehearted effort to implement them.

Venezuela

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of Chinese-Venezuelan relations; whether he has received representations from Venezuela concerning oil export policies; and if he will make a statement. [56264]

Mr. Douglas Alexander: Bilateral relations between China and Venezuela are a matter for the two countries concerned. We support the development of a strong multilateral system of cooperation on all issues between all countries.

We have received no recent representations from the Venezuelan authorities about oil export policies. However, we continue to have regular dialogue with Venezuela about energy related issues.

INTERNATIONAL DEVELOPMENT

International Tax Co-operation

Andrew George: To ask the Secretary of State for International Development what steps his Department is taking to implement Paragraph 64 of the Monterrey Consensus relating to international tax co-operation. [55055]

Dawn Primarolo: I have been asked to reply.

The UK plays a leading role in encouraging international cooperation on tax issues. HM Revenue and Customs is active in capacity building for developing economies in a range of tax-oriented programmes. This includes running two programmes of training for tax inspectors from Commonwealth countries each year, contributing to the large OECD outreach programme aimed at developing and transition economies as well as individual development projects. The UK participates in the newly structured UN Intergovernmental Commission on Tax and in the multilateral International Tax Dialogue, which brings together the work of the OECD, World Bank and IMF.

Poverty/Wealth Inequality

Mr. Jim Cunningham: To ask the Secretary of State for International Development what recent assessment he has made of levels of *(a)* poverty and *(b)* wealth inequality in (i) India, (ii) Nigeria, (iii) Russia and (iv) China. [56382]

Mr. Thomas: The information requested is as follows.

India

The DFID office in India regularly assesses progress on poverty reduction and other Millennium Development Goals (MDG)s. These assessments are based on official Government of India statistics, but take into account concerns over the quality of data and independent assessments where appropriate.

The most recent assessment of progress at the national level was undertaken in September 2004, and concluded that India is on track to meet the MDG target of reducing the proportion of people living on under a dollar a day by 2015. The estimate of poverty used in that assessment is based on the most recent large scale National Sample Survey of the Government of India, carried out in 2000. The actual proportion of the population living in poverty was assessed as 29 per cent. according to the national poverty line, and 35 per cent. according to the international ($/day) poverty line, or between 300 million and 360 million people in poverty, depending on which poverty line is used. Results from the next large-scale National Sample Survey are expected to be published in 2006 or 2007, at which point it will be necessary to update our assessment.

Assessments of inequality in India carried out by DFID, have to date focused mainly on geographical inequality, which is acknowledged to be increasing and is high on the Indian government's agenda. The aggregate picture at national level masks wide variations between states and districts. Among the four focal states for direct DFID assistance alone, (Andhra Pradesh, Madhya Pradesh, West Bengal and Orissa) estimates for 2000, using the national poverty line, range from 16 per cent. (Andhra Pradesh) to 47 per cent. (Orissa). There are similar disparities with respect to the other MDGs.

An assessment of trends in income distribution was undertaken as part of an India case study on Operationalising Pro-poor Growth commissioned by DFID's central Policy Division in 2005. This concluded that, while there is evidence of growing inequality since the early 1990s, economic growth has been sufficiently strong to generate substantial poverty reduction in spite of this.

Nigeria

DFID monitors poverty and inequality measures and participates in initiatives to generate new knowledge on these matters in Nigeria.

The most recently completed national exercises covering poverty and inequality in Nigeria is the Demographic and Health Survey 2003. This presents data on a range of social and socio-economic indicators, including: employment patterns, infant and child mortality, maternal and child health, fertility, and family planning, and is analysed by a range of categories including geographical zone, age, sex and wealth. One of the key findings is that while levels of poverty across much of Nigeria are high by any standard, they are significantly higher in northern Nigeria.

DFID Nigeria is heavily involved in a range of ongoing initiatives at the national level that will generate important new knowledge on poverty and inequality. These include the National Poverty Assessment (NPA), the Nigerian Census 2006, and the national Core Welfare Indicators Questionnaire.

The NPA will provide a comprehensive analysis across five areas: poverty profile, inequality and poverty, the MDGs, health and education, and rural poverty. Key results include the following: absolute poverty (using a minimum calorific requirement of 2,900 calories per day for the average Nigerian) and $/day poverty lines suggest that between 50–55 per cent. of Nigerians live in poverty; levels of income poverty at state level are close to 90 per cent. in some northern states and are generally significantly lower in the south; the Gini co-efficient—a standard measure of income inequality—is close to 0.5, which is high by international standards and has recently been cited as the mark at

which the poverty returns to growth tend towards zero; income inequalities within states are lowest in northern Nigeria and highest in certain southern regions (over 0.5).

Russia

In Russia, DFID relies on poverty and inequality assessments made by international organisations such as the United Nation Development Programme (UNDP) and the World Bank. DFID Russia provides assistance through the World Bank to help improve the quality of poverty assessments made by the Russian Government. In addition, DFID programmes in two regions; Leningrad and Nizhny—provides funds to carry out (for the first time in Russia) household budget surveys to assess levels of regional poverty and help target scarce resources to address poverty and support to vulnerable groups.

China

Latest estimates derived from an ongoing DFID funded participatory poverty assessment (PPA) suggest that the number of people living below US$1 per day fell from 33 per cent. of the population in 1990 to about 10.4 per cent. of the population; around 135 million people, in 2004. China has therefore met the income poverty Millennium Development Goal but there remain pockets of extreme poverty, for instance, in remote mountainous areas, amongst ethnic minorities or within vulnerable groups such as the elderly and disabled. The PPA suggests that some 93 per cent. of the absolute poor are rural with another 6 per cent. being rural to urban migrants. About one in two poor people live in the Western provinces, which have 29 per cent. of the population. Chinese official estimates currently suggest 26 million people are living in poverty. However, this group is best characterised as extremely poor, as China's poverty thresholds are low both by international standards and in terms of adequate coverage of basic needs.

Progress against non-income dimensions of poverty has been slower than might have been expected from China's average 9 per cent. growth rate since 1990. While China is ahead of target on access to universal primary education, progress on HIV and AIDS, tuberculosis, environmental sustainability including access to water and sanitation, and gender equality is lagging. Continuing effort will still be required to meet child and maternal mortality goals if China is to remain on track to meet these.

CONSTITUTIONAL AFFAIRS

Asylum Seekers (Legal Services)

Ms Abbott: To ask the Minister of State, Department for Constitutional Affairs how much funding has been made available for legal services for women asylum seekers in the UK in the last three years for which figures are available. [56618]

Bridget Prentice: It is not possible to split asylum expenditure from overall expenditure in the immigration and asylum category. Also the gender of those seeking advice and representation does not form part of the eligibility criteria and so is not always recorded. Overall spending on immigration and asylum during the last three years in England, Wales, and Northern Ireland, including administration[1] was as follows:

[1] Includes policy and operational resource costs attributed to immigration and asylum.

	£ million
2002–03	176.2
2003–04	200.5
2004–05	177.4

The figures do not include funding in Scotland as funding is approved separately by the Scottish Parliament.

Cemetery Safety

Mr. Spring: To ask the Minister of State, Department for Constitutional Affairs pursuant to her answer of 27 February 2006, *Official Report*, column 110W, on cemetery safety, under what legal authority burial authorities test private cemetery memorials; what penalties are imposed on burial authorities which do not check the safety of memorials; and what percentage of burial authorities have not yet taken steps to check memorials. [56459]

Ms Harman: Under the Local Authorities' Cemeteries Order 1977, local authorities have a general power to do whatever they consider necessary or desirable for the proper management, regulation and control of their cemeteries, and may put and keep in order any tombstone or other memorial.

Such authorities also have duties under health and safety legislation to ensure the safety of their employees, the visiting public or contractors. Safe systems of work are an essential element. Failure to comply with statutory duties can lead to prosecution and a penalty.

Information on the extent to which local authorities have so far undertaken the testing of memorials is not recorded centrally.

Census 1911

Mr. Arbuthnot: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 27 February 2006, *Official Report*, column 111W, on the 1911 census, whether there have been recorded instances in the last 30 years of an individual making representations against the publication of information contained in the 1911 census. [56897]

Ms Harman: The 1911 census returns have not been published and the National Archives has not, therefore, received any representations from members of the public against their publication over the last 30 years. It is intended to release these records on the first working day of 2012, in accordance with long-standing Government policy.

Citizenship Curriculum

Ed Balls: To ask the Minister of State, Department for Constitutional Affairs whether she has plans to extend the citizenship curriculum in schools. [52650]

Jacqui Smith: The citizenship curriculum is very broad, giving teachers the scope to adapt the programme of study to respond to the needs of their pupils and local circumstances. Citizenship education helps pupils to develop a full understanding of their roles and responsibilities as citizens in a modern democracy. There are no plans to expand the national curriculum requirements for citizenship at this time.

The Government's priority in citizenship education is to support teachers and to equip them with the skills and knowledge to deliver the subject well. We are doing this through both initial teacher training and continuing professional development initiatives. In parallel, in line with recommendations from Ofsted and the Adult Learning Inspectorate, we are commissioning a support programme (to be managed by the new Quality Improvement Agency) which will promote the best practice lessons from the successful Post 16 Active Citizenship Development Programme (which ends in March) to practitioners across schools, colleges, work-based and community-based training.

Departmental Telephone Numbers

Anne Milton: To ask the Minister of State, Department for Constitutional Affairs if she will list the *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public administered by (i) her Department and (ii) public bodies which report to the Secretary of State for Constitutional Affairs. [56533]

Ms Harman: The Department, including its Agencies, has a total of eleven 0800 numbers; fifty four 0845 numbers and fifty three 0870 numbers. A list of the numbers is as follows.

0800

0800 0156510

Electoral Reform

James Duddridge: To ask the Minister of State, Department for Constitutional Affairs what steps her Department is taking to improve the accessibility to voters of polling stations. [53705]

Ms Harman: The Electoral Administration Bill will extend the current provisions for voters' accessibility to polling stations. It includes a duty on local authorities to

undertake a review of polling places at least every four years to ensure that, as far as possible, polling stations are both convenient and accessible to the local community.

Freedom of Information

Mr. Hancock: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the efficiency of the Information Commissioner's Office. [51134]

Ms Harman: The Information Commissioner is an independent body created by statute. He has responsibilities for handling complaints made to him under the Freedom of Information Act 2000 and the Data Protection Act 1998.

The Commissioner is responsible for drawing up his corporate plan and business plan and for managing his resources to meet the targets in his plans. He is required to lay annually before each House of Parliament a general report on the exercise of his functions under the Freedom of Information Act 2000 and the Data Protection Act 1998. The Commissioner is also required for each financial year to prepare a statement of account which is examined by the Comptroller and Auditor General and laid before each House of Parliament. The Commissioner as accounting officer is answerable to Parliament for the monies allocated to him. The ICO provides regular reports to my Department on its progress against targets in its business plan, and this provides a mechanism for regular reviews of the Office's efficiency.

Magistrates (Lancashire)

Mr. Hoyle: To ask the Minister of State, Department for Constitutional Affairs how many magistrates in Lancashire are under *(a)* 30 and *(b)* 25 years, broken down by sex. [53364]

Ms Harman: Out of a total of 1,116, the number of serving magistrates in Lancashire under *(a)* 30 and *(b)* 25 years, and broken down by sex are set out in the following table:

Lancashire	*Male*	*Female*
Under 30	2	2
Under 25	0	0

Supreme Court

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what contingency plans there are for the site of the new Supreme Court should Westminster council refuse the planning application for the re-modelling of Middlesex Guildhall; and if she will make a statement. [56800]

Ms Harman: It would be premature to anticipate a future planning decision by Westminster city council when the application for planning and listed building consent has not yet been submitted.

Ministerial Meetings

Mr. Hancock: To ask the Minister of State, Department for Constitutional Affairs if she will list the dates of the meetings held since 1st January 2005 between *(a)* Ministers and *(b)* officials in her Department and representatives of the Information Commissioner's Office; where each meeting was held; who attended on each occasion; and if she will make a statement. [56519]

Ms Harman: Since 1 January 2005 there have been numerous and recurrent meetings between both DCA Ministers and DCA officials and representatives from the Information Commissioner's Office. No central record is kept of these meetings and to create such a record would incur disproportionate cost.

Rape Trials

Sandra Gidley: To ask the Minister of State, Department for Constitutional Affairs how many defendants to allegations of rape in the criminal courts were allowed personally to cross-examine the complainant in England in 2005. [51342]

Fiona Mactaggart: I have been asked to reply.

Section 34 of the Youth Justice and Criminal Evidence Act 1999 ("YJCEA"), which came into force on four September 2000, prohibits a person charged with rape and other sexual offences from cross-examining the complainant (whether adult or child) in any criminal proceedings. Owing to this, no statistics are collected centrally, and the Government are not aware of any cases in which this prohibition has been breached.

Legislative provisions in the Criminal Justice Act 1991 introduced a prohibition on unrepresented defendants personally cross-examining child witnesses in sexual offence cases (including rape) and cases of violence or cruelty. They came into force on one October 1992 (section 55(7)). This ban was extended to cases where the defendant was charged with kidnapping, false imprisonment or abduction by section 35 of the Youth Justice and Criminal Evidence Act 1999 ("YJCEA"), which came into force on four September 2000.

Social Exclusion

Mr. Pickles: To ask the Minister of State, Department for Constitutional Affairs what funding streams her Department plans to finance in 2006–07 to tackle social exclusion. [56084]

Ms Harman: Many of the Department's programmes will have some relevance to tackling social exclusion.

In particular, a substantial part of the £195 million that will be spent on legal help through the community legal service in 2006–07 will fund advice services for those facing legal problems. Research over the past few years has shown that such services are very important in combating social exclusion.

Torture

Dr. Evan Harris: To ask the Minister of State, Department for Constitutional Affairs for what reasons the final report of the Council of Europe Committee for the Prevention of Torture and Inhuman or Degrading Treatment or Punishment was not published until 9 June 2005; to whom the report was circulated

(a) within and *(b)* outside the Government prior to publication between July 2004 and June 2005; and what approval process applies to the publication of such reports under the European Convention. [54587]

Ms Harman: The Committee's report dealt with its visit to the UK from 14 to 19 March 2004, to examine the treatment of detainees held under the Anti-terrorism, Crime and Security Act 2001. At the end of its visit, the Committee made an initial statement, to which the Government replied on 9 June 2004. The Committee presented its confidential formal report to the Government on 23 July 2004, and asked for a response by 22 October 2004. However, work on the response was interrupted by appeals by the detainees to the Court of Appeal and the House of Lords, and by the subsequent introduction of the Terrorism Act 2005. The report was considered by Ministers in the Department of Constitutional Affairs and the Home Office and by officials engaged in the preparation of the Government's response. The Government submitted its response to the Committee on 3 June 2005, with a request for immediate publication along with the Committee's report. This was in accordance with Article 11 of the European Convention on the Prevention of Torture, under which the Committee's reports are published at the request of states party to the Convention.

NORTHERN IRELAND

Coleraine Rail and Bus Station

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what percentage of trains arriving at and leaving from Coleraine Rail and Bus Station during 2005 did so within five minutes of the timetabled time. [56680]

Mr. Woodward: Information is not readily available to directly answer the question as punctuality data is held only in respect of "end of line" stations, and only in respect of whether or not trains arrive within 10 minutes of their timetabled arrival times. However punctuality information for the closest "end of line" stations at Londonderry and Portrush could be used as a proxy for times at Coleraine station.

The percentage of trains arriving at the Londonderry and Portrush stations with 10 minutes of the timetabled time in 2005 was 68 per cent. and 90 per cent. respectively.

Cycling

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what has been the change in the extent of cycling as a result of the various cycling initiatives undertaken in Northern Ireland since 2000. [56143]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin, dated 8 March 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about what has been the change in the extent of cycling as a result of the various cycling initiatives undertaken in Northern Ireland since 2000.

As this issue falls within my responsibility as Chief Executive of Roads Service, I have been asked to reply.

As you may be aware, the Department for Regional Development, in conjunction with the Northern Ireland Cycling Forum, published a Northern Ireland Cycling Strategy in June 2000. The strategy identified a range of measures to seek to improve conditions for cyclists with a view to establishing a pro-cycling culture. It set two challenging targets:

1. to double the number of trips by cycle (from figures available in 2000) by 2005; and

2. to quadruple the number of trips by cycle (from figures available in 2000) by 2015.

To monitor progress, Roads Service introduced a Northern Ireland-wide cycle usage survey in 2000. Since then, automatic cycle counters have been monitoring cycle usage on a daily basis at 33 strategic sites, fourteen of which are located on the National Cycle Network throughout Northern Ireland. A further nine sites are located around the Greater Belfast area.

The resulting figures, up to the end of 2004, are provided below and expressed as a percentage change in total average daily cycle flow at the sites indicated. Figures for 2005 are not yet available.

Percentage

Period	*All sites (33)*	*National cycle network sites (14)*	*Greater Belfast sites (9)*
2000–01	-0.9	+ 11.5	+7.0
2001–02	-9.7	-6.3	+9.3
2002–03	-3.2	+3.7	+17.8
2003–04	+13.8	+34.4	+45.5

The Travel Survey of Northern Ireland, which is based on face-to-face interviews and personal travel diaries in around 1,000 households per year, also gives an indication of cycle usage. Using the information available from the survey the average mileage travelled by bicycle per person per year in Northern Ireland was estimated to be as follows:

Period	*Average mileage per person (Miles)*
1999–2001	19
2000–02	17
2001–03	14
2002–04	17

I hope this information is helpful.

Departmental Spending

David T.C. Davies: To ask the Secretary of State for Northern Ireland (1) how much his Department spent on items of art in 2004–05; [23461]

(2) when he will provide an answer to Question 23461, on departmental expenditure, tabled by the hon. Member for Monmouth on 28 October 2005. [49838]

Mr. Woodward: The Northern Ireland Office, excluding its agencies and NDPBs, did not procure any items of artwork, during the 2004–05 financial year.

Departmental Telephone Numbers

Anne Milton: To ask the Secretary of State for Northern Ireland if he will list the *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public administered by (i) his Department and (ii) agencies which report to him. [56532]

Mr. Hain: The following telephone numbers for the public are administered by the Northern Ireland Office.

Telephone number	*Name*
0800 3160258	Family Care Line, Maghaberry Prison
0800 1070345	Family care Line, Magilligan Prison
0800 3160189	Family care Line, Hydebank Wood Young Offenders Centre and Prison
0845 2470002	Northern Ireland Prisoner Release Victim Information Scheme

Employment Statistics

Chris Ruane: To ask the Secretary of State for Northern Ireland how many *(a)* EU and *(b)* non-EU citizens were working in Northern Ireland in each of the last 30 years. [55562]

Angela E. Smith: The information on EU and non-EU citizens is not available; however, the Labour Force Survey can be used to provide estimates of the number of people in employment in Northern Ireland by respondent nationality. These estimates are only available on a consistent basis for European Union countries from 1994 onwards.

Employment in NI by EU and non-EU nationality

	EU nationality[1]	*Non-EU nationality*
1994	605,000	[2]3,000
1995	625,000	[2]4,000
1996	648,000	[2]3,000
1997	672,000	[2]4,000
1998	677,000	[2]4,000
1999	684,000	[2]3,000
2000	671,000	[2]2,000
2001	696,000	[2]5,000
2002	708,000	[2]5,000
2003	736,000	[2]6,000
2004	704,000	8,000
2005	731,000	[2]6,000

[1] EU Nationality—Figures for 1994 refer to EU12 countries: Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and UK. Figures for 1995–2004 refer to EU15 countries: EU12 plus Austria, Finland and Sweden. Figures for 2005 refer to EU25 countries: EU15 plus Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovak Republic and Slovenia.

[2] Estimates are based on small sample sizes and are therefore subject to a higher than usual degree of sampling variability. They should therefore be treated with caution.

Source:
Labour Force Survey, spring quarters.

Chris Ruane: To ask the Secretary of State for Northern Ireland how many and what percentage of people were employed in the *(a)* public and *(b)* private sector in each (i) ward, (ii) county and (iii) constituency in Northern Ireland in each of the last 20 years. [55566]

Angela E. Smith: The information requested is not available.

However, estimates of the number of employee jobs in the public and private sector by parliamentary constituency area are available from the Census of Employment on a biennial basis from September 1997 and the most up to date figures relate to September 2003. Estimates of the number of employee jobs in the public and private sector in each parliamentary constituency area in Northern Ireland between September 1997 and September 2003 are shown in the following table 1. A further breakdown of this information by county or ward is not readily available.

Table 1: Number of employee jobs[1] in the public and private sector in each parliamentary constituency area in Northern Ireland between September 1997 and September 2003

	September 1997		*September 1999*		*September 2001*		*September 2003*	
Parliamentary constituency area	*Public*	*Private*	*Public*	*Private*	*Public*	*Private*	*Public*	*Private*
Belfast east	13,660	24,752	13,049	26,267	13,250	27,376	13,769	26,133
Belfast north	14,091	26,815	14,376	27,800	13,906	28,955	15,099	29,127

Census of Employment, DETI

Housing

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much was spent on repairs and maintenance of domestic properties by *(a)* Northern Ireland housing associations on average and *(b)* the Northern Ireland Housing Executive during 2005. [55790]

Mr. Hanson: The information is not available for the calendar year 2005 but for the financial year, 2004–05. The figures were as follows:

Northern Ireland Registered Housing Associations repair and maintenance costs £129 million for 26,289 properties, an average of £489 per dwelling.

The Northern Ireland Housing Executive repair and maintenance costs £84.7 million for 98,000 properties, an average of £864 per dwelling.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many empty houses owned by the Northern Ireland Housing Executive were demolished in each of the last three years. [56354]

Mr. Hanson: The table details the numbers of demolished domestic properties for each of the last three financial years.

	Number of demolitions[1]
2003–04	1,284
2004–05	1,348
2005–06[2]	666

[1] This includes properties acquired by NIHE within redevelopment areas.
[2] As at December 2005.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland when the improvement works to Housing Executive properties at Ballygallin Park, Coleraine which were scheduled for the financial year 2006–07 are expected *(a)* to begin and *(b)* to be concluded. [55156]

Mr. Hanson: The Housing Executive is at present examining two options to take forward the development of Ballygallin Park, Coleraine. A decision on the nature and content of the scheme will be made in the next 2–3 months.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many Northern Ireland Housing Executive tenants were prosecuted for non-payment of rent in each of the last five years. [55786]

Mr. Hanson: The following table details the number of prosecutions initiated by the Northern Ireland Housing Executive in each of the last five years.

	Notice seeking possession (through magistrates court)
2000–01	1,999
2001–02	2,594
2002–03	3,885
2003–04	3,925
2004–05	2,699

Invest NI

David Simpson: To ask the Secretary of State for Northern Ireland what steps Invest NI are taking to raise the level of local employment in consultancy *(a)* in general and *(b)* in relation to energy issues. [56397]

Angela E. Smith: Invest NI's direct support for business is targeted at firms in the manufacturing and internationally-traded services sectors and is aimed at helping them create sustainable employment opportunities through becoming more entrepreneurial, innovative and internationally-focused. Where the agency needs to employ consultants to assist with its work, it is normal practice for such appointments to be made using a competitive tendering process managed by the Central Procurement Directorate of the Department of Finance and Personnel who may seek expressions of interest from both Northern Ireland and external consultants.

Where energy issues are concerned, Invest NI influence the provision of energy consultancy in Northern Ireland through its support for the Carbon Trust. The Carbon Trust is a UK-wide programme and commissions energy consultancy centrally from a pool of approximately 450 registered with the Energy Institute for the Carbon Trust. In the past year in excess of 300 commissions for energy advisory and technical appraisals were issued for Northern Ireland with around 25 per cent. of these having been serviced by Northern Ireland based consultants.

The Carbon Trust encourage all Northern Ireland based energy consultants to attend their free technical training events and will be holding a briefing session to help them meet the standards expected by the Carbon Trust and the businesses seeking support.

Janine Murtagh

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what issues were raised in the letter to the Health Minister from the coroner investigating the death of Janine Murtagh in the Royal Victoria hospital on 18 November 2002. [56949]

Mr. Woodward: HM Coroner raised 13 issues in his letter of 22 November 2004 to the Health Minister. These were:

1. Whether there is a need for further training of all surgical, anaesthetic and theatre staff in relation to the use of emergency theatres. Does the existing protocol provide sufficient clarity?

2. Whether there is a need for a more formal structure governing contact with theatres in relation to theatre availability and a recording of any such contacts to include what was discussed, by whom, and any decisions made.

3. The training needs of locum surgical staff.

4. Whether it should be a requirement for a doctor who is called by nursing staff to examine a patient whose condition has given rise to some measure of concern, to consult with the senior nurse on duty in the ward and any family members who are present at the time.

5. Whether, under present arrangements, consultants are kept adequately informed about such interventions, assessments subsequently made and any changes in the condition of their patient.

6. Whether it is appropriate for a staff nurse to be able to discontinue patient observations without consulting anyone else.

7. The role of a Ward Sister and whether she is always deemed to be a member of the team responsible for each patient in her ward.

8. Whether there is any confusion amongst surgical and anaesthetic staff as to the chain of responsibility for a patient at the various stages of their treatment and the circumstances in which responsibility changes.

9. Record keeping.

10. The efficacy of a written patient care management plan.

11. Transfer arrangements between the Royal Maternity hospital and the Royal Victoria hospital.

12. Whether there is a need for a formal recording of a notification of bed availability by the Bed Manager, to include the name of the person to whom it was made and an acknowledgement by that person of the notification. Should the notification by the Bed Manager be to the surgeon concerned or any member of the ward staff?

13. Whether there is substance in the allegations of the consultant general surgeons who signed the letter to the Chief Executive of the Royal Group of hospitals of obstruction "getting gravely ill patients into theatre for necessary surgery".

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the remit was of the Regulation and Quality Improvement Authority review into the death of Janine Murtagh. [56950]

Mr. Woodward: The terms of reference of the independent review group were:

To consider the report submitted by HM coroner to the Health Minister;

To consider the report submitted by the Royal Hospitals Trust;

To review the wider issues involved; and

To make recommendations as to the good practice that needs to be disseminated to all HSS trusts in Northern Ireland.

Licensing

Mr. Dodds: To ask the Secretary of State for Northern Ireland what account the consultation on the New Strategic Direction for Alcohol and Drugs (2006–11) will take of the recent consultation on liquor licensing reform; and if he will make a statement. [56446]

Mr. Woodward: Both the development of the New Strategic Direction for Alcohol and Drugs and its current consultation have taken due account of the Liquor Licensing Review consultation and this continues. I anticipate that the final New Strategic Direction document, to be launched in May, will bear due testimony to that.

Modern Apprenticeships

Chris Ruane: To ask the Secretary of State for Northern Ireland how many modern apprenticeships were taken up in each *(a)* ward, *(b)* county and *(c)* constituency in the last year for which figures are available. [55575]

Angela E. Smith: Information relating to Modern Apprenticeship take up in Northern Ireland is not available at Local Government District or parliamentary constituency level. The following tables detail the number of young people who entered a Modern Apprenticeship by County, and by Town for the period 1 January 2005 to 31 December 2005.

Modern apprenticeships by county

	Number
County Antrim	872
County Armagh	100
County Down	1,188
County Fermanagh	169
County Londonderry	466
County Tyrone	451
Belfast[1]	698
Unknown	18
Total:	3,962

[1] Figures for Belfast have been provided separately as it falls into more than one county

Modern apprenticeships by town

Area	*Total*
Antrim	92
Armagh	100
Augher	1
Aughnacloy	5
Ballycastle	28
Ballyclare	45
Ballymena	213
Ballymoney	55
Ballynahinch	59
Banbridge	66
Bangor	112
Belfast	698
Bushmills	9
Caledon	4
Carrickfergus	76
Castlederg	27
Castlewellan	20

Portrush	2
Portstewart	7
Strabane	39
Unknown	18
Total	3,962

Non-departmental Public Bodies

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland if he will list the 10 highest paid chief commissioner and equivalent posts in non-departmental public bodies in Northern Ireland in 2005; and what the remuneration was of each. [56413]

Mr. Hain: As at 1 April 2005, the 10 highest remunerated public appointees at chief commissioner, chair or equivalent position, for which the Secretary of State and his ministerial team have responsibility, were as follows:

Remuneration entitlement at 1 April 2005

Position	*Amount (£)*
Assembly Ombudsman for NI and NI Commissioner for Complaints	116,515
Police Ombudsman for Northern Ireland	116,515
Chief Commissioner, Planning and Water Appeals Commissions	93,483
Chief Inspector, Criminal Justice Inspection	89,210
Commissioner for Children and Young People	80,869
Chief Commissioner, Equality Commission for NI	76,156
Chief Electoral Officer	72,822
Chief Commissioner, NI Human Rights Commission	[1]
Chair, Parades Commission for NI[2]	53,000
Chair, NI Policing Board[2]	51,725

[1] Vacant but advertised in the range £55–70,000.
[2] Part-time appointments.

Northern Ireland Railways

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland on how many occasions new train sets operated by Northern Ireland Railways broke down while in service during 2005. [56415]

Mr. Woodward: The number of occasions new train sets operated by Northern Ireland Railways broke down while in service during 2005 was 74.

Patient Costs

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will make the costs involved in using a continuous positive airway pressure machine at home refundable to the patient. [56350]

Mr. Woodward: Continuous positive airway pressure (CPAP) machines are used by people suffering from sleep apnoea to ensure they continue to breathe while asleep. The machines are supplied and maintained free of charge in patients' homes. The running costs involved in using a CPAP machine at home are negligible and not refundable. This is consistent with current practice on the use of a range of devices requiring electricity that are supplied by hospitals for domestic use. There are no plans to change this.

Primary Schools

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what measures are being considered at rural based primary schools in Northern Ireland for the safe passage of children to and from schools. [56163]

Angela E. Smith: The Government are committed to making the journey to school safer for children. There are various measures specifically designed to ensure the safe passage of children at rural based primary schools. These include the provision of school crossing patrols where particular traffic hazards have been identified; the promotion of a Safer Routes to School initiative, to encourage walking, cycling, greater use of public transport and car sharing for the journey to and from school; the use of road signage to warn drivers of the potential of encountering children in the road ahead, going to and from school; and the provision of a comprehensive road safety education programme across all schools in Northern Ireland each year, to promote the teaching of road safety teaching and training by teachers on a regular structured basis. All of these measures are focused to meet the particular needs of schools, including those in rural areas.

Tourism

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what steps the Northern Ireland Tourist Board is taking to promote the North Coast resorts of *(a)* Portstewart, *(b)* Portrush, *(c)* Portballintrae, *(d)* Castlerock and *(e)* Benone. [55312]

Angela E. Smith: Northern Ireland Tourist Board (NITB) is committed to working with strategic partners and tourism providers to develop an internationally competitive and sustainable tourism product on the North Coast. The development and promotion of the tourism potential on the North Coast will take place in the context of the Tourism Strategic framework for Action 2004–07 and the Causeway Coast and Glens Tourism Masterplan.

Currently the NITB is implementing recommendations from within the prioritised actions of the Masterplan. A key recommendation is the implementation of the Causeway Coastal Route which has been identified as a primary promotional message/key motivator to attract visitors to Northern Ireland and specifically to retain them along the North Coast and wider region.

This touring route will direct visitors to the towns of Portstewart and Portrush while also offering them the opportunity to visit Portballintrae, Castlerock and Benone.

The Causeway Coastal Route has been included in all marketing initiatives for 2006.

Mark Durkan: To ask the Secretary of State for Northern Ireland what budget bids the Northern Ireland Tourism Board made to support regional tourism organisations; and if he will make a statement on the withdrawal of EU funding for regional tourism organisations. [55864]

Angela E. Smith: Regional Tourism Organisations are the predecessors of the proposed new Regional Tourism Partnerships (RTF), and are currently funded by the Northern Ireland Tourist Board under the European Union's Peace II Programme. As this funding will not be available after 1 April 2006, NITB submitted a budget bid for an additional £1.5 million per annum (in addition to its approved budget) for a two year period to support RTPs. NITB's bid was unsuccessful however they have reprioritised core activity and ring-fenced £500,000 per annum in 2006–07 and 2007–08 for regional tourism delivery. This funding will be channelled through the RTPs.

United Hospitals (Patient Complaints)

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many staff in the United

Hospitals area have been *(a)* suspended, *(b)* dismissed and *(c)* given formal warnings as a result of complaints from patients in each of the last three years. [56666]

Mr. Woodward: In 2005 two members of staff were dismissed from United Hospitals HSS Trust and two others were given formal warnings following complaints made by patients. There were no suspensions, dismissals or warnings in 2004 and 2003 as a result of patient complaints.

Waiting Lists/Times

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average waiting times at accident and emergency departments were in each of the acute hospitals in Northern Ireland during 2005. [55787]

Mr. Woodward: The information requested is not available centrally and can be provided only at disproportionate cost.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the change in average waiting times experienced at the Accident and Emergency department in Causeway hospital has been between January 2005 and January 2006. [56144]

Mr. Woodward: The average waiting time at the Accident and Emergency department in Causeway hospital every month from January 2005 to January 2006 is shown in the following table.

The waiting time is measured from the time a patient arrives in the Accident and Emergency department to the time the patient is seen by a clinician.

Month	*Average waiting time at A&E in Causeway hospital from patient arrival to being seen by a clinician*
January 2005	1 hour 24 minutes
February 2005	1 hour 22 minutes
March 2005	1 hour 21 minutes
April 2005	1 hour 11 minutes
May 2005	1 hour 05 minutes
June 2005	1 hour 03 minutes
July 2005	1 hour 07 minutes
August 2005	1 hour 06 minutes
September 2005	55 minutes
October 2005	1 hour 04 minutes
November 2005	1 hour 01 minute
December 2005	56 minutes
January 2006	1 hour 06 minutes

HOME DEPARTMENT

Antisocial Behaviour

Anne Snelgrove: To ask the Secretary of State for the Home Department (1) how many officers there were in each local authority dealing with antisocial behaviour in each year since 1997; [55803]

(2) what the budget was for tackling antisocial behaviour in each local authority in England in *(a)* 2004 and *(b)* 2005; [55806]

(3) in what ways local authorities are able to supplement the work his Department is doing to tackle antisocial behaviour; [55807]

(4) what support his Department has given to local authorities to tackle antisocial behaviour; and if he will make a statement. [55808]

Hazel Blears: All of the 351 crime and disorder reduction partnerships (CDRP) in England and 22 community safety partnerships (CSP) in Wales have responded positively to our seed funding for antisocial behaviour co-ordinators in each CDRP area. Many areas have now gone further and are using funding from a range of sources to establish and support antisocial behaviour teams. Findings from the antisocial behaviour unit's second national survey of CDRPs in 2005 indicated that 60 per cent. of those CDRPs who responded had more staff than a year ago. Tackling antisocial behaviour is a cross-departmental issue and many Government Departments contribute to this agenda.

A wide range of funding streams across Government have a positive impact on tackling antisocial behaviour. For example, Neighbourhood Renewal programmes which focus on the most deprived areas and give practitioners and local communities a real opportunity to turn their neighbourhoods around; the Department for Education and Skills (DfES) through their work on schools and parenting contribute to preventing problems escalating and ensuring families get the support they need.

The Department for Environment, Food and Rural Affairs (DEFRA) and their work in tackling litter and fly-tipping which can often blight neighbourhoods where antisocial behaviour and crime can take hold; and the Department for Culture, Media and Sport (DCMS) who provide the opportunity to divert young people from the destructive and damaging involvement in antisocial behaviour. The Department for Constitutional Affairs (DCA) also contributes to ensure a swift and effective criminal justice system for dealing with the perpetrators of antisocial behaviour activity.

In relation to specific Home Office funding to tackle antisocial behaviour in the last two financial years we have allocated £25,000 to every CDRP in both England and Wales to fund an antisocial behaviour co-ordinator. This amounts to £9.4 million per annum, the funding for 2005–06 is now part of the Safer, Stronger Communities Fund (SSCF) and this arrangement will continue for the next two years (2006–07 and 2007–08). In order to deal with antisocial behaviour problems effectively, housing providers, local authorities, the police, the courts and the Crown Prosecution Service, and other relevant agencies need to play a full role.

Local authorities drive many aspects of our work including tackling graffiti, removing abandoned vehicles, dealing with noise nuisance and many antisocial behaviour housing issues. In order to help local agencies tackle antisocial behaviour, we have provided guidance and support to help them to target resources and use appropriate tools and powers to protect the public and ensure that antisocial behaviour is tackled, not tolerated.

The Anti-social Behaviour Act 2003 has been fundamental to our work and has changed the culture of public services and protected our communities. However, while attitudes are shifting, the public's concern is not yet adequately reflected in the priorities of all our services. The Respect Programme will now take this further so that local services are organised so that they respond swiftly and effectively to the problems that communities face today. People need to see and feel that a difference can be made.

Mr. Wills: To ask the Secretary of State for the Home Department (1) what the average time taken was to obtain an antisocial behaviour order in the last period for which figures are available; [55836]

(2) what the average cost was of an antisocial behaviour order in the last period for which figures are available; [55837]

(3) what percentage of the total number of antisocial behaviour orders granted in Swindon have been issued to *(a)* men, *(b)* women, *(c)* people aged under 21 years and *(d)* people aged under 18 years. [55835]

Hazel Blears: The information requested is not available centrally. A 2004 Home Office study into the cost of obtaining an ASBO reports that costs have significantly reduced. An earlier review of costs published in 2002 (known as the Campbell report) indicated that the cost of obtaining an ASBO averaged £4,000 to £5,000. The later study showed that the costs of obtaining an ASBO had fallen to an average of £2,500. Costs have fallen as a result of more efficiency as practitioners become more familiar with ASBOs, and the introduction of orders on conviction, which removes the need for separate hearing. The study found that, overall, police and local authorities using ASBOs find them cost-effective. The cost to communities and to society generally of not taking action against persistent antisocial behaviour is much higher. Information on the length of time taken to obtain an antisocial behaviour order (ASBO) is not collected centrally.

Immediate respite from antisocial behaviour can be obtained by the use of interim and without notice orders. Orders on conviction and county court orders can avoid the need for a separate court hearing, and can therefore speed up the process. Four ASBOs have issued in the Swindon borough council area: three to males under the age of 18 years, and one to a female aged over 21 years.

Assisted Dying

Lynne Featherstone: To ask the Secretary of State for the Home Department how many cases of *(a)* assisted suicide and *(b)* euthanasia have been reported in each of the last five years. [46260]

Ms Rosie Winterton: I have been asked to reply.

The information requested is shown in the following table.

Number of defendants proceeded against magistrates courts and found guilty at all courts for aiding or abetting suicide

	Proceeded against	*Found guilty*
2000	4	2
2001	2	2
2002	2	4
2003	3	1
2004	3	2

Asylum Seekers

Ms Abbott: To ask the Secretary of State for the Home Department what assessment has been made of the provision of dental services for women asylum seekers in detention centres. [56619]

Mr. McNulty: Any person detained in a removal centre has access to dental services as and when required. These services are provided by outside professionals and detainees may be treated on site, where such facilities exist for this purpose, or externally as appropriate.

Crime and Disorder Reduction Partnerships

Mr. Pickles: To ask the Secretary of State for the Home Department on which local authority boundaries crime and disorder reduction partnerships are based in two-tier local government areas. [55095]

Hazel Blears: Section five (4) of the Crime and Disorder Act 1998 sets out the local government areas on which CDRPs are based. In two-tier areas CDRPs are organised on district council boundaries.

Crime Statistics

Mr. Spring: To ask the Secretary of State for the Home Department how many violent crimes were committed in each county of the East of England region in each year since 1997. [55781]

Hazel Blears: The available information is given in the following table.

Eastern region—violent crime recorded by the police

Police force area	*1997–98*
Bedfordshire	4,476
Cambridgeshire	4,202
Essex	6,016
Hertfordshire	2,995
Norfolk	3,570
Suffolk	3,105

Police force area	*1998–99*[1]	*1999–2000*	*2000–01*	*2001–02*
Bedfordshire	5,668	6,121	6,339	6,724
Cambridgeshire	6,213	7,056	7,426	8,584
Essex	9,443	11,480	12,232	13,703
Hertfordshire[2]	3,884	4,471	5,366	5,775
Norfolk	6,189	7,094	6,469	6,931
Suffolk	4,365	5,915	6,993	8,128

[1] Numbers affected by changes in the counting rules and coverage of recorded crime. Data not comparable with earlier years.
[2] Boundary changes came into effect in 1999–2000.

Police force area	2002–03[3]	2003–04	2004–05
Bedfordshire	9,560	10,316	11,787
Cambridgeshire	14,174	15,185	14,758
Essex	24,583	28,782	28,135
Hertfordshire	9,083	13,972	18,691
Norfolk	11,862	12,819	14,133
Suffolk	8,786	10,460	11,227

[3] Numbers affected by the introduction of the National Crime Recording Standards which came into effect in 2002–03. Data not comparable with earlier years.

Mr. Spring: To ask the Secretary of State for the Home Department how many unsolved crimes were recorded by police forces in each county of the East of England region in each year since 1997. [55784]

Hazel Blears: The available information is given in the form of a table showing crime recorded and crime detected in each financial year from 1997–98 to 2004–05. As offences detected in the current year may have been initially recorded in an earlier year it is not possible to determine the numbers of undetected crime in a particular year.

Eastern Region—Recorded and detected crime by police force area

	1997–98[1]		1998–99[2]		1999–2000		2000–01	
	Offences	Detections	Offences	Detections	Offences	Detections	Offences	Detections
Bedfordshire	44,622	15,65	49,076	16,386	53,607	13,313	49,566	13,602
Cambridgeshire	57,657	15,857	67,256	19,236	68,722	17,395	64,337	15,325
Essex	87,569	24,617	95,797	27,447	10,2777	30,503	10,6768	27,708
Hertfordshire	48,770	16,336	49,309	16,839	65,015	14,153	64,009	15,259
Norfolk	52,176	18,611	57,129	20,895	59,387	18,063	57,240	14,786
Suffolk	34,413	13,545	39,908	16,470	43,355	15,575	44,317	15,562

	2001–02		2002–03[4]		2003–04		2004–05	
	Offences	Detections	Offences	Detections	Offences	Detections	Offences	Detections

Suffolk	50,492	16,426	50,315	17,093	53,443	17,445	52,101	16,723

[1] Offences excludes the offence of criminal damage of 20 and under Offences Detections Offences Detections Offences Detections Offences Detections

[2] Numbers affected by changes in the counting rules and coverage of recorded crime. Data not comparable with earlier years.

[3] Boundary changes came into effect in 1999–2000

[4] Numbers affected by the introduction of the National Crime Recording Standards which came into effect in 2002–03. Data not comparable with earlier years.

Electronic Monitoring

Kelvin Hopkins: To ask the Secretary of State for the Home Department how many instances have been reported of *(a)* the location of a person subject to active tracking being lost and regained and *(b)* of tracking equipment being tampered with in each of the regions for which Group 4 Securicor has contracts for providing electronic monitoring services since 1 April 2005. [55668]

Fiona Mactaggart: Satellite tracking is being piloted in three areas: Greater Manchester, West Midlands and Hampshire. Since the start of the pilots in September 2004, there have been no cases of active tracking. Group 4 Securicor provide tracking services in two of the three pilot areas (Greater Manchester and Hampshire). The number of equipment tampers in each of these areas is set out in the table.

Area	Tampers
Greater Manchester	40
Hampshire	23

Kelvin Hopkins: To ask the Secretary of State for the Home Department what levels of satisfaction with training provided by Group 4 Securicor have been reported in each of the regions for which the company has contracts for providing electronic monitoring services since 1 April 2005. [55669]

Fiona Mactaggart: This service level applies to special technical training provided by a contractor to Home Office officials or criminal justice agencies. It does not include internal staff training. Since 1 April 2005, Group 4 Securicor have provided training for two sessions related to an electronic monitoring data access service. The service level requires that 80 per cent. of those trained rate the training as satisfactory or better. Group 4 Securicor received a satisfactory rating from 100 per cent. of those trained in the first session, and from 75 per cent. of those trained in the second session.

Kelvin Hopkins: To ask the Secretary of State for the Home Department what the cumulative period is of electronic monitoring service breaks since 1 April 2005 in each of the regions for which Group 4 Securicor has contracts for providing electronic monitoring services. [55670]

Fiona Mactaggart: This service level relates to periods of time when the contractors need to test, maintain and upgrade their systems. During these periods a back-up system is made operational to ensure that curfewees are continuously monitored and the electronic monitoring service remains unaffected. On each occasion the

contractor must seek approval from the Home Office before proceeding. During the period 1 April 2005 to 28 February 2006, Group 4 Securicor used a total of three hours and eight minutes for this purpose. The process is carried out through a central IT system and not by individual regions.

Extraditions

Mr. Evans: To ask the Secretary of State for the Home Department how many UK citizens have been extradited to the United States under the Extradition Act 2003. [55672]

Andy Burnham: We do not keep a permanent central record of the nationalities of those extradited from the UK, because the UK, like the US, has always been prepared to consider the extradition of its own citizens. Total numbers extradited to the United States under the Extradition Act 2003 to date are 12. The figure does not include requests granted by Ministers in Scotland and Northern Ireland, who have devolved powers to make or grant requests.

Mr. Evans: To ask the Secretary of State for the Home Department how many United States citizens have been extradited to the UK in each of the last 10 years. [55673]

Andy Burnham: No central record is kept as to the nationality of a person whose extradition has been sought. Statistical information is only available since 1998. Since then, to date, the number of those extradited by the US to the UK (of all nationalities) is as follows:

	Number extradited
1998	5
1999	2
2000	2
2001	3
2002	3
2003	2
2004	4
2005	1

Note:
The figures do not include extraditions to Scotland and Northern Ireland, where Ministers have devolved powers to make extradition requests.

Neighbourhood Policing

Bob Spink: To ask the Secretary of State for the Home Department when he expects the implementation of neighbourhood policing teams to be completed in each police force. [55063]

Hazel Blears: The Government is working closely with ACPO to ensure that, by 2008, every area in England and Wales will benefit from dedicated, visible, accessible and responsive neighbourhood policing. A programme to deliver on this commitment is well under way, and some areas have already moved to a neighbourhood policing approach. The timing of the full implementation of neighbourhood policing teams will be different for every force. There is no "one size fits all" approach to neighbourhood policing, and each force must develop, tailor and test an approach which will be appropriate to local issues and circumstances.

Mr. Drew: To ask the Secretary of State for the Home Department what his estimate is of the average population to be covered by neighbourhood policing teams. [55370]

Hazel Blears: The Government are committed to ensuring that, by 2008, every area in England and Wales will benefit from dedicated, visible, accessible and responsive neighbourhood policing. The size of the neighbourhood which will be served by a neighbourhood policing team will vary depending on local needs and circumstances. A "neighbourhood" will not mean the same to an inner-city resident as to someone living in a predominantly rural area.

Typically though, we would expect it to cover one or two council wards. The important thing will be that each neighbourhood will have a dedicated team, and that residents will know their local officers and be able easily to contact them.

Parenting Orders

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department how many parenting orders have been applied for to date. [51189]

Fiona Mactaggart: Youth offending teams and local education authorities were given power to apply for parenting orders through the Anti-social Behaviour Act 2003. From the available data, 41 parenting orders were made on application by youth offending teams (between April 2004 and 31 July 2005) and none were applied for or made on application by local education authorities (between September 2004 and 31 July 2005).

Police

Mr. Pickles: To ask the Secretary of State for the Home Department what representations his Department has received on the activities of Newham council's park police. [50958]

Hazel Blears: I refer the hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 27 February 2006, *Official Report*, column 94W.

Mr. Graham Stuart: To ask the Secretary of State for the Home Department what assessment he has made of how many officer hours it took on average to process an arrest in *(a)* England and *(b)* Humberside in the latest period for which an estimate is available; and if he will make a statement. [54269]

Hazel Blears: Data on the average amount of time taken to process an arrest is not collected centrally. Such data would be of minimal value as each arrest is subject to the individual circumstances of each case, the demands on the custody suite and local operational priorities. The process of arrest is subject to statutory requirements and procedures which provide safeguards and protections for the public and require police accountability. These powers and procedures are subject to ongoing consideration ensuring that important balance is maintained.

Tim Loughton: To ask the Secretary of State for the Home Department how many people have been killed in each of the last three years by the police *(a)* during police action, *(b)* as a result of police pursuits and *(c)* in police custody. [52959]

Hazel Blears: Responsibility for collating, reporting and publishing statistics on deaths during or following police contact lies with the Independent Police Complaints Commission. Any inquiries regarding deaths should be made to the chair of the Commission.

Prisons

Steve Webb: To ask the Secretary of State for the Home Department how many prison inmates have diagnosed personality disorders; and how many prison inmates are receiving treatment for personality disorders. [51916]

Fiona Mactaggart: This information is not available in the form requested. The Office for National Statistics survey of mental health in the prison population in 1997 found that 78 per cent. of remanded and 64 per cent. of sentenced male prisoners and 50 per cent. of all women prisoners had personality disorder.

Mr. Burstow: To ask the Secretary of State for the Home Department how many prisoners diagnosed with *(a)* mental health problems, *(b)* personality disorders, *(c)* learning disabilities and *(d)* communicative disorders there are in each prison in England. [54790]

Fiona Mactaggart: The information is not available in the form requested. A survey of psychiatric morbidity among prisoners in England and Wales in 1997, by the Office for National Statistics, showed that 90 per cent. of prisoners have at least one significant mental health problem, including personality disorder, psychosis, neurosis, alcohol misuse and drug dependence.

Tim Loughton: To ask the Secretary of State for the Home Department what proportion of the prison population had *(a)* learning disabilities, *(b)* mental health problems and *(c)* learning difficulties and mental health problems in the most recent period for which figures are available. [47236]

Fiona Mactaggart: In 1997 the Office for National Statistics undertook a survey of mental ill health in the prison population of England and Wales. It reported both on prevalence of mental disorder and on the intellectual functioning of remanded and sentenced prisoners. Further information is available in the report of this survey: "Psychiatric Morbidity Amongst Prisoners in England and Wales" (1998) a copy of which is available in the Library and on the ONS website.

Bob Spink: To ask the Secretary of State for the Home Department if he will make it his policy to pay prisoners the same amount for education as they are paid for work; and if he will make a statement. [55047]

Fiona Mactaggart: The policy on prisoners pay supports the sentence planning section of the Offender Assessment System (OASys) which requires establishments to allocate activities in accordance with identified individual needs and objectives, thus targeting activities to those who will derive the most benefit from them. Each prison has devolved responsibility to enable them to set local pay rates over and above a national minimum. A local pay scheme must not provide disincentives to activities which are a part of a prisoner's sentence plan; this applies equally to education or employment. Rates of pay will therefore vary between prisons and activities, as governors use their discretion to balance regime activities.

Mr. Garnier: To ask the Secretary of State for the Home Department how much his Department spent on the Assisted Prisoners' Visits Scheme in each of the last five years for which figures are available; and what the budget was for the scheme in each year. [55080]

Fiona Mactaggart: Assisted Prison Visits Scheme expenditure is in the following table.

Expenditure includes bank charges, special printing translation costs etc. directly related to the scheme.

Total number of visits paid in 2004–05 was 61,988.

£

	Budget	*Expenditure*
2000–01	1,986,000	1,964,345
2001–02	1,825,000	1,762,048
2002–03	1,796,000	1,712,783
2003–04	1,892,920	1,822,499
2004–05	1,947,000	1,870,386

Mr. Garnier: To ask the Secretary of State for the Home Department how many *(a)* adult prisoners and *(b)* prisoners in young offender institutions were (i) in full-time employment, (ii) self-employed, (iii) unemployed and claiming benefits, (iv) in full-time education and (v) on a (A) Government and (B) industry training course at time of sentencing in each of the last five years for which figures are available. [55092]

Fiona Mactaggart: There is no routinely collected data on the employment status of prisoners at the time of sentence. However, the resettlement surveys conducted in 2001, 2003 and 2004 asked a representative sample of prisoners approaching release what they were doing in the four weeks immediately before custody. Results from these figures are in the following table. No details on the type of courses attended are available from these surveys.

Employment status in the four weeks immediately prior to custody: Figures from the 2001, 2003 and 2004 resettlement surveys[1]

Percentage

Adult prisoners	*2001*	*2003*	*2004*	*All three years*
ETE in the four weeks before custody				
Working full-time[2]	25.4	24.8	21.2	23.8
Working part-time[3]	4.0	3.6	2.3	3.3
Doing temporary/casual work	1.7	1.4	1.6	1.6
In full-time education/training[4]	0.4	0.4	0.6	0.5
In part-time education[5]	0.2	0.4	0.4	0.3
Unemployed, seeking work	26.2	23.4	26.3	25.3
Unemployed, not seeking work	14.5	14.5	14.2	14.4
Looking after home or family	1.9	1.1	1.5	1.5
On a Government training scheme	0.7	0.4	0.3	0.5
Retired from paid work	0.8	0.2	0.8	0.6
Long-term sick or disabled	14.7	14.0	16.7	15.1
Living off crime	7.6	13.7	10.7	10.6
Other	2.0	2.1	3.3	1.9
All	100.0	100.0	100.0	100.0
Number of cases in survey	1369	1306	1298	3973

Percentage

Young prisoners	*2001*	*2003*	*2004*	*All three years*
ETE in the four weeks before custody				
Working full-time	22 9	18.8	22.8	21.5

RDS NOMS.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what steps he is taking to prevent the spread of Islamic fundamentalism in the prison system. [53718]

Fiona Mactaggart: The Prison Service makes it clear that proselytising, for whatever faith, is not allowed, and procedures are in place to tackle it. The Service is working on initiatives to prevent the radicalisation of prisoners, including:

improvements in information gathering to develop a better knowledge of radicalisation of prisoners;

rigorous criteria for selecting chaplains of all faiths, including for imams, formal endorsement by the candidate's faith community through the Prison Service Muslim Adviser; and

work with local Muslim communities to develop resettlement programmes.

Prostitution

Mrs. James: To ask the Secretary of State for the Home Department what recent progress his Department has made in tackling prostitution; how many people have been prosecuted for *(a)* living on immoral earnings, *(b)* exercising control over a prostitute, *(c)* keeping a brothel and *(d)* offences under sections 22, 23 and 28 of the Sexual Offences Act 1956 since 1997. [55994]

Fiona Mactaggart: Following the wide ranging review of the issues associated with prostitution, the Government in January of this year published a co-ordinated prostitution strategy which sets out a framework to challenge the existence of prostitution.

This aims to disrupt street markets through a sustained enforcement of the laws on kerb crawling and sexual exploitation, to tackle off street prostitution and to address routes out for those women involved, by ensuring that their health, housing and other needs are addressed, and that swift access to drug treatment and rehabilitation is available.

The figures for prosecutions under Sections 22, 23, 28 and 33 and Sections 30 and 31 of the Sexual Offences Act 1956 can be found in the following table.

Number of defendants proceeded against at magistrates courts for selected offences under the Sexual Offences Act 1956, England and Wales 1997–2004[1]

	Proceeded against
Offence: Procuring a female for immoral purposes	
Section of Sexual Offences Act 1956: 22 and 23	
1997	11
1998	13
1999	5
2000	7
2001	10
2002	3
2003	4
2004	10
Offence: Causing or encouraging prostitution etc. of a girl under 16 years	
Section of Sexual Offences Act 1956: 28	
1997	—
1998	—
1999	1
2000	—
2001	1
2002	1
2003	—
2004	—
Offence: Man living on earnings of prostitution or exercising control over prostitute	
Section of Sexual Offences Act 1956: 30 and 31	
1997	56
1998	50
1999	48
2000	35
2001	34

Offence: Keeping a brothel	
Section of Sexual Offences Act 1956: 33	
1997	31
1998	20
1999	44
2000	19
2001	12
2002	14
2003	11
2004	26

[1] These data are provided on the principal offence basis.
Notes:
1. The information in table is taken from the Court Proceedings Database held by the Office for Criminal Justice Reform and gives the number of defendants proceeded against at magistrates courts for selected offences under the sexual offences act 1956.
2. The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

BEST COPY AVAILBLE

Public Order

Mr. Wills: To ask the Secretary of State for the Home Department what steps are being taken to tackle antisocial behaviour in Swindon; and if he will make a statement. [54565]

Hazel Blears: There are a number of approaches currently under way in seeking to step up the drive in tackling and preventing antisocial behaviour in Swindon. Swindon has made good use of the range of tools and powers available to them to tackle antisocial behaviour. Acceptable Behaviour Contracts (ABCs) are used at an early stage to try to divert an individual away from further antisocial behaviour.

The success of this approach has meant that only a small number of those individuals on ABCs have been subject to an antisocial behaviour order (ASBO). Dispersal Orders have also been used, however only where a designated area could be policed appropriately. Swindon has also made excellent use of Crack House Closure powers to tackle drug related antisocial behaviour.

In addition to the use of powers a number of campaigns have been conducted to tackle antisocial behaviour. These include: Operation Graffiti—a multi-agency initiative using Home Office Action Area funding of £40,000 to tackle environmental crime and specifically the issue of graffiti focussing on West Swindon. Operation Crackdown—a publicity campaign to highlight the effects of substance misuse on an individual and in the community.

Anti-begging—a campaign to educate the public about where their money that they give to beggars goes, namely Class A drugs, and that most of the street beggars actually do have homes. Operation Pinehurst Safe and Clean—a multi-agency operation to tackle community antisocial behaviour and environmental crime in Pinehurst. There are several multi-agency environmental operations planned for different areas in Swindon throughout the year.

In terms of preventative work, the Youth Offending Service leads on a number of projects including Positive Activities for Young People, Positive Futures programmes and Splash, all of which aim to divert young people away from crime and antisocial behaviour. Action Area funding of £25,000 is also used to work with those families engaged in antisocial behaviour in the community. There are two types of intervention: a group based programme, facilitated through New College Swindon and an intensive one to one support programme for families who need help.

Shellfish Toxins (Use of Animals)

Mr. Drew: To ask the Secretary of State for the Home Department pursuant to the answer of 17 January 2006, *Official Report*, column 1282W, on shellfish toxins (use of animals). how many protocols for the detection of toxins in shellfish intended for human consumption were assigned a substantial severity limit in 2004; how many animals these involved; what adverse effects *(a)* were anticipated and *(b)* occurred; and on what basis he concluded that the cost benefit assessment required by section 5(4) of the Animals (Scientific Procedures) Act 1986 justified the granting of a project licence in those cases where substantial suffering was anticipated. [56147]

Andy Burnham: Home Office records show that all protocols for the detection of toxins in shellfish intended for human consumption were assigned a substantial severity limit. In total there were three such protocols for the detection of paralytic shellfish poison (PSP) and three for the detection of diarrheic shellfish poison (DSP).

A total of 6,468 animals were used in the relevant procedures during 2004. The predicted adverse effects associated with PSP are that all animals are subdued after injection. Animals injected with samples not containing toxin will frequently then go on to behave in an apparently normal fashion after a few minutes. If toxin is present, clinical signs of sudden, uncontrolled muscle contractions (which can include jerking movements of the limbs) will occur after a period of time related to the level of toxin present in the sample. Death usually occurs two or three minutes after the onset of initial signs and is due to respiratory muscle paralysis. For PSP testing the predicted adverse effects reflect the actual adverse effects seen. The predicted adverse effects associated with DSP are that animals are subdued after injection. Some animals will appear to recover and behave normally after a period of time that can range form a few minutes to around one hour. Behaviours associated with pain can be observed within this period. Additional adverse effects sometimes seen include diarrhoea and piloerection. Animals injected with samples that contain toxin may, in addition, show signs of torpor, cyanosis of the extremities, a drop in body temperature and weakness/inability to maintain balance, prostration, coma, or may die. These signs are seen within five hours of initial injection, and animals showing typical signs of DSP are humanely killed. Additionally, an atypical DSP response has been seen in some animals within 30 minutes of initial injection, whereby animals show convulsions, spasms of the back legs, prostration, and respiratory difficulties including gasping for breath. Signs may be severe and lead to death or less severe and animals may recover. The adverse effects predicted within the protocols in place reflected the actual adverse effects seen. Section 5.4 of the Animals (Scientific Procedures) Act requires that the Secretary of State shall weigh the likely adverse effects on the animals concerned against the benefits likely to accrue as a result of the programme to be specified in the licence. In the case of testing for the presence of marine biotoxins, the benefits of such testing are the protection of public health by ensuring that consumers are not exposed to biotoxins present in molluscan shellfish. European legislation sets the definitive test for detection of the DSP and PSP groups of marine biotoxins as a mouse bioassay. These toxins pose a significant risk to human health because they can cause serious disease, and in the case of PSP, death, in people. The Home Office is committed to replacement of both bioassays when non-animal tests have been developed and validated to a level that ensures the protection of human health. To this end inspectors within the Animals (Scientific Procedures) Inspectorate are working actively with other UK agencies, the European Centre for the Validation of Alternative Methods, EU

regulators and other expert groups in order to progress the early adoption of alternative tests in the United Kingdom.

Young Offenders

Lynne Featherstone: To ask the Secretary of State for the Home Department what steps the Government are taking to prevent young offenders from re-offending; and if he will make a statement. [55959]

Fiona Mactaggart: The Government have made good progress on reducing juvenile re-offending given the problems young offenders pose and face. Latest available figures show reconviction rates of young offenders fell by 2.4 per cent. between 2000 and 2003, once the changes in offender characteristics between cohorts had been adjusted for.

The Youth Justice Board (YJB) is pursuing a comprehensive programme to improve practice and performance on the ground and strengthen disposals. The programme includes improvements to practice through the publication and use of guidance on Key Elements of Effective Practice; improvement to youth offending team performance; improving the knowledge and skills of the youth justice work force; developing IT programmes to support youth justice services; extension and enhancement of the Intensive Supervision and Surveillance Programme; and a focus on developing access to key services that can address the risk factors associated with young people offending including education, training and employment, accommodation, substance misuse and health services.

The YJB is also taking the lead on the resettlement of young people leaving custody and on 20 February, with a range of agencies, the YJB published "Youth Resettlement: A Framework for Action" setting out a co-ordinated approach to improving the resettlement of young offenders.

HEALTH

Agenda for Change

Mr. MacNeil: To ask the Secretary of State for Health how many trusts in England have introduced the pay package Agenda for Change. [53234]

Mr. Byrne: All national health service organisations in England are implementing agenda for change and the vast majority have completed assimilation and are now looking to use the transformational elements to improve services to patients.

Mr. MacNeil: To ask the Secretary of State for Health how many trusts that have not yet implemented Agenda for Change plan to do so; and whether there are plans to backdate the payments in such trusts. [53235]

Mr. Byrne: Agenda for change is a collective agreement that all national health service employers within the United Kingdom are obliged to implement. Under the terms of the agreement, pay will be backdated to October 2004, regardless of when staff are assimilated.

Age-specific Medical Information

Dr. Stoate: To ask the Secretary of State for Health what plans her Department has to provide age-specific medical information for children in order to improve the management of *(a)* asthma and *(b)* other long-term conditions. [55243]

Mr. Byrne: Age specific medical information, suitable for both health professionals and patients, is available from the Prodigy website at www.prodigy.nhs.uk This includes specific information on the management of asthma in children.

Alternative Medicine

Mr. Drew: To ask the Secretary of State for Health whether she plans to regulate herbal medicines and acupuncture under the Health Act 1999. [55366]

Jane Kennedy: We will introduce the legislation required for the statutory regulation of acupuncture and herbal medicine once the necessary preliminary work and consultations have been completed. We are in the process of setting up a stakeholder working group to take forward preparations for regulation.

Alzheimer's Disease

Mr. Marsden: To ask the Secretary of State for Health how many Alzheimer's sufferers in the severe stages of the disease are currently prescribed Ebixa; and what treatment options are available to these patients were Ebixa to be withdrawn from use. [54180]

Mr. Byrne: We have no figures on the number of patients with Alzheimer's disease. Information on the number of prescriptions for Memantine Hydrochloride, which is the generic or medical name for Ebixa, is shown in the table.

	Items	*Cost (£)*
1998	1	50
1999	13	1,127
2000	14	1,218
2001	4	654
2002	319	21,347
2003	7,624	636,283
2004	17,726	1,378,882

A range of social and psychological interventions may be used for the treatment of people with severe Alzheimer's disease. In addition, the National Institute for Health and Clinical Excellence is currently working on a guideline for health and social care interventions in dementia which is due to be published in draft form in April 2006.

Mr. Marsden: To ask the Secretary of State for Health what plans she has to ensure that effective drug treatment will be available for people in the early and late stages of Alzheimer's disease following recommendations from the National Institute for Health and Clinical Excellence that currently available drugs for mild and severe Alzheimer's should be withdrawn. [54370]

Mr. Byrne: The National Institute for Health and Clinical Excellence's (NICE) consultation on revised draft guidance on the drugs for the treatment of

Alzheimer's disease ended on 13 February. NICE are now in the process of considering the responses. Until NICE issue final guidance to the national health service, the original 2001 guidance on anti-dementia drugs remains extant.

Sammy Wilson: To ask the Secretary of State for Health what steps the Government is taking to help those suffering with Alzheimer's disease. [55927]

Mr. Byrne: The Department's policy on the treatment and support of those with Alzheimer's disease is stipulated in the mental health standard of the older people's national service framework.

This policy has been reinforced with the publication of our service development guide, "Everybody's Business", which outlines the key components of a comprehensive older people's mental health service including dementia care.

Antenatal Classes

Angela Watkinson: To ask the Secretary of State for Health what estimate she has made of the number of pregnant women who were unable to access free antenatal classes in the last period for which figures are available, broken down by primary care trust area. [53249]

Mr. Byrne: None. The provision of free antenatal classes is a matter for local national health service maternity care providers and primary care trusts.

Benzodiazepine Addiction

Jim Dobbin: To ask the Secretary of State for Health what support is available for involuntary addicts withdrawing from benzodiazepine addiction. [53559]

Caroline Flint: Support for benzodiazepine withdrawal can be provided in a range of settings. Persons with dependence on benzodiazepines can access services in primary and secondary care. In primary care—prescribing, counselling, advice and/or psychological therapy is available, and secondary care services are also available, including specialised mental health services and specialised drug services.

Voluntary organisations and charities also run a range of services, from advice and information services, through to residential rehabilitation, which can support those withdrawing from benzodiazepine addiction and in remaining drug free.

These support services are used to meet a range of needs and are usually not dedicated exclusively for supporting benzodiazepine withdrawal.

Jim Dobbin: To ask the Secretary of State for Health what guidance her Department issues to general practitioners on the prescription of benzodiazepine. [53560]

Caroline Flint: Since 1988, the Committee on Safety of Medicines (CSM) has issued the following advice to general practitioners on the prescription of benzodiazepines:

> Benzodiazepines are indicated for the short-term (two to four weeks) relief of anxiety that is severe, disabling or subjecting the individual to unacceptable distress, occurring alone or in association with insomnia or short-term psychosomatic, organic or psychotic illness.
>
> The use of benzodiazepines to treat short-term 'mild' anxiety is inappropriate and unsuitable.

The Chief Medical Officer most recently communicated with all doctors on this issue through his January 2004 'CMO Update', reminding doctors that benzodiazepines are only indicated for short-term treatment, reiterating advice set out in the Department's clinical guidelines—'Drug misuse and dependence—guidelines on clinical management' (1999)[1]. The full update is available on the Department's website at: www.dh.gov.uk/assetRoot/04/07/01/76/04070176.pdf

In 2005, responding to advice from professionals in the substance misuse field, and consistent with the recommendations made in Department's clinical guidelines, the Department amended prescribing regulation to allow diazepam to be dispensed in instalments for the treatment of drug addiction—to assist doctors in prescribing benzodiazepines more safely.

[1] Guidelines on Clinical Management—Department of Health, The Scottish Office Department of Health, Welsh Office Department of Health and Social Services, Northern Ireland (1999) The Stationery Office

Jim Dobbin: To ask the Secretary of State for Health if she will take steps to establish more specialist benzodiazepine dependence treatment services on withdrawal clinics. [53561]

Caroline Flint: There are currently no specific plans to establish further specialist benzodiazepine dependence treatment services. Most support services meet a range of needs and are usually not dedicated exclusively for supporting benzodiazepine withdrawal.

Support for benzodiazepine withdrawal can be provided in a range of settings. People with dependence on benzodiazepines can access services in primary and secondary care. In primary care—prescribing, counselling, advice and/or psychological therapy is available, along with secondary care services, including specialised mental health services and specialised drug services.

Blood Donation

Dr. Kumar: To ask the Secretary of State for Health (1) what her assessment is of the policy of the National Blood Service that prohibits gay and bisexual men from donating blood; [53528]

(2) whether the Department has estimated the change in the amount of blood that would be donated if the National Blood Service removed its ban on gay and bisexual men donating blood. [53529]

Caroline Flint: We have a duty to ensure that any rules applied to blood donation by the National Blood Service (NBS) which is part of NHS Blood and Transplant, achieve a balance between risk reduction

and security of supply. The latest statistics available indicate that gay and bisexual men are proportionately at a relatively higher risk of carrying HIV and a number of other sexually transmitted infections, many of which can be transmitted by blood.

The self exclusion criterion concerning gay and bisexual men has been reached following analysis of the data by the Joint UK Blood Transfusion Services and National Institute of Biological Standards and control professional advisory committee (JPAC), and the advisory committee on the microbiological safety of blood, tissues and organs for transplantation. The decision by the NBS is based on scientific grounds. The NBS donor exclusion criteria is reviewed annually in the light of updated epidemiology evidence.

We are unable to assess the impact to the blood supply if the self exclusion criteria was removed for gay and bisexual men. This is because some men will be aware of the donor exclusion criteria and self exclude themselves without reporting to blood donor sessions.

Breast Cancer

Mr. Liddell-Grainger: To ask the Secretary of State for Health how many primary care trusts offer facilities for the rapid diagnosis of HER2 breast cancer. [55308]

Ms Rosie Winterton: I refer the hon. Member to the reply I gave the hon. Member for Broxbourne (Mr. Walker) on 16 February 2006, *Official Report*, column 2293W.

Mr. Liddell-Grainger: To ask the Secretary of State for Health how many primary care trusts offer Herceptin for the treatment of early stage HER2 breast cancers. [55315]

Ms Rosie Winterton: The Department does not collect information on the number of primary care trusts offering Herceptin for the treatment of early stage breast cancer.

Breastfeeding (Targets)

Mr. Wills: To ask the Secretary of State for Health what national targets she has set for increasing the percentage of mothers breastfeeding. [45525]

Caroline Flint: The priorities and planning framework (PPF) 2003–06 required an increase in breastfeeding initiation rates by 2 per cent. points per year, with a particular focus on women from disadvantaged groups.

The national standards, local action health and social care standards and planning framework 2005–06 to 2007–08 states that performance against existing commitments from the PPF need to be met and maintained in the new planning round. In addition, to reduce inequalities in health outcomes all primary care trusts should work in partnership with local authorities to increase breastfeeding initiation and duration rates targeting those with the highest need.

Cancer

Rosie Cooper: To ask the Secretary of State for Health how many patients normally resident in West Lancashire have been treated for cancer in the past 12 months. [53397]

Mr. Byrne: The information is not available in the format requested. However, the following table shows the data for 2004–05.

All diagnoses count of finished consultant episodes and patients for cancer in the West Lancashire Primary Care Trust 2004–05

Finished consultant episodes	*Patient counts*
2,588	1,215

Notes:

Finished consultant episode (FCE):

1. An FCE is defined as a period of admitted patient care under one consultant within one health care provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.

All diagnoses count of episodes:

2. These figures represent a count of all FCE's where the diagnosis was mentioned in any of the 14 (seven prior to 2002–03) diagnosis fields in a hospital episode statistics (HES) record.

Diagnosis (primary diagnosis):

3. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the HES data set and provides the main reason why the patient was in hospital.

Secondary diagnoses:

4. As well as the primary diagnosis, there are up to 13 (six prior to 2002–03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.

Patient counts:

5. Patient counts are based on the unique patient identifier HES identification (HESID). This identifier is derived based on patient's date of birth, postcode, sex, local patient identifier and national health service number, using an agreed algorithm. Where data are incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patients may have episodes in more than one cell.

Ungrossed data:

6. Figures have not been adjusted for shortfalls in data, that is the data is ungrossed.

Source:

Hospital Episode Statistics, NHS Health and Social Care Information Centre

Care Homes

Sandra Gidley: To ask the Secretary of State for Health how many care home inspections were carried out by the Commission for Social Care Inspection between April and December in *(a)* 2004 and *(b)* 2005. [51684]

Mr. Byrne: I understand from the Chair of the Commission for Social Care Inspection (CSCI) that the numbers of care home inspections carried out by CSCI for the years requested were as follows:

from the 1 April 2004 to 31 December 2004, CSCI carried out 28,225 inspections of care homes in England; and

from 1 April 2005 to 31 December 2005, CSCI carried out 28,725 inspections of care homes in England.

Cash Support

Rosie Cooper: To ask the Secretary of State for Health (1) what interest rate is charged to *(a)* NHS authorities and *(b)* Southport and Ormskirk NHS Trust for cash support; what the rate was in each of the past four years; and what estimate she has made of how much will be charged in (i) 2005–06 and (ii) 2006–07; [53310]

(2) what estimate she has made of how much interest would be paid for cash support by Southport and Ormskirk NHS Trust in *(a)* 2005–06 and *(b)* 2006–07 based on bank rates of interest. [53309]

Mr. Byrne: The NHS Bank operates a system of cash brokerage between strategic health authorities (SHAs). The NHS Bank is able to provide cash support to SHAs in need by taking cash from other SHAs that have surplus cash. Until this year, the principle was that any cash support received or provided would be returned in the following year, but there was no interest charge.

To encourage good financial management, the NHS Bank agreed that for cash brokerage in 2005–06 an interest payment will be required from SHAs receiving cash brokerage, and they have agreed to pay interest to those SHAs providing cash brokerage.

The charge on SHAs receiving cash brokerage is 10 per cent. and the interest to SHAs providing brokerage will be between five per cent, and 20 per cent. depending on the time of year when the cash is offered. No estimate has been made of the level of interest paid on any cash brokerage received next year.

The NHS Bank operates a cash brokerage system at SHA level. Any arrangements with national health service trusts or primary care trusts are for individual SHAs to manage. Information on what has been agreed locally is not held centrally.

Child Protection

Mr. Lansley: To ask the Secretary of State for Health what types of services provided by the NHS are required to make checks against the Protection of Children Act list of the people employed in them. [44902]

Mr. Byrne: Criminal Records Bureau (CRB) checks are mandatory throughout the national health service for all eligible new staff. Eligible staff means all staff with access to patients in the normal course of duties. Employers are required to request the CRB to carry out an additional check against List 99 and the Protection of Children Act (POCA) list of persons barred from working with children, specifically for staff applying to work in posts subject to the POCA definition of working with children, as amended by the Criminal Justice and Court Services Act 2000.

Choose and Book System

Anne Main: To ask the Secretary of State for Health if she will hold an inquiry into the Choose and Book computer system; and if she will make a statement. [54274]

Mr. Byrne: There are no plans to do so. The National Audit Office's (NAO) report on its current value for money study of procurement, implementation and the general progress of the national programme for information technology in the national health service will include all aspects of the choose and book electronic booking service.

Chronic Fatigue Services

Dr. Desmond Turner: To ask the Secretary of State for Health what assessment she has made of the economic effects of the early diagnosis and treatment of myalgic encephalomyelitis. [53674]

Mr. Byrne: We have made no assessments of the economic effects of early diagnosis and treatment for those with myalgic encephalomyelitis.

All health professionals recognise the importance of early diagnosis and treatment, indeed this is a key feature of the national service framework for long-term conditions. However, some neurological conditions, such as myalgic encephalomyelitis, can present a particular challenge for early identification as they lack clear, simple diagnostic features. Such conditions will require further investigations and clinical tests before a final diagnosis is made.

Dentistry

Hugh Bayley: To ask the Secretary of State for Health what percentage of the *(a)* adult and *(b)* child population of (i) York and Selby Primary Care Trust area, (ii) Yorkshire and the Humber and (iii) England was registered with an NHS general dental practitioner in (A) 1997 and (B) each year since then. [53677]

Ms Rosie Winterton: The table provides information on the estimated percentage of the populations of Selby and York Primary Care Trust (PCT), North and East Yorkshire and North Lincolnshire Health Authority (HA) and England registered with general dental services and personal dental services dentists as at 30 September each year since 1997.

Percentage

	Under 18	*18 plus*
Selby and York PCT		
1997	77	51
1998	72	47
1999	71	47
2000	76	50
2001	74	51
2002	73	51
2003	80	58
2004	64	42
2005	72	48
North and East Yorkshire and North Lincolnshire HA		
1997	70	52
1998	66	47
1999	67	48
2000	69	49
2001	68	48
2002	67	47
2003	67	48
2004	63	44
2005	65	45
England		
1997	66	53
1998	61	45
1999	62	45
2000	63	46
2001	63	45
2002	63	45
2003	63	45
2004	61	43
2005	62	44

Notes:
1. The drop in registrations between September 1997 and September 1998 is mostly attributable to the reduction in re-registration period from two years to 15 months.
2. The percentages of the population registered with a dentist (or registration rate) have been estimated by including patient registrations in the area of the dentist, that is according to the postcode of the dental surgery and not the patient's address. Therefore, the registration rates for some areas may be affected by some patients receiving dental treatment in a different area from the one in which they live.
Source:
National Health Service Health and Social Care Information Centre

Hugh Bayley: To ask the Secretary of State for Health how many full-time equivalent NHS general dental practitioners there were in the York and Selby Primary Care Trust area in each year since 1997. [53679]

Ms Rosie Winterton: Information on a full-time equivalent basis is not available. Dentists are able to vary the amount of hours they work and to vary their national health service commitment. Many dentists do some private work.

Numbers of dentists with a general dental services (GDS) or personal dental services (PDS) contract are shown in the table.

General Dental Services (CDS) and Personal Dental Services (PDS) Numbers of dentists within Selby and York Primary Care Trust (PCT) as at 30 September each year

	Selby and York PCT
1997	105
1998	113
1999	117
2000	117
2001	128
2002	131
2003	136
2004	136
2005	148

Notes:
1. Data includes all notifications of dentists joining or leaving the CDS or PDS, received by the Dental Practice Board, up to 19 October 2005. Figures for the numbers of dentists at specified dates may vary depending upon the notification period, for example data with a later notification period will include more recent notifications of dentists joining or leaving the GDS or PDS.
2. Dentists include principals, assistants and trainees. Prison contracts have been excluded from the data.
3. The postcode of the dental practice was used to allocate dentists to specific geographic areas. PCT areas have been defined using the Office for National Statistics All Fields Postcode Directory.
Source:
Dental Practice Board

Sandra Gidley: To ask the Secretary of State for Health what assessment she has made of the effectiveness with which *(a)* Eastleigh and Test Valley South primary care trust and *(b)* Hampshire and Isle of Wight strategic health authority has spent funding for improving access, choice and quality in NHS dentistry. [54166]

Ms Rosie Winterton: The Department has not made an assessment of the effectiveness with which Eastleigh and Test Valley South primary care trust and Hampshire and Isle of Wight strategic health authority has spent funding for improving access, choice and quality in national health service dentistry. It is the responsibility of local NHS organisations to determine how best to use their resources to meet the needs of their local community.

Dr. Murrison: To ask the Secretary of State for Health how much has been spent on IT for NHS dental services over the last three years in support of *(a)* Connecting for Health and *(b)* the National Programme for IT in the NHS; and what future spending is planned over the next three years. [54499]

Ms Rosie Winterton: Expenditure for the first three years of the dental component of the national programme for information technology in the national health service, which is being delivered by NHS Connecting for Health, an agency of the Department, is expected to have totalled around £500,000 by the end of March 2006. Future spending plans are currently under review.

Dr. Murrison: To ask the Secretary of State for Health which primary care trusts are inviting dentists to sign memoranda of agreement instead of contracts. [54504]

Ms Rosie Winterton: Departmental guidance to primary care trusts (PCTs) makes clear that contracts need to be signed by 31 March 2006 to enable dentists to continue providing services from 1 April 2006.

The Department has not received any information from PCTs to indicate that they are seeking to use memoranda of agreement in place of contracts.

Dr. Murrison: To ask the Secretary of State for Health if she will make a forecast of the cost to patients of one standard NHS dental filling *(a)* before and *(b)* after 1 April 2006. [54506]

Ms Rosie Winterton: Under the existing regulations and statement of dental remuneration, the cost varies between £6.20 and £22.24 for restorative work on a single tooth. This is dependent on the number of surfaces of the tooth involved and the type of material used to restore the tooth.

It is not possible to draw direct comparisons between current national health service dental charges and the new system that is being introduced from 1 April 2006. Current charges are for individual items of treatment, whereas the new charges will be for overall courses of treatment. A course of treatment that includes the restoration of any tooth or number of teeth, irrespective of the number of surfaces, complexity of the filling or the material used, will carry a charge of £42.40. This charge will cover not just the filling but any other treatment provided, together with an examination, diagnosis, for example x-ray, scale and polish, if appropriate, and any oral health advice.

Julia Goldsworthy: To ask the Secretary of State for Health how many primary care trusts are not offering children only NHS contracts to general dental service dentists under the post 1 April 2006 contract. [56613]

Ms Rosie Winterton *[holding answer 7 March 2006]:* The information requested is not held centrally.

Under The National Health Service (General Dental Services Contracts) Regulations 2005 and The National Health Service (Personal Dental Services Agreements) Regulations 2005, dentists will no longer be able to accept children as national health service patients on

condition that their parent or parents agree to private treatment. Where a dentist is currently treating children only under the NHS, it will be for the primary care trust (PCT) to decide whether to allow this to continue.

Where a PCT wishes to commission services from dentists that offer NHS services to both children and adults, and a current dentist is unwilling to provide services on this basis, the PCT will use the funding for that dentist to commission services from other dentists.

Diabetic Nurses

Mr. Lancaster: To ask the Secretary of State for Health what the guidelines are on the provision of specialist diabetic nurses for *(a)* adults and *(b)* children. [54880]

Ms Rosie Winterton: The national service framework for diabetes: delivery strategy states

> "diabetes services need to ensure that there are enough staff with appropriate skills who are well-led, supported, and deliver high-quality care".

It is up to local diabetes teams based on the needs of their local population to decide how best these teams are constructed to provide local services for both adults and children.

Domiciliary Oxygen

Steve Webb: To ask the Secretary of State for Health what consultation was conducted with *(a)* service users and *(b)* health professionals, prior to the recent change in domiciliary oxygen provision. [55008]

Jane Kennedy: For many years, patient organisations and health care professionals have sought improvements in the domiciliary oxygen service. The Department asked the Royal College of Physicians to lead a multi-disciplinary working group, which reported in 1999, to review the clinical assessment and prescribing of oxygen therapy in the home. Following a further review, we announced plans for change in June 2003. Organisations representing patients contributed to the specification for the new service—as patients want better access to modern equipment that can help improve their quality of life, including portable systems that enable them to leave the home. These are important features of the new service.

Health care professionals also contributed to the development of the new service specification, which supports clinical best practice guidelines on the assessment and prescribing of oxygen therapy in the home.

Steve Webb: To ask the Secretary of State for Health for what reason the system of domiciliary oxygen supply has been reformed. [55012]

Jane Kennedy: The service has seen little change in nearly 60 years and patients and health care professionals have been pressing for a modernised home oxygen service for some time—one that keeps pace with clinical practice and improves patients' access to equipment that can improve their quality of life. The new service supports clinical best practice in the assessment and prescribing of oxygen therapy in the home and makes available a much wider range of up-to-date equipment to patients.

Sandra Gidley: To ask the Secretary of State for Health if she will publish the advice given to community pharmacists with regard to the running down of stocks of oxygen prior to 1 February 2006; and if she will make a statement. [55022]

Jane Kennedy: Communications about cylinder stocks held by community pharmacies are matters for the individual community pharmacy providing an oxygen service and the company supplying the pharmacy with oxygen cylinders.

Steve Webb: To ask the Secretary of State for Health pursuant to the answer of 30 January 2006, *Official Report*, column 170W, on home oxygen therapy, what assessment she made of the feasibility of using pharmacists to supply additional equipment to home oxygen users. [55265]

Jane Kennedy: The tender documents issued for the new service in October 2004 set out the requirements for the provision of oxygen equipment. Like others, pharmacy companies were free to submit bids for delivery of that service for assessment and evaluation.

Miss Kirkbride: To ask the Secretary of State for Health what use has been made of the six month transition period for the new domiciliary oxygen supply contract. [56064]

Jane Kennedy: The transition period is in two stages. In stage one, from July 2006 to 31 January 2006, new suppliers continued with arrangements for ordering new equipment and the recruitment and training of staff. They also worked with the national health service in planning the transfer of patients to new suppliers and in this phase, over 30,000 patients highly dependent on the use of oxygen at home, transferred prior to the new contract start date of 1 February 2006. The second stage, which started on 1 February 2006, is a six-month programme to transfer remaining patients to the new suppliers. That programme is continuing.

Dr. Foster

Tim Loughton: To ask the Secretary of State for Health how much the Department paid to the health care information company Dr. Foster in each of the last three financial years. [51941]

Mr. Byrne: The Department does not hold a central contracts database but is able to provide the following analysis for 2004–05 and 2005–06:

> In 2004–05, the Department held eight contracts with Dr. Foster on which it spent £4,043,144.
>
> In 2005–06, the Department held 11 contracts, two of which were carried forward from 2004–05, and has incurred expenditure of £2,182,794 to date.

Expert Patients Programme

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the effect on costs in other parts of the NHS of the Expert Patients programme. [53336]

Mr. Byrne: The expert patients programme (EPP) has been evaluated throughout its pilot and mainstreaming phase. Indications from this data self-reported by

participants show a reduction in service utilisation which includes, seven per cent, reductions in general practitioner consultations, 10 per cent. reductions in outpatient visits, 16 per cent. reductions in accident and emergency attendances, and 9 per cent. reductions in physiotherapy use.

Further work is under way as part of the broader independent evaluation of the EPP to assess the financial impact of this. Results are expected to be known later in 2006.

Genito-urinary Clinics

Anne Main: To ask the Secretary of State for Health pursuant to the answer of 27 February 2006, *Official Report*, column 423W, on genito-urinary clinics, what *(a)* formula and *(b)* criteria should be used to allocate the funding. [55515]

Caroline Flint: The 2006–08 revenue allocations to primary care trusts (PCTs) separately identify £203 million over the two years to invest in the sexual health modernisation initiative which includes genito-urinary clinics. The funding has been allocated on a weighted capitation basis to all PCTs. It is for PCTs to determine how to use the funding allocated to them to commission services to meet the health care needs of their local populations.

The £15 million allocated in 2005–06 to strategic health authorities (SHAs) for capital for sexual health services was allocated to SHAs on an equal basis to help reduce waiting times and increase capacity.

As part of the 2006–07 capital allocations, £25 million strategic capital was allocated to SHAs for sexual health. This funding was allocated on a weighted capitation basis. It is for SHAs to determine how this funding is distributed within their area.

General Practitioners (Take-home Pay)

Mr. Graham Stuart: To ask the Secretary of State for Health what the average take-home pay was for general practitioners in *(a)* England and *(b)* Beverley and Holderness in each of the last 10 years; and if she will make a statement. [53620]

Mr. Byrne: Information on the average take-home pay for general practitioners in England and Beverley and Holderness is not collected centrally. However, figures based on information for Great Britain are available, which is shown in the following table.

£

	Intended average net remuneration/income
1993–94	40,610
1994–95	41,890
1995–96	43,165
1996–97	44,483
1997–98	46,031
1998–99	48,037
1999–2000	52,606
2000–01	54,219
2001–02	56,510
2002–03	61,618
2003–04[1]	67,040

[1] Forecast figures.

Health Committee

Mr. Lansley: To ask the Secretary of State for Health pursuant to the written answer of 11 January 2006, *Official Report*, column 725W, on Health Committee evidence, what percentage of the national health service pay bill was spent on agency staff in each year since 1997–98; and which groups constitute agency staff for the purpose of these calculations. [51881]

Mr. Byrne: The Department collects expenditure information on non-national health service staff. Non-NHS staff expenditure includes all agency staff and any other staff not directly employed. Information relating to the percentage of the NHS paybill spent on non-NHS staff under the following categories—medical, dental, nursing, midwifery and health visiting, scientific, therapeutic and technical, administrative and clerical, healthcare assistants and other support, maintenance and works, ambulance and other employees from 1997–98 to 2004–05, the last year for which figures are currently available is shown in the table. This shows a reversal of the previously upward trend of spend, which we expect to continue due to the range of actions we have in hand to reduce costs, drive down demand and improve quality.

Agency percentage spend

Staff category	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*

Annual Financial Returns of NHS trusts, primary care trusts and strategic health authorities

Health Suppliers

Mr. Bacon: To ask the Secretary of State for Health (1) what the contracted obligations of the public sector are under the Connecting for Health Supplier Attachment Scheme; what the maximum cost to public funds is of not meeting these obligations; and if she will make a statement; [51694]

(2) what representations *(a)* her Department and *(b)* Connecting for Health have received from (i) local service providers and (ii) NHS bodies about the Supplier Attachment Scheme. [51698]

Mr. Byrne: The supplier attachment scheme is an arrangement by which national health service personnel are seconded on a temporary basis to work with local service providers to the national programme for information technology (LSPs) to ensure that the systems and services being developed and deployed meet the needs of the NHS. Fulfilment of the arrangement has advantages for the NHS in compensating price reductions and ensuring that NHS expertise is readily available to LSPs.

The current contractual liability to LSPs in each cluster area in respect of the Supplier Attachment Scheme is as follows:

London Cluster—none

North West/West Midlands Cluster—50 whole-time equivalent staff (£6.9 million) per year

North East and Eastern Clusters (jointly)—242,000 man days over the term of the contract (no contracted financial obligation).

Southern Cluster—an agreement has been reached to buy out the liability at a cost of £19 million in 2006–07 as NHS trusts have decided not to supply the staff resources.

The LSPs have said that they greatly value the arrangement and the benefits they derive from it.

Hearing Tests

Mrs. Dorries: To ask the Secretary of State for Health (1) what the average waiting time is for *(a)* children's, *(b)* adults and *(c)* all hearing tests for each NHS trust in the county of Bedfordshire; and if she will make a statement; [53461]

(2) how many NHS hearing tests have been completed in the county of Bedfordshire in each year since 1997; and if she will make a statement. [53462]

Ms Rosie Winterton: The information requested is not held centrally.

Mrs. Dorries: To ask the Secretary of State for Health what steps the Government are taking to reduce waiting times for those *(a)* children and *(b)* adults in the county of Bedfordshire who need hearing tests; and if she will make a statement. [53464]

Ms Rosie Winterton: Nationally and therefore including the county of Bedfordshire, several initiatives have been introduced to improve capacity to deliver audiology services for children and adults. These are the development of a new degree to help to address the shortage of audiologists and the introduction of Hearing Direct that provides follow-up care and advice for hearing aid users who would benefit from this.

The figures on waiting times for testing and fitting hearing aids are not collected centrally. It is for primary care trusts to ensure their local population benefits from modernised hearing aid services.

HIV/AIDS

Anne Main: To ask the Secretary of State for Health pursuant to her answer of 2 February 2006, *Official Report*, column 1721W, on HIV/Aids (Hertfordshire), what representations she has made to the Befordshire and Hertfordshire Strategic Health Authority concerning *(a)* HIV diagnosis and *(b)* levels of other sexually transmitted infections. [54458]

Caroline Flint: Primary care trusts (PCTs) are responsible for assessing and meeting the needs of their local populations, including the prevention and treatment of sexually transmitted infections and HIV. Sexual health and access to genito-urinary medicine (GUM) clinics is included as one of the six key priorities for the national health service for 2006–07. This requires the NHS to take action, through local delivery plans, to reduce waiting times for GUM clinics to 48 hours for all by 2008.

Hospital Audiology Services

Peter Bottomley: To ask the Secretary of State for Health from whom *(a)* she and *(b)* the NHS Chief Executive receive advice on hospital audiology services; what information she has received on (i) waiting times and (ii) waiting lists for hearing tests and hearing aid fitting in NHS hospitals; and what advice she has received on how to reduce them. [51755]

Mr. Byrne: Information on provision of audiology services including waiting times and lists for hearing tests is not held centrally. It is for primary care trusts to plan and commission appropriate services for their local population including those with hearing impairments.

During 2005, the Department collected unvalidated diagnostic waiting time and activity data, including data on pure tone audiometry, from 21 trusts as part of piloting work. Building on this pilot exercise, the Department introduced a new national diagnostic data collection in January 2006 and expects to commence routine publication of data on diagnostic waiting times and activity from the spring.

The Healthcare Commission is responsible for monitoring overall performance in the national health service, including audiology services. The Healthcare Commission reports to the NHS Chief Executive and the Secretary of State as part of their responsibilities. Civil servants also provide advice for the Secretary of State and the NHS Chief Executive.

Influenza

Mr. Ian Austin: To ask the Secretary of State for Health pursuant to the answer of 9 January 2006, *Official Report*, column 133W, on influenza, whether she has examined what contribution acute respiratory distress syndrome makes to the mortality rate in influenza outbreaks. [41093]

Ms Rosie Winterton: We have not made a specific examination.

Information on those at an increased risk from influenza and who are recommended influenza vaccine is available at www.immunisation.nhs.uk

Late Payment

Anne Main: To ask the Secretary of State for Health pursuant to the answer of 8 February to Question 46369, if she will assess the effect of late payments by NHS professionals on small and medium sized firms. [51159]

Mr. Byrne: NHS Professionals meets or exceeds Confederation of British Industry's Better Payment Practice Code target of paying 95 per cent. of undisputed invoices within contract terms or 30 days where no terms have been agreed.

In 2004–05, NHS Professionals paid 97 per cent. of its invoices within the code requirements. It is for all businesses, regardless of size to ensure that their invoices are correct, so that NHS Professionals is able to exceed the target to a greater extent.

Local Authority Finance

Mr. Paterson: To ask the Secretary of State for Health what account has been taken in the local authority budget settlements for 2006–07 of changes in the numbers of people with *(a)* multiple and profound disabilities and *(b)* autism, attention deficit hyperactivity disorder and Asperger's syndrome. [51442]

Mr. Byrne: Local authority budget settlements do not take into account changes in the numbers of people in these specific groups.

From 2006–07, there is a new needs-based relative needs formulae (RNF) allocation formulae for adults' social care. This incorporates the latest available 2001 Census data, and has been developed following a rigorous process of academic research. The RNF for each personal social services (PSS) service block (younger adults, older people and children) are based on the new PSS formula models described in the recent Office of Deputy Prime Minister consultation. These take into account needs-based variables such as age, deprivation, sparsity, low income and area costs.

Macmillan Nurses

Rosie Cooper: To ask the Secretary of State for Health what measures she is taking to increase the numbers of Macmillan nurses working for the NHS in West Lancashire. [53398]

Mr. Byrne: It is for the national health service trusts to decide how many nurses including palliative care nurse specialists, are employed in each specialty within hospitals. Local cancer networks work in partnership with primary care trusts, strategic health authorities and their work force development directorates to assess, plan and review their work force, education and training needs for all staff linked to the delivery of local and national priorities for cancer.

Magnet Therapy

Dr. Gibson: To ask the Secretary of State for Health what use is being made of magnet therapy in the NHS; and whether it has been approved by the National Institute for Clinical and Health Excellence. [55743]

Jane Kennedy: A product incorporating magnetic therapy to aid the treatment of leg ulcers has recently been added to the list of products which may be supplied to patients via prescriptions on the national health service. Clinicians will decide whether individual patients might benefit from this additional treatment option. Because the product was not previously available on prescription we have no information about its current use on the NHS. The National Institute for Health and Clinical Excellence has not been asked to appraise this intervention.

Mental Health

Rosie Cooper: To ask the Secretary of State for Health how many children in *(a)* West Lancashire constituency and *(b)* Lancashire have had to wait more than (i) one month, (ii) two months and (iii) three months for an appointment with the Child and Adolescent Mental Health Service in the last 12 months. [53311]

Mr. Byrne: The information requested is not held centrally.

Huw Irranca-Davies: To ask the Secretary of State for Health what steps the Government are taking to support young people with mental health problems. [53506]

Mr. Byrne: Improving child and adolescent mental health services (CAMHS) is a priority for this Government, as emphasised by the public service agreement standard of a comprehensive in every area of England by the end of 2006. This commitment to improve CAMHS has been backed by significant additional funding, over £300 million in the last three years.

The CAMHS module of the children's national service framework for England published September 2004 sets the framework for CAMHS for the next 10 years. It sets the standard that all children and young people, from birth to their 18th birthday, who have mental health problems and disorders, will have access to timely, integrated, high quality multidisciplinary mental health services to ensure effective assessment, treatment and support, for them, their parents or carers, and other family members. The position relating to CAMHS in Wales is a matter for the Welsh Assembly.

Midwives

Mr. Stewart Jackson: To ask the Secretary of State for Health how many vacant midwife posts there are in *(a)* the Norfolk, Suffolk and Cambridgeshire strategic health authority area and *(b)* the Peterborough and Stamford hospitals NHS foundation hospitals trust area; and what plans her Department has to recruit more midwives into the NHS in Cambridgeshire. [50431]

Ms Rosie Winterton: The table provides national health service three-month vacancies for qualified midwifery staff by NHS trust in the Norfolk, Suffolk and Cambridgeshire area.

The NHS Improvement Plan, published in June 2004, reiterated the Government's commitment to increase numbers of frontline NHS staff. This built on the NHS Plan which made a commitment to increasing nursing staff numbers—over 20,000 more nurses working in the NHS and 5,500 extra nurses, midwives and health visitors being trained each year by 2004. These targets have already been met and exceeded. The extra investment announced in the 2002 Budget, builds on the NHS Plan target; by 2008 we expect the NHS to have net increases of at least 35,000 nurses, midwives and health visitors.

The NHS in Cambridgeshire in common with other areas, will benefit from the contribution of these additions to the NHS work force.

Health and social care information centre vacancies survey March 2005. National health service three-month vacancies for qualified midwifery staff in Norfolk, Suffolk and Cambridgeshire strategic health authority area by organisation. Three-month vacancy rates, numbers and staff in post.

		Midwives

Notes:

Three month vacancy:

1. Three month vacancy information is as at 31 March 2005.

2. Three month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (whole time equivalents).

3. Three month vacancy rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post.

4. Three month vacancy rates are calculated using staff in post from the Non-Medical Workforce Census September 2004.

5. Percentages are rounded to one decimal place.

6. Figures where sum of staff in post (as at 30 September 2004) and vacancies (as at 31 March 2005) is less than 10.

Staff in post:

7. Staff in post data is from the Non-Medical Workforce Census September 2004.

General:

8. Vacancy and staff in post numbers are rounded to the nearest whole number.

9. Calculating the vacancy rates using the above data may not equal the actual vacancy rates.

10. Due to rounding, totals may not equal the sum of component parts.

Health and Social Care Information Centre Vacancies Survey March 2005

Health and Social Care Information Centre Non-Medical Workforce Census September 2004

Research National Database

Philip Davies: To ask the Secretary of State for Health if she will assess the merits of establishing a national database of research into medical conditions for use by NHS consultants and university hospitals carrying out research; and if she will make a statement. [55188]

Jane Kennedy: The Department funds the national research register which holds information on ongoing and recently completed research in the national health service. The register can be viewed online on the Department's website at www.dh.gov.uk/research. In addition, the map of medicine being developed by Connecting for Health will provide support on best practice in relation to specific clinical conditions. More details are available on their website at: www.connectingforhealth.nhs.uk/delivery

In the longer term, proposals in the new national health research strategy "Best Research for Best Health" for the development of a unified knowledge management system will further meet the information needs of stakeholders including the NHS, research funding organisations, and universities.

NHS Finance

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 8 February 2006, *Official Report*, column 1317W, on NHS Finance, which organisations her Department has had cause to remind that payments of pay-as-you-earn and national insurance contributions should be made when they are due, or on the date agreed with the Inland Revenue, in the 2005–06 financial year; when these organisations were reminded of her Department's policy in each case; which organisations her Department has had to remind of her Department's policy more than once in the 2005–06 financial year; and if she will make a statement. [52955]

Mr. Byrne: The Department's policy is that all national health service organisations should ensure that payments of pay-as-you-earn tax and national insurance contributions are made when they are due, or by the date agreed with the Inland Revenue.

All strategic health authorities have been reminded of this policy and it is their responsibility to ensure that the policy is implemented in the organisations within their local health communities.

NHS Gas Expenditure

Keith Vaz: To ask the Secretary of State for Health how much the NHS has spent on gas in *(a)* Leicester and *(b)* England since 1997. [51017]

Jane Kennedy: The table provides the approximate figures the national health service has spent on gas since 1997 using the NHS Purchasing and Supply Agency's framework agreements.

	Approximate spend (£)
England	
1998	40,539,501
1999	37,878,480
2000	61,433,441
2001	70,139,250
2002	65,572,807
2003	71,617,594
2004	100,560,301
2005	161,336,700
2006	205,917,010
Leicestershire	
1998	810,790
1999	757,570
2000	1,228,669
2001	1,402,785
2002	1,311,456
2003	1,432,352
2004	2,011,206
2005	3,226,734
2006	4,118,340

These figures differ from amounts used in previous replies to parliamentary questions. Although still an approximation they follow an exercise to provide the most realistic spend on gas by those trusts utilising framework agreements.

These trusts currently account for approximately 85 per cent. of the NHS market increasing on a year-by-year basis from 70 per cent, in 2000.

NHS Secondments

Tim Loughton: To ask the Secretary of State for Health how many people have been seconded to new jobs in the NHS to implement 'Commissioning a Patient-Led NHS'. [51939]

Mr. Byrne: The information requested is not collected centrally.

The secondment of people to the national health service to implement 'Commissioning a Patient-Led NHS', is a matter for local discretion.

Occupational Therapy (London)

Mr. Burstow: To ask the Secretary of State for Health what occupational therapy services are available in each London borough. [54791]

Jane Kennedy: The information requested is not available centrally. It is for primary care trusts, in partnership with strategic health authorities, local authorities and other stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services. This process provides the means for addressing local needs within the health community including the provision of occupational therapy services.

Pathologists

Mr. Dismore: To ask the Secretary of State for Health what the three-month vacancy rate is for pathologists at

(a) Barnet and Chase Farm Hospital Trust, *(b)* Royal Free Hampstead NHS Trust, *(c)* Northwick Park Hospital and *(d)* London hospitals; and if she will make a statement. [55168]

Jane Kennedy: The information requested is not collected in the format requested. However, pathology group vacancy data by all London trusts and by acute trusts are shown in the table.

The three month vacancy rate and number for Pathology Group Specialty Consultants by London Trust, as at 31 March 2005

Patient Records

Paul Flynn: To ask the Secretary of State for Health under what circumstances patient records held by general practitioner surgeries can be released to pharmaceutical companies, their agents and staff. [50816]

Mr. Byrne: Everyone working for or on behalf of the national health service, including general practitioners and their staff, works within a confidentiality code of practice which governs the use of patient information, and also has a legal duty to keep patient care records and patient-identifiable information secure. Under the code, patient care records may only be disclosed with the explicit consent of the patient, or where the record has been effectively anonymised. This obligation is reinforced in the NHS Care Record Guarantee, published in May 2005, which sets out the rules that will govern information held in the NHS Care Records Service. A copy of the guarantee is available in the Library.

Physiotherapists

Tim Loughton: To ask the Secretary of State for Health how many physiotherapists have been matched on each of the available pay grades under the Agenda for Change pay system. [51937]

Mr. Byrne: The information requested is shown in the table. The table shows the number of outcomes on the Computer Aided Job Evaluation (CAJE) database distributed by band.

Band	*Number of matches on CAJE*
1	3
2	585
3	1,015
4	196
5	703
6	2,324
7	2,655

Primary Care Trusts

Mr. Paterson: To ask the Secretary of State for Health what the average expenditure by NHS primary care trusts per head of population on learning disability services was in each year since 1997. [51363]

Mr. Byrne: The information available is shown in the table.

	Expenditure per head on the national health service commissioning of learning disability services (£)
1997–98	26.09
1998–99	26.79
1999–2000	29.02
2000–01	30.50
2001–02	31.17
2002–03	28.45
2003–04	32.41
2004–05	33.66

Figures relate to expenditure on the commissioning of learning disability services by primary care trusts (PCTs) and health authorities in England.

Expenditure figures for 1997–98 to 2001–02 contain an element of double counting where one organisation would commission healthcare through another. This cannot be eliminated and may be responsible for the apparent fall in expenditure in 2002–03. All figures from 2002–03 exclude the double counting and are therefore more reliable.

This expenditure is for the purchase of secondary healthcare only; the Department has no information for primary care expenditure in this area.

Mr. Newmark: To ask the Secretary of State for Health what assessment she has made of *(a)* the appropriateness of the system of weighting of the primary care trust recurrent allocation per head of population and *(b)* the difference between the highest and lowest weighted allocations per head of population; and if she will make a statement. [52683]

Mr. Byrne: A weighted-capitation formula is used to inform revenue allocations to primary care trusts (PCTs). The aim of the formula is to ensure there is sufficient funding to provide equal access for equal need in all parts of the country, and to reduce health inequalities. The weighting applied to populations reflects differences in the level of need.

The development of the weighted-capitation formula is kept under constant review by the advisory committee on resource allocation (ACRA). ACRA's objective is to ensure equity in resource allocation. ACRA is an independent body comprising national health service management, general practitioners and academic members. Prior to each allocations round ACRA makes recommendations to Ministers on potential changes to the formula. Any recommendations that ACRA make in relation to proposed changes to the formula, are based on the best evidence and research available.

The most recent round of revenue allocations covers the period 2006–07 and 2007–08. The highest allocation per weighted head in 2007–08 will be £1,597 and the lowest allocation will be £1,336.

Private Finance Initiative

Sandra Gidley: To ask the Secretary of State for Health how much was spent on private finance initiative projects in the last three years; and what the estimated levels are over the next three years. [52543]

Jane Kennedy: Over the last three years the following private finance initiative (PFI) projects over £10 million have reached financial close.

	Capital value (£ million)
Avon and Wiltshire Mental Health Partnership	83
Brighton and Sussex University Hospitals NHS Trust	36
Cambridge University Hospital NHS Trust	76
Central Manchester and Manchester Children's Hospitals NHS Trust	512
Daventry and South Northamptonshire Primary Care Trust	28
Hull and East Yorkshire Hospitals NHS Trust	67
Kingston Hospital NHS Trust	33
Leeds Teaching Hospitals NHS Trust	265
Lewisham Hospitals NHS Trust	72
New Forest Primary Care Trust	36
Newcastle upon Tyne Hospitals NHS Trust	299
Newcastle, North Tyneside and Northumberland Mental Health NHS Trust	32
North Kirklees Primary Care Trust	27
Nottinghamshire Healthcare NHS Trust	19
Nuffield Orthopaedic Centre	37
Oxford Radcliffe Hospitals NHS Trust	129
Portsmouth Hospitals NHS Trust	193
Salisbury Healthcare NHS Trust	24
Sheffield Teaching Hospitals NHS Trust	35
Sherwood Forest Hospitals NHS Trust	326
Wandsworth Primary Care Trust	75

49 PFI schemes are currently being taken forward; their capital value is estimated to be between £7–9 billion. Of these schemes the following are expected to reach financial close within the next three years (the remaining 13 are expected to do so after that period):

Aintree Hospitals NHS Trust
Barnet and Chase Farm Hospitals NHS Trust
Barts and the London NHS Trust
Billericay, Brentwood and Wickford Primary Care Trust
Derbyshire Mental Health NHS Trust
East Lincolnshire Primary Care Trust
Essex Rivers Healthcare NHS Trust
Hillingdon Hospital NHS Trust
Ipswich Hospital NHS Trust
Langbaurgh Primary Care Trust
Leicestershire Partnerships NHS Trust
Maidstone and Tunbridge Wells NHS Trust
Mid Essex Hospital Services NHS Trust
Mid Yorkshire Hospitals NHS Trust
North Bristol/South Gloucestershire Primary Care Trusts
North Middlesex University Hospitals NHS Trust
North West London Hospitals NHS Trust
Northamptonshire Healthcare NHS Trust
Peterborough and Stamford Hospitals NHS Trust
Plymouth Hospitals NHS Trust
Royal National Orthopaedic Hospital NHS Trust
Salford Royal Hospitals NHS Trust
Selby and York Primary Care Trust
South Devon Healthcare NHS Trust
South Essex Partnership
Southampton University Hospitals NHS Trust
Southend Hospital NHS Trust
St. Helens and Knowsley Hospitals NHS Trust
Tameside and Glossop Acute Services NHS Trust
Taunton and Somerset NHS Trust
Taunton and Somerset NHS Trust
Tees and North East Yorkshire NHS Trust
University Hospital Birmingham NHS Trust
University Hospital of North Staffordshire
University Hospitals of Leicester NHS Trust
Walsall Hospitals NHS Trust

Sentinel Computer System

Mr. Todd: To ask the Secretary of State for Health if she will make a statement on *(a)* the delivery and performance of the Sentinel system procured by the Medicines and Healthcare products Regulatory Agency and *(b)* its use by manufacturers and others using the services of the agency. [53333]

Jane Kennedy: The full implementation of the Sentinel programme will transform all the MHRA's regulatory responsibilities from a paper-based system to electronic working both internally within the MHRA and externally with its stakeholders. The programme, which will run for 10 years, takes forward the MHRA's information management strategy which was developed in 2000. There have been some technical operational and performance issues in certain areas of the programme which in turn have lead to delays in the day-to-day work of the MHRA. These have or are being resolved and urgent cases are being processed promptly. Positive improvements have already been achieved and more are forecast. A core part of the Sentinel programme relates to the MHRA's ability to interact electronically with its stakeholders and several pilots have been piloted with a number of companies prior to implementation. In preparation for electronic working, some 25 million pages of historical data and documents were digitised and loaded into the system. Pharmaceutical companies will therefore have no need to re-submit this original data and will benefit from being able to immediately start working electronically.

Sexual Health

Dr. Kumar: To ask the Secretary of State for Health what extra *(a)* finance and *(b)* personnel are planned to be allocated to promoting sexual health over the next three years; and what new initiatives are planned for that period. [53530]

Caroline Flint: Primary care trusts (PCTs) are responsible for delivering sexual health services to their local populations and resource this from their baselines allocations. Sexual health and access to genito-urinary clinics is one of the six top priorities for the national health service in 2006–07.

In February 2005, individual PCTs were notified of their additional choosing health revenue allocation for sexual health. In 2006–07, an extra £91.5 million will be allocated to PCTs for sexual health modernisation which includes funding for chlamydia screening, genito-urinary medicine (GUM) and reproductive health. A further £111.5 million will be allocated in 2007–08. Also, an extra £15 million for capital was allocated this financial year for sexual health services and a further £25 million allocated in 2006–07.

The national chlamydia screening programme already has 26 regional programmes implemented, covering over 25 per cent. of PCTs in England. By April 2006, we expect to see screening happening in the whole of England. This is well ahead of the 2007 target. The

vision is to implement a multi-faceted, evidence-based and cost-effective national prevention and control programme for genital chlamydial infection in England.

Between September 2004 and June 2005 the number of consultants in the GUM speciality increased by seven (2.1 per cent.) and between September 1997 and June 2005 by 88 (26.9 per cent.). Since 1997 the number of hospital, public health medicine and community health services staff with a speciality in GUM in England has increased by 197 (21.7 per cent.) and by 28 (3.1 per cent.) between September 2003 and September 2004 (906). In addition to increasing consultant numbers, our strategic aim is to achieve greater diversity of sexual health service provision, which should help to relieve pressure on GUM consultants. This is being supported through measures such as the GUM service review, the audit of contraception services, and greater service provision outside of the GUM setting.

John Bercow: To ask the Secretary of State for Health what steps her Department is taking to improve sexual health among young people. [55464]

Caroline Flint: The inclusion of sexual health in the six national health service key priorities for 2006–07 is a further demonstration that sexual health is regarded as important and mainstream. The national strategy for sexual health and HIV (2001) sets out our long term plan to improve sexual health and modernise services, and identified young people as being one of the groups most vulnerable to poor sexual health. A new sexual health campaign focusing on younger men and women was announced in the White Paper Choosing Health and this builds on previous commitments to public health information aspects of this strategy.

This also links closely to the cross-Government teenage pregnancy strategy, which is currently running radio, targeted magazine, satellite TV and cinema adverts aimed at 15 to 17-year-olds as part of its "Want Respect, Use A Condom campaign". Furthermore, the "R U Thinking" campaign is targeting 13 to 15-year-olds with messages encouraging delaying early sex in teenage magazine titles and online.

Sex and relationship education (SRE) is a key part of the personal, social and health education which is taught in all schools. This is reinforced by the healthy schools programme, which sets criteria for schools to achieve healthy school status. This includes a requirement that schools have an up to date SRE policy and implement this throughout their curriculum and pastoral provision, make good use of school nurses and sexual health outreach workers and have effective referral arrangements to specialist services. To date, over 75 per cent. of schools are participating in the programme.

Added to this is the accelerated roll-out of the national Chlamydia screening programme which targets the sexually active under-25s, currently expected to reach 80 per cent. coverage of primary care trusts in England by April 2006. We are also piloting Chlamydia screening through Boots pharmacies in London and making improvements to contraception services.

In addition to this national work, PCTs are responsible for providing sexual health services and health promotion which meet the needs of their local populations. To support them in this role, the Department has published good practice guidance and recommended standards, which include specific guidance in respect of services for young people. All of these documents are available on the Department's website at www.dh.gov.uk

Smoking

Mr. Ian Austin: To ask the Secretary of State for Health what representations her Department has received on elastic cigarettes developed by British American Tobacco; and what assessment she has made of their health effects. [56999]

Caroline Flint: Elastic cigarettes is a term explained in The Lancet March 4 2006 paper, "Secret science: tobacco industry research on smoking behaviour and cigarette toxicity" by Hammond D et al. In this paper, the authors report that

> "BAT developed elastic cigarettes that produced low yields under standard testing procedure, whereas in consumers' hands they elicited more intensive smoking and provided higher concentrations of tar and nicotine to smokers."

In the paper, the term smoke elasticity is reference to a 1983 British American Tobacco (BAT) research conference in Brazil.

The Department is not aware of specific representations about BAT elastic cigarettes and no specific assessment therefore made. General awareness among the scientific community about misleading terms on cigarettes packs resulted in the introduction of EU Directive 2001/37/EC which lead to the banning of terms such as low tar, light, ultra-light and mild from cigarette packs sold in the United Kingdom from October 2003 and other tobacco products from October 2004.

Keith Vaz: To ask the Secretary of State for Health how many people she estimates have *(a)* started and *(b)* stopped smoking in each quarter of each of the last five years. [53879]

Caroline Flint: The information is not available in the form requested.

We are only able to provide data on the number of people who set a quit date through the NHS Stop Smoking Services and of those, how many had successfully quit (based on self report), in England.

The following table provides quarterly and annual data on the monitoring of the NHS Stop Smoking Services, for the period April 2000 to September 2005.

People[1] setting a quit date and those successfully quit[2], April 2000 to September 2005, England

	Quarter	Number setting a quit date	Successful quitters
April to March 2000	1	12,432	4,242

[1] Aged 16 and over.

[2] A client is counted as having successfully quit smoking at the four week follow-up if he/she has not smoked at all since two weeks after the quit date. The figures presented here are based on self-report of smoking status by the client at the four week follow-up.

Notes:

1. 2005–06 Quarter one and two figures are provisional.
2. Current data and information on NHS Stop Smoking Services is available at: http://www.ic.nhs.uk/pubs/ICpubfolder_view
3. Historic data and information on NHS Stop Smoking Services can be found at: http://www.dh.gov.uk/PublicationsAndStatistics/Statistics/StatisticalWorkAreas/StatisticalPublicHealth/StatisticalPublicHealthArticle/fs/en?CONTENT_ID=4032542&chk=GhPZ%2By

Source:

NHS Health and Social Care Information Centre, Lifestyles Statistics

Keith Vaz: To ask the Secretary of State for Health how much her Department spent on treating smoking-related illnesses in each of the past five years. [53877]

Caroline Flint: The information is not available in the form requested.

The latest estimated data on the cost to the national health service of treating smoking-related illnesses is between £1.4 to £1.7 billion every year in terms of general practitioner visits, prescriptions, treatment and operations.

Southport and Ormskirk NHS Trust

Rosie Cooper: To ask the Secretary of State for Health what rating was given to Southport and Ormskirk NHS trust by the turnaround team. [53904]

Mr. Byrne: We envisage that the turnaround teams will be needed for around 18 months. This will take us to the end of 2006–07, when we expect the national health service to have returned to financial balance.

The first phase of this assessment is complete and Southport and Ormskirk hospital NHS trust was included in this assessment. It was assessed as requiring additional expertise to support turnaround. The team is agreeing a tailored package of turnaround support with the organisation.

Sterile Services

Mr. Oaten: To ask the Secretary of State for Health when she expects to publish findings from the Pathfinder for Sterile Services. [53185]

Jane Kennedy: I refer the hon. Member to the reply given to him on 9 November 2005, *Official Report*, column 637W.

Surrey and Sussex Healthcare NHS Trust

Mr. Maude: To ask the Secretary of State for Health what recent assessment she has made of acute hospital bed capacity at the Surrey and Sussex Healthcare NHS Trust. [54372]

Caroline Flint: The information requested is not held centrally. The Department sets the national strategy for service delivery, but it is for the relevant strategic health authority and its local health community to ensure there is sufficient capacity in place to deliver health care services effectively.

Thyroid Malfunctions

Daniel Kawczynski: To ask the Secretary of State for Health what guidance she has issued to doctors on the early diagnosis of thyroid malfunctions. [54600]

Mr. Byrne: At present, it is considered good medical practice to confirm a diagnosis of both hypothyroidism and hyperthyroidism though physical examination, clinical history and blood tests.

Prodigy guidance (www.prodigy.nhs.uk) offers advice on the management of a range of conditions and symptoms, including hypothyroidism and hyperthyroidism that are commonly seen in primary care. The guidance is advisory and has been developed to assist health care professionals, together with patients, make decisions about the management of the patient's health.

Waiting Lists

Mr. Meale: To ask the Secretary of State for Health (1) what the waiting list for *(a)* hip replacement and *(b)* prosthetic knee replacement operations in (i) 2004–05 and (ii) to date in 2005–06 by region in England; [48099]

(2) how many people are waiting for prosthetic *(a)* fitting and *(b)* replacement operations, broken down by category of prosthesis. [48101]

Jane Kennedy: Waiting time data is collected at speciality level, for example trauma and orthopaedics, and is available on the Department's website at: www.performance.doh.gov.uk/waitingtimes/index.htm

It is not possible to split this data down to show waiting list data for specific operations, for example hip or prosthetic knee replacements. It is also not possible to determine from this data how many people are waiting for a prosthetic fitting or replacement operation.

Written Answers to Questions

Thursday 9 March 2006

WALES

Air Services

Mrs. James: To ask the Secretary of State for Wales what progress is being made to establish *(a)* inter-Wales air services and *(b)* scheduled air services from Swansea Airport. [56131]

Mr. Hain: The Welsh Assembly Government announced plans for an air service linking north and south Wales in December 2004. It is working to start the service towards the end of 2006 or early in 2007.

When the Assembly first announced plans for an intra-Wales air service, it supported, in principle, a Swansea-Cardiff-Valley route. I understand that it has not proved possible to include Swansea in the network in a way which would ensure a reliable service. In the circumstances, the Assembly has decided to focus on the Cardiff to Valley service but will keep the situation at Swansea under review.

Carers

Mr. Paul Murphy: To ask the Secretary of State for Wales how many people in Torfaen constituency are *(a)* paid carers and *(b)* unpaid carers for relatives. [55829]

Mr. Hain: The number of unpaid carers in the Torfaen constituency recorded at the 2001 census is 10,114. There is no recorded data on the number of paid carers.

The Government recognise the tremendous personal commitment of people who are prepared to care for a severely disabled relative, friend or neighbour and has introduced significant improvements in the benefits available to them, such as the carers' allowance. By 2005, there were approximately 1,000 claims for carers' allowance in the Torfaen constituency.

Community Legal Service

Keith Vaz: To ask the Secretary of State for Wales what assessment his Department has made of *(a)* the services the Community Legal Service provides to rural Welsh communities and *(b)* the likely effect on rural Welsh communities of the proposed termination of the service. [55684]

Mr. Hain: The Community Legal Service (CLS) in Wales is improving. Between April and November 2005, 8 per cent. more clients were helped than in the same period for the previous year.

People living in rural communities in Wales can access legal advice and assistance not only via face-to-face services but also through the Community Legal Service Direct website and helpline.

There are no plans to terminate the CLS in Wales.

Council Tax

Mr. Pickles: To ask the Secretary of State for Wales pursuant to the answer of 6 February 2006, *Official Report*, column 894W, on council tax, how many photographs were taken of domestic properties for the council tax revaluation in Wales. [54759]

Mr. Hain: The Valuation Office Agency holds no record of how many external photographs, of domestic properties, were taken for the purpose of council tax revaluation in Wales.

Departmental Expenditure

Mr. Laws: To ask the Secretary of State for Wales how much has been spent by his Department on media training in each year since 1997–98. [55218]

Mr. Hain: None.

Health Funding

Daniel Kawczynski: To ask the Secretary of State for Wales if he will write to Rhodri Morgan, the Leader of the Welsh Assembly, to express concerns about the effects on the Royal Shrewsbury Hospital of the level of funding by Welsh health authorities for patients crossing the border to use the hospital. [55943]

Mr. Hain: As my hon. Friend made clear to you in a response to an oral question, from you on 15 February 2006, *Official Report*, column1441, an agreement for treating Welsh patients during 2005–06 is in place between the Royal Shrewsbury and Telford Hospitals NHS Trust and Powys Local Health Board. The terms of a new contractual arrangement for 2006–07 are currently being negotiated. Both bodies are working to ensure that the best quality health care is provided.

However, I also understand that you have written to the Welsh Assembly urging the case for more Welsh patients to be treated in Shrewsbury, in the interests of sustaining the service.

Licensing

Mrs. James: To ask the Secretary of State for Wales what discussions he has had with the Secretary of State for Culture, Media and Sport on the level of *(a)* applications for and *(b)* grants of licences for the sale of alcohol over 24 hours in Wales. [56589]

Mr. Hain: I have regular discussions with Cabinet colleagues about matters affecting Wales. Despite numerous ill-founded predictions in the run up to implementation of the Licensing Act 2003, relatively few premises applied for permission to sell alcohol over 24 hours and only a minority of these have been pubs, nightclubs or bars.

Figures provided by DCMS indicate that an estimated 80 per cent. of applications made by pubs, nightclubs or bars, to vary licences resulted in the imposition of conditions (eg restriction of opening times, use of plastic glasses). In over 95 per cent. of cases that led to a hearing, Licensing Committees responded to residents' concerns by adding conditions and/or adjusting hours.

Early indications show that we are moving towards a genuine pattern of variety in opening and closing hours.

Ministerial Activities

Sarah Teather: To ask the Secretary of State for Wales how many *(a)* public speeches and *(b)* official visits he has made since 5 May 2005; and how many letters he sent in this period. [55708]

Mr. Hain: This information can be provided only at disproportionate cost. With regard to letters, the Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of departments in replying to Members/Peers correspondence. The Report for 2004 was published on 6 April 2005, *Official Report*, columns 137–140WS. Reports for earlier years are available in the Library of the House. The report for 2005 will be published in due course.

Pathways to Work Pilots

Mrs. James: To ask the Secretary of State for Wales what discussions he has had with the Secretary of State for Work and Pensions on pathways to work pilot schemes in Wales. [56132]

Mr. Hain: I have regular discussions with the Cabinet Colleagues on a range of issues, including Pathways to Work.

The Pathways to Work pilot in Bridgend-Rhondda Cynon Taf has been a real success, helping almost 4,000 people into work. Pathways to Work will be extended to Swansea and West Wales from April 2006 and the Eastern Valleys from October 2006.

In addition, the Secretary of State for Work and Pensions recently confirmed that Pathways to Work will be extended across the country by the end of 2008, an investment of a further £360 million.

Police Restructuring

Dr. Francis: To ask the Secretary of State for Wales whether he plans to meet the Welsh police authorities to discuss the proposed restructuring of Welsh police forces; and if he will make a statement. [55146]

Mr. Hain: Following the recommendations of Her Majesty's inspectorate of constabulary, last week my right hon. Friend the Home Secretary gave notice of his intention to merge the existing police forces in Wales, creating a single strategic force. In accordance with sections 32 and 33 of the Police Act 1996 these police authorities, local authorities and chief constables have until 2 July to raise objections.

It is imperative that there is full and open dialogue between the Government and key stakeholders. Negotiations on amalgamation will continue and I trust that the authorities will use this statutory period to agree the best deal possible for Wales. I will of course continue to discuss these issues with police authority members in Wales as appropriate.

Private Office Costs

Sarah Teather: To ask the Secretary of State for Wales what the cost of his private office was in the last year for which figures are available. [55729]

Mr. Hain: The Wales Office Annual Report was published in June 2005 as Cm6545, instead of a Departmental Report. It is available in the Library and gives information on Wales Office running costs. Private Office costs are not separately identified.

Tourism

Dr. Francis: To ask the Secretary of State for Wales whether he has had discussions recently with the Welsh Assembly Government on the tourist and leisure industries in the South Wales valleys; and if he will make a statement. [55199]

Mr. Hain: I have regular meetings with the First Minister to discuss a variety of issues, including tourism and leisure industries.

The South Wales valleys have received nearly £1 million from the Wales Tourist Board to encourage and promote tourism within the area.

Under the heads of the valleys programme, the aims of which include improving the potential for tourism, the Welsh Assembly Government also intends investing £140 million by 2020 that will lead to a further £360 million of private sector investment.

Transport Schemes

Chris Grayling: To ask the Secretary of State for Wales what investment in transport infrastructure schemes to support economic regeneration is being considered in objective 1 areas in Wales; what the schemes are; what the amount of public investment is; and when he expects decisions to be made. [54946]

Mr. Hain: A number of transport schemes have been supported under priority 6 measure 1 of the current (2000–06) objective 1 programme. Details of individual projects and the grant they have received are available under the approved projects section of the WEFO website (www.WEFO.Wales.gov.uk). Two further transport projects are currently under appraisal—Llandudno Interchange (requesting £1.189 million objective 1 grant) and Swansea Westway Corridor (requesting £1.35 million objective 1 grant).

For the period 2007–13, West Wales and the valleys will qualify for full convergence funding. The programme should be of a similar scale to the current objective 1 programme (which is circa £1.3 billion over seven years). The draft UK national strategic reference framework, which includes a Welsh chapter, is currently out to consultation. There are six priorities proposed for West Wales and the valleys, one of which is creating a favourable business environment, including transport, ICT and environmental infrastructure.

Wind Farms

Dr. Francis: To ask the Secretary of State for Wales whether he has had discussions recently with the Welsh Assembly Government on the scale of proposed wind farm developments in the county borough of Neath Port Talbot; and if he will make a statement. [55200]

Mr. Hain: I have regular discussions with Assembly colleagues on a range of matters, including wind farms.

I understand that in Neath Port Talbot there is currently one wind farm under construction and one at the planning stage. Ffynnon Oer, when built, will have a capacity of 32 MW. Mynydd y Gwrhyd in Pontardawe would be 14 MW and is undergoing a planning appeal.

The Assembly Government's Technical Advice Note 8 identifies a number of strategic locations around Wales suitable for onshore wind developments. Parts of Neath Port Talbot are covered by Pontardawe and Coed Morgannwg TAN8 Strategic Search Areas.

Dr. Francis: To ask the Secretary of State for Wales what recent discussions he has had with the Welsh Assembly Government on the relationship between wind farms and tourism and leisure in Wales; and if he will make a statement. [55201]

Mr. Hain: I have regular discussions with Assembly colleagues about a range of matters, including wind farms and tourism.

The impact of wind farm developments on local tourism is addressed as part of the local planning process. There is no evidence to suggest that wind farms deter tourists, indeed some wind farms are themselves tourist attractions. For example, the UK's first commercial wind farm in Cornwall received 350,000 visitors in its first eight years of operation.

INTERNATIONAL DEVELOPMENT

Genetic Use Restriction Technologies

Alan Simpson: To ask the Secretary of State for International Development what meetings Ministers and officials in his Department have had at which varietal genetic use restriction technologies were discussed since 1 January 2005; what the date of each meeting was; and who the participants were in each case. [56595]

Mr. Thomas: DFID officials met with the Department for the Environment, Food and Rural Affairs (DEFRA) officials on 20 January 2006 to discuss a UK position on this subject.

India

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what recent representations he has made to the Indian government on *(a)* caste and *(b)* gender discrimination. [57008]

Mr. Thomas: My Department engages with the Government of India at many levels on issues of caste and gender discrimination.

One example of this is DFID's support to the Government of India's Programme for achieving universal primary education; Sarva Shiksha Abhiyan. One objective of this programme which was launched in September 2004, is to narrow the gaps that exist between the enrolment of girls and boys, and children from castes and tribes that have historically been excluded. These are known as scheduled castes and tribes.

The recent Mid Term Review of this programme indicates that it has been very effective in increasing the enrolment of girls and scheduled caste children. Gender parity has improved by 3 per cent. and girls now represent 47 per cent. of the school population at primary level. The proportion of scheduled caste children has increased from 19 per cent. in 2003 to 21.3 per cent. in 2005. This exceeds the proportion of scheduled caste children in the general population. This success has been achieved through a range of strategies that have helped to tackle discrimination at all levels.

Polio (India)

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development whether he expects the wild poliomyelitis virus to be eradicated in India in 2006. [57009]

Mr. Thomas: Global Commission for the Certification of the Eradication of Poliomyelitis (GCC) criteria state that countries can only be certified as polio free when they can demonstrate the absence of wild poliovirus transmission for at least three consecutive years in the presence of excellent surveillance. We expect India, one of only four remaining polio-endemic countries in the world, to interrupt transmission of the virus in 2006 and be certified polio free in 2009.

The India Expert Advisory Group on polio eradication (IEAG) meeting in December 2005, attended by officials from the Department for International Development (DFID) reported that India has made its most important progress towards eradication to date in 2005. As a result of an intense eradication programme, polio cases in India fell by 50 per cent. in 2005 to 66; the lowest annual total ever, from 134 cases in 2004 (and 35,000 cases in 1995). Innovative immunisation, surveillance and community mobilisation approaches have reduced polio to its lowest geographical extent ever, with cases occurring mostly in western Uttar Pradesh and eastern Bihar. However, the recent onset of cases (seven confirmed so far in 2006) has demonstrated that progress is fragile and that strong political and financial commitment will be essential to "finishing the job".

United Nations Industrial Development Organisation

Mark Simmonds: To ask the Secretary of State for International Development if he will make a statement on his assessment of the effectiveness of the United Nations Industrial Development Organisation in meeting the Millennium Development Goals. [55920]

Mr. Thomas: The United Nations Industrial Development Organisations (UNIDO)'s contribution to the Millennium Development Goals (MDG)s, is in areas of trade capacity building, energy and environment, and non-agricultural industrial development.

Under the previous Director General, Carlos Margarinos, UNIDO implemented a number of reforms to improve its effectiveness including establishing a strategic framework with clear priorities, and a results based management system to monitor its performance against these.

The challenge for UNIDO's new Director General Kandeh Yumkella, will be to ensure that UNIDO continues this progress and fully engages in the UN Secretary General's efforts to bring greater overall coherence to the UN operational system.

TREASURY

Cash Machines

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made of the total amount of charges that bank customers will pay to access money from their accounts through fee-charging cash machines in 2006–07; and if he will make a statement. [53514]

Mr. Ivan Lewis: There is no official estimate of the amount of charges that bank customers will pay to access money from their accounts through fee-charging cash machines in 2006–07. However, the Government are aware that the proportion of transactions carried out through surcharging machines is only 4 per cent. and believes that it is unlikely to rise significantly in the future.

Dr. Cable: To ask the Chancellor of the Exchequer what the results were of his Department's work to monitor the number of *(a)* banks being sold and *(b)* banks closing their cash machine networks; and if he will make a statement. [53569]

Mr. Ivan Lewis: The Treasury does not officially monitor the number of banks being sold.

Following the Treasury Select Committee's report on cash machines, the Government committed to monitor the ATM market, including the impact of charges on vulnerable and low-income consumers.

The Government subsequently asked LINK to keep it updated on the trends in the market, including the number of free and charging cash machines and the volume of cash withdrawals from these machines. These statistics have now been made publicly available on LINK'S website.

In addition, the Financial Inclusion Taskforce has commissioned research into how low income groups access cash and transmit money and this work will indicate the extent to which fee-charging ATMs are used by the financially excluded. The results of this work are due later in the spring.

Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer when he will reply to the letter of 16 December 2005, from the hon. Member for West Worcestershire, PO reference: 7/12600/2006. [57565]

Dawn Primarolo: I have replied to the hon. Member.

Public Service Pensions

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the note on the Total Liability of Unfunded Public Service Occupational Pension Schemes published on 2 March 2006, what the impact on total liability would have been if all unfunded state pension schemes had adopted the real discount rate of 2.4 per cent. [57264]

Mr. Des Browne: The Government's latest estimate of the total liability of unfunded public service pensions has been provided in the answer I gave on the Floor of the House on 2 March to the hon. Member for Ludlow. This was based on the discount rates used to draw up the relevant scheme accounts and full details are set out in the paper I placed in the Library of the House. Applying different discount rates would produce different estimates of the total liability but this would not affect the size of future cash payments.

Mr. Hoban: To ask the Chancellor of the Exchequer if he will make a statement on *(a)* the cause of the Prior Year Adjustment made in the 2004–05 accounts of the unfunded occupational public service pension schemes and *(b)* the impact of the adjustment upon the cash cost of these schemes. [57265]

Mr. Des Browne: The Note deposited in the Library on 2 March showed that one component of the increase in liabilities reported in accounts of unfunded public service pension schemes as of 31 March 2005 was the impact of prior year adjustments amounting to approximately £6 billion in total across all the accounts of all the schemes. This is the total effect of incorporating new data on membership and entitlements which, had it been available earlier, would have led to the liabilities being reported as higher by this amount in previous estimates. The new data and the new total liability calculated from it does not have a material effect on the projections of cash payments to be made by these schemes as a proportion of GDP in future, as shown in the latest Long Term Public Finance Report published in December 2005.

Warwick Agreement

Mr. Hoban: To ask the Chancellor of the Exchequer what assessment he has made of the financial effects of the reform of *(a)* funded and *(b)* unfunded pension schemes as a consequence of the Warwick agreement. [57263]

Mr. Des Browne: None. I understand that no such reforms were contained in the 'Warwick agreement'.

CABINET OFFICE

Engagements

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster how many public events the former Chancellor of the Duchy of Lancaster attended in his capacity as a member of the Cabinet from 8 September 2004 to 6 May 2005. [56797]

Mr. Jim Murphy: During his period in office, the former Chancellor of the Duchy of Lancaster attended a variety of public events, including speeches at conferences, regional visits and visits and events relating to Duchy business.

TRANSPORT

Air Passenger Records

Mr. Clegg: To ask the Secretary of State for Transport which bodies maintain records of passengers on board non-charter aircraft which transit the United Kingdom. [55382]

Ms Buck *[holding answer 2 March 2006]:* None. There is no obligation for operators to provide passenger lists to any UK body when transiting (i.e. overflying or refuelling in) the UK. Flight plans received by air traffic service providers contain no information about passengers, although copies of the full flight plan, held at the airport of departure, may include the total number of persons on board.

Aviation Health

Mr. Brazier: To ask the Secretary of State for Transport when he expects the inter-departmental Aviation Health Working Group to publish the findings of the review it commissioned from the independent Committee on Toxicity on evidence collected by the British Airlines Pilots Association. [55304]

Ms Buck: The completed Committee on Toxicity (COT) review will be published as an agreed statement on the COT internet site.

It is not possible at this early stage of the process to say when the COT review will be finalised.

Bathside Bay Development

Mr. Jenkin: To ask the Secretary of State for Transport who has been appointed to conduct the Stage 1 Study into the options to improve the A120(T) in relation to the proposed Bathside Bay development in Harwich; when he expects the study to be published; and when he expects to announce a preferred route for the improvements. [57146]

Dr. Ladyman: The Stage 1 Study is being carried out by Faber Maunsell, on behalf of and funded by the developer, Hutchison Ports Ltd and in association with the Highways Agency and Essex county council. Hutchison Ports anticipate that the study will be completed by the end of May.

The development has yet to receive formal planning permission. If that were to be granted, public consultation could take place later this year, leading to a preferred route in 2007.

Crossrail

Andrew Rosindell: To ask the Secretary of State for Transport whether there will be a direct Crossrail service from Shenfield to Heathrow. [55602]

Derek Twigg: No decisions have yet been made on the final service pattern of Crossrail services.

Driver Disqualification

Chris Grayling: To ask the Secretary of State for Transport whether there are plans to impose a driving ban in the UK on British drivers who are disqualified from driving in other EU countries. [54964]

Dr. Ladyman: The United Kingdom is signatory to the 1998 Convention on Driving Disqualifications[1], which is intended to provide that a motorist, disqualified from driving abroad, should not escape the consequences of that disqualification when they return to their country of normal residence.

The 1998 Convention applies, as it stands, to the member states of the European Union as they were in June 1998. Once the Convention has entered into force (90 days after the last of the 15 original signatory states has notified the EU Council that it has adopted it), it will mean that any holder of a Great Britain or Northern Ireland driving licence disqualified from driving in another European Union member state in which the Convention applies will be required to surrender his licence to (or have his licence kept from him by) the United Kingdom authorities, whichever is applicable, until such time as the period of disqualification has been served. Under the Convention there would be reciprocal arrangements to deal with licence-holders of other states to which the Convention applied which had been disqualified in Great Britain or Northern Ireland, so that they would be disqualified in their state of residence for motoring offences committed here.

The 1998 Convention will not come into force until all the original 15 signatory states have ratified it. So far only Spain of the original 15 has ratified; Slovenia has also done so. However, meanwhile signatory states may, if they choose to do so, cooperate on a bilateral basis within the framework established by the Convention. The United Kingdom passed the necessary primary legislation to enable it to ratify the Convention, or to apply it early under the process of notification provided by the Convention, as part of the Crime (International Cooperation) Act 2003, and I recently exchanged letters with my Irish colleague declaring our joint intention to cooperate bilaterally as soon as possible.

I refer the hon. Member to my answer of to the right hon. Member for East Yorkshire (Mr. Knight) of 27 February 2006, *Official Report*, column 147W.

[1] Council Act of 17 June 1998 drawing up the Convention on Driving Disqualifications (98/C 216/01).

First Great Western Trains

Mrs. James: To ask the Secretary of State for Transport how many complaints his Department has received since January 2005 about First Great Western Trains' service performance; and how the Department responded to such complaints. [56051]

Derek Twigg: Until July 2005, complaints of this nature were dealt with by the Strategic Rail Authority (SRA). Since then, the Department has dealt with 33 complaints about First Great Western Train's service performance. The complaints included a range of issues, each of which was dealt with according to the points raised.

Mrs. James: To ask the Secretary of State for Transport what assessment he has made of the punctuality of services on First Great Western Trains Ltd. up to December 2005. [56077]

Derek Twigg: Network Rail, are responsible for monitoring the performance of the train operating companies. Joint action plans are in place between Network Rail and First Great Western to address performance and these are monitored monthly. In addition, I have held meetings with Network Rail and First Great Western to discuss performance issues.

Free Travel (Swindon)

Anne Snelgrove: To ask the Secretary of State for Transport (1) what estimate he has made of the funding required to fund free off-peak travel for *(a)* older and *(b)* disabled persons on buses in Swindon; [51285]

(2) how much funding the Government are providing to Swindon local authority to provide free bus travel for *(a)* older and *(b)* disabled persons. [51286]

Ms Buck: The Government are providing an extra £350 million for 2006–07 through the Formula Grant system which will be sufficient to fund the cost to local authorities. This funding is unhypothecated; therefore it is not possible to identify the concessionary fares funding for individual local authorities to local authorities.

Heritage Railways

Mr. Vaizey: To ask the Secretary of State for Transport if he will assess the merits of exempting the heritage railway sector from the Railways and Other Guided Transport Systems (Safety) Regulations 2006. [56493]

Derek Twigg: I had a constructive meeting with representatives of the Heritage Railways Association on 1 March to hear their concerns about the draft Railway and Other Guided Transport Systems (Safety) Regulations which have been proposed by the Health and Safety Commission. I am currently considering the options on how best to address their concerns.

M11

Mr. Newmark: To ask the Secretary of State for Transport if he will make a statement on the decision to close the M11 motorway on Saturday 25 February. [56962]

Dr. Ladyman: At approximately 05.50 hours on Saturday 25 February, a recovery vehicle was called to assist a stranded lorry on the hard shoulder of the northbound carriageway of the M11 between junctions 6 (M11/M25) and 7 (Harlow) that had caught fire. Due to the intensity of the fire, both vehicles were quickly engulfed.

Although the fire was safely extinguished, the recovery vehicle was carrying oxy-acetylene cylinders. Acetylene gas is a highly volatile substance that can explosively decompose if exposed to extreme heat. The fire service instructed an immediate 200 m exclusion zone around the accident scene and this necessitated the closure of the M11.

As drivers attempted to leave the motorway, the local road network quickly became overwhelmed with the traffic demand placed upon it. As a result there was a rapid build up of traffic on the M11 leading to severe congestion.

The Highways Agency is engaging with the fire service, the police and Essex county council to establish the facts of the events of 25 February and to assess what lessons can be learned for the future.

Manchester Metrolink

Mr. Leech: To ask the Secretary of State for Transport what discussions his Department has had with the Greater Manchester Passenger Transport Authority since 1 January 2006 regarding Metrolink Phase 3. [56765]

Derek Twigg: Since 1 January 2006, my right hon. Friend the Secretary of State for Transport has discussed expansion of the Manchester Metrolink network with members of Greater Manchester Passenger Transport Authority in the context of the wider transport needs of Greater Manchester and the North West.

Officials from the Department have had a number of discussions about Metrolink Phase 3 with members of Greater Manchester Passenger Transport Executive since 1 January 2006.

Paul Rowen: To ask the Secretary of State for Transport what representations he has received in the past six months regarding the proposed extension of the Metrolink network in Greater Manchester. [56609]

Derek Twigg *[holding answer 7 March 2006]:* Since 1 September 2005, 11 letters including four from hon. Members were received by the Department in relation to the proposed extensions to the Metrolink system. 12 parliamentary questions directly relating to the subject (including this question) were asked during the same period.

Paul Rowen: To ask the Secretary of State for Transport what discussions he has had since 1 January on the proposed extension of the Metrolink network in Greater Manchester. [56615]

Derek Twigg *[holding answer 7 March 2006]:* Since 1 January 2006, my right hon. Friend the Secretary of State for Transport has discussed the proposed extension of the Manchester Metrolink network with members of Greater Manchester Passenger Transport Authority and others in the context of the wider transport needs of Greater Manchester and the North West.

Paul Rowen: To ask the Secretary of State for Transport when he expects to make an announcement about the proposed extension of the Metrolink network in Greater Manchester. [56617]

Derek Twigg *[holding answer 7 March 2006]:* An announcement will be made in due course, once we have received and considered the full business case from the Greater Manchester Passenger Transport Executive.

National Speed Survey

Graham Stringer: To ask the Secretary of State for Transport if he will place in the Library the 2002 National Speed Survey. [57142]

Dr. Ladyman: A copy of the 2002 Survey of Traffic Speeds in English Urban Areas is already in the Libraries of the House.

Rail Regional Planning Assessments

Tom Brake: To ask the Secretary of State for Transport what the revised timetable is for issuing the rail regional planning assessments. [56599]

Derek Twigg: The East of England Regional Planning Assessment (RPA) was published on 16 February. I am currently considering the draft of the North East England RPA with a view to publication shortly. An updated programme will be published after the publication of that RPA.

Rail Services

Chris Grayling: To ask the Secretary of State for Transport if he will make a statement on developing more accurate methods of measuring train punctuality. [54950]

Derek Twigg: Measuring standards for reporting train times are laid down in Rail Industry agreements. The accuracy of the recordings used to measure punctuality is an operational matter for Network Rail, and is subject to industry procedures and checks, and in some cases to external audit.

Chris Grayling: To ask the Secretary of State for Transport pursuant to the answers of 20 December 2005 and 1 February 2006, *Official Report*, columns 2914W and 562W, on train services, how many train services in each train operating company were partially cancelled in 2005; and what the reason was for each cancellation. [54953]

Derek Twigg: The information is not held in the form requested.

Chris Grayling: To ask the Secretary of State for Transport how many national rail services have been replaced by bus services in each year since 1997. [54990]

Derek Twigg: National rail services are regularly replaced by bus services as a result of planned engineering works or in response to incidents. The Department does not keep a central record of the number of such services put in place. In only one case since 1997 have alternative services been put in place as a result of a formal station or route closure; this being the 1998 closure of Sinfin North and Sinfin Central branch when an alternative taxi service was put in place.

Chris Grayling: To ask the Secretary of State for Transport what standards in relation to *(a)* staffing, *(b)* policing and *(c)* CCTV are to be incorporated into franchise contracts and invitations to tender. [54995]

Derek Twigg: The invitation to tender for each franchise includes a requirement for bidders to set out their approach to identifying risks, upgrading existing systems and installing new measures to reduce the level of risk to passengers. Evaluation will take into account proposed station staffing levels, CCTV coverage and operational relationship with British Transport and the Civil Police, when determining to whom the franchise should be awarded.

Railway Stations (Defibrillators)

Mr. Greg Knight: To ask the Secretary of State for Transport which railway stations have defibrillator machines; what steps are being taken to increase the number of stations equipped with defibrillator machines; and if he will make a statement. [56372]

Ms Rosie Winterton *[holding answer 6 March 2006]:* I have been asked to reply.

The NHS Plan published in July 2000 outlined a proposal to provide 3,000 automated external defibrillators (AEDs) in public places as part of a £300 million investment in new equipment for the national health service. Phase 1 of the national defibrillator programme undertook installation of 681 AEDs across 110 public sites.

85 AEDs were installed at London underground stations and 267 were installed at train stations as part of Phase 1 of the programme. Table one lists the location of sites and the numbers of AEDs installed:

Table 1

National defibrillator programme—Phase 2

In 2001, the Big Lottery Fund (BLF) agreed to provide £110 million to tackle Coronary Heart Disease (CHD) and stroke, £6 million of this funding was allocated to the national defibrillator programme.

The British Heart Foundation was made the award partner in October 2003 by the BLF for the funding of the national defibrillator programme in England. The funding has provided a further 2,300 AEDs in the community together with funding for a community defibrillation officer within each ambulance trust to co-ordinate programme activities.

A total of 12 AEDs have been allocated to ambulance trusts to install at London underground stations and 31 AEDs have been allocated to ambulance trusts to install at railway stations for the second phase of the programme.

Table two lists the location of sites and the numbers of AEDs to be installed:

Shipping Accidents

Mr. Carmichael: To ask the Secretary of State for Transport whether he collects data on near collisions for shipping. [56869]

Dr. Ladyman: There is a voluntary reporting scheme for near misses, through the hazardous reporting (HAZREP) procedure via the Coastguard Rescue Co-ordination Centres which are located around the UK coast.

Station Redevelopment

Chris Grayling: To ask the Secretary of State for Transport how much his Department will contribute to the redevelopment of Birmingham New Street station. [54992]

Derek Twigg: No business case has yet been submitted to the Department for the redevelopment of Birmingham New Street station. This would need to be considered before any decision is taken.

Transport Projects (Funding)

Chris Grayling: To ask the Secretary of State for Transport if he will list the local authorities which will receive less money from his Department for transport projects of £5 million and above in 2005–06 than they did in 1996–97. [43183]

Ms Buck: It is not possible to accurately compare local transport in the manner requested.

LEADER OF THE HOUSE

Written Parliamentary Questions

Mr. Pickles: To ask the Leader of the House if he will arrange for answers to hon. Members' written parliamentary questions to be provided electronically. [56251]

Mr. Hoon: In written evidence to the Public Administration Committee on 9 February 2006, I outlined that the electronic parliamentary community database (ePC) which allows for the electronic answering of questions between Government Departments and offices within the House of Commons is currently being reviewed by the Office of the Leader of the House of Commons.

It remains my intention that, in consultation with the House authorities, we should work towards allowing hon. Members to receive answers to their parliamentary questions electronically if they wish.

CULTURE, MEDIA AND SPORT

Art Exports (Canaletto)

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport what discussions there have been between her Department and the Treasury concerning saving the two Canalettos of historic scenes in London from being sold abroad. [56027]

James Purnell *[holding answer 6 March 2006]:* There have been no discussions between DCMS and the Treasury concerning saving the two Canalettos of historic scenes in London from being sold abroad.

These paintings were considered by the Reviewing Committee on the Export of Works of Art and Objects of Cultural Interest, which concluded that they satisfied the Waverley criteria. My right hon. Friend the Secretary of State has deferred her decision on the application for an export licence to enable an offer to purchase to be made at the fair market price of £6 million. The owner is considering such an offer and the deferral period will now run until 20 June.

Gambling Act

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport what measures will be used under the Gambling Act 2005 to work with cultural and sporting bodies to tackle illegal gambling. [57218]

Mr. Caborn: The Gambling Act 2005 makes it a key objective of the Gambling Commission to keep gambling crime free, and introduces a new criminal offence of cheating. The Commission will work closely with sporting and other bodies to minimise potential threats to the integrity of events upon which bets are struck.

Section 30 of the Gambling Act provides for the Gambling Commission, sporting and other bodies to share information relating to the exercise of the Commission's functions. The Commission may also, through licence conditions, require British betting operators to work with sporting bodies and the Commission to identify and track unusual or suspicious betting patterns.

Under the Act, the Gambling Commission has the power to suspend bets on any event where there is a suspicion of cheating, while they investigate. The Commission is able to void bets entirely if it concludes that the outcome of an event has been fixed.

John Donne (Portrait)

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport what discussions there have been between her Department and the Treasury concerning making funds available to secure the portrait of John Donne for the National Portrait Gallery. [56026]

James Purnell *[holding answer 6 March 2006]:* The Department and the Treasury have not discussed the matter of funding for the acquisition of the portrait of John Donne for the National Portrait Gallery. The sources of funding for the purchase available to the Gallery include grant-in-aid allocated by the Department, self-generated income, including bequests and donations, and contributions from grant-making bodies. Government has not ring-fenced any grant-in-aid to national museums and galleries for acquisitions since 1992–93. This allows the Trustees the freedom to decide how much of their grant-in-aid should be devoted to purchases for the collections.

The portrait of John Donne is on offer to the National Portrait Gallery by private treaty sale on the instructions of the Executors of the late Lord Lothian. This sale to a public gallery would be able to take advantage of the normal arrangements whereby a public institution can take advantage of the remission of any tax that would otherwise have been payable on the sale.

Following tax remissions, the amount that the National Portrait Gallery must raise by the end of May is £1,652,000. The Gallery has launched a public appeal, with a generous opening contribution from The Art Fund of £200,000 and since then, some £25,000 has been contributed by members of the public. The Gallery has also made an application to the National Heritage Memorial Fund for a contribution towards the costs of acquisition.

Both the National Heritage Memorial Fund (NHMF) and the Heritage Lottery fund have a good track record on funding acquisitions. Between them they have awarded almost £200 million in grants for acquisitions over the past 10 years. The NHMF is topped up each year by a tranche of grant-in-aid which currently stands at £5 million, but is set to rise to £10 million in 2007–08.

National Lottery

Anne Snelgrove: To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with the Lottery distributing bodies on funding of capital projects undertaken by voluntary and community sector organisations, with particular reference to village halls. [56667]

Mr. Caborn: To date, the Lottery has awarded over £258 million to village and community halls. The Big Lottery Fund will make £50 million available over three years through a community buildings programme to benefit projects across England. I have no plans to meet them to discuss this at present.

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport what grants have been awarded to stage *(a)* cultural and *(b)* sporting events in the UK

from National Lottery funds in each of the last five years; and what the tax income to HM Treasury from those grant-aided events was. [57217]

Mr. Caborn: Information on all Lottery awards is available from the Department's Lottery Awards Database, searchable at www.lottery.culture.gov.uk, which uses information supplied by the Lottery distributors.

However, cultural and sporting events are not identified as categories on this database. The information could therefore be provided only at disproportionate cost.

St. Helena

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport (1) how much her Department has spent supplying BBC television to residents of St. Helena for each of the last eight years; [56804]

(2) how much has been collected via television licensing fees from St. Helena in each of the last eight years. [56867]

James Purnell: The Department for Culture, Media and Sport does not supply any television services to St. Helena and has not therefore incurred any expenditure on such services in the last eight years.

No television licence fee revenue is collected in St. Helena, as the television licensing provisions of the Communications Act 2003 do not extend to the territory, nor does St. Helena operate its own television licensing regime.

HOME DEPARTMENT

Antisocial Behaviour

Mr. Wills: To ask the Secretary of State for the Home Department (1) how much was provided to local authorities to tackle antisocial behaviour in *(a)* Swindon and *(b)* England in the last year for which figures are available; [55838]

(2) what steps he *(a)* is taking and *(b)* plans to take to tackle (i) antisocial behaviour and (ii) antisocial behaviour outside nightclubs and public houses in Swindon; and if he will make a statement. [55856]

Hazel Blears: Tackling antisocial behaviour is a cross-departmental issue and many Government Departments contribute to this agenda. A wide range of funding streams across Government have a positive impact on tackling antisocial behaviour. For example Neighbourhood Renewal programmes which focus on the most deprived areas and give practitioners and local communities a real opportunity to turn their neighbourhoods around; DFES through their work on schools and parenting contribute to preventing problems escalating and ensuring families get the support they need; DEFRA and their work in tackling litter and fly tipping which can often blight neighbourhoods where antisocial behaviour and crime can take hold; and DCMS who provide the opportunity to divert young people from the destructive and damaging involvement in antisocial behaviour. The Department for Constitutional Affairs also contributes to ensure a swift and effective criminal justice system for dealing with the perpetrators of antisocial behaviour activity. In 2005–06, the Home Office has allocated £75,000 to Swindon to tackle antisocial behaviour. £40,000 has been used to fund Operation Graffiti—a multi-agency initiative to tackle environmental crime and specifically the issue of graffiti. £10,000 has been used to implement the Its Your Call Anti Social Behaviour reporting line and ensure that it is resourced between 9 am and 5 pm during week days. £25,000 has been used to work with the most anti social families. The Home Office has specifically allocated £25,000 to every Crime and Disorder Reduction Partnerships in both England and Wales to fund an antisocial behaviour co-ordinator. This amounts to £9.4 million per annum. We have already provided guidance and support to local agencies including local authorities to help them to target resources and powers to protect the public and ensure that antisocial behaviour is tackled, not tolerated. The Anti-Social Behaviour Act 2003 has been fundamental to our work which has changed the culture of public services and protected our communities. However, while attitudes are shifting, the public's concern is not yet adequately reflected in the priorities of all our services. The Respect Programme will now take this further so that local services are organised so that they respond swiftly and effectively to the problems that communities face today. People need to see and feel that a difference can be made. Swindon received £3,000 from the Police Standards Unit as part of the third Alcohol Misuse Enforcement Campaign (AMEC). A number of local initiatives are underway to disperse people in antisocial behaviour hotspots in the town centre, including the proposed closure of John Street and patrols of licensed premises. The Government are determined to target those individuals whose abuse of alcohol results in causing disorder in our towns and cities. We have recently undertaken our third Alcohol Misuse Enforcement Campaign to crack down on such behaviour. We have also introduced a range of new powers through the Licensing Act 2003 to deal with the problems of alcohol misuse. In addition, the Violent Crime Reduction Bill will introduce a new civil order—a Drinking Banning Order—which will allow for the exclusion from the area concerned of individuals aged 16 or over who are responsible for alcohol-related disorder.

Asylum Seekers (Medical Care)

Ms Abbott: To ask the Secretary of State for the Home Department whether it is his policy to make details of protocols employed by his Office for the clinical governance of medical and dental services provided at detention centres for asylum seekers available under the Freedom of Information Act 2000. [56505]

Mr. McNulty: All requests for information concerning the clinical governance of medical and dental services provided in removal centres will be fully considered in accordance with IND's obligations under the Freedom of Information Act. Information will only be withheld if it falls within one of the exemptions contained in the Act.

Ms Abbott: To ask the Secretary of State for the Home Department what discussions he has had with *(a)* the Healthcare Commission and *(b)* the National Patient Safety Agency on clinical governance and monitoring of the quality of medical services commissioned by his Department in detention centres for asylum seekers. [56506]

Mr. McNulty: Initial discussions have taken place between the Immigration and Nationality Department (IND), the Healthcare Commission and the Department of Health regarding the registration of removal centre health care providers. These discussions continue. There have been no discussions between IND and the National Patient Safety Agency concerning the quality of medical services provided in removal centres.

Ball-bearing Guns

Mr. Evans: To ask the Secretary of State for the Home Department how many of the gun offences recorded in the area of the Lancashire police authority in the last 12 months related to the use of ball-bearing guns. [56664]

Hazel Blears: A BB gun is an air soft weapon that fires plastic pellets. Of the 259 offences involving firearms (excluding air weapons) recorded by Lancashire police in 2004–05, 160 related to the use of BB guns.

Child Protection

Bob Spink: To ask the Secretary of State for the Home Department pursuant to his Answer of 13 February 2006, *Official Report*, column 1714W, if he will make it his policy *(a)* to ensure that records are maintained of offenders who are given a caution for possession of indecent photographs of children and *(b)* to prevent such offenders from working with children in the future; and if he will make a statement. [55465]

Fiona Mactaggart *[holding answer 8 March 2006]:* The Circular which sets out guidance on the Cautioning of Adult Offenders emphasises the importance of accurately recording cautions in order to avoid multiple cautioning and to ensure consistency. Cautions must be recorded on the local custody system as well as on national information systems and those given for a recordable offence must be entered on the Police National Computer.

Under the current Association of Chief Police Officers General Rules for Criminal Weeding on Police Systems, a caution received for possession of indecent photographs of children should be removed after ten years provided there are no convictions on the record and no further cautions have been given. The Secretary of State for Education currently has the power (under s. 142 of the Education Act 2002) to make a direction barring or restricting a person from working in the education sector, whether or not a person has been convicted of an offence.

The list of people subject to such a direction is called "List 99". The Secretary of State for Education recently announced that she would be introducing regulations to automatically enter on List 99 anyone who is convicted or cautioned for a sexual offence against a child. At present, convictions (but not cautions) relating to indecent photos of children under 16 constitute automatic barring offences for List 99. It has not yet been decided which offences will trigger automatic barring under the new Regulations, but the cautioning guidance will be changed as appropriate when the Regulations come into force.

Class A Drugs

Mrs. James: To ask the Secretary of State for the Home Department what progress his Department is making in tackling the availability of Class A drugs; and if he will make a statement. [56000]

Hazel Blears: The Government's strategy is to bear down on all points in the drugs supply chain in order to disrupt criminal gangs, stifle drug supply and reduce the harm caused to communities in the UK. Increasing quantities of drugs are being seized and organised crime groups and dealers disrupted.

The latest figures published by HMRC for 2004–05, show that over 3,000 kg of heroin and 10,600 kg of cocaine were taken out, 299 trafficking groups were disrupted or dismantled and £33.3 million of drug-related criminal assets were seized, depriving dealers of their financial lifeblood. The number of drug trafficking groups dismantled or disrupted rose from 193 in 2002–03 to 268 in 2003–04 and 299 in 2004–05.

The numbers of seizures of Class A drugs have been rising over the last decade, and the total number of drug offenders brought before the courts has been rising continuously since 2000. The number of offenders convicted of producing or dealing cocaine, crack cocaine or heroin rose by 6 per cent. between 2003 and 2004 and over 80 per cent. of them received an immediate custodial sentence. In Swansea, from 1 April 2005 to date the police report having charged 34 people with trafficking Class A drugs as part of their ongoing operations against supply. But we are not complacent. The Drugs Act 2005 increased the powers of police to bring drug dealers to justice. The Serious Organised Crime Agency, which comes into being in April, will further strengthen our ability to disrupt and convict organised criminals engaged in Class A drug supply. Police force restructuring will ensure that police forces have the capacity, capability and resilience to effectively deal with regional crime such as major and organised drugs supply.

Common Land (Illegal Vehicle Use)

Mr. Paul Murphy: To ask the Secretary of State for the Home Department if he will make representations to chief constables on tackling the illegal use of off-road vehicles on common land. [55833]

Hazel Blears: Under section 59 of the Police Reform Act the police can seize any mechanically propelled vehicle which is being driven both in a careless and inconsiderate manner on-road, or off-road (including on common land without lawful authority), and causing alarm, distress or annoyance to members of the public. At the beginning of November 2005 we issued to all chief officers in England and Wales additional guidance on the legislation explaining the rationale behind it, clarifying its terms and the circumstances in which it might be used and offering examples of effective operations. At the same time regulations governing the use of the power were simplified.

Mr. Paul Murphy: To ask the Secretary of State for the Home Department what arrangements are in place to share best practice between local authorities and enforcement agencies on dealing with the illegal use of off-road vehicles on common land. [55834]

Hazel Blears: Where the illegal use of off-road vehicles on common land has been identified in a local crime and disorder audit as a problem, we would expect the local strategy to address it. The Home Office issued on 1 November 2005 additional guidance to the police on their power to seize vehicles being used in an antisocial manner.

This included examples of best practice where the police were working with the local authority to make effective use of the powers available to the two agencies. The Home Office has also organised a number of action days with antisocial behaviour practitioners to share best practice around the topic of antisocial use of vehicles and has provided guidance through the TOGETHER website: www.together.gov.uk.

Correspondence

Mr. Spellar: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter from the right hon. Member for Warley of 8 December on behalf of Mrs. Charanthayer Viaun of Smethwick. [55739]

Mr. McNulty: The Immigration and Nationality Directorate replied to my right hon. Friend on 3 March 2006.

Clare Short: To ask the Secretary of State for the Home Department when he will reply to the letter from the right hon. Member for Birmingham, Ladywood, of 17 November 2005, acknowledgement reference B27422/5 dated 18 November 2005, on behalf of Monica Brown, Home Office reference S706762. [55839]

Mr. McNulty: The Immigration and Nationality Directorate wrote to my right hon. Friend on 6 March 2006.

Clare Short: To ask the Secretary of State for the Home Department when the Minister of State for Immigration, Citizenship and Nationality will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 30 November 2005 (acknowledgement card B28649/5 dated 1 December 2005) on behalf of Eric Alphanso Bravo, Home Office reference B1023214). [55913]

Mr. McNulty: The Immigration and Nationality Directorate replied to my right hon. Friend on 3 March 2006.

Clare Short: To ask the Secretary of State for the Home Department when the Minister of State for Immigration, Citizenship and Nationality will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 16 December 2005 on behalf of Bahsedin Saleh Busheir, Home Office reference B1114259 (acknowledgement card B30292/5 dated 9 January 2006). [55914]

Mr. McNulty: The Immigration and Nationality Directorate replied to the right hon. Member for Birmingham, Ladywood on 3 March 2006.

Clare Short: To ask the Secretary of State for the Home Department when the Minister of State for Immigration, Nationality and Citizenship will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 20 December 2005 on behalf of Alphonse Balolebwami, Home Office reference B1030176 (acknowledged card B30428/5 dated 21 December 2005). [55915]

Mr. McNulty: The Immigration and Nationality Directorate replied to the right hon. Member for Birmingham, Ladywood on 3 March 2006.

Clare Short: To ask the Secretary of State for the Home Department when the Minister of State for Immigration, Nationality and Citizenship will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 7 June 2005 concerning Mohd Said Azhar, Home Office reference A047078. [55916]

Mr. McNulty: The Immigration and Nationality Directorate replied to the letter of 7 June 2005 from the right hon. Member for Birmingham, Ladywood on 11 July 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Minister of State for Immigration, Nationality and Citizenship will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 8 December 2005 (acknowledged 9 December 2005, reference B29404/5) concerning Victoria Apuwisi, Home Office Ref A1129427. [55917]

Mr. McNulty: The Immigration and Nationality Directorate replied to the right hon. Member for Birmingham, Ladywood on 3 March 2006.

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will provide a substantive reply to the letter from the right hon. Member for Birmingham, Ladywood, of 22 November 2005 on behalf of Juliet Johnson (Home Office reference J1094975, acknowledgement reference B280265). [55918]

Mr. McNulty: The Immigration and Nationality Directorate replied to the right hon. Member for Birmingham, Ladywood on 6 March 2006.

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter from the right hon. Member for Birmingham, Ladywood, of 28 November 2005 on behalf of Ousman Dibba (Home Office reference D1101640, acknowledgement reference B285185). [55919]

Mr. McNulty: The Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood on 6 March 2006.

Crime Statistics

Mr. Spring: To ask the Secretary of State for the Home Department how many people trafficking offences were recorded by police forces in each county of the East of England region in each year since 1997. [55782]

Hazel Blears: The introduction of the Sexual Offences Act 2003 in May 2004, created the offence of 'trafficking for sexual exploitation'. For the period May 2004 to March 2005 in the Eastern region, only Bedfordshire police have recorded one such offence.

Mr. Spring: To ask the Secretary of State for the Home Department how many drug-related offences were recorded by police forces in each county of the East of England region in each year since 1997. [55783]

Hazel Blears: There are no figures available specifically on drug-related crime. The available information relates to recorded drug offences only and is given in the tables.

Eastern region—drug offences

Police force area	*1997*[1]
Bedfordshire	223
Cambridgeshire	205
Essex	401
Hertfordshire	215
Norfolk	337
Suffolk	333

[1] Prior to 1998–99, data collected for 'trafficking in controlled drugs' only and by calendar year.

Police force area	*1998–99*[2]	*1999–2000*	*2000–01*	*2001–02*
Bedfordshire	1,141	1,081	896	1,009
Cambridgeshire	1,169	1,013	829	798
Essex	2,312	2,483	2,208	2,212
Hertfordshire[3]	1,211	1,192	1,438	1,350
Norfolk	1,534	1,561	1,160	1,211
Suffolk	1,626	1,450	1,178	1,292

[2] Numbers affected by changes in the counting rules and expanded coverage of recorded crime. Data not comparable with earlier years.
[3] Boundary changes came into effect in 1999–2000.

Police force area	*2002–03*[4]	*2003–04*	*2004–05*
Bedfordshire	1,069	1,130	1,131
Cambridgeshire	904	1,047	1,174
Essex	2,377	2,295	2,328
Hertfordshire	1,553	1,678	1,754
Norfolk	1,392	1,508	1,602
Suffolk	1,689	1,923	1,974

[4] Numbers affected by the introduction of the National Crime Recording Standards which came into effect in 2002–03. Data not comparable with earlier years.

Disorder Offences

David Davis: To ask the Secretary of State for the Home Department (1) how many fixed penalty notices for disorder have been contested in each of the last two years; [42228]

(2) how much money has been raised from the collection of fixed penalty notices for disorder in each of the last two years; and how much money is expected to be raised from them over the next two years; [42230]

(3) how many fixed penalty notices for disorder offences have been issued in the past two years; and what total cash value they represent. [42231]

Hazel Blears: In 2004 there were 63,639 Penalty Notices for Disorder issued representing a total cash value of £4.1 million. Of these, 33,078 penalty notices were paid with a total cash value of £2.1 million. 360 penalty notices were contested during this period.

In addition, penalty notices that are not paid in full are registered at the magistrates court and are then issued as fines at 150 per cent. of the original value of the notice. In 2004 28,180 penalty notices were re-issued in this way. Information on the amount raised by these is not collected. Research indicates that the overall payment rate for all notices including those paid initially and those re-issued as fines is around 70–75 per cent. Provisional data from January to September 2005 shows there were 97,684 Penalty Notices for Disorder issued representing a total cash value of £7.7 million.

Of these, 50,963 penalty notices were paid with a total cash value of £4.0 million. 1,216 penalty notices were contested during this period. In addition, 41,547 unpaid penalty notices were registered at the courts to be re-issued as fines, at 150 per cent. of the original value, but information on the amount raised by these is not collected.

Domestic Abuse

Mrs. James: To ask the Secretary of State for the Home Department what progress police forces in England and Wales are making in tackling crimes related to domestic abuse. [55998]

Hazel Blears: The Police Performance Framework Assessment Framework includes a Statutory Performance Indicator for the domestic violence arrest rate among police forces in England and Wales. Overall, the domestic violence arrest rate national average demonstrated improvement: from 59.3 per cent. in 2003–04 to 64.4 per cent. in 2004–05—a 5 per cent. increase.

ACPO guidance on responding to and investigating domestic violence is now being implemented in police forces in England and Wales. In addition to this, every police force in England and Wales now has a Domestic Violence Co-ordinator; every new police recruit has mandatory training on domestic violence as part of their basic training; and there is extensive training for every frontline officer in England and Wales being rolled out between 2005 and 2008.

Drug Treatment Programmes

David Davis: To ask the Secretary of State for the Home Department how many people in each of the 10 most deprived constituencies in England and Wales have undertaken drug treatment programmes. [47693]

Caroline Flint: Deprivation data is available by local authority (LA) but not be constituency. Using the six district level summary measures of the "Index of Multiple Deprivation 2004" the table takes the top 10 most deprived LAs from each of the six measures to identify a list of 22. Some LAs are included only in one measure, and no single summary measure is favoured over another.

The table uses the latest numbers in treatment from drug action teams (DAT) for 2004–05 taken from the national drug monitoring system.

Deprived LA fin alphabetical order)	Number in treatment in 2004–05
Birmingham	4,462
Blackpool	1,406
Bradford	3,267
Easington	[1]—
Hackney	1,180
Haringey	1,022
Islington	1,495
Kingston upon Hull	1,389
Knowsley	821
Leeds	3,627
Liverpool	3,738
Manchester	3,374
Middlesbrough	1,157
Newcastle upon Tyne	1,425
Newham	859
Nottingham	1,702
Salford	1,553
Sheffield	1,932
Sunderland	758
Tower Hamlets	1,204
Wigan	1,525
Wirral	2,464

[1] No numbers available—Easington Primary Care Trust does not have a DAT of the same name. County Durham is the local DAT for Easington, where the numbers in treatment for 2004–05 was 1,204.

Identity Cards

Mr. Spellar: To ask the Secretary of State for the Home Department what representations he has received from individuals and organisations in Warley constituency on identity cards. [56795]

Andy Burnham: The identity cards programme has received six representations from individuals in the Warley constituency since 2001 regarding the ID cards scheme. Of those received, two were opposed and four were in support of the scheme. The programme has not received representations from any organisations identifying themselves as located within the Warley constituency.

Life Expectancy

Mr. Spellar: To ask the Secretary of State for the Home Department what research his Department has evaluated on the impact of burglary on elderly victims; and whether this included research on the impact on life expectancy. [56490]

Fiona Mactaggart: In 2003, two studies were completed that dealt with the impact of burglary on older victims: "Experiences of older burglary victims" and "Distraction burglary amongst older adults and minority ethnic communities". Both provide some evidence of the impact these crimes can have on the health and quality of life of older people.

As partnership working is vital to combat this particularly distasteful crime, a development and practice report was also published in 2003, "Older victims of burglary and distraction burglary—recommendations for practitioners", drew from the research in the findings report to give guidance to practitioners who work with older and vulnerable groups. Police, local authorities, voluntary groups and other relevant agencies are increasingly working together to address and reduce victimisation of the more vulnerable members of society.

National Offender Management Service

Mr. Llwyd: To ask the Secretary of State for the Home Department which core services will be delivered only by public sector *(a)* prisons and *(b)* probation staff under the National Offender Management Service. [49067]

Fiona Mactaggart: In the five year strategy for protecting the public and reducing re-offending, the Government sets out plans for a phased programme of contestability for Prison and Probation services.

This will build on what we have already done in the prison estate and take into account our primary aims of protecting the public and reducing re-offending. Our programme will be published in a prospectus in the spring which will outline the time table and areas of service in which we will introduce contestability. Legislation will be brought forward when parliamentary time permits.

Mr. Llwyd: To ask the Secretary of State for the Home Department which services under the National Offender Management Service will be *(a)* tendered for and *(b)* subject to contestability exercises. [49068]

Fiona Mactaggart: The Government has stated its intention to publish, later this year, a Contestability Prospectus which will specify the type of contracts available. Decisions have yet to be taken on the details of this prospectus.

Police

Mr. Andrew Turner: To ask the Secretary of State for the Home Department what proportion of police officers in each force are *(a)* black and ethnic minority and *(b)* women; what proportion of the population in each police force area are (i) black and ethnic minority and (ii) women; what targets each police force has for the proportion of its officers who are (A) black and ethnic minority and (B) women; and how many otherwise suitable recruits in each police force have been turned down because they would not contribute to the achievement of those targets. [50621]

Hazel Blears: The data requested is available from the 'Police Service Strength publication as at 31st March 2005'. This report was published on 25 July 2005 and is available in the Library of the House and on: www.homeoffice.gov.uk/rds/pdfs05/hosb1205.pdf

There are currently no national targets for gender. The Home Secretary's Race Equality Employment Targets, milestone report 2004 sets out the force targets for black and minority ethnic recruitment. This is available in the House of Commons Library and on: http://www.homeoffice.gov.uk/about-us/publications/staff-equality-targets Information is not available centrally on forces' handling of applications.

Mr. Pickles: To ask the Secretary of State for the Home Department how many basic command units there are in England and Wales; and what the *(a)* name and *(b)* location is of each. [56216]

Hazel Blears: Data produced in April 2005 shows a total of 245 Basic Command Units. The names and location of each of these units is set out in the table. However, in light of the proposed provision in the Police and Justice Bill which will require BCUs to be co-terminous with local authority boundaries, many forces have reviewed their BCU boundaries. The 2006 boundary data are still being produced and will be available at the beginning of April 2006.

Mr. Pickles: To ask the Secretary of State for the Home Department at what level the reformed basic command units will be placed in two-tier local government areas under the Government's reforms. [56219]

Hazel Blears: The Police and Justice Bill proposes to put the basic command units (BCUs) on a statutory footing and requires their boundaries to be aligned with those of local authorities. They will continue to cover a small geographical area within a force such as a town or district. In some two-tier areas, many district councils are too small to constitute a single BCU. It would therefore be possible to brigade two or more district councils to form one BCU. This would be a matter for chief constables following consultation with key partners, such as local authorities, in crime and disorder reduction partnerships and in local criminal justice boards.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what further steps a complainant can take who is not satisfied by the response of the Independent Police Complaints Commission. [56977]

Hazel Blears: The IPCC is an independent body. If a complainant is not satisfied with the outcome of the IPCC's investigation into their complaint, independent legal advice will need to be sought, as its decisions on cases can only be overturned through the courts.

Lynne Featherstone: To ask the Secretary of State for the Home Department what representations he has received from *(a)* the Association of Chief Police Officers, *(b)* the Police Federation, *(c)* police authorities

and *(d)* individual police officers on the proposed restructuring of police forces; and if he will make a statement. [39061]

Hazel Blears: ACPO, the APA and the Police Federation have been closely involved in the review of police structures including discussions on particular aspects such as finance, HR and governance. Chief Officers and police authorities have been encouraged to consult with officers and staff on the options for their force area.

Mrs. Gillan: To ask the Secretary of State for the Home Department (1) if he will provide additional resources to equalise the impact on the police precepts in each of the four police authority areas in Wales in the event of the establishment of a single Welsh police force; [51028]

(2) what arrangements he plans to put in place to tackle the potential for unequal impacts on the police precepts in different authorities in Wales following the establishment of a single Welsh police force. [51029]

Hazel Blears: A working group led by my Department with participation from the Office of the Deputy Prime Minister, the Welsh Assembly Government, HM Treasury and police representative bodies has been established to examine the financial aspects of reorganisation, including the impact of restructuring on finance, including precept.

Nick Herbert: To ask the Secretary of State for the Home Department how many of the responses he received from police authorities before 23 December 2005 would permit a voluntary merger of forces. [47311]

Hazel Blears: Subsequently, Cumbria and Lancashire police authorities requested that my right hon. Friend the Home Secretary make the necessary alterations to allow their two force areas to amalgamate into one new strategic force area, as announced by the Home Secretary on 3 March 2006.

Nick Herbert: To ask the Secretary of State for the Home Department pursuant to the Prime Minister's oral answer to the hon. Member for Witney of 25 January 2006, *Official Report*, column 1426, whether he will use his powers to initiate amalgamations of police forces against the wishes of the police authorities concerned. [47312]

Hazel Blears: My right hon. Friend The Home Secretary announced his intention to initiate amalgamations for Cheshire and Merseyside, and forces in the North East, West Midlands and Wales on 3 March 2006.

Nick Herbert: To ask the Secretary of State for the Home Department pursuant to the Prime Minister's oral answer to the hon. Member for Witney of 25 January 2006, *Official Report*, column 1426, whether he is actively considering the case for federating police forces as an alternative to amalgamations. [47313]

Hazel Blears: Where federation has been proposed as an alternative to strategic forces, it has been given due consideration. As yet, no compelling case has been made for such an option to proceed.

Probation Services

Mr. Garnier: To ask the Secretary of State for the Home Department what his policy is on the coterminosity of probation areas with *(a)* police basic command units, *(b)* local authorities, *(c)* Crown Prosecution Service areas and *(d)* magistrates' courts areas of jurisdiction; and if he will make a statement. [56457]

Hazel Blears: The existing 42 probation areas are co-terminous with police forces, Crown prosecution and court areas. We are considering how future structures for probation can best preserve the important principle of coterminosity, taking account of police force restructuring and structures in the wider criminal justice system.

Mr. Garnier: To ask the Secretary of State for the Home Department when he plans to start the consultation process on the amalgamation of probation areas. [56458]

Fiona Mactaggart: I am considering the options for probation trust boundaries, which will be informed by police force restructuring.

Mr. Garnier: To ask the Secretary of State for the Home Department what provisions are contained in the National Offender Management Service's five year strategy for the introduction of outside suppliers of probation services; what the planned *(a)* budget and *(b)* timetable is for the introduction of such suppliers; and whether he plans to introduce such suppliers without primary legislation. [56499]

Fiona Mactaggart: In the five year strategy for protecting the public and reducing re-offending, the Government sets out plans for a phased programme of contestability for prison and probation services—putting particular services out to tender. This will build on what we have already done in the prison estate and take into account our primary aims of protecting the public and reducing re-offending.

Our programme will be published in a prospectus in the spring which will outline the time table and areas of service in which we will introduce contestability. Legislation will be brought forward when parliamentary time permits. Decisions have yet to be taken on the full details of that legislation.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department how many responses he has received to the consultation paper, Restructuring Probation to Reduce Re-Offending; and how many expressed *(a)* objections to and *(b)* reservations about its proposals. [57185]

Fiona Mactaggart: We have received 748 responses to the consultation on Restructuring Probation to Reduce Re-offending. We will be publishing a summary of all the responses and the key issues raised, and expect to do so within the timescale set out in the Cabinet Office guidelines on public consultations

Spray Paints

Anne Snelgrove: To ask the Secretary of State for the Home Department if he will raise the age for buying spray paints to 18 years. [55805]

Hazel Blears: The Government are keen to improve the accountability between the police, local authorities and other service providers and the public. The Community Call for Action provisions contained in the Police and Justice Bill will give more power to local communities and provide a mechanism for local communities to demand a response from agencies to persistent local community safety or antisocial behaviour problems, via an approach to their ward councillor. The Respect programme will ensure effective dialogue between local people and services by introducing regular and systematic "face the people" briefing sessions, involving senior representation from the police and local authorities. These sessions will provide a further opportunity for communities to make clear their priorities and to hold those responsible for service delivery to account.

They will also allow senior staff to engage the community in tackling local problems, raising issues where they can take action to help combat antisocial behaviour, including graffiti. In addition to this, the Home Office, in partnership with the Office of the Deputy Prime Minister, is developing a new three digit single non-emergency number to provide the public direct access to community safety advice, information and action to tackle antisocial behaviour, including graffiti. The Government's commitment towards neighbourhood policing will benefit every area by 2008, enabling graffiti to be tackled as a priority when local communities identify this as one of their key concerns.

Student Visas

Jim Cousins: To ask the Secretary of State for the Home Department what the arrangements will be for the points system proposed to replace the current overseas student visa system. [55680]

Mr. McNulty: The Home Office command paper "A Points-Based System: Making Migration Work for Britain" was published on 7 March 2006 and is available on the IND website (www.ind.homeoffice.gov.uk). This detailed our plans for a point-based system to replace all current routes for migrants wishing to enter the UK to work, train or study. The new system will be introduced in a phased manner and we will be testing the processes that underpin the proposals before any firm implementation dates are announced.

Thames Valley Criminal Justice Board

Mr. Lidington: To ask the Secretary of State for the Home Department how many offenders were brought to justice in the Thames Valley Criminal Justice Board area in each 12 month period since 31 March 2002; how many and what proportion of those cases were brought to justice as a result of *(a)* conviction, *(b)* caution, *(c)* fixed penalty notice and *(d)* offences taken into consideration; and if he will make a statement. [56529]

Fiona Mactaggart: The figures for the number of offences brought to justice in the Thames Valley Criminal Justice Board Area are shown in the following table. These are a further breakdown of the published figures which are a count of offences rather than offenders.

Number of offences brought to justice over a 12-month period by outcome in Thames Valley—2001–02 to 2004–05

12 months ending March	*Offences taken into consideration*[1]	*Penalty notices for disorder*[2]	*Formal warnings for cannabis possession*[3]	*Cautions*[4]	*Convictions*	*Total OBTJ*
Offences brought to justice (OBTJ)						
2002	6,969	[5]—	[5]—	5,529	18,516	31,014
2003	7,804	[6]—	[5]—	6,888	19,786	34,478
2004	5,724	[6]—	[5]—	7,119	19,325	32,168
2005[7]	8,700	1,740	2,232	11,768	17,688	42,128
Percentage of all offences brought to justice						
2002	22	[5]—	[5]—	18	60	100
2003	23	[6]—	[5]—	20	57	100
2004	18	[6]—	[5]—	22	60	
2005[7]	21	4	5	28	42	100

[1] Offences taken into consideration by the court and previously recorded by the police; figures for April 2004 onwards include offences not previously recorded.
[2] Piloted in 2002 and introduced nationally in 2004.
[3] Introduced in April 2004.
[4] Includes reprimands and final warnings for juveniles.
[5] Not applicable.
[6] Nil.
[7] Provisional.

Trophy Videos (Iraq)

Harry Cohen: To ask the Secretary of State for the Home Department what *(a)* reports and *(b)* complaints the Government has received about trophy videos posted on the internet showing private security contractors shooting Iraqi civilians; what investigations the Government have conducted into whether employees of a UK company were involved; whether anyone involved in the crime may be prosecuted in the UK; and if he will make a statement. [52374]

Hazel Blears: The Foreign and Commonwealth Office has received a number of letters on this subject from members of the public but has received no official complaints about these allegations. The Government take this issue very seriously and have expressed their concern to the company involved, Aegis, as soon as we were aware of the videos.

The UK Government have no contracts in Iraq with Aegis and therefore have not conducted a formal investigation into the alleged incidents. Aegis have kept us informed of their own investigation, which is soon to be concluded. They have co-operated in their investigation with their US Government employers, the US Defence Department. At present, there is no UK legislation specifically governing the overseas operations of Private Military Security Companies registered in or operating from the UK. This has been reviewed and we are considering the way forward. The Government will keep Parliament fully informed of their proposals in this area.

Vandalism

Mr. Spring: To ask the Secretary of State for the Home Department how many instances of vandalism were reported in *(a)* Suffolk and *(b)* England in each year since 1997. [56362]

Hazel Blears: The requested information is given in the following table. Offences of vandalism are recorded within the criminal damage group classification.

Recorded offences of criminal damage

	Suffolk	*England*
1997	[1]7,835	[1]822,029
1998–99	[1]7,898	[1]823,520
1999–2000	[1]9,547	[1]890,756
2000–01	[1]10,150	[1]906,800
2001–02	[1]12,095	[1]1,007,634
2002–03	[2]11,497	[2]1,043,197
2003–04	[2]12,817	[2]1,139,308
2004–05	[2]12,781	[2]1,119,636

[1] Numbers affected by changes in the counting rules and expanded coverage of recorded crime. Data not comparable with earlier years.
[2] Numbers affected by the introduction of the National Crime Recording Standards which came into effect in 2002–03. Data not comparable with earlier years.

Women in Custody

Dr. Vis: To ask the Secretary of State for the Home Department when an announcement will be made of the outcome of the inquiry into the treatment of vulnerable women in custody. [56699]

Fiona Mactaggart: Baroness Scotland expects to make a statement about who will conduct this review, aspects of its methodology, its timetable and terms of reference within a few weeks. I anticipate that the review will be completed by the end of 2006.

Young Offenders

Lynne Featherstone: To ask the Secretary of State for the Home Department what steps the Government are taking to rehabilitate young offenders while in custody; and if he will make a statement. [55961]

Fiona Mactaggart: The Detention and Training Order (DTO), which is the principal sentence for those young people under 18 whom the courts decide need to be sentenced to custody, is specifically designed to promote rehabilitation. The order is in two parts, the first spent in custody and the second under supervision in the community.

It is intended that work begun during the first part—for example on education and training—should form the basis for continued development when the young person returns to the community. Youth offending teams (YOTs) are involved in sentence planning throughout the whole of the order and supervise the young person during the community part. The Youth Justice Board is committed to giving young people in custody the opportunity to turn away from offending and to acquire the learning and skills that will help them towards a more positive future.

The board, which has invested on a large scale in educational facilities for young people in custody, is working to the following targets for young people in custody: all young people entering secure facilities will have a training plan developed and subsequently reviewed in accordance with the National Standards for Youth Justice Services; all young people will be assessed by a clinician on reception for vulnerability and substance misuse; all young people entering secure facilities will be tested for literacy and numeracy, with 80 per cent. of young people on DTOs of six months or more improving by one skill level or more in literacy and/or numeracy, to the level of need set out in their individual learning plan; in 2005–06, 90 per cent. of young people will receive 30 hours a week of education, training, and personal development activity compliant with the National Specification for Learning and Skills.

For young people in young offender institutions (YOIs), the expected performance will be 25 hours. Additionally, YOIs will ensure that attendance rates for timetabled education and training sessions do not fall below 90 per cent.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Biofuel

21. **Dr. Kumar:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on Government support for those growing biofuel plants. [57042]

Jim Knight: Farmers can receive the single payment for oilseed rape and wheat grown on set-aside land under a biofuel contract. The EU's Energy Aid payment can be claimed where these annual crops are grown on non set-aside land. Sugar beet will soon be eligible to receive the same support.

Emissions Trading

22. **Mrs. Cryer:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress she has made in incorporating aviation in the second phase of the EU Emissions Trading Scheme. [57043]

Margaret Beckett: We took this forward as one of the priorities of our presidency of the EU Environment Council. There it was agreed that inclusion of aviation seemed to be the best way forward. We are actively involved in the Commission's Aviation Working Group, which is considering how aviation can be included in the EU ETS. The results of which, will feed into a legislative proposal which we expect the Commission to produce by the end of this year.

Centre for Ecology and Hydrology Research

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions her Department has had with the Natural Environment Research Council following its decision to close the Centre for Ecology and Hydrology research facilities last year. [52057]

Mr. Morley: Since the Natural Environment Research Council (NERC) published for consultation its proposals for the future of the Centre for Ecology and Hydrology (CEH), Defra officials have had discussions with CEH primarily focusing on the implications of the proposals for the delivery of Defra contracts. The Defra Chief Scientific Adviser attended a NERC Council meeting on the 2 February at which CEH was discussed, and Defra has submitted a response to the NERC consultation.

Climate Change

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on progress towards meeting climate change targets. [57035]

Margaret Beckett: The UK expects to exceed by about 7 percentage points its Kyoto protocol commitment to reduce the UK's greenhouse gas emissions by 12.5 per cent. below 1990 levels by 2008–12. The UK is committed to moving beyond our Kyoto protocol target and towards our national goal to reduce UK carbon dioxide emissions by 20 per cent. below 1990 levels by 2010.

Mr. McGovern: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on Scotland's contribution to the UK's international climate change targets. [57024]

Margaret Beckett: I understand that Scotland will be publishing its revised climate change programme shortly.

EU Funding

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department received from the EU in 2004–05; how much was paid to farmers in each category of payment; how much was used for administration; and if she will make a statement. [52468]

Jim Knight: In 2004–05 the department's income from the European Agricultural Guidance and Guarantee Fund (EAGGF) was £2.5 billion, its expenditure under schemes wholly or partly funded by EAGGF was £2.9 billion and the total administration costs of the Rural Payments Agency (RPA) was £249 million. In addition, the department reclaimed £0.8 billion on behalf of the other UK CAP Paying Agencies. Full details are available in RPA's 2004–05 accounts (HC 82), presented to Parliament in July 2005.

Defra's Fisheries Directorate received three amounts from the EU. £1.4 million was received under Data Collection Regulations (EU Regulations 1543/2000, 1639/2001 and 1581/2004) for the funding of scientific work, such as surveys carried out at sea and biological sampling. Under an EU Aid scheme in which all Member States can apply for funding towards their fisheries enforcement control programmes (Commission Decision 2004/465/EC as amended) the Marine Fisheries Agency (formally the Sea Fisheries Inspectorate) received £0.6 million. Under the Financial Instrument for Fisheries Guidance (FIFG) Defra received £6.2 million.

Defra's EU & International Agriculture Division received £296,000 to cover the costs of an EU twinning project.

Defra's Animal Health and Welfare Directorate General received a payment of £286,885 in respect of Classical Swine Fever. Additionally, while not received in the financial year 2004–05, included in the Department's 2004–05 Accounts is an accrued sum of £4,367,441 income from the EU Veterinary Fund as contribution towards the cost of genotyping blood samples for the National Scrapie Plan, the actual funding of which was received in 2005–06.

Expert Advisers

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 19 December 2005, *Official Report*, column 2379W, on expert advisers, how her Department satisfies itself that the evidence provided by the candidate is appropriate to the post; whether applicants have to declare their interests in writing; and if she will institute a system by which the Department makes an independent record of declarations of conflicts of interest given at the end of papers published in scientific journals by applicants. [56814]

Jim Knight: All candidates for membership of Defra's statutory advisory bodies are appointed through the full Office of the Commissioner for Public Affairs (Nolan) process. The process demands that candidates notify the Department of any conflicts of interest in their application form. The appointment process is overseen by an independent assessor. The appointing panel has to make a judgment that the evidence provided by the candidate together with supporting references is appropriate to the post.

Genetic Use Restriction Technologies

Kate Hoey: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the dates of meetings attended by *(a)* Ministers and *(b)* officials of her Department at which varietal genetic use restriction technologies were discussed since 1 January 2005; and with whom each meeting was held. [55033]

Mr. Morley: Varietal genetic use restriction technologies were discussed recently at a meeting which my hon. friend the Parliamentary Under-Secretary for

Rural Affairs, Landscape and Biodiversity held with a number of representatives of non-governmental organisations on 15 February 2006.

These technologies are a subject which has arisen several times in meetings attended both by Ministers and officials of this Department since 1 January 2005. Unfortunately, however, no records are kept which would allow the compilation of a definitive and comprehensive list of all the meetings attended by Ministers and officials at which these technologies were discussed since that date.

GM Crops

John Bercow: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has received regarding GM crops, with particular reference to the developing world. [55509]

Mr. Morley: My ministerial colleagues and I receive regular representations from a wide variety of stakeholders on a on a broad range of issues related to GM crops and their possible cultivation in the UK.

With regard to the Government's policy on the use of GM crops in developing countries, this is a matter for my right hon. Friend, the Secretary of State for International Development.

Illegal Logging

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Prime Minister plans to discuss illegal logging during his visit to Indonesia; and what measures he plans to take to tackle illegal logging. [55418]

Mr. Morley: Details of the Prime Minister's visits will be announced in due course by the Official Spokesman.

The UK signed a Memorandum of Understanding with Indonesia in 2002 that commits both countries to work together to tackle illegal logging and the associated trade. DFID also supports the Multistakeholder Forestry Programme in Indonesia that, among other things, supports efforts to improve forest governance.

The EU Forest Law Enforcement, Governance and Trade (FLEGT) Regulation was adopted by EU Agriculture and Fisheries Ministers in December 2005. This will allow the EU to enter into agreements with timber-producing countries and provide them with assistance to tackle illegal logging. This assistance will include a licensing system designed to identify products and license them for export to the EU. The licensing scheme will be reinforced by powers for Customs to prevent the import of unlicensed timber.

A FLEGT Partnership Agreement between Indonesia and the EU would help fulfil the commitments under the Indonesia-UK MoU on Illegal Logging. The UK is working with Indonesia, other EU Member States and the European Commission towards this.

Modification Orders

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what average length of time local authorities in England took to make rights of way modification orders in 2004–05; how many orders *(a)* Gloucestershire, *(b)* Herefordshire and *(c)* Worcestershire have outstanding; and what percentage of orders were successful. [56486]

Jim Knight Local highway authorities are responsible for the management of rights of way and therefore all information relating to modification orders is held by them and not central Government. The information on the length of time for local authorities in England to make modification orders and the percentage of successful orders could only be gathered at a disproportionate cost. Under schedule 5 of the Countryside and Rights of Way Act 2000 surveying authorities had to establish a register of definitive map modification order applications by 31 December 2005. Gloucestershire has 105 outstanding applications, Herefordshire 100 and Worcestershire 119.

Pesticides

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the extent to which the advisory committee on pesticides has complied with the guidelines on scientific analysis in policy making from the Government Chief Scientific Adviser in its consideration of the impact of pesticide use on bystanders. [54438]

Mr. Morley: Ministers believe that the Advisory Committee on Pesticides has adhered to the relevant provisions within the Chief Scientific Advisers guidelines in all areas of its work.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether the margins of safety allowed for in the risk assessment of pesticides are sufficient to protect the foetus. [54439]

Mr. Morley: In order for a pesticide to gain approval in the United Kingdom an extensive range of toxicological tests must be performed. These tests incorporate an extensive group of rigorous study protocols to address the health issues that have been shown to be relevant to pesticide exposure such as issues of acute and chronic toxicity, genotoxicity, carcinogenicity, teratogenicity, reproductive effects, developmental (foetal) toxicity and others. Reference doses for acceptable human exposures to pesticides are derived by applying assessment (safety) factors to the dose that produces no adverse effects in the most sensitive, relevant animal study. The factor is normally 100, made up of 10 fold for the assumption that humans are more sensitive than the most sensitive animal species tested, and 10 fold for sub-populations of humans (including the foetus) that may be more sensitive than the norm. There will always be a minimum 'safety' margin of 100 between a dose causing no effects on the foetus in animal studies and the acceptable human exposure to a pesticide. This approach is in line with risk assessment practices for chemicals both nationally and internationally.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will rename the Advisory Committee on Pesticides as the Advisory Committee on Pest Management and make the appropriate consequent changes to its remit. [54441]

Mr. Morley: The Advisory Committee on Pesticides was established in accordance with Section 16(7) of the Food and Environment Protection Act 1985. This sets out its terms of reference as follows;

> 'to give them [Ministers] advice, either when requested to do so or otherwise, on any matters relating to the control of pests in furthering the general purposes of this Act.'

The Control of Pesticides (Advisory Committee on Pesticides) Order 1985 established and named the Committee. There are no plans at this time to change either the name or the remit of this Committee.

Queen's Birthday

Anne Main: To ask the Secretary of State for Environment, Food and Rural Affairs what plans her Department has to celebrate Her Majesty's 80th birthday; what advice she has issued to her Department's executive agencies on celebrations for the birthday; and if she will make a statement. [54194]

Jim Knight: The Department for Culture, Media and Sport sent a letter to each Department at the beginning of January listing dates that the Union Jack is to be flown. These included Her Majesty's actual birthday. The Department for Environment, Food and Rural Affairs (Defra) proposes to fly a flag at 55 Whitehall, London, in honour of the occasion.

Defra also proposes to plant a tree in its nature reserve in Wales or at Watchtree Nature Reserve in Cumbria.

We are not aware of any other centrally organised events to celebrate the Queen's actual birthday.

Radioactive Fallout (Chernobyl)

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs what compensation is provided for farmers on farms contaminated by radioactive fallout from Chernobyl who cannot move or sell their sheep for human consumption. [56367]

Jim Knight: On farms under restriction as a result of the Chernobyl incident all sheep are monitored for contamination before being permitted to enter the food chain. Farmers receive £1.30 per head each time an animal is monitored.

Animals which fail the monitoring process cannot be sold for human consumption.

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect of radioactive contamination from Chernobyl on the market value of the farms where restrictions still apply; and if she will make a statement. [56368]

Jim Knight: My Department is not aware of any assessment on the effect of radioactive contamination from Chernobyl on the market value of the farms where restrictions still apply.

Rights of Way

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs how many claims for a right of way for mechanically propelled vehicles on byways were outstanding on *(a)* 19 December 2003 and *(b)* 19 May 2005. [56253]

Jim Knight: The figures Defra has compiled from information provided by local authorities tell us that there were 497 applications for Byways Open to all Traffic (BOATS) outstanding at 9 December 2003 and 992 applications for BOATS outstanding at 19 May 2005.

Risk Assessment

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs if the Government will take steps to create a tool to allow advisory committees to deal consistently with risk assessment. [56328]

Mr. Bradshaw: We are fully in support of the development of more systematic tools to enable better risk assessment. We are encouraging academia to come forward with innovative ideas for dealing with risk and uncertainty as instanced by a recent call, supported by DEFRA by the Engineering and Physical Sciences Research Council for research proposals[1]. These new tools will take some time to develop and we have to note the caution expressed by the Treasury that risk assessment methodologies can be highly specialised and specific to the nature of the risk[2]. Thus advisory committees have to work with the risk assessment methodologies that pertain to their particular risk portfolios which may not be tractable to any single systematic tool.

[1] Scientific Uncertainty and Decision Making for Regulatory and Risk Assessment Purposes Sandpit on January 2006, Shrigley Hall, Pott Shrigley, nr Macclesfield

"The assessment and decision making processes within environmental, health, food and engineering sectors pose numerous challenges. Uncertainty is a fundamental characteristic of these problems. How do we account for all the uncertainties in the complex models and analyses that inform decision makers? How can those uncertainties be communicated simply but qualitatively to decision makers? How should decision makers use those uncertainties when combining the scientific evidence with more socio-economic considerations? And how can decisions be communicated so that the proper acknowledgement of uncertainty is transparent?"

[2] http://www.hm-treasury.gov.uk/media/3E3/EE/managingrisks_appraisal220705.pdf

Special Protection Areas

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 9 February 2006, *Official Report*, column 1359W, on special protection areas, if she will list the sites that *(a)* her Department has designated and *(b)* English Nature has recommended as special protection areas. [54553]

Jim Knight: There are currently 77 classified Special Protection Areas (SPAs) in England and additionally one cross-border SPA with Scotland and two cross-border SPAs with Wales, all of which have been recommended by English Nature. Further information

on the individual sites is available from the Joint Nature Conservation Committee's website (http://www.jncc.gov.uk.).

There are currently two sites which English Nature has recommended should be classified as SPAs, which are currently under consideration by Defra. These are Mersey Narrows and North Wirral Foreshore, and Breckland.

Thames Gateway

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she plans to take to ascertain the condition of flood defences in the Thames Gateway where this is unknown. [54697]

Mr. Morley: The Environment Agency (EA) is the principal operating authority for flood risk management in England and has a general supervisory duty over all matters relating to flood defence.

The national flood and coastal defence database, which is being developed by the EA in partnership with other operating authorities, will record the location, height and condition of all flood defences in England. I understand the database does not yet contain full information on Thames estuary tidal defences but that this information will be in place by the end of March 2006. The EA uses the database, together with locally held information, to prioritise a risk based rolling programme of flood defence inspection, maintenance and renewals. They estimate that £200 million will be spent on maintenance and operation of Thames estuary flood defences over the next 15 years.

Urban Green Spaces

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Deputy Prime Minister on the contribution of urban green spaces to the protection of ecosystems. [57040]

Jim Knight: This Government have taken forward a number of initiatives to enhance urban green space, and, in general, the quality of urban green space has improved.

Measures to continue this trend are regularly discussed with the Office of the Deputy Prime Minister and other departments at official level. In particular, Defra continues to promote policies to protect these spaces for their wildlife interest and to improve their wider recreation and health benefits.

Water Conservation

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what targets have been set for *(a)* energy efficiency, *(b)* water efficiency and *(c)* other environmental issues since July 2003. [54711]

Mr. Morley: The information is as follows:

(a) There are two targets in the household sector. The Energy Efficiency Action Plan 2004 included an aim to save 3.5 million tonnes of carbon from homes in England by 2010, set in accordance with the requirements of the Sustainable Energy Act 2003. The Housing Act 2004 added a further goal—to take reasonable steps to improve residential energy efficiency by at least 20 per cent. by 2010, from a year 2000 baseline. In the public sector, the Framework for Sustainable Development on the Government estate 2004 states that Government Departments are to increase the energy efficiency of the buildings on their estate by 15 per cent. by 2010–11, relative to 1999–2000.

(b) Since 1996, all water companies in England and Wales have had a duty to promote the efficient use of water by all their customers. The Office of Water Services (Ofwat) enforce this duty and report on water company progress in the annual 'Security of supply, leakage and the efficient use of water' report. In the public sector, the Framework for Sustainable Development on the Government estate 2004 states that Government Departments should reduce water consumption in office buildings to an average of 7.7 m^3 per person per year by 31 March 2004 or 7m^3 per person per year for all new buildings and major refurbishments where design commences after 2002.

(c) There are a number of other environmental targets for the public sector set out in the Framework on the Government estate 2004. The Framework sets operational targets to be met by central Government Departments and their Executive agencies to encourage more sustainable management of the Government's land and buildings. The Framework has a largely environmental focus and comprises nine parts (including waste, water, energy and biodiversity). Specific targets for water usage and energy efficiency are mentioned above.

Since July 2003, specific targets have been set for biodiversity, procurement, estates management and construction and social impacts. Reports on progress against the Framework targets are published each year in the annual Sustainable Development in Government (SDiG) reports. The Framework is currently being reviewed in order to deliver a step change in the way the Government sustainably manages its land and buildings (further background on this is shown in the attached annex).

Outside the public sector Government have a range of other environmental targets. The Department for Environment Food and Rural Affairs (DEFRA) has nine public service agreement (PSA) targets which have been agreed with the Treasury since 2003. The majority of these PSA targets relate to environmental issues and they all contribute to DEFRA's overarching aim of sustainable development. The PSA targets are published and reported on in DEFRA's current Autumn Performance Report which is available at: http://www.defra.gov.uk/corporate/deprep/default.htmt#apr

Other targets relating to environmental issues are published in DEFRA's Five Year Strategy: Delivering the Essentials of Life, which is available at: http://www.defra.gov.uk/corporate/5year-strategy/index.htm, and in the UK Government's Sustainable Development Strategy: Securing the Future, which is available at: http://www.sustainable-development.gov.uk/publications/uk-strategy/index.htm

CONSTITUTIONAL AFFAIRS

Legal Services Commission

Ben Chapman: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the effect of the decision by the Legal Services Commission to withdraw funding for access to specialist and complex legal advice in Wirral South. [56964]

Bridget Prentice: The Legal Services Commission's (LSC) specialist support services provide support to front-line advice and not directly to vulnerable people in any specific part of England and Wales.

Given the pressure on the limited legal aid budget and the number of clients needing legal advice, the LSC has concluded that the costs of this would be better redirected to fund direct legal advice in the next financial year. This will increase access to legal aid services for vulnerable people.

FOREIGN AND COMMONWEALTH AFFAIRS

Extraordinary Rendition

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what co-operation British officials have provided to the United States on *(a)* international rendition and *(b)* individual terrorist suspects who have been subject to rendition. [56689]

Dr. Howells: I refer the hon. Member to the written answer given to him on 6 February 2006 by my right hon. Friend the Foreign Secretary, *Official Report*, columns 784–85W.

Falkland Islands

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Royal Air Force personnel are based in the Falkland Islands; and how many were based there in each of the last five years. [55499]

Mr. Ingram: I have been asked to reply.

The numbers of personnel posted to each location abroad are shown in Tri-Service Publication 6, Global Location of UK Regular Forces (TSP 6).

TSP 6 is published quarterly; the most recent publication shows the numbers of Service personnel at 1 October 2005.

Copies of TSP 6 are held in the Library of the House and are also available at www.dasa.mod.uk

Guantanamo Bay

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs whether UK officials have provided information to the US which has led to an individual being transferred to *(a)* Guantanamo Bay and *(b)* other US overseas detention facilities. [56259]

Dr. Howells *[holding answer 6 March 2006]:* I refer the hon. Member to the written answer given to him on 6 February 2006, *Official Report*, columns 784–85W, by my right hon. Friend the Foreign Secretary.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the report by the UN Commission on Human Rights on the situation of detainees at Guantanamo Bay; and if he will make a statement. [57164]

Dr. Howells: The report submitted on 15 February by five holders of mandates of special procedures of the UN Commission on Human Rights raises a number of serious concerns about the situation of detainees in Guantanamo Bay. We are aware that the US Government, by means of its Permanent Representative's letter of 31 January to the Office of the High Commissioner for Human Rights, has expressed reservations about the report, and does not feel that accurate account was taken of information provided by the US Government. It is clearly important that the US Government and the UN continue to engage on this issue.

We have made it clear that we regard the circumstances under which detainees continue to be held in Guantanamo Bay as unacceptable. My right hon. Friend the Prime Minister has said that Guantanamo Bay is an anomaly that should come to an end sooner rather than later. The US Government are fully aware of our views.

However, it is important to remember the circumstances which led to Guantanamo Bay. Nearly 3,000 people were killed during the terrorist attacks on 11 September 2001. We remain determined to work with our allies to defeat the scourge of international terrorism.

International Arms Trade Treaty

Mr. Keetch: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* funds and *(b)* staff the Government have allocated for the promotion of an international arms trade treaty; and if he will make a statement. [55191]

Dr. Howells: To support our work towards an international treaty on the trade in all conventional arms, we have created the Arms Trade Unit within the Counter Proliferation Department of the Foreign and Commonwealth Office (FCO). This unit deals with our overall policy on conventional arms exports controls, including within the EU. While the whole Unit is involved in the treaty initiative, in support of this work it has been strengthened with one additional member of staff (at First Secretary level). In addition, our ambassador to the Conference on Disarmament in Geneva now acts as our roving ambassador for the treaty initiative. Furthermore, a wide range of FCO and other Government Department staff are actively engaged in pursing the initiative. In 2005 we funded a number of events to promote the treaty. We plan more such events in 2006. Additional funds have been provided for these activities and for travel, by reprioritisation within our existing budgets. As decisions are taken on specific events as our campaign evolves, it is not possible at this stage to provide an overall figure.

Iran

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Russian authorities about the stance of the Iranian Government on uranium enrichment. [56712]

Dr. Howells: My right hon. Friend the Foreign Secretary and senior Foreign and Commonwealth Office (FCO) officials are in frequent contact with their Russian counterparts concerning Iran's nuclear programme. Senior FCO officials met Russian Deputy Foreign Minister Sergey Kisylak to discuss Iran on 3 March.

The Russian authorities share our concerns about Iran's nuclear programme. We have been working closely together to encourage Iran to address the requests of the International Atomic Energy Agency's (IAEA) Board of Governors. Russia, like the European Union, has called on Iran to reinstate a full suspension of all uranium enrichment related and reprocessing activities, which the IAEA Board has called essential for confidence.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Iran about its use of the death penalty. [56713]

Dr. Howells: I refer my hon. Friend to the answer I gave on 3 March 2005, *Official Report*, column 1026–27W.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK supplies military equipment to Iran in support of its counter-narcotics operations; and if he will make a statement. [57201]

Dr. Howells: All applications to export military equipment to Iran are assessed on a case-by-case basis against the consolidated EU and national arms export licensing criteria and other policies taking into account the prevailing circumstances at the time.

We will not issue an export licence if approval would be inconsistent with national embargoes observed by the UK. The then Foreign Secretary (Lord Hurd) and the then Foreign and Commonwealth Office Minister's (Tony Lloyd) statements of 1 March 1993 and 28 September 1998 respectively, set out our approach in respect of Iran. We will not issue licences for the export to Iran of goods or technology on the Military or Nuclear List, except for goods essential for the safety of civil aircraft and air traffic control systems and certain radioactive substances for medical use. No licences will be approved for any equipment where there is knowledge or reason to suspect that it will go to a military end-user or be used for military purposes. On very rare occasions and with parliamentary agreement, exceptions are made where denying an export or gift would be against the spirit of the embargo.

In 2005, we agreed to license a gift of 50 sets of body armour to the Iranian Counter-Narcotics border police who work with HM Revenue and Customs officers to fight the trafficking of heroin and opiates. Notice of our intention to do this was placed before Parliament for 14 sitting days in February 2005 and no objections were raised. Details of the gift were also recorded in a Written Ministerial Statement of 15 March 2005, *Official Report*, column 13–14WS.

We assess that around 60 per cent. of all heroin entering the UK transits Iran. Iran is actively involved in the fight against drug trafficking and seizes far more opiates than any other country in the world. We have regular constructive co-operation with Iran on counter-narcotics.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent to which European countries provide military equipment to Iran for use in its counter-narcotics operations; and if he will make a statement. [57203]

Dr. Howells: Each EU member state applies the EU Code of Conduct on Arms Exports in respect of the export of all licence applications for all destinations, including Iran. Implementation of the Code is a matter for individual member states. In the case of Iran, the UK also applies a national policy, set out in the statements of the then Foreign Secretary (Lord Hurd) and the then Foreign and Commonwealth Office Minister (Tony Lloyd), of 1 March 1993 and 28 September 1998 respectively.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what provisions have been put in place by the EU to limit the export of arms to Iran for the purpose of counter-narcotics programmes; and if he will make a statement. [57204]

Dr. Howells: Each EU member state applies the EU Code of Conduct on Arms Exports in respect of the export of all licence applications for all destinations, including Iran. The Code includes provisions whereby member states will not issue export licences where there is a clear risk that the exported items might be used for internal repression, or diverted to an undesirable end-user or end-use. The Code applies to the export of strategic goods to Iran for all purposes including counter-narcotics programmes, and is set out in detail on the Foreign and Commonwealth Office website at:
http://www.fco.gov.uk/internationalsecurity/defenceexportlicensing

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether Iran's Government has made a political decision to acquire a nuclear weapons capability; and if he will make a statement. [57205]

Dr. Howells: The Iranian authorities state that they have no intention to develop nuclear weapons. But the nature of Iran's nuclear programme, its history of concealment and inadequate co-operation with the International Atomic Energy Agency (IAEA), the unexplained involvement of the Iranian military in the nuclear programme, and its failure to take confidence-building steps have all contributed to international concern that the intentions of the programme may not be exclusively peaceful.

In his most recent report, the IAEA Director-General said that the Agency was "not in a position to conclude that there are no undeclared nuclear materials or activities in Iran". He also said that "this conclusion can

be expected to take even longer than normal to arrive at in light of the undeclared nature of Iran's past nuclear programme, the inadequacy of information available on Iran's centrifuge enrichment programme, the existence of a generic document related to the fabrication of nuclear weapon components, and the lack of clarification of the role of the military in Iran's nuclear programme".

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress by Iran towards uranium enrichment since its cessation of the suspension in January; and if he will make a statement. [57202]

Dr. Howells: The International Atomic Energy Agency's (IAEA) report of 27 February notes that

> "on 3 January 2006, Iran informed the Agency that it had decided to resume, as from 9 January 2006, "those R&D on the peaceful nuclear energy programme which had been suspended as part of its expanded voluntary and non-legally binding suspension"".

It goes on to say that

> "on 11 February 2006, Iran started enrichment tests by feeding a single P-1 machine with UF6 gas. At that time, other single P-1 machines were ready for operation and a 10-machine cascade was undergoing vacuum tests. The feeding of the 10-machine cascade was begun on 15 February 2006, and, on 22 February 2006, a 20-machine cascade was subjected to vacuum testing".

Middle East

Ms Barlow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to Israel on ending *(a)* the use of occupied territories for settlements and roads and *(b)* the construction of the wall in the West Bank and East Jerusalem. [56903]

Dr. Howells: Our Ambassador in Tel Aviv last raised our concerns about settlements and impact of the barrier in East Jerusalem with the Director General of the Israeli Ministry of Foreign Affairs on 19 December 2005.

Settlements are illegal under international law and settlement construction is an obstacle to peace. The Roadmap is clear that Israel should freeze all settlement construction including the "natural growth" of existing settlements, and dismantle all outposts built since 2001.

We also fully recognise Israel's right to self-defence. A barrier is a reasonable way to achieve this. But the barrier's route should be on or behind the Green Line, and not on occupied territory. Construction of the barrier on Palestinian land is illegal. The route is particularly damaging around East Jerusalem, as it risks cutting the city off from the West Bank and dividing the West Bank in two.

We will continue to raise our concerns over the settlements and the barrier with the Israeli Government at all levels.

Ministerial Activities

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* public speeches and *(b)* official visits he has made on departmental business since 5 May 2005; and how many letters he sent in this period. [55709]

Dr. Howells: Between 5 May 2005 and 2 March 2006, my right hon. Friend the Foreign Secretary made 28 speeches, all available at www.fco.gov.uk. He made 32 official visits overseas incorporating 45 countries and sent 1,602 letters.

Palestinian Refugees

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is Government policy to recognise the right of Palestinian refugees to return to their homes and land. [57439]

Dr. Howells: The return of refugees is a final status issue. Final status issues can only be resolved through negotiations and agreement between the parties themselves. We continue to urge both the Israeli Government and the Palestinian Authority to implement their commitments under the Roadmap as the best way to get to a negotiated settlement, and to the discussion of such issues.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what role he is playing in providing mediation between the National Unity Government of Sudan and representatives of the Eastern Front. [56710]

Ian Pearson: The Government of Sudan and the Eastern Front, the main rebel grouping in Eastern Sudan, were scheduled to begin negotiations in Sirte, Libya, on 7 February. On 6 February, the Eastern Front announced that they would not participate in these talks. The Eastern Front are currently holding internal discussions on their position. We are in regular contact with the Eastern Front and the Government of Sudan and are pressing them to begin negotiations at the earliest opportunity.

We continue to urge both sides to exercise restraint and to negotiate a political settlement within the framework of the Comprehensive Peace Agreement, and have offered our assistance in finding a suitable venue and mediator for the talks. My right hon. Friend the Foreign Secretary, and my noble Friend, the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, met the Sudanese Foreign Minister, Dr. Lam Akol, on 3 February and pressed Dr. Akol on the need to reach a swift agreement with the Eastern Front.

UK Citizens (Overseas Detention)

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his Answer of 26 January 2006, *Official Report*, column 2244W, on UK citizens (overseas detention), what the *(a)* date of arrest, *(b)* place of detention and *(c)* detaining authority was of each of the three UK citizens held without charge abroad. [57283]

Dr. Howells: Since my answer of 26 January 2006, *Official Report*, column 2244W, in which I said that we were aware of three British nationals held without

charge abroad for a period of 12 months or more, I regret that I have now learnt that the figure should have been four. Two British nationals are being held in Iraq. One was detained on 9 October 2004 and is held in Shaiba Divisional Temporary Detention Facility, Basra, Iraq by the UK contingent of the Multi-National Force in Iraq (MNF-I), in accordance with the authority conferred by UN Security resolution 1546 (2004) and renewed by UN Security Council resolution 1637 (2005), which authorises the MNF-I to detain individuals where it is necessary to do so for imperative reasons of security. The other was detained on 7 December 2004 by US forces under the same legal authority and is being held in Abu Ghraib following the referral of his case to the Central Criminal Court of Iraq. Two British nationals were detained on 25 June 2004 in Vietnam. They are being held by the Ministry of Public Security (Counter Narcotics Department) at Thanh Xuan Detaining Camp.

DEFENCE

Afghanistan

Mr. Harper: To ask the Secretary of State for Defence pursuant to his Answer of 16 February 2006, *Official Report*, column 2205W, on Afghanistan, how many of the medical personnel are *(a)* reserves and *(b)* regulars. [55467]

Mr. Ingram: Of the planned 280 medical staff deploying in support of Operation HERRICK in Afghanistan, 13 of them are Reservists. This includes four from the Territorial Army and nine from the Royal Auxiliary Air Force.

Mr. Harper: To ask the Secretary of State for Defence pursuant to his answer of 6 February 2006, *Official Report*, column 763W, on Afghanistan, what steps he is taking to prevent warlords from gaining influence or support following efforts to eradicate opium production in Afghanistan. [55468]

Dr. Howells: I have been asked to reply.

As stated by my right hon. Friend the Secretary of State for Defence on 26 January 2006, *Official Report*, columns 1529–33, the UK will support the Afghan Government's objectives by pursuing activities along governance, security, economic and social development and counter-narcotics lines. We will be seeking to support the development of provincial government and law enforcement capacity, including in Helmand province where British troops will be deployed. UK activities will include capacity building for the centrally-appointed Provincial Governor, and the Afghan National Army and Afghan national police forces. This will help to support the legitimate democratic processes, and reduce the negative influence of "warlords".

We are also supporting capacity building within national Afghan counter-narcotics law enforcement agencies and criminal justice agencies charged with targeting and bringing major traffickers and "drugs lords" to justice. Since May 2005, over 90 drug traffickers have been convicted.

Separately on eradication, we are working with the Government of Afghanistan to ensure that eradication is properly targeted against the greedy and not the needy. The Department for International Development is spending £130 million over the three financial years to 2008 to help build more sustainable legal income-generating opportunities for the rural population. We are helping the Government of Afghanistan develop and deliver an eradication information campaign, which explains the reasons behind eradication and the detrimental effects caused by those trying to undermine the Government's efforts to tackle the opium industry.

Dr. Julian Lewis: To ask the Secretary of State for Defence what the basis is for his Department's policy distinction between counter-terrorism and counter-insurgency operations made in respect of deployments to Afghanistan; and when the distinction was formulated; and by whom. [56621]

Mr. Ingram: The range of activities the International Security Assistance Force (ISAF) can undertake is set out in the revised Operational Plan (OPLAN) agreed in December 2005. The OPLAN makes clear that ISAF will not undertake counter-terrorist operations, which will remain the preserve of specialised Coalition assets under Operation Enduring Freedom. ISAF's role is to help the Government of Afghanistan to extend its authority across the entire country, to help them to maintain security and to facilitate reconstruction, all of which will undermine and counter the activities of insurgents and other illegally armed groups.

Astute Class Submarines

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the Answer of 27 February 2006, *Official Report*, columns 7–8W, on Astute class submarines, what the reasons are for *(a)* the increases in cost and *(b)* the delay in delivery; and if he will make a statement. [56226]

Mr. Ingram: The increase in costs and delay to the delivery of the Astute programme stem primarily from problems that arose from the application of Computer Aided Design (CAD) techniques. Due to the complexity of the programme, the benefits that CAD was envisaged to provide were more difficult to realise than either MOD or the contractor had assumed. These problems were addressed with the contractor and an agreement, placing incentives on the company to perform, was negotiated and a contract amendment signed on 17 December 2003.

Child Support Agency

Dr. Pugh: To ask the Secretary of State for Defence how many deductions of earnings requests were received from the Child Support Agency by each of the armed forces in the most recent three years for which figures are available; and how many requests were complied with *(a)* in full and *(b)* in part by each service. [55260]

Mr. Touhig: The table records the numbers of Deductions from Earnings Requests (DER) processed by the Armed Forces Personnel Administration Agency (AFPAA) for Service personnel in each of the three Services for the three years 2003–2005.

Deductions from earnings

	RN	Army	RAF	Total
2003	54	1236	53	1343
2004	105	1667	71	1843
2005	211	1698	135	2044
Total	370	4601	259	5230

Statistics for the number of requests that were applied in full and in part are not held centrally and could only be provided at disproportionate cost. However, DERs are only applied less than fully if to do so would reduce a Service person's pay below the established Minimum Rate of Pay. Since DERs are applied before deductions for any other reason relatively few are applied less than fully.

Dr. Pugh: To ask the Secretary of State for Defence what criteria the Department used in taking the decision on how to treat Child Support Agency claims on service personnel in relation to deduction of earnings. [56481]

Mr. Touhig: Service personnel are not subject to deduction from earnings orders because they are already subject to deductions from earnings for a variety of reasons under other legislation. In practice, the Ministry of Defence applies deductions from earnings requests in exactly the same way as orders, subject to ensuring that such deductions do not reduce a service person's pay below the established minimum rate of pay. Deductions from pay for child maintenance are applied before any other deductions. The MOD has an understanding with the Child Support Agency for administering deductions from earnings requests.

Defence Science and Technology Laboratory

Dr. Fox: To ask the Secretary of State for Defence what impact the deployment of Defence Science and Technology Laboratory staff to Iraq has had on the work of the Laboratory in the UK. [44187]

Mr. Ingram: Supporting operations, including those in Iraq, is one of DSTL's principal roles: since its formation in 2001 the laboratory has continuously supported a wide range of operations both overseas and for homeland security. This capability is based on DSTL's ability to draw on the entire organisations S&T base to provide the best advice and solutions. Supporting operations is afforded a high priority, and the short-notice and fluctuating nature of the demand means that it has to be managed in consultation with DSTL's MOD customers.

Defence Vetting Agency

Mr. Lancaster: To ask the Secretary of State for Defence what plans he has to improve the Defence Vetting Agency's basic security check. [49748]

Mr. Ingram: The Defence Vetting Agency operates within guidelines set by the Cabinet Office, and constantly seeks ways to improve the vetting process. The DVA is at the forefront of Government security vetting process and working practice improvements and is taking a strong lead in the development and introduction of e-vetting. The introduction, this year, of a suite of new scannable security application forms is a first step towards a solution to allow vetting subjects to complete and submit security clearance applications using the internet, leading to a much more efficient process.

Discharged Personnel (Social Housing)

Mr. Harper: To ask the Secretary of State for Defence what his assessment is of the ability of service personnel *(a)* in each service and *(b)* of each rank to afford (i) a mortgage and (ii) privately-rented accommodation on discharge. [56369]

Mr. Touhig *[holding answer 6 March 2006]:* The ability to afford mortgage repayments or rental charges obviously depends on individual circumstances. Because of this, a detailed assessment of affordability by rank and service cannot be made. However, we provide an excellent pay and pension package for service personnel, together with extensive advice on housing options and an interest-free loan scheme.

Mr. Harper: To ask the Secretary of State for Defence what recent assessment he has made of the housing needs of *(a)* Army, *(b)* RAF and *(c)* Royal Navy personnel on discharge. [56377]

Mr. Touhig *[holding answer 6 March 2006]:* Housing needs are reflected in schemes such as long service advance of pay and advice provided through the Joint Services Housing Advice Office. The Defence Housing Strategy is being reviewed as part of the Defence Living Accommodation Strategy (DLAS), which provides a comprehensive approach with a focus on private housing options to meet societal changes and the smooth transition to civilian life.

Eurofighter

Mr. Moore: To ask the Secretary of State for Defence what assessment he has made of the *(a)* reliability and *(b)* suitability of the computer system installed on Eurofighter jets. [53743]

Mr. Ingram: The Typhoon has a substantial number of inter-linked computers, all of which are tested individually, as sub-systems, and as an entity during aircraft acceptance. The ability of the individual computer systems to provide computing power for the other systems if they malfunction means that Typhoon systems are inherently very reliable, safe, and suitable for the operation of this aircraft.

Gershon Review

David Taylor: To ask the Secretary of State for Defence what assessment he has made of the implications of the Gershon Review for staffing levels in the Defence Export Services Organisation. [56730]

Mr. Ingram *[holding answer 7 March 2006]:* Staffing levels in the Defence Export Services Organisation are regularly reviewed as part of normal management procedures. Posts saved in 2005–06, and any further posts saved in the next two financial years, will contribute to the departmental target for civilian and military manpower reductions that was agreed in the 2004 Spending Review, following the Gershon Review of Public Sector Efficiency.

Infantry Regiments

Stewart Hosie: To ask the Secretary of State for Defence what the recruitment figures for each of the Scottish infantry regiments were for each month in 2005; and how many of those who completed their training went to the regiment of their choice. [55909]

Mr. Touhig *[holding answer 3 March 2006]:* The Army does not recruit soldiers into particular regiments but instead recruit to the three infantry career employment groups (Line, Para and the Guards). While some soldier recruits specify a particular "Preferred Capbadge" on enlisting, infantry personnel are not recruited into or allocated a regiment until near completion of their training. Officers are allocated an arm/service/regiment during or on completion of their commission course at Royal Military Academy Sandhurst (RMAS). Therefore the following table shows the gains to the trained strength of the six Scottish infantry regiments in each month during 2003.

Trained intake of officers and soldiers into the Infantry Scottish Division during 2003

Date of flow	*Unspecified*	*RS*	*RHF*	*KOSB*	*BW*	*HLDRS*	*A & SH*	*Total*
2003								
January	55	[1]—	[1]—	[2]—	[1]—	[1]—	[2]—	65
February	[1]—	5	[1]—	[1]—	[1]—	5	5	25
March	[1]—	[1]—	5	5	10	[2]—	10	35
April	50	5	5	[1]—	5	[1]—	5	75
May	30	[1]—	10	[1]—	[1]—	[1]—	5	55
June	5	[1]—	[1]—	[1]—	[2]—	[1]—	[2]—	15
July	10	[1]—	[1]—	[1]—	10	[2]—	[1]—	25
August	[1]—	10	10	[1]—	[1]—	[1]—	5	40
September	5	10	[1]—	[1]—	10	[2]—	[1]—	35
October	5	[1]—	[1]—	[1]—	[1]—	[1]—	[1]—	20
November	10	5	10	15	20	10	20	90
December	10	5	5	5	5	5	[1]—	45

[1] Indicates a non zero value which is less than 5.
[2] Indicates a value of zero.

Notes:
1. Figures have been rounded to the nearest 5. Totals and sub-totals have been rounded separately and so may not appear to be the sum of their parts.
2. Figures do not include Full Time Reserve Service (FTRS), Gurkhas or Mobilised Reservists. The information relates to the flows of UK Trained Regular Army Personnel in the Scottish regiments, regardless of whether they serve away from the main body of the regiment, this does not include other arms/services attached to the regiments.
3. Soldiers joining the infantry are not allocated to a particular regiment until completion of training at the Infantry Training Centre (Catterick). Officers are allocated a regiment on completion of their commissioning course at RMAS. Therefore the table includes those officers and soldiers who joined the Scottish regiments on completion of training. It will also include direct entries to the trained strength, such as trained re-entrants.
4. The aforementioned figures will include those individuals who have entered the trained strength with an intake code from "illegal absence", flowing either from untrained to trained or directly to trained strength. These figures may therefore appear different to other published figures.
5. The table includes an 'Unspecified' Regiment, this is where soldiers have not yet been assigned to a specific Scots Div Infantry Regiment on their Record of Service.
6. RS—Royal Scots , RHF—Royal Highland Fusiliers, KOSB—Kings Own Scottish Borderers, BW—Black Watch, HLDRS—Highlanders and A & SH—Argyll and Sutherland Highlanders.
7. Figures exclude colonels and above.

It is not possible to determine how many personnel went to the regiments of their choice, as this information is not held centrally on the administration system used in the production of these statistics.

Stewart Hosie: To ask the Secretary of State for Defence what the recruitment targets were for each division of infantry *(a)* as at 1 January 2003 and *(b)* in each quarterly since January 2003; and what percentage of the targets have been met. [55910]

Mr. Touhig *[holding answer 3 March 2006]:* The Army does not recruit soldiers into Infantry Divisions, but instead recruits to the three Infantry Career Employment Groups (Line, Para and the Guards). Officers are only allocated a Regiment on completion of their Commissioning Course at Royal Military Academy Sandhurst (RMAS). Therefore recruitment figures and targets for Infantry Divisions are unavailable.

The following table shows the gains to the trained strength of each Infantry Division for each quarter since 1 January 2003 to 31 December 2005.

Flows during qtr	*Footguards*	*Scots Div*	*Queens Div*	*Kings Div*	*POW Div*	*Light Div*	*Para*	*Others*	*Total*
1 January to 31 March 2003	90	120	140	130	140	120	100	20	870
1 April to 30 June 2003	120	140	180	160	180	120	60	40	1,000
1 July to 30 September 2003	200	100	170	150	160	120	80	30	1,020
1 October to 31 December 2003	150	160	160	170	180	120	100	40	1,080
1 January to 31 March 2004	180	120	140	140	160	110	40	30	910
1 April to 30 June 2004	150	160	160	150	150	100	60	30	970
1 July to 30 September 2004	130	120	170	130	180	70	40	30	870
1 October to 31 December 2004	140	140	130	170	130	90	70	20	890
1 January to 31 March 2005	90	60	60	60	70	40	60	[1]—	440
1 April to 30 June 2005	110	140	140	130	160	90	50	20	840
1 July to 30 September 2005	130	100	110	110	110	80	70	20	720
1 October to 31 December 2005	70	110	90	110	110	90	40	20	640

[1] Indicates a value of zero or rounded to zero.

Notes:

1. Figures have been rounded to the nearest 10. Totals and sub-totals have been rounded separately and so may not appear to be the sum of their parts.
2. Figures do not include Full Time Reserve Service (FTRS), Gurkhas or Mobilised Reservists. The information relates to the flows of UK Trained Regular Army Personnel in the Scottish Regiments, regardless of whether they serve away from the main body of the Regiment, this does not include other Arms/Services attached to the Regiments.
3. Soldiers joining the Infantry are not allocated to a particular Regiment until completion of training at the Infantry Training Centre (Catterick). Officers are allocated a Regiment on completion of their Commissioning Course at RMAS. Therefore the table includes those officers and soldiers who joined the Scottish Regiments on completion of training. It will also include direct entries to the trained strength, such as trained re-entrants.
4. The above figures will include those individuals who have entered the trained strength with an intake code from "illegal absence", flowing either from untrained to trained or directly to trained strength. These figures may therefore appear different to other published figures.
5. POW Div = Prince of Wales Division.
6. 'Other' includes, Royal Irish (General Service), Regular Army Gurkha Officers etc.
7. Figures exclude Colonels and above.

International Criminal Court

Dr. Julian Lewis: To ask the Secretary of State for Defence whether British military personnel against whom it has been decided in the United Kingdom that no action should be taken may be summoned to appear before the International Criminal Court. [55461]

John Reid: The International Criminal Court (ICC) only has jurisdiction over the offences specified in Article 5 of its Statute. The ICC does not replace national courts, as is made clear in paragraph 10 of the Preamble to the ICC Statute. This expressly provides that the Court 'shall be complementary to national criminal jurisdictions'. The Statute makes clear that only if a state is unwilling or unable genuinely to carry out an investigation or prosecution will a case be admissible, and unless a case is admissible the Court cannot exercise its jurisdiction. The Statute (Article 17.2) requires the Court to determine 'unwillingness' in a particular case by considering,

> "whether one or more of the following exists:
>
> the proceedings were or are being undertaken or the national decision was made for the purposes of shielding the person concerned from criminal responsibility for crimes within the jurisdiction of the Court; there has been an unjustified delay in the proceedings which in the circumstances is inconsistent with an intent to bring the person concerned to justice;
>
> the proceedings were not or are not being conducted independently or impartially, and they are or were being conducted in a manner which, in the circumstances, is inconsistent with an intent to bring the person concerned to justice."

The Statute (Article 17.3) requires the Court to determine 'inability' in a particular case by considering,

> "whether, due to a total or substantial collapse or unavailability of its national judicial system, the state is unable to obtain the accused or the necessary evidence and testimony or otherwise unable to carry on its proceedings".

A decision to take no further action, whether in relation to investigation or proceedings, and whether taken by investigators, prosecutors or a court, does not in itself imply an unwillingness or inability genuinely to investigate or prosecute.

The Government do not envisage that circumstances will ever arise in which the ICC would conclude that the UK is unable or unwilling genuinely to investigate or prosecute, and accordingly does not envisage that the ICC will ever exercise jurisdiction over any member of the British armed forces. The ICC prosecutor has also recently decided that there is no reasonable basis to initiate an investigation into UK military operations in Iraq.

Land Mines

Mr. Moore: To ask the Secretary of State for Defence what research and development work is being undertaken by his Department on land mines; and if he will make a statement. [56452]

Mr. Ingram: Apart from some work to develop a more capable fuse for the UK's in-service anti-tank mine capability, research effort is focused on countering mines and improvised explosive devices. Studies are looking at future methods of providing a counter-mobility capability, but no detailed research into any particular solution is being conducted. The UK is a signatory to the Ottawa convention and has no anti-personnel land mine capability.

Mental Health Services

Mr. Harper: To ask the Secretary of State for Defence (1) what *(a)* mental health and *(b)* counselling services are available to service personnel in theatre; [55578]

(2) what *(a)* mental health and *(b)* counselling services his Department provides for service personnel returning from active duty. [55579]

Mr. Touhig: The medical component of most deployments will include mental health professionals. These specialist personnel offer a liaison service to unit medical officers and commanders and will see Service personnel with mental health problems. In theatre, referrals are always made via the Medical Officer.

For example, in Iraq, a mental health team is based at the UK Shaibah Logistics base, and is staffed by two community psychiatric nurses. A consultant Psychiatrist also visits the theatre regularly for Clinical Governance purposes and to provide advice on individual patients. Reserve Personnel have the same access to medical care and treatment as regular personnel while they are mobilised.

I will write to the hon. Member separately to provide greater detail on wider mental health support and counselling provided for personnel both during and after deployed operations.

Military Code of Conduct

Keith Vaz: To ask the Secretary of State for Defence what guidance is provided to members of the British armed services on the action they should take if they witness criminal acts by members of *(a)* other national armed forces and *(b)* UN peacekeeping missions. [55686]

Mr. Ingram: Our armed forces are trained to respect their disciplinary code and to have respect for the law wherever they are serving. Queens regulations and the armed forces' "Values and Standards" demand the highest standards of good order, conduct and discipline, and require that individuals carrying out their duties should strive to promote the excellence of their service and show an example to those who are subject to their command. Any incidences of wrongdoing or misconduct, including by other nations' armed forces, should not be condoned and should be reported to the chain of command.

Missile Defence

Mr. Harper: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Hemel Hempstead (Mike Penning) of 15 February 2006, *Official Report*, column 2096W, on missile defence, when he expects to make a decision on whether the UK will pursue missile defence. [57258]

John Reid: There is no set timetable for making a decision on whether to acquire a territorial missile defence capability for the United Kingdom. Such a decision will be informed by the developing threat to the UK from ballistic missiles, other responses available to counter the threat, and the suitability of the relevant technology available to us, among other considerations. The UK already supports the NATO programme to acquire by 2010 a theatre missile defence capability to protect deployed forces.

Naval Procurement

Mr. MacShane: To ask the Secretary of State for Defence pursuant to the oral Answer of 27 February 2006, *Official Report*, column 16, on naval procurement, if he will make it his policy to use steel made in the UK in the construction of vessels for the Royal Navy. [55792]

Mr. Ingram: A variety of different British and international standards of steel are used in UK warships. It is for the companies designing and building these ships to decide the source of the steel to be used. Ships in the current fleet, including for instance Type 23 frigates, have incorporated steel from both British and overseas steelmakers.

Overseas Deployments

Keith Vaz: To ask the Secretary of State for Defence how many residents of Leicester are serving with the armed forces in *(a)* Iraq and *(b)* Afghanistan. [50221]

Mr. Touhig: Data on the residential location of armed forces personnel is not held centrally in databases of individual records and it is therefore not possible to give figures by place of residence.

Planning Guidance (Airfields)

Mr. Spring: To ask the Secretary of State for Defence what assessment he has made of the likely effects on airfields in East Anglia of the proposed change in the definition of brownfield in planning policy guidance note 3. [55780]

Mr. Touhig: The Department has assessed the proposed changes to the definition of brownfield land in the Consultation Paper on the new planning policy statement 3, which is proposed to replace planning policy guidance note 3.

No effects upon our airfields in East Anglia are anticipated as a result of the changed definition in the consultation document.

QinetiQ

Dr. Cable: To ask the Secretary of State for Defence what the estimated market-to-market value is of *(a)* share options and *(b)* shares in QinetiQ issued at the time of the original public private partnership with Carlyle Group; and if he will make a statement. [51898]

John Reid: Details on the share capital of QinetiQ are set out in the QinetiQ IPO prospectus, a copy of which was placed in the Library of the House on 26 January. Immediately prior to the IPO, QinetiQ's share capital comprised a single class of ordinary shares, in addition to the special share. The IPO priced the ordinary shares at 200p each.

Sanctuary Magazine

Mr. Jenkin: To ask the Secretary of State for Defence what the total cost of producing and distributing the Sanctuary magazine was in the last year for which figures are available; how many copies of each edition are printed; and to whom they are distributed free of charge. [57147]

Mr. Touhig: The total production and distribution costs, including dedicated staff where costs can be identified, for the 2005 edition of Sanctuary magazine were some £52,000.

20,000 copies of the 2005 edition were printed of which approximately half were distributed within Ministry of Defence. The remainder were sent to a range of external stakeholders, including MPs and members of the general public. All of these recipients received Sanctuary free of charge. The MOD has received a number of favourable comments.

Service Insignia

Mr. Todd: To ask the Secretary of State for Defence what representations he has received about the licensing of *(a)* roundels and *(b)* other insignia used by the armed forces since the registration of these as trademarks; and if he will make a statement. [56605]

Mr. Ingram: A number of licences for use of MOD marks, including the roundel and other armed forces insignia, have been granted to enable MOD to control use of these marks.

It is MOD's policy to pursue cases where its Intellectual Property rights have been infringed. Where no use of MOD's Intellectual Property is shown to have occurred, no further action is taken.

It is assumed that when the question refers to "representations", it means the kind of discussions that are part of the normal licensing negotiations. No specific representations have been made regarding MOD's overall policy to prevent mis-use of its Intellectual Property.

Territorial Army

Ann Winterton: To ask the Secretary of State for Defence how many officers have *(a)* been commissioned into and *(b)* left the Territorial Army (TA), including those transferring to the long term reserve list, in each year since 2001. [43678]

Mr. Touhig: The following table shows the intake and outflow of Territorial Army officers during the period 1 October 2003 to 31 December 2005. October 2003 is the earliest date for which reliable TA inflow and outflow data are available.

Territorial Army (TA) officer flows

	Inflows	*Outflows*
1 October 2003 to 31 December 2003	130	90
2004	490	650
2005	390	560

Notes:

1. The data exclude full-time reserve service (FTRS), non-regular permanent staff (NRPS) and mobilised TA.
2. The data are based on flows during the period 1 October 2003 and 31 December 2003, and for the calendar years 2004 and 2005.
3. The data have been rounded to the nearest 10, numbers ending in '5' have been rounded to the nearest multiple of 20 to avoid systematic bias.
4. Inflow figures include all inflow e.g. those who have commissioned from the ranks, inflow from the Officer Training Corps, inflow from Regular Army Reserve of Officers (RARO) and intake from civil life. It does not include the inflow of officers returning from mobilisation.
5. Outflow figures exclude those officers who become mobilised.

Mr. Peter Robinson: To ask the Secretary of State for Defence how many members of the Territorial Army there are in Northern Ireland. [53262]

Mr. Touhig: I refer the hon. Member to the answer I gave on 27 February 2006, *Official Report*, column 33W.

Z-berths

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will make a statement on the role of Z-berths; what the reasons are for reinstating them; and what criteria were used to choose locations for them. [55616]

Mr. Ingram *[holding answer 6 March 2006]:* The Royal Navy has two kinds of nuclear submarine berths: X-berths at Devonport, Faslane and Barrow in Furness, which are the only places where maintenance on nuclear propulsion systems may be carried out; and Z-berths which are used for operational recuperation, material re-supply and personnel changeovers. Z-berths support the Royal Navy's ability to operate flexibly throughout UK waters, which is key to its contribution to the security of the UK homeland.

Until 2001, the Royal Navy could use Z-berths in Broadford Bay, Cardiff, RNAD Coulport, Hull, Liverpool, Loch Ewe, Loch Goil, Portland, Portsmouth and Southampton. With the introduction of the Radiation (Emergency Preparedness and Public Information) Regulations in 2001, responsibility for production of emergency planning arrangements transferred from the Ministry of Defence to the relevant local authority. The Royal Navy has therefore temporarily ceased use of Z-Berths in commercial ports to allow local authorities time to develop and test their own plans. The Ministry of Defence supports and pays for this work.

The following Z-berths are now covered by the necessary plans and are available for use by the Royal Navy: Broadford Bay, RNAD Coulport, Loch Ewe, Loch Goil and Portsmouth. The MOD is currently working with Southampton city council to finalise the emergency planning arrangements necessary to re-establish full Z-berth status in Southampton, and is discussing the planning requirements for the berth at Portland with Dorset county council and Weymouth and Portland borough council. Preliminary discussions have also been held with Sefton metropolitan borough council in Liverpool.

EDUCATION AND SKILLS

Child Protection

Mr. Gibb: To ask the Secretary of State for Education and Skills what the average time between referral of a case to the Children's Safeguard Unit and its determination was in the last period for which figures are available. [47280]

Ruth Kelly: This information is not available. In order to progress a case to conclusion there is a process which involves giving both the individual and the referring organisation the chance to comment on information provided by each, and consideration of any relevant information from third parties. As a result, each case is unique and thus the time taken to conclude a case varies.

Education and Skills Benchmarks

Mr. Boswell: To ask the Secretary of State for Education and Skills if she will make a statement on developments during the recent British EU Presidency in meeting the five education and skills benchmarks under the Lisbon goals. [56324]

Bill Rammell: Achievement of the five education and skills benchmarks is the responsibility of each Member State, through implementation of national education and training strategies. The UK supported progress

towards these benchmarks during the Presidency by organising events on the key themes of investment in skills, higher education, adult learning, young people and ICT in schools.

The 2006 Joint Interim Report from the Council and the Commission, "Modernising education and training: a vital contribution to prosperity and social cohesion in Europe", sets out overall EU performance against the five benchmarks and identifies priorities for future cooperation. A copy of the draft report is in the House Library.

Education Funding

Kelvin Hopkins: To ask the Secretary of State for Education and Skills how many courses of fewer than nine hours' study will have public funding withdrawn in *(a)* 2006/07 and *(b)* 2007/08; how many of these courses will be in (i) health and safety and (ii) food safety; and if she will make a statement. [23619]

Bill Rammell: On 21 October, I made an announcement, setting out the Government's strategic direction for the learning and skills sector for the coming period. My main purpose for doing so was to ensure the 2006/07 funding allocations process began with a clear and concise message on the principles that will underpin funding over the next two years. In addition, the Learning and Skills Council (LSC) published 'Priorities for Success' ; a document that sets out the funding strategy for the next two years in more detail. This document is available on the LSC's website.

Although more funding will be going into the sector, we will focus funding even more strongly on key priorities of raising participation and achievement 14–19 and driving down the skills deficit in the adult workforce. This will mean that less provision outside these priority areas can be supported at previous levels, and that there has to be a new balance of responsibilities between government, employers and learners to achieve this.

Many short health and safety and food safety courses are not identifiable centrally. Of those 81 short course learning aims which can be identified, ten were basic skills or ICT courses, 56 were generic or other subjects, and fifteen were food hygiene or health and safety learning aims.

The LSC have sought views from colleges and representative organisations about these proposed funding changes and I expect all colleges will agree in May their final funding allocations for 2006/07.

Education Maintenance Allowance

Dr. Cable: To ask the Secretary of State for Education and Skills (1) what steps are taken to verify financial details given by students applying for education maintenance allowances; [48933]

(2) how much has been spent on administration of education maintenance allowance in each year since the scheme was piloted; and how much is expected to be spent in each year until 2009–10; [48935]

(3) whether any further education institution which is in financial difficulty and whose students are eligible for education maintenance allowance is receiving extra funding to enable it to administer the scheme; [48937]

(4) what non-financial support is given to individual further education institutions in providing the education maintenance allowance; [48938]

(5) what measures are in place to ensure that students are awarded education maintenance allowance on a consistent basis, with particular reference to *(a)* attendance, *(b)* legitimate absence, *(c)* casual sickness and *(d)* transport difficulties. [48940]

Maria Eagle: These are matters for the Learning and Skills Council, who operate Education Maintenance Allowances for the DfES. Mark Haysom the Council's Chief Executive, has written to the hon. Member with the information requested and a copy of his reply has been placed in the House Library.

Education Provision (Hendon)

Mr. Dismore: To ask the Secretary of State for Education and Skills how many free part-time early education places were taken up by three and four-year-olds in Hendon in *(a)* 2005–06 and *(b)* 1997; and if she will make a statement. [56805]

Beverley Hughes: All four-year-olds have been entitled to a free early education place since 1998 and from April 2004 this entitlement was extended to all three-year-olds. The free entitlement consists of a minimum of five two and a half hour sessions per week for 33 weeks of the year for six terms before statutory school age, which is the term following their fifth birthday. This will increase to 38 weeks from 1 April 2006 and to 15 hours a week by 2010. By that time, parents who wish to do so will also be able to access the free entitlement flexibly across a minimum of three days.

Some local authorities may additionally offer subsidised child care places but this information is not collected centrally.

Figures for January 2005 show that all four-year-old children receive some form of free entitlement. The figure for three-years-olds is 96 per cent. This covers all maintained, private, voluntary and independent providers and represents 535,100 three-year-olds and 568,300 four-year-olds.

The available information on the number of free nursery education places taken up by three and four-year-olds in Hendon parliamentary constituency area and Barnet local authority is shown in the tables.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 43/2005 "Provision for children under five years of age in England—January 2005 (final)" in September, which is available on my Department's website www.dfes.gov.uk/rsgateway/DB/SFR/s000604/index.shtml.

Number of free nursery education places[1] taken up by three and four-year-olds: Local authority-Barnet, position in January each year

	3-year-olds			4-year-olds		
	Maintained nursery and primary schools[2]	*Other maintained and private, voluntary and independent providers*	*Total 3-year-olds*	*Maintained nursery and primary schools[3]*	*Other maintained and private, voluntary and independent providers*	*Total 4-year-olds*

[2] Headcount of children aged three at 31 December in the previous calendar year from the Annual Schools' Census.
[3] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.
[4] Headcount of children aged four at 31 December in the previous calendar year from the Annual Schools' Census.
[5] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.

Changes in pupil figures may arise from changes to the underlying population in the local authority area and other factors. However, my Department doesn't publish population figures for individual age cohorts at sub-national level because of the unreliability of the underlying population estimates. The Office for National Statistics publish sub-national population estimates in five-year age bands.

Employer Training Pilots

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills if she will make a statement on the Employer Training Pilot programmes. [56430]

Phil Hope: Employer Training pilots were introduced in September 2002 to encourage employers to train their low skilled employees. They tested a package of measures, including wage compensation for employers, to improve access to training and enable employees to attain basic skills (literacy, numeracy, English for Speakers of Other Languages (ESOL) and/or their first, full Level 2 qualification). The number of pilot areas has been progressively increased and currently stands at 20 of the 47 LSC areas.

Evaluation findings have been largely positive. The evaluations undertaken by the Institute for Employment Studies concluded that:

The pilots have been very successful in engaging employers and employees in training up to a first full Level 2. There are now over 236,027 learners and 28,281 employers signed up to ETPs and 123,687 have successfully completed their training. Employer and employee satisfaction levels are over 90 per cent.

Employers are attracted mainly by the free or heavily subsidised flexibly delivered training, and the services of the independent broker to help them identify the most suitable training and source it.

Employers felt that important benefits to taking part in ETP included boosting employees self confidence, employees gaining job related skills/qualifications and improved the quality of the organisations services or products.

Learners are attracted by the opportunity to obtain skills to do their job better and to gain a qualification.

A separate evaluation by the Institute for Fiscal Studies, which focused only on the first year of the pilots, identified that additionality was not as high as we would have hoped at that stage. The IFS report has pointed to the need to ensure better targeting of 'hard to reach' employers and be more rigorous in applying learner eligibility rules. We are confident that the position has improved since the first year of the pilots. We have also learnt important lessons from the pilots about the key factors motivating employers and learners to engage in training, and the best ways to adapt training provision to the needs and pressures of the workplace.

The pilots have been effective in encouraging more colleges and other training providers to deliver training more flexibly, for example on employer's premises or at a time and in a manner suited to their shift patterns. Providers have also been encouraged to tailor training to focus on the skills gaps identified through initial training needs assessments.

The Employer Training Pilots have therefore been wholly successful in enabling us to evaluate what is effective in engaging employers in training their low skilled employees and have been invaluable in informing the development of policy for Train to Gain, the new national employer training programme that will roll out from April 2006. Train to Gain will reach full national coverage in August 2006 and is central to the delivery of the demand led approach to training that is at the heart of the Government's Skills Strategy.

When fully operational Train to Gain will provide training to 350,000 learners from 50,000 employers per year. This should result in 175,000 first, full Level 2 qualifications each year. By 2009–10 it is expected that Train to Gain will have contributed over 500,000 first, full Level 2 achievements towards the Government's Level 2 targets.

Extended School Hours

Mr. Dismore: To ask the Secretary of State for Education and Skills what funding has been given to Barnet for extended school hours initiatives; and if she will make a statement. [56991]

Beverley Hughes: Over 2005–08 we are making available £790 million to support the development of extended services accessed in or through schools. £110 million of this was allocated in 2005–06 and Barnet local authority received £561,891. Of the £680 million to be allocated across 2006–08, £250 million will go direct to schools through the School Standards Grant and the formula for announcing each school's allocation for 2006–07 was announced on 7 December. The remaining £430 million will be distributed to local authorities through the Standards Fund and the General Sure Start Grant. Of this, Barnet local authority will receive £964,178 in 2006–07 and £1,196,661 in 2007–08. Funding will be released to schools in accordance with each local authority's strategy for extended services.

Free Nursery Education

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills when she will publish a summary of findings and recommendations following the consultation in the code of practice on the provision of free nursery education places for three and four-year-olds. [56793]

Beverley Hughes: The code has been revised in the light of views expressed during consultation and. is now available on the Sure Start website at www.surestart.gov.uk. It was e-mailed to local authorities on Wednesday 22 February and hard copies are being despatched to early years providers delivering the free entitlement for three and four-year-olds. Copies will also be placed in the House of Commons Library. The code will come into force with effect from 1 April. A detailed report on the consultation, including a summary of responses, is currently being finalised and will be placed on the Sure Start website shortly.

Learning Outcomes

Mr. Boswell: To ask the Secretary of State for Education and Skills what progress her Department has made in consultation with professional interests in improving the transparency and recognition of learning outcomes *(a)* within the EU and *(b)* in the wider international community. [56337]

Bill Rammell: The Department for Education and Skills consults with professional interests in improving the transparency and recognition of learning outcomes on a number of EU initiatives.

(i) Mutual recognition of professional qualifications in the regulated professions

We are actively working with the regulatory authorities (statutory and professional bodies) to secure effective and timely implementation of Directive 2005/36/EC, on the recognition of professional qualifications.

(ii) UK National Reference Point

The UK National Reference Point for vocational qualifications was established in response to EU Council Recommendation 2001/613/EC. It provides information and advice to individuals, institutions and employers on matters relating to European vocational education and training systems, qualifications and certificates.

(iii) Europass

Council Decision 2241/2004/EC established a single Community framework for achieving the transparency of qualifications and competences by the creation of a personal, coordinated portfolio of documents to be known as Europass. Europass consists of the common European CV, the Diploma Supplement, Europass Mobility, the Certificate Supplement, and the European Language Portfolio. Each member state has designated a National Europass Centre (NEC) responsible for the setting up of an Internet site and information system; and providing an electronic link to the European Commission's website which contains the portfolio.

(iv) NARIC

The National Academic Recognition and Information Centre (NARIC) network was first established by the EU SOCRATES programme in 1995. The UK's NARIC gives independent information and advice on the comparability and mutual recognition of UK and international qualifications and promotes UK qualifications internationally.

(v) Bologna Process

UK participates fully in the Bologna Process, which includes more countries than the 25 EU member states. One of the key objectives of the Bologna Process is to make degrees more easily comparable. Ministerial communiqués have recognised the

importance of learning outcomes in achieving comparability. The Bologna Process also recognises the important role that the NARIC networks have to play in recognition of degrees.

(vi) Commission consultation on a European Qualifications Network

The European Commission launched its Europe-wide consultation on a European Qualification Framework in July 2005. The European Qualifications Framework (EOF) is designed to act as a translation device to enable different qualification frameworks to be related to each other across national boundaries. The Department for Education and Skills launched a UK-wide consultation on this proposal on 2 September 2005. 153 organisations were alerted to the consultation, and responses were received from professional bodies and business organisations, trades unions, awarding/ examination bodies, sector skills organisations, higher education institutions and a local authority.

There are no similar initiatives in the wider international community.

List 99

Bob Spink: To ask the Secretary of State for Education and Skills on how many occasions people on List 99 have been allowed to teach children in each of the last 10 years. [43930]

Ruth Kelly: Anyone who is on List 99 on the grounds that they are unsuitable to work with children is barred from working in any school.

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to paragraph 27 of her Review of the List 99 decision-making process and policy implications document published on 19 January, whether the view of the police that Paul Reeve does not pose a current risk takes into account the concern expressed by Chief Constable Carole Howlett in her letter to the Home Office of 12 December 2005. [46627]

Ruth Kelly: As paragraph 27 of the referenced document made clear, none of the individuals referred to in that paragraph is judged by the police to pose a current risk. The police judgment was based on the very latest intelligence gathered by police through a range of enquiries and personal visits to each individual. Local risk assessment mechanisms remain in place, and further action would be triggered if the police judgment changed.

Protection of Children Act

Tim Loughton: To ask the Secretary of State for Education and Skills what criteria are used to decide who is *(a)* placed on and *(b)* removed from the Protection of Children Act List; who is responsible for deciding who is placed on it; and if she will make a statement on the operation of the list. [44812]

Ruth Kelly: The Protection of Children Act list is a referrals-based system. Following disciplinary action for misconduct, if certain conditions are satisfied, child care organisations must refer the names of individuals employed in child care positions to the Secretary of State (these are usually employers but a small number of other organisations have the power to refer names). To place an individual on the Protection of Children Act List providing I am satisfied that the referral is a valid one, my Department must form the opinion that:

(1) the referring organisation reasonably considered the person to be guilty of misconduct which harmed a child or placed a child at risk of harm, (whether or not in the course of employment), and;

(2) that the individual is unsuitable to work with children.

Individuals who are confirmed on the Protection of Children Act List have the right of appeal to the Care Standards Tribunal if they do so within three months of the date of that decision. The Secretary of State has discretionary powers to remove names from the PoCA List in limited circumstances (for instance where a conviction has been quashed on appeal or where a malicious referral is uncovered following the production of new evidence).

Sex Offenders

Mr. Rob Wilson: To ask the Secretary of State for Education and Skills whether any registered sex offenders have been approved by her Department to work in Wokingham local education authority schools. [46493]

Ruth Kelly: My statement and the accompanying report of 19 January set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

My Department does not "approve" people to work in schools. These decisions are a matter for the employer having taken into account the relevant CRB check.

Teenage Pregnancies

Dr. Cable: To ask the Secretary of State for Education and Skills (1) what assessment she has made of the effectiveness of Sure Start Plus in reducing levels of teenage pregnancies in the UK's most deprived areas; and if she will make a statement; [55930]

(2) what the rate of pregnancy among under 18s was in the most deprived areas in each year since 1997; and if she will make a statement; [55934]

(3) what assessment she has made of the causes of high teenage pregnancy rates in deprived areas. [55935]

Beverley Hughes: The primary purpose of the Sure Start Plus pilots is to improve health and education outcomes for young mothers and their children. However, Sure Start Plus also has a role in reducing the incidence of repeat unplanned pregnancies and increasing the proportion of young mothers in education, employment and training, because these reduce their likelihood of long-term social exclusion, and act as protective factors against their children becoming teenage parents themselves.

There is a strong link between social deprivation and higher rates of teenage pregnancy. The following table compares the average under-18 conception rate in the 20 per cent. most deprived local authorities (LAs) and the 20 per cent. least deprived, for each year from 1997

to 2003 (the latest year for which data are available). The table shows that, on average, rates in the most deprived 20 per cent. local authorities are a third higher than the national average. Ward level conception statistics show even greater differences between the most deprived and least deprived areas.

	1997	1998	1999	2000	2001	2002	2003
England average	45.5	46.6	44.8	43.6	42.5	42.6	42.1
Most deprived 5th local authorities	60.2	60.9	59.2	57.5	55.5	56.0	56.3
2nd most deprived	49.8	51.4	48.7	47.6	46.5	46.8	45.4
3rd most deprived	41.8	41.1	40.5	38.5	37.8	38.2	36.9
4th most deprived	32.7	34.6	31.9	31.9	31.2	30.0	30.3
Least deprived 5th local authorities	26.6	27.9	25.8	25.5	24.9	24.9	24.5

Note:
Rates per 1,000 females aged 15–17.
Sources:
ONS and TPU, 2005.

The causes of teenage pregnancy are complex. The table demonstrates the strong link to social deprivation. However, analysis shows that deprivation is not the only factor. Over and above deprivation, teenage pregnancy rates are influenced by factors such as educational attainment and rates of attendance at school. A full analysis of the causes of teenage pregnancy will be included in a strategy document setting out the next phase of the teenage pregnancy strategy, due to be published shortly.

Mr. McFadden: To ask the Secretary of State for Education and Skills how many teenage pregnancies there were in Wolverhampton in the latest period for which figures are available; and if she will make a statement. [56297]

Beverley Hughes *[holding answer 7 March 2006]*: In 2004, the under-18 conception rate for Wolverhampton was 60.8 per 1,000 young women aged 15–17 (290 conceptions), compared to a rate of 66.3 per 1,000 (307 conceptions) in 1998—the baseline year for the teenage pregnancy strategy. This represents an 8.3 per cent. fall in the under-18 conception rate in Wolverhampton, compared to an 11.1 per cent. fall in the rate in England over the same period.

The Teenage Pregnancy Strategy is making steady progress, with both under-18 and under-16 conception rates now at their lowest levels since the mid-1980s. However, we need to accelerate progress to achieve the challenging PSA target to halve the under-18 conception rate by 2010. We will shortly be publishing a strategy document setting out our plans for improving performance during the next phase of the strategy.

WORK AND PENSIONS

Attendance Allowance

Mr. Jenkin: To ask the Secretary of State for Work and Pensions what recent estimate he has made of the average period of time between a claim for attendance allowance being approved and the first payment being received by the claimant. [57148]

Mrs. McGuire: The administration of attendance allowance is a matter for the chief executive of the disability and carers service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran:

You asked the Secretary of State for Work and Pensions, what estimate he has made of the average period of time between a claim for attendance allowance being approved and the first payment being received by the claimant.

The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

The first payment made following an award of attendance allowance will usually be a payment of arrears and this takes up to 7 days to reach the customer's account, if benefit is paid into a bank/ building society or Post Office account. If the seventh day is a Saturday or a Sunday, payment will be credited into the account the Friday before.

There are still a small minority of cases where payments are made by cheques. These cheques are posted by first class mail to the customer the day after the payments are authorised, having been printed over night.

As at February 2006, 98.4% of attendance allowance payments are made into an account with only 1.6% paid by cheque.

In the case of forward dated awards of attendance allowance, the first payment will be from when entitlement begins.

I hope this is helpful.

Benefit Fraud

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions what collaborative projects his Department has undertaken with the Merseyside Police Authority to combat fraudulent activities in relation to benefits; and if he will make a statement. [56995]

Mr. Plaskitt: I refer my hon. Friend to the written answer I gave her on 1 February 2006, *Official Report*, column 597W.

Benefits (Torfaen)

Mr. Paul Murphy: To ask the Secretary of State for Work and Pensions how many people in the Torfaen constituency have claimed *(a)* incapacity benefit, *(b)* jobseeker's allowance and *(c)* income support in each year since 1997. [55826]

Mr. Plaskitt: Information is not available in the format requested. The available information is in the tables.

Incapacity benefit (IB) and severe disablement allowance (SDA) claimants in the Torfaen parliamentary constituency

As at August each year:	*Number*
1997	7,300
1998	7,100
1999	7,000
2000	7,000
2001	7,000
2002	7,000
2003	6,800
2004	6,500
2005	6,400

Notes:

1. The parliamentary constituency figures for the years 1997 to 1998 have been produced using the 5 per cent. data and have been rated up proportionally using the Great Britain WPLS 100 per cent. IB/SDA totals.
2. Figures are rounded to the nearest hundred.
3. 'Claimant' figures include all incapacity benefit (IB) and severe disablement allowance, including IB credits only cases.

Source:

DWP Information Directorate, 5 per cent. samples from 1997 to 1998 and Work and Pensions Longitudinal Study 100 per cent. data thereafter.

Income support (IS) and jobseeker's allowance (JSA) claimants in the Torfaen parliamentary constituency

As at August each year:	*Jobseeker's allowance*	*Income support*
1997	2,159	4,500
1998	1,956	4,400
1999	1,671	4,400
2000	1,477	4,500
2001	1,334	4,600
2002	1,308	4,500
2003	1,297	4,300
2004	998	4,200
2005	1,053	3,900

Notes:

1. Jobseeker's allowance figures are unrounded, income support figures have been rounded to the nearest hundred.
2. To allow for meaningful comparison across the time series, income support figures do not include pensioners; pensioner's claims were transferred to pension credit in October 2003.
3. JSA figures are not seasonally adjusted.
4. IS figures for August 1999 to August 2005 have been taken from 100 per cent. Work and Pensions Longitudinal Study, figures for August 1997 to August 1998 have been uprated using 5 per cent. case loads. JSA figures have been taken from the 100 per cent. unemployment claimant count using NOMIS.

Sources:

DWP Work and Pensions Longitudinal Study (WPLS), Information Directorate, 5 per cent. samples and count of unemployment-related benefits, Jobcentre Plus computer systems (including clerically held cases).

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) how many Child Support Agency cases have been transferred from the old scheme to the new scheme in each month since March 2003; and how many old scheme cases remain to be transferred; and if he will make a statement; [21442]

(2) what the total backlog of Child Support Agency cases operating under the old scheme of calculation which were due to transfer to the new scheme, but where the transfer had not yet taken place, has been in each month since March 2003. [21854]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many Child Support Agency cases have been transferred from the old scheme to the new scheme in each month since March 2003; and how many old scheme cases remain to be transferred; and if he will make a statement.

In addition, you asked what is the total backlog of all Child Support Agency cases operating under the old scheme of calculation which are due to transfer to the new scheme but where the transfer has not yet taken place for each month since March 2003.

To date, management information in this area has been limited, an issue which, as an Agency we are now seeking to address. It is not therefore possible to provide a time series for migration, but the overall number of cases that have been transferred from the old scheme to the new scheme: which, as at 31 December stood at around 36,000. This figure is currently a best estimate, and may therefore be subject to change in the future.

We hope to be able to provide a robust time-series of both this information and also information on those cases awaiting early conversion as a result of links to old scheme cases in the next few months. As soon as this is available, it will be published in the Agency's Quarterly Summary Statistics (QSS), a copy of the latest edition of which is available in the House Library.

In respect of those old scheme cases remaining to be transferred, the old scheme caseload stood at 930,000 as at the end of December 2005.

I hope you find this helpful.

Disability Allowance (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions how many young people have been registered for disability allowance in Peterborough constituency in each year since 1997. [55588]

Mrs. McGuire: The administration of disability living allowance is a matter for the chief executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran, dated 9 March 2006:

You asked the Secretary of State for Work and Pensions, how many young people have been registered for disability allowance in Peterborough constituency in each year since 1997.

The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

The information requested is in the following table.

Claimants of disability living allowance under age 16 as at August each year from 1997 to 2005 in the parliamentary constituency of Peterborough

Thousand

	All entitled cases
2005	0.6
2004	0.6
2003	0.6
2002	0.6
2001	0.6
2000	0.5
1999	0.5
1998	0.4
1997	0.4

Definitions and conventions: "-" nil or negligible; "." not applicable; caseload figures are rounded to the nearest hundred. Totals may not sum due to rounding.

Notes:

1. Totals shows the number of people with entitlement to DLA, including those where the payment has been suspended, for example if they are in hospital.
2. Parliamentary constituencies are allocated using the relevant ONS postcode directory.
3. Figures are as at August of each year.

Source:

DWP Information Directorate: Work and Pensions Longitudinal Study for totals and 5 per cent. samples for detail/long time series.

I hope this is helpful.

Housing Benefits

Mr. Hancock: To ask the Secretary of State for Work and Pensions (1) pursuant to the answer of 27 February 2006, *Official Report*, columns 244–46W, what the percentage changes in numbers of housing benefit claimants were; and what the cost to the Exchequer was in each local authority in England and Wales in each of the last three years; [56234]

(2) how many claimants of housing benefit there were in each local authority in England and Wales in the last three years for which figures are available; and what total amount was paid in each case. [56333]

Mr. Plaskitt: The information is not available in the format requested; the available information on claimant numbers, percentage increases and benefit expenditure has been placed in the Library.

Mr. Hancock: To ask the Secretary of State for Work and Pensions pursuant to the answer of 27 February 2006, *Official Report*, columns 244–46W, what assessment he has made of the reasons for the increases in the number of housing benefit claimants in Hampshire. [56235]

Mr. Plaskitt: The information is not available. However, we want to ensure that people get the money they are entitled to. For example, people claiming pension credit can access housing benefit and council tax benefit at the same time via the Pension Service: one phone call, one number, three benefits.

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will estimate the cost of changing the housing benefit taper disregard for earned income only to *(a)* 30 per cent. and *(b)* 40 per cent. [56287]

Mr. Plaskitt: The estimated cost of changing the housing benefit taper from 65 per cent. to 30 per cent. for earned income, and keeping it at 65 per cent. for all other income, is £1,050 million per annum.

The estimated cost of changing the housing benefit taper from 65 per cent. to 40 per cent. for earned income, and keeping it at 65 per cent. for all other income, is £550 million per annum.

Notes:

1. The estimate is rounded to the nearest £50 million and is for Great Britain.
2. Earned income consists of income from earnings only, and excludes occupational pensions. For a couple, their earned income is their combined earnings.
3. This impact is estimated using the Department's Policy Simulation Model, which is based on data from the 2003–04 Family Resources Survey, up-rated to 2005–06 prices, benefit rates and earnings levels.
4. Results are subject to sampling and reporting errors and estimation assumptions, and are therefore indicative only. No behavioural changes are assumed.

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will estimate the cost of changing the council tax benefit income disregard for earned income only to 10 per cent. [56288]

Mr. Plaskitt: The cost of changing the council tax benefit taper from 20 per cent. to 10 per cent. for earned income, and keeping it at 20 per cent. for all other income, is estimated to be £290 million per annum.

Notes:

1. The estimate is rounded to the nearest £10 million and is for Great Britain.
2. Earned income consists of income from earnings only, and excludes occupational pensions. For a couple, their earned income is their combined earnings.
3. This impact is estimated using the Department's policy simulation model, which is based on data from the 2003–04 Family Resources Survey, up-rated to 2005–06 prices, benefit rates and earnings levels.
4. Results are subject to sampling and reporting errors and estimation assumptions, and are therefore indicative only. No behavioural changes are assumed.

Incapacity Benefit

Mr. Ruffley: To ask the Secretary of State for Work and Pensions how many people living within *(a)* St. Edmundsbury borough council, *(b)* Mid Suffolk district council and *(c)* the constituency of Bury St. Edmunds were in receipt of incapacity benefit in each of the last 10 years. [42763]

Mrs. McGuire: Information broken down by parliamentary constituency is not available prior to 1997. The available information is in the following table.

Incapacity benefit and severe disablement allowance claimants in St. Edmundsbury borough council, Mid Suffolk district council and the Bury St. Edmunds parliamentary constituency areas

May	*St. Edmundsbury borough council*	*Mid Suffolk district council*	*Bury St. Edmunds parliamentary constituency*
1995	2,000	2,000	..
1996	2,200	2,000	..
1997	2,200	2,100	2,200
1998	2,200	2,100	2,100
1999	2,500	2,200	2,400
2000	2,600	2,000	2,400
2001	2,700	2,000	2,500

Incapacity benefit and severe disablement allowance claimants in St. Edmundsbury borough council, Mid Suffolk district council and the Bury St. Edmunds parliamentary constituency areas

May	St. Edmundsbury borough council	Mid Suffolk district council	Bury St. Edmunds parliamentary constituency
2002	2,700	2,000	2,600
2003	2,700	2,000	2,500
2004	2,700	2,100	2,600
2005	2,700	2,100	2,600

Notes:
1. The local authority figures from 1995 to 1999 and the parliamentary constituency figures for the years 1997 to 1999 have been produced using the 5 per cent. data and have been rated up proportionally using the Great Britain WPLS 100 per cent. IB/SDA totals.
2. Figures are rounded to the nearest hundred.
3. Summed figures for St. Edmundsbury council and Mid Suffolk council do not represent total figures for Bury St. Edmunds parliamentary constituency.
4. 'Claimant' figures include all incapacity benefit (IB) and severe disability allowance claimants including IB credits only cases.

Source:
DWP Information Directorate, 5 per cent. Samples from 1995 to 1999 and Work and Pensions Longitudinal Study 100 per cent. data thereafter.

Justine Greening: To ask the Secretary of State for Work and Pensions how many incapacity benefit claimants in the borough of Wandsworth have been receiving benefit for five years or more; and if he will make a statement. [57207]

Mrs. McGuire: As at August 2005 there were 4,900 claimants of incapacity benefit or severe disablement allowance in the London borough of Wandsworth who had been claiming for five years or more.

Justine Greening: To ask the Secretary of State for Work and Pensions how many people in Putney constituency were receiving incapacity benefit in *(a)* 2001–02, *(b)* 2002–03, *(c)* 2003–04 and *(d)* 2004–05; and if he will make a statement. [57208]

Mrs. McGuire: The available information on the number of people claiming incapacity benefit and severe disablement allowance is in the table.

Incapacity benefit and severe disablement allowance claimants in the Putney parliamentary constituency

As at August each year:	Number
2001	2,700
2002	2,700
2003	2,800
2004	2,900
2005	2,900

Notes:
1. Figures are shown rounded to the nearest hundred.
2. 'Claimant' figures include all incapacity benefit (IB) and severe disablement allowance cases, including IB credits only cases.

Source:
DWP Information Directorate, Work and Pensions Longitudinal Study 100 per cent. data.

Justine Greening: To ask the Secretary of State for Work and Pensions how many people in Putney constituency aged *(a)* 20 to 25, *(b)* 26 to 30, *(c)* 31 to 35, *(d)* 36 to 40, *(e)* 41 to 45, *(f)* 46 to 50, *(g)* 51 to 55, *(h)* 56 to 60 and *(i)* 61 to 65 years are in receipt of incapacity benefit; and if he will make a statement. [57209]

Mrs. McGuire: The available information on the number of people claiming incapacity benefit and severe disablement allowance is in the table.

Incapacity benefit and severe disablement allowance claimants by age in the Putney parliamentary constituency: August 2005

	Number
All ages	2,900

Pensions

John Penrose: To ask the Secretary of State for Work and Pensions what assessment he has made of whether the period between publication of final versions of the *(a)* Occupational Pensions Schemes (Modification of Subsisting Rights) Regulations and *(b)* Occupational and Personal Pension Schemes (Miscellaneous Amendments) (Regulations) was compatible with HM Revenue and Custom's stated objective of delaying the implementation of the simplified pension tax regime until April to allow employers and providers sufficient time to implement fully the benefits of simplification. [57076]

Mr. Timms: The Government do their best to ensure that regulations are laid in sufficient time. In the case of the Modification of Subsisting Rights Regulations, we have been working very closely with pension industry lawyers to ensure that the regulations provide the necessary flexibility that the industry itself has asked for. This means that we have had to strike a balance between ensuring that the regulations are effective and making sure that they are laid as early as possible.

In the case of the Miscellaneous Amendments Regulations, they make minor and technical amendments to correct errors or omissions in earlier legislation, and therefore clarify matters for industry. They do not introduce new policies.

Public Information

Mr. Gale: To ask the Secretary of State for Work and Pensions how much was spent on his Department's public relations and information services in each of the last five years for which figures are available. [48951]

Mrs. McGuire: The Department for Work and Pensions was formed in June 2001 from the Department of Social Security and parts of the former Department for Education and Employment including the Employment Service. Total figures are given in the following table.

£000

Financial year	*Public relations*[1]	*Information services*[2]
2004–05	1,435	11,749
2003–04	1,412	2,553
2002–03	689	1,007
2001–02	59	1,588
2000–01	—	1,237

[1] Figures for public relations activity relate to promotion of departmental initiatives such as age positive, new deal, and disability discrimination awareness. The figures do not include the costs of advertising campaigns or running costs of the Department's press office.

[2] Information services include the costs of websites and telephone lines directly related to raising awareness/encouraging action on departmental initiatives with the general public and other specific targeted groups. The bulk of the increased costs in 2003–04 and 2004–05 are accounted for by increased expenditure on the development of online services delivered through the Department's websites.

Note:
DSS/DFEE costs.

TRADE AND INDUSTRY

Arms Export Licences

Adam Price: To ask the Secretary of State for Trade and Industry what arms export licences to Iraq have been awarded to *(a)* Helston Gunsmiths of Truro and *(b)* Super Vision International Ltd since the beginning of 2004. [57262]

Malcolm Wicks: Information on the Government's individual export licensing decisions is commercially confidential and I am therefore neither able to confirm nor deny whether Helston Gunsmiths of Truro or Super Vision International Ltd have been granted any export licences for Iraq since January 2004.

BAE Systems

Andrew George: To ask the Secretary of State for Trade and Industry what assessment he has made of the activities of BAE Systems and its subsidiaries in respect of the export of military equipment and support systems to Uganda. [56169]

Malcolm Wicks *[holding answer 7 March 2006]:* None. Issues relating to the alleged export in question are a matter for the South African Government as the exports were made from there, not from the UK.

Andrew George: To ask the Secretary of State for Trade and Industry what export credits guarantees have been awarded to BAE Systems and its subsidiaries for each of the past five years for which records are available. [56170]

Ian Pearson *[holding answer 7 March 2006]:* Guarantees have been issued to BAE Systems and its subsidiaries in the last five years for the Al Yamamah contracts in Saudi Arabia. In addition in 2003 guarantees were issued for contracts relating to frigate refurbishment and boarder surveillance vehicles in Romania. One other cause was supported during this period but ECGD cannot provide information regarding it as disclosure would, or would be likely to prejudice the commercial position of BAE Systems or ECGD.

Biomass Capital Projects

Mr. Weir: To ask the Secretary of State for Trade and Industry what funds have been allocated for supporting biomass capital projects in *(a)* Scotland, *(b)* England, *(c)* Wales and *(d)* Northern Ireland in each of the last five years; how many projects which have had their applications accepted have proceeded in each case; and how many applications were rejected. [56888]

Malcolm Wicks *[holding answer 8 March 2006]:* Funds were allocated following two rounds of the Bio-energy Capital Grants Scheme in 2002. No further allocations have been made since from this scheme other than minor adjustments.

(a) Scotland

Project	*Type*	*Funds (£)*	*Status*
Torren Energy Scottish Biomass Heat Clusters (Priority 3A)	Heat only smaller boilers	580,655	Ongoing. Became Buccleuch Bio-energy Scottish Biomass Heat
Torren Energy Scottish Biomass Heat Clusters (Priority 3B)	Heat only large commercial and industrial boilers	193,552	Ongoing. Became Buccleuch Bio-energy Scottish Biomass Heat
Biomass Fuelled Electricity Generating Station at Lockerbie	30 MW power plant, became 43 MW at later date	11.66 million	Ongoing. Later increased to £18 million
EPRL—Arjo Wiggins/The Corpach Biomass Plant	CHP	5.04 million	Ongoing
Total		17. 475 million	

(b) England

Project	*Type*	*Funds (£)*	*Status*
Ecoheat Clusters Development Project	Heat only	541,080	Ongoing
Biomass Heating Clusters in South West England and Lincolnshire	Heat only	500,000	Ongoing
Rural Energy East Midlands Wood Hearing Network	Heat only	879,060	Ongoing
Lignatherm—SE Regional Wood Heat Supply Company	Heat only	372,750	Ongoing
Industrial Ecoheat Development Project	Heat only. Large industrial boilers	335,940	Ongoing
Cliveden Community	Small CHP	195,000	Declined offer
Nottinghamshire Woodheat Project	Heat only. Large commercial boilers	197,600	Ongoing
Herefordshire Biomass Project	22 MW power plant	10.94 million	Declined offer
Wilton 10	30 MW power plant	10.40 million	Ongoing
6.88 MWe Biomass Combined Cycle Gasification CHP Plant	6.9 MWe/1.5 MW heat CHP	3.8 million	Declined offer
Eccleshall Biomass	2.2 MWe power plant	0.48 million	Ongoing
Charlton Energy	7 MWe / 7 MW heat CHP	2.0 million	Ongoing
Farmers Fuelling the Future	2 MWe CHP	0.96 million	Ongoing
Winkleigh Biomass	22 MWe advanced technology power plant	11.50 million	Ongoing
Total		43.1 million	

Note:
10 projects ongoing.
6 projects were ineligible.
2 were rejected.

(c) Wales

Project	*Type*	*Funds (£)*	*Status*
BI-1-14 The Wales Biocluster Project	Heat only	347,970	Ongoing
Port Talbot Bio-Energy Plant.	13.7 MWe Power plant	4.65 million	Ongoing
Total		5.0 million	

Note:
4 projects were ineligible.
1 was rejected.

(d) Northern Ireland

Project	*Type*	*Funds (£)*	*Status*
Biomass for Sustainable Development	Heat only	105,520	Declined
Fermanagh Schools	Heat only	96,000	Ongoing
Balcas	2 MWe/10 MW heat CHP	2.03 million	Ongoing
Total		2.204 million	

Note:
3 projects were ineligible.
0 were rejected.

Summary

England

14 projects allocated funding

3 declined the offer

8 were rejected

Total funding £43.1 million.

Scotland

4 projects allocated funding

0 have declined

0 rejected

Total funding £17.475 million

Wales

2 projects allocated funding

0 have declined

5 rejected

Total funding £5.0 million.

Northern Ireland

2 projects allocated funding

1 have declined

3 rejected

Total funding £2.2 million (£96,000 in 2005).

Business Support

Dr. Kumar: To ask the Secretary of State for Trade and Industry what support his Department gives to small local businesses in Middlesbrough South and East Cleveland constituency. [56128]

Alun Michael: The Department of Trade and Industry supports a comprehensive range of business support services in Middlesbrough South and East Cleveland. The first step in gaining access to these services is to contact the local Business Link which is part of a network providing services in every part of England. The Business Link network provides the information, advice and support that is required in order to start, to maintain and to grow a business and includes an award-winning national website.

Business Link exists:

To help anyone who is thinking of starting a business

To help small and medium-sized businesses to grow

To help businesses to deal with problems, challenges and opportunities.

The Business Link service is a crucial part of the Government's campaign to promote enterprise and to make the UK the best place in the world to start and grow a business.

The local Business Link's office is Business Link Tees Valley. During 2005–06, Business Link Tees Valley received £1,441,979 from the core Business Link allocation. Business Link Tees Valley has used this funding to lever in significant additional funds—current estimates suggest that Business Link Tees Valley will deliver support and solutions worth £7,714,528 in 2005–06.

Business Link provides access to the following DTI branded services:

Selective Finance for Investment in England

Knowledge Transfer Networks—a grant to bring together businesses, universities and others with an interest in technology applications.

Collaborative Grant for Research and Development—funding for collaborative R and D projects

Knowledge Transfer Partnerships—a grant to transfer and embed knowledge into a business from the UK knowledge base via a strategic project

Grant for Research and Development—a grant to carry out R and D.

Grant for Investigating an Innovative Idea—subsidised consultancy to help businesses to implement their ideas

Support to Implement Best Practice—a free diagnostic with subsidised consultancy

Small Firms Loan Guarantee—encouraging commercial lenders to provide loans to businesses lacking security

In addition to the aforementioned, the DTI provides additional specialist support such as:

Manufacturing Advisory Services—delivers hands-on advice and assistance from experts in a wide range of manufacturing disciplines.

UK Trade and Investment—supports companies in the UK doing business internationally and overseas enterprises seeking to set up or expand in the UK

In addition, the region's regional development agency, One NorthEast delivers its own business support in conjunction with Business Link Tees Valley. These are:

Resource Efficiency Business Support Service—aims to improve the resource efficiency of regional businesses, impacting on productivity and profitability through the efficient use of energy, water and materials. Delivered through brokerage, the service is supported with £1,650,000 of funding by One NorthEast to 2007–08.

Flexible Skills Fund—provides £650,000 per year funding for SMEs, matched by business contributions to support accredited or non-accredited training at level 3 or above, linked to a business objective.

Raising Skills in Tees Valley—providing a package of support for businesses and individuals aimed at driving demand for skills and generating sustainable economic growth in Tees Valley.

Tees Valley Area Tourism Partnership—currently in development. This provides a holistic package of support for tourism businesses in the region, encompassing business support in conjunction with Business Link branded services, product development and marketing support, and skills development. These significant catalysing activities will stimulate the tourism and hospitality sector in Tees Valley, generating sustainable growth in a key sector for the North East.

Businesses and individuals in the Middlesbrough South and East Cleveland are benefiting from Business Link's support as the recent performance demonstrates:

	Start-ups	*Established businesses*
2003–04	73	227
2004–05	130	268
2005-present (February)	183	331

In addition, businesses and individuals in Middlesbrough South and East Cleveland have benefited from support, resulting in:

1,097 jobs created or safeguarded

866 businesses supported or advised

7,423 people assisted in their skills development in Tees Valley since April 2005 as a result of sub-regional Single Programme investment.

Throughout the region, an additional:

11,520 jobs have been created or safeguarded

10,089 businesses supported or advised

55,043 individuals assisted in their skills development since April 2005

As from September 2005, Business Link Tees Valley have spent £154,000 on providing 38 businesses with skills development training.

Business Link Tees Valley also provides a Workforce Development events entitled 'Better People, Better Business' which attracted 41 attendees in February 2005 and 43 attendees in January 2006.

Company Law Reform Bill

Mrs. Iris Robinson: To ask the Secretary of State for Trade and Industry whether the Government intends to bring forward amendments to the Company Law Reform Bill to make companies accountable for their impact on *(a)* workers, *(b)* communities and *(c)* the environment. [55850]

Alun Michael: The Company Law Reform Bill is part of a wider programme of Government and market- led reform to support enterprise, encourage investment and promote long-term performance in order to ensure that Britain remains one of the best places in the world to set up and run a business.

A key part of the Bill is the statutory statement of directors' duties. This will provide greater clarity on what is expected of directors. It will also recognise in statute that business prosperity and responsible business behaviour are two sides of the same coin: directors will be required to promote the success of the company in the collective best interests of shareholders, having regard to wider factors such as the interests of employees, the community and the environment. This will help directors to understand that they need to look beyond

the short-term financial bottom line, but company law is not the right vehicle for addressing employment, community or environmental issues.

Consolidated Resource Accounts

Mike Penning: To ask the Secretary of State for Trade and Industry what the nature was of the cases identified in the accountability notes on page 88 of his Consolidated Resource Accounts 2004–05; and if he will make a statement. [52576]

Alan Johnson: The nature of the cases identified on page 88 of the resource accounts are as follows:

Losses

These relate to:

1. Amounts billed to customers, overpayments or repayable grants that have been categorised as no longer collectable, usually due to insolvency or excessive costs which would be incurred in pursuing further, and thus written off.

They are broken down as follows:

(a) Amounts billed to customers for services—six cases in total, amounting to £2,261,655.24

(b) Overpayments—eight cases in total, amounting to £89.00

(c) Repayable grants—22 cases in total, amounting to £382,526.95

2. Stock losses and theft.

10 cases in total, amounting to £2,785.05

Special Payments

These are broken down as follows:

(a) Six payments of compensation paid by ACAS in relation to the termination of their employment, totalling £56,000. Further details can be found at page 88 of the ACAS Annual Report 2004–05 (http://www.acas.org.uk/media/pdf/0/0/Acas Annual Report04-05_1.pdf).

(b) Three payments to ex-members of DTI staff following claims to the Civil Service Appeals Board, amounting to £33,487.30.

(c) One payment of ex-gratia compensation to a potential supplier whose application was not properly considered, amounting to £5,000.

(d) Miscellaneous payments to DTI staff for damage to property, personal injury and miscalculations of entitlement amounting to £78,274.53.

Debt Management

Mr. Bone: To ask the Secretary of State for Trade and Industry what funding the Government provide to advice agencies for debt management programmes and support; and if he will make a statement. [57240]

Mr. Sutcliffe: Free, impartial debt advice helps consumers regain control of their finances, staves off over-indebtedness and improves consumers' financial capability. The Government are working closely with the sector to increase capacity and improve co-ordination among advice agencies, with a particular focus on ensuring that financially excluded and vulnerable consumers are able to access timely and appropriate advice.

DTI administers the £45 million Face-To-Face Debt Advice Project, funded through the Financial Inclusion Fund. Bids by advice agencies are currently being evaluated with the aim of announcing successful organisations in April. DTI also contributes £1 million per annum to National Debtline and has supported the development of the Debt Advice Helpline (pilot launched in February 2006). Other Government Departments also provide funding for debt advice, for example the Legal Services Commission is administering the Financial Inclusion Fund £6 million project piloting debt advice outreach approaches.

Departmental Staff

Dr. Cable: To ask the Secretary of State for Trade and Industry how many people were employed by the *(a)* Postal Services Commission, *(b)* Office of Fair Trading, *(c)* Insolvency Service, *(d)* Patent Office Agency, *(e)* Companies House, *(f)* Advisory, Conciliation and Arbitration Service, *(g)* Office of Gas and Electricity Market, *(h)* National Weights and Measures Laboratory, *(i)* Department of Trade and Industry, *(j)* Small Business Service and *(k)* Employment Tribunal Service in each region in each of the last 12 months for which data are available; and how many and what percentage of posts were vacant in each month. [51165]

Alan Johnson: The information is as follows.

Employment:

The employment figures requested are published in Civil Service Statistics. Table A covers staff numbers both on a F.T.E. (full time equivalent) and a headcount basis. Civil Service Statistics are available in the Library and at the following address on the Cabinet Office Statistics website:

http://www.civilservice.gov.uk/management/statistics/index.asp.

Vacancies:

(a) Number of vacancies in Postcomm covering the period February 2005 to January 2006

Month	*Number of vacancies*	*Percentage*
February 2005	4	7.27
March 2005	4	7.01
April 2005	2	3.38
May 2005	2	3.44
June 205	3	4.83
July 2005	6	9.83
August 2005	3	5.08
September 2005	5	8.33
October 2005	5	7.81
November 2005	9	14.28
December 2005	9	14.06
January 2006	9	14.06

Note:
The Postal Services Commission is based in one office in London.

(b) Number of vacancies in National Weights and Measures Laboratory covering the period March 2005 to February 2006

Month	*Number of vacancies*	*Percentage*
March 2005	0	0
April 2005	0	0
May 2005	0	0
June 205	0	0
July 2005	0	0
August 2005	0	0
September 2005	0	0
October 2005	0	0
November 2005	0	0

(h) Number of vacancies in National Weights and Measures Laboratory covering the period March 2005 to February 2006

Month	Number of vacancies	Percentage
December 2005	0	0
January 2006	0.6	1.27
February 2006	0.6	1.27

Note:
The National Weights and Measures Laboratory are based in one office in London

(i) Number of vacancies in Department of Trade and Industry covering the period March 2005 to February 2006

Month	Number of vacancies	Percentage
March 2005	35	1.0
April 2005	[1]—	[1]—
May 2005	9	0.27
June 2005	30.8	0.94
July 2005	35.5	1.09
August 2005	30	0.92
September 2005	41.1	1.48
October 2005	57	1.75
November 2005	61	1.87
December 2005	50	1.54
January 2006	24	0.75
February 2006	29	0.91

[1] No figures available.

Note:
Vacancy figures are only collated for the Department of Trade and Industry as a whole. A regional analysis of vacancies could be obtained only at disproportionate costs.

(j) Number of vacancies in Small Business Service covering the period March 2005 to February 2006

Month	Number of vacancies	Percentage
March 2005	6	2.04
April 2005	[1]—	[1]—
May 2005	0	0
June 2005	7	2.92
July 2005	5	2.08
August 2005	3	1.27
September 2005	10	3.51
October 2005	5	1.77
November 2005	4	1.45
December 2005	5	2.38
January 2006	2	0.93
February 2006	2	1

[1] No figures available.

Note:
Vacancy figures are only collated for the Small Business Service as a whole. A regional analysis of vacancies could be obtained only at disproportionate cost.

Vacancy information on the remaining bodies is not held centrally and could be obtained only at disproportionate cost.

Energy

Dr. Kumar: To ask the Secretary of State for Trade and Industry what assessment he has made of the potential of *(a)* clean coal technologies, *(b)* renewables, *(c)* nuclear and *(d)* other forms of energy to contribute to the Government's plans to generate cleaner energy. [57048]

Malcolm Wicks: The Government recognise the potential of clean coal, renewables, nuclear and other low carbon technologies to contribute to the drive to generate cleaner energy.

The Government are currently carrying out an energy review, which will look at the potential role of a variety of low carbon technologies in helping the UK meet its medium and long term energy policy goals. However, the Government have made clear that there is no one single solution to the challenge of climate change and meeting our other Energy White Paper goals.

Fuel Prices

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what estimate he has made of the likely average household fuel bill in December 2006. [56707]

Malcolm Wicks: Following the price increases announced by some energy suppliers in February 2006, energywatch have estimated the typical standard credit energy bill will be £527 for gas and £342 for electricity, giving a total bill of £869.

Actual December 2006 bills will be affected by a number of factors, including the number of customers switching supplier and/or payment methods and future tariff changes from the energy suppliers.

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what discussions he has had with the EU's Competition Commissioner on changes in fuel prices and the competitiveness of energy suppliers in the UK. [56708]

Malcolm Wicks: My right hon. Friend's the Secretary of State for Trade and Industry and the Chancellor of the Exchequer wrote to Neelie Kroes, the European Competition Commissioner for Competition in December to support a request from Sir John Mogg, head of OFGEM, for an immediate investigation into possible links between the lack of competition in EU energy markets and recent price volatility in the UK gas market.

Commissioner Kroes agreed to undertake the investigation and we expect the results very soon.

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact on consumers of rising fuel prices. [56709]

Malcolm Wicks: Despite the energy price increases that have taken place since 2004, UK gas and electricity prices remain below the median price of the EU15 member states. Expenditure stood at an average level of around 3 per cent. of household income in 2004–05, the most recent date available. However, it is important that all consumers ensure that, while properly heating their homes, they minimise their energy expenditure. They can do this by choosing the most appropriate supplier and tariff, paying by the cheapest appropriate payment method (usually direct debit), and taking energy efficiency measures.

Rising energy prices have a disproportionately large effect on low-income customers. Analysis of overall effects of changes in fuel prices and incomes, excluding consideration of energy efficiency improvements, suggest that the total number of vulnerable households in fuel poverty is likely to rise by around 1 million households in England between 2003 and 2006. Our fuel poverty programmes help the most vulnerable in society to lower their energy bills by providing heating and insulation

measures and Benefit Entitlement Checks. Government has made available an additional £300 million over 2005–08 to supplement these programmes in the light of rising energy prices. The industry's Home Heat Helpline also provides advice and assistance.

Hearing Loss Claims

John Mann: To ask the Secretary of State for Trade and Industry how many costs payments have been refused for cases by *(a)* Berefords solicitors, *(b)* Bakewell solicitors, *(c)* Heptonstall solicitors, *(d)* Brown and Co. solicitors, *(e)* Ollerenshaw solicitors and *(f)* UDM/Vendside for noise-induced hearing loss claims to his Department due to a breach of section 4(2)c of the Conditional Fee Agreement Regulations 2000. [54999]

Malcolm Wicks: In the case of the UDM/Vendside, there is no conditional fee agreement and no dispute over costs. For the other named solicitors, this information is not readily available. Miners' hearing loss claims are not schemed so solicitors' costs for each claim are dealt with on their own merits. Concerns relating to a breach of regulation 4 of the conditional fee regulations would be raised as part of the negotiations on the appropriate level of costs for any given claim.

Media Training

Mr. Laws: To ask the Secretary of State for Trade and Industry how much has been spent by his Department on media training in each year since 1997–98. [55221]

Alan Johnson: Records held centrally do not distinguish between media training and other forms of training undertaken by DTI staff and the requested information could be obtained only at disproportionate cost.

Military Equipment (Export Controls)

Andrew George: To ask the Secretary of State for Trade and Industry what export control the Government places upon British companies with overseas subsidiaries in relation to *(a)* military equipment, *(b)* components for military equipment and *(c)* all other goods and services supplied by their subsidiary. [56747]

Malcolm Wicks: UK export controls apply to all exports from the UK of all goods and technologies on the UK Control List regardless of whether the exporter has a subsidiary outside the UK. UK export controls do not apply to exports made from countries outside the UK, whether by UK subsidiaries or otherwise. UK trade controls apply to the arranging of transfers of military goods between third countries where the transfer is arranged from the UK. In certain cases these controls may apply to transfers arranged by UK persons wherever they are based (for full details see the guidance on the Export Control Organisation website http://www.dti.gov.uk/export.control/publications.htm.

Andrew George: To ask the Secretary of State for Trade and Industry what steps his Department takes to regulate the export of components from UK companies which are or could be used for military equipment supplied to a recipient to whom the UK has resolved not to export military equipment. [56550]

Malcolm Wicks: UK export controls apply to all exports from the UK of all goods and technologies on the UK Control List. The UK also controls the export to destinations subject to EU, OSCE or UN embargo of dual-use items not otherwise subject to control where the exporter has been informed that they are or may be intended for military end-use.

Ministerial Activities

Sarah Teather: To ask the Secretary of State for Trade and Industry how many *(a)* public speeches and *(b)* official visits he has made since 5 May 2005; and how many letters he sent in this period. [55701]

Alan Johnson: I made *(a)* 44 public speeches, *(b)* 17 official visits and *(c)* sent 2,671 letters in this period.

National Grid (Orkney and Shetland)

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what plans he has to improve the National Grid connections to Orkney and Shetland to enable the export of energy from those locations; and what assessment he has made of the cost of such improvements. [57199]

Malcolm Wicks: It is for National Grid to decide what investments are needed to improve the electricity transmission networks in line with their licence conditions. As a natural monopoly, this is done, with agreement from Ofgem, as part of their regulated price control. Ofgem are currently consulting on National Grid's next price control which will commence in 2007.

OECD Guidelines

Andrew George: To ask the Secretary of State for Trade and Industry what steps he has taken to ensure that *(a)* UK owned and *(b)* UK based transnational corporations adhere to the Organisation for Economic Co-operation and Development Guidelines for Multinational Enterprises. [56171]

Ian Pearson *[holding answer 7 March 2006]:* The Government are committed to the effective promotion and implementation of the OECD Guidelines for Multinational Enterprises. The UK's National Contact Point (NCP) recently met stakeholders, including business representatives and UK companies, as part of the consultation on improving promotion and implementation. The Government's response is due shortly.

Potash Industry

Dr. Kumar: To ask the Secretary of State for Trade and Industry what support his Department gives to promote the European potash industry. [56125]

Ian Pearson: The UK has supported the opening of an expiry review of the existing anti-dumping duties on potash. The purpose of the review is to determine whether the existing anti-dumping measures need to be extended. The review should be concluded by no later than July 2006 but in the meantime the existing measures stay in force. The Department and the

regional agencies continue to have an active dialogue with the only UK producer of potash on this and other issues.

Private Offices

Sarah Teather: To ask the Secretary of State for Trade and Industry what the cost of his private office was in the last year for which figures are available. [55731]

Alan Johnson: The cost of my private office for the financial year from 1 April 2004 to 31 March 2005 was £409,000.

Regional Development Agencies

Mr. Pickles: To ask the Secretary of State for Trade and Industry pursuant to the answer of 20 July 2005, *Official Report*, column 1744W, to the hon. Member for Meriden (Mrs. Spelman), on regional development agencies, what the allocated funding was of each office outside the UK for 2005–06; and where each office was located. [56054]

Alun Michael: I refer the hon. Member to the reply given on 21 November 2005, *Official Report*, column 1550W.

Shoe Imports (China/Vietnam)

Mr. Drew: To ask the Secretary of State for Trade and Industry what the Government's position is on tariffs being imposed by the EU on shoes imported from China and Vietnam. [57170]

Ian Pearson: I am examining carefully a proposal by the European Commission to impose anti-dumping duties on footwear with uppers of leather originating in China and Vietnam. I am also consulting a wide range of UK interests, including retailers, importers and producers. Following the Commission's explanation of its proposal and discussion with member states at the 9 March meeting of the official-level Anti-Dumping Committee, the UK will present its position at the Anti-Dumping Committee meeting scheduled for 16 March.

Thames Gateway

Sarah Teather: To ask the Secretary of State for Trade and Industry what progress has been made in developing a Thames Gateway economic statement. [54703]

Yvette Cooper: I have been asked to reply.

The Office of the Deputy Prime Minister has been working with the three Thames Gateway Regional Development Agencies, the Thames Gateway Sub-Regional Partnerships and the Learning and Skills Council on producing an economic statement for the Thames Gateway. An audit of economic development activity across the Gateway was presented to the Thames Gateway Strategic Partnership in early February.

Later this year, the Office of the Deputy Prime Minister will publish a Strategic Framework for the Gateway, which will have at its core the economic rationale and vision for the Thames Gateway.

Working Time Directive

Mr. Bone: To ask the Secretary of State for Trade and Industry if he will make a statement on the effect of the EU working time directive on the retirement age. [57221]

Mr. Sutcliffe: The Government are not aware of any effect of the EU working time directive on retirement age.

NORTHERN IRELAND

Acute Hospitals

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what policy each acute hospital in Northern Ireland has regarding smoking within the precincts of their premises. [56353]

Mr. Woodward: Currently Trusts operate a variety of polices regarding smoking within the precincts of their premises as outlined in the following table.

All Trusts not currently operating smoke-free policies will be undertaking a review of their policies with the aim of bringing them into line with the smoke-free legislation, due to be introduced in April 2007.

Trust	*Current smoking policy*
Royal Group of Hospitals Trust	Smoking is permitted in a number of designated areas.
Belfast City Hospitals Trust	Smoking is forbidden within all Trust facilities.
Altnagelvin Hospital HSS Trust	Two designated smoking areas exist outside of the main building for patients who wish to smoke. One designated area within the buildings is used by staff, this area is away from patient and public areas.
Down Lisburn HSS Trust	Smoking is not permitted in any enclosed facilities except in exceptional circumstances.
Ulster Community and Hospitals HSS Trust	Smoking is prohibited in all areas of the Trust premises, grounds and Trust vehicles.
Craigavon Area Hospital Group HSS Trust	Smoking is not permitted in any Trust Building, including at entrances and exits or in any Trust vehicles.
Green Park HSS Trust	Smoking is currently permitted in a number of designated smoking rooms and within the grounds.
Newry and Mourne HSS Trust	Smoking is not permitted in any enclosed facilities except in exceptional circumstances.
Mater Infirmorum HSS Trust	Smoking is not permitted in any enclosed facilities except in exceptional circumstances.
Causeway HSS Trust	Smoking is not permitted in any enclosed facilities except in exceptional circumstances.
United Hospitals HSS Trust	Smoking is forbidden within all Trust facilities.
Sperrin Lakeland HSS Trust	Smoking is permitted in a number of designated areas.

Ballymena-Londonderry Rail Line

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many *(a)* accidents and *(b)* deaths and injuries resulting from them have occurred on the rail line between Ballymena and Londonderry in each of the last five years. [56166]

Mr. Woodward: Translink has advised that there have been a total of four accidents on the rail line between Ballymena and Londonderry over the five year period with details of fatalities and injuries as follows:

	Number of accidents	*Killed*	*Injured*
2005	0	0	0
2004[1]	3	3	0
2003	0	0	0
2002[2]	1	0	7
2001	0	0	0

[1] One person died when the car they were driving was struck at a level crossing (Woodstown Crossing); one person died (suicide) when they fell from a train door (Galdanagh Crossing, Killagan); one member of staff died when he fell from a moving train (Eglinton).
[2] One member of staff seriously injured and six passengers slightly injured when a train derailed after striking a boulder that had dislodged from an adjacent cliff face (Downhill).

Block Grant

Chris Ruane: To ask the Secretary of State for Northern Ireland what the block grant for Northern Ireland was in each of the last 30 years in real terms at today's prices; and what the percentage change was in each year. [55574]

Angela E. Smith: The first full year of block grant allocations for Northern Ireland was 2000–01. The figures, based on those taken from the audited Public Income and Expenditure Accounts, are shown in the table.

Financial year	*Block Grant*[1]	*Percentage increase*
2000–01	8,402,893,197	
2001–02	8,857,618,663	+5.41
2002–03	8,370,250,791	-5.50
2003–04	8,892,846,485	+6.24
2004–05	9,162,741,500	+3.03

[1] Stated in real terms using the GDP Deflator.

Car Ownership

Chris Ruane: To ask the Secretary of State for Northern Ireland what estimate he has made of the *(a)* number and *(b)* percentage of people who do not own a car in each ward in Northern Ireland. [55569]

Angela E. Smith: It is not possible to answer the question exactly as asked. The table giving the number of people who live in households that have no access to cars or vans in each electoral ward in Northern Ireland from the 2001 Census and the percentage of the household population they represent, has been placed in the Library.

Electricity Supply (Limavady)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland pursuant to the answer of 27 February 2006 to question 53489, on how many occasions payments have been made to consumers in the Carrowclare road area of Limavady in the last two years; and whether reasons have been established for the interruptions to electricity supply in that period. [56573]

Angela E. Smith: Northern Ireland Electricity (NIE) has advised that no payments have been made to consumers in the Carrowclare road area of Limavady as a result of interruptions to their electricity supply in the last two years, as none of these lasted for a continuous period of 24 hours.

Eight of the 16 interruptions to the electricity supply in the period were the result of birds striking an overhead electric line, and possibly also another four of the interruptions where NIE was unable to identify the cause. Of the remaining four interruptions, two were the result of third party damage, one involved planned work by NIE, and the other was the result of NIE equipment failure.

Emergency Calls

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many 999 callouts of ambulance personnel were found to be bogus in Northern Ireland during 2005. [55788]

Mr. Woodward: The Northern Ireland Ambulance Service does not use the term "bogus" in this context. However, the following table lists the instances during 2005 where an ambulance response was stopped at some point during the call or where no patient was transported.

Reason incident stopped	*Number of incidents*
Caller hung up without details	1,985
Hoax caller	4,301
No case at scene	739
Nothing found at scene	1,784
Patient absconded	210
Total	9,019

Emergency Services

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what percentage of ambulance emergency callouts from each main ambulance station in Northern Ireland during 2005 was accounted for by bogus telephone calls. [56356]

Mr. Woodward: The following table provides date for all Northern Ireland Ambulance Service locations from which A&E ambulances are sent to emergency calls. Data shown for control areas refer to incidents to which rapid response vehicles or officers' cars have responded.

A&E ambulance home station	*Total calls*	*Calls where ambulance recalled or no patient transported*	*Percentage*
Altnagelvin Ambulance Station	6,690	198	3
Antrim Ambulance Station	3,185	76	2
Ardoyne Ambulance Station	9,053	304	3
Armagh Ambulance Station	3,008	101	3
Ballycastle Ambulance Station	861	16	2
Ballymena Ambulance Station	4,456	95	2

A&E ambulance home station	Total calls	Calls where ambulance recalled or no patient transported	Percentage
Ballymoney Ambulance Station	1,716	42	2
Banbridge Ambulance Station	892	32	4
Bangor Ambulance Station	5,916	152	3
Broadway Ambulance Station	12,739	503	4
Carrickfergus Ambulance Station	1,828	35	2
Castlederg Ambulance Station	452	15	3
Coleraine Ambulance Station	3,335	78	2
Cookstown Ambulance Station	1,630	40	2
Craigavon Ambulance Station	5,326	157	3
Downpatrick Ambulance Station	3,277	80	2
Dungannon Ambulance Station	2,838	101	4
Eastern Control Area	1,689	52	3
Enniskillen Ambulance Station	2,495	74	3
Kilkeel Ambulance Station	765	32	4
Larne Ambulance Station	3,109	83	3
Limavady Ambulance Station	1,323	40	3
Lisburn Ambulance Station	4,693	146	3
Magherafelt Ambulance Station	1,765	38	2
Newcastle Ambulance Station	1,162	39	3
Newry Ambulance Station	3,821	147	4
Newtownards Ambulance Station	4,667	118	3
NIAS Headquarters	229	12	5
North Control Area	127	1	1
Omagh Ambulance Station	2,405	72	3
Purdysburn Ambulance Station	3,984	112	3
South Control Area	15	0	0
Strabane Ambulance Station	1,357	71	5
Templemore Avenue Belfast	5,556	129	2
West Control Area	37	2	5
Whiteabbey Ambulance Station	3,988	93	2
Total	110,389	3,286	3

Employment Statistics

Chris Ruane: To ask the Secretary of State for Northern Ireland how many and what percentage of people were involved in the social economy in each *(a)* ward, *(b)* county and *(c)* constituency in Northern Ireland in 2004–05. [55567]

Angela E. Smith: The Department of Enterprise, Trade and Investment (DETI) does not hold statistical information on the number of people in the NI social economy. However, as the Department with lead responsibility for developing a more integrated approach to the sector, DETI plans to undertake and publish the results of the first Biennial Survey of social economy enterprises in NI in 2006–07.

Chris Ruane: To ask the Secretary of State for Northern Ireland what the economic inactivity rates were for each ward in Northern Ireland in the latest period for which figures are available. [55572]

Angela E. Smith: The table giving the number of 16 to 74-year-olds who are economically inactive in each electoral ward in Northern Ireland from the 2001 Census and the percentage of the population they represent, has been placed in the Library.

In the 2001 Census a person was defined as economically inactive if (i) they were retired, a student (excludes those students who were working or in some other way were economically active), looking after a family or home, permanently sick or disabled, or (ii) if they were looking for work but were not available to start work within two weeks.

Energy Surveys

David Simpson: To ask the Secretary of State for Northern Ireland how much funding has been allocated to energy surveys and courses in Northern Ireland over the last four years; how much of this was spent on consultants based in *(a)* Northern Ireland and *(b)* Great Britain; and if he will use more Northern Ireland based consultants for such work. [56396]

Angela E. Smith: The Department of Enterprise, Trade and Investment (DETI) has over the past four years funded two strategic energy surveys valued at £133,840. None of this expenditure was spent on consultants based in Northern Ireland and £51,000 was spent on consultants based in Great Britain.

Spend on energy surveys and training courses for businesses in Northern Ireland is managed for the whole of the UK by the Carbon Trust. Information on the amount of spend split between Northern Ireland and Great Britain is not readily available.

In procuring consultancy, Carbon Trust select on the basis of having the skill sets and competency necessary to complete the assignment. The number of Northern Ireland based consultants that have registered for inclusion on the Carbon Trust list with the necessary skills and competency remains low.

Engagements

Sarah Teather: To ask the Secretary of State for Northern Ireland how many *(a)* public speeches and *(b)* official visits he has made since 5 May 2005; and how many letters he sent in this period. [55707]

Mr. Hain: The information sought can be provided only at disproportionate cost. I would however advise that the Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/peers correspondence. The report for 2004 was published on 6 April 2005, *Official Report, columns* 137–140WS). Reports for earlier years are available in the Library of the House. The report for 2005 will be published in due course.

Farm Subsidies

Mark Durkan: To ask the Secretary of State for Northern Ireland how many farmers in Foyle constituency have yet to receive their Integrated Admission and Control System (IACS) payment for 2005; and how many applications from farmers in the Foyle constituency who have applied for the Countryside Management Scheme are being held up because they have yet to receive their 2005 IACS payment. [55867]

Angela E. Smith: The Department of Agriculture and Rural Development does not hold details of subsidy payments on a constituency basis. To date 87 per cent. (36,267 claims) of interim payments under the 2005 Single Farm Payment Scheme have been processed. At this point 5,383 cases are outstanding. In general, IACS queries do not hold up the processing of Countryside Management Scheme applications.

Home Education

David Simpson: To ask the Secretary of State for Northern Ireland how many children in Northern Ireland have been educated at home in each of the last 10 years. [56399]

Angela E. Smith: The Department of Education does not collect the information requested.

The Education and Library Boards hold information about children being educated at home, which are made known to them. They do not hold all the information requested, however the following table gives details provided by them in relation to each of the last four years:

Board area	*2002–03*	*2003–04*	*2004–05*	*2005–06*
BELB	n/a	3	8	6
WELB	5	6	6	8
NEELB	48	54	43	54
SEELB	5	3	5	22
SELB	64	68	67	68
Total	122	134	129	158

n/a = not available.

The boards have advised that some children in 2005–06 may also be contained in figures for the previous years as they have been educated at home for some time.

InterTrade Ireland

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many of the executive staff of InterTradeIreland are based in *(a)* Northern Ireland and *(b)* the Republic of Ireland. [57090]

Angela E. Smith: InterTradeIreland currently employs 38 permanent staff. All are based in Northern Ireland.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the expenditure of InterTradeIreland is estimated to be for 2005–06; and what percentage is made up of *(a)* staff (i) salaries, (ii) expenses and (iii) pension costs and *(b)* other staff costs. [57091]

Angela E. Smith: The estimates of expenditure for 2006, InterTradeIreland's current operating year, are set out as follows.

		£ million	*Percentage*
	Total expenditure	10.219	100
(a)	*Staff*		
(i)	salaries	1.400	14
(ii)	expenses	0.045	0.5
(iii)	pension costs	0. 082	1
(b)	Other staff costs	0.095	1

InterTradeIreland

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many and what percentage of the executive staff of InterTradeIreland are identified as being from each category of religious background. [57089]

Angela E. Smith: At 1 March 2006, InterTradeIreland employed 38 permanent staff. The religious backgrounds of these staff have been identified as follows.

	Number	*Percentage*
Catholic	31	81
Protestant	6	16
Non-determined	1	3

Literacy

Chris Ruane: To ask the Secretary of State for Northern Ireland what the literacy levels were in each *(a)* ward, *(b)* constituency and *(c)* county in Northern Ireland in the latest year for which figures are available, listed in descending order. [55558]

Angela E. Smith: Information relating to adult literacy levels in Northern Ireland is not available at local Government district, parliamentary constituency or county level.

The International Adult Literacy Survey (IALS), which was conducted in 1996, indicated that the literacy levels of the adult population in Northern Ireland where Level 1 is the lowest level is as follows:

	Percentage
Level 1:	24
Level 2:	30
Level 3:	31
Level 4 to 5:	15

In response to the IALS report, the Department for Employment and Learning launched the essential skills for living strategy in October 2002 and has met its interim target of supporting 25,000 adults to improve their levels of literacy and numeracy by March 2005.

Local Councils (Discrimination)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many cases of discrimination on the grounds of *(a)* religious belief and *(b)* political opinion have been found against local councils in Northern Ireland in each of the last five years. [56678]

Angela E. Smith: Complaints of discrimination on the grounds of religious belief and political opinion are registered as the same jurisdiction. The number of cases of discrimination on the grounds of religious belief and political opinion which have been found against local councils in Northern Ireland in each of the last five years are as follows:

	Number of cases
2001	0
2002	1
2003	2
2004	1
2005	0

The decision on the 2004 case was subsequently overturned by the Court of Appeal.

Local Enterprise Centres

David Simpson: To ask the Secretary of State for Northern Ireland what criteria are used to determine where local enterprise centres are located; what mechanisms are in place to ensure that local enterprise centres are located proportionately between nationalist and unionist areas of Northern Ireland; and how many local enterprise centres are located in predominantly *(a)* unionist and *(b)* nationalist areas. [56400]

Angela E. Smith: Local Enterprise Agencies (LEAs) in Northern Ireland were developed under the Local Enterprise Programme which commenced in 1982 and was completed in the late 1990s. 32 agencies were created—one agency in each of the 26 local council areas in Northern Ireland, two in Londonderry, one on each bank of the River Foyle and six in Belfast, to be operated by a local group with cross-community representatives.

LEAs were not developed to specifically service nationalist or unionist communities but to support the entire community.

Mussenden Temple (Londonderry)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether the Northern Ireland Tourist Board plans to promote and market the historic Mussenden Temple site at Downhill, County Londonderry. [57741]

Angela E. Smith: The Northern Ireland Tourist Board (NITB) plans to promote and market the Mussenden Temple site at Downhill.

This will be achieved through the development and promotion of tourism in the context of the Tourism Strategic Framework for Action 2004–07 and the Causeway Coast and Glens Tourism Masterplan.

Currently the NITB is implementing recommendations from within the prioritized actions of the masterplan. A key recommendation is the implementation of the Causeway Coastal Route which has been identified as a primary promotional message/key motivator to attract visitors to Northern Ireland and specifically to retain them along the North Coast and wider region.

This touring route will direct visitors to the North Coast and offer them the opportunity to visit attractions such as the Mussenden Temple.

The Causeway Coastal Route has been included in all marketing initiatives for 2006.

Primary Schools

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many surplus places there are in primary schools in each parliamentary constituency in Northern Ireland. [57744]

Angela E. Smith: Based upon 2005 enrolments, there are an estimated 33,600 surplus places in primary schools throughout the parliamentary constituencies. The individual details are as follows.

Parliamentary constituency	*Number of surplus places*
Belfast East	2,050
Belfast North	3,500
Belfast South	2,400
Belfast West	3,450
East Londonderry	1,700
Foyle	2,150
Fermanagh/South Tyrone	2,100
East Antrim	1,300
Lagan Valley	1,650
Mid-Ulster	500
Newry and Armagh	1,700
North Antrim	2,200
North Down	1,550
South Antrim	1,850
South Down	1,250
Strangford	1,050
Upper Bann	1,600
West Tyrone	1,600
Total	33,600

Queen's Birthday

Anne Main: To ask the Secretary of State for Northern Ireland what plans his Department has to celebrate Her Majesty's 80th birthday; what advice he has issued to his Department's executive agencies on celebrations for the birthday; and if he will make a statement. [54186]

Mr. Hain: In Northern Ireland the Union flag will be hoisted to celebrate Her Majesty's 80th birthday on 21 April. The Secretary of State also intends to be present at national celebrations for Her Majesty's birthday.

Sports Council for Northern Ireland

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much funding the Sports Council for Northern Ireland has received for preparation for the next Olympic games. [52970]

Mr. Hanson: Under the Recreation and Youth Services Order (Northern Ireland) 1986 the Sports Council for Northern Ireland (SCNI) is statutorily responsible for the development of sport in Northern Ireland, including the distribution of public funding to sport. It receives both exchequer and lottery funding for this purpose. Among its programmes, it already has in place an Athlete Support programme which is designed to assist identified sportspeople to achieve greater success in targeted international competition, including the Olympic games. During 2005–06 the SCNI has so far committed £248,150 to athletes on the elite level of the Athlete Support programme. At present two individuals involved in sailing and two elite hockey squads are in receipt of funding from the SCNI in relation to preparations with the ultimate aim of competition in the next Olympic games. The total budget for the Athlete Support programme for the years 2006–07 and 2007–08 is £600,000 per annum.

Tourism

Mark Durkan: To ask the Secretary of State for Northern Ireland how much financial support was available to each regional tourism organisation in each of the last five years; how much of that support came from EU funds; from which EU funds it came; and

what the budgeted figures are for the 2006–07 financial year. [55863]

Angela E. Smith: The table shows the total financial support made available to the 5 Regional Tourism Organisations (RTOs) and Sperrins Tourism from funding administered by Government Departments over the past 5 years.

Funding for RTOs is not budgeted for within EU Programmes open for applications for financial support. Northern Ireland Tourist Board (NITB) has no plans to provide financial support to the RTOs in 2006–07, however a budget of 500,000 from core funds has been set to provide financial assistance to the four Regional Tourism Partnerships.

[2] EU Peace II 4.2b—The EU Programme for Peace and Reconciliation in Northern Ireland and the Border Region of Ireland—Priority 4—Outward and Forward Looking Region—Measure 2a—Enhancing the Region as a Tourism Destination
[3] EU BSP 1.3a—The EU Programme for Building Sustainable Prosperity—Priority 1—Economic Growth and Competitiveness—Measure 3a—Tourism Strategic Marketing
[4] EU Peace II 3.1—The EU Programme for Peace and Reconciliation in Northern Ireland and the Border Region of Ireland—Priority 3—Locally-based Regeneration and Development Strategies—Measure 1—Local Economic Initiatives for Developing the Social Economy (NI)
[5] EU Peace II 6.2a—The EU Programme for Peace and Reconciliation in Northern Ireland and the Border Region of Ireland—Priority 6—Technical Assistance—Measure 2a—Management, Monitoring and Evaluation of the Programme and Co-ordination with other Programmes.

Mark Durkan: To ask the Secretary of State for Northern Ireland what economic importance the Government attaches to tourism and the work of regional tourism organisations. [56349]

Angela E. Smith: The government attaches considerable importance to tourism, given its potential to make a significant contribution to the NI economy. This was recognised in the Government's Economic Vision document which highlights our commitment to enhance the appeal of Northern Ireland as an attractive tourism destination and a welcoming and accommodating place where people want to visit, live and work.

The existing regional tourism organisations have played an important role in promoting tourism in their areas. They are to be superseded by Regional Tourism

Partnerships with a broader role in line with the Northern Ireland Tourist Board's Strategic Framework for Action. Regional Tourism Partnerships are regarded as having a key role to play in the realisation of Northern Ireland's potential as a tourist destination.

Translink

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what steps Translink is taking to *(a)* reduce dependency in its bus fleet on diesel and *(b)* increase the use of cleaner fuels. [56677]

Mr. Woodward: I am told by Translink that all vehicles in the Translink fleet currently operate on low sulphur diesel. From April 2006, a change in supplier will permit Translink to run a trial using a bio-diesel blend. No further plans are currently in hand but Translink is monitoring other developments including hybrid drive systems and fuel cell technology, but none is currently considered to offer a cost-effective option.

Unmanned Rail Crossings

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much has been spent on *(a)* the improvement and *(b)* the maintenance of safety measures at unmanned crossing points on the rail line between Ballymena and Londonderry in each of the last five years. [56165]

Mr. Woodward: Translink has advised that the following amounts have been spent by Northern Ireland Railways on improvements and maintenance at unmanned crossings between Ballymena and Londonderry.

£

	Capital works and improvement measures	*Maintenance*	*Total annual expenditure*
2000–01	509	98,400	90,909
2001–02	182,078	91,200	273,278

2002–04	311,807	76,200	388,007
2004–05	314,846	74,400	389,246
Total		1,522,414	

DEPUTY PRIME MINISTER

Allotments

Mr. Drew: To ask the Deputy Prime Minister how many new allotments he has agreed to in each local government area in each of the last three years; and how many have closed over the same period. [57169]

Mr. Woolas: Under the Smallholdings and Allotments Act 1908 it is for each local authority to decide on the level of allotments provision in their area. The Government do not collect information centrally on the closure of allotments on an annual basis.

Best Value Performance Data

Mr. Pickles: To ask the Deputy Prime Minister what the timetable is for the next publication of outturn best value performance data. [56099]

Mr. Woolas: Outturn best value performance data will be published later this month on www.bvpi.gov.uk.

Building Regulations

David Howarth: To ask the Deputy Prime Minister when he plans to publish details of the alterations to Part L of the Building Regulations for England and Wales, set to come into force in April 2006. [54147]

Yvette Cooper: In the press release of 13 September 2005 I announced that the Office of the Deputy Prime Minister was introducing the changes to Part L of the building regulations two years early in April 2006. The statutory instrument is intended to be laid and the final approved documents will be published in sufficient time to allow this to happen.

Complaints

Mr. Hurd: To ask the Deputy Prime Minister what official guidelines apply to the treatment of complaints against senior officers of local authorities. [55015]

Mr. Woolas: The Local Authorities (Standing Orders)(England) Regulations 2001 provide that, where it appears to an authority that an allegation of misconduct by its chief executive, monitoring officer or chief finance officer requires to be investigated, it must appoint a person to investigate the allegation. The regulations provide for that person to undertake various actions in respect of his or her investigation. The Office of the Deputy Prime Minister has not issued any guidance in respect of these regulations.

Comprehensive Performance Assessment Scores

Mr. Pickles: To ask the Deputy Prime Minister what the Audit Commission's Comprehensive Performance Assessment (CPA) scores were for each council in England in each year since the establishment of CPA. [56096]

Mr. Woolas: This is a matter for the Audit Commission. I will ask the chief executive to write to the hon. Member and ensure the answer is made available in the Library of the House.

Council Tax

Miss McIntosh: To ask the Deputy Prime Minister if he will make a statement on the levels of council tax on *(a)* 1 May 1997 and *(b)* 1 May 2006. [56863]

Mr. Woolas: The average Band D council tax in England in May 1997 is included in Table 2.2e of Local Government Financial Statistics England No. 16 2005, a copy of which has been made available in the Library of the House. It is also available at:

http://www.local.odpm.gov.uk/finance/stat/lgfs/2005/lgfs16/h/lgfs16/xlsfiles/lgfs 16–2-2e.xls

The Office of the Deputy Prime Minister will have received 2006–07 budget returns from all authorities by 17 March and will be publishing this information on 27 March.

Departmental Staff

Dr. Cable: To ask the Deputy Prime Minister how many people were employed by the *(a)* Office of

the Deputy Prime Minister, *(b)* Queen Elizabeth II Conference Centre, *(c)* Planning Inspectorate and *(d)* Fire Service College in each region in each of the last 12 months for which information is available; and how many and what percentage of posts were vacant in each month. [51169]

Jim Fitzpatrick: Figures and staff numbers (Full Time Equivalent (FTE) and headcount) are published as Table A in Civil Service Statistics. Civil Service Statistics are available in the Library and at the following address on the Cabinet Office Statistics website: http://www.civilservice.gov.uk/management/statistics/index.asp.

Vacancies in the Office of the Deputy Prime Minister which are open to applicants outside the civil service in each month since September 2005 are tabled as follows:

Office vacancies of the Deputy Prime Minister

Month/Year	*Number of vacancies*
September 2005	10
October 2005	0
November 2005	2
December 2005	0
January 2006	0
February 2006	0
March 2006	0

Figures cannot be broken down by region. Comparable figures are not collected and held by the ODPM for the Queen Elizabeth II Conference Centre, Planning Inspectorate and Fire Service College.

Digital Radio

Mike Penning: To ask the Deputy Prime Minister whether discussions with O2 Airwave Ltd have been concluded in respect of the contract for the new nationwide digital radio system for the fire and rescue service. [57143]

Jim Fitzpatrick: On 11 November 2005 it was announced that 62 Airwave was the preferred bidder for the Firelink contract. Discussions are continuing with 62 Airwave with a view to achieving contract signature.

Efficiency Measurement

Mrs. Villiers: To ask the Deputy Prime Minister what the membership of the Local Government Efficiency Measurement Taskforce is; how often the taskforce has met; what conclusions it has reached; when it is due to produce a guidance note; and whether this note will be made public. [54941]

Mr. Woolas: The membership of the Taskforce comprises representatives from the following organisations—Office of the Deputy Prime Minister, the Audit Commission, Chartered Institute of Public Finance and Accountancy (CIPFA), Department of Culture Media and Sport, Department for Education and Skills, Department for Environment, Food and Rural Affairs, Department of Health, Department for Transport, Department of Work and Pensions, Employers Organisation, Highways Agency, HM Treasury, Improvement and Development Agency, Institute of Public Finance (IPF), the Local Government Association, Office of Government Commerce, Society of County Treasurers, Society of District Treasurers, Society of London Treasurers and the Society of Metropolitan Treasurers.

The Taskforce has met seven times since February 2005.

Guidance incorporating advice from the group was published in May 2005 on the 2005–06 backward look Annual Efficiency Statement (www.rce.gov.uk/rce/aio/12573), and February 2006 in relation to the 2006–07 forward-look Annual Efficiency Statement (www.rce.gov.uk/rce/aio/16540).

Mrs. Villiers: To ask the Deputy Prime Minister what research his Department has commissioned pursuant to section 3.12 of the Efficiency Technical Note for Local Government; when this is due to be received; and whether this research will be made publicly available. [54942]

Mr. Woolas: The Office of the Deputy Prime Minister has commissioned a study undertaken by INLOGOV of the university of Birmingham, supported by the National Institute of Economic and Social Research (NIESR). Provisional findings from that study were published last month in the guidance to councils on the 2006–07 forward-look Annual Efficiency Statements (www.rce.gov.uk/rce/aio/16540). The final results to the study will be disseminated through the ODPM's measurement toolkits, to be published in subsequent rounds of guidance on the completion of Annual Efficiency Statements.

Fire Service

Mr. Stewart Jackson: To ask the Deputy Prime Minister what guidance he plans to give to local fire authorities on the number and location of fire stations in *(a)* Peterborough and *(b)* other sustainable communities growth areas; and if he will make a statement. [54813]

Jim Fitzpatrick: Fire and Rescue Authorities are required by the Fire and Rescue Service National Framework to have in place and maintain an integrated risk management plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities. It is, therefore, for the Cambridgeshire and Peterborough Fire Authority to determine appropriate fire cover in its area including the number and location of fire stations in *(a)* Peterborough and *(b)* other sustainable communities growth areas.

It is also not the role of Ministers to agree the operational proposals in an authority's plan; that is for elected members of the authority concerned. They are best placed to act on the professional advice of principal officers and to balance the competing local demands on available resources for the benefits of the communities they serve.

Firefighters' Pay/Pension Scheme

Chris Ruane: To ask the Deputy Prime Minister what the average firefighters' pay was in each of the last 25 years; and what the percentage increase in current prices was in each year. [56208]

Jim Fitzpatrick: The information requested is not held centrally, and could only be provided at disproportionate cost.

Keith Vaz: To ask the Deputy Prime Minister if he will make a statement on the proposed changes to the Firefighter's Pension Scheme; [51499]

(2) what the proposed retirement age is for firefighters under the proposed changes to the Firefighters' Pension Scheme; and what the existing retirement age is. [51500]

Jim Fitzpatrick: The minimum pension age for firefighters in the existing Firefighters' Pension Scheme is age 50 and the normal pension age 55. We are preparing a pension scheme for new entrants to the Fire and Rescue Service from April 2006. In the new scheme, which has been the subject of consultation, the minimum pension age will be age 55 and the normal pension age 60.

Changes are being made to the existing scheme from April 2006 to ensure compliance with the new tax regime for pensions and to facilitate the new arrangements for financing firefighters' pensions which were announced through a written statement on 29 November 2005. We are also amending the basis on which ill-health pensions will be awarded: a firefighter who is permanently disabled from undertaking any of the duties of his role but is capable of other regular employment will be entitled to receive an unenhanced pension. The pension will be enhanced on the same basis as at present if the firefighter is unfit to undertake regular employment.

As part of the changes needed to ensure the pension scheme is compliant with the new tax regime, we are establishing a separate compensation scheme for firefighters which will provide injury awards for firefighters on the same basis as is currently available in the Firefighters' Pension Scheme.

Firelink

Mike Penning: To ask the Deputy Prime Minister what rules applied to the acceptance by his Department of hospitality from bidders during the process of awarding the Firelink contract; and what assessment he has made of compliance with such rules. [57144]

Jim Fitzpatrick: There are standard departmental rules in relation to the acceptance of gifts, benefits and hospitality. The rules on the acceptance of hospitality are set out in the Staff Handbook. An overriding rule governing the acceptance of gifts, benefits and hospitality is that:

> conduct in a private capacity must not foster the suspicion of any conflict between your official duty and private interests; conduct whilst acting in an official capacity must not give the impression—to any member of the public, to any organisation with whom you deal or to your colleagues—that you have been (or may have been) influenced by a gift or consideration to show favour or disfavour to any person or organisation;
>
> you must not accept any gifts, benefits or hospitality—either directly or through a third party (i.e., a family member or friend) that would, or might appear to:
>
> place you under any obligation to an individual or organisation making the offer; compromise your impartiality or otherwise be improper;
>
> any gifts, benefits or hospitality must be refused if either you or the Office are in any doubt about the propriety of accepting them.

The Permanent Secretary is final arbiter on the advisability of acceptance or refusal of gifts, hospitality, etc.

I am assured that officials in the Office of the Deputy Prime Minister adhered fully to these.

Mike Penning: To ask the Deputy Prime Minister what the role and responsibilities of Mr. Tom Carroll were in the procurement process relating to the Firelink contract. [57145]

Jim Fitzpatrick: Mr. Carroll had no direct role or responsibility in relation to the Firelink procurement. Mr. Carroll is the president of the Chief Fire Officers' Association for the period 30 April 2005 to 8 April 2006. The Association nominated a representative to act as senior user on the Firelink project board and to chair its Principal Users Group.

Graffiti

Anne Snelgrove: To ask the Deputy Prime Minister (1) what plans he has to extend the powers of local authorities to remove graffiti from *(a)* street furniture and *(b)* educational institutions; [56720]

(2) what plans he has to give local communities a formal mechanism to request and ensure that action is taken to remove graffiti. [56721]

Hazel Blears: I have been asked to reply.

The Government are keen to improve the accountability between the police, local authorities and other service providers and the public. The Community Call for Action provisions contained in the Police and Justice Bill will give more power to local communities and provide a mechanism for local communities to demand a response from agencies to persistent community safety or antisocial behaviour problems. an approach to their ward councillor. The Respect programme will ensure effective dialogue between local people and services by introducing regular and systematic "face the people" briefing sessions, involving senior representation from the police and local authorities. These sessions will provide a further opportunity for communities to make clear their priorities and to hold those responsible for service delivery to account.

They will also allow senior staff to engage the community in tackling local problems, raising issues where they can take action to help combat antisocial behaviour, including graffiti. In addition to this, the Home Office, in partnership with the Office of the Deputy Prime Minister, is developing a new three digit single non-emergency number to provide the public direct access to community safety advice, information and action to tackle antisocial behaviour, including graffiti. The Government's commitment towards neighbourhood policing will benefit every area by 2008, enabling graffiti to be tackled as a priority when local communities identify this as one of their key concerns.

Local Authority Pensions

Mr. Pickles: To ask the Deputy Prime Minister pursuant to the answer of 18 October 2005, *Official Report*, column 879W, to the hon. Member for Meriden (Mrs. Spelman), on local authority pensions, what

estimate the Government have made of the expenditure of local authorities in England on the local government pension scheme in *(a)* 2006–07 and *(b)* each year from 1997–98 to 2004–05. [56052]

Mr. Woolas: Contributions to the local government pension scheme (LGPS) by all LGPS employers in England from 1997–98 to 2004–05 total:

Contributions to local government pension scheme

	£ million
1997–98	1,520
1998–99	1,788
1999–2000	1,972
2000–01	2,273
2001–02	2,617
2002–03	2,916
2003–04	3,217
2004–05	3,544

It is estimated that local authority employers' expenditure will be about 80 per cent. of these costs.

The 2004 actuarial valuation showed that LGPS employers in England were expected to contribute approximately 14 to 15 per cent. of pensionable payroll to the scheme in 2006–07. The actual total contribution will not be available until the end of 2007.

Local Government Finance

Mr. Pickles: To ask the Deputy Prime Minister what proportion of local government revenue expenditure was financed through council tax in each year since 1996–97; and what the estimate is for 2005–06. [56104]

Mr. Woolas: The percentage of local government revenue expenditure financed through council tax in England in each year since 1996–97 and the estimated figure for 2005–06 is listed in the following table.

	Percentage
1996–97	22
1997–98	24
1998–99	25
1999–00	25
2000–01	25
2001–02	25
2002–03	25
2003–04	25
2004–05	26
2005–06	25

Source:
Revenue Summary (RS) returns to 2004 05 and Revenue Accounts (RA) budget returns for 2005–06.

The table is produced on a non-Financial Reporting Standard (FRS17) basis.

The definition of local government revenue expenditure used here is that expenditure funded from Aggregate External Finance (AEF), council tax and authorities' reserves. AEF is central government revenue funding that comprises Formula grant (Revenue Support Grant, Redistributed business rates and Police Grant), General Greater London Authority (GLA) Grant and specific grants inside AEF, i.e. revenue grants paid for council's core services.

Comparisons across years may not be valid due to changing local authority responsibilities.

Mr. Pickles: To ask the Deputy Prime Minister what the timetable is for *(a)* the last date for local authorities, including police and fire, to notify his Department of their budgets and council tax precepts for 2006–07, *(b)* the publication by his Department of outturn council tax figures for 2006–07 and *(c)* the notification and designation of local authorities for capping in 2006–07. [56180]

Mr. Woolas: The information is as follows:

(a) Local authorities are required, under section 52Y(3) of the Local Government Finance Act 1992, to provide a completed Budget Requirement return to the Department within seven days of setting their budget requirement. In practice, the deadlines for the returns being received by the Department are 7 March each year for major precepting authorities (including single-service police and fire authorities) and 17 March for billing authorities.

(b) The Department expects to publish budgeted council tax figures for 2006–07 in a statistical release on Monday 27 March. The figures should not change between budget and outturn unless a local authority subsequently sets a substitute budget under sections 31 or 49 of the Local Government Finance Act 1992.

(c) My right hon. Friend, the Deputy Prime Minister, intends to determine capping principles after authorities have set their budget requirements.

Local Government Pension Scheme

Mr. Pickles: To ask the Deputy Prime Minister what estimate he has made of *(a)* the valuation of the Local Government Pension Scheme in England and Wales and *(b)* the proportion of liabilities which were funded as of March 2005. [56101]

Mr. Woolas: I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 16 June 2005, *Official Report*, column 548W.

The most recent funding position was determined at the last actuarial valuation of the Local Government Pension Scheme funds on 31 March 2004. There will be no further update until the next actuarial valuation takes place on 31 March 2007.

Local Government Restructuring

Mr. Pickles: To ask the Deputy Prime Minister what the cost was of restructuring local government in the Humberside county council area. [49821]

Mr. Woolas: Information on the costs of restructuring local government is not held centrally. However, resources in the form of unsupported Supplementary Credit Approvals (SCAs) were available to reorganised authorities to meet the one off indirect costs of reorganisation. In the Humberside county council area these were as follows.

£ million

	Outturn				
	1995–96	1996–97	1997–98	1998–99	Total to LA
Humberside County Council	2.9	—	—	—	2.9
Kingston upon Hull Council	3.08	3.45	2.3	2345	11.175
East Riding of Yorkshire Council	3.454	8.0	1.989	4255	17.698
North Lincolnshire Council	2.992	2.919	1.8	3465	11.176
North East Lincolnshire	2.95	4.112	1.9	1578	10.540
County Total	15.376	18.481	7.989	11643	53.489

Mr. Pickles: To ask the Deputy Prime Minister if he will list the meetings that the Minister for Local Government has had with local authority *(a)* officials and *(b)* representatives on local government restructuring in the last 12 months. [54532]

Mr. Woolas: I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 2 March 2006, *Official Report*, columns 941–42W.

Mr. Pickles: To ask the Deputy Prime Minister pursuant to the Answer to the hon. Member for Meriden (Mrs. Spelman) of 22 November 2005, *Official Report*, column 1875W, on unitary local government, whether the Government has commissioned further research into the cost of local government restructuring since 22 November 2005. [50910]

Mr. Woolas: The Office of the Deputy Prime Minister is in the process of commissioning research into the cost and benefits of a potential local government restructuring.

Local Government Wages

Mr. Pickles: To ask the Deputy Prime Minister pursuant to the answer of 16 February 2006, *Official Report*, column 2240W, to the hon. Member for Meriden (Mrs. Spelman), on local government wages, what estimate he has made of the cost of the local government pay bill for other local government staff, including *(a)* national insurance employer contributions and *(b)* pension costs in each year since 1998–99. [56048]

Mr. Woolas: The estimated cost of *(a)* employer national insurance contributions and *(b)* employer pension contributions for other local government staff[1] since 1998–99 is tabled as follows:

	Pay[1]	Employer national insurance contributions	Employer pension contributions[2]
		(£ billion)	
1998–99	10.768	0.800	1.025
1999–2000	11.841	0.807	1.144
2000–01	12.713	0.819	1.200
2001–02	13.694	0.873	1.373
2002–03	14.713	0.844	1.537
2003–04	16.365	1.072	1.726
2004–05	17.990	1.176	2.180

[1] This figure is pay only, as reported by local authorities and excludes national insurance employer contributions, employers' pension contributions, and employee related costs, but including overtime payments, bonuses, golden handshakes etc.

[2] This covers employers' pension fund contributions for funded and notionally funded schemes, and should cover non-funded pension scheme payments, net of pension contributions made by employees. Net payments only in respect of commutations, refunds of contributions, and transfer values etc. relating to such schemes are also included.

Figures are estimated from the Subjective Analysis Return (SAR), part of the Revenue Outturn (RO) suite of forms collected by ODPM from local authorities. The SAR is a sample survey and collects information from 121 authorities in England. The data have been grossed up to provide estimates for England as a whole.

Comparisons across years may not be valid due to changes in the method of reporting the information. In particular, the outturn data for 1996–97 to 2002–03 have been calculated on a non-FRS (financial reporting standard) 17 basis while the outturn data for 2003–04 and 2004–05 have been calculated on an FRS 17 basis. Hence, figures for different years may not be directly comparable.

All data are as published in local government financial statistics or in national statistics releases as available from http://www.local.odpm.gov.uk/finance/stats/index.htm.

All figures are for England only.

[1] 'Other local government staff' includes chief executives, chief financial officers, fire support staff, all non-teachers working in education as well as all other local government employees.

London Mayor

Mrs. Lait: To ask the Deputy Prime Minister when he plans to announce the results of his consultation on the powers of the London mayor; and if he will publish the evidence submitted. [56023]

Jim Fitzpatrick: The consultation exercise on proposals for additional powers and responsibilities for the Mayor of London and London Assembly ended on 22 February 2006. Ministers are now considering the responses to consultation and will announce a final package of proposals in due course.

In the consultation document Ministers gave a commitment to publish a summary of the responses to consultation by 22 May 2006.

Mobile Phone Masts

Mr. Pickles: To ask the Deputy Prime Minister if he will place in the Library a copy of the study by the university of Reading and Arup commissioned by his Department into mobile phone masts. [56093]

Jim Fitzpatrick: On 2 March 2006, *Official Report*, column 33WS, the Office of the Deputy Prime Minister announced the publication of the report by the university of Reading and Arup of their review of the code of best practice on mobile phone network development. Copies of the report have been made

available in the Libraries of the House. Further copies can be downloaded from http://www.odpm.gov.uk/index.asp?id=1163923.

Mr. Pickles: To ask the Deputy Prime Minister how much the Department has paid to fund the study by the university of Reading and Arup on mobile phone masts. [56095]

Jim Fitzpatrick: The total cost of the research contract was £92,214 including value added tax. The Welsh Assembly Government contributed £4,000 to meeting the cost of the contract.

Monitoring Officers

Mr. Paterson: To ask the Deputy Prime Minister (1) for what purpose monitoring officers are employed by local authorities; who monitors their performance; what the selection process is; and what qualifications are required; [55337]

(2) what the process is for employing the monitoring officers referred to in the Local Government Act 2000. [55440]

Mr. Woolas: Section 5 of the Local Government and Housing Act 1989 provides for every principal authority to designate one of its officers as a monitoring officer. The monitoring officer must report to the authority on any proposal, decision or omission by the authority which has given rise to, or is likely to give rise to, a breach of the law. The monitoring officer also gives advice to councillors about personal or prejudicial interests, conducts investigations into misconduct allegations and presents his or her findings to the local standards committee for its determination. Decisions on the designation, employment and management of monitoring officers are matters for local authorities.

Mr. Paterson: To ask the Deputy Prime Minister (1) what appeals procedure is available for councillors who disagree with a monitoring officer's interpretation of a personal or prejudicial interest; [55361]

(2) what rights of appeal councillors have against judgments made by monitoring officers; [55443]

(3) what powers monitoring officers have to compel local authorities to take action against councillors. [55444]

Mr. Woolas: Councillors are able to comment on the monitoring officer's findings following his or her investigation of an allegation of misconduct, and also to make representations to the local standards committee which determines misconduct cases referred to them by the monitoring officer. They can also appeal against the local standards committee's determination.

While monitoring officers' roles include giving advice to councillors about personal or prejudicial interests, conducting investigations into misconduct allegations and presenting their findings to the local standards committee for its determination, they have no powers to compel local authorities to take action against councillors. Accordingly, there are no arrangements to appeal against monitoring officers' judgments.

National Interest Mapping Service Agreement

Mr. Arbuthnot: To ask the Deputy Prime Minister if he will make a statement on the use of mapping products and services that have been wholly or partly funded under the National Interest Mapping Service Agreement in public procurement competitions. [56953]

Mr. Woolas *[holding answer 8 March 2006]:* The Office of the Deputy Prime Minister has both customer and shareholder relationships with Ordnance Survey. These are dealt with separately.

The current National Interest Mapping Service Agreement (NIMSA) has supported the provision by Ordnance Survey of a number of services in the national interest. NIMSA contributes to the maintenance of the National Geospatial Database and the provision of other uneconomic activities in the national interest. NIMSA supports the maintenance of databases; it does not support the creation of products nor the dissemination of products derived from the databases.

The services provided by NIMSA are typically available at no cost, not only to Government but also to professionals and the general public. They include formal education, providing information on geographic datasets, and provision of mapping in the event of emergencies.

Mr. Arbuthnot: To ask the Deputy Prime Minister what assessment he has made of a potential competitive advantage for Ordnance Survey in the procurement for the Pan-Government Agreement due to funding from the National Interest Mapping Service Agreement. [56954]

Mr. Woolas *[holding answer 8 March 2006]:* The Office of the Deputy Prime Minister has both customer and shareholder relationships with Ordnance Survey. These are dealt with separately.

The current NIMSA concerns the maintenance of mapping databases and provision of services which are in the national interest but uneconomic to provide. The current Pan-Government Agreement (PGA) concerns the procurement of products and services on consistent licence terms across central Government.

In all of its procurement activity ODPM seeks to avoid defining business requirements in such a way as to favour particular suppliers. The Pan-Government Agreement procurement is handled no differently. ODPM is committed to treating all potential suppliers fairly and ensuring to the best of its ability, a level playing field.

Official Residences

Mr. Pickles: To ask the Deputy Prime Minister for how many days in 2005 he resided at his official residence in *(a)* Dorneywood and *(b)* Admiralty House. [54527]

Jim Fitzpatrick: The information requested is not collected centrally.

Dorneywood is owned and operated by the Dorneywood Trust which is a registered charity, therefore there is no cost to public funds.

Planning (Thames Gateway)

Sarah Teather: To ask the Deputy Prime Minister how many local planning authorities in the Thames Gateway have an elected member nominated as the authority's design champion. [54685]

Yvette Cooper: Of the 18 local authorities (including county councils) in the Thames Gateway, information shows that 11 have an elected member as their design champion, two have officer level design champions and one further authority is in the process of appointing a design champion.

Sarah Teather: To ask the Deputy Prime Minister (1) how many new dwellings have received planning permission in the five strategic planning locations in the Thames Gateway since July 2003; [54696]

(2) how many new dwellings in the Thames Gateway have received planning consent since February 2003; and how many of these were subject to a design code. [54680]

Yvette Cooper: The information requested is not held centrally, and could be provided only at disproportionate cost.

However, in May 2004 my right hon. Friend the Deputy Prime Minister announced a pilot programme on Design Coding to investigate various models and approaches for developing, adopting and implementing Design Codes, and to assess the potential benefits of Design Coding in the British context. Within the Thames Gateway area projects in London Royal Docks (West Silvertown), and Greenwich (Greenwich Millennium Village) have been examined as part of this research.

The Office of the Deputy Prime Minister and CABE are producing guidance this year that will provide more detail on Design Codes; criteria for selecting an approach for particular circumstances; and how to achieve successful Design Codes.

Sarah Teather: To ask the Deputy Prime Minister what obligations regarding quality of design are placed upon *(a)* developers and *(b)* the construction industry in relation to (i) new buildings and (ii) urban areas in the Thames Gateway. [54701]

Yvette Cooper: Good design and quality in construction are essential in creating and maintaining quality places where people want to live and work, now and in the future. This applies across the country.

The Office of the Deputy Prime Minister's policy in "Planning Policy Statement 1: Delivering Sustainable Development" (PPS1) sets out general principles and policies for planning, and makes it clear that good design is indivisible from good planning. PPS1 needs to be taken into account by all planning authorities in the preparation of development plans and it may also be material to decisions on individual planning applications.

Obligations are also placed on the construction industry through Building Regulation. These are based on functional requirements and it is therefore open to the industry to achieve these requirements using different design approaches.

In terms of the Thames Gateway specifically, the ODPM has asked the Commission for Architecture and the Built Environment to carry out a piece of work, involving a wide range of stakeholders, looking at the identity of the Thames Gateway. This will establish a clear idea about the kind of place the Thames Gateway will be. It can then provide a direction towards which development plans can be orientated, ensuring consistently good design which fits in with and enhances the local surroundings.

Planning Blight (Compensation)

Mr. Pickles: To ask the Deputy Prime Minister pursuant to the answer of 13 February 2006, *Official Report*, column 1628W, on planning blight (compensation), whether owner-occupiers are compensated for the loss of a scenic view due to public works. [54526]

Yvette Cooper: Under Part 1 of the Land Compensation Act 1973, compensation may be payable for a reduction in value of land caused by the use of certain public works. This compensation is based upon the depreciation caused by physical factors: noise, vibration, smell, fumes, smoke, artificial light and the discharge onto land of any solid or liquid substance. Compensation is not available for a loss of view.

Rossendale Borough Council

Janet Anderson: To ask the Deputy Prime Minister what representations he has received regarding the performance of the Overview and Scrutiny Committee on Rossendale borough council. [56135]

Mr. Woolas: No representations have been received by the Office of the Deputy Prime Minister specifically relating to the performance of the Overview and Scrutiny Committee of Rossendale borough council.

Standards Board for England

Mr. Paterson: To ask the Deputy Prime Minister (1) how much members of the Standards Board for England were paid in 2004–05; [55354]

(2) what the running costs of the Standards Board for England were in 2004–05; [55355]

(3) how many people are employed by the Standards Board for England; [55357]

(4) how many complaints were received by the Standards Board for England in 2005. [55360]

Mr. Woolas: The information requested is provided in the board's annual report and accounts and annual review for 2004–05. Copies of these documents have been made available in the Library of the House.

Mr. Paterson: To ask the Deputy Prime Minister how many investigations were conducted by ethical standards officers for the Standards Board for England in 2005; and what the cost was. [55358]

Mr. Woolas: In 2004–05 ethical standards officers of the Standards Board for England completed 1,446 investigations. Costs incurred by the Standards Board's Investigation Department during this period were about £3.6 million.

Mr. Paterson: To ask the Deputy Prime Minister how many investigations undertaken by the Standards Board for England in 2005 resulted in action being taken against a councillor. [55359]

Mr. Woolas: In 2004–05, local authorities' standards committees imposed sanctions against councillors found to have breached the code of conduct in 60 cases, and the Adjudication Panel for England imposed sanctions in 43 cases.

HEALTH

Alzheimer's Disease

Mr. Laurence Robertson: To ask the Secretary of State for Health if she will make a statement on the National Institute for Health and Clinical Excellence's draft guidelines on prescribing Aricept, Exelon, Reminyl and Ebixa for the treatment of Alzheimer's disease. [56240]

Jane Kennedy: The National Institute for Health and Clinical Excellence (NICE) has consulted on revised draft guidance on drugs for the treatment of Alzheimer's disease. The consultation ended on 13 February 2006. NICE has not yet finalised its revised guidance to the national health service, and until this new guidance is published in its final form NICE'S existing appraisal of Aricept, Exelon and Reminyl continues to apply.

Ambulance Services

Mr. Harper: To ask the Secretary of State for Health what her assessment is of the reasons for the trend in demand for ambulance services; and if she will make a statement. [53030]

Mr. Byrne: The number of emergency calls to, and incidents attended by, national health service ambulance trusts has increased by around 6 to 7 per cent. a year since 2000–01. During this time the number of calls per incident has increased, one reason being that greater use of mobile phones mean that more calls are received per incident. The other reasons for increases in demand vary across the country.

Further data on ambulance service activity can be found in the annual statistical bulletin, 'Ambulance Services, England'. Copies of this are available in the Library and on the Department's website at: www.dh.gov.uk

Despite increases in the number of 999 calls and incidents attended, performance in the ambulance service is continuing to improve. In 2004–05, 76.2 per cent. of category A calls resulted in an emergency response arriving at the scene of the incident within eight minutes, compared to 75.7 per cent. in 2003–04.

The 2005 review of ambulance services, 'Taking Healthcare to the Patient: Transforming NHS Ambulance Services', acknowledges that demand is rising, and the need to address both the way ambulance services are commissioned and organised, and the effectiveness and efficiency with which ambulance trusts use their resources. Therefore, the report makes a series of recommendations for action by the NHS and the Department. A copy of the full report is available on the Department's website at: www.dh.gov.uk/assetRoot/04/11/42/70/04114270.pdf

Bedfordshire Heartlands Primary Care Trust

Andrew Selous: To ask the Secretary of State for Health what the total cost to date has been of the turnaround team overseeing the deficit reduction in Bedfordshire Heartlands primary care trust (PCT); and what the total estimated cost is of the turnaround team's work at the PCT. [52741]

Ms Rosie Winterton: The turnaround teams were announced by the Secretary of State in a written ministerial statement on 1 December 2005, *Official Report*, column 37WS.

The first stage of this is a baseline assessment, the aim of which is to ensure there is an agreed understanding of the local financial problem and that actions are in hand to address this. Bedfordshire Heartlands national health service primary care trust (PCT) was included in the first phase of this assessment. The Director of Finance, of the Department, published the results of this assessment in a report on 25 January 2006. The PCT was assessed as needing to maintain their focus to achieve financial turnaround. The contract for the initial assessment was awarded in accordance with Department tendering arrangements. The amount of the contract is to be treated as commercial in confidence.

Following the baseline assessment a tailored package of turnaround support for the PCT will be agreed. Where this requires additional expenditure, this will be paid for by the local NHS.

Business Service Agency

Mr. Leech: To ask the Secretary of State for Health what assessment she has made of the likely impact on jobs in the Prescription Pricing Authority in *(a)* Manchester and *(b)* England of the creation of the NHS Business Service Agency. [53380]

Mr. Byrne: The creation of the NHS Business Services Authority has had no direct impact on jobs in Manchester. Prior to the creation of the NHS Business Services Authority, the Prescription Pricing Authority had plans agreed for a capacity improvement programme (CIP) which were announced to staff on 3 November 2005 and will introduce new technology to replace the manual processes currently performed by its staff.

Code of Practice Family and Post-mortems

Mr. Dismore: To ask the Secretary of State for Health how many breaches of the Code of Practice Family and Post-Mortems there have been in relation to the release of bodies to permit funerals within 24 hours to families of *(a)* Jewish, *(b)* Muslim and *(c)* Hindu faiths at (i) Barnet and Chase Farm NHS Trust, (ii) Royal Free Hampstead NHS Trust, (iii) Northwick Park Hospital and (iv) all London hospitals in the last 12 months; and if she will make a statement. [55169]

Jane Kennedy: The requested information is not collected centrally. Local policies and action on individual cases are a matter for the trusts concerned.

Community Hospitals

Mr. Harper: To ask the Secretary of State for Health if she will make a statement on plans to extend services provided by *(a)* community hospitals and *(b)* health centres in the area covered by the Avon, Gloucestershire and Wiltshire Strategic Health Authority. [56246]

Caroline Flint: As stated in paragraph 25 of the recently published White Paper, "Our Health, our Care, our Say: a new direction for community services", the Department aims to provide more care in more local and convenient settings. This will partially be achieved by introducing a new generation of community hospitals and other facilities, such as health centres, with strong ties to social care.

However, decision making on specific local healthcare provision is a matter for primary care trusts and strategic health authorities in consultation with the local population. Therefore, the Department is not in a position to comment on local plans to extend services provided by community hospitals and health centres in Avon, Gloucestershire and Wiltshire Strategic Health Authority.

Correspondence

Keith Vaz: To ask the Secretary of State for Health what target her Department sets for the maximum time to respond to letters from hon. Members; what proportion of responses met that target in the last period for which figures are available; and what the average time taken was to respond to a letter from hon. Members in that period. [52692]

Mr. Byrne: Our target set is 90 per cent. of all correspondence to have a response within 20 working days of receipt. In the last measured period, January to December 2005, we achieved our target of 90 per cent.

The average response time over the period 2005 was 20 working days to reply.

Dentistry

Mr. Harper: To ask the Secretary of State for Health what assessment she has made of the likely impact of the new General Dental Services contract on *(a)* the income of dental practices and *(b)* patients. [51635]

Ms Rosie Winterton: Dentists' current national health service earnings will be protected for at least three years, with an annual uplift for pay and prices, and there will be a 5 per cent. reduction in the courses of treatment that general dental services practitioners are expected to carry out each year. Evidence from personal dental services pilots shows that removing the current fee per item remuneration system leads to simpler courses of treatment, with fewer individual interventions and more time available for preventative care. In the Department's view, this is likely to reduce practice expenses as a proportion of gross NHS income, and therefore increase net income, but the precise impact cannot be quantified.

Patients will benefit from the new contracts in a number of ways. Dentists will have more time available to offer preventative care and advice. The new contracts also reflect clinical guidelines in patient recall intervals, as produced by the National Institute for Health and Clinical Excellence. This will increasingly mean that patients attend at intervals that better reflect their individual oral health needs. In the Department's view, this is likely to enable a greater range of patients to be seen, as patients with good oral health are likely to attend less frequently.

Mr. Stewart Jackson: To ask the Secretary of State for Health how many dentists serve the Greater Peterborough Primary Care Partnership; and how many dentists in Peterborough constituency *(a)* operate fully within the NHS and *(b)* only offer NHS treatment for children. [53804]

Ms Rosie Winterton: As at 30 September 2005, there were 65 national health service dentists with a general dental services (GDS) or personal dental services (PDS) contract within North Peterborough Primary Care Trust (PCT), which also covers Peterborough parliamentary constituency, and 36 within South Peterborough PCT. These figures have been provided by the NHS Health and Social Care Information Centre. The data source is the Dental Practice Board.

A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the PCT. The Dental Practice Board has no information concerning the amount of time dedicated to private or NHS work by individual dentists. An individual dentist may have a contract with more than one PCT, in which case they will appear in figures for each PCT with which they hold a contract.

Information about who dentists offer to treat is not collected centrally. However, an analysis of NHS patient registrations data as at 1 June 2005 showed that within South Peterborough PCT there was one dentist having only children registered and in North Peterborough PCT there were not any dentists with only children registered. This analysis is not available at parliamentary constituency area.

Julia Goldsworthy: To ask the Secretary of State for Health what the average number of units of dental activity an NHS dentist with a majority NHS patient list is expected to undertake in a year. [56614]

Ms Rosie Winterton *[holding answer 7 March 2006]:* The number of units of dental activity (UDAs) that general dental services (GDS) dentists will be expected to undertake in a year will be based on the weighted courses of treatment reported to the Dental Practice Board during the reference period of October 2004 to September 2005, but with a five per cent. reduction and with flexibility for primary care trusts (PCTs) and dentists to agree adjustments to the annual total where appropriate.

The number of UDAs for personal dental services (PDS) dentists is a matter for local agreement between PCTs and dentists.

Until GDS contracts and PDS agreements are finalised and UDAs agreed, it is not possible to estimate an average value.

Julia Goldsworthy: To ask the Secretary of State for Health pursuant to the Statement by the hon. Member for Doncaster Central, in the Fourth Standing Committee on Delegated Legislation on 8 February 2006, *Official Report*, column 21, what other research,

apart from the units of dental activity system, her Department undertook to establish a mechanism to monitor the new General Dental Service contract post 1 April 2006 before laying the regulations. [56616]

Ms Rosie Winterton *[holding answer 7 March 2006]:* The decision to establish a monitoring mechanism based on measuring weighted courses of treatment took into account evidence from personal dental services (PDS) pilots. This evidence showed that one of the main benefits of abolishing the fee-per-item remuneration system was that dentists were able to carry out simpler courses of treatment with more time for preventative work. The pilots also indicated that there were difficulties monitoring services solely on the basis of patient capitation or similar measures. The system of units of dental activity which are the same as weighted courses of treatment, is designed to promote the same benefits seen in PDS pilots whilst ensuring there is clarity about the level of service expected in a year.

Doctors/Nurses (Recruitment)

Mr. Davey: To ask the Secretary of State for Health what plans her Department has to increase the recruitment of *(a)* doctors and *(b)* nurses. [53011]

Mr. Byrne: The Government have substantially increased the national health service work force. Between September 1997 and September 2004, the number of doctors employed in the NHS increased by over 27,400 to 117,036 (23 per cent.) and the number of nurses employed in the NHS has increased by 78,659 (20 per cent.) to 397,515.

Local employers are responsible for recruiting and retaining the health and social care work force they need to provide local services. The national strategies and tools are already in place to support trusts to recruit and retain staff, promote training and development and redesign their work forces.

Anne Main: To ask the Secretary of State for Health how many vacant nursing posts were unfilled, in each strategic health authority in each year since 1997 broken down by nursing specialism; and what assessment she has made of the reasons for posts remaining unfilled. [50763]

Mr. Byrne: It is the responsibility of primary care trusts and strategic health authorities to analyse their local situation and develop plans, in liaison with their local national health service trusts and primary care providers, to deliver high quality NHS services and take action to recruit the appropriate staff required to deliver these services.

Vacancy information for the non-medical workforce was not collected prior to 1999. Information on vacant nursing posts from 1999 to 2005 has been placed in the Library. There are 25 per cent. more nurses than in 1997; vacancy rates have fallen to 1.9 per cent.; and the number of students entering training each year has increased by over 10,000.

Domestic Violence

Rosie Cooper: To ask the Secretary of State for Health what assessment she has made of the access to GP services by families who have been involved in domestic violence in West Lancashire. [53384]

Mr. Byrne: This is a matter for the West Lancashire Primary Care Trust.

In January 2006, the Department published "Responding to Domestic Abuse: a handbook for Health Professionals" which updates the domestic violence manual, published in 2000, providing health care professionals, including general practitioners, with a framework for dealing confidently with women who may or are experiencing domestic abuse and a means to access support and advice. An electronic copy is available on the Department's website at: www.dh.gov.uk/assetRoot/04/12/66/19/04126619.pdf.

Domiciliary Oxygen

Steve Webb: To ask the Secretary of State for Health if she will estimate the aggregate cost to the NHS of providing *(a)* routine and *(b)* emergency domiciliary oxygen supplies under the system based on provision by (i) pharmacists and (ii) central suppliers. [55011]

Jane Kennedy: It is not possible to aggregate and compare the cost to the national health service of providing routine and emergency supply of domiciliary oxygen by pharmacists and central suppliers because of differences in service provision and the basis for calculating costs. In the past, there was no explicit arrangement for pharmacists to provide oxygen to patients at home on an emergency basis. Pharmacists received payment for provision of an oxygen cylinder service, which included the cost of equipment listed in Part 10 of the drug tariff, together with locally negotiated fees for service delivery. The contract for the new service includes the provision of oxygen to patients on an emergency basis, with a delivery requirement of four hours. The cost of all oxygen services provided by new suppliers is on a per day basis. It takes into account the required flow rate for a patient and the hours per day a patient uses oxygen. The per diem rates include supply of oxygen, all associated equipment, delivery, collection and maintenance of equipment and the provision of training to patients and their families on its safe use.

Duchenne Muscular Dystrophy

Mr. Bone: To ask the Secretary of State for Health what plans the Government have to provide further funding for the MDEX consortium gene therapy clinical trials into Duchenne muscular dystrophy. [56766]

Jane Kennedy: I refer the hon. Member to the reply I gave my hon. Friend the Member for Coventry, South (Mr. Cunningham) on 30 January 2006, *Official Report*, column 167W.

Dysfluency

Mr. Clappison: To ask the Secretary of State for Health how many NHS speech therapists are employed in each *(a)* strategic health authority and *(b)* NHS trust. [52753]

Mr. Byrne: The number of qualified speech and language therapy staff in England by Government office region, strategic health authority area and by organisation as at 30 September 2004 has been placed in the Library.

Expert Patients

John Bercow: To ask the Secretary of State for Health if she will support self-care by increasing the availability and uptake of expert patient programmes by *(a)* funding programme leaders and *(b)* increasing referrals from the NHS and partner organisations. [45397]

Ms Rosie Winterton: The Government will continue to support self-care and self-management. One of the ways it will do this is by expanding the expert patients programme (EPP). Using the investment pledged in the manifesto to increase the number of EPP course places from 12,000 a year to over 100,000 by 2012. It is likely that this will be taken forward through the establishment of a community interest company to deliver and market the EPP. Work is already under way with the British Medical Association and other organisations to encourage direct referrals to the EPP.

General Medical Services Contract (Obesity)

Stephen Williams: To ask the Secretary of State for Health whether the numbers of obese patients held on registers by general practitioners under the provisions of the new General Medical Services Contract will be collected centrally; and whether she intends to collect information on the numbers and percentages of such patients who are given advice, counselling, treatment or appropriate referrals by those practices. [56460]

Caroline Flint: The new quality and outcomes framework for 2006–07 has been finalised, and includes an indicator which rewards practices for maintaining an obesity register. The recording of body mass index for the register will take place in the practice as part of routine care and will be collected by quality management and analysis system as a percentage of patients. The framework does not currently provide incentives for weight management and advice, and as such no information can be collected on these activities

Stephen Williams: To ask the Secretary of State for Health what assessment she has made of the merits of rewarding practices covered by the General Medical Services contract for offering patients advice on weight loss and management. [56461]

Caroline Flint: The negotiation of the new general medical services contract for 2006–07 included a process for gathering and assessing evidence for changes to the quality and outcomes framework, via an expert panel engaged by NHS Employers. The provision of weight loss and management advice was considered by the expert panel, whose reports will by published by NHS Employers at the end of March.

The quality and outcomes framework will be subject to a process of change and improvement over times as part of the negotiation process.

Health White Paper

Mr. Lansley: To ask the Secretary of State for Health what the expected timetable is for introduction of the regulation of counsellors and therapists as proposed in paragraph 2.51 of the White Paper, Our Health, Our Care, Our Say, whether she plans for the regulation of counsellors and therapists to be overseen by the Health Professions Council; what representations she has received regarding the need for regulation of counsellors and therapists, and from whom; and if she will make a statement. [49528]

Jane Kennedy: The regulation of counsellors and therapists will be considered in the light of the recent review of non-medical professional regulation. A statement will be given in due course.

A number of representations have been received regarding the need for regulation of counsellors and psychotherapists from a variety of organisations including professional bodies and service users. A three-month public consultation exercise will take place before any move to statutory regulation of counsellors and therapists.

Hepatitis B

Mr. Denis Murphy: To ask the Secretary of State for Health (1) what estimate she has made of the number of people immunised against hepatitis B since 1988 who have subsequently suffered from *(a)* chronic fatigue syndrome, *(b)* multiple sclerosis and *(c)* rheumatoid arthritis; [56363]

(2) what estimate she has made of the number of people working in the NHS immunised against hepatitis B since 1988 in each of the categories recommended by the NHS who have subsequently suffered from *(a)* chronic fatigue syndrome, *(b)* multiple sclerosis and *(c)* rheumatoid arthritis. [56364]

Jane Kennedy: The safety of all medicines and vaccines, including hepatitis B vaccine, is continuously monitored by the Medicines and Healthcare products Regulatory Agency (MHRA), with expert advice from the commission on human medicines (CHM). The MHRA uses a variety of data sources for this purpose but an important source of information is spontaneous reports of suspected adverse reactions that are reported by health professionals, pharmaceutical companies and most recently by patients through the yellow card scheme.

Since 1988, the MHRA has received a total of 13 reports of chronic fatigue syndrome (CFS), 11 reports of rheumatoid arthritis and 16 reports of multiple sclerosis in people who have received hepatitis B vaccination. This is in the context of 16.2 million doses of hepatitis B vaccine sold in the United Kingdom. We are unable to state how many of these suspected adverse reactions (ADRs) occurred in national health service workers as this information is not captured on a yellow card.

Since the yellow card scheme is entirely voluntary for health professionals, these data cannot be used as a reliable indicator of the frequency of suspected ADRs to vaccines or medicines as not all cases may be reported. In addition, an association of a patient's illness with a particular medicine or vaccine may not always be made, particularly for conditions that take some time to manifest. It is important to note that the reporting of a suspected adverse reaction does not necessarily mean that it was caused by the drug or vaccine. Many factors have to be taken into account in assessing causal relationships including temporal association, the possible contribution of concomitant medication, a previously undiagnosed underlying illness or a coincidental newly occurring illness.

As with all licensed medicines the MHRA will continue to carefully examine any important new evidence as it emerges, seeking the advice of independent experts as necessary, and will communicate new safety information to health professionals and the public.

HIV

John Austin: To ask the Secretary of State for Health what assessment she has made of the *(a)* efficacy and *(b)* availability of post-exposure prophylaxis following (i) sexual and (ii) occupational exposure to HIV; and if she will make a statement. [54889]

Caroline Flint: The assessment and provision of specific treatments, including post exposure prophylaxis following sexual or occupational exposure to HIV, is a matter for local national health service organisations, which are best placed to assess and meet local needs.

To support them, however, the Department funded the Medical Foundation for AIDS and Sexual Health (MedFASH) to produce the "Recommended Standards for NHS HIV Services", published in 2003. This states that: "the NHS should make non-occupational PEP available to all who need it and develop protocols for provision".

These standards were disseminated to primary care trust sexual health leads in England. The Department also published guidance on HIV post-exposure prophylaxis from the United Kingdom Chief Medical Officers' expert advisory group on AIDS (EAGA) in June 1997, with subsequent updated versions in July 2000 and February 2004. EAGA is currently reviewing the 2004 guidance, which is available on the Department's website at: www.advisorybodies.doh.gov.uk/eaga/publications.htm.

The Health Protection Agency carries out surveillance of occupational exposure to blood-borne viruses in health care workers. The latest report is available on the website at: www.hpa.org.uk/infections/topics_az/bbv/s_report.htm.

MRI Scans

Mr. Randall: To ask the Secretary of State for Health what estimate she has made of waiting times for routine MRI scans in *(a)* Uxbridge constituency, *(b)* North West London, *(c)* London and *(d)* England. [46536]

Jane Kennedy: During 2005, the Department collected some diagnostic waiting time and activity data, including data on magnetic resonance imaging, from 21 trusts as part of piloting work to underpin development of the 18-week patient pathway. The pilot data is unvalidated management information from a relatively small sample of trusts; is of variable quality; and does not separately identify routine from urgent scans.

Some limited modelling of this data has been done at a national level. We intend to publish a summary of 18 weeks-related analysis in the spring in conjunction with publication of the 18-week implementation plan. We also intend to commence routine publication of data on diagnostic waiting times and activity this spring.

MS Centres (Inspection Costs)

Mr. Laurence Robertson: To ask the Secretary of State for Health what assessment she has made of the likely effect on fees charged to multiple sclerosis centres for the inspection of type 3 barochambers of the transfer of the responsibility for inspection from her Department to the Healthcare Commission; and if she will make a statement. [55655]

Jane Kennedy: I met representatives of multiple sclerosis therapy centres in July 2005. It was subsequently decided that these establishments should continue to be subject to the Healthcare Commission's regulatory regime but I asked departmental officials to work with them on possible options for reducing the inspection burden on therapy centres.

The Healthcare Commission consulted on its proposed fee structure for 2006–07 between November 2005 and February this year. The consultation document specifically asked for views on whether there should be a reduced level of fees for establishments which are substantially reliant on voluntary donations for their income. The Healthcare Commission is currently considering responses to the consultation which is expected to receive their detailed proposals in late March or early April.

Newmarket Hospital

Mr. Spring: To ask the Secretary of State for Health if she will make a statement on the future of Newmarket Hospital. [50694]

Ms Rosie Winterton: The Suffolk West Primary Care Trust (PCT) Board will meet in due course to discuss the outcome of the public consultation exercise. The decision about the future of Newmarket Hospital will be taken at that meeting. Proposals in the consultation were for the closure of the 16 in-patient beds at Newmarket Community Hospital and replacing them with enhanced intermediate care provision.

There are also outline plans for the re-design of Newmarket Community Hospital. These include:

a modern general practitioner practice which, together with the PCT, will provide a wide range of services including diagnostics, for example blood tests, and clinics;

a dispensary and commercial pharmacy; and

facilities for minor medical procedures, for example, GP minor surgery.

NHS Finance

Mr. Harper: To ask the Secretary of State for Health (1) how much has been allocated *(a)* in total and *(b)* per capita for health spending in (i) Gloucestershire, (ii) West Gloucestershire primary care trust, (iii) Gloucestershire Hospitals Acute Trust and (iv) Gloucestershire ambulance trust in (A) 2005–06 and (B) 2006–07; [52749]

(2) how much has been allocated *(a)* in total and *(b)* per capita for health spending in (i) England, (ii) each county in England and (iii) each constituency in England for the years (A) 2005–06 and (B) 2006–07. [52765]

Mr. Byrne: Revenue allocations are made direct to primary care trusts (PCTs). They are not made to counties, constituencies or national health service trusts. The information is not therefore, available in the format requested.

Information on the allocations and the per capita funding for each PCT, including West Gloucestershire PCT has been placed in the Library.

Lynne Featherstone: To ask the Secretary of State for Health what her Department's latest estimate is of the level of NHS overspend for the 2005–06 financial year; and if she will make a statement. [55957]

Jane Kennedy: The latest available information shows that for 2005–06 at month six, the national health service is forecasting a deficit of £620 million. This forecast deficit amounts to less than 1 per cent. of the funding available. The unaudited data for the mid-year point shows that two thirds of the forecast deficit is in around 7 per cent. of organisations.

NHS Organisations

Mr. Lansley: To ask the Secretary of State for Health at the end of which financial year she expects NHS organisations to achieve a collective breakeven position. [52524]

Jane Kennedy: It is anticipated that national health service organisations will achieve a collective break-even position by the end of 2006–07.

Mark Hunter: To ask the Secretary of State for Health what assessment she made of the financial position of primary care trusts, foundation trusts and other national health service organisations before finalising levels of funding for local authorities for 2006–07. [53541]

Mr. Byrne: The Government provide funding for adults' social services through both the overall formula grant allocated to local authorities by the Office of the Deputy Prime Minister, and the specific revenue and capital grants allocated directly to councils from individual Departments. In respect of the 2006–07 and 2007–08 allocations, the attribution of adults' social care funding is based on brand new needs-based formulae for both the younger adults' and older people's service blocks. These formulae take also account of the effect of geography on pay and prices through the use of an area cost adjustment.

While the Department is responsible for establishing overall social care policy, councils have a significant degree of flexibility to manage and direct their own resources according to local priorities and the needs of the communities they represent.

Revenue allocations are made to primary care trusts (PCTs) on the basis of the relative needs of their populations. A weighted capitation formula is used to determine each PCTs' target share of available resources, to enable them to commission similar levels of health services for populations in similar need.

NHS Productivity

John Bercow: To ask the Secretary of State for Health if she will make a statement on productivity in the NHS in each of the last five years. [46223]

Jane Kennedy: Figures published by the Department on 7 December 2005 in "Healthcare Output and Productivity: Accounting for Quality Change" showed that on average, national health service productivity increased by 0.8 per cent. a year, between 1999–2000 and 2003–04, the latest years for which figures are available.

Obesity

Keith Vaz: To ask the Secretary of State for Health what definition of obesity her Department uses. [52701]

Caroline Flint: The body mass index (BMI) is the common method used when evaluating individual people to see if they are under or overweight. This involves comparing their weight to their height by dividing the weight measurement (expressed in kilograms) by the square of the height (expressed in meters).

For adults, the following BMI definitions are used to identify obesity in adults:

BMI	*Definition*
18.5 or less	underweight
Over 18.5 to 25	desirable weight
Over 25 to 30	overweight
Over 30 to 40	obese
Over 40	morbidly obese

With regard to children, clinicians tend to use the 91st and 98th centile when dealing with individual children but for the purposes of population monitoring, children are defined as overweight and obese if their BMI falls above the 85th and 95th centile, respectively, of the reference curve for their age and gender.

A report by the World Health Organisation suggests that increased risk is present when the waist measurement exceeds 94 centimetres (37 inches) for men or 80 centimetres (32 inches) for women.

Keith Vaz: To ask the Secretary of State for Health what have been the findings from research commissioned by her Department on the extent to which morbid obesity runs in families. [52704]

Caroline Flint: No research has been commissioned by the Department on the extent to which morbid obesity runs in families.

Hugh Robertson: To ask the Secretary of State for Health what her most recent estimate is of the number and percentage of children estimated to be obese. [52627]

Caroline Flint *[holding answer 16 February 2006]:* The main source of data on the prevalence of obesity among children is the Health Survey for England (HSE). The HSE supplies an estimate of the prevalence of obesity among children aged two to 10 rather than the actual number of children who are obese. In 2003, the prevalence of obesity among children aged two to 10 years, in England was 13.7 per cent.

Mrs. Dorries: To ask the Secretary of State for Health how many children were obese in each year since 1997; and if she will make a statement. [56149]

Caroline Flint: The main source of data on the prevalence of obesity among children is the Health Survey for England (HSE). The HSE supplies an estimate of the prevalence of obesity for 1997 to 2003 among children aged between two to 15 rather than to specify the actual number of children who are obese.

The results in the table show obesity prevalence for children by sex, aged two to 10, 11–15 and two to 15. The 2003 data which are presented are the most recent available.

Obesity prevalence for children, by age and sex, England, 1997–2003 (National BMI percentile classification): Children aged 2 to 15

Percentage

Obesity prevalence	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Boys

Over the Counter Medicines

Mrs. Maria Miller: To ask the Secretary of State for Health when she expects the better regulation of over the counter medicines initiative to make its recommendations; if she will release minutes of the initiative's consultations with industry and other stakeholders; and if she will make a statement. [56892]

Jane Kennedy: I have asked that the better regulation of over the counter (OTC) medicines initiative delivers its first proposals to simplify regulatory burdens for OTC medicines in April 2006.

The Medicines and Healthcare products Regulatory Agency will publish a full report including its consultations with industry and other stakeholders at that time.

Pandemic Influenza

Mr. Gibb: To ask the Secretary of State for Health what discussions her Department has had with the Department for Education and Skills on contingency planning for an outbreak of pandemic influenza. [54333]

Ms Rosie Winterton: Officials from the Department for Education and Skills (DFES) attend the cross-government working group on pandemic influenza. A Minister from DFES also attends the Cabinet committee on pandemic influenza (MISC 32). The purpose of these meetings is for Government departments to coordinate contingency planning for a future pandemic.

Departmental officials also regularly discuss preparedness with colleagues from DFES in order to support DFES in developing appropriate plans in their sector for a future pandemic.

Parliamentary Questions

Steve Webb: To ask the Secretary of State for Health when she expects to answer Question 32012, tabled by the hon. Member for Northavon on 22 November 2005 on children's teeth. [53605]

Ms Rosie Winterton: A reply was given to the hon. Member on 27 February 2006, *Official Report*, column 426W.

Personality Disorder Services

Mr. Burstow: To ask the Secretary of State for Health what commissioning arrangements will pertain for specialist personality disorder services *(a)* at the Henderson hospital in Sutton and *(b)* in England (i) in 2006–07 and (ii) over the next five years, [54793]

Ms Rosie Winterton: A severe personality disorder service which is based on the therapeutic community model, has been nationally commissioned from the Henderson hospital under the auspices of the national specialist commissioning advisory group since 1998 with a further two units in Crewe and Birmingham opening in 2000.

Specialised services commissioners in the national health service, who will take over responsibility for the commissioning of these services from 1 April 2006, have informed the three host trusts of their intention to commission on a steady state basis for 2006–07 with devolved funding committed to the service. This allows a transitional period during which longer-term commissioning intentions can be agreed.

Across the country regional capacity plans have now been completed outlining strategies for the future development of local personality disorder services. Specialised services commissioners will review their plans for the future commissioning of the severe personality disorder services referred to above in the light of these plans.

Practice-based Contracting

Mr. Meacher: To ask the Secretary of State for Health if she will ensure that effective *(a)* training, *(b)* support and *(c)* guidance is provided to all general practitioners to enable them to use practice based contracting to maximum benefit for patients; and what assessment she has made of the level of resources necessary to achieve such provision. [49629]

Mr. Byrne: To maximise the benefits of practice based commissioning (PBC), the Department has resourced and put in place a comprehensive programme providing training, support, and guidance material for general practitioners (GPs) and primary care trusts (PCTs).

As part of this programme, the national primary care development team will be providing training and support to PCTs and GP practices. In addition, a number of other professional bodies will be supporting their members with PBC these include: the National Association of Primary Care, NHS Alliance, General Practitioners Committee of the British Medical Association, NHS Confederation, and the Royal College of Nurses. Further details of the support programme are available in Annexes A and B of the publication "Practice based commissioning: achieving universal coverage", which is available on the Department's website at: www.dh.gov.uk/assetRoot/04/12/74/25/04127425.pdf.

The Department has also published guidance specifically for clinicians. This includes the document "Practice based commissioning: early wins and top tips" published in February 2006, which contains tips to support PBC and suggestions as to how it can be used to redesign care pathways. This publication is available on the Department's website at www.dh.gov.uk/assetRoot/04/12/82/74/04128274.pdf and it has been issued directly to all GPs.

Psychiatric Secure Accommodation

Richard Younger-Ross: To ask the Secretary of State for Health how many patients detained under the Mental Health and Criminal Justice Acts have absconded from psychiatric secure units over the past 10 years; and how many such absconsions there have been from the Butler Clinic, Langdon hospital, Dawlish. [54838]

Ms Rosie Winterton: The Department does not routinely collect information about absconsions from secure psychiatric units. Information has, however, been obtained in respect of the Butler Clinic, which shows that over the last three years, the period for which accurate information is readily available, 13 patients who were detained under mental health legislation, including those detained under mental health legislation following contact with the Criminal Justice System, were absent from the clinic without agreement. Only one of these patients breached the security of the clinic. The other patient absences related to service users failing to return at the agreed time or failing to return from agreed leave.

Richard Younger-Ross: To ask the Secretary of State for Health what the classifications are of psychiatric secure units within the national health service; and what the classification is of the Butler Clinic, Langdon hospital, Dawlish, South Devon. [54839]

Ms Rosie Winterton: Secure psychiatric units within the national health service are commonly classified as being high secure, medium secure or low secure. NHS trusts providing high secure psychiatric services have to be approved for that purpose by the Secretary of State. In security terms, high secure psychiatric facilities are expected to equate to category B prison standards. The Butler Clinic is classified as a medium secure psychiatric unit. A Design Guide for medium secure psychiatric units was published in 1993.

Raw Milk Products

John McDonnell: To ask the Secretary of State for Health (1) what the Government's policy is on the labelling of raw milk products at retail level; [56072]

(2) what the outcome was of the Government's consultation on the consolidation of EU food hygiene legislation in respect of the labelling of raw milk cheese. [56158]

Caroline Flint: The Food Standards Agency takes the view that raw milk products, including raw milk cheese, should be labelled in accordance with Regulation (EC) No 853/2004. The European Commission has issued guidance about this new hygiene legislation, which explains that raw milk products should be labelled made with raw milk at the point of retail sale in order that consumers can make informed choices.

When stakeholders were asked whether the regulation requires raw milk products to be labelled made with raw milk at retail level, there was no consensus. There was, however, a body of opinion that expressed the view that raw milk products should be so labelled to allow consumers to choose.

Respiratory Syncytial Virus

John Mann: To ask the Secretary of State for Health (1) what assessment her Department has made of the Joint Committee on Vaccination and Immunisation's latest recommendations on the treatment of respiratory syncytial virus for premature babies; and if she will publish those recommendations; [54811]

(2) whether she has concluded her review of the Joint Committee on Vaccination and Immunisation's latest estimate of the number of babies that should receive preventative treatment for respiratory syncytial virus; and if she will publish that estimate. [54812]

Caroline Flint: A summary of the evidence reviewed by the Joint Committee on Vaccination and Immunisation (JCVI) and estimates of the number of babies that this treatment would be recommended for will be made available on the JCVI website shortly.

John Mann: To ask the Secretary of State for Health if she will take steps to ensure that primary care trusts take a pro-active approach in preventing respiratory syncytial virus from infecting premature babies. [55267]

Caroline Flint: Primary care trusts (PCTs) are responsible for the management of services and for specifying the level and quality of services provided. PCTs will in turn be held to account for their performance by the strategic health authority.

Sexual Health

Sandra Gidley: To ask the Secretary of State for Health what assessment she has made of the provision of sexual health services in Hampshire. [54218]

Caroline Flint: It is for strategic health authorities and primary care trusts to determine how services are provided within their area.

Data for 2004 for sexually transmitted infections, including HIV, contraception and abortion are available from the following websites.

www.hpa.org.uk/hpa/publications/hiv_sti_2005/pdf/MtI_FC_report.pdf (Health Protection Agency)

www.ic.nhs.uk/pubs/contraceng2005/sb0506.pdf/file (NHS Health and Social Care Information Centre) www.dh.gov.uk/assetRoot/04/11/75/74/04117574.pdf (Department of Health)

Sandra Gidley: To ask the Secretary of State for Health (1) if the £300 million made available for improving sexual health services in 2006–07 and 2007–08 through the Choosing Health White Paper will be ring-fenced; how the spending will be tracked; and if she will make a statement; [54220]

(2) pursuant to the answer of 25 October 2005, *Official Report*, column 263W, on genito-urinary clinics, what steps she is taking to ensure that the additional investment of £130 million goes directly towards improving genito-urinary services and infrastructure in 2006–07 and 2007–08. [54497]

Caroline Flint: It is for primary care trusts (PCTs) to determine how to use the funding allocated to them to commission services to meet the healthcare needs of their local populations. PCTs and strategic health authorities (SHAs) will receive funding for implementing the targets in the White Paper "Choosing Health: making healthy choices easier" in their mainstream allocations and we will be monitoring the outcomes through the local delivery plan data lines from this investment. The revenue allocations separately identify funding to support the implementation of Choosing Health. This funding is not ring-fenced. A copy of the White Paper is available in the Library.

Sexual health is one of the top six priorities for the national health service in 2006–07. In particular, by 2008 everyone should be offered an appointment within 48 hours of contacting a genito-urinary medicine clinic. SHAs have submitted plans to meet this target. This increased priority for sexual health should significantly strengthen the incentive for local investment and service modernisation.

In addition, a letter has been sent to SHA chief executives highlighting that when considering any savings from implementing "Commissioning a patient led NHS" savings should not be identified from those posts working on implementation of choosing health. This includes posts in frontline services.

John Bercow: To ask the Secretary of State for Health when her Department expects to publish its planned magazine for young people addressing sexual health issues. [55466]

Caroline Flint: We regularly convey our messages to young people on the issue of sexual health via a broad range of publications. Through Dr. Foster Publishing we regularly publish titles such as Your Life! and FIT, which target younger men and women with a host of messages, across a range of health issues including sexual health. These free publications, available from general practitioner surgeries, genitor-urinary medicine clinics and other national health service access points, enable us to deliver key messages in an engaging and relevant way.

In addition, ongoing public relations activity on both sexual health and teenage pregnancy targets publications aimed at young people from 13 to 30 with information to help them to make healthier sexual health choices. However, there are no plans to publish a magazine specifically addressing sexual health.

Smoking

Stephen Williams: To ask the Secretary of State for Health what advice the Government received from the Better Regulation Task Force on restriction of smoking in workplaces. [27343]

Andrew Mackinlay: To ask the Secretary of State for Health if she will place in the Library a copy of *(a)* the Better Regulation Task Force's (BRTF) response to the proposed regulations and exemptions relating to the smoking ban set out in the Health Bill and *(b)* other written comments made by the BRTF on the Bill. [32160]

Caroline Flint: The Government took into account advice from the better regulation task force (BRTF) in deciding on the smokefree provisions of the Health Bill.

The BRTF is an independent body, set up to advise Government on action to ensure that regulation and its enforcement comply with the five principles of good regulation. The Government, through the Cabinet Office, sponsors the BRTF but does not speak for it.

Keith Vaz: To ask the Secretary of State for Health how many deaths have been caused by smoking-related illnesses in each of the last five years. [53878]

Caroline Flint: These figures are not collected annually.

For the latest available data, I refer my hon. Friend to the reply I gave on 14 February 2006, *Official Report*, column 2028W.

Spending Review (Efficiency Targets)

Mrs. Villiers: To ask the Secretary of State for Health (1) how much of the agreed efficiency target for her Department set out in the 2004 Spending Review is to be cashable; and under what budget headings these cashable efficiency savings will be re-spent; [52835]

(2) what total efficiency savings were achieved by her Department in 2004–05; and whether these count towards the agreed efficiency target for her Department set out in the 2004 Spending Review; [52856]

Mrs. Villiers: To ask the Secretary of State for Health what baseline figures she is using for assessing progress on her Department's targets to *(a)* make better use of (i) staff time and (ii) NHS buying power, *(b)* ensure NHS organisations can share and rationalise back office services and *(c)* improve commissioning of social care; what progress has been made towards these targets to date; and what the total efficiency savings achieved to date are for these targets. [52921]

Jane Kennedy: Our efficiency technical Note, first published in October 2004 and updated in December 2005 confirms that at least 50 per cent. of our £6.5 billion

target should be cashable. Cashable efficiency savings have not been allocated to specific national health service budget headings.

In our autumn performance report published in December 2005, we confirmed that £1,031 million of savings were achieved in 2004–05. These savings do contribute to the 2008 target in line with the commitments made in the Gershon Report, "Releasing Resources to the Front Line" and confirmed in the 2004 Spending review settlement.

The efficiency technical note sets out the specific measurement processes, indicators and their baseline dates for calculating efficiency gains. There are over 30 separate processes and indicators appropriate to the different types of efficiency gains. Baseline dates for all efficiency measures are March 2004.

The 2005 autumn performance report summarises efficiency savings achieved by work-stream to September 2005. The total saving up to this date was £1,709 million.

United Health Europe

Steve Webb: To ask the Secretary of State for Health how the contract awarded by North Eastern Derbyshire Primary Care Trust to United Health Europe to run GP practices in Europe was advertised; how many organisations tendered for the contract; how many organisations were shortlisted; and what the criteria were for shortlisting. [53686]

Mr. Byrne: The information requested is not held centrally.

The North Eastern Derbyshire Primary Care Trust (PCT) is responsible for the alternative provider medical services contract in its locality. I refer the hon. Member to the North Eastern Derbyshire PCT.

Waiting Lists/Times

Mr. Wallace: To ask the Secretary of State for Health in what circumstances a patient can be removed from an in-patient waiting list; and what alternative lists they are transferred onto in those circumstances. [51575]

Jane Kennedy: A patient can be removed from an in-patient waiting list for the following reasons:

the treatment is no longer needed—the patient no longer requires treatment or has died,

the treatment is no longer wanted—the patient asks to be removed from the list,

the treatment becomes inappropriate for clinical reasons and

the patient becomes an emergency admission for the same condition.

In each of the four circumstances detailed, the patient would not be transferred on to an alternative waiting list.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 15 November 2005, *Official Report*, column 1179W, on waiting lists/times, what the framework of milestones is which has been agreed with strategic health authorities and against which progress towards the 18-week waiting time target will be measured. [52953]

Jane Kennedy: The framework of milestones agreed with strategic health authorities as part of the local delivery plan guidance is that:

Out-patient waits should generally be less than:

13 weeks by March 2006;

11 weeks by March 2007; and

five weeks by March 2008.

Diagnostic waits should generally be less than:

26 weeks by March 2006, for magnetic resonance imaging (MRI) and computerised topography (CT) scans;

13 weeks for all diagnostic tests by March 2007; and

six weeks for all diagnostics tests by March 2008.

In-patient waits should generally be less than:

26 weeks by March 2006;

20 weeks by March 2007; and

11 weeks by March 2008.

By December 2008, the patient pathway should be 18 weeks inclusive of out-patients, diagnostics, and in-patients waits. National health service organisations are developing local plans to achieve this pathway. The milestones themselves are not targets and as such there is discretion locally as to how best to progress towards 18 weeks overall.

Working with Children

Tim Loughton: To ask the Secretary of State for Health how many individuals who are on the sex offenders' register are currently working in the *(a)* NHS, *(b)* social services departments and *(c)* children's services departments. [44479]

Mr. Byrne: The responsibility for carrying out pre-employment checks, including Criminal Records Bureau, Protection of Children's Act and Protection of Vulnerable Adults checks where applicable, rests with the relevant employer whether an national health service organisation or social services department or other regulated provider of health or social care. The NHS is required to follow the guidance, "Safer Recruitment" issued in May 2005, which covers all the pre-and post-appointment checks that NHS employers are required to make before appointing anyone, including employees, volunteers, students, trainees, to a position in the NHS. In regulated social care, we expect providers to comply with regulations on pre-employment checks made under the Care Standards Act 2000, which came into force in April 2002.

Part 2 of the Sexual Offences Act 2003 replaced Part 1 of the Sex Offenders Act 1997 and Schedule 3 to the 2003 Act came into force on 1 May 2004. The act requires convicted sex offenders to report each year to their local police and inform the police if they change their name or address within three days instead of the previous 14 days.

Written Answers to Questions

Friday 10 March 2006

TRADE AND INDUSTRY

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Trade and Industry when the Parliamentary Under-Secretary of State will reply to the letter of 12 January from the hon. Member for West Worcestershire. [57641]

Malcolm Wicks: I replied to the hon. Member on 6 February as the issues raised fall within my portfolio.

Electricity Supply

Mr. Soames: To ask the Secretary of State for Trade and Industry what minimum *(a)* additional utilities infrastructure, *(b)* additional works to existing electricity supply infrastructure and *(c)* change in per capita consumption of electricity he expects to be required in order to enable an adequate electricity supply to be maintained when the Government have achieved its target for additional new dwellings in Mid Sussex by 2016; and what steps the Government are taking to ensure an adequate electricity supply. [56567]

Malcolm Wicks *[holding answer 6 March 2006]:* This is a matter for the companies concerned, in discussion with their energy providers. However, the Government recognises the importance of infrastructure as an essential element in developing sustainable communities, whether delivered by the private or public sector, and is developing several initiatives to facilitate infrastructure delivery and funding. For example consultation on a Planning Gain Supplement and a cross cutting government review of infrastructure were both announced by my right hon. Friend the Chancellor in December 2005.

Gas Prices

Mr. Hands: To ask the Secretary of State for Trade and Industry what steps the Government are taking to protect consumers from high gas prices; and if he will make a statement. [57130]

Malcolm Wicks: A number of programmes are in place to help vulnerable consumers. In particular, the 2001 Fuel Poverty Strategy set out programmes across the UK with the target that no household in the UK should be in fuel poverty by 2018. Funding for fuel poverty programmes was increased by £300 million in the Chancellor's pre-Budget report.

The Government have no role in setting prices, and cannot direct Ofgem as to its approach to the market, which has delivered gas and electricity prices that remain below the EU 15 median price. Expenditure on energy was, on average, three per cent of household income in 2004/05. The Government are concerned that, at a time of rising prices, all consumers take measures to minimise energy expenditure while properly heating their homes, by choosing the most appropriate supplier and tariff, using the cheapest payment method (usually direct debit), and taking energy efficiency measures.

Geothermal Energy

Mr. Grogan: To ask the Secretary of State for Trade and Industry what assessment he has made of the potential contribution of geothermal energy to meeting *(a)* current and *(b)* future domestic energy requirements. [57282]

Malcolm Wicks: The UK Government have previously assessed the potential geothermal resource from aquifers (permeable rock formations) as part of a broader strategic evaluation of indigenous energy supplies during the 1980s. The conclusions of this work were published in 1986[1]. The results revealed that the resource was limited either because surface temperatures or permeabilities were lower than expected. It is possible that this resource could be developed in the future for commercial or other applications if the resource is sufficiently promising and is in close proximity to a large heat demand.

Between 1977 and 1994 the UK attempted to develop Hot Dry Rock technology. The development of the technology revealed a number of problems. These included the creation of a suitable reservoir, the ability to seal short circuits, and the extrapolation of rock mass characteristics to a depth where temperatures might be sufficiently high enough for electricity generation ($\geqslant$6km). In order to determine the relative performance of an HDR system at this depth a conceptual design for a commercial prototype was developed which provided the basis for resource/cost modelling. This conceptual design highlighted the very high unit costs of generation ($\geqslant$17 p/kWh at 1990 prices). In view of these difficulties it was decided to re-evaluate the costs and performance of HDR systems in combination with collaborative participation in the European programme.

The European HDR programme is still under development and will be further evaluated through the development of a small pilot plant. Its performance will be monitored, however there is no certainty that even if successful the technology would be competitive for the UK.

More recently interest has been growing in the use of Ground Source Heat Pumps. This technology can be applied to buildings of virtually any scale including domestic dwellings. It relies on heat exchange with the ground immediately beneath or close to buildings. There are at least 15 installations connected to commercial or public buildings in the UK, including the recently opened Welsh Assembly building.

The UK Government have directed its efforts into promoting the technology rather than resource assessment, which could be regarded as virtually ubiquitous. Both Defra and the DTI, in collaboration with the Heat Pump Association, have helped establish a UK Heat Pump Network to develop a partnership between manufacturers, specialist advisers, and user

groups. This network will ensure that independent and authoritative advice is available on the application and use of heat pumps.

[1] Geothermal Aquifers, Department of Energy R&D Programme 1976–1986, ETSU-R-39, 1986.

GM Crops

John Bercow: To ask the Secretary of State for Trade and Industry what assessment he has made of the recent WTO ruling on genetically modified crops. [55486]

Ian Pearson: The World Trade Organisation (WTO) Dispute Settlement Body (DSB) issued an interim report to parties on 8 February 2006. According to WTO rules, interim reports are confidential, and they are only circulated to the parties to the dispute in order for them to send comments to the panel. The final panel report will be publicly available and is expected in April.

HOME DEPARTMENT

Public Order

David Davis: To ask the Secretary of State for the Home Department what discussions there were between his Department and the Metropolitan police concerning the protests outside the Danish embassy on 3 February *(a)* before and *(b)* after the event. [50281]

Mr. Charles Clarke: There was no contact between the Home Office and the Metropolitan police before the protest outside the Danish embassy on 3 February. I asked for and received a briefing note about this protest from the Metropolitan police on 6 February.

Terrorism

Judy Mallaber: To ask the Secretary of State for the Home Department what further resources to protect the public against terrorism he plans to allocate. [46009]

Mr. Charles Clarke: I announced, via a written ministerial statement to the House on 25 January 2006, *Official Report*, column 57WS, additional counter-terrorism funding for the police service. Additional police specific counter-terrorism funding is set out in the table.

£ million

	2006–07	*2007–08*
Resource		
Metropolitan Police	30	45
Local and Regional Policing outside of London	33	65
Total	63	110
Capital		
Police Service	30	35

HOUSE OF COMMONS COMMISSION

Mineral Water

Graham Stringer: To ask the hon. Member for North Devon, representing the House of Commons Commission how many bottles of mineral water were purchased by the House of Commons in each of the last three financial years. [56258]

Nick Harvey: The House of Commons purchased the following number of bottles of mineral water in each of the last three financial years:

Number of bottles

	2002–03	*2003–04*	*2004–05*
330 ml bottles	19,176	0	0
500 ml bottles	151,996	159,936	158,712
750 ml bottles	80	16,716	336
1 litre bottles	70,941	53,854	70,021
Total (in litres)	153,402	146,359	149,629

This water was purchased by the Refreshment department for sale in the House of Commons bars and restaurants, and for supply to the Serjeant at Arms' department for use in the Committee and meeting rooms. 22,586 of the 70,021 1 litre bottles purchased in 2004–05 were transferred from the Refreshment department to the Serjeant at Arms' department for this purpose. No figures are available for the number of bottles transferred in previous years, but the quantity is likely to have been broadly similar.

TRANSPORT

Air Transport Users Council

Mr. Fallon: To ask the Secretary of State for Transport what assessment he has made of the *(a)* independence and *(b)* efficiency of the Air Transport Users Council. [56476]

Ms Buck *[holding answer 6 March 2006]:* The Air Transport Users Council (AUC) was set up by the Civil Aviation Authority (CAA) to assist it in its statutory duty to further the reasonable interests of users of air transport services. The Government reviewed this arrangement during the preparation of the White Paper on the Future of Air Transport (2003). It concluded that the arrangement enabled the AUC to function independently of the air transport industry and that it remained a suitable model for representation of air passenger interests in the UK.

The AUC is accountable to the CAA for its efficiency through the CAA's business planning process.

British Transport Police

Chris Grayling: To ask the Secretary of State for Transport what the terms of reference are of the review of the British Transport Police in relation to safety on trains and at stations. [54994]

Derek Twigg: Following my right hon. Friend the Secretary of State for Transport's written statement on 11 October 2005, *Official Report*, columns 27–28WS, copies of the terms of reference for the review of the British Transport Police were placed in the Libraries of the House on 19 October 2005.

Bus Conductors

Chris Grayling: To ask the Secretary of State for Transport how many bus conductors there were in England and Wales in each year since 1997. [54966]

Ms Buck: Decisions on whether to use conductors on bus services outside London are largely a matter for commercial operators. In London, the number of conductors employed is a matter for Transport for London. The Department does not collect information on the number of conductors employed by the industry.

Concessionary Travel

Mrs. James: To ask the Secretary of State for Transport what assessment he has made of the merits of offering *(a)* free and *(b)* concessionary rail travel for senior citizens. [56019]

Derek Twigg: The Department for Transport already ensures that all train operators participate in the Senior Railcard scheme which gives discounts on train travel nationwide for people over 60. Additional concessions for senior citizens may be proposed and funded by local authorities.

Paul Rowen: To ask the Secretary of State for Transport which local authorities outside London and the metropolitan areas have provided free concessionary bus transport on a county basis. [57395]

Ms Buck: There are currently no free countywide concessionary bus travel schemes outside London and the metropolitan areas.

Crossrail

Mr. Greg Knight: To ask the Secretary of State for Transport what the role is of the firm Linklaters in relation to work on the Crossrail project for his Department; and how much has been paid to this firm so far. [51221]

Derek Twigg *[holding answer 14 February 2006]:* Linklaters, who are a firm of solicitors, have been employed by the Department for Transport to provide advice on all commercial legal aspects of the Crossrail project and develop commercial agreements in which the Department has an interest. At present, the Department has not made any payments to Linklaters.

Departmental Telephone Numbers

Anne Milton: To ask the Secretary of State for Transport if he will list the *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public administered by (i) his Department and (ii) agencies which report to him. [56544]

Ms Buck: DfT HQ buildings do not have any centrally provided 0800, 0845 and 0870 numbers. The following DfT Agencies do use such numbers:

DSA has the following numbers:

0870 01 01 372—English Language test bookings
0870 01 00 372—Welsh Language test bookings
0870 01 02 372—Fax test bookings
0870 01 07 372—Minicom test bookings

DVLA has the following numbers:

08000325202—Stockton Vehicle Excise Duty
08456 022006—Automated First Registration and Licensing
08456 060160—Hire Purchase
08702 400009—Customer Inquiry Drivers Main
08702400010—Customer Inquiry Vehicles Main
08702 400669—Newcastle local office
08702 400671—Lincoln local office
08702 400691—Preston local office
08702 400692—Carlisle local office
08702 400695—Stockton local office
08702 401223—Shrewsbury local office
08702 401224—Cardiff local office
08702 401225—Bangor local office
08702 401315—Sheffield local office
08702 401316—Beverley local office
08702 401317 Bristol local office
08702 401318—Chester local office
08702 401319—Worcester local office
08702 401320—Swansea local office
08702 403514—Leeds local office
08702 403515—Luton local office
08702 403516—Sidcup local office
08702 403517—Maidstone local office
08702403518—Birmingham local office
08702 404730—Portsmouth local office
08702 404731—Bournemouth local office
08702 404732—Brighton local office
08702 404734—Exeter local office
08702 406278—Truro local office
08702 406279—Aberdeen local office
08702 406280—Dundee local office
08702 406281—Edinburgh local office
08702 406282—Glasgow local office
08702 406283—Inverness local office
08702 407779—Glasgow Continuous Registration Enforcement Centre
08702 408228—Northampton local office
08702 408229—Peterborough local office
08702 408230—Oxford local office
08702 408231—Ipswich local office
08702 408232—Norwich local office
08702 411269—Stanmore local office
08702 411876—Nottingham local office
08702 411879—Vocational
08702 412146—Manchester local office
08702 412147—Chelmsford local office
08702 415161—Reading local office
08702415450—Drivers Med Diabetes
08702 419034—Northampton Continuous Registration Enforcement Centre
08706 000301—Ordinary Driving Licence
08706 001096—Bournemouth Continuous Registration Enforcement Centre
08706 006767—Wimbledon local office
08708500007—Local office Golden Number
08708500964—Sale of Marks
08708 501074—Tachographs
08708 504444—Electronic Vehicle Licensing

Highways Agency has the following numbers:

National Switchboard: 08459 556575
Highways Agency Information Line: 08457 504030
Finance Query line: 08000 186969
Automated real-time traffic service: 08700 660115

MCA has an Infoline—0870 600 6505.

VOSA has two such telephone numbers:

0870 606 0440—National public inquiries

0845 600 5977—Mainly used by garages although still available to the public.

Siemens (contracted to implement the MOT computerisation scheme) also run an 0870 number on VOSA's behalf—0870 330 0440—MOT certificate validation service.

There is also an old number—0870 010 2607—which used to be the operator licensing number, although it now redirects callers to the national public inquiry line.

Discretionary Travel Schemes

Paul Rowen: To ask the Secretary of State for Transport if he will list the discretionary travel schemes which have been adopted in each Passenger Transport Executive area in addition to the free off-peak bus travel. [56738]

Ms Buck *[holding answer 7 March 2006]:* All schemes must meet the statutory minimum entitlement by 1 April 2006. The Department does not yet have full details of any discretionary enhancements that will be offered in PTE areas. We will carry out a comprehensive survey of concessionary fares schemes later in the year.

Evesham Station

Peter Luff: To ask the Secretary of State for Transport what involvement his Department has had in the provision of disabled access to the up platform at Evesham station; what assessment he has made of the reasons for the delay to the project; and if he will provide financial assistance to meet cost increases attributed to decisions and requirements of his Department. [56608]

Ms Buck: All access improvements at stations are required to meet the requirements of the Train and Station Services for Disabled Passenger Code of Practice. Where an operator considers that they are unable to do so they can seek a dispensation from the Department.

First Great Western Link (FGWL) sought a dispensation for the ramp to the up platform because it failed to provide adequate resting places and each section of the ramp would be twice the required length. The dispensation was refused on 20 December 2005 on the grounds that the ramp would be unsuitable for many of the disabled passengers for which it was intended.

We understand that an alternative design for the ramp is being considered. The Department has indicated to FGWL that we will consider an application to use its Small Works Budget to make up the shortfall in funding. We understand that FGWL are awaiting a decision from Worcestershire County Council about co-funding of the scheme.

Government Car and Despatch Agency

Mr. Leech: To ask the Secretary of State for Transport how many unelected people are provided with cars by the Government Car and Despatch Agency; and what the cost to public funds was in 2004–05. [53377]

Ms Buck: I refer the hon. Member to the answer given by my hon. Friend the Parliamentary Secretary to the Cabinet Office, to the hon. Member for Lewes (Norman Baker) on 22 November 2005, *Official Report*, column 1889W, and to the letter of 20 December from Roy Burke, the chief executive of the Government Car and Despatch Agency to the hon. Member, copies of which were placed in the Libraries of the House.

Infrastructure Fund

Chris Grayling: To ask the Secretary of State for Transport how much his Department will be contributing to the Community Infrastructure Fund in each of the next five years. [54968]

Ms Buck: The Community Infrastructure Fund, jointly managed by this Department and the Office of the Deputy Prime Minister, comprises £50 million in 2006–07 and £150 million in 2007–08. Any future funding will depend on the outcome of the 2007 Spending Review.

Insecticides

Norman Baker: To ask the Secretary of State for Transport whether it is mandatory for airlines to spray insecticide in the interior of aircraft cabins on flights arriving in the UK; what rules govern this practice; what insecticides are permitted for use; and if he will make a statement. [57393]

Ms Buck: The use of insecticide is required under the International Health Regulations of the World Health Organisation (WHO) on flights to or from certain destinations to prevent infectious and contagious diseases. This process is known as disinsection.

Rules established by the International Civil Aviation Organisation (ICAO) require that disinsection does not injure or cause discomfort to passengers or crew. These rules permit the use of certain insecticides, which have the approval of and are recommended by the WHO, based on their efficacy and minimal human toxicity. The rules are binding on ICAO contracting states.

Within Great Britain, the Public Health (Aircraft) Regulations 1979 lay down provisions intended to prevent infectious and contagious diseases. These provisions are enforced at airports by the local port health authority.

All pesticides used for aircraft disinfection in Great Britain must be approved by the Health and Safety Executive (HSE) under the Control of Pesticides Regulations 1986.

ICAO is looking into alternative methods of keeping mosquitoes and other insects out of the aircraft cabin. These methods include wind curtains at entrances and mechanical devices. If there is evidence to suggest alternative methods are more effective that the current methods, ICAO will consider a review of the disinsection process.

M5 (Junction 14)

Mr. Drew: To ask the Secretary of State for Transport for what reasons full traffic lights have been introduced

at junction 14 on the M5; and what evidence his Department has collected of traffic flow problems at that junction. [57198]

Dr. Ladyman: Traffic lights were installed at junction 14 on the M5, due to the number of personal injury accidents as a result of turning movements to and from the B4509. All of these accidents occurred outside the morning peak period.

Measurements of traffic flows on the north and south bound exit slip roads of the M5 were taken in both March and September 2005 and a full peak hour vehicle movement survey was undertaken in November 2005. The traffic lights are switched off between 7am and 9am. The implementation of full time traffic lights will only occur if the Highways Agency is confident that this will not result in significant queues.

The junction will continue to be monitored for safety and operational reasons to identify whether further modifications are necessary to the phasing of the lights.

Northern Rail

Paul Rowen: To ask the Secretary of State for Transport whether he has any plans to reduce the annual subsidy given to Northern Rail. [57394]

Derek Twigg: There are no plans to reduce the annual subsidy given to Northern Rail.

Queen's Birthday

Anne Main: To ask the Secretary of State for Transport what plans his Department has to celebrate Her Majesty's 80th birthday; what advice he has issued to his Department's executive agencies on celebrations for the birthday; and if he will make a statement. [54188]

Ms Buck: The Department has no special arrangements planned to celebrate Her Majesty's 80th birthday.

All staff are entitled to one day privilege leave every year during May to mark Her Majesty's birthday.

The Department will fly the Union Jack on Her Majesty's birthday on 21 April and during the official celebration of Her Majesty's birthday on 17 June.

Road Improvements

Chris Grayling: To ask the Secretary of State for Transport what the timetable is for the additional £600 million announced on 15 February 2006 to be made available to help local authorities modernise and update their local roads. [54963]

Ms Buck: The deadline for the return of expressions of interest (Eois) in pathfinder schemes for highway maintenance schemes procured through the private finance initiative is 10 September 2006. We will then consider which local authorities should be invited to prepare an outline business case (OBC). It is anticipated that the time required to prepare an OBC for these schemes, which are likely to be complex, will be approximately a year. Each local authority is required to propose their own timetable for procurement with both their Eoi and OBC. These will be considered as part of the assessment process.

Transport Provision (Forest of Dean)

Mr. Harper: To ask the Secretary of State for Transport whether *(a)* he, *(b)* Ministers in the Department and *(c)* his Department's officials have had recent discussions regarding the development of the (i) rail and (ii) road network in Forest of Dean constituency. [55490]

Ms Buck: No recent discussions have been held on the development of rail and road network specifically in relation to the Forest of Dean. However, officials have held discussions recently with Gloucestershire county council in relation to the council's local transport plan for the period 2006–11.

It is for Gloucestershire county council, the local transport authority, in consultation with members of the community, key stakeholders and partners (including Forest of Dean district council), to determine local transport priorities and the provision of services.

Travel to School

Chris Grayling: To ask the Secretary of State for Transport what percentage of *(a)* primary and *(b)* secondary school children get to school by (i) walking, (ii) cycling, (iii) travelling by bus, (iv) travelling by car and (v) another method. [54989]

Ms Buck: Data from the National Travel Survey on the percentage of trips in 2004 made by children travelling to and from school by mode and age are given in the following table.

Trips to and from school by main mode, 2004, Great Britain

Percentage

Mode	*Age five to 10*	*Age 11 to 16*
Walk	50	44
Cycle	1	3
Local/private bus	7	29
Car/van	41	22
Other method	1	3

DEFENCE

Lisbon Agenda

Keith Vaz: To ask the Secretary of State for Defence what policies his Department has adopted to assist the United Kingdom's fulfilment of the Lisbon Agenda criteria. [55687]

John Reid: The Government strongly support the renewed Lisbon focus on "jobs and growth" as the best way to meet the challenges of globalisation and boost prosperity and living standards for all. The UK National Reform programme details the Government's policy response to these challenges. The Defence Industrial Strategy reflects our commitment to this. We expect the spring council in March to emphasise the importance of implementation of national commitments to reform.

QinetiQ

Dr. Cable: To ask the Secretary of State for Defence what factors influenced the decision to sell the initial stake in QinetiQ in 2002 to Carlyle, as opposed to other major bidders. [44180]

John Reid: A range of factors were taken into account in the assessment of the bids, but the main criterion was value for money for the taxpayer. Carlyle offered the best combination price and a low level of equity holding in the company, as well as offering a strategy for value creation that was consistent with the Ministry of Defence's overall objectives for the public private partnership.

Royal Air Force

Mr. Lancaster: To ask the Secretary of State for Defence what the *(a)* establishment and *(b)* actual strength is of the Royal Air Force, broken down by trade. [54882]

Mr. Touhig: The establishment and actual trained strength of the Royal Air Force by trade as at 1 January 2006 is given in the following table:

RAF Trade	*Establishment*	*Strength*
Eng Tech A	2,700	3,090

Notes:

1. All figures of 50 or more have been rounded to the nearest 10 with figures ending in five rounded to the nearest 20. Figures less than 50 have been rounded to the nearest five.

2. Totals and subtotals have been rounded after summing so may not appear to be the sum of their constituent parts.

Spring

Sir Nicholas Winterton: To ask the Secretary of State for Defence whether the Meteorological Office has changed the date on which spring is recognised as beginning. [55751]

Mr. Touhig *[holding answer 3 March 2006]:* The Met Office has not changed the date on which the start of spring is commonly defined and widely recognised. The Met Office definition of spring, unchanged for at least 90 years, agrees with the current first listed Oxford Dictionary definition. This is based on vegetation changes through the year.

In meteorology the seasons are taken to be as follows: spring: March, April and May; summer: June, July and August; autumn: September, October and November; winter: December, January and February.

UKHO

Mr. Harper: To ask the Secretary of State for Defence what assessment he has made of potential conflicts of interest arising from the United Kingdom Hydrographic Office's (UKHO) acquisition of SevenCs, with regard to *(a)* the market share accruing to UKHO as a result of the acquisition and *(b)* the impact of the UKHO's commercial distribution of marine data products on its statutory role in safeguarding life at sea. [53043]

Mr. Touhig: The acquisition has had no noticeable effect on the UKHO's share of the market for data used in marine navigation. No additional share of that market has accrued to the UKHO as a result of the acquisition. Therefore no potential conflict of interest is perceived as arising from the acquisition.

The UKHO's commercial distribution of marine data products does not give rise to any conflict of interest in relation to safeguarding life at sea.

Mr. Harper: To ask the Secretary of State for Defence pursuant to the answer of 1 February 2006, *Official Report*, column 514W, on SevenCs, if he will make a statement on the relationship between the UK Hydrographic Office's obligations under the International Convention for the Safety of Life at Sea and its responsibility to ensure an open system. [53253]

Mr. Touhig: The UK's obligation under the convention is to make available data that meet the convention's carriage requirements, so enabling the mariner to comply with the regulations applicable to UK waters and to UK-flagged shipping. This is best achieved where open systems exist.

Mr. Harper: To ask the Secretary of State for Defence pursuant to the answer of 1 February 2006, *Official Report*, column 514W, on SevenCs, what is his assessment of what the barriers to an open market in the digital navigational industry were prior to the acquisition of SevenCs by the UK Hydrographic Office. [53254]

Mr. Touhig: Prior to acquisition the route to market for digital navigational data was open, via the SevenCs software. The acquisition means that the UKHO can ensure that it remains so.

WORK AND PENSIONS

Child Poverty

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions how many and what percentage of children in poverty *(a)* whose parents were in work and *(b)* whose resident parent was in work lived in (i) lone parent households and (ii) non-lone parent households in each year for which figures are available. [43824]

Margaret Hodge: We recognise that work is the best way out of poverty for all families, including lone parent households. Our successful labour market policies have contributed to a lone parent employment rate of 56.6 per cent., a record high, up 11 percentage points since 1997.

The seventh annual 'Opportunity for all' report (Cm 6673) sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of indicators. Significant progress has been made and since 1997 the number of children in relative low-income has fallen by 700,000 on an after housing costs basis and the number of children in workless households has fallen by 400,000. Detailed information about the number and proportion of children living in low income households is published in "Households Below Average Income 1994/95–2003/04", available in the Library.

Information is not available on the number and percentage of children whose parents are in work, because our data source does not collect sufficient information on non-resident parents.

The number and composition of children living in low-income households where (i) the resident parent was in work and lived in a lone-parent household or (ii) the resident parent was in work and lived in a couple household or (iii) where no resident parent works, for incomes reported on the before housing costs and after housing costs measures of income are contained in the following tables:

Table 1: Number and composition of children living in relative low income households, by household type. Before housing costs

	(i) Children in lone parent low-income households where the resident parent works		*(ii) Children in couple low-income households where a resident parent works*		*(iii) Children in low-income households where no resident parent works*		*Total children in low income households*	
	Number (million)	*Percentage*	*Number (million)*	*Percentage*	*Number (million)*	*Percentage*	*Number (million)*	*Percentage*
1996–97	—	—	—	—	—	—	3.2	100
1997–98	0.2	7	1.3	41	1.6	52	3.1	100
1998–99	0.2	7	1.3	41	1.6	52	3.1	100
1999–2000	0.2	8	1.2	41	1.5	51	3.0	100
2000–01	0.2	7	1.1	40	1.4	53	2.7	100
2001–02	0.2	9	1.1	41	1.3	50	2.6	100
2002–03	0.3	10	1.0	40	1.3	50	2.6	100
2003–04	0.2	8	1.1	41	1.3	51	2.6	100

Table 2: Number and composition of children living in relative low income households, by household type. After housing costs

	(i) Children in lone parent low-income households where the resident parent works		(ii) Children in couple low-income households where a resident parent works		(iii) Children in low-income households where no resident parent works		Total children in low income households	
	Number (million)	Percentage	Number (million)	Percentage	Number (million)	Percentage	Number (million)	Percentage
1996–97	—	—	—	—	—	—	4.2	100
1997–98	0.3	8	1.6	38	2.2	53	4.1	100
1998–99	0.4	10	1.6	38	2.1	52	4.1	100
1999–2000	0.4	10	1.5	38	2.1	53	4.1	100
2000–01	0.4	9	1.5	39	2.0	52	3.8	100
2001–02	0.4	11	1.4	37	2.0	52	3.7	100
2002–03	0.4	12	1.3	37	1.8	51	3.5	100
2003–04	0.3	8	1.4	39	1.8	53	3.5	100

Notes:
1. Relative low income here is defined using the below 60 per cent. of contemporary median low income threshold.
2. A parent-child relationship here is a parent-son/daughter relationship which includes adopted children. It excludes step-children and foster children.
3. A lone-parent household is defined here as one containing a single person with a dependent child (that is it includes households containing other individuals).
4. Full information on inter-household relationships is only available from 1997–98.

Source:
Family Resources Survey (FRS).

Carers

Tim Loughton: To ask the Secretary of State for Work and Pensions what guidance his Department has given to Jobcentre Plus on the support they should offer to young carers. [51521]

Margaret Hodge: In the National Strategy for Carers, "Caring About Carers", published in February 1999, the Government set out how we will support carers of working age to remain in work or to return to work when their caring responsibilities allow them to do so.

Carers do face additional barriers to work—in particular the need for and cost of alternative care arrangements during their working hours. Carers may also have been out of the labour market for long periods of time with the loss of confidence and lack of relevant skills that can entail.

The Department for Education and Skills supports carers who are under the age of 18, enabling them to benefit from health care, social care and education. The Connexions Service plays an important role by providing a network of personal advisers who are able to provide advice and support to these young people, as well as putting them in touch with appropriate specialist and support services.

DWP provides a similar service through Jobcentre Plus to support those on working-age benefits. Carers have access to a Personal Adviser who will give them advice on jobsearch techniques and vocational training opportunities, whether they are still caring or their caring responsibilities have come to an end.

Post Office Card Accounts

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many people have used the Post Office card account (POCA) in each year since it was introduced; how much the Post Office receives for each POCA payment it makes; and what other administrative costs the Government pay in respect of each POCA transaction. [52623]

Mr. Plaskitt: The information is not available in the format requested.

The Post Office card account service was introduced in April 2003.

The following table shows the number of Post Office card accounts in use since it was introduced.

Date	Number of Post Office card accounts in use
March 2004	834,773
March 2005	4,183,666
December 2005	4,270,412

In addition to accounts used by my Department these figures include Post Office card accounts used by the Northern Ireland Social Security agency, the Veterans Agency (Ministry of Defence) and Her Majesty's Revenue and Customs.

The annual cost to the Department of the Post Office card account for the first three years from April 2003 averaged £173 million.

Currently the average cost to my Department of making a payment into a Post Office card account is approximately £1.

Teenager Poverty

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of those aged 16 to 19 years are living in poverty; what research he has conducted on levels in other EU countries; and if he will make a statement. [41403]

Margaret Hodge: The seventh annual 'Opportunity for all' report (Cm 6673) sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of indicators.

Detailed information about the number and proportion of children living in low income households is published in "Households Below Average Income 1994/95–2003/04", available in the Library. The report includes comparisons of incomes against low income

thresholds, such as the commonly used relative low income threshold of 60 per cent. of contemporary median income.

The following table shows the proportion of those aged 16–19 years in Great Britain living in households with incomes below 60 per cent. of median in 2003–04.

Percentage

Type of 16 to 19-year-olds	*Before housing costs*	*After housing costs*
Dependent children[1]	19	23
Adults[2]	21	28
All 16 to 19-year-olds	20	26

[1] Dependent children are those 16 to 19-year-olds treated as the responsibility of an adult.
[2] Adults are here defined as those 16 to 19-year-olds who are living independently of any responsible adult.

We take very seriously the problem of poverty and under-achievement within this group, particularly those who are not in employment, education or training (the NEET group). One of the characteristics of this group is the volatility of their circumstances which makes estimating numbers difficult. But our research into the problems faced by 16 and 17-year-old gives an estimated UK figure of 150,000 or 1 in 8 of the age group as NEET at any one time.

This Department has not carried out any comparative research on poverty levels among 16 to 19-year-olds in EU countries. However, together with Department for Education and Skills and HM Treasury, we have conducted a review of financial support for 16 to 19-year-olds. We have commissioned research into the support systems available in OECD counties. This found that most OECD countries have complex and often fragmented systems of financial support for 16 to 19-year-olds. The exception is Australia which has developed a unitary, large-scale system aimed at increasing the participation of young people in education, training and employment.

As a result of our work we have introduced measures that come into force in April 2006, including the extension of financial support beyond the age of 19 to enable young people to complete their courses.

Unemployment

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many *(a)* people aged 25 to 49 years, *(b)* women aged 50 to 59 years and *(c)* men aged 50 to 64 years have been unemployed for more than 18 months in each month in each year since 1992. [56968]

John Healey: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 10 March 2006:

The National Statistician has been asked to reply to your Parliamentary Question about duration of unemployment. I am replying in her absence. (56968)

Information relating to unemployment for 18 months and over is not readily available. However, I am placing in the House of Commons Library a table giving estimates of the number of people resident in the United Kingdom who were unemployed for 2 years or more. It covers people aged 25 to 49 years; women aged 50 to 59 years; and men aged 50 to 64 years, in each month from 1992 to 2005.

These seasonally adjusted estimates from Labour Force Survey (LFS) are, as with any sample survey, subject to a margin of uncertainty.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Cetaceans

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what resources have been deployed by her Department during the last three years to assess, monitor and measure the *(a)* level and *(b)* cause of cetacean strandings on the western approaches; and to which institutions. [56151]

Mr. Bradshaw: Strandings data is obtained under the DEFRA-funded UK Cetacean and Turtle Strandings Scheme. The scheme is co-ordinated by the Natural History Museum in partnership with the Institute of Zoology, the Scottish Agricultural College and Marine Environmental Monitoring. Over the past three years, DEFRA has provided total funding of £1,296,322 to these organisations to carry out this scheme across the UK.

During this period, DEFRA has also commissioned an associated research project investigating anthropogenic acoustic damage to cetaceans in UK waters, through the detailed examination of the auditory apparatus of stranded or by-caught cetaceans. To date, DEFRA has provided the Institute of Zoology with total funding of £25,000 to undertake this work.

Fisheries

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many of the UK vessels using bottom set gillnets and tangle nets in ICES areas VII e, f, g, h and j that are required to use acoustic deterrent devices (pingers) as of 1 January to prevent the deaths of harbour porpoises and other cetaceans *(a)* are complying with this requirement by using pingers and *(b)* are not using pingers; how much

netting effort this represents in each case; and what measures she has in place (i) to enforce compliance and (ii) to assess the efficacy of this measure in preventing the incidental capture of porpoises; [55455]

(2) what measures she plans to put in place to *(a)* ensure that UK fishing vessels using bottom set gillnet or entangling net in ICES areas VII e, f, g, h and j comply with the requirement to use accoustic deterrent devices from 1 January 2006 under Regulation (EC) No. 812/2004 and *(b)* assess the efficacy of this measure in preventing the incidental capture of harbour porpoises; [38833]

(3) what steps are being taken to prevent the deaths of harbour porpoises and other cetaceans in UK gillnet and tangle net fisheries in the Western Channel and Celtic sea caused by vessels which fail to use acoustic deterrent devices from 1 January 2006. [38834]

Mr. Bradshaw *[holding answers 2 March 2006]:* The Seafish Industry Authority (Seafish) has produced a report on the efficacy, costs and availability of pingers. My officials are in active discussions with the Cornish Fish Producers Organisation, Seafish and the pinger manufacturers to address the issues raised in the report and are undertaking final trials to establish the most suitable device. Further, the European Commission, responding to a paper submitted by the Irish Government, are holding a meeting of technical experts from affected member states to consider the Seafish report and others from France and Ireland which reached similar conclusions.

This will mean that there will be delay in implementing the obligations of the regulation. I consider, however, that it is important that we are sure that the devices to be used are both effective for the industry and offer maximum protection to porpoises.

Landfill

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of capacity in landfill sites in England has been used in each of the last five years. [54323]

Mr. Bradshaw: Land raising, settlement and variations in density of the materials deposited, together with re-use of old areas within sites means that information is not usefully recorded in the form requested. Estimates in cubic metres of the remaining capacity of all licensed landfill sites were published in 1999 by the Environment Agency as Strategic Waste Management Assessment reports covering the nine planning regions of England. These showed an estimated remaining landfill capacity in England in excess of 27 billion (thousand million) cubic metres.

Recycling (Herefordshire)

Mr. Keetch: To ask the Secretary of State for Environment, Food and Rural Affairs what targets her Department has put in place to encourage Herefordshire council to recycle *(a)* domestic waste and *(b)* commercial waste. [56723]

Mr. Bradshaw: All local authorities in England have been set a statutory recycling/composting target for municipal waste. Herefordshire council's target for 2005–06 is 21 per cent. These targets were reviewed and consulted on in 2005. The responses are currently undergoing analysis and a decision on future targets will be made on completion of that process.

To date local authorities have not been set recycling targets for commercial waste.

As an authority with waste disposal duties Herefordshire council has also been set a landfill allowance for the amount of biodegradable municipal waste (BMW) it sends to landfill. These allowances are designed to ensure England fulfils its obligation under the EU landfill directive to reduce the amount of BMW sent to landfill to 75 per cent. of the 1995 level produced by 2010, 50 per cent. by 2013 and 35 per cent. by 2020.

The allowance for each local authority is based on the amount of BMW it sent to landfill in 2001–02 and is driving local authorities to recycle/compost as much of this material as possible. The allowance for all waste disposal authorities for each year until 2020 is available on the DEFRA website at:

http://lats.defra.gov.uk/Default.aspx?Menu=register&Module=publicRegister/wdaRegister

INTERNATIONAL DEVELOPMENT

Commission for Africa

Andrew George: To ask the Secretary of State for International Development what timetable he has set for the implementation of the recommendations of the Prime Minister's Commission for Africa. [57534]

Hilary Benn: The Commission for Africa Report set out a wide range of recommendations for African countries and their donor partners. Each recommendation has its own timetable. This is reflected in the detailed report on what the UK has been doing to take forward the Commission's recommendations and make sure that the G8's commitments are implemented which has been deposited in the Libraries of both Houses today. It is vital that we all deliver on the promises of 2005.

Andrew George: To ask the Secretary of State for International Development what mechanisms his Department has put in place to ensure that the recommendations of the Commission for Africa are fully implemented. [57535]

Hilary Benn: As recommended by the report of the Commission for Africa, we are supporting the development of effective monitoring. As the UK, the Government have already published a Gleneagles Plan of Implementation setting out the milestones we need to meet to stay on track for delivery of the overall G8 package agreed last year which encompassed many Commission for Africa recommendations. This has been placed in the Library of both Houses and is updated regularly.

The UK Government have regular meetings at ministerial level to monitor implementation of CFA and G8 commitments. At the international level, the Africa Partnership Forum will be tracking delivery on the basis

of a Joint Action Plan, which brings together the commitments of Africa and her development partners for the first time.

One year on from the launch of the Commission's report, and eight months after the Gleneagles Summit, this is a good time to take stock of progress. I am depositing in the Libraries of both Houses today a detailed report on what the UK has been doing to take forward the Commission's recommendations and to make sure that the G8's commitments are implemented.

Andrew George: To ask the Secretary of State for International Development what steps his Department has taken to implement the recommendation by the Commission for Africa on the use of assessments of how to reduce the risk of violent conflict and improve human security in formulating country and regional assistance strategies. [57536]

Hilary Benn: The Commission for Africa Report set out a wide range of recommendations for African countries and its donor partners. Each recommendation has its own timetable. This is reflected in the detailed report on what the UK has been doing to take forward the Commission's recommendations and make sure that the G8's commitments are implemented, which has been deposited in the Libraries of both Houses today.

Specific examples of DFID's work on improving and increasing the use of conflict assessments include:

Much of the UK's conflict work in Africa is carried out through the interdepartmental (DFID, the Foreign and Commonwealth Office and the Ministry of Defence) Africa Conflict Prevention Pool (ACPP). Over the past few months, the ACPP has commissioned work on baseline conflict trends in Africa, this gives a much clearer picture of conflict across the continent and will be used to inform and revise sub-regional strategies for the ACPP and other UK government activities.

DFID's own Security and Development paper also recommended that country programmes should undertake more conflict assessments. Following on from this, DFID has recently undertaken a review of the use of Strategic Conflict Assessments throughout our country programmes. The report concludes with a range of recommendations to increase the use and improve the quality of conflict assessments among DFID country programmes and to mainstream these.

DFID has previously undertaken or supported conflict assessments, as part of the development of country assistance strategies, in Nigeria, Mozambique, Kenya, Angola, Uganda and, more recently, in Somalia.

TREASURY

Departmental Telephone Numbers

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many call centres were run by his Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone in each year; [23294]

(2) when he expects to answer question reference 23294 tabled by the hon. Member for Yeovil. [33747]

Dawn Primarolo: I very much regret that I have not been able to let the hon. Gentleman have an earlier reply.

The number of contact centres operated by HM Revenue and Customs and the two predecessor departments (Inland Revenue and HM Customs and Excise) in each relevant year are shown in the following table:

	HM Customs and Excise	*Inland Revenue*	*HM Revenue and Customs*
2003–04 (as at 5 April 2004)	6	21	None
2004–05 (as at 5 April 2005)	6	22	None
2005–06 (as at 1 March 2006)	None	None	28

Within the limitations of underlying data systems, HM Revenue and Customs best available estimates of call volumes for each relevant year are shown in the following table:

All figures in millions rounded to nearest 100 thousand

	2003–04	*2004–05*	*2005–06 (to 31 December 2006)*
Calls handled[1]	35.3	48.7	42
Calls received but abandoned[2]	6.1	2.7	3.3
Calls encountering an engaged tone[3]	25.4	31	63

[1] Where the caller spoke to an adviser.
[2] Where the caller selected an option from the call steering menu and was put in a queue to speak to an adviser but the call was terminated before the caller spoke to an adviser.
[3] Call attempts where the caller was played an engaged tone.

Correspondence

David Taylor: To ask the Chancellor of the Exchequer when the Financial Secretary will reply to the letter of 23 December 2005 from the hon. Member for North-West Leicestershire on the classification and use of reprocessed fuel oils. [57538]

John Healey: I have replied to the hon. Member.

Sir Michael Spicer: To ask the Chancellor of the Exchequer when the Economic Secretary will reply to the letter of 15 December 2005 from the hon. Member for West Worcestershire (PO Ref: 5/00563/2005). [57639]

Mr. Ivan Lewis: I have replied to the hon. Member and very much regret not having been in a position to do so earlier.

Sir Michael Spicer: To ask the Chancellor of the Exchequer when the Paymaster General will reply to the correspondence from the hon. Member for West Worcestershire (HMT Ref: 3385N 05/06). [57642]

Dawn Primarolo: I have asked Sir David Varney to reply to the hon. Member and he has done so today.

Electoral Registration

John Mann: To ask the Chancellor of the Exchequer (1) which 100 electoral wards have the lowest registration levels; [57735]

(2) how many electoral wards in the UK have registration levels below 80 per cent. [57736]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 10 March 2006:

The National Statistician has been asked to reply to your recent Parliamentary Questions concerning the number of electoral wards in the UK which have registration levels below 80 per cent. and the 100 electoral wards which have the lowest registration levels. I am replying in her absence. (57735 & 57736)

Data for Scotland are not available, and therefore this response reflects England, Wales and Northern Ireland only. Using the most recent electoral data for which estimates of the population aged 18 and above are available in order to calculate the registration rate, the number of electoral wards with a registration rate below 80 per cent. is 257. This represents 2.7 per cent. of the 9,421 wards in the England, Wales and Northern Ireland for which electoral registration rates have been calculated. I am placing in the House of Commons library a table listing the 100 electoral wards which have the lowest registration rates in ascending order.

It should be borne in mind that the percentage of the resident population who are registered to vote does not provide a reliable estimate of the registration rate of the eligible population. This is mainly because there are definitional differences between "usually resident" and eligibility to vote and therefore the estimated resident population aged 18 and over is not the same as the number of people eligible to vote. For example, the resident population includes all those who usually live in an area irrespective of nationality, whereas the parliamentary electorate excludes foreign nationals (but Commonwealth and Irish citizens are included) and may include some overseas electors who do not currently live in the area. Further, there is inevitably some double counting of the registered electorate. This can occur for a number of reasons. People who have more than one address, including students, may register in more than one place. Electoral registration officers may vary in how quickly they remove people from the registers after they have moved away from an area or after they have died.

For England and Wales, the closest available geography to current electoral wards, for which population estimates are available, is Census Area Statistics (CAS) wards. This geography was created for outputs from the 2001 Census and is based mainly on 2003 electoral wards.

The electorate counts are on electoral ward boundaries and so it has been necessary to convert these to the CAS ward geography.

The England and Wales ward registration rates have been calculated using December 2002 parliamentary electors, including attainers and the latest available ward population estimates which are for mid-2002. The parliamentary electorate has been used rather than the local government electorate, even though the latter is definitionally closer to the resident population, because the local government electorate is not available at ward level.

The registration rates are based on population estimates that are subject to a margin of confidence, which is proportionately larger for ward level estimates than for local authority estimates. The CAS ward population estimates have been published with the status of "experimental statistics". Therefore, the registration rates derived from them, should be treated with some care.

Where there are large differences between the electorate counts and population aged 18 and over, these cases may be attributable to: definitional differences between the estimates and electoral counts; the margin of confidence in the ward estimates; the accuracy of the electoral registers; and limitations in the methodology used to convert electoral counts to the CAS ward geography.

The Northern Ireland registration rates have been calculated using the December 2001 electorate (which reflects those resident and eligible to vote in October 2001), and the latest available ward population data which are from the 2001 Census, taken on 29 April 2001. The ward electorate counts include all those registered to vote in any election. These counts do not exclude foreign nationals but do include overseas electors.

England, Wales and Northern Ireland: Electoral wards with the lowest derived registration rates, December 2001 or December 2002 electorate

[1] Wards which fall within two parliamentary constituencies.

Notes:

1. For England and Wales the registration rates are based on December 2002 electorate counts and mid-2002 population estimates.
2. For Northern Ireland the registration rates are based on December 2001 electorate counts and the 2001 Census population.
3. Data for Scotland are not available.
4. For England and Wales the electorate counts are not necessarily consistent with the statutory RPF 29 returns, due to the need for population estimation purposes to convert historic electorate counts on different ward geographies onto a consistent ward geography i.e. Census Area Statistics ward geography. Missing electorate data have been imputed.

Office for National Statistics

Iraq

Mr. MacDougall: To ask the Chancellor of the Exchequer what his latest estimate is of the cost to public funds of the Iraq war. [57734]

Mr. Des Browne: The net additional costs of operations in Iraq to 31 March 2005, as recorded in the Ministry of Defence's Annual Reports and Accounts, total £3,068 million as follows:

£ million

Financial year	Amount
2002–03	847
2003–04	1,311
2004–05	910

Estimated annual costs for operations in Iraq of £1,098 million in 2005–06 were included in the MoD's Spring Supplementary Estimate. Final figures will be published by the MoD in their Annual Report and Accounts for 2005–06 following audit by the NAO.

Pensions

Vera Baird: To ask the Chancellor of the Exchequer what assessment he has made of the likely impact on private pension savings of the taxation changes which will come into force in April 2006. [57879]

Mr. Ivan Lewis: The Finance Act 2004 introduces, from 6 April 2006, a radical simplification of the pension tax rules that will sweep away the complexity in the current rules and introduce greater choice, flexibility, transparency, clarity and cost-efficiency. This should benefit the vast majority of those who save for a private pension.

The Regulatory Impact Assessment (RIA) of April 2004 "Simplifying the Taxation of Pensions" (ww.hmrc.gov.uk/ria/simplifying-pensions.pdf) and the annex to that RIA of March 2005 (www.hmrc.gov.uk/ria/simplifying-pensions-appendix.pdf) set out the Government's assessment of the impact of the new rules including the plans to evaluate their effects on changes on private pension saving.

Population Statistics

Mr. Hollobone: To ask the Chancellor of the Exchequer what assessment his Department has made of the assumptions underlying the Office for National Statistics' population projections. [57392]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 10 March 2006:

The National Statistician has been asked to reply to your recent Parliamentary Question concerning what assessment has been made of the assumptions underlying the Office for National Statistics' population projections. I am replying in her absence. (57392).

An analysis of the accuracy of the national population projections made between 1971 and 1989 was published in the autumn 1994 edition of Population Trends (issue 77, Accuracy and uncertainty of the national population projections for the United Kingdom). This analysis was carried out following the rebasing of population estimates after the 1991 Census. An updated analysis following the 2001 Census rebasing is planned for later in 2006. It has been delayed because of the need to take account of the revisions made to population estimates in 2003 and 2004.

The last published assessment of subnational population projections was in the summer 1994 edition of Population Trends (issue 76, How good are subnational projections as forecasts?).

As part of the internal quality assurance of the subnational population projections, the ONS compares the subnational projected population with mid year estimates to provide a broad overview of how accurate the early years of the projections can be expected to be at a local level. The latest work on this compares the 2003-based projection for 2004 (the first year of projection) with the 2004 mid year estimates published on 25 August 2005. This comparison showed that 92 per cent. of the 354 local authority areas showed a difference of less than one per cent of the population between the population projection and the mid year estimate, with a mean absolute difference over all areas of 0.5 per cent.

HEALTH

Audiology

Mr. Truswell: To ask the Secretary of State for Health how many vacancies there are for NHS audiology posts. [46362]

Mr. Byrne: The latest vacancy survey recorded 70 vacancies for audiology in the national health service in England in March 2005. The vacancy survey collects the number of vacancies which trusts have been actively trying to fill for three months or more.

Carers

Margaret Moran: To ask the Secretary of State for Health what estimate she has made of the number of people in Luton South who are *(a)* paid and *(b)* unpaid carers for relatives. [56549]

Ms Rosie Winterton: The information requested is not held centrally.

Choose and Book System

Angela Watkinson: To ask the Secretary of State for Health when the choose and book referral system will be available to all general practitioners. [53236]

Mr. Byrne: Roll out of choose and book is being managed on a local level, and general practitioners (GPs) have been advised to work with primary care trusts to achieve implementation. As at 26 February 2006, over 84 per cent. of GPs had been technically enabled to access choose and book. Utilisation continues to increase nationally and it is anticipated that this will continue throughout 2006.

Mr. Lansley: To ask the Secretary of State for Health what definition she uses of the term indirectly bookable service; how it differs from an integrated patient administration systems solution; and how many referrals were made through the choose and book system in *(a)* December 2005 and *(b)* January 2006 through (i) integrated patient administration systems and (ii) the indirectly bookable service. [48845]

Mr. Byrne: A directly bookable service is one where the patient, or someone on behalf of the patient, can view and then book an appointment while in their general practitioner's (GPs) surgery, or later either on the internet or on the telephone through the choose and book appointments line. In order for services to be directly bookable, service providers, for example acute trusts, must have a patient administration system (PAS) which is compliant with the choose and book application. This means that the PAS is able to publish available slots to choose and book for the referrer, for example a GP, and patient to review.

Where a provider has not yet made their PAS compliant, the trust can use choose and book indirectly bookable services. This allows referrers and patients to identify and view the services commissioned by their primary care trust. However, because the PAS is not compliant, available dates and times cannot be shown. In these instances the appointment is booked by the patient telephoning their chosen provider from a clinically appropriate shortlist.

The number of referrals made through the choose and book system in December 2005 and January 2006 through integrated patient administration systems and the indirectly bookable service, are shown in the table.

	December 2005	*January 2006*
Directly bookable	4,732	8,094
Indirectly bookable	15,212	24,200
Total bookings	19,944	32,294

Anne Main: To ask the Secretary of State for Health what her Department's estimate is of the costs to date of the choose and book computer system; what range of estimates she has received on the total final costs of its implementation; and if she will make a statement. [54273]

Mr. Byrne: The cost to date of the choose and book computer system, as at the end of February 2006, was at £25.7 million for core system development and related services charges under a contract with Atos Origin worth £64.5 million over five years.

A further £19.4 million has to date been paid for the additional services and functionality that the original choose and book business case were likely to be required

as the system is rolled out in the national health service. The cost of these is expected to total some £79.5 million over the same period.

Cognitive and Behavioural Therapists

Danny Alexander: To ask the Secretary of State for Health if she will estimate the cost of *(a)* training and *(b)* funding 10,000 cognitive and behavioural therapists to work in the NHS. [51406]

Mr. Byrne: The number of variables involved means that it is not possible yet to produce an accurate assessment of the cost of providing this number of cognitive behavioural therapists.

Community Hospitals

Mr. Graham Stuart: To ask the Secretary of State for Health what assessment she has made of the compliance of primary care trusts to paragraphs 6.42 and 6.43 in the Health White Paper, "Our Health, Our Say". [54267]

Mr. Byrne: It is the responsibility of strategic health authorities (SHAs) to ensure that primary care trusts (PCTs) comply with the commitment, relating to community hospitals, made in paragraphs 6.42 and 6.43 of the Health White Paper, "Our Health, Our Care, Our Say: a new direction for Community services". The Department wrote to SHAs on 16 February outlining how SHAs should test PCT community hospital proposals against the principles in the White Paper. A copy of this letter is available in the Library.

Mr. Graham Stuart: To ask the Secretary of State for Health how many minor injuries units there have been in community hospitals in England in each of the last 10 years; and if she will make a statement. [55966]

Mr. Byrne: Data are not collected centrally in the format requested.

Community Pharmacies (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for Health how many community pharmacies in Peterborough constituency have *(a)* opened and *(b)* closed since 1997. [54819]

Ms Rosie Winterton: Information on the number of community pharmacies by constituency is not centrally collected. However, information prior to 2002 is available by health authority (HA), and from 2002, by primary care trust (PCT).

The Peterborough constituency is currently served by North Peterborough PCT. It previously sat within Cambridge and Huntingdon HA from 1997 to 1999 and Cambridgeshire HA from 1999 to 2002.

Table one shows the number of community pharmacies by Cambridge and Huntingdon prior to 1997–99.

Table two shows the number of community pharmacies by Cambridgeshire HA 1999–2002.

Table three shows the number of community pharmacies by North Peterborough PCT from 2002 onwards.

Table 1—By Cambridge and Huntingdon Health Authority 1997 to 1999

	1997–98	*1998–99*
Total number of pharmacies in Cambridge and Huntingdon HA	63	64
Opened	0	1
Closed	0	0

Table 2—By Cambridgeshire Health Authority 1999 to 2002

	1999–2000	*2000–01*	*2001–02*
Total number of pharmacies in Cambridgeshire HA	111	108	110
Opened	0	0	2
Closed	0	3	0

Table 3—By North Peterborough Primary Care Trust 2002 onwards

	2002–03	*2003–04*	*2004–05*
Total number of pharmacies in North Peterborough PCT	22	22	22
Opened	0	0	0
Closed	0	0	0

Dentistry

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Portsmouth, South of 14 December 2005, *Official Report*, column 2134W, on dentistry, whether there is a minimum level of dental services that a primary care trust must commission. [43526]

Ms Rosie Winterton: Primary care trusts will continue to have a duty under section 16CA(1) of the National Health Service Act 1977 to provide primary dental services to the extent considered necessary to meet all reasonable requirements in their area.

Dr. Pugh: To ask the Secretary of State for Health what progress is being made with the registration and education of denturists and clinical dental technicians. [54038]

Ms Rosie Winterton: Progress on registration is dependent upon the introduction of a training programme that will meet the General Dental Council's educational requirements. We understand that some training institutions are interested in running this programme and we are encouraging the profession to estimate the likely demand in order that this information can be made available to the interested institutions and strategic health authorities, which are responsible for commissioning training for health care professionals.

Mr. Lansley: To ask the Secretary of State for Health what representations she has received from *(a)* denturists and *(b)* patients of denturists regarding the reforms introduced by the Dentists Act (Amendment) Order 2005; and what the content of these representations was. [54077]

Ms Rosie Winterton: At its meeting on 7 December 2005, the General Dental Council (GDC) agreed that appropriately qualified clinical dental technicians, who are also known as denturists, should be registered and allowed to see edentulous patients, without prior review by a dentist, for the purpose of supplying and maintaining complete dentures.

This measure, which was enabled by amendments to the Dentists Act 1984 made as part of the Government's policy on better regulation, has been welcomed. We have, however, received representations from dental technicians, who wish to become denturists, and also from some of their patients about the recognition, for the purposes of registration, of past experience and qualifications obtained overseas. These matters are the responsibility of the GDC.

Julia Goldsworthy: To ask the Secretary of State for Health how many *(a)* salaried general dental practitioners and *(b)* community dental services dentists work in dental access centres; and what guidance she has issued to primary care trusts on recruitment policies for dentists to this sector of dental provision. [55893]

Ms Rosie Winterton *[holding answer 6 March 2006]:* As at 31 December 2005, there were 132 salaried general dental practitioners in England, and as at 30 September 2004, there were 1,573 dentists working in the community dental services in England. Information on how many of these dentists worked in dental access centres is not held centrally.

From 1 April, primary care trusts will be responsible for commissioning primary care dental services to meet the needs of their local populations. The Department has undertaken a wide-ranging review and consultation on modernising salaried primary dental care services. We intend to announce shortly how we propose to support the national health service in taking forward the main outcomes of the review and consultation.

Bob Spink: To ask the Secretary of State for Health what assessment she has made of the impact of the proposed changes to the NHS dental contract on the level of NHS funding dentists will receive. [54785]

Ms Rosie Winterton: The new general dental services and personal dental services arrangements consist of contracts for a defined level of service between the dentist, a dental partnership or a provider of dental services and the commissioning primary care trust. Dentists will have a guaranteed annual contract sum, based on their national health service earnings during a recent test period, and paid in 12 monthly instalments.

A committed NHS dentist currently earns on average around £80,000 per year, after practice expenses are taken into account, and can expect to earn at least this amount on average in 2006–07 with an uplift to 2006–07 prices.

Mr. Davey: To ask the Secretary of State for Health how many *(a)* children and *(b)* adults are registered with an NHS dentist in (i) Kingston and Surbiton, (ii) South West London and (iii) London. [55840]

Ms Rosie Winterton: The information is not collected in the format requested. However, the table which shows the number of children and adults registered with a National Health Service dentist in Kingston Primary Care Trust (PCT), South West London Strategic Health Authority (SHA) and London Government Office Region as at 31 December 2005.

General dental services (GDS) and personal dental services (PDS)

	Adults	*Children*
London Region	2,278,480	857,106
South West London SHA	357,285	151,331
Of which:		
Kingston PCT	35,158	19,336

Notes:

PDS schemes have varying registration periods. To ensure comparability with corresponding GDS data, PDS registrations are estimated using proxy registrations, namely the number of patients seen by PDS practices in the past 15 months.

Mr. Davey: To ask the Secretary of State for Health what guidance her Department has issued on the new NHS dentistry contracts. [55843]

Ms Rosie Winterton: The Department has provided a series of guidance documents to assist dentists and the national health service in preparing for the implementation of the new local commissioning arrangements from April 2006.

In August 2005, the Department published a guide to accompany the draft contract regulations when they were published for comment. In October 2005, the Department sent guidance to strategic health authority and primary care trust chief executives on implementing the new contractual arrangements and the wider dental reforms. In December 2005, the Department published the model general dental services contract.

The Department has also published a series on a number of aspects of the dental reforms. These are available on the Department's website at: www.dh.gov.uk/PublicationsAndStatistics/Publications/PublicationsPolicyAndGuidance/PublicationsPolicyAndGuidanceArticle/fs/en?CONTENT_ID=4124337&chk=beZed2

Mr. Davey: To ask the Secretary of State for Health how many NHS dentists there are in *(a)* Kingston and Surbiton, *(b)* South West London and *(c)* London; and how many in each area are (i) accepting new patients, (ii) only accepting children as new patients and (iii) only accepting adults as new patients. [55847]

Ms Rosie Winterton: Data regarding the number of dentists admitting new national health service patients are not available centrally. Individual primary care trusts (PCTs) should be able to provide this information for their local areas. The numbers of NHS dentists with a general dental services (GDS) or personal dental services (PDS) contract as at 31 December 2005 in the relevant areas are shown in the following table.

General dental services (GDS) and personal dental services (PDS): Number of dentists in the specified strategic health authority (SHA) and PCT areas as at 31 December 2005

Area	*Total number of GDS and PDS dentists*
London Region	4,094
North Central London SHA	767
North East London SHA	723
North West London SHA	1,129
South East London SHA	726
South West London SHA	749
of which:	
Kingston PCT	81

Source:
Dental Practice Board

Daniel Kawczynski: To ask the Secretary of State for Health what steps she is taking to ensure that more NHS dentists operate in Shrewsbury and Atcham constituency. [55946]

Ms Rosie Winterton: I refer the hon. Member to the reply I gave on 27 February 2006, *Official Report*, column 427W.

Mr. Hancock: To ask the Secretary of State for Health if she will make a statement on the availability of NHS dentists in Hampshire. [56521]

Ms Rosie Winterton: £492,000 (revenue) was allocated to Hampshire and Isle of Wight for dental access for 2005–06. It is the responsibility of local Health service organisations to determine how best to use their resources to meet the needs of their local community.

Dental action plans have been developed for those areas in Hampshire and Isle of Wight that have been deemed most challenged, and contingent additional funding (circa £3 million) has been allocated to maintain or procure additional capacity.

Hampshire and the Isle of Wight achieved a total of 20.04 new dentists by the end of September 2005, thereby exceeding its target by nine whole time equivalent general dental practitioners, equating to 18,000 patient registrations.

All Hampshire and Isle of Wight Primary Care Trusts have arrangements in place to ensure that people in urgent need of dental treatment can be offered an appointment, usually the same day.

Mr. Hancock: To ask the Secretary of State for Health how many NHS dentists there were in each *(a)* local authority area and *(b)* primary care trust in Hampshire in (i) 1997, (ii) 2001 and (iii) 2005. [56522]

Ms Rosie Winterton: The tables show the numbers of general dental services (GDS) and personal dental services (PDS) dentists in the specified primary care trusts or local authority areas as at 30 September in each of the requested years.

Primary care trust	*1997*	*2001*	*2005*
Blackwater Valley and Hart	58	77	98
East Hampshire	56	74	68
Eastleigh and Test Valley South	57	70	88
Fareham and Gosport	61	73	88
Isle of Wight	40	43	56
Mid-Hampshire	60	76	85
New Forest	69	75	88
North Hampshire	74	83	96
Portsmouth City Teaching	61	74	83
Southampton City	72	88	101

Local authority	*1997*	*2001*	*2005*
Basingstoke and Deane	50	51	59
East Hampshire	42	53	59
Eastleigh	41	50	67
Fareham	39	50	61
Gosport	22	24	27
Hart	26	41	56
Havant	40	55	48
Isle of Wight	40	43	56
New Forest	69	75	88
Portsmouth	61	74	83
Rushmoor	32	36	42
Southampton	72	88	101
Test Valley	34	47	49
Winchester	41	52	59

Notes:
1. Data includes all notifications of dentists joining or leaving the GDS or PDS, received by the Dental Practice Board, up to 19 October 2005. Figures for the numbers of dentists at specified dates may vary depending upon the notification period, for example, data with a later notification period will include more recent notifications of dentists joining or leaving the GDS or PDS.
2. The postcode of the dental practice was used to allocate dentists to specific geographic areas. Primary care trust (PCT) and local authority (LA) areas have been defined using the Office for National Statistics all fields postcode directory.
3. An individual dentist may have a contract with more than one PCT or LA area, in which case they will appear in figures for each PCT and LA area with which they hold a contract.

Dental Practice Board

Departmental Advice

Mr. Baron: To ask the Secretary of State for Health what advice her Department issued to *(a)* strategic health authorities and *(b)* primary care trusts between July and October 2005 on the differences between managerial or administrative changes and changes which impact on the planning, design and delivery of health services. [50824]

Mr. Byrne *[holding answer 13 February 2006]:* In September 2005, the office of strategic health authorities (SHAs) wrote to SHA chief executives with advice about the basis for consultation on primary care trust (PCT) and SHA reconfiguration. The letter made clear that this is not a consultation about services; and that, in so far as these administrative changes may lead to changes in the pattern of service provision, there will be subsequent and separate consultations about these.

Diabetes

Mr. Dunne: To ask the Secretary of State for Health how many fatalities of diabetes patients there have been since January 2004 where the long-acting insulin analogue, Lantus, has been suspected to be a cause or contributory factor; and what steps have been taken to assess its safety. [56921]

Jane Kennedy: Clinical trials submitted at the time of licensing have examined the safety and efficacy of the Lantus (insulin glargine) in diabetic patients treated for up to 12 months. Generally, the side effects observed with Lantus were similar to those seen with human insulins, with the most commonly observed side effects being hypoglycaemia, visual disturbance and injection site reactions.

The Medicines and Healthcare products Regulatory Agency (MHRA) receives reports of suspected adverse drug reactions (ADRs) via the United Kingdom yellow card scheme. A total of 229 reports of suspected ADRs have been received in association with Lantus since January 2004 and of these, 12 had a fatal outcome. Where cause of death was reported there is no particular pattern. It is important to appreciate that the reporting of a reaction does not necessarily mean it was caused by the drug and may relate to other factors such as underlying illnesses or other medicines taken concurrently.

The longer term safety of the use of human insulin analogues, including Lantus, in routine clinical practice is closely monitored by the MHRA. Any possible new safety issue to emerge is evaluated and, if necessary appropriate action will be taken and the product information for prescribers and patients updated.

Mr. Lancaster: To ask the Secretary of State for Health what steps she is taking to ensure that there are adequate numbers of diabetic nurses. [54878]

Mr. Byrne: The national service framework for diabetes: delivery strategy states "diabetes services need to ensure that there are enough staff with appropriate skills who are well-led, supported, and deliver high-quality care". Workforce guidance assists the national health service locally in delivering improved services.

Emergency Treatment

Mrs. Dorries: To ask the Secretary of State for Health how many patients were referred by general practitioners to accident and emergency, casualty and minor injuries clinics in the *(a)* Bedfordshire Heartlands, *(b)* Luton and *(c)* Bedford Primary Care Trust (PCT) with (i) eye trauma, (ii) suspected fractures, (iii) acute chest pain, (iv) suspected meningitis, (v) acute abdominal pain, (vi) suspected deep vein thrombosis, (vii) suspected pneumonia, (viii) acute chest pain, (ix) acute asthma and (x) acute bronchitis in each year since the PCT was established; how many were admitted to hospital; how many were discharged with (A) advice and (B) treatment; and if she will make a statement. [55286]

Ms Rosie Winterton: This information is not held centrally by the Department.

Equal Pay

Lynne Featherstone: To ask the Secretary of State for Health what estimate of the total cost of liability to the NHS to settle possible future equal pay claims has been made following the recent equal pay settlement for women working in Cumbrian NHS hospitals; and if she will make a statement. [54834]

Mr. Byrne: The NHS Litigation Authority is currently assessing the risks to the national health service from existing claims. It is not possible to estimate the cost to the NHS of settlement of possible future equal pay claims that have not been made.

European Working Time Directive

Mr. Hands: To ask the Secretary of State for Health what assessment she has made of the effect of the European working time directive on recruitment in the NHS; and if she will make a statement. [38503]

Mr. Byrne: Implementation of the working time directive (WTD) is the responsibility of local national health service trusts and strategic health authorities were required to draw up affordable plans to meet WTD 2004.

The Government agreed to implement the European working time directive as United Kingdom legislation to improve the health and safety and working lives of all employees in this country. The vast majority of staff groups have been covered by the 48-hour week since 1998. The Government negotiated an extension to the WTD for doctors in training to enable phased implementation from August 2004.

Mr. Lansley: To ask the Secretary of State for Health what discussions she has had with *(a)* members of the European Commission and *(b)* representatives of other member states of the European Union regarding the introduction of definitions of on-call time and inactive on-call time into the European working time directive; and if she will make a statement. [46403]

Mr. Byrne: Following a series of bi-laterals with other member states, the United Kingdom presidency put forward amended proposals for the European working time directive relating to the definitions of on-call time, workplace and inactive part of on-call time which offered a realistic chance for agreement at the Employment Council on 8 December 2005. Although member states came close to agreement, and despite considerable efforts from the UK presidency no deal was reached.

Together with many member states, we continue to press for changes to the working time directive to address the difficulties from the SiMAP and Jaeger judgments. Both the retention of the individual opt out and a solution for the problems caused by the SiMAP/Jaeger judgments remain key priorities for the UK, and we will continue to try to secure an acceptable agreement with member states and the European Commission.

Health Action Zones

Frank Dobson: To ask the Secretary of State for Health (1) what additional funding was made available to the east end of London during the existence of the health action zone covering that area; [50334]

(2) when health action zones ceased to receive additional funding. [50335]

Jane Kennedy *[holding answers 13 February 2006]:* Table 1 shows the targeted funding for health action zones (HAZs) made to the former East London and the City health authority within their revenue allocations

between 1999–2000 and 2002–03. In 2002–03, its HAZ funding was supplemented by a health inequalities adjustment (HIA) distributed to the health authorities which ranked highest on a years of life lost index.

Table 1

	Additional funding (£ million)
1999–2000	1.6
2000–01	3.2
2001–02	3.2
2002–03	6.1

From 2003–04, HAZs were aligned with primary care trusts (PCTs) in the HAZ localities. A revised needs adjustment within the weighted capitation formula replaced both the existing needs adjustment and the HIA. The revised needs adjustment has been used for the allocations up to and including allocations for 2007–08. To protect those PCTs which benefited from the HIA, the 2002–03 HIA was added to those PCTs' 2003–04 baselines. Table 2 shows the distribution of the HIA to PCTs in the former East London and the City health authority.

Table 2

PCT	*Share of HIA in 2003–04 baseline (£ million)*
City and Hackney	1.3
Newham	2.7
Tower Hamlets	2.0

Health White Paper

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the effect of permitting unregistered patients to attend general practitioners as described in paragraph 3.34, of the White Paper, "Our Health, Our Care, Our Say", on the demand for NHS services from those ineligible for NHS care. [49517]

Mr. Byrne: This is one of the matters that will be taken into account in the review announced in paragraph 3.34 of the Health White Paper, "Our Health, Our Care, Our Say: a new direction for community services".

Mr. Lansley: To ask the Secretary of State for Health who is expected to make arrangements for standardising practice patient surveys as described on paragraph 3.57 of the White Paper, Our Health, Our Care, Our Say, Cm 6737; which organisation will conduct the practice patient surveys; and if she will make a statement. [49556]

Mr. Byrne: The Department is currently developing plans to deliver the commitment in paragraph 3.57 of the White Paper, "Our Health, Our Care, Our Say". This will include ensuring provision for the conduct of a new patient survey at practice level.

Hospital Referrals

Mrs. Dorries: To ask the Secretary of State for Health how many patients were referred to hospital by GPs in the *(a)* Bedford, *(b)* Bedfordshire Heartlands and *(c)* Luton Primary Care Trust in each year since the primary care trust was established; how many spent at least 24 hours in hospital in each case; and if she will make a statement. [55292]

Ms Rosie Winterton: The information requested is not held centrally.

Laser Eye Surgery

David Simpson: To ask the Secretary of State for Health what guidelines her Department issues relating to laser eye surgery. [53133]

Ms Rosie Winterton: Laser eye surgery is not routinely provided on the national health service.

Laser eye surgery providers in the independent sector are required to be registered with the Healthcare Commission, and are inspected under the Care Standards Act 2000, and the Private and Voluntary Healthcare Regulations (England) 2001 on an annual basis. Providers must comply with regulations and there are also national minimum standards, core standards that cover general issues that apply to all types of private care, and service specific standards that relate to the use of class four lasers used in laser eye surgery. These national minimum standards are published by the Secretary of State for Health under section 23 (1) of the Care Standards Act 2000.

David Simpson: To ask the Secretary of State for Health how many cases of laser eye surgery have resulted in complications in England and Wales in each of the last 10 years; and what percentage of the total this represents. [53134]

Ms Rosie Winterton: Laser eye surgery is not routinely provided on the national health service.

Independent providers of laser eye surgery in England were first regulated by the National Care Standards Commission from April 2002 and this function moved to the Healthcare Commission from April 2004.

Information about complications is not available from the National Care Standards Commission. However, the Healthcare Commission has received two clinical complaints since 1 April 2004.

We do not collect information on the number of laser eye surgery procedures carried out in England.

The provision of laser eye surgery in Wales is a matter for the National Assembly for Wales.

Macular Degeneration

Anne Main: To ask the Secretary of State for Health (1) what is her assessment of the effectiveness of macular degenerative care; and if she will make a statement; [52273]

(2) what funding has been directed towards pocket readers for those suffering from macular degeneration in each year since 1997; and if she will make a statement. [52274]

Ms Rosie Winterton: People with untreatable age-related macular degeneration (AMD) are likely to need support from low vision services.

Low vision aids are available free on loan to any person requiring them. The national health service hospital eye service provides optical devices and loans low vision aids, such as high-powered reading lenses, hand-held and stand magnifiers and telescopes, to people with visual impairment.

Electronic magnifiers are classed as aids to daily living and, as such, it is the responsibility of local authority social services departments to provide them. Social service departments will assess an individual's needs and arrange services to meet those needs.

It is for each local authority to decide what provision should be made for low vision services from within the overall resources allocated by the Government, taking account of local circumstances and priorities.

Low vision was one of the areas identified by the eye care services steering group as an area for further development. A care pathway for low vision services has been published and a number of pilots are currently testing the pathway.

Learning from the pilots and their developing evidence base will be shared with the NHS to support wider implementation.

Medical Staff (Sexual Offences)

Mr. Gibb: To ask the Secretary of State for Health (1) how many doctors were struck off the Register by the General Medical Council for sexual offences in each year since 1997; [47115]

(2) what the average period was for which a doctor convicted of a sexual offence was removed from the Register by the General Medical Council in each year since 1997; [47116]

(3) whether anyone convicted of a sexual offence is registered to practise as a *(a)* doctor and *(b)* dentist. [47117]

Mr. Byrne: Registration and fitness to practise are matters for the General Medical Council in respect of doctors and for the General Dental Council in respect of dentists.

Missed Appointments

Grant Shapps: To ask the Secretary of State for Health what estimate she has made of the cost to the NHS of missed appointments with hospital consultants in each of the past five years. [49039]

Mr. Byrne: The Department has made no estimate of the cost to the national health service of such missed appointments.

The new choose and book system, which is being implemented across the NHS, will give patients greater certainty and choice over the time and date of their hospital appointment and will help to reduce the number and cost of missed appointments.

NHS Authorities/Trusts

Peter Bottomley: To ask the Secretary of State for Health (1) what interest rate is charged to NHS authorities and trusts for cash support; and what the rate was in each of the past four years; [51751]

(2) how much was charged in interest to NHS authorities and trusts for cash support in each of the last four years; and what estimate she has made of how much will be charged in *(a)* 2005–06 and *(b)* 2006–07; [51752]

(3) what estimate she has made of how much interest would be paid for cash support by NHS authorities and trusts in *(a)* 2005–06 and *(b)* 2006–07 based on bank rates of interest. [51753]

Mr. Byrne: The NHS Bank operates a system of cash brokerage between strategic health authorities (SHAs). The NHS Bank is able to provide cash support to SHAs in need by taking cash from other SHAs that have surplus cash. Until this year, the principle was that any cash support received or provided would be returned in the following year, but there was no interest charge.

To encourage good financial management, the NHS Bank agreed that for cash brokerage in 2005–06 an interest payment will be required from SHAs receiving cash brokerage, and they have agreed to pay interest to those SHAs providing cash brokerage.

The charge on SHAs receiving cash brokerage is 10 per cent. Interest rates from commercial vendors vary.

No estimate has been made of the level of interest paid on any cash brokerage received next year.

NHS Direct

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the budget was for NHS Direct in each year since its inception; and what the projected budgets are for the next three years. [43019]

Mr. Byrne: The total costs of the service since 1998–99 are shown in the table.

£ million

	Revenue	*Capital*	*Total cost*
1998–99	—	—	14
1999–2000	—	—	55
2000–01	—	—	90.1
2001–02	89.7	20	109.7
2002–03	106	18	124
2003–04	117.5	7.5	124
2004–05	121	10	131
2005–06[1]	163	10	173

[1] Final outturn position not yet known but expected not to exceed the allocated amount.

Budgets for the next three years have not yet been agreed.

Geraldine Smith: To ask the Secretary of State for Health how many NHS staff are employed by NHS Direct. [44654]

Mr. Byrne: The latest available data for September 2004 shows that the total number of staff employed by NHS Direct was 2,353.

NHS Employees

Keith Vaz: To ask the Secretary of State for Health what the retirement age is for employees of the national health service. [51497]

Mr. Byrne: There is no standard retirement age in the national health service. Normal pension age for the majority of employees of the health service is currently age 60, but the average retirement age is higher.

NHS Finance Data

Mr. Burstow: To ask the Secretary of State for Health if she will compile and publish a detailed analysis of how the increased investment in the NHS has been spent in each year of the current comprehensive spending review period. [35366]

Mr. Byrne: Analysis of where additional money has been spent is published each year in the Chief Executive's Report to the national health service. This can be found on the Department's website at www.dh.gov.uk/assetRoot/04/12/77/04124377.pdf. It breaks down the additional spend into input categories of:

pay;

new staff, activity and drugs;

capital and training; and

cost pressures.

The table shows the spend against these categories for the years 2001–02 to 2004–05.

	Additional revenue (£ billion)	*Pay (%)*	*New staff, activity and drugs (%)*	*Capital and training (%)*	*Cost pressures (%)*
2004–05	5.8	30	48	17	5
2003–04	5.9	31	45	18	6
2002–03	5.2	32	42	19	7
2001–02	5	38	36	16	10

NHS Financial Deficits

Mr. Stewart Jackson: To ask the Secretary of State for Health what assessment she has made of the potential effect on local health service provision of attempts to minimise the 2005–06 financial deficit in the *(a)* Greater Peterborough Primary Care Partnership, *(b)* Peterborough and Stamford Hospitals NHS Foundation Trust and *(c)* Cambridgeshire and Peterborough Mental Health Partnership NHS Trust. [55262]

Ms Rosie Winterton: The Norfolk, Suffolk and Cambridgeshire Strategic Health Authority is working with national health service organisations providing services in Peterborough and Cambridgeshire to ensure that financial challenges are met while maintaining high quality services for patients.

NHS Pay

Mr. Lansley: To ask the Secretary of State for Health what the total expenditure on pay of *(a)* nurses, *(b)* doctors and *(c)* staff in the NHS has been in each financial year since 1997–98 in (i) real and (ii) cash terms. [51893]

Mr. Byrne: The information requested is shown in the tables.

Salaries and wages—England 1997–1988 to 2003–04
Cash Terms

£000

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*

NHS Staff

Dr. Cable: To ask the Secretary of State for Health (1) how much was spent on temporary NHS *(a)* staff, *(b)* doctors and *(c)* nurses, in each (i) strategic health authority and (ii) Government office region in the last 12 months for which figures are available, broken down by specialism; [53565]

(2) how many temporary NHS *(a)* staff, *(b)* doctors and *(c)* nurses there were in each (i) strategic health authority and (ii) government office region in the last 12 months for which figures are available, broken down by specialism. [53568]

Mr. Byrne: I refer the hon. Member to the reply I gave the right hon. Member for Horsham (Mr. Maude) on Monday 9 January 2006, *Official Report*, column 171–73W.

Information relating to the numbers of temporary staff is not collected centrally.

Chris Ruane: To ask the Secretary of State for Health how many *(a)* consultants, *(b)* doctors, *(c)* nurses and *(d)* dentists from Lesotho were working in the health service in each of the last 20 years; and if she will make a statement. [56199]

Ms Rosie Winterton: Information is not available centrally on the country of origin of National Health Service staff. The General Medical Council, General Dental Council and Nursing and Midwifery Council, hold information on the country of qualification of each person on their respective registers but not the country of origin.

Optometrists

Mr. Pelling: To ask the Secretary of State for Health what plans she has to extend the role of optometrists in primary eye care. [48690]

Ms Rosie Winterton: The current review of general ophthalmic services is looking at potential ways of increasing work done in primary care and providing more integrated services and greater choice for patients.

The eye care services steering group was established in December 2002 to develop proposals for the modernisation of national health service eye care services.

We are currently piloting model care pathways developed by the group for glaucoma, age related macular degeneration and low vision. Learning from the pilots and their developing evidence base will be shared with the NHS to support wider implementation and the findings will also inform the review of general ophthalmic services.

Oxygen Deliveries

Dr. Murrison: To ask the Secretary of State for Health what assessment she has made of the introduction of the new integrated home oxygen delivery service; what agencies in her Department are responsible for the service; and what penalties may be applied to the companies contracted to supply the service for not meeting the required service standards. [55653]

Jane Kennedy: There have been difficulties in the first weeks since we began the six-month transition programme to implement the new integrated service on 1 February 2006. We have taken action to deal with these issues.

This is a locally managed national health service service and primary care trusts have responsibility for performance management of these contracts. There are financial and other penalties for not meeting the required service standards, including termination of the contract.

Parliamentary Questions

Julia Goldsworthy: To ask the Secretary of State for Health when she will answer Questions *(a)* 31444 and *(b)* 31445 tabled on 21 November 2005 by the hon. Member for Falmouth and Camborne, on dentists. [47191]

Ms Rosie Winterton: Answers were given on 8 February 2006, *Official Report*, column 1306W, and on 2 March 2006, *Official Report*, column 910W.

Patient Care (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for Health (1) what assessment she has made of the availability of drugs for patients with moderately severe to severe Alzheimer's disease in Peterborough; [54816]

(2) what treatments recommended by the National Institute for Health and Clinical Excellence the Greater Peterborough Primary Care Partnership does not *(a)* fund and *(b)* offer to patients. [54856]

Ms Rosie Winterton: Clinicians are responsible for determining which treatments need to be prescribed for individual patients and primary care trusts are responsible for deciding whether individual treatments should be approved for funding.

Where the National Institute of Health and Clinical Excellence (NICE) has carried out a technology appraisal, the national health service has three months to put in place funding so that any clinician wishing to follow NICE guidance can do so.

Physiotherapists

Mr. Leech: To ask the Secretary of State for Health (1) how many new vacancies have been created for physiotherapists in the last 12 months; and how many of these vacancies were for newly-qualified physiotherapists; [55039]

(2) how many trainee physiotherapists are expected to qualify in 2006. [55040]

Mr. Byrne: Information relating to the number of new vacancies is not collected centrally.

In 2003–04, 2,343 national health service physiotherapy training places were commissioned and students who successfully complete the programme will graduate in 2006.

Primary Care Trusts (Expenditure)

Mr. Lansley: To ask the Secretary of State for Health what the expenditure per *(a)* weighted and *(b)* unweighted head was in each primary care trust in 2004–05; and what estimate she has made of the expenditure for (i) 2005–06, (ii) 2006–07 and (iii) 2007–08. [43530]

Mr. Byrne: 2004–05 expenditure per head (by weighted and unweighted population) by primary care trusts in England has been placed in the Library. Forecast spend per head is not available.

Prisoners (Mental Health)

Tim Loughton: To ask the Secretary of State for Health if she will make a statement on the treatment which is offered to prisoners with mental health problems. [47042]

Ms Rosie Winterton: Prisoners receive an assessment on their first reception into prison which helps to identify those at risk of having a significant mental health problem. For those so identified, or who present later with mental health needs, follow up will include primary mental health care, and where necessary, assessment and intervention by specialist prison mental health in-reach teams. 102 prisons currently have mental health in-reach provision and it is expected that all prisons will have access to such services this spring. Just under £20 million of national health service investment is available for prison mental health in-reach provision in 2005–06, and 360 mental health in-reach staff are now in post.

Where prisoners are assessed as too ill to remain in prison, steps are taken to transfer to them to a hospital appropriate for their mental health needs and security category. The care programme approach aims to help ensure continuity of mental health care on release from prison.

Public Health

Mr. Davey: To ask the Secretary of State for Health what research her Department has commissioned on the impact on people's health of *(a)* obesity and *(b)* the availability of NHS dentists; and if she will make a statement. [55842]

Ms Rosie Winterton: There has been no research commissioned by the Department on the impact on people's health of obesity and the availability of national health service dentists. However, the Department recognises the effect of obesity on disease conditions, as shown in the summary research evidence reported by the National Audit Office, the World Health Organisation, the Health Select Committee and the 2003 Health Survey for England.

Also from April 2006, the NHS will be implementing major reforms to NHS dentistry. New contracts for dentists will abolish the fee per item remuneration system and support new ways of working. Evidence from personal dental services pilot schemes is that this will free up capacity that dentists can use to see a greater range of patients and provide more preventative care. The reforms are designed to support primary care trusts and dentists in improving access to NHS dentistry for all groups of patients.

Queen's Birthday

Anne Main: To ask the Secretary of State for Health what plans her Department has to celebrate Her Majesty's 80th birthday; what advice she has issued to her Department's executive agencies on celebrations for the birthday; and if she will make a statement. [54191]

Mr. Byrne: The Department will fly the Union Flag on 21 April in honour of Her Majesty's 80th birthday. No instructions have been issued to executive agencies on how they might wish to mark the Queen's birthday.

Royal Shrewsbury Hospital

Daniel Kawczynski: To ask the Secretary of State for Health if she will extend the time available to Royal Shrewsbury hospital to repay its existing debt. [55851]

Ms Rosie Winterton: Responsibility for the management of the repayment of planned financial support, and of the time scales for its repayment, rests with Shropshire and Staffordshire strategic health authority.

Sexual Health

Anne Main: To ask the Secretary of State for Health what estimate she has made of chlamydia levels in Hertfordshire and Bedfordshire Strategic Health Authority in the latest period for which an estimate is available. [54271]

Ms Rosie Winterton: Data on the number of sexually transmitted infections, including HIV infection, are published in "Mapping the Issues: HIV and other Sexually Transmitted Infections in the United Kingdom: 2005". The report is available from Health Protection Agency's website at: www.hpa.org.uk/hpa/publications/hiv_sti_2005/pdf/MtI_FC_report.pdf.

Tooth Decay

Mr. Malik: To ask the Secretary of State for Health how many and what percentage of children in *(a)* the area covered by North Kirklees Primary Care Trust and *(b)* each primary care trust in England suffered from tooth decay in each of the last 10 years for which figures are available. [43177]

Ms Rosie Winterton: The information requested is not held centrally. The British Association for the Study of Community Dentistry conduct regular surveys of child dental health, the results of which are available on their website at www.bascd.org/annual_survey_results.php.

Mr. Davey: To ask the Secretary of State for Health what estimates she has made of the number of *(a)* children and *(b)* adults with tooth decay in (i) Kingston and Surbiton, (ii) South West London and (iii) London in the latest period for which figures are available. [55841]

Ms Rosie Winterton: The information requested is not held centrally.

Training (Nurses/Doctors)

Mrs. Villiers: To ask the Secretary of State for Health what the average cost of training *(a)* a nurse and *(b)* a doctor was in 2004–05. [54511]

Mr. Byrne: The latest year for which figures are available show that in 2004–05 the national average cost of tuition to train a nurse over the three years of their course was £19,740. Diploma students would also be entitled to a non-means tested bursary, which in 2003–04 averaged £6,547 per annum.

In the period between entry to medical school and full registration, it is estimated that training a doctor costs between £200,000 and £250,000. Doctors generally continue training after full registration. As the duration and nature of post-registration training varies greatly

and as service and training costs are closely related it is not possible to provide a meaningful estimate of the total cost of training.

Welsh Patients (Funding)

Daniel Kawczynski: To ask the Secretary of State for Health if she will make representations to the First Secretary of the National Assembly for Wales Government on ensuring that funding for Welsh patients using English hospitals matches the per head funding for English patients. [41560]

Mr. Byrne: Decisions about the allocation of funding on health services in Wales are the responsibility of the Welsh Assembly Government and the national health service in Wales. The Department and the Welsh Assembly Government have agreed that the funding of Welsh patients using English hospitals is agreed by local negotiation between the Welsh Local Health Board (or the Health Commission Wales) and the English NHS Trust. The Department and the Welsh Assembly Government expect that both parties will work together to agree a level of funding that reflects the costs and volumes of referrals.

Working with Children

Tim Loughton: To ask the Secretary of State for Health whether *(a)* local authorities, *(b)* social service departments and *(c)* children's services departments can employ an individual to work in the health sector if that person is on her Department's list of individuals who are considered unsuitable to work with children. [44480]

Ruth Kelly: I have been asked to reply.

Section 7(1) of the Protection of Children Act 1999 requires an organisation which concerned with the provision of accommodation, social services or health care services to children or the supervision of children; and whose activities are regulated, to check both the PoCA List and List 99 in every instance where they propose to offer an individual a child care position. (For the definition of a child care position, the Protection of Children Act 1999 refers to the Criminal Justice and Court Services Act 2000 which provides a comprehensive definition of what is known as a 'regulated' position for the purposes of that Act.)

If a local authority, social service department or children's services department offering employment in the health sector are aware that the person is included on the PoCA List (whether or not provisionally), or on List 99 on grounds that they are unsuitable to work with children, they may not offer the individual employment in a child care position.

DEPUTY PRIME MINISTER

Correspondence

Sir Michael Spicer: To ask the Deputy Prime Minister when the Minister of State will reply to the letter of 30 January from the hon. Member for West Worcestershire . [57638]

Yvette Cooper: A reply was sent to the hon. Member on 8 March.

Council Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister in what circumstances he advises councils whose large scale voluntary transfer or arm's length management proposals are rejected on a tenant's ballot to hold a second ballot; what length of delay is recommended; what *(a)* evidence and *(b)* other submissions are required; and who pays the cost of the (i) first and (ii) second ballot. [39400]

Yvette Cooper: The timing, circumstances and evidence surrounding any decision to re-ballot tenants are entirely matters for the local authority. The costs associated with holding any ballot fall to the local authority. When local authorities apply for stock transfer they must demonstrate that the proposal has the support of tenants before transfer can be approved.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what evidence was provided to him by Sefton Council on the conduct of its tenants' ballot in August; and what assessment he made of whether such evidence justified a second ballot. [39446]

Yvette Cooper: Sefton Council shared with officials in the Office of the Deputy Prime Minister a file of alleged malpractices surrounding the conduct of the tenants' ballot in August 2005, the contents of which were noted. Officials in the ODPM did not undertake an assessment of whether such documentation justified Sefton Council's decision to hold a second ballot as that decision was entirely a matter for the authority.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what arrangements exist *(a)* to service and *(b)* to repay debt on council housing; and what the implications are of the number of units sold under right to buy for these arrangements. [50820]

Yvette Cooper: Local authorities manage their debt as a portfolio and do not borrow for specific purposes. The Housing Revenue Account (HRA) makes a contribution towards the servicing of the authority's debt through a debit to the HRA broadly based upon the level of debt and the average rate of interest on all local authority borrowing for that year—the consolidated rate of interest.

There is no obligation for local housing authorities to repay debt. It is a Treasury management decision for them whether to do so.

Debt servicing and repayment arrangements have no effect upon the right to buy. The right to buy is a right of the local authority tenant and the authority has no discretion in the matter.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the total income from stock transfer of council housing to registered social landlords has been to date; and for what purpose this income has been allocated. [49776]

Yvette Cooper: Since 1997 stock transfer has levered in £10.594 billion in private finance of which £6.915 billion has been used by registered social landlords to invest in the transferred stock. The

remaining £3.679 billion was received by local authorities. Of this, £1,787 billion has been used by authorities to pay housing debt and £297.32 million has been paid to Treasury in the form of LSVT levy. The remainder has been used by local authorities for whatever investment purposes they chose.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the *(a)* rental income from council-owned homes, *(b)* management allowance and *(c)* major repairs allowance (i) was in each year since 1997 and (ii) is estimated to be in each of the next five years, broken down by local authority. [40870]

Yvette Cooper: Tables providing data, as far as possible, for 1997–98 to 2005–06 have been made available in the Library of the House. Data for 2004–05 and 2005–06 are provisional.

Rental income is defined as income accruing from rents and charges in respect of dwellings within the Housing Revenue Account (HRA), gross of rent rebates and rent arrears but net of temporary reductions and other refunds made to take account of special circumstances (e.g. works in progress or other temporary loss of amenity), lost rental income due to voids, council tax, water rates, heating and service charges. Rental income for 2005–06 is not yet available and is therefore not shown in the 2005–06 table.

Management allowances were not separately identified within a combined management and maintenance allowance in 1997–98 and 1998–99. The combined management and maintenance allowance is provided for these years.

The major repairs allowance did not exist from 1997–98 to 2000–01.

Information is not available for future years at individual authority level. This is because the Office of the Deputy Prime Minister does not make or have forecasts of future rental income, management allowance or major repairs allowance at individual authority level. Such forecasts would themselves require forecasts of changes in the quantity and mix of stock which it would incur disproportionate cost.

Mr. Austin Mitchell: To ask the Deputy Prime Minister when he will respond to the Audit Commission's report on financing council housing, with particular reference to *(a)* ending negative subsidy on individual local authority housing revenue accounts, *(b)* specific support for authorities with high debt levels and *(c)* conducting a review of the housing subsidy system. [40871]

Yvette Cooper: The Commission's report was useful in bringing together a number of issues that had been raised in the past, not least in the 'blue skies' consultation that the Office of the Deputy Prime Minister (then Department of Environment, Transport and Regions) ran in 2002. The Housing Revenue Accounts (HRA) subsidy system is always under review and Ministers and officials will continue to take into consideration the policy issues the report raises, just as they take into consideration advice from other stakeholders.

Departmental Staff

Mr. Pickles: To ask the Deputy Prime Minister if he will place in the Library a copy of the survey by ORC International on his Department's staff. [51076]

Jim Fitzpatrick: ORC International were commissioned to undertake a staff opinion survey for the Office of the Deputy Prime Minister in 2005. Arrangements are being made to make copies of the narrative report available in the Library of the House.

Euro

Mr. Pickles: To ask the Deputy Prime Minister pursuant to the answer of 13 February 2006, to the hon. Member for Meriden (Mrs. Spelman), *Official Report*, column 1618W, on the euro, how much producing the Valuation Tribunal Service Euro Conversion (High Level Plan) cost. [54522]

Mr. Woolas: The Valuation Tribunal Service estimate that the cost of producing the plan was around £2,500.

Mr. Pickles: To ask the Deputy Prime Minister which *(a)* agencies and *(b)* other bodies for which his Department is responsible have been asked to produce a high level plan for the introduction of the euro; and what the date of approval was of each such plan. [54524]

Mr. Woolas: The Office of the Deputy Prime Minister is responsible for and has asked the following Executive agencies and non-departmental public bodies to produce a high level plan for the introduction of the euro:

(a) Executives agencies

Government offices/regional co-ordination unit
Planning Inspectorate
The Fire Service College
QEII Conference Centre

(b) Non-departmental public bodies

Valuation Tribunal Service
English Partnership
Housing Corporation
Audit Commission
The Standards Board for England

(c) Departments

Ordnance Survey

The Office's Euro Preparations Programme Board approved all the plans in September 2004.

Mr. Pickles: To ask the Deputy Prime Minister if he will place in the Library a copy of his Department's high level plan on the introduction of the Euro; and on what date the most recent version was published. [54528]

Mr. Woolas: A copy of the Euro Conversion (High Level Plan) produced by the Office of the Deputy Prime Minister has been made available in the Library of the House. The most recent version was published on September 2005.

Mr. Pickles: To ask the Deputy Prime Minister what guidance his Department has given local authorities on preparing for the introduction of the euro. [54529]

Mr. Woolas: Guidance to local authorities on preparing for the introduction of the euro was issued by HM Treasury and the Office of the Deputy Prime

Minister in conjunction with the Local Government Association on 18 June 2003. The guidance is available on the euro website at: www.euro.gov.uk.

Housing Revenue Accounts

Mr. Austin Mitchell: To ask the Deputy Prime Minister how much was provided to local authorities to support borrowing on their housing revenue accounts in each year since 1997. [49772]

Yvette Cooper: The levels of supported borrowing for Housing Revenue Account (HRA) purposes are as follows:

Financial year	*Supported borrowing (£ million)*
1997–98	438
1998–99	766
1999–2000	842
2000–01	1,286
2001–02	[1]476
2002–03	560
2003–04	572
2004–05	520
2005–06	513

[1] 2001–02 saw the introduction of the Major Repairs Allowance which shifted resource from borrowing approvals to HRA subsidy for the funding of major capital repairs on HRA stock.

Local Area Agreements

Mr. Pickles: To ask the Deputy Prime Minister whether local area agreements are voluntary for local authorities. [56092]

Mr. Woolas: Local Area Agreements (LAAs) are agreements entered into voluntarily by local areas and government and are a key part of the longer-term vision for a more mature central-local relationship. LAAs have been strongly endorsed by local government. Both phases so far were heavily over-subscribed. The Office of the Deputy Prime Minister believes this is because all local authorities and their partners welcome the devolution of decision making, access to funding, increased flexibility, reduced bureaucracy and focus on local as well as national priorities that LAAs allow. The ODPM has every expectation that local authorities will remain committed to developing them further.

Local Government Pension Scheme

Mr. Paul Murphy: To ask the Deputy Prime Minister (1) what discussions he has had with *(a)* local government employers and *(b)* the relevant trades union on a resolution to the dispute about proposed changes to the Local Government Pension Scheme; [55824]

(2) if he will make a statement on the dispute between local government employers and workers in the Local Government Pension Scheme. [55825]

Mr. Woolas: My right hon. Friend the Deputy Prime Minister, in his role as Scheme regulator and within the framework provided by the Local Government Pension Scheme Tripartite Committee, has overseen a series of constructive discussions between the employers and trade unions in order to achieve an affordable, legal, viable and equitable outcome. It has always been made clear that any proposals which meet these criteria will be carefully considered. The outcome of these discussions, together with the responses to the recently concluded consultation exercise, will be carefully considered before final decisions are taken on the content of the regulations to implement changes to the Scheme from April.

Mr. Pickles: To ask the Deputy Prime Minister what assessment he has made of the effect of the abolition of dividend tax credits on local authority pension schemes. [56103]

Mr. Woolas: The financial impact of the abolition of advanced corporation tax relief on local authority pension schemes was fully assessed by all the relevant parties, including the Local Government Association, at the time of abolition. No further assessment has been undertaken since, in view of the arrangements set out in my reply to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 16 February 2006, *Official Report*, column 2211W.

Queen's Birthday

Anne Main: To ask the Deputy Prime Minister what plans his Department has to celebrate Her Majesty's 80th birthday; what advice he has issued to his Department's Executive agencies on celebrations for the birthday; and if he will make a statement. [54195]

Jim Fitzpatrick: The Union flag will be flown at full mast on the buildings of the Office of the Deputy Prime Minister, including its Executive agencies, on 21 April from 8.00 am until sunset. The Office of the Deputy Prime Minister has no plans for other events to celebrate Her Majesty's 80th birthday.

Social Exclusion Unit

Dr. Cable: To ask the Deputy Prime Minister how much has been committed to maximising the take-up by entitled applicants of the schemes that come under the umbrella of the Social Exclusion Unit, with particular reference to the poorest 10 per cent. of people. [55929]

Mr. Woolas: The Social Exclusion Unit does not have responsibility for specific schemes, programmes or funding streams. The work of the Social Exclusion Unit focuses on recommending cross-government action to tackle issues facing the most excluded people.

PRIME MINISTER

Departmental Expenditure

Norman Baker: To ask the Prime Minister how much has been spent on *(a)* 10 Downing Street, *(b)* 11 Downing Street, *(c)* Carlton House, *(d)* Government House in Pimlico and *(e)* Chequers in each year since 2000. [57637]

The Prime Minister: Expenditure on routine maintenance and other building works in Ministers residences is the responsibility of the relevant Department.

For details of expenditure on work to the flat above No. 11 Downing Street I refer the hon. Member to my answer to him of 11 October 2004, *Official Report*, columns 53–54W. Expenditure for subsequent years is as follows:

2004–05: £14,012

Chequers was established under the Chequers Estate Acts 1917 and 1958 and is administered by independent trustees who receive an annual grant from public funds towards its maintenance and to cover staff employed at Chequers in accordance with the Acts.

Meetings

Mr. Hands: To ask the Prime Minister when he last met victims' families and survivors of the 11 September 2001 attacks. [53827]

The Prime Minister: I attended the official memorial services following the events of 11 September that were led by Her Majesty the Queen and by His Royal Highness the Prince of Wales respectively.

CABINET OFFICE

Cabinet Committees

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster how many Cabinet committees the former Chancellor of the Duchy of Lancaster, the right hon. Member for Darlington (Mr. Milburn), *(a)* chaired and *(b)* was a member of; and how many meetings of each committee he attended between 8 September 2004 and 6 May 2005. [56925]

Mr. Jim Murphy: A full list of all Cabinet Committees, including their membership and terms of reference, can be found in the Library of the House. It is Government practice to place such a list in the Library approximately every six months. Previous lists contain the membership information requested. Information relating to the proceedings of Cabinet and Cabinet committees, including the number of meetings held and attendance, is generally not disclosed as to do so could harm the frankness and candour of internal discussion.

Government Communications

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster if he will publish figures for the total spend by his Department on *(a)* public relations and press offices and *(b)* advertising in each year since 1996–97; and what the estimated spend for 2005–06 is. [47197]

Mr. Jim Murphy *[pursuant to the reply, 6 February 2006, Official Report, c. 849W]:* I regret that the figure published showing press office staff costs for 2002–03 of £529,000 was incorrect.

The correct figure should read £398,000.

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 6 February 2006, *Official Report*, column 849W, on Government communications, how many *(a)* press officers and *(b)* public relations staff were employed by his Department in each year since 1997–98, broken down by (i) salary band and (ii) unit in his Department. [52352]

Mr. Jim Murphy: The number of press officers employed in each year since 1997–98 is shown in the table.

	Number of press officers
1997–98	11
1998–99	14
1999–2000	20
2000–01	16
2001–02	18
2002–03	8.5
2003–04	7.5
2004–05	8
2005–06	8

Overall staffing costs of the press office for each of the years from 1997–98 to 2006–06 were given in my answer to the hon. Member of 6 February 2006, *Official Report*, column 849W. Figures by salary band are not held. As the press office is a centrally managed operation press officers are not allocated to individual units.

The Cabinet Office does not have specific personnel for performing public relations functions.

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 6 February 2006, *Official Report*, column 849W, on Government communications, how much of the press office staff costs for each year since 1997–98 were accounted for by *(a)* salaries, *(b)* office costs, *(c)* provision of mobile telephones, *(d)* provision of laptop computers, *(e)* provision of other equipment and *(f)* other costs. [52353]

Mr. Jim Murphy: In the response of 6 February 2006, *Official Report*, column 849W, for each year the only costs accounted for, was expenditure on total pay costs. The total pay costs 1997–98 to 2004–05 and office costs 2002–03 to 2005–06 are shown in the table.

The office costs for press office are not separately available before 2002–03. Before that date office costs referred to the overall communication function.

The office costs provided include training costs, the provision of information technology and office equipment. Due to the way financial expenditure is captured I am unable to provide this information in the manner requested.

£000

	Press office—office costs	*Total pay costs*
1997–98	—	454
1998–99	—	512
1999–2000	—	753
2000–01	—	782
2001–02	—	798
2002–03	514	398
2003–04	255	416
2004–05	412	439
2005–06[1]	320	337

[1] Spend to end of January 2006

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 6 February 2006, *Official Report*, column 849W, on Government communications, what the reasons were for the increased press office staff costs between 1999–2000 and 2001–02. [52355]

Mr. Jim Murphy: The increase in press office staff costs between 1999–2000 and 2001–02 as shown in my answer of 6 February 2006 reflects the work required around the "Millennium Bug" and the GM foods communications unit, at the time based in the Cabinet Office.

Legislative and Regulatory Reform Bill

Peter Bottomley: To ask the Chancellor of the Duchy of Lancaster for what reason the Government have not accepted requests to limit by legislation the power to deliver by the scope of Part 1 of the Legislative and Regulatory Reform Bill highly political measures. [56154]

Mr. Jim Murphy: The Legislative and Regulatory Reform Bill (the Bill) has just completed its Committee stage where this issue was discussed. I have told the Standing Committee that the Government will consider the addition of further safeguards to the order making power in Part 1 of the Bill at Report stage.

Websites

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster what were the running costs of the Cabinet Office website in *(a)* January and *(b)* February. [56796]

Mr. Jim Murphy: The cost of running the Cabinet Office website each month is £1,699.15 (inc. VAT).

This figure comprises the set monthly charges for external hosting and infrastructure and related telecommunication services.

NORTHERN IRELAND

Compensation Claims

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many claims for compensation against his Department were *(a)* lodged and *(b)* brought to a conclusion in each year since 1996. [54121]

Mr. Woodward: The table details the number of *(a)* claims lodged and *(b)* claims brought to conclusion in each year since 1996 within the Northern Ireland Office.

	Claims lodged	*Claims settled*
1996	5	0
1997	5	1
1998	7	1
1999	7	2
2000	8	6
2001	13	10
2002	14	13
2003	11	7
2004	10	6
2005	2	8
2006	0	0
Overall total	82	54

Larry Zaitschek

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland (1) on how many occasions his Office has made contact with the US Administration regarding the extradition of Larry Zaitschek; [54615]

(2) what assessment he has made of the reasons for the time taken on the decision on whether to extradite Larry Zaitschek; [54619]

(3) whether the delay in extradition of Larry Zaitschek was connected with the Denis Donaldson case. [54620]

Mr. Hain: It is not Government policy to comment on individual cases.

Private Office

Sarah Teather: To ask the Secretary of State for Northern Ireland what the cost of his private office was in the last year for which figures are available. [55728]

Mr. Woodward: The cost of the private offices, in Belfast and London, for the Secretary of State for Northern Ireland for the financial year 2004–05 was £841,557.

Road Accidents

Chris Ruane: To ask the Secretary of State for Northern Ireland how many deaths were caused by joyriding in Northern Ireland in each of the last 30 years. [55563]

Mr. Woodward: The following table provides the number of fatalities involving the offence of taking and driving away of motor vehicles. Figures are only available for the last 10 years.

	Fatalities
1996	2
1997	3
1998	8
1999	5
2000	6
2001	8
2002	5
2003	9
2004	3
2005[1]	2

[1] Figures for 2005 are provisional and may be subject to change

Spending Review (Efficiency Targets)

Mrs. Villiers: To ask the Secretary of State for Northern Ireland what the target level of employment expressed as full-time equivalents is in his Department by April 2008, in order to meet his Department's civil service workforce reductions target set out in the 2004 Spending Review. [52841]

Mr. Hain: In order to meet the NIO civil service workforce reduction targets the number of full-time staff required to do the same work in April 2008 that was being undertaken in April 2004 must be reduced by 128. Current forecasting suggests that NIO will achieve a reduction of 364 civil servants.

Based on current plans, there will be 5,508.5 full-time equivalent civil servant posts in the Northern Ireland Office, and other organisations that draw of NIO DEL, by April 2008.

Written Answers to Questions

Monday 13 March 2006

WORK AND PENSIONS

Benefit Payment Methods

18. **David Taylor:** To ask the Secretary of State for Work and Pensions what discussions he has had with interested parties on the successor arrangements to the Post Office card account for the payment of pensions and benefits. [57335]

Mr. Plaskitt: The bulk of the discussions have, quite properly, been with Post Office Ltd. and we have been talking to them about this since last summer. The first meeting on this was in fact instigated by the former chief executive of Post Office Ltd. (David Mills). The meetings have covered a number of issues, including the DWP pilots which have been running over the last few weeks. We also advised the National Federation and Postwatch before the pilots started.

Once these have been analysed, the results will be shared with Post Office Ltd., and thereafter, I anticipate further discussion with customer groups and others, as is normal practice.

Pension Schemes

19. **Peter Viggers:** To ask the Secretary of State for Work and Pensions what his estimate is of the shortfall in private pension schemes. [57336]

Mr. Timms: Pension fund deficits can be estimated in a number of ways.

In July 2005 the consultation document on the Pension Protection Levy estimated that as at September 2004 the aggregate deficit, on a Pension Protection Fund basis, was £134 billion.

In October 2005 the pensions regulator estimated that, as at December 2004, the aggregate deficit measured by FRS 17 accounting standards was £130 billion.

New Deal

20. **Stephen Hammond:** To ask the Secretary of State for Work and Pensions what representations he has received on his Department's report, a new deal for welfare: empowering people to work. [57337]

Margaret Hodge: We have already had discussion with many hundreds of stakeholders, including disability organisation, employers, providers, lone parent organisations and providers of employment services. Since the launch of the Welfare Reform Green Paper we have distributed over 3,500 versions to interested parties.

In the coming month we will be hosting events which specifically focus on our key proposals. Many organisations and individuals are writing to us. We intend to publish a report on the consultants and we will of course have regard to representations as we draw up our legislative proposals.

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions how many young people have been assisted by the new deal in Coventry, South; and if he will make a statement. [56757]

Margaret Hodge: The new deal for young people has helped to virtually eradicate long term youth unemployment and has been successful in helping nearly 650,000 young people into work. Information on the numbers of young people helped by the programme in Coventry, South is in the following table:

New deal for young people in Coventry South

Individuals starting new deal for young people[1]	*Individuals into work through new deal for young people*[2]
2,180	1,290

[1] Latest data to the end of November 2005.
[2] Latest data to the end of August 2005.
Note:
Figures are rounded to the nearest 10.
Source:
Department for Work and Pensions Information Directorate.

Incapacity Benefit

21. **Justine Greening:** To ask the Secretary of State for Work and Pensions how many servicemen and ex-servicemen claim incapacity benefit; and if he will make a statement. [57339]

Margaret Hodge: Information on customer's previous or current employers is not held on incapacity benefit claims.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions (1) pursuant to his oral statement of 24 January 2006, *Official Report*, columns 1305–12W, on the Welfare Reform Green Paper, what the baseline year is for measuring the target to reduce the number of people on incapacity benefit by one million over 10 years; [51950]

(2) what estimate he has made of the proportion of existing incapacity benefit claimants who will flow off benefit and into work following the introduction of the proposals outlined in the Green Paper A New Deal for Welfare: Empowering People to Work; [51953]

(3) whether he plans to set targets for existing incapacity benefit caseload reduction by geographical area; [51954]

(4) whether he plans to set a public service agreement target for the reduction of incapacity benefit claimants by one million by 2018; [51956]

(5) what impact he expects the measures proposed in the Green Paper A New Deal for Welfare: Empowering People to Work to have on the existing *(a)* incapacity benefit and *(b)* severe disablement allowance caseload. [51958]

Margaret Hodge: The Green Paper set out our proposed measures to significantly reduce the number of people claiming and receiving incapacity benefits. These

measures included improvements to workplace health, reform of the gateway, increased support for claimants and removing the perverse incentives in the system.

While it is difficult to model the precise impact of these measures at this early stage, the Green Paper set out our aspiration to reduce the number of claimants of incapacity benefits by one million over the course of a decade through the combined efforts of the Government, employers, local authorities and health professionals. More precise measures will be established in due course.

Ability to Work (Assessment)

22. **Mr. Borrow:** To ask the Secretary of State for Work and Pensions what assessment he has made of whether changes are required to the medical assessment process of an individual's ability to work. [57340]

Margaret Hodge: The current personal capability assessment focuses entirely on an individual's limits to functional capabilities, as a way of determining eligibility for benefit. It gives no regard to a person's capabilities.

In our Green Paper on Welfare Reform, we set out our plans for transforming the assessment into a much more constructive and proactive process, focusing not just on what an individual can't do but on what they can do as well. We will identify the barriers preventing an individual from returning to work and the types of support and intervention needed to overcome those barriers. We will also identify those people whose illness or disability limits them so severely that it would be unreasonable to expect to engage in work-related activity at that point in time. They will be entitled to a higher rate of benefit.

Ambition Programme

Justine Greening: To ask the Secretary of State for Work and Pensions (1) how many unemployed people have participated in the Ambition programme in each month since its commencement; how many people are participating in the programme; and if he will make a statement; [44728]

(2) how many previously unemployed people participating in the Ambition programme have been identified as still working in the same sector 26 weeks after gaining a job, broken down by sector; and if he will make a statement; [44729]

(3) what assessment the Department has made of the Ambition programme since its introduction; what plans there are to continue with the programme; and if he will make a statement. [44730]

Margaret Hodge *[holding answer 23 January 2006]:* 8,357 people participated in the time-limited Ambition programmes.

Information on the total number of people participating on the programme at any one time is not collected however the average number of starters per month, by sector, is in the table.

Ambition programme—average starts to the programme per month

	Date programme first started	*Total number of participants*	*Number of months programme delivered*	*Average number of starters per month*
Retail	June 2002	1,060	24	44
IT	April 2003	2,020	30	67
Construction	July 2002	1,696	30	57
Health	October 2004	397	9	44
Energy	March 2002	3,184	45	71

Source:
Employer Services Division, Department for Work and Pensions.

Ambition Retail, IT and Construction have now come to an end and Ambition Energy and Health will end in March.

There are currently 331 people participating on the Ambition programme, of which 225 people are undergoing training with Ambition Energy, and 106 people with Ambition Health.

The number of people who secured a within 13 weeks of completing training and who were still working in the same sector after 26 weeks is set out in the following table.

Ambition programme

Programme	*Job entries*	*Still in an Ambition job in the same sector after 26 weeks*
Ambition Energy	2,055	1,386
Ambition Retail	544	337
Ambition Construction	852	517
Ambition IT	765	483
Ambition Health	116	10

Source:
Employer Services Division, Department for Work and Pensions

Courses for Energy and Health are still running, therefore final retention figures will not be available until late in 2006.

The Ambition programme has shown that the collaborative approach adopted in working with industry and sector based partners has been highly successful. The programme has met its aims of supporting people into employment while at the same time developing new approaches to training and facilitating closer links with the key sector partners.

We published an Ambition report last year "Ambition: identifying best practice for demand-led approaches" GHK Consulting, DWP Research Report 264, 2005, which is in the Library. We will ensure that successful aspects of the Ambition programmes are incorporated into policies and programmes.

Benefit Claimants

Edward Miliband: To ask the Secretary of State for Work and Pensions how many people have come off benefits and entered work in *(a)* South Yorkshire and *(b)* Doncaster North constituency in each year since 1997. [50588]

Margaret Hodge: The information is not available in the format requested.

The Department for Work and Pensions Research Report No. 244 Destination of benefit leavers 2004showed that nationally, 62 per cent. of claimants leaving income support, incapacity benefit or jobseeker's allowance entered employment of 16 hours or more a week. Copies of the report are available in the Library.

Council Tax Benefit

Mr. Burns: To ask the Secretary of State for Work and Pensions what the criteria are for pensioners to qualify for council tax benefit; and if he will make a statement. [56624]

Mr. Plaskitt: Pensioners receiving the guarantee element of pension credit are treated as having no income or capital and are entitled to council tax benefit in full, subject to any deductions for any non-dependant household member. In other cases, a pensioner's income is compared with an applicable amount. If their income is at or below the applicable amount, full benefit is payable, again subject to any deductions as set out above. Where income exceeds the applicable amount, or where capital is held, benefit is tapered off progressively depending on the amount of income and capital held.

Job Centres

Mr. Hurd: To ask the Secretary of State for Work and Pensions what the turnover of staff was in job centres in *(a)* the London borough of Hillingdon, *(b)* Greater London and *(c)* England in the calendar year 2005. [54980]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question about the turnover of staff in Jobcentres in *(a)* the London Borough of Hillingdon, *(b)* Greater London and *(c)* England in the calendar year 2005. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus does not hold figures for the turnover of staff for individual London boroughs, for Greater London or for England alone. However we do collect figures under the following headings:

Staff turnover rates for the period December 2004 to December 2005

Percentage

	Staff turnover rate
Brent, Harrow and Hillingdon District	5.8
London Government Office Region	6.2
Great Britain	6.5

Source:
Combined Dataview

I hope this is helpful.

Jobcentre Plus

Mark Williams: To ask the Secretary of State for Work and Pensions what provision has been made for *(a)* people who are hard of hearing and *(b)* Welsh language speakers under the Jobcentre Plus customer management system. [51652]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your questions asking what provision has been made for *(a)* people who are hard of hearing and *(b)* Welsh language speakers under the Jobcentre Plus Customer Management System. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The Customer Management System (CMS) is the IT system which supports the Jobcentre Plus process for gathering information from customers to support claims to Working Age Benefits. Claim information is primarily gathered via the telephone with customers contacting a Contact Centre, but also by face-to-face meetings and postal applications.

All the Contact Centres have fully trained text phone users to enable a customer to converse via a text phone. Arrangements are in place for staff in the Contact Centre to identify vulnerable customers, including those who are hard of hearing, and make alternative arrangements. This might include use of a text phone, or arrangements for a face-to-face meeting at the local Jobcentre when a fully trained face-to-face First Contact Officer will take the required details from the customer. Jobcentre Plus offices are equipped with induction loops to support our vulnerable customers. Alternatively, the customer could elect to be represented by a third party.

Where a customer wishes to converse in Welsh, the First Contact Officer will identify if there are any Welsh-speaking colleagues in the office who are available to take the call. The customer can then talk to the relevant Welsh-speaking officer to continue the process of gathering information. Where a Welsh-speaking First Contact Officer is not available, arrangements are made to call the customer back when one is available. Once all the relevant information has been gathered, the Contact Centre will then arrange for the notifications to be translated via the Welsh Language Unit before issuing them to the customer.

I hope this is helpful.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what national targets have been set for Jobcentre Plus benefit application processing times; and what has been performance against targets over the last two years. [54250]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking what national targets have been set for Jobcentre Plus benefit application processing times and what has been performance against targets over the last two years. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus does not have targets for benefit processing times. However, data relating to claim clearance times is collected and measured against "acceptable standards of delivery" that are set at the beginning of the year. The length of time it takes to process a claim is measured by looking at the Actual Average Clearance Time of claims within a set period and is a Key Management Indicator.

The acceptable standards of delivery are: Income Support—12 days, Jobseeker's Allowance—12 days, Incapacity Benefit—9 days.

The information requested is in the table.

Monthly average actual clearance times	Income support (12 days acceptable standard)	Jobseeker's allowance (12 days acceptable standard)	Incapacity benefit (19 days acceptable standard)
2004			
January	10.9	11.1	19.2
February	10.8	11.7	17.4
March	10.7	11.4	17.0
April	11.2	11.6	16.7
May	11.5	11.8	16.6
June	10.9	11.5	17.4
July	10.7	11.8	17.2
August	10.8	12.8	17.0
September	10.9	12.3	17.2
October	10.8	12.2	16.6
November	10.9	12.3	17.2
December	10.5	11.8	16.4
2005			
January	11.1	12.2	20.2
February	10.2	12.8	16.6
March	10.0	12.4	14.9
April	10.3	12.4	16.0
May	10.5	12.9	15.5
June	10.5	13.1	15.0
July	10.7	13.5	14.9
August	11.2	14.1	14.7
September	11.4	14.7	15.6
October	11.6	15.4	15.7
November	11.7	15.6	16,1
December	11.6	14.7	15.5

A Jobseeker's Allowance taskforce has been created to address fluctuating Jobseeker's Allowance clearance times and set in place immediate recovery measures, whilst longer term issues are also being taken forward. More immediate measures include the more effective distribution of workloads amongst the Contact Centre network to improve performance.

Building on the taskforce's work, the Jobcentre Plus Chief Operating Officer launched a National Action Plan in the week commencing 30 January. The Action Plan is built around a mandatory series of "health checks", taking local managers through the whole end to end process, identifying key risk elements and, where a part of the process fails the health check, directing managers to appropriate good practice products and tool-kits. Regular reviews are undertaken to ensure areas of our business do not fall below expectation. We are already seeing improvements following the introduction of these measures.

I hope this is helpful.

Mr. Kidney: To ask the Secretary of State for Work and Pensions if he will give a higher priority in Jobcentre Plus's performance measurance to its performance in keeping employed people in their jobs. [55738]

Margaret Hodge: Jobcentre Plus's jobs target is based on a points system. The number of points awarded reflects the priority group of the customer helped into employment in line with the Government's priorities for welfare reform. Targets are reviewed annually.

From April 2006 we will be using Her Majesty's Revenue and Customs (HMRC) data to measure job outcomes. This presents an opportunity to significantly improve our arrangements for measuring retention in work.

Lone Parents (Work-focused Interviews)

Danny Alexander: To ask the Secretary of State for Work and Pensions what plans he has to use the private and voluntary sectors to deliver work-focused interviews to lone parents; and if he will make a statement. [51738]

Margaret Hodge: The private and voluntary sectors already deliver a significant proportion of our services to the public and we intend continuing our partnerships with not-for-profit and private sector organisations to encourage innovation and support delivery of our objectives, particularly in helping customers to address barriers to work.

In our recently published Green Paper "A new deal for welfare: Empowering people to work", we have proposed increased contact with lone parents through more frequent work focused interviews, as well as the intention to pilot a work-related activity premium to encourage lone parents with older children to take serious steps to return to work.

Pathways to Work Pilots

Mr. Hunt: To ask the Secretary of State for Work and Pensions what assessment his Department have made of the likely period of time it will take to reach the break even point when the Pathways to Work pilots are extended nationwide. [52344]

Margaret Hodge: The cost savings from measures outlined in the Green Paper depend to a large extent on the final proposals following the consultation. We know however that the existing Pathways to Work pilots are already generating savings, and we expect further savings from further roll-out. We announced in the Green Paper that we are looking to the private and voluntary sector to deliver many of the Pathways to Work schemes, and breakeven points will be affected by the final contracts agreed.

Pensioners (West Chelmsford)

Mr. Burns: To ask the Secretary of State for Work and Pensions how many pensioners live in the West Chelmsford parliamentary constituency; how many are in receipt of council tax benefit; and what percentage this is of the total number of pensioners living in the constituency. [56625]

Mr. Plaskitt: Information about council tax benefit is not available broken down by parliamentary constituency. The available information for the Chelmsford borough council area is in the following table:

Council Tax Benefit (CTB) recipients in the Chelmsford borough council area aged 60 years and over: August 2005

Population aged 60 and over	CTB recipients aged 60 and over	Percentage of population aged 60 and over claiming CTB
32,300	4,100	12.6

Source:
Housing benefit and council tax benefit management information system quarterly 100 per cent. caseload stock-count taken in August 2005.
Notes:
1. The data refers to benefit units, which may be a single person or a couple.
2. Figures have been rounded to the nearest hundred.
3. Council tax benefit figures exclude any Second Adult Rebate cases.

4. Population figures are mid-2004 estimates as provided by ONS, Population Estimates Unit.
5. CTB recipients aged 60 or over applies where either the claimant or the partner are aged 60 or over.

Post Office Card Account

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions when Parliament was first informed that *(a)* the Government's contract with the Post Office to pay pensions and benefits into Post Office card accounts lasted until 2010 and *(b)* the Government did not intend to renew this contract with the Post Office when it expired in 2010. [51304]

Mr. Plaskitt *[holding answer 13 February 2006]:* We have always made clear that the Post Office card account was an interim measure designed to help some people move off order books if they were not yet ready to be paid into a bank account. For example, in a written answer on 4 February 2005 *Official Report*, column 1196W my predecessor said that The contract between Post Office Limited and DWP commenced on the 22 March 2002 and ends on 31 March 2010'.

Schools Adventure Activities

Paul Rowen: To ask the Secretary of State for Work and Pensions what role the Health and Safety Executive plays in the assessment of arrangements for adventure activities undertaken by schools. [57331]

Mrs. McGuire: The Health and Safety Executive is responsible for enforcing health and safety legislation in schools and this includes requirements for assessing risks associated with adventure activities. HSE also gives advice to the Adventure Activities Licensing Authority which is responsible for licensing the provision of the more hazardous adventure activities undertaken by schools.

HSE's approach is to encourage well-planned adventure activities, not to try and eliminate risk altogether.

Social Fund/Jobseeker's Allowance

Gwyn Prosser: To ask the Secretary of State for Work and Pensions (1) what the Department's target is for the time taken to process *(a)* a social fund application and *(b)* a jobseeker's allowance claim; and how many days on average were taken to process applications in the latest month for which figures are available; [48236]

(2) what the Department's target is for the time taken to process *(a)* a Crisis Loan application and *(b)* a benefit application; and how many days on average were taken to process applications in the latest month for which figures are available. [48238]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your questions asking: what the Department's target is for the time taken to process *(a)* a social fund application and *(b)* a job seeker's allowance claim; and how many days on average were taken to process applications in the latest month for which figures are available; and, what the Department's target is for the time taken to process *(a)* a crisis loan application and *(b)* a benefit application; and how many days on average were taken to process applications in the latest month for which figures are available.

This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus defines its speed of processing benchmarks by reference to clearance times. By this we mean how many working days it takes, on average, to process benefit claims. This is referred to as the Actual Average Clearance Time (AACT) and each benefit is set its own AACT benchmark.

For 2005–06 the Department has set as acceptable standards of delivery the following AACTs for all five elements of the Social Fund.

9 days for Community Care Grants;

6 days for Budgeting Loans;

2 days for Crisis Loans;

16 days for Funeral Payments;

5 days for Sure Start Maternity Grants.

For 2005–06 the Department has set the acceptable standard of delivery for Jobseekers Allowance at 12 days AACT.

The information requested on average clearance times is in the table.

Benefit	*Standard AACT set for 2005–06—days*	*Actual AACT—days December 2005*
Social fund community care grants	9	8.7
Social fund budgeting loans	6	3.2
Social fund crisis loans	2	1.4
Social fund funeral payments	16	11.4
Social fund sure start maternity grants	5	3.6
Jobseeker's allowance	12	14.7

Source:
DWP Social Fund Policy, Budget and Management Information System and Jobcentre Plus MI Portal.

A JSA taskforce has been created to address fluctuating JSA clearance times and set in place immediate recovery measures, whilst longer term and more fundamental issues are also being taken forward. More immediate measures include the more effective distribution of workloads amongst the Contact Centre network to improve performance.

Building on the taskforce work, the Jobcentre Plus Chief Operating Officer will shortly launch a National Action Plan. The Action Plan is built around a mandatory series of "health checks", taking local managers through the whole end to end process, identifying key risk elements and, where a part of the process fails the health check, directing managers to appropriate good practice products and tool-kits. This will be strengthened by regular senior management attention particularly in this area. Where performance is below expectation, Districts and Contact Centres will be required to draw up their own individual recovery plans.

I hope this is helpful.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce measures to prohibit the *(a)* import, *(b)* export and *(c)* re-export of (i) primates and (ii) marine mammals; and if she will make a statement. [58311]

Jim Knight: The import, export and re-export of primates and most marine mammals, including all whales and dolphins, monk seals, fur seals, sea otters, and Canadian populations of walrus, is already strictly regulated under Council Regulation 338/97, which

implements the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) within the EU. Imports of harp and hood seal pup skins are also prohibited under the Import of Seal Skins Regulations 1996.

These controls already give us adequate powers to suspend trade in primates and most marine mammals if necessary. However, our scientific advisors, the Joint Nature Conservation Committee, do not consider that there are any conservation grounds for taking such action at this time.

Bird Protection

Ms Angela C. Smith: To ask the Secretary of State for Environment, Food and Rural Affairs if she will consult on adding the *(a)* peregrine falcon, *(b)* barn owl, *(c)* common raven and *(d)* red-billed chough to the schedule of species whose nests will be protected throughout the year. [57156]

Jim Knight: Clause 46 of the Natural Environment and Rural Communities Bill seeks to amend section 1 of the Wildlife and Countryside Act 1981, as it applies within England and Wales. This would provide year-round protection for birds which re-use their nests, and which are listed on schedule ZA1. The schedule lists the Golden Eagle, White-tailed Eagle, and Osprey and there are no current plans to include additional birds. Should evidence come to light that other birds would benefit from being listed, a full public consultation would need to take place before any decision was taken.

Under section 1 of the 1981 Act all wild birds are protected against being killed, injured or taken, and their nests and eggs are protected against being taken, damaged or destroyed. In addition, peregrine falcons, barn owls and red-billed choughs, are protected against disturbance during their breeding season by virtue of being listed on schedule 1. There are signs that the populations of these three species are slowly increasing within the UK, and the current level of protection is therefore considered sufficient to ensure their continued breeding success. The raven is not listed as a bird of conservation concern.

Cattle Passports

John Thurso: To ask the Secretary of State for Environment, Food and Rural Affairs whether applications for registration of cattle passports are recorded by *(a)* date of dispatch by the applicant, *(b)* postal receipt by the British Cattle Movement Service and *(c)* date of processing; and if she will make a statement. [56043]

Jim Knight: An application for the registration of a cattle passport is recorded by the date that it is received at the British Cattle Movement Service.

A keeper has 27 days to apply for a cattle passport. Any applications that are received after this deadline will automatically be refused, but the keeper has the option to appeal against this decision. If an applicant wishes to appeal on the grounds that the postal service caused the application to be late, they will be required to provide independent evidence that they posted the application in good time.

John Thurso: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect of postal delays on the late delivery of cattle passport applications to the British Cattle Movement Service; and if she will make a statement. [56044]

Jim Knight: The British Cattle Movement Service is aware that there is the potential for late delivery of cattle passport applications and have procedures in place to account for this.

Every year a plan is put in place to take into account the Christmas, Easter and bank holidays, as well as weekends. Receipt dates are also reviewed if there is a possibility of a postal strike, or any other industrial action which may impact the day when cattle passport applications are received. During these periods the scanning system is amended to show the last available working day as the receipt date.

John Thurso: To ask the Secretary of State for Environment, Food and Rural Affairs if she will instruct the British Cattle Movement Service, when accepting applications for cattle passports, to retain on file both the application and envelope which carries the date of posting of the relevant application. [56045]

Jim Knight: Applications for cattle passports are captured onto the cattle tracing system (CTS) on the day they are received. These are then retained as a scanned image for future reference.

The British Cattle Movement Service (BCMS) receives large volumes of paper applications on a daily basis, which at its peak can reach 30,000 per day. BCMS recently conducted a survey on the quality of the post marks on the envelopes and found that only 37 per cent. were legible. Owing to this information the option to retain the envelopes as evidence of the date of postage was not seen as viable.

BCMS recommends to keepers who are concerned about the postal system to obtain a certificate of postage which are issued free by the Royal Mail.

Promotions regularly take place highlighting the benefits of using CTS Web Services and CTS Online. Both of these enable keepers to apply for passports and receive a receipt confirming that the application or movement notifications have been received.

Cetaceans

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of measures funded by her Department to monitor the *(a)* scale and *(b)* nature of cetacean strandings on the (i) Cornish and (ii) South West England coasts during (A) the present winter fishery and (B) the previous five years. [56150]

Mr. Bradshaw: The winter fishery off the south west coast of England typically takes place any time between 1 November and 30 April. From 1 November 2005 to 7 March 2006, there have been 101 reports of stranded cetaceans in Cornwall and 13 cetaceans reported stranded in Devon and Dorset. A total of 42 post mortems were undertaken and, of these, the cause of death in 14 cases was determined as bycatch. The

remaining 28 cases were determined either as physical trauma, infectious disease, live stranding, starvation or other undiagnosed causes.

Table 1 gives a breakdown by species of the number of cetaceans stranded and the number that were diagnosed as bycaught for the present winter fisheries season.

	Cornwall	Devon/Dorset	Total number diagnosed to be bycaught
Dolphins (all species)	77	11	6
Harbour Porpoise	24	2	8
Total	101	13	14

Table 2 gives a breakdown of recorded strandings by species and the number which were bycaught for the previous five years by county. A total of 257 post mortems were carried out over the five years. The cause of death in 135 cases was determined as bycatch, and the remaining 122 cases were determined either as physical trauma, infectious disease, live stranding, starvation or other undiagnosed causes.

	Dolphins		Harbour Porpoise		
	Cornwall	Devon/ Dorset	Cornwall	Devon/ Dorset	Total number diagnosed to be bycaught
2000–01	43	38	15	17	27
2001–02	84	50	58	8	30
2002–03	177	99	33	12	28
2003–04	106	69	104	12	32
2004–05	59	28	29	13	18

Correspondence

Sir Patrick Cormack: To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to the letter of 8 October 2005 from the hon. Member for South Staffordshire regarding the waste composting site at Iverley Park Farm, which was transferred by the Office of the Deputy Prime Minister in November 2005. [48911]

Mr. Bradshaw: I apologise for the delay in replying to the hon. Member's letter. A response will be issued shortly.

ENCAMS

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding her Department has provided to ENCAMS in each year since 1997. [57056]

Mr. Bradshaw: Government have provided ENCAMS with funding since 1997 as detailed in the following table.

	£000
1997–98	3,997
1998–99	3,697
1999–2000	3,762
2000–01	3,542
2001–02	3,762
2002–03	[1]4,597
2003–04	3,574
2004–05	4,542
2005–06	5,542

[1] Defra allocated an additional £1 million to local authorities through ENCAMS for the Local Environmental Quality Pathfinder Programme that forged partnerships between local authorities and the local community. Some of the projects developed reduced fast food litter, railway land litter and schools litter.

Fly-posting

Anne Snelgrove: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to increase the powers of local authorities to remove fly-posters. [56719]

Yvette Cooper: I have been asked to reply.

From April local planning authorities will be able to enter occupied as well as unoccupied land in order to remove fly-posters and recover their costs of removing fly-posters by direct action. A notice may be served to require fly-posters to be removed from street furniture and other structures in or on any public street, and from surfaces owned, occupied or controlled by transport operators or providers, and educational institutions, provided the land is public or the surface is visible from public land or to members of the public using the services of that body

Institute of Grassland and Environmental Research

Mr. Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs whether she expects research projects being undertaken by the Institute of Grassland and Environmental Research to be affected by the reduction in funding from her Department. [54610]

Jim Knight: The Institute of Grassland and Environmental Research (IGER) is contractually obliged to deliver the Defra-commissioned research projects currently being undertaken, the full costs of which are being met by my Department. Spending by Defra on research at IGER in the financial year 2006–07 is forecast to be around £5 million.

Landfill Directive

Mr. Jack: To ask the Secretary of State for Environment, Food and Rural Affairs whether she expects the United Kingdom to meet its Landfill Directive Article 5 targets for *(a)* 2010 and *(b)* 2013; and if she will make a statement. [56691]

Mr. Bradshaw: Meeting the Landfill Directive Article 5(2) diversion targets for biodegradable municipal waste in 2010 and 2013 remains very challenging but achievable. It depends on necessary investment soon in facilities including those to recover energy from biodegradable waste where there is no reasonable prospect of it being recycled or composted.

Nappies

Mr. Leech: To ask the Secretary of State for Environment, Food and Rural Affairs what help her Department is providing to local authorities to introduce schemes designed to encourage parents to use reusable nappies. [55038]

Mr. Bradshaw: The Waste and Resources Programme (WRAP) has been taking forward a programme of work to increase awareness about re-usable nappies.

The aim of the WRAP initiative was to provide support to schemes run by local authorities and re-usable nappy businesses. In addition it provides information about re-usable nappies to parents and health professionals. The initiative received funding for a period of three years, and finishes at the end of March 2006.

Private Office

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of her private office was in the last year for which figures are available. [55719]

Jim Knight: The overall cost of the Department for Environment, Food and Rural Affairs' Secretariat for financial year 2004–05 (the last year for which figures are available) was £4,542,929. The Secretariat then encompassed the private offices of Ministers and the Permanent Secretary, Parliamentary Branch, Correspondence Section, Honours Section and Cabinet Section. The costs include Ministerial and staff salaries, staff training, travel and subsistence, publications, hospitality, office equipment purchase and running costs (including phone costs and IT software).

Recycling

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding *(a)* Uxbridge and *(b)* the London Borough of Hillingdon received to support recycling in each year since 1997. [53645]

Mr. Bradshaw: Funding and Support for Hillingdon from 1997:

London Borough of Hillingdon received £402,500 in London's 2002–04 Round of funding (£202,500 Capital and £200,000 Revenue) for their project titled "Kerbside Collection of Compostable Garden Waste".

Local authorities	*Funding type*	*Funding short description*	*Funding amount*	*Funding description*	*Start Date*	*End Date*
Hillingdon LB	WPEG	WPEG	225,905.00	Capital: 127,071 .52 Revenue: 98,833.41	1 April 2005	31 March 2006
Hillingdon LB	LASU DCS	HWRC Sites	18,018.00	Civic Amenity Site Re-Engineering (Design Phase)	1 April 2004	31 March 2005
Hillingdon LB	LASU DCS	HWRCs	16,481.00	Civic Amenity Site Re-Engineering (Design Phase)	1 April 2005	31 March 2006

LASU DCS stands for Local Authority Support, Direct Consultancy Support which is not direct funding but the equivalent value in consultancy services.

Mr. Keetch: To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce legislation which would require commercial companies to recycle their own waste products. [56725]

Mr. Bradshaw: There is no planned legislation but there are existing regulations on producer responsibility. Producer responsibility is aimed and ensures that businesses who place products on the market take responsibility for those products once they have reached the end of their life.

The Producer Responsibility Obligations (Packaging Waste) Regulations 2005 are intended to increase the recovery and recycling of packaging waste. While the regulations do not specifically require businesses to recycle their own packaging waste, those that do send their packaging waste to an accredited reprocessor, can if they wish, offset this tonnage against their recovery and recycling obligations.

The Government are currently considering introducing producer responsibility regulations for the collection and recycling of non-packaging farm plastics. Packaging plastics are already covered under the Producer Responsibility Obligations (Packaging Waste) Regulations 2005.

The End-of-Life Vehicles (ELV) (Producer Responsibility) Regulations 2005 require vehicle producers to meet recovery and recycling targets and ensure that vehicles are increasingly designed for recycling .

The Government are in the process of transposing the EU Waste Electrical and Electronic Equipment (WEEE) Directive, which will make producers responsible for the collection, treatment and recycling of electrical products when they become waste. In addition to this, we expect an EU Directive on batteries to come into force by the middle of 2006 which, like the WEEE Directive, will make producers responsible for collection, treatment and recycling of batteries.

The Government also has voluntary producer responsibility agreements with the Newspaper Publishers Association (NPA), Direct Marketing Association (DMA) and Periodical Publishers Association (PPA) to increase the recycling levels of newspaper, direct mail and magazines.

Mr. Keetch: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of waste was recycled in *(a)* Hereford and *(b)* Herefordshire in the last five years; and if she will make a statement. [56722]

Mr. Bradshaw: Results for the unitary authority of Herefordshire for percentages of household waste recycled and composted over the last five available years are taken from the Office of the Deputy Prime Minister and Audit Commission best value performance indicators.

	2000–01	2001–02	2002–03	2003–04	2004–05
BVPI 82a					
Household waste recycled[1]	10.8	8.1	10.3	13.6	15.0
BVPI 82b					
Household waste composted	2.1	4.4	5.1	5.9	6.7
Total	12.9	12.5	15.4	19.5	21.7

[1] There was a change of definition to BVPI 82a in 2001–02, to exclude previously included materials, such as incineration residue and recycled rubble. Therefore a direct comparison cannot be made between 2000–01 and later years. As BVPI results are available at local authority level, results for Hereford are not available separately and are therefore included within the unitary authority of Herefordshire.

Rights of Way

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs how many claims for a right of way for mechanically propelled vehicles on byways made after 19 May 2005 have been *(a)* determined successfully, *(b)* made subject to a definitive map modification order and *(c)* refused. [56252]

Jim Knight: *[holding answer 9 March 2006]*. We do not have the data on claims broken down at this level of detail. This information is held by local highway authorities, but it could be gathered only at a disproportionate cost.

Rural Payments Agency

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Rural Payments Agency on the efficiency and accuracy of its computer systems. [56014]

Jim Knight: The responsible Minister, Lord Bach, has regular meetings with senior officials of the Rural Payments Agency (RPA) to review progress on making payments under the Single Payment Scheme (SPS). All operational issues, for example resources, systems and business processes are discussed.

RPA successfully met its target to achieve a reduction of 10 per cent. in the unit cost of administering Common Agricultural Policy payments by 2004–05. It has modernised its systems and processes to deliver the new SPS during 2005–06 and this investment will enable the delivery of further efficiencies in the coming years.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she intends to introduce to improve the efficiency of the Rural Payments Agency. [56015]

Jim Knight: The Rural Payments Agency successfully met its target to achieve a reduction of 10 per cent. in the unit cost of administering Common Agricultural Policy payments by 2004–05. It has modernised its systems and processes to deliver the new Single Payment Scheme during 2005–06 and this investment will enable the delivery of further efficiencies in the coming years.

Single Farm Payments

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs how allowing a portion of their land to be used for leisure activities affects single farm payments to farmers. [56956]

Jim Knight: The impact of undertaking a non-agricultural activity on an individual farmer's payment under the SPS will depend on the length and type of the activity being undertaken. Updated guidance on this issue has been incorporated into section C of the 'Single Payment Scheme Handbook and Guidance for England 2006' which will be published very shortly. I will arrange for copies to be sent to the hon. Member and placed in the Libraries of the House.

SOLICITOR-GENERAL

Crown Prosecution Service

Mr. Hancock: To ask the Solicitor-General what his policy is on declarations of interest by members of the Crown Prosecution Service; and if he will make a statement. [58045]

The Solicitor-General: The Crown Prosecution Service's policy on declarations of interests by member of its staff is set out in the Department's Personnel Management Manual which covers conduct and staff rules. The policy requires full disclosure of all interests. There is additional guidance for specific activities and functions including guidance for Board members and members of tender evaluation panels.

Rape

Ben Chapman: To ask the Solicitor-General what research he has commissioned on the effect on the number of successful prosecutions for rape of the provisions in the Sexual Offences (Amendment) Act 1976 which granted anonymity prior to conviction for individuals who were the subject of allegations. [56383]

Paul Goggins: I have been asked to reply.

There has been no Home Office research on this subject. The provisions in the Sexual Offences (Amendment) Act 1976 which banned media identification of sex offence defendants was repealed by the Criminal Justice Act 1988. This was based on the Criminal Law Revision Committee's argument in its 1984 Sexual Offences report which was that there was no reason in principle for defendants in rape cases to be distinguished from those charged with other offences.

HOUSE OF COMMONS COMMISSION

Television Sets

Jo Swinson: To ask the hon. Member for North Devon, representing the House of Commons Commission how many television sets are operationally available on the House of Commons Estate *(a)* in total, *(b)* in hon. Members' offices and *(c)* in each office building on the estate. [57194]

BEST COPY AVAILBLE

Nick Harvey: There are 1,515 television/annunciator sets operationally available on the House of Commons part of the parliamentary estate. Each office occupied by a Member has a TV set. The breakdown by building is as follows.

Building	*Number*
Palace of Westminster	655
1 Parliament Street	63
Derby Gate	169
7 Millbank	98
Norman Shaw North	146
Norman Shaw South	101
2 The Abbey Garden	17
1 Canon Row	22
Portcullis House	244

Travel Office

Mr. Dismore: To ask the hon. Member for North Devon, representing the House of Commons Commission if he will arrange for the House of Commons Travel Office to publish the email addresses of individual travel office staff on the parliamentary intranet. [57430]

Nick Harvey: The contact details of the Houses of Parliament Travel Office are listed on the parliamentary intranet for the convenience of Members and other users of the Office. A central email address (hoptravel@carlsonwagonlit.co.uk) is provided so that any queries received are picked up and distributed around the office. This ensures that, in the event that a consultant is absent from the office, no emails are missed or responses delayed. It also allows for work to be shared out evenly between the consultants.

Travel Office staff are not on the parliamentary email system as they are not directly employed by Parliament, but by the contractor, Carlson Wagonlit Travel, which runs the Travel Office. We will look into the implications of setting up a parliamentary email address for the Travel Office.

EDUCATION AND SKILLS

Banding

Ms Barlow: To ask the Secretary of State for Education and Skills which local education authorities use banding in allocating pupils for secondary education. [56898]

Jacqui Smith: We do not collect this information centrally. However, we know that banding is operated in:

Lewisham—where all but one voluntary aided school use banding;

Greenwich—where all community schools and one voluntary aided school use banding; and

individual schools in Ealing, Hackney, Kensington and Chelsea, Kingston-upon-Hull, Lincolnshire, Northamptonshire, and Surrey.

Bradford Cathedral Community College

Mr. Gibb: To ask the Secretary of State for Education and Skills what measures Bradford Cathedral community college is taking to raise its standards; and if she will make a statement. [56687]

Jacqui Smith: Bradford Cathedral college currently has a tailored support package to secure further improvements in leadership and attainment. It will be replaced by Bradford academy in 2007 and this project is in the implementation stage. The academy is jointly sponsored by TOC H and the Church of England and will have a particular focus on citizenship and enterprise education. It will provide 1,150 school places including 250 for post-16 students. The academy will provide the opportunity to transform educational provision in a disadvantaged area which has suffered from low standards for too long.

Careers Advice

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what steps her Department is taking to provide careers advice for older workers looking to retrain. [56276]

Phil Hope: Older workers can access an integrated information and advice service on learning and work delivered by the Learning and Skills Council through the national learndirect telephone and on-line service, and 47 local nextstep partnerships The information service is freely available to adults of all ages; the more resource intensive advice service gives priority to those aged 50 and over without a first full level 2 qualification, since they are more likely to lack the skills foundation for sustainable employment and lifelong long learning.

Child Abuse

Ms Abbott: To ask the Secretary of State for Education and Skills whether her Department has commissioned a report into the scale of alleged child abuse related to witchcraft practices. [56620]

Maria Eagle: In September 2005, the Department for Education and Skills commissioned a study to scope the problem of child abuse in England linked to belief in "possession" or "witchcraft", or in other ways related to particular spiritual or religious belief, and to consider the circumstances leading to such abuse and the common features between cases. The report of this study was submitted to the Department in January, and will be published when Ministers have considered its findings and recommendations.

Child Protection

Mr. Hancock: To ask the Secretary of State for Education and Skills what assessment she has made of the Ofsted report into the Alcuin Independent school, Leeds, with particular reference to teachers working without criminal record checks. [57137]

Jacqui Smith: The Alcuin school was inspected by Ofsted, under Section 163 of the Education Act 2002, in December 2004. The inspection identified a number of regulatory failings which the school has rectified, including some cases where Criminal Records Bureau (CRB) checks had not been completed.

Mr. Hancock: To ask the Secretary of State for Education and Skills what her policy is on teachers working without police record checks in *(a)* state and *(b)* private schools; and if she will make a statement. [57138]

Maria Eagle: We strongly recommend Criminal Records Bureau (CRB) checks are made as part of the appointment process on anybody who will be working in a maintained school, further education institution or LEA education service. The law already requires independent schools to make CRB checks on the suitability of staff to work with children prior to confirming their appointment.

"Safeguarding children in education" (September 2004) emphasises the wider responsibilities of employers, including adopting recruitment practices which involve scrutinising applicants, verifying any qualifications, obtaining references, checking previous job history, as well as checking List 99 and making a CRB check where appropriate.

Changes announced recently by the Secretary of State will make a CRB check compulsory prior to appointment, or as soon as practicable after, for all new appointments to the maintained school workforce where the individual concerned has not worked in a school or institution within the further education sector for at least three months prior to the appointment. There is no requirement to obtain a CRB disclosure on existing staff. Employers will continue to have discretion to seek a disclosure where they have grounds for concern about the suitability of an existing member of staff.

Childcare Affordability Programme

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills whether she plans to extend the Childcare Affordability programme being piloted in London to other areas in England. [56791]

Beverley Hughes: The London Childcare Affordability Pilot programme is jointly funded by the London Development Agency (£22 million) and the DfES (£11 million) and will run from October 2005 to March 2008.

The pilot is being evaluated carefully so that lessons can be learned about its effectiveness in order to inform thinking about how best to address in future problems of affordability of child care for lower income families. There has been no decision at present to extend funding to other areas. However, we recently announced the allocation of the Transformation Fund to every local authority. This will enable private and voluntary providers to improve levels of qualification among their staff while maintaining affordability for parents.

Children's Workforce Development Council

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will make a statement on the work of the Children's Workforce Development Council for England since April. [33853]

Beverley Hughes: CWDC was launched in April 2005 with an overall aim to build the very best work force for children, young people and families. Since its launch, CWDC has been making good progress in building their capacity to deliver on the challenges set out in the Every Child Matters: Change for Children programme. As part of this they have recruited a strong and committed board of employer and employee representatives from their sector.

The first products of the council's early work will shortly appear. They will publish this month web-based advice for local planners on local work force strategies in support of their Children and Young People's plans. To complement this they will also offer local planners consultancy assistance.

With the Training and Development Agency for Schools they are working up proposals for developing professional roles within the early years and child care sector, as part of the implementation of the Government's 10-year child care strategy. These proposals will be published in the new year.

The council is also taking a leading role in the Children's Workforce Network, a partnership of sector skills councils and similar bodies responsible for work force development across the full range of children's services in early years, education, social care, youth work, playwork, youth justice and health. With partners in the network the council has begun work to review relevant national occupational standards to embed a common core of knowledge and skills for all those working with children, young people and families and to develop an integrated qualifications framework to support service improvement and career opportunities for individual workers.

CWDC is working with other organisations and Government to review recruitment and training and work force roles in social care as part of the recently-established 'Options for Excellence' Board. An initial report is due in April 2006.

CWDC is working with Government on its response to the Children's Workforce Strategy consultation, and will be commissioned to implement major parts of the strategy during 2006–07. The precise role which CWDC will play in implementing the CWS will be made clear in their Business plan for 2006–07 which is currently being developed.

Communication Aids

Mr. Laurence Robertson: To ask the Secretary of State for Education and Skills how much Government funding has been provided for communication aids projects in *(a)* England and *(b)* Gloucestershire in each of the last 10 years for which figures are available; how much will be made available in each of the next three years; and if she will make a statement. [56612]

Maria Eagle *[holding answer 7 March 2006]:* The Communication Aids Project (CAP) has received grant totalling £21 million, allocated as follows:

Financial years	*£ million*
2001–02	1.5
2002–03	3.5
2003–04	5
2004–05	6
2005–06	5

CAP, a DfES-funded initiative for school-age children, was created to supplement, not replace, provision made locally. The project, which has been successful, comes to an end in March 2006.

Local service providers have a central role in meeting needs, including the needs of individuals with severely impaired communication. Where children are concerned, we would be looking to children's services, through children's trusts, to provide appropriate support and equipment to all disabled children.

CAP did not operate on the basis of area allocations; referrals were made in relation to individual children. If an application was successful, assistive technology was provided to the individual child based on his or her particular needs, identified by means of a specialised assessment.

During the lifetime of CAP, a total of 24 referrals were made in relation to children living in Gloucestershire. 20 of these received support geared to their individual needs.

Information on application rates by area was contained in the independent evaluation of CAP, work undertaken by University College London in conjunction with the University of York. The report was published in October 2004 as DfES Research Report 580 and it confirmed that CAP had positive benefits for the children being assisted and those working with them.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Education and Skills when she will reply to the letter to her dated 19 January 2006 from the right hon. Member for Manchester, Gorton, with regard to Labour party branches. [56257]

Jacqui Smith: I responded to my right hon. Friend's letter on 1 March.

Mr. Beith: To ask the Secretary of State for Education and Skills when the Minister of State for Schools and 14 to 19 Learners will reply to the correspondence from the right hon. Member for Berwick-upon-Tweed dated 15 September 2005 relating to education maintenance allowance; and what the reasons are for the delay in replying. [56434]

Maria Eagle: I responded to the right hon. Member's letter on 27 February.

Departmental Telephone Numbers

Anne Milton: To ask the Secretary of State for Education and Skills if she will list the *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public administered by (i) her Department and (ii) agencies which report to her. [56536]

Maria Eagle: The Department for Education and Skills employs a number of 0800, 0845 and 0870 telephone numbers for the public as follows (number of lines in brackets):

0800

Aim Higher Helpline (1)

Career Development Loans (1)

Education Maintenance Allowance (3)

Learning Journey (1)

Schools for Life : Get on Campaign Line (1)

Small Firms Training Scheme (1)

Star Award Helpline (1)

Office of the Schools Adjudicator (OSA) (1)

Special Educational Needs Tribunal (SEN Tribunal) (5)

EDUBASE (Provision of schools data to the public) (1)

Write Here Write Now (1)

Devolution

Mr. Amess: To ask the Secretary of State for Education and Skills what her policy is with regard to *(a)* Ministers and *(b)* officials in her Department giving evidence to the (i) Scottish Parliament, (ii) National Assembly for Wales and (iii) Northern Ireland Assembly committees; and to what categories of document she gives (A) full access, (B) restricted access and (C) no access to the (1) Scottish Parliament, (2) National Assembly for Wales, (3) Northern Ireland Assembly and (4) House of Commons Select Committees. [37379]

Bill Rammell: Requests for the attendance of Ministers or officials to give evidence to the devolved legislatures, and for the provision of information to the assemblies, will be considered on a case-by-case basis. This consideration will reflect: the principles set out in the Cabinet Office guidance 'Departmental Evidence and Response to Select Committees' (July 2005); the policy outlined in the Department for Constitutional Affairs' Devolution Guidance Note #12 'Attendance of UK Ministers and Officials at Committees of the devolved legislatures'; and the requirements of the Freedom of Information Act. The principles underlying the provision of information to House of Commons Select Committees are set out in 'Departmental Evidence and Response to Select Committees', particularly sections 4B and 4C.

Education (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for Education and Skills how many schools in the *(a)* primary school and *(b)* secondary school sector in the Peterborough local education authority area have disapplied the National Curriculum (i) in respect of specific purposes in Key Stage 4 under section 91 of the Education Act 2002, (ii) through a statement of education need and (iii) for a temporary period under section 93 of the Education Act 2002 in the last five years; and how many pupils were affected in each year. [55263]

Jacqui Smith: The Department does not hold records of how many primary and secondary schools have disapplied the National Curriculum in respect of specific purposes in Key Stage 4 under section 91 of the Education Act 2002, through a statement of education need or for a temporary period under section 93 of the Education Act 2002.

The Qualifications and Curriculum Authority (QCA) were required to monitor the use of the Key Stage 4 disapplication regulations, under section 91 of the Education Act 2002, in secondary schools up until September 2002 when this requirement was withdrawn in order to simplify the arrangements and reduce the administrative burden for schools. The last year of monitoring was 2000–01 and QCA's records show that five secondary schools in the Peterborough local education authority area used the regulations for a total of 179 pupils. The total number of secondary schools in England that used the Key Stage 4 regulations in that academic year was 1,292, affecting 55,787 pupils.

Education Maintenance Allowance

Rosie Cooper: To ask the Secretary of State for Education and Skills if her Department will revise the education maintenance allowance criteria to include students who are an academic year in advance of their peers. [56410]

Maria Eagle: We do not currently have any plans to revise the EMA criteria to include young people who are required to be in compulsory education. The purpose of the education maintenance allowance (EMA), is to provide an incentive to engage young people aged 16 to 18 in learning.

EMA is not based on the academic level a pupil reaches. It is targeted at those who have reached the end of their compulsory education, who have the option of dropping out of learning. People under the age of 16 are required to be in compulsory education.

Rosie Cooper: To ask the Secretary of State for Education and Skills how many students under the age of 16 years who have entered further education a year in advance have *(a)* applied for and *(b)* been granted the education maintenance allowance. [56411]

Maria Eagle: The Learning and Skills Council (LSC), which is responsible for the operation of the education maintenance allowance (EMA), has provided information that 2,251 learners under the age of 16 applied for EMA during the academic year 2004/05 and 341 applied in the academic year 2005/06. None of these young people have received EMA as it is not available to young people who are required to be in compulsory education. We are not able to confirm how many of these young people entered further education because the level of study is not known at the point of application.

Annette Brooke: To ask the Secretary of State for Education and Skills what account is taken in the administration of educational maintenance allowances of the circumstances which might lead to absences from school or college, with particular reference to young carers. [34809]

Maria Eagle: Operational responsibility for education maintenance allowance (EMA) transferred from DfES to the Learning and Skills Council (LSC) on 1 April 2005. LSC have provided the following response to clarify the procedures in place to manage EMA payments when learners are absent:

> In general a student should only be paid when they have attended all the sessions for which they are required for EMA purposes, and will not receive a weekly payment if they fail to attend. However, it is acceptable for a school or college to deem an absence to be authorised.
>
> The institution decides which absences are acceptable, taking into account guidance provided by the LSC.
>
> There are many legitimate reasons for absence including the need to look after a family member or another person for whom the student has caring responsibilities.

Education Provision (Hendon)

Mr. Dismore: To ask the Secretary of State for Education and Skills how many students in Hendon receive the education maintenance allowance; and if she will make a statement. [56756]

Maria Eagle: This is a matter for the Learning and Skills Council, who operate education maintenance allowances for the DfES and hold the information about take-up of the scheme. Mark Haysom, the Council's Chief Executive, has written to my hon. Friend with the information requested and a copy of his reply will be placed in the Library.

Letter from Mark Haysom, dated 9 March 2006:

> I am writing in response to your Parliamentary Question that asked how many students in Hendon receive Education Maintenance Allowance.
>
> Information on the number of young people who have applied, enrolled and received EMA is available at Local Education Authority (LEA) level, but not at constituency level. By the end of January 2006, 2,020 young people in the Barnet LEA area had received one or more EMA payments in the academic year 2005/06.
>
> I hope this information is helpful and addresses your question. If you would like further details please contact Sharon Holmes at the LSC National Office on 0114 207 4567 or sharon.holmes@lsc.gov.uk.

Mr. Dismore: To ask the Secretary of State for Education and Skills (1) how many school support staff *(a)* there are in Hendon schools and *(b)* there were in 1997; and if she will make a statement; [56812]

(2) how many *(a)* teachers and *(b)* teaching assistants there were in Hendon schools in (i) 2005 and (ii) 1997; and if she will make a statement. [56850]

Jacqui Smith: The following table provides the full-time equivalent number of teachers, teaching assistants and other support staff in maintained schools in Hendon constituency, in January 2005 and 1997.

Full-time equivalent number of teachers, teaching assistants and other support staff in maintained schools in Hendon constituency in January 2005 and 1997

	1997	2005
Teachers	980	970
Teaching assistants	90	340
Other support staff	200	230

Note:
Figures are rounded to the nearest 10.
Source:
Annual School Census

Mr. Dismore: To ask the Secretary of State for Education and Skills how many schools in *(a)* Hendon and *(b)* Barnet were in (i) special measures and (ii) other categories of concern in (A) 2005 and (B) 1997; and if she will make a statement. [56823]

Jacqui Smith: Details of the total number of schools in Barnet local authority which were in Ofsted categories of cause for concern at the end of the academic years 1996/97 and 2004/05 are set out in the following table. The figures in brackets show the number of schools in a category in the Hendon constituency.

Total Barnet (Hendon)

End of academic year	*Special measures*	*Serious weaknesses*	*Underachieving*	*Inadequate 6th form*
1996/97	0	n/a	n/a	n/a
2004/05	4(1)	1(1)	1(0)	0

The statutory categorisation of Serious Weaknesses was introduced in September 1997 and that of Inadequate 6th Form in September 2001; underachieving was an Ofsted administrative category. All three of these categorisations were replaced from September 2005 by a new statutory category of a school requiring significant improvement.

Currently there is one school in Barnet which is subject to special measures (this is not in the Hendon constituency); and a further two schools require significant improvement, including one in Hendon. Proposals in the current Education Bill will ensure that swifter action is taken by local authorities to turn round schools which fail an Ofsted inspection.

Mr. Dismore: To ask the Secretary of State for Education and Skills (1) what percentage of 14-year-olds in Hendon reached the required standards in English and mathematics in *(a)* 2005 and *(b)* 1997; and if she will make a statement; [56824]

(2) what percentage of children in primary schools in Hendon reached the required standard in mathematics, English and science in *(a)* 2005 and *(b)* 1997; and if she will make a statement; [56825]

(3) if she will make a statement on the A and AS-level results in Hendon in *(a)* 2005 and *(b)* 1997; [56843]

(4) what percentage of secondary school students in Hendon achieved five or more GCSEs at grades A*-C in *(a)* 2005 and *(b)* 1997; and if she will make a statement. [56912]

Jacqui Smith: Pupils nationally have made excellent progress since 1997. At Key Stage 2 there has been a 16 percentage point improvement in English and a 13 percentage point improvement in mathematics up to 2005. The improvement in the proportion of 15-year-olds achieving five A*-C grades at GCSE and equivalents has been 11 percentage points. At Key Stage 3, there have been improvements in the core subjects of English, mathematics, science and ICT. The 2005 provisional results show increases of 17, 14, 10, and 19 percentage points respectively since 1997.

These improvements flow directly from the success of our National Strategies. At primary level the introduction of the daily literacy and mathematics hours mean that compared with 1997, 84,000 more 11-year-olds left school in 2005 with the necessary basic skills in reading, writing and numeracy. In the four years since the introduction of the Key Stage 3 strategy, now extended to the Secondary National Strategy, the model of support and challenge for teachers has been very effective. The Strategy has made great gains in improving the life chances of 14-year-olds—the greatest improvements have been in the areas of highest deprivation. Last year's results mean that approximately 103,000 more 14-year-olds achieved the target level for their age in English and 86,000 more did so in mathematics, than in 1997.

The proportion of 11 and 14-year-old pupils achieving the expected levels in English and mathematics and the GCSE and equivalent achievements of young people, in 1997 and the latest available year, in the Hendon constituency are available on the 'In Your Area' website at http://www.dfes.gov.uk/inyourarea/. 2005 figures are not yet available at constituency level for 14-year-olds but will be published on the 'In Your Area' website shortly.

The 'In Your Area' website does not hold information relating to the achievements of 11-year-old pupils in science or the A/AS-level results by constituency. This information is given in the following tables.

Proportion of pupils achieving level 4 or more, in KS2 science in Hendon 1997 and 2005

Percentage pupils achieving level 4 or more

Science	*Hendon*	*England*
1997	68	69
2005	87	86
Percentage point difference	19	17

The average point score per candidate and per examination entry for 16 to 18-year-old A-level candidates in Hendon 1997 and 2005

Average point score	*Hendon*	*England*
1997[1]		
Per candidate	15.8	17.3
Per examination	5.4	5.3
2005[2]		
Per candidate	281.3	277.6
Per examination	84.7	79.9

[1] 1997 figures for average A-level point score include GCE A and AS qualifications.

[2] 2005 figures include GCE/VCE A/AS and VCE Double Award qualifications as well as Key Skills at Level 3 achievements by A-level candidates.

This information is consistent with that published in the School and College Achievement and Attainment Tables (formerly Performance Tables) in 1997 and in 2005. The points awarded for A-level grades in those years are given as follows:

Grade	*1997*	*2005*
A	10	120
B	8	100
C	6	80
D	4	60
E	2	40

Mr. Dismore: To ask the Secretary of State for Education and Skills how many children there were on average in infant classes in Hendon in *(a)* 2005 and *(b)* 1997; and if she will make a statement. [56844]

Jacqui Smith: The information requested has been placed in the Library.

Legislation limits infant class size to a maximum of 30 pupils to a school teacher. The statistics show that since 1997 there has been a decrease in the average size of infant classes in Hendon and across England as a whole.

Data on infant class sizes at national, local authority and parliamentary constituency level can also be found at the following link: Schools and Pupils in England: January 2005 (Final) in the "additional information" sections 4 and 5.

Equal Opportunities

John Bercow: To ask the Secretary of State for Education and Skills whether trust schools will be expected to comply with the Equal Opportunities Commission and Relationship Education Guidance 2000. [53596]

Jacqui Smith: Like other maintained schools, Trust schools will be required to operate within the law and comply with current legislation including the Sex Discrimination and Equal Pay Acts, the Race Relations Act and the Disability Discrimination Act.

Trust schools will need to meet the requirements for sex education as set out in the science national curriculum. They will also be required to have regard to the guidance on sex and relationship education issued by the Secretary of State when determining their sex education policy. Beyond this, trust schools will be free to use the non-statutory framework for personal, social and health education to develop their programmes further taking into account the views of parents and the needs of pupils.

Foreign Postgraduate Students

Mr. Hayes: To ask the Secretary of State for Education and Skills how many students from *(a)* Iran, *(b)* Burma, *(c)* China, *(d)* Sudan, *(e)* North Korea and *(f)* Syria are undertaking postgraduate research in (i) nuclear physics, (ii) biology, (iii) chemistry and (iv) dispersal effects; what courses such students are undertaking; and if she will make a statement. [46549]

Bill Rammell: The latest information is given in the following table:

Postgraduate research enrolments, by subject and domicile, at UK higher education institutions 2004–05

Subject[1]	*Iran*	*Burma*	*China*	*Sudan*	*North Korea*	*Syria*
Biology	15	0	55	[5]—	0	5
Chemistry	15	[5]—	200	[5]—	[5]—	5
Physics[2,3]	15	0	80	5	0	5
Chemical process and energy engineering[3,4]	30	0	85	[5]—	0	5

[1] Dispersal effects is not separately identified in the JACS course classification.
[2] Includes "nuclear and particle physics".
[3] Individual courses within these groups cannot be consistently identified separately.
[4] Includes "atomic engineering" and "nuclear engineering".
[5] Denotes a number less than 3.
Note:
Figures are rounded to the nearest 5.

Higher Education Statistics Agency (HESA) student record.

The student Voluntary Vetting Scheme has been in operation since 1994. Its guiding principle is to prevent academic contact and access to postgraduate studies that might be of significant value to the Weapons of Mass Destruction programmes in countries of WMD proliferation concern. Students at postgraduate level from Burma, China and Sudan are not subject to the Voluntary Vetting Scheme provisions as they currently operate.

Head Teachers

Rosie Cooper: To ask the Secretary of State for Education and Skills how many vacancies there were for headteacher positions in *(a)* Lancashire and *(b)* West Lancashire constituency in each year since 1997. [53318]

Jacqui Smith: The following table gives the number of full-time head teacher vacancies in maintained schools in Lancashire local authority and in England, in each year, January 1997 to 2005, the latest information available.

Information on teacher vacancies is not available at constituency level.

Full-time head teacher vacancies[1] in maintained nursery, primary, secondary and special schools in Lancashire local authority and in England, January 1997 to 2005

	Local authority		
	Former Lancashire[2]	*Lancashire (post 1 April 1998)*	*England*
1997[2]			
Vacancies	14	—	180
1998			
Vacancies	8	—	250
1999			
Vacancies	—	9	250
2000			
Vacancies	—	3	230
2001			
Vacancies	—	13	190
2002			
Vacancies	—	3	170
2003			
Vacancies	—	1	130

Full-time head teacher vacancies[1] in maintained nursery, primary, secondary and special schools in Lancashire local authority and in England, January 1997 to 2005

	Local authority		
	Former Lancashire[2]	Lancashire (post 1 April 1998)	England
2004			
Vacancies	—	4	120
2005			
Vacancies	—	6	170

[1] Advertised vacancies for permanent appointments (or appointments of at least one term's duration). Posts filled by somebody on a contract of a term or more are not counted as being vacant.

[2] In April 1998 Lancashire was reorganised into three authorities, Lancashire, Blackburn with Darwen and Blackpool. Information on temporarily filled posts were not collected before 1998.

Figures for England are rounded to the nearest 10.

Survey of teachers in service and teacher vacancies, 618g.

Higher Education

Lynne Jones: To ask the Secretary of State for Education and Skills how many under 25s entered higher education in each year since 1990, broken down by socio-economic group; what proportion of the total number of 19 to 25-year-olds this represented in each group in each year; and if she will make a statement on the trends in the proportion of students from low income groups attending university. [42773]

Bill Rammell: Information on the social background of students obtaining places on full-time undergraduate courses in the UK has been published by the Universities and Colleges Admissions Service (UCAS) since 1994, and the figures for under 25-year-olds are shown in the following table. Comparable figures for earlier years are not held centrally. The figures are limited to students who applied to full-time undergraduate courses via UCAS, and they do not therefore cover part-time students nor those full-time students who apply directly to Higher Education Institutions.

UK-domiciled students aged under 25 accepted onto full-time higher education courses via UCAS, broken down by social class

		Year of entry			
		1994	1995	1996	1997
	Total accepted students	218,680	230,140	233,640	265,330
	Of which:				
I	Professional	34,685	35,770	36,605	38,245

UCAS

In the past few years, we have seen a steady widening of participation in higher education. Performance indicators published by the Higher Education Statistics Agency show that the proportion of students from non-traditional backgrounds has increased across a range of measures. The proportion from low participation neighbourhoods, for example, rose from 12.1 per cent. to 13.9 per cent. between 1997/98 and 2003/04, the latest year for which figures are available.

Proportion of young (under 21) UK domiciled entrants to full-time first degree courses at UK HEIs

	Proportion of entrants to higher education from:			
	State schools	*Lower social classes (IIIM, IV, V)*	*Lower Socio-economic groups (4–7)*	*Low participation areas*
1997/98	81.8	24.9	n/a	12.1
1998/99	85.0	25.1	n/a	12.3
1999/2000	84.9	25.3	n/a	12.4
2000/01	85.7	25.4	n/a	12.5
2001/02	86.0	25.8	n/a	13.1
2002/03	87.2	n/a	28.4	13.3
2003/04	86.8	n/a	28.6	13.9

Source:
Performance Indicators in Higher Education, n/a = not available. The socio-economic group classification was introduced in 2002/03 to replace the social class groupings. The two classifications are not directly comparable.

We believe that more people with the potential to benefit from higher education should have the opportunity to do so. Higher education leads to a range of benefits, not only higher earnings but reduced crime, better health, and wider social capital benefits. The new student support arrangements offer a better deal for students from poorer backgrounds. We have reintroduced grants for those from low income households; we have ended up front fees; and we have introduced the Office for Fair Access so that universities have agreements on outreach and funding help that they will offer poorer students. £300 million is being offered in bursaries and other financial support. Alongside this, the Government and its partners support the Aimhigher programme, which enables partnerships of schools, colleges and universities to design and deliver a range of aspiration and attainment raising activities to enable young people from backgrounds currently under-represented in higher education to be able and willing to go on to HE. We are also determined to improve educational attainment so that more people are in a position to benefit from HE. Our proposals in the Schools White Paper, which is now the basis for The Education and Inspections Bill 2006, will help ensure that every young person has the opportunity to reach their potential, including, where appropriate, university education.

International Baccalaureate

Mr. Gibb: To ask the Secretary of State for Education and Skills how many maintained schools offered the International Baccalaureate in each year since 1996. [56694]

Jacqui Smith: The information on number of pupils by their course of study is derived from Annual Schools Census returns made by schools to the Department in January each year. Due to underlying changes in the data collection the number of maintained schools offering the International Baccalaureate is not available prior to 2002.

The following table shows the number of maintained schools offering the International Baccalaureate Courses from 2002 to 2005 and the number of pupils taking the qualification.

Maintained secondary schools—numbers taking International Baccalaureate courses[1] position as at January 2002 to 2005

	Number of schools with pupils taking International Baccalaureate	*Number of pupils taking International Baccalaureate*
2002[2]	9	537
2003[3]	17	992
2004[3]	21	1,315
2005[3]	34	1,209

[1] Includes solely registered pupils only. A solely registered pupil is one who has a single registration at one school.

[2] Pupils aged 16 or over only.

[3] Pupils in National Curriculum years 12, 13 and 14 only.

Media Training

Mr. Laws: To ask the Secretary of State for Education and Skills how much has been spent by her Department on media training in each year since 1997–98. [55210]

Maria Eagle: We do not hold information centrally on any media training undertaken by officials and would be able to collect it only at a disproportionate cost.

Multi-sensory Rooms

Mr. Wallace: To ask the Secretary of State for Education and Skills how many multi-sensory rooms for people with learning difficulties are provided by Lancashire county council. [55744]

Maria Eagle: The decision on the placement of such facilities has to be taken locally, based on local assessments of need. In view of this my Department does not routinely collect such detailed information. My officials therefore contacted Lancashire county council, to whom I am grateful for the following information.

With regard to disabled children and young people, I understand that more than half of the 32 special schools in Lancashire have multi-sensory rooms. 16 of these schools are for children with the most severe and complex disabilities and 15 of these have sensory rooms, with plans to provide this resource to the remaining special school without the facility.

With regard to disabled adults, I understand there are 18 specialist day centres for adults with learning disabilities. Approximately two thirds of these have some multi-sensory resources, mainly in a dedicated room.

Overseas Students

Dr. Kumar: To ask the Secretary of State for Education and Skills, what proportion of overseas students studying in further education institutions in England are from India. [45117]

Bill Rammell: Pursuant to the answer of 6 February 2006, *Official Report*, column 1015W, I am providing an amended response.

Defining for this purpose home learners as those whose country of domicile is England then there were a total of 91,260 overseas students in further education institutions in England in 2004/05. Of these, 2,930 were from India which represents 3.2 per cent. of the total.

Power to Innovate Programme

Mr. Gauke: To ask the Secretary of State for Education and Skills which regulatory requirements have been lifted from specific schools for a time-limited period pursuant to the Power to Innovate programme. [57150]

Jacqui Smith: A list of the regulatory requirements that have been lifted from specific schools as a result of Power to Innovate Orders can be found in the first three annual reports to Parliament (available in the Library).

In addition, two Orders have been made since publication of the latest annual report. These have enabled the following schools exemption from the following regulations:

Education (School Organisation Proposals) Regulations 1999

Enabling the following schools to extend the upper age limit for pupils;

Walworth School, Southwark, London

Waverley School, Southwark, London

Kingsdale Secondary School, Southwark London

School and Aylwin Girls' School, Southwark, London

New Schools (General) (England) Regulations 2003

Enabling the governing body of the following school to alter its governance composition;

Haringey Sixth Form Centre, London

Press Complaints

Mr. Gordon Prentice: To ask the Secretary of State for Education and Skills on how many occasions since 1 April 2003 she has complained to the Press Complaints Commission about the coverage in the press of *(a)* Ministers or officials and *(b)* her Department; and how many of these complaints were upheld. [47080]

Bill Rammell: The Department has not made any complaints to the PCC during the period specified.

Publication Pulping

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will list the publications identified as pulped in quantity on page 62 of her Department's resource accounts; how many of each publication were pulped; what was the face value of each pulped publication; and what the cost was of disposal. [53120]

Bill Rammell: Listed as follows are the publications, number of each publication item, and the replacement unit cost. The cost of disposal was £9,000, recovered within two months by savings in storage. The cost of pulping was off-set by the sell-on of recycled paper.

Title	Number Pulped	Unit replacement cost (£)
Framework for teaching mathematics Years 7, 8 and 9	60,882	1.30
Framework for teaching Science Years 7, 8 and 9	69,929	1.30
Framework for teaching English Years 7, 8 and 9	66,168	1.30
Numeracy across the curriculum—support materials	26,765	3.12
Framework for teaching ICT capability Years 7, 8 and 9	36,724	1.30
Introducing the third year	8,137	3.12
The learning challenge	30,859	1.20
Numeracy across the curriculum—notes for school based training	17,563	3.12
National Strategy Springboard 7	5,163	1.30
Targeting level 4 in Year 7 English consolidation lessons	19,764	1.30
Literacy across the curriculum	9,931	1.30
Assessment in mathematics toolkit to support pupils for whom English is an additional language	10,612	1.20
English department training	5,889	1.20

Religious Education

Mr. Allen: To ask the Secretary of State for Education and Skills how many city academies are obliged by their agreements to follow the locally agreed syllabus for religious education; and what agreement has been made concerning the teaching of religious education in those academies that are not required to do so. [55478]

Jacqui Smith: Religious education must be taught at academies and assessed to at least key stage 3. There are currently 19 academies which are not designated as having a religious character. According to their funding agreements, their religious education syllabus should mirror that of maintained schools in reflecting that the religious traditions in Great Britain are in the main Christian. They must also take into account the teaching and practices of the other principal religions represented in Great Britain. Such a syllabus however cannot be taught in a manner distinctive of a particular religion. In the main religious education taught in academies which are not designated as having a religious character follows the locally agreed syllabus.

There are currently eight academies which are designated as having a religious character. Under their funding agreements, the academies must provide religious education to all pupils at the academy in accordance with the tenets of that school's specified religion.

School Admissions Code

Lynne Jones: To ask the Secretary of State for Education and Skills whether the reference to the code for school admissions in Clause 37 of the Education and Inspections Bill refers to the version of the code contained in the draft School Admissions Code of Practice 2005. [57178]

Jacqui Smith: Clause 37 does not refer to the draft Code of Practice that was circulated for consultation in July 2005. We decided not to lay this code, as I announced on 13 December.

This clause amends current legislation to ensure that in future the code will have greater force. Admission authorities will have to "act in accordance" with the new code rather than "have regard" to its provisions. As a result of this, and to reflect other changes in the Bill, a revised School Admissions Code will be drafted and consulted on, before being laid before Parliament.

School Leavers (Qualifications)

Mr. Hurd: To ask the Secretary of State for Education and Skills how many people left school at 16 years of age in *(a)* the constituency of Ruislip-Northwood, *(b)* Hillingdon local education authority, *(c)* Greater London and *(d)* England with less than the equivalent of five GCSE A-C grades in each year since 1997. [43454]

Jacqui Smith: The information requested on the number of pupils[1] leaving school with less than five A*-C at GCSE and Equivalents[2] is found as follows:

[1] Number of pupils aged 15 at the start of the academic year.
[2] GCSE/GNVQs are included from 1998 to 2003 and GCSEs and equivalents approved for pre-16 use from 2004. Results include achievements of pupils in previous years.

Pupils not achieving 5+ A-C at GCSE and equivalent*

Number

	Ruislip-Northwood[1]	Hillingdon[1]	Greater London[1]	England[2]
1998	379	1,383	37,944	308,779
1999	372	1,409	37,320	302,412
2000	326	1,304	36,032	294,657
2001	365	1,393	36,926	301,701
2002	369	1,408	35,533	293,815
2003	350	1,400	34,920	292,740
2004	335	1,529	34,533	297,767
2005	341	1,451	32,687	278,383

Pupils not achieving 5+ A-C at GCSE and equivalent*

Percentage

	Ruislip-Northwood[1]	Hillingdon[1]	Greater London[1]	England[2]
1998	46.6	56.0	57.9	53.7
1999	45.8	55.9	56.4	52.1
2000	40.6	52.1	54.5	50.8
2001	43.9	52.9	53.9	50.0
2002	43.7	54.0	51.5	48.4
2003	40.8	52.4	49.3	47.1
2004	37.9	52.1	47.0	46.3
2005	38.9	49.5	44.8	43.7

[1] Based on maintained sector schools only, this includes city technology colleges and academies but excludes hospital schools and pupil referral units.
[2] Includes all schools.

School of Economic Science

Mr. Hancock: To ask the Secretary of State for Education and Skills what recent assessment she has made of the influence of the School of Economic Science

within *(a)* St. James' independent schools in London and *(b)* The Alcuin School in Leeds; and if she will make a statement. [57139]

Jacqui Smith: We respect the right of parents to choose an independent school for their child, and recognise that they may want an education for their child which reflects their own religious or philosophical beliefs. All independent schools must be registered by my Department. In order to become and continue to be registered, they must reach and maintain a satisfactory standard in respect of the quality of education provided; the spiritual, moral, social and cultural developments of pupils; the welfare, health and safety of pupils; the premises and accommodation at the school; and the suitability of the proprietor and staff within the school.

We understand that the St. James' independent schools and Alcuin school both follow a curriculum and spiritual programme in line with the aims and beliefs of the Schools of Economic Science, and this is recognised in the most recent published inspection reports which can be found at: http://www.ofsted.gov.uk/reports/index.cfm?fuseaction=listColleges&type=independent www.isinspect.org.uk/frreports.htm

All these schools meet the regulatory requirements for continued registration as an independent school.

Schools (Railway Lines)

Mr. Greg Knight: To ask the Secretary of State for Education and Skills what proportion of schools are located within a *(a)* one mile, *(b)* two mile and *(c)* three mile railway line corridor. [56626]

Jacqui Smith *[holding answer 8 March 2006]:* The Department does not hold the information required to answer this question and could source and produce the information only at disproportionate cost.

Secondary School Places (London)

Mr. Davey: To ask the Secretary of State for Education and Skills when she will publish the report of the London Secondary Schools Places Planning Project; and if she will make a statement. [54667]

Jacqui Smith: We are intending to publish the report on Secondary School Places Planning in London shortly.

Sex Offenders

Greg Clark: To ask the Secretary of State for Education and Skills how many teachers on the sex offenders list are working in *(a)* Kent and *(b)* the borough of Tunbridge Wells. [46122]

Ruth Kelly: My Department does not hold this information.

Mr. Lansley: To ask the Secretary of State for Education and Skills pursuant to the answer of 13 February 2006, *Official Report*, column 1572W, on sex offenders, how many names were transferred to the Protection of Children Act list from the Consultancy Services Index at its inception. [54253]

Maria Eagle: 898 names were transferred to the Protection of Children Act List at its inception.

Skills Passport

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills if she will make a statement on the Skills Passport scheme. [56429]

Phil Hope: Government commitment to develop and promote Skills Passports were announced in the 2004 pre-Budget report, "Skills in the Global Economy" and the 2005 Skills White Paper, "Skills: Getting on in business, getting on at work". We are taking these commitments forward in two ways:

by working with the Sector Skills Development Agency, Sector Skills Councils, the Small Business Council and others, to develop Skills Passports that meet the needs of employers to recruit and develop people with the skills they require; and

by testing out a Skills Passport in the Skills Coaching trials, to help benefit recipients improve their employability by identifying, developing and recording their skills and qualifications. Skills Passports form part of New Deal for Skills which is aimed at improving the skills of those people with lower level skills to help them secure sustainable employment, and improving the skills of employees to help them progress into higher skilled occupations.

Social Care Staff

Mr. Burstow: To ask the Secretary of State for Education and Skills pursuant to the answer of 8 November 2005, *Official Report*, column 463W, on social care staff, what arrangements have been made to collect information about the numbers of staff working for private and voluntary sector organisations. [34736]

Beverley Hughes: Skills for Care, as one of the two Sector Skills Council bodies for Social pare in England, is leading the development of work force intelligence across all areas of social care. This involves the development of a National Minimum Dataset for Social Care (NMDs-SC)—a set of questions about work force which aims to cover the 26,000 employers in social care—including those forming the majority of provision in the private sector as well as voluntary sector providers. Over the next 24–36 months, following trialling of data collection methods, workforce statistics on private and voluntary sector provision across adults' and children's services should start appearing.

The Children's Workforce Development Council (CWDC), the other Sector Skills Council body for social care in England, is currently in a transitional phase of gradually taking over responsibility for social care staff working with children. During this phase, the CWDC and the Department for Education and Skills will continue working with Skills for Care to ensure coverage of children's providers within the NMDs-SC.

Social Segregation Report

Paul Farrelly: To ask the Secretary of State for Education and Skills (1) when she plans to allow the authors of the study commissioned from the Institute of Education in London to publish their findings regarding social segregation in schools; [47852]

(2) when she plans *(a)* to publish the study commissioned from the Institute of Education in London in relation to social segregation in schools and *(b)* to respond to its findings. [47853]

Jacqui Smith: The Department has commissioned research from the Centre of Economics of Education (CEE) on this topic. The CEE is a consortium which includes the IoE, where this work has been conducted.

Research work from the CEE on social segregation in schools will be published when it is complete.

St. James Independent School

Mr. Hancock: To ask the Secretary of State for Education and Skills if she will meet the Parents and Pupils Inquiry Action Group from St. James' independent schools. [57140]

Jacqui Smith: The Department was made aware of an inquiry carried out at the request of governors of St. James by James Townend QC, following claims of excessive use of corporal punishment, physical and mental abuse against pupils and criminal assault by teachers in the period 1975 to 1985. The police have subsequently confirmed that they, social services, the NSPCC and Education Welfare have examined historic allegations relating events at the school during this period, and that the case is now closed.

I commend the Governing Body for commissioning the inquiry, and their willingness to address these very difficult issues in such an open and transparent manner. However, the findings of the police and of the inquiry do not have any bearing on the conduct of the school at present, and I do not believe that a meeting with the Parents and Pupils Inquiry Action Group from St. James' independent schools would help me discharge my current regulatory obligations.

Trust School Status

Paul Farrelly: To ask the Secretary of State for Education and Skills (1) what features of the proposed trust schools status will help raise standards at Wolstanton High School in Newcastle-under-Lyme; [56586]

(2) what features of the proposed new trust schools will help raise standards at Sir Thomas Boughey High School in Newcastle-under-Lyme. [56669]

Jacqui Smith: Trusts will help create a long term, stable and sustainable relationship bringing in partners to support the school's governance and strategic direction with clear aims and outcomes agreed at the outset. A school can decide whether it wants to acquire a trust and whom they might want to work with. It will be easier to use the Power to Innovate, with the potential for flexibilities to be agreed centrally and made available to all schools supported by the trust.

Specialist schools, such as Wolstanton High School and Sir Thomas Boughey High School, could join a network of schools working collaboratively to help raise standards and share best practice in a specialist subject. Schools will benefit from the different perspectives, experience and skills of different partners to provide opportunities for greater efficiency or workforce development. For example, they may like to work with a university or training provider as part of a trust to gain access to additional educational expertise or create links between staff and students that raise aspirations and motivate schools students.

TRANSPORT

A12

Mr. Burns: To ask the Secretary of State for Transport on whose authority road signs showing the turn offs to Writtle and Danbury on the A12 in the Chelmsford local authority area were removed; what the reasons were for the removal; and if he will make a statement. [56622]

Dr. Ladyman: Writtle has never been a destination signed from the A12 trunk road.

The Highways Agency made the decision to remove Danbury local direction signs on the northbound A12, acting for the highway authority, the Secretary of State for Transport.

A signing strategy for the A12 was discussed and agreed with Essex county council in 2003.

A scheme to reduce accidents in the vicinity of the A12/A414 off slip, funded in this financial year, has provided the opportunity to review signing at this location and the Danbury sign was removed in line with the agreed strategy.

Advice on signing of destinations is provided in Local Transport Note 1/94 "Design and Use of Direction Informatory Signs". The Highways Agency provides enough information on signs to aid drivers, but not so much as might prove distracting to them. In addition, current standards require most street furniture and signposts to be protected by safety fencing to prevent strikes by errant vehicles. Safety fencing is expensive and there may be insufficient space in the highway verge to provide it, therefore the Highways Agency seeks to minimise the presence of street furniture for road safety and economy reasons.

Mr. Burns: To ask the Secretary of State for Transport what criteria were used to make the decision *(a)* to keep a road sign on the A12 in the Chelmsford local authority area showing the turn off to the Antiques Centre at Battlesbridge and *(b)* to remove road signs showing the turn offs to Writtle and Danbury; and if he will make a statement. [56623]

Dr. Ladyman: The sign for the Antique Centre at Battlesbridge will remain in place until such time as an improvement scheme is undertaken in the vicinity. At that time it will be reviewed under Departmental Standard TD 52/04 "Traffic Signs to Tourist Attractions and Facilities in England" or its successors, at which point it may be concluded that the sign be removed.

Writtle has never been a destination signed from the A12 trunk road.

Advice on direction signing is provided to the Highways Agency in Local Transport Note 1/94 "Design and Use of Direction Informatory Signs". The Highways Agency provides enough information on signs to aid drivers, but not so much as might prove distracting to them. A signing strategy for the A12 was discussed and agreed with Essex county council in 2003, which excluded signing for Danbury.

A scheme to reduce accidents in the vicinity of the A12/A414 off slip has provided the opportunity to review the signs on the northbound carriageway and the Danbury sign was removed.

Blue Badge Scheme

Paul Rowen: To ask the Secretary of State for Transport if he will make a statement on the operation of the Blue Badge scheme and parking in loading bays. [57797]

Ms Buck: The Department for Transport's policy is to prohibit parking where there is a ban on loading or unloading.

British Transport Police

Mrs. James: To ask the Secretary of State for Transport how many British Transport police officers are responsible for policing *(a)* Llansamlet railway station and *(b)* Swansea, East constituency. [55997]

Derek Twigg: The number of British Transport police officers who are responsible for policing Llansamlet railway station and the railways in Swansea, East constituency are 11 police officers in total. The total number includes one inspector, one sergeant, eight constables and one detective constable.

Coastal Protection

Andrew George: To ask the Secretary of State for Transport (1) what assessment he has made of Lord Donaldson's proposal to designate the coast around the Isles of Scilly as *(a)* a Marine Environmental High Risk Area and *(b)* an Area to be Avoided; [57491]

(2) what assessment he has made of the *(a)* voluntary and *(b)* statutory measures on the coast and coastal waters of (i) the Isles of Scilly and (ii) Cornwall on their capacity to provide protection for the coast and marine environment from (A) pollution and (B) the foundering and collision of cargo vessels. [57492]

Dr. Ladyman: Lord Donaldson said in his report "Safer Ships, Cleaner Seas" that the Scilly Isles were an obvious candidate for MEHRA status. However he made it clear that the actual decision on which areas would be MEHRAs must be founded on criteria, based on both shipping patterns and environmental importance. Lord Donaldson did not prejudge the outcome of this process.

Lord Donaldson also said that there may be a case for an Area to be Avoided (ATBA) or ATBAs, although he appreciated there is a need for the approaches to ports to be left unobstructed. Again, Lord Donaldson did not prejudge the outcome of these deliberations.

Building on Lord Donaldson's report, the Department for Transport and the Department of the Environment (now Defra) worked closely with Devolved Administrations and statutory nature conservation advisors to develop the process for identifying MEHRAs through a robust and objective methodology. This included a parallel assessment of pollution from shipping risk and environmental sensitivity. Other environmental protection measures already in place at each location were also taken into consideration.

Lord Donaldson's recommendation that the criteria should be set in such a way that not more than about a tenth of the UK coastline qualifies was also taken into account. Consequently, in accordance with this principle and the methodology, only those areas which scored highly both in terms of environmental sensitivity and in terms of risk from shipping qualified as MEHRAs.

The environmental sensitivity for the Isles of Scilly was not in question in this assessment. This is already acknowledged through existing protective measures that reduce the risks to such an extent that all the qualifying criteria for MEHRA status are not met.

The proposal for an ATBA for the Isles of Scilly was discussed in detail at two UK Safety of Navigation (UKSON) Committee meetings. They decided that there was no evidence that existing routeing measures were ineffective and an ATBA would not necessarily enhance the measures currently in place.

There are three traffic separation schemes, with associated inshore traffic zones, which have been adopted by the International Maritime Organization (IMO) in close proximity to the Isles of Scilly and Cornwall. These are:

(1) West of the Scilly Isles

(2) South of the Scilly Isles

(3) Off Land's End, between Seven Stones and Longships.

There is also an IMO-adopted Recommendation on Navigation off the Isles of Scilly which advises laden tankers over 10,000 gross tonnage using the traffic separation scheme between Land's End and the Isles of Scilly to keep at least three miles seaward of Wolf Rock and further advises such vessels not to use the scheme in restricted visibility or other adverse weather.

Additionally, an IMO-adopted voluntary reporting scheme recommends that laden tankers using the Isles of Scilly route to report to Falmouth Coastguard when at least one hour from the Estimated Time of Arrival of entering the route and on final departure.

If, despite the routeing measures which are in place, a maritime incident occurs in the waters around Cornwall and the Isles of Scilly, there are a number of safeguards in place.

A dedicated, Government-funded emergency towing vessel is on stand-by 24 hours a day, 365 days a year ready to respond to shipping incidents in the South Western approaches.

The Secretary of State's Representative for Maritime Salvage and Intervention (SOSREP), provides overall command and control of operations during marine emergencies. The powers of direction invested in SOSREP are extensive and, as well as being an international first for the UK, the SOSREP role has proved very successful in a number of shipping incidents.

The UK has a well developed National Contingency Plan for Marine Pollution from Shipping and Offshore Installations, which would be implemented in the event of a significant maritime incident (and it is worth noting that Cornwall county council has its own coastal counter pollution contingency plan which complements the National Contingency Plan).

The Maritime and Coastguard Agency is well prepared to respond to a marine pollution incident. Counter pollution resources are stored on the Isles of Scilly and at Falmouth for response to small incidents. In the event of a larger incident, appropriate equipment from the major UK Counter Pollution stockpiles at Milford Haven, Huddersfield and Perth would be mobilised, and a sizeable stockpile of oil spill dispersants is located at Saltash. All counter pollution resources are maintained by private contractors, and strict contractual stipulations are in place for mobilisation anywhere within the UK within pre-determined timescales.

Concessionary Travel

Stephen Hammond: To ask the Secretary of State for Transport how he will monitor the implementation of the bus concessionary fare scheme. [57347]

Ms Buck: The Department set up a working group to advise on and monitor the implementation of free local off-peak travel for older and disabled people. The group consists of representatives from local authorities and bus operators.

Rosie Cooper: To ask the Secretary of State for Transport how many *(a)* over 60-year-olds and *(b)* disabled people resident in West Lancashire will be eligible for the new concessionary travel scheme. [57893]

Ms Buck: The number of *(a)* residents aged 60 and over in the parliamentary constituency of West Lancashire who will be eligible for free concessionary local bus travel in April will be more than 17,000. In the district of West Lancashire, for which there are better estimates of population by age, 24,600 residents will be eligible. However, for *(b)* , the number of residents who are disabled is not known.

Rosie Cooper: To ask the Secretary of State for Transport what assessment his Department has made of whether private bus providers will need new technology to accommodate the new concessionary travel scheme. [58097]

Ms Buck: The Department set up the confessionary fare working group to advise on implementation. The group, which includes bus operator representatives, has not advised that new technology will be required.

Drink-driving

Mr. Donohoe: To ask the Secretary of State for Transport what steps his Department is taking in relation to new vehicle technologies to reduce the number of people driving under the influence of alcohol. [58187]

Dr. Ladyman: We have made provision in the Road Safety Bill, which received its Second Reading in this House last week, to enable courts in certain circumstances to offer drink drive offenders the opportunity to participate in "alcohol ignition interlock" programmes.

When fitted to a vehicle's ignition, these devices are designed to prevent the vehicle being driven until a specimen of breath has been given in which the proportion of alcohol does not exceed a specified amount.

Experience in other countries has shown that ignition interlocks can be effective in reducing reoffending and have potential for reducing the number of drink-related collisions. However, before considering their introduction here, we have commissioned research into the acceptability and impact of ignition interlocks on drink drive offenders in this country and the practicalities of fitting, maintaining and monitoring the use of these devices. This is due to be completed by spring 2007.

European Rail Traffic Management

Chris Grayling: To ask the Secretary of State for Transport what plans he has to install the European Rail Traffic Management System on the rail network. [54951]

Derek Twigg: Network Rail is leading the cross-industry national ERTMS programme. A £60 million trial on the Cambrian Line has now reached the equipment tendering stage and is planned to be in service by the end of 2008. It will provide essential experience of delivering and operating a cab signalling system compliant with European standards.

The Government have already introduced a different train protection system, train protection warning system (TPWS) that stops all trains passing a red light at up to 70mph. Also, a higher grade version, TPWS+, that stops trains passing red lights at up to 100mph, has been targeted for fitment by Network Rail at approximately 400 signals and is nearing completion.

Further decisions on the scope and timing of ERTMS implementation will be taken by Network Rail in consultation with Government as part of the periodic review process following issue of the High Level Output Specification in 2007.

Government Car Service

Norman Baker: To ask the Secretary of State for Transport what car has been made available to the Leader of the Opposition; how many hours a day a chauffeur is available to him; and what the monthly cost is of this provision; and how much is accounted for by *(a)* running costs of the vehicle, *(b)* costs of the chauffeur and *(c)* all other costs. [57911]

Ms Buck: The contracted cost for providing the Leader of the Opposition with an official car is £5,900 per month, excluding VAT. This includes: total car costs (including vehicle depreciation, maintenance and fuel costs) of £1,030; total driver costs of £3,391; and other costs amounting to £1,479. The Conservative Party pays for 25 per cent. of these costs. The car and driver is available for use for 70 hours each week, Monday to Friday.

Guidance on the use of official cars is set out in the Ministerial Code and Travel by Ministers.

Irish Sea (Fixed Link Proposal)

Adam Price: To ask the Secretary of State for Transport whether he has discussed with the Irish Government the Irish Sea fixed link proposal. [57249]

Dr. Ladyman: The Irish Government has not contacted the Secretary of State with regard to an Irish Sea fixed link.

M18 (Cameras)

Mr. Greg Knight: To ask the Secretary of State for Transport for what reason a number of high mounted cameras have been erected on the M18 motorway between junctions 1 and 2; whether these are expected to be permanent; and if he will make a statement. [57803]

Dr. Ladyman: A number of cameras have been erected on the M18 between Junctions 1 and 2 as part of the Junction 1 to Long Leys Lane resurfacing scheme. The cameras have been installed to monitor traffic through the roadworks. If a vehicle breaks down a free recovery service can respond quickly to minimise congestion while ensuring the safety of drivers and roadworkers. The cameras will be removed once the works have been completed.

The Highways Agency has also installed a small number of permanent cameras around the M18 at Junction 1 as part of the new Traffic Officer Service launched in South Yorkshire on 1 February 2006. The cameras will help traffic officers monitor the network and target resources to minimise congestion and manage traffic flows to ensure traffic runs smoothly for both travellers and business.

Marine Environment

Mr. Brazier: To ask the Secretary of State for Transport what monitoring his Department will carry out to establish that management measures in marine environment high risk areas are delivering better protection for these areas. [55305]

Dr. Ladyman: The Maritime and Coastguard Agency has a comprehensive programme of monitoring discharges from ships in the UK Pollution Zone. Defra also monitors the environmental status of the UK's seas and coasts and the Department for Transport and the Maritime and Coastguard Agency will, of course, take account of any relevant developments reported by Defra.

Mr. Brazier: To ask the Secretary of State for Transport whether the future management of marine environment high risk areas will include *(a)* educating mariners on the sensitivity of these areas, *(b)* establishing set shipping routes with areas to be avoided and areas with mandatory pilotage, *(c)* provision of more salvage tugs at key points and *(d)* increased availability of oil pollution response equipment. [55306]

Dr. Ladyman: The Maritime and Coastguard Agency (MCA) will be issuing a Marine Information Note to the attention of ships' masters to the establishment of the Marine Environmental High Risk Areas (MEHRAs). This will be followed in due course by a Marine Guidance Note which will provide guidance on where the areas are and their purpose.

The MEHRAs document (to be found in the Library of the House and on the DfT website) sets out any current proposals for additional protective measures for each MEHRA. The need for any further measures will be considered in the light of wider marine policy developments.

Emergency towing vessels are already located at strategic points around the UK coast. In addition, arrangements have been made by the MCA with towing firms to facilitate the provision of additional towing capability in the event of local emergencies requiring tug assistance under the Coastguard Agreement on Salvage and Towage. This gives coverage to the whole UK coast.

There is no need to increase the availability of oil pollution response equipment. The Maritime and Coastguard Agency already has adequate stockpiles of oil spill response equipment which can be speedily mobilised and made available to any coastal location, as required.

Mr. Brazier: To ask the Secretary of State for Transport pursuant to the written statement of 13 February 2006, *Official Report*, columns 58–59WS, on Marine Environment High Risk Areas, whether he will propose compulsory protective measures if the approach announced fails to deliver better protection for these areas; and what plans he has to consult interested parties on the measures he has announced. [55307]

Dr. Ladyman: The identification of Marine Environmental High Risk Areas (MEHRAs) is just one of a number of measures used to protect the UK coast from possible environmental impacts of shipping. These include improvements in the provision of Emergency Towing Vessels, and the mandatory reporting system for tankers carrying heavy grades of oil into the newly designated Western European Particularly Sensitive Sea Area (PSSA). The Government also take account of wider developments in UK policy on the sustainable use of the marine environment, such as the growth in offshore renewable energy, the Government's commitment to introducing a Marine Bill, developments in thinking on marine spatial planning and advances in e-navigation technology. The introduction of any additional protective measures for MEHRAs has to be considered as part of these wider, inter-linked developments.

We will use the usual established consultative procedures when introducing any new protective measure.

Media Training

Mr. Laws: To ask the Secretary of State for Transport how much has been spent by his Department on media training in each year since 1997–98. [55213]

Ms Buck: The Department for Transport was formed in May 2002. In each of the financial years since, the central Department has spent the following amounts providing training in doing television and/or radio interviews for senior officials within the Department.

Financial year	*Amount spent (£)*
2002–03	1,998
2003–04	2,233
2004–05	8,695

The increase in more recent years is primarily due to training provided to senior inspectors at the Rail Accident Investigation Branch in preparation for the start of their operations in October 2005.

Public Transport (Late Night Services)

Mr. Stewart Jackson: To ask the Secretary of State for Transport if he will take steps to ensure that late night public transport for young people is available in Peterborough. [55736]

Ms Buck: Provision of public transport outside London is a matter for bus operators. Local authorities have powers to subsidise services which they deem socially necessary and are not provided on a commercial basis.

Regional Airports

Dr. Fox: To ask the Secretary of State for Transport what economic modelling has been undertaken to assess the cost and benefit to regional economies of the development and expansion of regional airports. [57482]

Ms Buck: The regional consultation documents preceding the Air Transport White Paper in 2003 examined the economic costs and benefits of additional airport infrastructure at a range of airports. However, these were on the basis of benefits to airport users and of other benefits to the national economy, rather than in terms of benefits to individual regional economies.

Graham Stringer: To ask the Secretary of State for Transport how many airlines have been given fifth freedoms since they became available from the UK's regional airports in October 2005. [57899]

Ms Buck: No foreign airline has been granted new rights to operate scheduled fifth freedom services from UK regional airports since the Government announced a relaxation of restrictions on such services in September 2005. However, some initial applications from foreign airlines have recently been submitted, and these are currently being considered by the Department.

Regional Transport Expenditure

Mr. Greg Knight: To ask the Secretary of State for Transport what proportion of the transport budget for each region has been spent on *(a)* roads and *(b)* public transport in each of the last five years; and if he will make a statement. [55752]

Ms Buck *[holding answer 6 March 2006]:* Individual regions did not have specific transport budgets during this period. However, details on overall transport spend for each region, based on certain assumptions as to how this should be attributed, can be found in chapter 8 of the Public Expenditure Statistical Analyses 2005—published by HM Treasury, and available on their website at: http://www.hm-treasury.gov.uk/economic_data_and_tools/finance_spending_satistics/pes_publications/pespub_index.cfm.

Royal Family (UK Travel)

Norman Baker: To ask the Secretary of State for Transport how many publicly funded *(a)* helicopter and *(b)* train journeys within the UK were undertaken by each member of the Royal Family in each year since 2000. [57412]

Ms Buck: The costs of all official journeys by air or rail undertaken by members of the Royal Family are met by the grant-in-aid for Royal travel by air and rail. Details of journeys funded by the grant-in-aid are published annually in the Royal Household Report on the grant-in-aid. Copies of the reports are placed in the Library of the House.

Norman Baker: To ask the Secretary of State for Transport if he will take steps to encourage the Royal Family to reduce their use of helicopter travel for journeys within the UK. [57413]

Ms Buck: Helicopter travel enables members of the Royal Family to undertake a number of engagements at different locations on the same day. Since its introduction in 1998, the Royal helicopter has proved to be a highly efficient and cost-effective travel option. Without the availability of helicopter travel, the number of official engagements that members of the Royal Family would be able to undertake would be reduced. In 2004–05, members of the Royal Family undertook 2,400 official engagements in the UK. Accordingly there are no current plans to limit the use of helicopter travel.

Stretch Limousines

Graham Stringer: To ask the Secretary of State for Transport what plans he has to revise the regulations relating to stretch limousines to include vehicles carrying nine to 16 passengers. [57898]

Ms Buck: We have no plans to revise regulations. There is nothing stopping a stretch limousine that fully meets the safety and construction and use requirements from being licensed to carry nine to 16 passengers.

Transport Innovation

Paul Rowen: To ask the Secretary of State for Transport how many Transport Innovation bids have been received from the regions on *(a)* roads, *(b)* rail, *(c)* bus, *(d)* road pricing and *(e)* other matters; when he will announce the decision on allocations of funding; and if he will make a statement. [58329]

Ms Buck: The Transport Innovation Fund has two entry points: congestion and productivity. The process for bidding through both entry points is set out in "Transport Innovation Fund: Guidance January 2006", copies of which have been placed in the Library. As yet there have been no congestion fund bids. There is no bidding process for the productivity part of the fund. We will be identifying a shortlist of potential candidates, against the criteria for productivity schemes set out in the guidance, and after seeking the views of the English Regional Development Agencies.

We expect to make decisions on the allocation of both first round congestion and productivity funding towards the end of this year.

I refer the hon. Member to the written statement given on 26 January 2006, *Official Report*, columns 66–67WS by my right hon. Friend the Secretary of State for Transport.

West Midlands PTA

Mr. Spellar: To ask the Secretary of State for Transport how much bus subsidy has been provided in the West Midlands Passenger Transport Authority area in each of the last 10 years. [54091]

Ms Buck: The following table shows the totals for the last nine years of expenditure by the West Midlands Passenger Transport Authority on support for bus services and re-imbursement of concessionary fares on local bus services. There is no comparable figure for 1995–96.

	Bus subsidy (£ million)
1996–97	78.2
1997–98	85.1
1998–99	85.2
1999–2000	88.0
2000–01	89.0
2001–02	94.4
2002–03	84.2
2003–04	79.4
2004–05	72.5

Source:
Local authority returns to ODPM, revenue outturn (RO2) data.

In addition, operators of local bus services receive Bus Service Operators Grant from this Department. This is paid direct to operators and is not attributed to a specific area.

LEADER OF THE HOUSE

Parliamentary Pension Regulations

Mr. McGovern: To ask the Leader of the House what steps have been taken to ensure the percentage abatement of pension entitlement outlined in the Parliamentary Pension Regulations is compliant with the EU directive on age discrimination, with particular reference to Regulation H1 and Schedule 4; and whether he has satisfied himself that the scheme is so compliant. [57919]

Mr. Hoon: The European Employment directive does not cover those who have been elected of appointed to a political office. This is reflected in the Employment Equality (Age) Regulations 2006 which implement the age strand of the directive and which where laid before Parliament on 9 March 2006. There is therefore no requirement for the parliamentary pension scheme to be compliant with the directive.

FOREIGN AND COMMONWEALTH AFFAIRS

Abducted Persons

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will conduct inquiries as to the whereabouts and well-being of *(a)* Mr. Uday Nasser Badr, *(b)* Mr. Yasser Hamad, *(c)* Mr. Quitaba Hamdari and *(d)* Mr. Firaz Imad, abducted by the Badr organisation during February 2004. [58253]

Dr. Howells: As the hon. Member knows, these individuals were alleged to have been detained by members of the Badr Corps in Southern Iraq in February 2004. The United Nations Special Rapporteur asked the Coalition Provisional Authority (CPA) to investigate. The CPA was dissolved on 30 June 2004, and despite a search of its records, the United States Government have not been able to trace receipt of this letter or any action taken as a result of it.

This alleged incident took place more than two years ago at a time when there were many incidents of illegal militia activity. It is therefore not possible at this stage to undertake an investigation into the whereabouts of these individuals other than through the Iraqi police. If the hon. Member believes that they are still in illegal captivity and can provide any information as to their whereabouts we will ask the Iraqi authorities to investigate.

Afghanistan

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of al-Qaeda activities in Afghanistan; and if he will make a statement. [57704]

Dr. Howells: There are al-Qaeda members and sympathisers in Afghanistan. Their ability to mount attacks has been constrained by the activities of Afghan and international military forces, although we assess they remain active and continue to pose a threat within Afghanistan.

Ascension Island

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the United States has paid for the use of Ascension Island as a military base. [56806]

Mr. Douglas Alexander: The arrangement under which the United States is able to use Ascension Island as a military base is commonly referred to as the Bahamas Agreement.

According to Article 23 of this Agreement "the Sites shall be provided, and the rights of the Government of the United States of America under this Agreement shall be made available, free from all rent and charges to the Government of the United States of America".

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with Ascension Island officials on permanent residency. [56821]

Mr. Douglas Alexander: I refer the hon. Member to the answer given by my noble Friend the Foreign and Commonwealth Office Parliamentary Under-Secretary of State, Lord Triesman of Tottenham, in another place on 6 March 2006 *Official Report*, columns 527–29.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Ascension Island entry permits have been granted in each of the last seven years. [56868]

Mr. Douglas Alexander: Ascension Island entry permits have been granted as follows.

	Number
2005	5,451
2004	4,212
2003	2,248
2002	5,656
2001	4,928
2000	2,443
1999	1,708

Benin

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the presidential elections in Benin. [57177]

Ian Pearson: We welcome reports that the first round of voting in the elections in Benin, held on 5 March, was peaceful and strongly supported by the people of Benin. The Economic Community of West African States Observer Mission reported that the polls were free and fair. If a second round is confirmed as necessary, we urge the authorities, candidates and voters of Benin to ensure that it is held in a similar spirit.

The successful completion of the elections is important for the future of democracy and the constitutional process in Benin.

British Embassies

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs on which occasions his Department has *(a)* closed and *(b)* merged a British Embassy in each year since 1997. [55860]

Mr. Straw: The Foreign and Commonwealth Office (FCO) has closed six British embassies and four British high commissions since 1997. The British embassy at Abidjan, Cote d'Ivoire has remained temporarily closed since 1 April 2005. This is due to the uncertain security situation there. The following table gives details of the missions closed permanently and the missions now accredited with representing these closed missions.

	Embassy/high commission	*Cross accreditation to embassy/ high commission*
	British embassy closed	
2003–04	Bamako, Mali	Dakar, Senegal
	San Salvador, El Salvador Tegucigalpa, Honduras	Guatemala City, Guatemala
	Managua, Nicaragua	San Jose, Costa Rica
2005–06	Antananarivo, Madagascar	Port Louis[1], Mauritius
	Asuncion, Paraguay	Buenos Aires, Argentina
	Abidjan, Cote d'Ivoire[1] (temporary closure)	
	High commissions closed	
2005–06	Maseru, Lesotho Mbabane, Swaziland	Pretoria[1], South Africa
	Nassau, Bahamas	Kingston[1], Jamaica
	Port Vila, Vanuatu	Suva[1], Fiji
	Missions due for closure	
	British High Commission at Nuku' alofa, Tonga—closed to the public from 20 March 2006	Suva[1], Fiji
	British Embassy at Dili, East Timor—closed to the public from 14 July 2006	Jakarta, Indonesia

[1] Denotes high commissions

During the same period, the FCO opened six British embassies and one British high commission. This is part of the FCO's process of realigning its resources in line with strategic priorities.

British Overseas Territories

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs who pays the cost of *(a)* building and *(b)* maintaining governors' official homes in British overseas territories. [55938]

Mr. Douglas Alexander: It is the responsibility of overseas territories Governments to provide and maintain accommodation for governors. However, depending on local circumstances, HM Government have paid for the building of some residencies and pays for some maintenance.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total cost was of maintaining governors in British overseas territories in *(a)* 1980 and *(b)* 2002. [55942]

Mr. Douglas Alexander: The total operating costs to the Foreign and Commonwealth Office of governors', and administrators', offices in the British overseas territories in 1980 is not held centrally and could be obtained only at disproportionate cost. The total cost for 2002–03 was £7,593,144. This includes salaries, allowances, travel, utilities and maintenance costs.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will ensure that representatives of British overseas territories based in London are afforded the same status and courtesies as high commissioners from Commonwealth countries. [56668]

Mr. Straw: The Government cannot afford the same status to representatives of British overseas territories (BOT) as Commonwealth high commissioners. Diplomatic status is conferred on high commissioners of Commonwealth countries as representatives of sovereign states. BOTs are not sovereign states and their representatives are not, therefore, entitled to diplomatic status. As a courtesy, they are listed in the London Diplomatic List, a Foreign and Commonwealth Office

(FCO) publication, and, where they meet certain criteria, BOTs receive partial rating relief on their offices and residences based in London. Representatives of BOTs are also often invited by the FCO to attend official events to which high commissioners and ambassadors are invited, and they have full access to FCO officials.

Chad/Sudan

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent assessment he has made of whether violence from Darfur is crossing the border into Chad; [57705]

(2) what recent assessment he has made of the security situation around Adré, Chad. [57711]

Ian Pearson: We remain concerned by the security situation in Darfur and along the Chadian border. Rebel groups and militia from both Chad and Sudan regularly cross the border, and there have been reports of further clashes in recent days. The situation in Adré and along the border is tense. Stability in both countries is vital for the region and we therefore welcome the peace agreement signed by the Presidents of both Sudan and Chad in Libya on 8 February. We call on the parties to honour it.

During his visit to Sudan on 21–23 February, my right hon. Friend the Secretary of State for International Development raised these issues with the Government of Sudan and impressed upon them the need to improve the security situation in Darfur. In their meeting with the Sudanese Foreign Minister on 3 February, my right hon. Friend the Foreign Secretary, and my noble Friend, the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, also pressed on the need to reduce tensions with Chad.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the African Union's involvement in Chad. [57706]

Ian Pearson: As part of the African Union Mission in Sudan's (AMIS) deployment in Darfur, a component is deployed around the Darfuri refugee camps in Eastern Chad, and has a logistics base in the Chadian town of Abeche. AMIS is doing a good job in difficult circumstances and we welcome their presence in Chad.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has received from the Chadian Government concerning violence on the Sudanese border; [57707]

(2) what discussions he has had with African Union Governments on the fighting in Chad. [57716]

Ian Pearson: The Chadian Foreign Minister, Allam-mi Ahmad, called on our permanent representative to the United Nations in New York on 9 January 2006. Allam-mi Ahmad raised his Government's concern about the security situation on the Chad/Darfur border and the negative impact it was having on relations between Sudan and Chad. We made clear that we expected both sides to act with restraint and take steps to reduce the tension. We have also discussed the matter in the African Union partners' liaison group in Addis Ababa.

In their meeting with the Sudanese Foreign Minister on 3 February 2006, my right hon. Friend the Foreign Secretary, and my noble Friend, the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, underlined the need to reduce tensions with Chad. My right hon. Friend, the Secretary of State for International Development raised these issues during his visit to Sudan on 21–23 February.

We welcome the peace agreement signed by the Presidents of both Sudan and Chad in Libya on 8 February, by which both sides committed themselves to refraining from intervening in the other's internal affairs and prevent the presence of rebel groups on their territory. We urge the parties to honour it.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent discussions he has had on the role of NATO in assisting the African Union in Chad and Sudan; [57708]

(2) if he will make a statement on NATO's role in Chad and Sudan. [57709]

Ian Pearson: My right hon. Friend the Foreign Secretary has discussed Sudan and the situation in Darfur with a range of African leaders in recent weeks. He believe that NATO is making a valuable contribution in support of the African Union's Mission in Sudan (AMIS), and that NATO should continue to focus its efforts on providing assistance to AMIS. NATO is not involved in Chad and there is no NATO role under consideration.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received concerning refugee camps in Chad and Sudan. [57712]

Ian Pearson: We hold regular discussions with the UN and other humanitarian non-governmental organisations (NGOs), as well as the Government of Sudan and other international partners about the camps for Internally Displaced Persons (IDPs) in Sudan and refugees in Chad. During his visit to Sudan from 21 to 23 February 2006, my right hon. Friend the Secretary of State for International Development visited the Abu Shouk camp in North Darfur, meeting with local NGOs and key officials and IDPs to discuss the situation in the camps.

The UK has provided nearly £100 million to support the humanitarian effort in Sudan and Chad since 2003, and we conduct regular monitoring missions to the camps in Sudan and Chad.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his *(a)* Chinese, *(b)* Russian and *(c)* Qatari counterparts regarding the 30 January UN Security Council report that identifies the Sudanese individuals alleged to be most responsible for war crimes and impeding the peace process in Darfur; and if he will make a statement. [56108]

Mr. Straw: We have held several discussions with our Security Council partners, including the Chinese, Russian and Qataris about the 23 December 2005 report of the Panel of Experts, appointed pursuant to UN Security Council Resolution 1591. We are pressing for swift action by the UN Sanctions Committee on the panel's recommendations, including the listing of

individuals for targeted sanctions. We will not comment on individual names, but that there can be no impunity for those who violate human rights or impede the peace process in Sudan. We will strongly support the imposition of sanctions against individuals who do so, where there is clear and compelling evidence against them.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made on the new law proposed by the Government of Southern Sudan which would require non-governmental organisations to register with the Government within 90 days. [57180]

Ian Pearson: The national Government of Sudan adopted a new national law governing the work of non-governmental organisations (NGOs) on 20 February 2006, stipulating that all NGOs must register with the Government within 90 days. Our embassy in Khartoum, other international partners and NGOs have raised this matter with the Government of Sudan on several occasions. During his visit to Sudan on 21–23 February, my right hon. Friend the Secretary of State for International Development, raised our concerns with Vice President Taha and Foreign Minister Lam Akol. Taha agreed to hold detailed discussions with the international community and NGOs on this matter. We will continue to take these discussions forward with the Government of Sudan and the international donor community.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the UN special representative in Sudan, on whether NATO forces should be deployed in Darfur. [57231]

Ian Pearson: My right hon. Friend the Foreign Secretary has not had any recent discussions with Jan Pronk. However, senior Foreign and Commonwealth Office officials are in regular contact with him on the situation in Sudan and on support to the African Union in Darfur. NATO, through airlift co-ordination and training, has made a valuable contribution in support of the African Union's Mission in Sudan (AMIS). We believe that NATO should continue to focus its efforts on providing assistance to AMIS.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what sanctions are being considered for use against the different factions involved in the Darfur crisis. [57232]

Ian Pearson: UN Security Council Resolution 1591 provides for the imposition of travel bans and assets freezes on individuals involved in the Darfur crisis who have committed violations of international law and other atrocities, or impede the peace process. We are pressing for swift action by the UN Sudan Sanctions Committee, who are currently discussing the issue, to impose such sanctions. We are also pushing for the current arms embargo on Darfur to be extended to the whole of Sudan.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs when the names of those on the list for the proposed travel ban and freezing of assets of Sudanese Government, militia and rebel leaders are expected to be announced. [57696]

Ian Pearson: It is usual practice for the UN Sanctions Committees not to announce the names of individuals being considered for targeted sanctions. Names are released when the relevant Committee decides to impose sanctions against individuals. We are pressing for swift action by the Sanctions Committee in this case. We will strongly support the imposition of sanctions against individuals who violate human rights or impede the peace process in Sudan.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* China and *(b)* other UN Security Council members concerning the travel ban and freezing of assets of Sudanese Government, militia and rebel leaders; and if he will make a statement. [57697]

Ian Pearson: We have held several discussions with our Security Council partners, including the Chinese, about the imposition of targeted sanctions under UN Security Council Resolution 1591. We have held these discussions bilaterally, in the Sanctions Committee and in the Security Council. We are pressing for swift action by the UN Sanctions Committee on the listing of individuals for targeted sanctions. We are clear that there can be no impunity for those who violate human rights or impede the peace process in Sudan. We will strongly support the imposition of sanctions against individuals who do so where there is clear and compelling evidence against them.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs when the proposed *(a)* travel ban and *(b)* freezing of assets of Sudanese Government, militia and rebel leaders is scheduled to come into effect; when he expects the UN to adopt the measures; and how long each will last. [57698]

Ian Pearson: Targeted sanctions against individuals come into force with immediate effect when the UN Sanctions Committee decides to impose them. We are pressing for swift action by the UN Sudan Sanctions Committee to impose such sanctions against individuals who have committed violations of international law and other atrocities, or impede the peace process. Sanctions remain in place until the UN Sanctions Committee decides they should be lifted.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received concerning President Deby's alleged support of Zaghawa-led rebels in Darfur. [57710]

Ian Pearson: We are aware of reports concerning President Deby's alleged support for Zaghawa-led rebels in Darfur, and of reports concerning the Government of Sudan's alleged support for Chadian rebels. We have called on all sides to show restraint, and on the Governments of Chad and Sudan to resolve their differences and restore calm to the region, without the use of violence.

Stability in both countries is vital for the region and we therefore welcome the peace agreement signed by the Presidents of both Sudan and Chad in Libya on 8 February. Under this agreement, both sides committed themselves to refraining from intervening in the other's internal affairs and prevent the presence of rebel groups on their territory. We call on the parties to honour it.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the proposed travel ban and freezing of assets of Sudanese Government, militia and rebel leaders. [57715]

Ian Pearson: UN Security Council Resolution 1591 provides for the imposition of travel bans and assets freezes on individuals involved in the Darfur crisis who have committed violations of international law and other atrocities, or who impede the peace process. We are pressing for swift action by the UN Sudan Sanctions Committee, who are currently discussing the issue, to impose such sanctions. We are clear that there can be no impunity for those who violate human rights or impede the peace process in Sudan. We strongly support the imposition of sanctions against individuals who do so, where there is clear and compelling evidence against them.

China

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what are the objectives of Government policy towards China. [57798]

Ian Pearson: The Government attach great importance to developing a strong and productive political and economic relationship with the People's Republic of China.

We are working to expand co-operation in areas of key importance to UK policy. These are set out in detail in a joint statement by my right hon. Friend the Prime Minister and the Chinese Premier Wen Jiabao of 10 May 2004 (http://www.pm.gov.uk/output/Page5779.asp).

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received requesting that he include reference to the Chinese one child policy in his Department's Human Rights Annual Report; and if he will make a statement. [57589]

Ian Pearson: The Government have received representations requesting the inclusion of reference to China's one child policy in the Foreign and Commonwealth Office's Human Rights Annual Report in the form of one parliamentary question from the hon. Member for Southend West, and several letters from members of the public.

We continue to highlight our concerns about human rights in China in the report. While we do not question China's right or need to implement family planning policies, we are concerned about reports of enforced sterilisation and abortion. We believe that China's family planning policies should be based on the principle of consent, and not coercion, as espoused by the International Conference on Population and Development. Although we have yet to decide what subjects we will cover in this year's report, we will consider including material assessing the reform and operation of China's population policies.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons no reference was made to the Chinese One Child Policy in his Department's Human Rights Annual Report 2006; and if he will make a statement. [57590]

Ian Pearson: The Government highlights their concerns about human rights in China in the Foreign and Commonwealth Office's Annual Human Rights Report. We do not question China's right or need to implement family planning policies, but remain concerned about reports of enforced sterilisation and abortion. We have yet to decide what subjects we will cover in the 2006 Report. However, we will consider including material assessing the reform and operation of China's population policies, and reports of enforced sterilisation and abortion in Linyi City, Shandong Province recently highlighted by Chinese lawyer, Chen Guangcheng.

Commonwealth Day

Andrew Gwynne: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans his Department has in place to celebrate Commonwealth Day in the United Kingdom. [57825]

Ian Pearson: The Royal Commonwealth Society (RCS) is primarily responsible for organising Commonwealth Day celebrations in the UK. As in previous years, the Foreign and Commonwealth Office (FCO) will again provide financial support and FCO staff will attend the RCS's principal event, a multi-faith service at Westminster Abbey in the presence of His Royal Highness the Prince of Wales.

Congo

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made by the Lutundula Commission on the illegal exploitation of resources in the Democratic Republic of the Congo. [57233]

Ian Pearson: The Democratic Republic of Congo (DRC)'s Parliamentary Commission on the validity of economic and financial agreements made during the 1996–97 and 1998 wars (the Lutundula Commission) completed investigations in June 2005. It concluded that many contracts had been signed illegally or against the interest of the Congolese state, some mining companies were operating illegally and the state's resources had been poorly managed. The report has been passed to the Bureau of the National Assembly. No parliamentary debate has yet been scheduled.

We and international partners and non-governmental organisations continue to press the authorities to address the issues raised in the report and to ensure that the DRC's enormous mineral wealth be used transparently and efficiently to benefit the whole Congolese population.

Ethiopia

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Ethiopia regarding *(a)* respect for human rights and *(b)* the release of political prisoners. [52173]

Ian Pearson: We remain concerned about the internal situation in Ethiopia including human rights and the rule of law, and regularly raise this with the Government of Ethiopia at both ministerial and official level. Most recently, my right hon. Friend the Prime Minister

discussed developments with Prime Minister Meles on 12 February. This followed similar discussions in December 2005 between Prime Minister Meles and my noble Friend, the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, and between my right hon. Friend the Secretary of State for International Development, in January 2006.

In our discussions, we raised the need for the trials of those charged in the wake of the June and November 2005 disturbances to be transparent, independent and impartial. The international community is monitoring the trials and the internal situation in Ethiopia closely. In line with assurances given by Prime Minister Meles to my noble Friend Lord Triesman in December 2005, the EU have identified an independent International Jurist to monitor the trial of those charged with offences. We are discussing the terms of his appointment with the Government of Ethiopia.

Falkland Islands

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to his Argentinian counterpart on recent interference with Falkland Islands shipping. [56502]

Mr. Douglas Alexander: The fishing vessel John Cheek was detained by the Argentine authorities on 20 February. Our ambassador in Buenos Aires has discussed the matter with the Argentine authorities and passed them the data we have available which shows the vessel to have been in international waters. We await a response. We will continue to follow this case closely and remain in close touch with the owners of the vessel.

The Government make representations to foreign governments in shipping cases where there is concern that international law has been breached with regard to UK or UK (overseas territory) flagged vessels. This applies to Falkland Islands shipping.

Gymnich Meeting

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what matters will be discussed at the next Gymnich meeting; and if he will make a statement. [57747]

Mr. Douglas Alexander: The informal meeting of EU Foreign Ministers, Gymnich on 10–11 March will discuss the Middle East; Iran, Ukraine, Belarus, Children in armed conflict, the Western Balkans, and dialogue between cultures and religions.

An informal meeting of EU and Western Balkans Foreign Ministers will take place in the margins of the Gymnich, on 11 March.

India

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what are the objectives of the Government's policy towards India. [57802]

Dr. Howells: The main objectives of our policy towards India are highlighted in the UK India joint declaration signed by my right hon. Friend the Prime Minister and the Indian Prime Minister Dr. Manmohan Singh, during Dr. Singh's visit to the UK in September 2004, in which they set out plans to strengthen and deepen the bilateral relationship between the two countries, through a comprehensive strategic partnership.

More background and a booklet on the joint declaration can be found at: http://www.britishhighcommission.gov.uk/servelet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1101400864001.

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Indian Government about the persecution of Christians in that country; and if he will make a statement. [58485]

Dr. Howells: The Government are concerned about the treatment of Christians in certain parts of India. Our high commission in New Delhi continue to monitor the situation in respect of Christians and other minority groups with officials making regular calls on Minorities Commission, National Human Rights Commission and Scheduled Castes and Scheduled Tribes Commissions, flagging up our concern about incidents of religious intolerance.

Our deputy high commissioner sought a call on the National Minorities Commission on 7 February to raise a number of issues including attacks on Christians and other minority groups. One particular issue focused on the concerns of the Christians in the Dangs District of Gujarat as anti-minority materials were being circulated in connection with a forthcoming Hindu festival in the area. Although this meeting was cancelled we received confirmation from the Commission that the Ministry of Home Affairs were monitoring the situation and offering police support to the state government to ensure there were no problems. The festival took place without incident on 11–13 February.

The UK, as Presidency of the European Union, also raised the issue of minority groups during a human rights dialogue with Indian Government officials in Delhi on 1 December 2005.

The Universal Declaration of Human Rights enshrines the rights of everyone to freedom of thought, conscience and religion. The UK supports this right in international fora. We condemn instances where individuals are persecuted because of their faith or belief, wherever they happen and whatever the religion of the individual or group concerned.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effects of the US decision to give India access to civilian nuclear assistance; and if he will make a statement. [57163]

Dr. Howells: I refer the hon. Member to the answer I gave to the hon. Member for Sheffield, Hallam (Mr. Clegg) on 7 March 2005, *Official Report*, column 1343W.

International Arms Trade

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to secure an international arms trade treaty; and what action he has taken to stop the sale of arms and equipment to countries with poor human rights records. [57700]

Dr. Howells: In 2005, we secured EU and Commonwealth support for the start of a UN process to take forward the initiative for an international treaty on the trade in conventional arms. We will continue to take this work forward in 2006, with the aim of securing the start of a UN process at the earliest opportunity.

All relevant applications for export licences from the UK are rigorously assessed on a case by case basis against the Consolidated EU and national export licensing criteria, taking account of the circumstances prevailing at the time and other relevant announced Government policies. These criteria include provision that the Government will not issue an export licence where there is a clear risk that the proposed export might be used for the purpose of internal repression.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the Government have had with the United Nations regarding an international arms trade treaty; and if he will make a statement. [57701]

Dr. Howells: We are committed to working towards an international treaty on the trade in all conventional arms. To ensure the widest possible participation in such a treaty, we believe this initiative should be taken forward through a UN based process. We are working with international partners to build support for the launch of such a process. In 2005, we secured EU and Commonwealth support. In 2006, we are continuing to build support, with the aim of securing the start of a UN process at the earliest opportunity.

Iran

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of *(a)* Russian and *(b)* Chinese involvement in (i) building facilities and (ii) providing technology to Iran in connection with its nuclear programme; and if he will make a statement. [57166]

Dr. Howells: Both Russian and Chinese organisations have provided assistance, including training, for Iran's nuclear programme. For example, Russia is engaged in construction of and fuel supply for the Light Water Reactor at Bushehr. China assisted Iran in the sinking of the Saghand uranium ore mine and provided designs for the uranium conversion facility and the zirconium production plant at Esfahan.

Both Russia and China were associated with my right hon. Friend the Foreign Secretary's statement of 30 January 2006 expressing serious concerns about Iran's nuclear programme and calling on Iran to restore in full the suspension of enrichment related activities including research and development. The full text of this statement can be found on the Foreign and Commonwealth Office website:

http://www.fco.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1007029391629&a=KArticle&aid=1136909180306%20&year=2006&month=2006-01-01&date=2006-01-30.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of Iranian nuclear scientists residing in Iran who have received training in the UK since 1995; and if he will make a statement. [57168]

Dr. Howells: The Foreign and Commonwealth Office does not, and is not required to, hold information of this nature. It is therefore not possible to answer the question.

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the *(a)* Saudi, *(b)* Chinese and *(c)* Indian authorities about the stance of the Iranian Government on uranium enrichment. [57267]

Dr. Howells: My right hon. Friend the Foreign Secretary and senior officials are in frequent contact with their Saudi, Chinese and Indian counterparts concerning Iran's nuclear programme. We have been working closely with them and other international partners to encourage Iran to address international concerns and to meet in full the requests of the International Atomic Energy Agency's (IAEA) Board of Governors. China and India supported the resolution adopted by the IAEA Board on 4 February. Saudi Arabia is not presently represented on the board.

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* capability and *(b)* range of Iranian missiles; and which countries he assesses to be in range of such missiles. [57799]

Dr. Howells: Iran's longest range in-service missile is believed to be the Shahab-3, which entered into service in 2003. It has a claimed range of 1,300 km, with a 750 kg warhead. This range would enable Iran to target Israel, Turkey and Cyprus, as well as large parts of Saudi Arabia. Iran has ambitions to extend the range of its missiles and develop longer range missile systems, which would give it the capability to target a number of European countries.

Information relating to Iran has been made available to the International Atomic Energy Agency suggesting that Iran may be designing a missile re-entry vehicle which could have a military nuclear dimension.

Iran also has a satellite launch vehicle programme, which shares some of the same technology as a ballistic missile programme.

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what the objectives are of the Government's policy towards Iran. [57801]

Dr. Howells: Together with France and Germany, and our partners in the EU and the rest of the international community, we have sought to encourage Iran to take steps to build international confidence that its nuclear programme is for exclusively peaceful purposes. We have also sought to encourage Iran to address our serious concerns about Iranian policy across a wide range of issues, including Iran's attitude towards terrorism; its lack of respect for human rights and fundamental freedoms; its approach to the Middle East peace process; and its role in Iraq.

Iraq

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 6 February 2006, *Official Report*, column 774W, on Iraq, what Geneva Convention rights apply to the four named individuals during the time in question. [58290]

Dr. Howells: From the report provided by the Special Rapporteur, it would seem that the allegation is that these four individuals were illegally detained by one of the militia groups operating in Iraq at that time. As we do not know the full details of this incident or the status of the individuals at that time, we cannot give a definitive view on what rights they may have had under the Geneva Conventions. However, the Fourth Geneva Convention was applicable in Iraq at that time.

Mr. Gordon Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his counterpart in the US on the date for possible withdrawal of coalition troops from Iraq. [57418]

Dr. Howells: The UK has a regular dialogue with the US Government about a broad range of issues in relation to Iraq, including military planning. As we have made clear, the process of progressively transferring security responsibility from Coalition to Iraqi Security Forces is based on conditions on the ground, not on predetermined timelines, and will be pursued in full consultation with the Iraqi Government.

Israel (Palestinian Land)

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations the Government has made to the Israeli Government on Israel taking more Palestinian land for settlements, roads and the Wall in the West Bank and East Jerusalem; [57437]

(2) if he will make a statement on the Government's response to the stated intentions of the Acting Israeli Prime Minister to declare new borders which annex the major settlement blocks of East Jerusalem and the Jordan Valley. [57438]

Dr. Howells: Under Phase Three of the Roadmap, final status issues can only be resolved through negotiations and agreement between the parties themselves. We share the Quartet's (EU, UN, US and Russia) goal of a two-state solution with Israel secure within her borders and Palestine established as a viable, contiguous state. We shall continue to work to this end.

We will continue to raise our concerns over the settlements and the barrier with the Israeli Government at all levels.

Our ambassador in Tel Aviv last raised our concerns about settlements and impact of the barrier in East Jerusalem with the Director General of the Israeli Ministry of Foreign Affairs on 19 December 2005. He also raised Palestinian access to the Jordan Valley on 2 March with the Israeli Prime Minister's Special Adviser.

Settlements are illegal under international law and settlement construction is an obstacle to peace. The Roadmap is clear that Israel should freeze all settlement construction including the "natural growth" of existing settlements, and dismantle all outposts built since March 2001.

We also fully recognise Israel's right to self-defence. A barrier is a reasonable way to achieve this. But the barrier's route should be on or behind the Green Line, and not on occupied territory. Construction of the barrier on Palestinian land is illegal. The route is particularly damaging around East Jerusalem, as it risks cutting the city off from the West Bank and dividing the West Bank in two.

Kabula (Prison Riot)

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent riot in Kabula's main prison. [57703]

Dr. Howells: On 25 February, about 1,300 prisoners in Policharki prison broke out of their cells and took control of block 2. They were reportedly protesting against new uniform regulations and alleged mistreatment and set fire to the facility. About 70 women prisoners and 70 children were trapped in an adjoining block. The prison authorities called in police and army reinforcements, sealed off the compound and fired at the prison perimeter wall to prevent escape. Prisoners from block 1 also joined the protest.

Soldiers from NATO's International Security Assistance Force, a training team from the UN Office on Drugs and Crime, including four British Prison Service officers, and representatives from the International Committee of the Red Cross (ICRC), monitored developments at the scene and provided advice on peaceful resolution of the disturbance.

Deputy Minister of Justice Hashimzai led negotiations and on 28 February the women and children's block was evacuated. All were unharmed. On 1 March, protestors from block 2 surrendered and were temporarily accommodated within Policharki. The prisoners in block 1 returned to their cells. ICRC reported six dead and 31 wounded as a result of the shooting and violence.

Lisbon Agenda

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what policies his Department has adopted to assist the United Kingdom's fulfilment of the Lisbon Agenda criteria. [55679]

Mr. Douglas Alexander: The Government strongly supports the renewed Lisbon focus on "jobs and growth" as the best way to meet the challenges of globalisation and boost prosperity and living standards for all. The UK National Reform Programme (a copy of which is available in the Library of the House) details our policy response to these challenges. We expect the Spring Council in March to emphasise the importance of implementation of national commitments to reform.

Madagascar

Ben Chapman: To ask the Secretary of State for Foreign and Commonwealth Affairs what research was

commissioned in advance of the decision to close the British embassy in Madagascar to examine the likely effects on UK *(a)* trade and *(b)* investment. [56760]

Ian Pearson: The commercial and investment promotion roles of the British embassy in Madagascar were among the factors taken into account, in the context of wider UK foreign policy priorities, in the decision to close the embassy taken in December 2004.

Michael Shields

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Bulgarian authorities in relation to Michael Shields, imprisoned in Bulgaria; and if he will make a statement. [57398]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary first raised Michael Shields' case with the Bulgarian Foreign Minister, Ivailo Kalfin, on 21 September 2005 and has since registered his continued interest on 18 October and 8 December. He also raised Michael Shields' case with the Bulgarian Prime Minister Sergei Stanishev, Foreign Minister and Europe Minister, Meglena Kuneva, on 16 December 2005. I also raised the case with Prime Minister Stanishev during my visit to Sofia on 6 February.

Middle East

Ms Barlow: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he recognises the right of return to their homes and land of Palestinian refugees. [56904]

Dr. Howells: The return of refugees is a final status issue. It must therefore form part of a negotiated settlement between the two parties. We continue to urge both the Israeli Government and the Palestinian Authority to implement their commitments under the Roadmap as the best way to get to a negotiated settlement, and to the discussion of such issues.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 16 February 2006, *Official Report*, column 2285W, on Israel and Palestine, what border the UK Government recognises as the international border between the State of Israel and the West Bank pending mutual determination between the parties of the future borders in accordance with Phase III of the Road Map. [58148]

Dr. Howells: The territory beyond the Green Line which Israel occupied in June 1967 is occupied territory. UN Security Council Resolution 242 (1967) which the UK supported calls for the withdrawal of Israeli armed forces from territories occupied in the recent conflict and the termination of all claims of belligerency and respect for and acknowledgement of the sovereignty, territorial integrity and political independence of every state in the area and their right to live in peace within secure and recognised boundaries free from threats or acts of force.

Non-proliferation Treaty

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact on the nuclear non-proliferation treaty of the agreement between the US and India on nuclear arrangements. [57800]

Dr. Howells: We believe the agreement between the US and India on nuclear arrangements will have a positive impact on the broader nuclear non-proliferation framework, of which the nuclear non-proliferation treaty (NPT) is the cornerstone. We do not believe the agreement will have a direct impact upon the NPT. We remain committed to the objective of universal NPT adherence.

India has committed to place more reactors under International Atomic Energy Agency (IAEA) safeguards, including all future civilian reactors, to sign an Additional Protocol with the IAEA, to adhere to the Guidelines of the Missile Technology Control Regime and the Nuclear Suppliers Group, to continue its unilateral moratorium on nuclear testing, and to work with the US for a multilateral fissile material cut-off treaty. Implementation of these commitments will bring India further into and thereby strengthen the broader nuclear non-proliferation framework, which is underpinned by the NPT.

Palestine

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has received on the destination of the EU funding for the Palestinian Authority announced on 27 February 2006 from *(a)* the United States, *(b)* France, *(c)* Israel and *(d)* the Office of the Chairman of the Palestinian Authority; [55878]

(2) what assessment his Department has made of whether EU funds transferred to the Palestinian Authority will be paid to *(a)* members of Hamas and *(b)* people affiliated to the Change and Reform list. [55879]

Dr. Howells: As my right hon. Friend the Secretary of State for International Development told the House on 1 March, the international community is united in its support for the Quartet statement of 30 January. Hamas needs to give up violence, recognise Israel and sign up to previous obligations on the peace process. Aid to the future government will be reviewed against those principles. While the current caretaker Government is in place, the international community is examining closely what steps could help to stabilise the financial situation, as recommended by the Quartet. On 27 February, the UK made £5 million available to the World Bank to transfer to Abu Mazen's interim Government.

No UK aid money will be used to support Hamas, or the Change and Reform Party. The international community is clear that Hamas needs to take the steps set out in the Quartet statement. At the same time, everybody recognises that it is in nobody's interest that services to Palestinians, particularly poor Palestinians, who have suffered so much should be removed because of the election process.

My right hon. Friend the Foreign Secretary, British Ambassadors and the Consul General in Jerusalem have discussed the issues with interested parties including the US, France, Israel and the Chairman of the Palestinian Authority.

Prism

Mr. Mullin: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the cost-effectiveness of Prism and *(b)* its impact on (i) the workload of overseas missions and (ii) the number of staff employed; and if he will make a statement. [56601]

Mr. Straw: The Business Case for Prism predicted £10 million per annum savings by the end of the programme (January 2010). The Programme is aiming to ensure the full benefits of Prism are realised and has scheduled a 'Gateway 5 Review' by the Office of Government Commerce for the end of 2006. This will provide an independent assessment of the cost effectiveness of Prism.

Prism brings major changes, it is not merely a new IT system. It establishes new processes and reinforces adherence to existing processes. This is a significant challenge, particularly for staff using Prism each day, including management officers, accountants and buyers. Their workload certainly increases during the first months of using the system. For many, this has been exacerbated by Prism's poor performance, particularly its speed. A concerted effort to improve this is beginning to pay dividends for a significant number of Posts. But many using satellite links continue to face slow performance. Despite this, our experience is that, once Posts get to grips with Prism, workloads start to return to normal. Posts with most Prism experience are beginning to see tangible benefits from the changes.

The Prism Business Plan identified the potential to move staff from 'back office' to 'front line' functions throughout the network. 'Hub and spoke' pilots will take place in several countries during financial year 2006–07 to investigate providing 'shared services' from 'hub' Posts. Proceeding with 'hub and spoke' will need to be justified by a rigorous business/benefits case, validated through the pilots. It is too early to identify how this will affect staff numbers. Prism has not impacted staff numbers overseas to date.

Religious Persecution

Mr. Iain Wright: To ask the Secretary of State for Foreign and Commonwealth Affairs what action he has taken to seek the release from prison of Pastor Cai Zhuohua. [57992]

Ian Pearson: We regularly raise our human rights concerns, including individual cases, with the Chinese Government. Following the trial of Pastor Cai in July 2005, the UK-led EU Presidency raised his case during the EU-China Human Rights Dialogue in October 2005. The EU also raised the case of Pastor Cai and his defence lawyer, Gao Zhisheng in December 2005 and February 2006. The next round of the EU-China Human Rights Dialogue in June 2006 will continue the focus of the UK presidency on freedom of religious belief. We continue to raise individual cases of concern in our engagement with the Chinese Government.

Mr. Iain Wright: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Chinese authorities on religious persecution against Protestant groups in China. [57993]

Ian Pearson: The Government are concerned about limitations on freedom of religious belief in China and the treatment of religious practitioners, including Protestants. We regularly raise our concerns with the Chinese Government. We did so at the last UK-China Human Rights Dialogue in June 2005. I spoke at length about the persecution of Christians in China during a parliamentary debate on 13 July 2005, *Official Report*, columns 302–308WH. Freedom of religion was a focus of the last EU-China Human Rights Dialogue, which took place under the UK presidency in October 2005. The EU Troika raised freedom of religious practice in demarches on the Chinese Government in Beijing on 29 December 2005 and 15 February 2006. We continue to raise our concerns about religious freedom with the Chinese authorities.

Sino-Tibet Talks

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the latest round of Sino-Tibet talks; whether those talks have been discussed in the context of the UK-China human rights dialogue; whether the UK Government plans to make representations pressing for further progress in the talks and negotiations; and if he will make a statement. [57865]

Ian Pearson: The latest round of talks between the Chinese Government and representatives of the Dalai Lama took place in China on 22 February. We welcome the talks and note that both sides confirmed their continued commitment to the dialogue process, while highlighting some fundamental differences in views and approach. As at the last UK-China Human Rights Dialogue, we will continue to urge the Chinese Government to engage in serious negotiations with the Dalai Lama's representatives, without pre-conditions, to build a peaceful, sustainable and legitimate solution for Tibet.

St. Helena

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans there are for members of the Royal Family to make official visits to St. Helena over the next five years. [56879]

Mr. Straw: None.

Terrorist Suspects

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the countries with which the UK has held discussions on establishing a memorandum of understanding for the treatment of deported terrorist suspects; and what the status of the discussions is in each case. [58194]

Dr. Howells: Following discussions with the Governments of the countries concerned, memorandum of understanding (MOUs) have been signed with Libya, Lebanon and Jordan. We are in discussion with a number of other countries, including Algeria, with a view to agreeing MOUs. It would not be in the interest of these discussions to give details of their current status.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the countries with which the UK has agreed a memorandum of

understanding for the treatment of deported terrorist suspects; when the memorandum was agreed in each case; which non-governmental organisation in the country will monitor the memorandum; how the independence and suitability of the non-governmental organisation for this purpose was established; and if he will make a statement. [58195]

Dr. Howells: Memoranda of understanding have been signed with Jordan, on 10 August 2005, Libya, on 18 October 2005, and the Lebanon, on 23 December 2005. The appointed monitoring body in Jordan is the Adaleh Centre for Human Rights Studies. A monitoring body has not yet been appointed in Libya or Lebanon. We and the other Government identify potential monitoring bodies according to their expertise, capacity and functional independence. The Government are willing to provide capacity building support to the appointed monitoring bodies to help the body to undertake fully the monitoring role.

Uganda

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the situation in Uganda following the recent election. [57132]

Ian Pearson: The first multi-party elections for 25 years were held in Uganda on 23 February. Voter turnout was high and the elections and their aftermath have been generally peaceful. The rape case against the main opposition candidate, Dr. Kizza Besigye, has been dismissed.

Our high commissioner in Kampala, as chair of the donors' group in Uganda (the Partners for Democracy and Governance), and his Dutch co-chair have held discussions with both President Museveni and the main opposition party following the elections. We have called on all involved to work within the constitution to embed the evolving multi-party democratic system in Uganda.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on human rights in Uganda; and what action the Government are taking to improve human rights in Uganda. [57699]

Ian Pearson: There remains a great deal to do to secure full respect for human rights in Uganda. We are particularly concerned by the situation in northern Uganda. As a result of the long-running conflict, 1.7 million people are living in appalling conditions in internally displaced peoples' camps and over 20,000 children have been abducted by the rebel Lord's Resistance Army since 1988.

Uganda benefits from an independent judiciary and a relatively free press but concerns do remain regarding restrictions on political freedom and reports of arbitrary detention and torture.

We continue to emphasise the importance of upholding human rights in our discussions with the Ugandan Government. In 2004–05, the Foreign and Commonwealth Office provided financial support to a Ugandan firm of barristers who were challenging the implementation and application of the death penalty in Uganda. In June 2005, the constitutional court ruled that mandatory death sentences were unconstitutional.

UK Citizens (Overseas Detention)

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 26 January 2006, *Official Report*, column 2244W, on UK citizens (overseas detention), whether the details of the three individuals are a matter of public record. [58291]

Dr. Howells: I refer the hon. Member to the answer I gave him on 9 March 2006, *Official Report*, columns 1690–1691W, in which I provided details about the detention of the four British nationals held without charge for more than 12 months. The details of their detention are therefore, a matter of public record. One of the individuals is Mr. Al Jedda and his case is a matter of public record before the courts in the case of R (on the application of Hilal Abdul-Razzaq Ali Al-Jedda) *v.* Secretary of State for Defence. However, for reasons of consular confidentiality, I cannot identify the other individuals.

UN Mechanisms (Gaza)

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 6 February 2006, *Official Report*, column 783W, on UN mechanisms (Gaza), what information he has received from the UN Assistant Secretary-General for Political Affairs on the UN's discussions with the UNRWA on the Israeli Air Force operating low-flying aircraft over the Gaza strip. [56146]

Dr. Howells: We understand UN Special Co-ordinator de Soto has raised this issue directly with the Israeli authorities.

Vietnam

Mr. Mullin: To ask the Secretary of State for Foreign and Commonwealth Affairs how many visa applicants in each of the last three years were turned away by the British consulate in Ho Chi Minh City on the grounds that they required interviews in Hanoi. [56600]

Dr. Howells: The British Consulate-General in Ho Chi Minh City accepts only certain categories of visa applications. These are detailed on the post website at http://www.britishembassy.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1064573168221 All applicants not meeting the criteria for acceptance must lodge their application at the British embassy in Hanoi. These applications are not separately recorded for statistical purposes.

Since March 2005, approximately 600 applications made in Ho Chi Minh City under the agreed criteria were referred to Hanoi for interview. No statistics for visa referrals were collected before 2005.

Mr. Mullin: To ask the Secretary of State for Foreign and Commonwealth Affairs how many visa applications have been received from citizens of Vietnam during the last 12 months; how many required interview; and how many of those requiring interview came from Southern Vietnam. [56602]

Dr. Howells: The British Embassy in Hanoi and Consulate General in Ho Chi Minh City received 5,647 visa applications between 1 March 2005 and 6 March 2006, of which 5,344 were from Vietnamese nationals. In this same period, 2,058 entry clearance interviews were conducted in Hanoi with Vietnamese nationals. Statistics on how many applicants requiring interview came from specific locations are not collected. However, we estimate that about 600 applicants who applied for visas in Ho Chi Minh City were interviewed in Hanoi.

The complexity of UKvisas' global business means that 100 per cent. accuracy of statistics is not guaranteed.

CULTURE, MEDIA AND SPORT

Archaeological Finds

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many archaeological finds by members of the public have been reported from *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland on a (i) mandatory and (ii) voluntary basis since 2003; and if she will make a statement. [57732]

Mr. Lammy: Since 2003, 109,579 archaeological objects have been reported on a voluntary basis in England and 10,443 in Wales.

Since 2003, 1,473 archaeological objects have been reported on a mandatory basis through the Treasure Act in England and 61 in Wales.

The voluntary and mandatory reporting of finds in Northern Ireland and Scotland is a devolved matter. However, the Treasure Act is administered in Northern Ireland by my Department and there have been three treasure finds reported under this Act since 2003.

BBC

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the report of the Content Advisory Board on the BBC Digital Curriculum; and if she will make a statement. [56010]

James Purnell: My right hon. Friend the Secretary of State for Education and Skills has considered the report and indicated her support for the recommendations, with the exception of that relating to a review of the BBC jam service. The Secretary of State for Culture, Media and Sport's role is in relation to the conditions she attached in granting approval for the Digital Curriculum in 2003, which included a commitment that the service would be reviewed within two years of its launch. She expects the BBC to continue to comply with all the conditions applying to the service.

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what assessments she has made of potential overruns in the BBC Broadcasting House building project's *(a)* timetable and *(b)* budget. [57095]

James Purnell: No assessment has been made. Day to day decisions about expenditure are the responsibility of the BBC. The BBC's Board of Governors have ultimate responsibility for the Corporation's actions and decisions. They must satisfy themselves that the activities of the Corporation are carried out to the highest standards of probity, propriety and value for money. The Government have no authority to intervene in such matters.

Councillors' Conduct (Licensing Applications)

Annette Brooke: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the Office of the Deputy Prime Minister regarding the application of the councillors' code of conduct in cases where councillors make representations on licensing applications and attend licensing committees; and if she will make a statement. [56024]

James Purnell *[holding answer 6 March 2006]:* In my answer of 19 December 2005, *Official Report*, columns 2532–33W to the hon. Member, I referred to the Government's intention to amend the code of conduct for local authority members following a review of the code by the Standards Board for England.

One of the stated aims of the review is for a clearer, simpler, more proportionate code of conduct for members, including supporting members' advocacy roles through some relaxation of rules relating to the ability of dual-hatted members with a prejudicial interest to express their views.

Officials from my Department and the Office of the Deputy Prime Minister have been in touch about the operation of the code of conduct when licensing applications are being considered, and these discussions will continue in the context of the review of the code of conduct.

Digital Television

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of *(a)* the amount which will be raised from and *(b)* the maximum commercial value of the resale of licences for the frequencies on the electromagnetic spectrum that will be freed once analogue television is turned off; and if she will make a statement. [57104]

James Purnell: It is not possible to estimate with any reliability the direct income to the exchequer from any auction of the spectrum-this would depend on the parameters of any auction and the market conditions at the time.

In November last year, Ofcom announced the beginning of the Digital Dividend Review (DDR), the project which will examine the options arising from the release of spectrum afforded by the digital switchover programme, further information can be found by visiting:

www.ofcom.org.uk/radiocomms/ddr/documents/ddroverview/#content

Drugs in Sport

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the potential effect on sport of the UNESCO International Convention Against Doping. [58192]

Mr. Caborn: The Government believe the Convention will complement the UK's National Anti-Doping Policy by placing it within an international legal framework that clearly sets out the Government's responsibilities in the fight against doping in sport.

In particular, the Convention will support the activities of the UK's national anti-doping organisation, UK Sport, in helping British sport to become compliant with the World Anti-Doping Code.

We took receipt of the authenticated text of the Convention in January. The Convention was published as a Command Paper with its associated Explanatory Memorandum on 3 February. The Convention is currently before Parliament. We hope to have completed the ratification process in the spring.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many drug tests were carried out by UK Sport in each of the past three years; what the unit cost was; and what the results of the tests were. [58193]

Mr. Caborn: In 2003–04 there were 5,972 samples collected for doping analysis, of which 87 or 1.5 per cent. resulted in an adverse finding.

In 2004–05 there were 6,484 samples collected for doping analysis, of which 62 or 1 per cent. resulted in an adverse finding.

In 2005–06 there has so far been 7,173 samples collected for doping analysis, of which 46 samples or 0.6 per cent. have resulted in an adverse finding.

The unit cost per sample for 2005–06 is £295. The information requested for the previous two years could be provided only at disproportionate cost. However, an estimated unit cost for 2003–04 and 2004–05 is approximately £295, subject to the prevailing inflation indices.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport whether the Government plans to sign the UNESCO Convention on Anti-Doping. [58479]

Mr. Caborn: The Government have shown their full support for the UNESCO International Convention against in Doping in Sport, which resulted in its adoption at the 33rd UNESCO General Conference in October 2005.

Conventions adopted by the UNESCO General Conference are not submitted for signature by UNESCO state parties. Instead, UNESCO conventions are authenticated by the signatures of the President of the General Conference and the UNESCO Director General.

Following receipt of the authenticated text of this Convention in January, the Convention was published as a Command Paper with its associated Explanatory Memorandum on 3 February. The Convention is currently before Parliament. We hope to have completed the ratification process in the spring.

Events Industry Alliance

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport if she or one of her Ministers will meet the recently formed Events Industry Alliance. [58176]

James Purnell: Neither my right hon. Friend the Secretary of State nor I have plans to meet the Events Industry Alliance. We will be pleased to consider an invitation to do so in the future.

Gambling Industry

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of *(a)* the total income generated for the gambling industry by sporting events and *(b)* which sports generate the most income. [58191]

Mr. Caborn: The Government do not hold information on total income generated for the gambling industry by sporting events.

Horseracing remains the sport on which most bets are made.

Job Relocation (Wales)

Mr. Llwyd: To ask the Secretary of State for Culture, Media and Sport how many jobs in her Department have been relocated to Wales since 2001. [57674]

Mr. Caborn: None.

King James Bible

David Simpson: To ask the Secretary of State for Culture, Media and Sport what plans her Department has to commemorate the 400th anniversary of the King James version of the Bible in 2011. [57451]

Mr. Lammy: There are not yet any plans in place to commemorate the 400th anniversary of the King James version of the Bible in 2011.

Licensing

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport how many appeals of refusals to grant licences by local authorities under the Licensing Act 2003 have been considered by magistrates' courts; how many have been upheld; and on how many occasions costs have been awarded against the local authority. [56332]

James Purnell: My Department does not hold information on the number of appeals considered by magistrates, the number upheld or the position regarding the award of costs.

However, based on early feedback from licensing authorities, and in particular the Department's work with the 10 scrutiny councils, we estimate the overall level of appeals under the new regime is small and less than 1 per cent. of all applications. The number of appeals specifically against a refusal to grant a licence by a local licensing authority will be even smaller.

We believe the appeals process is working as envisaged and we will continue to monitor progress over the coming months.

Annette Brooke: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 19 December 2005, *Official Report*, columns 2532–33W, on the Licensing Act, what the current position is regarding a councillor who has made a representation on a licensing application on his own behalf as a resident attending and speaking at a licensing committee on that application. [56432]

James Purnell: As stated in the answer to the previous question, there is no express provision in the Licensing Act 2003 or the councillors code of conduct which precludes a councillor who has made representations on his own behalf from attending and speaking at a licensing committee on that application either as a resident or as a representative of other residents. However, in the planning case of Richardson and Orme *v.* North Yorkshire county council and others [2003 EWCA Civ 1860], the Court of Appeal confirmed that it is a consequence of the code that, in circumstances where a councillor has a prejudicial interest in a matter, he is required to withdraw from the committee meeting at which that matter is discussed. This would not preclude the councillor from giving written representations to the committee or asking a colleague to speak on his behalf to it.

My officials are discussing with colleagues in the Office of the Deputy Prime Minister the precise application of the code and the Court of Appeal judgment to the licensing regime. Operation of the rules is a matter for local authorities and their members, taking into account the relevant legislation.

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport what guidance she has issued to *(a)* local authorities and *(b)* the Magistrates Association concerning the Licensing Act 2003. [56227]

James Purnell: The Government have not issued guidance to the Magistrates Association concerning the Licensing Act 2003 (the 2003 Act). Guidance has been issued to licensing authorities (who are mainly local authorities) under Section 182 of the 2003 Act. It is available from: www.culture.gov.uk/global/publications/archive_2004/guidance_issued_under_section_182_of_the_licensing_act_2003.htm.

Lisbon Agenda

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport what policies her Department has adopted to assist the United Kingdom's fulfilment of the Lisbon Agenda criteria. [55675]

James Purnell: The Government strongly support the renewed Lisbon focus on "jobs and growth" as the best way to meet the challenges of globalisation and boost prosperity and living standards for all. The UK National Reform programme details our policy response to these challenges. My Department is fully engaged in the Government-wide commitment to better regulation and is also playing a key part in raising skills levels, particularly in the art and creative sectors. My Department also has a number of projects connected to the PSA target to maximise the contribution which tourism and the creative and leisure industries can make to the economy which will also help the UK to achieve its Lisbon Agenda targets.

We expect the spring Council in March to emphasise the importance of implementation of national commitments to reform.

Lottery Funding

Anne Snelgrove: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the Lottery distributing bodies on the funding of voluntary and community sector organisations after 2009. [58021]

Mr. Caborn: None. However, the Big Lottery Fund, the operating name of the National Lottery Charities Board and the New Opportunities Fund, working jointly together, has given an undertaking that 60–70 per cent. of its funding will go directly to voluntary and community sector organisations.

Olympics 2012

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport what the value is of contracts awarded by the *(a)* London Development Agency and *(b)* Transport for London for the 2012 London Olympics; and what proportion of contracts have been awarded to black and ethnic minority businesses. [54758]

Mr. Caborn: Two contracts have been let by the London Development Agency (LDA) up to the value of £236.8 million. These are for work for undergrounding powerlines and for the Olympic park designers. Both contracts are for specialised services, and were awarded under European Union procurement rules. Neither went to contractors or suppliers who are black, asian and minority ethnic (BAME) owned. Transport for London has not let any contracts that solely relate to the 2012 games.

Government, the Mayor and the LDA are keen to ensure that London and UK businesses, including BAME led businesses, are successful in accessing contracting and subcontracting opportunities associated with the Olympics.

The LDA is establishing BAME and SME training programmes to ensure these businesses have the requisite skills to bid for contracts.

Princess Diana Memorial Fountain

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the total cost of repairing the cracks in the Princess Diana Memorial Fountain; and if she will make a statement. [54661]

Tessa Jowell: Two types of cracks have appeared in the Diana Princess of Wales Memorial Fountain, but they pose no threat to the integrity of the structure. The Royal Parks Agency will continue to monitor the situation, but no remedial action is anticipated.

The memorial is constructed of 545 blocks of Cornish granite dowelled into a reinforced concrete foundation.

Watermarks, or natural colour seams, have appeared in three of the slabs of granite.

Hairline cracks have appeared in the grouted joints between some of the blocks, but the structure is designed to tolerate the natural movement which has caused this. The cracks do not extend to the stonework and do not affect the waterproofing of the structure, which is ensured by a compressible seal beneath the joints.

To combat the wear and tear of regular pressure washing and natural weathering, it will be necessary to replace up to five metres of grout on the memorial annually at a cost of around £1,000. This work will be done during the annual maintenance shutdown in November.

Sports Funding

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how much was made available for high performance sports from *(a)* lottery funding and *(b)* central Government to (i) UK Sport, (ii) Sport England and (iii) the Northern Ireland Sports Council in (A) 2004–05 and (B) 2005–06. [58289]

Mr. Caborn: Lottery and exchequer funding made available for high performance sport during the period 2004–05 and 2005–06 was as follows:

	2004–05	*2005–06*
UK Sport Lottery	14,295,797	16,203,884
UK Sport Exchequer	16,149,395	15,421,611
Sport England Lottery	44,125,089	35,900,000
Sport England Exchequer	3,000,000	4,000,000

For UK Sport, lottery funding was primarily distributed to high performance sports through the World Class Performance Programme. Exchequer funding was allocated to the World Class Operations Programme and Elite Coaching.

For Sport England, Exchequer funding was allocated to the Talented Athlete Scholarship Scheme. Lottery funding was allocated to the English Institute of Sport and to the high performance element of the National Governing Bodies' Whole Sport and one Stop Plans. In addition to the above figures, UK Sport has distributed Exchequer funds of £2,028,010 in 2004–05 and £726,500 in 2005–06 to help modernise National Governing Bodies.

The Department for Culture, Media and Sport has no responsibility for distributing funds to the Sports Council for Northern Ireland. Exchequer funding for the Sports Council for Northern Ireland is allocated by the Northern Ireland Department of Culture, Arts and Leisure and it also receives 2.6 per cent. of sport's share of the national lottery.

Television Licence

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport what plans she has to change the arrangement whereby parliamentary and Government offices do not need a television licence for each set used in office and estate buildings. [57196]

James Purnell: The television licensing legislation makes no specific provision in relation to parliamentary or Government offices, but it is a principle of constitutional law that an Act of Parliament does not bind the Crown unless and to the extent specified in the Act. I understand that the BBC as licensing authority takes the view that the installation and use of television sets by servants or agents of the Crown for official purposes does not require a television licence. The Government have no plans for any legislation to change this.

Mr. Gregory Campbell: To ask the Secretary of State for Culture, Media and Sport how many instances of *(a)* physical assault and *(b)* criminal damage were carried out on personnel investigating television licence fee evasion in Northern Ireland in 2005. [58066]

James Purnell: The BBC has statutory responsibility for the administration of the television licensing system and TV Licensing carries out the day to day administration under contract to the Corporation. I have therefore asked the BBC's head of revenue management to consider the questions raised by the hon. Member and to write to him direct. Copies of the reply will be placed in the Libraries of both Houses.

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport how much has been collected in television licence fees in 2005–06 from Coventry, South. [57268]

James Purnell: TV Licensing, who administer the television licensing system as agents of the BBC, are not able to provide geographical breakdowns of TV licence fee revenue. However, the UK figure for the financial year 2004–05, which is the last audited figure, shows that the revenue generated was £2,940.3 million.

Tourism

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact on the tourism industry of staging *(a)* cultural events and *(b)* sporting events. [57244]

James Purnell: Cultural and sporting tourism are vital elements of the UK's domestic and inbound tourism offers, and are prominent in the marketing and promotional material of organisations which support British tourism at national, regional and local levels.

At national level, cultural and sporting events are central to the work of VisitBritain, both in overseas markets, and in marketing England domestically under the guidance of the England Marketing Advisory Board. A wide range of cultural events are promoted in this way. VisitBritain estimates that 1.6 million overseas visitors to Britain either watched or participated in a sporting event in 2002, spending £1.1 billion during their stays, and the high profile of sport in VisitBritain's marketing work reflects that economic importance.

The London Olympic Games and Paralympic Games in 2012, and the wide range of cultural events which will precede them, will of course provide further opportunities for the British tourism industry. Plans for making the best use of such events for the benefit of the visitor economy will form an important element of my Department's Tourism 2012 strategy. A wide public consultation on that strategy will commence shortly.

Treasure

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the effect of finds liaison officers on the level of reporting of treasure finds since 2003; and if she will make a statement. [57733]

Mr. Lammy: The portable antiquities scheme plays a major role in supporting the Treasure Act through its network of finds liaison officers. It is largely down to their work that we have seen a substantial rise in the reporting rate of treasure finds.

In areas where a finds liaison officer was appointed for the first time in 2003, there was an average fivefold increase in the number of treasure finds reported in the following reporting year. This has contributed to a continuing upward trend of a twofold increase for England and Wales as a whole since 2003.

INTERNATIONAL DEVELOPMENT

Afghanistan

Tony Baldry: To ask the Secretary of State for International Development pursuant to the oral answer of 1 March 2006, *Official Report*, column 243, on Afghanistan, if he will list his Department's proposed development partners in Helmand. [56845]

Mr. Thomas: Through DFID support, the Government of Afghanistan's National Programmes will extend their reach in Helmand. Those programmes that are already active in the province are only active in certain districts. The National programmes operate by engaging implementing partners to deliver their programmes on the ground. As we have not yet identified which of these National Programmes we will support, it is not possible to identify the implementing partners we will be indirectly supporting. However, the Bangladesh Rural Advancement Committee (BRAG) and Mercy Corps are ready to start work under the Microfinance Investment Services Facility for Afghanistan (MISFA). BRAG is also an implementing partner for the National Solidarity Programme in Helmand. It is possible DFID will fund both of these programmes through its planned rural development programme in Helmand.

We are also working with a number of organisations that specialise in community outreach and livelihood development. These are: The Tribal Liaison Office; Islamic Relief—UK; Afghanistan Reconstruction and Planning Department; Afghanistan National Construction Co-ordination and the Southern Afghanistan Development Association.

Tony Baldry: To ask the Secretary of State for International Development pursuant to the oral answer of 1 March 2006, *Official Report*, column 243, on Afghanistan, what conditions must be met before he considers that it will be safe for officials from his Department to work in Helmand. [56848]

Mr. Thomas: DFID has a duty of care to all its employees and careful consideration is given to their safety and security. For DFID staff to be deployed to Helmand, a number of mandatory security arrangements will need to be in place. At a minimum these security arrangements will match those provided by other Government Departments involved in the civilian deployment to Helmand.

For all staff working in Afghanistan, DFID already has stringent security procedures in place. All DFID staff must comply with these at all times. Any staff deployed to Helmand would also be subject to these procedures. These include mandatory hostile environment training; briefing packs prior to arrival containing security advice and details of evacuation procedures; professional security briefing on arrival in Afghanistan; protected accommodation; armoured vehicles with armed protection; provision of close protection for medium and high risk movements; and a location notification system which tracks all staff movement 24 hours per day. In the event of an emergency, DFID also has access to International Security Assistance Force and Coalition forces military assistance. An on-going risk assessment is in place to ensure that these procedures continue to be both appropriate and adequate.

Tony Baldry: To ask the Secretary of State for International Development pursuant to the oral answer of 1 March 2006, *Official Report*, column 243, on Afghanistan, who will decide whether the security situation in Helmand enables his Department and its development partners to work safely on the ground. [56852]

Mr. Thomas: Based on advice from a number of sources, including the Foreign and Commonwealth Office (FCO) Security Management Directorate Overseas Security Adviser, the DFID Permanent Secretary will decide whether security permits deployment of DFID staff in Helmand province. We recognise the responsibility to share information with development partners to enable them to minimise security related risks, but the final decision on their deployment to Helmand must lie with development partners themselves.

Tony Baldry: To ask the Secretary of State for International Development how many UK-based staff he expects will work in Helmand over the next five years. [56864]

Mr. Thomas: UK deployments to Helmand are part of a comprehensive NATO-led package. Decisions on timing are still being considered, but I anticipate initial deployment of a full time DFID Development Adviser and the short-term deployment of up to four technical specialists from the Post Conflict Reconstruction Unit. Decisions about future deployment will be dependent on assessments of the operating environment, particularly regarding security. We also expect regular visits to Helmand from DFID staff working in our office in Kabul.

Afghanistan/Iraq

Keith Vaz: To ask the Secretary of State for International Development which non-governmental organisations the UK funds which operate in *(a)* Afghanistan and *(b)* Iraq; and how much funding has been allocated for these activities in each of the last four years. [54763]

Hilary Benn: DFID is currently funding non-governmental organisations (NGOs) in Iraq through two principal mechanisms: the Political Participation Fund and the Civil Society Fund.

The £5 million Iraq Civil Society Fund (CSF) supports projects that strengthen the capacity of Iraqi civil society organisations through partnerships with international NGOs. Projects funded include building women's leadership capacity, training for Iraqi trade union leaders, developing child rights, social work training and education about the risks of mines.

Support has been given to Christian Aid, Save the Children (UK), Mines Advisory Group (MAG), Help Age International, Women for Women International, Salvation Army, International Centre for Trade Union Rights, UNISON and the Women's National Commission. These partners have, in turn, supported a range of Iraqi partner organisations.

The £7.5 million Political Participation Fund (PPF) provides grants to grass-roots Iraqi civil society organisations to enable potentially marginalised groups to participate in the political process. Projects funded include an NGO conference, human rights conference attended by Ann Clwyd MP, campaign to encourage women to register for the elections, media, elections training, and campaigns and workshops on the constitution and referendum. Under the PPF, the international NGOs we have supported are AMAR, Arab Gulf Studies Centre, Institute of War and Peace Reporting (IWPR), and the Irish Human Rights Network.

We are also providing funding directly to:

BBC World Service Trust, to strengthen independent TV and radio broadcasting in southern Iraq

ILAC, to support development of the Iraqi justice sector

Prior to 2004, DFID provided long term project support to AMAR, ACORN, CARE, Christian Aid, and Save the Children (UK) for their work in Iraq. Immediately after the conflict in April 2003, we provided emergency humanitarian support through ACTED, AMAR, CARE, 4RS, GOAL, Help Age International, International Medical Corps (IMC), MedAir, Merlin, Mines Advisory Group (MAG), Muslim Hands, People in Need Foundation, Save the Children (UK), Solidarities, and War Child. We also contributed £28.5 million to the International Red Cross for their humanitarian appeals during 2003–05.

The following table shows our disbursements to NGOs in Iraq during the last four financial years:

£ million

	2002–03	*2003–04*	*2004–05*	*2005–06*[1]
Long Term NGO Project Support	2.4	0.7	0.7	0.4
Emergency NGO Humanitarian Assistance	—	4.4	1	0.2
Civil Society Fund (CSF)	—	—	2.1	1.7
Political Participation Fund (PPF)	—	—	1.7	1
BBC-WST	—	—	1.6	2.5
ILAC	—	—	1.4	0.6
International Red Cross Appeals	1.5	17	10	—
Total	3.9	22.1	18.5	6.4

[1] To date.

DFID are funding the following NGOs which operate in Afghanistan:

Aga Khan Foundation

Afghan Aid

Halo Trust

Tearfund

WOMANKIND

Afghan Action

Human Rights Council

BBC World Service Trust

CEDAW

Action Aid

Afghan's Women's Council

Afghan Civil Society Forum

Concern

DACAAR,

Relief International

Mercy Corps,

Catholic Relief Services,

Swiss Peace

Co-ordination for Humanitarian Assistance

The following table provides figures for bilateral funding provided by DFID to non-governmental organisations working in Afghanistan in each year since 2001.

£ million

2001–02	22.5
2002–03	5.8
2003–04	2.5
2004–05	5.5
2005–06	5.8

DFID also provides multilateral funds to non-governmental organisations through Partnership Programme Agreements (PPAs). PPAs are long-term agreements of three to five years with civil society organisations who have a strong track record of work in international development and an ability to make a contribution to achieving the Millennium Development Goals.

As PPA funds are unearmarked, we cannot directly attribute funding to specific activities or countries. OXFAM, ActionAid, Christian Aid, and Save the Children UK however all have projects in Afghanistan and have received a total of £26.4 million this financial year through their Partnership Programme Agreements with DFID.

African Union

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development if he will make a statement on the African Union's work on conflict prevention. [57005]

Hilary Benn: Supporting African leadership on conflict prevention, management, and peace building is the key to long-term success in improving peace and

security in Africa. The African Union (AU)'s Peace and Security Council (PSC) protocol provides the framework for the African Union's work in this area. The 15-member PSC provides political direction and oversight to the AU's work on peace and security. The AU has agreed a Common Africa Defence and Security Policy and has produced a Strategic Plan and Budget (agreed in July and December 2004 respectively) that sets out the priorities in the peace and security agenda until 2007. Key elements include: establishing a Panel of the Wise (PW) of eminent Africans to engage in preventive diplomacy and mediation; an Africa Standby Force (ASF) to give the PSC the ability to undertake peace support operations; and a Continental Early Warning System (CEWS) to inform and advise the PSC on preventive action. The Africa Peer Review Mechanism (APRM) will support AU member states in setting and applying standards to strengthen the links between development, governance and peace and security. The AU is already playing a key role in addressing conflicts on the continent—as evidenced by its work in Burundi, the Democratic Republic of Congo (DRC), the Comoros, the Cote d'Ivoire, Togo and Sudan.

UK funds and activities have focused on supporting four priority areas essential for putting this system into place—support to the Conflict Management Centre in the Peace and Security Directorate of the AU Commission, help in operationalising the Africa Standby Force, funding and technical support to AU peace support operations, and support to the development of the AU's Continental Early Warning System. We have also provided financial and practical support to the African Union mission in Darfur.

Mr. Hepburn: To ask the Secretary of State for International Development which 10 countries received most in aid from the UK in each year since 1997; and how much each received. [57213]

Hilary Benn: The following table details the top 10 recipients of bilateral Official Development Assistance (ODA) from the UK in each year since 1997 along with the amount each country received:

Table 1: Top ten recipients of UK bilateral official development assistance

Burma

Mr. Hancock: To ask the Secretary of State for International Development what HIV/AIDS projects in Burma are supported by the British Government. [54646]

Mr. Thomas: DFID supports work on HIV/AIDS in Burma through the UN-managed, multi-donor Fund for HIV/AIDS in Myanmar (FHAM), to which DFID is the main contributor (at £10 million over three years from 2004 to 2006). I shall arrange for copies of the latest progress report, entitled Joint Programme for HIV/AIDS in Myanmar Progress Report 2003–2004 and Fund for HIV/AIDS in Myanmar (FHAM) Annual Progress Report April 2004 to March 2005, which includes a full list of the fund's activities, to be placed in the Libraries of the House.

Chernobyl

Mr. Stewart Jackson: To ask the Secretary of State for International Development what *(a)* financial and *(b)* other assistance his Department has given in the last 12 months to the Government of Ukraine to ameliorate the health and other problems experienced by families as a consequence of the Chernobyl nuclear power plant accident; and if he will make a statement. [57281]

Hilary Benn: DFID has provided assistance to those affected by the Chernobyl nuclear power plant accident through our share of the nuclear safety component of the European Community's (EC) Technical Assistance to the Commonwealth of Independent States (TACIS) programme. This provides assistance to 12 countries in Eastern Europe and central Asia (in 2005 the UK's share of EC external assistance was 17.06 per cent.). The 2005 programme includes €17.9 million for Ukraine. Its main aim is to attain the highest level of nuclear safety, including the management of the Chernobyl site. In addition the programme includes €1.5 million for restarting previous agriculture activities and creating new jobs for those in the areas affected by the accident.

DFID has not provided bilateral support for this specific purpose. However, other UK Government Departments have provided assistance bilaterally, as well as through the European Community, to the Government of Ukraine and to neighbouring countries to help to address the health and other problems experienced by families as a consequence of the accident at Chernobyl. Details of this assistance can be found in "The Global Partnership—Progress during 2005 on the UK's programmes to address nuclear, chemical and biological legacies in the Former Soviet Union (URN 05/373)".

Copies are available in the Libraries of the House and/or can be downloaded from www.dti.gov.uk/energy/nuclear/FSU/index.shtml.

Democratic Republic of Congo

John Bercow: To ask the Secretary of State for International Development what representations he has received on child abuse by religious sects in the Democratic Republic of Congo. [55402]

Hilary Benn: The Government are concerned by reports from non-governmental organisations (NGO)s and the media, that children in the Democratic Republic of Congo (DRC) and elsewhere are being accused of 'sorcery' and then abused by members of revivalist churches. These reports indicate that the accused children, usually from impoverished families, are physically or mentally abused in order to 'cleanse' them of evil spirits.

As part of our Presidency of the European Union, the UK led an initiative to raise awareness of the problem of so-called 'child witches' in the DRC, and we continue to push the Congolese government for action in protecting these children as well as other vulnerable groups.

John Bercow: To ask the Secretary of State for International Development what steps are being taken by his Department to assist children who are abused as witches in the Democratic Republic of Congo. [55403]

Hilary Benn: The UK has frequently reminded the Congolese authorities of the need to protect vulnerable groups, including children accused of sorcery. As part of our Presidency of the European Union, the UK led an initiative to raise awareness of the problem of so-called 'child witches' in the Democratic Republic of Congo (DRC). Along with our EU partners, DFID will continue to work with civil society groups, established churches and the Congolese government and to push for further action to address this problem and bring those who abuse children to justice. The British Embassy in Kinshasa's Small Grants Scheme has also supported local organisations providing direct support to children accused of sorcery.

Departmental Staffing

Mr. Llwyd: To ask the Secretary of State for International Development how many jobs in his Department have been relocated to Wales since 2001. [57692]

Hilary Benn: None.

Disaster Relief

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps have been taken by his Department to ensure a rapid and efficient delivery of acute phase relief in disaster relief operations. [57016]

Mr. Thomas: DFID is a leading donor in the provision of disaster relief. We have a dedicated humanitarian response team, including an immediate operational capacity ready to deploy 24 hours a day, 365 days a year, with specialists, equipment and supplies as required. Our procedures and funding mechanisms are streamlined and rapid. This delivery capacity has been tried and tested successfully in many such disasters over the years, including the Asian tsunami in 2004–05 and the Pakistan earthquake in 2005.

For example, in Pakistan DFID gave considerable support for helicopters to help ensure relief items reached remote areas quickly, including three Chinook helicopters through the Ministry of Defence from 26 October until 28 November 2005, £1 million to the World Food Programme (WFP) for helicopters, logistics support, vehicles, and coordination and £1.7 million to the United Nations Humanitarian Air Service (UNHAS) for helicopters. We also contracted four helicopters as part of a £5.5 million package of support to the UN.

In addition to helicopters, DFID channelled a further £10.8 million through United Nations agencies in Pakistan and provided experts and other support to the UN to help fill critical gaps in their capacity, including vehicles and equipment.

DFID also helped the transportation of relief supplies for the UK Disasters Emergency Committee by providing 78 relief flights.

We have also taken a lead in improving the international response. On 9 March, my right hon. Friend the Secretary of State for International Development joined Kofi Annan in New York to announce the launch of the new Central Emergency Response Fund (CERF): $193 million to enable the UN to respond more rapidly in the critical early phases of humanitarian disasters. DFID has been a leading proponent of this new measure and is the largest single contributor at $70 million (£40 million) a year.

Farmers (Africa)

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what programmes his Department funds to promote the commercial competitiveness of small-scale African farmers. [57011]

Hilary Benn: Promoting commercial competitiveness of small-scale farmers is critical to boosting growth and poverty reduction in Africa. Action is needed in three key areas: improving policies and public spending in support of small-scale farming; developing the business environment and infrastructure, particularly in rural areas, so that markets function more effectively for small farmers; and improving the productivity of agriculture and access to markets. DFID supports programmes in all these areas.

For example, in Uganda, Kenya, Rwanda, Ghana and Nigeria, we are helping governments to improve agricultural policy and public spending. This will help ensure that government and donor funds are more effectively used for agricultural development.

DFID supports a range of programmes to develop the business environment which help improve commercial competitiveness of small-scale farmers. We are providing $30 million to the Investment Climate Facility as an important part of this. DFID has helped improve rural infrastructure in several countries including Ghana, Nigeria and Sierra Leone, bringing farmers closer to markets.

DFID also supports the Business Linkages Challenge Fund, which for example, provided a grant of £290,000 to the Great Lakes Cotton Company and Clark Cotton in Malawi (which drew in a private sector contribution of £1,319,000) enabling them to set up new and sustained business relationships with more than 180,000 smallholder farmers.

DFID has been at the forefront of pushing for a fairer world trading system and for an ambitious, development-focused outcome of the Doha Development Round of World Trade Organisation (WTO) negotiations. Ending cotton subsidies would increase world prices by between 10 and 30 per cent. bringing benefit to many small-scale farmers in West and Central Africa. DFID has provided trade negotiation support to the group of Least Developed Countries (LDC) and its Chair (Zambia). DFID is also working with major UK, European and Southern African food retailers, small producer organisations and standard setting bodies to find ways of improving African producers' access to high value export markets.

DFID support to agricultural research and development in Africa through international and sub-regional research organisations is another important contribution to boosting agricultural productivity and increasing the gains to small-scale farmers from their investments. Some £140 million is being provided for this over the next five years.

Fast Track Initiative

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of the Fast Track Initiative in mobilising funding for African nations. [57003]

Hilary Benn: Current African countries supported under the Fast Track Initiative (FTI) framework include Burkina Faso, Guinea, Madagascar, Niger, Djibouti, Mauritania, Ethiopia, the Gambia, Kenya, Mozambique, Ghana, and Lesotho.

The FTI has clearly helped additional resources to flow into FTI countries. On average, these countries have seen an increase of 43 per cent. in external financing for basic education within the first year of joining FTI. More importantly, the FTI is having a positive impact on external financing for low income countries as a whole.

G8 partners are committed to continue to support the FTI, particularly Africa. We have increased our support to the FTI to £50 million over the next three years and the United States Government have announced US$62 million for education in FTI countries in Africa. We have urged other G8 countries to increase their support for education within the FTI framework, either directly through the Catalytic Fund or by increasing their support for education in FTI countries.

Gun Trade

Anne Snelgrove: To ask the Secretary of State for International Development what assessment his Department has made of the impact of the trade in small guns on developing countries. [56554]

Mr. Thomas: The Government recognise the devastating effect that the uncontrolled proliferation of Small Arms and Light Weapons (SALW) has on developing countries. Preventing the illicit trade in SALW is crucial to dealing with the problem. Furthermore, most illegally-held arms begin their lives as legal exports. In combating the illicit trade it is therefore vital to regulate the licit trade.

Over the last two years, DFID, the Foreign and Commonwealth Office (FCO) and the Ministry of Defence (MOD), under the SALW strategy of the Global Conflict Prevention Pool (GCPP), have supported the following work:

- Research into the effects of armed violence and arms availability on poverty.
- Building political consensus for the development of tighter controls on government-authorised transfers of SALW.

The research found the impact of armed violence and arms availability on development to be complex and multi-faceted. It is clear that the global arms trade tends to divert resources away from economic growth and development and that irresponsible arms transfers increase human insecurity and the risk of violent conflict.

Armed violence has had negative impacts in terms of displacement, damage to education, health, and agriculture, and the impoverishment of large sections of communities and populations. For example:

- In almost all the internal conflicts examined, gross domestic product (GDP) declined under the impact of armed violence;
- High levels of armed violence in cities exacerbate economic inequality and social exclusion;
- Armed violence creates cycles of insecurity that are hard to break, and which have long-term poverty implications;
- In situations where armed violence persists, an alternative economy develops. Such patterns, including trafficking in drugs, conflict minerals and arms are difficult to reverse.
- High levels of armed violence damage good governance and democracy by strengthening the hand of criminal elements and corrupt politicians.

The UK has been working to build support for stronger controls on the transfers of SALW. We have built support from the ground up, through regional workshops and bilateral consultations. Supported by a growing number of states and civil society organisations, we are pushing for agreement on commonly accepted standards to guide transfers of SALW. We are doing so within the framework of the UN Programme of Action (PoA) on the Illicit Trade in Small Arms, which is due to be reviewed this summer. We also support calls for a negotiated, legally-binding Arms Trade Treaty, covering all conventional weapons.

Health Care (Africa)

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what measures have been taken towards his Department's target of 67 per cent. of births in Africa being assisted by skilled birth attendants by 2006. [57001]

Hilary Benn: DFID recognises the importance of skilled attendants at birth to prevent deaths and injury of mothers and children. The 2004 DFID strategy Reducing Maternal Deaths: Evidence and Action

highlights that skilled attendants can only work effectively within a functioning health service with a proper network of services and referrals that is accessible to all women. Therefore, DFID's approach is to support country Governments in their efforts to develop their overall health services including access to skilled attendants for women giving birth.

The UK invests substantially in helping countries in sub-Saharan Africa develop their health services; for example, we support international groups such as the World Health Organisation (WHO) and United Nations Population Fund (UNFPA), provide direct support to country Government's overall and health budgets, and fund some targeted projects. We also fund a lot of operational research.

In addition to supporting Government health plans, DFID also invests in programmes tackling specific issues. The shortage of health care workers in many African countries is a barrier to improving access to skilled birth attendants. In Malawi, where the shortage is particularly severe, we are supporting the Government's ambitious plans to tackle the problem. DFID is providing £100 million to the Malawian health sector—£55 million of which is earmarked for the emergency human resources programme which aims to improve recruitment and retention of health workers.

DFID is committed to a year on year increase in spending on maternal health. DFID's bilateral expenditure (excluding spend through general poverty reduction budget support) on programmes marked as contributing towards improving maternal health has increased by 34 per cent. over the last three years (and by 41 per cent. if reproductive health services which contribute to reducing maternal mortality are included).

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what representations he has made to the governments of African countries on increasing the priority given to health care. [57002]

Hilary Benn: The average spend on health in many developing countries in Africa is well below the $35–40 per capita that the World Health Organisation (WHO) recommend is necessary for essential health services. That is why the UK Presidencies of the G8 and EU last year focused on increasing the amount of aid provided to support African plans for poverty reduction, including for improving health services. G8 countries committed to provide an additional $25 billion by 2010 and to support the removal of health user fees where countries wish to do so. African countries, for their part, committed to increase domestic resources channelled to development and develop long-term plans, including for health.

DFID helps countries to strengthen their health services both through financial assistance and discussions about budget support with partner governments covering the priorities given to health in budget allocation.

During my recent visits to Kenya, the Democratic Republic of Congo (DRC), Burundi, and Rwanda I discussed the importance of prioritising health care. Through visits to clinics in Kenya and Ethiopia earlier this year, I saw for myself how these governments are trying to tackle health care challenges.

HIV/AIDS

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of his Department's work to reduce HIV/AIDS in *(a)* Sierra Leone, *(b)* the Mano River region and *(c)* the whole of Africa; and if he will make a statement. [57014]

Hilary Benn: HIV/AIDS is a serious problem and DFID is working hard with African country Governments and international agencies to tackle it. In 2004, "Taking Action: The UK Government's Strategy for Tackling HIV and AIDS in the Developing World" was launched. An interim evaluation of implementation of the strategy is underway but results are not yet available. During 2006, reports will be produced, including a mapping of UK Government programmes on HIV and AIDS, a working paper on reaching women, children and vulnerable groups, and country case studies. This interim evaluation will provide preliminary indications of progress.

In Sierra Leone, DFID's focus is on improving governance and security, both of which impact on the causes and effects of HIV and AIDS. In addition, DFID helps organisations in Sierra Leone to raise awareness in young people about HIV and AIDS issues and improve access to condoms. Annual reviews show that knowledge of HIV and AIDS among young people is impressive.

In the broader Mano River region, DFID does not have full development programmes in either Guinea or Liberia, but does provide humanitarian assistance to both these countries. However, both countries have accessed funding through the Global Fund to fight AIDS, TB and Malaria (GFATM)—$9.6million to Guinea and $7.6 million to Liberia. DFID has committed £359 million until 2008 to GFATM and supports the secretariat in the development of performance measures to better demonstrate its results and improve its effectiveness.

DFID is continuing to support improvements to funding and international co-ordination of HIV and AIDS control. For example, we have doubled our financing to the Joint United Nations programme for HIV/AIDS (UNAIDS) to support progress on the Global Task Team and are co-chairing the Global Steering Committee on Scaling Up towards Universal Access which will be of benefit to all poor countries including those in West Africa. DFID has committed to spending £1.5 billion to support AIDS work between 2005 and 2008.

Iraq

Mr. Rob Wilson: To ask the Secretary of State for International Development whether the Department has incurred costs for employing private security companies in Iraq since April 2003. [56420]

Hilary Benn: From April 2003 to 28 June 2004, DFID employed two private security companies to provide security support for our programme in Iraq. The total cost to DFID was £5.6 million in 2003–04 and £2.7 million in 2004–05. Since 29 June 2004, the Foreign and Commonwealth Office (FCO) has managed life support provision centrally for all UK Departments

working in Iraq. This life support includes security support contracts, as well as other costs such as vehicles, building work, food and accommodation for UK personnel. Each Department then reimburses the FCO for its share of the cost. DFID's share of these life support costs is estimated at £23 million in 2004–05 and £28 million in 2005–06. Without the close protection provided by private security companies, it would be impossible for DFID staff and contractors to carry out much of our work in Iraq; for example, visiting Ministries and projects outside the secure compounds in Baghdad and Basra.

Kenya

Mr. MacDougall: To ask the Secretary of State for International Development what measures are being taken to provide aid for the people in areas of Kenya affected by famine. [57737]

Hilary Benn *[holding answer 10 March 2006]:* Last week I increased our commitment by a further £15 million of humanitarian assistance as an emergency response to drought-hit parts of Kenya. This brings the total UK contribution to areas of Kenya affected by famine to £29.7 million since the start of the crisis in July 2004.

The funding is channelled mainly through the UN bodies, particularly the World Food Programme and UNICEF, as well as non-governmental organisations. Two thirds of these resources are for the targeting and distribution of food aid to those most in need, channelled through the UN.

DFID is also working with others to tackle the long term causes of chronic hunger and poverty in the region. We are in discussion with the Government of Kenya and with the UN on how to do this. Safety nets programmes for example, are being developed to deliver timely, adequate and predictable transfers of food or cash to those who were formerly dependent on food aid.

Lesotho

Ian Lucas: To ask the Secretary of State for International Development what recent assessment he has made of the availability of anti-retroviral drugs in Lesotho. [56237]

Hilary Benn: In the last quarter of 2005, DFID provided both financial and technical assistance to the National AIDS Secretariat to undertake a review of the HIV/AIDS response in Lesotho. That report is not yet public, but the information provided as follows is taken from it.

Anti-retroviral treatment (ART) started in Lesotho in 2002. There are now 15 sites across the country. The Government run 11 of those sites and the Christian Health Association of Lesotho (CHAL) manages four. By September 2005, there were 3,448 people receiving treatment. The private sector does provide treatment, but there is no reliable data available. There is similarly no data for the number of children receiving treatment.

Services are provided free through the public sector, though there is a charge of 10 Maluti (roughly equivalent to £1.00) for registration. There is significant demand for care and no apparent stigma or discrimination limiting uptake of services. Overall financing for the ART programme is relatively secure, primarily through resources provided by the Global Fund for AIDS, TB and Malaria.

Major challenges to increasing access to treatment include the generally weak health infrastructure (per capita public health expenditure is in the region of £16.00) and a shortage of skilled health personnel in key elements of the ART programme. The World Bank and Development Co-operation Ireland are working to address these issues through their support to the Department of Health.

Madagascar

Ben Chapman: To ask the Secretary of State for International Development (1) what responsibilities for development in Madagascar he has taken over from the Small Grants Scheme since its discontinuation; [56700]

(2) what forms of bilateral development assistance were provided to Madagascar prior to the announcement of the decision to close the British embassy there; [56860]

(3) what provisions were made for the continuation of bilateral development assistance to Madagascar when the decision was taken to transfer responsibility for the administration of the Small Grants Scheme to the Foreign Office. [56761]

Hilary Benn: I refer my hon. Friend to the response I gave on 30 January 2006; *Official Report*, column 13W.

DFID does not have a bilateral development programme with Madagascar, nor did it have one prior to the transfer of the Small Grants Scheme to the Foreign and Commonwealth Office. Our support is channelled through multilateral agencies, primarily the World Bank, European Commission and UN agencies.

Mano River Region

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development how much aid the United Kingdom provides to the Mano River Region countries; and what assessment he has made of the extent to which these countries are complying with the conditions of their debt relief packages. [56266]

Hilary Benn: In 2004–05, the UK provided a total of £36 million in bilateral assistance to countries in the Mano River Region. This comprised £27 million to Sierra Leone, £8.4 million to Liberia, and £200,000 to Guinea. The UK also provides assistance through multilateral agencies (European Commission, World Bank and UN agencies) to these countries. For 2003 (the most recent year for which data is available) the UK's share of this contribution through these agencies totalled £15.8 million (£6.3 million to Sierra Leone, £1.7 million to Liberia, and £7.8 million to Guinea).

Sierra Leone, Liberia and Guinea are Heavily Indebted Poor Countries (HIPC) and are eligible for debt relief through the HIPC Initiative. Sierra Leone and Guinea are currently receiving interim debt relief and are progressing towards HIPC Completion Point, when they would receive irrevocable debt stock cancellation. Liberia is in arrears in its payments to the World Bank and has yet to receive interim debt relief because progress under the HIPC Initiative has been

hampered to date by conflict and governance concerns. We anticipate that Liberia will start to make more rapid progress through HIPC under its new government.

Because Sierra Leone has established a track-record of macroeconomic stability under its International Monetary Fund (IMF) programme and is implementing a full poverty reduction strategy it is expected to reach Completion Point by the end of 2006. Guinea is also making good progress on its IMF Staff Monitored Programme and could reach Completion Point in late 2006 or early 2007.

Media Training

Mr. Laws: To ask the Secretary of State for International Development how much has been spent by his Department on media training in each year since 1997–98. [55220]

Mr. Thomas: DFID began media training for senior staff in 2005–06. Final figures for this year are not yet available.

Pakistan

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what progress has been made in establishing the Regional Health Emergency Response and Disaster Management Centre in Islamabad. [56986]

Mr. Thomas: Since the 8 October 2005 earthquake, the Pakistani authorities have made disaster management and disaster risk reduction a high national priority. The Pakistan Government recently announced the establishment of a National Disaster Management Authority (NDMA) and National Disaster Management Commission (NDMC). The NDMA will have sub authorities at provincial and district level, to respond to regional emergencies.

Immediately following the earthquake, a Disaster Management Cell was established at the Federal Ministry of Health in collaboration with the Federal Relief Commission and the World Health Organisation (WHO). DFID provided £1,130,000 to the WHO to support this. The cell co-ordinated and managed surveillance of diseases and any responses required. It successfully detected disease outbreaks and averted life-threatening epidemics, learning important lessons from the Tsunami.

Building on this, the Ministry of Health now has capacity for rapid response to disease outbreaks and epidemics throughout the country.

Queen's Birthday

Anne Main: To ask the Secretary of State for International Development what plans his Department has to celebrate Her Majesty's 80th birthday; what advice he has issued to his Department's executive agencies on celebrations for the birthday; and if he will make a statement. [54193]

Mr. Thomas: The Department for International Development (DFID) will be marking Her Majesty's 80th birthday by placing a notice for staff attention on its intranet. It will be encouraging staff in its country offices overseas to take part in celebrations organised by the Foreign and Commonwealth Office. The Union flag will be flown from the Department's headquarter office in Scotland on 21st April. DFID's headquarters offices in London do not have provision for flag flying.

School Twinning

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development if he will make a statement on his Department's work in twinning UK schools with schools in developing countries. [57010]

Mr. Thomas: DFID funds a school linking programme, "DFID Global School Partnerships", with an overall budget of £3.2 million over three years. This is administered on DFID's behalf by a British Council led consortium.

The programme promotes partnerships between schools in the UK and schools in Africa, Asia, Latin America and the Caribbean. It provides advice and guidance, professional development opportunities and grants to schools that are using partnerships as a means to develop and embed a global dimension within their curriculum.

The DFID Development Awareness Fund also supports school linking projects.

Sierra Leone

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of his Department's projects to reform the Sierra Leonean *(a)* armed forces, *(b)* police and *(c)* security services. [57006]

Hilary Benn: Since 1999 the UK, through the cross-Whitehall (the Ministry of Defence (MOD), the Department for International Development (DFID) and the Foreign and Commonwealth Office (FCO) Africa Conflict Prevention Pool (ACPP), managed by DFID, has provided in the region of £8 million of support to the Republic of Sierra Leone Armed Forces (RSLAF), the Ministry of Defence (MOD), and the Office of National Security (ONS) through the Sierra Leone Security Sector Reform Project (SILSEP).

The SILSEP has been complemented by a parallel programme of support to the Sierra Leone Police (SLP) through the Commonwealth Community Safety and Security Project (CCSSP). This project has carried out extensive police reform since August 2000. This has resulted in the re-establishment of a more effective and accountable civilian police service which has improved safety and security, and respect for the rights of people, especially the poor.

Confirmation of the effectiveness of the UK's intervention in Sierra Leone was the decision by the UN Security Council to withdraw the UN Peacekeeping Force (UNAMSIL) at the end of 2005. This decision was made on the basis that the SLP and the RSLAF were able to assume responsibility for protecting the country from threats to internal and external security. This is an endorsement of the progress made in reforming both institutions. No security problems have been reported since UNAMSIL's withdrawal.

The SILSEP and the CCSSP are subject to DFID's standard internal performance management processes, which include annual and end of project reviews. The most recent assessment of the SILSEP programme undertaken in October 2005, concluded that the project continues to be successful and recommended that enhanced ownership should continue to be transferred to the institutions themselves, but that greater participation of civil society institutions on security related matters should be encouraged.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what proportion of the people of Sierra Leone is classed as living in poverty. [57012]

Hilary Benn: The Sierra Leone Integrated Household Survey of 2003–04 (the latest available figures) found that 70 per cent. of the population lived below the national poverty line (Leones 2,111 a day, which is the equivalent of £0.52 a day); and 26 per cent. of the population were found to be living in extreme poverty, defined in terms of a minimum calorific intake of 2,700 calories per day.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what proportion of Sierra Leonean children receive *(a)* primary and *(b)* secondary education. [57013]

Hilary Benn: There is currently little reliable data on enrolment rates for primary and secondary education in Sierra Leone. The following gives some indication of the situation:

According to Ministry of Education data, 1,156,841 children are in primary school. This represents 135 per cent. of the primary age group (6–12 years). It exceeds the group population because includes many older pupils who have returned to school, having missed the opportunity during the civil war. It is estimated that 375,000 children of primary school age are not attending school.

According to the Sierra Leone Information Service data, 133,475 children were in secondary school at the end of 2003.

The following data on gross enrolment rates (percentages) is available for 2003 from the Integrated Household Survey carried out by Statistics Sierra Leone (SSL):

	Location	
	Urban	*Rural*
Primary school[1]		
Male	134	103
Female	144	115
Junior secondary school[2]		
Male	60	14
Female	82	26
Senior secondary school[3]		
Male	47	9
Female	66	13

[1] 6–12 years.
[2] 13–15 years.
[3] 16–19 years.

Sub-Saharan Africa (Health Personnel)

Chris Ruane: To ask the Secretary of State for International Development what help is given to sub-Saharan countries to replace and retrain health personnel recruited from those countries; and which countries *(a)* qualify and *(b)* do not qualify for this aid. [56198]

Hilary Benn: DFID provides most of its support to Africa to 16 focus countries, as outlined in its public service agreement with the Treasury. It is committed to helping country Governments strengthen their health services. Health worker shortages are a complex issue, and go beyond migration and international recruitment. There are both pull factors that attract workers away from where they are needed and push factors that motivate them to leave. That is why DFID is not only working closely with African countries but also with the UK Department of Health on both sides of this issue.

The UK is the only developed country to implement systematic policies that explicitly prevent the targeting of developing countries in the international recruitment of health care professionals. DFID worked closely with the Department of Health to draw up a list of countries, which includes all the sub-Saharan African countries, from which the NHS does not actively recruit. In addition, the Department of Health has brokered a groundbreaking agreement for this code to apply to major players in the UK independent health care sector.

A shortage of workers is a symptom of a health service in crisis. Health workers leave their jobs because of a lack of housing and schools in underserved areas and because of a lack of opportunity for professional career development. This is coupled with poor pay and working conditions which prevent them from doing the jobs they have been trained for, by failing, for example, to provide the required drugs and equipment. All this is exacerbated by HIV/AIDS. Workloads are heavier and health-workers themselves are dying.

The UK invests substantially in health, supporting African country Governments to strengthen their health services and systems. We use a variety of means to do this, either through support to international agencies, direct support to Government budgets, by pooling our funds with other donors or through projects. This is complemented by operational research. For example, in Malawi, where the shortage of health workers is particularly severe, we provide £100 million support for the health sector of which £55 million is earmarked for the Emergency Human Resources programme. This programme focuses on improving recruitment and retention through salary increases for health workers, expanding training capacity; doubling the number of nurses and tripling the number of doctors in training; and using international volunteer physicians and nurse tutors while more Malawians are being trained. The programme is also bolstering human resources planning and management capacity in Malawi's Ministry of Health.

Sudan

Mr. Drew: To ask the Secretary of State for International Development what plans he has to fund political education in the south of Sudan in advance of elections there. [56315]

Hilary Benn: Under the terms of the Comprehensive Peace Agreement, signed on 9 January 2005, free and fair elections shall be held throughout Sudan by mid-2008. We have not yet finalised our plans for assistance to south Sudan in advance of these elections. We are working in close co-ordination with partners to ensure that the international community provides full support, including provision of political education in the south of Sudan in the run up to these elections. We are also beginning a training and capacity support programme for national political parties. The UK is providing £288 million in humanitarian and development assistance to Sudan over the period 2005 to 2008.

Lynne Featherstone: To ask the Secretary of State for International Development if he will make a statement on UK humanitarian aid to Sudan. [57121]

Hilary Benn: Across the whole of Darfur, there are 1.8 million internally displaced people and 3.4 million dependent on humanitarian assistance. The priority is to provide help and protection for them, and to find a political solution that will allow people to return home and rebuild their lives. In the South of Sudan the humanitarian situation remains fragile. Pockets of instability, noticeably in the Upper Nile, Eastern and Western Equatoria, have resulted in continued internal displacement.

Although the massive humanitarian effort in Darfur has had a positive impact on malnutrition and mortality rates, the region remains highly dependant on food aid. Instability, fighting and banditry in South and West Darfur, particularly along the border zone with Chad, is severely hampering humanitarian agencies operating in those areas. Violence and attacks on humanitarian agencies' staff and assets has lead to a reduction in presence, and total withdrawals in some areas, by both the UN and non-governmental organisations (NGOs).

The UK is the second largest donor in Darfur (after the US), providing over £96 million since the crisis started in September 2003. These funds have been channelled through both UN agencies and non-governmental organisations (NGOs) and have meant that thousands of vulnerable people have been provided with shelter, food, water and basic health care. DFID have committed a further £67 million to humanitarian relief in Sudan in 2006–07. As part of this commitment, the UK is providing £40 million to the Common Humanitarian Fund (CHF), a pioneering multi-donor fund, administered by the UN humanitarian co-ordinator. This new mechanism will help enable the UN to react more quickly and more flexible to both identified and unforeseen needs, not only in Darfur but across all of Sudan.

In addition to funding vital NGO humanitarian programmes in the South, the UK is providing financial support to an emergency response fund for the South to deal with emergencies, such as the cholera outbreak. For longer term recovery and development, the UK is establishing the £10 million service delivery fund which we hope will be able to move quickly to support the basic provision of education, health, and water and sanitation. This will act as a bridge to the Multi-Donor Trust Fund while it develops projects for funding to meet longer term development needs.

Mr. Drew: To ask the Secretary of State for International Development what steps the Government are taking to ensure that the aid arising from the pledges of Oslo donors is distributed to all parts of Sudan. [57176]

Hilary Benn: We are using two multilateral instruments to ensure that our aid assistance achieves national coverage. Firstly, we have allocated £40 million to the Common Humanitarian Fund (CHF). This fund is managed by the UN humanitarian co-ordinator, allowing him to fund humanitarian priorities across the whole of Sudan (in 2006 almost 42 per cent. of the CHF was allocated to the South). Secondly, we pledged at the 2005 Oslo donors' conference, a contribution of £47 million to the two World Bank managed Multi-Donor Trust Funds (MDTF) (£23.5 million each). MDTF-National covers the war-affected areas of the North and the three transition zones of Abyei, Upper Nile, and Nuba Mountains; and the MDTF-South is for South Sudan. We have also established a £17.2 million Basic Services Fund which we are using to support non-governmental organisations to provide essential services in education, health and water/sanitation in the most deprived areas of South Sudan before the MDTF-South comes on stream.

Finally, we are turning our attention to the East of Sudan (which has some of the poorest human development indicators in the country) and we have started a £2 million Chronic Poverty Fund, concentrating on Red sea state.

DEFENCE

Afghanistan

Mr. Wallace: To ask the Secretary of State for Defence (1) what British Army units will form the *(a)* in theatre reserve and *(b)* out of theatre reserve for the 16 Air Assault Brigade deployment to Afghanistan in the summer of 2007; [51573]

(2) when he will answer question 51573 tabled on 9 February by the hon. Member for Lancaster and Wyre for named day answer on 13 February. [58188]

John Reid: 16 Air Assault Brigade will deploy in the summer of 2006 as part of the United Kingdom contribution to the NATO-led international security assistance force (ISAF). Provision of reserves for ISAF is the responsibility of NATO. Under current arrangements, ISAF can be reinforced 'over the horizon' by elements of the NATO strategic reserve force (SRF), and although the NATO response force (NRF), which is under UK leadership until July, does not act as a reserve as one of its routine missions, it too could be called upon in extremis to provide support. Theatre level reserves should be provided by allies through the NATO force generation process.

Aircraft Carriers

Ann Winterton: To ask the Secretary of State for Defence whether, following his meeting with the French Defence Minister, consideration is being given to the possible purchase of the Rafale Aircraft as an option to equip the proposed new aircraft carriers; and if he will make a statement. [56498]

Mr. Ingram *[pursuant to the reply, 6 March 2006, Official Report, c. 1183W]:* I referred the hon. Member to an answer I gave on 2 March 2006, *Official Report*, column 1251W. This was incorrect; I should have referred the hon. Member to the answer I gave on 6 March 2006, *Official Report*, column 1192W, to the right hon. Member for Fylde (Mr. Jack).

Counter-insurgency

Dr. Julian Lewis: To ask the Secretary of State for Defence what the training programme is for *(a)* officers and *(b)* other ranks for low-intensity warfare prior to deployment on counter-insurgency operations. [57270]

Mr. Ingram: Military personnel receive the full range of war fighting training as a foundation to which further theatre-specific training is added as required. Counter-insurgency pre-deployment training falls within the wider programme of training undertaken by military personnel embarking on peace support operations (PSO) and is shaped by the requirements of the specific mission. Typically all ranks deploying on PSO will receive pre-deployment training which includes: managing incidents; conducting framework patrolling; training local security forces; conducting anti-riot operations; searching; protecting security bases; protecting convoys; application of rules of engagements; driving theatre specific vehicles; avoiding mines; understanding the local culture; and working with interpreters.

Dr. Julian Lewis: To ask the Secretary of State for Defence what the mechanism is for reconciling British counter-insurgency techniques with those of *(a)* the United States and *(b)* other coalition partners in (i) Iraq and (ii) Afghanistan. [57271]

Mr. Ingram: International forces operating in Iraq and Afghanistan face a range of threats and differing operational environments, and adopt tactics and procedures to suit. The UK works closely with coalition partners in Iraq, and with coalition partners and NATO allies in Afghanistan, to ensure a well co-ordinated and mutually reinforcing approach to operations across each theatre, including counter-insurgency.

Courts Martial

Dr. Fox: To ask the Secretary of State for Defence what the average waiting time was for a case to go to court martial in the *(a)* Army, *(b)* Royal Navy and *(c)* Royal Air Force in 2005. [57472]

Mr. Touhig: The following figures detail the average time for all cases between personnel being charged and appearing at courts martial for each of the three Services in 2005.

Royal Navy—123 Days

Army—307 Days

RAF—56 Days.

The averages shown are heavily affected by individual cases (where for example there may be unusual delays in obtaining evidence) and they obscure wide variations between differing offences.

Defence College of Information Systems

Mr. Ellwood: To ask the Secretary of State for Defence whether the Defence College of Information Systems will remain in Blandford under the Defence Training Review. [57151]

Mr. Touhig: The Defence Training Review Programme is at an advanced stage. Bidders' proposals for both Packages of training have been received and are currently being evaluated. At this competitive phase of the project no comment is possible on any likely use of sites. I can, however, provide assurance that there is an extensive and robust evaluation methodology in place to ensure that Bidders' proposals meet Defence requirements and are evaluated on an equitable basis.

I anticipate the announcement of Preferred Bidders later this year.

Defence Vetting Agency

Mr. Lancaster: To ask the Secretary of State for Defence how many people are employed by the Defence Vetting Agency; and how many were employed in each of the last five years. [49756]

Mr. Ingram: The following table gives the number of civilians employed by the Defence Vetting Agency in the last five years:

Defence Vetting Agency

As at April:	
2001	350
2002	280
2003	300
2004	340
2005	320
January 2006	320

Note:
1. Figures include values for part time staff proportionate to those of full time staff.
2. All figures are rounded to the nearest 10.

FTE Source:
DASA(Civilian)

Information giving numbers of civilian staff employed within Defence Agencies is available through the Defence Analytical Services Agency website www.dasa.mod.uk

Gibraltar

Andrew Rosindell: To ask the Secretary of State for Defence how many British *(a)* military ships, *(b)* aircraft carriers and *(c)* RAF aircraft have visited Gibraltar in each of the last seven years. [56854]

Mr. Ingram: The following numbers of British military ships, aircraft carriers and RAF aircraft have visited Gibraltar in the last seven years:

1999—116 RAF aircraft (no records available for British military ships)

2000—128 RAF Aircraft, 57 British military ships including one aircraft carrier

2001—72 RAF aircraft, 39 British military ships

2002—93 RAF aircraft, 49 British military ships including one aircraft carrier

2003—87 RAF aircraft, 58 British military ships

2004—103 RAF aircraft, 35 British military ships including one aircraft carrier

2005—120 RAF aircraft, 40 ships including two aircraft carriers

Gibraltar Regiment

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the role of Gibraltar Regiment troops in *(a)* Iraq and *(b)* Afghanistan. [50984]

Mr. Ingram: Royal Gibraltar Regiment troops in Iraq have undertaken a variety of roles, including as advisers, administrators, media operators, medics, drivers, chefs, as part of security patrols and as a garrison regimental sergeant major.

One officer from the Royal Gibraltar Regiment was deployed in Afghanistan as part of the provincial reconstruction team in Mazar-e-Sharif.

Infantry Regiments

Stewart Hosie: To ask the Secretary of State for Defence what the results were of the brand recognition survey of Scottish infantry regiments; and what the recognition rates were within *(a)* the city of Dundee and *(b)* the counties of (i) Angus, (ii) Fife and (iii) Perthshire. [55911]

John Reid *[holding answer 3 March 2006]:* The research did not include analysis for the specific areas that you refer to.

Iraq/Afghanistan

Adam Price: To ask the Secretary of State for Defence whether working relations between British forces and local officials in Basra have been restored. [57248]

Mr. Ingram: British officials continue to discuss re-engagement with Basra's leaders in an attempt to restore normal working relations as soon as possible. In the meantime, Multi National Forces continue to engage at working level with the Iraqi Police and Army in Basrah Province wherever possible, in order to continue their valuable work on Security Sector Reform.

Adam Price: To ask the Secretary of State for Defence what the legal status is of the individuals arrested by British and Danish forces in Basra on 24 January. [57256]

Mr. Ingram: The individuals apprehended by British and Danish forces in Basra on 24 January 2006 were interned because they were judged to be an imperative threat to security under the terms of the United Nations Security Council Resolution 1637.

Adam Price: To ask the Secretary of State for Defence whether armed services personnel in Iraq have evidence of the use of Beretta 92S semi-automatic pistols by members of the Iraqi insurgency. [57259]

Mr. Ingram *[holding answer 9 March 2006]:* Armed services personnel in Iraq have no evidence of Iraqi insurgents using the Beretta 92S semi-automatic pistol.

Mr. MacDougall: To ask the Secretary of State for Defence how many UK service personnel have been *(a)* injured and *(b)* killed in Iraq. [57740]

John Reid *[holding answer 10 March 2006]:* As at 8 March 2006, a total of 103 British Forces personnel have died while serving on Operation TELIC since the start of the campaign in March 2003. Of these, 79 are classed as killed in action—including as a result of hostile action—and 24 are known to have died either as a result of illness, non-combat injuries or accidents, or have not yet been officially assigned a cause of death, pending the outcome of an investigation.

Centrally available records show that some 230 UK personnel have been treated at UK medical facilities in theatre for wounds received as a result of hostile action between March 2003 and January 2006[1].

[1] Before October 2004, we only have centrally held records for the Shaibah UK Field Hospital. The figure does not include, for example, UK casualties of hostile action who were treated either by other UK Field Hospitals (early stages of operation only—for which unit records are not held centrally) or by coalition partners, or those with more minor injuries who did not receive Field Hospital treatment. From October 2004, the figure relates to all those wounded who were treated in any of the UK medical facilities in the UK-led Multi-National Division South East MND(SE) area. This figure excludes any personnel who subsequently died.

Our Notification of Casualty reporting records also allow us to give a figure for those categorised in theatre as Very Seriously Ill/Injured/Wounded (VSI), meaning that their life was imminently endangered. Some 40 personnel were categorised as VSI as a result of injury or wounds, however caused, in Iraq between March 2003 and January 2006[2].

[2] The VSI figure excludes any personnel who subsequently died in theatre.

Separate records show that between February 2003 and January 2006 up to 4,000 military and civilian personnel (including a few Iraqis) have been medically evacuated from theatre. The great majority of cases were due to illness or accidental injury and not as a result of hostile action.

The Ministry of Defence intends to publish casualty figures for Iraq on the MOD website in the next few weeks, identifying the number of personnel categorised as "Seriously Injured" and "Very Seriously Injured". The figures will be updated regularly.

Dr. Fox: To ask the Secretary of State for Defence whether delays have occurred in the air transportation of troops from *(a)* Iraq and *(b)* Afghanistan as a result of the need to cannibalise spare parts in the last 12 months. [57486]

Mr. Ingram: None.

Mr. Hancock: To ask the Secretary of State for Defence what his plans are for combat search and rescue cover for downed RAF aircrews in *(a)* Iraq and *(b)* Afghanistan; and if he will make a statement. [57109]

Mr. Ingram: For reasons of operational security, and to protect our troops in such a circumstance, I cannot reveal the detail of such rescue plans.

Leaf Class Tankers

Mr. Hancock: To ask the Secretary of State for Defence what the *(a)* chartering costs, *(b)* maintenance

budgets, *(c)* maintenance costs, *(d)* refitting costs, *(e)* operating budgets and *(f)* operating costs were of each of the Leaf Class of tankers in each year since their introduction. [55539]

Mr. Ingram: Neither operating nor support budgets are managed on the basis of individual vessels or types of vessels and as such, there are no distinct, identifiable budgets available for the four Leaf Class Support Tankers.

Actual refit and maintenance costs have been provided for financial years 1998–99 onwards, based on prices at the time. Costs prior to 1998 are no longer held.

There is no management requirement for operating costs, including those associated with chartering, to be held by vessel type and these cannot therefore be provided. However, indicative costs, based on the cost of ownership of the Leaf Class, have been provided for each of the last three financial years. No indicative costs are held for earlier years.

Missile Defence

Mr. Harper: To ask the Secretary of State for Defence pursuant to the answer of 15 February 2006, *Official Report*, column 2096W, to the hon. Member for Hemel Hempstead, on missile defence, what consultation process will be followed in reaching a decision on the future of the UK's missile defences. [57428]

John Reid *[holding answer 10 March 2006]:* No decisions have yet been taken on the acquisition of territorial missile defence for the UK and it is too early to say what consultation mechanisms might be appropriate to underpin any future decision making by the Government in this area.

RAF Lyneham

Mr. Gray: To ask the Secretary of State for Defence what consideration he has given to the re-use of RAF Lyneham after 2012. [57389]

Mr. Ingram *[holding answer 10 March 2006]:* RAF Lyneham is being considered under Project Belvedere, a Joint Helicopter Command (JHC) study, as a potential helicopter super base.

Should JHC not have a use for the site, in accordance with normal procedures, it will be considered for other defence uses.

Royal Army Medical Corps

Dr. Fox: To ask the Secretary of State for Defence what is the *(a)* actual strength and *(b)* establishment of each regiment of the Royal Army Medical Corps. [57490]

Mr. Touhig: The following table shows the strength and liability of the Royal Army Medical Corps as at 1 January 2006. Information at Regiment level is not available centrally.

Trained strengths against liability for the Royal Army Medical Corps (RAMC) as at 1 January 2006

	Strength	*Liability*
Total	2,810	3,270
Officers	950	940
Soldiers	1,860	2,330

Notes:

1. The liability figures consist of the UK Trained Army Personnel (where posts can be filled by Full-Time Reserve Service (FTRS) personnel) and the Manning and Training Margin (MTM). The MTM provides liability cover to prevent gaps being left in the unit when personnel become unavailable for certain manning and training reasons.
2. The data have been rounded to the nearest 10, numbers ending in 5 have been rounded to the nearest multiple of 20 to prevent systematic bias.
3. Totals have been rounded separately and therefore may not be equal to the sum of their parts.

STOROB Process

Dr. Fox: To ask the Secretary of State for Defence how many times *(a)* destroyers, *(b)* frigates, *(c)* minehunters and *(d)* submarines have undergone the STOROB process in each of the last five years. [57478]

Mr. Ingram: The number of times that items or components of ships' fitted equipment have been transferred between vessels in front-line service time is as follows.

	Destroyers	Frigates	Submarines	Mine countermeasure vessels
2001	30	77	[1]—	14
2002	37	56	[1]—	30
2003	5	21	[2]54	10
2004	56	57	169	36
2005	43	45	221	18

[1] Not available.
[2] Six months only.

We do not have records of the number of such transfers between submarines before mid-2003.

Strategic Development (NATO)

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library a copy of the Comprehensive Political Guidance on the future strategic development of NATO agreed last December. [57487]

John Reid: It is not the Government's practice to publish NATO's internal strategic guidance.

Terrorism

Dr. Julian Lewis: To ask the Secretary of State for Defence what recent co-operation there has been on anti-terrorism measures between the armed forces of Russia and the United Kingdom; and if he will make a statement. [57272]

John Reid: In the last two years the armed forces of the United Kingdom and Russia have co-operated in a number of areas in the field of counter-terrorism. Four Russian officers have undertaken ordnance disposal courses, preceded by English language training. Discussions are in train on formal arrangements for exchanging technical information on explosive ordnance disposal. The Ministry of Defence, the International Institute of Strategic Studies and the Northern Ireland Office have jointly sponsored a series of visits to the UK by senior Russian military officers in which the proper conduct of counter-terrorist operations has been a major theme. From 14 to 16 February a Russian cruiser took part, with HMS Nottingham, in a NATO naval exercise in the Mediterranean, in preparation for forthcoming Russian participation in NATO's maritime counter-terrorist Operation Active Endeavour.

Veterans Day

Mr. Harper: To ask the Secretary of State for Defence which groups and organisations he consulted on the designation of a Veterans day on 27 June *(a)* prior to the decision being announced and *(b)* after the decision was announced. [58091]

Mr. Touhig: Plans to institute a national Veterans day were developed in close consultation with a number of the potential stakeholders, including in particular the Confederation of British Service and Ex-Service Organisation (COBSEO) which is the umbrella organisation representing around 200 service and ex-service organisations. We are continuing to work closely with COBSEO and others as we develop our more detailed plans for the day.

Mr. Harper: To ask the Secretary of State for Defence what plans the Government has to commemorate the contribution of the Home Guard on national Veterans Day on 27 June. [58169]

Mr. Touhig: We are currently developing our plans for Veterans Day. I will make an announcement shortly, when this work is complete.

Winter Sports Teams

Mr. Moore: To ask the Secretary of State for Defence what the cost was of maintaining winter sport teams for each of the services in the last three years. [56450]

Mr. Touhig: The costs of maintaining winter sports teams in each of the three services for the season 2005–06 are: Royal Navy, £28,833 from public funds and £67,480 from non-public funds; Army, £17,161 public funds and £37,900 non-public funds; and the Royal Air Force, £22,966 from public funds and £32,410 non-public funds. Figures are not readily available for the previous two years and could be compiled only at disproportionate cost. Eight service sports men and women were selected for the British team at the recent Winter Olympics, which represents 20 per cent. of the team.

Youth Justice Board

Dr. Fox: To ask the Secretary of State for Defence what discussions he *(a)* has held and *(b)* plans to hold with the Youth Justice Board about providing support to cadet force organisations. [57469]

Mr. Touhig: The Ministry of Defence and Youth Justice Board (YJB) have held two formal meetings at official level. The first was on 18 May 2004 and the second on 21 February 2006. A further meeting before Easter is planned, although a specific date is yet to be agreed. In addition, the MOD is in regular touch with the YJB at desk level concerning our joint support of youth activities.

DEPUTY PRIME MINISTER

Building Regulations (Part L)

Mr. Lancaster: To ask the Deputy Prime Minister if he will delay the implementation of part L of the Building Regulations for six months to allow business further time to acquaint itself with the accompanying documentation and software. [54827]

Yvette Cooper: In my press release of 13 September 2005 I announced that we were introducing the changes to part L of the Building Regulations two years early in April 2006. This includes a deferral of three months from the implementation date set out in the Energy White Paper, to give the building industry sufficient time to prepare. Draft versions of the technical guidance were also made available in September 2005 and final software from October 2005. I intend to lay the statutory instrument and publish final approved documents in sufficient time for the April 2006 amendment.

Departmental Pay

Mr. Hands: To ask the Deputy Prime Minister what the level is of the London Weighting element of pay given to employees of his Department; and if he will make a statement. [57131]

Jim Fitzpatrick: I refer the hon. Member to the answer given to my hon. Friend the Member for Vauxhall (Kate Hoey) on 16 February 2006, *Official Report*, column 2216W.

Departmental Staff

Anne Main: To ask the Deputy Prime Minister what new measures are being put in place to deal with bullying in his Department; and how these measures will differ from current practice. [51157]

Jim Fitzpatrick: The Office of the Deputy Prime Minister is currently reviewing its policy and guidance to staff on bullying. The Office of the Deputy Prime Minister will set out full details of any changes to its current policy and guidance in its response to the ODPM: Housing, Planning, Local Government and the Regions Committee First Report of Session 2005–06.

Green Parks

Mr. Bone: To ask the Deputy Prime Minister if he will make a statement on planned funding of green parks in *(a)* Northamptonshire and *(b)* England. [57226]

Mr. Woolas: Public parks and green space are primarily funded by local authorities through their revenue budgets. Decisions on spending are therefore a matter for them to determine in line with local priorities.

The Office of the Deputy Prime Minister has made more targeted money available for parks over the past five years, through the Safer and Stronger Communities Fund. The ODPM has also committed £5.45 million to green space projects in Northamptonshire, through its Growth Areas Fund programme.

The quality of urban parks has improved since 2000, as recognised by the recent National Audit Office (NAO) report, 'Enhancing Urban Green Spaces'. The ODPM remains committed to supporting local authorities to deliver quality parks and green spaces through our Cleaner, Safer, Greener Communities programme.

Housing

Lynne Featherstone: To ask the Deputy Prime Minister pursuant to the answer of 7 November 2005, *Official Report*, column 188W, to the hon. Member for Brent East, on housing, how many units *(a)* built and *(b)* procured under (i) the Starter Home Initiative, (ii) the Key Worker Living Programme and (iii) other key workers housing schemes have been sold to non-key workers under the cascade mechanism in (A) the south-east, (B) London and (C) the East of England in each year for which figures are available. [57149]

Yvette Cooper: The cascade mechanism developed for the Key Worker Living programme did not come into operation until 2005. No dwellings developed through the Starter Home Initiative or Challenge Fund are subject to the cascade mechanism.

Thirty-two dwellings in the south-east out of the 2190 dwellings completed through the Key Worker Living programme had their eligibility criteria widened to include non-key workers through the cascade mechanism in 2005–06.

Mr. Harper: To ask the Deputy Prime Minister if he will list the registered social landlords who specialise in housing ex-forces personnel. [57069]

Yvette Cooper: The Housing Corporation does not record data on registered social landlord (RSL) housing provision in such a way as would allow us to give a complete list of those RSLs specialising in housing ex-service personnel except at disproportionate cost. All RSLs may house former members of the armed services provided the RSLs eligibility criteria are met. There are a number of associations which were established specifically to house ex-forces personnel, although their objects may have diversified since their inception. These include: Haig Homes; Housing 21 (formerly Royal British Legion Housing Association); Enham; Royal Air Forces Association Housing Ltd., and the Ex-Service Fellowship Centres.

Lynne Featherstone: To ask the Deputy Prime Minister when he will announce the Housing Corporation's National Affordable Housing programme for 2006 to 2008. [57122]

Yvette Cooper: A decision on the Housing Corporation's Affordable Housing programme for 2006 to 2008 is expected to be announced later this month and announcements on individual allocations will be made subsequent to that.

Sarah Teather: To ask the Deputy Prime Minister what percentage of housing stock is *(a)* listed and *(b)* in a conservation area. [55779]

Yvette Cooper: The information requested is not collected centrally and exact figures are unavailable. However, the Department for Culture, Media and Sport published "Protecting our historic environment: making the system work better" in October 2003. This estimated that approximately 1 per cent. of dwellings are listed. This estimate was based on a number of sources, including the English Heritage "State of the Historic Environment Report 2002".

Lynne Featherstone: To ask the Deputy Prime Minister how many social housing units were built with Transitional Local Authority Social Housing Grant funding in 2004–05. [57216]

Yvette Cooper: Transitional Local Authority Social Housing Grant (TLASHG) provided 3,695 homes for rent and low-cost home ownership in 2004–05. Of these, 3,187 were for social rent.

Lynne Featherstone: To ask the Deputy Prime Minister what the final figures were for expenditure on transitional local authority social housing grant in each Government office region in 2004–05. [57230]

Yvette Cooper: The following table shows spend in each Government Office region in 2004–05 for Transitional Local Authority Social Housing Grant (TLASHG). The table is divided into spend provided via the Housing Corporation to Registered Social Landlords for schemes in debt free authorities and that

provided by the Office of the Deputy Prime Minister to with debt local authorities who received interest only payments in order to support the repayment of loans.

Transitional LASHG expenditure 2004–05

£ million

Region	*Debt free LAs*	*With debt LAs*
London	5.28	4.63
South East	14.86	2.15
South West	6.4	1.8
East of England	8.25	0.97
East Midlands	1.04	0.25
West Midlands	1.19	0.16
Yorks and Humberside	0.11	0.25
North East	0.13	0
North West	0.59	0.32
Total	37.85	10.53

Figures for with debt authorities are subject to validation and do not include retrospective claims of around £90,000.

Local Elections

Mr. Kemp: To ask the Deputy Prime Minister pursuant to the answer of 13 February 2006, *Official Report*, column 1625W, to the hon. Member for Meriden, on local elections, which local authorities *(a)* are in the process of changing and *(b)* have formally requested a change to a whole council election cycle since that answer. [57686]

Mr. Woolas: Since the last answer the Order implementing whole council elections in Broadland district council has been made and the Office of the Deputy Prime Minister expects a formal request from Eastbourne in the near future.

Microgeneration

Vera Baird: To ask the Deputy Prime Minister what assessment he has made of the merits of using council tax incentives to encourage the installation of microgeneration in private and rented accommodation. [57878]

Mr. Woolas: None.

Neighbourhood Wardens

Vera Baird: To ask the Deputy Prime Minister what steps he plans to take to strengthen local authority neighbourhood warden schemes. [57918]

Mr. Woolas: Funding is available to local authorities through both the neighbourhood renewal fund and the neighbourhood element of the safer stronger communities fund to develop warden schemes if they choose to do so. The Office of the Deputy Prime Minister also continues to strengthen and sustain warden schemes through the advice and support available through the regional warden resource centres.

Planning (Schools)

Mr. Pickles: To ask the Deputy Prime Minister if he will place in the Library copies of Planning Inspectorate rulings relating to planning applications for expanding schools over the last five years. [54538]

Yvette Cooper: The information requested is not held centrally, and could be provided only at disproportionate cost.

Single Status Scheme

Mr. Jenkins: To ask the Deputy Prime Minister what estimate he has made of the cost of the Single Status Scheme for council employees to *(a)* Tamworth borough council, *(b)* Staffordshire county council and *(c)* all councils in England; and what financial support the Government are providing to local authorities for implementing the scheme. [58108]

Mr. Woolas: I refer my hon. Friend to the answer given to the hon. Member for Shipley on 6 March 2006, *Official Report*, column 1169W.

Sustainable Buildings

Sarah Teather: To ask the Deputy Prime Minister whether the Government plans to extend the Code for Sustainable Buildings to include requirements in respect of *(a)* build quality and *(b)* durability of construction methods and materials. [54684]

Yvette Cooper: The consultation on the proposed code closed on 6 March 2006, and the Office of the Deputy Prime Minister announced on 9 March 2006 that we will strengthen the Code for Sustainable Homes in order to increase environmental sustainability and give home owners better information about the running costs of their homes.

Further analysis of the consultation responses is not yet complete, so it is too early to say exactly which issues concerning build quality and durability will be included within any revised code.

But I can confirm that, in the light of the issues raised by this consultation, the ODPM will be introducing a series of revisions to the code as well as undertaking further research into future improvements.

Sarah Teather: To ask the Deputy Prime Minister if he will incorporate flood resilience into the Code for Sustainable Buildings. [54699]

Yvette Cooper: Consultation on the code has just completed. We are currently considering the responses. Final decisions on the scope have yet to be made.

Thames Gateway

Mr. Don Foster: To ask the Deputy Prime Minister what steps *(a)* his Department and *(b)* its non-departmental public bodies and executive agencies are taking to ensure an adequate provision of (i) cultural and (ii) sporting facilities in the Thames Gateway development; and if he will make a statement. [56918]

Yvette Cooper: The Government's strategy for the Thames Gateway, "Creating Sustainable Communities: Delivering the Thames Gateway" (March 2005) recognises the importance that culture plays in bringing people together socially, so that they form mixed and integrated communities. The Government believe that communities with culture at their core are often more vibrant and ultimately more attractive places to live.

The Thames Gateway Programme Fund has already been used for a number of cultural projects across the Gateway including:

£1.45 million for the refurbishment of the Thameside library and theatre complex in Grays;

£1.75 million for the creation of the award winning Old Laban dance centre in Lewisham;

£100,000 for the refurbishment of The Broadway arts venue and training facility in Barking;

The acquisition of a former factory sports club, in Gravesend, and its transformation into a sport, social and cultural asset for the community.

Over £20 million of the Office of the Deputy Prime Minister's funding is going into the regeneration of Dartford town centre. This is helping to provide real impetus to the wider regeneration across the town. Although not being funded by ODPM, this complements the construction of a new stadium, not only as a multi sports community facility but to support the return of Dartford Football Club to the town centre and the adjacent Leigh technical college is to be rebuilt as an academy school specialising in sport, enterprise and business. These developments are all on the new Fastrack route providing for enhanced accessibility.

Heritage sites in Chatham, Fort Amherst and in Gravesend, Old Town Hall, have also been in receipt of ODPM funding towards preservation and development.

Sport England provide the strategic lead for sport in England and are responsible for delivering the Government's sporting objectives. As part of this objective, they help local authorities plan for the provision of sporting facilities including playing pitches, golf courses and other sports requiring green areas.

One major project that Sport England are doing in partnership with the Thames Gateway Strategy and delivery divisions of ODPM is the Thames Gateway North Kent Cultural Framework and Toolkit. The project, funded to the tune of £60,000 by the Thames Gateway delivery unit, is to develop a framework for culture in the area to set a consistent context for cultural planning in Thames Gateway North Kent.

The toolkit will bring together in one place the analytical tools used by the various cultural agencies, such as Sport England's planning contributions toolkit, to help local authorities in particular to deliver cultural facilities through the planning system.

It is further hoped that the local regeneration partnerships will incorporate this thinking into their planning processes, with ODPM approval, so that a consistent approach to cultural provision is embedded in the planning process.

Finally, the 2012 games will leave a legacy of world class sporting facilities for both elite and community use. The facilities will comprise a 25,000 seat stadium, an aquatic centre with two 50m pools and diving facilities, a hockey centre, a velodrome and BMX area, and a multisports arena.

HOME DEPARTMENT

Active Communities Directorate

Emily Thornberry: To ask the Secretary of State for the Home Department how many organisations representing the women's voluntary and community sector have been short listed for the Active Communities Directorate Strategic Funding Programme. [57236]

Paul Goggins: The Women's Royal Voluntary Service (WRVS) continues to receive funding under the Active Communities Directorate Strategic Funding Programme as part of a pre-existing agreement on unrestricted grant-aid to WRVS.A number of umbrella Voluntary and Community Sector (VCS) organisations were short-listed where their work includes representing women's interests relating to the VCS. No organisations with sole responsibility for representing women's interests relating to the VCS were able to satisfy the selection criteria.

Animal Cruelty

Chris Ruane: To ask the Secretary of State for the Home Department how many *(a)* allegations, *(b)* investigations and *(c)* prosecutions have occurred under (i) the Animals (Cruel Poisons) Act 1962, (ii) the Abandonment of Animals Act 1960 and (iii) the Docking and Nicking of Horses Act in the last 10 years. [54795]

Fiona Mactaggart: I refer my hon. Friend to the answer I gave to the hon. Member for Southend, West (Mr. Amess) on 1 March 2006, *Official Report*, column 800W.

Anti-Semitic Incidents

Mr. Leech: To ask the Secretary of State for the Home Department what steps he is taking to tackle anti-Semitic incidents in England and Wales. [54706]

Paul Goggins: The Government deplores all forms of racism and is committed to tackling anti-Semitism wherever it exists.

In recent years the Government have strengthened both the legal framework against race discrimination and the criminal penalties for offences such as incitement to racial hatred and for racially or religiously aggravated assault and criminal damage.

We have robust police and CPS policies. Police forces are alert to crimes committed against members of all faith communities and take appropriate steps to safeguard people and property.

In May 2005, The Home Office and the Association of Chief Police Officers (ACPO) published a Hate Crime Manual: "Hate Crime: Delivering a Quality Service." The manual provides tactical and practical guidance to police forces and authorities on the handling and investigation of hate crimes including racially and religiously motivated offences.

We are teaching young people through the National Curriculum about citizenship and there is a statutory requirement on schools to teach about the Holocaust. Government also supports the annual commemoration of Holocaust Memorial Day to reinforce the message that racism and prejudice can have catastrophic consequences.

Asylum/Immigration

Dr. Evan Harris: To ask the Secretary of State for the Home Department how many *(a)* asylum seekers and

(b) failed asylum seekers left the UK under the voluntary assisted return and re-integration programme administered on behalf of his Department by the International Organisation for Migration in each year since 1999, broken down by nationality. [57107]

Mr. McNulty: The statistics for returns under VARRP (Voluntary Assisted Return and Reintegration Programmes) are not split into current and failed asylum seekers. In order to be eligible for return under VARRP the applicant must have either a current asylum application waiting consideration or they must be a failed asylum seeker. The total numbers of people who have left the UK since 1999, split by nationality are in the table.

The figure for 2006 consists only of the number of returns for January and February.

Country	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*Overall*
Albania	13	266	623	547	724	604	509	36	3,322
Iraq	—	2	3	—	91	433	768	336	1,633

Afghanistan	—	—	—	30	102	232	424	93	881
Kosovo	—	157	134	109	116	145	168	11	840
Sri Lanka	—	6	14	52	197	211	252	38	770
Czech Republic	—	—	15	93	336	59	—	—	503
Pakistan	—	1	18	15	41	57	82	18	232
Zimbabwe	—	1	1	6	36	61	103	14	222
Poland	—	2	6	11	108	45	—	—	172
Colombia	1	—	3	11	21	63	52	3	154
Algeria	2	1	6	4	36	36	39	6	130
Ecuador	—	—	12	10	34	42	14	8	120
Russia	—	8	16	11	24	21	38	2	120
Romania	4	16	25	40	13	5	4	—	107
Angola	—	—	—	—	13	25	41	21	100
Latvia	3	3	5	16	44	27	—	—	98
Turkey	—	5	5	10	18	28	24	7	97
South Africa	—	1	—	4	28	17	33	1	84
Others	23	48	142	115	303	427	461	137	1,656
Total	48	548	1,207	1,196	2,461	2,713	3,236	770	12,179

Jenny Willott: To ask the Secretary of State for the Home Department how many asylum-seeking children in the UK in *(a)* 1995, *(b)* 2000, *(c)* 2004 and *(d)* 2005 had been residing in the UK for (i) less than one year, (ii) one to two years, (iii) two to three years and (iv) more than three years; and if he will make a statement. [57610]

Mr. McNulty: The requested information is not available.

Information on the total number of asylum applications awaiting an initial decision is published quarterly and annually. Copies are available from the Library and on the Home Office Research Development and Statistics Directorate website at http://homeoffice.gov.uk/rds/immigration1.html.

Keith Vaz: To ask the Secretary of State for the Home Department how many deportation cases have not been proceeded with in the last five years where immigrants have alleged that their past crimes will affect the observance of their human rights on return to their country of origin. [57128]

Mr. McNulty: The Immigration and Nationality Directorate does not routinely collect this information and it could be gathered only at disproportionate cost.

Biometric Passports

Mr. Evans: To ask the Secretary of State for the Home Department (1) when he expects the first biometric passport to be issued; [56961]

(2) whether he expects to meet the target for full issuing of biometric passports by October 2006. [56960]

Andy Burnham: I refer the hon. Member to the answer given on 2 March 2006, *Official Report*, column 952W.

British National Party

Patrick Mercer: To ask the Secretary of State for the Home Department how many arrests have been made of members of the British National Party in the last 12 months for inciting *(a)* violence and *(b)* murder. [56562]

Paul Goggins: This information is not collected centrally.

Compensation Awards

John Penrose: To ask the Secretary of State for the Home Department if he will establish a system whereby compensation awarded by a court could be paid from a central fund and then recouped by the court from the offender. [34144]

Ms Harman: I have been asked to reply.

We currently have no plans to introduce a central victims compensation fund for the payment of court-awarded compensation orders.

The HMCS enforcement programme has made progress in improving the national payment rate, and is now focusing effort on the collection of outstanding compensation orders. We are also considering ways to improve communication with victims throughout the payment period.

Drug Classification

Paul Flynn: To ask the Secretary of State for the Home Department what evidence he has collated on the

extent to which classifying drugs in class A, rather than B or C, *(a)* reduces individual harm, *(b)* reduces harm to public health, *(c)* prevents misuse, *(d)* deals with social problems connected with their misuse and *(e)* reduces (i) availability and (ii) criminality. [47807]

Paul Goggins: Controlled drugs are classified under the Misuse of Drugs Act 1971 according to their comparative harmfulness. The overall aim of the drug strategy is to reduce the harms caused by illegal drugs. It focuses on the most dangerous drugs (i.e. class A), the most damaged communities and those who cause most harm to themselves and others.

The Drug Harm Index (DHI) (measuring the harm from illegal drugs using the Drug Harm Index. Home Office Online Report 24/05), which has been developed to monitor the public service agreement (PSA) target to "reduce harm caused by illegal drugs" agreed in the 2004 Spending Review, incorporates the harms that individuals and society suffer due to drug-related crime, the health impact of drug use and dealing on communities. A high level description of how harm reduction is measured is given in the supporting PSA Technical Note SR04—PSA four, which is available in the Library. As a measure of the overall impact of the drug strategy the DHI shows a 9 per cent. reduction in the harms caused by drug misuse between 2002 and 2003 (i.e. the latest complete data available).

By identifying the most dangerous drugs, the classification system provides a focus for efforts and resources to be targeted in the most effective way. However, it is the drugs strategy, and underpinning evidence, which drives the reduction of drug-related harms rather than the classification system itself.

Fixed Penalty Notices

Mr. Evans: To ask the Secretary of State for the Home Department how many fixed penalty notices were not paid in Lancashire in *(a)* 2004 and *(b)* 2005. [54659]

Paul Goggins: The only data available at this time comes from the penalty notices for disorder database held by the RDS-OCJR. It shows that of the 5,077 penalty notices issued in Lancashire in 2004, 2,666 were reported as not being paid in full, and provisional data from January to October 2005 shows that of the 8,699 penalty notices issued in Lancashire in 2004, 4,592 were reported as not being paid in full.

The latest available information collected by the RDS-OCJR on the number of fixed penalty notices for motoring offences is for 2002 and can be found within the Home Office publication, 'Offences relating to motor vehicles England and Wales 2003, Supplementary tables 2003', Tables 21 *(a)* to 21 *(c)* refers. Copy is available in the Library and can also be accessed on the Home Office Research Development and Statistics (RDS) website at: http://www.homeoffice.gov.uk/rds/index.htm.

2003 data will be available in the 2004 publication due at the end of March 2006. 2004 data will be available in the 2005 publication due early in 2007.

Under the Road Traffic Act 1991, Decriminalised Parking Enforcement (DPE) powers allow local authorities to take over responsibility for enforcing parking contraventions from the police. 2003 data on penalty charge notices (PCNs) from individual local authorities operating decriminalised parking enforcement can also be found in the above mentioned publication, tables 22*(a)* to 22*(b)* refers.

Identity Cards

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to his oral statement of 13 February 2006, *Official Report*, column 1171, on identity cards, what the evidential basis was for his statement that a number of countries, including the US, propose to have 13 sets of biometric data per person on a centrally held database. [57293]

Andy Burnham: I am clear from discussions with my opposite numbers internationally that a number of other countries, including the United States are likely to move to using 13 biometrics in due course, based on face fingerprints and iris biometrics. The use of multiple biometrics has been accepted in principle in the International Civil Aviation Organisation (ICAO) Blueprint for machine readable travel documents which has been accepted by the 188 ICAO contracting states and includes the face as the primary mandatory biometric and iris or fingerprints as secondary and optional biometrics.

The United States already has one of the leading biometric systems to identify visitors, the "US VISIT" system. When announced in April 2003, it was made clear that it would use biometrics which could include facial image, fingerprints and iris images. Although it currently requires all foreign visitors to the United States to enrol facial image and two index fingerprints on entry, the United States Secretary of Homeland Security said in July 2005 that, in the future, first-time visitors to the United States will be enrolled in the "US VISIT" system by submitting 10 fingerprints. 10 fingerprint biometrics will also be used in the US in the "Registered Traveller Program" which has piloted the use of fingerprint and iris biometrics along the lines of our own Iris Recognition Immigration System (IRIS) to allow for fast track immigration clearance of registered passengers.

International Organisation for Migration

Dr. Evan Harris: To ask the Secretary of State for the Home Department how many people are registered with the International Organisation for Migration and awaiting voluntary return under the voluntary assisted return and reintegration programme, broken down by nationality. [57161]

Mr. McNulty: The number of people, split by nationality, who have applied for, been approved and are waiting return under VARRP (Voluntary Assisted Return and Reintegration Programme) are listed in the following table. This information is correct as on 8 March.

	Number
Total	1,742
Iraq	980
Pakistan	88
Afghanistan	82
Iran	78
Sri Lanka	68
South Africa	39
Albania	32
Zimbabwe	32
Algeria	29
China	19
Angola	18
Russia	18
Somalia	18
Turkey	18
India	17
Nigeria	14
DRC	13
Uganda	13
Mongolia	12
Israel	11
Other	143

Dr. Evan Harris: To ask the Secretary of State for the Home Department how long, on average, the International Organisation for Migration is taking to complete arrangements for voluntary return under the voluntary assisted return and reintegration programme in the case of applicants from *(a)* Iraq, *(b)* the Democratic Republic of Congo, *(c)* Eritrea, *(d)* Ethiopia, *(e)* Somalia, *(f)* Iran and *(g)* all nationalities. [57162]

Mr. McNulty: There is not an average amount of time that it takes IOM to complete the arrangement for voluntary return to any country since the time of departure is dependant on when the applicant wishes to leave the UK.

IOM send all applications for voluntary return to IND within 24 hours of IOM receiving them. IND then approves or rejects applications within five working days. From the date that IND approves an application, the applicants have three months in which to leave the UK, this applies to all nationalities except Iraqis who have six months in which to leave the UK.

The returnee informs IOM of when they wish to return which may be within days or it may at the end of the three month period. This period of time enables the returnee to choose when they wish to travel to take account of their own personal preferences, circumstances and put their affairs in order.

Parliamentary Questions

Lynne Jones: To ask the Secretary of State for the Home Department when he will reply to questions *(a)* 50928, *(b)* 50948, *(c)* 50322 and *(d)* 50261 on identity cards. [54258]

Andy Burnham: I refer my hon. Friend to the answers given on the following dates:

50928 and 50948 2 March 2006, *Official Report*, column 952W

50322 27 February 2006, *Official Report*, column 88W

50261 27 February 2006, *Official Report*, column 87W

People Trafficking

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department if he will take steps to combat the trafficking of young women from Eastern Europe for the purposes of the sex industry in Cambridgeshire; and if he will make a statement. [55737]

Paul Goggins: The Government have a comprehensive strategy to combat human trafficking which includes legislation, effective law enforcement, international cooperation, prevention measures and support for victims.

The Home Office and Foreign and Commonwealth Office are both involved in capacity building projects and awareness raising campaigns on trafficking in source and transit countries in Eastern Europe to prevent women being trafficked into the UK for sexual exploitation. In addition, we are currently drawing up a joint action plan with Lithuania.

Whilst I cannot comment on any operational activity that Cambridgeshire police may currently be engaged in, the police in England, Wales, Scotland and Northern Ireland in February launched Operation Pentameter, a co-ordinated national campaign which is focussed on dealing with the criminal organisations that profit from human trafficking for the purpose of sexual exploitation.

Police (Drug Testing Equipment)

Philip Davies: To ask the Secretary of State for the Home Department what assessment he has made of drug testing equipment supplied by companies other than Cozart Bioscience Ltd. [40320]

Paul Goggins: A competition under the EU directives resulted in the award of a contract in December 2003 for the provision of oral fluid drug testing kits used in police custody suites. As part of the competition process, a paper evaluation made of technical specifications for systems submitted by bidders resulted in contract award to Cozart plc. No further assessments were undertaken.

A competition under the EU directives resulting in the award of two framework agreements for the provision of oral fluid drug testing kits and associated confirmatory drug testing services to National Probation Service areas was concluded in July 2005. The two successful companies were Cozart plc and SureScreen Diagnostics Ltd.

As part of the evaluation process leading to the award of these frameworks, individual test kit samples and equipment together with technical data on the kits were submitted, by "all" bidders, for assessment, to determine whether they met the technical requirements as set out in the competition specification. As part of the evaluation process there was no requirement for samples to be submitted for field tests.

An assessment undertaken by the National Offender Management Service concluded that oral fluid testing (all variations on that theme) currently did not meet requirements for drug testing in prisons.

Prisons

Mr. Garnier: To ask the Secretary of State for the Home Department which *(a)* prisons and *(b)* young offender institutions have governors who have been in post for more than two years; and how many of them will leave within the next 12 months. [55083]

Fiona Mactaggart: 51 of the 127 Governors in charge of public sector prisons and young offenders institutions in England and Wales have been in post for two or more years (as of the 1 March 2006). The establishments that they govern are shown in the following table. It is not possible to forecast which Governors will leave during the next 12 months, but the Governors from four establishments in the table will reach normal retirement age (60) during that period. Information relating to contracted prisons is not available and can be provided only at disproportionate cost.

List showing governors in charge of public sector prisons and young offenders institutions in England and Wales who have been in post for two or more years (as of 1 March 2006).

[1] Governor In Charge will reach normal retirement age in the next 12 months.

John Bercow: To ask the Secretary of State for the Home Department what plans he has to increase funding for the work done at HM Prison Grendon. [55596]

Fiona Mactaggart: Bids for increased mental health in-reach funding to enhance the therapeutic capacity of Grendon prison have recently been submitted to the Vale of Aylesbury Primary Care Trust. Grendon is also currently responding to an invitation by the Dangerous and Severe Personality Disorder (DSPD) Home Office Team to bid for consideration as a DSPD step-down facility.

Private Schools (Charitable Status)

Mr. Hancock: To ask the Secretary of State for the Home Department if he will initiate a review of the charitable status of private schools. [56233]

Paul Goggins: Many, but not all, independent schools have charitable status. An organisation qualifies for charitable status only if it has a charitable purpose—such as the advancement of education—and is for the public benefit. The Charity Commission, the independent regulator, will be required, under the Charities Bill now before Parliament, to issue guidance on public benefit. After the Bill is enacted, the Commission will begin a programme to review the public benefit of different groups of charities, including fee-charging charities.

Prostitution

Mrs. James: To ask the Secretary of State for the Home Department what progress 'Project Reflex' has made in combating the trafficking of women to the UK to work as prostitutes. [55993]

Paul Goggins: Reflex has made progress in combating organised immigration crime by disrupting organised criminal gangs involved in trafficking for sexual exploitation as well as people smuggling and related activities. Between April 2004 and April 2005 Reflex resulted in 149 disruptions of organised immigration crime groups. Reflex conducted 343 operations during 04/05 which resulted in 1,456 arrests 102 of these were for trafficking for sexual exploitation offences.

Security Industry Authority

Dr. Starkey: To ask the Secretary of State for the Home Department what powers he has to take action against the Security Industry Authority for failing to meet the deadlines for licensing door supervisors. [52037]

Paul Goggins: The deadlines for door supervisors have all already been met. The provisions in the Private Security Industry Act 2001 which required all door supervisors who carry out licensable activities to be licensed were rolled out on a regional basis, with the last offence date being 11 April 2005. Ultimately, the responsibility for obtaining a licence to undertake licensable activities lies with the individual.

Sex Offences

Ben Chapman: To ask the Secretary of State for the Home Department if he will re-examine the law on anonymity prior to conviction with respect to individuals who are the subject of allegations of sex offences. [56384]

Paul Goggins: The Government support the conduct of investigations into allegations of sex offences without publicity before charge and believes that the current system of guidance is operating satisfactorily. We have recently reviewed the impact of guidance issued by the Association of Chief Police Officers (ACPO) and the Press Complaints Commission (PCC) and found that neither ACPO nor the PCC have received any complaints about breaches of their guidance.

Ben Chapman: To ask the Secretary of State for the Home Department what recent representations he has received from members of the public wrongly accused of sex offences with regard to anonymity prior to conviction. [56385]

Paul Goggins: Our records show that during 2005 eight letters were received from members of the public about anonymity for sex offence suspects and two were received from Members of Parliament. We have no record of receiving any correspondence on this subject to date in 2006.

Sudan

Lynda Waltho: To ask the Secretary of State for the Home Department how many failed asylum seekers who stated that they were from the Darfur region of Sudan have been returned since 2000. [56982]

Mr. McNulty: The latest published information on removal of asylum seekers covers the final quarter of 2005.

The Home Office does not electronically record the region from which failed asylum seekers originate; this information would be available by examination of individual case files only at disproportionate cost. Therefore the number of failed asylum seekers that were from the Darfur region of Sudan, and where they have been returned to is not available.

In 2005 there were 235 principal asylum seekers, nationals of Sudan, removed from the UK, of whom 40 were returned to Sudan. These figures include persons departing 'voluntarily' after enforcement action has been initiated against them, those leaving under Assisted Voluntary Return programmes run by the International Organisation for Migration, and those who it is established have left the UK without informing the immigration authorities. These figures are rounded to the nearest five and are provisional.

Information on the number of asylum seekers removed from the UK, broken down by nationality, is produced regularly in the annual Asylum Bulletin. Destination data has only been available since 2004. Data pertaining to persons removed from the UK, broken down by nationality and destination for 2004 is also available from this publication.

Published statistics on immigration and asylum are available on the Home Office's Research Development and Statistics website at: http://www.homeoffice.gov.uk/rds/immigration1.html

War Criminals

Emily Thornberry: To ask the Secretary of State for the Home Department pursuant to the answer of 13 February 2006, *Official Report*, column 1748W, on war criminals, if he will place copies in the Library of the minutes of meetings of the European network of contact points in respect of persons responsible for genocide, crimes against humanity and war crimes. [57278]

Mr. McNulty: The conclusions of the meetings of the European Network are internal Council communications and have not been made public. It would not therefore be appropriate to place them in the Library although it is open to anyone to apply for access to the Council Secretariat.

World Cup

Mr. Hands: To ask the Secretary of State for the Home Department (1) when he last met the German Interior Minister to discuss measures designed to prevent hooliganism by English fans at this year's World Cup; [56338]

(2) how many meetings he has had with the German Interior Minister since the German election to discuss the potential for hooliganism at this year's World Cup by English fans; [56339]

(3) what discussions he has had with the German Chancellor on combating potential hooliganism by English fans at this year's World Cup. [56340]

Paul Goggins: There has been and continues to be extensive liaison and co-operation with the German Government, police and civil authorities, including at ministerial level.

Mr. Hands: To ask the Secretary of State for the Home Department whether he has visited stadia to be used for this year's football World Cup in Germany to discuss security and combating hooliganism. [56342]

Paul Goggins: I have not personally visited any of the World Cup stadia but we have been assured by the host authority that all stadia will be able to host World Cup matches in a safe and secure environment.

Mr. Hands: To ask the Secretary of State for the Home Department what steps he proposes to take to prevent known English football hooligans from travelling to Germany for this year's football World Cup. [56343]

Paul Goggins: Individuals known to pose a risk to public order in Germany can and will be prevented from leaving England and Wales during the tournament control period in accordance with football banning order and associated police powers introduced by the Football (Disorder) Act 2000.

Mr. Hands: To ask the Secretary of State for the Home Department what assessment he has made of the steps which might be taken as a result of the experience of English football hooliganism during Euro 2000. [56431]

Paul Goggins: A comprehensive and holistic approach to football disorder was introduced in the wake of Euro 2000. The impact of this strategy is detailed in a Home Office report (Football (Disorder) Act 2000 Report to Parliament) laid before Parliament on 20 January 2006.

TREASURY

Al Qaeda and Taliban Order

Dr. Cable: To ask the Chancellor of the Exchequer what total amount of assets has been frozen under the al-Qaeda and Taliban Order (2002); and what amounts have since been returned to individuals and entities. [57541]

Mr. Ivan Lewis: The total value of assets that have been subject to asset freezing action under the al-Qaeda and Taliban (United Nations Measures) Order (2002) is nearly £80 million. Most of the sum was frozen as associated with the Taliban, but subsequently unfrozen for the Government of Afghanistan. No other sums have been unfrozen in connection with de-listing. Some £500,000 is currently frozen.

Biofuels

Mr. Jeremy Browne: To ask the Chancellor of the Exchequer what the basis is of his Department's statutory definition for biofuels which qualify for the duty concession of 20p per litre. [58374]

John Healey: I refer the hon. Member to my reply to the hon. Member for Birmingham, Yardley (John Hemming) on 15 December 2005, *Official Report*, column 2265W.

Bowel Cancer

Mr. Clappison: To ask the Chancellor of the Exchequer what the five-year survival rate is for bowel cancer in *(a)* England and *(b)* Wales. [57220]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 13 March 2006:

The National Statistician has been asked to reply to your recent question concerning what the five year survival rate is for bowel cancer in *(a)* England and *(b)* Wales. I am replying in her absence. (57220)

For England, the latest available survival rates for colon and rectal cancer are for adult patients diagnosed during 1998–2001 and followed up to the end of 2003. The figures were published on the National Statistics website on 9 May 2005, and are available at: http://www.statistics.gov.uk/statbase/Expodata/Spreadsheets/D8982.xls

For Wales, the latest available survival rates for colon and rectal cancer are for adult patients diagnosed during 1995–1999 and followed up to the end of 2002. The figures were published in Cancer Incidence, Mortality and Survival in Wales on 15 June 2005 and are available at: http://www.wales.nhs.uk/sites3/documents/242/ACF68D.pdf

Figures for the two countries are not directly comparable for a number of reasons, including differences in coverage and follow-up period.

The latest available five-year survival rates for colon and rectal cancer are summarised in the table below.

Five-year age-standardised[1] relative survival for adult patients[2] diagnosed with colon and rectal cancer in England during 1998–2001 and in Wales during 1995–99, by sex

Percentage

	Five-year relative survival[4]	
Cancer[3]	*England 1998–2001*	*Wales 1995–99*
Colon		
Men	49.4	49.1
Women	50.2	45.2
Rectum		
Men	50.0	46.6
Women	53.6	50.5

[1] As cancer survival varies with age at diagnosis, the relative rates for all ages (15–99) have been age-standardised to control for changes in the age profile of cancer patients over time, thus making them comparable with previously published figures.
[2] Aged 15 to 99 years.
[3] Defined by codes in the International Classification of Diseases, Tenth Revision (ICD10). In this table colon cancer is taken to be code C18 and rectal cancer C19-C21.
[4] Figures for the two countries are not directly comparable for a number of reasons, including difference in coverage and follow-up period.

Business Competitiveness (Coventry, South)

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what assessment he has made of the principal factors affecting the competitiveness of business in Coventry, South. [56762]

John Healey: The pre-Budget-report provided an assessment of progress against HM Treasury's five drivers of productivity, across the whole of the UK economy, and identified action needed by Government to provide the right environment for businesses competing in the global environment. The Government want a successful and dynamic business sector with more companies moving into high value manufacturing and services to meet the challenge of globalisation. The Government's strategy focuses on raising productivity and innovation across the whole UK economy, including Coventry, South.

Child Benefit

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer how many and what percentage of people are in receipt of child benefit in Crosby constituency. [56993]

Dawn Primarolo: I refer my hon. Friend to the answer I gave to her on 25 January 2006, *Official Report*, column 2214W.

Earnings

Andrew Gwynne: To ask the Chancellor of the Exchequer what the average earnings of full-time employees in Denton and Reddish constituency were in April in each year since 1997. [57826]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 13 March 2006:

The National Statistician has been asked to reply to your recent Parliamentary Question to ask what the average earnings of full-time employees in the Denton and Reddish constituency were in April each year since 1997. I am replying in her absence. (57826)

Average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full time employees on adult rates whose pay for the survey period was not affected by absence. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed.

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent. sample of all employees who are members of pay-as-you-earn (PAYE) scheme.

I attach tables showing Average Gross Weekly Earnings by parliamentary constituency for the years 1997 to 2005 for Full Time Employees on Adult Rates. These statistics are also available on the National Statistics website at:

Gross weekly (£) pay for full time employee jobs[1] by place of work

Denton and Reddish	*Median*	*Mean*
1997	297	328
1998	275	344
1999	307	376
2000	315	382
2001	326	422
2002	361	433
2003	362	472
2004	375	453
2004[2]	378	461
2005	402	479

[1] Employees on adult rates whose pay for the survey pay period was not affected by absence.

[2] Includes Supplementary survey data

Note:

The median replaces the mean as the headline statistic. The weighted mean is the sum of the weighted values divided by the sum of the weights. The median is the value below which 50 per cent. of employees fall. It is preferred over the mean for earnings data as it is influenced less by extreme values and because of the skewed distribution of earnings data.

Employment Statistics

Mr. Moss: To ask the Chancellor of the Exchequer what estimate he has made of the number of people employed in the *(a)* cultural industry and *(b)* sporting industry in the UK. [57246]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 13 March 2006:

The National Statistician has been asked to reply to your recent Parliamentary Question about employment in culture and sport in the United Kingdom. I am replying in her absence. (57246)

It is estimated from Annual Business Survey that there were 443 thousand employee jobs in cultural and recreational activities and 227 thousand in sporting activities in Great Britain in 2004. This is the latest period for which information is available.

As with any sample survey these estimates are subject to a margin of uncertainty.

EU Accession States

Mr. Denham: To ask the Chancellor of the Exchequer what estimate he has made of the number of citizens of EU accession states who are living in each district and unitary council area. [57751]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 13 March 2006:

The National Statistician has been asked to reply to your Parliamentary Question about citizens of EU accession states. I am replying in her absence. (57751)

Ten EU accession states (Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia) joined the EU in May 2004. The table attached shows estimates of the number of citizens of these countries who are resident in each unitary and local authority in Great Britain, where estimates are available. They are from the Annual Population Survey for the 12 months ending December 2004. Sample numbers are insufficient to provide estimates for other areas.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. The data shown in the table are the most recent available, and only part of the period covered is after the May 2004 date of accession. It is planned that up-to-date data for the 12 months ending September 2005 will be available in April 2006.

HM Revenue and Customs (Isle of Wight)

Mr. Andrew Turner: To ask the Chancellor of the Exchequer what assessment has been made by HM Revenue and Customs of the likely impact of the removal of processing and compliance work from the Newport, Isle of Wight, office on *(a)* residents and *(b)* local businesses on the Isle of Wight. [58254]

Dawn Primarolo: HMRC carries out a detailed social, economic and service delivery impact assessment as part of the process at looking at individual locations which may be subject to reorganisation. This assessment also looks at the effect on staff and the provision of services for customers.

As a result of this assessment, HMRC will continue to retain a presence on the Isle of Wight including an inquiry centre.

Inheritance Tax

Dr. Gibson: To ask the Chancellor of the Exchequer what plans he has to change the rules on inheritance tax. [57116]

Dawn Primarolo: All aspects of the tax system are kept under review.

Microgeneration

Alan Simpson: To ask the Chancellor of the Exchequer what *(a)* fiscal and *(b)* legal measures his Department is supporting to promote microgeneration in domestic energy efficiency programmes. [57561]

John Healey: The Government have introduced a reduced rate of VAT of 5 per cent. for the installation of a range of microgeneration technologies. This rate applies to solar panels, wind turbines, water turbines, ground-source heat pumps, air-source heat pumps, micro-combined heat and power generators and wood-fuelled boilers.

Mortality Rates (Hyndburn)

Mr. Pope: To ask the Chancellor of the Exchequer what the *(a)* mortality rate for (i) chronic lung disease, (ii) coronary heart disease and (iii) all forms of cancer, *(b)* neo-natal mortality rate and *(c)* perinatal mortality rate was in Hyndburn in (A) 1997 and (B) the last year for which figures are available. [57567]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 13 March 2006:

The National Statistician has been asked to reply to your recent question concerning what the *(a)* mortality rate for (i) chronic lung disease, (ii) coronary heart disease and (iii) all forms of cancer, *(b)* neonatal mortality rate and *(c)* perinatal mortality rate was in Hyndburn in (A) 1997 and (B) the last year for which figures are available. I am replying in her absence. (57567)

The latest year for which figures are available is 2004. These are provided in the table below. The table also shows figures for 1997, adjusted to take account of revisions to the International Classification of Diseases, where appropriate.

Death rates[1] from chronic lung disease, malignant cancers and coronary heart disease[2] and neonatal[3] and perinatal[4] death rates for Hyndburn local authority[5] 1997 and 2004[6]

	Mortality rates	
	1997	*2004*
Chronic lung disease	83.3	34.0
Cancer	224.4	187.9
Coronary heart disease	223.6	134.8
Neonatal deaths	7.5	6.3
Perinatal deaths	13.1	9.9

[1] Rates per 100,000 population standardised to the European Standard Population.
[2] The causes of death for 2004 were defined using the International Classification of Diseases, Tenth Revision (ICD-10) Chronic lung disease (Chronic lower respiratory disease)—ICD-10 J40-J47
Cancer (malignant neoplasms)—ICD-10 C00-C97

Coronary heart disease—ICD-10 120–125
Deaths were selected using the original underlying cause.
The causes of death for 1997 were defined using the International Classification of Diseases, Ninth Revision (ICD-9).
The codes used are listed:
Chronic lung disease (Chronic lower respiratory disease)—ICD-9 490–494, 496
Cancer (malignant neoplasms)—ICD-9 140–208
Coronary heart disease—ICD-9 410–414
The introduction of ICD-10 for coding cause of death in England and Wales in 2001 means that data for chronic lung disease and cancer are not completely comparable with data for years before this date. The effect of the change in classification in 2001 on deaths from these causes is described in a report published in May 2002:
Office for National Statistics. Results of the ICD-10 bridge coding study, England and Wales, 1999. Health Statistics Quarterly 14 (2002), 75–83.
For chronic lung disease (chronic lower respiratory disease) and cancer (malignant neoplasms) the introduction of ICD-10 caused an increase of 3.2% and 2.3% respectively in the number of deaths coded to these conditions in England and Wales. Deaths in 1997 from these causes have been adjusted to provide rates which are comparable with those for 2004.

[3] Deaths under four weeks per 1,000 live births.

[4] Deaths under one week plus stillbirths per 1,000 total live and stillbirths.

[5] Usual residents of Hyndburn local authority. Deaths were assigned to this area using the November 2005 All Fields Postcode Directory.

[6] Deaths registered in each calendar year.

Northern Ireland Nationals

Chris Ruane: To ask the Chancellor of the Exchequer how many people living in *(a)* Scotland, *(b)* England and *(c)* Wales in 2001 were born in Northern Ireland, broken down by age band. [57371]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Colin Mowl, dated 13 March 2006:

The National Statistician has been asked to reply to your recent question asking how many people living in *(a)* Scotland, *(b)* England and *(c)* Wales in 2001 were born in Northern Ireland, broken down by age. I am replying in her absence. (57371)

The answers to this question can be obtained from the population censuses undertaken in England and Wales, Scotland and Northern Ireland in 2001. This letter provides the information requested on England and Wales. All enquiries for Scottish 2001 Census data should be directed to the General Register Office Scotland.

A special analysis (known as C0643) has been run to identify the number of people living in England and Wales on Census day (29 April 2001) who were born in Northern Ireland, broken down by single year of age. This table has been placed in the House of Commons Library and can also be requested from 2001 Census Customer Services census.customerservices@ons.gsi.gov.uk

Yours sincerely

Population Statistics

Mr. Drew: To ask the Chancellor of the Exchequer what his estimate is of the population of *(a)* Gloucestershire and *(b)* Stroud constituency; and what assessment he has made of the likely population growth in each area in each of the next 10 years. [57239]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 13 March 2006:

The National Statistician has been asked to reply to your question regarding estimates of the population of *(a)* Gloucestershire and *(b)* the Stroud constituency and population growth in the next 10 years. I am replying in her absence. (57239)

The attached table provides the mid-2004 estimate of population, the latest available. The table also shows population projections and growth for Gloucestershire for mid-2005 to mid-2016. These projections are based on mid-2003 population estimates and are the latest projections available. They assume that local trends in fertility, mortality and migration over the reference period 1999 to 2003 will continue into the future. Therefore they may not be directly comparable with the mid-2004 population estimate.

The Office for National Statistics does not currently produce mid-year population estimates or projections by parliamentary constituency. The most recent population figure available for the Stroud parliamentary constituency is from the 2001 Census, and is 100,299 people.

Mid-2004 population estimates and 2003-based subnational population projections for Gloucestershire

Thousands	Population	Projected growth
2004	572.8	—
2005	574.6	—
2006	577.7	+3.1
2007	580.9	+3.2
2008	584.1	+3.1
2009	587.1	+3.1
2010	590.2	+3.1
2011	593.3	+3.1
2012	596.5	+3.2
2013	599.7	+3.2
2014	602.9	+3.2
2015	606.1	+3.3
2016	609.4	+3.3

Notes:
1. The population projections shown in this table are taken from the 2003-based subnational population projections, the latest set of projections currently available. Therefore they may not be directly comparable with the mid-2004 population estimate presented in the first row.
2. Figures are rounded to the nearest 100.
Source:
Office for National Statistics.

Mr. Hoban: To ask the Chancellor of the Exchequer what the population was of *(a)* each borough in Hampshire, *(b)* Southampton and *(c)* Portsmouth in each year since 1997. [57923]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 13 March 2006:

The National Statistician has been asked to reply to your question regarding estimates of the population of *(a)* each borough in Hampshire, *(b)* Southampton *(c)* Portsmouth in each year since 1997. I am replying in her absence. (57923).

The table below provides the requested information. More detailed information is available from the National Statistics Website and is linked from the following page: www.statistics.gov.uk/popset under "Population Estimates—Current Datasets".

Mid-1997 to mid-2004 Population Estimates for Hampshire boroughs, Southampton UA and Portsmouth UA

Thousand	1997	1998	1999	2000	2001	2002	2003	2004
Hampshire	1,217.8	1,223.0	1,232.8	1,236.4	1,241.4	1,244.7	1,251.0	1,253.4
Basingstoke and Deane	149.2	149.2	151.2	152.2	152.9	153.5	154.4	155.4
East Hampshire	108.5	107.8	108.6	108.8	109.4	109.8	110.2	110.7
Eastleigh	111.0	111.1	114.5	115.9	116.3	116.0	115.9	116.0
Fareham	105.3	105.7	106.2	107.1	108.2	108.6	109.0	108.7
Gosport	76.9	76.8	76.4	76.8	76.7	76.8	77.4	77.0
Hart	82.9	82.6	83.0	83.1	83.6	84.5	85.7	86.7
Havant	116.8	117.0	117.3	117.3	116.9	116.6	116.3	115.7
New Forest	168.6	168.5	169.2	169.3	169.5	170.4	171.2	171.5
Rushmoor	86.9	89.2	90.5	89.4	90.9	90.1	90.0	88.8
Test Valley	106.6	108.3	108.7	109.3	110.0	110.4	111.3	111.8
Winchester	105.2	106.9	107.3	107.4	107.3	108.1	109.6	111.0

Office for National Statistics

Private Buildings (VAT)

Mr. Whittingdale: To ask the Chancellor of the Exchequer if he will apply to the European Commission to exercise an option to introduce a reduced rate of VAT on the labour input of renovation and repair work to private buildings; and if he will make a statement. [57902]

Dawn Primarolo: The Government have only introduced reduced rates where they offer the best-targeted and most efficient support for our social objectives. The VAT reduced rate for the renovation and repair of private dwellings is one of a number of reduced rates introduced into EU legislation on an experimental basis whose objective is to create employment opportunities by stimulating demand through lower prices. The Government have always chosen not to participate, as we believe that our employment objectives are better targeted through measures such as the welfare to work strategy and new deal, which have contributed to the 2.3 million rise in employment since 1997.

Securities Transactions

Mr. Hoban: To ask the Chancellor of the Exchequer what discussions he has had with the European Commission on the implications for UK tax revenues of cross-border clearance and settlement of securities transactions within the European Union. [57916]

Dawn Primarolo: There have been no such discussions.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer how many tax credit claimants are receiving regular manual payments as a result of computer error. [56942]

Dawn Primarolo: I refer the hon. Member to the answer I gave the hon. Member for Fareham (Mr. Hoban) on 7 March 2006, *Official Report*, column 1305–06W.

Mr. Laws: To ask the Chancellor of the Exchequer what alterations are being made to his Department's computer system for the change to the tax credit disregard level in April 2006. [56943]

Dawn Primarolo: The tax credit computer system will change the value of the income disregard figure from £2,500 to £25,000.

Mr. Laws: To ask the Chancellor of the Exchequer how many referrals members of staff at the tax credit office made to their IT support system in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date. [56945]

Dawn Primarolo: The information is not available.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 7 March 2006 to questions 50599 and 50642, on tax credits, for what reason claimants are receiving regular manual payments instead of automated payments; when such payments first started to be made; how many unposted individual cheque encashments there were at the end of each month since April 2005; and what steps are being taken to ensure that all claimants receive regular automatic payments. [57914]

Dawn Primarolo: For the reasons for issuing manual payments I refer the hon. Member to the reply given to the hon. Member for Birmingham, Yardley (John Hemming) on 10 October 2005, *Official Report*, column 325W.

Manual payments have been issued, where necessary, since tax credits were introduced in April 2003.

The number of unposted individual cheque encashments for each month since April 2005 is not available.

HMRC seeks to put automated payments in place as quickly as possible.

VAT Relief (Antiques)

Mr. Hands: To ask the Chancellor of the Exchequer whether an item imported to the United Kingdom over 100 years after its production is eligible for antique value added tax relief; and if he will make a statement. [57112]

Dawn Primarolo: Antiques which are in excess of 100-years-old which are not a work of art or pearls or loose gemstones are eligible for a reduced valuation on importation under section 21(4) and section 21(5)*(c)* of the Value Added Tax Act 1994 as amended.

Volunteer-run Post Offices

Tim Farron: To ask the Chancellor of the Exchequer if he will introduce a zero tax band for volunteer-run post offices. [56565]

Dawn Primarolo: The Government keep all taxes under review and any changes to taxation are considered as part of the normal Budget process.

CONSTITUTIONAL AFFAIRS

Clinical Negligence

Mr. Baron: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 17 January 2006, *Official Report*, column 1211W, on clinical negligence, what proportion of the legally-aided clinical negligence cases that were closed in the last year in which the solicitors reported a substantive benefit to the client were settled without regard to the merits of the case and for reasons of the health service defendant seeking to avoid or limit irrecoverable legal costs. [57915]

Bridget Prentice: The Legal Services Commission (LSC) does not hold information on the reasons why defendants settled out of court in cases where they have funded the plaintiff.

Coroners (Northern Ireland)

Mark Durkan: To ask the Minister of State, Department for Constitutional Affairs how many coroner's cases in Northern Ireland have yet to be concluded; what the average time taken for the

completion of a coroner's case was in each of the last five years; when the longest outstanding coroner's case commenced; and what plans she has to allocate additional resources to the coroner's office. [57718]

Bridget Prentice: On 8 March 2006 1,326 cases which had been reported to the coroner were awaiting a determination.

Information on the average time taken for the completion of a coroner's case is not available. A new IT system has recently been introduced in the coroner's office which will allow this information to be provided in future years.

The longest outstanding case currently awaiting determination was received in 1990 and relates to two deaths on 9 October 1990.

A range of improvements to the coroner service for Northern Ireland are being introduced from 3 April this year. Under these improvements the coroner service will be headed by a High Court Judge supported by three full-time coroners. Additional staff resources, including coroners' liaison officers, will be appointed to improve liaison with bereaved families.

Electoral Reform

James Duddridge: To ask the Minister of State, Department for Constitutional Affairs what representations she has received from the Association of Electoral Administrators concerning electoral modernisation. [53707]

Ms Harman: My Department regularly communicates with the Association of Electoral Administrators about improvements to electoral administration. This includes modernisation work such as the Co-ordinated Online Record of Electors (CORE) and the Electoral Modernisation Pilots at the May 2006 local elections that I announced to the House on 14 February 2006. This communication includes informal discussions, work on specific projects, including having AEA representatives on a number of project boards, and occasionally formal responses to consultation exercises such as that recently conducted on CORE, to which the association itself, and a number of its branches, have recently provided a response.

Legal Aid (Northern Ireland)

Dr. McCrea: To ask the Minister of State, Department for Constitutional Affairs how many people have been granted legal aid in each Northern Ireland parliamentary constituency during the last 12 months. [58143]

Bridget Prentice: The number of applications for legal aid granted in 2004–05 is 38,151 and is broken down as follows:

	Granted
Assistance by Way of Representation	4,186
Children Order	4,712
Civil Legal Aid	8,825
Criminal Legal Aid	20,428

In addition, there were 55,904 claims for (Green Form) Legal Advice and Assistance in 2004–05.

To provide the information by constituency would involve a manual review of records. Given the large number of cases involved this would incur a disproportionate cost.

Personal Injury Claims

Mr. Hoyle: To ask the Minister of State, Department for Constitutional Affairs (1) what assessment has been made of the effect of increasing the small claims limit for personal injury claims to £5,000 on the number of *(a)* individuals (i) seeking legal advice and (ii) using solicitors and *(b)* cases being taken to the Small Claims Court; [56727]

(2) what assessment she has made of the recommendation by the Better Regulation Task Force to increase the small claims limit for personal injury claims to £5,000; and if she will make a statement. [56726]

Bridget Prentice: The Better Regulation Task Force in its report, 'Better Routes to Redress' recommended that research should be carried out into the potential impact of raising the small claims limit for personal injury cases from the current limit of £1,000. The Government indicated that it would carry out this research and would also consider other options for dealing with these claims in a more proportionate and cost effective way. This work is currently under way.

Specialist Advice

Mr. Jenkins: To ask the Minister of State, Department for Constitutional Affairs what representations she has received from citizens advice bureaux in *(a)* England and *(b)* Staffordshire on the decision of the Legal Services Commission to withdraw funding for specialist advice on complex cases. [57853]

Bridget Prentice: To date, the Department has received:

90 for the whole of England

None for Staffordshire

Mr. Jenkins: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the decision of the Legal Services Commission to withdraw funding for specialist support from Citizens Advice Bureaux. [58110]

Bridget Prentice: I refer my hon. Friend to the answer I gave to the hon. Member for Twickenham (Dr. Cable) on 2 March 2006, *Official Report*, column 932W.

TRADE AND INDUSTRY

Citibank

Mr. MacNeil: To ask the Secretary of State for Trade and Industry when *(a)* he and *(b)* officials from his Department last met officials from Citibank International plc. [58298]

Barry Gardiner: Neither my right hon. Friend the Secretary of State for Trade and Industry nor any DTI officials have ever met with Citibank International plc. about the Post Office Card Account.

Citizen's Advice

Mr. Bone: To ask the Secretary of State for Trade and Industry what the planned funding is for the national organisation of Citizen's Advice in 2006–07; and how much funding was provided in each of the last five years. [57229]

Mr. Sutcliffe: The Department has not yet decided on the level of funding for Citizens Advice in 2006–07. Information on the amount of DTI funding for Citizens Advice for past financial years is published in their Annual Reports, copies of which are in the Libraries of the House.

Ben Chapman: To ask the Secretary of State for Trade and Industry what funding the Department have made available to Citizens Advice Bureaux in 2005–06; and whether the Department attaches conditions on geographical distribution to the funding. [56992]

Mr. Sutcliffe: The Department provides funding for Citizens Advice, the national umbrella organisation for the Citizens Advice service in England and Wales. It also provides funding for Citizens Advice Scotland. It does not provide any funding for the individual Citizens Advice Bureaux in the UK.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Trade and Industry when he intends to answer the letter dated 12 December 2005 from the right hon. Member for Manchester, Gorton, with regard to Mr. Paul Miller transferred by the Secretary of State for Work and Pensions. [55759]

Alan Johnson: I responded to my right hon. Friend's letter on 12 January. It has also been passed to the Office of the Deputy Prime Minister to reply to issues within their portfolio that your constituent raised.

Counterfeit Packaging

Mr. Drew: To ask the Secretary of State for Trade and Industry if he will seek to legislate against the use of counterfeit packaging. [56316]

Barry Gardiner: The Government are not convinced that the law is deficient in this specific area.

However the Government have identified counterfeiting and piracy as a growing international threat and work has been moving forward through the multi agency National IP Crime Group, involving Government, enforcement and key industry sectors to deliver better-targeted enforcement action. Within the National IP Crime Group a specific Brands Expert Group is expressly looking at counterfeiting issues and practices related to product packaging.

We have also asked Andrew Gowers to lead an independent review of the UK's intellectual property framework. It will examine whether improvements could be made, especially in the context of rapid technological change and globalisation. The review team's call for evidence is available on the Review website at www.hm-treasury.gov.uk/gowers

Moreover the Government will continue to take an active part in discussions within the European Community on the legal framework for enforcement, taking account of the interests of consumers and brand owners.

Departmental Equipment

Mrs. Villiers: To ask the Secretary of State for Trade and Industry how many *(a)* laptops and *(b)* mobile phones his Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41264]

Alan Johnson: My Department does not buy but leases mobile phones and IT equipment including laptops.

Occasionally it is necessary to buy items directly but this information is not held centrally and can be obtained only at disproportionate cost.

This information covers the central Department. It does not include Executive Agencies who have devolved responsibility for IT security and expenditure.

Economic Competitiveness

Adam Afriyie: To ask the Secretary of State for Trade and Industry which international economic competitiveness data are taken into account by his Department when ranking the position of the UK against other countries as an international competitor. [56815]

Alan Johnson: A wide range of organisations such as KPMG and the World Economic Forum produce international competitiveness rankings, based on a variety of criteria. In addition, the Department produces an annual update of the Productivity and Competitiveness Indicators, which benchmark UK performance against the US, France and Germany. These look at performance on the Government's five key drivers of productivity, and, overall, give reason for optimism regarding UK productivity performance. But the real measures of the competitiveness of an economy is how well it is performing. On the basis the UK is doing well. GDP has grown for 54 consecutive quarters, the longest sustained expansion on record; the UK's employment rate is the highest among the G7 economies (bar Canada); and we are enjoying the longest period of sustained low inflation since the 1960s.

Emergency Services

Mr. Cox: To ask the Secretary of State for Trade and Industry what assessment he has made of the prevalence of hotels and other businesses barring direct calls to the emergency services; if he will introduce legislation to require direct connection to the emergency services by dialing 999 or 112 from any telephone; and if he will make a statement. [57254]

Alun Michael: The matter raised is the responsibility of the Regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than to Ministers. Accordingly, I have asked the chief executive of Ofcom to consider the issues raised by this question and both reply directly to the hon. Member

and to provide any appropriate advice to Ministers. Copies of the chief executive's letter will be placed in the Libraries of the House.

Energy Statistics (Scotland)

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what the *(a)* potential and *(b)* actual energy output from each power station in Scotland was in each year since 1997. [57211]

Malcolm Wicks: The Department collects information from electricity generating companies on the basis that information relating to individual companies is not disclosed in published statistics unless they are already publicly available. The available information on power stations in Scotland is contained in Table 5.11 of Chapter 5 of the Digest of United Kingdom Energy Statistics 2005, a copy of which is in the Libraries of the House and also available on the DTI website at www.dti.gov.uk/energy/inform/dukes/index.shtml. An extract showing only those power stations located in Scotland is given as follows along with the load factors for the latest available year (2004). Actual output is capacity multiplied by load factor multiplied by the number of hours in a year:

Power station name	*Company name*	*Fuel*	*Installed capacity (MW)*	*Year*[1]
Ardrossan	Airtricity	Wind	24	2004
Fort William	Alcan	Hydro	62	1929

Pumped storage	10.5
Conventional thermal and other stations[1]	47.7
Of which: coal-fired stations	62.0
Wind (onshore)	26.6

[1] Conventional steam plants, gas turbines and oil engines and plants producing electricity from renewable sources other than hydro and wind.

Farnborough Air Show

Nick Harvey: To ask the Secretary of State for Trade and Industry what support his Department is giving to the organisers of the Farnborough Air Show; and whether his Department is providing assistance to enable overseas visitors to attend. [57135]

Alun Michael: Farnborough received high-level UK Government backing from UK Trade and Investment (UKTI) (which is sponsored jointly by the Department of Trade and Industry and the Foreign Office) as well as from DTI itself and from devolved Administrations, regional organisations, the Ministry of Defence.

UKTI, the Defence Exports Services Organisation and Scottish Development International are all collaborating with the Society of British Aerospace Companies to ensure a co-ordinated government and industry approach at the show.

In particular UKTI is providing logistical and financial support to a series of carefully structured meetings between prospective overseas buyers/investors and UK industry. Some 40 overseas companies will be hosted by UKTI and will meet up to 200 UK companies in structured meetings.

The value of this type of activity was proven at the Farnborough International 2004 to have generated over £3.3 million of business to UK SMEs.

There will also be a strong regional government presence at the show supporting regional initiatives and activities.

Fuel Poverty

Sandra Gidley: To ask the Secretary of State for Trade and Industry what assessment he has made of the

potential impact of the recent energy price increase on the number of people in fuel poverty; and if he will make a statement. [57321]

Malcolm Wicks: Analysis of the overall effects of changes in fuel prices and incomes, excluding consideration of energy efficiency improvements, suggests that the total number of vulnerable households in fuel poverty is likely to rise by around one million households in England between 2003 and 2006, with a proportionate increase in the devolved Administrations. This is based on a range of price and income assumptions underlying the Energy Review consultation document published on 23 January 2006.

Work on the best way to tackle fuel poverty in the light of rising energy prices is being taken forward in the context of the Energy Review.

A household is said to be fuel poor if it needs to spend more than 10 per cent. of its income on all fuel use and to heat the home to an adequate standard of warmth. A vulnerable household is one containing children or someone who is elderly, or sick or disabled.

Gas and Electricity Prices

Mr. Lancaster: To ask the Secretary of State for Trade and Industry what the average price of *(a)* gas and *(b)* electricity was in each year since 1997. [57431]

Malcolm Wicks: Prices for gas and electricity are shown for domestic and industrial consumers. The average annual prices for each fuel since 1997 in pence per kilowatt-hour (p/kWh) are as follows. These are in cash terms and have not been adjusted for inflation.

	Domestic (p/kWh)		*Industrial (p/kWh)*	
	Gas	*Electricity*	*Gas*	*Electricity*
1997	1.8	7.6	0.6	4.0
1998	1.7	7.3	0.6	3.9
1999	1.7	7.2	0.6	4.0
2000	1.7	7.1	0.6	3.7
2001	1.7	7.0	0.9	3.6
2002	1.8	7.0	0.9	3.5
2003	1.9	7.1	0.9	3.4
2004	2.0	7.5	1.0	3.7
2005p	2.2	8.2	1.2	4.6

Gershon Review

Greg Clark: To ask the Secretary of State for Trade and Industry what administrative savings, including reductions in administrative staff, have been made by the Natural Environment Research Council as part of the Gershon Review. [56740]

Barry Gardiner *[holding answer 9 March 2006]:* As part of the Gershon review, the Natural Environment Research Council (NERC) has agreed to save a total £22.6 million, including administrative savings of £800,000, by the end of 2007–08. This is part of the Research Councils contribution of £170 million towards the DTI efficiency delivery program. NERC is currently ahead of its agreed target towards achieving this.

National Transmission System

Sir Robert Smith: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact on the wholesale gas market of the increased information available on flows of gas into the National Transmission System through the programme sponsored by his Department. [57836]

Malcolm Wicks: Increased information flows have been made available this winter through National Grid's website as the result of voluntary arrangements agreed with the oil and gas production industry. The Department will be reviewing the benefits that have accrued as a result as well as the scope for provisions of information about other factors affecting gas flows into the National Transmission System.

New Businesses

Mike Penning: To ask the Secretary of State for Trade and Industry what percentage of businesses in *(a)* Hertfordshire and *(b)* South-East England were start-up businesses in each year since 1997; and if he will make a statement. [57806]

Alun Michael: DTI figures based on the ratio of new VAT registrations to total VAT registered stock for Hertfordshire and the South and Eastern Government Office Regions of England are shown below for 1997 to 2005. Data for 2006 will be available in autumn 2006.

Ratio of new VAT registrations in the previous 12 months to the registered stock at the start of the year

Percentage

Source:

Data derived from Business Start-ups and Closures: VAT Registrations and De-registrations 1994–2004, Small Business Service, available in the Library of the House and also at http://www.sbs.gov.uk/vats

VAT registrations only provide a broad indicator of business start-up activity, since they do not capture all new businesses. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold (currently £60,000). Only £1.8 million out of £4.3 million enterprises were registered for VAT at they start of 2004. Barclays Bank produce estimates of start-ups based on business bank account activity, which include non-VAT registered firms. According to Barclays there were 8,500 business start-ups in Hertfordshire in 2003 and further 8,600 in 2004. Data on the total number of businesses is not available at county level.

DTI figures based on the ratio of Barclays new business start-ups in 2003 to the total number of businesses in 2003, show that new businesses accounted for 11 per cent. of all businesses in the East of England Government Office Region, 13 per cent. of all businesses in the London Government Office Region and 11 per cent. of all businesses in the South East Government Office Region. Data prior to 2003 are not available. Data for 2005 will be available in autumn 2006.

Post Office

Mr. MacNeil: To ask the Secretary of State for Trade and Industry how many Post Office branches have closed in Scotland in each year since 1992. [58302]

Barry Gardiner: This is an operational matter for Post Office Ltd. (POL). Alan Cook, the Managing Director, has been asked to reply direct to the hon. Member.

Clive Efford: To ask the Secretary of State for Trade and Industry what steps he has taken to ensure that companies awarded contracts to run main post offices employ properly trained and suitably skilled staff. [57274]

Barry Gardiner: This is an operational matter for Post Office Ltd. Alan Cook, the Managing Director, has been asked to reply direct to my hon. Friend.

Clive Efford: To ask the Secretary of State for Trade and Industry (1) how many main post offices have been franchised to the private sector; and what steps he is taking to monitor *(a)* the quality of services they provide and *(b)* the number of complaints from the public; [57276]

(2) what steps he has taken to ensure that customers in-service levels are maintained when post offices are franchised to the private sector; [57275]

(3) whether he has evidence of companies applying for post office franchises under multiple names; and if he will make a statement; [58247]

(4) what steps he has taken to investigate the background of companies applying for post office franchises; and if he will make a statement. [58246]

Barry Gardiner: These are operational matters for Post Office Ltd. Alan Cook, the Managing Director, has been asked to reply direct to the hon. Member.

Andrew Gwynne: To ask the Secretary of State for Trade and Industry how many post offices in *(a)* Tameside metropolitan borough and *(b)* Stockport metropolitan borough are franchised to the private sector; and what steps he is taking to monitor (i) the quality of service they provide and (ii) the number of complaints received from the public. [57830]

Barry Gardiner: This is an operational matter for Post Office Ltd. (POL). Alan Cook, the Managing Director, has been asked to reply direct to my hon. Friend.

Power Generators

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry what the Government's policy is on promoting demand side management by power generators. [57362]

Malcolm Wicks: This winter has seen substantial levels of demand reduction from gas-fired power generators as a normal commercial response to increases in the price of gas, suggesting that there is no need for Government to intervene to promote demand side response from this sector.

Research Station Closures

Greg Clark: To ask the Secretary of State for Trade and Industry if he will list the statutory bodies that have made submissions to the consultation on the proposed closure of four research stations run by the Centre for Ecology and Hydrology. [56741]

Barry Gardiner *[holding answer 9 March 2006]:* The Centre for Ecology and Hydrology (CEH) is wholly owned by the Natural Environment Research Council (NERC). In December 2005, NERC announced a consultation on its proposals on how CEH can contribute to UK Environmental science on a sustainable basis.

I have asked the chief executive of NERC to write to the hon. Member concerning his request.

Greg Clark: To ask the Secretary of State for Trade and Industry what recent developments there have been in the proposed closure of research stations run by the Centre for Ecology and Hydrology. [57081]

Barry Gardiner *[holding answer 9 March 2006]:* The Centre for Ecology and Hydrology (CEH) is wholly owned by the Natural Environment Research Council (NERC). In December 2005, NERC announced a consultation on its proposals on how CEH can contribute to UK Environmental science on a sustainable basis. NERC Council met on 8 March 2006 to consider an assessment of the input to this consultation from stakeholders. NERC expects to announce Council's decision shortly.

Small Businesses

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what percentage of small businesses in the United Kingdom failed within their first year of operation in 2005. [56989]

Alun Michael: The Small Business Service uses VAT registration and de-registration data to estimate the failure rate of businesses. Businesses can be tracked from the time that they first register for VAT until the time they de-register. VAT data covers businesses of all sizes, although the majority of businesses which register for the first time are small.

8 per cent. of UK businesses registering for VAT in 2003 had de-registered within one year. These data are available at www.sbs.gov.uk/survival. Figures for 2004 will be available in winter 2006–07.

VAT registration and de-registration data do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold. Similarly, businesses that de-register will not necessarily have failed. Only 1.8 million out of 4.3 million enterprises were registered for VAT at the start of 2004. Failure rates based on VAT data will therefore only provide an indication of true failure rates of small businesses.

South West Regional Development Agency

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry if he will list the UK companies in each county in the South West Region which have received assistance from the South West Regional Development Agency since it was set up. [55183]

Alun Michael: I am told by the South West of England Regional Development Agency (SWRDA) that it delivers assistance to business in a variety of ways, some directly but a great deal indirectly through intermediary organisations, such as Marine South West, South West Food and Drink, and South West Screen. For the purposes of this reply I am including information where the RDA has provided direct financial assistance to companies.

The Agency's ability to assist individual companies is limited, by EU State Aid Regulations. There are a number of State Aid Exemptions which allow financial assistance in particular circumstances, so the Agency's use of these schemes and the companies assisted are included at Annex A.

The Agency has administered two DTI grants—Enterprise Grant Scheme, Regional Selective Assistance and currently administers a further two—Selective Finance for Investment in England, and Research and Development Grant scheme. Details of companies assisted through these grants are at Annex B.

From this establishment, RDAs administered a number of programmes from successor organisations. The Redundant Building Grant provided financial assistance to a large number of private enterprises within de minimus State Aid regulations to assist with the refurbishment of redundant agricultural buildings. The Agency also administered a large number of small scale grants to companies during the foot and mouth crisis. Due to the large number of grants awarded, it is not possible to provide individual information on the companies assisted.

Annex A

Companies assisted through the Partnership Investment Programme (former English Partnerships State Aid exempt scheme) in Cornwall

Estates and General Plc.—Unit at Hayle Industrial Park.

Charville Estates (Redruth) Ltd.—Alma Place, Redruth

Charville Estates (Penzance) Ltd.—Wharfside Shopping Centre, Penzance Mylor

Yacht Harbour Ltd.—Mylor Yacht Harbour

Midas Commercial Developments Ltd.—Site F, Saltash Parkway

Percy Williams and Sons Ltd.—Back Lane West, Redruth

Companies assisted though the State Aid exempt Gap funding scheme in Cornwall

Tripos Receptor Research—Tripos Development, Bude

Research Instruments

Hydra

Other State Aid exempt schemes

Crest Nicholson, a developer on the Gloucester Docks project received grant assistance under an EU approved Heritage gap funding scheme for the refurbishment of the derelict Grade 2 listed Biddle and Shipton warehouse

Summary 1999–2005

	Total successes
Number of investments	157
Jobs created	10,637
Jobs safeguarded	6,349

Notes:
1. The investments listed are ones where SWRDA was involved.
2. Numbers were correct at the time the investment was made.
3. Jobs created is a predictive figure ie at the time of the investment the amount of jobs the company believed it would create.
4. Some companies appear more than once as SWRDA has subsequently been involved in retaining or expanding the investing company.

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry if he will list the consultants employed by the South West Regional Development Agency in each of the last five years; and how much was paid to each. [55269]

Alun Michael: I am advised by the South West of England Regional Development Agency that it is not possible to provide this information as the Agency does not have a single accounting code within its budgets to which consultancy costs are charged. Consultancy costs are charged and coded against individual projects and Agency activities.

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry how many complaints have been received from companies by the South West Regional Development Agency in the last five years; and what action was taken in each case. [55270]

Alun Michael: I am told by the South West of England Regional Development Agency that it has handled two formal complaints from companies, (steps 2–4 as outlined in the agency's complaints procedure). One case is currently being considered by the Parliamentary Ombudsman. The other case, was investigated by an officer at the agency, who provided answers and information, as far as it was available, to the company.

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry how many flagship sites the South West Regional Development Agency controls; and what estimate he has made of the capital cost of each. [55285]

Alun Michael: I am informed by the South West of England Regional Development Agency that it owns a number of major sites in the region including:

	Project approval value £000
Temple Quay, Bristol	20,383
Tolvaddon, Cornwall	4,418
SPark, (Bristol Science Park)	30,300
Dursley (Lister Petter site)	19,100
Gloucester Docks	17,697
Plymouth International Business Park	11,418
Osprey Quay, Portland	18,150
Former RAF Locking, Weston-super-Mare	7,500
Bristol Arena	9,150
Morlands	15,615
Royal William Yard	41,477

Annexe B

Enterprise Grant Scheme:

Enterprise Grant Scheme began on 1 January 2000.as a simplified discretionary scheme for Small and Medium Enterprises (SME's) in the Assisted Areas (Tier 1 and Tier 2) and in specified non-Assisted Areas (Tier 3). Those three tiers were referred to collectively as Enterprise Grant Areas.

The EGS grant closed for new applications on 31 March 2004 and was replaced by the Selective Finance for Investment in England (SFIE) grant on 1 April 2004. Responsibility of the EGS grant was transferred from Government Office of the South West to the South West RDA on 1 April 2004.

Regional Selective Assistance (Rsa):

RSA began in July 2000. A discretionary grant which providing assistance towards projects with fixed capital expenditure over £500,000 and created and safeguarded employment in the Assisted Areas (Tier 1 and Tier 2).

The RSA grant closed for new applications on 31 March 2004 and was replaced by the Selective Finance for Investment in England (SFIE) grant on 1 April 2004. Responsibility of the RSA grant was transferred from Government Office of the South West to the South West RDA on 1 April 2002.

Selective Finance For Investment In England (Sfie):

SFIE began on 1 April 2004. Introduced to replace Regional Selective Assistance (RSA) and Enterprise Grant Scheme (EGS) in the Assisted Areas and offers a more limited form of assistance in Tier 3 areas, similar to that available under EGS. Under SFIE there is a minimum threshold for grant applications of £10,000. The grant maximum in Tier 3 areas is £100,000. Applications of less than £100,000, in both the Assisted Areas and Tier 3, will not require job creation or safeguarding to be eligible for support.

The list following is for all applications (82 in total) by county and company name where claims have been paid by the South West RDA. All the companies listed are UK based, with some being owned by foreign companies.

County/company	*Foreign or UK owned*	*Grant scheme*

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry what the cost of capital assistance provided by the South West Regional Development Agency has been in the last five years, broken down by county. [55316]

Alun Michael: I am told by the South West of England Regional Development Agency that it does not hold information on capital assistance provided by county. As a strategic across county, or unitary, boundaries. The Agency's investment figures in support of projects and activities across the south west for the last five years are as follows:

	£000
2004–05	77,624
2003–04	72,106

	£000
2002–03	78,150
2001–02	64,070
2000–01	62,652

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry how many new jobs have been created by the work of the South West Regional Development Agency in the last five years, broken down by county. [55319]

Alun Michael: I am told by the South West of England Regional Development Agency that it does not hold information on jobs created by county. As a strategic organisation many of the activities in which it is involved operate at regional level, or across county, or unitary, boundaries. The Agency reports on a range of outputs that are directly attributable to its investment in support of projects and activities across the region, one of which is jobs created or safeguarded. The figures for jobs created/safeguarded for the last five years are as follows:

	Number of jobs created/ safeguarded
2004–05	6,060
2003–04	6,024
2002–03	6,508
2001–02	[1]10,415
2000–01	[1]10,876

[1] In 2002 the Agency changed its method of collecting output information from approval stage to using monitoring returns

Statutory Adoption Pay

Mr. Steen: To ask the Secretary of State for Trade and Industry if he will increase statutory adoption pay to the same level as statutory maternity pay. [57542]

Mr. Sutcliffe: Since its introduction in April 2003, Statutory Adoption Pay has been paid at the same standard rate and for the same length of time as Statutory Maternity Pay (SMP) and Maternity Allowance (MA). We intend to continue the existing approach as we increase both the standard rate and the payment period. The higher rate of SMP available to women for the first six weeks after the birth recognises the period of compulsory maternity leave, which is for health and safety reasons. The Work and Families Bill will enable us to meet our commitment to extend the payment period of SMP, MA and SAP from the current 26 weeks to 39 weeks from April 2007, with an ambition to extend to one year by the end of this Parliament.

Sunday Trading

Mr. Jenkins: To ask the Secretary of State for Trade and Industry whether the cost-benefit analysis of the impact of de-regulation of Sunday trading will assess *(a)* ancillary costs to the public sector of an extension of Sunday trading hours, *(b)* additional costs to non-retail businesses and *(c)* the impact on family and community life of changes to the Sunday working hours of retail staff. [58083]

Mr. Sutcliffe: The cost-benefit analysis will take into consideration the wider impacts of increasing Sunday trading hours where these can reasonably be assessed. We recognise that an economic cost benefit analysis will not be able to fully capture any social impact of further liberalisation, which is why we welcome views on all aspects of Sunday trading.

Mr. Jenkins: To ask the Secretary of State for Trade and Industry if he will list the *(a)* reports and *(b)* academic papers being considered by the consultants preparing the economic cost-benefit analysis of extended Sunday trading hours. [58084]

Mr. Sutcliffe: The cost-benefit analysis report, which will be published in spring 2006, will include a bibliography.

Mr. Jenkins: To ask the Secretary of State for Trade and Industry how many companies that operate stores with a floor area of *(a)* less than and *(b)* more than 3,000 square feet have been invited to make submissions to the consultation on extended Sunday trading hours. [58085]

Mr. Sutcliffe: All stakeholders, including retailers of all sizes, are welcome to provide comments to the Government on any aspect of further liberalisation of the Sunday trading laws.

Mr. Jenkins: To ask the Secretary of State for Trade and Industry for what reasons submissions to the consultation on extended Sunday trading hours were not invited from *(a)* police authorities and *(b)* local authorities; and if he will make a statement. [58086]

Mr. Sutcliffe: All stakeholders are welcome to provide comments to the Government on any aspect of further liberalisation of the Sunday trading laws.

Mr. Jenkins: To ask the Secretary of State for Trade and Industry whether the cost-benefit analysis of extended Sunday trading hours will take into consideration the provisions of the Christmas Day (Trading) Act 2004 when Christmas Day falls on a Sunday. [58109]

Mr. Sutcliffe: The Christmas Day (Trading) Act 2004 prohibits large shops from opening on Christmas Day, no matter on which day of the week it falls. The Government do not intend to revisit this issue.

Supermarkets

Mr. Stewart Jackson: To ask the Secretary of State for Trade and Industry when he will next meet officials of the Office of Fair Trading to discuss the operation of the Supermarket Code of Practice; and if he will make a statement. [58149]

Mr. Sutcliffe: My right hon. Friend the Secretary of State and Ministers meet with the Office of Fair Trading (OFT) on a regular basis to discuss topics of mutual interest.

The OFT has referred the grocery market to the Competition Commission.

Mr. Stewart Jackson: To ask the Secretary of State for Trade and Industry what steps the Office of Fair Trading takes to ensure local suppliers are able to

provide evidence on possible breaches of the Supermarket Code of Practice without affecting their future contracts with the supermarket. [58422]

Mr. Sutcliffe: Competition in the supermarket and grocery sectors is a matter for the independent competition authorities, in this instance the Office of Fair Trading (OFT). In August 2005 the OFT announced its intention to monitor the code more proactively, and as part of this it will:

Check regularly with supermarkets their procedures for complying with the code and how often and why their dispute procedures have been used; eg it will want to understand what kinds of dispute arise and how they are dealt with;

follow up complaints made to it under the code where those are put to the supermarket concerned to find out what the outcome is and what happens to that supplier post-complaint; and

take appropriate enforcement action against code breaches.

The OFT strongly recommends that suppliers seek written terms with the supermarkets, not least because this will help suppliers complain and help supermarkets demonstrate compliance more easily. The OFT would encourage suppliers who believe they have evidence of a breach of the code to bring their concerns in the first instance to the supermarkets in question, either individually or with the backing of their trade association.

Mr. Stewart Jackson: To ask the Secretary of State for Trade and Industry if he will ask the Office of Fair Trading to include small stores owned by the supermarkets in their assessment of the local market share held by the supermarket chains. [58423]

Mr. Sutcliffe: The Office of Fair Trading is currently consulting on its decision to refer the grocery market to the Competition Commission. The market features included in the proposed reference include developments in the convenience sector including the entry of the supermarkets into this area of grocery retailing.

Working Time Directive

Charles Hendry: To ask the Secretary of State for Trade and Industry what assessment has been made of the effects of the European working time directive on the permitted working hours of wardens in sheltered/ retirement housing schemes. [57900]

Mr. Sutcliffe: No assessment has been made on the effects of the working time directive specifically on the working hours of wardens who work in sheltered/ retirement housing schemes.

CABINET OFFICE

Departmental Properties

Norman Baker: To ask the Chancellor of the Duchy of Lancaster what properties were held by his Department on 1 May 1997; and what the *(a)* square footage of each property and *(b)* purpose to which each property was being put was in each case. [57909]

Mr. Jim Murphy: The properties held by the Cabinet Office on 1 May 1997 are shown in the table.

Property	*Use*	*Net internal area (m^2)*
10–12 Downing street	Office/residential accommodation	3,388
70 Whitehall	Office	7,895
36 Whitehall	Office	2,031
Admiralty House	Ministerial residences for non-Cabinet Office Ministers including conference facilities	1,367
13–15 Great Scotland Yard	Civil Service Club	988
1 Chadwick street	Civil Service Sports Council Recreation Centre	1,466
53 Parliament street	Office	892
Hepburn House	Office	1,578
11 Belgrave road	Office	224
[illegible]rnment Offices Great George street	Office	11,388
[illegible]ney House	Office	1,459
Queen Anne's Chambers	Office	2,186
Britannia House	Vacant office space and depot (former HMSO property) pending disposal	2,590
Dacre House	No Cabinet Office occupants—space let out to other tenants pending disposal	1,430
Alencon Link, Basingstoke	No Cabinet Office occupants—some vacant office space with other office space let out to other tenants pending disposal	9,685
St. Clements House, Norwich	Office	284
Sovereign House (Norwich-vacant)	Vacant office space (former HMSO property) pending disposal	12,820

Norman Baker: To ask the Chancellor of the Duchy of Lancaster what income was received in respect of each property held by the Cabinet Office in the last year for which figures are available. [57910]

Mr. Jim Murphy: The income received in respect of properties held by the Cabinet Office in the last full financial year (2004–05) for which figures are available is £4,614,480. The figure is based on charges to other Government Departments and private companies occupying space and making use of meeting rooms and training suites within Cabinet Office freehold and leased properties.

Norman Baker: To ask the Chancellor of the Duchy of Lancaster how much has been spent by the Cabinet Office on the acquisition of properties since 1 May 1997; what the *(a)* address, *(b)* cost and *(c)* date of acquisition was of each such property; how much has

been realised by the Cabinet Office from the disposal of properties since 1 May 1997; and what the (i) address, (ii) sale price and (iii) date of sale was of each. [57912]

Mr. Jim Murphy: A list of the properties acquired by the Cabinet Office between 1997 and 2006 is shown as follows.

Property

Admiralty Arch
22–26 Whitehall
35 Great Smith street
Stockley House (3 floors)
67 Tufton street
10 Great George street (four floors)
9 Whitehall
2 Little Smith street
7 St. James's Square
1 Horse Guards road (part of one floor)

Further information on the acquisition of properties since 1 May 1997 is not held centrally and could be provided only at disproportionate cost.

Information on how much revenue has been generated from the disposal of property since 1 May 1997 is shown in the table.

Property	*Address*	*Date of sale*	*Sale price (£)*
Alencon Link	Basingstoke, Hampshire	April 1999	1.3 million
Civil Service Sports Council	1 Chadwick St. London SW1	April 2003	4.1 million
Hill House	Picton Terrace, Carmarthen, Wales SA31 3BS	July 2003	100,000

Norman Baker: To ask the Chancellor of the Duchy of Lancaster on what date an energy audit was last carried out in respect of each property held by the Cabinet Office. [57913]

Mr. Jim Murphy: The Cabinet Office is currently working with the Carbon Trust to improve its energy management practices and identify likely areas for potential energy savings. As part of this, in August 2005 the Carbon Trust undertook an initial energy audit across a number of key buildings operated by the Cabinet Office. The Cabinet Office will shortly be signing up to the Carbon Trust's Carbon Management Programme (CTCMP) where a further and more in-depth energy audit will be undertaken. Both audits will assist the Cabinet Office in establishing a credible energy efficiency strategy.

Departmental Staff

Mr. Llwyd: To ask the Chancellor of the Duchy of Lancaster how many jobs in his Department have been relocated to Wales since 2001. [57691]

Mr. Jim Murphy: The Cabinet Office has not relocated any posts to Wales.

Qinetiq (Contracts)

Mr. Wallace: To ask the Chancellor of the Duchy of Lancaster how many contracts were awarded to Qinetiq by his Department *(a)* with and *(b)* without competitive tendering in (i) 2002–03, (ii) 2003–04 and (iii) 2004–05; and what the value of the contract was in each case. [42497]

Mr. Jim Murphy: The Cabinet Office's expenditure with Qinetiq for the years requested is shown in the table.

Cabinet Office expenditure with Qinetiq

	Expenditure (£)
2002–03	117,944.00
2003–04	119,109.00
2004–05	85,588.00

The information requested relating to contracts cannot be obtained in the format required without incurring disproportionate costs.

HEALTH

Cancer

Mr. Clappison: To ask the Secretary of State for Health what information she collects on survival rates for bowel cancer in other developed countries. [57219]

Ms Rosie Winterton: The Department does not collect information on survival rates for bowel cancer in other developed countries.

Comparable information on survival rates for bowel cancer survival in countries within the European Union is provided by the EUROCARE study. This covers parts of the United Kingdom and Europe. The most recently published results from this study provide information on survival up to five years after diagnosis for patients diagnosed with cancer of the colon and rectum during 1990–94 and followed up to the end of 1999.

These results were published in: Berrino, F., Capocaccia, R., Coleman M.P., et al. (editors) (2003). Survival of Cancer Patients in Europe: the EUROCARE-3 Study. Annals of Oncology. Volume 14, Supplement 5. And is available online at: www.annonc.oupjournals.org/content/voll4/suppl_5/index.dtl.

Mr. Baron: To ask the Secretary of State for Health what plans she has to strengthen the commissioning role of cancer networks. [58286]

Ms Rosie Winterton: Cancer networks have a key role, working together with primary care trusts (PCTs), to plan and commission cancer services in line with national guidance. Many cancer services, such as complex cancer surgery and radiotherapy, are best provided for populations larger than that of an individual PCT and, for these services, it is important that PCTs commission services jointly. Strategic health authorities are responsible for ensuring that effective joint commissioning arrangements are in place.

A national programme of peer review of cancer networks is currently under way. This process seeks to improve the quality of cancer services across the whole system of patient care. This includes consideration of commissioning.

Carers

Mr. Bone: To ask the Secretary of State for Health what steps she is taking to help carers; and if she will make a statement. [57224]

Mr. Byrne: The Government formally recognised the contribution and concerns of carers through the cross-government national carers' strategy published in 1999. Since then we have supported carers in a number of ways, including the introduction of the carers grant in 1999 to support councils in providing breaks and services for carers. By 2008, we will have invested over £1 billion in services and support for carers. We have also supported legislation that gives carers rights to an assessment of their own needs.

In addition, in our recent White Paper, we have proposed a new deal for carers to improve support for them through a range of measures.

We will update and extend the Prime Minister's 1999 strategy for carers and encourage councils and primary care trusts to nominate leads for carers' services.

We will establish a helpline to offer advice to carers.

In each council's area, we will ensure that a short-term, home-based respite support to carers in crisis or emergency situations is established.

We will allocate specific funding for the creation of an expert carers programme which will provide training for carers to develop the skills they need to take greater control over their own health and the health of those in their care.

Cheshire and Merseyside Strategic Health Authority

Rosie Cooper: To ask the Secretary of State for Health how many successful clinical negligence claims were made against hospitals trusts in the Cheshire and Merseyside strategic health authority in 2004–05. [56406]

Mr. Byrne: I refer my hon. Friend to the reply I gave on 17 November 2005, *Official Report*, column 1449W.

Rosie Cooper: To ask the Secretary of State for Health what the financial position is of each hospital in the Cheshire and Merseyside Strategic Health Authority. [56407]

Mr. Byrne: The latest forecast outturn position for 2005–06, as submitted by national health service organisations (strategic health authorities, primary care trusts and NHS trusts) at the mid-year point, month six, is available in the Library and is also available on the Department's website at:
www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en.

Community Hospitals

Mr. Graham Stuart: To ask the Secretary of State for Health how many intermediate beds there have been in community hospitals in England in each of the last 10 years; and if she will make a statement. [55968]

Mr. Byrne: The number of intermediate care beds has risen from 4,242 in 1999–2000 to 8,928 in 2004–05 and the number of places in non-residential intermediate care schemes has risen from 7,149 to 20,558 over the same period. The information collected on the number of intermediate care beds is not available by type of hospital. Information on intermediate care beds has only been collected since 1999–2000.

Complaints and Advocacy Service

Rosie Cooper: To ask the Secretary of State for Health what arrangements her Department has made to ensure that *(a)* patients in West Lancashire will have access to an independent complaints and advocacy service when the contract with the Citizens Advice Bureau finishes and *(b)* that there will be a smooth transfer from the current provider to the new provision. [53399]

Mr. Byrne: I refer the hon. Member to the reply I gave on Wednesday 22 February 2006, *Official Report*, column 460W.

Critical Care Costs

Dr. Gibson: To ask the Secretary of State for Health what the average NHS expenditure per patient per day in critical care was in each of the last three years. [47834]

Jane Kennedy: The information requested is not centrally available.

Dentistry

John Bercow: To ask the Secretary of State for Health what steps are being taken by her Department to improve access to free dental care for children. [35733]

Ms Rosie Winterton: Dentists working in the salaried primary care dental services examine schoolchildren at least three times in their school career. They also contribute to regular surveys, which have shown that the oral health of children is improving.

Where dentists advise that treatment is necessary, children under 16 and young people aged 16, 17 and 18 who are in full-time education are exempt from charges for NHS dental treatment.

Recent and ongoing action to improve access to NHS dentistry, including the recruitment of the equivalent of over 1,450 additional dentists, the establishment of a new university dental school and the introduction of local commissioning responsibilities for primary care trusts, will benefit both children and their families.

Departmental Energy Costs

Mrs. Villiers: To ask the Secretary of State for Health how much was spent by her Department on *(a)* gas and *(b)* electricity in 2004–05. [51780]

Mr. Byrne: The total amount spent on gas for the Department's London headquarter buildings in the financial year 2004–05 was £114,256.

The amount spent on electricity was £723,840.

The amount spent on gas for the Department's agency, the NHS Purchasing and Supplies Agency, in financial year 2004–05 was £6,938. The cost of electricity was £39,404.

Departmental Estate

Mr. Hurd: To ask the Secretary of State for Health how many properties for which her Department is paying rent are empty in *(a)* the constituency of Ruislip-Northwood, *(b)* the London borough of Hillingdon, *(c)* London and *(d)* England. [52288]

Mr. Byrne: There are no empty properties in either the constituency of Ruislip-Northwood or the London borough of Hillingdon upon which the Department is paying rent. There are two properties in London and a further nine properties in England that are empty and upon which the Department is paying rent. Active attempts are being made to dispose of these interests.

Departmental Information Leaflets

Steve Webb: To ask the Secretary of State for Health how many information leaflets produced by her Department are published on the internet. [51912]

Mr. Byrne: All departmental publications and leaflets are published on the internet, either on the Department's website, www.dh.gov.uk, or other Department-owned sites, for example, www.immunisation.org.uk or partner websites.

In 2005, 633 publications were published on the Department's website, including information leaflets, command papers, guidance documentation and national health service staff bulletins.

There is currently no mechanism for identifying which of these are specifically information leaflets and attempting to do so would incur disproportionate cost.

Steve Webb: To ask the Secretary of State for Health what methods are used by her Department to promote information it makes available on the internet; and how much this cost in each of the last three years. [51914]

Mr. Byrne: The internet is one of a number of media we use to promote information to the general public, national health service and social care staff, the media and key stakeholders. The Department does not promote information vehicles themselves; instead, they are used as channels to reach key audiences. The Department routinely features website addresses in advertising and leaflets, but cannot attribute any specific costs to this.

Departmental Performance Support Team

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Answer of 8 February 2006, *Official Report*, column 1308W, on the Departmental Performance Support Team, what expenditure on the performance support team has been in each year since it was established. [52956]

Jane Kennedy: The performance support team (PST) was established on 1 April 2005, it is a national health service team hosted by Leicestershire, Northamptonshire and Rutland Strategic Health Authority and as such, the Department does not directly incur the costs of the team. I am informed that the expenditure of the team is estimated to be £2.1 million for the year 2005–06.

Departmental Staff

Bob Spink: To ask the Secretary of State for Health how many staff in her Department are paid on a performance-related basis. [50517]

Mr. Byrne *[holding answer 16 February 2006]:* All staff employed by the Department are paid on a performance-related basis.

Mrs. Villiers: To ask the Secretary of State for Health whether *(a)* her Department and *(b)* her Department's associated public bodies have (i) delayed and (ii) withheld payment of (A) pay as you earn and (B) national insurance contributions owed in relation to their employees since 1997. [51754]

Mr. Byrne: The Department and its agencies have a semi-managed payroll contract with LogicaCMG as part of a consortium arrangement, with a large number of Government Departments being members. Each month, as part of the contractual arrangement all payments for tax and national insurance are paid over to the relevant third parties by the required deadline. There are no exceptions where we withhold tax and/or national insurance payments collected from employees.

Mike Penning: To ask the Secretary of State for Health whether any *(a)* employee of her Department, *(b)* person engaged by her Department as a consultant and *(c)* paid adviser to her Department is a member of the House of Lords; and if she will make a statement. [52899]

Mr. Byrne: Following a search of the human resources database, it would appear that no employee, consultant or paid adviser to the Department is a Member of the House of Lords. My noble Friend, Lord Warner is Minister of State.

Early Retirement

David T.C. Davies: To ask the Secretary of State for Health how many of her Department's employees have taken early retirement due to ill health in each of the past five years for which figures are available. [46868]

Mr. Byrne: The number of departmental employees who have taken early retirement due to ill health is shown in the table.

	Number of employees who took early retirement
2001	Less than or equal to 5
2002	6
2003	5
2004	8
2005	Less than or equal to 5

Efficiency

Mr. Newmark: To ask the Secretary of State for Health (1) when her Department will publish *(a)* productivity estimates for the NHS as referred to in Section 3.4.2 of the departmental Efficiency Technical Note dated December 2005 and *(b)* a detailed methodology for assessing productivity; [54604]

(2) what progress has been made in developing the cost efficiency measures referred to in Section 3.4.2 of the departmental Efficiency Technical Note dated December 2005. [54605]

Jane Kennedy: An estimate for national health service cost efficiency was published in the Department's 2005 annual report which showed that in 2003–04 value for money through cost efficiency increased by 2.1 per cent.

On 7 December 2005, the Department published "Healthcare Output and Productivity: Accounting for Quality Change", which outlines a detailed methodology for assessing NHS productivity.

Mr. Newmark: To ask the Secretary of State for Health what existing processes and measures are used to assess service levels as referred to in Section 3.5 of the departmental Efficiency Technical Note dated December 2005; and if she will make a statement. [54606]

Jane Kennedy: Subsequent chapters in the Efficiency Technical Note provide further detail on processes and measures used to assess service levels and quality for projects within each workstream.

The Department is continuing to develop these processes in conjunction with the Office of Government Commerce and HM Treasury and will continue to update the technical note as appropriate.

Health Service Management

Helen Jones: To ask the Secretary of State for Health how much will be paid into the pension funds of chief executives who are taking redundancy in *(a)* health authorities, *(b)* acute trusts and *(c)* primary care trusts in the north west region. [57397]

Mr. Byrne *[holding answer 10 March 2006]:* The information requested is not held centrally.

Health White Paper

Mr. Lansley: To ask the Secretary of State for Health what evidence of *(a)* cost and *(b)* clinical effectiveness was used to support the proposals for an NHS Life Check, as described in the White Paper, Our Health, Our Care, Our Say, Cm 6737; at what ages she plans for a NHS Life Check to be offered; in which pilot areas the NHS Life Check will initially be introduced; and what resources she plans to commit from central budgets to support the implementation of the NHS Life Check. [49531]

Caroline Flint: The proposals for NHS Life Check are based on evidence for the effectiveness of lifestyle interventions set out in the delivery plan for the White Paper "Choosing Health: Delivering Choosing Health, making healthier choices easier", references pages 127–30 (March 2005) and "Choosing Activity, a physical activity action plan", references page 47–48 (March 2005).

The Department is developing detailed plans for development and implementation of the NHS Life Check in the first year of life (self-assessment by parents included as an integral part of considering the health of their children) at age 12 to 13 years and around the age of 50 years for use in areas with the worst health and deprivation as defined by the spearhead group of local authorities and primary care trusts ("Tackling Health Inequalities: the spearhead group of Local Authorities and Primary Care Trusts") (November 2004) with a view to wider roll-out thereafter. Funding for development of the NHS Life Check will be allocated in due course as part of the normal process for deciding on central programme funding.

Herceptin

Harry Cohen: To ask the Secretary of State for Health what estimate she has made of the annual cost of providing Herceptin on the NHS to women whose consultants recommend it; and if she will make a statement. [55800]

Ms Rosie Winterton: The cost of treating a patient with the drug Herceptin is expected to be in the region of £20,000 a year.

It is estimated that it would cost the NHS around £100 million a year if everyone who could benefit from it received a one-year course of Herceptin.

Hospices (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for Health (1) what public funding has been provided to hospices in the Greater Peterborough area in each year since 1997; [54826]

(2) what the total funding for children's hospices and children's palliative care was in *(a)* the Norfolk, Suffolk and Cambridgeshire strategic health authority area and *(b)* the Greater Peterborough area in each of the last five years. [54908]

Ms Rosie Winterton: The information requested is not collected centrally. Primary care trusts (PCTs) are responsible for ensuring that services are provided to meet the needs of their local populations, including palliative care and hospice services. In the current financial year, PCTs in the Norfolk, Suffolk and Cambridgeshire strategic health authority area have received revenue allocations totalling £2.2 billion. By 2007–08, this will have increased to £2.9 billion.

Hospital Closures

Daniel Kawczynski: To ask the Secretary of State for Health how many hospitals in England closed in *(a)* 2001, *(b)* 2003 and *(c)* 2005. [50097]

Jane Kennedy: Information on the number of hospital site closures is not held centrally.

Hospital Treatment

Mrs. Curtis-Thomas: To ask the Secretary of State for Health how many patients who attended hospitals in the Liverpool area in 2004–05 visited the hospital for treatment more than three times in that year. [56978]

Mr. Byrne: In 2004–05, 7,086 patients who attended hospitals in the Liverpool area had more than three finished admission episodes.

Influenza

Mr. Lansley: To ask the Secretary of State for Health whether she has taken a decision on stockpiling *(a)* gloves and *(b)* face masks for use in the event of an influenza pandemic. [57659]

Ms Rosie Winterton: We have recommended the use of face masks for healthcare professionals who would be working closely with infected patients. Stock levels of masks and protective clothing, such as gloves, normally available in the NHS and its supply chain are also being reviewed. Supplies of essential material will be increased if mathematical modelling indicates that this is necessary.

The Chief Medical Officer commissioned the Health Protection Agency to review the scientific evidence for the use of facemasks by the public during an influenza pandemic. This review did not find any clear evidence that such a policy would be of benefit. However, as with all policies relating to pandemic influenza, the evidence is regularly reviewed.

Local Authority Social Services Departments

Mark Hunter: To ask the Secretary of State for Health what discussions she has had in the past six months with the Deputy Prime Minister on *(a)* the financial position of local authority social services departments and *(b)* their relationship with NHS organisations. [52490]

Mr. Byrne: In preparing for the local government finance settlement in December 2005, the Department worked closely with the Office of the Deputy Prime Minister (ODPM) to agree the final level of adults' social care grants that will be allocated to councils during 2006–08. Prior to this settlement, the two departments collaborated to develop new allocation formulae for both the younger adults' and older people's client groups. These will be used by ODPM to allocate the overall formula grant, and by the Department to allocate the majority of its adults' social care grants.

The Department sets the overall policy for adults' social care. Councils have the flexibility to manage their resources according to local priorities. This will include local decisions about joint working with health partners. The announcement of a two-year financial settlement for local government, with a commitment to allocate resources on a three-year basis from 2008–09, will align local authority and national health service budget cycles.

The two departments will work to establish priorities for improved ways of working at the health and social care interface as part of the preparations for the 2007 comprehensive spending review.

Media Training

Mr. Laws: To ask the Secretary of State for Health how much has been spent by her Department on media training in each year since 1997–98. [55209]

Mr. Byrne: To date in the 2005–06 financial year, the Department's communications directorate has spent £14,458.96 on media training.

Training is provided to senior officials on an ad hoc basis. No central records of media training has been kept for this or previous years.

Mental Health

Mr. Drew: To ask the Secretary of State for Health what her policy is on the future role for the independent sector in the provision of mental health facilities. [55363]

Ms Rosie Winterton: The NHS receives vital support from the independent sector in delivering mental health services, improving access to these and in reducing waiting times, for example, in providing medium secure facilities and in specialist eating disorder services, and we have no plans to change this.

The independent sector, through the private finance initiative scheme (PFI), is helping to deliver the biggest hospital building programme, including mental health facilities, in the history of the NHS, replacing old and outmoded buildings with ones fit for the 21st Century. New or improved mental health facilities are among the 140 new hospital schemes worth £19.1 billion, which are in progress and are counting towards the NHS Plan target of having 100 new hospital schemes open by 2010.

The responsibility for planning and developing NHS health services which meet the needs of local communities, including mental health services, rests with primary care trusts and their strategic health authorities. We will continue to support the commissioning of independent sector services by the NHS where this delivers clear benefits for NHS patients and where it represents value for money for the taxpayer.

MHRA

Ian Lucas: To ask the Secretary of State for Health what assessment she has made of the performance of the Medicines and Healthcare Products Regulatory Agency. [57644]

Jane Kennedy: I am aware that the Medicines and Healthcare products Regulatory Agency's (MHRA) performance regarding licence and variation approval times during the last nine months has been affected by a combination of adverse factors including increases in workload, difficulties in recruiting professional assessment staff, especially medically-qualified staff, and transitional implementation problems during the introduction of a new information management system. Though statistics for the full year 2005–06 are not yet available, it is likely that some of the target assessment times given in the published performance targets will not be met.

The MHRA is taking a number of steps to improve service levels. These include organisational restructuring, additional recruitment, re-training of staff, voluntary schemes for extended working hours, and information system performance enhancements. The MHRA is working closely with the industry to improve its performance and I will be asking for regular updates on progress.

Mr. John Jesky

Mr. Meacher: To ask the Secretary of State for Health if she will investigate *(a)* the appointment by the north-west strategic health authority (SHA) of Mr. John Jesky as interim chairman of the Pennine Acute Trust and *(b)* the role in this appointment of the chairman of the SHA. [57257]

Mr. Byrne *[holding answer 9 March 2006]:* Since 1 April 2001, the Secretary of State has delegated appointments functions relating to the appointment of chairs and non-executive members of national health service trusts, health authorities and primary care trusts to the NHS Appointments Commission. All non-executive appointments to the boards of these bodies are now made by the commission rather than by the Secretary of State.

John Jesky was appointed by the NHS Appointments Commission on 1 March 2006 as chair of the Pennine Acute Hospitals NHS Trust for a period of up to six months, pending the successful completion of the current open competition to recruit a substantive chair. The appointment was made following consultation between the Chairman of the Greater Manchester strategic health authority, and the NHS Appointments Commission's regional commissioner for the north west.

This kind of short-term appointment is common practice following the resignation of a chair, to allow time for an open competition and a substantive appointment to be made.

MRSA

Mr. MacDougall: To ask the Secretary of State for Health how many MRSA cases there were in each hospital in Cumbria in each of the last three years. [57739]

Mr. Byrne *[holding answer 10 March 2006]:* The information is not available by individual hospital in Cumbria. However, the number of methicillin resistant Staphylococcus aureus (MRSA) cases by national health service trust is shown in the table.

Annual data for 2001 to 2005

Trust name	April 2002 to March 2003		April 2003 to March 2004	
	Number of MRSA bacteraemia reports	MRSA rate (per 1000 bed-days)[1]	Number of MRSA bacteraemia reports	MRSA rate (per 1000 bed-days)[1]
Lancashire Teaching Hospitals NHS Foundation Trust	58	0.17	56	0.15
Morecambe Bay Hospitals NHS Trust	24	0.08	30	0.1
North Cumbria Acute Hospitals NHS Trust	27	0.12	22	0.09

Trust name	April 2004 to March 2005[1]		April 2005 to September 2005	
	Number of MRSA bacteraemia reports	MRSA rate (per 1000 bed-days)[1]	Number of MRSA bacteraemia reports	MRSA rate (per 1000 bed-days)[1]
Lancashire Teaching Hospitals NHS Foundation Trust	74	0.2	20	0.12
Morecambe Bay Hospitals NHS Trust	30	0.1	18	0.12
North Cumbria Acute Hospitals NHS Trust	24	0.1	12	0.11

[1] 2004–05 rate per 1,000 bed days is provisional as final 2004–05 activity data are not yet available.

Department of Health Mandatory MRSA Bacteraemia Surveillance Scheme—MRSA bacteraemia by NHS Trust

NHS Finance

Mr. Lansley: To ask the Secretary of State for Health what the percentage increase in the NHS budget has been in each year since 1997, *(a)* in cash terms, *(b)* taking into account UK inflation, *(c)* taking into account public sector inflation and *(d)* taking into account NHS inflation. [36429]

Mr. Byrne: The table shows net national health service expenditure and percentage increases from 1996–97 to 2007–08 in cash terms, adjusted by gross domestic product (GDP) deflator, and by NHS specific inflation.

An index for public sector inflation is not available.

NHS net expenditure: England, 1996–97 to 2007–08

		Net NHS expenditure[1] (£ billion)	Percentage increase	Percentage real terms increase[2]	Percentage increase adjusted for NHS specific inflation[3]
Cash[4]					
1996–97	Out-turn	32.997	—	—	—
1997–98	Out-turn	34.664	5.1	2.0	2.9
1998–99	Out-turn	36.608	5.6	2.9	1.6
1999–2000	Out-turn	39.881	8.9	6.8	4.1

NHS net expenditure: England, 1996–97 to 2007–08

		Net NHS expenditure[1] (£ billion)	Percentage increase	Percentage real terms increase[2]	Percentage increase adjusted for NHS specific inflation[3]
Resource budgeting stage 1[5]					
1999–2000	Out-turn	40.201	—	—	—
2000–01	Out-turn	43.932	9.3	7.9	5.0
2001–02	Out-turn	49.021	11.6	8.9	6.5
2002–03	Out-turn	54.042	10.2	6.8	6.5
Resource budgeting stage 2[6,7]					
2003–04	*Out-turn*[8]	*63.001*	—	—	—
2004–05	*Out-turn*	*69.706*	*10.6*	*8.3*	—
2005–06	*Plan*	*76.387*	*9.6*	*7.0*	—
2006–07	*Plan*	*84.324*	*10.4*	*7.7*	—
2007–08	*Plan*	*92.643*	*9.9*	*7.0*	—

[1] Figures are not consistent over the period to 2007–08, hence no comparisons should be made across different periods.
[2] Based on the gross domestic product deflator series as at 23 December 2005.
[3] NHS inflation index is only available up to 2003–04.
[4] Expenditure pre 1999–2000 is on a cash basis.
[5] Expenditure figures from 1999–2000 to 2002–03 are on a stage 1 resource budgeting basis.
[6] Expenditure figures from 2003–04 to 2007–08 are on a stage 2 resource budgeting basis.
[7] The resource budgeting stage 2 expenditure figures shown for 2004–05 to 2007–08 are consistent with the 2005 departmental report and chief executive's report.
[8] Estimated.

Organ Donation

Lynne Jones: To ask the Secretary of State for Health pursuant to the answer to question 54257, on organ donation, what steps are being taken to improve rates of cadaveric organ donation; and if she will make a statement. [57295]

Ms Rosie Winterton: Over 13 million people have registered on the organ donor register (ODR), 22 per cent. of the United Kingdom population. The Department gives around £1 million yearly to NHS Blood and Transplant (NHSBT) to run the ODR and to promote transplantation and also provides Section 64 grants to a number of charities. Specific initiatives to improve cadaveric organ donation rates include funding through NHSBT to support hospital based schemes, high profile media initiatives and partnership working with a range of organisations to increase the number of people registered on the ODR and to encourage donation.

Out-of-hours Provision

Mr. Beith: To ask the Secretary of State for Health if she will list the primary care trusts which received supplementary out-of-hours funding following the introduction of the new GP contract. [56320]

Mr. Byrne: In 2005–06, £11.5 million supplementary out-of-hours funding was allocated directly to strategic health authorities (SHAs). 50 per cent. was allocated on a weighted capitation basis to each SHA. The remaining 50 per cent. was allocated to SHAs to support the 50 most rural primary care trusts (PCTs).

I refer the hon. Member to the reply given on 18 March 2005, *Official Report*, column 520–21W, which shows the 50 most rural PCTs that received supplementary out-of-hours funding following the introduction of the new general practitioner contract on account of their rural character.

These funds were aggregated to SHA level for them to distribute accordingly.

Over-the-counter Medicines

Miss Widdecombe: To ask the Secretary of State for Health what progress is being made on the Better Regulation of Over-the-Counter Medicines Initiative; and what its terms of reference are. [55302]

Jane Kennedy *[holding answer 9 March 2006]:* The Medicines and Healthcare products Regulatory Agency (MHRA) is committed to developing regulation which is proportionate, accountable, consistent, transparent and targeted and is considering how unnecessary regulatory burdens, primarily in relation to over the counter (OTC) medicines, could be eased.

To take this important initiative forward, the MHRA is leading the Better Regulation of OTC Medicines Initiative (BROMI)—a broad ranging strategy group, which includes representatives from the Proprietary Association of Great Britain, the non-proprietary sector, the National Pharmacy Association, and wider government.

The group first met in December 2005 at which the terms of reference and a work plan were developed. The terms of reference were finalised by the BROMI group at their meeting on 1 March and these are:

To assess the regulatory process in relation to the over the counter (OTC) medicines sector to identify areas of overlap and duplication where control could be exercised through different mechanisms;

To identify areas where a simplified approach to the operation and delivery of the regulation of OTC medicines would benefit all stakeholders;

To determine what measures need to be in place to enable a proportionate approach to OTC medicines regulation while maintaining safeguards to protect public health;

To identify and make proposals to facilitate change and tackle barriers to achieving it, and produce an action plan; and

To agree criteria for a successful outcome and monitor the impact of action.

The group has met four times and is considering a range of options for easing unnecessary regulatory burdens in relation to OTC medicines and I have asked that BROMI delivers its first proposals to simplify regulatory burdens for OTC medicines in April 2006.

Paediatric Continence Services

Tim Loughton: To ask the Secretary of State for Health what assessment she has made of the likely impact of boundary changes to primary care trusts on the availability of integrated paediatric continence services. [47232]

Mr. Byrne: The national service framework for children, young people and maternity services encourages primary care trusts (PCTs) to work with other statutory and voluntary organisations locally towards establishing integrated paediatric continence services. There is no reason to believe that changes to PCT boundaries will have an adverse effect on the integration of paediatric continence services.

Patient Registration (York/Selby)

Hugh Bayley: To ask the Secretary of State for Health how many *(a)* adult and *(b)* child patients are registered with a general practice in York and Selby; and how many were registered at each six month interval in the last five years. [56657]

Mr. Byrne: The information is not available in the format requested. Data on registered general practitioner (GP) patients is collected annually. The table shows the number of patients registered with a GP within the Selby and York Primary Care Trust (PCT) area for 2001–04 and the equivalent primary care groups in 2000.

Registered GP patients ages for selected organisations, 30 September 2000–02

NHS Health and Social Care Information Centre, General and Personal Medical Services Statistics.

Personal Expenses (Residential and Nursing Accommodation)

Mr. Steen: To ask the Secretary of State for Health what factors she takes into account when determining the level of personal expenses allowance (PEA) provided to those in *(a)* residential and *(b)* nursing accommodation; what items the PEA covers; when she last reviewed the level of the PEA; and what plans she has for further review. [54631]

Mr. Byrne: The personal expenses allowance (PEA) was originally set with reference to the part III accommodation rates in income support and jobseekers allowance set by the Department for Work and Pensions. The PEA is periodically uprated taking into account the increase in average earnings and following discussions between the Department and the Department for Work and Pensions.

A consultation exercise, due to end on 7 March, sets out proposed changes to the regulations and guidance on charges for residential accommodation; this includes a proposal to increase the PEA from £18.80 to £19.60 per week from April 2006.

Primary Care Trusts (North Yorkshire)

Miss McIntosh: To ask the Secretary of State for Health if she will make a statement on the financial situation of the primary care trusts in North Yorkshire. [56862]

Mr. Byrne: The information requested is shown in the table.

North and East Yorkshire and North Lincolnshire primary care trusts (PCTs)—Financial position 2004–05 and 2005–06

2005–06 monthly financial monitoring returns and 2004–05 audited summarisation schedules.

The forecast outturn position for 2005–06, as submitted by National Health Service organisations (strategic health authorities, PCT and NHS trusts) at the mid-year point (month six), is available in the Library and is available on the Department's website at: www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en.

Private Offices

Sarah Teather: To ask the Secretary of State for Health what the cost of her private office was in the last year for which figures are available. [55720]

Mr. Byrne: In 2004–05, the total cost of running my right hon. Friend's private office, including all ministerial private offices, was £2,570,688.

Rheumatoid Arthritis

Mr. Hancock: To ask the Secretary of State for Health (1) which primary care trusts have not yet made available to those with a clinical need treatment approved by the National Institute for Health and Clinical Excellence for use in rheumatoid arthritis; [58153]

(2) what assessment she has made of the potential impact of *(a)* existing NHS deficits on the uptake of treatment approved by the National Institute for Health and Clinical Excellence for use in rheumatoid arthritis and *(b)* payment by results and practice-based commissioning on the availability of these treatments; and if she will make a statement. [58154]

Mr. Byrne: All primary care trusts in England and Wales are obliged to fund, from general allocations, anti-tumour necrosis (anti-TNF) therapy for those patients with rheumatoid arthritis who meet the clinical guidelines issued by the National Institute for Health and Clinical Excellence.

Anti-TNF therapy is already commissioned at local level under arrangements that should cover the cost of patient attendances at out-patient clinics as well as any anti-TNF drugs.

From 2006–07, payment by results will apply a national tariff to rheumatology out-patient clinics. The tariff will set the price for outpatient attendances and will exclude the additional cost of anti-TNF drugs, for which funding will continue to be negotiated locally. These arrangements are already operating in 2005–06 for National Health Service Foundation Trusts and other early implementers of payment by results.

Section 64 Funding

Lynne Featherstone: To ask the Secretary of State for Health what her Department's Section 64 budget was for *(a)* 2004–05 and *(b)* 2005–06; what the average amount of section 64 funding paid to each qualifying organisation has been in each financial year; and if she will make a statement. [55956]

Mr. Byrne: The Department's budget for the Section 64 General Scheme of Grants for 2004–05 was £17.9 million and 2005–06 was £17.9 million. The average amount paid to grant recipients for 2004–05 was £35,500 and 2005–06 was £38,000.

Lynne Featherstone: To ask the Secretary of State for Health whether a review of the Section 64 grant is being conducted. [55958]

Mr. Byrne: Ministers agreed in 2005 to a strategic review of Departmental funding to the voluntary and community sector. The review has not yet started.

Southport and Ormskirk Hospital Trust

Rosie Cooper: To ask the Secretary of State for Health whether further ward closures are planned at Southport and Ormskirk hospital trust sites in the next 12 months. [56402]

Mr. Byrne: This is a matter for Southport and Ormskirk hospital national health service trust, in partnership with local stakeholders.

Rosie Cooper: To ask the Secretary of State for Health what the average percentage level of bed utilisation was in *(a)* Southport and Ormskirk hospital trust and *(b)* all acute hospitals in the Cheshire and Merseyside strategic health authority area in the last period for which figures are available. [56403]

Mr. Byrne: The information is not available in the format requested. However, the following table shows data on average bed occupancy rates for all providers in the Cheshire and Merseyside strategic health authority (SHA) area with beds open overnight.

Average occupancy rate, Cheshire and Merseyside SHA, 2004–05

Name	Total (percentage occupancy)
Cheshire and Merseyside Health Authority	85.9
5 Boroughs Partnership National Health Service Trust	91.7
Aintree Hospitals National Health Service Trust	92.2
Central Liverpool Primary Care Trust (PCT)	88.8
Cheshire and Wirral Partnership NHS Trust	92.9
Clatterbridge Centre for Oncology NHS Trust	67.9
Countess of Chester Hospital NHS Trust	87.2
East Cheshire NHS trust	84.5
Ellesmere Port and Neston PCT	88.0
Liverpool Women's Hospital NHS Trust	61.9
Mersey Care NHS Trust	90.0
North Cheshire Hospitals NHS Trust	82.7
Royal Liverpool and Broadgreen University Hospitals NHS Trust	89.2

Average occupancy rate, Cheshire and Merseyside SHA, 2004–05

Name	*Total (percentage occupancy)*
Royal Liverpool Children's NHS Trust	71.0
South Sefton PCT	83.5
Southport and Ormskirk Hospital NHS Trust	87.3
St. Helens and Knowsley Hospitals NHS Trust	88.3
The Cardiothoracic Centre—Liverpool NHS Trust	66.2
The Mid Cheshire Hospitals NHS Trust	81.2
Walton Centre for Neurology and Neurosurgery NHS Trust	87.7
Wirral Hospital NHS Trust	81.8

Source:

Department of Health form KH03

Rosie Cooper: To ask the Secretary of State for Health what steps her Department is taking to address the financial deficit of Southport and Ormskirk Hospital Trust. [56512]

Mr. Byrne: It is the responsibility of strategic health authorities (SHAs) to deliver both overall financial balance for their local health communities and to ensure each and every organisation achieves financial balance. There is a degree of flexibility in how this is managed at a local level. SHAs can agree a recovery plan which phases the recovery of deficits over a number of years.

Southport and Ormskirk Hospital National Health Service Trust has been assessed by turnaround specialists. Following the initial assessment the trust and the SHA are agreeing a tailored package of turnaround support. This will assist the chief executive in delivering turnaround. The trust's chief executive will remain responsible for delivery of turnaround.

Rosie Cooper: To ask the Secretary of State for Health what estimate she has made of the likely number of posts to be *(a)* made redundant and *(b)* restructured in (i) the Southport and Ormskirk Hospital Trust and (ii) each other hospital in the Cheshire and Merseyside Strategic Health Authority if mergers are implemented. [56557]

Mr. Byrne: Cheshire and Merseyside Strategic Health Authority (SHA) is developing proposals to enable national health service trusts to apply for foundation trust status by 2008. Part of this work is looking at whether the current organisational structure is best placed to meet patients' needs. There are currently no definite proposals for trust mergers in the SHA area.

Specialist Baby Care

Mr. Stewart Jackson: To ask the Secretary of State for Health how many babies were moved between hospitals for admittance to a special care baby unit in the Norfolk, Suffolk and Cambridgeshire health authority area in each of the last five years. [54817]

Ms Rosie Winterton: The information requested is not collected centrally.

Stoma Services

Rosie Cooper: To ask the Secretary of State for Health (1) how much funding was allocated to stoma services in *(a)* England and *(b)* West Lancashire between 1997 and 2005; [56408]

(2) how much and what percentage of the NHS budget was spent on stoma services in the last year for which figures are available. [56409]

Mr. Byrne: Health bodies have the responsibility to provide stoma services from their general funding allocation. It is not possible to identify the total amount, or percentage of the national health service budget, spent on stoma services.

Waiting Lists

Mr. Bone: To ask the Secretary of State for Health (1) what assessment she has made since 31 December 2005 of whether any patient will have to wait more than six months for in-patient treatment in 2006; [49655]

(2) what recent assessment has been made of the maximum waiting time for an NHS in-patient operation. [56467]

Jane Kennedy *[holding answer 7 February 2006]:* The NHS now has an operating standard of six months for in-patient treatment. The Department routinely monitors performance against this standard and the relevant data is available on the Department's website at: www.performance.doh.gov.uk/waitingtimes/index.htm.

When the NHS Plan was published in July 2000, more than a quarter of a million patients were waiting over six months for in-patient treatment. Data published earlier this month for end January 2006 showed that this figure had fallen to just 74. However, any breaches of the waiting time standards are unacceptable and the Department will continue to work closely to support the small number of NHS organisations where patients are waiting over six months.

NORTHERN IRELAND

Aggravated Burglary

David Simpson: To ask the Secretary of State for Northern Ireland how many people have been prosecuted for aggravated burglary in Northern Ireland in each of the last 10 years. [56366]

Mr. Hanson: Table 1 provides prosecution figures for the calendar years 1994 to 2003. Data beyond 2003 is currently not available.

The figures provided cover prosecutions for a range of offences related to aggravated burglary including 'aggravated burglary with intent to steal', 'aggravated burglary with intent to commit grievous bodily harm', 'aggravated burglary with intent to cause unlawful damage', 'aggravated burglary and stealing' and 'aggravated burglary and inflicting grievous bodily harm'.

Figures are collated on a principal offence basis, thus where more than one offence is heard per court sitting, only the most serious offence (based on that attracting the most severe penalty) is recorded.

Table 1: Prosecutions for aggravated burglary 1994–2003

	Number of prosecutions
1994	37
1995	15
1996	36
1997	41
1998	28
1999	22
2000	27
2001	15
2002	17
2003	21

Belfast Docks (Taxis)

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on the extent of the co-operation between the Department of the Environment tax enforcement branch and the Belfast harbour police regarding the regulation of taxi hiring upon the arrival of cruise vessels at Belfast docks. [57059]

Angela E. Smith: The Department have no powers to enforce legal requirements governing the use of taxis on lands owned by Belfast harbour commissioners, as these lands are not regulated by powers granted to the Department under the Road Traffic (NI) Orders 1981 and 1995. Taxi enforcement officers attached to the Driver & Vehicle Testing Agency have provided advice and assistance to Belfast harbour police on several occasions during recent years regarding the operation of taxis collecting passengers from cruise vessels at Belfast docks and in the clarifying of legal arrangements.

Broadband

Lady Hermon: To ask the Secretary of State for Northern Ireland which schools in Northern Ireland do not have broadband internet access. [57286]

Angela E. Smith: There are six schools in Northern Ireland which do not have broadband internet access. The Department of Education does not hold information relating to broadband access in the 19 independent schools.

The six schools are:

Armagh Integrated College

Drumlins Integrated Primary School

Gaelscoil an Lonnain

Gaelscoil na Mona

Gaelscoil an Damba

Bunscoil an Traonaigh

These schools are only recently established or are to move premises soon.

Child Care

Mark Durkan: To ask the Secretary of State for Northern Ireland what provision for child care is available through Department of Employment and Learning jobs and benefits offices for women returning to work; and how many women used that service in each of the last five years. [55866]

Angela E. Smith: The Department for Employment and Learning does not directly provide child care through the Jobs and Benefit Offices. Lone parents and partners of certain benefit recipients are eligible for assistance with child care costs when participating in the new deal programmes on a non-employed basis, and when participating in the Training for Work programme and Jobskills. The Department does not collect statistics on the number of women who have received assistance with child care costs, however assistance totalling £2,758,199.00 has been provided in the last five years. In addition, families in Northern Ireland can benefit from the child care element of the children's tax credit. The average assistance provided is £58.33 per family.

Child Care Support

Mark Durkan: To ask the Secretary of State for Northern Ireland how many *(a)* university students and *(b)* nursing students in Northern Ireland were receiving child care support in the latest period for which figures are available. [56693]

Angela E. Smith: In academic year 2004–05: *(a)* a total of 292 students on higher education courses at higher and further education institutions were in receipt of child care grant; and *(b)* no child care support is available for nursing students. However help with child care costs via working tax credit is available to students and student nurses, who, aside from their studies, are in full time remunerative employment.

Child Poverty

Chris Ruane: To ask the Secretary of State for Northern Ireland how many children were living in poverty in each *(a)* ward, *(b)* constituency and *(c)* county in Northern Ireland in each of the last 30 years. [55570]

Angela E. Smith: This information has been placed in the Library.

College Amalgamations

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland if he will take steps to ensure that *(a)* Limavady and *(b)* other small further and higher education colleges in Northern Ireland retain their local identity following the planned college amalgamations. [57743]

Angela E. Smith: Under the Further Education Strategy for Northern Ireland there are no planned closures of college campuses, and FE colleges will continue to be at the heart of the local communities they serve. Colleges will continue to deliver, and build upon, the services they provide to learners and businesses in their local areas, as well as contributing to a more strategic and co-ordinated approach to the provision of skills across Northern Ireland. Every effort is being made to ensure that new governance arrangements will be representative of each of the amalgamated

institutions, so that the strengths and facilities of all colleges and campuses in their areas are used to maximum effect both locally and further afield.

Cruelty to Animals

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people were convicted of offences involving cruelty to animals in Northern Ireland in each of the last five years. [57906]

Mr. Hanson: Table 1 provides figures for the calendar years 1999 to 2003. Data beyond 2003 is currently not available.

The figures include convictions for the offences of 'owner permitting cruelty to animals', 'abandoning animal', 'causing unnecessary suffering to animals', 'permitting cruelty of animals', 'cruelty to animals', 'causing unnecessary suffering to livestock' and 'causing unnecessary suffering to animal in transit'.

Figures are collated on a principal offence basis, thus where more than one offence is heard per court sitting, only the most serious offence (based on that attracting the most severe penalty) is recorded.

Table 1: Convictions in Northern Ireland for cruelty to animals 1999 to 2003

	Number of convictions
1999	33
2000	21
2001	16
2002	9
2003	24

Curriculum and Assessment

Lady Hermon: To ask the Secretary of State for Northern Ireland pursuant to his letter of 8 February 2006, (COR47/2006) to the hon. Member for North Down, on the revised curriculum and associated assessment arrangements, when he expects to be in a position to provide the further information to which he referred. [58250]

Angela E. Smith: Since the hon. Lady's correspondence, I met recently with Dr. Hugh Morrison from Queens University, and with the Council for Curriculum, Examinations and Assessment (CCEA). CCEA will be providing their advice on Dr. Morrison's papers shortly and I will write to the hon. Lady as soon as possible after consideration of this advice.

Drug-related Crime

Chris Ruane: To ask the Secretary of State for Northern Ireland how many drug-related crimes were committed in each ward in Northern Ireland in 2004–05. [55548]

Mr. Woodward: The Police Service of Northern Ireland do not record crime figures in the format requested. Incidents of crime are recorded by police district command unit and a monthly update is posted on the police website at www.psni.police.uk A copy of the full PSNI Statistical report for the year 2004–05 is also available on the website.

Equality Commission

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many meetings the Political Affairs Officer of the Equality Commission of Northern Ireland has had with each of the Northern Ireland political parties since being appointed in October 2004. [56412]

Angela E. Smith: I understand that the chief executive of the Equality Commission for Northern Ireland, Ms Evelyn Collins, has written to the hon. Gentleman in the following terms:

"The remit of the post of Political Affairs Officer includes the promotion and co- ordination of all points of engagement between the Equality Commission for NI and the political sector.

The number of meetings held by the Commission with political parties, which have included the Political Affairs Officer, since October 2004 is:

	Number of meetings
DUP	2
SDLP	3
Sinn Féin	5
Ulster Unionists	1"

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what assessment he has made of the extent to which the population in Northern Ireland is aware of the *(a)* existence, *(b)* role and *(c)* remit of the Equality Commission. [56416]

Angela E. Smith: I understand that the chief executive of the Equality Commission for Northern Ireland, Ms Evelyn Collins, has written to the hon. Gentleman in the following terms:

"The last full survey of awareness of the Equality Commission for Northern Ireland, published in 2002, found that 18 per cent. of people identified the Equality Commission as the body responsible for promotion of equality of opportunity in Northern Ireland.

Following a significant television and newspaper campaign on race and disability rights, that figure increased to 28 per cent. later in that year. A smaller radio campaign to raise awareness of recently introduced legislation on sexual orientation showed that this figure was maintained in 2003–04 at 26 per cent.

A further survey of the general public is currently under way, with results published by June 2006."

Fireworks

David Simpson: To ask the Secretary of State for Northern Ireland how many people have been prosecuted for illegal *(a)* selling and *(b)* use of fireworks in Northern Ireland in each of the last 10 years. [56365]

Mr. Hanson: Table 1 provides prosecution figures for the calendar years 1994 to 2003. Data beyond 2003 is currently not available.

Figures for illegally selling fireworks cover a range of offences including 'selling fireworks to non-licence holder', 'selling fireworks without a licence' and 'selling the "banger"'. Figures for illegally using fireworks include prosecutions for the offences of 'using fireworks', 'throwing fireworks' and 'using the "banger"'.

Figures are collated on a principal offence basis, thus where more than one offence is heard per court sitting, only the most serious offence (based on that attracting the most severe penalty) is recorded.

Table 1: Prosecutions for illegal selling and use of fireworks 1994–2003

	Illegal selling of fireworks	*Illegal use of fireworks*
1994	6	12
1995	7	14
1996	10	10
1997	6	9
1998	7	6
1999	4	4
2000	3	4
2001	0	1
2002	4	2
2003	0	0

Free School Meals

Lady Hermon: To ask the Secretary of State for Northern Ireland pursuant to the answer to the hon. Member for Belfast East (Mr. Robinson) of 1 December 2005, *Official Report*, column 2240W, on free school meals, why the number of children in receipt of free school meals exceeds the number of children entitled to free school meals in the *(a)* South Eastern and *(b)* Southern Education and Library Board areas. [57046]

Angela E. Smith: Unfortunately, the information contained in my previous answer to the hon. Member for Belfast East on 15 December, *Official Report*, column 2241W, was incorrect. The figures given for the number of children in receipt of free school meals related to the wrong Education and Library Board for all areas except Belfast. The correct figures are given in the table.

At October 2004, the number of schoolchildren entitled to, and in receipt of, free school meals in each Education and Library Board area was as follows:

	Children entitled to free school meals	*Children in receipt of free school meals*
Belfast	15,280	12,533
Western	15,219	13,786
North Eastern	10,055	8,131
South Eastern	8,823	6,640
Southern	13,767	11,639
Northern Ireland total	63,144	52,729

Note:
Figures relate to year 1 to year 7 pupils in primary schools and pupils at post-primary schools. Figures for pupils at special schools entitled to free school meals are not collected.

The Department continues, through the Education and Library Boards, to take steps to encourage eligible pupils to take up their entitlement.

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps are being taken by the Western Education and Library Board to encourage eligible pupils to take up their entitlement to free school meals. [57058]

Angela E. Smith: The Western Education and Library Board (WELB) is taking a number of steps to encourage eligible pupils to take up their entitlement to free school meals. These include: promotional activities (such as drawing attention to availability in schools' Admission Arrangements booklets, and reminding school Principals of the need to encourage uptake); partnership activities (such as working closely with the Social Security Agency (SSA) Western District to raise the profile of free school meals, and influencing strategies to facilitate the identification and targeting of existing claimants who have failed to take up their entitlement); and making it easier to take up entitlement by reducing the bureaucracy associated with making an application (including allowing rural low-income families to apply for free school meals directly to the Board. The Board, rather than the family, then verifies benefit entitlement with the relevant Social Security Office.)

Heroin Addicts

David Simpson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of heroin addicts in Northern Ireland. [57625]

Mr. Woodward: An estimate of the number of heroin addicts in Northern Ireland is not available. However, the Department of Health, Social Services and Public Safety (DHSSPS) maintains several databases that record the number of registered addicts and the uptake of treatment for problem drug use across Northern Ireland.

The Northern Ireland Addicts Index Database holds information on all those persons registered in concurrence with the Misuse of Drugs (Notification of and Supply to Addicts) (Northern Ireland) Regulations 1973. The 2005 Statistical Bulletin reported that on 31 December 2005, a total of 168 persons were recorded as addicted to heroin. DHSSPS also maintains the Northern Ireland Substitute Prescribing Database, which holds information on persons receiving substitute prescribing treatment for opiate dependence. On 8 March 2006, a total of 249 people were recorded as in contact with substitute prescribing services where the main problem drug was heroin. DHSSPS also maintains the Northern Ireland Drug Misuse Database, which holds information relating to problem drug users presenting to treatment services. In 2004–05 a total of 237 persons reported where their main problem drug was heroin.

It is important to note that problem drug use and dependence does not constitute addiction and that although there will be an overlap between the three databases, there will be a proportion of heroin addicts that may never be in contact with treatment services. In recognition of this issue, DHSSPS has already commissioned a research study (to include information from the Criminal Justice System) to produce a reliable estimate of problem heroin use in Northern Ireland. It is anticipated that that report will be published, via the DHSSPS website, in April of this year. A similar study conducted in 2000–01 indicated that there were approximately 800 problem heroin users in Northern Ireland during that period.

Hillsborough Castle

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many days per year Hillsborough castle is open to the public; and whether there are plans to increase this number in 2006. [55311]

Mr. Hain: In 2006 Hillsborough castle will be open to the public for guided tours on Saturdays during May and June. In addition we will facilitate tours from organised groups during the working week, official business permitting. We will also open on European Heritage Open Days.

We have no plans to extend public opening at present. Our experience from previous years has shown that visitor numbers would not be sufficient to make opening at other times of the year financially viable.

ICT Course

David Simpson: To ask the Secretary of State for Northern Ireland what will be included in the new functional information and communications technology course to be taught in schools in Northern Ireland. [57620]

Angela E. Smith: The proposed introduction of a functional skills element into ICT qualifications is part of the 14–19 White Paper published in England in February 2005. Proposals are at consultation stage and final decisions on the content of the course have not yet been reached. The Department of Education and the Council for the Curriculum, Examinations and Assessment will consider in due course to what extent parallel adjustments may be needed to NI GCSEs to ensure that the common currency of GCSE qualifications across England, Wales and Northern Ireland is maintained.

Intelligent Design

David Simpson: To ask the Secretary of State for Northern Ireland what redress is available to parents of a child removed from a class in Northern Ireland for expressing a belief in intelligent design. [57622]

Angela E. Smith: I would not expect such a situation to occur, as schools should show respect for the beliefs of every pupil. If it did, as with any issue of concern, parents should discuss the matter with the principal and Board of Governors of the school. If this did not resolve the issue, parents could seek redress from their Education and Library Board's Curriculum Complaints Tribunal.

Liquor Licensing

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the likely impact of the proposed reforms of liquor licensing on independent licensed premises in the North Down area, with particular reference to the removal of the surrender requirement. [57047]

Mr. Hanson: The package of proposals will weigh up the rights, needs and demands of various interested parties. The measures will help boost the hospitality, leisure and tourism industries, afford a clearer voice to local residents living, and businesses operating, near premises where licensable activities are carried on, offer further protection for children, help tackle the issue of underage drinking and contribute to Government's strategy for combating alcohol-related crime and disorder and antisocial behaviour in Northern Ireland. Responses to the public consultation which ended on 31 January 2006 are being considered, including those from independent licensed premises. The Government intends to make a policy announcement in summer 2006.

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) whether substantive feedback will be provided to *(a)* respondents and *(b)* other stakeholders in the consultation on liquor licensing; [57085]

(2) whether the consultation on liquor licensing reform will be subject to evaluation. [57106]

Mr. Hanson: Responses to the public consultation which ended on 31 January 2006 are being considered. The Government intends to make a policy announcement in summer 2006.

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) what assessment he has made of the potential for increased alcohol-related domestic violence if the proposals for an increase in the number of retail outlets selling alcohol outlined in the Liquor Licensing—The Way Forward are implemented; and if he will make a statement; [57098]

(2) what meetings he has had with representatives of organisations concerned with domestic violence regarding the proposed reform of liquor licensing; and if he will list the *(a)* participants and *(b)* the outcome of each meeting; [57049]

(3) what research he has commissioned on the potential for increased alcohol-related domestic violence if the proposals for an increase in the number of retail outlets selling alcohol outlined in the Liquor Licensing—The Way Forward are implemented; and if he will make a statement. [57097]

Mr. Hanson: The proposals for reform of liquor licensing were drawn up with input from a steering group including officials from the Department for Social Development, the Department of Health, Social Services and Public Safety, the Northern Ireland Office and the Police Service of Northern Ireland. The consultation paper on the reform of liquor licensing was distributed to a wide range of bodies including organisations concerned with health, justice and community safety matters. The paper was also widely advertised and received a great deal of attention in the press and the media in general. No requests for meetings were received from organisations concerned with domestic violence.

The number of retail outlets selling alcohol in Northern Ireland is a matter for the courts. It is proposed that it will become a matter for district councils in due course.

Lisanelly Barracks

Mark Durkan: To ask the Secretary of State for Northern Ireland what plans he has to maximise the

potential social and economic opportunities for the community presented by the release of the Lisanelly Barracks site in Omagh. [56352]

Mr. Hanson: Lisanelly Barracks is owned by the Ministry of Defence and any proposals for the site are the responsibility of the Secretary of State for Defence. Officials in Defence Estates, a Division within MoD with responsibility for the disposal of the Lisanelly Barracks are currently considering arrangements for the disposal of the site.

Arrangements are in place to establish if any Northern Ireland Department has an interest in acquiring the site. If an interest is established, sites are offered at market value to the interested Department. Failing this, the site will be offered for sale to the wider public sector through a process run by the Valuation and Lands Agency, again at market value.

If no interest is expressed through these routes, the site may, depending on circumstances, be offered to the former owner. Only after that process would the site be advertised and sold on the open market.

Long-term Unemployment Levels

Dr. McCrea: To ask the Secretary of State for Northern Ireland, how many people are long-term unemployed in each of the 18 Northern Ireland constituencies [58170]

Angela E. Smith: Long-term unemployment levels from the Claimant Count in each of the Northern Ireland parliamentary constituencies at January 2006 are provided in the following table.

Parliamentary constituency	*Claimant count unemployment*
Belfast East	165
Belfast North	540
Belfast South	240
Belfast West	840
East Antrim	265
East Londonderry	345
Fermanagh and South Tyrone	355
Foyle	700
Lagan Valley	150
Mid Ulster	165
Newry and Armagh	365
North Antrim	255
North Down	185
South Antrim	195
South Down	285
Strangford	280
Upper Bann	180
West Tyrone	450

Message in a Bottle Scheme

Lady Hermon: To ask the Secretary of State for Northern Ireland what funding has been allocated to community safety partnerships to enable the extension of the Message in a Bottle scheme throughout Northern Ireland. [57298]

Mr. Hanson: The first Message in a Bottle Scheme was launched in Antrim on 2 December 2005 for which the local Community Safety Partnership provided £1,500 part-funding. A number of other Community Safety Partnerships are considering introducing the scheme within their areas. Discussions are ongoing between the Community Safety Unit, the Police Service of Northern Ireland and other potential partner organisations to explore how the scheme could be funded for extension across Northern Ireland.

Nurse Training

Lady Hermon: To ask the Secretary of State for Northern Ireland what the attrition rates were for nurse training courses in Northern Ireland in each year since 2001. [57053]

Mr. Woodward: There are approximately 2,349 full-time undergraduate nursing students in Northern Ireland. The Department of Health, Social Services and Public Safety currently commissions 750 student nurse places annually between Queen's University Belfast, (QUB) and the University of Ulster, (UU). The duration of the pre-registration studentship is three years. The attrition rates for pre-registration nurse training from academic year 2001–02 until 2004–05 are as follows:

Percentage

Academic year	*Queen's University Belfast*	*University of Ulster*
2001–02	8	12
2002–03	11.9	16
2003–04	14.7	10
2004–05	7.1	8

Queen's University Belfast and University of Ulster

PGCE Students (Financial Assistance)

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland if he will take steps to reduce the difference in the levels of financial assistance available to Postgraduate Certificate in Education students in Northern Ireland and England and Wales. [57084]

Angela E. Smith: The Education (Student Support) Regulations (Northern Ireland) underpin the financial support arrangements for Northern Ireland domiciled students in higher education, including students on Postgraduate Certificate in Education courses. They broadly replicate provisions in the corresponding GB Regulations which apply to English and Welsh domiciled students.

There are no compelling reasons to offer financial incentives similar to those available to teacher training students in England and Wales, including NI domiciled students, to encourage recruitment to or retain teachers within the profession here, as this is not a pressing problem in NI. Applications to teacher training courses in Northern Ireland currently exceed by 8 to 1 the number of places available. Moreover, there is no evidence that the existence of incentives elsewhere is diverting applicants away from the NI institutions. The position, however, is kept under close review.

Police Service

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland what funding has been made available to the Police Service of Northern Ireland unit established to tackle the targeting of elderly people by criminal gangs. [54596]

Mr. Woodward: I am advised by the Chief Constable that funding for this initiative is from within existing resources.

Policing Accountability Report

David Simpson: To ask the Secretary of State for Northern Ireland what the total cost was of the Policing, Accountability and the Lesbian, Gay and Bisexual Community Report published by the Police Ombudsman for Northern Ireland. [57631]

Mr. Woodward: The Policing Accountability and the Lesbian, Gay and Bisexual Community in Northern Ireland Report was jointly commissioned by the Police Ombudsman and the Northern Ireland Policing Board. The total cost of the report was £20,650. The Police Ombudsman for Northern Ireland paid £6,884 and the Northern Ireland Policing Board paid £13,766.

Primary Schools

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many pupils were enrolled in Northern Ireland at *(a)* controlled, *(b)* maintained and *(c)* integrated primary schools as at December 2005. [56357]

Angela E. Smith: The annual school census gathers enrolment data at October each year. Enrolments in primary schools in Northern Ireland at October 2005 were as follows:

	Enrolments
Controlled schools	80,508
Maintained schools	79,859
Integrated schools	7,045

Notes:

1. The figures provided include pupils in nursery, reception and Year 1 to Year 7 classes, where applicable.
2. The figures exclude preparatory departments of grammar schools.
3. The figure for Controlled schools excludes Controlled Integrated schools; these are included in the figure for integrated schools.

Recycling (Domestic Waste)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what percentage of domestic waste each council in Northern Ireland recycled in each of the last three years, listed in descending order. [57092]

Angela E. Smith: The following tables set out total household waste recycled and composted as a percentage of total household waste arisings for the years 2002, 2003 and 2004–05 (in descending order). The apparent inconsistencies in the data arise because some data were submitted on a calendar year. Since mid-2003, district councils have submitted data on a quarterly basis. It has been decided that financial years will be reported in future.

Table 1: 2002 Household waste recycling rates

District council	*Household waste recovered as a percentage of household waste arisings*
Banbridge District Council	29.5
Ballymena Borough Council	21.0
Antrim Borough Council	19.1
Cookstown District Council	17.3
Newtownabbey Borough Council	16.5
Armagh City and District Council	16.5

Derry City Council	13.7
Lisburn City Council	12.2
Moyle District Council	11.3
Belfast City Council	8.9
NI Total	18.9

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what targets have been set for recycling domestic waste in each council area in Northern Ireland by 2010. [57093]

Angela E. Smith: The Northern Ireland Waste Management Strategy 2000 sets an overall requirement for district councils to recover 25 per cent. of household waste by March 2006, and to recover 40 per cent. of household waste by 2010, of which 25 per cent. should be by recycling or composting.

The new Waste Management Strategy, scheduled to be published at the end of March 2006, will build on the targets set in 2000.

Single Farm Payment

Dr. McCrea: To ask the Secretary of State for Northern Ireland when all payments under the single farm payment scheme will be concluded in Northern Ireland. [58137]

Angela E. Smith: European Union Regulations provide for the single farm payment to be paid between 1 December of the year of application and 30 June of the following year. The Department of Agriculture and Rural Development is processing payments on eligible claims for the 2005 scheme-year in accordance with the EU legislation. In some exceptional circumstances it may be necessary to reserve payment until after June 2006 where a complex query cannot be resolved.

Temozolomide

Lady Hermon: To ask the Secretary of State for Northern Ireland what plans he has to make the drug temozolomide available on the NHS in Northern Ireland for the treatment of serious brain conditions. [57100]

Mr. Woodward: The drug temozolomide is currently available in Northern Ireland as a second line chemotherapy treatment for patients suffering from recurrent malignant glioma (brain cancer).

Temozolomide is not available for the treatment of newly diagnosed glioma as it has not yet been fully assessed for that indication by NICE or other relevant authorities. It is important that before drugs are made generally available for new indications they go through the full licensing and evaluation process as only then can we be assured of their safety and efficacy.

Written Answers to Questions

Tuesday 14 March 2006

PRIME MINISTER

Scotland Act

Stewart Hosie: To ask the Prime Minister whether he has made a determination under section 87(3) of the Scotland Act 1998. [58332]

The Prime Minister: An announcement will be made in due course.

FOREIGN AND COMMONWEALTH AFFAIRS

Darfur

9. **Sandra Gidley:** To ask the Secretary of State for Foreign and Commonwealth Affairs what progress is being made in bringing to justice the perpetrators of human rights abuses in Darfur. [57935]

Ian Pearson: The international criminal court is proceeding with its investigation into events in Darfur. We will offer the court whatever assistance it requires. We call on the Government of Sudan itself to bring the perpetrators of human rights abuses to justice; to co-operate fully with the ICC; and to prevent further abuses. We are proposing to Security Council partners a list of individuals responsible for atrocities in Darfur, against whom UN sanctions should be imposed.

14. **Mr. Stewart Jackson:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the security situation in Darfur. [57940]

Ian Pearson: There has been further fighting in Darfur between the forces of the Government of Sudan and rebel groups recently, as well as between different militias and tribal groupings. There have been attacks on civilians, humanitarian workers and the AU monitoring mission. And the general level of banditry remains high.

We call on all the parties to respect the ceasefire and reach an early political settlement. We are taking the actions outlined by my right hon. Friend the Secretary of State.

Joint Economic and Trade Committee

15. **Peter Luff:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the current work programme of the Joint Economic and Trade Committee. [57941]

Ian Pearson: The Joint Economic and Trade Committee is a bilateral mechanism for businesses to raise issues of concern for action by the Indian and UK Governments. It aims to encourage the Indian Government to open more sectors to foreign investment and increase trade and investment opportunities for British business.

Indian and British businesses are participating in working groups for agribusiness, accountancy services, health care, hi-tech clusters, legal and financial services and infrastructure.

Iran

16. **Mr. Chaytor:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on Iran's nuclear programme. [57942]

Dr. Howells: I refer my hon. Friend to the answer my right hon. Friend the Foreign Secretary gave earlier.

22. **Peter Viggers:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on Iran's relations with the International Atomic Energy Agency. [57949]

Dr. Howells: I refer the hon. Member to the answer my right hon. Friend the Foreign Secretary gave earlier.

Ethiopia

17. **Julie Morgan:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Ethiopian Government on disturbances in the country. [57943]

Ian Pearson: We remain concerned about the situation in Ethiopia. We have called on all sides to exercise restraint, avoid confrontation and violence, and respect the law.

Ministers and officials raise our concerns regularly. Since December, my right hon. Friends the Prime Minister, the Secretary of State for International Development and my noble Friend, the Minister for Africa, Lord Triesman of Tottenham, have all discussed developments with the Ethiopian Prime Minister personally.

Zimbabwe

18. **Mr. Bellingham:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he next expects to meet his EU counterparts to discuss EU sanctions against Zimbabwe. [57944]

Ian Pearson: At the 30 January General Affairs Council my right hon. Friend the Foreign Secretary joined his EU colleagues in renewing sanctions against Zimbabwe for a further year. This decision reflected the European Union's strong concern about the human rights situation and failure of governance in Zimbabwe. We remain in close touch with EU partners to maintain a firm international response to the crisis.

India

21. **Mr. Jim Cunningham:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Varanasi, India after the recent bombings. [57948]

Dr. Howells: The atmosphere in Varanasi is said to be tense, though there has been no significant violence following the bomb attacks on 7 March. The central

Government in Delhi has appealed for calm and has offered police assistance to the state government of Uttar Pradesh. Religious leaders across the board have condemned the attacks. Our high commission in New Delhi will continue to monitor the situation.

Iraq

23. **Miss McIntosh:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Iraq. [57950]

Dr. Howells: Despite attempts by terrorists to derail the political process, Iraq's leaders recognise they have an opportunity to form a Government of national unity, committed to a common programme, promoting genuine power sharing and helping to overcome sectarianism.

We continue to urge them to agree the formation of such a Government as rapidly as possible. We understand the inaugural meeting of the Council of Representatives will be held on 16 March.

Barbara Follett: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of women's participation and representation in the Transitional National Assembly of Iraq. [57947]

Dr. Howells: Women play an important part in Iraqi politics and were well represented in the Transitional National Assembly. 70 have been elected to the new Council of Representatives. We hope women will be well represented in the new government.

Equal opportunities are enshrined in Iraq's new constitution. And President Talabani has pledged that state institutions will not neglect women's rights. We will continue to work to support this.

Ascension Island

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been allocated by the Government to promote scientific research and study on Ascension Island in each of the last seven years. [56866]

Mr. Douglas Alexander: During the last seven years there has been one scientific research project funded by the Government. This was a mapping and geographical information system project carried out on Ascension Island in 2004–05 at a cost of £48,900. This was funded through the joint Foreign and Commonwealth Office/ Department for International Development Overseas Territories Environmental Project fund.

Belarus

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the government of Belarus regarding the arrest, imprisonment and intimidation of opposition leaders *(a)* Anatoly Lebedko and *(b)* Vincuk Viacorka in the period leading up to the presidential election on 19 March. [58533]

Mr. Douglas Alexander: The intimidation of Anatoly Lebedko and Vincuk Vyachorka is just one example of a pattern of harassment of the opposition by the Belarusian authorities. The Government deplores such harassment and, in addition to action in Minsk, the UK regularly makes its concerns clear to Belarusian representatives at the Organisation for Security and Co-operation in Europe in Vienna and via the EU in Brussels.

British Diplomatic Posts

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs how many countries in Africa do not have a UK ambassador based in that country. [58160]

Ian Pearson: There are currently 23 African countries where the UK does not have a resident ambassador or high commissioner. These are: Benin, Burkina Faso, Burundi, Cape Verde, Central African Republic, Chad, Comoros, Cote d'Ivoire, Djibouti, Equatorial Guinea, Gabon, Guinea Bissau, Lesotho, Liberia, Madagascar, Mali, Mauritania, Niger, Republic of Congo, Sao Tome and Principe, Somalia, Swaziland and Togo.

Costa Rica

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what plans there are to host a visit from Oscar Aria, President-Elect of Costa Rica, in the UK; [58629]

(2) if he will make a statement on UK-Costa Rican relations. [58630]

Mr. Douglas Alexander: The Government welcome the successful holding of democratic elections in Costa Rica and congratulate the new President-elect, Oscar Arias Sanchez, on his victory. Relations between the UK and Costa Rica remain strong and we look forward to working with President-elect Arias and his new government. There are currently no plans for a visit by the President-elect to the UK.

Departmental Relocation

Mr. Llwyd: To ask the Secretary of State for Foreign and Commonwealth Affairs how many jobs in his Department have been relocated to Wales since 2001. [57695]

Mr. Straw: None.

Dominican Republic

Ms Abbott: To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will raise the human rights situation of Haitian migrant workers during the forthcoming visit of President Fernandez of the Dominican Republic; and if he will make a statement. [57924]

Mr. Douglas Alexander: President Leonel Fernandez of the Dominican Republic will visit the UK as a guest of the Government from 21–24 March 2006. Dominican Republic/Haiti relations and the human rights situation are always on the agenda when we speak to Dominican Republic Ministers, and we look forward to a constructive exchange on these and many other issues with President Fernandez and his accompanying Ministers during the visit.

Guantanamo Bay

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* he and *(b)* his officials have received evidence of the use of dogs as part of interrogation techniques at Guantanamo Bay detention centre. [58603]

Dr. Howells: Following allegations of prisoner abuse at Guantanamo Bay detention facility, including the use of dogs during interrogation sessions, Lieutenant General Randall M Schmidt conducted an investigation of the detention and interrogation operations there. His report confirmed that dogs had been used during interrogation sessions on two occasions but that the practice had since been specifically prohibited. The full report, the Army Regulation 15–6: Final Report "Investigation into FBI Allegations of Detainee Abuse at Guantanamo Bay, Cuba Detention Facility", is available at: www.cfr.org/publication/9804/schmidt_report.html.

Hudood Ordinances

Mr. Iain Wright: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the implementation of the Hudood Ordinances in Pakistan; and if he will make a statement. [57870]

Dr. Howells: We remain concerned about the infringement of human rights through the Hudood Ordinances, which enforce strict forms of punishments such as whipping, amputation of limbs and death for breaking the law. We are particularly concerned by the ordinance relating to the offence of Zina (Fornication/Adultery) which increases potential injustices against women. Victims of rape, or even gang rape, have been accused of Zina and thereby subjected to wrong and unjust prosecutions. This has often left victims ostracised by their families and communities.

The UK would like to see all of the Hudood Ordinances repealed and the Pakistan Penal Code should be amended to provide appropriate legal guidelines to enable a more coherent approach to prosecuting rape and adultery cases. Failing a full repeal, we would like the Government of Pakistan to consider amending the ordinances to ensure that they are not discriminatory towards women.

Iran

Patrick Mercer: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of comments by the Iranian negotiator Hassan Rowhani on 4 March 2006 on Iran's nuclear programme. [57871]

Dr. Howells: As the International Atomic Energy Agency (IAEA) has documented in successive reports, Iran has long lacked transparency about its nuclear activities. The nature of Iran's nuclear activities, its record of concealment, its failure to co-operate fully with the IAEA, and its failure to take necessary confidence building steps have contributed to the deep concerns of the international community that Iran's intentions regarding its nuclear programme, may not be, as it claims, exclusively peaceful. It is precisely for this reason that we, with France and Germany, and with the support of the EU high representative and other members of the international community, have engaged in our diplomatic efforts. The remarks attributed to Hassan Rowhani serve only to underline the urgent need for Iran to address the requests made in successive IAEA Board resolutions, including by suspending all enrichment-related and reprocessing activities.

Lesotho

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the political implications of the recent attempt to assassinate Lesotho's Foreign Minister; and if he will make a statement. [58227]

Ian Pearson: We are concerned by the events of 29 January and are monitoring developments closely. The Lesotho police continue to investigate the case. No arrests have yet been made in relation to the shooting. At this stage, it is unclear whether the shooting was politically rather than criminally motivated. Our high commissioner in Pretoria wrote to Foreign Minister Moleleki on 1 February, to offer his sympathy and that of my noble Friend, the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham.

Natural Disasters

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 24 January 2006, *Official Report*, columns 2007–08W, on natural disasters, whether the individuals involved in Hurricane Katrina had been *(a)* alerted to the danger and *(b)* advised to evacuate by (i) the local authorities and (ii) his Department; what class of ticket they travelled on; for what reasons return flights were required; what factors underlay the level of departmental financial support supplied; and if he will make a statement. [52609]

Ian Pearson: The Foreign and Commonwealth Office frequently amended its travel advice to British nationals during Hurricane Katrina and advised British nationals in the area to track the hurricane and pay attention to advice from local authorities and the media. We also published web links to US agencies who offered advice on how to prepare for storms and to meteorological sites who monitored her progress. When Katrina hit, we advised of causalities and widespread damage and disruption. The Mayor of New Orleans ordered a mandatory evacuation of the city on 28 August.

We are constantly improving our consular response to British nationals caught up in mass casualty incidents overseas. If there is a major catastrophe, we will consider whether to offer exceptional help to those British nationals who are directly affected, bearing in mind the circumstances of the catastrophe and the resources available. In line with this, we put in place a version of the assistance package used for the Asian tsunami to help British nationals affected by Hurricane Katrina. The package includes: up to five nights accommodation for any residents and visiting British nationals in desperate need; business class return flights for those resident in the US who had lost homes,

belongings and funds; flights for any bereaved families to travel to the US if appropriate and repatriation of remains if appropriate.

Nepal

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Nepalese Government on human rights. [58018]

Dr. Howells: The UK has made regular representations to the Nepalese Government on human rights. We have also made repeated public statements deploring human rights violations by both the Nepalese security forces and the Maoists. Most recently, senior Foreign and Commonwealth Office officials met the Nepalese ambassador on 2 March and raised our concerns about the continued detention of political leaders and activists, and peaceful demonstrators. Prior to that we have registered our concern about physical abuses and the infringement of democratic and civil rights with the Government at all levels, including with the King after he took direct power of the country last year.

In seeking to address human rights issues we have sought to coordinate closely with our EU partners. In October 2005, as Presidency of the EU, the UK led an EU directors level Troika delegation to Nepal. The Troika raised human rights issues with many of its interlocutors. In a press statement at the end of the Troika's visit, the Troika said:

> "We urge the Government and the security forces to lead by example in respecting human rights, to tackle urgently the prevailing culture of impunity, and to use security legislation with utmost caution".
>
> The Troika also registered its concerns about the Government's enforcement of repressive restrictions on the media in Nepal and said that freedom of expression was a fundamental prerequisite for an effective democracy and the recent Media Ordinance infringed upon the right to freedom of expression.

In a more recent statement on 27 January, the UK joined the EU in responding to the recent escalation of violence and political unrest, which also addressed the issue of human rights in Nepal. This is available on the following website:

http://www.eu2006.at/en/News/CFSP_Statements/January/2701Nepal.html

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Nepalese Government on the restoration of democratic government. [58020]

Dr. Howells: The UK has made regular representations to the King and Government of Nepal, calling on them to restore democracy and pursue a negotiated political settlement to the conflict involving all of the main actors. Most recently, on 2 March officials from the Foreign and Commonwealth Office met with the Nepalese ambassador and registered our ongoing concerns about the democratic deficit in Nepal. We also conveyed our concerns about the continued arrests and detention of political activists, restrictions on the media and the absence of consultations between the parties for a full return to democracy, including through elections. Prior to that we have registered our concerns about the infringement of democratic rights with the government at all levels, including with the King after he took direct power of the country last year.

In seeking to address the restoration of democracy in Nepal, we have sought to coordinate closely with our EU partners. In October 2005, as presidency of the EU the UK led an EU directors level Troika delegation to Nepal to encourage reconciliation and dialogue between the king, the political parties and the Maoists. The Troika said to the Government of Nepal that an effective multi-party democracy was the only sustainable solution to the problems of Nepal. The Troika also expressed the need for an inclusive and comprehensive negotiated peace process, which will require the assistance of an independent and credible external partner and the active support of the international community.

More recently, in response to an escalation of violence and political unrest, the EU issued a joint statement on 27 February in which we said that, for elections to be meaningful,

> "it is crucial that they be held in direct consultation with the political parties as part of an exercise to establish a full return to democracy. The fact that no such consultation has taken place means that the planned municipal elections will be another step backwards for democracy and are likely to further polarize positions".

North Korea

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what the objectives are of the Government's policy towards North Korea. [58165]

Ian Pearson: The Government wishes to see a peaceful resolution of the Democratic People's Republic of Korea (DPRK) nuclear issue. We welcome the confirmation in the 19 September 2005 statement by the participants in the Six Party Talks process of the DPRK Government's commitment to the de-nuclearisation of the Korean peninsula. We urge the DPRK to return to the Six Party talks and implement its commitments, including verifiably dismantling its illicit weapons programmes and resuming its engagement in the Nuclear Non-Proliferation Treaty. The Government also wants to see an improvement in the DPRK human rights situation and raises human rights concerns at every appropriate opportunity.

Parliamentary Questions

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will answer Question 42498 tabled by the hon. Member for Lancaster and Wyre on 11 January, on Qinetiq. [53283]

Mr. Straw: UIN 42498 was tabled to my right hon. Friend the Secretary of State for the Home Department who will reply shortly. The hon. Member tabled a question on Qinetiq to me on 11 January (UIN 42537) which I also hope to reply to shortly.

St. Helena

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what visits to St. Helena by Government Ministers are planned. [56807]

Mr. Douglas Alexander: Foreign engagements for my right hon. Friend the Foreign Secretary and other Ministers are kept under constant review. It is not our practice to announce such visits until they are firm. Because of the unpredictable nature of world events, final decisions on overseas visits are often not possible until very shortly before the day of travel.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the United States regarding the firing of missiles near St. Helena. [56809]

Mr. Douglas Alexander: There have been no discussions with the US regarding the firing of missiles near St. Helena. However, discussions were held with the US, in the 1950s, about the use of Ascension Island as a missile testing ground. These discussions culminated in the signing of the agreement between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America concerning the extension of the Bahamas Long Range Proving Ground by the establishment of additional sites in Ascension Island on 25 June 1953.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* British and *(b)* foreign visitors to St. Helena there have been in each of the last seven years. [56873]

Mr. Douglas Alexander: St. Helena Immigration Department has provided the following figures for British and foreign visitors in each of the last three years:

	British	*Foreign*
April 2004 to March 2005	378	619
April 2003 to March 2004	359	688
April 2002 to March 2003	276	160

There are no reliable figures for the previous years.

TRANSPORT

Brighton to Ashford Rail Service

Damian Green: To ask the Secretary of State for Transport pursuant to the publication of the Brighton Main Line Route Utilisation Strategy, what the most recent daily usage figures are for the direct Brighton to Ashford service; and if he will make a statement. [53497]

Derek Twigg: The Department does not hold daily usage figures of services operated by train operating companies.

Brownhills Transport Package

Mr. Jenkins: To ask the Secretary of State for Transport what representations he has received from *(a)* Staffordshire county council and *(b)* Lichfield district council regarding the Brownhills Transport Package. [58076]

Ms Buck: We have not received any representations from either Staffordshire county council or Lichfield district council about the Brownhills Transport Package, although the Department is aware of their concerns.

Concessionary Travel

Stephen Hammond: To ask the Secretary of State for Transport how many councils have made representations to his Department on the introduction of the national bus concessionary scheme. [57344]

Ms Buck: To date, the Department for Transport has received 35 representations from local authorities on the introduction on 1 April 2006 of free local off-peak bus travel for older and disabled people.

Stephen Hammond: To ask the Secretary of State for Transport whether he expects a change in council tax to be necessary to meet funding for bus concessionary schemes. [57346]

Ms Buck: The Government are providing an extra £350 million through the formula grant system for 2006–07. It is for local authorities to deicide on their overall funding priorities based on their judgment of local need and circumstances.

Stephen Hammond: To ask the Secretary of State for Transport whether councils are reducing the level of provision of service as a result of the introduction of a national standard bus concessionary scheme. [57348]

Ms Buck: The general consensus is that the extra £350 million for 2006–07 will be sufficient in aggregate to fund the extra cost to local authorities. It is for local authorities to deicide on their overall funding priorities based on their judgment of local need and circumstances.

Stephen Hammond: To ask the Secretary of State for Transport which local authorities were operating a bus concessionary fare scheme on 31 December 2005. [57349]

Ms Buck: All travel concession authorities (TCAs) on 31 December 2005 were required to offer half-fare local off-peak bus travel within its boundary to those 60 and over and disabled people. From 1 April 2006 the minimum entitlement will be improved to free local off-peak bus travel. TCAs are district and unitary authorities, and the passenger transport executives in the metropolitan areas.

Paul Rowen: To ask the Secretary of State for Transport what concessionary travel schemes are operated by local authorities *(a)* within the local authority area and *(b)* across local authority areas in addition to the free bus travel for pensioners; and what charges local authorities are making to operate these schemes. [57449]

Ms Buck: A survey carried out by the Department in 2003 identified 292 schemes; 85 schemes provided concessionary travel within the local authority or passenger transport executive boundary. The majority of the remainder allowed cross-boundary travel, such as

countywide coverage, as part of the local authority's main scheme. Of those, 11 local authorities charged a fee for the enhanced geographical coverage ranging from £5 to £180 per year.

From 1 April, when free off-peak local bus travel is introduced for residents aged 60 and over and for disabled people, local authorities may, at their discretion, continue to work together to provide cross-boundary travel, depending on local circumstances and overall financial priorities.

Rosie Cooper: To ask the Secretary of State for Transport (1) what estimate his Department has made of the additional costs of extending the concessionary travel scheme to allow cross-boundary travel; [57889]

(2) what estimate his Department has made of the number of additional trips that over-60s and disabled bus service passengers would make if the concessionary travel scheme were to be extended across boundaries. [57890]

Ms Buck: None. Cross-boundary concessionary travel is offered at the discretion of the local authority based on their judgment of local needs and their overall financial priorities.

Rosie Cooper: To ask the Secretary of State for Transport (1) what estimate his Department has made of the total amount private bus providers will spend on complying with the requirements of the concessionary travel scheme; [57891]

(2) whether his Department has provided additional funding to private bus providers to ensure that they comply with the requirements of the concessionary travel scheme. [57892]

Ms Buck: The Government are providing an extra £350 million through the formula grant system for 2006–07. The general consensus is that this will be sufficient to cover the costs to authorities of reimbursing bus operators on a no better/no worse off basis.

Crossrail

Philip Davies: To ask the Secretary of State for Transport what issues are being considered by the Crossrail Equality Impact Assessment Project and Policy Assessment; what estimate has been made of its cost; and if he will make a statement. [52070]

Derek Twigg: The Crossrail Equality Impact Assessment seeks to identify and assess differential impacts that Crossrail may have upon particular groups within affected communities, in order to inform mitigation planning. The assessment process includes both direct impacts from construction or operation and secondary impacts such as effects on equality of opportunity and community relations.

Cross London Rail Links Ltd. have estimated that its Equality Impact Assessment work, including preparation of the Equality Impact Assessment Project and Policy Assessment Report, published in January 2006, has cost £314,000.

Consultation has been carried out in line with the code of practice, produced by the Cabinet Office, which was published in 2004.

Mr. Swire: To ask the Secretary of State for Transport what assessment he has made of the impact Crossrail would have on the *(a)* capacity and *(b)* length of journeys from Paddington to Exeter. [54040]

Derek Twigg *[holding answer 27 February 2006]:* Once operational, Crossrail will use relief lines during normal operation and will not have an impact on fast lines used for longer distance services such as the service between Paddington and Exeter.

There will be some disruption from enhancement works to the Great Western Main Line between Paddington and Maidenhead that are part of the Crossrail project. The track possessions, which are assumed to be mainly at night and weekends, will be planned through normal industry processes.

Andrew Rosindell: To ask the Secretary of State for Transport how a Crossrail train will be taken out of action once it has entered the core tunnel between Stratford and Paddington. [55274]

Derek Twigg: The Crossrail service is being planned and developed to deliver high reliability. The planned trains will be highly resilient and, in the event of a failure in the central tunnel, will be designed to be pushed by a following train to a point where passengers can be safely evacuated. The same operational practice is used on the London underground.

Crude Oil

Chris Grayling: To ask the Secretary of State for Transport what assumptions of *(a)* prices and *(b)* range of prices for crude oil in (i) 2010, (ii) 2015, (iii) 2020, (iv) 2025, (v) 2030 and (vi) 2050 are being used by his Department in (A) the National Transport Model, (B) the forthcoming review of the aviation White Paper and (C) the draft guidance on railway closures; when the Department last reviewed these prices; and whether these price assumptions have been subject to independent external review. [58326]

Ms Buck: The Department's National Transport Model uses fuel prices that are based upon DTI crude oil price projections. We update our fuel price forecasts in line with DTI oil price updates. DTI usually make their oil price projections (which they normally update one or two times a year) publicly available on their website and also subject them to periodic public review—most recently in the summer of 2005 (http://www.dti.gov.uk/energy/sepn/fossil_fuel_price_assumptions.pdf). Their latest projections are for crude oil to fall from its current high levels to $35 (in 2004 prices) in 2010 and then remain at that level in real terms through to 2020—the end of their projection.

The Aviation White Paper published in December 2003 says that DfT will continue to update forecasts in the light of trends. Movements in the oil price since publication of the White Paper are clearly one material factor; any further forecasts would need to take into account up-to-date departmental assumptions.

The draft guidance on rail closures is not itself based on any particular assumption about crude oil prices. Prevailing and anticipated future fuel costs are one of a range of issues which we will expect to be taken into account at the time a specific proposal is made.

Driving (Sleep Problems)

Mrs. Riordan: To ask the Secretary of State for Transport what research his Department has *(a)* commissioned and *(b)* undertaken into the link between obstructive sleep apnoea and road traffic accidents; and what plans his Department has to collect information on road traffic accidents in which a sleep disorder is a contributing factor. [58539]

Dr. Ladyman: The Department for Transport has not commissioned or undertaken such research. The Department is aware however of many studies undertaken by others and in my answer of 2 December 2005, *Official Report*, column 810W, I explained the steps the Department has taken. There are no plans to collect information on accidents where a sleep disorder may be a factor. Police officers, who collect information at road crashes for the Department, are not trained to recognise specific sleep disorders. However, where appropriate, from January 2005, they have been able to state their opinion whether fatigue may have been a contributory factor. Information on numbers from such reports will be available in due course.

DVLA

Harry Cohen: To ask the Secretary of State for Transport whether the Driver and Vehicle Licensing Agency (DVLA) has a lost passport section; how many people on average have complained that their passports have been lost by the DVLA in each of the last five years; whether the DVLA is considering *(a)* the use of registered mail and *(b)* other improvements to the arrangements for returning passports; and if he will make a statement. [57855]

Dr. Ladyman: The Driver and Vehicle Licensing Agency (DVLA) has a specialist section which deals with all inquiries relating to missing identity documents, including passports.

Over the past five years the total number of passports reported as missing by drivers was 20,660 (14,968 UK and 5,692 foreign). To date, only 7,740 (5,282 UK and 2,458 foreign) have become the subject of claims for compensation. Approximately 25 per cent. can be attributed to a DVLA error in keying the address, with 75 per cent. due to non-delivery by Royal Mail. Over 12,500,00 applications for first photocard driving licences (i.e. those requiring the submission of identity documents) were processed during this period.

The use of special/recorded delivery arrangements for the issue of documents has been considered, but this would involve substantial clerical intervention which would mean a significant increase in the fees charged for driving licences. The use of plain fit for purpose envelopes by DVLA has not revealed any widespread problems. Some drivers send their own envelopes for return, but this is a matter for personal choice.

Holders of UK passports can take their applications to 750 post offices for checking, with the passport returned immediately. DVLA's local offices offer the same service and will also check EU passports and those from certain other countries where agreements for the exchange of licences exist. DVLA now also has in place a computerised link with the UK Passport Service whereby holders of digitised UK passports need only quote their passport number on their application forms. A check is then made online and the applicant need not send or take their passport anywhere.

Metrolink

Paul Rowen: To ask the Secretary of State for Transport if he will break down by main budget heading the latest estimated cost of the Rochdale-Oldham Metrolink Extension. [56611]

Derek Twigg *[holding answer 7 March 2006]:* Work on producing detailed cost estimates for the Rochdale-Oldham Metrolink Extension is ongoing. As promoters, GMPTE are leading on this work.

Nuclear Shipments (Carlisle)

Mr. Martlew: To ask the Secretary of State for Transport how many times shipments of *(a)* nuclear fuel and *(b)* nuclear waste have passed through Carlisle constituency by rail in the last five years. [58587]

Dr. Ladyman: Information is only available on shipments of irradiated nuclear fuel flasks from nuclear power stations to Sellafield. Because of the nature of the railway network it is likely that shipments from power stations in Scotland and north east England will have passed through Carlisle. The total number of flasks shipped from these power stations (Torness, Hunsterton and Hartlepool) during the last five years were:

	Number
2001	158
2002	150
2003	170
2004	133
2005	132

A single train may carry several flasks.

Information is not available on how many of these shipments passed through the Carlisle constituency as the route chosen is a matter for the rail operator.

Pass Plus

Mr. Harper: To ask the Secretary of State for Transport (1) what discussions he has had with insurance companies regarding reduced premiums for those that have *(a)* the Pass Plus and *(b)* other advanced driving qualifications; [57963]

(2) what assessment he has made of the impact of *(a)* the Pass Plus scheme and *(b)* other advanced driving courses on drivers' accident rates; [57964]

(3) what assessment he has made of the impact of the Pass Plus scheme on the payouts made by insurance companies for road traffic accidents. [57965]

Dr. Ladyman: The Driving Standards Agency administers the Pass Plus scheme. The agency's chief executive chairs the Pass Plus Board which comprises representatives from the driver instruction and motor insurance industries. Some insurance companies offer premium discounts to newly-qualified drivers who have completed a Pass Plus course. Several advanced driving

test organisations have negotiated discounts with insurance companies for their members who have passed an advanced driving test.

The Department has not assessed the impact of the Pass Plus scheme or other advanced driving courses on accident rates. We do not have the commercial data to assess any impact on payouts made by insurance companies for road traffic accidents. The Department commissioned a research project in January 2006 on how to improve the Pass Plus scheme and its take up by newly qualified drivers. This project is due to be completed in December 2007. We are also currently undertaking a large cohort study of novice drivers which includes the collection of data about accidents in the three years after passing the practical driving test. This has collected data on whether subjects in this study have taken Pass Plus training. The Driving Standards Agency is planning work with providers to assess standards of provision of advanced driving courses and ensure that minimum standards are met.

Railways

Mr. Laurence Robertson: To ask the Secretary of State for Transport what assessment he has made of the *(a)* reliability, *(b)* punctuality and *(c)* frequency of trains running to and from Gloucestershire; what plans he has to improve those services; and if he will make a statement. [56517]

Derek Twigg: Network Rail, are responsible for monitoring the performance and reliability of the train operating companies. Joint action plans are in place between Network Rail and the train operating companies to address performance and these are monitored monthly. In addition, I have held meetings with Network Rail and the train operating companies to discuss performance issues.

Under the proposed timetable to be introduced in December 2006 by the new Greater Western franchise, Cheltenham, Gloucester and the Stroud Valley will receive an hourly all-day weekday service to Swindon and London (changing at Swindon in alternate hours), with journeys reduced by up to 11 minutes.

Tom Brake: To ask the Secretary of State for Transport what discussions his Department has had with *(a)* GNER and *(b)* the Office of the Rail Regulator (ORR) held on the rejection by the ORR of GNER's rail service proposals. [54291]

Derek Twigg: Officials from the Department have met GNER to discuss the implications of the ORR's provisional decision about additional London to Leeds services as required under the franchise agreement. The Department has since written to ORR.

Mrs. James: To ask the Secretary of State for Transport what assessment the British Transport police have made of *(a)* the incidence of vandalism and *(b)* levels of passenger security at Llansamlet railway station. [56081]

Derek Twigg: Llansamlet railways station has not been the subject of a specific assessment by the British Transport police (BTP) due to its low crime levels. BTP has set objectives in its Wales and Western Policing Plan regarding graffiti and route crime that directly target vandalism. A target has also been set around low level disorder which is designed to assist in maintaining passenger security. The station is regularly visited by BTP officers.

Chris Grayling: To ask the Secretary of State for Transport if he will list the contracts between the Government and Network Rail. [52148]

Derek Twigg: There are nine main contracts and a number of other associated agreements relating to credit support arrangements for Network Rail's borrowing to which the Secretary of State is party.

There are also a number of other contracts and agreements between the Secretary of State and Network Rail mainly relating to franchising, legal, and technical matters. These include five enhancement agreements and a number of agreements made pursuant to them relating to some 20 enhancement projects. A further five contracts and agreements relate to depots in the Integrated Kent Franchise area.

The Highways Agency also has some 23 contracts or agreements with Network Rail where payment has been made this year. This is regarding maintenance and other works concerning railway structures adjacent to the strategic road network. There are also other agreements against which no expenditure is currently being made.

Ian Lucas: To ask the Secretary of State for Transport how many open access rail licences have been granted since 1997; and for which routes. [56524]

Derek Twigg: Since 1997, 11 passenger train operator licences have been granted to persons who were not also franchise operators. Of these, two licences have restricted scope—one authorises trains operating only to Heathrow Airport and one authorises international services only, four are for charter train services only.

The remaining five licences allow scheduled passenger services on any network. Wensleydale Railway plc operates services on its own network. The remainder operate on the national network, in Merseyside, Tyne and Wear, Stourbridge and between London and Hull.

The 11 licensed operators are:

Direct Rail Services Limited (1997) (Charter)

Heathrow Express Operating Company Limited (1997) (restricted scope)

Eurostar (UK) Limited (1998) (restricted scope)

West Coast Railway Company Limited (1998) (Charter)

Hull Trains Limited (2000)

FM Rail Limited (2002) (Charter)

Tyne and Wear Passenger Transport Executive (2002)

Merseyrail Electrics 2002 Limited (2003)

Wensleydale Railway PLC (2003)

Pre Metro Operations Limited (2004)

Advenza Freight Limited (2006) (Charter).

Mr. Jenkins: To ask the Secretary of State for Transport what restrictions he has placed on increases in the number of trains run by operating companies; and which of these restrictions apply to trains running to and from Staffordshire. [58073]

Derek Twigg: The Department for Transport does not restrict franchised passenger train operators from running additional train services. This applies equally to

the three franchised passenger train operators (Central Trains, Virgin Cross Country and Virgin West Coast) providing services in Staffordshire.

Tom Brake: To ask the Secretary of State for Transport how many of his Department's staff work on rail timetables. [57381]

Derek Twigg: The Department has 14 staff who work on rail timetables.

Mr. Greg Knight: To ask the Secretary of State for Transport what change there has been in the number of trains operating in excess of capacity for each franchise since 1996; and if he will make a statement. [50509]

Derek Twigg *[holding answer 14 February 2006]:* Passengers in Excess of Capacity (PIXC), applies to weekday commuter trains arriving in London between 07:00 and 09:59 and those departing between 16:00 and 18:59 for the train operators. This information, from 1996 to 2004 inclusive, is set out in the Office of Rail Regulation's publication—National Rail Trends—copies of which have been placed in the Libraries of the House.

Joan Ruddock: To ask the Secretary of State for Transport (1) what steps his Department plans to take to ensure that train operating companies and British Transport police improve security at stations in Lewisham; [55034]

(2) if he will provide assistance to Lewisham council to pilot partnership approaches to improving security at and around stations. [55035]

Derek Twigg: South Eastern Trains and Southern, in partnership with Transport for London, are improving CCTV systems at stations within the London borough of Lewisham. The Department continues to work with the Office of Rail Regulation, Network Rail and train operators to encourage and promote such initiatives. There is also a commitment for the operator of the new Integrated Kent Franchise to improve station facilities and security across the network. Over £2.5 million will be spent on providing additional help points and installing additional ticket gates at stations, while CCTV systems will be enhanced within the first two years of the new franchise.

I understand that South Eastern Trains are already in touch with Lewisham council about CCTV on stations in the borough.

Andrew Gwynne: To ask the Secretary of State for Transport when Platform 0 at Stockport railway station will become operational. [57998]

Derek Twigg: Network Rail advises that passenger services began using the new platform on 8 January.

Transport Infrastructure

Chris Grayling: To ask the Secretary of State for Transport what investment in transport infrastructure schemes to support economic regeneration is being considered in Objective 1 areas in England; what the schemes are; how much public spending is envisaged; and when he expects decisions to be made. [54943]

Ms Buck: Three areas of England received Objective One status (Cornwall; South Yorkshire; and Merseyside) At the present a number of major infrastructure schemes (mostly those over £5 million) are being considered and developed. Announcements on funding will be made in due course, following completion of detailed assessment and in light of the advice received from each region on their funding priorities.

In addition to major infrastructure schemes, each relevant transport authority will be considering transport projects that support regeneration in their areas. These proposals are likely to be detailed in the final second Local Transport Plans due to be submitted to my department by 31 March 2006.

On 28 February the Government launched a consultation on the UK's draft National Strategic Reference Framework for the Structural Funds from 2007–13. This will establish the broad priorities for future Structural Funds programmes in the UK, and provide Programme Managers with an initial basis to begin planning for the 2007–13 Financial Perspective.

The consultation will end on 22 May, and the Department of Trade and Industry aims to publish a response to the consultation within three months of that date.

For ease of reference I have provided the information requested in chart form as follows.

Scheme description	*Est. public sector funding proposed*	*Timetable for decision*
Cornwall		
Isles of Scilly Sea Link—replacement of existing passenger and freight sea connection. The Scillonian III summer passenger ship and the Gry Maritha all year freight and winter passenger service both reach the end of their operational life in 2009. Improvements would also be required to the harbour facilities at both Penzance and St. Mary's.	£32 million	Bid submitted—possible decision later this year.
Highway Agency Schemes		
A39 Camelford Distributor Road	£6.8 million (approved DfT contribution)	Scheme provisionally approved in 2000. Subsequent approval stages dependent on local authority progress with scheme preparation and Ministerial consideration of regional advice on priorities.
A391 St. Austell to A30 Bodmin	£30.35 million (approved DfT contribution)	Scheme provisionally approved in 2003. Subsequent approval stages dependent on local authority progress with scheme preparation and Ministerial consideration of regional advice on priorities.

Scheme description	Est. public sector funding proposed	Timetable for decision
A30 Bodmin—Indian Queens	£93 million (Latest approved budget)	Actual start of works—July 2005.
A38 Dobwalls Bypass	£36 million (Latest approved budget)	Estimated start of works 2006–07.
A30 Carland Cross to Chiverton Cross	£125 million (Latest approved budget)	Subsequent approval dependent on Ministerial consideration of regional advice on priorities.
A30 Temple to Higher Carblake Improvement	£41 million (Latest approved budget)	Subsequent approval dependent on Ministerial consideration of regional advice on priorities.
South Yorkshire		
South Yorkshire Supertram—a bid is currently being considering for funding in respect of two extensions to this system	£132 million.	A decision on entry to the approval process will be made in due course.
Doncaster A638 Quality Bus Corridor. Scheme to provide park and ride sites and bus lanes on the main Northern and Southern routes into Doncaster, to provide increased journey times.	£15.3 million.	The Department is currently considering a bid for full approval from Doncaster Metropolitan Borough Council.
Yorcard pilot—The aim of this scheme is to pilot the use of smartcard technology on selected bus and rail services and assess its impact, particularly on boarding and journey times.	Cost to DfT £4 million, total cost £6.9 million.	The Department is expecting to receive a bid for Full Approval in the near future.
Highway Agency Schemes		
A63 West Bawtry Road Improvement	£5.028 million (approved DfT contribution)	Scheme provisionally approved in 2000. Subsequent approval stages dependent on local authority progress with scheme preparation and Ministerial consideration of regional advice on priorities.
A57(T) Junction 31 to Todwick Crossroads	£6.264 million (approved DfT contribution)	Scheme provisionally approved in 2001. Subsequent approval stages dependent on local authority progress with scheme preparation and Ministerial consideration of regional advice on priorities.
A628 Cudworth and West G[illegible]ss	£17.198 million (approved DfT contribution)	Scheme provisionally approved in 2001. Subsequent approval stages dependent on local authority progress with scheme preparation and Ministerial consideration of regional advice on priorities.
Finningley and Rossington Regeneration Route	£72. 177 million (promoters bid for funding)	Possible decision on scheme new bid approval later in the year.
Waverley Link Road	£8.130 million (promoters bid for funding)	Possible decision on scheme new bid approval later in the year.
M1 Junction 31 to 32 Widening	£20 million (Latest approved budget)	To be progressed for future construction beyond April 2008.
M1 Junction 32 to 34S Widening	£139 million (Latest approved budget)	To be progressed for future construction beyond April 2008.
M1 Junction 34N to 37 Widening	£246 million (Latest approved budget)	To be progressed for future construction beyond April 2008.
M1 Junction 37 to 39 Widening	£224 million (Latest approved budget)	To be progressed for future construction beyond April 2008.
Merseyside		
Liverpool South Parkway—This scheme will provide: an interchange to local bus services and Liverpool John Lennon airport; a park and ride; and facilities for local passengers accessing rail services. Presently under construction.	Contribution of £6.332 million (total cost of £16.043 million)	Notification received of a cost increase to £32.171 million and a way forward is now being considered by promoters.
Central Station refurbishment scheme—The scheme will allow access to Liverpool City centre from merseyrail stations extending into the wider city region and beyond. It is the closest station to the major retail development within the Paradise Street Development area.	£9.8 million	Assessment process not advanced to the point where Secretary of State views have been sought
Rail Freight Access to the Port of Liverpool—This scheme will increase capacity and efficiency of rail freight to and from the Merseyports.	£9 million	Assessment process not advanced to the point where Secretary of State views have been sought.
Borderlands Electrification (Wrexham-Bidston Rail line)—Scheme will electrify some or all of the line south from Bidston to Wrexham (North Wales) to improve connectivity of the line's catchment to Birkenhead and Liverpool, offering access to jobs and services	£35 million	Assessment process not advanced to the point where Secretary of State views have been sought.
Highway Agency Schemes		
Edge Lane West	£15.85 million (approved DfT contribution)	Scheme provisionally approved in 2004. Subsequent approval stages dependent on local authority progress with scheme preparation and Ministerial consideration of regional advice on priorities.

BEST COPY AVAILBLE

Scheme description	Est. public sector funding proposed	Timetable for decision
Hall Lane Improvement Scheme	£12.2 million (approved DfT contribution)	Scheme provisionally approved in 2002. Subsequent approval stages dependent on local authority progress with scheme preparation and Ministerial consideration of regional advice on priorities.
M62 Junction 6 Improvements	£38 million (Latest approved budget)	Estimated start of works—2007–08

Chris Grayling: To ask the Secretary of State for Transport if he will list the schemes for investment in the transport infrastructure which have been announced by his Department and for which *(a)* no date has been set for the commencement of construction and *(b)* funding has yet to be allocated. [46130]

Ms Buck: Transport schemes of any significant scale will need to pass through several stages from initial conception to execution. This will include the initial proposal, outline and full business case, planning approval, funding and construction. The Department may make announcements at any or all of these stages to keep Parliament and the public informed and to assist the various stakeholders to progress the project as efficiently as possible. In addition, announcements may be made if for any reason—including, for example, changing regional priorities or estimates of cost—projects have to be reappraised.

At any one time there will be a substantial number of schemes which are in the process of being developed and for which final funding allocations or commencement dates have not yet been determined.

Transport Projects

Chris Grayling: To ask the Secretary of State for Transport if he will list transport projects announced by the Government and subsequently cancelled since 1997. [52657]

Ms Buck: I ref the hon. Member to the statements made by my right hon. Friend the Secretary of State for Transport on 20 July 2004, 16 December 2004 and 3 November 2005, and by my hon. Friend the Parliamentary Under-Secretary of State for Transport on 29 November 2005.

In addition, one other major local transport scheme has been announced and subsequently cancelled by the Government since 1997. The scheme was 'Pegasus' a school transport initiative based in Surrey.

Transport Services (Greater Manchester)

Andrew Gwynne: To ask the Secretary of State for Transport how many of Greater Manchester's bus operators have been reported to the Transport Commissioner in each year since 2001; and how many bus operators lost their operation licence as a result of investigations in each year. [57814]

Ms Buck: Statistics on licenses issued or revoked and action taken for non-compliance of bus operators are published in the Traffic Commissioners' Annual Report available from the House of Commons Library or www.dft.gov.uk.

Statistics are published by traffic area rather than geographical location; to break them down specifically to Greater Manchester could be done only at disproportionate cost.

Andrew Gwynne: To ask the Secretary of State for Transport what discussions his Department has had with *(a)* Greater Manchester Passenger Transport Executive and *(b)* Network Rail on improving the passenger facilities at Manchester Victoria Railway Station. [57821]

Derek Twigg: Plans for the improvement of passenger facilities at Manchester Victoria Station are a matter for Network Rail, in its role in co-ordinating railway industry planning, and for Northern Rail as the station facilities operator.

Andrew Gwynne: To ask the Secretary of State for Transport what discussions his Department has had with Greater Manchester Passenger Transport Executive and Network Rail on improving the passenger rail services in the county. [57822]

Derek Twigg: The Department has regular contact with officials from Greater Manchester Passenger Transport Executive on matters relating to improving rail services in the county. Discussions have included work on the North West Rail Regional Planning Assessment, the Network Rail Route Utilisation Strategy, and the Greater Manchester Passenger Transport Executive Integrated Transport Strategy.

Urban Congestion Target

Tom Brake: To ask the Secretary of State for Transport pursuant to his ministerial statement of 7 February 2006, *Official Report*, columns 45–46WS, on the urban congestion target, what the nature is of the problems discovered with the data relating to public service agreement 4. [57424]

Dr. Ladyman: In December, an error was discovered in one of the raw data sources supplied to the Department and which underpin the urban congestion PSA target. One of the data fields was in the incorrect format. The data were subsequently corrected and re-supplied to the Department but had to be reprocessed, thereby delaying delivery to the 10 large urban areas. Quality controls have now been strengthened at all stages of the data delivery and processing.

INTERNATIONAL DEVELOPMENT

African Drought

Tony Baldry: To ask the Secretary of State for International Development how much humanitarian assistance the Government has given to drought affected areas in Africa in each of the last five years. [57455]

Hilary Benn: The following table sets out DFID's humanitarian assistance to drought affected countries in Africa in the five years from 2000–01 to 2004–05. The table also shows our total humanitarian expenditure in Africa in the same period, including our response to humanitarian crises due to conflict and other causes.

DFID humanitarian expenditure in drought affected African countries (£GBP)

Destination	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Burundi	1,504,278	540,118	1,119,285	3,189,222	5,395,349
Ethiopia	13,773,873	8,222,389	26,824,089	18,511,529	6,719,432
Eritrea	2,188,012	1,472,258	2,600,000	2,219,590	1,064,975
Kenya	12,463,272	3,413,358	1,473,521	228,551	5,517,057
Malawi	229,115	142,421	7,036,164	581,493	4,573,003
Mozambique	9,204,944	907,822	778,916	470,600	27,920
Somali Democratic Rep	1,234,680	1,637,637	2,919,590	3,171,561	3,543,346
South Africa, Republic of	12,884	282,423	94,997	6,658	13,143
Sudan	4,491,075	5,164,105	16,337,941	21,872,096	77,965,269
Swaziland	—	—	—	388,988	8,599
Tanzania	1,786,583	51,057	260,015	1,500,005	2,816,524
Zambia	388,184	217,711	6,407,759	1,279,151	398,296
Zimbabwe	225,455	7,242,305	23,259,500	23,959,598	13,753,181
Total	47,502,356	29,293,604	89,111,777	77,379,043	121,796,094
Total humanitarian expenditure in Africa	65,010,000	44,218,000	155,096,000	124,188,000	172,659,000

Arms Trade Treaty

Andrew George: To ask the Secretary of State for International Development what steps his Department is taking to encourage *(a)* Governments and *(b)* other organisations to support the establishment of the proposed Arms Trade Treaty. [57494]

Hilary Benn: Ensuring better regulation of the arms trade is an essential pre-requisite for conflict prevention and development. As a result, DFID has worked very closely with the Foreign and Commonwealth Office (FCO) to promote the Government's commitment to an Arms Trade Treaty (ATT). When the first committee of the UN General Assembly meets this year, the UK will aim to secure a UN resolution which will establish a formal UN-based ATT process. Significant progress has already been made, notably the endorsement of an ATT by the EU Council and the call for negotiations on an ATT from Commonwealth Heads of Government.

DFID has contributed to a range of FCO-led initiatives, including the May 2005 meeting of experts at Lancaster House in London. This year, DFID is developing a joint strategy with Whitehall partners on how to encourage other countries and regional bodies to actively promote the ATT. This will focus on building wider support for a first committee resolution, and will include awareness raising events and the establishment of a "friends of ATT" group of supportive Governments. In addition we will use ministerial visits and discussions with partner countries, regional and international organisations to generate support for a resolution. For example, this month we participated in a cross-Whitehall lobbying visit to China.

In parallel, given the devastating impact of small arms and light weapons (SALW) on the developing world, DFID is working closely with the FCO and the Ministry of Defence (MOD) on strengthening language on transfer controls within the existing UN Programme of Action on SALW. When the UN Programme of Action is reviewed in July we will seek agreement to develop a set of politically binding criteria for SALW transfers. In the run up to the review conference DFID will work closely with the FCO to win support for a common text on universal principles for SALW transfers. There has been good progress in developing regional agreement on standards for small arms transfers in Central America and the Horn of Africa/Great Lakes region. Under the Global Conflict Prevention Pool, we have funded non-governmental organisations such as the International Action Network on Small Arms (IANSA) and Saferworld, which work with African Governments and civil society to ensure that African voices are heard in discussions on transfer controls.

Commission for Africa

Andrew George: To ask the Secretary of State for International Development whether reviews undertaken of his Department's African country assistance strategy paper will incorporate the recommendation by the Commission for Africa on the use of assessments of how to reduce the risk of violent conflict and improve human security in formulating a strategy for each country. [57493]

Hilary Benn: The Commission for Africa Report set out a wide range of recommendations for African countries and its donor partners. Each recommendation has its own timetable. This is reflected in the detailed report on what the UK has been doing to take forward the Commission's recommendations and make sure that the G8's commitments are implemented, which has been deposited in the Libraries of the House.

DFID has been active in carrying out conflict assessments, in recent years, in a number of African countries, including Nigeria, Mozambique, Angola, Kenya, Uganda and Somalia. More recently, DFID has undertaken a range of work to strengthen the analytical basis for its conflict programmes and policy throughout

the continent. These activities include commissioning work on long and shorter term conflict trends to inform the Pan-African and Regional strategies of the interdepartmental Africa Conflict Prevention Pool (ACPP). Furthermore DFID's Security and Development paper, completed in the latter half of 2005, and a subsequent internal report also recommended the increased use of conflict assessments throughout UK development programmes.

The next iteration of the DFID Delivery Plan for Africa will also emphasise the importance of conflict assessments.

Death in Childbirth

Mr. Amess: To ask the Secretary of State for International Development what estimate he has made of the number of women who died in childbirth in developing countries in each of the last five years, broken down by *(a)* country and *(b)* age group.

[57608]

Hilary Benn: Maternal mortality is quite difficult to measure over relatively short time periods, and DFID looks to the World Health Organisation (WHO), with the United Nations Children's Fund (UNICEF) and the United Nations Population Fund (UNFPA) to collectively produce global estimates. These are supplemented in some countries by information on maternal mortality obtained from demographic and health surveys conducted every four to five years. From the data available, it is estimated that each year 529,000 women die from complications in pregnancy and childbirth, and that 99 per cent. of these deaths take place in poor countries. With the exception of Afghanistan, the countries with the highest maternal mortality ratios are all in Africa. These include Sierra Leone which has a maternal mortality ratio of 2,000 deaths for every 100,000 live births, and Malawi which has a ratio of 1,800 deaths for every 100,000 live births.

DFID is supporting research with the United States Agency for International Development (USAID) and the Gates Foundation to improve the way maternal mortality is measured. This will enable poor countries to both better track progress of the Millennium Development Goal (MDG) of improving maternal mortality and to advocate for more resources for maternal health. Some countries in sub-Saharan Africa are experiencing a reversal of previous gains and without considerably more action this MDG target will not be met.

Mr. Amess: To ask the Secretary of State for International Development what steps his Department has *(a)* undertaken and *(b)* plans to undertake to reduce the number of women who die in childbirth in developing countries; and if he will make a statement.

[57609]

Hilary Benn: Over 529,000 women; mostly young, impoverished and vulnerable, die each year as a result of pregnancy or childbirth. Much more effort is needed if the Millennium Development Goal (MDG) to lower maternal mortality is to be achieved by 2015.

This is why DFID launched its strategy 'Reducing maternal deaths: Evidence and action' in 2004. The strategy sets out four clear priorities for action:

1. to advocate for change and more attention to maternal health globally and in our country work;

2. to scale-up evidence based interventions, especially the availability of health services that can provide women with the care they need in pregnancy;

3. to address the wider social and economic barriers to progress, such as gender inequality and to get more girls into school; and

4. to develop and apply new knowledge, through support for research on approaches to improve maternal health.

The UK is the only major bilateral donor to have developed a strategy specifically to address 'improving maternal health' (MDG 5). We are also supporting the global Partnership for Maternal, Newborn and Child Health which is working to advocate on a much bigger international and national platform.

Improving maternal health depends on functioning health services, and stronger health systems, with the right staff, equipment, drugs and supplies in place and functioning properly. Women also need to be able to access sexual and reproductive health services, including family planning, and care to deal with the causes and consequences of unsafe abortion, as well services to prevent, treat and care for HIV and AIDS. DFID has invested £650 million for health sector support since 2000.

DFID support in Nepal is addressing all these issues. For example, the remote Baglung district hospital is providing emergency obstetric care (Caesareans), with local nurses who have been trained in giving epidural anaesthesia. Blood transfusions are available, transport is possible because bridges have been built and communications (now through mobile phones), is working. Access to obstetric care is increasing, irrespective of the conflict. And that means that not only are women benefiting, but children with fractured limbs and others who need blood transfusions are getting help.

In Malawi, DFID has provided £100 million to an Emergency Human Resource Programme. In a country where two out of three nurse-midwife posts are vacant and where only eight out of 27 districts have a Malawian doctor, there is now early evidence to suggest a positive shift. And importantly, pregnant women are beginning to be able to have HIV tests and some are receiving anti-retroviral drugs.

In 2004–05, DFID spent more than £243 million on bilateral programmes on maternal health (including sexual and reproductive health) and are continuing to ensure that good country plans which highlight maternal health are fully funded. In several countries such as Bangladesh, Pakistan and Kenya, DFID is investing strongly in specific safe motherhood programmes with a focus on skilled birth attendants and access to obstetric services. We further support maternal health through multilateral support to our partners in UN agencies, the World Bank and the EU.

Engagements

Sarah Teather: To ask the Secretary of State for International Development how many *(a)* public speeches and *(b)* official visits he has made since 5 May 2005; and how many letters he sent in this period.

[55702]

Hilary Benn: Between 5 May 2005 and 3 March 2006, I gave 29 public speeches, visited 18 countries (not including visits to Europe) and sent 5,536 letters (including 3,149 standard campaign responses approved by myself and issued under my electronic signature).

Lesotho

Chris Ruane: To ask the Secretary of State for International Development what assessment has been made of the incidence of HIV/AIDS in Lesotho. [57377]

Hilary Benn: HIV surveillance among pregnant women is undertaken every second year by the Government of Lesotho. Pregnant women are not representative of the general population, though estimations can be made and they provide a useful indicator of the progress of the epidemic.

Surveillance data from 1991 show infection rates among pregnant women to be in the region of 5 per cent. By 1994 that figure had risen to 20 per cent. By 2003, the last available surveillance data, the prevalence among the general population had risen to 28.9 per cent. Rates of infection among patients with sexually transmitted diseases are much higher—often in the region of 50 per cent. to 60 per cent.

A recently completed Demographic and Health Survey (DHS), conducted in 2005, did do HIV tests among the general population. The highest HIV prevalence rates was for women aged 35–39 years at 43 per cent. and for men aged 30–34 it was 42 per cent. These figures are consistent with data for HIV prevalence rates in South Africa and Swaziland. The final DHS report has not yet been released but a copy of the preliminary report can be made available.

Microfinance

Keith Vaz: To ask the Secretary of State for International Development when he last discussed microfinance with his counterparts in the Consultative Group to Assist the Poorest; and if he will make a statement. [58028]

Hilary Benn: The Consultative Group to Assist the Poor (CGAP) is a consortium of 33 public and private development agencies working together to expand access to financial services for the poor (including the poorest) in developing countries. CGAP is a trust fund housed in the World Bank.

While my hon. Friend, the Parliamentary Under-Secretary of State and I have not personally met with CGAP officials recently, there is a close interaction between CGAP and DFID at international and country level. My hon. Friend, the Parliamentary Under-Secretary of State has been personally involved in promoting DFID work on microfinance and remittances, which has benefited from CGAP's work developing good practices in microfinance and helping build microfinance capacity in bilateral and multilateral donors. The CGAP developed the 'Key Principles of Microfinance' that were endorsed by the G8 leaders at their summit in June 2004.

Recognising the enormous potential for microfinance and the need to set standards, share best practices and improve co-ordination among donors, nine donors including DFID formed CGAP in 1995. DFID chaired the executive committee of CGAP until two years ago, and has contributed £1,250,000 to CGAP core funding since 2001. An additional £250,000 is being considered for the next financial year.

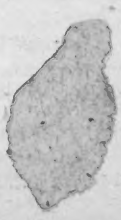
The CGAP's director and senior officials meet with DFID officials on a regular basis, and there is close cooperation in a number of areas. DFID is assisting the CGAP in developing its Africa Strategy at present, which will increase the CGAP's impact and influence in that priority region. DFID and the CGAP are currently collaborating on research into electronic banking ("e-banking" projects) and on social cash transfers. CGAP and DFID jointly funded MicroSave Africa, an Africa-based initiative to improve access of poor people to savings and other financial services. DFID also contributed £960,000 to the joint CGAP-DFID microfinance capacity building programme in Africa during 1998–2003.

Of particular note, DFID initiated and strongly supported (at ministerial level) the CGAP-led donor peer review process among CGAP's member agencies. The peer review process led to microfinance strategies at institutions such as the African Development Bank and the European Union being revamped and improved.

Philippines

Mark Simmonds: To ask the Secretary of State for International Development what assistance his Department has provided to the mudslide-affected region of the Philippines; and if he will make a statement. [58038]

Hilary Benn: DFID carefully monitored the situation following the mudslides of 17 February and concluded that needs were well covered by the Government of the Philippines, which is providing helicopters, military manpower and financial aid for those affected. Donors such as the United States, China, Japan, Australia and the United Nations Children's Fund are also providing assistance. Therefore, although DFID support has not been necessary, we continue to monitor the situation and will respond if needed.



SOLICITOR-GENERAL

Efficiency Targets

Mrs. Villiers: To ask the Solicitor-General what the target level of employment, expressed as full-time equivalents, is in his Department by April 2008, in order to meet his Department's civil service work force reductions target set out in the 2004 Spending Review. [52848]

The Solicitor-General: Neither the Crown Prosecution Service nor the Serious Fraud Office were set any work force reduction targets in the 2004 Spending Review. The planned numbers for full-time equivalents for the CPS for April 2008 is 7642; and for the Serious Fraud Office is 300.

The target for the Treasury Solicitor's Department is to achieve a head count reduction of 36 by 2007–08 benchmarked against the level of business activity in 2004–05. The Department continues to recruit staff as business demand grows; but the introduction of efficiencies ensures that the growth of head count is lower than the growth in business.

The Revenue and Customs Prosecutions Office did not come into existence until after the SR04 targets were set. The head count reduction set for its predecessor organisation, the Customs and Excise Prosecutions Office was met. The new Department has a target level of full-time equivalents of 270 staff by April 2008.

Mrs. Villiers: To ask the Solicitor-General what interim targets he has set for achieving *(a)* the agreed efficiency target for the Law Officers' Department and *(b)* the Civil Service work force reductions targets for (i) gross reductions in posts, (ii) net reductions in posts and (iii) relocations for the Law Officers' Departments as set out in the 2004 Spending Review; what the baseline figures are against which these interim targets are assessed; on what dates they will take effect; and by what dates these interim targets are intended to be met. [52907]

The Solicitor-General: The annual targets for the efficiency savings and the work force reductions set for the Treasury Solicitor's Department in the 2004 Spending Review are:

	Non-cashable savings (£ million)	*Cashable Savings (£ million)*	*Headcount reduction*
2004–05	0.6	-	6
2005–06	0.1	0.2	5
2006–07	0.2	0.4	10
2007–08	0.3	1.2	15

The CPS was set interim efficiency targets in the 2004 Spending Review as shown in the following table:

Efficiency Savings Targets

	Target deadline	*Savings (£ million)*
2005–06	31 March 2006	20.1
2006–07	31 March 2007	26.6
2007–08	31 March 2008	34.1

£ million

	2005–06	*2006–07*	*2007–08*
Efficiency Savings Targets	20.1	26.6	34.1
Target Deadline	31 March 2006	31 March 2007	31 March 2008

The baseline, against which the efficiency targets are measured, is the CPS's 2004–05 Resource Departmental Expenditure Limit of £454.8 million.

The following table shows the target that the CPS has set to achieve its relocation programme target and the date by which this target is intended to be met.

	Relocation schedule
Relocation Target	40
Target Deadline	31 March 2008

The baseline against which the relocation programme target is measured is the number of posts in the South East and Eastern Service Centres in 2002–03.

The Revenue and Customs Prosecutions Office (RCPO) has no target for the relocation of posts. Its cashable efficiency savings, set against 2004/financial baselines, as amended for additional work transferred to the office, are set out in the following table:

	£ million
2005–06	0.73
2006–07	1.46
2007–08	2.17

RCPO also has productive time targets measured against a baseline of 2004–05 work force statistics as follows:

	£ million
2005–06	0.16
2006–07	0.32
2007–08	0.50

The Serious Fraud Office was not set any work force reduction or relocation targets in the 2004 Spending Review; but has efficiency targets to deliver savings of:

	£ million
2005–06	1.3
2006–07	2
2007–08	2.815

Sentencing Comparison

David Simpson: To ask the Solicitor-General if he will take steps to make information available to allow comparison between judges of their sentencing for offences. [57452]

Ms Harman: I have been asked to reply.

Sentencing decisions by the judges for offences are a matter of public record. They are often reported by the media and may also feature in the law reports and legal and academic journals. Given the public nature of these decisions the Government has no plans for change.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare

Anne Snelgrove: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government has taken to improve animal welfare since 1997; and what assessment she has made of the effectiveness of these steps. [55804]

Mr. Bradshaw: This Government are fully committed to improved animal welfare. The Animal Welfare Bill is the most significant piece of legislation in this area for nearly a century. It will introduce a formal duty of care for non-farmed animals and toughen the penalties available to the courts.

This builds on the work we have already done to improve the welfare of farmed animals. We have worked with Member States to improve legislation in the European Union on transport, laying hens, pigs and general farm animal welfare.

Further steps the Government have taken include a ban on fur farming, which came into force on 1 January 2003. The introduction of the Hunting Act 2004 also makes it illegal to hunt wild mammals with dogs, and completely bans hare coursing. Work to protect the variety and diversity of wildlife is being taken forward under the England Biodiversity Strategy. We have also put in place a number of specific measures, such as the code of good practice on the use of snares and the production of various technical advisory leaflets on wildlife management.

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are being taken *(a)* to increase detection of and *(b)* to prevent the mistreatment of farm animals in the UK. [56120]

Mr. Bradshaw: This Government are fully committed to high welfare standards for all farmed animals. We have some of the highest standards of farm animal welfare, including enforcement measures, in the EU.

The State Veterinary Service (SVS) carries out welfare inspections on farms to check that legislation and the welfare codes are being followed. In addition to spot checks and planned visits, the SVS follows up all complaints and allegations of poor welfare on specific farms as a matter of urgency. Where welfare problems are found, the SVS takes enforcement action, which can include issuing improvement notices requiring remedial action by the farmer or initiating prosecution. Follow-up visits are made to check compliance with the legislation. The SVS also co-operates closely with other organisations such as local authorities and the RSPCA.

Avian Influenza

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the use of vaccination against H5N1 avian influenza in Hong Kong in 2002–03. [56674]

Mr. Bradshaw *[holding answer 7 March 2006]:* My officials have examined and made assessments of the use of vaccination against H5N1 worldwide, including the outbreak in Hong Kong in 2002–03.

Vaccination was used successfully to help eliminate H5N1 in Hong Kong, and this has been well documented.

However, this experience cannot easily be translated to other countries. The poultry industry in Hong Kong is limited to only a few hundred farms with some backyard flocks. The small size of the territory and its animal health infrastructure meant that it was easier than normal to undertake the monitoring required when using such vaccines.

In this country, there is a broad consensus that preventive vaccination does not currently provide an effective and efficient means of controlling avian influenza and that good biosecurity followed by housing of birds is the best response to a heightened threat.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures would be followed in order to ban the import of poultry from a country which has cases of H5N1 avian influenza. [57252]

Mr. Bradshaw: If there is an outbreak of disease likely to present a risk to human or animal health, including highly pathogenic avian influenza, in a non-EU country, Community legislation allows appropriate safeguard action to be taken, which may include a ban on imports from all, or from parts, of the affected country. In the UK we implement the Community safeguard measures by the issue of a legal document called a Declaration that sets out the details of the ban or trade restrictions imposed. It is a criminal offence to import animals or products in contravention of the Declaration.

If a serious disease outbreak occurs in an EU member state, appropriate measures to contain the disease, as laid down in Community law, must be taken by the member state in which the outbreak occurs. It is also possible for additional safeguard measures to be introduced, as has been the case in respect of the recent H5N1 avian influenza outbreaks in some member states.

Mr. Greenway: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to monitor the import of poultry meat from countries in which avian influenza is present. [57748]

Mr. Bradshaw *[holding answer 13 March 2006]:* Imports of poultry meat from third countries affected by highly pathogenic H5N1 avian influenza have been banned. HM Revenue and Customs has increased checks on passengers, freight and post from those countries, and other enforcement bodies remain vigilant.

Within the EU, it is the responsibility of the authorities in any member state where the disease has been confirmed to ensure that movement restrictions applying to specified zones around the outbreak are observed. Trade in poultry meat may still continue from areas of EU member states not affected by the disease. HM Revenue and Customs, along with the other enforcement bodies, are aware of the restrictions in place in other member states and have enhanced checks accordingly.

Mr. Greenway: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she has taken to ensure that the poultry industry cleans and disinfects all crates, containers and modules and other equipment before and after use to prevent the possible spread of avian influenza. [57749]

Mr. Bradshaw *[holding answer 13 March 2006]:* Under the Transport of Animals (Cleansing and Disinfection) (England) (No.3) Order 2003 any means of transport used to transport animals, including detachable parts such as crates and containers used to transport birds, must be cleansed and disinfected within 24 hours after use or before they are used again. This is enforced by local authorities.

Defra has issued extensive guidance to all bird keepers encouraging them to adopt effective biosecurity measures. These are also outlined on the Defra website. A list of approved veterinary disinfectants is available from: <http://www.defra.gov.uk/animalh/diseases/control/testing_disinfectants.htm

Mrs. Dorries: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what recent representations she has received about the protection from avian influenza of endangered species kept in zoos; and if she will make a statement; [55046]

(2) what recent representations she has received from rare breed poultry keepers and hobby farmers on the vaccination of birds; and if she will make a statement. [55064]

Mr. Bradshaw: We have received a wide range of representations and are working closely with stakeholders on these issues. Defra is considering a preventive vaccination programme for zoo birds and rare breeds in the UK for conservation purposes. This will be based on a scientific and veterinary risk assessment. If we decide to implement such a programme, it will require prior approval from the Commission.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what proposals for *(a)* compensation and *(b)* aid are being considered by the Government should the slaughter of UK poultry be necessary if avian influenza affects the UK poultry sector. [56079]

Mr. Bradshaw: We would pay compensation for healthy birds compulsorily slaughtered to control avian influenza. If needed, we would also establish a Welfare Disposal Scheme to fund the collection and disposal of poultry.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what research her Department is carrying out on products which may be able to destroy the H5N1 virus. [57575]

Mr. Bradshaw: The Department is not currently funding any research projects into the development of products that may be able to destroy the H5N1 (Avian Influenza) virus.

A list of veterinary disinfectants approved for use in England is available on the Office of Public Sector Information website at: http://www.opsi.gov.uk/si/si2005/20051908.htm. Dilutions for use against Avian Influenza (AI) are included.

A statutory mechanism is in place which allows veterinary disinfectants to be placed on the approved list if they demonstrate efficacy in statutory laboratory testing.

Badger Culling

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications of the experience of the previous badger culling operations in Thornbury, Gloucestershire, for *(a)* legal issues, including trespass, and *(b)* practical issues, including the need to treat setts, in relation to current proposals for a cull. [55949]

Mr. Bradshaw: We are currently consulting on both the principle and method of a badger culling policy. Experience from previous badger culling operations was considered when developing the consultation document and partial regulatory impact assessment.

Bag for Life Scheme

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the results of the Waste and Resources Action Programme's Bag for Life scheme to be published. [58494]

Mr. Bradshaw: The Waste and Resources Action Programme hope to publish the results of their study by Easter.

Biosecurity

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will set out her responsibilities for Government policy in respect of biosecurity matters. [57422]

Mr. Bradshaw: Guidance on animal health biosecurity for owners of livestock and anybody who comes into contact with, or visits, premises with farm animals is available on the Defra website: http://www.defra.gov.uk/animalh/diseases/control/biosecurity/index.htm. The guidance has been published to meet the Government's obligations under the Animal Health Act 2002.

In response to the threat of an outbreak of avian influenza, Defra has distributed guidance materials to a range of poultry industry groups who have helped to distribute information to their members. We have also provided leaflets and posters to farmers and local

veterinary surgeons and placed advertisements in poultry hobby magazines. Specific guidance on worker protection has been issued by an industry and cross-departmental working group. Information is also available on the avian influenza pages of the Defra website: http://www.defra.gov.uk/animalh/diseases/notifiable/disease/ai/index.htm.

Bovine TB

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what representations she has received about the veterinary costs involved with the pre-movement tuberculosis testing of cattle; [56057]

(2) what assessment she has made of the costs of pre-movement tuberculosis testing of cattle for farmers; and if she will make a statement; [56058]

(3) what assessment she has made of the implications of pre-movement tuberculosis testing costs for the future viability of the dairy farming industry; and if she will make a statement. [56059]

Mr. Bradshaw: Pre-movement testing will be introduced in England on 27 March following a rapid independent survey of veterinary capacity and preparedness to deliver the new policy. The costs and the impact on the industry were considered by the Tuberculosis Pre-Movement Testing Stakeholder Group. They were also addressed in a Regulatory Impact Assessment, available on the DEFRA website at:

www.defra.gov.uk/animalh/tb/premovement/index.htm

We will keep the policy under review.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the significant wildlife reservoirs for bovine tuberculosis. [57251]

Mr. Bradshaw: The main wildlife reservoir of bovine tuberculosis in the UK is in badgers. Wild deer are the other significant wildlife reservoir though experts believe they generally present less of a disease risk to cattle than badgers.

Brownfield Sites (Borehole Soakways)

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs what her Department's policy is on applications for the use of borehole soakways on brownfield sites with surface drainage constraints. [56718]

Mr. Morley: Under the Water Resources Act the Environment Agency is responsible for controlling discharges to groundwater, taking into account whether such discharges could lead to pollution. Under the Groundwater Regulations 1998, disposals to land which contain substances listed in the Regulations require prior authorisation. For cases where pollution of groundwater might result, the Environment Agency may not grant consent. Thus where surface water contains polluting matter, including listed substances, prior authorisation to discharge or dispose of it is required.

Under the WFD direct discharges of pollutants to groundwater will be prohibited, subject to certain exemptions which currently do not include surface water drainages.

Carbon Dioxide

Mr. Forth: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the proportion of carbon dioxide globally which is generated by *(a)* human activity and *(b)* natural phenomena. [56981]

Mr. Morley: The IPCC Third Assessment (2001) considers carbon dioxide (CO_2) generated by both natural phenomena and human activities. Human emissions are estimated to be approximately 8 billion tonnes of carbon in 1990, rising to 9.1 billion tonnes of carbon in 2002, compared to approximately 210 billion tonnes of carbon generated naturally in 1990. However, as natural emissions and their removal from the atmosphere are about balanced, the additional emissions from human activities are extremely significant for the energy balance of the atmosphere.

Most recent research indicates that in 2002, approximately 55 percent. of human emissions were removed from the atmosphere (5.2 billion tonnes of carbon), leaving approximately 45 percent. (3.9 billion tonnes of carbon) remaining in the atmosphere to cause global warming. This is the reason the Government have introduced a long-term aim to reduce UK CO_2 emissions by 60 percent. by 2050, with real progress by 2020.

Carbon Emissions (New Homes)

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect on carbon emissions of the development of new homes in the Office of the Deputy Prime Minister's growth areas. [55665]

Mr. Morley: The Government have not undertaken any assessment solely of the impact of the development of new homes in the four existing Growth Areas on carbon emissions.

Defra and ODPM have, however, jointly employed the consultants Entec to provide a comprehensive report on the range of sustainability impacts (including increased carbon emissions) which would be likely to arise under the scenarios for increased housing supply proposed by Kate Barker. This report took the levels of increased housing supply proposed for the Growth Areas as its baseline. The Entec report is accessible on both the Defra and ODPM websites.

In addition, the Centre for Ecology and Hydrology, under contract to Defra, has assessed the possible impact of the new housing on carbon dioxide emissions from soil, which could be around 0.02 per cent. of projected UK emission in 2010.

Regional Planning Bodies are also required under the Planning and Compulsory Purchase Act 2004 to have regard to national policies and advice contained in guidance issued by the Secretary of State when preparing draft Regional Spatial Strategies. They must also carry out a sustainability appraisal of these drafts.

This means that, in proposing housing in their Strategies, account will be taken of its impact on climate change. Homes built to new standards will also less emissions then existing stock.

Circus Animals

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 3 March 2006 to Question 54633, on animals in circuses, if she will place in the Library the considerations her Department has made of the various research projects. [57435]

Mr. Bradshaw: It would not be appropriate to place these considerations in the Library of the House. But the steps we are taking under the Animal Welfare Bill will improve significantly the welfare of animals in circuses.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what response she has made to the submission from Animal Defenders International in the consultation on the welfare of animals in travelling circuses. [57665]

Mr. Bradshaw: We considered this submission carefully. On 8 March 2006, *Official Report*, column 60WS, I made a Parliamentary Statement concerning the use of certain non-domesticated animals in travelling circuses.

Coastal Erosion (Lincolnshire)

Mark Simmonds: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the rate of coastal erosion in *(a)* Boston and Skegness and *(b)* Lincolnshire. [56704]

Mr. Morley: Defra has overall policy responsibility for coastal erosion risk in England and grant aids individual local authority improvement projects to reduce this risk but does not build defences, nor direct the authorities on which specific projects to undertake.

Erosion risk will vary around the coastline depending on local conditions and defences in place. Defra has encouraged the relevant authorities to produce Shoreline Management Plans (SMPs) which provide large-scale assessments of the risks associated with coastal processes and present long term policy frameworks to manage these risks in a sustainable manner. In 2001 Defra funded a national study of information on long term coastal processes and evolution over the next century (Futurecoast). This is designed to be used by coastal authorities to inform their current revisions of SMPs. The Office of Science and Technology's Foresight Future Flooding report, published in 2004, also considered possible rates of coastal erosion under different scenarios over the next 80 years.

Management of coastal erosion risk and associated monitoring in specific locations is the responsibility of the relevant local authority in each area. Defra has not carried out an assessment specifically in the areas specified.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when the Minister of State will reply to the letter of 30 January 2006, from the hon. Member for West Worcestershire. [57566]

Mr. Morley: I apologise for the delay. A reply will be sent shortly.

Departmental Wildlife Unit

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs who is the director of her Department's wildlife unit; what relevant specialist qualifications he or she holds; and what are the details of his or her career to date. [57649]

Mr. Bradshaw: This information cannot be provided for security reasons.

Draft Marine Bill

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to publish the Draft Marine Bill; and if she will make a statement on its scope. [56256]

Mr. Bradshaw *[holding answer 7 March 2006]:* Defra will be publishing a consultation document shortly that will outline the Government's thinking in a number of key areas that will be addressed by the Marine Bill. These areas cover marine spatial planning, nature conservation, licensing reform, and the possibility of setting up a new marine organisation. We have already undertaken initial consultation on some fisheries issues that will also be dealt with in the Bill.

The final scope of the Marine Bill will not be decided until we have fully considered the responses to the consultation exercise. The consultation document will identify the areas that we are considering, but it also asks for views on the strategic direction that we should take. It would be inappropriate to make a statement on the scope of the Bill before we have completed this process.

The Government have indicated that a draft Bill will be published later in this Parliamentary session. We will need to take the consultation responses into account before taking a final decision, but it may be appropriate to publish further detailed proposals for consultation once we determine the scope of the Marine Bill.

Fair Trade

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what activities her Department is *(a)* sponsoring and *(b)* supporting for fair trade fortnight. [55503]

Mr. Bradshaw: The event has been advertised on the public sector food procurement initiative (PSFPI) website at: http://www.defra.gov.uk.farm/sustain/procurement/trade.htm, as the fortnight is designed to help spread the work about fair trade and the benefits it brings to farmers and workers in developing countries.

In DEFRA we have worked with our catering contractors to introduce fairly traded tea and coffee into the hospitality services they provide and are promoting fair trade products for purchase by staff. Events organised by the catering services providers will be taking place over the fortnight in support of fairly traded products, and DEFRA is supporting these events. Under the public procurement rules DEFRA and its catering services providers can and does seek to increase awareness of the range of products available from fairly traded sources, but are not permitted to promote the products of a single organisation to the exclusion of other fair trade sources.

Fallen Stock

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs if she will permit farmers who do not wish to use the National Fallen Stock Scheme to choose their own contractors if they have fallen stock. [57987]

Mr. Bradshaw: Yes. The National Fallen Stock Scheme is voluntary. It is designed to assist farmers and horse owners with the requirement to comply with the Animal-By-Products Regulation, by providing a reliable, low cost means of disposal.

Flood Defences (Lincolnshire)

Mark Simmonds: To ask the Secretary of State for Environment, Food and Rural Affairs how much money has been allocated to Lincolnshire County Council for flood defences in each of the last five years; and how much is proposed to be granted in each of the next three years. [56702]

Mr. Morley: The Environment Agency is the principal operating authority with responsibility for flood risk management in England. Defra funds most of the Agency's flood related work and grant aids individual capital improvement projects and related studies undertaken by local authorities and internal drainage boards.

It is unusual for county councils to carry out works for flood risk management since such works are usually done by district or unitary councils in those few areas where this is not the responsibility of the Environment Agency or internal drainage boards. Defra has provided no funding support to Lincolnshire County Council for capital flood risk management works or studies in these years.

Non-capital flood risk management expenditure by local authorities is supported by the Office of the Deputy Prime Minister via Formula Grant. Since Lincolnshire County Council incurs expenditure on flood risk management, the calculation of their Formula Grant takes this into account. It is not, however, possible to say how much Formula Grant they have received for this purpose since it is an unhypothecated block grant, that is councils can use the money to support any service.

Flood Risk Insurance

Mark Simmonds: To ask the Secretary of State for Environment, Food and Rural Affairs what representations Ministers and officials in her Department have received in the last 12 months from the Association of British Insurers on insurance for houses in areas at risk of flooding. [56690]

Mr. Morley: There have been extensive discussions with the Association over the past few years at both Ministerial and official level with regard to insurance and flood risk. At a meeting in November I agreed with them a "Statement of Principles" which sets out the commitments made by the insurance industry to maintain flood insurance cover for the majority of domestic and small business properties at risk in association with commitments made by the Government on flood risk management.

Mark Simmonds: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the *(a)* access to and *(b)* cost of home insurance for people living in areas designated as at risk of flooding by the Environment Agency map in (i) Boston and Skegness and (ii) Lincolnshire; [56701]

(2) how many homes have been unable to obtain insurance against flood damage in *(a)* Boston and Skegness, *(b)* Lincolnshire and *(c)* England. [56916]

Mr. Morley: The Government continues to work with the Association of British Insurers (ABI) with a mutual aim of continuing affordable domestic flood cover into the future.

The insurance industry is a competitive and commercial one and makes decisions based on risk. The Department has not done any specific assessment in Boston, Skegness or Lincolnshire but indications from the ABI suggest that flood insurance cover remains broadly available to households in areas at risk of flooding nationally in accordance with their Statement of Principles on this. The cost of premiums is a matter for individual insurers.

Fly-tipping

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* incidents of fly-tipping were reported and *(b)* prosecutions were made for the offence in (i) Lancashire and (ii) West Lancashire constituency in each year since 1997; and if she will make a statement. [58449]

Mr. Bradshaw: Defra has worked with the Environment Agency to establish a national database on fly-tipping (Flycapture) which has been operational since April 2004. No national data were previously available on illegal waste disposal or fly-tipping. Flycapture collects data at local authority level only.

It is important to note that the data are probably an underestimate and will increase as authorities get better at collecting and reporting the data.

West Lancashire district council reported 1,515 incidents of Fly-tipping between April 2004 and March 2005 (average of 152 per month) and 1,260 between

April 2005 and January 2006 (average 126 per month) during the same time periods all Lancashire authorities reported 32,724 (average of 2,879 per month) and 36,073 (average of 3,674 per month) respectively.

Prosecution data are only available from April 2005 to January 2006. During this period West Lancashire district council reported 32 prosecutions and all Lancashire authorities a total of 72.

	Number of incidents	*Average per month*	*Number of incidents*	*Average per month*	*Prosecutions taken*
Blackburn with Darwen borough council	5,522	460.17	5,436	543.60	36
Blackpool borough council	4,712	392.67	7,554	755.40	0
Burnley borough council	909	151.50	2,717	301.89	0
Chorley borough council	666	60.55	793	99.13	0
Fylde borough council	325	29.55	42	21.00	0
Hyndburn borough council	1,900	158.33	2,088	208.80	0
Lancaster city council	3,240	270.00	4,609	460.90	0
Pendle borough council	4,828	438.91	2,466	246.60	2
Preston borough council	3,154	262.83	5,626	562.60	1
Ribble Valley borough council	506	46.00	445	44.50	0
Rossendale borough council	358	32.55	390	39.00	0
South Ribble borough council	1,110	92.50	998	99.80	1
West Lancashire district council	1,515	151.50	1,260	126.00	32
Wyre borough council	3,979	331.58	1,649	164.90	0
Total	32,724	2,878.63	36,073	3,674.11	72

Foot and Mouth

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs whether additional payment has been made to valuers in relation to the foot and mouth outbreak in Cumbria since 2001. [56662]

Mr. Bradshaw: Disputes arose with some valuers in Cumbria over the rates paid to them, or claimed by them, for valuation work undertaken by them during the foot and mouth disease outbreak in 2001. The circumstances and facts pertaining to these disputes vary from dispute to dispute. These disputes have been settled though commercially confidential negotiated settlements, and formal debt recovery by Defra. A number of ongoing cases are the subject still of formal debt recovery by the Department.

The right hon. Member wrote to the Secretary of State last year on behalf of one valuer in his constituency who is concerned that other valuers in Cumbria may have been remunerated more favourably, but the Department has yet to receive the information requested from the right hon. Member, the valuer, and the valuer's solicitors necessary to support the contention of the valuer that he has been disadvantaged financially, but for which no evidence has yet been presented.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs whether valuers have been paid at a rate in excess of the Central Association of Agricultural Valuers formula in relation to the foot and mouth outbreak in Cumbria. [56663]

Mr. Bradshaw: The right hon. Member is aware that disputes have arisen with some valuers in Cumbria over the rates paid to them, or claimed by them, for valuation work undertaken by them during the foot and mouth disease outbreak in 2001. The circumstances and facts pertaining to these disputes vary from dispute to dispute. These disputes have been settled through commercially confidential negotiated settlements, and formal debt recovery by Defra. A number of ongoing cases are the subject still of formal debt recovery by the Department.

GM Terminator Seeds

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what position the Government will take at *(a)* the EU and *(b)* the forthcoming UN Convention on Biodiversity on genetically modified terminator seeds. [57173]

Mr. Morley: In 2000 parties to the United Nations Convention on Biological Diversity (CBD) decided that there should be a precautionary approach to the field testing and commercial use of these technologies while further research was carried out, particularly into their possible socio-economic impacts. The EU and the UK supported this decision in 2000 and continue to do so. We will be seeking reaffirmation of this decision at the forthcoming CBD meeting.

Goats

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 1 November 2005, *Official Report*, column 884W, on goats, what evidence she has that the application of tattoos to sheep and goats can cause welfare problems. [57235]

Mr. Bradshaw: None. The EU rules no longer provide for tattoos as the primary means of identification for sheep and goats. There is nothing to stop keepers continuing to use tattoos as a management tool, but they cannot replace the official identification.

Groundwater Protection

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs whether she plans to revise the Environment Agency's publication Policy and Practice for the Protection of Groundwater; and if she will make a statement. [56603]

Mr. Morley: The Environment Agency is responsible for the preparation and publication of policies for its own internal guidance.

I understand that the Agency is proposing to replace its existing Policy and Practice for the Protection of Groundwater, last revised in 1998, with a new Groundwater Protection Policy, and that the initial document will be published for consultation in April 2006 with further material later this year.

Hatching Eggs

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs what controls *(a)* she and *(b)* the European Union have placed on (i) the import and (ii) the export of hatching eggs. [58591]

Mr. Bradshaw: EU Directive 90/539/EEC sets down rules on the import and export of hatching eggs within the European Union. The import of hatching eggs from third countries is covered by Directive 96/482/EEC.

Rules concerning the export of hatching eggs to third countries are dictated by the country of destination.

Home Owners (Environmental Incentives)

Mr. Lancaster: To ask the Secretary of State for Environment, Food and Rural Affairs what incentives the Government have offered to homeowners to make environmentally friendly improvements to their homes. [56750]

Mr. Morley: The Government is committed to the promotion of environmentally friendly measures in homes as an integral part of its policies to tackle climate change and other environmental impacts. Key incentives include;

The Warm Front Scheme provides a package of heating and insulation measures to vulnerable households in receipt of certain benefits. The Scheme's central aim is to tackle fuel poverty, and the Scheme has assisted more than one million households since its launch in June 2000. A further £300 million of funding was announced in the 2005 pre-Budget report taking the total fund to tackle fuel poverty in England to £800 million for the period 2005–08;

Since 2002 the Energy Efficiency Commitment (EEC) has required energy suppliers to meet targets for the promotion of improvements in household energy efficiency. The current 3 year phase of EEC is expected to stimulate around £1 billion of investment which will deliver net savings to customers in excess of £4 billion over the lifetime of the measures;

Reduced VAT rates were introduced on a number of residential insulation and heating products, heating controls, and grant-funded installations of most heating systems. These were extended in Budget 2005 to include micro-CHP and air source heat pumps;

The Major Photovoltaics Demonstration Programme (2002) and Clear Skies Programme (2003)—for the installation of renewable technologies. The Government will continue its support for Photovoltaics and other micro-renewables through a new Low Carbon Buildings Programme, which is due to start in April 2006;

Under the Water Industry Act 1991, Water Companies have a duty to promote the efficient use of water by their customers. Many water companies publish advice on how to save water, offer subsidised water butts and distribute free cistern displacement devices.

Illegal Meat Imports

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to prevent illegal meat imports. [57719]

Mr. Bradshaw: Since 2003–04, an additional £25 million has been allocated by Government to tackle illegal imports of products of animal origin and plants and plant based goods.

HM Revenue and Customs has enforcement responsibility at the frontier to reduce illegal imports of products of animal origin from countries outside the European Union. Defra assists them in deploying their resources according to risk, by providing information on the animal health disease situation around the world, including the risks from new disease outbreaks. Defra and HMRC also undertake joint publicity campaigns within GB, at the border, and overseas to raise public awareness.

HMRC has doubled the number of staff who check passengers, freight and post from H5N1 affected countries. Defra and HMRC are also launching publicity campaigns on avian influenza on top of existing campaigns on illegal imports.

Lisbon Agenda

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs what policies her Department has adopted to assist the United Kingdom's fulfilment of the Lisbon agenda criteria. [55682]

Mr. Morley: The Government strongly supports the renewed Lisbon focus on "jobs and growth" as the best way to meet the challenges of globalisation and boost prosperity and living standards for all. The UK national reform programme details our policy response to these challenges. My Department has particular responsibilities for encouraging the sustainable use of resources and for strengthening the synergies between environmental protection and growth. Our role in promoting environmentally friendly technologies is also a component of achieving growth that is orientated towards employment and the efficient allocation of resources.

We expect the spring council in March to emphasise the importance of implementation of national commitments to reform.

My Department is also responsible for co-ordinating the Government's input into the European Council's undertaking to revise the EU's Sustainable Development Strategy (EU SDS) by June 2006. A major aim of our approach to the revision will be to emphasise and clarify the coherence and synergies between the EU SDS and the Lisbon agenda as agents for sustainable change.

Livestock Movements (Testing)

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the likely annual cost of Government funding of pre-movement testing of cattle. [57445]

Mr. Bradshaw: Pre-movement testing will be introduced in England on 27 March, subject to the findings of a rapid independent survey of veterinary capacity and preparedness to deliver the new policy. All pre-movement tests must be arranged and paid for by the herd owner. Government will continue to fund routine TB surveillance tests, at a cost of approximately £40 million per year. These will qualify as pre-movement tests if the animals are moved within 60 days of testing.

Pesticides

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 9 January 2006, Official Report, column 11W, on pesticides, what the outcome was of her request to officials and the Advisory Committee on Pesticides (ACP) to examine whether more information on the ACP's proceedings could be made available. [56768]

Mr. Morley: The review announced in my previous reply is ongoing. I will report the outcome to the House as soon as it is concluded.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answers of 20 December 2005, *Official Report*, column 2670W, on pesticides, if she would consider changing Advisory Committee on Pesticides (ACP) practice to provide for *(a)* full disclosure of the interests of members of the Medical and Toxicology Panel and *(b)* prompt publication of a detailed record of discussions held at ACP meetings. [56781]

Mr. Morley: I have no plans to change the current arrangements for the publication of the interests of the Medical and Toxicology panel. The interests of all Members of the ACP, including those on the Medical and Toxicology panel, and the affiliations of the non ACP members of the Medical and Toxicology panel are currently published in the ACP annual report.

I also refer my right hon. Friend to my answer to UIN 56785 in relation to prompt publication of the ACP minutes.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 9 January 2006, *Official Report*, column 11W, on pesticides, if she will require the Advisory Committee on Pesticides to publish on its website *(a)* a list of members' interests and for such a list to be updated within a fortnight of any change and *(b)* its minutes and relevant papers in full within one week of each meeting. [56785]

Mr. Morley: I have no plans to change the current arrangements for the publication of the ACP Members' interests described in my earlier response.

The summary minutes of the Advisory Committee on Pesticides are currently published in draft three weeks after the date of each meeting and most Committee papers are available on request from the ACP Secretariat. This timescale is necessary to provide for adequate consultation with the Committee's members in order to ensure that the record reflects accurately the discussion that takes place.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 14 December 2005, *Official Report*, column 2015W, on pesticides, what meetings with *(a)* pesticide companies and *(b)* trade associations the Government (i) has had and (ii) plans to have, since the meeting with the Crop Protection Association on 11th January 2006. [56811]

Mr. Morley: My noble Friend Lord Bach is the Minister with responsibility for pesticides. Lord Bach met with BASIS (Registration) Ltd on 13 February. BASIS is an independent organisation set up at the suggestion of the government to establish and assess standards in the pesticide industry relating to storage and sale. Lord Bach also addressed a conference organised by the Amenity Forum, which includes representatives from trade associations linked to the pesticides industry, on 1 March. No other meetings with pesticide companies or trade associations are planned at this time.

Pesticides/Chemicals

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons *(a)* chronic fatigue syndrome/myalgic encephalomyelitis and *(b)* multiple chemical sensitivity are not included in the Advisory Committee on Pesticides' risk assessment process when setting exposure limits for pesticides and other environmental chemicals. [56327]

Mr. Morley: The Advisory Committee on Pesticides has considered the possibility that exposure to pesticides could cause complex multi-system disorders in a minority of individuals who are unusually susceptible and accepts that this cannot be completely ruled out. However, the Committee considers it unlikely that pesticide toxicity contributes significantly to conditions such as these because there are currently no known toxic mechanisms that would explain the patterns of symptoms reported by people with these disorders, nor is there any information about the limits on exposure that would be needed to prevent such illness occurring. Other regulatory and standard-setting bodies in the UK and internationally similarly do not include possible risks of these illnesses when setting exposure limits for pesticides or other environmental chemicals.

The Committee does believe that these types of disorders warrant further research but it does not believe that the appropriate new animal models suitable for use as regulatory tools can be developed in the near future. This is because the lack of evidence for any mechanism of action inhibits sound research in this area.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will extend the range of health issues dealt with by the Advisory Committee on Pesticides. [56345]

Mr. Morley: Ministers place no constraints on the range of health issues dealt with by the Advisory Committee on Pesticides; this is for the Committee to

decide. The Committee looks at a wide range of health issues and continuously reviews emerging health and scientific developments related to pesticides. When the Committee feels the need for additional expertise in any area there is scope for it to seek the advice of other scientific committees with relevant expertise.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will require the Advisory Committee on Pesticides to publish full statements of their deliberations. [56346]

Mr. Morley: A summary report of all Advisory Committee on Pesticides (ACP) discussions is published. The Department has previously considered the feasibility of publishing the detailed record of the ACP's discussions but this was not taken forward due to the fact that certain commercially confidential information is included. We have recently asked officials to look again at this issue in consultation with the ACP to see whether more information could be made available.

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs how many people were employed in the Pesticides Safety Directorate in each of the last 12 months; and how many vacancies there were in each month. [56424]

Mr. Morley: The information is provided in the following table.

The vacancies recorded are the difference between the budgeted directorate's compliment and the actual number of staff in post. They will not necessarily reflect the level of recruitment conducted in any month

	Staff in post	*Allocation*	*Vacancies*
April	196	201	5
May	193	201	8
June	194	201	7
July	193	201	8
August	195	201	6
September	199	201	2
October	199	201	2
November	194	201	7
December	195	201	6
January	201	201	0
February	200	201	1
March	199	201	2

Poultry Imports

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what restrictions apply to the import from France of poultry *(a)* fed on poultry protein and *(b)* administered drugs banned in the UK. [57429]

Mr. Bradshaw *[holding answer 10 March 2006]:* The rules governing poultry feed and the drugs that may be administered to poultry are set out in EU legislation. There is currently a ban on feeding poultry protein to poultry throughout the EU. The competent authority in each member state is responsible for making sure that poultry sent to another member state complies with the rules. The European Commission's Food and Veterinary Office carries out regular inspections to ensure that Community law is implemented properly. Importing member states can also carry out random, non discriminatory checks at the place of destination, and during transport if they suspect that the rules have been breached.

Recycling

Andrew Gwynne: To ask the Secretary of State for Environment, Food and Rural Affairs what the rates for recycling were in each local authority in each of the past nine years, broken down by *(a)* metropolitan borough and *(b)* other authorities. [57997]

Mr. Bradshaw: Results for individual local authority household recycling rates from 1998–99 to 2003–04 are published on the Defra website at: http://defraweb/environment/statistics/wastats/mwb0304/index.htm, Annex B. The 2004–05 Best Value Performance Indicator results for BV82a, percentage of household waste sent for recycling and BV82b, percentage of household waste sent for composting are available from the Audit Commission website at: http://www.audit-commission.gov.uk/performance/dataprovision.asp. 2004–05 provisional results from WasteDataFlow will be available after 24 March 2006.

Due to unreliability of early data, individual authority recycling rates are not published prior to 1998–99.

Reservoirs (Oxfordshire)

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with water companies on reservoir capacity in Oxfordshire. [58294]

Mr. Morley: Oxfordshire falls almost entirely within the supply area of Thames Water, with small areas supplied by Severn Trent Water and Anglian Water.

Oxfordshire's main strategic reservoir is Farmoor, which is currently around 97 per cent. full.

Thames Water has met Defra officials on several occasions to discuss the company's proposals for a new reservoir in south west Oxfordshire. These discussions have centred on the permissions necessary for such a reservoir.

Sea Defences (Lincolnshire)

Mark Simmonds: To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department has spent on sea defences in *(a)* Boston and Skegness and *(b)* Lincolnshire in each of the last five years; and how much is proposed to be spent in each of the next three years. [56703]

Mr. Morley: Defra funds most of the Environment Agency's flood related work and grant aids individual capital improvement projects and related studies undertaken by local authorities and internal drainage

boards. The Agency has spent the following sums on sea defences on the two stretches of coastline from Boston to Skegness and from Skegness to North Lincolnshire:

£ million

	Boston to Skegness	Skegness to North Lincolnshire
2001–02	0.8	3.5
2002–03	0.8	4.4
2003–04	0.7	3.3
2004–05	0.8	3.3
2005–06	2.7	11.0
2006–07	2.0	9.7
2007–08	2.2	12.5
2008–09	2.3	12.8

In years prior to 2004–05, the investment was funded through a combination of direct grant from Defra and levies on local authorities which were in turn supported by Revenue Support Grant from the Office of the Deputy Prime Minister. From 2004–05 onwards, the spend figures are entirely funded through Grant in Aid from Defra. Years from 2005–06 onwards are either partly or wholly estimates of future spend.

Synthetic Pyrethroids

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons her Department has taken the decision to authorise the removal of synthetic pyrethroids from the market; and what discussions she has held with the Environment Agency on their removal. [57250]

Mr. Bradshaw: The Veterinary Medicines Directorate (VMD) is responsible for the authorisation of veterinary medicinal products in the UK. The assessment process considers the safety, quality and efficacy of products before they are placed on the market. The VMD also runs a Suspected Adverse Reaction Surveillance Scheme (SARSS) to monitor the use of products once authorised. The potential for cypermethrin to cause environmental damage is well known and the product literature contains information for users to manage the environmental risk.

In July 2005 the Environment Agency presented a report to the VMD about pollution incidents in Wales from the use of sheep dip. Between January 2004 and August 2005 the Environment Agency had investigated 32 sheep dip incidents causing major or significant ecosystem damage. The 12 most serious cases involved cypermethrin dips. The majority of incidents were in Wales and most arose from apparent routine use rather than disposal of used dip. All of the cases involved the loss of aquatic life with one involving the loss of a great many cray fish; a protected species. Nine of the cases have led to prosecution.

The cypermethrin sheep dips are currently subject to a routine renewal assessment. In October 2005 the marketing authorisation holders (MAH) for the cypermethrin sheep dip products were asked to provide data to support a recommendation for the length of time sheep should be retained in pens close to the bath to allow the fleece to drain of excess dip. The MAH were also asked to provide an assessment of the risk presented by sheep entering watercourses after they had returned to pasture. The Environment Agency and the VMD have also jointly funded a research project to consider the risk presented by sheep entering watercourses after they have been dipped. None of this information is expected to be available before the next dipping season.

Cypermethrin sheep dips are used for the treatment and prevention of sheep scab, ticks and blowfly. Sheep scab is a serious animal welfare issue that can lead to death from anaphylactic shock. Other authorised veterinary medicinal products are available for use against these ectoparasites. These include organophosphorous (OP) sheep dips. Concerns have been expressed about the human health implications for farmers using OP dips. These have been addressed by changes to the products over the years and they are now available only in closed transfer systems to prevent farmers coming into contact with the concentrate.

The Environment Agency and VMD have consulted on a joint pollution reduction programme for the use of cypermethrin sheep dips. This programme remains a key element in the future environmentally sustainable use of SP dips.

In the light of the evidence available on the environmental pollution from routine use of cypermethrin sheep dips and the alternative products available for sheep ectoparasite control, it was decided to suspend the marketing authorisations for cypermethrin sheep dips on a precautionary basis until more information was available on how the products can be used without providing an unacceptable risk to the environment.

The VMD and the Environment Agency have been working closely together on this topic and the VMD consulted the Environment Agency on its proposal to suspend the authorisations.

UK Zoonoses Group

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will list the members of the UK Zoonoses Group; what its terms of reference are; how many staff it employs; whether it produces an annual report to her Department; what publications it produces; for what reasons it was established; and if she will make a statement; [57650]

(2) if she will make a statement on the work of the UK Zoonoses Group. [57651]

Mr. Bradshaw: The UK Zoonoses Group provides a forum for the discussion of animal and human health aspects of zoonoses, and met for the first time in October 2001.

The formation of the UK Zoonoses Group is in line with the recommendation in the Phillips Report on BSE (published in October 2000) for better liaison between central government, devolved administrations, and local enforcement and health organisations on animal and human health issues that have implications for the whole of the UK.

The Group's terms of reference are to:

provide an overview and means of ensuring co-ordination of public health action at UK, national and local levels with regard to existing and emerging zoonotic infections and antimicrobial resistance to those infections in animals and humans

advise the respective Secretaries of State or Ministers of Agriculture, Health and Environment in the UK on important events in the field of zoonoses, including where necessary preventative and curative action

promote and facilitate activity leading to better understanding of zoonoses and the risks to public health

ensure an exchange of views within and between central Government departments and agencies, devolved administrations and local Government on developments in the field of zoonoses, and to provide contact points for discussion.

Membership comprises UK Chief Medical Officers and UK Chief Veterinary Officers plus representatives from Defra, Department of Agriculture and Rural Development (Northern Ireland), Department of Health, Food Standards Agency, Meat Hygiene Service, Welsh Assembly Government, Health Protection Agency, Scottish Agricultural College, Scottish Executive Environment and Rural Affairs Department, Veterinary Laboratories Agency, Veterinary Medicines Directorate, Environmental Agency, Health Protection Scotland (previously the Scottish Centre for Infection and Environmental Health), Health and Safety Executive and Local Authorities Coordinating Office on Regulatory Services.

The Group does not employ staff but has a joint secretariat comprised of members from the Department of Health and Defra. The Group does not produce an annual report. Instead the information about the Group, and access to minutes of meetings and papers, are available on the Defra website at:http://www.defra.gov.uk/animalh/diseases/zoonoses/ukzg/index.htm. The Group normally meets twice a year and since its formation in October 2001 has met nine times.

More generally in relation to zoonoses in the UK, Ministers agreed in 1999 to the production of an annual Zoonoses Report. Annual reports on zoonoses in the UK are available for the years 1998 to 2004 on the Defra website at: http://www.defra.gov.uk/animalh/diseases/zoonoses/reports.htm. The report on zoonoses in the UK for 2005 is expected to be published in November 2006.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the operation of *(a)* the Zoonoses Directive 2003/99 and *(b)* the Zoonoses Regulations 2160/2003. [57652]

Mr. Bradshaw: The Directive and the Regulation replace and expand on existing measures for protection against zoonoses and zoonotic agents in animals, animal feed and products of animal origin.

The Zoonoses Directive (2003/99) places a requirement on member states to ensure that data on the occurrence of zoonoses and zoonotic agents and anti-microbial resistance are collected, analysed and published. A working group of representatives from Defra, Department of Health, their supporting agencies, and their equivalents in the devolved administrations collaborates in collecting the information and submitting the UK annual report to the European Commission. This addresses the trends and sources of zoonotic agents in animals, feed and food, and the analysis of the significance to public health. The UK report is available on the Defra website at: http://www.defra.gov.uk/animalh/diseases/zoonoses/trends≥sources.htm

The Zoonoses Regulation 2160/2003 requires that government and primary producers follow the framework it sets for the reduction of zoonotic agents in animals on farms. Implementation of the Regulation has commenced with programmes to reduce salmonella of public health significance after the completion of surveys to establish the base-line values of Salmonella in member states.

The first control programme covers breeding flocks of domestic fowl and will be implemented by 1 January 2007. It builds on the statutory salmonella control programme that has been in operation in this sector since 1989.

Control plans for Salmonella of human health significance in other sectors are required and are expected to be implemented for laying flocks (January 2008), broilers (2009) turkeys and fattening pigs (2010); and finally breeding pigs (2011).

Our intention is for industry bodies and government to work in partnership on the production of the control plans and this approach was supported by the partners at an initial meeting in July 2005. The poultry and pig industries are made up of different sectors and Defra has set up five working groups to assist in the development of control plans. Representatives from the different sectors, the Food Standards Agency, and the regions are also involved.

Defra will consult fully on implementing domestic legislation.

United Utilities Water Company

Andrew Gwynne: To ask the Secretary of State for Environment, Food and Rural Affairs what the leakage rate was for the United Utilities Water Company in the latest period for which figures are available; and what change there has been in United Utilities' water leakage rate in the last five years. [58004]

Mr. Morley: The director general of water services publishes leakage figures annually in the 'Security of supply, leakage and the efficient use of water' reports. Total reported leakage at United Utilities for 2004–05 was 500 megalitres per day. This is an increase of 37 megalitres per day from 2000–01.

Waste Management

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with stakeholders in the Stansted-Cambridge-Peterborough growth corridor on future waste management facility provision and policy. [55725]

Mr. Bradshaw: I have had no discussions with stakeholders on this issue. National policy set out in Planning Policy Statement 10 *Planning for Sustainable Waste Management* requires regional planning bodies to prepare regional spatial strategies which aim to provide sufficient opportunities to meet the identified needs of their areas for waste management for all waste streams. In turn, planning authorities are expected to prepare local development documents that reflect their contribution to delivering the regional spatial strategy.

An Examination in Public (EIP) was recently held for the East of England RSS. Waste was one of the issues considered by the EIP.

Water Leakage (London)

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what action has been taken to reduce leakage rates from water pipes in the London area. [55459]

Mr. Morley *[holding answer 6 March 2006]:* The Director General of Water Services is responsible for setting targets and monitoring reductions in water company leakage. In 2001, following failure to meet their leakage targets, Ofwat suspended Thames Water's leakage targets in favour of an action plan to improve its leakage monitoring and control activities. This was in addition to a continuing requirement for Thames Water to provide quarterly reports on progress with its agreed leakage reduction plan. The aim is to restore leakage to its target level and achieve adequate security of supplies.

The company is now carrying out 60 per cent. more repairs than two years ago, and a major upgrade of its water distribution network in London is under way. This will involve replacing more than 1,200 km of water mains over the five years up to 2010. In 2004–05 Thames Water reduced its overall leakage for the first time since 1999–2000, moving towards the target of reducing leakage to its economic level of 725 Ml/d by 2009–10.

Water Supply

Sir John Stanley: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the likelihood of standpipes being required in *(a)* Kent and *(b)* Sussex in the course of 2006. [57299]

Mr. Morley *[holding answer 10 March 2006]:* The Environment Agency is the statutory body with a duty to manage water resources in England and Wales. It has produced a report, "Drought prospects 2006", explaining the likely consequences of a continuing rainfall deficit. This report indicates that if rainfall in Kent and Sussex, from February to April, is only 60 per cent. of the average for that period, there would be a risk later in the year of extreme steps to manage public water supplies such as the introduction of standpipes and rota cuts. This risk will be influenced by the efficacy of measures adopted to conserve water supplies.

Sir John Stanley: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to increase water supplies in *(a)* South East England and *(b)* Kent; and if she will make a statement. [57300]

Mr. Morley *[holding answer 10 March 2006]:* All water companies in England and Wales have statutory duties to maintain adequate supplies of water. It is for water companies to plan the investment required to achieve a supply-demand balance, including that for any necessary increase in supplies. Details of how each water company, including those in South East England and Kent, propose to reconcile supply with anticipated future demand are included in their 25 year water resource plans. These water resource plans are produced voluntarily every five years at present but will become a statutory requirement under the provisions of the Water Act 2003. My Department is currently consulting on the exercise of the new powers in respect of statutory water resource plans.

Water companies in South East England and Kent, in common with the other water companies, also produced drought plans which are now a statutory requirement. The drought plan sets out how the company will continue to meet its duty to maintain an adequate supply of water during a short term water shortage. One of the actions may involve applying to my Department for drought orders to restrict non-essential uses of water.

HOUSE OF COMMONS COMMISSION

Carbon Footprint

Mr. Vaizey: To ask the hon. Member for North Devon, representing the House of Commons Commission what assessment has been made of the carbon footprint of the Palace of Westminster. [57717]

Nick Harvey: The quantity of carbon dioxide being released into the atmosphere as a result of gas and electricity consumption on the Commons part of the parliamentary estate, including the Commons part of the Palace of Westminster, in 2004–05 was 11,694 tonnes CO_2. I understand that the equivalent total for the Palace of Westminster as a whole, but excluding the other buildings on the estate, was 8,892 tonnes CO_2.

TRADE AND INDUSTRY

Age Discrimination

David Taylor: To ask the Secretary of State for Trade and Industry what progress has been made in eliminating age discrimination in employment. [58601]

Mr. Sutcliffe: The Employment Equality (Age) Regulations were laid before Parliament in draft on 9 March and, subject to parliamentary approval, will come into force on 1 October 2006. The regulations represent a big step forward in eliminating age discrimination in employment. In the meantime, the Government's Age Positive and Be Ready campaigns have been encouraging the benefits of an age diverse work force in readiness for the new legislation.

Arms Exports (Iraq)

Adam Price: To ask the Secretary of State for Trade and Industry which Ministers have had responsibility for the approval of arms export licences to Iraq since the beginning of 2004. [58251]

Malcolm Wicks *[holding answer 13 March 2006]:* The DTI is the licensing authority for goods whose export is controlled for strategic reasons. My right hon. Friend the Secretary of State is responsible for issuing all export licences, including those for Iraq. The DTI Export Control Organisation carries out this function on his behalf.

Farnborough Air Show

Nick Harvey: To ask the Secretary of State for Trade and Industry which Ministers will be attending the Farnborough Air Show in July. [57136]

Ian Pearson: My right hon. Friend the Secretary of State for Trade and Industry plans to attend the Farnborough Air Show. Possible attendance by other DTI Ministers is under consideration. Attendance of Ministers from other Departments is a matter for those Departments.

Nuclear Waste

Mr. Carmichael: To ask the Secretary of State for Trade and Industry pursuant to the answer of 25 January 2006, *Official Report*, column 2178W on nuclear waste, to the hon. Member for Cardiff Central, from which countries the spent nuclear fuel stored in Scotland comes; where the spent nuclear fuel has been stored since arriving in the UK; how long he expects the spent nuclear waste to be stored at the current site; what assessment he has made of the risks of pollution from the storage of the waste; and if he will make a statement. [57129]

Malcolm Wicks: The overseas spent fuel stored in Scotland (less than one tonne), originates from Belgium, Denmark, France, Germany, Holland and Georgia. Spent fuel has been stored at the UKAEA site at Dounreay.

Other than material removed to the UK for international security reasons, material is stored for a period as agreed under contract with the customer. Since 1976, all contracts for reprocessing of overseas spent fuel in the UK contain a clause stating that the materials, including waste, resulting from the reprocessing will be returned to the country of origin.

Spent fuel stored in accordance with regulatory requirements as determined by the Health and Safety Executive's Nuclear Installations Inspectorate; and associated radioactive discharges are regulated by the Scottish Environment Protection Agency.

Regional Development Agencies

Mr. Greg Knight: To ask the Secretary of State for Trade and Industry what the *(a)* names and *(b)* salaries are of the chief executives of regional development agencies. [57810]

Alun Michael *[holding answer 13 March 2006]:* The name and salary details of the chief executive for each regional development agency are shown in its annual report. Copies of regional development agency annual reports are placed in the Libraries of the House and are available on the internet.

The website addresses for the agencies are as follows. The websites will also provide the names of any newly appointed chief executives.

Regional development agency	*Website*
Advantage West Midlands	www.advantagewm.co.uk
East of England Development Agency	www.eeda.org.uk
East Midlands Development Agency	www.emda.org.uk
London Development Agency	www.lda.gov.uk
NorthWest Development Agency	www.nwda.co.uk
One NorthEast	www.oneno.rtheast.co.uk
South of England Development Agency	www.seeda.co.uk
South West of England Development Agency	www.southwestrda.org.uk
Yorkshire Forward	www.yorkshire-forward.com

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry what the total cost of employing each director of the South West Regional Development Agency has been in each of the last five years. [55184]

Alun Michael: Information concerning employment costs is shown in annual reports of the South West of England Regional Development Agency. Copies of the annual reports are placed in the Libraries of the House and are available on the internet.

The website address for the agency is www.southwestrda.org.uk

Waste Directive

Mr. Rogerson: To ask the Secretary of State for Trade and Industry what are the names of the staff in his Department working on the review of the Waste Electrical and Electronic Equipment (WEEE) Directive which he announced in December; how many staff hours a week are being spent on the review; which stakeholders have been consulted; whether records are available of meetings that have been carried out in relation to the review; what the terms of reference are of the review; whether a date has been set for the consultation period; and whether it is policy that staff working on the WEEE review take email inquiries only. [58042]

Malcolm Wicks: As I announced on 14 December 2005, the Review on the Waste Electrical and Electronic Equipment Directive will seek to establish the best way to implement the directive taking into account the concerns of businesses and stakeholders, and will be followed by a full consultation exercise in the spring. A number of officials, totalling around 280 staff hours a week, are currently working on various aspects of the review, and a wide range of stakeholders have been consulted to ensure that as many views as possible are taken into account. Records of meetings have not been prepared for publication. To ensure that proper consideration can be given to all the issues raised by the large number of stakeholders, we prefer them to inform the Department of their concerns in writing.

CULTURE, MEDIA AND SPORT

Bexley

Mr. Evennett: To ask the Secretary of State for Culture, Media and Sport what the itinerary was for her recent visit to Bexley borough. [57078]

Tessa Jowell *[holding answer 9 March 2006]:* On the evening of Tuesday 7 February, I visited Bexley borough to take part in a community meeting.

Digital Television

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport how much the Government have allocated for support for individuals on low incomes to purchase equipment in preparation for the switch to digital television in each year leading up to the switchover; and if she will make a statement. [57105]

James Purnell: We recognise that many vulnerable consumers will need help in adapting to the change, but evidence, including research carried out by Scientific Generics has shown that the main issue is about practical help for specific groups rather than affordability. The Government therefore decided specific assistance will be available to households where someone is aged 75 or over; and households with people with severe disabilities. This will consist of providing the necessary equipment to convert one TV set and the relevant support to install and use such equipment.

Help will be available free of charge to those eligible for the scheme who are also receiving pensions credit, income support or job seeker's allowance. Others will have access to the same help but will pay a modest charge.

We are working closely with the BBC, DWP and with leading charitable and voluntary groups on detailed scheme design.

We are conducting a trial in the Bolton area in association with the BBC. The conclusions of the trial and other research will help us to refine the cost of providing assistance.

Chris Ruane: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to ensure that all licence fee payers will be able to take advantage of digital switchover regardless of *(a)* technical expertise, *(b)* income level, *(c)* age and *(d)* geographical features of their local area; and what estimate she has made of when digital switchover will be implemented in the area in which Vale of Clwyd constituency is located. [57384]

James Purnell *[holding answer 10 March 2006]:* Digital Switchover will enable digital terrestrial coverage to match current analogue levels. Switchover for the Wales region will happen in the second half of 2009.

Digital UK will provide extensive information to ensure everyone knows what is happening, what they need to do, and when. Their activities will include major communication campaigns, direct mail and a call centre giving practical advice on how to prepare for switchover.

In addition, specific assistance will be available to households where someone is aged 75 or over; and households with people with severe disabilities. This will consist of providing the necessary equipment to convert one TV set and the relevant support to install and use such equipment.

Help will be available free of charge to those eligible for the scheme who are also receiving pensions credit, income support or job seeker's allowance. Others will have access to the same help but will pay a modest charge.

Gaming Machines

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the implementation of the new licensing regime for gaming machines in pubs and other alcohol licensed premises from 24 November 2005. [58265]

Mr. Caborn: On 24 November 2005, responsibility for issuing permits under Section 34 of the Gaming Act 1968 (authorising gaming machines in alcohol licensed premises) transferred from licensing justices to licensing authorities. Aside from this transfer of functions, the substance of the permit regime remained the same.

DCMS issued guidance to licensing authorities on their new responsibilities on 10 October 2005, and has been working closely since then with Local Authorities Co-ordinators of Regulatory Services (LACORS) to respond to any additional inquiries emerging from licensing authorities.

While no formal evaluation has been made, no widespread issues arising from the transfer of functions have been identified.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport if she will list the local authorities who *(a)* have introduced and *(b)* are yet to introduce policies for the granting of permits for pubs and other licensed premises to have gaming machines following the introduction of the new licensing regime on 24 November 2005. [58266]

Mr. Caborn: There is no requirement for local authorities to develop policies in relation to their new responsibility for issuing permits under Section 34 of the Gaming Act 1968 authorising gaming machines in alcohol licensed premises. Local authorities are required to grant or refuse applications on a case by case basis.

Local authorities can resolve not to grant or renew Section 34 permits for classes of premises in their area, or to limit the number of machines in particular classes of premises. However, this power does not apply to alcohol licensed premises or amusement arcades.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what percentage of local authorities have issued new permits for gaming machines in pubs and other licensed premises since 24 November 2005. [58267]

Mr. Caborn: This information is not collected centrally.

Ministerial Activities

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many *(a)* public speeches and *(b)* official visits she has made since 5 May 2005; and how many letters she sent in this period. [55705]

Tessa Jowell: Since the 5 May 2005 I have made 31 public speeches and (26) official visits. All speeches and visits were conducted in accordance with the ministerial code.

The number of letters sent could be provided only at disproportionate cost. The Cabinet Office, on an annual basis, publishes a report to Parliament on the

performance of departments in replying to Members/ Peers correspondence. The report for 2004 was published on 6 April 2005 (column 137WS–140WS). Reports for earlier years are available in the Library of the House. The report for 2005 will be published in due course.

Newspaper and Magazine Distribution

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport (1) what discussions she has had with *(a)* the Secretary of State for Trade and Industry and *(b)* the Office of Fair Trading (OFT) since December 2005 on the potential impact on the freedom of the press of the OFT's final opinion in its review of newspaper and magazine distribution; [57409]

(2) what representations her Department has made to *(a)* the Office of Fair Trading and *(b)* the Department of Trade and Industry during the review of the newspaper and magazine distribution. [57410]

James Purnell: My right hon. Friend the Secretary of State has had no discussions with the Office of Fair Trading (OFT) or with any other Government Department, although officials have held a meeting with OFT officials. The Secretary of State wrote to the Chairman of the OFT on 12 October 2005, pointing out that serious concern had been expressed about how a different system could protect plurality and serve the public. She asked the OFT to give these concerns appropriate weight in reaching its conclusions.

Olympic Games

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what the terms of reference are for the KPMG contract to scrutinise the 2012 Olympics; how much the project will cost; and whether preliminary conclusions have been reached. [58190]

Mr. Caborn *[holding answer 13 March 2006]:* KPMG are providing support for the ongoing analysis of the various elements of the costs of the London 2012 Olympic Games and Paralympic Games. As this work is ongoing, the final cost will depend on the amount of work carried out.

Private Offices

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport what the cost of her private office was in the last year for which figures are available. [55724]

Tessa Jowell: For the financial year 2004–05, the cost of my private office was £344,480.

Television Licence

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport how many *(a)* prosecutions and *(b)* convictions for television licence evasion there were in each of the last five years; and how many in each category were of women. [57152]

Hazel Blears: I have been asked to reply.

The information from the court proceedings database held by the Office for Criminal Justice Reform is contained in the table and shows the number of people prosecuted against at magistrates courts and convicted at all courts for offences under the Wireless Telegraphy Acts 1949 to 1969 (mainly television license evasion) and the Communications Act 2003, in England and Wales, 2000–2004.

Number of defendants prosecuted and convicted for offences relating to television licence evasion in England and Wales, 2000–04[1]

Defendants

	Prosecuted			*Convicted*		
	Male	*Female*	*Total*[2]	*Male*	*Female*	*Total*[2]
2000	44,057	77,067	121,137	37,314	68,400	105,726
2001	34,174	62,297	96,484	28,611	55,128	83,751
2002	39,421	70,739	110,170	33,465	63,124	96,596
2003	35,640	58,257	93,915	29,247	50,609	79,870
2004[3]	43,724	71,900	115,643	35,531	62,221	97,766

[1] These data are on the principal offence basis.
[2] Total figures include other defendants such as companies.
[3] The TV licensing provisions of the Wireless Telegraphy Act 1949 were replaced by new provisions in the Communications Act 2003 which came into effect 1 April 2004.
Source:
RDS-Office for Criminal Justice Reform

Temporary Events (Licensing)

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport under what circumstances temporary events notices can be used for licensing large scale temporary events. [56475]

James Purnell *[holding answer 6 March 2006]:* Licensable activities can be authorised under a temporary event notice, provided that no more than 499 people will be on the premises at any one time when licensable activities are being carried on. The maximum figure of 499 does not just include the audience, spectators or consumers, but also includes, for example, staff, organisers, stewards and performers who will be present on the premises.

A temporary event notice can be given for part of a building, such as a single room or a plot within a larger area of land. It may therefore be possible to use a temporary event notice to cover licensable activity that is being carried out as part of a larger event which is not otherwise licensable under the 2003 Act. For example, it may be possible to operate the bar or entertainment areas at a country show or outdoor sporting event under temporary event notices, rather than licensing the whole event. Premises users should consider carefully whether there are licensable activities taking place outside of the

areas covered by temporary event notices and be confident that they will be able to restrict the number of people in each area covered to less than 500 at any one time when licensable activities are taking place. Activities may otherwise be unlawful and the premises user could be liable to prosecution. If in doubt, premise users should check with their licensing authority.

SCOTLAND

Engagements

Sarah Teather: To ask the Secretary of State for Scotland how many *(a)* public speeches and *(b)* official visits he has made since 5 May 2005; and how many letters he sent in this period. [55703]

David Cairns: In his capacity as Secretary of State for Scotland, my right hon. Friend has made *(a)* six public speeches; *(b)* 20 official visits; and *(c)* sent approximately 315 letters since 5 May 2005. This is in addition to his responsibilities as Secretary of State for Transport, which will be outlined in a separate response. I have also made speeches, undertaken official visits and issued many letters in my role as Parliamentary Under-Secretary of State. All speeches and visits are conducted in accordance with the ministerial code.

Private Office

Sarah Teather: To ask the Secretary of State for Scotland what the cost of his private office was in the last year for which figures are available. [55722]

David Cairns: The information is not available in the form requested. All the Scotland Office private offices have been combined for cost and efficiency purposes.

Transport Schemes

Chris Grayling: To ask the Secretary of State for Scotland what investment in transport infrastructure schemes to support economic regeneration is being considered in Objective 1 areas in Scotland; what the schemes are; what the amount of public investment is; and when he expects decisions to be made. [54945]

David Cairns: On 28 February the Government launched a consultation on the UK's draft national strategic reference framework for the Structural Funds from 2007–13. This will establish the broad priorities for future Structural Funds programmes in the UK, and provide programme managers with an initial basis to begin planning for the 2007–13 financial perspective.

The consultation will end on 22 May, and the Department of Trade and Industry aims to publish a response to the consultation within three months of that date.

Implementation of the Structural Funds in Scotland is devolved and is a matter for the Scottish Executive.

CABINET OFFICE

Engagements

Norman Baker: To ask the Minister without Portfolio if he will list his official engagements for each day in February 2006. [57862]

The Minister without Portfolio: My duties for the month of February included: the formulation and development of Government policy and attending meetings with ministerial colleagues and others. I also attended Cabinet and contributed to decisions taken by Cabinet and its sub-committees.

Fast Stream Applicants

Norman Baker: To ask the Chancellor of the Duchy of Lancaster how many applicants there were to the Civil Service fast stream competition from *(a)* Oxford and Cambridge universities, *(b)* the Russell Group of universities and *(c)* all other universities in the UK in the most recent year for which figures are available; and how many in each category (i) passed the initial examination and (ii) were offered fast stream appointments in (A) the Home Civil Service, (B) the Diplomatic Service, (C) the Customs and Revenue Service and (D) elsewhere. [57407]

Mr. Jim Murphy: The latest available figures are those contained in the 2004 annual report on Fast Stream recruitment, published in June 2005 and available online at http://www.cabinetoffice.gov.uk/reports/faststream. The total number of applications to the 2004 competition from Oxford and Cambridge universities was 1,382; non Oxbridge applications were 7,216. We do not collate the number of applications for the Russell Group universities but a full analysis of total applications by university can be found within the report.

No data is collated to show how these specific groups of candidates performed at different stages of the selection process, or which Fast Stream option they joined if successful. In total, however, 167 applicants from Oxford and Cambridge Universities, and 300 from other universities, were recommended for appointment

Official Car

Norman Baker: To ask the Minister without Portfolio what car is made available to him at public expense; how many miles he covered in this car in February 2006; and for how many hours in that month a chauffeur was available to him. [57863]

The Minister without Portfolio: I have the use of an official car for my Government duties. When using a Government car I adhere to the requirements of the Ministerial Code and Travel by Ministers.

HOME DEPARTMENT

Asylum Seekers

Jenny Willott: To ask the Secretary of State for the Home Department how many asylum seekers deported or removed from the UK in *(a)* 1995, *(b)* 2000,

(c) 2001, (d) 2002 and (e) 2003 were aged (i) 15, (ii) 16, (iii) 17 and (iv) 18 years; and if he will make a statement. [57611]

Mr. McNulty: The information requested for these years is not available.

Published statistics on immigration and asylum are available on the Home Office's Research Development and Statistics website at:http://www.homeoffice.gov.uk/rds/immigration1.html.

Damian Green: To ask the Secretary of State for the Home Department how many asylum applicants in 2005 had previously unsuccessfully applied for a visa. [58205]

Mr. McNulty: The requested information is not available.

Cannabis

Mr. Evans: To ask the Secretary of State for the Home Department how many people were (a) cautioned and (b) prosecuted by Lancashire police for possession of cannabis in each of the last 10 years. [56773]

Hazel Blears: The requested information is given in the table. Available data for prosecutions relate to the number of persons dealt with at court.

Number of persons in Lancashire receiving police cautions and dealt with at court for cannabis possession, 1995 to 2004

	Cautioned by police[1]	Dealt with at court[2]
1995	1,109	508
1996	1,153	538
1997	1575	801
1998	1,904	1,110
1999	1,583	965
2000	1,316	903
2001	1,349	885
2002	1,354	1,011
2003	1,638	1,046
2004	370	224

[1] Excludes police formal warnings for cannabis possession which are not counted as police cautions.
[2] Includes those found not guilty.

The large falls in police cautions and numbers dealt with at court in 2004 coincide with the introduction of formal warnings for cannabis possession in January 2004.

Cash-in-transit Robberies (Hertfordshire)

Grant Shapps: To ask the Secretary of State for the Home Department how many cash-in-transit robberies have taken place in Hertfordshire in each year since 2000. [56671]

Hazel Blears: Information on cash-in-transit robberies is not collected centrally. Available information relates to robbery of business property and is given in the following table.

Hertfordshire: recorded offences of robbery of business property

Financial year	Number
2000–01	101
2001–02	112
2002–03	134
2003–04	144
2004–05	83

Note:
Numbers affected by the introduction of the National Crime Recording Standards which came into effect in 2002–03. Data not comparable with earlier years.

Child Abuse

Mr. Andrew Turner: To ask the Secretary of State for the Home Department (1) whether the IMPACT Nominal Index is fully operational in every child abuse investigations unit in England and Wales; [56261]

(2) by what date he expects the IMPACT Nominal Index to be operational in all areas of police forces in England and Wales. [56262]

Hazel Blears *[holding answer 7 March 2006]:* The IMPACT Nominal Index is available in one child abuse investigation unit in each police force in England and Wales. It is also about to be piloted within four Force Intelligence Bureaux; the East Midlands Regional Intelligence Unit; and the Metropolitan Police Anti-Terrorist Branch. It will be deployed more widely within the England and Wales forces during the course of 2006 following an impact appraisal protection, other business areas can, with the authority of a superintendent or higher rank, use the system where it is necessary for the prevention or detection of serious crime.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department what assessment has been made of the additional (a) manpower and (b) resources required by police forces in England and Wales to extend the IMPACT Nominal Index from child abuse investigation units to the whole force; and if he will make a statement. [56263]

Hazel Blears *[holding answer 7 March 2006]:* We have been able to model the potential costs of rolling the IMPACT Nominal Index (INI) out to all child abuse investigation units. These were reported in the answer I gave on 31 January 2006, *Official Report*, column 369W to my hon. Friend the Member for Norwich, North (Dr. Gibson). However, we do not currently have sufficient data to model the potential costs of rolling the system out to all business areas. We are planning a series of pilots over the next three months to obtain the information needed to do this. We will also shortly be reviewing our estimates of the costs of rolling out to all child abuse investigation units based on an assessment of the impact of the INI since its introduction.

C-NOMIS

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the implementation of the C-NOMIS information system. [58228]

Fiona Mactaggart: It is proposed to commence the implementation of C-NOMIS at Her Majesty's Prison Albany on the Isle of Wight on 23 July 2006. Other early adopters include the national probation service at

Northamptonshire in October 2006. The main rollout will take place throughout 2007, and consultations on the exact order of rollout are taking place.

Crime (Essex)

Mr. Jenkin: To ask the Secretary of State for the Home Department how many reported incidents of *(a)* gun crime and *(b)* violent crime there were in Essex in each of the last five years; and what percentage in each category resulted in a successful prosecution in each year. [48346]

Hazel Blears *[holding answer 2 February 2006]:* The available information is given in the tables. Tables 1 and 2 give the number of firearms offences (excluding air weapons) and violent crimes recorded by Essex police between 2000–01 and 2004–05.

It is not possible to identify the number of offenders found guilty of offences involving firearms as this information is not collected centrally.

Table 3 gives the number of defendants proceeded against and found guilty for violent offences in the Essex police force area between 2000 and 2004. Court proceedings data are published on a calendar year basis. Data for 2005 will not be available until the autumn.

Because recorded crime deals with offences and court proceedings with defendants, the two data sets are not directly comparable.

Table 1: Offences recorded by Essex police, 2000–01 and 2001–02[1]

Number of offences

	Firearm offences[2]	*Violent crime*[3]
2000–01	77	12,232
2001–02	98	13,703

[1] The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.
[2] Excludes air weapons.
[3] Includes violence against the person, sexual offences and robbery.

Table 2: Offences recorded by Essex police, 2002–03 to 2004–05[1]

Number of offences

	Firearm offences[2]	*Violent crime*[3]
2002–03	148	24,583
2003–04	145	28,782
2004–05	193	28,135

[1] Data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.
[2] Excludes air weapons.
[3] Includes violence against the person, sexual offences and robbery.

Table 3: Defendants[1] *proceeded against and found guilty for violent crime offences*[2]*, Essex, 2000 to 2004*

	Proceeded against	*Found guilty*	*Percentage found guilty*
2000	1,665	728	44
2001	1,940	759	39
2002	1,705	792	46
2003	1,828	863	47
2004	2,003	1,034	52

[1] These data are on the principal offence basis.
[2] Includes violence against the person, sexual offences and robbery.

Crime Victims (Property Recovery)

Bob Spink: To ask the Secretary of State for the Home Department in how many incidents in each police force in the last full year for which records are available payment has been required from victims of crime who wish to recover their property from the police or those holding it on behalf of the police; what total sums were received; and if he will make a statement. [45716]

Hazel Blears: This information is not held centrally.

Departmental Finance

Mr. MacNeil: To ask the Secretary of State for the Home Department what the administrative costs were of each agency for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39850]

Mr. Charles Clarke: During 2004–05 the following administration costs were incurred by the Home Office's agencies:

Criminal Records Bureau: total administration costs of £19,956,000, all of which is regarded as identifiable expenditure.

Her Majesty's Prison Service: total administration costs of £79,096,000, all of which is regarded as non-identifiable expenditure.

UK Passport Service: total administration costs of £83,395,000 (inclusive of £19,974,000 distribution costs), all of which is regarded as non-identifiable expenditure.

Although not classified as an executive agency, Her Majesty's Treasury has agreed that the control arrangements for the National Probation Service boards provide a sufficient degree of control that they should be considered within the Home Office departmental accounting boundary. However, in accordance with public expenditure classifications, expenditure incurred by the National Probation Service boards is classified as programme.

Departmental Staff

David Davis: To ask the Secretary of State for the Home Department how many people have been employed in the Home Secretary's private office in each year since 1997. [31800]

Mr. Charles Clarke: Staffing figures from 1997 are not held centrally. Records show staffing figures for the Home Secretary's Private Office from 2001 as:

	Staff numbers
2000–01	15
2001–02	15

	Staff numbers
2002–03	16
2003–04	16
2004–05	13
2005–06	[1]11

[1] Estimated for April 2006.

Detainees (Religious Provision)

Mr. David Jones: To ask the Secretary of State for the Home Department whether *(a)* prayer mats and *(b)* compasses are provided in North Wales police premises for the use of Muslim detainees. [52787]

Hazel Blears: The provisions in North Wales Police is a matter for the chief officer and information is not held centrally on arrangements in place by individual police forces.

The Code of Practice on detention, treatment and questioning of persons by police officers (Code C) issued under the Police and Criminal Evidence Act requires that any specific dietary or religious beliefs the person may have should be met as far as practicable.

The guidance "Safer Detention and Handling of Persons in Police Custody" issued on 8 February 2006 jointly by Home Office, the Association of Chief Police Officers and the National Centre for Policing Excellence states that consideration should be given to providing a separate room which can be used as a prayer room; the supply of appropriate food and clothing; and suitable provision for prayer facilities, such as uncontaminated copies of religious books.

DNA Samples

Grant Shapps: To ask the Secretary of State for the Home Department pursuant to the answer of 14 February 2006, *Official Report*, column 1976W, on DNA samples, whether police personnel who have been included on the Police Elimination Database and subsequently leave the service have their DNA profile removed from the National DNA Database. [56715]

Hazel Blears: In accordance with the Data Protection Act 1998, all DNA profiles obtained from police officers are removed from the Police Elimination Database (PED) as soon as they leave the police force, unless they transfer to another force. The PED is separate from the National DNA Database.

Domestic Violence

Mr. Drew: To ask the Secretary of State for the Home Department what provision is available in the Stroud constituency to deal with domestic violence. [56329]

Hazel Blears: The provisions made available through Stroud district council contribute to the wider Gloucestershire Co-ordinated Community Response to addressing domestic violence. All police force areas and Crown prosecution areas have appointed dedicated domestic violence champions.

The provisions available in Stroud to address domestic violence cover a range of services which include:

The development of the Housing Statement for the Co-ordinated Community Response which recommends the use of eviction clauses by social landlords, and provides choices for victim/survivor to stay in their homes and remove the perpetrator, move immediately or make a planned move.

The funding of two refuges that provide outreach services to victims and survivors of domestic violence.

Contribution to the Gloucestershire Domestic Violence Support and Advocacy Project (GDVSAP), which provides outreach and support services to victim/survivors; raises awareness of domestic violence in the area and has been instrumental in developing nationally accredited training in domestic violence.

The appointment of a new Domestic Violence Co-ordinator with a County remit.

Drugs

Dr. Kumar: To ask the Secretary of State for the Home Department what research his Department has *(a)* commissioned and *(b)* evaluated on the country of origin of (i) cocaine, (ii) heroin and (iii) cannabis sold illegally in the UK. [57050]

Paul Goggins: It is assessed that at least 95 per cent. of heroin in the UK originates in Afghanistan; and that most cocaine originates in Colombia with lesser amounts from other South American countries such as Peru and Bolivia. Most Cannabis resin is assessed to originate in Morocco. Herbal cannabis is grown across the world and may originate from a number of countries, including the UK.

Free Movement

Michael Gove: To ask the Secretary of State for the Home Department under what conditions a national of another EU state may be expelled from the UK under existing legislation; and under what conditions the Government will be able to expel a national of another EU state after the entry into force of Directive 2004/38/EC, on the free movement of persons. [57354]

Mr. McNulty: Council Directive 64/221/EEC provides that EU nationals may only be expelled from the UK on grounds of public policy, public security or public health. These provisions are reflected in regulations 21, 22 and 23 of the Immigration (European Economic Area) Regulations 2000 (as amended).

Regulation 26(3) provides that where a decision is taken to remove a person on one of these grounds then he is to be treated as if he were liable to deportation being a person to whom section 3(5) of the Immigration Act 1971 applied.

Directive 2004/38/EC will be transposed into UK legislation via the Immigration (European Economic Area) Regulations 2006, which are currently being drafted and will laid by negative resolution so as enter into force on 30 April 2006.

Chapter VI (Articles 27 to 33) of Directive 2004/38 concerns restrictions on the right of entry and residence of EU nationals on grounds of public policy, public

security or public health. The Directive will continue to allow the UK to remove EEA nationals on the grounds of public policy, public security or public health.

Hepatitis

Mr. Bellingham: To ask the Secretary of State for the Home Department what estimate he has made of the number of prisoners with *(a)* hepatitis B and *(b)* hepatitis C; and if he will make a statement. [58209]

Fiona Mactaggart: Information about the numbers of prisoners with hepatitis B and hepatitis C is not collected centrally.

In 1997–98, the then Public Health Laboratory Service (PHLS) undertook an unlinked, anonymised survey of the prevalence of blood borne viruses amongst prisoners in England. This indicated that the prevalence of hepatitis B was 7.8 and that of Hepatitis C was 7.5 per cent.

Home Detention Curfews

Mr. Bellingham: To ask the Secretary of State for the Home Department what steps he is taking to improve the processes within the part of the criminal justice system for which he is responsible for responding to breaches in home detention curfew; and if he will make a statement. [58235]

Fiona Mactaggart: The electronic monitoring contractors are required to report breaches of Home Detention Curfew to the Home Office within 24 hours. Performance in this area has improved under the new electronic monitoring contracts that began to operate in April 2005. In February 2006, breaches were reported on time in 99 per cent. of cases.

Where the Home Office is notified that a breach of licence conditions has been committed by an offender on the Home Detention Curfew, a revocation order is issued within 24 hours of notification being made.

Arrest of the offender and subsequent return to custody is an operational matter for the police. Work is underway to ensure that all revocation orders are actioned as quickly as possible.

Illegal Immigrants

Keith Vaz: To ask the Secretary of State for the Home Department how many crimes were committed by illegal immigrants in each of the last five years. [57127]

Mr. McNulty: The information requested is not available from the recorded crime statistics.

Immigration and Nationality Directorate

Mr. Lidington: To ask the Secretary of State for the Home Department (1) how many immigration case files are stowed in the Immigration and Nationality Directorate's work-in-progress hold; and if he will make a statement; [47632]

(2) how many case files now stored in the Immigration and Nationality Directorate's work-in-progress hold relate to applications submitted to his Department in *(a)* 2006, *(b)* each of the six preceding calendar years and *(c)* an earlier period; and if he will make a statement. [47634]

Mr. McNulty: The information is not available in the form requested.

Immigration Detention Centres

Damian Green: To ask the Secretary of State for the Home Department how many of those held at immigration detention centres in 2005 were held at more than one centre during their period of detention. [58202]

Mr. McNulty: The required statistics could be provided only at disproportionate cost.

Iraq

Adam Price: To ask the Secretary of State for the Home Department whether Italian prosecutors have contacted UK law enforcement agencies in relation to an investigation of Italian arms exported to Iraq. [57255]

Hazel Blears: It is the Home Office's practice to treat letters of request for assistance in criminal matters from foreign governments confidentially, as communications between two countries. We are normally therefore unable to confirm or deny that we have received a request.

However, the United Kingdom remains committed to assisting its international partners in the fight against crime wherever possible.

Liverpool Prison

Mr. Bellingham: To ask the Secretary of State for the Home Department what actions he has taken to address the culture of bullying at HMP Liverpool identified by HM Chief Inspector of Prisons; and if he will make a statement. [57768]

Fiona Mactaggart: The prison's primary mechanism for dealing with bullying is through the Tackling Antisocial Behaviour (TAB) strategy, which takes a zero tolerance approach and includes a staged response to challenge prisoners who bully and support those who are the victims of this behaviour.

The TAB committee is chaired by the Head of Safer Custody. It brings together suicide and self-harm, violence reduction, anti-bullying and drug strategies to ensure a consistent establishment-wide response in these important areas and to maintain safe, ordered and decent environment for those in the prison's care.

The Chief Inspector also expressed specific concerns about the role and safety of the vulnerable prisoner unit. An action plan has been put in place and prisoner feedback and levels of assaults, self harm, use of control and restraint and unexplained injuries all indicate that those requiring protection can be effectively protected.

Mini-motorcycles

Graham Stringer: To ask the Secretary of State for the Home Department how many unregistered mini-motorcycles have been confiscated by the police in *(a)* Greater Manchester, *(b)* the North West and *(c)* England in the last two years. [57385]

Hazel Blears *[holding answer 10 March 2006]:* This information is not collected centrally.

Parliamentary Questions

Mr. Malins: To ask the Secretary of State for the Home Department when he will reply to the questions tabled by the hon. Member for Woking, reference *(a)* 44140–43, *(b)* 44642–48, *(c)* 44118, *(d)* 44120 and *(e)* 44125. [48627]

Mr. Charles Clarke *[holding answer 6 February 2006]:* I have replied to the hon. Member as follows:

44140 on 9 February

44142 on 14 February

44143 on 9 February

44145 on 26 January

44642 on 2 February

44643 on7 March

44645 on 9 February

44646 on 14 February

44647 on 14 February

44660 on 26 January

The following questions were transferred:

44120 and 44141 transferred to the Foreign and Commonwealth Office to answer

44118 transferred to the Treasury to answer

44125 and 44148 transferred to the Department of Health to answer

Question 44644 was answered by the Department of Health on 31 January.

Passport Information Sharing

Anne Main: To ask the Secretary of State for the Home Department what *(a)* plans, *(b)* regulations, *(c)* guidance and *(d)* facilities there are for the sharing of (i) biometric and (ii) other details to be contained within passports with (A) foreign governments and (B) the EU; and if he will make a statement. [57553]

Andy Burnham: The UK Passport Service and the Immigration Service pass details contained within passports, including the facial biometric, to foreign and EU immigration/border control/law enforcement agencies on a case by case basis for the prevention or detection of crime and the apprehension or prosecution of offenders.

The UK Passport Service is in discussion with the US Departments of Homeland Security and State and the Australian Department of Foreign Affairs about the mutual sharing of the personal details, including the facial biometric, contained within passports. This would be for the purpose of checking passports presented in support of visa applications and/or for travel. This will be in accordance with existing legislation, mainly the Data Protection Act 1998, and Memoranda of Understanding will be agreed. There are no plans for similar arrangements with the EU.

Police

John Bercow: To ask the Secretary of State for the Home Department what steps his Department is taking to increase the *(a)* number and *(b)* percentage of black and ethnic minority employees in the police service. [26664]

Hazel Blears: It remains the Government's policy that the composition of the police work force should reflect the communities which it serves. The police service continues to make progress against the Home Secretary's recruitment targets for 2009, and all forces are committed to recruit from minority ethnic groups in proportion to, or at a level above, their representation in the local economically active population. Performance against this objective is a key performance indicator in the policing performance assessment framework.

In 1999, two per cent. of police officers were from minority ethnic communities, the latest available figures show that at 31 March 2005 black and minority ethnic police officers made up 3.5 per cent. of total officer strength. Between April 2004 and March 2005, a further 371 minority ethnic police officers were recruited. 2,497 minority ethnic officers have been recruited since 1999. In March 2005, there were 5,250 minority ethnic police staff, accounting for 6.5 per cent. of the total. This represents an increase of 703 (13.4 per cent.) between April 2004 and March 2005.

The Home Office is working with the police service to accelerate the pace of change. The measures currently in hand include outreach programmes in police forces, engagement with student faith societies and black students' unions to encourage applications from minority ethnic graduates and measures to increase minority ethnic applications to the High Potential Development Scheme. The Home Office has developed in collaboration with force recruitment departments materials aimed at increasing recruitment from minority ethnic groups, including multi-lingual recruitment material, a toolkit providing best practice guidance for familiarisation events and a video to familiarise applicants with police assessment and selection procedures.

Mr. Pickles: To ask the Secretary of State for the Home Department what the *(a)* role and *(b)* purpose of the basic command units is; and what changes are proposed under the Government's reforms. [56218]

Hazel Blears: Basic command units (BCUs) are operational policing units covering a geographical area within a force such as a town or district and consist of several hundred police officers and staff. Their main purpose is to tackle local crime and disorder and respond to the varied demands made by the public.

The Police and Justice Bill proposes to put BCUs on a statutory footing and requires their boundaries to be aligned with those of local authorities. No changes to the role or purpose of BCUs are proposed under the new Bill.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department what advice was given to police forces that had delayed investing in IT systems because they expected a national intelligence system to be in place by 2007 once it became clear that delivery of the national system would be delayed until at least 2010. [56260]

Hazel Blears *[holding answer 7 March 2006]:* I am not aware of any advice of this nature being given by the Home Office to forces. The IMPACT Nominal Index is already facilitating the sharing of intelligence and other information between forces and further functionality will be incrementally delivered over the coming years.

Prison Management

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the mechanisms available for the spread of best practice in effective prison management. [57779]

Fiona Mactaggart: There are a variety of mechanisms for spreading best practice. Reports from Her Majesty's Chief Inspector of Prisons (HMCIP), Independent Monitoring Boards and Standards Audit Unit highlight aspects of effective practice and these are published for staff, along with items identified by headquarter policy teams. A performance co-ordinator in each area draws on effective practice identified locally and their network meetings are used to disseminate findings more widely. Additionally, best practice is promoted across the contracted estate through quarterly contract review meetings and formal meetings with establishment directors. A contracted prisons conference has taken place for the past two years, showcasing and promoting best practice across the sector.

Prisoners

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the rates of psychotic illness amongst *(a)* remand prisoners and *(b)* convicted prisoners; and if he will make a statement. [58295]

Fiona Mactaggart: The information is not available in the form requested.

A survey of psychiatric morbidity among prisoners in England and Wales in 1997, by the Office for National Statistics, indicated that 10 per cent. of remanded and seven per cent, of sentenced men had suffered from a functional psychosis in the year before the survey.

Source:

Psychiatric Morbidity Amongst Prisoners in England and Wales (ONS, 1998)

Dr. Kumar: To ask the Secretary of State for the Home Department how many suicide attempts in *(a)* men's prisons, *(b)* women's prisons and *(c)* young offender institutions were recorded in (i) England, (ii) the North East and (iii) the Tees Valley in each year since 1997. [57070]

Fiona Mactaggart: There is no definition of what constitutes a 'suicide attempt,' as it is very difficult to measure suicidal intent. Data recording incidents of 'attempted suicide' are effectively subsumed within those for self-harm, which cover all acts of self-injury, however serious. The number of recorded incidents of self-harm involving *(a)* men in English prisons and *(b)* women in English prisons is shown in the table A: It should be noted with respect to all the tables that a new form for reporting self-harm (the F213SH) was introduced in December 2002. The increase in self-harm incidents from 2003 is likely to be related to the change in reporting, rather than reflect an actual increase in number of self-harm incidents.

The number of recorded incidents of self-harm in English Young Offenders' Institutions (YOIs) is shown in the table B. There are no female YOIs, so all incidents involve male prisoners.

The number of recorded incidents of self-harm in the North East Area, broken down by gender, is shown in the table C.

The number of recorded incidents of self-harm in YOIs in the North East is shown in the table D. All involve male young offenders.

The number of recorded incidents of self-harm in establishments in Tees Valley (i.e. HMYOI Deerbolt, HMP Holme House and HMP Kirklevington) is shown in the table E. All incidents involve male prisoners.

Table A

	Male incidents	*Female incidents*
1997	1,276	132
1998	2,636	200
1999	2,684	474
2000	3,784	860
2001	5,225	2,110
2001	6,212	3,333
2003	8,298	7,306
2004	8,976	9,662
2005	8,856	12,867

Table B

	Number of incidents
1997	143
1998	277
1999	363
2000	443
2001	444

2003	160
2004	147
2005	190

Table E

	Deerbolt	*Holme House*	*Kirklevington*
1997	4	37	—
1998	3	22	2
1999	5	30	—
2000	11	30	—
2001	2	92	—
2002	11	93	—
2003	68	59	—
2004	59	96	—
2004	100	67	—

Dr. Kumar: To ask the Secretary of State for the Home Department how many prisoners are on suicide watch in *(a)* men's prisons, *(b)* women's prisons and *(c)* young offenders' institutions in (i) England, (ii) the North East and (iii) the Tees Valley. [57072]

Fiona Mactaggart: 'Suicide watch' is not a term used by the Prison Service. The level of observation for any individual prisoner identified to be at risk of suicide or self-harm can vary and is decided ordinarily by a multi-disciplinary case review team.

A proxy measure for the number of prisoners subject to enhanced observation due to their risk of suicide/self-harm may be the number of individuals on open F2052SH/ ACCT documents (the care plans for prisoners considered at risk of suicide/self-harm); however, this information is not available centrally and could only be obtained at disproportionate cost.

Dr. Kumar: To ask the Secretary of State for the Home Department what steps his Department is taking to reduce the levels of *(a)* suicides and attempted suicides, *(b)* violent attacks and *(c)* self harm in prisons. [57074]

Fiona Mactaggart: A broad, integrated and evidence-based prisoner suicide prevention and self-harm management strategy is in place. The strategy can be summarised as, 'Reducing distress and promoting the well being of all who live and work in prisons.' It operates by embedding 'safer custody' as a current through every area of prison life—including detoxification, healthcare, staff training, and the built environment. The key intervention currently being introduced across public and private prisons is the new care-planning system for at-risk prisoners: Assessment, Care in Custody and Teamwork (ACCT). ACCT aims to improve the quality of care by introducing flexible care-planning that is prisoner-centred, supported by improved staff training in assessing and understanding at-risk prisoners.

Comprehensive electronic guidance to staff on managing people who self-harm has been issued; this was developed in close partnership with the Department of Health and the National Institute for Mental Health in England (NIMHE) and aims to be of use to all those working with people who self-harm within a secure environment.

The national Violence Reduction Strategy was launched in May 2004. The national Strategy requires each establishment to have in place a local Violence Reduction strategy appropriate to needs. A whole prison approach is encouraged, with the aim of reducing violence and fear of violence. A focus on personal safety, supporting victims, and repairing the physical and emotional harm caused by violence or abuse, links closely with the suicide prevention strategy.

Mr. Winnick: To ask the Secretary of State for the Home Department what steps are taken to prevent those convicted of and imprisoned for hate crimes seeking to indoctrinate other prisoners. [51280]

Fiona Mactaggart *[holding answer 13 February 2006]:* The Prison Service is working to develop a broad based strategic approach to address the problems associated with finding suitable interventions to effectively tackle racist attitudes and behaviours; this includes giving staff information to help them identify racist or other phobic attitudes. Existing risk management processes, in particular cell-sharing risk assessment, help staff to identify individuals who may have racist or homophobic attitudes and make accommodation decisions that reduce the risk of violence motivated by hate.

Probation Services

Mr. Lidington: To ask the Secretary of State for the Home Department how many posts there are in the probation service establishment in *(a)* the Thames Valley Criminal Justice Board area and *(b)* each local criminal justice board area within the Thames Valley; how many and what proportion of such posts in each area were vacant on the most recent date for which figures are available; how many posts in each area were filled by probation officers with less than two years' experience on the most recent date for which figures are available; and if he will make a statement. [56528]

Fiona Mactaggart: Not all probation areas in the national probation service operate a set establishment against which vacant posts can be measured. As a more representative alternative, probation areas are required to report regularly on the number of active vacancies they have. An active vacancy is one which a probation area is actively trying to fill through a recruitment process.

Staffing information is collected by probation area, and is not collected centrally in sufficient detail to allow figures for sub sections within Thames Valley to be presented separately. The following staffing figures are provided for the Thames Valley probation area only.

Figures for 31 December 2005 show that there were a total of 622.20 full-time equivalent staff in post in the Thames Valley probation area. On the same date there were 22.70 full-time equivalent vacancies that were

actively being recruited to. Therefore active vacancies accounted for 3.52 percent. of the total posts available at that time.

There were 126.17 full-time equivalent probation officers employed in the Thames valley probation area on 31 December 2005, and of these 35.19 had less than two years experience. This equates to 27.89 percent. of the total probation officer workforce in Thames Valley.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department if he will place in the Library the responses received by his Department to the consultation paper, Restructuring Probation to Reduce Re-Offending. [57186]

Fiona Mactaggart: The Department received nearly 750 responses to the consultation on Restructuring Probation to Reduce Re-offending. We will publish a summary of all the responses and the key issues raised, including a full list of respondents. In line with Cabinet Office guidelines we do not intend to place copies of all the responses received in the Library.

Public Order

Patrick Mercer: To ask the Secretary of State for the Home Department (1) how many of the protesters outside the Danish Embassy on 4 February have been identified by the police; [56901]

(2) how many arrests have been made following the demonstrations outside the Danish Embassy on 4 February; and if he will make a statement. [56902]

Hazel Blears: The Commissioner of the Metropolitan Police tells me that the inquiry is ongoing and has so far led to 22 individuals being considered for prosecution. Of these, four have been identified to the satisfaction of police. Every effort is being taken to positively identify all 22 individuals. The Metropolitan police expect to begin making arrests shortly.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department how many people normally resident in the Peterborough City Council area were taken to court for breach of antisocial behaviour orders in the last year for which figures are available. [57192]

Hazel Blears: From antisocial behaviour order (ASBO) breach data recorded centrally we are not able to identify where an offender resides. The data only cover breach proceedings where there has been a conviction and are currently available from 1 June 2000 to 31 December 2003 for ASBOs issued since 1 June 2000. These data are available at criminal justice system area level only. During this period eight persons are recorded as having breached their ASBO on one or more occasions in Cambridgeshire.

Respect Action Plan

Mr. Wills: To ask the Secretary of State for the Home Department what provision the Government has made to ensure local authorities have the funding needed to implement a truancy officer to be assigned to truant families and children as set out in the Respect action plan. [52917]

Hazel Blears: Interventions to tackle persistent truancy form a key strand in the Respect programme. Local authorities are responsible for delivering outcomes and services within the budget that they control. The Government expects local authorities to make more effective use of existing resources to tackle truants. These include: the local authorities' expert Behaviour and Attendance consultants who help schools manage behaviour and attendance problems; Education Welfare services; and funding from the Behaviour Improvement Programme.

Security Industry

Mrs. Dorries: To ask the Secretary of State for the Home Department what representations he has received on an extension of the deadline for employees in the security industry seeking possession of the new Security Industry Authority identity card; what consideration the Government have given to this matter; and if he will make a statement. [54915]

Paul Goggins: The date of implementation of 20 March 2006 was agreed after consultation with the industry and has been publicised for the last two years. I have made clear on a number of occasions that this date will not be moved.

Mrs. Dorries: To ask the Secretary of State for the Home Department what measures the Government proposes to take against those firms in the security industry who have been unable to ensure that all their employees are in possession of the new security industry association identity card; and if he will make a statement. [54931]

Paul Goggins: The issue of compliance with the requirements of the Private Security Industry Act (PSIA) 2001 is a matter for the Security Industry Authority who retain operational responsibility. They continue to work with their partners and law enforcement agencies such as the police, and local authorities on matters of compliance. The SIA's enforcement policy can be found on their website at www.the-sia.org.uk.

Mrs. Dorries: To ask the Secretary of State for the Home Department how many people have been employed by the Security Industry Authority in each year since its establishment; and if he will make a statement. [54932]

Paul Goggins: The number of staff directly employed by the Security Industry Authority at the end point of each financial year since its creation in April 2003 is set out in the following table. During this period its responsibilities have increased as the sectors required to be licensed have increased, and as the Approved Contractor Scheme has been developed.

As at	*Number of staff employed*
31 March 2004	44
31 March 2005	74
28 February 2006	97

Dr. Starkey: To ask the Secretary of State for the Home Department what assessment he has made of the extent to which a black market for door supervisors has

led to a disparity between the number of qualified door supervisors and the number officially licensed by the Security Industry Authority. [52038]

Hazel Blears: The Security Industry Authority (SIA) estimates that there is currently a demand for about 46,000 door supervisors. As at 1 March 2006, the SIA has licensed 40,188 door supervisors from 50,845 applications. 2,578 applications have been refused, and the remainder are being processed. The SIA continues to work closely with partners and law enforcement agencies on issues of compliance with the Private Security Industry Act 2001.

Mr. Don Foster: To ask the Secretary of State for the Home Department what estimate he has made of the number of unlicensed door supervisors employed at licensed premises; and if he will make a statement. [52142]

Hazel Blears: The size of the door supervisor market is currently estimated to be in the region of 46,000. As at 1 March, 50,845 applications have been made to the Security Industry Authority for licences, 40,188 have been granted, 2,578 refused, and the remainder are being processed.

Mr. Don Foster: To ask the Secretary of State for the Home Department what agreements were reached between the Security Industry Authority and the private security industry about the number of applications for door supervisor licences to be submitted to the Security Industry Authority each month; and if he will make a statement. [52143]

Hazel Blears: No agreements were made between the Security Industry Authority and the Private Security Industry about the number of Door Supervisors licences to be submitted each month, as the roll out of the Door Supervisor licensing scheme was conducted through a regional rollout across the country.

Mr. Don Foster: To ask the Secretary of State for the Home Department how many violent offences committed in connection with licensed premises were carried out by *(a)* licensed door supervisors and *(b)* unlicensed door supervisors in each region since 1997; and if he will make a statement. [52157]

Hazel Blears: This information is not held centrally and gathering such information would attract a disproportionate cost.

Under-age Drinking (Swindon)

Mr. Wills: To ask the Secretary of State for the Home Department what percentage of outlets in Swindon were found to be selling alcohol to minors between 12 November and 24 December *(a)* 2004 and *(b)* 2005. [57183]

Paul Goggins: Information on test-purchase operations is not routinely collected by the Home Office. However, in the course of specific campaigns to tackle the misuse of alcohol, the Police Standards Unit collected data on test-purchase operations carried out between:

(a) 17 December 2004 and 03 January 2005, and

(b) 14 November 2005 and 31 December 2005.

No records were found of any test-purchase operations in Swindon for the period 17 December 2004–3 January 2005.

Between 14 November 2005 and 31 December 2005, 10 test-purchase operations were carried out in Swindon, none of which resulted in a sale of alcohol to a minor.

Vandalism

Mr. Evans: To ask the Secretary of State for the Home Department how many instances of vandalism were reported in *(a)* Lancashire and *(b)* Ribble Valley in each year since 1997. [56665]

Hazel Blears: The requested information is given in the following tabled Offences of vandalism are recorded within the criminal damage group classification.

Crime statistics for Ribble Valley are recorded at Crime and Disorder Reduction Partnership (CDRP) level; and for the offence of criminal damage are available from 2000–01 to 2004–05.

Recorded offences of Criminal Damage

	Lancashire	*Lancashire*	*Ribble Valley*
1997	26,767	—	—
1998–99	—	21,360	—
1999–2000	—	22,776	—
2000–01	—	25,445	399
2001–02	—	31,925	609
2002–03	—	30,733	560
2003–04	—	39,447	692
2004–05	—	40,863	718

Notes:
Criminal damage for Ribble Valley only available from 2000–01.
Numbers affected by changes in the counting rules and expanded coverage of recorded crime. Data not comparable with earlier years.
Numbers affected by the introduction of the National Crime Recording Standards which came into effect in 2002–03. Data not comparable with earlier years.

Visa Holders

Mr. Leigh: To ask the Secretary of State for the Home Department what the results were of the tracking exercises to monitor compliance by visa holders. [57930]

Mr. McNulty: The results and feedback from the notifications of non-enrolment and discontinuation of study project run by the Immigration Nationality Directorate (IND) with educational institutions (also known as the Joint Notifications Project) that ran from 1 September 2005 to 17 February 2006 are currently being analysed. IND will be discussing the results of the project later this month with the participants. Initial indications are that the project has been well received by the education sector.

Young Adult Offenders

Dr. Vis: To ask the Secretary of State for the Home Department what progress has been made on developing a strategy for the management of young adult offenders in custody. [56696]

Fiona Mactaggart: The National Offender Management Service has established a Young Adult Offender Project to develop a strategy and standards for

the management of young adult offenders in custody and the community, to take into account their specific needs and offending behaviour. This project will be working with the voluntary and community sector, including stakeholders such as the Howard League, Barrow Cadbury and the Prison Reform Trust, who have a clear understanding of the problems involved with this age group.

The project team will examine the processes for dealing with young adult offenders across the Criminal Justice System. This will include consideration of the abolition of the sentence of Detention in a Young Offender Institution (DYOI) and the implications and impact of this on a young person's vulnerability and needs if they are to be integrated with the adult prisoner population.

This strategy will seek to ensure that appropriate training, resources and interventions for young adults are developed in conjunction with the National Reducing Re-offending Delivery Plan published in November 2005.

To support this initiative, a Project Board has been set up and a scoping study carried out.

TREASURY

Average Earnings (Ribble Valley)

Mr. Evans: To ask the Chancellor of the Exchequer what the average earnings of full-time employees in Ribble Valley constituency were in April in each year since 1997. [58596]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 14 March 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question to ask what the average earnings of full-time employees in Ribble Valley constituency were in April in each year since 1997. (58596)

Average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full time employees on adult rates whose pay for the survey period was not affected by absence. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed and people who do unpaid work.

I attach tables showing Average Gross Weekly Earnings by parliamentary constituency for the years 1997 to 2005 for Full Time Employees on Adult Rates. These statistics are also available on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=13101.

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Gross weekly pay for Full Time Employee jobs[1] by place of work

£

Ribble Valley	*Median*	*Mean*
1997	325.4	332.4
1998	*317.3	337.9
1999	*343.0	370.5
2000	*300.1	X
2001	*372.4	**469.7
2002	*363.4	X
2003	*390.1	X
2004	*358.1	X
2004[2]	*363.0	X
2005	*438.5	**585.3

[1] Employees on adult rates whose pay for the survey pay-period was not affected by absence.

[2] Includes Supplementary survey data.

Guide to quality:

The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value the higher the quality.

The true value is likely to lie within +/- twice the CV e.g. for an average of 200 with a CV of 5%, we would expect the population average to be within the range 180 to 220.

Key:

CV < = 5%

* CV > 5% and < = 10%

** CV > 10% and < = 20%

The median replaces the mean as the headline statistic. The weighted mean is the sum of the weighted values divided by the sum of the weights. The median is the value below which 50 per cent. of employees fall. It is preferred over the mean for earnings data as it is influenced less by extreme values and because of the skewed distribution of earnings data.

Bank Accounts

Rosie Cooper: To ask the Chancellor of the Exchequer how many people in West Lancashire did not have access to a bank account on *(a)* 31 December 2005 and *(b)* 31 December 1997. [58427]

Mr. Ivan Lewis: The most recent data available that allow assessment to be made of the number of households with no access to a bank account are the Family Resources Survey from 2002–03. Those indicate that 8 per cent. of households in the United Kingdom had no bank account of any kind. This equated to 1.9 million households containing around 2.8 million adults. The data are broken down to Government Office regional level. This shows 9 per cent. of households in the North West and Merseyside were unbanked.

In 1997–98, the Family Resources Survey was collected on a Great Britain basis, excluding Northern Ireland. 11 per cent. of households in the North West and Merseyside were unbanked at that time compared to 8 per cent. of households in Great Britain as a whole.

In December 2004, the Government and the banks agreed to work together towards the goal of halving the number of adults in households with no access to a bank account of any kind and of making significant progress within two years. The Financial Inclusion Taskforce has been asked to monitor progress and will report to Government shortly.

Nick Harvey: To ask the Chancellor of the Exchequer whether the Government plan to take steps to promote the use of basic bank accounts. [57784]

Mr. Ivan Lewis: Following the report of Policy Action Team 14: Access to Financial Services in 1999, the banking industry worked with the Government to introduce the basic bank account which is specifically designed to address the needs of the financially excluded.

In December 2004, the Government and the banks agreed to work towards the goal of halving the number of adults in households with no bank account of any kind and of having made significant progress within two years. The Government established a Financial Inclusion Taskforce to monitor progress towards this goal and to report on what more needs to be done.

The taskforce is due to report to Government shortly and Ministers will consider whether further action may be necessary.

Child Benefit (Northern Ireland)

Dr. McCrea: To ask the Chancellor of the Exchequer how many people are in receipt of child benefit in each Northern Ireland parliamentary constituency. [58139]

Dawn Primarolo: The number of families claiming child benefit in each of the 18 Northern Ireland constituencies at August 2004 can be found on the HMRC website:

http://www.hmrc.gov.uk/stats/child_benefit/cb_geog_aug04_aug05.pdf.

Figures for August 2005 will be published on 28 April 2006.

Child Trust Funds

Vera Baird: To ask the Chancellor of the Exchequer what further steps he plans to take to encourage parents to invest their child trust fund vouchers. [57883]

Mr. Ivan Lewis: I refer the hon. Member to the answer I gave on the floor of the House to the hon. Member for Livingston (Mr. Devine) on 2 March 2006, *Official Report*, column 392.

Vera Baird: To ask the Chancellor of the Exchequer what assessment he has made of the merits of introducing tax incentives to encourage poorer parents to invest in trust funds for siblings who are not eligible for child trust fund vouchers. [57884]

Mr. Ivan Lewis: The child trust fund became operational from April 2005. To show we understood the issue of older children the Government backdated the eligibility date to all children born on or after 1 September 2002 to align with school years. It is important to recognise that to realise the success of the child trust fund for future generations we must draw a line somewhere.

There already exists considerable scope for tax-relieved savings for children. All children have their own personal tax allowance and parents are taxed on income generated from contributions to their child's account only when those gifts produce more than £100 gross income per parent per year.

In addition, the market offers a wide range of savings and investment accounts designed especially for children from national savings and investment products to products offered by friendly societies, banks and building societies.

Civil Registration

Mr. Kidney: To ask the Chancellor of the Exchequer if he will bring forward legislation to give effect to the proposals in the Civil Registration White Paper. [57579]

John Healey: In a written statement on 16 November 2005, I confirmed that the Government remained committed to the modernisation of the registration service in England and Wales, and announced the publication of the position and consultation paper 'Registration Modernisation'. This sets out how the Government intend to take forward the modernisation of civil registration and contains details of the changes to be introduced. Those requiring primary legislation will be taken forward as and when opportunities for legislation arise.

A copy of 'Registration Modernisation' has been placed in the House of Commons Library.

Consultants

Jim Cousins: To ask the Chancellor of the Exchequer how much was spent by his Department and its agencies on *(a)* consultancy and *(b)* external secondments in each year since 2000–01. [49762]

John Healey: The available figures are set out in the following table.

£000

	2000–01	2001–02	2002–03	2003–04	2004–05
(a) Consultancy[1]					
HM Treasury	1,667	1,160	[2]3,030	6,160	4,910
Office of Government Commerce	[3]—	[3]—	[3]—	4,218	5,712
OGCbuying.solutions	[4]—	[4]—	[4]—	[4]—	[4]—
Debt Management Office	890	319	560	525	768
HM Revenue and Customs	39,917	76,671	54,907	69,005	[5]105,490
Valuation Office Agency	45	335	825	1,645	1,420
National Savings and Investments	1,427	4,630	2,827	1,617	1,400
Office for National Statistics	4,473	4,286	[6]6,729	11,761	27,118
Government Actuary's Department	97	48	64	15	19
Royal Mint	529	273	388	219	235
(b) External secondments[7]					
HM Treasury	[4]—	[4]—	1,038	1,858	1,110
Office of Government Commerce	[3]—	[3]—	[3]—	1,233	2,945
OGCbuying.solutions	[4]—	[4]—	[4]—	[4]—	[4]—
Debt Management Office	308	281	206	118	12
HM Revenue and Customs	[4]—	[4]—	[4]—	[4]—	[4]—
Valuation Office Agency	[4]—	[4]—	[4]—	176	128
National Savings and Investments	19	12	111	nil	34
Office for National Statistics	[4]—	[4]—	[4]—	[4]—	896
Government Actuary's Department	nil	nil	nil	nil	nil
Royal Mint	nil	nil	52	78	32

[1] Consultancy costs in the table do not include capital spending.
[2] Treasury's spending on consultants includes, since 2002–03, fees to Partnerships UK for their work providing project and policy support to the Treasury and other public bodies on the development, procurement and implementation of public private partnerships.
[3] Information on OGC's own consultancy and secondment spending for years prior to 2003–04 could be disaggregated from costs of services engaged on behalf of other bodies only at disproportionate cost.
[4] Information could be provided only at disproportionate cost.
[5] Figures are the aggregate of the former Inland Revenue and HM Customs and Excise. The increase in costs in 2004–05 is largely related to expenditure on the Lorry Road User Charge programme.
[6] The increase in ONS's consultancy expenditure from 2002–03 is in respect of the major development programmes of work by the department, e.g. Neighbourhood Statistics, Statistical and Technology Modernisation. Most of this expenditure relates to IT systems expertise. Nearly £3 million of the 2004–05 expenditure related to Value Added Tax, which the Department ceased to be able to recover on these services in that year.
[7] Secondments or loans from other Government Departments are excluded.

Departmental Staff

Mr. Llwyd: To ask the Chancellor of the Exchequer how many jobs in his Department have been relocated to Wales since 2001. [57689]

John Healey: Since 1 April 2004, HM Revenue and Customs have relocated 111 full-time equivalent posts to Wales. Details for the years prior to April 2004 are not available.

The Office for National Statistics has relocated 193 full-time equivalent posts to Wales since 2001.

The Royal Mint relocated 12 full-time equivalent posts to Wales in 2002.

None of the posts relocated by the Treasury group or other Chancellor's Departments since 2001 has been to Wales.

Domestic Building Work (VAT)

Mr. Marsden: To ask the Chancellor of the Exchequer (1) what recent discussions he and his officials have had with *(a)* other EU countries and *(b)* heritage, amenities and conservation groups on the proposal for a reduced rate of VAT on domestic building work; [58387]

(2) what estimates he has made of the impact on conservation of a reduction in VAT rates on domestic building work. [58388]

Dawn Primarolo: EU Finance Ministers have discussed reduced rates of VAT many times at ECOFIN meetings, most recently on 24 January 2006. A written statement recorded the outcome of this meeting on 31 January 2006, *Official Report*, column 7WS.

The Government are aware of the views of heritage and conservation bodies and meets with many interest groups on tax issues including VAT. The issue of VAT on domestic building work has been raised with officials as part of an ongoing dialogue.

However the Government have only introduced reduced rates where they are convinced they offer the best-targeted and most efficient support for our key social objectives. We continue to keep this under review.

Any changes are considered by the Chancellor as part of the Budget process and in making these decisions the economic and social impact is taken into account.

Financial Ombudsman Service

Mr. Walker: To ask the Chancellor of the Exchequer what aspects of the Financial Ombudsman Service are covered in the two-year review process under the Financial Services and Market Act 2000 started in November 2003; and when the report of the review will be published. [58528]

Mr. Ivan Lewis: As part of the two-year review of the Financial Services and Market Act 2000, the Financial Secretary to the Treasury asked the Financial Services Authority (FSA) and the Financial Ombudsman Service (FOS) to review:

the circumstances in which FSA takes regulatory action instead of individual cases being determined by FOS; and

whether, in specific circumstances, FOS decision should be subject to appeal.

The Financial Secretary to the Treasury announced the outcome of the Government's review of FSMA on 2 December 2004.

The responses to the joint FSA and FOS consultation paper and arrangements for dealing with wider implications cases were published in the joint Consultation Paper 05/4, March 2005.

Mr. Walker: To ask the Chancellor of the Exchequer how many complaints have been received by the Financial Ombudsman Service in each of the past three years; and if he will make a statement. [58530]

Mr. Ivan Lewis: The following table outlines the number of complaints received by the Financial Ombudsman Service in each of the past three years.

Year ending 31 March	*Number of new cases received*
2004	97,901
2005	110,963
2006	[1]115,000

[1] Forecast.

Mr. Walker: To ask the Chancellor of the Exchequer what steps the Financial Ombudsman Service is taking to accelerate its decision-making processes; and if he will make a statement. [58568]

Mr. Ivan Lewis: The Financial Ombudsman Service (FOS) is operationally independent of Government. The steps taken by the Financial Ombudsman Service to deal with the demands it faces are detailed in its Corporate Plan and budget 2006–07 published in January 2006.

Mr. Walker: To ask the Chancellor of the Exchequer what measures are in place to ensure the independence of the Financial Ombudsman Service from its private financial sector funders; and if he will make a statement. [58572]

Mr. Ivan Lewis: The Financial Ombudsman Service has a board of non-executive, public interest directors who are appointed by the Financial Services Authority under the Financial Services and Markets Act 2000. The chairman of the board is appointed by the Financial Services Authority with the approval of HM Treasury.

The board's role is to take a strategic overview of the service and to ensure it is properly resourced and able to carry out its functions effectively, impartially and independently.

The board in turn appoints independent ombudsmen and internal procedures ensure that individual ombudsmen are not subject to conflicts of interest.

The backgrounds of board members and of senior staff are published on the Financial Ombudsman Service website.

Mr. Walker: To ask the Chancellor of the Exchequer what procedures are in place to handle complaints about the performance of the Financial Ombudsman Service; and if he will make a statement. [58573]

Mr. Ivan Lewis: Where users of the Financial Ombudsman Service (FOS) are dissatisfied the matter is initially passed to the internal service review team for investigation. Where users remain dissatisfied the case is passed to the Independent Assessor whose role is to carry out a final review of the service provided by the FOS.

The Independent Assessor is authorised to make findings and recommendations for redress relating to the service standards of the FOS in cases where he believes it is justified. The Independent Assessor submits his annual report to the Board of the FOS. This report is published in full each year in the Annual Review of the FOS.

The Annual Review of the FOS includes operational as well as financial information. An independent assessment of the processes and outputs of the FOS was carried out in 2004 and a further such review is planned for 2007.

Mr. Walker: To ask the Chancellor of the Exchequer what the mechanism is for lodging an appeal against a decision made by the Financial Ombudsman Service. [58574]

Mr. Ivan Lewis: An initial assessment of a complaint is made by an adjudicator. If this assessment is disputed, either the complainant or the authorised person can ask an Ombudsman to review the decision. An Ombudsman's final decision is the end of the process and there is no scope for appeal on the merits of the case within the procedures of the Financial Ombudsman Service.

Complainants are able to pursue their complaints through the courts and both complainants and authorized persons may apply to the court for a judicial review of an Ombudsman's decision.

The Independent Assessor—appointed by and reporting to the board of the Financial Ombudsman Service—considers complaints about service standards.

Mr. Walker: To ask the Chancellor of the Exchequer what assessment he has made of whether staffing levels at the Financial Ombudsman Service are adequate to meet demand; and if he will make a statement. [58575]

Mr. Ivan Lewis: Staffing levels are the responsibility of the Board and management of the Financial Ombudsman Service (FOS).

The Financial Services Authority (FSA) approves the budget of the FOS and has a duty to ensure that the FOS is at all times capable of exercising its functions.

The FOS and the FSA are operationally independent of Government.

GDP

Mr. Crabb: To ask the Chancellor of the Exchequer what gross domestic product per capita was in *(a)* the UK, *(b)* England, *(c)* Wales, *(d)* Scotland and *(e)* Northern Ireland in (i) 1979, (ii) 1997 and (iii) 2005. [58464]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 14 March 2006:

The National Statistician has been asked to reply to your recent Parliamentary Question about Gross Domestic Product (GDP) per capita in UK, England, Wales, Scotland and Northern Ireland for the years 1979, 1997 and 2005. I am replying in her absence. (58464).

Estimates of GDP per capita for 1979 are shown in Table A attached. For 1997 and 2004, estimates of Gross Value Added (GVA) per capita are shown in table B. GVA is similar in concept to GDP but the estimates are not directly comparable.

The figures in table A are based on data published in 1998 whilst those in table B are based on regional GVA published in December 2005. Estimates for 2005 are expected to be published in December of this year.

Table A: Gross Domestic Product per capita (£) 1979

Area	*1979*
United Kingdom	3,525
England	3,019
Wales	2,517
Scotland	2,802
Northern Ireland	2,334

Table B: Gross Value Added per capita (£) 1997, 2004

Area	*1997*	*2004*
United Kingdom	12,347	17,258
England	12,324	17,188
Wales	9,822	13,292
Scotland	11,952	16,157
Northern Ireland	9,743	13,482

Notes:

1. Gross Value Added (GVA) is Gross Domestic Product (GDP) less taxes (plus subsidies) on products. Current price data are not adjusted for changes in prices over time.
2. Gross Domestic Product per head for 1979 is based on data from National Accounts Blue Book 1997. As the regional estimates of GDP and GVA are produced on a different basis, they cannot be used in conjunction to form a time series.

Gershon Review

Mrs. Villiers: To ask the Chancellor of the Exchequer how much the Office of Government Commerce spent on consultants in relation to the conduct of the Gershon Review of public sector efficiency. [58526]

Mr. Des Browne: The Efficiency Review Team, led by Sir Peter Gershon was based in the Cabinet Office from August 2003 to July 2004.

OGC had no involvement with the running or resources of this team and therefore did not incur any costs.

HM Revenue and Customs

Mr. Dunne: To ask the Chancellor of the Exchequer whether HM Revenue and Customs is entitled to refuse to give a receipt when requested to do so by a taxpayer submitting a tax return. [58409]

Dawn Primarolo: There is no statutory requirement for HM Revenue and Customs to issue receipts and it is not their policy to issue receipts for tax returns handed into their offices.

Mr. Dunne: To ask the Chancellor of the Exchequer whether HM Revenue and Customs is entitled to refuse receipt of a tax return when submitted by an agent acting on behalf of a client. [58410]

Dawn Primarolo: HM Revenue and Customs would not refuse to receive a tax return submitted by an agent acting on behalf of a client, providing the return was satisfactory (i.e. it has been signed by the taxpayer and all the required supplementary pages are attached).

Income Tax

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer how many higher rate income tax payers there were in Northern Ireland in *(a)* 1994 and *(b)* 2004. [58061]

Dawn Primarolo: There were an estimated 34,000 and 50,000 higher rate taxpayers in 1995–96 and 2004–05 respectively in Northern Ireland.

Similar estimates for 1994–95 can be made available only at a disproportionate cost.

The information is based upon the Survey of Personal Incomes.

Considerable caution is needed in interpreting the figures for the two years owing to changes in survey methodology, changes in the sample size over the period and because each figure is subject to sampling variation.

Inheritance Tax

Mr. Boswell: To ask the Chancellor of the Exchequer how much potential income from inheritance tax has been foregone on account of bequests to charities in each of the last five years. [58178]

Dawn Primarolo: The cost of relief from inheritance tax on bequests to charities is published in National Statistics Table 10.2. http://www.hmrc.gov.uk/stats/charities/10_2_dec05.pdf .

Lisbon Agenda

Mr. Brady: To ask the Chancellor of the Exchequer which Government Department has oversight of initiatives undertaken at national level as part of the Lisbon Agenda. [58534]

John Healey: The Government as a whole takes collective ownership of the Lisbon agenda and individual departments work closely when deciding the initiatives set out in the UK National Reform Programme. HM Treasury agrees and submits the UK's national reform plan.

Part-time Work

Vera Baird: To ask the Chancellor of the Exchequer if he will provide fiscal incentives for businesses to encourage them to make well-paid jobs available for part-time workers. [57885]

Dawn Primarolo: The Government have introduced a range of measures to promote flexible working. Parents of children under six already have the right to request flexible working, and this will be extended to carers from April 2007.

The Government believe that flexible working, including providing quality part-time jobs, brings returns to business because it opens up a wider pool of skilled labour. It is considering the range of innovative proposals in the Women and Work Commission's report, "Shaping a Fairer Future", but at present has no plans to provide fiscal incentives.

PAYE

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer (1) what the cost of administration for PAYE has been in each of the last five years; [55284]

(2) what the cost of collecting overdue PAYE contributions has been in each of the last three years; and what the mechanism is for doing so. [55290]

Dawn Primarolo: The collection of overdue PAYE contributions is not done in isolation but forms part of the wider cost of administering the PAYE and Self Assessment systems. The former Inland Revenue's estimated gross expenditure on these PAYE and SA systems in each of the last three financial years was around:

	£ billion
2004–05	1.7
2003–04	1.6
2002–03	1.6

The Income Tax (Pay As You Earn) Regulations 2003 provide the detailed rules which govern the operation of the PAYE system. Regulation 21 requires an employer to make deductions from employees' wages and Regulation 69 requires the employer to pay over the amounts deducted to HMRC within 14 days of the end of the relevant income tax month (or 17 days if the payment is made by an approved electronic method). The circumstances of individual cases may vary, but where an employer has failed to make payment HMRC may contact the employer by letter and on the telephone to request payment. HMRC will try to help businesses facing temporary financial difficulties and may agree to give them extra time to pay in certain circumstances. In the continued absence of payment HMRC will take formal enforcement proceedings via the Courts or via distraint action.

Pensions

Mrs. Villiers: To ask the Chancellor of the Exchequer pursuant to the answer of 11 November 2005, *Official Report*, column 775W, to the hon. Member for Wimbledon (Stephen Hammond), on pensions, what allowances were made for future improvements in mortality in estimating the total liability for unfunded public sector pension schemes. [54518]

Mr. Ivan Lewis: I refer the hon. Member to the answer given on 24 January 2005, *Official Report*, column 2047W.

Single-parent Households (Wales)

Mr. Crabb: To ask the Chancellor of the Exchequer how many children in Wales were living in single-parent households in *(a)* 1979, *(b)* 1997 and *(c)* 2005. [58461]

John Healey: The information requested falls within the responsibility of the national statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 14 March 2006:

As National Statistician I have been asked to reply to your request for the number of children living in single-parent households in Wales in 1979, 1997 and 2005. (58461)

The number of children in single parent households is not routinely published but the table below provides estimated numbers and proportions of the number of dependent children in lone-parent families in Wales. Estimates for 1997 and 2005 have been provided from the Labour Force Survey (LFS), the sample survey normally used for this purpose. For 1979 such estimates are not readily available, because that was the year the LFS began in its current form, an estimate from the 1981 Census data for Wales has been provided as the closest figures available. The data is in the table below.

Dependent children[1] in lone-parent families[2], Wales

	1981	*1997*	*2005*
Number of dependent children in lone-parent families (Thousand)	[3]73.4	144.1	143.1
Proportion of dependent children in lone-parent families (Percentage)	11.1	22.1	22.6
Base: Number of dependent children in all families (Thousand)	659.3	652.2	633.4

[1] Dependent children are defined as children under 16 years of age, or those aged 16 to 18 who are never married and in full-time education.

[2] A family is defined as a married or cohabiting couple with or without child(ren), or a lone-parent with child(ren).

[3] The number shown is the number of dependent children living in families in households containing one family. The numbers do not include dependent children living in lone-parent families in households containing two or more families, so will be a slight under-estimation.

Source:
(1981) 1981 Census 10 per cent. sample data, (1997 and 2005) Labour Force Survey (LFS), Office for National Statistics. Note that 1997 is an average of LFS spring and autumn quarters, 2005 is from LFS spring quarter only.

Small Businesses

Mr. Andrew Smith: To ask the Chancellor of the Exchequer what steps the Office of Government Commerce has taken to promote public procurement from small businesses. [58319]

John Healey: Policy responsibility for supporting the success of small firms sits with the Department of Trade and Industry. OGC provides support where public procurement is being used as a lever to achieve this objective.

OGC led a successful pilot project between June 2003 and June 2004 concerned with lowering the barriers facing small and medium sized enterprises (SMEs) wanting to access the Government market. Over 500 SMEs and 17 partner organizations from central and local government were engaged in the project.

OGC has developed a standard, simplified pre-qualification document specifically for use in small procurements. It has also delivered training for procurers across the country, focusing on the benefits of incorporating SMEs effectively into a diverse supplier base. To date over 800 procurers have been trained.

OGC has developed guidance on supply chain management and is working with key suppliers and procurers to ensure that opportunities for SMEs are visible and accessible. It has also worked with the Small Business Service to procure a web-based national opportunities portal on which wider public sector procurers can advertise opportunities. The portal is due to go live in spring 2006. Buyers will be able to publicise their lower-value contracts free of charge, and suppliers will have access to a directory of local and lower-value contract notices (also free of charge in their local area), and be able to advertise their services directly to public sector buyers.

OGC and the Small Business Service have produced 'Smaller Supplier Better Value' to outline the benefits of dealing with small firms, some of the challenges they face, and what public sector procurement staff can do to help.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many calls were categorised as *(a)* received, *(b)* handled by and *(c)* engaged or busy for the tax credits helpline in (i) August and (ii) September; and if he will make a statement; [20440]

(2) how many telephone calls *(a)* were received, *(b)* were handled and *(c)* received an engaged tone on the tax credits helpline in (i) August and (ii) September; and if he will make a statement. [24542]

Dawn Primarolo: The tax credits helpline is open 8 am to 8 pm 362 days a year.

The following table below gives a month by month breakdown since January 2005:

Thousand

	Received[1]	*Handled*[2]	*Engaged and busy*[3]
2005			
January	1,694	1,627	199
February	1,529	1,471	256
March	1,554	1,504	103
April	1,962	1,842	652
May	2,051	1,940	350
June	2,164	2,043	327
July	1,989	1,896	301
August	2,474	2,290	618
September	2,921	2,649	1,315
October	1,668	1,601	181
November	1,588	1,523	130
December	1,306	1,271	65
2006			
January	1,825	1,771	180

[1] Where the caller selected an option from the call steering menu and was put in a queue to speak to an adviser.
[2] Where the caller spoke to an adviser.
[3] Call attempts where the caller was played an engaged tone or busy message, before they were placed in a queue to speak to an adviser

Mr. Hoban: To ask the Chancellor of the Exchequer what data is transferred between the tax credits systems and the PAYE system; and what controls there are over the transfer of data between systems to ensure that the accuracy of data held on both systems is maintained. [50601]

Dawn Primarolo: Data are not directly transferred between the tax credits system and the PAYE system. Claimant designatory information such as name and address and information about employments is stored on discrete databases which those systems can access and update in accordance with specific sets of rules.

Mr. Carmichael: To ask the Chancellor of the Exchequer what management information can be extracted from the tax credit system about *(a)* the number of bank accounts used for the receipt of tax credit payments and *(b)* the country in which the bank account is based. [51456]

Dawn Primarolo: The vast majority of claimants have their tax credits paid directly into a bank account, but a precise figure could be provided only at disproportionate cost.

HMRC only makes tax credit payments into valid UK bank accounts.

Lorely Burt: To ask the Chancellor of the Exchequer what progress has been made towards reopening the tax credits e-portal; and if he will make a statement. [54866]

Dawn Primarolo: I refer the hon. Lady to my answer of 31 January 2006, *Official Report*, column 411W, to the hon. Member for Bury St. Edmunds (Mr. Ruffley).

Mr. Kenneth Clarke: To ask the Chancellor of the Exchequer what proportion of households with at least one member in paid employment qualify for a tax credit; and what the equivalent figures were in each of the last three years. [57284]

Dawn Primarolo: Based on work carried out on take-up of child tax credit and working tax credit for 2003–04, and the Family Resources Survey, which provides information on a sample of families (both with and without children) in the UK, approximately 37 per cent. of families in the UK with at least one person working more than 16 hours a week were entitled to tax credits in 2003–04. Estimates for previous years are not available.

Tax credit take-up rates for 2003–04 are published in "Child Tax Credit and Working Tax Credit Take-up Rates: 2003–04". This publication is available at: http://www.hmrc.gov.uk/stats/personal-tax-credits/takeup_rates_2003-04_mar06.pdf.

For working tax credits HMRC defines "in work" as working more than 30 hours a week, or more than 16 hours a week for families with children or where at least one of the adults working more than 16 hours a week is disabled.

Families with dependent children are not required to be in work in order to meet eligibility criteria of child tax credit.

John Hemming: To ask the Chancellor of the Exchequer in each financial year since its inception how many people the tax credits computer system has recorded as deceased who were still living. [58317]

Dawn Primarolo: This information is not available.

Stewart Hosie: To ask the Chancellor of the Exchequer how much was spent on each element of the *(a)* working tax credit and *(b)* child tax credit in each (i) country and (ii) region in each of the last five years. [58333]

Dawn Primarolo: The information requested is not available.

Mr. Laws: To ask the Chancellor of the Exchequer how many claims for tax credits were received over the internet in each month from April 2003 to December 2005; and if he will make a statement. [45680]

Dawn Primarolo: Figures for the number of claims made through the tax credits e-portal is shown in the following table.

Thousand

	2003	*2004*	*2005*
January	—	30	44
February	—	32	38
March	—	30	38
April	48	30	47
May	110	47	48
June	81	41	47
July	82	40	39
August	25	40	55
September	29	66	68
October	29	59	71
November	31	54	105
December	18	51	7

Taxes (Migrants)

Michael Gove: To ask the Chancellor of the Exchequer if he will estimate how long on average a migrant into the UK has to be resident before they pay back in taxes the amount they have received in welfare. [57358]

Dawn Primarolo: I refer the hon. Gentleman to the answer given by my hon. Friend the Minister of State for Immigration and Ctizenship to the hon. Member for Buckingham (Mr. Bercow), on 24 October 2005, *Official Report*, column 42W.

Migrants are not a homogeneous group and come to the UK for different purposes. Different groups of migrants have different entitlements to benefits and many migrants (e.g. those on work-based schemes) are net fiscal contributors from the outset of their time in the UK.

VAT (Housing)

Lynne Jones: To ask the Chancellor of the Exchequer if he will make it his policy to reduce the rate of VAT for *(a)* supply, *(b)* construction, *(c)* renovation and *(d)* alteration of housing to meet the needs of disabled people beyond the adaptation of bathroom or washroom and alteration to facilitate entry into and movement within a building. [58208]

Dawn Primarolo: There is provision under EU agreements for certain construction work to be VAT reduced rated. However, to date we have only introduced reduced rates of VAT where we are convinced they offer the best-targeted and most efficient support for our key social objectives, taking into account all costs and benefits.

All taxes are however kept under review and any changes are made as part of the Budget process.

Mr. Hancock: To ask the Chancellor of the Exchequer if he will take steps to harmonise the rate of VAT for new build and refurbished properties. [57668]

Dawn Primarolo: While agreements with our European partners allow us to keep our zero rates as they currently stand, we cannot extend them or introduce new ones. This means that in order to harmonise the rates of VAT on all building work and renovation, we would first have to give up our current zero rates for construction, including those for the construction of new charity buildings and new housing, and for approved alterations to listed buildings. While we continue to keep the impact of VAT on different types of building work under review, we have no plans to give up our existing construction zero rates.

DEPUTY PRIME MINISTER

Asylum Seekers

Philip Davies: To ask the Deputy Prime Minister how many occupants of social housing are *(a)* asylum seekers and *(b)* failed asylum seekers. [55187]

Mr. McNulty: I have been asked to reply.

Asylum seekers and failed asylum seekers are not now generally eligible for social housing provided directly by local authorities. Where accommodation is provided by local authorities it is not known whether this is local authority housing or is leased from the private rented sector.

Approximately 600 remaining asylum seeker and failed asylum seeker households, under the interim provisions, are accommodated by local authorities on behalf of NASS. Of these cases those who remain eligible will transfer to NASS provided accommodation by the end of May or soon thereafter. A small number of longstanding cases may also remain accommodated by local authorities under statutory homelessness legislation. Local authorities have certain statutory duties to assist asylum seekers under the NHS and Community Care Act 1990 and other personal social services legislation. The Home Office does not gather or maintain statistics on these cases.

Demographics in the Local Government Pensions Schemes

Mrs. Hodgson: To ask the Deputy Prime Minister which local government pensions schemes (LGPs) were used as the basis for the Hymans Robertson study in the report Demographics in the LGPS published in September 2005. [57153]

Mr. Woolas: The following local government pension funds were used as the basis for the Hymans Robertson LLP report of September 2005, "Local Government Pension Scheme in England and Wales—Review of Demographic Patterns":

LB of Barnet
Bedfordshire
Berkshire
LB of Barking and Dagenham
Cambridgeshire
LB of Camden
Cheshire
Teesside
Cornwall
LB of Enfield
Environment Agency
East Riding of Yorkshire
Gloucestershire
Greater Manchester
Gwynedd
LB of Hackney
LB of Harrow
Hertfordshire
LB of Hillingdon
LB of Haringey
Isle of Wight
RB of Kensington and Chelsea
Kent
LB Richmond
LB Lambeth
Leicestershire
Lincolnshire
London Pensions Fund Authority
LB of Lewisham
LB of Newham
Norfolk
LB of Redbridge
Staffordshire
Suffolk
Surrey
LB ofSutton
LB of Tower Hamlets
LB Wandsworth
Wiltshire
West Sussex

Departmental Assets

Mr. Pickles: To ask the Deputy Prime Minister pursuant to the answer of 13 February 2006 to the hon. Member for Monmouth, *Official Report*, column 1616W, on departmental assets, to which sections within his Department each of the five stolen official laptops belonged; whether each was stolen on departmental premises; and whether official data on each of the laptops was encrypted. [54523]

Jim Fitzpatrick: The sections within the Office of the Deputy Prime Minister from whom each of the five laptops were stolen are as follows:

Local Government Finance—two laptops (April 2005)
Internal Audit Service—two Laptops (January 2005)
Housing Directorate—one laptop (August 2005)

The two laptops stolen from Local Government Finance were stolen from departmental premises. The other three were stolen from officials' homes.

The official data on each of the laptops were not encrypted, because none of the information was classified. However, each laptop was password protected.

Departmental Staff

Mike Penning: To ask the Deputy Prime Minister whether any *(a)* employee of his Department, *(b)* person engaged by his Department as a consultant and *(c)* paid adviser to his Department is a member of the House of Lords; and if he will make a statement. [52897]

Jim Fitzpatrick: The information requested is not held centrally and could only be provided at disproportionate cost.

Directly Elected Cabinets

Mr. Pickles: To ask the Deputy Prime Minister what research the Government have commissioned into directly elected cabinets. [56183]

Mr. Woolas: None.

Eurozone

Mrs. Villiers: To ask the Deputy Prime Minister what work *(a)* was undertaken by his Department between May 1997 and June 2003 and *(b)* has been undertaken since June 2003 in preparation for UK membership of the Eurozone; at what cost in each case; what future work is envisaged; and at what estimated cost. [57848]

Mr. Woolas: Since the Office of the Deputy Prime Minister was established on 29 May 2002, there has been one report undertaken on the preparation of the Office for the Euro. The cost of this report was £31,000. There are no plans for further work to be undertaken.

Fires

John McDonnell: To ask the Deputy Prime Minister what steps the Government is taking to reduce the number of accidental dwelling fires started by cigarette lighters by children under the age of nine years. [58340]

Jim Fitzpatrick: Children and young people are particularly vulnerable to death and injury by fire and also cause fire accidentally. In our view the most important task is to educate the family, particularly the very young, about the potential dangers of playing with fire.

We therefore produce fire safety material for use by fire and rescue services aimed specifically at educating both adults and children and young people. For adults, we convey the message, in written publicity material and in a range of television advertisements, of the need to keep lighters out of the reach of children. For children and young people, we produce storybooks and animated DVDs, targeted at 4–8 year olds which teach them of the dangers of playing with matches and lighters. The Office of the Deputy Prime Minister's "Firekills" website also provides key information for older children on a range of fire safety messages.

We have also made available £11.4 million grant funding for fire and rescue authorities in England over the two year period to March 2008 to support fire prevention work, including community fire safety, arson reduction and work with children and young people.

Inspection Regimes

Mr. Soames: To ask the Deputy Prime Minister what the cost to West Sussex County Council was of inspection regimes instigated by his Department in each of the last five years. [58163]

Mr. Woolas: The Office of the Deputy Prime Minister is responsible for the sponsorship of the Audit Commission, which undertakes inspection of local services. There are no agreed or reliable figures to calculate the indirect costs of inspection to local government.

The ODPM is, however, committed to ensuring that inspection is co-ordinated and proportionate and responsive to the improvement priorities of each council. The ODPM is working across Government to significantly change the inspection landscape and significantly reduce the cost and amount of inspection carried out.

Lancashire Fire Authority

Mr. Evans: To ask the Deputy Prime Minister how many *(a)* full-time and *(b)* retained fire-fighters have been (i) employed and (ii) taken early retirement in Lancashire Fire Authority in each year since 1996–97. [58595]

Jim Fitzpatrick: The number of firelighters in Lancashire Fire and Rescue Service that have (i) been employed in each year since 1996–97 and (ii) taken ill-health retirement since 1998–99 is presented in the table; information on ill-health retirement for individual fire and rescue services prior to 1998–99 is not held centrally.

Lancashire Fire and Rescue Service

	Number employed[1]		Number of ill health retirements	
	Wholetime	Retained duty system	Wholetime	Retained duty system
1996–97	971	390	[2]—	[2]—
1997–98	979	395	[2]—	[2]—
1998–99	1,007	402	12	4
1999–00	1,008	398	17	0
2000–01	1,010	371	9	2
2001–02	1,002	357	14	2
2002–03	1,008	369	9	2
2003–04	990	384	5	0
2004–05[3]	957	402	2	0

[1] The figures provided refer to the workforce at 31 March each year..
[2] Information not held centrally
[3] Figures are provisional
Source:
ODPM annual returns

Local Government Pension Scheme

Mrs. Hodgson: To ask the Deputy Prime Minister if he will list the organisations and individuals who responded to the consultation on the draft regulations concerning the local government pension scheme; and if he will make a statement. [57181]

Mr. Woolas: The statutory consultation exercise on the draft Local Government Pension Scheme (Amendment) (No.3) Regulations 2005 ended on 28 February. Approximately 700 responses have been received. These are being carefully considered before any decisions are taken on the scope of the final regulations. A summary of the responses received will be made available on the Office Deputy Prime Minister's LGPS website at: www.xoq83.dial.pipex.com in due course.

National Land and Property Gazetteer

Mr. Pickles: To ask the Deputy Prime Minister (1) what information the National Land and Property Gazetteer holds on domestic properties; [54535]

(2) how the National Land and Property Gazetteer *(a)* was compiled and *(b)* is updated. [54536]

Yvette Cooper: The Office of the Deputy Prime Minister supports the effective use of address based information, however, as the National Land and Property Gazetteer (NLPG) is an Improvement and Development Agency (IDeA) product, it is not for ODPM to comment on its content or specification.

Planning

Mr. Evennett: To ask the Deputy Prime Minister what recent representations he has received on planning applications for telecommunications equipment. [57528]

Jim Fitzpatrick: The Office of the Deputy Prime Minister receives many representations on matters relating to the telecommunications industry. The information about such representations is not readily available in the breakdown requested and could only be provided at disproportionate cost.

School Playing Fields

Anne Main: To ask the Deputy Prime Minister how many school playing fields are owned by his Department. [57466]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not own any school playing fields.

DEFENCE

Accommodation

Mr. Moore: To ask the Secretary of State for Defence what proportion of *(a)* single living and *(b)* family accommodation in (i) the UK and (ii) overseas is at (A) standard 1, (B) standard 2, (C) standard 3 and (D) standard 4 for condition. [58310]

Mr. Touhig: This information is not held centrally but is being compiled from a number of sources. I will write to the hon. Member as soon as the material is available, and a copy of my letter will be placed in the Library of the House.

Afghanistan

Mr. MacDougall: To ask the Secretary of State for Defence how many members of the British armed forces have been *(a)* injured and *(b)* killed in Afghanistan since the start of the conflict. [58334]

Mr. Ingram: Two members of the United Kingdom armed forces have been killed by hostile action in Afghanistan since the start of the conflict. I refer my hon. Friend to the previous answer given by my right hon. Friend the Secretary of State for Defence of 1 February 2006, *Official Report*, column 506W, and my answer of 27 February 2006, *Official Report*, column 20W, with respect to the number of UK forces who have been injured in Afghanistan during that time.

Argentina

Dr. Fox: To ask the Secretary of State for Defence what discussions he has had with his Argentine counterpart regarding that country's recent naval and air incursions into British airspace and territorial waters. [57480]

John Reid: There have been no recent Argentine naval or air incursions into British airspace or territorial waters.

Boards of Inquiry

Mr. MacNeil: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Banff and Buchan (Mr. Salmond) of 1 February 2006, *Official Report*, column 506W, on boards of inquiry, whether there are circumstances in which families are allowed to bring legal representatives to a board of inquiry. [58293]

Mr. Touhig *[holding answer 13 March 2006]:* The purpose of a board of inquiry is to investigate a matter and to report. Its role is different from that of an inquest into a fatality and legal representation is not normally appropriate. However, in exceptional circumstances, legal representation is allowed at a board of inquiry—for example, where a family member is invited to attend as a witness.

Budget

Paul Flynn: To ask the Secretary of State for Defence what proportion of the defence budget has been allocated to the *(a)* Army, *(b)* Royal Air Force and *(c)* Royal Navy in each of the last seven years. [57981]

Mr. Ingram: The defence budget is not broken down by individual service, but by Top Level Budget (TLB) holders. These broadly equate to: Commander-in-Chief, Fleet and Second Sea Lord/Commander-in-Chief, Naval Home Command in the Royal Navy; Commander-in-Chief, Land Command, Adjutant-General (Personnel and Training Command) and General Officer Commanding (Northern Ireland) in the Army; Commander-in-Chief, Strike Command and Commander-in-Chief, Personnel and Training Command in the Royal Air Force. Full details of the defence budget, and its division between all TLB holders can be found in the Main and Supplementary Estimates and the Annual Report and Accounts since 2002–03 and the Defence Resource Accounts since 1999–2000, for each year, which are in the Library of the House.

Correspondence

Mr. Moore: To ask the Secretary of State for Defence pursuant to the letter from the right hon. Member the Minister of State for Defence (Mr. Ingram) to the right hon. and learned Member for North-East Fife (Sir Menzies Campbell) of 2 March 2006, whether each of the planes listed *(a)* was a US state aircraft for the purposes of the Chicago Convention on Civil Aviation 1944 and *(b)* had requested and obtained permission to land from UK authorities. [58468]

Mr. Ingram: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Counter-insurgency

Dr. Julian Lewis: To ask the Secretary of State for Defence by what means lessons learned in counter-insurgency techniques during past deployments in *(a)* Iraq and *(b)* Afghanistan are being collated and disseminated for use in future deployments. [57269]

Mr. Ingram *[holding answer 13 March 2006]:* Ministry of Defence has a comprehensive mechanism for capturing strategic and operational lessons that has already identified counter-insurgency lessons from operations in Afghanistan and Iraq. Lessons are identified by the chain of command and during formal theatre visits conducted by the Directorate of Operational Capability. This process includes interviews with key Commanders and staffs, the units involved, engagement with Coalition partners and analysis of publicly available information. Lessons identified are then collated into reports, which are considered by Chiefs of Staff before remedial action is taken as appropriate. These lesson reports are retained and used extensively to inform the planning and conduct of future operations.

Death Squads (Basra)

Adam Price: To ask the Secretary of State for Defence what estimate he has made of the number of assassinations conducted by death squads in Basra since the beginning of 2006. [57261]

Mr. Ingram *[holding answer 9 March 2006]:* In recording crime, the Iraqi police service do not attribute killings to "Death Squads", though as part of their investigations, they are likely to make an assessment of the likely motive for the crime.

Defence Export Services

Harry Cohen: To ask the Secretary of State for Defence pursuant to the answer of 13 February 2006, *Official Report*, column 1579W, on Defence Export Services, when he expects to begin the process of finding a successor to Alan Garwood as head of Defence Export Services. [57995]

Mr. Ingram: I refer the hon. Member to my hon. Friend the Parliamentary Under-Secretary of State's written answer of 13 February 2006, *Official Report*, column 1578W. In line with normal practice for the external recruitment of a senior official, we expect to start the process between six and nine months ahead of the date when we need the position to be filled.

Defence Science and Technology Laboratory

Mr. Gray: To ask the Secretary of State for Defence what plans he has for the relocation of the Defence Science and Technology Laboratory. [57388]

Mr. Ingram *[holding answer 10 March 2006]:* The Defence Science and Technology Laboratory (Dstl) is currently consolidating its activities onto three core sites in accordance with the published site rationalisation plan. Over the next few years this will involve the movement of 1,300 individuals from Farnborough, Malvern, Alverstoke, Winfrith and Portsdown West to Porton Down, Portsdown West and Fort Halstead.

In August 2005 Dstl announced the appointment of Serco as the preferred bidder to partner Dstl through this major relocation programme. This contract is expected to be signed shortly.

Iraq

Dr. Julian Lewis: To ask the Secretary of State for Defence whether it remains his policy that no timetable for the withdrawal of British forces from Iraq should be indicated in advance of the completion of their mission. [57406]

John Reid: UK force levels in Iraq will be determined by conditions on the ground and not by any timetable. The conditions for handover of security responsibilities centre on four areas: threat level; the capability of the Iraqi security forces; governance capability; and the ability of the coalition to provide necessary support to the Iraqi security forces.

Job Relocation (Wales)

Mr. Llwyd: To ask the Secretary of State for Defence how many jobs in his Department have been relocated to Wales since 2001. [57673]

Mr. Ingram: Details of the number of departmental civil service jobs relocated to Wales are not available, as this information is not held centrally by the Ministry of Defence, and obtaining the data would incur disproportionate costs.

Lancastria Bombing (1940)

Mr. Jack: To ask the Secretary of State for Defence (1) whether his Department has considered designation of the resting place of the vessel Lancastria sunk on 17 June 1940 as a maritime war grave; and if he will make a statement; [52375]

(2) what plans his Department has to use the Protection of Military Remains Act 1986 to lay a statutory instrument before the House confirming the merchant vessel Lancastria as a maritime war grave. [52376]

Mr. Touhig: The legal mechanism for such designations is the United Kingdom's Protection of Military Remains Act (PMRA) 1986. The Act has been used in previous cases where candidate wrecks lay in United Kingdom or international waters and consideration has indeed been given to its use in the case of the Lancastria. However, as the ship's remains lie in French territorial waters, use of PMRA 1986 is not a realistic option. We are therefore consulting the French authorities about the wreck to determine how best to take matters forward.

Land Rents

Paul Flynn: To ask the Secretary of State for Defence how much income was derived per hectare from the rent of military land on Salisbury Plain in each of the past three years; and what assessment he has made of the rents payable for similar land in the private sector in the Salisbury area. [58327]

Mr. Touhig: Average figures for the income per hectare derived from the rent of military land on Salisbury Plain for the previous three years are given in the table. The actual rents range from £1 per hectare for certain areas of winter grazing, to £210 for smaller areas of much higher quality arable land. Rents for farm buildings, farmhouse and farm cottages are also included.

	Per hectare (£)
2003–04	42.04
2004–05	42.44
2005–06	39.67

The rents negotiated with tenants of Salisbury Plain take into account the particular circumstances of each holding, and reflect what the market will bear on a case by case basis. Thus no assessment of rents payable for similar land in the private sector in the Salisbury area is required.

Overseas Duty

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* regular and *(b)* reserve medical personnel are deployed on overseas duty. [57485]

Mr. Touhig: The following table shows the number of UK regular and reserve medical personnel deployed overseas on operational and non-operational duty:

	Regular		Reserve	
Service	*Operational*	*Non-operational*	*Operational*	*Non-operational*
Royal Navy	290	57	0	0
Army	460	710	30	13
RAF	64	86	0	0

Note:
Figures above 100 have been rounded to the nearest 10.
Source:
DMSD.

Private Offices

Sarah Teather: To ask the Secretary of State for Defence what the cost of his private office was in the last year for which figures are available. [55721]

John Reid: The total cost to the Defence Budget in the Financial Year 2004–05 for my Private Office was approximately £1.1 million.

QinetiQ

Mr. Wallace: To ask the Secretary of State for Defence how many contracts were given to QinetiQ by his Department *(a)* with and *(b)* without competitive tendering in (i) 2002–03, (ii) 2003–04 and (iii) 2004–05; and what the value of the contract was in each case. [42536]

John Reid: The information held by the Department on contracts awarded to QinetiQ does not provide the information necessary to answer this question. The additional information required could only be collected at disproportionate cost. We can identify, however, the total number of contracts and value of those contracts awarded to QinetiQ in those years as follows:

	Contracts	*£ million*
2002–03	1,400	[1]4,945
2003–04	1,145	356
2004–05	987	341

[1] Figures for 2002–03 include the Long Term Partnering Agreement awarded in 2002–03 but valued at £3,970million over 25 years from 2003–4 onwards.

Some of these contracts span more than one year, and therefore their value does
not correspond to revenue paid by MOD to QinetiQ in any one year.

Research and Technology Budget

Mr. Moore: To ask the Secretary of State for Defence how much has been allocated to the research and technology budget by his Department in each year since 1997. [58315]

Mr. Ingram: The Ministry of Defence expenditure on research and on development, both combined and separately, is published regularly in 'UK Defence Statistics', copies of which are held in the Library of the House. The latest figures available are to be found in table 1.7 of Chapter 1 of 'UK Defence Statistics 2005'.

SA80 2 Rifle

Paul Flynn: To ask the Secretary of State for Defence what assessment he has made of the effectiveness of the SA80 2 assault rifle in comparison with the AK47. [53031]

Mr. Ingram: Due to significant differences between United Kingdom and former Soviet Union (and Russian) doctrine, the AK47 would be unsuitable for UK service. Therefore no full, trials-based comparison between the UK's standard in service rifle, the SA80 A2, and the AK47 has been made. However, based on the available evidence, our assessment is that the AK47 is far less accurate and has a significantly shorter effective range than the SA80 A2, while, when properly maintained, both weapons are very reliable.

St. Helena

Andrew Rosindell: To ask the Secretary of State for Defence what plans he has for changing the size of the United Kingdom's military presence in St. Helena and the surrounding islands. [56802]

Mr. Ingram: There is no United Kingdom military presence on St. Helena or her dependency Tristan da Cunha. We have a small RAF unit on Ascension Island to support the operation of the airfield; there are plans to reduce the number of military posts there through contractorisation and amalgamation, but without loss of capability.

Andrew Rosindell: To ask the Secretary of State for Defence how many foreign military *(a)* ships and *(b)* aircraft have visited St. Helena in each of the last seven years. [56872]

Mr. Douglas Alexander: I have been asked to reply.

There is no airport on St. Helena. The following numbers of foreign military ships have visited St. Helena in each of the last seven years:

	Vessels
2005	4
2004	2
2003	1
2002	2
2001	2
2000	3
1999	[1]—

[1] No recorded visits

Warships

Dr. Julian Lewis: To ask the Secretary of State for Defence for what reason one Type 23 frigate has been selected not to receive Sonar 2087. [57273]

Mr. Ingram *[holding answer 13 March 2006]:* There is an operational requirement for eight of the thirteen in-service Type 23 frigates to be modified to operate the Sonar 2087 system. The remaining five frigates will retain their existing Sonar 2031 system. The decision on which ships are to be modified is determined by the fitting opportunities within the frigate upkeep programme.

NORTHERN IRELAND

Citybus/Metro

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many passenger journeys have been made on Citybus/Metro in the last five years. [57904]

Mr. Woodward: Translink collect passenger journey data on a financial year basis. The following table provides the number of passenger journeys on Citybus/Metro for the last five years up to March 2005.

	Number
2000–01	20,250,442
2001–02	20,196,765
2002–03	19,876,922
2003–04	19,493,377
2004–05	19,873,218

Concessionary Fares

Lady Hermon: To ask the Secretary of State for Northern Ireland when he expects the review of the Concessionary Fares Scheme to commence; what format he expects the review to take; and if he will make a statement. [57571]

Mr. Woodward: The Accessible Transport Strategy for Northern Ireland 2015, which was launched in April 2005, included a commitment by the Department for Regional Development (the Department) to review the Northern Ireland Concessionary Fares Scheme (the Scheme) within two years. Officials within the Department for Regional Development are currently finalising the structure and scope of this review. Until this work is complete, I am unable to confirm exactly when the review will commence or precisely what format it will take. However, it is likely that the review will consider such aspects of the Scheme as the categories eligible for concessionary travel, the level of concessions available and the types of transport on which concessionary travel is available.

Decommissioning Commission

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the annual cost has been of the Independent International Commission for Decommissioning since it was set up. [58127]

Mr. Woodward: The IICD's running costs are shared equally between the British and Irish Governments. The total cost to date is £8,381,956, with the British Government contributing £4,190,978.

The annual cost of the IICD to the British Government are laid out in the following table:

IICD costs since inception

	£
Cash accounting	
1997–98	428,256
1998–99	534,835
1999–2000	603,600
2000–01	701,814
2001–02	677,973
2002–03	309,600

IICD costs since inception

	£
Accruals accounting	
2003–04	276,729
2004–05	375,878
2005–06[1]	282,293
Total	4,190,978

[1] Up to and including February 2006.

Foster Green Hospital

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what respite services are currently provided at the neurology unit at Foster Green Hospital; and if he will make a statement on the future of the unit. [58330]

Mr. Woodward: The respite service for neurology patients at Forster Green Hospital currently has 13 beds available for rehabilitation and respite care.

Following public consultation, the Eastern Health and Social Services Board has proposed that the neurology respite service should be transferred from Forster Green Hospital to temporary accommodation at Musgrave Park Hospital in 2007. Green Park Healthcare Trust is currently working on a business case for a purpose-built facility to maintain the service on the site of Musgrave Park Hospital.

Independent Monitoring Commission

David Simpson: To ask the Secretary of State for Northern Ireland what definition the Independent Monitoring Commission uses of criminal activity at an organisational level. [57628]

Mr. Woodward: The Independent Monitoring Commission is an independent organisation, so queries of this nature should be referred directly to them.

Licensing

Mr. Dodds: To ask the Secretary of State for Northern Ireland what meetings *(a)* the Minister for Social Development and *(b)* officials from the Department for Social Development have had on liquor licensing in the past 12 months; if he will list the participants; and if he will place the minutes in the Library. [56447]

Mr. Hanson: A table detailing the meetings which *(a)* I as Minister for Social Development and *(b)* officials from the Department for Social Development have had on reform of liquor licensing in the past 12 months, together with details of participating organisations, has been placed in the Library. It would not be appropriate to release minutes of those meetings, and that the information they contain is exempt from disclosure under section 35 of the Freedom of Information Act 2000 as it relates to the formulation of Government policy.

Mr. Dodds: To ask the Secretary of State for Northern Ireland (1) what assessment he has made of the likely impact of the removal of the surrender requirement in respect of liquor licensing on *(a)* the homeless, *(b)* refugees, *(c)* asylum seekers, *(d)* ethnic minorities, *(e)* sex workers, *(f)* ex-offenders, *(g)* older people dependent on alcohol or drugs, *(h)* people with mental health problems and *(i)* vulnerable young people, with

particular reference to (i) looked-after children, (ii) young offenders, (iii) the young homeless, (iv) young people excluded from schools and (v) children with alcohol or drug using parents; [56449]

(2) what assessment he has made of the potential impact of the removal of the surrender requirement in respect of liquor licensing on *(a)* antisocial behaviour and *(b)* under-age drinking; what research he has commissioned on this subject; and if he will make a statement. [56448]

Mr. Hanson: Research on the possible impact of the Government's proposals to reform liquor licensing in Northern Ireland was carried out via an Omnibus Survey of some 1,000 households and a review of literature in the UK and further a field. This included the topics of antisocial behaviour and under-age drinking. The proposals were drawn up in conjunction with a steering group including officials from the Department for Social Development, the Department of Health, Social Services and Public Safety, the Northern Ireland Office and the Police Service of Northern Ireland. A consultation paper was published on 1 November 2005 and circulated to a wide range of organisations. A list of these organisations was placed in the Library. I will carefully consider responses to the consultation exercise before announcing my proposals for legislation.

No specific research was carried out in respect of the potential impact of the removal of the surrender requirement in respect of liquor licensing on the groups listed.

Osteoporosis

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the Answer of 27 February 2006, *Official Report*, column 378W, on osteoporosis, how much has been spent on osteoporosis in Northern Ireland in each of the last 10 years; which are the most common forms of intervention used in Northern Ireland; what assessment he has made of their effectiveness; how many people are waiting to be treated for osteoporosis in Northern Ireland; and whether all interventions available in England are not available in Northern Ireland. [57630]

Mr. Woodward: The amount spent on osteoporosis in each of the last ten years is not known; the prevention and treatment of osteoporosis is included as part of the work of a wide range of health and social services professionals and it is not possible to distinguish separately the amount spent by them on the prevention and treatment of osteoporosis.

The forms of intervention used in connection with osteoporosis depend on a number of factors, including whether the intervention is to prevent or treat osteoporosis, the risk factors involved, the age and gender of the individual patient, the propensity to fracture and the extent of co-existing disease. Typical interventions include case finding approaches, lifestyle advice, prevention of falls and the use of medicines both to treat osteoporosis or to prevent it, especially for those people at risk of fracture or who have multiple risk factors.

The Department of Health, Social Services and Public Safety has made no specific assessment of the multiple interventions which can be used to prevent and/or treat osteoporosis. However, the National Institute for Health and Clinical Effectiveness (NICE) has produced guidance on certain drugs and is currently assessing other drug treatments for both primary and secondary prevention of osteoporosis. NICE also intends to produce a comprehensive clinical guideline on the assessment of fracture risk and the prevention of osteoporotic fractures in individuals at high risk. My Department is currently putting in place arrangements to link with NICE, and will conduct a local process to determine applicability of NICE guidance to Northern Ireland. It is intended that future assessments of the clinical and cost effectiveness of interventions, once published by NICE, will be part of this process. In this context, the Department will then consider whether there is a need to revise the previously published local guidance produced by the Clinical Resource Efficiency Support Team (CREST) in 2001 on the prevention and treatment of osteoporosis.

The number of people waiting to be treated for osteoporosis is not known. Official waiting list statistics are collected at specialty level and it is not possible to identify from these figures how many patients are waiting to be treated for a specific condition such as osteoporosis.

Finally, the Department does not hold details of the availability of interventions for osteoporosis in England. Within Northern Ireland, the specialist drug teriparatide, which is licensed for use in the treatment of established osteoporosis in post-menopausal women, is not currently funded by Health and Social Services Boards due to competing pressures for funding. I shall be announcing shortly details of additional funding for specialist drugs in 2006–07 and 2007–08 and I would expect Boards to utilise a proportion of this funding to introduce new specialist drugs such as teriparatide.

Police Ombudsman

Mark Durkan: To ask the Secretary of State for Northern Ireland whether the Police Ombudsman investigates complaints of *(a)* criminal and *(b)* disciplinary wrongdoing by MI5 officers in Northern Ireland. [56351]

Mr. Woodward: No. Complaints of alleged criminal wrongdoing by Security Service personnel whether in NI or GB are a matter for the police. The Security Service has disciplinary procedures in place that aim to ensure that all members of staff achieve and maintain appropriate standards of conduct and to provide a clear and fair framework for dealing with alleged failures to observe such standards.

Regeneration

Lady Hermon: To ask the Secretary of State for Northern Ireland how much has been allocated through the Local Community Fund to encourage regeneration in pockets of deprivation in Northern Ireland for 2006–07, broken down by area. [57052]

Mr. Hanson: The Local Community Fund Programme started in 2003 and is due to end on 31 March 2006. The Department for Social Development is currently considering options on the future delivery of the fund; therefore no funding allocations have been made for 2006–07.

The following tables set out the allocation to the relevant targeted areas for 2005–06.

LCF Allocations 2005–06— by District Council Area

Ards

Area	*Allocation (£)*
Bowtown Estate	52,340
Total	52,340

Belfast

Area	*Allocation (£)*
Lower Shankill	61,920
Brown Square	6,990
Pottinger (Inner East) including Avoniel, The Mount, Willowfield and Ravenhill	456,240
Clonard	89,810

Area	*Allocation (£)*
Glenderg Ward	95,530
Lisnafin	59,370
Ballycolman	114,840
Total	269,740

Roads

Lady Hermon: To ask the Secretary of State for Northern Ireland what total length of each grade of road the Department for Regional Development (DRD) Road Service is responsible, broken down by district council area; and how much *(a)* was spent in 2004–05, *(b)* is expected to be spent in 2005–06 and *(c)* is budgeted to be spent in 2006–07 by DRD Road Service on roads maintenance. [57051]

Mr. Woodward: The chief executive of Roads Service Dr. Malcolm McKibbin has been asked to write to the hon. Lady in response to this question.

Letter from Dr. Malcolm McKibbin, dated 14 March 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what total length of each grade of road the Department for Regional Development (DRD) Road Service is responsible, broken down by district council area; and how much *(a)* was spent by DRD Road Service on roads maintenance in 2004–05, *(b)* is expected to be spent in 2005–06 and *(c)* is budgeted to be spent in 2006–07.

I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

Information on the length and class of roads can be found in Chapter 3 of a joint annual Department for Regional Development and Northern Ireland Statistics and Research Agency publication entitled "Northern Ireland Transport Statistics". The latest edition for 2004–2005 can be viewed or downloaded from http: //www. drdni. gov.uk/DRDwww_Statistics/details. asp?publication_id = 158.

With regard to the maintenance expenditure figures you requested, I can advise that expenditure on roads maintenance for 2004–05 was £121 million. The current estimated expenditure on roads maintenance for 2005–06 will be in the region of £116 million. The current estimated roads maintenance budget for 2006–07 is in the region of £91 million.

I hope this information is helpful.

Temozolomide

Lady Hermon: To ask the Secretary of State for Northern Ireland how many patients in each health board area in Northern Ireland are receiving the drug temozolomide via *(a)* the NHS and *(b)* private treatment. [57099]

Mr. Woodward: The information is as follows:

(a) During the period April 2005 to February 2006 the drug Temozolomide was dispensed for a total of 28 patients in Northern Ireland.

Health Board of Residence	*Number who received Temozolomide*
Eastern Health and Social Services Board	14
Northern Health and Social Services Board	1
Southern Health and Social Services Board	5
Western Health and Social Services Board	8

(b) Information on the number of patients who received temozolomide via private treatment is not available.

CONSTITUTIONAL AFFAIRS

Asylum Seekers

Mr. Stewart Jackson: To ask the Minister of State, Department for Constitutional Affairs what progress has been made towards recruiting additional specialist asylum judges to adjudicate the backlog of appeals by asylum-seekers; and if she will make a statement. [57088]

Bridget Prentice: The Asylum and Immigration Tribunal (AIT) is recruiting an additional 210 fee paid Immigration Judges nationally, around 100 of whom will be new appointments with the remaining positions being filled by Immigration Judges who currently have fixed term non-renewable contracts within the Tribunal. It is anticipated that the appointments will be completed by mid June for London vacancies and the end of September for vacancies in the regions.

There is currently no backlog of asylum appeals at the AIT. However, between April and September 2005 the AIT accrued a backlog of entry clearance and family visitor appeals due to higher volumes of receipts, particularly family visitor appeals, than anticipated. These appeals were processed by the end of December 2005 and now form part of the Tribunal's work in progress. They are currently awaiting appeal bundles from the relevant entry clearance posts and will be heard throughout the remainder of this calendar year. Planning for the clearance of these appeals was not contingent upon the appointments of additional Immigration Judges from the current competitions.

Crown Courts

Robert Key: To ask the Minister of State, Department for Constitutional Affairs how many Crown court sentences have been mitigated on appeal in each calendar year between 2000 and 2005. [53475]

Ms Harman: The following table shows the number of appellants per calendar year whose appeal against their Crown court sentence was allowed on appeal.

	Number of sentence appeals allowed[1]
2000	1,284
2001	1,101
2002	1,302
2003	1,685
2004	1,348
2005	1,534

[1] Includes appeals which were allowed in whole or in part.

Departmental Procedures

John Hemming: To ask the Minister of State, Department for Constitutional Affairs if her Department will take steps to ensure that a photocopy of marked registers is kept locally for each constituency before the original is taken to storage. [56836]

Ms Harman: The Electoral Administration Bill will provide that at future parliamentary elections, it will be the responsibility of electoral registration officers to store and supply copies of the marked registers, locally. This is already the case for the local elections.

Electoral Reform

James Duddridge: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the potential impact on *(a)* voter turnout and *(b)* the incidence of postal voting of voters being able to cast their votes in any polling station in (i) the constituency in which they reside, (ii) the country in which they reside and (iii) the United Kingdom; and if she will make a statement. [53733]

Ms Harman: No formal assessment has been made in the terms outlined by the honourable member. It is not currently legally possible for voters to vote from any polling station on election day, although we are supporting pilots of early voting from different locations in the May 2006 local elections. The evaluation of these pilots by the Electoral Commission will provide some learning on the effect of increased flexibility in time and location of voting.

Some of the pilots currently being conducted rely on information technology solutions. It is the Government's expectation that if voting from any location were to be explored for future use, the most secure and efficient way to deliver this would be through information technology solutions.

James Duddridge: To ask the Minister of State, Department for Constitutional Affairs what plans her Department have to enable voters with disabilities or other access problems to apply to the Returning Officer for permission to vote at an alternative polling station; and if she will make a statement. [53735]

Ms Harman: The Government have no plans to introduce voting at alternative polling stations for any electors, including those with disabilities. However, the Electoral Administration Bill contains measure to improve access to polling stations for disabled people. It includes a duty on local authorities to undertake a review of polling places at least every four years to ensure that, as far as possible, polling stations are both convenient and accessible to the local community.

Voters with disabilities can apply for a postal or proxy vote. At a general election, they can return their postal vote to any polling station within their constituency, or any polling station within their ward at local elections, should they wish to do so.

Judicial Appointments (Northern Ireland)

Dr. McCrea: To ask the Minister of State, Department for Constitutional Affairs if she will list the judicial appointments made in Northern Ireland in the last 12 months. [58142]

Bridget Prentice: In the 12 month period March 2005 to February 2006 seven judicial appointments were made in Northern Ireland as follows:

One County Court Judge

Two full time Resident Magistrates

Two part time Resident Magistrates

Two High Court Masters.

There were also 25 tribunal appointments and 272 Lay Magistrate appointments during this period.

London Allowance

Kate Hoey: To ask the Minister of State, Department for Constitutional Affairs what plans her Department have to change the London allowance of its staff; and if she will make a statement. [50007]

Bridget Prentice: The majority of staff subject to DCA terms and conditions and based in London do not receive a London Allowance/London Weighting in addition to their basic salaries. The former London Weighting allowances were consolidated into basic salaries in 1998 and as a result we now have higher basic salaries for staff in London. This reflects the local employment market with separate scales for inner and outer London.

In addition there are approximately 400 staff, in the South East who receive a Local Pay Addition that relates specifically to their location and grade. These allowances were introduced in 1989 as a market supplement to address high turnover in particular locations and is being phased out. Payments under this scheme are lost when staff move to non-qualifying posts.

There is a DCA Pay and Grading Project currently underway looking at all matters relating to pay and allowances. Subject to the project recommendations new pay, grading and benefit arrangements should be introduced later this year.

Parliamentary Constituencies

Andrew Gwynne: To ask the Minister of State, Department for Constitutional Affairs what estimate she has made of the adult population to registered electorate ratio for the proposed new parliamentary constituency boundaries in England; and if she will make a statement. [58005]

Ms Harman: From the 2001 census figures we can calculate the adult population of England to be 37,997,691 and the Office for National Statistics calculated the registered electorate in England to be 37,151,991 in December 2005. The Government cannot comment on the proposed new parliamentary constituency boundaries in England prior to receiving the Parliamentary Boundary Commission for England's final report.

Postal Voting

Mark Hunter: To ask the Minister of State, Department for Constitutional Affairs what the minimum number of days is before polling day that returning officers are obliged to send postal votes to electors who have registered for such ballot papers. [57574]

Ms Harman: There is no statutory latest day for sending out postal ballot packs to electors. Returning Officers cannot send out postal votes to electors until the deadline for electors to apply for postal votes has passed, as postal or proxy voters may until 11 working days before polling day switch from one such "absent voting" preference to another (or cancel their absent voting request altogether), but they will aim to do so as soon as possible after that deadline.

Mark Hunter: To ask the Minister of State, Department for Constitutional Affairs what steps her Department is taking to publicise *(a)* the rules governing and *(b)* the deadlines applying to the use of postal voting at the forthcoming local elections. [57573]

Ms Harman: Electoral administrators appointed by local authorities for the purpose are responsible in law for the conduct of elections, including dissemination of information about postal voting procedures. The independent Electoral Commission has among its statutory responsibilities a duty to promote public awareness of current systems of local government in the United Kingdom and the Commission is running a public information campaign for the forthcoming local elections with a helpline and website where information on the rules governing, and the deadlines applying to, the use of postal voting is available. In addition the Commission has also produced a leaflet, which sets out the rules governing postal voting.

WORK AND PENSIONS

Access to Work

Danny Alexander: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of Pathways to Work pilots on demand for support from the Access to Work scheme in those areas; and if he will make a statement. [56900]

Margaret Hodge: Information on the additional demand for Access to Work in Pathways areas is not collected separately.

Benefits

Andrew Selous: To ask the Secretary of State for Work and Pensions how many people receive pensions and benefits through *(a)* Post Office card accounts and *(b)* basic bank accounts in the South West Bedfordshire constituency. [56487]

Mr. Plaskitt *[holding answer 6 March 2006]:* The information is not available in the format requested.

At 24 December 2005, 4,200 pension and benefit accounts were being paid into a Post Office card account and 22,700 were being paid into a bank or building society account in the South West Bedfordshire constituency. These figures do not include Post Office card accounts used by other Government Departments to pay benefits and tax credits.

Notes:

1. Figures are rounded to the nearest 100.
2. Figures refer to benefit and pension payment accounts live and in payment on the specified date. People in receipt of more than one benefit/pension have been counted for each separate benefit/pension in payment. People who have their benefit/pension combined and paid at the same time have only been counted through the paying benefit.

Mr. Ruffley: To ask the Secretary of State for Work and Pensions pursuant to the Green Paper "A new deal for welfare: Empowering people to work", what assessment he has made of the merits of proposing that the maximum time between an initial claim for employment and support allowance and the first employability and capability assessment should be lower than 12 weeks. [52647]

Margaret Hodge: In the Green Paper; "A new deal for welfare: empowering people to work", we have proposed that the assessment phase should last three months. During this time the revised personal capability assessment process will determine both eligibility for benefit and capability for work. Assessing an individual at a relatively early stage of their claim allows us to maximise their chances of returning to work. However, many people will be on employment and support allowance for very short periods of time and so carrying out assessments too early in a claim could lead to nugatory assessments taking place.

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions whether his Department's 2005 target for the direct payment of benefits was met. [57018]

Mr. Plaskitt: Yes—in December 2004.

Child Support Agency (Private Debt Collectors)

Mr. Laws: To ask the Secretary of State for Work and Pensions how many private debt collectors have been used by the Child Support Agency in each year since 1996–97; how much they collected in maintenance arrears; and if he will make a statement. [45580]

Mr. Plaskitt *[holding answer 30 January 2006]:* The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many private debt collectors have been used by the Child Support Agency in each year since 1996–97; how much they collected in maintenance arrears; and if he will make a statement.

Non-resident parents have a financial obligation to support their children. The Child Support Agency currently receives over £585 million maintenance per year however there is still a culture surrounding its activities whereby some non-resident parents perceive it as acceptable not to comply with the Agency and make their maintenance payments. The Agency has therefore begun to take steps to tackle this issue.

When undertaking civil recovery processes to recover arrears of child support maintenance the Agency will first obtain a Liability Order to have the debt legally recognised. Thereafter a variety of civil recovery processes will be employed to secure the debt. Under Child Support Legislation, (Child Support Act 1991 Regulation 35 and Collection and Enforcement Regulations 1992 Regulation 30) the Agency is empowered to utilise private firms of Bailiffs to levy distress.

Over the period 1996 to 2000 the Agency had contracted one private firm of Bailiffs to undertake distress action throughout England and Wales. From May 2001 contracts were let to three private firms of Bailiffs, each with responsibility for distress action in specific geographical areas. These contracts are up for renewal in spring 2006.

Exact Bailiff collections information is not available for the period up until April 2004 as prior to this any collections were added into the overall Agency collections figures.

The table shows the Bailiff collections for 2004–05 onwards.

	Bailiff Collections (£ million)
April 2004 to March 2005	3.1
April to December 2005. (Year to date)	3.2

Similarly, in Scotland, legislation (Child Support Act 1991 Regulation 37, the Debtors (Scotland) Act 1987 and the Debt Arrangement and Attachment (Scotland) Act 2002 enables the recovery of debt by use of diligences undertaken by private firms of Sheriff Officers. As officers of the court, Sheriff Officers are instructed by the Agency to carry out diligences within their respective Sheriffdoms. The Agency does not have any contracts with private firms of Sheriff Officers in Scotland.

No information is held in relation to debt collected by Sheriff Officers as, unless immediate payment is forthcoming, non-resident parents are instructed to make payments direct to the Agency and as mentioned previously these payments will be included in Agency collections figures.

Since August 2005 the Agency has also been involved in a small scale pilot using two private debt collection companies to assess the feasibility of involving the private sector to recover Agency debt.

In Secretary of State's statement to the House on 9 February 2006, he announced that he was making available a further £30 million to contract out some of the Child Support Agency's debt recovery. We expect that to result in a substantially increased recovery of the current debt owed to parents with care.

I hope you find this information helpful.

Correspondence

Mr. Ruffley: To ask the Secretary of State for Work and Pensions pursuant to his answer of 13 February 2006 to the hon. Member for Inverness, Nairn, Badenoch and Strathspey, *Official Report*, columns 1690–91W, on post office card accounts, when the three pilot schemes will be completed; and what plans he has to increase the number of people covered by these schemes. [56321]

Mr. Plaskitt: The pilots began on 13 February 2006 and will be concluded by mid-March. When they are completed we will evaluate the results and discuss the findings with the Post Office and other key stakeholders. I have no plans to increase the number of customers covered.

Departmental Correspondence

Mr. Laws: To ask the Secretary of State for Work and Pensions how many letters were received by *(a)* his Department and *(b)* each of its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of these letters were (i) answered within (A) 10, (B) 20, (C) 30 and (D) 40 working days, (ii) answered after 40 working days and (iii) not answered. [56456]

Mr. Plaskitt: The Department's correspondence targets are:

To respond to letters from MPs/peers to Ministers within 20 working days.

To respond to letters from members of the public to Ministers within 20 working days

To respond to letters from MPs/peers sent directly to agency chief executives on operational issues within 15 working days.

The information that is available on letters received and replied to is shown in the following tables.

Table 1: Receipt and response times of MPs letters to Ministers in calendar years

			Number of letters replied to during the year					
	Received during the year	*Replies*	*Within 20 days*	*Percentage within 20 days*	*21 to 40 days*	*Percentage within 21 to 40 days*	*Over 40 days*	*Percentage over 40 days*

Departmental IT Systems

Mrs. Villiers: To ask the Secretary of State for Work and Pensions how much his Department has spent on IT systems in each year since 1997; what the purpose of each system is; what the outturn against planned expenditure of each system was; and what the *(a)* planned and *(b)* actual date of completion was of each system. [41315]

Mr. Timms: The Department for Work and Pensions was created in June 2001. The Department and its businesses currently have in excess of 100 individual projects which encompass information technology (IT) changes to a greater or lesser extent. The Department's major projects are those contained in its modernisation programme. For the most part, these projects embrace both IT and business change.

The information in the table lists the Department's current major programmes and projects that include significant IT change, with information on their purpose, due end date, planned expenditure, outturn and actual end date.

It should be noted that project details may alter as they pass through the project lifecycle and as the Department considers its wider plans as part of the normal spending review process.

Project/purpose	*Due end date*	*Planned expenditure (£ million)*	*Outturn (£ million)*[1]	*Actual end date*
Customer Management System This system is an information gathering business process for working age Income Support Jobseeker's Allowance and Incapacity Benefit claims and changes of circumstances. It will allow information supplied by the customer to be gathered electronically by staff, improving efficiency and customer service. Staff will be able to check information supplied against that already held.	November 2005	250	250	Completed on time
New Tax Credits This project supports the implementation of new tax credits by the Inland Revenue by putting a tax credits service in place for DWP customers (principally through Jobcentre Plus) and ensuring that necessary amendments are made to DWP benefits. These systems will be used to complete IS/JSA(IB) Migration by April 2007	April 2005	37	37	Completed on time
ISCS/JSA Modernisation project Delivered initiatives that enhanced or augmented existing Working Age IT systems. These included the sharing of electronic data with Disability Living Allowance, Attendance Allowance and personal details computer systems.	August 2004	14	14	Completed on time
Digital Office Infrastructure DOI provided a modern IT infrastructure platform across the Department providing access for all staff to the internet and intranet and modern business software.	June 2004	726	726	Completed on time
Managing Core Systems Estate To improve the ways in which our core legacy systems are managed.	March 2006	5	5	February 2005
Pensions Forecasting Programme To establish the new Combined Pension Forecasting Service and enhance and replace the existing individual Pension Forecasting IT system	April 2005	43	43	Completed on time
Pension Credit This project successfully introduced Pension Credit in October 2003. It delivered new IT functionality to existing DWP systems, and associated business products (eg training, staff guidance, customer notifications).	October 2004	297	297	Completed on time
Pensions Transformation Project The programme will transform the Pension Service, bringing together business and IT change in ways that improve customer service and deliver efficiencies.	Wave 1a November 2005, waves 1b, 2a and 2b by March 2008; waves 3–5 by 2010	668	Project ongoing	Project ongoing
Customer Information System This project will deliver a database of key citizen information to be shared across DWP. The database will complement information currently available in the Department's key customer information systems, ie Personal Details Computer System and Departmental Central Index, and become their replacement.	July 2007	75	Project ongoing	Project ongoing
Payment Modernisation Programme The Payment Modernisation Programme aims to establish direct payment into a bank or building society account as the normal, method of payment for all customers. This includes those who wish to collect their money from the Post Office.	December 2005	366	366	June 2005

BEST COPY AVAILBLE

Project/purpose	Due end date	Planned expenditure (£ million)	Outturn (£ million)[1]	Actual end date
Resource Management This programme will provide modernised HR, financial and procurement functions for DWP staff. It will introduce significant business process change, enabling departmental resources to be managed more effectively.	September 2006	176	Project ongoing	Project ongoing
Debt Management The Debt Programme introduces a new organisational structure based on 10 Debt Centres and a Commercial off the Shelf (COTS) package to provide new Management Information Systems, combined with increased focus on the management and ultimately reduction of debt stock.	February 2006	105	Project ongoing	Project ongoing
Central Payments System (formerly part of Payment Modernisation) New payment processing IT functionality is required to support the DWP to process payments for new entitlement management and financial scheduling systems.	September 2009	99	Project ongoing	Project ongoing
Benefits Process Replacement Programme (BPRP)2 The programme enables modernised benefit processing, effective fraud management and improved service to employers. It provides the strategic IT platform for the Department providing the foundation for future policy initiatives.	TBA	TBA	Project ongoing	Project ongoing

[1] Outturn figures show the final investment cost for the completed projects.
[2] CSR: The Department had a Private Finance Initiative contract for the provision of IT services to the Child Support Agency worth approximately £456 million over 10 years. This contract commenced in August 2000 with a 10 year duration to August 2010. Under a general realignment of departmental contracts announced in August 2005, EDS will complete the system as currently specified, including correcting all agreed defects. The revised contract still has a completion date of August 2010 and the Department expects to save around £65 million (net present value basis) in Child Support information technology costs over the remaining period of the deal with EDS.
Notes:
1. The planned expenditure is;
for projects currently in progress, the latest forecast investment expenditure or
for completed projects the final approved investment expenditure.
2. BPRP: As part of the programme's governance it attended a gate on Monday 6 February 2006. At this gate a number of options for progressing the programme were presented. The gate reserved its decision and asked the programme to:
(i) Return to a gate in four months time having considered the impact of the Welfare Reform Green Paper; and
(ii) Continue its investment programme until the next gate by progressing work in areas common to all options presented.
Agreed forecast costs and completion date is dependant upon this decision.

Employment (Over 50s)

Andrew Gwynne: To ask the Secretary of State for Work and Pensions how many unemployed people aged over 50 years have been assisted back to work in *(a)* Denton and Reddish constituency, *(b)* Stockport Metropolitan Borough and *(c)* Tameside Metropolitan Borough since 1997. [58007]

Margaret Hodge: Information on the number of people aged 50 and over in the specified areas who have been helped into work through all the programmes which are available to them is not available. Information on the number of people aged 50 and over who have been helped into work through the New Deal 50 plus programme is in the table.

New Deal Plus

Location	People into jobs
Denton and Reddish Constituency	240
Stockport Metropolitan Borough	510
Tameside Metropolitan Borough	500

Notes:
1. New Deal 50 plus was introduced in April 2000.
2. Latest data are to November 2005.
Source:
DWP Information Directorate

European Social Fund

Mr. Davey: To ask the Secretary of State for Work and Pensions what the level of European Social Fund (ESF) funding for post-education skills is for *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08; how much funding is allocated to (i) 16 to 18 Learning and Skills Council (LSC) funding and (ii) 19+ LSC funding; and whether ESF funding is included within LSC allocations announced in the grant letter issued. [55257]

Mr. Plaskitt: Planned European Social Fund (ESF) expenditure for post education skills is estimated to be *(a)* £283 million in 2005–06, *(b)* £304 million in 2006–07 and *(c)* £170 million in 2007–08. Estimates of ESF expenditure will be subject to change over time. Within these figures the amounts allocated to the LSC to date are: £241.3 million in 2005–06, £253.5 million in 2006–07, and £144.4 million in 2007–08. These allocations are not broken down by age. ESF funding is not included within LSC allocations announced in the annual grant letter issued by the Secretary of State for Education and Skills. ESF expenditure is additional to domestic expenditure.

Mr. Davey: To ask the Secretary of State for Work and Pensions what the level of European Social Fund (ESF) funding is for his Department's programmes in *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08 in England; how much is allocated for each programme; and whether ESF funding is included within the planned total set out in his Department's 2005 annual report. [55258]

Mr. Plaskitt: Total planned ESF expenditure is £515.5 million in 2005–06, £537.5 million in 2006–07 and £534.9 million in 2007–08. In both 2006–07 and 2007–08, £75 million is allocated to supporting additional activity within the new deals for young people and 25 plus. Apart from this, ESF expenditure is not directly allocated to domestic employment programmes. All ESF expenditure is additional to domestic programme expenditure. ESF expenditure is included within the planned total set out in the Department's 2005 annual report.

Fraud

Mr. Ruffley: To ask the Secretary of State for Work and Pensions (1) how many *(a)* full-time and *(b)* part-time Customer Compliance Officers there will be in 2006–07 to tackle low level fraud that cannot be taken through the criminal courts; [56436]

(2) whether new Customer Compliance Officers will be classified in his Department's accounts as full-time fraud investigators. [56437]

Mr. Plaskitt: In addition to investigators dealing with criminal investigation, from April 2006 there will be around 1,000 Customer Compliance Officers dealing with lower level suspected fraud cases and benefit claims deemed to be of high risk, both at the start of or during the benefit life cycle. At this time, it is not possible to provide a breakdown into full-time and part-time posts.

Customer Compliance Officers are not part of the Fraud Investigation Service resource and will not be classified as fraud investigators in the Department's accounts.

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what the cost was of employing full-time fraud investigators in each of the last three years. [56438]

Mr. Plaskitt: The information is not centrally collated and could be provided only at disproportionate cost.

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what is the estimated cost of employing customer compliance officers in each of the next three years. [56473]

Mr. Plaskitt: The information is in the following table.

Estimated cost of customer compliance resource

£ million

	Estimated cost
2006–07	26.6
2007–08	27.6
2008–09	28.7

Notes:
1. These figures are based on staff numbers (including management, support staff and those directly involved in customer compliance interviewing) of around 1,000 and average salaries.
2. Increases in years 2007–08 and 2008–09 are based on an assumed rise in staff costs of 4 per cent. each year.

Free Movement of Persons Directive

Michael Gove: To ask the Secretary of State for Work and Pensions (1) what regulations the Government plans to bring forward to ensure that Directive 2004/38/EC, on the free movement of persons, does not result in significant additional costs to the UK social security system; [57353]

(2) how long a national from another EU member state must have been employed in the UK before they are allowed to claim the same social security benefits as a UK national if they are involuntarily made unemployed; and what the position will be when Directive 2004/38/EC, on the free movement of persons, comes into force; [57355]

(3) how long a national from another EU member state must have been employed in the UK before they are entitled to the same social security benefits as a non-UK citizen; and what the position will be when Directive 2004/38/EC comes into force; [57356]

(4) whether there are any social security benefits from which nationals from other EU member states resident in the UK are always excluded; and what the position will be when Directive 2004/38/EC, on free movement of persons, comes into force; [57357]

(5) under what circumstances a national from another EU member state would be classed as creating an unreasonable burden on the UK's social assistance system and therefore qualify for expulsion; [57359]

(6) what measures the Government have put in place to monitor and expel nationals from other member states whom it considers are placing an unreasonable burden on the UK's social assistance system. [57360]

Mr. Plaskitt: There is a wide range of social security benefits in the UK, with different rules governing access to them. There is no one rule which states how long an individual must have been resident or have worked in the UK before they can claim benefits.

As a general rule, nationals from EU states working in the UK and paying NI contributions have the same access as UK workers to contributory benefits.

In relation to other benefits, EU nationals have rights to equal treatment under the EU Treaty which are given effect by EC regulations, in particular EC Regulation 1408/71, These rules are complicated, but there are no benefits from which an EU national can be permanently excluded.

Current UK regulations require that a person must be habitually resident in the United Kingdom, the Channel Islands, the Isle of Man or the Republic of Ireland (generally known as the Common Travel Area) to qualify for non-contributory income-related benefits. The habitual residence test was amended on 1 May 2004 when the Social Security (Habitual Residence) Amendment Regulations 2004 came into force. The test provides that no person should be treated as habitually resident in the Common Travel Area if he or she does not have a right to reside there. Therefore anyone without a right to reside cannot qualify for the relevant benefits. There are some categories of individuals who are exempt from the habitual residence test, including EU workers.

Directive 2004/38/EC has implications for access by EU nationals to non-contributory income-related benefits.

The directive, broadly, consolidates existing EC legislation relating to rights of residence in the EU. The Home Office is responsible for transposing the directive into domestic legislation and is preparing draft regulations to come into force on 30 April 2006.

The key aspects of the directive from DWP's point of view is that it provides:

A new right to reside for all EU nationals and their family members for the first three months of their stay in the UK even if they are not self-sufficient; and

That member states are not obliged to confer entitlement to social assistance to EU nationals during that first three months of residence unless they are workers, self-employed persons, persons who retain such status and their family members (cf. Article 24(2) of the Directive).

This means that the UK's regulations relating to income-related benefits need to be amended to ensure that economically inactive EU nationals are not automatically given a right to benefit just because they have a right to reside.

The Government will therefore be introducing "The Social Security (Persons From Abroad) Amendment Regulations 2006". These will achieve the following, with effect from 30 April 2006:

Apply the derogation in Article 24(2) of the directive in respect of income support, income-based jobseeker's allowance, state pension credit, housing benefit and council tax benefit; and

Update, where appropriate, the terminology in the income-related benefit regulations so that previous references to EC legislation are expressed in terms of the new directive.

Set out the habitual residence test in a clearer manner.

The Home Office is responsible for assessing whether an EU national is removable. We are working with the Home Office to define the circumstances where an EU national is potentially removable for being an unreasonable burden on the UK social assistance system and any subsequent procedures to effect removal should that person be defined as an unreasonable burden on the host member state.

Fuel Poverty

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions how he is contributing to the Government's commitment to eradicate fuel poverty. [57401]

Mr. Timms: This Department is committed to eradicating fuel poverty.

The winter fuel payment administered by the Department has already made significant inroads in eradicating fuel poverty. The payment has risen above the level of inflation, from £20 in winter 1997–98 to £200 from winter 2000–01 and to £300 for those aged 80 or over from winter 2003–04. Over £1.9 billion was paid out in 2004–05.

The Pension Service's Local Service, has also been carrying out benefit entitlement checks as part of their home visits to customers and refers them to the warm front scheme administered by the Department for Trade and Industry, if appropriate.

New processes have also been developed between The Pension Service and the "Home Heat Helpline", a private sector run and funded fuel poverty helpline launched in October 2005, which help to maximise the take-up of benefits, help from the utilities companies and warm front grants. The Department is also working closely with the Department for Environment, Food and Rural Affairs, the Energy Industry and the Voluntary Sector to tackle fuel poverty in the UK.

The most recent data available show that the numbers of households in fuel poverty in the UK fell from a high of 6.5 million in 1996 to 2 million in 2003.

Households Below Average Income

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions when the next set of Households Below Average Income data will be published. [56980]

Margaret Hodge: Households Below Average Income 1995–96 to 2004–05 was published on 9 March 2006 and a copy is being placed in the Library.

Housing Benefits

Danny Alexander: To ask the Secretary of State for Work and Pensions how many *(a)* housing benefit and *(b)* local housing allowance claimants there are in each Pathfinder area; and how many in each category have private tenancies. [56283]

Mr. Plaskitt: The local housing allowance only applies to deregulated private sector tenancies. The information is in the table.

Housing benefit case load in Pathfinder local authorities: overall, private rented sector and local housing allowance cases, August 2005

	Housing benefit cases		
		Of which:	
Pathfinder authority	*All tenancies*	*Private sector tenancies*	*Local housing allowance*
Blackpool	14,600	9,000	8,200
Brighton and Hove	23,600	10,300	8,700
Conwy	6,600	2,600	2,100
Coventry	22,600	5,700	4,300
Edinburgh	33,500	7,500	6,200
Leeds	54,200	7,500	6,300
Lewisham	29,100	5,600	4,200
N.E. Lincolnshire	12,300	5,000	4,300
Teignbridge	5,700	2,500	2,000

Notes:
1. Case loads are rounded to nearest 100. Figures may not sum due to rounding.
2. Local housing allowance (LHA) case loads reported here exclude LHA claimants currently in receipt of transitional protection.
3. All tenancies include social sector (local authority tenancies and registered social landlord (RSL) tenancies) and private sector tenancies.
4. Local housing allowance is a form of housing benefit.

Source:
DWP administrative data, August 2005.

Danny Alexander: To ask the Secretary of State for Work and Pensions how many housing benefit claimants there were in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland in the latest period for which figures are available; and how many claimants in each country had private tenancies. [56284]

Mr. Plaskitt: Information regarding Northern Ireland is a matter for the Northern Ireland Office. The available information for Great Britain is in the table.

Housing benefit (HB) recipients in Great Britain by country: August 2005

	All HB recipients	*Private tenancies*
Great Britain	3,981,000	805,500
England	3,340,300	707,000
Wales	200,200	45,800
Scotland	440,500	52,800

Notes:

1. The data refer to benefit units, which may be a single person or a couple.
2. Figures have been rounded to the nearest hundred.
3. Housing benefit figures exclude any extended payment cases.
4. Figures for any non-responding local authorities have been estimated.
5. "Private" tenancies exclude Registered Social Landlords (RSL) tenancies.

Source:

Housing benefit and council tax benefit management information system quarterly 100 percent. caseload stock-count taken in August 2005.

Jobcentre Plus

Mr. Laws: To ask the Secretary of State for Work and Pensions what the Jobcentre Plus training budgets were allocated for in *(a)* 2005–06 and *(b)* 2006–07 in (i) England, (ii) Wales and (iii) each Jobcentre Plus office; and what the percentage change between the two years is in each case. [51556]

Margaret Hodge *[holding answer 14 February 2006]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State for Work and Pensions has asked me to reply to your question asking what the Jobcentre Plus training budgets were in England and Wales in *(a)* 2005–06 and *(b)* 2006–07, broken down (i) between England and Wales and (ii) by Jobcentre Plus Office; and what the percentage change between the two years is in each case. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Employment Programme costs relating to training for customers in 2005/06 are expected to be; for England £404.7m; and Wales £19.5m. Training includes Work Based Learning for Adults, Short Intensive Basic Skills, Ambition and New Deal excluding New Deal for Disabled People. Figures are not available at Jobcentre Plus office level.

The Welsh Assembly also provides employment training provision for customers in Wales which is not included in this figure.

It is not possible to provide figures for 2006/07, as the individual provisions for the Jobcentre Plus Employment Programme for next year have not yet been agreed.

I hope this is helpful.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many staff were employed in Jobcentre Plus in the UK at the end of each of the last 18 months for which figures are available. [54236]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking how many staff were employed in Jobcentre Plus in the UK at the end of each of the last 18 months for which figures are available. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The information you require is in the table below. The numbers relate to Staff in Post, not full time equivalents.

Jobcentre Plus Staff in Post figures

Year	*Month*	*Number*
2004	August	86,589
	September	85,605
	October	85,605

Management Information (MI) Portal

Danny Alexander: To ask the Secretary of State for Work and Pensions what the pay scales are for staff employed by Jobcentre Plus; and how many staff were paid at each level in the latest period for which figures are available. [56280]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking what the pay scales are for staff employed by Jobcentre Plus; and how many staff were paid at each level in the latest period for which figures are available. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

In answer to your specific question, there are 67 pay scales currently in operation. Specialist pay scales account for 56 of these and attract between 1 and 280 staff each. There are 11 generalist scales and these attract between 1 and 43,125 staff each.

Detailed information is attached at Annex A.

I hope this is helpful

ANNEX A

Jobseeker's Allowance

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions what recent estimate he has made of the amount of jobseeker's allowance claimed by the self-employed; and if he will make a statement. [57375]

Mr. Plaskitt: Due to the very small numbers of claimants involved it is not possible to accurately estimate the information requested.

Lone Parents (Work)

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what progress has been made in helping lone parents back to work. [57400]

Margaret Hodge: Since 1997, our labour market policies have helped to increase the lone parent employment rate by 11.3 percentage points to stand at 56.6 per cent. in spring 2005—equating to around 1 million lone parents in employment.

In our Green Paper 'A new deal for welfare: Empowering people to work', we have proposed increased contact with lone parents through more frequent work focused interviews, as well as the intention to pilot a work-related activity premium to encourage more lone parents with older children to plan their return to work.

National Insurance

Mr. Boswell: To ask the Secretary of State for Work and Pensions what progress his Department has made in the introduction of the National Insurance Number Operating Business Model. [56335]

Mr. Plaskitt: A new Operating Business Model for National Insurance Number (NINO) Allocation is currently being introduced across Great Britain. The main aims of the new model are to introduce appointment booking through contact centres for customers wishing to apply for a NINO and to organise interviews for NINOs within offices in each region or country dedicated to that purpose.

The introduction of appointment booking through contact centres will enable all customers to utilise a single 0845 telephone number. A NINO interview will then be arranged at the nearest interviewing site to either the customer's home address or workplace.

To date the North East, Scotland, South West, East Midlands and Wales have fully implemented the new model, with partial implementation in London. The remaining regions will implement the new model over the next few months.

Mr. Ruffley: To ask the Secretary of State for Work and Pensions how many prosecutions there have been in each of the last five years for illegally obtaining a national insurance number; and in how many cases the prosecution resulted in a conviction. [56435]

Mr. Plaskitt: The information is not available.

New Deal

Mr. Hurd: To ask the Secretary of State for Work and Pensions what proportion of 18 to 24-year-old new deal leavers have been back on jobseeker's allowance within six months. [54969]

Margaret Hodge: Up to the end of May 2005, 35 per cent. of those who had left new deal for young people claimed jobseeker's allowance (JSA) within six months of leaving the programme. This is inevitable in a dynamic labour market, but those young people who do return to JSA after finding a job through new deal will have added to their skills and experience, making it easier for them to find a job in the future.

Note:

Latest jobseeker's allowance data are to November 2005, hence only those who had left new deal for young people by the end of May 2005 are included.

Mr. Hurd: To ask the Secretary of State for Work and Pensions whether employer surveys have been conducted since 1998 to estimate the proportion of employment vacancies that would have existed without the new deal subsidy. [54972]

Margaret Hodge: In September 2000, we published research by independent researchers to assess the impact of the new deal subsidised employment option from an employer perspective. The option is available through new deal for young people and new deal 25 plus, and over 3,000 employers who had recruited employees through it were consulted during the survey.

The report "New Deals for Young People and Long Term Unemployed: Survey of Employers" Jon Hales, Debbie Collins, Chris Hasluck and Stephen Woodland, employment service report 58, September 2000, is available in the Library.

Mr. Hurd: To ask the Secretary of State for Work and Pensions what proportion of those on a new deal option at 31 December 2005 was on the subsidised employment option. [54973]

Margaret Hodge: New deal options are available through new deal for young people and new deal 25 plus. The latest figures available show that, at the end of August 2005, 16 per cent. of participants on a new deal option were on the subsidised employment option.

Mr. Hurd: To ask the Secretary of State for Work and Pensions what proportion of new deal subsidised employees as at 1 April 2005 were still employed at the end of December 2005. [54974]

Margaret Hodge: The subsidised employment option is available through both new deal for young people and new deal 25 plus. New deal data are calculated to the end rather than the beginning of a calendar month and 86 per cent. of those participating on the new deal subsidised employment option on 31 March 2005 were still in employment at the end of August 2005, which is the latest date for which information is available. This percentage includes some people who were still on the subsidised employment option and others who were no longer on the option, but were recorded as being in employment.[1]

[1] Data available through the Work and Pensions Longitudinal Study.

Mr. Hurd: To ask the Secretary of State for Work and Pensions what proportion of those receiving full-time education and training in 2004 under the new deal left for unsubsidised employment. [54975]

Margaret Hodge: The full-time education and training option is only available for new deal for young people (NDYP). 30 per cent. of people who were receiving full-time education and training in 2004 under NDYP left for unsubsidised employment.

Note:

Latest data on jobs gained through new deal is to August 2005.

Mr. Hurd: To ask the Secretary of State for Work and Pensions what proportion of those on the new deal who chose the option of full-time education and training have completed their course. [54976]

Margaret Hodge: The information is not available.

Mr. Hurd: To ask the Secretary of State for Work and Pensions what proportion of those on the new deal in 2005 chose the option of full-time education and training. [54977]

Margaret Hodge: The new deal full-time education and training option is only available to those participating on the new deal for young people (NDYP). Between January and November[1] 2005, 14 percent. of those on NDYP had participated on the full-time education and training option.

[1] Latest data available are to November 2005.

Mr. Hurd: To ask the Secretary of State for Work and Pensions what the change in youth employment as a result of the new deal was in each year since its launch. [54986]

Margaret Hodge: The new deal has been extremely successful in helping more than one and a half million people into work, including more than 640, 000 young people. Long term youth unemployment has been virtually eradicated and youth claimant unemployment has fallen by two-fifths, to its lowest level for 30 years. There are almost a quarter of a million more young people, aged 18 to 24, in work than there were in 1997.

The number of people gaining a job through new deal for young people is contained in the following table.

	People gaining a job
January-December 1998	72,000
January-December 1999	123,080
January-December 2000	101,770
January-December 2001	82,460
January-December 2002	74,900
January-December 2003	76,580
January-December 2004	74,380
January-August 2005	41,170

Notes:

1. Latest available information on jobs gained through new deal for young people is to August 2005.
2. Figures are rounded to nearest 10.

DWP Information Directorate

Martin Linton: To ask the Secretary of State for Work and Pensions what plans he has to extend the new deal for musicians to theatre artists. [55618]

Margaret Hodge *[holding answer 6 March 2006]:* New deal for musicians is intended to help unemployed aspiring musicians into a sustainable career, either as artists under contract or self-employed artists, within the music industry. It is available to jobseekers who are eligible for either new deal for young people or new deal

25 plus. Up to the end of November 2005, new deal for musicians had helped 3,880 people into unsubsidised employment. There are no plans to extend new deal for musicians to artists other than musicians.

New Deal

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what the average age of new deal for young people leavers who left the programme to commence *(a)* employment, *(b)* a combination of employment and claiming benefits and *(c)* claiming benefits only has been in each year since the scheme began. [56974]

Margaret Hodge: The information is in the table.

Average age of new deal for young people leavers by destination (years)

	Employment	*Employment/Benefits*	*Benefits only*
1998	21	21	21
1999	21	22	22
2000	21	22	22
2001	21	22	21
2002	21	22	21
2003	21	22	21
2004	21	22	21
2005	21	22	21

Notes:

1. The 'Benefits Only' destination includes those leaving to jobseeker's allowance, income support, incapacity benefit, incapacity benefit with income support, and other/unknown benefits.
2. Age is calculated at the point of leaving the programme.
3. Data for 2005 are from January to August.

Information Directorate, DWP

Pay Disregard

Mr. Kidney: To ask the Secretary of State for Work and Pensions if he will increase the lower limit pay disregard. [55734]

Mr. Plaskitt: There are no plans to change the £5 lower limit earnings disregard.

The disregards are designed to achieve a balance between providing an encouragement to undertake part-time work and remain in touch with the labour market, without creating disincentives to full-time work. Too high a level of disregards can increase income from benefits plus part-time work to a point where full-time work becomes less attractive.

Personal Capability Assessments

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions if he will list the centres at which Personal Capability Assessments were conducted; and how many such assessments were carried out at each centre in each of the last six years. [54225]

Margaret Hodge: The Personal Capability Assessment was introduced in April 2000 to replace the All Work Test for Incapacity Benefit. Details of the number of incapacity benefit medical examinations and Personal Capability Assessments completed at each examination centre, including casual hire premises used on an ad hoc basis, from 1999 to 2005 have been placed in the Library.

Post Office Card Account

Mr. Gibb: To ask the Secretary of State for Work and Pensions what reports he has received of Post Office counter staff committing fraud in paying pensions and winter fuel payments using the Post Office card account. [42328]

Mr. Plaskitt: The Department for Work and Pensions has received no reports of Post Office counter staff committing fraud in paying pensions and winter fuel payments using the Post Office card account.

Lynne Featherstone: To ask the Secretary of State for Work and Pensions how many people in each London borough collected their *(a)* pensions and *(b)* benefit payments through the use of a Post Office Card Account in the latest period for which figures are available. [52283]

John Hemming: To ask the Secretary of State for Work and Pensions how many people in Birmingham collect their *(a)* pensions and *(b)* benefit payments through the Post Office card account. [51481]

Mr. Hollobone: To ask the Secretary of State for Work and Pensions how many people in Kettering constituency have a Post Office Card Account; and how many are registered at each Post Office in Kettering constituency. [53834]

Mr. Plaskitt *[holding answer 27 February 2006]:* The information is not available in the format requested.

Information showing the number of DWP benefit and pension payment accounts paid by direct payment into a Post Office card account for each parliamentary constituency has been placed in the Library.

Mrs. Dorries: To ask the Secretary of State for Work and Pensions how many Post Office card accounts have been opened since they were established; and if he will make a statement. [54846]

Mr. Plaskitt: Since April 2003 4,741,295 Post Office card accounts have been opened, of which 4,261,132 were in use at 15 January 2006.

In addition to accounts used by my Department this figure includes Post Office card accounts used by the Northern Ireland Social Security Agency, the Veterans Agency (Ministry of Defence) and Her Majesty's Revenue and Customs.

Mrs. Dorries: To ask the Secretary of State for Work and Pensions what representations he has received regarding the future of Post Office card accounts; and if he will make a statement. [54848]

Mr. Plaskitt: We have received a number of letters on the future of the Post Office card account. We have also answered questions in the House and responded to points raised during debates. We have already set out our policy on the Post Office card account at some

length, including in the reply to the hon. Member for Yeovil (Mr. Laws) on 31 January 2006, *Official Report*, columns 443–44W.

Mr. Drew: To ask the Secretary of State for Work and Pensions how many people in Stroud constituency used a Post Office card account to access *(a)* state pensions or pension credits, *(b)* child benefit and *(c)* other benefits in the latest period for which figures are available. [55425]

Mr. Plaskitt: The information is not available in the format requested.

Information showing the number of DWP benefit and pension payment accounts paid by direct payment into a Post Office card account for each parliamentary constituency has been placed in the Library.

Child benefit and war pensions information is not included as these are the responsibility of HM Revenue and Customs and Ministry of Defence, respectively.

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions pursuant to the answer of 15 February 2006, *Official Report*, columns 2187–88W, on Post Office card accounts, what was the outcome of the pilot schemes; and if he will make a statement. [56386]

Mr. Plaskitt: The pilots began on 13 February 2006 and will be concluded by mid-March. We will then evaluate the results and discuss the findings with the Post Office and other key stakeholders. Our pilots will help ensure that our future payments strategy up to 2010 reflects the needs of our customers.

State Pensions

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the state earnings-related pension scheme/state second pension entitlement would be at current prices for someone working until 2010 after *(a)* one, *(b)* 15 and *(c)* 25 years of national insurance contributions, assuming full-time median earnings. [58593]

Mr. Timms: The information is in the table.

	Additional pension (£)
Entitlement based on 1 years contributions:	2
Entitlement based on 15 years contributions:	34
Entitlement based on 25 years contributions:	56

Notes:
1. All figures have been expressed in 2005–06 earnings terms based on constant median full-time adult earnings.
2. We have assumed standard rate class 1 national insurance contributions have been paid, or treated as paid, during the last 1, 15 and 25 years of the individual's working life.

Unemployment Benefits

Keith Vaz: To ask the Secretary of State for Work and Pensions what the change in the number of people claiming unemployment benefits has been since May 2004. [56907]

Mr. Plaskitt: The information is in the table.

Jobseeker's allowance caseloads: Great Britain, each month—May 2004 to January 2006

	Number
May 2004	829,500
June 2004	820,800
July 2004	808,800
August 2004	805,100
September 2004	806,300
October 2004	806,600
November 2004	802,100
December 2004	795,800
January 2005	784,800
February 2005	788,600
March 2005	802,200
April 2005	813,100
May 2005	827,200
June 2005	834,600
July 2005	836,500
August 2005	839,300
September 2005	850,000
October 2005	863,200
November 2005	873,200
December 2005	877,900
January 2006	876,100

Notes:
1. Figures are seasonally adjusted.
2. Figures are rounded to the nearest hundred.

Source:
Seasonally adjusted count of unemployment-related benefits, Jobcentre Plus computer systems

HEALTH

Alcohol Treatment

Mr. Evennett: To ask the Secretary of State for Health what recent representations she has received on the Welling Alcohol Service Provision project. [57529]

Caroline Flint: Since June 2005 there have been two letters regarding the Welling alcohol service provision in Welling, Kent.

The Government are working hard to improve services for people affected by alcohol misuse. The alcohol harm reduction strategy for England was published on 15 March 2004. The strategy seeks to fulfil the NHS Plan commitment to prevent any further increase in alcohol related harms in England.

I announced on 1 November 2005 the launch of "Alcohol Misuse Interventions: Guidance on developing a local programme of Improvement".

Alzheimer's Disease

Mr. Evennett: To ask the Secretary of State for Health what representations she has received on access to drugs for Alzheimer's disease; and if she will make a statement. [57531]

Jane Kennedy: Since the National Institute for Health and Clinical Excellence (NICE) published its latest appraisal consultation document on the use of Alzheimer's disease drugs on 23 January 2006, aside from correspondence from members of the public, Ministers have received representations from the Faculty of Old Age Psychiatry of the Royal College of Psychiatrists and the Alzheimer's Society. It is for NICE to consider responses to its consultation.

Helen Jones: To ask the Secretary of State for Health what response her Department has received from the National Institute for Health and Clinical Excellence to questions on the procedure for assessing drugs for Alzheimer's disease; and if she will place a copy of the responses in the Library. [58385]

Jane Kennedy: The National Institute for Health and Clinical Excellence (NICE) has consulted on revised draft guidance on drugs for the treatment of Alzheimer's Disease. The consultation ended on 13 February 2006. NICE has not yet finalised its revised guidance to the NHS, and until this new guidance is published in its final form NICE'S existing appraisal of Aricept, Exelon and Reminyl continues to apply. NICE normally addresses stakeholder comments in its final appraisal determination (FAD) documents. The FAD on drugs for the treatment of Alzheimer's disease is expected to be published later this year.

Beef Procurement

Mr. Spellar: To ask the Secretary of State for Health how much beef was procured last year through framework agreements established by the NHS Purchasing and Supply Agency, broken down by country of origin. [54093]

Jane Kennedy: The table shows beef procured for 2004–05 by country of origin through NHS Purchasing and Supply Agency framework agreements.

	Total (£)
Argentina	572.00
Australia	21.00
Botswana	112,114.38
Brazil	12,352.40
Denmark	12,815.59
France	156,580.91
Germany	145,011.83
Holland	53,791.60
Ireland	485,093.65
Italy	2,468.00
New Zealand	1,840.17
Namibia	79,425.43
South Africa	36,106.71
Spain	1,029.00
United Kingdom	1,650,810.52
Uruguay	179,582.94
Not Specified	8,957.23
Grand Total	2,938,573.35

Although beef is traceable, a small number of suppliers have not yet provided the country of origin within their sales reports and has been noted separately in the figures.

The framework agreement incorporating beef is used to supply approximately 70 per cent. of the requirements of the national health service in England for beef and aims to deliver best value for money in terms of price, quality and service from contracted suppliers.

Benzene

Chris Ruane: To ask the Secretary of State for Health what assessment she has made of *(a)* nutrient levels in organic baby foods and *(b)* the incidence of benzene in drinks marketed for children. [56990]

Caroline Flint: Minimum levels of some nutrients in certain baby foods are defined in law. The Food Standards Agency (FSA) has not carried out an assessment of nutrient levels in organic baby foods. The FSA would expect to see a range of nutrient contents in baby foods, due to differences in recipes and manufacturing practices.

The FSA received a report from the soft drinks industry summarising the analysis of over 200 products for benzene. The levels of benzene reported were very low and not a concern for public health. Nevertheless, the FSA is carrying out its own survey of benzene in soft drinks on sale in the United Kingdom market and aims to publish the results within four weeks.

Benzodiazepine Addiction

Jim Dobbin: To ask the Secretary of State for Health if she will take steps to register benzodiazepine dependence as a long-term condition under the National Service Framework. [53562]

Caroline Flint: The intention of the national service framework (NSF) for long-term conditions is not to address individual neurological conditions, but to describe the level of care health and social care organisations should be working towards for anybody with a long-term neurological condition. While the NSF focuses on long-term conditions that are neurological in origin, guidance does stress the importance of using the NSF in planning service developments for people with other long-term conditions. Benzodiazepine dependence will not be a life-long condition for many sufferers.

Those with benzodiazepine dependence can access services in primary and secondary care through their general practitioner. Services available in primary care may include prescribing, advice, counselling, psychological therapy (individual or group) and anxiety management or approaches to sleep problems. We are taking steps to strengthen primary care mental health provision through the appointment of new staff and by improving training.

In secondary care, services for people with more complex symptoms should be available through community mental health teams or through more specialised drug action teams.

Biobank Project

Mr. Ian Austin: To ask the Secretary of State for Health what Government support has been committed to the Biobank project; what progress has been made with the project; and if she will make a statement. [56998]

Jane Kennedy: The Government are contributing £33.5 million toward the cost of UK Biobank.

The project is on course to begin participant recruitment for its main study in the autumn of this year. The first phase of pilot studies to test the feasibility and acceptability of the questionnaires and assessment centre visits has been successfully completed. The second phase, which will test the full integrated process from participant identification, consent procedures and assessment centre measures to the storage of data and samples, is due to begin this month.

Cancer

Mr. Baron: To ask the Secretary of State for Health when her Department's repeat analysis of variations in the use of cancer drugs approved by the National Institute for Health and Clinical Excellence will be concluded; and when she plans to make the findings publicly available. [58093]

Ms Rosie Winterton: *[holding answer 13 February 2006]:* Information from this exercise is currently being analysed and the findings should be available in the summer.

Cheshire and Merseyside Strategic Health Authority

Rosie Cooper: To ask the Secretary of State for Health what clinical negligence payments were made by hospitals trusts within the Cheshire and Merseyside strategic health authority in 2004–05. [56405]

Mr. Byrne: I refer my hon. Friend to the reply I gave on Tuesday 22 November 2005, *Official Report*, column 1802W.

Chlamydia

Dr. Stoate: To ask the Secretary of State for Health what progress has been made in transferring responsibility for the National Chlamydia Screening Programme from her Department to the Health Protection Agency. [50683]

Caroline Flint: The Health Protection Agency is currently recruiting staff and we expect the full transfer should be completed in the very near future.

Contraception

Mr. Amess: To ask the Secretary of State for Health how much North Devon primary care trust has spent on training pharmacists in the use of the morning-after pill in each of the last five years for which figures are available; and how much they plan to spend in each of the next three years. [57594]

Caroline Flint: The information requested is not held centrally. It is for North Devon primary care trust to decide how much to spend on training pharmacists in the use of the morning-after pill, as local national health service organisations in conjunction with their strategic health authorities are responsible for planning services for local people.

Dentistry

Mr. Harper: To ask the Secretary of State for Health on what dates *(a)* she has and *(b)* her officials have met the (i) British Dental Association, (ii) the Dental Practitioners Association and (iii) dentists to discuss the new General Dental Services contract; and what matters were raised. [51633]

Ms Rosie Winterton: Over the past six months, I met with the British Dental Association (BDA) on 6 July, 1 December 2005 and 14 February 2006. I met with the Dental Practitioners Association (DPA) on 15 March 2005.

Over the last year, the acting Chief Dental Officer has met with the BDA on the following dates: 21 February, 6 April, 13 July, 6 and 28 October and 30 November 2005. A further 12 informal meetings have also been held on 9 and 29 March, 26 May, 8 June, 6 and 29 July, 3 August, 12 September, 5 October 2005, 6 January and 3 February 2006.

The acting Chief Dental Officer met with the DPA on 23 February, 15 March and 21 October 2005.

In the last six months, the acting Chief Dental Officer has attended 31 meetings with dentists across England.

The meetings have covered a wide range of issues, including the draft regulations governing the new general dental services contracts and personal dental services agreement, the regulations governing the new system of patient charges, the proposed transitional provisions and the calculation of units of dental activity.

Diabetes

Mr. Dunne: To ask the Secretary of State for Health (1) what assessment she has made of the capacity of Wockhardt to meet demand from diabetes patients for natural animal insulins when it becomes the only supplier of animal insulin in the UK; [56920]

(2) what assessment she has made of the likely effects on UK supplies of animal insulin of the level of imports to the EU and US for personal use; [56923]

(3) what steps she is taking to ensure there is no disruption to the *(a)* supply and *(b)* production of animal insulins in the UK; [56924]

(4) what steps she is taking to guarantee the supply and availability of animal insulins; and whether these supplies can be guaranteed until 2010: [56917]

Jane Kennedy: The Department is in regular contact with Wockhardt UK. The company has assured the Department of its commitment to continue the supply of its animal insulins in the United Kingdom. It has also given assurance that it will be able to meet any increased demand when NovoNordisk's products are no longer available. Demand from other European Union countries and the United States for personal use is insignificant compared to UK requirements, but will be taken into consideration as part of Wockhardt's forward planning. It is building up stocks to cover increased demand and any unforeseen short term manufacturing issues that might arise.

Mr. Dunne: To ask the Secretary of State for Health what assessment has been made of the cost-effectiveness of the new long-acting insulin, placed on the market after the initial National Institute for Health and Clinical Excellence (NICE) guidance published in 2002; and whether the forthcoming NICE review will include such an assessment. [56922]

Jane Kennedy: The National Institute for Health and Clinical Excellence has proposed that detemir insulin should be appraised separately through its new single technology appraisal process.

Sandra Gidley: To ask the Secretary of State for Health whether the initial National Institute for Health and Clinical Excellence guidance on the use of long-acting insulin analogues published in November 2002 is under review; and if she will make a statement. [56941]

Jane Kennedy: I understand that the National Institute for Health and Clinical Excellence is reviewing technology appraisal guideline issued in December 2002 on long-acting insulin analogues in the context of developing a clinical guideline on type two diabetes and updating its clinical guideline on type one diabetes.

E.coli 0157

John McDonnell: To ask the Secretary of State for Health how many outbreaks of E.coli 0157 occurred in *(a)* 2003, *(b)* 2004 and *(c)* 2005. [56073]

Caroline Flint: The information requested is shown in the table.

General outbreaks of Vero cytotoxin-producing E. coli 0157 infection in England and Wales 2003–05

	All outbreaks	*Foodborne outbreaks*
2003	5	1
2004	11	1
2005[1]	7	2

[1] 2005 data are provisional.

Source:
Health Protection Agency

Elective Treatment

Frank Dobson: To ask the Secretary of State for Health whether an estimate was made by her Department of the cost to the NHS of locally provided independent sector elective treatment as part of its analysis of the NHS budget overspend for 2005–06. [53631]

Jane Kennedy: *[holding answer 27 February 2006]*: No such estimate was made.

Information collected centrally on expenditure on purchase of healthcare from non national health service bodies includes spend on NHS services in the independent sector. However, as this information is not broken down by type of service, it is not possible to identify costs of locally procured independent sector elective treatment from other services such as mental health and nursing care.

Eye Tests

James Duddridge: To ask the Secretary of State for Health what steps she is taking to encourage take-up of free eye tests amongst *(a)* groups with an increased genetic risk of developing glaucoma and *(b)* people with diabetes. [53764]

Ms Rosie Winterton: *[holding answer 27 February 2006]*: The arrangements for providing help with national health service optical services and other health costs are publicised in leaflet HC11 "Are you entitled to help with health costs?" Posters are also available for display in optical practices and hospital out-patient departments.

Glaucoma was referred to the National Institute for Health and Clinical Excellence (NICE) in November 2005. NICE will prepare a clinical guideline on the diagnosis and management of raised intraocular pressure and ocular hypertension.

Screening for diabetic retinopathy is a priority for primary care trusts with a target in the priorities and planning framework 2003–06 and the diabetes national service framework delivery strategy for 80 per cent. of people to be offered screening for the early detection (and treatment if needed) of diabetic retinopathy by the end of March 2006 rising to 100 per cent. by the end of 2007.

Foster Review

David Tredinnick: To ask the Secretary of State for Health when the Government expect to publish the outcome of the Foster Review of non-medical healthcare regulation. [58171]

Jane Kennedy: I refer the hon. Member to the reply I gave the hon. Member for Romsey (Sandra Gidley) on Monday 13 February 2006, *Official Report*, column 1765W.

General Practitioners' Premises

Frank Dobson: To ask the Secretary of State for Health what percentage of general practitioners' premises in each primary care trust area in London were above minimum standards on the last date for which figures are available. [52308]

Jane Kennedy *[holding answer 27 February 2006]*: Primary care trusts (PCTs) and predecessor organisations, have responsibility for managing delivery of services provided by general practitioners (GPs); including the adequacy of their practice premises from which to provide.

Data are not collected in the format requested. The data shown in the table are of PCT assessments of GP premises below minimum standards as at 31 March 2005. The data are also expressed as a percentage.

The 2005 snapshot by PCTs shows that collectively they have judged many GP premises across London as being below minimum standards. This needs to be set in context in that judgements for some of those standards are subjective which by their very nature may lead to some PCTs reporting higher levels of premises that Jo not meet minimum standards than other PCTs with similar premises.

In addition, failure is not about buildings being in a dangerous state of repair. Rather, that the premises may not have for example, adequate access to and within premises and WC facilities for disabled patients and staff.

This is not because of a lack of intent by GPs practices and their PCTs to provide these facilities but because for example, the building is too small to incorporate them; with a general lack of suitable, alternative locations to develop. These are historic problems for London and other inner city PCTs that prevents investment in smaller business buildings including the development of modern GP and wider primary care premises.

Nevertheless, the NHS plan set targets to substantially improve or replace up to 3,000 general practitioner premises and provide 500 one-stop primary care centres by 2004. These national targets were achieved with 462 premises improvements and 45 one-stop primary care centres produced or being developed across London. These resulted in improved patient-work environments/made additional services available to patients.

For the longer term, across the London area all PCTs apart from Kensington and Chelsea PCT, and Westminster PCT are part of NHS LIFT. This, in its initial phase, has delivered to date 14 new buildings open to patients with another 18 under construction. These are not like-for-like replacements but modern super-surgeries that co-locate a range of primary, community and social care services with others normally provided in hospital settings.

Examples include Newham PCT, who are through City and East London LIFT delivering a wider range of services to patients. The Centre, Manor Park houses three GP practices, health visitors, dentists, pharmacy, cardiology clinic, x-ray facilities, pathology services, optometry services and a healthy living cafe together in a single, one-stop centre.

Another is Hounslow PCT, who are through Ealing, Hammersmith and Hounslow LIFT, developing the Thelma Golding Centre that will open to patients in early 2007. This will relocate three GP practices (11 GPs) alongside community and PCT services, such as smoking cessation, speech and language therapy, alongside London borough of Hounslow Social Services child and adult mental teams.

As LIFT establishes a long-term partnership between the public and private sectors it will support the continued development of a health and social care estate that is fit for purpose to deliver 21st century services.

PCT returns on 31 March 2005 of the number of general practitioner premises below minimum standards.

Health Services (Gloucestershire)

Mr. Laurence Robertson: To ask the Secretary of State for Health how much money has been redirected from Gloucestershire to Avon and Wiltshire in each year since the creation of the strategic health authority; and if she will make a statement. [57576]

Caroline Flint: I am informed by Avon, Gloucester and Wiltshire strategic health authority (SHA) that no funds have been redirected from Gloucestershire to Avon and Wiltshire since the creation of the SHA in 2001.

Mr. Laurence Robertson: To ask the Secretary of State for Health what assessment she has made of the *(a)* reasons for and *(b)* plans to address the budget deficits in (i) two of Gloucestershire's primary care trusts and (ii) the Gloucestershire hospitals NHS trust; and if she will make a statement. [57613]

Caroline Flint: It is the responsibility of strategic health authorities (SHAs) to manage local finances.

In organisations that have the greatest financial challenges turnaround teams will support the national health service in identifying opportunities to deliver services with greater cost-effectiveness and to make financial savings. They will help the local NHS ensure that the NHS delivers both its key targets and financial balance.

The first stage of this is a baseline assessment, the aim of which is to ensure there is an agreed understanding of the local financial problem and that actions are in hand to address this. The first phase of this assessment is complete and Cotswold and Vale primary care trust was included in this assessment. It was assessed as requiring additional expertise to support turnaround. The team is agreeing a tailored package of turnaround support with the SHA and the organisation. SHA turnaround work is led by the new finance director, who took up post last December.

Hepatitis C

Mr. Lansley: To ask the Secretary of State for Health pursuant to the written answer of 24 November 2005,

Official Report, column 2279W, on hepatitis C, in what settings other than genito-urinary medicine clinics opportunistic testing for hepatitis C takes place; in how many settings people can be anonymously tested for hepatitis C infection; what plans she has to increase the number of *(a)* settings and *(b)* sites where people can be tested; and if she will make a statement. [57442]

Caroline Flint: Surveillance of hepatitis C testing by the Health Protection Agency indicates that opportunistic testing for hepatitis C may take place in a range of health care settings other than genito-urinary medicine clinics, including accident and emergency departments; antenatal clinics; drug services; fertility clinics; gastroenterology departments; general practice surgeries; haematology departments; infectious disease departments; occupational health departments; prisons and renal units.

Information on the total number of settings where people can be anonymously tested for hepatitis C infection is not held centrally.

The Department has been running an awareness campaign for health care professionals, which encourages them to offer hepatitis C testing to individuals at increased risk of infection. To support this, the Department has published guidance on hepatitis C testing.

The provision of hepatitis C testing facilities is a matter for local national health service organisations who are best placed to assess local needs and priorities.

Homeopathic Doctors

Margaret Moran: To ask the Secretary of State for Health what estimate she has made of the number of statutory regulated homeopathic doctors who practise independently who may *(a)* deregister and *(b)* close practices as a result of the cost of registering with the Healthcare Commission; and what assessment she has made of the potential impact on (i) patient choice and (ii) safety. [55688]

Jane Kennedy: No such estimate has been made. Only homeopaths who are also medical practitioners will be registered with and regulated by the Healthcare Commission. The chairman of the Healthcare Commission has confirmed that the Commission does not have data on how many such practitioners are registered with it.

Hospital Cleaning

Mr. Lansley: To ask the Secretary of State for Health if she will make a statement on the cleaning of equipment in hospitals which is provided by suppliers of in-hospital patient entertainment services. [57727]

Jane Kennedy: There are now over 77,000 bedside television and telephone systems installed in national health service hospitals. The service providers are responsible for ensuring that these systems are cleaned. The cleaning specification and frequency are agreed between the NHS trust and service provider.

In a small number of hospitals, responsibility for cleaning has been assumed by the hospital or its cleaning contractor.

The efficiency of the current arrangements for cleaning the systems are being assessed as part of a wider review being carried by the Department as a result of recommendations made by Ofcom in a investigation into the price of making telephone calls to hospital patients it concluded on 17 January 2006.

Hospital-acquired Infections

Mr. Laurence Robertson: To ask the Secretary of State for Health how many people have contracted infections in hospitals in Gloucestershire in each of the last 10 years for which figures are available; and if she will make a statement. [57577]

Caroline Flint: Available data indicate that healthcare associated infections (HCAIs) affect an estimated 9 per cent. of hospital patients each year.

Information on all infections is not collected centrally. However, the mandatory surveillance system in operation for certain infections provides data by acute trusts and these results are available on the Department websites as follows:

	Website
Methicillin-resistant *Staphylococcus aureus* (MRSA) bacteraemia	www.dh.gov.uk/assetRoot/04/12/79/13/04127913.pdf
Clostridium difficile associated diarrhoea	www.dh.gov.uk/assetRoot/04/11/83/61/04118361.pdf
Glycopeptide resistant enterococci bacteraemia	www.dh.gov.uk/assetRoot/04/11/83/59/04118359.pdf
Orthopaedic surgical site infections	www.dh.gov.uk/assetRoot/04/12/22/59/04122259.pdf

Data are available on MRSA bloodstream infections from 2001, for Clostridium difficile associated diarrhoea and orthopaedic surgical site infections from 2004 and for Glycopeptide resistant enterococci bloodstream infections from 2003.

Human Fertilisation and Embryology Act

Mr. Lansley: To ask the Secretary of State for Health when she will publish her response to the consultation on the review of the Human Fertilisation and Embryology Act 1990; and when she expects legislation updating the Act will be brought forward. [57657]

Caroline Flint: The Department's consultation on the review of the Human Fertilisation and Embryology Act 1990 closed on 25 November 2005. We intend to publish a summary of the responses received shortly. Copies of the responses and the summary will be placed in the Library.

Any plans to introduce legislation will be announced in the Queen's Speech.

Immunisation

Steve Webb: To ask the Secretary of State for Health if she will publish the figures referred to on page 104 of "Our health, our care, our say" reference five, on the number of general practices opted out of immunisation service provision, broken down by *(a)* primary care trust and *(b)* deprivation level. [53604]

Caroline Flint: The information is not available in the form requested.

The analysis looked at the proportion of general medical services (GMS) partnerships in England opting out of childhood immunisation services as at 30 September 2004, by deprivation using the index of multiple deprivation (2004 at primary care trust (PCT) level) and in the spearhead group of PCTs.

The vast majority of GMS partnerships (93.7 percent.) had not opted out. However, a clear gradient in the proportion of partnerships opting out was seen, with the proportion opting out increasing with increasing deprivation.

The spearhead group had a higher than average proportion of partnerships opting-out, lying between the most and second most deprived fifth of PCTs.

Life Expectancy

David Simpson: To ask the Secretary of State for Health what research she has commissioned on the main health factors affecting differences in life expectancy in different regions. [56419]

Caroline Flint: Research has not been commissioned on the main health factors affecting differences in life expectancy between different regions. Research considering variations within regions may have been commissioned at local level.

London Ambulance Service

Mr. Randall: To ask the Secretary of State for Health what the *(a)* cash terms and *(b)* percentage change in funding to the London Ambulance Service was in each year since 1995. [57087]

Jane Kennedy: This information is not held in the format requested.

However, the table shows figures for the London Ambulance Service national health service trust for the years 1997–98 to 2004–05, the latest year for which data is available. The figures are total income, which includes all income from activities and all other operating income for each year.

NHS trusts do not normally receive funding directly from the Department but receive income for service provision from primary care trusts and, previously, from health authorities.

	Total income (£ thousand)	*Increase year on year (percentage)*
1997–98	105,814	—
1998–99	107,964	2.0
1999–2000	116,759	8.1
2000–01	123,578	5.8
2001–02	135,775	9.9
2002–03	160,750	18.4
2003–04	168,508	4.8
2004–05	192,588	14.3

Note:
This information is not held prior to 1997–98.
Source:
Audited summarisation schedules of the London Ambulance Service NHS Trust.

MRSA

Mrs. Riordan: To ask the Secretary of State for Health what estimate she has made of the percentage of *(a)* the general population and *(b)* health workers who are carriers of MRSA. [55740]

Jane Kennedy: There is only limited evidence on the proportion of methicillin-resistant "Staphylococcus aureus" carriage in the general population or healthcare workers.

Mr. Gibb: To ask the Secretary of State for Health if she will take steps to introduce the use of colloidal silver as the standard treatment for MRSA infections. [56242]

Jane Kennedy: Clinicians are responsible for determining appropriate therapies for methicillin-resistant *Staphylococcus aureus*. The Department are not aware of any peer reviewed or clinical trial evidence that colloidal silver is an effective treatment for this or other healthcare associated infections. Although colloidal silver has antimicrobial properties, it is not used as an alternative to antibiotics because of its toxicity.

Mr. Hancock: To ask the Secretary of State for Health how many MRSA cases there were in *(a)* Royal Surrey and *(b)* Frimley Park hospital in Surrey in each of the last three years. [58320]

Caroline Flint: The information for methicillin resistant "Staphylococcus aureus" (MRSA) figures at Frimley Park hospital and Royal Surrey county hospital for each of the last three years is shown in the table.

	Last six months			
Trust name	*April 2002-March 2003*	*April 2003-March 2004*	*April 2004-March 2005*	*April 2005-September 2005*
Frimley Park hospital	35	49	29	14
Royal Surrey county hospital	35	28	26	14

Source:
MRSA mandatory surveillance. Data was produced by the Health Protection Agency Communicable Disease Surveillance Centre for the Department of Health.

NHS Trusts

Mr. Stephen O'Brien: To ask the Secretary of State for Health which NHS trusts paid 95 per cent. of undisputed invoices within contract terms on *(a)* 60 days, *(b)* 90 days and *(c)* 120 days where no terms have been agreed in the last period for which figures are available; what the value of those invoices was in each case; which NHS trusts did not pay 95 per cent. of undisputed invoices within contract terms or 120 days where no terms have been agreed in that period; and what the value of those invoices was. [57526]

Jane Kennedy: National health service trusts are required to report on their performance against the better payment practice code (BPPC) in their individual final accounts. The BPPC target stipulates that all NHS trusts, primary care trusts and strategic health authorities must pay 95 per cent. of bills within contract terms or 30 days where no terms have been agreed.

The data requested are not collected centrally by the Department.

However, data on both the number of bills paid within the BPPC target and the value of those bills from the 2004–05 final accounts are available in the Library.

NHS Trusts (Oxfordshire)

Mr. Andrew Smith: To ask the Secretary of State for Health by what dates she expects each of the trusts serving Oxfordshire to have *(a)* determined and *(b)* published its budget for 2006–07. [58283]

Caroline Flint: Each strategic health authority (SHA) will set their own timetable for agreeing the plans prior to submitting them to the Department.

Thames Valley SHA expects its trusts and primary care trusts to take an interim budget paper to their boards in March and a final one in April.

The Department is expecting the SHAs to submit financial plans for 2006–07 on 20 April 2006.

Nurses

Mr. Hurd: To ask the Secretary of State for Health how many full-time equivalent nursing vacancies there are in the North West London strategic health authority area. [57367]

Jane Kennedy: The table shows national health service three-month vacancies in the North West London strategic health Authority area by organisation for qualified nursing, midwifery and health visiting staff as at 31 March 2005 which are the latest figures available.

Health and Social Care Information Centre Vacancies Survey March 2005 NHS three month vacancies in the North West London strategic health authority area by organisation for qualified nursing, midwifery, and health visiting staff.

[1] Zero

Notes:

Three month vacancy

1 Three month vacancy information is as at 31 March 2005

2 Three month vacancies are vacancies which Trusts are actively trying to fill, which had lasted for three months or more (whole time equivalents)

3 Three month vacancy rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post

4 Three month vacancy rates are calculated using staff in post from the Non-Medical Workforce Census September 2004

5 Percentages are rounded to one decimal place

Staff in post

1 Staff in post data are from the Non-Medical Workforce Census September 2004

General

1 Vacancy and staff in post numbers are rounded to the nearest whole number

2 Calculating the vacancy rates using the above data may not equal the actual vacancy rates

3 Due to rounding, totals may not equal the sum of component parts

4 Strategic health authority figures are based on Trusts, and do not necessarily reflect the geographical provision of healthcare

Health and Social Care Information Centre Vacancies Survey March 2005

Health and Social Care Information Centre Non-Medical Workforce Census September 2004

Obesity

Mr. Jim Cunningham: To ask the Secretary of State for Health (1) how much has been spent by her Department on campaigns to raise awareness of the health effects of obesity in the last three years; [48611]

(2) how much has been spent by her Department on campaigns to raise awareness of the health effects of lack of exercise in the last three years. [48612]

Caroline Flint *[holding answer 7 February 2006]:* As committed in "Choosing Health", a project team is currently working with stakeholders to develop an obesity social marketing programme for launch in early 2007. The objective will be to prevent unhealthy weight gain in children aged two to 10, by influencing their parents and carers to make healthier choices on food and physical activity.

More broadly, the 5 A DAY programme, the Food Standards Agency's salt campaign, and Sport England's Everyday Sport programme have helped to raise awareness of healthy nutrition and physical activity. £2 million was spent on the 5 A day programme by the Department in 2005–06.

PCT Efficiency Savings

Mr. Kenneth Clarke: To ask the Secretary of State for Health by whom and on what basis certain primary care trusts have been instructed to bank their target of efficiency savings in the next financial year with the relevant strategic health authority; and for what purposes strategic health authorities are being authorised to extend the funds collected in this way. [58532]

Jane Kennedy: The requirement for National Health Service organisations to bank reserves with their strategic health authority (SHA) was announced by the Department in "The NHS in England: the operating framework for 2006/07".

The amount of reserve to be banked and the terms of the agreement will be agreed with their SHA. SHAs are responsible for the financial management of the organisations within their area and for delivering financial planning targets agreed with the Department. Holding financial reserves is a prudent approach to financial management, so the Department is encouraging SHAs to hold reserves because it will help them deliver their financial targets.

PFI Contracts

Lynne Featherstone: To ask the Secretary of State for Health what criteria are used when deciding whether the NHS should indemnify a liability in the negotiation of private finance initiative contracts; and if she will make a statement. [54832]

Jane Kennedy: Most of the terms of a national health service private finance (PFI) contract are determined by the NHS standard form PFI contract. This is based on HM Treasury guidance and sound commercial principles.

There are clauses in the NHS standard form where indemnities are given by the NHS to the private sector contractor. For example, if the NHS causes deliberate damage to the contractor's property, it must indemnify the contractor against the costs. There is a similar indemnity provided by contractors if they cause damage to NHS property. Such terms are commonplace in any commercial contract.

Occasionally there are circumstances specific to individual schemes in which the NHS provides an indemnity to its contractor. An example would be where there are problems with NHS land. If it is difficult to quantify the risk, but the problem has been created by the NHS, it is often better value for money to offer an indemnity than to ask the private sector to price for the risk. These cases are rare and the NHS does not offer such indemnities without following HM Treasury guidance or taking professional advice. The terms of the contract would also need to be approved by the Department.

Sexually Transmitted Diseases

Dr. Kumar: To ask the Secretary of State for Health what plans her Department have to introduce specific funding to raise sexual health awareness in areas where rates of diagnosis for sexually transmitted diseases and infections are high. [57044]

Caroline Flint: Specifically funded, locally focused awareness raising on sexual transmitted infections is a matter for each primary care trust. The Department already funds the Terrence Higgins Trust and the African HIV policy network to deliver HIV awareness raising campaigns for gay men and African communities, and the Family Planning Association for information resources on sexual health for the general population.

Soft Drinks (Benzene)

Mr. Lansley: To ask the Secretary of State for Health what discussions she has had with the Food Standards Agency regarding levels of benzene in soft drinks; whether she plans to introduce a maximum permissible limit for the quantity of benzene found in soft drinks; whether such a limit has existed in the past 30 years; and if she will make a statement. [57724]

Caroline Flint: The Food Standards Agency (FSA) has informed me that the levels of benzene reported were not a concern for public health. On average people breath in 220 micrograms of benzene each day, which is the equivalent of drinking more than 27 litres of soft drinks containing the highest level of benzene reported. Nevertheless, the FSA is carrying out its own survey of benzene in soft drinks and will consider what action may be needed to further reduce benzene levels. Limits on the amount of sodium benzoate, a food preservative from which the benzene is considered to have been derived, have existed for many years, the most recent limit was introduced in 1996.

Temozolomide

Mr. Kemp: To ask the Secretary of State for Health how many patients in England have been prescribed the brain tumour drug temozolomide on the NHS. [57683]

Jane Kennedy: Information on the number of patients that have been prescribed temozolomide on the national health service is not available.

Traditional Herbal Medicinal Products

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) when Ministers last met stakeholders to discuss costs associated with the implementation of the Traditional Herbal Medicinal Products Directive; and when the next meeting is planned to take place; [57502]

(2) what estimate the Medicines and Healthcare Products Regulatory Agency has made of the likely number of applications for registrations under the Traditional Herbal Medicinal Products Regulation it will need to process prior to the legislation coming into force; and what steps it is taking to minimise the cost burdens for small and medium-sized enterprises involved in this process; [57504]

(3) how many businesses the Medicines and Healthcare Products Regulatory Agency has met to discuss the implementation of the Traditional Herbal Medicinal Products Regulation; what issues were raised; and what steps the Agency is taking to address them. [57505]

Jane Kennedy: Ministers met stakeholders on a number of occasions during the negotiations on the directive on traditional herbal medicinal products, but have not subsequently had a meeting on the costs associated with implementing the directive. The need for a further meeting will be kept under review in the light of experience of operating the new regulatory arrangements.

The Medicines and Healthcare products Regulatory Agency (MHRA) has held around 65 meetings with individual companies. The main issue discussed at most of these meetings has been how companies can most effectively target their preparations to register products. The MHRA has also regularly met the industry's herbal forum. In these discussions, subjects covered have included the technical requirements set out in European guidelines as well as a wide range of other specific issues relating to the directive on traditional herbal medicinal products. The focus has been on containing regulatory impact to the minimum necessary to protect public health and to comply with the legislation. Outcomes have included workshops, updates to MHRA's website guidance and advice on how interested parties can raise issues with the relevant European scientific and regulatory committee, the committee on herbal medicinal products.

The registration scheme for traditional herbal medicines was launched in October 2005. The MHRA has made no estimates of the likely number of applications as many companies have indicated they intend to decide how many products to register in the light of early experience of the scheme. Illustrative figures were given in the final regulatory impact assessment.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what level of fees the Medicines and Healthcare Products Regulatory Agency plans to set in relation to the submission of dossiers for Traditional Herbal Medicinal Products Registrations by small and medium-sized enterprises; and if she will make a statement. [57503]

Jane Kennedy: The fees for registering traditional herbal medicines are set out in the Medicines for Human Use (Fees Amendments) (No. 2) Regulations 2005. The fees were set following a public consultation.

Vaccination/Immunisation

John Mann: To ask the Secretary of State for Health when the last occasion was on which her Department rejected recommendations from the Joint Committee on Vaccination and Immunisation. [54824]

Caroline Flint: In 1986, the then Secretary of State asked the Joint Committee on Vaccination and Immunisation (JCVI) to reconsider its recommendation on which groups should be offered hepatitis B vaccination. The JCVI reviewed its list and resubmitted a modified list. This was accepted by the Secretary of State.

EDUCATION AND SKILLS

Aiming High Programme

John Bercow: To ask the Secretary of State for Education and Skills what the expenditure to date has been on the Aiming High programme; and what assessment she has made of its impact. [53613]

Jacqui Smith: The expenditure on the Aiming High Programme in 2004–05 was £4.8 million and we expect to spend a similar amount in 2005–06.

The first 18 months of Aiming High focused on small scale pilot programmes designed to test new approaches to raising minority ethnic achievement. The findings from these pilots, which have been on the whole very positive, have informed the roll out of larger national programmes. These programmes are at their early stages and it is too early to assess their impact. However, the attainment gap between the average for all pupils in maintained schools and previously under-achieving minority ethnic pupils has narrowed since 2003.

Apprenticeships

Chris Ruane: To ask the Secretary of State for Education and Skills how many people were on *(a)* modern apprenticeships and *(b)* other apprenticeship courses in each local authority area in each of the last 20 years. [46076]

Phil Hope: The information has been placed in the Libraries.

Asbestos (Schools)

Mr. Cox: To ask the Secretary of State for Education and Skills what assessment her Department has made of the prevalence of the practice of inserting drawing pins and staples into asbestos insulating boards in schools; what steps her Department is taking to communicate the potential health risks associated with this practice to schools; if she will update the asbestos guidance for schools *(a)* to emphasise that this practice should cease immediately and *(b)* to reflect the conclusions of the WATCH Committee (WATCH/2006/2) once its final report is published; and if she will make a statement. [57253]

Jacqui Smith: DfES has made no assessment of the practice of inserting drawing pins into asbestos insulating boards but is aware that various assessments were considered by the recent Health and Safety Commission's WATCH Committee. We are waiting for the Watch Committee final report and will be meeting the HSE and other education stakeholders to discuss the issues raised. We will also be considering with the HSE what actions need to be taken in the light of the findings of the Watch Committee. This may include updating HSE and DfES advice concerning asbestos management in schools.

Asylum-seeking Children

Jenny Willott: To ask the Secretary of State for Education and Skills how many asylum-seeking children were enrolled in secondary schools in England in *(a)* 1995, *(b)* 2000, *(c)* 2004 and *(d)* 2005; and if she will make a statement. [57612]

Jacqui Smith: The requested information is not collected centrally.

Child Protection

Mr. Gibb: To ask the Secretary of State for Education and Skills what progress has been made towards implementing the recommendations of the second joint chief inspectors' report on arrangements to safeguard children, published on 10 June 2005. [47122]

Maria Eagle: The second joint chief inspectors' report on arrangements to safeguard children was published on 14 July 2005. The Government published its response to the recommendations contained in the report on 2 March 2006. The response includes an action plan which sets out the actions the Government will take to address the chief inspectors' recommendations and the timescales for this work. The action plan should be incorporated into the forward work programmes of the relevant Government Departments.

Annette Brooke: To ask the Secretary of State for Education and Skills what recent advice she has given to further education colleges on criminal record checks *(a)* on staff employed at the colleges and *(b)* in relation to work placements of their students. [54278]

Bill Rammell: 'Safeguarding Children in Education' was issued in September 2004. Two sets of supplementary guidance followed: 'Supplementary DfES Guidance for Work Experience Organisers' was issued in December 2004 and 'Safeguarding Children: Safer Recruitment and Selection in Education Settings' was issued in June 2005. The latter should be read alongside 'Child Protection: Preventing Unsuitable People from Working with Children and Young Persons in the Education Service', which was issued in May 2002. The target audience for this material was Corporations and Principals of Further Education Institutions, as well as Local Education Authorities, Governing Bodies and Headteachers of Schools, and Supply Agencies.

The 'Child Protection' guidance states that:

"Teachers, other staff and volunteers whose job involves regularly caring for, training, supervising or being in sole charge of children under 18 should obtain an Enhanced Disclosure [from the Criminal Records Bureau]. This includes applicants for teacher training courses, and trainee teachers."

'People who are selected for appointment to a position in which the normal duties involve regular contact with children under the age of 18 in a further education institution [who does not fall into the categories above] should obtain a Standard Disclosure. This is also the appropriate level of disclosure for a Governor.'

'Students who are required to work with children as a necessary part of a training course, eg student teachers, nursery nurses, etc, will need to be checked when they are accepted onto the course.'

'Agencies should obtain an Enhanced Disclosure in respect of all supply teachers they recruit ... and should obtain a fresh Enhanced Disclosure every 3 years, or earlier if the teacher has a break in service of 3 months or more, or if there are grounds for concern about the person's suitability to work with children.'

The Supplementary Guidance for Work Experience Organisers gives guidance on the different circumstances in which it would be appropriate to carry out CRB checks of individuals, in organisations where students will be on long-term work experience placements. It makes clear that the responsibility for the CRB checks lies with the LEA, school or FE institution.

Childcare

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what progress has been made towards *(a)* introducing an effective light-touch child care approval scheme, *(b)* increasing the take-up of formal child care by lower income working families by 50 per cent. by 2008 and *(c)* increasing the amount of Ofsted-registered child care by 10 per cent. by 2008. [58027]

Beverley Hughes: There is a Public Service Agreement (PSA) target to contribute to reducing the proportion of children living in households where no one is working, by 2008. Progress on the components that make up this target is as follows:

(a) The Childcare Approval Scheme was successfully introduced on 6 April 2005. By 10 March 2006, 1624 carers had been approved.

(b) The target to increase the take up of formal childcare by lower income working families by 50 per cent. is still provisional as the data against which the baseline for the target is to be set will not be available until the end of March 2006.

(c) The target to increase the stock of Ofsted-registered childcare by 10 per cent. target has been met. Ofsted data in December 2005 reported an increase in the stock of childcare of 12 per cent.

Children In Care

John Hemming: To ask the Secretary of State for Education and Skills how many children have been taken into care in each year since 1976; how many forced adoptions have occurred in each year; how many children have been killed by their carers in each year; and what the budget for child protection was in each year. [52664]

Maria Eagle: Information on the number of children who started to be looked after by local authorities since 1976 can be obtained from the Department's website at: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000615/index.shtml.

Statistics on 'forced adoptions' are not collected as adoptions are not forced Adoption order applications are made to a court, which decides whether it is in the

interests of the child to make the adoption order. Adoption orders may be contested. Figures on contested adoption orders are collected by the Department for Constitutional Affairs.

Available data are shown as follows:

I refer the hon. Member to my answer of 28 November 2005, *Official Report*, column 168W, on children that have been killed by their carers.

Decisions on how much is allocated to child protection budgets are made by local authorities. This information is not collected centrally. Data that are reported on children's social services expenditure are available from the Department of Health's website at: http://www.dh.gov.uk/PublicationsAndStatistics/Statistics/StatisticalWorkAreas/StatisticalExpenditure/fs/en.

Number of adoption orders, and percentage of contested adoption orders

England — *Number and percentage*

	Number of adoption orders	*Number of contested adoption orders*	*Contested*
1994	6,326	1,676	26
1995	5,317	1,224	23
1996	4,936	876	18
1997	4,266	866	20
1998	4,675	944	20
1999	3,962	984	25
2000	4,438	980	22
2001	4,452	876	20
2002	4,120	922	22
2003	4,713	1,170	25
2004	4,539	850	19

Source :
DCA Judicial Statistics & Private Law Sampler Forms

Cognitive Ability

Anne Main: To ask the Secretary of State for Education and Skills what percentage of children achieved cognitive ability testing scores at *(a)* the standard level, *(b)* above the standard level and *(c)* below the standard level at (i) Key Stage 1 and (ii) Key Stage 2 in each year since the tests were introduced. [46126]

Jacqui Smith: The information is not held centrally.

Connexions

Mike Penning: To ask the Secretary of State for Education and Skills what role the Connexions Agency plays in admitting students into *(a)* the workplace, *(b)* universities and *(c)* modern apprenticeships; and if she will make a statement. [57807]

Maria Eagle *[holding answer 13 March 2006]:* Connexions provides information, advice, guidance and support to all 13–19 year olds to help them enter appropriate further and higher education, training and work. Personal Advisers engage with young people to provide guidance on learning and career options, with a view to raising the aspirations and attainment of each young person. Personal Advisers also work with and support education and training institutions and employers in providing opportunities for young people. We have set out our plans to improve information, advice and guidance for young people, including clear minimum expectations and new quality standards, in Youth Matters. This will build on good practice in Connexions.

Deaf Children

Mr. Gibb: To ask the Secretary of State for Education and Skills what steps her Department is taking to raise the educational attainment of deaf children. [54829]

Maria Eagle: The Special Educational Needs (SEN) Code of Practice provides advice to local authorities, and schools on their statutory duties to identify, assess and make provision for children who have special educational needs, including children who are deaf. The Code sets out a graduated approach to providing support. Many children who are deaf will have statements of SEN. All statements must be reviewed at least annually. The purpose of the review is to consider children's progress, to ensure they are achieving desired outcomes and, if necessary, to amend their statements to reflect newly identified needs and provision.

In addition, the development of the New Relationship with Schools brings a focus on how well schools meet the needs of all their pupils. All schools will carry out an annual self-evaluation and publish a single plan setting out their priorities for improvement in which they will need to show how all their pupils are achieving. This process will highlight any gaps in achievement between different groups of children, which will then be discussed with a locally appointed School Improvement Partner.

Our White Paper 'Higher Standards, Better Schools for all' published in October 2005, which builds on 'Removing Barriers to Achievement' published in February 2004, promotes a more effectively tailored education for all children with special education needs by increasing the sharing of expertise between special and mainstream schools, by equipping the work force with appropriate skills, knowledge, awareness and confidence and by promoting more effective measurement of, and accountability for, the progress made by pupils with SEN across a wide range of abilities. The White Paper also set out our plans for personalised learning. These include providing targeted support for groups of children who are at risk of under achieving, including those with SEN. We will spend an additional £565 million by 2007–08 to support schools to tailor teaching to the needs of all their pupils.

Delegated Budgetary Powers

Andrew Gwynne: To ask the Secretary of State for Education and Skills how many *(a)* secondary and *(b)* primary schools in England had their delegated budgetary powers removed by local education authorities in each year since 2001. [58010]

Jacqui Smith: Under Section 51 and schedule 15 to the Schools Standards and Framework Act 1998, the Secretary of State has been notified of 11 schools since 2001, where budgetary powers have been suspended by the local education authority. The breakdown of the

number of primary and secondary schools in each year where budgets have been removed under these powers is as follows:

	Primary	*Secondary*
2001	1	2
2002	1	1
2003	1	0
2004	0	3
2005	1	1

The Department has no record of suspensions under section 17 of the Act, but believes them to be more numerous.

Departmental Assets

David T.C. Davies: To ask the Secretary of State for Education and Skills pursuant to the answer of 14 February 2006, *Official Report*, column 1921W, on departmental assets, how many of the laptops replaced in the last 12 months were replaced due to *(a)* breakage and *(b)* normal wear and tear. [54665]

Maria Eagle: The Department does not record the information necessary to provide the required clarification of the figure for broken laptops.

Early Years Programme

Mr. Frank Field: To ask the Secretary of State for Education and Skills what her policy is on allocation of Early Years Programme funds between voluntary and statutory bodies in relation to children under five years who use each kind of service in equal parts during the week. [55453]

Beverley Hughes *[holding answer 2 March 2006]:* It is a matter for individual local authorities to determine arrangements for funding private voluntary and independent (pvi) providers to deliver the free nursery education entitlement. In meeting their statutory responsibilities to secure sufficient provision they must have regard to guidance from the Secretary of State. That guidance makes clear the importance of a thriving pvi sector to the provision of sufficient, high quality child care.

The recently updated guidance in the "Code of Practice on the Provision of Free Nursery Education Places for Three and Four Year Olds", which comes into effect from 1 April 2006 encourages local authorities, wherever practicable, to apportion funding pro rata in cases where a child takes up the free entitlement in a combination of a maintained and pvi provider.

East Riding (Education Services)

Mr. Graham Stuart: To ask the Secretary of State for Education and Skills how many and what percentage of pupils being educated in the East Riding of Yorkshire live outside the county's local education authority boundary; and if she will make a statement. [57212]

Jacqui Smith: The information requested has been provided in the following table.

Percentage of pupils[1] educated within the East Riding of Yorkshire residing outside of the local authority (LA) boundary

	Number of pupils in schools in LA	*Number of pupils in residence in other LAs attending schools in the LA*	*Percentage of pupils in residence in other LAs attending schools in the LA*
Primary[2]	22,071	888	4.0
Secondary[3]	20,344	1,774	8.7
Special[4]	115	3	2.6
Total	42,530	2,665	6.3

[1] Includes pupils aged 5 to 15 years, solely registered or main registration of dually registered pupils, excludes boarders.
[2] Includes middle deemed primary
[3] Includes secondary, middle deemed secondary, Academies and City Technology Colleges.
[4] Includes special and non-maintained special.

Annual Schools Census 2005

Eastern European Students

Mr. Sheerman: To ask the Secretary of State for Education and Skills what steps her Department is taking to assist the integration of students from Eastern Europe into English schools. [57463]

Jacqui Smith: Local authorities have a duty to ensure that all children of compulsory school age have access to education, regardless of their nationality.

Local authorities receive additional funding from the Department in the form of the Ethnic Minority Achievement Grant (EMAG). This grant is ring-fenced and must be used by schools to help raise the attainment of ethnic minority pupils who underachieve and to target help for those pupils for whom English is an additional language.

To ensure the educational needs of Eastern European children are taken into account, local authorities are encouraged to develop local policies and procedures to facilitate support within local schools.

Education (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for Education and Skills what funding is planned to be made available to schools in Peterborough for anti-bullying campaigns in each of the next five years. [54859]

Jacqui Smith: Ring-fenced funding for anti bullying campaigns is not made available on either a local authority or school by school basis. Rather it is a matter for schools and local authorities to decide how much of their budget they devote to this important work.

Support for anti-bullying work is embedded in the behaviour and attendance strands of the national strategies which have at least one consultant in place in each local authority. In addition, support is also provided through DfES funded anti-bullying alliance coordinators in each Government Office region.

At a national level the Department has funded a number of initiatives to tackle bullying. Since 1997 this has included events to disseminate good practice, plus development of guidance and resources for schools. We have supported an award scheme to share and celebrate the excellent work of schools and young people. We

have funded the voluntary sector to embed effective practice and offer training and support to schools. We have run public information campaigns encouraging children to 'tell someone' and to support their friends, as well as providing information and support to parents. We have funded the anti-bullying alliance to continue its work coordinating support for local authority and voluntary sector anti bullying work on a regional basis, developing new approaches to bullying, and working with schools to promote best practice directly and through anti-bullying week and other events.

Education Provision (Hendon)

Mr. Dismore: To ask the Secretary of State for Education and Skills which schools in Hendon provide extended school hours; and if she will make a statement. [56746]

Beverley Hughes: Good progress is being made on extended schools with 4,700 schools, thus far, indicating their willingness to work on developing extended services. This includes 18 schools in the Barnet local authority area, of which four are in the Hendon area, that are working towards delivering a core offer of extended services by September 2006. This Government want all schools to provide access to a core offer of extended services by 2010, with half of primary schools and a third of secondary schools doing so by 2008. We want to see at least 2,500 schools providing access to the core offer by September 2006. The core offer, which should be available to all parents and pupils of the school, comprises: high quality child care available 8 am to 6 pm year round; a varied menu of study support activities; parenting support programmes; swift and easy referral to a wide range of specialised support services; and wider community access. It will be for individual local authorities, in discussion with all schools in their area, to take a strategic approach to developing access to the core offer in each year.

On 29 September 2005 my Department published its report on the baseline survey of extended services in schools which it commissioned earlier in the year. The survey showed that nationally the vast majority of schools were providing access to some form of extended activity. The survey did not provide figures at local authority or ward level.

Mr. Dismore: To ask the Secretary of State for Education and Skills how many schools in Hendon were inspected by Ofsted in the last 12 months; what the outcome of each inspection was; and if she will make a statement. [56780]

Jacqui Smith: This is a matter for Ofsted. HM Chief Inspector, Maurice Smith has written to the hon. Friend and a copy of his reply has been placed in the Library.

Letter from Maurice Smith, dated 8 March 2006:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

You asked which schools in Hendon were inspected by Ofsted in the last 12 months, what was the outcome of each inspection and to make a statement.

Inspectors have made a judgement about schools' overall effectiveness since January 2000. Until July 2005 this judgement was made using a seven point scale: excellent, very good, good, satisfactory, unsatisfactory, poor and very poor. Since September 2005 the judgement has been made using a four point scale: outstanding, good, satisfactory and inadequate. This response relates to schools inspected between January and December 2005. During this period, one secondary school and four primary schools were inspected in the parliamentary constituency of Hendon.

The information is shown in the tables below:

Schools in Hendon inspected between January to July 2005

URN	School name	Phase	Overall effectiveness	Last inspection date
101278	Fairway Primary School	Primary	Very good	21 February 2005
101283	Goldbeaters Primary School	Primary	Satisfactory	4 July 2005

Schools in Hendon inspected between September and December 2005

URN	School name	Phase	Overall effectiveness	Last inspection date
101277	Edgware Infant School	Primary	Good	28 September 2005
101360	St Mary's CofE High School	Secondary	Inadequate[1]	14 October 2005
130935	The Hyde School	Primary	Inadequate[2]	28 September 2005

[1] This school was given a notice to improve after a period in special measures.

[2] This school was given a notice to improve following a period when the school was designated as having serious weaknesses

There are 40 schools in Hendon and the figures above do not give a full reflection of the quality of schools in the constituency. Between January 2000 and December 2004, 30 schools not included in the tables above were inspected. Of these two were judged to be excellent, nine were very good, twelve were good and six were satisfactory. One school was poor and this was placed into special measures and was removed 19 months later.

A copy of this reply has been sent to Jacqui Smith and will be placed in the Library of both Houses.

Education to Employment Programme

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what evaluation she has undertaken of the Education to Employment Programme. [58318]

Phil Hope: Entry to Employment (E2E) is the main programme for young people not yet ready for an Apprenticeship; a job or further learning. It was implemented across England in August 2003.

The Adult Learning Inspectorate, most recent review of E2E in February 2006 concluded that "the significant investment in E2E is paying dividends".

In addition to the work of the Inspectorate, the Learning and Skills Council keeps the E2E programme performance under continuing review.

Education White Paper

Glenda Jackson: To ask the Secretary of State for Education and Skills if she will place in the Library all analyses commissioned by her Department in relation to the Government's White Paper on Education before the Education Bill is presented to the House. [46127]

Jacqui Smith: A wide range of research was used to inform the White Paper and the policies contained within it.

All the research commissioned by the department is published on the department's website.

Educational Attainment

Mr. Gibb: To ask the Secretary of State for Education and Skills what proportion of *(a)* children in receipt of free school meals, *(b)* pupils with special educational needs and *(c)* all children aged 11 years at the end of the 2004–05 academic year achieved (i) level 4 and (ii) level 5 at Key Stage 2 in (A) reading, (B) writing, (C) mathematics and (D) reading, writing and mathematics, broken down by type of school. [55071]

Jacqui Smith: The tables give the figures requested.

Proportion of pupils eligible for free school meals, with special educational needs and all children aged 11 years at the end of the 2004–05 academic year achieving Level 4 and Level 5 at Key Stage 2 in reading, writing, mathematics and reading, writing and mathematics combined.

Achievements at Key Stage 2 Level 4 and above and Level 5 in 2005 for all students

		Reading			Writing	
	Eligible	Percentage Level 4+	Percentage Level 5+	Eligible	Percentage Level 4+	Percentage Level 5+
Maintained mainstream	581,513	85	42	581,539	63	15

All maintained schools	134,358	37	6	132,929	14	1

Notes:

1. Pupils eligible for Key Stage 2 assessment includes pupils with missing results.
2. "-" indicates non-zero less than 0.5%.

3. Maintained mainstream schools include results from Community School (CY), Voluntary aided school (VA), Voluntary controlled school (VC), Foundation school (FD), City Technology College (CTC) and Academy (AC). Special schools include results from Community Special school (CYS) and Foundation special school (FDS).
4. Only LA maintained schools whose results are published in the Achievement & Attainment Tables are included in this analysis.

Employer Training Pilots

John Penrose: To ask the Secretary of State for Education and Skills pursuant to the answer of 9 November 2005, *Official Report*, column 601W, on the National Employer Training Programme, how many of the companies who participated in the employer training pilots employed *(a)* under 50, *(b)* between 50 and 249 and *(c)* 250 or more staff. [36393]

Phil Hope: At the end of the second year of the pilots almost 12,000 workplaces were involved in the 12 Phase 1 and Phase 2 pilots. Take-up was stronger in the second year than in the first. Some 10 per cent. of eligible employers were involved-12 per cent. in the Phase 1 pilots and 8.5 per cent. in Phase 2. Levels of employer take-up varied significantly by pilot area.

Seventy per cent of the establishments involved employed fewer than 50 people, 19 per cent. had between 50 and 249 employees and 11 per cent. employed at least 250. The pilots attracted almost half the eligible large employers in their area.

This equates to volumes of:

Volumes	*Employers*
Less than 50	8,400
50–249	2,280
250 or over	1,320

The most recent management information available (February 2006) illustrates the progress made since then with 29,141 employers involved. Of these 19,870 employ fewer than 50 people; 5,280 employ between 50 and 249 people; 3,991 employ more the 250 people.

The final evaluation report for Employer Training Pilots is expected later in spring 2006.

Faith Schools

Mr. Gibb: To ask the Secretary of State for Education and Skills how many and what proportion of faith schools are *(a)* comprehensive, *(b)* secondary modern and *(c)* grammar schools. [52561]

Jacqui Smith: The information requested is shown in the table.

Maintained secondary schools: number of faith schools by admissions policy [1] January 2005—England

	Number of faith schools	
	Number	*Percentage[2]*
Grammar	21	3.5
Modern	12	2.0
Comprehensive	424	71.6
Other [3]	135	22.8

[1] Admissions policy as designated In the Secondary Achievement and Attainment Tables
[2] Number of schools of type expressed as a percentage of ail secondary faith schools
[3] Schools whose main criterion for offering a place is either technical or religion.

Foreign Students

Mr. Sheerman: To ask the Secretary of State for Education and Skills how many new foreign students have started school in England in each of the past 10 years, broken down by country of origin. [57464]

Jacqui Smith: The requested information is not collected centrally.

Foundation Schools

Jim Cousins: To ask the Secretary of State for Education and Skills what financial obligations will lie with *(a)* the local education authority and *(b)* the foundation school in the event of a school within a PF1, PF2 or local education partnership becoming a foundation school. [54563]

Jacqui Smith: Foundation schools will be funded by their local authority on exactly the same basis as other local schools.

The governing body of a local authority school which chooses to change status to become a foundation school is the same body corporate as the governing body of the predecessor school, and therefore its contractual benefits and obligations do not change where the school changes status. Where the school is part of a PF1 contract, whether procured through a local education partnership or otherwise, the local authority has a contractual agreement to pay the unitary charge for the contract to the private sector partner. The school's contribution to the unitary charge will have been determined, among other things, in the individual agreement its governing body has made with the local authority before the PF1 contract was signed, and this commitment will continue for the governing body when the school has acquired foundation status.

Further and Higher Education

Andrew Gwynne: To ask the Secretary of State for Education and Skills how many pupils in *(a)* Denton and Reddish constituency, *(b)* Stockport metropolitan borough and *(c)* Tameside metropolitan borough continued into (i) further and (ii) higher education in the last year for which figures are available. [58006]

Jacqui Smith: The percentage of 16-year-olds in full-time education in England at the end of 2004 was estimated to be 74.2 per cent.—the highest ever rate. Figures on participation in further education by young people are not available for parliamentary constituencies, but are available for local authorities—including Stockport and Tameside, 2003 is the latest available year. The figures are shown in the following table.

	16-year-olds in full-time education 2003	*16-year-olds in all education (including part-time and work-based learning) 2003*
Stockport	2,700	3,100
Tameside	2,000	2,400

Note:
Figures have been rounded to the nearest 100

Figures on the number of 18-year-old students enrolled on undergraduate courses at UK Higher Education institutions are available for parliamentary constituencies. The latest figures are for 2004/05, and are shown in the following table.

	Students aged 18 enrolled on undergraduate courses at UK Higher Education institutions 2004/05
Denton and Reddish	180
Stockport	955
Tameside	520

Note:
Figures have been rounded to the nearest 5.
Source:
Higher Education Statistics Agency (HESA)

Mr. Gauke: To ask the Secretary of State for Education and Skills what steps she has taken to increase *(a)* the quality of education provision and *(b)* examination success rates in the further education college sector since July 2004. [52096]

Bill Rammell: We are fully committed to raising standards in further education colleges and will reward high quality and take firm action where standards are not being met. All colleges are required to annually self assess and agree challenging improvement targets in their development plans with the Learning and Skills Council.

Considerable progress has been made in the past few years and standards in further education have improved. The most recent annual report summarising inspections showed that over 91 per cent. of teaching in further education was judged satisfactory. College success rates have risen from 59 per cent. in 2000/01 to 72 per cent. in 2003/04 and we have set a new target of 76 per cent. to be achieved by 2007/08.

We have also announced plans to establish a new Quality Improvement Agency by April 2006, which will take the lead role, working with partners, to develop a Quality Improvement Strategy bringing together the full range of improvement activity across the sector. This will be based on the principle of colleges and other providers having primary responsibility for their own self improvement.

GCSEs

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what progress has been made towards ensuring that *(a)* by 2008 60 per cent. of those aged 16 years achieve the equivalent of five GCSEs at grades A*-C, *(b)* at least 25 per cent. of pupils achieve this standard by 2006 and *(c)* at least 30 per cent. achieve this standard by 2008. [58014]

Jacqui Smith: The Department's public service agreement targets for Key Stage 4 are: by 2008, 60 per cent. of those aged 16 to achieve the equivalent of five or more A*-C GCSEs or equivalent; and in all schools, at least 25 per cent. of pupils to achieve this standard by 2006; and 30 per cent. by 2008.

Good progress has been made towards achievement of these targets. *(a)* In 2005, 56.3 per cent. of 15-year-olds achieved five or more GCSEs or equivalent—a 2.6 percentage point increase on 2004 results and an increase of 11.2 percentage points compared with 1997. Over 67,000 more pupils are now achieving at this level than did so in 1997.

There has been a further significant drop in the number of schools below floor targets. 2005 results show:

(b) 112 schools are below the 25 per cent. floor target, down from 186 schools in 2004 and 616 in 1997;

(c) 232 schools are below the 30 per cent. floor target, down from 343 schools in 2004, and down from 896 schools in 1997.

The Department has a number of initiatives to ensure that schools receive the resources, advice and support that they need to raise attainment further at Key Stage 4. The Key Stage 3 National Strategy has extended to become a full Secondary National Strategy for School Improvement designed to raise standards, particularly in the core subjects, for all secondary school pupils. It aims to introduce excellent teaching and learning practices into every classroom through CPD, teaching materials and consultancy support. In addition, the Secondary Performance and Raising Achievement Transforming Learning (RATL) Projects draw on the expertise of successful schools and the Specialist Schools and Academies Trust to work in partnership with schools that while not below the floor target have nevertheless been underperforming in value added terms.

The Education and Inspections Bill published in February 2006 seeks to improve standards further, particularly by providing significant new incentives for schools to tailor education to the needs of every child and focus on the basics of English and mathematics.

Mr. Davey: To ask the Secretary of State for Education and Skills how many and what proportion of pupils achieved *(a)* five GCSEs A*-C and *(b)* GCSEs A*-C including English and mathematics in grammar schools which were (i) community schools, (ii) foundation schools, (iii) voluntary aided schools and (iv) voluntary controlled (A) with and (B) without a specialism in the last year for which figures are available. [56474]

Jacqui Smith: The information requested is outlined in the table.

Table 1:2005 amended GCSE results for grammar schools, by school type and specialist status

		Number of pupils achieving 5+ A-C*	*Percentage of pupils achieving 5+ A*-C*	*Number of pupils achieving 5+ A*-C including English and Maths*	*Percentage of pupils achieving 5+ A*-C including English and Maths*
Community	Specialist	3,608	97.5	3,547	95.8
	Non-specialist	1,991	96.7	1,963	95.4
Foundation	Specialist	8,651	97.9	8,546	96.7
	Non-specialist	1,559	98.4	1,525	96.3

Table 1:2005 amended GCSE results for grammar schools, by school type and specialist status

		Number of pupils achieving 5+ A*-C	Percentage of pupils achieving 5+ A*-C	Number of pupils achieving 5+ A*-C including English and Maths	Percentage of pupils achieving 5+ A*-C including English and Maths
Voluntary Aided	Specialist	2,630	98.4	2,600	97.3
	Non-specialist	1,239	98.4	1,223	97.1
Voluntary Controlled	Specialist	1,259	98.3	1,230	97.6
	Non-specialist	935	97.5	926	96.6

Grades

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what progress has been made towards ensuring that at least 50 per cent. of pupils achieve level 5 or above in English, mathematics and science by 2008. [58015]

Jacqui Smith: The Department has a number of initiatives to ensure that schools receive the resources, advice and support that they need to raise attainment further for secondary pupils. In the four years since its introduction the model of support and challenge provided through the Key Stage 3 strategy, now extended to the Secondary National Strategy, has been very effective. The Strategy has made great gains in improving the life chances of 14 year olds.

Number and percentage of schools with less than 50 per cent. of pupils achieving Level 5 or above in English, mathematics and science

	Number of schools below the floor target	Percentage of schools below the floor target
2005[1]	n/a	n/a
2004	601	19
2003[2]	592	19

[1] Data are not available for 2005. This data will be published in the revised Key Stage 3 Statistical First Release on 29th March 2006.

[2] 2003 is the baseline against which the target is monitored.

Figures on the number and percentage of schools where less than 50 per cent. of pupils achieved Level 5 or above in English, maths and science are only available for 2003 and 2004. 2005 figures will be published in the revised Key Stage 3 Statistical First Release on 29 March 2006 on the Departments research and statistics gateway at http://www.dfes.gov.uk/rsgateway/DB/SFR/s000644/index.shtml. These figures will have been checked by schools and include any amendments requested as part of the Secondary (KS3) Achievement and Attainment Tables checking exercise.

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what progress has been made towards ensuring that by 2007 *(a)* 85 per cent. of 14-year-olds achieve Level 5 or above in English, mathematics and information and communication technology and *(b)* 80 per cent. of 14-year-olds achieve Level 5 or above in science. [58016]

Jacqui Smith: The requested information is shown as follows.

Key Stage 3—percentage of pupils in all schools in England achieving Level 5 or above in the Key Stage 3 tests

	English	Mathematics	Science	ICT
1997	57	60	60	50
1998	64	59	56	56
1999	64	62	55	58
2000	64	65	59	62
2001	65	66	66	65
2002	67	67	67	66
2003	69	71	68	67
2004	71	73	66	67
2005[1]	74	74	70	69

[1] 2005 results are based on provisional data. These results will be checked by schools as part of the annual Achievement and Attainment Tables checking exercise and may change when the revised figures are published.

Progress towards achievement of the Government's Key Stage 3 targets has been encouraging with increases in each of the core subjects. The 2005 provisional results show: 74 per cent. of pupils achieved Level 5 and above in English; 74 per cent. in mathematics; 70 per cent. in science; and 69 per cent. in ICT. The corresponding figures for 2004 are: 71 per cent.; 73 per cent.; 66 per cent. and 67 per cent. respectively. Attainment in these subjects is at the highest ever levels with increases of 17 percentage points in English; 14 percentage points in mathematics; 10 percentage points in science and 19 percentage points in ICT since 1997.

The Department has a number of initiatives to ensure that schools receive the resources, advice and support that they need to raise attainment further for secondary pupils. In the four years since its introduction the model of support and challenge provided through the Key Stage 3 strategy, now extended to the Secondary National Strategy, has been very effective. The strategy has made great gains in improving the life chances of 14-year-olds.

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what progress has been made towards ensuring that by 2008 the proportion of schools in which fewer than 65 per cent. of pupils achieve level 4 or above in mathematics and English is reduced by 40 per cent. against 2004 levels. [58017]

Jacqui Smith: Good progress has been made towards achieving this target. Compared with 2003 (baseline year), there has been an overall reduction of 34 per cent. (978 schools) in the number of schools achieving below 65 per cent. in English and 22 per cent. (770 schools) in the number of schools achieving below this level in mathematics.

The Government's White Paper—Higher Standards, Better Schools for All—set out our commitment to an extra investment of £565 million by 2007/08 to support

personalisation in primary and secondary schools, focusing particularly on helping children who have fallen behind in English and mathematics. A further £60 million will be available in each of the next two years to provide effective one-to-one and small group tuition for the lowest attaining pupils.

Number and percentage of schools in which fewer than 65 per cent. of pupils achieve Level 4 or above in English or mathematics

	English		Mathematics	
	Number of schools below the floor target	Percentage of schools below the floor target	Number of schools below the floor target	Percentage of schools below the floor target
2005	1,871	14	2,800	21
2004	2,235	17	3,108	23
[1]2003	2,849	21	3,570	26

[1] 2003 is the baseline against which the target is monitored.

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what progress has been made towards 85 per cent. of 11-year-olds achieving Level 4 in English and mathematics by 2006. [58024]

Jacqui Smith: The requested information is shown as follows:

Key Stage 2—percentage of pupils in all schools in England achieving Level 4 or above in the Key Stage 2 tests

	English	Mathematics
1997	63	62
1998	64	58
1999	71	69
2000	75	72
2001	75	71
2002	75	73
2003	75	73
2004	78	74
2005[1]	79	75

[1] 2005 results are based on provisional data. All other results are based on final data.

The latest figures indicate that performance levels in Primary Schools in English and mathematics are at their highest ever. Since 1997, the proportion of 11-year-olds achieving the target Level 4 and above as measured by the Key Stage 2 National Curriculum tests has increased by 16 percentage points to 79 per cent. in English and by 13 percentage points to 75 per cent. in mathematics.

Housing Expansion

Mr. Stewart Jackson: To ask the Secretary of State for Education and Skills what estimate she has made of the number of additional *(a)* secondary and *(b)* primary schools that will be required in Peterborough to meet the planned expansion of housing. [58152]

Jacqui Smith: We rely on local authorities to estimate whether additional secondary or primary schools are required to meet planned expansions of housing. This is because local authorities are best placed to calculate the additional number of children of school age, to evaluate the effect of other demographic changes, and to compare the resulting totals with the actual and potential capacity of existing schools.

Formulaic capital funding is notified in advance to local authorities, and is responsive to forecast changes in school population which will result from expansion of housing. Specifically, Modernisation funding is allocated on the basis of pupil numbers and the relative condition and suitability need of each authority's school buildings. In addition, New Pupil Places funding is allocated on the basis of the actual number of school pupils in each authority, and the forecast growth in pupil numbers. These funding streams are calculated using local authorities' own forecasts. Where an authority is facing exceptional circumstances because of the rate of growth of pupil numbers, then the Department periodically operates a safety-valve mechanism for additional funding. Guidance on these funding streams can be found on the website http://www.teachernet.gov.uk/docbank/index.cfm?id=9178.

In addition to the formulaic capital funding described above, schools are allocated Devolved Formula Capital (DFC) to meet their individual priorities. This is based on a per school and a per pupil formula. Guidance on DFC can be found on the website

http://www.teachernet.gov.uk/management/resourcesfinanceandbuilding/funding/capitalinvestment/typesoffunding/nds/

Local authorities may also have the capacity to raise their own additional funding through Section 106 receipts. This is a scheme whereby housing developers provide funding to the local authority which can be used for extra school places.

Capital allocations to Peterborough borough council and its schools, also Voluntary Aided Schools, for the next two years are set out in the table below. As well as formulaic funding, the local authority and Voluntary Aided schools received Targeted Capital Fund allocations for 2006–07 which will be paid out in the years 2006–07 to 2008–09:

£ million

	2006–07	2007–08
Local authority schools		
Modernisation—secondary	1.0	1.0
Modernisation—primary	1.0	1.0
New pupil places	0.6	0.6
Other	0.3	0.3
Devolved Formula Capital	3.1	[1]3.3
Targeted Capital Fund	6.7	—
Voluntary Aided schools		
Programme	0.6	0.6
Devolved Formula Capital	0.5	[1]0.5
Targeted Capital Fund	13.0	—
Total	26.8	7.3

[1] indicative

IT Systems

Rosie Cooper: To ask the Secretary of State for Education and Skills how much her Department allocated for school IT systems in *(a)* Lancashire and *(b)* West Lancashire in each year since 1997. [53317]

Phil Hope: The Department does not hold information on specific allocation figures for IT systems within Lancashire Local Authority (LA) or the constituency West Lancashire. Funding for schools IT systems is included within the overall ICT funding allocation figure for the LA.

The Department does not hold figures for ICT funding allocated to LA in 1997; however ICT funding allocations for Lancashire LA since 1998 are detailed in 'Funding for ICT in Schools in England' which is available in the House Library.

Learning and Skills Council

Mr. Drew: To ask the Secretary of State for Education and Skills what additional responsibilities local Learning and Skills Council offices will assume in rural areas as part of the proposed re-structuring. [50039]

Bill Rammell: The Learning and Skills Council (LSC) is embarking on a major transformation programme to make it a more dynamic and effective organisation. At a local level the LSC proposes to create 148 local partnership yeams made up of experienced education and training professionals who will work with key partners and stakeholders to tackle local learning and skills needs in rural and urban areas. They will know their area inside-out, and will ensure that properly funded learning and training is available to meet the needs of both individuals and employers locally, whilst also taking into account national priorities, as set out in the LSC's national guidance on "Planning for Success".

The details of the re-structuring proposals and their effect on local offices, including those in rural areas, are a matter for the LSC. Mark Haysom, the Council's chief executive, has written to my hon. Friend with further information. A copy of his letter will be placed in the House Library.

Letter from Mark Haysom, dated 9 March 2006:

I write in response to your recent Parliamentary Question regarding what additional responsibilities local Learning and Skills Council (LSC) offices will assume in rural areas as part of the proposed restructuring.

The LSC is well on the way to implementing a major transformation programme to make it a more dynamic and effective organisation. We have ensured that the special factors of rurality have been taken into account in planning and delivery of post-16 education and skills within the new LSC, particularly through the new local partnership teams which will be experts on, and advocates for, their local area.

I have laid out in the annex some of the detail of how the LSC will work at the local level once we have transformed. This covers how local partnership teams and economic development teams in each of 42 local areas will provide strategic and operation delivery for the LSC.

I am very happy to provide any further information if required, on how we are moving the LSC forward to better meet the needs of learners and employers.

ANNEX

The New Learning and Skills Council—how it all works in detail at the Local level

Each of our 47 local councils will be supported by a dedicated LSC Area Director and will oversee the development and delivery of a local area plan. Local councils will provide leadership to local providers and partners, challenging the executive 'on the inside' and acting as advocates for the LSC and for learning 'on the outside'. Employer-led, local councils link the LSC into the business community, championing employer and learner needs and challenging us to deliver innovative solutions.

42 local area teams (made up of local partnership teams and economic development teams) are the strategic and operational building block for the LSC—the point at which our national and regional strategies and priorities translate into local delivery. Note: in five cases a single Area Director supports two local councils—(1) Tyne and Wear/Northumberland; (2) Tees Valley/ County Durham; (3) Berkshire/Milton Keynes, Oxfordshire and Buckinghamshire; (4) Somerset/Bournemouth, Dorset and Poole and (5) Shropshire/Herefordshire and Worcestershire.

Each local area team will look across the range of partnerships, challenging and supporting teams, generating and spreading best practice. They lead on the economic development priorities of their areas, which often cut across geographic boundaries. And they provide the strategic interface for key partners such as Children's Trusts, Local Strategic Partnerships, and City-regions which operate above partnership level. Their area-wide scope and strategy provide the necessary coherence for 14–19 learning, skill priorities and adult learning at a local level.

The 148 local partnership teams are the operational focus of the LSC. They are the institutional and provider interface—responsible for the development and delivery of area-wide plans at grassroots level.

The local partnership teams will focus on transforming the range and quality of learning available in geographically-defined local areas. They will be small teams, flexible and mobile, working in, and across, their local communities. And they will be experts on, and advocates for, their local area: understanding and championing the varied needs of their local learners, employers and communities, and brokering collaborative solutions to meet these. They will have the power to make things happen, to lead and influence change within the LSC and with partners, colleges and providers.

Specifically they will develop and lead strategic relationships with delivery partners (colleges, schools and training providers). This will include:

procuring high quality learning to meet national and regional priorities and targets in a local context

negotiating and managing performance against development plans and contracts—withdrawing from poor provision where appropriate

developing new provision to meet gaps

driving up demand for learning amongst young people.

To do their job effectively, the local partnership teams will also have to influence the thinking of local authorities, Children's Trusts, Local Strategic Partnerships and local MPs. They will be passionate about learning and skills, driving forward collaboration, informing Local Area Agreements and acting as skills advisors for local authorities to get real buy-in to partnership activity across the local patch.

Working alongside the partnership teams will be 35 economic development teams and regional specialists whose objective is to place learning and skills at the heart of economic development and regeneration in a given region. They will work flexibly across local and regional boundaries in pursuit of a better fit between learning and skills supply and demand, and draw in specialist sector advice and support where necessary. An important element of their work will be putting in place the training needed, by those not currently working, both to help them secure sustainable employment and to furnish the skills local employers need.

Economic development teams will have a strong influencing role too, particularly with, Regional Development Agencies, developers, local authorities, Jobcentre Plus, regeneration

partnerships and employers. They will demonstrate the vital importance of skills to increasing economic competitiveness and social inclusion.

Modern Apprenticeships

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what percentage of the total numbers undertaking *(a)* engineering, *(b)* construction, *(c)* motor industry, *(d)* plumbing and *(e)* electro-technical sector (i) Advanced and (ii) Foundation Modern Apprenticeships in England in 2005 were women. [56269]

Jacqui Smith: There are over 180 different apprenticeships (formerly called Foundation Modern Apprenticeship) or Advanced Apprenticeship (formerly called Advanced Modern Apprenticeship) frameworks on offer to potential learners. The list is growing and a directory of apprenticeships is maintained on the apprenticeships website administered by the Learning and Skills Council (LSC): http://www.apprenticeships.org.uk/partners/frameworks/apprenticeships/default.htm

There exists no definitive classification of frameworks that corresponds to the sectors requested, and to some extent any classification would be arbitrary given the potential for sectors to overlap, between engineering and construction especially. For this reason the figures supplied as follows are presented at the level of individual frameworks, and grouped tentatively into the non-overlapping 'sectors' requested. Figures show the total numbers in learning during 2004/05 for each framework and the proportion that were women.

Sector	*Framework*	*Total number of apprentices*	*Of which: women (Percentage)*	*Total number of advanced apprentices*	*Of which: women (Percentage)*
Engineering	Engineering Manufacture	14,690	5.5	22,132	2.8
	Marine Industry	216	1.9	723	4.1
	Agriculture and Garden Machinery	571	0.7	300	0.3
	Engineering Construction	11	9.1	760	1.7
	Manufacturing operation—Engineering	2,212	9.8	10	10.0
	Telecommunications	890	13.4	3,438	13.2
	Chemicals Industry	52	25.0	242	14.5
	Steel Industry	94	3.2	136	11.0
	Oil and Gas Extraction	41	0.0	23	0.0
	Rail	103	0.0	357	2.8
Construction	Construction	31,219	0.9	6,498	1.4
	Heating, ventilation, air conditioning and refrigeration	1,279	0.8	1,732	0.3
	Gas Industry	119	1.7	1,305	1.6
	Glass	1,319	1.8	268	2.2
	Building Services Engineers	3	0.0	190	0.5
Motor Industry	Motor Industry	11,942	1.6	19,760	1.5
Plumbing	Plumbing	7,327	0.9	4,270	0.5
Electro-technical sector	National Electro-technical industry	3,341	0.6	15,457	0.5
	Electricity supply industry	105	1.0	564	1.2
	Electrical and electronic servicing	56	0.0	126	1.6

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many women applied for scientific and technical positions in *(a)* Advanced and *(b)* Foundation Modern Apprenticeships in the latest period for which figures are available; and if she will make a statement. [56270]

Jacqui Smith: There are over 180 different Apprenticeship (formerly called Foundation Modern Apprenticeship) or Advanced Apprenticeship (formerly called Advanced Modem Apprenticeship) frameworks on offer to potential learners. Figures for applications to apprenticeships are not held centrally.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many men undertook Modern Apprenticeship courses in *(a)* early years care and *(b)* education in the latest period for which figures are available. [56271]

Jacqui Smith: There are over 180 different Apprenticeship (formerly called Foundation Modern Apprenticeship) or Advanced Apprenticeship (formerly called Advanced Modern Apprenticeship) frameworks on offer to potential learners.

There exists no definitive classification of frameworks that corresponds to the sectors requested. For this reason the figures supplied below are presented at the level of individual frameworks, and grouped tentatively into the non-overlapping 'sectors' requested. Figures show the total numbers in learning during 2004/05 for each framework and the proportion that were men.

Sector	Framework	Total number of apprentices	Percentage of which men	Total number of advanced apprentices	Percentage of which men
Early years care	Early years care & education laboratory technicians	15,375	3	10,430	2
Education	Working in education	3	67	28	71
Education	Learning and development (direct training & support)	4	100	14	21
Education	Teaching assistants	12	8	9	11

Rosie Cooper: To ask the Secretary of State for Education and Skills how many modern apprenticeships were taken in each *(a)* West Lancashire constituency and *(b)* Lancashire in the last year for which figures are available. [58444]

Phil Hope: The following table shows figures for the total number of apprentices funded by the Learning and Skills Council (LSC) in learning during 2004/05 who live in *(a)* the parliamentary constituency area (PCA) of West Lancashire and *(b)* in the local Learning and Skills Council (LSC) area of Lancashire.

2004–05

	Advanced apprenticeship	Apprenticeship	Total
West Lancashire PCA	291	630	921
Lancashire LSC area	5,556	8,737	14,293

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many school leavers in Tamworth constituency took up a modern apprenticeship after the completion of their GCSEs in each year since 1997. [57869]

Phil Hope: Figures for those participating in apprenticeships funded by the Learning and Skills Council (LSC) derive from the Individual Learner Record (ILR), This was collated for the first time in 2001/02 (as an Interim ILR) and comparable figures are currently only available for the three following years.

The following table shows figures for the total number of apprentices of academic age 16 in Tamworth for each year from 2002/03 to 2004/05.

	Advanced apprenticeship	Apprenticeship	Total
2002/03	9	110	119
2003/04	7	117	124
2004/05	17	91	108

National Curriculum

Rosie Cooper: To ask the Secretary of State for Education and Skills how many schools in the *(a)* primary school and *(b)* secondary school sector in the Lancashire Local Education Authority area have disapplied the National Curriculum (i) in respect of specific purposes in Key Stage 4 under section 91 of the Education Act 2002, (ii) through a statement of education need and (iii) for a temporary period under section 93 of the Education Act 2002 in the last five years; and how many pupils were affected each year. [58450]

Jacqui Smith: The Department does not hold records of how many primary and secondary schools have disapplied the National Curriculum in respect of specific purposes in Key Stage 4 under section 91 of the Education Act 2002, through a statement of education need or for a temporary period under section 93 of the Education Act 2002.

The Qualifications and Curriculum Authority (QCA) were required to monitor the use of the Key Stage 4 disapplication regulations, under section 91 of the Education Act 2002, in secondary schools up until September 2002 when this requirement was withdrawn in order to simplify the arrangements and reduce the administrative burden for schools. The last year of monitoring was 2000–2001 and QCA's records show that 33 secondary schools in the Lancashire local education authority area used the regulations for a total of 329 pupils. The total number of secondary schools in England that used the Key Stage 4 regulations in that academic year was 1,292, affecting 55,787 pupils.

National Schools Commissioner

John Bercow: To ask the Secretary of State for Education and Skills what methods the proposed National Schools Commissioner will use to match schools and new partners, as described on page 8 of the White Paper, "Higher Standards, Better Schools for All". [46453]

Jacqui Smith: The Schools Commissioner will be a senior appointment and as such will play a full part in shaping how the office will work and what methods will be used. Potential promoters of new schools, existing schools interested in becoming trust schools and Local Authorities will be able to approach the Schools Commissioner who may use a variety of methods to identify a suitable trust, if required, and work with all parties to develop a partnership.

Prison Education

Mr. Bellingham: To ask the Secretary of State for Education and Skills what action she is taking to improve standards of education service delivery within the prison estate; and if she will make a statement. [57778]

Phil Hope: The Department, working with our partners in the Home Office and in the Department for Work and Pensions, has a programme of activity in place to improve standards of education service delivery within the prison estate and for all offender learners. This programme includes December's joint publication of the Green Paper "Reducing Re-offending Through Skills and Employment"; the introduction of the Learning and Skills Council to the offender learning

environment through a new planning and funding role, working closely with regional offender managers; implementation of a broader, deeper curriculum (the "Offender's Learning Journey"); increased funding from £57 million in 2001–02 to £151 million in 2005–06); a rigorous inspection regime using the same quality benchmarks as mainstream provision; specific quality initiatives (including individual support for prisons with identified improvement needs, resources to enable good practice to be shared, and access to mainstream teacher training initiatives); increased support for higher education through the Open University; and an almost 70 per cent. increase in prison library funding between 2004–05 and 2006–07.

Pupil Performance

John Bercow: To ask the Secretary of State for Education and Skills what change there has been since 2003 in the performance of black and minority ethnic pupils in *(a)* English and *(b)* mathematics at each key stage. [53547]

Jacqui Smith: The requested information is as follows:

Key Stage 1

Percentage of pupils1 achieving Level 2 or above at Key Stage 1

	All pupils	Minority ethnic[2]	Black
Reading			
2003	84	81	78
2004[3]	85	82	79
2005[4]	85	82	79
Writing			
2003	81	78	74
2004[4]	82	78	74
2005[3]	82	78	75
Mathematics			
2003	90	87	84
2004[3]	90	87	84
2005[4]	91	88	85

[1] Includes the results of pupils in maintained schools (including academies and CTCs) only.
[2] Includes Mixed, Asian, Black and Chinese pupils.
[3] Task/test results for 2004 are for non-trial schools only
[4] 2005 figures are based on Teacher Assessments results

Notes:
Please note that 2004 and 2005 results are not directly comparable to results for 2003. This is to reflect the fact that:
1. in 2004 a trial took place in some Local Authorities (LAs), In which only teacher assessments were submitted to the Department The remaining (non-trial) LAs continued to submit both test/task results and teacher assessments.
2. in 2005, for the first time, all schools were only required to report teacher assessments to the Department.

Key Stage 2

Percentage of pupils[1] achieving Level 4 or above at Key Stage 2 tests

	All pupils	Minority ethnic[2]	Black
English			
2003	75	71	68
2004	77	74	70
2005	79	74	70
Mathematics			
2003	72	67	60
2004	73	69	63
2005	75	69	62

[1] Includes the results of pupils in maintained schools (including academies and CTCs) only.
[2] Includes Mixed, Asian, Black and Chinese pupils

Key Stage 3

Percentage of pupils[1] achieving Level 5 or above at Key Stage 3 tests

	All pupils	Minority ethnic[2]	Black
English			
2003	69	64	56
2004	71	67	62
2005[3]	74	71	66
Mathematics			
2003	71	64	54
2004	73	67	58
2005[3]	74	68	61

[1] Includes the results of pupils in maintained schools (including academies and CTCs) only.
[2] Includes Mixed, Asian, Black and Chinese
[3] Results for 2005 are based on provisional data prior to being checked by schools as part of the Secondary (KS3) Achievement and Attainment Tables.

Key Stage 4

GCSE and equivalent[1] results of 15 year old pupils[2,3]

	All pupils		Minority ethnic[4]		Black	
	Number of pupils	% achieving 5+ A*C including E&M	Number of pupils	% achieving 5+ A*C including E&M	Number of pupils	Percentage achieving 5+ A*C including E&M
2003	576,084	38.9	67,194	35.2	18,945	24.0
2004	591,774	40.3	69,641	37.3	19,641	26.5
2005	584,703	42.3	70,063	40.1	20,369	30.1

[1] 2003 figures include GCSE/GNVQ results, 2004 and 2005 include GCSEs and equivalent qualifications approved for use pre-16
[2] Age at the start of the academic year
[3] Includes the results of pupils in maintained schools (including academies and CTCs) only.
[4] Includes Mixed, Asian, Black and Chinese pupils

Pupil Spending

Andrew Gwynne: To ask the Secretary of State for Education and Skills what the average expenditure on education per pupil was in the *(a)* primary and *(b)* secondary sector in (i) Tameside and (ii) Stockport local education authority in each year since 1997. [58009]

Jacqui Smith: The information requested is contained within the following table.

Average expenditure[1] on education per pupil in Stockport and Tameside local authorities since 1997–98

£

	Primary school based expenditure per pupil[2,3,4]		*Pre-primary/primary school based expenditure per pupil[2,3,4]*		*Secondary school based expenditure per pupil[2,3]*		*Combined local authority and school based expenditure per pupil[5]*	
	Stockport	*Tameside*	*Stockport*	*Tameside*	*Stockport*	*Tameside*	*Stockport*	*Tameside*
1997–98[6]	n/a	n/a	1,570	1,590	2,110	2,190	2,430	2,400
1998–99[6]	n/a	n/a	1,750	1,720	2,330	2,290	2,650	2,540
1999–2000[7]	1,860	1,640	1,890	1,650	2,460	2,300	2,580	2,600
2000–01	2,180	1,970	2,230	2,010	2,820	2,500	2,830	2,850
2001–02	2,370	2,420	2,410	2,500	3,040	2,930	3,040	3,200
2002–03	2,260	2,480	n/a	n/a	2,890	2,930	3,090	3,250
2003–04	2,460	2,610	n/a	n/a	3,130	3,260	3,430	3,630
2004–05[8]	2,720	2,750	n/a	n/a	3,370	3,480	3,720	3,760

n/a = not available.

[1] The expenditure data to 1998–99 are drawn from the annual 'RO1' spending returns which local authorities submitted to the Department of Environment, Transport and the Regions. Figures for 1999–2000 to 2001–02 are drawn from Section 52 (Table 3) Outturn statements which local authorities submitted to the DfES. Figures for 2002–03 onwards are taken from Section 52 (Table A) Outturn statements. The change in sources is shown by the dotted lines.

[2] School based expenditure includes only expenditure incurred directly by local authority schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure. The pupil data are drawn from the DfES Annual Schools Census adjusted to be on a financial year basis.

[3] From 2002–03 the school based expenditure calculation is broadly similar to the calculation in previous years. However, 2001–02 and earlier years includes all premature retirement compensation (PRC) and Crombie payments, mandatory PRO payments and other indirect employee expenses, while from 2002–03 only the schools element of these categories is included. In 2001–02 this accounted for approximately £70 per pupil of the England total, while the schools element of these categories accounted for approximately £50 per pupil of the England total in 2002–03. Also, for some LAs, expenditure that had previously been attributed to the school sectors was reported within the LA part of the form from 2002–03 and would therefore be excluded, though this is not quantifiable from existing sources.

[4] Expenditure was not distinguished between the pre-primary and primary sectors until the inception of Section 52 for financial year 1999–2000.

[5] Combined local authority and school based expenditure includes all expenditure on the education of children in local authority maintained establishments and pupils educated by the authority other than in maintained establishments. This includes both school based expenditure and all elements of central LA expenditure except youth and community and capital expenditure from revenue (CERA). Certain elements of central local authority expenditure cannot be attributed to a particular phase of education and consequently a sector breakdown is not available. Pupil figures include all pre-primary pupils, including those under 5s funded by the authority and being educated in private settings (only available from 1999–2000), pupils educated in maintained mainstream schools and any other local authority maintained pupils. All pupil numbers are adjusted to be on a financial year basis.

[6] Spending in 1997–98 reflects the transfer of monies from local government to central government for the nursery vouchers scheme. These were returned to local government from 1998–99.

[7] The expenditure data for 1999–2000 onwards reflect the return of grant maintained schools to local authority maintenance.

[8] 2004–05 data are provisional and is subject to change by the local authority.

Note:

Figures are as reported by the LEA in cash terms rounded to the nearest £10 and may not sum due to rounding.

Racism

Dr. Kumar: To ask the Secretary of State for Education and Skills what guidelines local education authorities are given in relation to tackling racism in schools. [53534]

Jacqui Smith: The Department worked with the Commission for Racial Equality in drafting guidance for schools and local authorities on complying with their duties under the Race Relations (Amendment) Act 2000, and has since published advice to schools helping them to fulfil their obligations under this Act, and implement their statutory Race Equality Policy. Other guidance on managing exclusions to local authorities and schools advises them to take steps to ensure that they do not discriminate against pupils on the grounds of race, when making a decision whether to exclude. Schools are required to record whether a pupil has been excluded for "racist abuse".

The Schools White Paper commits us to creating Advice on countering racist bullying. The Advice, which is intended for schools and local authorities, has now been published on the Department of Education and Skills' website. Many local authorities have contributed to the compilation of the Advice. All local authorities have been invited to dissemination events to be held this term.

Refuges

Dr. Cable: To ask the Secretary of State for Education and Skills what measures her Department has in place to ensure that a child whose parent moves into a refuge outside the local education authority (LEA) where the child is ordinarily schooled is given a temporary school place within the new LEA area. [57792]

Jacqui Smith: A local authority has a duty to provide a school place for any child of compulsory school age residing within its area whose parent requests one. This is the case whether or not the child resides permanently in the area.

Local authorities are expected to have a protocol in place to ensure that pupils who might have difficulties finding suitable school places are found places quickly.

Dr. Cable: To ask the Secretary of State for Education and Skills how far from the school ordinarily attended by a child of someone who has moved into a refuge the refuge is required to be for temporary schooling nearer the refuge to be considered. [57794]

Jacqui Smith: There is no qualifying distance for a child to be considered for a temporary school place. Where the parent or carer of the child wishes the child to attend a school closer to the refuge on a temporary or permanent basis, they have the same rights as any other parent to apply for a school place. They should initially contact the local authority for the area in which the refuge is situated, because many have protocols which ensure that vulnerable children are admitted quickly into a suitable school. Local authorities are under a duty to ensure that all children of compulsory school age living in their area have a school place.

Dr. Cable: To ask the Secretary of State for Education and Skills what average length of time a child whose parent moved into a refuge was absent from school in the last 12 months. [57795]

Jacqui Smith: The Department does not hold information on whether pupils have a parent who has moved into a refuge.

School Buses

Graham Stringer: To ask the Secretary of State for Education and Skills what regulations she will introduce to ensure that private bus operators who provide school bus services under the Education and Inspections Bill have properly trained operatives. [57387]

Jacqui Smith *[holding answer 10 March 2006]:* We have no plans to make regulations under the Education and Inspections Bill relating to the training of bus drivers.

There is a statutory duty to implement any proposals that are approved.

School Finance

Dan Norris: To ask the Secretary of State for Education and Skills (1) how much was allocated by her Department in Bath and North East Somerset for *(a)* capital projects and *(b)* revenue funding in each of the last five years; [54397]

(2) how much was allocated by her Department in South Gloucestershire for *(a)* capital projects and *(b)* revenue funding in each of the last five years; [54398]

(3) what the total expenditure was on maintenance and improvement of *(a)* primary, infant and junior schools and *(b)* secondary schools in Wansdyke constituency in each of the last eight years. [54364]

Jacqui Smith: Capital and revenue allocations made to Bath and North East Somerset local authority and its schools, and to South Gloucestershire local authority and its schools, in each of the last five years are set out in the following table:

£ million

	Capital allocations		*Revenue funding*	
	Bath and North East Somerset[1]	*South Gloucestershire*[2]	*Bath and North East Somerset*	*South Gloucestershire*
2001–02	5.4	11	77.2	117.5
2002–03	12.5	15.9	81.8	126.8
2003–04	11.8	14.9	90.2	141.6
2004–05	7.3	19.1	96.2	149.9
2005–06	5.6	11	103.5	160

[1] Note: 2002–03 and 2003–04 included Targeted Capital Funding of £4.4 million and £4.9 million respectively.

[2] Note: 2002–03 and 2004–05 included Targeted Capital Funding of £4.0 million and £2.5 million respectively.

School Capital Funding

Mr. Jenkins: To ask the Secretary of State for Education and Skills what representations she has received from church aided schools on proposed changes to the way capital funding is channelled to schools; and if she will make a statement. [57873]

Jacqui Smith: When considering options for changes to the way in which we pay capital grant to voluntary aided schools, we established a transition group which included representatives from the Foundation and Aided Schools National Association, which represents the views of many aided schools, and from local authorities, the churches and the voluntary aided sector generally. We have acted on the recommendations of that group in taking our current proposals forward. Members of that group have been fully supportive of these changes.

School Expansions

Mr. Willetts: To ask the Secretary of State for Education and Skills (1) how many decisions on school expansion schools organisation committees have made in each of the last five years; and how many of these decisions in each year were that schools should expand; [54359]

(2) how many proposals for school expansion have been referred to the schools adjudicator in each of the past five years; and how many of these have resulted in school expansion. [54371]

Jacqui Smith: The following table sets out the numbers of primary and secondary school expansion proposals that have been decided by School Organisation Committees (SOCs) and the schools adjudicator in each of the last five years:

	SOC			*Schools adjudicator*			
	Approved	*Rejected*	*Total*	*Approved*	*Rejected*	*Total*	*Total per year*
2000	41	1	42	0	2	2	44
2001	50	1	51	6	1	7	58
2002	89	0	89	6	1	7	96
2003	46	0	46	3	0	3	49
2004	36	2	38	7	1	8	46
2005	25	0	25	4	1	5	30
2006	1	0	[1]1	0	0	0	[1]1

[1] To date.

We expect local authorities and schools to take decisions on allocating capital funds for building maintenance and improvements in accordance with their local asset management plan. Accordingly, records of these categories of expenditure are not held centrally. However revenue figures are reported separately, and are shown below.

Revenue expenditure on the maintenance and improvement of school buildings and grounds since 1997–98
Cash terms figures as reported by local authorities as at 23 February 2006

£

	Bath and NE Somerset LA			South Gloucestershire LA		
	Primary schools	Pre-primary and primary schools	Secondary schools	Primary schools	Pre-primary and primary schools	Secondary schools
1997–98	—	1,056	1,132	—	1,196	1,518
1998–99	—	1,474	1,204	—	1,139	1,686
1999–2000	737	737	1,208	1,081	1,081	1,367
2000–01	833	833	1,118	866	867	943

2004–05	758	—	1,160	661	—	1,184

Note:
All figures are £1,000's.

School Meals

Mr. Hurd: To ask the Secretary of State for Education and Skills how many school children in each school in the constituency of Ruislip-Northwood *(a)* receive school meals and *(b)* pay for school meals. [57368]

Jacqui Smith: The table shows information on free school meals taken as well as pupils known to be eligible for free schools meals.

Two sets of figures relating to the number and proportion of pupils known to be eligible for free school meals are given here. The first includes all pupils in the school, regardless of their age. The second includes full time pupils aged up to (and including) 15 and part time pupils aged five to 15 (inclusive). This second coverage is as used in the Pupil Achievement Tracker and Ofsted's PANDA reports and provides consistent school level comparisons.

Information on the number of pupils who pay for school meals is not collected centrally.

Maintained primary and secondary schools: School meal arrangements—January 2005—Ruislip-Northwood parliamentary constituency

Schooling (Ruislip-Northwood)

Mr. Hurd: To ask the Secretary of State for Education and Skills what proportion of children attending schools in *(a)* the constituency of Ruislip-Northwood and *(b)* the London borough of Hillingdon come from outside the borough; and how many children who live in (i) the constituency of Ruislip-Northwood and (ii) the London borough of Hillingdon attend a school in another local authority. [57370]

Jacqui Smith: The information requested has been provided in the following table.

Percentage of pupils[1] educated within (a) the constituency of Ruislip-Northwood and (b) the London borough of Hillingdon residing outside of the borough

	Ruislip-Northwood Number of pupils in schools	Ruislip-Northwood Number of pupils in schools from outside the borough	Ruislip-Northwood Percentage of pupils in schools from outside the borough	London borough of Hillingdon Number of pupils in schools	London borough of Hillingdon Number of pupils in schools from outside the borough	London borough of Hillingdon Percentage of pupils in schools from outside the borough
Primary[2]	5,682	703	12.4	18,226	1,115	6.1
Secondary[3]	4,723	1,110	23.5	14,951	2,056	13.8
Special[4]	81	28	34.6	463	87	18.8
Total	10,486	1,841	17.6	33,640	3,258	9.7

Percentage of pupils[1] residing within (i) the constituency of Ruislip-Northwood and (ii) the London borough of Hillingdon educated outside of the borough

	Ruislip-Northwood Number of resident pupils	Ruislip-Northwood Number of resident pupils educated outside of the borough	Ruislip-Northwood Percentage of resident pupils educated outside of the borough	London borough of Hillingdon Number of resident pupils	London borough of Hillingdon Number of resident pupils educated outside of the borough	London borough of Hillingdon Percentage of resident pupils educated outside of the borough

Schools (Extended Services)

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many schools in England have involved the *(a)* private, *(b)* voluntary and *(c)* independent sectors in providing extended services in each year for which figures are available. [56792]

Beverley Hughes: The success of the Government's vision for all schools to provide a core offer of extended services will depend upon effective partnerships with the private, voluntary and independent (PVI) sectors. Local authorities and schools can benefit from the often long-standing skills, knowledge and experience that the PVI sectors have in delivering services for children, young people and the wider community. Through the National Remodelling Team we are encouraging schools and local authorities to involve existing PVI providers in both the strategic planning and delivery of activities.

At this early stage in the roll-out we do not hold data on how many schools are working with the PVI sectors. But the National Remodelling Team is monitoring how extended services are being developed, looking at the sustainability of services at school level and the effectiveness of partnerships with the PVI sectors.

Sporting Academies

Kate Hoey: To ask the Secretary of State for Education and Skills whether the proposals in the White Paper would permit pupils to continue to be selected on sporting prowess in those schools recognised as sporting academies. [58484]

Jacqui Smith: Admission protocols that allow pupils to be admitted according to aptitude in an Academy's specialism (including sport) will remain unchanged under the proposals in the Education and Inspections Bill. Academies in general have the right to admit up to 10 per cent. of pupils according to aptitude in the Academies specialism; 11 of the 27 open Academies do so.

Any test for a pupil's aptitude for the Academy's specialism must by law be limited to assessing that particular aptitude, and must not be a general test of ability or commitment to the school. Clause 40 of the Education and Inspections Bill if enacted would reaffirm the existing ban on any new selection by ability.

Student Exchanges

Mr. Sheerman: To ask the Secretary of State for Education and Skills what support is provided for schools to participate in student exchange visits. [57462]

Bill Rammell: Department provides support for schools to participate in student exchange visits and links through its funding of organisations such as the British Council. Programmes include practical help with finding a partner, as well as assistance with the cost.

Increasingly, school links are being made and sustained through use of ICT. Our main focus for encouraging and facilitating new school links is the Global Gateway (www.globalgateway.org). through which schools can find a partner in another country. The site also provides advice and guidance on making international links work well, funding opportunities and gives access to other quality-assured and relevant websites. My Department also funds a wide range of school-linking programmes delivered by partner organisations.

EU funding is also available through the Socrates Programme's Comenius action, the European programme for school education. The programme is open to the 25 member states, the EEA countries (Iceland, Liechtenstein and Norway) and the applicant countries —Bulgaria, Romania and Turkey. Seminars for schools wishing to find partners are held regularly across Europe. The British Council publicises the programme, and holds UK regional briefing meetings to promote the opportunities. The Partbase database (partbase.eupro.se) provides schools with an on-line search facility for finding Comenius partners.

Supply Teachers

Mr. Gibb: To ask the Secretary of State for Education and Skills what proportion of lessons in *(a)* secondary schools and *(b)* primary schools were taken by supply teachers in (i) 2003–04 and (ii) 2004–05, broken down by local education authority. [57245]

Jacqui Smith: The information is not collected centrally.

Sure Start

Mr. Hurd: To ask the Secretary of State for Education and Skills how many under-fives she expects to participate in the Sure Start programme in *(a)* the constituency of Ruislip-Northwood, *(b)* the London borough of Hillingdon, *(c)* Greater London and *(d)* England in 2006–07. [57369]

Beverley Hughes: The information requested by constituency is not available. Information for 2006–07 is not available yet as local authorities are currently planning where and when centres in the 2006–08 phase will open. In the first phase, to 2006, the London borough of Hillingdon have planned a single centre for around 600 children under five, while in the Greater London area an estimated 184,300 children will be reached. Across England as a whole we estimate 894,000 children under five and their families will have access to children's centres' services. By the end of the second phase, that is by March 2008, we expect Sure Start children's centres will provide services for around 10,500 children aged under five in the London borough of Hillingdon, 373,600 children aged under five in Greater London and 2,132,300 children aged under five in England.

Sure Start (Oxford)

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what allocation has been made for Sure Start programmes in Oxford City for each year since its inception. [58284]

Beverley Hughes: Allocations for Sure Start Local Programmes (SSLPs) and Children's Centres were as follows.

	Rosehill SSLP (Oxford City)	Abingdon Mini SSLP (Oxfordshire)	Children's Centres (Oxfordshire)	Total Revenue Funding	Children's Centres Capital Funding
1999–2000	146,432	-	-	146,432	-
2000–01	808,673	-	-	808,673	-
2001–02	934,855	-	-	934,855	-
2002–03	1,058,500	110,757	-	1,169,257	-
2003–04	1,058,500	120,000	42,750	1,221,250	-
2004–05	1,084,963	100,000	113,531	1,298,494	50,250
2005–06	1,112,087	100,000	157,712	1,369,799	452,249

In addition, the Rosehill and Abingdon programmes had capital allocations of £1.423 million and £0.250 million respectively. These are not included in the table as there were no specific annual allocations.

Sure Start children's centre allocations are only available for Oxfordshire. It is for the local authority and their delivery partners to decide how and where the funding is spent within their area.

Teenage Conception

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what progress has been made towards reducing the under-18 conception rate by 50 per cent. by 2010. [58026]

Beverley Hughes: Steady progress is being made on reducing the under-18 conception rate. Data for 2004 (published in February 2006) shows that since the 1998 baseline year, the under-18 conception rate has fallen by 11.1 per cent. and the under-16 rate has fallen by 15.2 per cent. Both rates are now at their lowest levels since the mid-1980s. However, the current rate of decline needs to accelerate if we are to achieve the PSA target to halve the under-18 conception rate by 2010.

During the next phase of the strategy, we will focus on strengthening delivery in local areas with static or increasing rates, using the evidence of what works from areas where rates have fallen most. We will also be strengthening the links between local teenage pregnancy strategies and the policies and programmes locally that tackle the underlying causes of teenage pregnancy, such as poverty, poor educational attainment and low post-16 participation in education, employment or training.

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many teenage pregnancies there were in Tamworth constituency in the latest period for which figures are available; and if she will make a statement. [57867]

Beverley Hughes: The latest data on under-18 conception rates (2004 provisional data)—which were published by the Office for National Statistics on 23 February 2006—are only available at top-tier local authority, not district level. This data shows that steady progress is being made on reducing the under-18 conception rate. Since the 1998 baseline year, the under-18 conception rate in England has fallen by 11.1 per cent. and the under-16 rate has fallen by 15.2 per cent. Both rates are now at their lowest levels since the mid-1980s.

2004 data for Staffordshire show that performance is exceeding the progress made in England as a whole. The under-18 conception rate in Staffordshire has fallen by 20 per cent.-from a rate of 43.2 per 1,000 females aged 15–17 (635 conceptions) in 1998, to a rate of 34.6 per 1,000 (550 conceptions) in 2004.

District-level data for 2003 show a rate reduction in Tamworth of 21.8 per cent. between 1998 and 2003. There were 82 under-18 conceptions in 1998 (a rate of 55.7 per 1,000), falling to 71 conceptions in 2003 (a rate of 43.6 per 1,000). 2004 district-level data will be published later this year.

Undergraduates

Mr. Hayes: To ask the Secretary of State for Education and Skills (1) what proportion of first year university undergraduates were from *(a)* comprehensives, *(b)* secondary moderns, *(c)* grammar schools and *(d)* private schools; [43069]

(2) what proportion of pupils from *(a)* comprehensive, *(b)* secondary modern and *(c)* grammar schools go on to (i) study at university and (ii) receive a degree-level qualification. [43070]

Bill Rammell: The latest available information from the Universities and Colleges Admissions Service (UCAS) showing the previous school type of students obtaining places in 2005 is shown in the table. The figures are limited to students who applied to full-time undergraduate courses via the UCAS, so they do not therefore cover part-time students nor those full-time students who apply directly to Higher Education Institutions.

UK domiciled students accepted to full-time undergraduate courses via UCAS Higher Education Institutions in England, autumn 2005

Previous school type	Number	Percentage
Comprehensive	70,454	29.2
Grammar	12,056	5.0
Further/Higher Education establishments	106,199	43.9
Independent schools	28,765	11.9
Other[1]	24,173	10.0
All known	241,647	100.0
Unknown	60,151	-
Total	301,798	-

Source:
UCAS.
[1] Includes students from Secondary Modern schools, which are not identified separately.

Definitive information on the progression of secondary school students to higher education by school type is not routinely collected. However, the Youth Cohort Study (YCS) can provide estimates of participation in higher education for young people. The first column in the table below shows participation rates

in higher education (HE) by academic age 19 (ie by the fourth year after completing compulsory education) by secondary school type attended in year 11. The second column shows the proportion of an earlier cohort who had obtained an HE qualification by the time they had reached academic age 21 (ie in the sixth year following completion of compulsory education). These rates in the second column are lower than they would be at older age groups because many young people either take a gap year and/or take courses lasting more than three years. The YCS has not surveyed young people beyond the age of 21.

Year 11 school type	*In HE by 19 (ie at 18 and/or 19) (2005)*	*HE qualification obtained by 21 (2001)*
Comprehensive	36	17
Secondary modern	30	10
Grammar	80	33
Independent	82	27
Total	40	18

Source:
Youth Cohort Study Cohorts 11 (2005 data-total sample size 5,902) and 8 (2001 data-total sample size 5,466).

Testing

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will introduce level 6 tests for Key Stage 2 mathematics and English. [57951]

Jacqui Smith: No. The National Curriculum programme of study for Key Stage 2 covers attainment at levels 3 to 5 and the coverage of the tests reflects this. The majority of children are expected to attain level 4 at the end of the key stage. However, teacher assessment is also an essential part of national curriculum assessment and reporting arrangements and teachers may assess pupils' attainment at the end of Key Stage 2 as being at level 6. Optional tasks that teachers may use to support their assessment at that level are available from the Qualifications and Curriculum Authority.

University Students

Mr. Stewart Jackson: To ask the Secretary of State for Education and Skills how many people aged 18 to 24 resident in the Peterborough constituency were registered students at UK universities in each year since 1997. [53709]

Bill Rammell: The latest available information is shown in the table.

Students[1] aged under 25 on Higher Education courses at UK Higher education institutions

	Total	*Total with known postcodes[2]*	*Of which: from Peterborough constituency[2]*
1997/98	980,245	764,630	1,085
1998/99	1,005,740	832,100	1,220
1999/00	1,019,600	859,250	1,275
2000/01	1,043,910	882,940	1,290
2001/02	1,082,180	920,675	1,310
2002/03	1,133,905	956,720	1,320
2003/04	1,172,220	989,340	1,360
2004/05	1,196,815	1,009,765	1,335

[1] Covers students from the UK and overseas on postgraduate and undergraduate courses.
[2] Students from Peterborough are identified by reference to their home postcode.
Note:
Figures have been rounded to the nearest 5.

Written Answers to Questions

Wednesday 15 March 2006

INTERNATIONAL DEVELOPMENT

Africa

Mark Simmonds: To ask the Secretary of State for International Development what estimate he has made of the number of pupils enrolled in unregistered private schools in Africa. [58039]

Hilary Benn: We are not in a position to make valid estimates about the numbers of pupils enrolled in unregistered private schools in Africa. Partner Governments do not have statistics about such establishments because they do not feature in national data collection.

Tony Baldry: To ask the Secretary of State for International Development (1) what assessment he has made of the extent to which drought in Africa is caused by climate change; [57456]

(2) what assessment he has made of steps which can be taken to reduce the effects of drought in Africa. [57453]

Hilary Benn: DFID attaches great importance to helping developing countries adapt to the adverse effects of climate change. DFID is a leading supporter of international and national efforts to assess and reduce the impact of climate change efforts to eradicate poverty.

Work to assess the potential impact of climate change on the incidence and intensity of droughts in Africa is in its early stages. We are helping African planners develop their national climate change adaptation strategies through three means: *(a)* provision of funds through the United Nations to help Africa adapt, including £10 million over three years (2005–06 to 2007–88) to the United Nations Climate Change Convention's Special Climate Change Fund; *(b)* helping to improve African climate monitoring networks and develop African regional climate centres through the G8 Global Climate Observing System (GCOS) initiative and *(c)* DFID's climate change research strategy.

During 2005, the UK also led the G8 to commit to improving the way we manage climate risk when providing development assistance. The UK aims to have climate risk management procedures for overseas aid in place by 2008, in line with the Commission for Africa recommendation. We are working with the World Bank and other donors to progress this.

Tony Baldry: To ask the Secretary of State for International Development what his estimate is of the number of people in Africa affected by drought in each of the last five years. [57457]

Hilary Benn: We do not have precise figures for the last five years as these records are not held centrally, but estimate that around 30 million people experience food shortages every year in Africa. In many cases these shortages are associated with drought.

Chad

Mr. Clifton-Brown: To ask the Secretary of State for International Development what representations he has received on aid for Sudanese refugees in Chad; and if he will make a statement. [57730]

Hilary Benn: DFID is in regular contact with the UN and humanitarian agencies providing assistance to the Sudanese refugees in Eastern Chad, we will continue to closely monitor the humanitarian situation.

The UK provided a total of £5 million for humanitarian support in Eastern Chad and, in line with the reduced request in the UN appeal, will provide £4 million in 2006.

Colombia

Mark Simmonds: To ask the Secretary of State for International Development what assistance his Department is providing to displaced people in Colombia; and if he will make a statement. [58040]

Mr. Thomas: DFID provides assistance to displaced people in Colombia through its 18 per cent. contribution to the European Commission's development assistance programme. The EC's Humanitarian Aid Office (ECHO) made a commitment of €8.6 million to Colombia in 2003 through its Global Plan 2003, for Internally Displaced People and people affected by internal conflict in Colombia. The ECHO committed a further €8 million of humanitarian assistance for 2004 and €12 million in 2005. Additionally the EC is providing €105 million over the period 2001–06 to support alternative development, good governance and human rights projects in Colombia.

Departmental Expenditure

David T.C. Davies: To ask the Secretary of State for International Development what the running costs were of his Department's offices in *(a)* Pretoria, *(b)* Brasilia, *(c)* Bangkok, *(d)* Montserrat, *(e)* Paris and *(f)* Rome in 2004–05. [58243]

Mr. Thomas: The running costs of DFID's offices in Pretoria, Brasilia, Bangkok, Montserrat, Paris and Rome in 2004–05 were as follows:

£000

Office	*Expenditure 2004–05*
Pretoria (DFID Southern Africa)	3,725
Brasilia (DFID Brazil)	884
Bangkok (DFID South East Asia)	2,066
Montserrat (Overseas Territories Department)	1,518
Paris (UK Permanent Delegation to UNESCO)	455
Rome (UK Permanent Representation to UN Agencies Rome)	587

Running costs include (but are not limited to) staff pay and other personnel overheads, office accommodation rental and maintenance, staff training,

post, telecommunications and travel costs. DFID's office in Pretoria is the base for DFID Southern Africa and its budget includes running costs for Botswana, Namibia, Lesotho, South Africa and Swaziland. DFID's office in Bangkok is the base for DFID South East Asia which covers Vietnam, Cambodia, Indonesia, Sri Lanka, East Timor and Burma, as well as Thailand. However, in this case expenditure only includes running costs for the Bangkok office.

Dominican Republic (HIV/AIDS)

Ms Abbott: To ask the Secretary of State for International Development if he will make a statement on the availability of anti-retrovirals and other treatment for those with HIV/AIDS in the Dominican Republic, with particular reference to Dominicans of Haitian descent. [57925]

Hilary Benn: The 2002 census in the Dominican Republic records that only 80,000 people identified themselves as being born outside of the country. However, Amnesty International estimates that there are between 700,000 and 800,000 people of Haitian descent in the Dominican Republic, out of a total population of 8.56 million. The Joint United Nations Programme on HIV/AIDS (UNAIDS) estimate that the prevalence of HIV infection is below 2 per cent. nationally but this figure is up to 5 per cent. in the bateyes (local communities) living near sugar plantations, where a significant proportion of immigrants of Haitian descent live.

While the Presidential AIDS Council (COPRESIDA) made significant progress towards universal access to prevention, treatment and care in the last three years, and has a policy of universal provision of anti-retroviral treatment (ARV), there is no specific policy of providing ARVs to non-nationals. The total number of people living with HIV and AIDS, who require ARV treatment, is not known. At January 2006, some 2,700 patients were receiving ARVs, likely to be substantially less than 50 per cent. of those in need of treatment.

Amnesty International is planning to issue a report on HIV and human rights in the Dominican Republic in May. It is expected to find that the treatment, care and prevention services for HIV and AIDS in the bateyes, where many Haitians and Dominicans of Haitian descent live, is very limited.

Latin America

Keith Vaz: To ask the Secretary of State for International Development (1) how his Department is working with local communities in Latin America on the *(a)* aims, *(b)* design, *(c)* implementation and *(d)* evaluation of development projects; [58031]

(2) what steps his Department is taking to strengthen civil society in Latin America through co-operation with local communities. [58032]

Mr. Thomas: The Department for International Development (DFID) supports local communities in Latin America through its work with the International Finance Institutions (IFI), particularly the World Bank and the Inter American Development Bank (IADB), and through direct support to non-governmental organisations (NGO)s. The range of community involvement in IFI supported and civil society programmes is illustrated by the following examples.

Through engagement with the IADB and the World Bank, DFID is supporting greater involvement of civil society and local communities in IFI programmes and processes, such as consultations around development and evaluation of IFI country strategies. In Brazil, the UK is helping local communities give their own assessment of the impact of the Federal Government's conditional cash transfer programme, the Bolsa Familia. This programme provides a monthly cash benefit to a current total of 8.7 million poor families across the country, which is conditional on children attending school and immunisation programmes. The UK is also contributing to a programme to enhance the capacity of indigenous people's organisations throughout Amazonia. Indigenous leaders meet regularly, receive training together, and consider how to promote their entitlements to services and to strengthen social cohesion in Amazon communities.

DFID supports the IADB to promote community participation in the design and implementation of its programmes in Central America. For example, support was recently provided to local communities in the remote cross-border area between Honduras (El Paraiso) and Nicaragua (Nueva Segovia) to strengthen cross-border development plans.

With civil society in Brazil, the UK is working with local communities to raise awareness of how institutional racism can be a barrier to poor people in the Afro-Brazilian population receiving the public services to which they are entitled. This work has been implemented through new partnerships between municipal authorities and civil society organisations in two states in the poor North East of Brazil, Pernambuco and Bahia, through the Programme to Combat Institutionalised Racism.

In the Andes region, DFID is working to strengthen awareness among civil society and community groups of their right to information about policy processes and to engage with policy makers, both within Government and donors. In Peru, DFID's rights-based approach to development put working with local communities central to its purpose. The substantial partnership between Oxfam and DFID through the Derechos, Inclusion y Desarrollo (Rights, Inclusion and Development) programme has taken DFID's support on these issues right down to the community level.

In Nicaragua, DFID contributes to the multi-donor civil society fund in Nicaragua administered by the local in-country offices of Oxfam Great Britain and Trocaire. This fund is designed to provide direct grants to local grassroots civil society to help them build governance from the bottom up and engage in development planning processes as well as social auditing of Government development programmes. DFID has supported the IADB to strengthen civil society through co-operation with local communities.

DFID also provides direct support to civil society in Latin America through Partnership Programme Arrangements with six international NGOs and

through the Civil Society Challenge Fund. Many of the activities supported through these channels would involve local communities.

Keith Vaz: To ask the Secretary of State for International Development how his Department sets development strategies to target *(a)* poverty and *(b)* inequality in Latin America. [58033]

Mr. Thomas: Latin America has high levels of persistent and severe poverty and inequality. According to 2004 national poverty line data collected by the United Nations, 42.9 per cent. of the population of Latin America live in poverty and 18.6 per cent. live in extreme poverty. The levels of extreme poverty are higher among indigenous and afro-descendant people.

DFID's strategy for Middle Income Countries (MIC) provides the framework for how DFID works to reduce poverty and inequality in Latin America. DFID's main financial contributions to Latin America are through direct contributions to the multilateral institutions (the Inter-American Development Bank, the World Bank, the European Commission and the United Nations). As recommended by the MICs Strategy, DFID uses its bilateral programme (£11 million in 2005–06 and £12 million in 2006–07) for Latin America to maximise the effectiveness of our multilateral contribution by working to enhance the overall impact of the international system in the region. DFID's assistance to Latin America from 2004–07 is set out in the Regional Assistance Plan, copies of which are available in the Libraries of the House.

DFID is working with the Inter-American Development Bank (IADB) and the World Bank to strengthen their focus and impact on poverty, inequality and exclusion. DFID assistance to the IADB and the World Bank aims to strengthen the access of poor and excluded people to local and national markets, to the benefits of international trade, and to accountable and more responsive public systems. A recent example of support to the IADB was in the development of an indigenous people's strategy, which sets out how the World Bank should assess the impact of new programmes and loans on indigenous people.

DFID is working to improve the ability of Governments to develop and monitor poverty reduction strategies and the extent to which donor assistance is consistent with these strategies by promoting and exchanging regional lesson learning. DFID is also facilitating lesson sharing on global policy issues including trade, HIV and AIDS and global environmental issues.

DFID also is providing over £10 million in 2005–06 to British non-governmental organisations (NGO)s in the region by funding projects through its Civil Society Challenge Fund and through its Partnership Programme Agreements with six international NGOs.

Keith Vaz: To ask the Secretary of State for International Development (1) what assessment he has made of the role of microfinance in the development of poor Latin American communities; and if he will make a statement; [58029]

(2) what proportion of his Department's budget to support microfinance projects went to Latin America in the last period for which figures are available; [58030]

(3) what microfinance organisations his Department supports in Latin America; [58034]

(4) which 20 non-governmental organisations working in Latin America received the highest amount of grant from his Department for microfinance or microcredit projects in each year since 1997. [58036]

Mr. Thomas: Lack of access to affordable credit is a persistent constraint to livelihoods of the poor in Latin America. For both formal and informal small scale enterprises, which are the main employers of the poor in urban and rural areas, limited forms of formal collateral exclude them from access to borrowing from the formal financial sector. Microfinance institutions have an important role to play in meeting this gap for small enterprises and producers. However, microfinance institutions can also have high transaction and operation costs and frequently rely on external, often donor, financing.

Many donors, including the International Financial Institutions, are working on instruments that will guarantee loans to the poor, as well institutional models that will enable larger financial institutions to extend financial services to poorer communities and small enterprises. In the meantime, microfinance institutions continue to play a crucial role in meeting the demands of the poor for financial services tailored to their particular needs.

If microfinance remains reliant on donor grants, it will always be limited and not reach the scale possible through involvement of the private sector. By combining the strengths of microfinance non-governmental organisations (NGO)s (microfinance expertise, community presence, commitment to serving very poor people) and those of banks (financial resources, information technology, payment systems), massive increases can be made in providing microfinance to the poor. The experience of ICICI Bank in India, the Grameen Bank in Bangladesh and Bancosol in Bolivia clearly demonstrate this. ProFund Internacional (ProFund), based in Costa Rica, targets the small and microenterprises (SMEs) of Latin America and the Caribbean. Major shareholders of ProFund include the InterAmerican Development Bank, IFC/The World Bank Group and CDC.

Globally, DFID has supported microfinance and financial sector projects in 25 countries. In Latin America, DFID is working closely with partner governments to improve the institutional framework within which microfinance institutions operate. DFID's Regional Assistance Plan for Latin America aims to improve the impact of International Finance Institutions (particularly the World Bank and Inter American Development Bank (IADB) on poverty and inequality. This includes working with the IADB and the World Bank to strengthen the access of poor and excluded people to local and national markets, including access to micro-credit. In Nicaragua, DFID is providing $150,000 to an International Finance Corporation initiative to support the microfinance industry to develop new products and lending models specifically targeted at the small enterprise sector. In Bolivia, DFID is in dialogue with the new Government

on the institutional structure for microfinance, informed by an analysis of models for credit services to poor rural producers.

Microfinance has often tended to be a component of wider DFID projects. For example, the United Nations Drug Control Programme (UNDCP) Alternative Development project in the Lower Huallaga Valley, Peru (completed in 2004), which worked with farmers to increase their incomes from alternative livelihoods and avoid a reactivation of the illegal cultivation of coca. A similar project in San Martin region of Peru included microfinance and supported small-scale production, agro-processing and environmental education to improve incomes and employment of poor producers.

DFID's fund allocations are determined by country and region rather than by sector. The overall budget for microfinance and the proportion allocated for Latin America is therefore not readily available.

DFID has Partnership Programme Arrangements (PPAs) with six international NGOs for their programmes in Latin America and the Caribbean. While these PPAs cover a wide range of work, it is expected that the following would include microfinance elements; CARE, CAFOD, Christian Aid and Oxfam.

Microfinance Organisations

Keith Vaz: To ask the Secretary of State for International Development what process microfinance organisations must complete in order to be eligible for support from his Department. [58035]

Hilary Benn: DFID provides support to financial sector development, primarily through its country-based aid programmes.

DFID works in partnership with Governments, civil society and with the private sector to implement countries' growth and poverty reduction strategies. DFID agrees Country Assistance Plans (CAPs) that set out in detail country-level programmes, based on our partners' priorities.

Microfinance is widely recognised as useful in contributing to reducing poverty and reaching the Millennium Development Goals (MGDs). Where support is being given to microfinance organisations, DFID may set up "umbrella programmes" for the financial sector, usually in partnership with other donors and international financial institutions. DFID has supported such microfinance and financial sector programmes in 25 countries.

Microfinance organisations can access DFID support if their request for funding meets the requirements of these programmes.

At a central or regional level, DFID is supporting programmes such as, the Consultative Group to Assist the Poor (CGAP), a consortium of 33 public and private development agencies working together to expand access to financial services, including microfinance services. Another example is MicroSave, which promotes the development of savings and other more client-responsive financial services among microfinance institutions.

For further details, microfinance organisations should approach the local DFID office. Contact details are on DFID internet site on www.dfid.gov.uk

Malawi

Mr. Martyn Jones: To ask the Secretary of State for International Development what resources were allocated to Malawi to combat HIV/AIDS amongst *(a)* children and *(b)* adults in each of the last five years. [58196]

Hilary Benn: DFID committed £4.5 million through the Malawi National AIDS Commission and £100 million through the Malawi Ministry of Health for its Essential Health Package which includes the treatment of AIDS patients and the related Emergency Human Resource Programme. The latter programme is designed to increase the numbers and skills of health professionals so that anti-retroviral treatment can be rolled without undermining progress to other health targets. DFID is also financing prevention and mitigation programmes in education and in prisons.

It is not possible to apportion spend between adults and children. Total DFID expenditure on combating HIV and AIDS through the National AIDS Commission, the Ministries of Health and Education and other projects has been:

	£ million
2000–01	14
2001–02	12
2002–03	21
2003–04	22
2004–05	18
2005–06	17

In addition, we estimate that 5 per cent. of DFID's budget support has been spent on HIV and AIDS by the Government of Malawi. This HIV and AIDS expenditure was as follows:

	£ million
2002–03	0.3
2003–04	0.5
2004–05	0.925
2005–06	2.315

Malawi also benefits from DFID support for the Global Fund and the Joint United Nations Programme on HIV/AIDS (UNAIDS).

Mr. Martyn Jones: To ask the Secretary of State for International Development what the total amount of UK aid to Malawi was in each of the last 10 years in real terms. [58199]

Hilary Benn: The following table includes details of the total amount of UK aid to Malawi in real terms:

UK aid to Malawi

Real prices as at 2004: £ million

	Estimate of UK share of: *Bilateral aid*	*Multilateral aid*	*Of which: EC*	*Total*
1994	46.97	12.4	5.0	59.4
1995	37.8	14.0	9.6	51.8
1996	64.7	15.5	5.5	80.2
1997	20.4	10.6	3.2	31.0
1998	39.2	18.4	7.8	57.5
1999	53.6	8.8	8.1	62.4
2000	70.9	14.0	8.0	85.0
2001	49.9	19.7	8.3	69.6
2002	35.1	6.1	4.4	41.2
2003	69.5	14.9	5.6	84.4
2004	65.2	n/a	n/a	n/a

Note:
2003 is latest year available for imputed multilateral shares.
Source:
OECD DAC online database and SRSG Imputed Multilateral Shares. Date: 13 March 2006.

Mr. Martyn Jones: To ask the Secretary of State for International Development what the date was of the last official visit by him or his predecessor to Malawi. [58223]

Hilary Benn: I last visited Malawi as Parliamentary Under-Secretary of State in October 2001. My hon. Friend, the Parliamentary Under-Secretary of State, made an official visit to Malawi in October 2005, accompanied by my hon. Friend the Member for Doncaster, Central (Ms Winterton), the Minister of State for health services. They examined progress with the implementation of HIV and AIDS programmes, the Essential Health Package and the associated Emergency Human Resources Programmes to which DFID has committed £100 million.

Mauritania

Daniel Kawczynski: To ask the Secretary of State for International Development if he will increase UK aid to Mauritania. [58156]

Hilary Benn: The Department for International Development does not have a bilateral development programme in Mauritania. Our support is mainly through multilateral channels, such as European Commission and World Bank programmes, of which the UK share amounted to £9.2 million in 2003 (latest available figure). Our bilateral aid in 2004 was £280,000 which was mainly for humanitarian assistance. We have no plans to increase our assistance.

Daniel Kawczynski: To ask the Secretary of State for International Development how much aid was given to Mauritania in *(a)* 1980 and *(b)* 2004. [58159]

Hilary Benn: The United Kingdom has provided the following amounts of aid to Mauritania; £40,000 in 1980 and £280,000 in 2004.

DFID also provides significant support through multilateral channels, such as the European Commission and World Bank programmes, of which the UK's share amounted to £4 million in 1982 (earliest year for which figures are available) and £9.2 million in 2003 (latest available year for figures).

Middle East

Rosie Cooper: To ask the Secretary of State for International Development what assessment he has made of the implications of the Palestinian elections on international aid for Palestinian development. [58561]

Hilary Benn: I refer my hon. Friend for West Lancashire to the oral response that I gave to my hon. Friend the Member for Hendon (Mr. Dismore) on 1 March 2006, *Official Report*, column 247.

Private Office

Sarah Teather: To ask the Secretary of State for International Development what the cost of his private office was in the last year for which figures are available. [55730]

Hilary Benn: It is difficult to separate out completely the running costs of my private office from the total expenditure of DFID's Top Management Group, which includes the Parliamentary Under-Secretary of State, the Permanent Secretary, the directors general and their staff.

For the financial year 2004–05, the best estimate of my private office running cost expenditure is £1,079,254. This includes salaries for myself and staff (including the parliamentary and correspondence units and special advisers), travel and subsistence, training, subscriptions, post and telecommunications, and other office services.

Public Service Agreements

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what progress his Department has made towards achieving Target 4 of the Public Service Agreement Objectives and Targets for 2003 to 2006. [57015]

Hilary Benn: There has been some slippage on progress towards Target 4 of DFID's Public Service Agreement Objectives and Targets for 2003 to 2006. Progress with the current round of trade negotiations is the main influence on this target, and this depends on the actions of the EU and others within the World Trade Organisation (WTO). After the failure of the Cancun WTO Ministerial in September 2003, there was no likelihood of the Doha Development Agenda (DDA) being completed by 1 January 2005. Thus the original target, which was always challenging, was unachievable. However, the WTO Ministerial Conference in Hong Kong in December 2005 delivered enough progress to keep the prospect of concluding the DDA in 2006 alive. The Government are therefore pressing for an outcome to these trade talks which delivers real gains for developing countries.

Sudan

John Barrett: To ask the Secretary of State for International Development what recent assessment he has made of the humanitarian situation in *(a)* Darfur and *(b)* Southern Sudan. [55328]

Hilary Benn: The information is as follows:

Darfur

Across the whole of Darfur, there are 1.8 million internally displaced people and 3.4 million dependent on humanitarian assistance. The priority is to provide assistance and protection for them, and to find a political solution that will allow people to return home and rebuild their lives.

Although the massive humanitarian response in Darfur has had a positive impact on malnutrition and mortality rates, the region remains highly dependant on food aid. This year there is expected to be above average food production, but the ability of Darfur to bring in the harvest depends on security which remains extremely fragile in many areas. Even with a good harvest, an estimated three million people in Darfur will still require food aid.

Instability, fighting and banditry in South and West Darfur, particularly along the border zone with Chad, is severely hampering humanitarian agencies operating in those areas. Violence and attacks on humanitarian agencies' staff and assets has lead to a reduction in presence, and total withdrawals in some areas, by both the UN and NGOs, leaving many vulnerable people with a greatly reduced level of assistance. Until a political settlement is reached to end the fighting and re-impose the rule of law, the civilian population of Darfur will continue to bear the heaviest burden.

The UK is the second largest bilateral humanitarian donor in Darfur (after the US), providing over £96 million since September 2003. These funds have meant that hundreds of thousands of vulnerable people have been provided with shelter, food, water and basic health care. The UK is also actively supporting the peace talks in Abuja, Nigeria, in the search for a sustainable political settlement.

South Sudan

The humanitarian situation remains fragile. Pockets of instability, noticeably in the Upper Nile, Eastern and Western Equatoria have resulted in continued internal displacement. A recent cholera outbreak in and around Yei and Juba underlines the threat of disease and the imminent rainy season will only serve to increase the difficulties faced by vulnerable people, and the humanitarian agencies ability to assist them.

While this year's harvest is predicted to be good, there will continue to be areas of high vulnerability due to insecurity and poor market access. Malnutrition levels in many areas are commensurate with, and in some cases worse than, those found in Darfur.

To date, the large number of returns of refugees and internally displaced people predicted by the UN has still not taken place. Although there is still potential for significant movement in the run-up to the rainy season, this is considered unlikely. To support the returns process, the UK is providing early and significant contributions to the UN 2006 Work plan, from which the UN humanitarian co-ordinator has already allocated over $40 million to the South.

In addition to funding vital non-governmental organisations (NGOs) humanitarian programmes in the South, the UK is providing financial support to an emergency response fund for the South to deal with emergencies, such as the cholera outbreak. For longer term recovery and development, the UK is establishing the £10 million service delivery fund which will act as a bridge to the Multi-Donor Trust Fund while it develops projects for funding to meet longer term development needs.

Mark Simmonds: To ask the Secretary of State for International Development if he will make a statement on the recent outbreak of cholera in Sudan; and what steps his Department is taking to prevent the disease spreading. [58041]

Hilary Benn: DFID have been closely monitoring the cholera outbreak in Southern Sudan since it began late January. The outbreak started in Yei town in Southern Sudan and subsequently spread to Juba and a dozen other towns further East and North. To date (12 March) 212 people have died from the disease from a case load of 6,744. The recent outbreak and its subsequent rapid spread to neighbouring towns underlines the threat of disease while the imminent onset of the rainy season will serve to increase the difficulties faced by vulnerable people.

DFID has been active in supporting the co-ordination of response efforts in the South and in monitoring the situation. The emergency preparedness and response unit managed by the United Nations Office for the Co-ordination of Humanitarian Affairs (UNOCHA) together with the World Food Organisation (WHO) have been at the forefront of co-ordinating the response to the outbreak. DFID has been working closely with OCHA providing technical advice, support and funding.

Through the Emergency Response Fund (ERF) of UNOCHA, DFID has provided over $350,000 to eight UN agencies and non-governmental organisations assisting with the response to the cholera outbreak. An additional $750,000 of DFID funds remains with the ERF for continued assistance to agencies if the disease spreads further.

In addition to support for such chronic and rapid onset emergencies, the UK is providing early and significant contributions to the UN 2006 Work plan, from which the UN humanitarian co-ordinator has already allocated over $40 million to the South including an allocation of US $500,000 to the Emergency Response Fund. The UN humanitarian co-ordinator additionally holds an emergency reserve of $10 million (to which DFID was a significant contributor) which could be accessed to scale up the response to the outbreak should the need arise.

ELECTORAL COMMISSION COMMITTEE

Overseas Voters

Mr. Evans: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission pursuant to his Oral Answer of 6 March 2006, *Official Report*, column 605, on overseas voters, whether he has received any further information from the Electoral Commission on the number of

(a) parliamentary constituencies with no registered overseas voters and *(b)* such voters registered in Ribble Valley constituency. [58896]

Peter Viggers: In my answer in the House on 6 March, I stated that there were 45 parliamentary constituencies with no registered overseas voters, and that there were four such voters registered in the Ribble Valley constituency. These figures, based on registers as at 1 December 2005, had been given to me by the Electoral Commission. I have now been informed by the Commission that these figures are incorrect, and that there were only 14 parliamentary constituencies with no registered overseas voters and that there were 45 such voters registered in the Ribble Valley constituency. The Commission has advised me that this mistake arose from a misinterpretation on its part of the relevant ONS data. I regret having given the House incorrect information and welcome this opportunity to correct the record.

WORK AND PENSIONS

Benefits

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what assessment he has made of the merits of conducting an employability and capability assessment immediately an initial claim for employment and support allowance is made. [52711]

Margaret Hodge: In the Green Paper; "A new deal for welfare: empowering people to work"; we have proposed that the assessment phase should last three months. During this time we will assess both a claimant's eligibility for benefit and capability for work. Assessing an individual at a relatively early stage of their claim allows us to intervene early to maximise their chances of returning to work. However, many people will be on employment and support allowance for very short periods of time and so carrying out assessments too early in a claim could lead to nugatory assessments taking place.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions how many hours a week Sir David Henshaw will spend as the chair of the Child Support Agency Operational Improvement Plan. [56391]

Mr. Plaskitt: Sir David Henshaw has not been asked to be the chair of the Child Support Agency Operational Improvement Plan. Delivery of the content of the plan is a matter for the agency chief executive, Stephen Geraghty.

However as announced on 9 February by the Secretary of State for Work and Pensions, Sir David has been asked to lead the work to redesign the child support system. The full terms of reference for this work are in the Library and on the Department for Work and Pensions website at www.dwp.gov.uk/childsupport

Sir David has been asked to deliver his findings to the Secretary of State by summer recess.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the answer of 27 February 2006, *Official Report*, column 233W, on child support, how many times the Child Support Agency has used the discretionary power under section 41A of the Child Support Act 1991 to issue penalty payments in each year since 2001. [56880]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to my right hon. Friend with the information requested.

Letter from Hilary Reynolds:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on leave, I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, pursuant to the Answer of 27th February 2006 Official Report column 233W on child support if he will give details of the number of times the Child Support Agency has used the discretionary power under section 41A of the Child Support Act 1991 to issue penalty payments in each year since 2001.

The Agency does not currently collect volumes of the number of penalty payments either requested from non-resident parents or paid under Section 41A of the Child Support Act 1991.

Fuel Costs (Pensioners)

Keith Vaz: To ask the Secretary of State for Work and Pensions what steps his Department is taking to reduce the effect on pensioners of increases in the cost of gas and electricity. [50439]

Mr. Timms: The Department for Work and Pensions already assists pensioners meet the costs of gas and electricity bills through the winter fuel payment.

The winter fuel payment is a significant contribution towards fuel costs. The payment has risen above the level of inflation, from £20 in winter 1997–98 to £200 from winter 2000–01 and to £300 for those aged 80 or over from winter 2003–04.

New processes have also been developed between The Pension Service and the "Home Heat Helpline", a private sector run and funded fuel poverty helpline launched in October 2005, which nelp to maximise the take-up of benefits, help from the utilities companies and warm front grants.

Legal Services Commission

Dr. Cable: To ask the Secretary of State for Work and Pensions what assessment he has made of the implications for his Department's work of the decision by the Legal Services Commission to withdraw funding for specialised support and advice in relevant areas. [54722]

Mr. Plaskitt: Specialist support services are part of the Legal Services Commission's (LSC) special projects budget that was reviewed in the summer 2005. The LSC concluded that as specialist support services provide advice in civil categories of law to other legal advisers and not directly to clients, this did not represent the most cost-effective approach to meet the increasing need for front-line advice. The LSC has therefore decided not to continue funding for specialist support from July 2006.

The LSC's decision to withdraw funding for specialist support services will refocus resources within the existing civil legal aid budget in England and Wales. It is not intended to increase or decrease costs overall. It will mean that £2.3 million will be redirected to fund direct legal advice in the next financial year, thereby increasing access to legal services for vulnerable people.

The LSC invited all the practitioners and specialist advice services funded under the current system to discuss how they can advise clients and consumers directly, rather than through a second-tier system.

The Department for Work and Pensions is working with the LSC and the Department for Trade and Industry, as part of a national agenda to tackle rising levels of debt, to pilot a number of innovative new advice services to help people facing financial exclusion, following a £6 million grant from the Treasury's Financial Inclusion Fund.

In terms of advice on benefits and pensions matters, there is already wide expertise and knowledge within the advice sector, and the Department for Work and Pensions, which already has excellent relationships with key national advice providers, will continue to provide for advisers comprehensive information about its legislation and procedures.

Lone Parents

Mr. Rooney: To ask the Secretary of State for Work and Pensions what impact the introduction of work focused interviews has had on the numbers of lone parents entering employment. [48299]

Margaret Hodge: Information is not available on the numbers entering employment as a direct and sole result of the introduction of lone parent Work Focused Interviews, however, research has demonstrated that these interviews have increased participation in new deal for lone parents by approximately 15 per cent. The success of new deal for lone parents has been a major contributing factor to the increase in lone parent employment in every region, the reduction in the number of children in workless households and the reduction in child poverty, and, so far, it has helped more than 423,000 lone parents into work

Research has also shown that the introduction of Work Focused Interviews (WFIs) for lone parents with ongoing claims has increased the proportion of people leaving income support by between one and two percentage points.

Relevant reports on outcomes from lone parent interventions are: Department for Work and Pensions Research Report W237 'Evaluation of Lone Parent Work Focused Interviews Eligibility: Administrative Data Analysis' Genevieve Knight and Steve Lissenburgh, Policy Studies Institute. November 2005, and Department for Work and Pensions Research Report W159 'Evaluation of Lone Parent Meetings: Interim findings from administrative data analysis' Genevieve Knight and Michael White, Policy Studies Institute, May 2003; and DWP Research Report W315 'Lone Parent Work Focused Interviews and Review Meetings: Administrative data analyses and qualitative evidence' which provides longer term analysis of the impact of Work Focused Interviews on the number of lone parents leaving income support. All of these reports are available in the Library.

National Insurance

Sandra Gidley: To ask the Secretary of State for Work and Pensions how many women who paid a full stamp and additional class 3 voluntary contributions for a period when they were unable to work are now receiving a full pension as a result. [56940]

Mr. Timms: The information is not available. Class 3 contributions have only been recorded separately since 1975 and since then it has only been possible to readily distinguish full tax years in which only Class 3 contributions have been paid. However, around 17 per cent. of female pensioners receive a full basic state pension based on their own national insurance record of contributions paid while working, by voluntary contributions and credits.

New Deal

Mr. Hurd: To ask the Secretary of State for Work and Pensions whether the Government have commissioned research since 1998 into the effect of the new deal on job search activity among 18 to 24-year-olds. [54971]

Margaret Hodge: The new deal for young people has been successful in helping nearly 650,000 young people into work and has helped to virtually eradicate long-term youth unemployment. A number of independent research reports on new deal for young people, commissioned by this Department, have looked at the impact of the programme on the job search activity of programme participants.

A report by Social and Community Planning Research[1] found that participants on new deal for young people greatly appreciated the support they received from their new deal personal advisers, which included: help with looking for vacancies; assistance with contacting employers; referral to other appropriate agencies and discussions about long-term career plans.

The new deal for young people national survey[2,3] which reports on interviews with over 6,000 programme participants, includes a considerable amount of information on the job search activity of people who have taken part in the programme. A high proportion of respondents reported discussing methods of job search and their responsibilities as jobseekers with their new deal personal adviser.

Research from the National Institute for Economic and Social Research[4] published in 2000, reported positively about the impact of new deal for young people. Increased youth employment was in part attributed to a programme that provided job search assistance and support, together with intensive full time new deal options including the full time education and training option and the employment option.

The reports referred to are listed as follows and are available in the Library.

[1] "New Deal for Young Unemployed People: The Gateway", SCPR, Employment Service Report 8, December 1998.

[2] "New Deal for Young People: National Survey of Participants: Stage 1", Alex Bryson et al, Employment Service Report 44, March 2000.

[3] "New Deal for Young People: National Survey of Participants: Stage 2", Dorothe Bonjour et al, Employment Service Report 67, March 2001.

[4] "New Deal for Young People: Implications for Employment and the Public Finances", Rebecca Riley and Garry Young, Employment Service Report 62, 2000.

Pension Credit

Mr. Andrew Smith: To ask the Secretary of State for Work and Pensions how many pensioners in Oxford, East constituency receive pension credit; and how many have received it in each year since its inception. [58270]

Mr. Timms: The number of people in receipt of pension credit in the parliamentary constituency of Oxford, East November 2003-August 2005 is as follows:

Thousand

	Households	*Individual beneficiaries*
November 2003	3.0	3.5
August 2004	3.6	4.2
August 2005	3.7	4.3

Notes:
1. Caseloads are rounded to the nearest hundred and expressed in thousands.
2. Pension credit (PC) replaced minimum income guarantee (MIG) on 6 October 2003.Existing MIG recipients were automatically converted onto pension credit on that date (assuming they still met the eligibility criteria).
3. Parliamentary constituency are assigned by matching postcodes against the ONS postcode directory.
4. Beneficiaries figures include those who are aged 60 or under.
5. Household recipients are those people who claim pension credit either on behalf of themselves only or on behalf of a household. This number is equal to the number of households in receipt of pension credit. The number of individual beneficiaries is the claimants plus their partners.

Source:
Information Directorate: 100 per cent. Work and Pension Longitudinal Study (WPLS). From 27 October 2005 the preferred data source for pension credit time series figures supplied by the Information Directorate is the Work and Pension Longitudinal Study (WPLS).

CULTURE, MEDIA AND SPORT

Libraries

Mr. Mark Field: To ask the Secretary of State for Culture, Media and Sport (1) how many new mobile lending library services have been opened in each of the last 10 years; [58379]

(2) how many mobile public lending libraries have closed in each of the last 10 years. [58380]

Mr. Lammy: The number of mobile libraries in England in each of the last 10 years was as follows:

Mobile libraries in England

	Number
1995–96	496
1996–97	491
1997–98	476
1998–99	468
1999–2000	470
2000–01	465
2001–02	473
2002–03	462
2003–04	461
2004–05	433

Source:
Public Library Statistics 2004–05 Actuals, published by the Chartered Institute of Public Finance and Accountancy (CIPFA) and LISU Annual Library Statistics 2005 (derived from CIPFA Actuals figures 1995–96 to 2003–04).

Mr. Mark Field: To ask the Secretary of State for Culture, Media and Sport (1) how many new public lending libraries have been opened in each of the last 10 years; [58381]

(2) how many public lending libraries have closed in each of the last 10 years. [58382]

Mr. Lammy: The number of static public libraries in England in each of the last 10 years was as follows.

Static libraries in England[1]

Number

	60+	*45–59*	*30–44*	*10–29*	*<10*
1995–96	9	467	1,322	1,315	160
1996–97	7	463	1,319	1,294	155
1997–98	6	449	1,279	1,323	157
1998–99	11	437	1,242	1,347	150
1999–2000	11	458	1,222	1,340	132
2000–01	19	469	1,206	1,331	130
2001–02	28	493	1,199	1,311	115
2002–03	42	598	1,168	1,240	91
2003–04	51	683	1,143	1,186	80
2004–05	69	727	1,139	1,106	96

Public Library Statistics 2004–05 Actuals, published by the Chartered Institute of Public Finance and Accountancy (CIPFA) and LISU Annual Library Statistics 2005 (derived from CIPFA Actuals figures 1995–96 to 2003–04).

Sports Fields/Playing Fields

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport for what length of time local authority-owned sports grounds must remain unused before they can be disposed of without *(a)* the permission of and *(b)* consultation with (i) the Secretary of State and (ii) Sport England. [58480]

Mr. Caborn: Local authorities are not required either to seek the permission of or consult the Secretary of State over the disposal or development of sports grounds.

Sport England is a statutory consultee on all planning applications affecting playing fields, land used as playing fields, or land allocated for use as playing fields in a current development plan. This includes being consulted on applications affecting any land that has been used as a playing field in the last five years and any replacement of a grass pitch with a synthetic surface.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport how many local authorities have publicly available lists of sports fields; and how many local authorities have published a playing fields strategy. [58481]

Mr. Caborn: The number of local authorities who draw up and publish lists of sports fields and playing fields strategies is not collated centrally.

However, the Active Places database lists publicly available sports facilities across the whole of England, including sports fields.

Furthermore, the relevant planning guidance—planning policy guidance note 17: planning for open space, sport and recreation—requires that all local authorities should carry out assessments of needs and audits of open space and sports and recreational facilities, including playing fields, from which to develop effective strategies and appropriate policies.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what criteria a playing field must meet before it can be considered for disposal under the statutory consultation process. [58482]

Mr. Caborn: The relevant planning guidance—planning policy guidance note 17: planning for open space, sport and recreation—requires that existing sports land, including playing fields, should not be disposed of or built on unless an assessment has been undertaken which clearly shows the land to be surplus to requirements. It is expected that open space, sports and recreational facilities that are of a high quality or of particular value to a local community should be given protection by local authorities through appropriate policies.

Where such an assessment has not been undertaken, PPG17 requires that planning permission for any development be refused, unless it meets one of the following criteria:

(i) it is ancillary to the use of the site as a playing field and does not adversely affect the quantity or quality of pitches and their use;

(ii) it only affects land which is incapable of forming a playing pitch;

(iii) the playing field that would be lost as a result of the proposed development would be replaced by another of equivalent or better quantity or quality and in a suitable location;

(iv) it is for an outdoor or indoor sports facility of sufficient benefit to the development of sport to outweigh the loss of the playing field.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport whether playing fields under 1 hectare are subject to compulsory consultation guidelines before being considered for disposal. [58483]

Mr. Caborn: Any development on playing fields measuring 0.4 hectares or over is subject to compulsory consultation with Sport England.

Ticket Sales

Mr. Leech: To ask the Secretary of State for Culture, Media and Sport what steps the Government is taking to combat the illegal selling of concert tickets on internet auction sites. [58668]

Mr. Lammy: I am aware of the problems which can arise from secondary ticketing and of the problems caused by ticket touting generally. I recognise also of course the potential distress to fans and consumers and the wider economic damage it causes. We are therefore working with other Government Departments and stakeholders to determine the best action to take.

As an early step we recently hosted a ticket-touting summit with representatives from the entertainment, cultural and sporting industries to consider a way forward. Subsequently my officials are currently working with other Government Departments, the Office of Fair Trading and the relevant industries to analyse the root causes of the problem and the likely options for action, and they will be reporting their findings back to me in due course.

Among other things a DCMS-led working group will examine the adequacy of existing consumer legislation and how it could be better enforced, in addition to identifying any gaps and loopholes that might need further action.

Our aim in taking this forward must be to find solutions that protects fans and ensures that our creative, cultural and sporting industries are able to realise legitimate revenue streams. Any proposed solutions must also be both achievable and enforceable. In particular, we shall be looking at the scope for achieving greater clarity and transparency about the sale/resale of ticket sales over the Internet and other channels. And we will also seek to promote greater industry collaboration especially in the area of best practice.

NORTHERN IRELAND

Provisional IRA

12. **Mr. Bone:** To ask the Secretary of State for Northern Ireland whether it is his policy that the Provisional IRA must disband before Sinn Fein can join a restored Northern Ireland Executive. [57312]

Mr. Hanson: The Government are committed to an end to paramilitary and criminal activity, from whatever source that comes. The restoration of the Assembly remains a priority for Government on that basis.

Serious Organised Crime

14. **Michael Fabricant:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the involvement of paramilitary groups in serious organised crime; and if he will make a statement. [57314]

Mr. Woodward: The eighth report of the Independent Monitoring Commission, published on 1 February 2006, provided a clear assessment of the activities of all paramilitary groups up to the end of November. The latest report, published on 8 March, stated that PIRA no longer pose a paramilitary threat.

The Government, through the Organised Crime Task Force, is relentlessly pursuing organised criminals in Northern Ireland, regardless of whether they are linked to paramilitary groups or not. Good progress is being made—last year 28 top level organised crime gangs in NI were disrupted or dismantled as a result of law enforcement activity.

Post-primary Education

15. **Mr. Harper:** To ask the Secretary of State for Northern Ireland if he will make a statement on the future of post-primary education in Northern Ireland. [57315]

Angela E. Smith: The Government are introducing a number of reforms including a revised curriculum, an Entitlement Framework to widen access to academic and vocational courses for all pupils, and new admissions arrangements which will replace academic selection at age 11 by a system based on informed parental choice.

Sammy Wilson: To ask the Secretary of State for Northern Ireland on what educational research the proposed framework entitlement for post-primary pupils in Northern Ireland is based. [58676]

Angela E. Smith: The Post-Primary Review Working Group (Costello Group) considered the range of courses available in post-primary schools and found that the educational provision and choice available to pupils varied greatly, across Northern Ireland. To enable all post-primary pupils to reach their full potential and to gain the knowledge and skills necessary for life and work in the 21st century, the group considered it important to establish a framework of educational entitlement for every pupil.

The group recommended that the minimum entitlement at key stage 4 and post-16 should be set at a level that is capable of being provided in a locality, ensuring that all pupils have choice from a wide range of courses including a blend of academic and vocational courses.

The Strategic Advisory Group established to provide advice to the Department on the implementation of the Costello recommendations, examined the current range of educational provision at key stage 4 and post-16 and endorsed the minimum requirements set for the Entitlement Framework.

Ballyrobert Primary School

Dr. McCrea: To ask the Secretary of State for Northern Ireland when the Department of Education will announce a new school build for Ballyrobert primary school. [58054]

Angela E. Smith: An economic appraisal for this school was submitted to the Department of Education by the North-Eastern Education and Library Board in December 2005 and is currently under consideration. I cannot say at this time when the scheme may be in a position to proceed.

Bathing Water Quality

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what recent assessment he has made of the quality of bathing water at each of Northern Ireland's designated beaches. [57675]

Angela E. Smith: The Environment and Heritage Service, an agency within the Department of Environment, is responsible for monitoring bathing waters in Northern Ireland to ensure compliance with the mandatory standards of the EC Bathing Waters Directive.

In 2005, 15 of the 16 identified bathing waters in Northern Ireland met the mandatory standards of the EC Bathing Water compared to 14 in 2004. Newcastle was the only identified bathing water not to meet the mandatory standard in 2005.

An additional 11 sites are monitored and in 2005, 100 per cent. compliance was achieved compared to 73 per cent. in 2004.

The Bathing Water Directive also contains a more stringent guideline standard. 11 of the 16 identified sites met the tighter standards in 2005 compared to nine sites in 2004. In both 2004 and 2005, seven of the additional sites complied with the guideline standard.

The two main factors contributing to non compliance are considered to be inadequate sewerage infrastructure and sewage treatment and increased agricultural runoff during periods of heavy rainfall.

CCTV (South Antrim)

Dr. McCrea: To ask the Secretary of State for Northern Ireland (1) when new CCTV projects will be provided in the Antrim borough council area; [58055]

(2) when funding will be made available for new CCTV projects in the Newtownabbey borough council area to assist in tackling crime. [58056]

Mr. Hanson: At the present time, the Northern Ireland Office is holding a competition, the purpose of which is to extend the coverage of CCTV systems in town centres across Northern Ireland. The closing date for applications is 14 April and I understand that bids may be made by town centres in both council areas. However as this is a competition, there can be no guarantee towns in either council area will succeed.

Curriculum and Assessment

Mr. Donaldson: To ask the Secretary of State for Northern Ireland (1) whether it is compulsory for secondary schools in Northern Ireland to teach pupils at Key Stage 3 from the NICCEA curriculum; [58491]

(2) whether secondary schools in Northern Ireland may teach pupils at Key Stage 3 based on the National Curriculum developed in England. [58492]

Angela E. Smith: All grant-aided schools in Northern Ireland must follow the statutory Northern Ireland Curriculum at each Key Stage. The statutory curriculum is not, however, meant to take up all of the teaching time available and it is a matter for schools to decide what additional material they wish to cover. This can include material based on the National Curriculum in England.

Drug-related Crime

Chris Ruane: To ask the Secretary of State for Northern Ireland how many successful prosecutions there have been for drug trafficking in each *(a)* county and *(b)* constituency in Northern Ireland in each of the last 30 years. [55556]

Mr. Hanson: Data covering the calendar years 1993–2003 have been provided. Data beyond 2003 are currently not available and data prior to 1993 are not compatible with new software.

Due to a lack of reliable post coded prosecution and conviction data, statistics by county and constituency are not readily available, therefore, alternative geographical breakdowns have been used.

In place of county, the seven court divisions (based on where a case was heard) have been provided, figures for which are included in Table 1.

For constituency, the figures provided are based on the 12 police divisions for the years 1993–1999 and police district command units for 2000–2003 (Tables 2 and 3). Due to a change in the prosecutions data source in 2000, Tables 2 and 3 differ in terms of the method of collation used—in Table 2 figures relate to the police division to which an offence was reported, while figures within Table 3 relate to the police district command unit in which an offender's address falls.

Table 1: Convictions for drug-trafficking by court division 1993–2003[1]

	1993	*1994*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Antrim	41	39	52	66	58	38	34	52	35	19	30
Ards	13	8	16	16	14	16	4	14	14	7	19

K (Dungannon)	0	3	3	8	7	5	3
L (Enniskillen)	0	2	3	16	11	11	9
N (Strand Road)	6	9	15	15	11	21	10
O (Coleraine)	4	13	30	35	23	15	19
P (Ballymena)	16	22	12	28	24	16	15
Total	110	116	192	264	207	171	142

[1] Figures based on the police division to which the offence was reported.

Note:

Divisional Headquarters are included within brackets.

Table 3: Convictions for drug-trafficking by district command unit 2000–03

District command unit	*2000*	*2001*	*2002*	*2003*
Antrim	8	6	3	4
Ards	7	2	4	5
Armagh	1	2	4	5
Banbridge	1	1	1	1
Belfast East	9	11	3	2
Belfast North	32	10	16	13
Belfast South	8	12	5	2
Belfast West	17	6	2	4
Ballymena	22	12	6	11
Ballymoney	1	1	2	0
Carrickfergus	5	2	0	0
Coleraine	8	5	4	7
Cookstown	1	5	5	2
Craigavon	9	4	5	9
Castlereagh	2	2	3	0
Dungannon and South Tyrone	6	1	2	10
Down	3	5	0	3
Fermanagh	4	2	0	2
Foyle	6	13	8	7
Larne	2	4	3	3
Limavady	5	4	8	5
Lisburn	7	8	7	4
Magherafelt	1	3	1	4
Moyle	0	2	0	1
Newtownabbey	8	6	5	2
North Down	8	10	2	5
Newry and Mourne	6	4	1	1
Omagh	2	3	2	2
Strabane	1	0	5	0
Missing	8	6	5	5
Total	198	152	112	119

Notes:

1. Figures are based on the police district command unit in which an offender's address falls.
2. Police district command units became operational in April 2001. However, calendar year 2000 data are also disaggregated by DCU, rather than police division.
3. Missing data relate to those for which district command unit information is not available.

Early Invoice Discounts

David Simpson: To ask the Secretary of State for Northern Ireland what mechanisms are in place to ensure that early invoice payment discounts are secured by each Department in Northern Ireland. [58279]

Angela E. Smith: The Permanent Secretary, in his/her role as Accounting Officer of a Department, is responsible for securing value for money for all departmental expenditure. Guidance requires that payments take account of the 'Better Payment Practice Code' and also covers advance payments which may be sought in return for a price discount. Purchasing guidelines requires Departments to consider discounts as one element of the total cost of the purchase of goods or services. This is facilitated by arrangements which make use of specialist purchasing expertise. Experience suggests, however, that early invoice payment discounts are rarely offered, as standard contract terms tend to be used requiring that invoices are paid within 30 days.

Education Finance

Chris Ruane: To ask the Secretary of State for Northern Ireland how much was spent per *(a)* primary and *(b)* secondary school pupil in real terms at today's prices in each local education authority in Northern Ireland in each of the last 30 years. [55560]

Angela E. Smith: The information is not available in the format or over the time period requested. However, education spending for 2006–07 has increased by 6.8 per cent. over 2005–06 to a record of £1,846 million, at a time when pupil numbers are falling. Since 1997 investment in education has increased by over 60 per cent., evidence of this Government's commitment to this key Northern Ireland service.

Energy Supply

Dr. McCrea: To ask the Secretary of State for Northern Ireland what plans he has to make a range of energy options available to all rural areas in Northern Ireland. [58115]

Angela E. Smith: The £59 million environment and renewable energy fund announced in February by the Secretary of State will increase the range of energy options available to all geographical locations in Northern Ireland. In particular the fund will support the installation of solar, photovoltaic, biomass, wind and geothermal technologies in at least 4,600 households as well as in industry and the government estate. Rural areas will be supported to develop energy crops for the provision of heat and energy from waste projects will make use of agricultural and industrial wastes to provide heat and power in rural locations.

In addition fuel diversity has been further enhanced by the North-West gas pipeline, which will bring gas to rural towns and the completion of the South-North pipeline by the end of 2006 which will increase the availability of gas to rural consumers. In total 28,000 consumers could have gas as a fuel option within the next 10 years.

Foreign Nationals

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many foreign nationals are employed in each local authority area in Northern Ireland. [58122]

Angela E. Smith: It is not possible to provide robust estimates of the number of foreign nationals employed in each local authority area. However, for information, the Autumn 2005 Labour Force Survey estimated that there were 10,000 people in employment in Northern Ireland that reported their nationality as non UK or non Irish.

Foyle River System

Lady Hermon: To ask the Secretary of State for Northern Ireland how many *(a)* salmon and *(b)* sea trout returned to each river of the Foyle system in each month of each year since 2000. [57343]

Angela E. Smith: The information will be placed in the Library of the House.

Gender Pay Gap

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the difference is in average

pay between men and women in Northern Ireland; and what measures are being taken to reduce the difference. [57974]

Angela E. Smith: The median hourly earnings excluding overtime for females employed on a full-time basis at April 2005 in Northern Ireland was estimated to be £9.29 compared to £9.70 for males. Female hourly earnings at April 2005 were almost 96 per cent. of males, an improvement in the position at April 2004 when they were 94 per cent. of male hourly earnings.

The Women and Work Commission Report "Shaping a Fairer Future", published on 27 February 2006, proposed a wealth of practical ideas on how to close the gender pay gap and opportunities gap. The 40 recommendations are founded on a thorough analysis of all available evidence across the UK including Northern Ireland. The Government are determined to take action to address all causes of the pay gap highlighted in the report. There will be a UK wide implementation project team which will work with Government departments including those in Northern Ireland on how to take the recommendations forward.

David Simpson: To ask the Secretary of State for Northern Ireland what estimate he has made of the pay gap between men and women in Northern Ireland. [57629]

Angela E. Smith: The median hourly earnings, excluding overtime, for females employed on a full-time basis at April 2005 in Northern Ireland was estimated to be £9.29 compared to £9.70 for males. Female hourly earnings at April 2005 were almost 96 per cent. of males, an improvement in the position at April 2004 when they were 94 per cent. of male hourly earnings.

Homelessness Strategy

Lady Hermon: To ask the Secretary of State for Northern Ireland what the reasons are for the time taken to publish the final strategy following the November 2004 release of the consultation document Promoting Social Inclusion: Addressing the Causes and Effects of Homelessness; and when he expects the strategy to be published. [57080]

Mr. Hanson: The Promoting Social Inclusion Working Group on homelessness published its draft policy and strategy document on 4 November 2004 for comments by 4 February 2005, although the consultation period was extended in order to facilitate a number of organisations. A total of 48 responses were received, many of which raised new issues and potential actions that needed to be discussed with a range of relevant organisations. Draft action plans have now been prepared and the Department is in the process of consulting with organisations in the wider public and voluntary sectors to agree actions which can be taken forward. I hope this process can be completed in the near future, which will allow publication of the final report.

Illegal Dumping

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people were prosecuted for illegal dumping in Northern Ireland in each of the last five years for which figures are available. [57745]

Angela E. Smith: The Environment and Heritage Service (EHS) of the Department of the Environment acquired the responsibility for the prosecution of such offences in December 2002. EHS does not hold figures on prosecutions prior to 2003. Since then, its investigations of illegal dumping have led to the following successful prosecutions: four in 2003, 24 in 2004, 57 in 2005 and 18 to date in 2006. A further 126 cases have been submitted to the Public Prosecution Service.

Independent International Monitoring Commission

Lady Hermon: To ask the Secretary of State for Northern Ireland why the ninth report of the Independent International Monitoring Commission (HC 969) was not made available to hon. Members until 14:30 on 8 March. [58186]

Mr. Woodward: The ninth report of the Independent Monitoring Commission was laid before Parliament at 11.00 am on 8 March and was made available in the Libraries of the House. However, the Northern Ireland Office regrets that the embargo was not lifted with the Vote Office until later that afternoon.

Invest NI

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) if he will list the *(a)* meetings, *(b)* discussions and *(c)* correspondence between representatives of Invest NI and the Kingdom of Saudi Arabia regarding potential inward investment into Northern Ireland in each year since 2000; [57060]

(2) what plans Invest NI has to lead a trade delegation to the Kingdom of Saudi Arabia; [57061]

(3) what assistance Invest NI is giving to local companies in helping to develop trade links with the Kingdom of Saudi Arabia; [57062]

(4) what plans he has to meet the ambassador of the Kingdom of Saudi Arabia to discuss potential economic links to Northern Ireland. [57063]

Angela E. Smith: There have been no meetings, discussions or correspondence between representatives of Invest NI and Saudi Arabia regarding potential inward investment into Northern Ireland in any year from 2000. Invest NI has, however, a long term commitment to helping its clients develop business in the Gulf States. Invest NI only recently organised a trade mission to the Gulf States of Saudi Arabia, Kuwait and the United Arab Emirates from 23 February to 6 March 2006 on which 10 local companies were represented. Four of the companies on the mission visited Saudi Arabia from 24 to 27 February.

Invest NI assisted the companies with travel and accommodation costs as well as advisory support with market research and arranging business meetings. The companies also received assistance from the various British embassies while in the markets.

Invest NI regularly takes trade missions to the Gulf States but no dates have yet been determined for any further visit to Saudi Arabia. I understand that my right

hon. Friend the Secretary of State for Northern Ireland has no plans to meet the ambassador of Saudi Arabia in the near future.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many inward investment visits Invest NI expects to be made to East Londonderry constituency during 2006. [57679]

Angela E. Smith: Invest NI cannot predict, with any certainty, the number of future inward investment visits to the East Londonderry constituency.

Invest NI does not determine locations for visits for a potential investor; this decision is taken by the investor. However, Invest NI works closely with the company when preparing a draft visit programme to ensure that the locations to be visited meet their requirements and also provide the best opportunity for Invest NI to sell the Northern Ireland proposition in, what is, a very competitive global marketplace.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many trade missions have been undertaken by Invest NI accompanied by South Antrim business personnel. [58118]

Angela E. Smith: During the period 1 April 2002 to 28 February 2006, Invest NI undertook 88 trade missions which included 159 representatives of businesses located in the South Antrim constituency area.

Landfill

David Simpson: To ask the Secretary of State for Northern Ireland what steps he is taking to ensure that landfill tax changes are revenue neutral to businesses in Northern Ireland. [56398]

Angela E. Smith: In the course of the 2004 Spending Review, Northern Ireland received Barnett consequentials for 2006–07 and 2007–08 of £4 million and £7 million respectively, arising from allocations to DEFRA and local government financed by increases in the standard rate of landfill tax.

As is the case with any and all such consequentials arising from allocations to Whitehall spending programmes, the amounts are not hypothecated to similar services here, but are subject to allocation in the context of local needs and priorities.

The recently published research report by the Economic Research Institute of Northern Ireland (ERINI), entitled Measurement and Benchmarking of Competitiveness—The Cost of Doing Business in Northern Ireland concludes that, on balance, business costs in NI are relatively competitive when compared to GB and the ROI.

Mr. Sheerman: To ask the Secretary of State for Northern Ireland how many hazardous waste landfill sites are available for use in Northern Ireland. [58407]

Angela E. Smith: There are currently no hazardous waste landfill sites in Northern Ireland. However there is a non-hazardous waste landfill site located in Lisbane, Tandragee (Co. Armagh) which has a separate, dedicated cell for the acceptance of asbestos waste only.

Manufacturing

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many manufacturing jobs have been *(a)* created and *(b)* lost in the last 12 months in each of the 18 Northern Ireland constituencies. [58114]

Angela E. Smith: Information on the number of jobs created and lost is not available.

However, figures from the Census of Employment can be used to estimate the net change in employee jobs between censuses and the most up to date figures relate to September 2003. The number of jobs in manufacturing at September 2001 and September 2003 and the change over this two year period for each parliamentary constituency area is shown in table 1.

The number of redundancies confirmed to the Department of Enterprise, Trade and Investment in the manufacturing sector in each constituency over the last 12 months is shown in table 2.

Table 1: Number of employee jobs in the Manufacturing sector in each parliamentary constituency area in Northern Ireland in September 2001 and September 2003 and the change over the two-year period

	September		
	2001	*2003*	*Change*
Belfast East	9,537	7,600	-1,937
Belfast North	4,377	3,712	-665
Belfast South	2,819	2,557	-262
Belfast West	2,801	2,466	-335

Upper Bann	135
West Tyrone	251

Message in a Bottle Scheme

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps his Department is taking to monitor the effectiveness of the Message in a Bottle Scheme. [57285]

Mr. Hanson: The first Message in a Bottle Scheme in Northern Ireland was launched in Antrim on 2 December 2005. The promoters of the scheme are currently considering how its impact could be monitored and evaluated. However, similar schemes operational in GB have demonstrated positive benefits particularly to the most vulnerable within communities.

MOT Testing

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average waiting time was at MOT centres in each of the testing centres in Northern Ireland during January. [57968]

Angela E. Smith: The following table shows the average waiting time for MOT inspection at each test centre in Northern Ireland in January 2006.

Test centre	*Average waiting time in January 2006 (days)*
Armagh	37
Ballymena	37
Belfast	26
Coleraine	22

David Simpson: To ask the Secretary of State for Northern Ireland what plans he has to bring MOT testing in Northern Ireland into line with the rest of the UK. [57626]

Angela E. Smith: The Government have no plans at present to bring MOT testing in NI into line with the rest of the UK.

David Simpson: To ask the Secretary of State for Northern Ireland if he will allow vehicle testing centres to carry out minor repairs on site. [57627]

Angela E. Smith: The Government have no plans to allow the Driver and Vehicle Testing Agency to carry out minor repairs on site.

Non-Departmental Public Bodies

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland are serving on three or more non-departmental public bodies. [58071]

Angela E. Smith: Sixteen people in Northern Ireland are currently serving on three or more non-departmental public bodies.

New Earnings Survey

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland when the latest Northern Ireland New Earning Survey was carried out; and when the next one is scheduled. [57971]

Angela E. Smith: The New Earnings Survey (NES) was replaced by the Annual Survey of Hours and Earnings (ASHE) in October 2004.

The latest ASHE was carried out in April 2005, and results for Northern Ireland were published on the DETI website on 10 November 2005. The next ASHE will be carried out in April 2006 and results are scheduled for publication in October 2006.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what cross-referencing was carried out to the most recent Northern Ireland New Earnings Survey to ensure its accuracy. [58063]

Angela E. Smith: The New Earnings Survey was replaced by the Annual Survey of Hours and Earnings (ASHE) in October 2004 in line with recommendations made in the National Statistics Quality Review of Distribution of Earnings Statistics (DOER). Improvements include extending the coverage of the sample to include employees in businesses outside of the PAYE system and calibrating the survey responses to totals from the Labour Force Survey (LFS) by occupation, gender, region and age.

Northern Ireland Council for Integrated Education

Greg Mulholland: To ask the Secretary of State for Northern Ireland what plans he has for the role of the Northern Ireland Council for Integrated Education in the future governance of education in Northern Ireland. [57313]

Angela E. Smith: As part of the Review of Public Administration, responsibility for front-line support and related functions currently performed by NICIE will transfer to the new Education and Skills body.

NICIE will be represented on the new Education Advisory Forum which will be established to provide advice to the Department.

We will be working closely with NICIE to ensure the interests of the integrated sector are fully addressed under the new arrangements.

Planning Appeals Commission

Dr. McCrea: To ask the Secretary of State for Northern Ireland what percentage of planning application refusals have been overturned by the Planning Appeals Commission in each local authority area in Northern Ireland in the last five years. [58131]

Angela E. Smith: The following table shows the percentage of refusals overturned by the Planning Appeals Commission as a percentage of the total number of refusal decisions issued by the Planning Service, in each council area, between 2001 and 2005.

Refusals overturned on appeal between 2001 and 2005

District	*Percentage*
Antrim	10.58
Ards	8.04
Armagh	0.83
Ballymena	6.56
Ballymoney	2.89
Banbridge	1.70
Belfast	10.04
Carrickfergus	6.17
Castlereagh	8.87
Coleraine	10.24
Cookstown	1.52
Craigavon	2.65
Derry	9.49
Down	13.02
Dungannon	1.63
Fermanagh	5.41

Omagh	1.79
Strabane	2.98

Public Administration Review

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will list the organisations and individuals who supported the Seven Councils option during the recent Review of Public Administration consultation process. [58125]

Angela E. Smith: The Review of Public Administration consultation process attracted 1206 responses. Of the 113 responses which indicated a preference for one of the options in the RPA further consultation document the seven council model was supported by 62 per cent. of respondents. Details of the organisations and individuals are listed as follows.

Organisations and individuals who supported the seven council model

Nexus
National Society For The Protection of Cruelty to Children
Royal Society For The Protection of Birds
Woodland Trust
Citizens Advice Bureau
Rural Community Network (NI)
Women's Resource And Development Agency
Women's Support Network
Help The Aged
Youthnet
NI Youth Forum
NCH Northern Ireland
Northern Ireland Council For Voluntary Action
Joint Government/Voluntary And Community Sector
Northern Ireland Environmental Link
The Community Foundation Ffr Northern Ireland
NIPPA—The Early Years Organisation
Simon Community
Volunteer Development Agency
Royal National Institute for the Deaf
Youth Action NI
Public Health Alliance
Irish National Teachers' Organisation
Upper Bann Institute
Comhairle Na Gaelscolaiochta
North Down and Ards Institute of Further And Higher Education
NI Affairs Committee—Faculty of Public Health
Institute of Public Health
The Estates Managers Group
Royal Hospital
Eastern Health And Social Services Board
Armagh Observatory
Armagh Observatory and Planetarium
Arts Council of Northern Ireland
Northern Ireland Museums Council
Invest NI
General Consumer Council
NI Tourist Board
North West Public Sector Review Group
Tidy Northern Ireland
Food Standards Agency Northern Ireland
Friends of The Earth
Ulster Wildlife Trust
Ulster Architectural Heritage Society
Ulster Society For The Protection Of The Countryside
Omagh 2010 Taskforce
Police Service for Northern Ireland
Skills Active
Belfast Healthy Cities
NI Labour Forum
N. I. Women's Coalition
Sinn Fein
Turley Associates
PricewaterhouseCoopers

Public Service Commission

Lady Hermon: To ask the Secretary of State for Northern Ireland what *(a)* criteria were adopted and *(b)* procedures used in the appointment of the membership of the new Public Service Commission in Northern Ireland. [58184]

Angela E. Smith: The criteria used for the appointment of members of the Public Service Commission were: in an ex-officio capacity based on the their position on other relevant organisations; on the recommendation of relevant organisations; or based on their wide ranging experience of the public sector in Northern Ireland and their understanding of the Review of Public Administration.

The selection of relevant organisations reflected the importance of the Commission in working alongside existing bodies with personnel responsibilities in sectors affected by the review.

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the extent to which the proposed Public Service Commission is representative of the community in Northern Ireland in terms of gender and ethnicity; and if he will make a statement. [58185]

Angela E. Smith: The prime considerations in appointing members to the Commission were a combination of: ex-officio appointments based on their position on other relevant organisations; the recommendation of relevant organisations; or based on their wide ranging experience of the public sector in Northern Ireland and their understanding of the Review of Public Administration. As a result, no assessment of the extent to which the Public Service Commission is representative of the community of Northern Ireland in terms of gender or ethnicity has been made.

Rates (Non-payment)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people have been convicted of non-payment of *(a)* domestic and *(b)* commercial rates in Northern Ireland in each of the last five years. [57908]

Angela E. Smith: The non-payment of rates is a civil matter and as such no ratepayer has been convicted for non-payment of rates. The following table shows the total number of court processes issued by the Rate Collection Agency together with decrees obtained from the Magistrates Court and bankruptcy orders obtained from the High Court for each of the last five years. The split between domestic and commercial ratepayers is not available.

Recovery stage	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Court processes issued	39,387	42,284	43,070	42,059	42,761
Decree	15,630	14,810	16,545	17,866	16,538
Bankruptcy	60	76	114	143	129

Roe Valley Country Park

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the estimated cost is of the refurbishment works at the Roe Valley country park; and when they are expected to be complete. [57680]

Angela E. Smith: The current work on enlarging and refurbishing the cafe at the Dogleap Centre in the Roe Valley country park is expected to cost around £350,000 and to be completed by summer 2006, when the cafe will re-open. If additional resources can be secured, work on upgrading the rest of the building and providing new exhibitions in the country park will follow at an estimated cost of £300,000.

School Maintenance

Dr. McCrea: To ask the Secretary of State for Northern Ireland how much public funding has been spent on *(a)* maintenance and *(b)* repair of school property in each of the 18 Northern Ireland constituencies in each of the last five years. [58121]

Angela E. Smith: Information on maintenance and repair spending in each constituency is not readily available and could be provided only at disproportionate cost. In addition, neither the Department of Education nor Education and Library Boards' records distinguish spending between maintenance and repairs. Total spending on the maintenance, including repairs, of school property in each Education and Library Board area in the past five years was as follows:

£000

	2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*
BELB	9,860	10,673	11,318	9,573	5,497
WELB	7,643	8,262	8,490	4,885	5,406
NEELB	7,449	9,446	5,836	8,869	5,306
SEELB	8,162	11,318	10,732	7,442	5,237
SELB	11,244	9,283	9,704	9,949	7,937
Total	44,358	48,982	46,080	40,718	29,383

School Vandalism

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people were convicted in connection with vandalism to schools in Northern Ireland in 2005. [57970]

Mr. Hanson: The data requested are not available. Court statistics relating to offences against property do not include detail relating to the type of property involved.

Smoking

Dr. McCrea: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of deaths in Northern Ireland which were directly related to smoking in each of the last five years. [58145]

Angela E. Smith: Smoking history is rarely recorded on death certificates. Estimates however have been made of the number of deaths attributable to smoking,

by using information on the contribution that smoking makes to specific conditions recorded at death. The Health Development Agency[1] published the most recent estimates for Northern Ireland in 2004. This report estimated that over the period 1998–2002, an average of 2,300 deaths of people of all ages were caused by smoking each year in Northern Ireland.

[1] Twigg, L., Moon, G., and Walker, S. The smoking epidemic in England, Health Development Agency, 2004 (http://www.publichealth.nice.org.uk/page.aspx?o=502811)

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps the Department of Education is taking to tackle smoking on buses transporting children to and from school. [58059]

Angela E. Smith: Smoking, whether by drivers, escorts, or pupils, is strictly forbidden on all forms of school transport provided by boards. All board tender documents for contract hire buses and taxis stipulate that pupils must travel in a smoke free environment.

If a smoking offence is reported on a board-funded service, then it is treated as serious misconduct. In the case of pupils smoking, the parents are advised of the misconduct in writing. Action is then taken according to the discipline policy of the school that the pupil attends, and according to board procedures. Any recurrence of serious misconduct may result in the withdrawal of the provision of assisted transport.

Parents and pupils are advised of this policy in the Safe School Travel booklet, which is produced jointly by boards and Translink. This booklet clearly indicates that suitable behaviour by pupils is central to the safety of everyone and specifically advises that a no smoking policy is in operation. In addition to the serious misconduct procedures, smoking on public transport services can be subject to a fine of up to £1,000, imposed by Translink.

Untaxed Spirits

David Simpson: To ask the Secretary of State for Northern Ireland what the total value of untaxed spirits intercepted in Northern Ireland was in each of the last 10 years. [57619]

John Healey: I have been asked to reply.

HM Revenue and Customs do not record the value of all spirits intercepted. HMRC does estimate the value of each non-UK duty paid spirits seizure, however. The total estimated value of spirits seizures made in Northern Ireland by financial year is shown in the following table. There are no records for years prior to 2000–01.

Financial year	*Value of spirits seized (£)*
2000–01	229,043
2001–02	312,149
2002–03	85,695
2003–04	5,823
2004–05	74,363

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Canals

John Battle: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to upgrade the British canal network to enable the transport of more freight on a regular basis; and if she will make a statement. [57786]

Jim Knight: Most navigable canals in Britain are owned or managed by British Waterways. The Government's policy is to encourage British Waterways to facilitate waterway transport by encouraging the transfer of freight from roads to water where this is practical, economic and environmentally desirable.

Centre for Ecology and Hydrology

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish her Department's response to the consultation by the Natural Environment Research Council on the proposed closure of the Centre for Ecology and Hydrology Laboratories; and if she will make a statement. [56578]

Margaret Beckett *[holding answer 6 March 2006]:* The Department for Environment Food and Rural Affairs has already published its response to the Natural Environment Research Council consultation on the future for the Centre for Ecology and Hydrology on the Defra website.

It can be found at http://www.defra.gov.uk/science/news/default.htm

Energy Efficiency

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to undertake a new review of local authority work on energy efficiency; and if she will make a statement [51176]

Margaret Beckett *[holding answer 13 February 2006]:* We currently have no plans to undertake a new review of local authority work on energy efficiency. We are looking at the scope for further contributions to emissions saving as part of the Climate Change Review. This includes a look at the public sector, including local authorities. The review will be published shortly.

Flood Prevention

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs when the tidal gauge opposite Orford Quay will be repaired. [56934]

Mr. Morley: I understand from the Environment Agency that the tide gauge at Orford Quay is scheduled for repair during the summer of 2006.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs if she will instruct the Environment Agency to ensure that accurate local tidal data is available to inform reviews of flood management strategies for the Suffolk coastal estuaries. [56937]

Mr. Morley: I understand tide level information is used by the Environment Agency for a variety of purposes including flood warning and monitoring of long term trends and that every effort is made to ensure the data collected are accurate. Any faults with the Agency's tide sites are reported and rectified promptly. The Agency carries out quality assurance on the data that are provided. The Agency has gathered additional tide level information specifically for the estuary management strategies and these have been appropriately validated.

Global Warming

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has commissioned into the possible relationship between global warming and drastic weather events, with particular reference to *(a)* flash floods and *(b)* hurricanes. [59053]

Mr. Morley: Over 5 percent. of the research funded by DEFRA at the Met Office's Hadley Centre for climate prediction and research is specifically aimed at gaining a better understanding of the relationships between extreme events and climate change.

For example, recent research by the Hadley Centre has shown that the European hot summer of 2003 was up to four times more likely to have happened because of the increased levels of greenhouse gases. Such summers are expected to be common by the 2050s.

It is not generally possible to link the intensity of individual extreme rainfalls to global climate change. Hadley Centre studies suggest that the frequency of extreme rainfall events, leading to flash flooding, may increase overall in response to global warming; although there will be local and regional variations. UK climate change scenarios issued in 2002 show an increase in the frequency of severe rainfall events across the whole country in the 2080s, compared to today.

The effect of climate change on hurricanes and other tropical storms is still a matter of considerable research, at the Hadley Centre, elsewhere in the UK, and in the U.S.A. There is some evidence that hurricane intensity may increase with global warming but no clear evidence yet on how hurricane frequency might change.

Landfill

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the *(a)* financial viability, *(b)* overall environmental impact and *(c)* past performance of each technological solution which her Department has assessed as an acceptable waste disposal alternative to landfill. [52905]

Mr. Bradshaw: All waste treatment technologies are different and their financial viability, environmental impact and track record need to be assessed at local level to decide the most suitable solution. The Government provide support for local authorities through the Waste Technologies Data Centre and the New Technologies Supporter Programme, which provide information on financial, environmental and performance aspects of different technologies for the diversion of biodegradable municipal waste from landfill.

Recycling

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage local authorities to recycle plastic. [53312]

Mr. Bradshaw: While the Government have set statutory recycling and composting targets for all waste collection authorities in England they do not specify which materials should be collected. However, the Government have, through the Waste and Resources Action Programme (WRAP), set up the Recycling and Organics Technical Advisory Team (ROTATE). ROTATE's role is to disseminate information and spread best practice on recyclate collection methodologies throughout the local authority community. One of its messages concerns evidence from research that recyclate collections that include plastics achieve greater householder participation and yield greater quantities of all materials than collections that do not.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what the performance against recycling targets of each local authority has been in each of the last 10 years; and if she will make a statement. [58496]

Mr. Bradshaw: Waste Strategy 2000 announced that the Government would set local authorities statutory performance standards for recycling and composting household waste in 2003–04 and 2005–06. There were no performance standards for recycling and composting prior to this. Performance against 2003–04 targets can be found on the Defra website: http://www.defra.gov.uk/environment/waste/localauth/perf_mgmt.htm

Reservoirs

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans she has to build new reservoirs in England and Wales over the next 10 years; and in which areas reservoirs are to be developed; [58495]

(2) what representations she has received about the development of the national reservoir infrastructure over the next 10 years. [58497]

Mr. Morley: My Department has no plans to build reservoirs. It is for water companies to consider the need for building new reservoirs in fulfilment of their duties to maintain adequate supplies of water. Five proposals to construct new reservoirs were set out in the water companies 25 year water resources plans prepared in 2004.

Proposed location	*Company*
Broad Oak	Southern Water /Mid Kent Water/ Folkestone and Dover Water Services
Clay Hill	South East Water
Havant Thicket	Portsmouth Water
South West Oxfordshire	Thames Water
Lower Severn	Severn Trent

Proposals for new reservoirs are subject to proper option appraisal and must demonstrate their cost-effectiveness against other resource options.

In each case the necessary approvals, such as planning permission, will need to be obtained.

No specific representation has been received on the development of a national reservoir infrastructure over the next 10 years.

Warm Front Scheme

Mr. Iain Wright: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to allow recipients of the Warm Front Scheme to pool resources from the Scheme to fund community-based fuel initiatives. [57888]

Mr. Morley: There is potential for the Warm Front Scheme to support such initiatives. To enable this the Scheme would need to satisfy itself on various issues including but not limited to:

All those set to directly benefit from the initiative being eligible for heating measures under Warm Front

If any household that is set to directly benefit from the initiative is not Warm Front eligible, that it pays an equal amount to each household receiving assistance from the Scheme.

The initiative is considered to be cost effective, energy efficient, and environmentally sound

Waste Incineration

Mr. Bone: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made towards meeting the Government's targets for the incineration of waste; and if she will make a statement. [57157]

Mr. Bradshaw: Government have set no specific targets for waste incineration. Energy is currently recovered from about 9 per cent. of municipal waste. Economic modelling undertaken to inform the Government's current waste strategy review suggests that this may increase to about 25 per cent. nationally by 2020. This is less than was forecast in Waste Strategy 2000 due to our better than expected performance on recycling.

Water Supplies

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to ensure that planned large scale housing development will be co-ordinated with water supply infrastructure. [57570]

Mr. Morley: The Government are confident that the current water resources planning framework is sufficiently robust to forecast the future demands for water and to manage the supply-demand balance. DEFRA works closely with the water companies and the ODPM to ensure that water needs for new house building are taken into account at an early stage of the planning process and included in a timely manner in the water companies 25 year water resource plans.

The water companies are already statutory consultees on regional spatial strategies and local development frameworks, and should work with plan making bodies in drawing up these plans, so that the necessary coordination can occur. Conversely, the planning authorities will become statutory consultees on the water company water resources management plans, when these plans are put on a statutory basis (expected to be in October 2006). This means that the water companies can be provided with information on proposed large scale developments in their supply areas.

However, new infrastructure is only part of the equation, and the Government are actively pursuing opportunities to reduce unnecessary consumption of water. For example DEFRA has set up the Water Saving Group to investigate further opportunities for more efficient use of water. DEFRA and ODPM will be consulting jointly later this year on mechanisms to improve the efficiency of water use in new-build housing and the Government have recently announced that there will be minimum standards for water efficiency as part of the code for sustainable homes.

Andrew Gwynne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the availability of water supplies in the North West of England in 2006. [57829]

Mr. Morley: The Environment Agency has produced a report, "Drought prospects 2006", explaining the likely consequences of a continuing rainfall deficit and recommending action by water companies and the public. Although most reservoir levels in the north west of England were at lower levels than normal at the end of January it was not considered that this should present any problems over the summer. Nevertheless, water companies are advised to monitor the situation carefully and if necessary to take appropriate action in accordance with their drought plans.

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the new *(a)* reservoirs, *(b)* treatment plants and *(c)* sewerage systems that might be needed to accommodate proposals for the new house building up to 2016 in West Lancashire. [58429]

Mr. Morley: Water companies are already factoring new house building into their water resources plans, using projections from ODPM and local authorities. Ofwat has already assumed in its current price limits that almost one million new properties will be connected to the water and sewerage service by 2010.

To fulfil their duty to maintain adequate supplies of water, several water companies propose to enlarge existing reservoirs (three in total) or construct new ones (five in total). These proposals are set out in the 25 year water resources plans they prepared in 2004. The Environment Agency has advised Ministers about the appropriateness of these proposals and other measures to ensure security of supply in its report "Maintaining water supply", which was published in July 2004. West Lancashire's water supply is provided by United Utilities. The company's water resources plan, prepared in 2004, does not identify the need for new reservoirs.

Planning for new sewerage systems should be carried out in close and transparent co-operation between planners and water and sewerage companies. The provision of water and sewerage services are key factors in ensuring the sustainability of new housing developments. New sewers are usually laid by developers or requisitioned from the water and sewerage companies.

TRANSPORT

Bioethanol

Mr. Willis: To ask the Secretary of State for Transport what plans he has to ensure that E85 bioethanol is available as an alternative vehicle fuel in all areas. [58714]

Dr. Ladyman: The Government announced in November 2005 that a Renewable Transport Fuels Obligation (RTFO) will be introduced from 1 April 2008. The RTFO will require all suppliers of transport fuels in the UK to ensure that 5 per cent. of their total fuel sales come from renewable sources by 2010 in order to help meet our climate change objectives. It will be up to individual fuel suppliers to decide whether they want to sell higher blends of bioethanol through dedicated E85 pumps to help meet their Obligation, or blend it into fuels suitable for all vehicles in line with EU fuel quality standards which currently impose a maximum biofuel limit of 5 per cent. by volume. I am aware that filling stations in the South West and East of England are already providing dedicated E85 pumps on their forecourts and that other retailers are considering doing so.

The Department for Transport currently provides limited grant funding towards the installation of alternative refuelling infrastructure. Details of this funding can be found on the Energy Saving Trust website at www.est.org.uk.

Driving (Sleep Problems)

Mrs. Riordan: To ask the Secretary of State for Transport pursuant to the Answer of 2 December 2005, *Official Report*, column 811W, on driving (sleep problems), if he will make a statement on the reasons for the rise in DVLA inquiries about obstructive sleep apnoea. [58538]

Dr. Ladyman: The increasing number of inquiries to DVLA about obstructive sleep apnoea reflects media interest in the subject and the Agency's efforts to raise awareness among health professionals. DVLA is starting to see the benefits of regular review of drivers with the condition.

IT Systems

Mrs. Dunwoody: To ask the Secretary of State for Transport on what date the Highway's Agency projection of costs associated with moving from Oracle to SAP was made. [58043]

Dr. Ladyman: The cost of moving the Highways Agency financial systems to the SAP system is being examined as part of the Department's shared services programme, taking into account the experience of moving the Agency from its legacy cash accounting systems to the Oracle system during 2002–03 and 2003–04. As Highways Agency finance will not be migrating to SAP for another three years, the full costs will not be known until detailed technical work, planned for a later stage of the shared services programme, is complete.

A very broad estimate of the full costs of migrating Highways Agency finance of £10 million to £15 million was given in oral evidence to the Transport Select Committee by the Agency's Finance Director on 15 February 2006. The migration costs reflected in the interim business case for the shared services programme assumed that it could be done for less, taking into account the work that would already have been carried out in establishing the core SAP platform. The interim business case included a further allowance for optimism bias of £5 million.

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the implications of the cost of moving from Oracle to SAP for the viability of the Shared Services Programme business case; and if he will make a statement. [58044]

Dr. Ladyman: An interim business case for the Department's shared services programme was produced in February 2006, which included initial estimates of the costs of migrating the different business units from their existing accounting and other IT systems to a SAP platform. Some of the business units were already using a version of SAP. This showed that, based on the total estimated economic investment cost of £49.5 million (including 'optimism bias' of £5 million), the programme would pay back in 6 years with a net present value after 10 years of around £46 million.

London and Continental Railways

Dr. Cable: To ask the Secretary of State for Transport if he will list *(a)* the advisers and *(b)* their parent companies who worked on the restructuring of London and Continental Railways in 1998. [54751]

Derek Twigg *[holding answer 6 March 2006]:* The Department appointed three sets of advisers in 1996 to provide specialist support in relation to the development and operation of the Channel Tunnel Rail Link. They are the project representative, Mott Parsons Gibb, the financial agent, Schroders (now Citigroup), and the legal agent, CMS Cameron McKenna.

These advisers also supported the Department in the 1998 restructuring of London and Continental Railways (LCR).

Road Improvements (Denton)

Andrew Gwynne: To ask the Secretary of State for Transport what discussions *(a)* he and *(b)* his officials have had with the Highways Agency on improving capacity and traffic flows at the M60, M67 and A57 interchange at Denton. [58414]

Dr. Ladyman: The Highways Agency have been asked to investigate options for an improvement scheme at Denton Interchange. I am expecting to receive their advice shortly. Officials in the Government Office for the North West have been kept fully informed of progress.

Andrew Gwynne: To ask the Secretary of State for Transport if he will take steps to improve the junction capacity at the M60, M67, A57 interchange at Denton. [58416]

Dr. Ladyman: The Highways Agency is currently investigating options for an improvement scheme for this junction and their advice is expected to be submitted

to Ministers shortly. Any recommendations will be considered along with the advice from the North West Region recently sent to the Government on their transport priorities.

South Hampshire Rapid Transit Scheme

Mr. Hancock: To ask the Secretary of State for Transport if he will place in the Library a copy of the documents which formed the basis of the recent decision not to proceed with the South Hampshire Rapid Transit scheme. [47910]

Derek Twigg: We are currently considering a request under the Freedom of Information Act for release of the reports I considered in reaching my decision. Any documents released under this request will be placed on our website shortly.

Subject to agreement from the promoters, I will place in the Library the information they provided which formed the basis of my decision on this scheme.

Transport Offences

Chris Grayling: To ask the Secretary of State for Transport how many *(a)* notifiable and *(b)* non-notifiable offences were reported to the British Transport Police in 2004–05, broken down by (i) parliamentary constituency, (ii) region and (iii) police authority area. [57580]

Derek Twigg: The British Transport Police (BTP) have provided the following information on the number of *(a)* notifiable and *(b)* non-notifiable offences reported to the BTP in 2004–05 broken down by police authority area in England and Wales; this data is not collected by parliamentary constituency or by region and therefore can be provided only at disproportionate cost.

Police force area	*Notifiable offences*	*Non notifiable offences*	*Total*
Avon Somerset	1,042	718	1,760
Bedfordshire	568	160	728
Cambridgeshire	833	316	1,149
Cheshire	1,010	1,006	2,016
City of London	1,742	524	2,266
Cleveland	245	459	704
Cumbria	287	356	643
Derbyshire	434	490	924
Devon Cornwall	806	864	1,670
Dorset	312	124	436
Durham	254	405	659
Dyfed Powys	179	220	399
Essex	2,354	835	3,189
Gloucester	196	159	355
Greater Manchester	2,571	2,983	5,554
Gwent	207	264	471
Hampshire	1,592	464	2,056
Hertfordshire	1,868	538	2,406
Humberside	442	1,058	1,500
Kent	2,619	639	3,258
Lancashire	822	1,099	1,921
Leicestershire	417	412	829
Lincolnshire	177	298	475
Merseyside	2,061	2,233	4,294
Metropolitan local stns	35,689	17,630	53,319
Norfolk	396	168	564
North Wales	338	427	765

Warwickshire	267	274	541
West Mercia	506	454	960
West Midlands	2,956	2,044	5,000
West Yorkshire	2,587	2,149	4,736
Wiltshire	291	154	445

TRADE AND INDUSTRY

Civil Service (Workforce Reductions)

Mrs. Villiers: To ask the Secretary of State for Trade and Industry how much is expected to be saved as a result of meeting civil service work force reductions targets in *(a)* the Office of Fair Trading and *(b)* UK Trade and Investment. [52809]

Ian Pearson: For the financial years 2005–06, 2006–07 and 2007–08 the OFT expects to make efficiency savings of £6.5 million. These savings will arise from reductions in staffing and related costs, as well as more efficient procurement of goods and services.

UK Trade and Investment expects to deliver £35 million efficiency savings over the period 2005–06 to 2007–08. Of this, £24 million relates to efficiency savings on the funding streams it receives from the Foreign and Commonwealth Office (FCO) and the Department of Trade and Industry (DTI). These funding streams (and hence the expected efficiency savings from these funding streams) relate to staff and associated costs for FCO and DTI staff working for UK Trade and Investment.

Dialling Codes

Mr. Pickles: To ask the Secretary of State for Trade and Industry if he will make a statement on Ofcom's plans to create regional dialling codes; and on what administrative government boundaries the codes will be based. [56088]

Alun Michael: The matter raised is the responsibility of the Regulator, the Office of Communications (Ofcom), which published its Review of the UK Telephone Numbering Plan on 23 February. As Ofcom has made clear, proposals are designed to preserve the existing system and to improve price transparency for consumers. Ofcom is not planning to create new regional dialling codes. Indeed, the primary aim of Ofcom's proposals for these numbers is to reduce the risk of such changes, now and in the future. The fundamentals of the current plan will remain almost unchanged. Ofcom's plans involve changing the current numbering plan as little as possible while meeting increasing demand for numbers, which are of course a finite resource. The consultation can be found at the following internet address:

http://www.ofcom.org.uk/consult/condocs/numberingreview/numbering.pdf.

Disabled Workers

Rosie Cooper: To ask the Secretary of State for Trade and Industry what estimate he has made of the pay gap between able bodied and disabled workers in *(a)* West Lancashire and *(b)* the UK in each year from 1997 to 2005; and what steps his Department is taking to reduce it. [58520]

Mr. Sutcliffe: The Low Pay Commission reported that, in 2004, the pay gap for people with a work-limiting disability was 13 percentage points. This Department is not aware of any further data on the pay gap between disabled and non-disabled workers in West Lancashire or in the years 1997 to 2005.

The Equal Opportunities Commission's Code of Practice on Equal Pay recommends that it is good practice for employers, when comparing the pay between men and women to also look at disability and seek advice from the Disability Rights Commission to ensure that the relevant provisions of the disability legislation are taken into account.

As a result of a strong economy and active labour market policies, the employment gap between disabled and non-disabled people is starting to close. The employment rate for disabled people was 38.1 per cent. in spring 1998, rising to 46.6 per cent. by spring 2005; over the same period, the employment gap fell from 35.1 per cent. to 28 per cent.

The DTI supports the recommendations in the Prime Minister's Strategy Unit report, "Improving the Life Chances of Disabled People" and the aims of the Office for Disability Issues and contributes to implementing recommendations within its area of responsibility.

Regional Development Agencies

Mr. Greg Knight: To ask the Secretary of State for Trade and Industry which regional development agencies have funded *(a)* rail services and *(b)* road building, construction or road improvement works in the last five years for which figures are available. [57808]

Alun Michael *[holding answer 13 March 2006]:* Consistent with their statutory purposes as set out in the Regional Development Agencies (RDAs) Act of 1998, the following regional development agencies (RDAs) have invested in *(a)* rail services and *(b)* road building, construction or road improvement works in the last five years for which figures are available:

(a) Rail services

East of England Development Agency (EEDA);

London Development Agency (LDA);

Northwest Development Agency (NWDA);

South East England Development Agency (SEEDA);

Yorkshire Forward (YF); and

(b) Road building, construction or road improvement works

Advantage West Midlands (AWM);

East Midlands Development Agency (EMDA);

London Development Agency (LDA);

Northwest Development Agency (NWDA);

One North East (ONE);

South East England Development Agency (SEEDA);

South West of England Regional Development Agency (SWRDA); and

Yorkshire Forward (YF).

Businesses (North-West)

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many small businesses were created in the North-West region in *(a)* 2003, *(b)* 2004 and *(c)* 2005; and how many are expected to be created in 2006. [56987]

Alun Michael: The number of small businesses (less than 50 employees) created in the North-West region in 2003 was 29,519 while the number for 2004 was 20,133. Figures for small business creation in 2005 are not yet available. There are no forecast projections for the number of small business expected to be created across the region in 2006.

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what measures are being put in place following the 2005 Northwest Regional Economic Strategy review to improve access to public and private sector business support providers. [56988]

Alun Michael: The revised Northwest Regional Economic Strategy, to be launched in March, sets out the future approach to develop the economy of the region and is the key document in which the RDA's business plan and other documents will be based. The first port of call for business support is the Business Link network within the Local Business Link or through the national website (businesslink.com). Last April oversight of Business Link passed to the RDAs and a review is currently being undertaken by the North West Development Agency (NWDA) of its Business Support and Business Link activities to ensure that these services address the main issues identified in the new Rural Economic Strategy (to be launched in March). The NWDA is also investigating how private sector business support activities can be better incorporated and leveraged by the public sector to improve the overall access, level and quality of service to businesses. Core issues under review include improving client awareness and understanding of services, simplifying services and improving efficiency.

Business Link is a national "brand" delivered locally, with the RDA responsible for quality delivery. The Business Link service will be a key driver to improving access and the review specifically focuses on how the business model for this service can be extended to increase penetration and access, in part through utilising existing business support structures. The NWDA is also investigating ways in which access and support to 'harder to reach' clients and those with different needs can be improved, such as mainstreaming where appropriate.

Timber

Daniel Kawczynski: To ask the Secretary of State for Trade and Industry what was the value of timber imported into the UK in *(a)* 1980 and *(b)* 2003. [56501]

Ian Pearson: Imports into the United Kingdom of wood and cork had a value of £683 million in 1980 and of £1,461 million in 2003.

UK Trade and Investment

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry what his policy is on devolving the UK Trade and Investment budget to regional development agencies and regional assemblies. [58635]

Ian Pearson: UK Trade and Investment (UKTI) provides trade development advice and services to businesses through teams of advisers located in the English regions. It works closely, through its regional International Trade Directors, with the Regional Development Agencies (RDAs) on international trade strategy and delivery, through a "Dual Key" Framework. In support of inward investment, UKTI currently provides £15.2 million to the RDAs' "single pot" for inward investment promotion activities.

DEFENCE

Afghanistan

Mr. Clegg: To ask the Secretary of State for Defence (1) what assessment he has made of the military capability and sophistication of *(a)* the Taliban and *(b)* al-Qaeda forces operating in South Afghanistan; [54206]

(2) what assessment he has made of the number and strength of *(a)* Taliban, *(b)* al-Qaeda and *(c)* illegal armed groups operating in South Afghanistan. [54207]

John Reid: The capabilities of Taliban, al-Qaeda and illegally armed groups in Southern Afghanistan are limited and we believe do not currently pose a threat to the long-term stability of Afghanistan, although they pose a localised threat to international forces, representatives of the Afghan government and those who support it.

The actual numbers of Taliban in Southern Afghanistan fluctuates, but could amount to over a thousand. al-Qaeda's presence in the area is small. There is also a range of illegally armed groups in the south with various tribal and criminal allegiances, contributing to general lawlessness. It is not possible to determine the number of armed individuals belonging to such groups across the South.

British Beef

Mr. Keetch: To ask the Secretary of State for Defence if he will encourage British military bases in Europe to serve British beef. [58383]

Mr. Ingram: The procurement of beef for use by the UK armed forces complies with European Union legislation and it would be unlawful for the Department to stipulate that beef should be sourced from a particular country. Nevertheless, the Ministry of Defence's food supply contractor is specifically required to purchase British produce whenever it is competitive to do so and the MOD is working with the Department for Environment Food Rural Affairs and Industry to maximise the competitiveness of British produce.

Continuous Attitudes Survey

Mr. Moore: To ask the Secretary of State for Defence if he will place copies of the latest Continuous Attitudes Surveys for each of the Services in the Library. [58301]

Mr. Touhig: The most recent versions of the Royal Navy and RAF Continuous Attitude Surveys (CAS) were published in the Library of the House and on the MOD's Freedom of Information (FOI) website in October 2005. The Army's latest CAS was completed in February 2006 and copies will be placed in the Library of the House and the MOD's FOI website from 1 April 2006.

Darfur

Dr. Fox: To ask the Secretary of State for Defence what recent discussions he has had with his NATO counterparts regarding the provision of further assistance by NATO to the African Union mission in Darfur; and if he will make a statement. [57470]

John Reid: The focus of discussion in NATO has been on support to the African Union's Mission in Darfur (AMIS) until the expected handover from AMIS to a UN force in Darfur later this year. NATO is already supporting AMIS in areas such as strategic lift and developing their planning and training capabilities.

Departmental Files

Dr. Julian Lewis: To ask the Secretary of State for Defence how many files in his Department are believed to have been contaminated by asbestos dust during storage; what plans he has to decontaminate them; and if he will make a statement. [58256]

Mr. Touhig: Approximately 63,000 files were affected by the asbestos contamination of the basement of the Old War Office Building.

Following pilot work in early 2005, a project to regenerate the affected files into electronic format by scanning commenced in December 2005. It is estimated that the project will take until July 2007 to complete. Scanning will be followed by quality assurance checks, and then the destruction of the original files to the appropriate security and health and safety standards.

Falkland Islands

Dr. Fox: To ask the Secretary of State for Defence when his Department last assessed the military state of readiness of UK forces on the Falkland Islands. [57474]

Mr. Ingram: All units deployed in the Falkland Islands are held at varying degrees of readiness appropriate to their role. Like Force Levels, readiness is kept under review.

Future Aircraft Carriers

Dr. Julian Lewis: To ask the Secretary of State for Defence what steps he will take to ensure that the agreement reached with France on a common aircraft carrier design does not delay the coming into service of the United Kingdom's future aircraft carriers; and whether target in-service dates have been set. [58258]

John Reid: As I announced on 24 January, we will be co-operating with France during the CVF demonstration phase to produce a common baseline design that both countries can further use to develop their own carriers. The French Defence Minister and I subsequently signed a memorandum of understanding to formalise the associated arrangements. The MOU specifically recognises that both countries' co-operative aims shall be achieved without detriment to the timescales of their respective programmes.

As for all projects, the in-service dates for the future aircraft carriers will only be set following the main investment decision and once they have been approved by Ministers. This decision has not yet been taken.

Harrier Deployment

Dr. Julian Lewis: To ask the Secretary of State for Defence how many Harrier jets have been in Afghanistan during their deployment by the RAF; and on how many occasions in each six-month period they have engaged insurgents. [57403]

Mr. Ingram *[holding answer 14 March 2006]:* Since September 2004, there have been six harriers based in Kandahar, Afghanistan. In this time 970 missions have been flown of which 21 have resulted in the release of weapons. One of these missions was in the first six months of the deployment; ten during the second six months; and ten since 1 November 2005.

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) what the role has been of the RAF Harrier Jet deployment in Afghanistan; and by whom it will be carried out after their withdrawal; [57404]

(2) on what *(a)* military and *(b)* economic factors the decision to withdraw RAF Harriers from Afghanistan was based; and whether representations against the withdrawal have been received by the Department. [57405]

Mr. Ingram *[holding answer 14 March 2006]:* The role of the RAF Harrier GR7 deployment in Afghanistan since September 2004 has been to provide a close air support and reconnaissance capability to Operation Enduring Freedom (OEF) and to the International Security Assistance Force (ISAF). Ensuring continued close air support to the ISAF is a matter for the NATO force generation process, and the Netherlands have committed six F16s which are due to be fully operational in Kandahar by summer 2006.

The decision to extend the UK Harrier GR7s in theatre from June 2005 until June 2006 was based on the need to cover the period of runway work at Kandahar, the military requirement, and on the relative cost-effectiveness of meeting the requirement in this way. We continue to review the requirement in consultation with NATO and the coalition.

Helicopters

Dr. Fox: To ask the Secretary of State for Defence pursuant to his Answer of 6th February 2006, Official Report, column 825W, on helicopters, what was the average number of hours flown on operations for a Royal Air Force *(a)* Chinook, *(b)* Merlin, *(c)* Sea King and *(d)* Puma helicopter in (i) 2001, (ii) 2002 and (iii) 2003. [57660]

Mr. Ingram: Information in respect of hours flown on operations in 2001 and 2002 is not held centrally and could only be provided at disproportionate cost. An average yearly total for financial year 2003–04 has been calculated[1] and is shown in the following table:

[1] The calculation used is: total annual operational hours by aircraft type divided by the average number of aircraft type deployed on operations.

Aircraft type	*Financial year 2003–04*
RAF Chinook	192
RAF Merlin	418
RAF Puma	304

As I stated in my answer of 6 February 2006, *Official Report*, column 825W, the Sea Kings operated by the RAF are dedicated to the UK Search and Rescue capability and have, therefore, not been included in the figures provided.

International Security Assistance Force

Dr. Fox: To ask the Secretary of State for Defence what funding levels each *(a)* NATO and *(b)* International Security Assistance Force (ISAF) coalition member has devoted to ISAF in the 2005–06 financial year. [57468]

Mr. Ingram: The costs of operational deployments are a matter for the nations concerned.

Iran

Dr. Julian Lewis: To ask the Secretary of State for Defence what progress has been made towards the recovery of Royal Marine patrol boats seized by Iran. [58257]

Mr. Ingram: Discussions are ongoing. Through diplomatic channels we have raised the return of the boats with the Iranian authorities on numerous occasions, at both ministerial and senior official level, in Tehran and London.

Iraq

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will make a statement on the capture of a suspected insurgent by RAF Regiment soldiers near Basra airbase; and what the *(a)* age and *(b)* nationality was of the person seized. [58255]

Mr. Ingram: The individual apprehended by British Forces near the Basra airbase on 28 February 2006 was 25 years old and of Iraqi nationality.

Dr. Cable: To ask the Secretary of State for Defence pursuant to his answer of 6 March 2006, *Official Report*, column 1189W, on Iraq and the Ministry of Defence press release of 28 September 2005, entitled 2005 UK Defence Statistics, if he will update the figures provided in the answer to include the cost of combat operations in 2003–04 and 2002–03; and if he will make a statement. [58609]

Mr. Ingram: Further to my earlier answer on 6 March 2006, *Official Report*, columns 1189–90W, it remains the position that it is not possible to identify separately the cost of combat operations. The total cost of military

operations in Iraq, including the war-fighting phase between 20 March and 1 May 2003, are as advised in that answer and as published in the "UK Defence Statistics 2005", table 1.17. The MOD press release of 28 September 2005 focuses on financial year 2004–05, during which no war-fighting was conducted—although the publication does also disclose the costs in 2002–03 and 2003–04, which include the war-fighting phase of Operation Telic.

Non-service Employment

Harry Cohen: To ask the Secretary of State for Defence how many armed forces personnel applied to take up appointments with private military companies in *(a)* 2004 and *(b)* 2005, broken down by rank; and how many of the applications were refused in each case. [57864]

Mr. Touhig: The rules on acceptance of appointments by Crown Servants (the 'Business Appointment Rules') contained in the Civil Service Management Code and Queen's Regulations require all officers in the armed forces, in certain circumstances, to apply for permission before taking up appointments with outside organisations for two years after leaving Crown Service.

The number of Service personnel who have submitted applications under the Business Appointment Rules are as follows:

Navy

	2004	2005
Admiral	1	1
Vice Admiral	0	0
Rear Admiral	2	4
Commodore	2	3
Captain	2	3
Commander	9	7
Lieutenant Commander	4	8
Lieutenant	0	0
Sub Lieutenant	0	0

Army

	2004	2005
General	1	0
Lieutenant General	1	1
Major General	1	2
Brigadier	3	1
Colonel	5	6
Lieutenant Colonel	5	7
Major	6	3
Captain	2	0
Lieutenant	0	0

RAF

	2004	2005
Air Chief Marshal	0	3
Air Marshal	0	1
Air Vice Marshal	3	1
Air Commodore	2	4
Group Captain	6	10
Wing Commander	7	9
Squadron Leader	6	13
Flight Lieutenant	2	3

Please note that some personnel may have submitted more than one application. It is not known how many appointments were taken up. No applications were refused outright. However, on occasions approval will have been given subject to the application of a behavioural condition or a waiting period.

Organisation for Security and Co-operation in Europe

Dr. Fox: To ask the Secretary of State for Defence if he will make a statement on his Department's work with the Organisation for Security and Co-operation in Europe over the last 12 months. [57488]

John Reid: In addition to the exchange of military information and data required under the auspices of the OSCE's 1999 Vienna Document of the Negotiations on Confidence- and Security-Building Measures, in the past 12 months the United Kingdom has conducted 14 missions to inspect and evaluate military units from other OSCE countries, and has itself been subject to three inward inspection and evaluation visits. In October 2005, the UK hosted a visit by OSCE members to a military facility (the Land Warfare Centre in Warminster), as required by the Vienna Document. The UK also deployed on six missions to assist OSCE inspections in the countries of Former Yugoslavia under the auspices of the Dayton Peace Agreement.

The destruction of small arms and light weapons remains a high priority for the MOD and, in response to a request from the OSCE, the UK conducted four Staff Assessment Visits to Belarus with a view to improving stockpile security and management, and oversaw the destruction of Man-Portable Air Defence Systems.

Private Aircraft

Mr. Moore: To ask the Secretary of State for Defence in what circumstances *(a)* UK and *(b)* foreign aircraft which are privately owned may land at UK military airfields. [58467]

Mr. Ingram: It is the Ministry of Defence policy to encourage the civil use of defence facilities wherever possible, provided it is consistent with departmental requirements. Thus civil aircraft may land at most UK military airfields where they have prior permission, which is normally granted at local level. All such users are required routinely to give at least 24 hours notice. We also have arrangements to approve civil users for regular use of particular airfields.

QinetiQ

Dr. Cable: To ask the Secretary of State for Defence if he will publish the independent assessment of the sale of equity in QinetiQ in 2002. [44093]

John Reid: Throughout the competitive process to choose a Strategic Partner, leading up to the sale of a minority equity shareholding in QinetiQ to Carlyle, the Ministry of Defence's decisions were informed by assessments undertaken by its advisers UBS Warburg and Simmons & Simmons. These assessments were provided under contractually-committed confidentiality agreements and therefore cannot be released.

RAF Spadeadam

Mr. Martlew: To ask the Secretary of State for Defence what plans he has for RAF Spadeadam; and if he will make a statement. [58589]

Mr. Ingram: RAF Spadeadam will continue to provide ground-to-air Electronic Warfare training for RAF aircrew. The RAF is considering the most cost-effective means of undertaking this when current systems begin to go out of service in 2009.

Uganda/Colombia

Mr. Clegg: To ask the Secretary of State for Defence what military *(a)* equipment has been exported and *(b)* training has been provided by his Department to (i) Uganda and (ii) Colombia in each year since 2000. [56049]

Mr. Ingram: I refer the hon. Member to the Government's Annual and Quarterly Reports on Strategic Export Controls which contain information, by destination, on export licensing decisions and on the value of exports of military equipment from the UK. The reports are available from the Libraries of the House and quarterly information is published by the Department of Trade and Industry at http://www.dti.gov.uk/export.control/whatsnew.htm.

Military training courses, Defence education and other military assistance provided to Ugandan personnel by the Ministry of Defence since 2000 is shown in the following table :

	Type of training
2000–02	There are no records immediately available of training support for 2000–02. Assistance was comparable with subsequent years
2003	International Officers Peace Support Operations course (two participants) Manging defence in a Democracy courses (two participants) UN Military Observers courses (seven participants) Advanced Command and Staff Course (one participant) MSc Global Security course (one participant) Commissioning course (one participant)
2004	Managing Defence in a Democracy courses (four participants) RMAS Commissioning course (one participant) International Intelligence Directors course (one participant) UN Logistics course (one participant) MSc in Defence Administration (one participant) Defence Logistics Management course (one participant) International Senior Officers Peace Support Operations course (one participant)
2005–06	UN Military Observers course (two participants) Managing Defence in a Democracy courses (two participants) Humanitarian De-mining course (150 participants) RMAS Commissioning course (one participant) International Peace Support Briefing Programme (two participants) Advanced Command and Staff Course (one participant) International Senior Officers PSO course (one participant)

Military training courses, Defence education and other military assistance provided to Colombian personnel by MOD since 2000 is shown in the following table:

	Type of training
2000	Advice on explosive ordnance disposal (EOD) and the protection of police stations
2001	EOD training (10+ participants)
2002	MSc in Global Security (one participant) Royal College of Defence Studies (one participant)
2003	EOD seminar (10+ participants) International Intelligence Directors course (one participant) Advanced Command and Staff Course (one participant) International Bomb Disposal course (two participants) Bag-piping course (10+ participants)
2004	International Bomb Disposal course (seven participants) Joint Command and Staff College (one participant) International Intelligence Directors course (one participant) International Peace Support briefing programme (two participants) Bag-piping course (10+ participants)
2005–06	Improvised Explosive Device Disposal course (10+ participants) International Bomb Disposal course (two participants) Humanitarian De-mining course (10+ participants) MSc in Global Security (one participant) Bag-piping Courses (10+ participants) Rules Of Engagement Seminar (10+ participants) Economic Exclusion Zone course (two participants) Hydrographic Office course (two participants, separately)

As well as the training listed in the table, the MOD has also provided some bespoke training to members of the Colombian armed forces engaged in Counter-Narcotics.

Voluntary Retirement

Mr. Moore: To ask the Secretary of State for Defence how many Army *(a)* officers and *(b)* other ranks (i) were granted and (ii) applied for premature voluntary retirement or release in each quarter since January 2004. [58305]

Mr. Touhig: The table below shows the number of Voluntary Outflow Applications and the number of Voluntary Outflow Exits for Trained Officers and Soldiers for each quarter during the period 1 January 2004 and 31 December 2005.

Number of Voluntary Outflow (VO) Applications and Exits of Trained Regular Army Officers and Soldiers from 1 January 2004 to 31 December 2005

	Officers		*Soldiers*	
Date	*VO Applications*	*VO Exits*	*VO Applications*	*VO Exits*
1 January 2004 to 31 March 2004	190	110	1,980	1,480
1 April 2004 to 30 June 2004	200	140	1,630	1,050
1 July 2004 to 30 September 2004	150	200	1,880	1,010
1 October 2004 to 31 December 2004	130	80	1,970	1,260
1 January 2005 to 31 March 2005	240	120	1,900	1,570
1 April 2005 to 30 June 2005	80	170	1,860	1,020
1 July 2005 to 30 September 2005	230	180	1,690	1,180
1 October 2005 to 31 December 2005	190	130	1,670	1,100

Notes:
1. The term Premature Voluntary Release has been changed to Voluntary Outflow (VO),although the methodology for calculating the totals remains the same.
2. VO is defined as all applications and exits from trained personnel which are generated by the individual before their time expiry.
3. The figures are based on all Voluntary Outflow from the Trained strength of the UK Regular Army.
4. All applications are counted according to the date received in MOD.
5. The data have been rounded to the nearest 10, number ending in '5' have been rounded to the nearest multiple of 20 to prevent systematic bias.

HOME DEPARTMENT

Anti-Bullying Strategies

Mr. Bellingham: To ask the Secretary of State for the Home Department what changes have been made to improve the anti-bullying strategies at *(a)* HM Young Offender Institution Stoke Heath and *(b)* HM Young Offender Institution Brinsford following defects identified by HM Chief Inspector of Prisons; and if he will make a statement. [57767]

Fiona Mactaggart: Stoke Heath young offender institution's anti-bullying strategy has been fully reviewed and now forms part of a violence reduction strategy and an action plan is reviewed monthly. Two units deliver intense intervention to the more serious bullies. Their progress is constantly reviewed. The courses are accredited and audited annually.

Daily monitoring is recorded in an antisocial behaviour booklet by all staff who have contact with trainees and reviewed every evening by the wing manager and weekly by a board. There is also a self-help group for victims of bullying. Visits to local schools are planned so as to learn from their strategies and methods. A system of rewards and sanctions is being considered to encourage integration to normal location for persistent bullies.

Brinsford young offender institution's anti-bullying strategy was revised and re-launched following the most recent chief inspector's report. A safeguarding manager has been appointed with responsibility for child protection, violence reduction, anti-bullying and public protection. An anti-bullying co-ordinator post will become full-time and deliver programmes to both perpetrators and victims of bullying. Brinsford is currently working on appointing a safeguarding team. It is planned to introduce an intensive support unit where the perpetrators of bullying will be identified, located and receive appropriate training.

Antisocial Behaviour

Lynne Featherstone: To ask the Secretary of State for the Home Department (1) what penalties have been imposed, broken down by type, in each incident that has come to court of an antisocial behaviour order being breached in each London borough; and if he will make a statement; [55953]

(2) how many antisocial behaviour orders have been breached in each of the last five years; how many breaches have come to court; and if he will make a statement. [55954]

Hazel Blears: Antisocial behaviour orders (ASBOs) breach data held centrally only cover breach proceedings where there has been a conviction. These data are currently available from 1 June 2000 to 31 December 2003 for ASBOs issued since 1 June 2000. The available information on the number of orders breached in England and Wales, by period, is given in table A.

ASBO breach data are available at criminal justice system area level only. The penalties imposed as a result of convictions in Greater London courts are given in table B.

Table A: Number of antisocial behaviour orders breached, as reported to the Home Office, by period, from 1 June 2000 to 31 December 2003[1] England and Wales

Period	*Total breached*
June 2000 to December 2000	14
2001	118
2002	240
2003	609
June 2000 to December 2003	793

[1] Breaches are counted in this table on a persons basis, i.e. where the order has been breached on more than one occasion within the same period, a person is counted once only within that period

Table B: Sentences and penalties following ASBO breach proceedings, as notified to the Home Office, within Greater London, from 1 June 2000 to 31 December 2003

Sentence	*Average length or amount*	*Total*
Conditional discharge	Length of order—7.5 months	2
Fine	£73	23
Community sentence		
Community punishment order	47 hours	3
Curfew order	3 months	2
Attendance centre order	13 hours	3
Action plan order	n/a	1
Supervision order	15 months	2
Community rehabilitation order	2 years	1
Custody1		
Imprisonment (aged 18 and over)	2 months	63
Detention and training order (under 18)	6.5 months	9
Other		
Referral order	6 months	1
Suspended sentence of imprisonment	13.5days[2]	2
Hospital order	n/a	1
Committed to Crown court for sentence	[3]—	2
Not separately dealt with	n/a	1
Total	—	116

n/a = not applicable
[1] Some sentences will be concurrent with others given for another offence.
[2] Length of prison sentence.
[3] One person received a community rehabilitation order, length two years, the other imprisonment for 1 month.

Care in Custody

Mr. Bellingham: To ask the Secretary of State for the Home Department (1) what assessment he has made

of the impact of the Assessment, Care in Custody and Teamwork programme in each prison where it is applied; and if he will make a statement; [57764]

(2) what discussions he has had with the National Institute for Mental Health in England regarding *(a)* the implementation of and *(b)* changes to the Assessment, Care in Custody and Teamwork programme; and if he will make a statement; [57766]

Fiona Mactaggart: In 2002–03, Manchester University carried out an evaluation of the care-planning system in place at that time—the F2052SH. Assessment, Care in Custody and Teamwork (ACCT) was developed to address problems identified in that study as well as reflect wider developments in prisoner care. ACCT was introduced into five pilot prisons in January 2004. An internal, interim evaluation was conducted in the summer of 2004 and further improvements were made as a result. A full, independent, study of ACCT was commissioned from a consortium of researchers from Manchester and London Universities. The findings of this evaluation, alongside feedback from establishment staff, Area Safer Custody Advisers and the National Institute for Mental Health in England (NIMHE) regional leads, will be used to inform a review of ACCT and the suite of ACCT training courses that is being undertaken during 2006.

Ongoing analysis of routine monitoring data seeks to monitor the impact ACCT and other initiatives in suicide prevention are having on self-inflicted death and self-harm statistics. However there are a multitude of factors which may explain changes in self-inflicted deaths in particular establishments. Early indications are that the three year rolling average rate of self-inflicted death has fallen by 4 per cent. in the first five pilot prisons to introduce ACCT, and by 12 per cent. in the first 30 prisons to adopt the new system. There have also been encouraging results with regard to self-harm rates at these prisons. This information is provided to the steering board—on which NIMHE is represented—that oversaw the development of ACCT and continues to supervise its implementation and review.

Mr. Bellingham: To ask the Secretary of State for the Home Department (1) if he will list the prisons that operate the Assessment, Care in Custody and Teamwork programme; [57765]

(2) which prisons have converted to Assessment, Care in Custody and Teamwork processes for assessing at-risk inmates; and if he will make a statement. [58229]

Fiona Mactaggart: The prisons that are already using the Assessment, Care in Custody and Teamwork Approach (ACCT) are (as at 13 March):

Feltham
Holme House
Low Newton
Wandsworth
Woodhill
Castington
Hull
Leeds
New Hall
Buckley Hall
Lancaster Farms
Manchester
Preston
Styal
Winchester
Bullingdon
Bristol
Dorchester
Exeter
Holloway
Stoke Heath
Liverpool
Birmingham
Blakenhurst
Glen Parva
High Down
Lewes
Swinfen Hall
Downview
Swaleside
Nottingham
Bedford
Cardiff
Maidstone
Eastwood Park
Long Lartin
Albany
Pentonville
The Wolds
Wormwood Scrubs
Parkhurst
Doncaster
Brinsford
Shrewsbury
Swansea
Norwich
Leicester
The Mount
Stafford
Wakefield
Guys Marsh
Risley
Whitemoor
Brixton
Gloucester

ACCT is being introduced across the estate as part of a phased programme, designed to ensure that the necessary staff training takes place before an establishment goes live with the new system.

Clean Neighbourhoods and Environment Act

Andrew Gwynne: To ask the Secretary of State for the Home Department when the regulations on making gating orders under the Clean Neighbourhoods and Environment Act 2005 will come into force; and if he will make a statement. [57828]

Hazel Blears: The new powers will come into force on 1 April 2006. Upon commencement the Regulations will be accompanied by guidance which will enable them to be used immediately by practitioners.

This new provision gives local authorities a much wider power for suspending highways so that a council can effectively deal with crime and antisocial behaviour in these instances.

Computer Games

Mr. Carmichael: To ask the Secretary of State for the Home Department (1) how many computer games have been banned from import in each year since 1997; and what the reason was in each case; [57066]

(2) what steps he is taking to stop the import of child pornography in computer games and animation. [57083]

James Purnell: I have been asked to reply.

None. Every computer game to be made available in the UK which features gross violence and/or material of a sexual nature must be submitted to the British Board of Film Classification. All videos and cinema films, including animation, are submitted. The BBFC bases its decisions on a set of guidelines which take into account the law, including the Protection of Children Act 1978. The BBFC would not countenance giving a classification to any game or animation which contained child pornography.

Supplying a video or such a game without classification is a breach of the Video Recordings Act 1984, and punishable by up to two years in prison and/or an unlimited fine. Supplying a video or a BBFC classified game to someone who does not meet the age requirement is also an offence and punishable by up to six months in prison and/or a fine of up to £5,000.

Importing any pornographic material involving children is, of course, illegal, and subject to action by either the Police and/or HM Revenue and Customs.

Criminal Justice Act

Philip Davies: To ask the Secretary of State for the Home Department what assessment he has made of the likely effect on custody plus orders in the Criminal Justice Act 2003 on sentences *(a)* given by the courts and *(b)* served by prisoners. [57113]

Fiona Mactaggart: Sentences of custody plus will comprise a short custodial term (2–13 weeks) followed by a minimum of six months on licence. The custodial period will be served in full (less remand time allowed and home detention curfew). Sentencing in individual cases is entirely a matter for the courts. For planning purposes, the impact of custody plus has been assessed under the broad assumption that the majority of those currently getting a custodial sentence of less than 12 months and half of those currently getting a custodial sentence of exactly 12 months will get this sentence. (For those currently getting very short custodial sentences (less than a month) it has been assumed that about half will get a community order or a suspended sentence order.) The distribution of the custodial element of the custody plus sentence has been assumed to follow a similar distribution to that of the sentences it replaces but within the two-13 week band.

These estimates have been made for internal planning purposes and do not constrain the discretion of sentencers in any way.

Driving Offences (Mobile Phones)

Mrs. James: To ask the Secretary of State for the Home Department how many fixed penalty notices have been issued for offences involving using hand-held mobile telephones when driving a motor vehicle in the *(a)* South Wales, *(b)* Gwent, *(c)* North Wales and *(d)* Dyfed Powys police force areas. [57569]

Paul Goggins: The new offence of driving while using a hand held mobile telephone was introduced from 1 December 2003. Available information for 2003 (latest available) shows no fixed penalty notices were issued for the offence by South Wales, Gwent, North Wales and Dyfed Powys police force areas.

2004 data will be available end of March 2006.

Use of a hands free mobile phone is not part of the new offence.

Faith Communities Capacity Building Fund

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the Answer of 1 March 2006, *Official Report*, column 813W, on the Faith Communities Capacity Building Fund, whether faith organisations can apply to the three funds to which the answer refers. [58693]

Paul Goggins: Any Voluntary and Community Sector (VCS) organisation, including faith based ones, who can satisfy the appropriate criteria, are eligible to apply for funding from the Home Office Change-Up, Future Builders and Russell Commission programmes. Applications for funding to support proselytising activity are however ineligible.

Gun Crime

Anne Main: To ask the Secretary of State for the Home Department (1) pursuant to the answer to Question 54474 of 7 March 2006, on gun crime, how many gun crimes were recorded in each London borough in each year since the launch of Operation Trident; and what the percentage change was in each year; [57352]

(2) pursuant to Question 54474, how many gun related incidents there were in each London borough in each year since 1999. [57543]

Hazel Blears: The Home Office does not collect this information centrally. The figures provided as examples, quoted in the reply to Question 54474 on 2 March 2006, *Official Report*, column 957W, were Metropolitan police figures. Further details are available on the website of the Metropolitan police at www.met.police.uk/crimefigures/.

HMP Norwich

Mr. Bellingham: To ask the Secretary of State for the Home Department what action he has taken to improve the performance of HMP Norwich since the last report by HM inspector of prisons; and if he will make a statement. [58218]

BEST COPY AVAILBLE

Fiona Mactaggart: An action plan has been produced in response to each of the recommendations made by the chief inspector in her report published in August 2005. Significant improvements have been made. Examples are a substantial re-ordering of the accommodation in the prison, a safer environment for vulnerable prisoners, the opening of a first-night centre, and refurbishment of health care accommodation. There has also been significant work on training for the prevention of self-inflicted deaths and self-harm.

Illegal Immigrants

Keith Vaz: To ask the Secretary of State for the Home Department how many illegal immigrants are in prison. [57126]

Fiona Mactaggart: This information is not held centrally and could be obtained only at disproportionate cost.

Peak District National Park

Ms Angela C. Smith: To ask the Secretary of State for the Home Department if he will take steps to ensure that the police give greater priority to tackling crimes against wildlife in the Peak District national park. [57159]

Hazel Blears: The deployment of police officers in each force area is an operational matter for the chief officer concerned, based on operational priorities. All police forces have a policy for dealing with wildlife crime. The enforcement capability of officers on the ground is supported by the Partnership for Action Against Wildlife Crime; a multi-agency body comprising representatives of all the organisations involved in wildlife law enforcement in the UK.

Peterborough City Council

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what estimate he has made of the number of additional police *(a)* officers, *(b)* support staff and *(c)* stations that will be required as a result of the planned expansion of housing in the Peterborough city council area. [58150]

Hazel Blears: The Government are strongly committed to the principle that infrastructure should be sufficient to support growth in housing. The police funding formula takes account of the relative needs of policing across England and Wales. It is for the chief constable of Cambridgeshire, in consultation with the police authority, to determine how many officers and staff are deployed in an area and whether there is a need for additional police facilities in that area.

Police

Mr. Andrew Smith: To ask the Secretary of State for the Home Department what the starting salary was for newly qualified police officers in Oxford for each of the last 10 years. [58273]

Hazel Blears: The salary of a constable on completion of initial training for each of the last 10 years is shown in the following table.

Pay rates for a constable on completion of initial training—1996 to 2005

From 1 September each year:	*£*
2005	22,270
2004	22,107
2003	21,462
2002	20,436
2001	19,842
2000	19,170
1999	18,612
1998	17,964
1997	17,274
1996	16,689

In addition a South-East England allowance of £2,000 per year is payable to all officers appointed on or after 1 September 1994.

Rosie Cooper: To ask the Secretary of State for the Home Department how many special constables have been recruited in *(a)* West Lancashire, *(b)* Lancashire and *(c)* England and Wales since the beginning of the scheme. [58474]

Hazel Blears: Home Office specific grants to forces under the Special Constabulary Capacity Building Scheme began in January 2004. In the year 1 April 2004–31 March 2005, 63 special constables were recruited by Lancashire Constabulary, with 3,636 special constables recruited in England and Wales.

Figures are not collected centrally for West Lancashire.

Rosie Cooper: To ask the Secretary of State for the Home Department what average number of hours per week was worked by a special constable in *(a)* West Lancashire, *(b)* Lancashire and *(c)* England and Wales in each year since the beginning of the scheme. [58475]

Hazel Blears: Special constables are volunteers and the hours individual specials work varies. Data on hours worked by special constables are collected by police force area; figures are not collected centrally for West Lancashire. Available information on the average number of special constable hours per week are as follows:

Hours per week

	2003–04	*2004–05*
Lancashire	1,379	1,389
25 forces providing data[1]	19,452	21,266

[1] Forces not providing data are Avon and Somerset, Cambridgeshire, Cleveland, Derbyshire, Durham, Greater Manchester, Humberside, Merseyside, Metropolitan Police, North Wales, North Yorkshire, Nottinghamshire, South Wales, Suffolk, Surrey, Sussex, Thames Valley and West Midlands).

Mr. Spring: To ask the Secretary of State for the Home Department how many police community support officers have been introduced in Suffolk since the scheme began. [58510]

Hazel Blears: Information relating to the number of full-time equivalent Police Community Support Officers (PCSOs) in each Police Force Area has been collected by RDS since 2003. As at 31 March 2003, Suffolk did not have any PCSOs. 15 PCSOs were

introduced by 31 March 2004, this increased by 19 giving a total of 34 PCSOs as at 31 March 2005. This figure decreased by one, to 33 as at 30 September 2005.

Police National Computer

Mr. Bellingham: To ask the Secretary of State for the Home Department which prisons have access to the Police National Computer (PNC); what action he is taking to increase access for prisons to the PNC; when he expects all prisons to have access to the PNC; and if he will make a statement. [58233]

Fiona Mactaggart: There are 49 prison establishments with dedicated Police National Computer (PNC) terminals to enable access to an individual's previous convictions. A further three terminals have been approved by the Police Information Technology Organisation at Bullingdon Peterborough and Styal prisons.

However, no further terminals will be installed until the completion of a investigation by the Information Commissioner, who has concerns about not only the length of time personal data is retained on the PNC, but also how it is shared with non-police organisations such as the Prison Service.

Police Pensions

Steve McCabe: To ask the Secretary of State for the Home Department how many injury award pensions are being paid by each police force in England and Wales. [58724]

Hazel Blears: I refer my hon. Friend to the Answer I gave on 7 March 2006, *Official Report*, column 1317W, to my hon. Friend the Member for Central Ayrshire (Mr. Donohoe).

Prison Governors

Mr. Bellingham: To ask the Secretary of State for the Home Department how many current prison governors have previously been employed in *(a)* the National Offender Management Service and *(b)* the offices of regional offender managers; and if he will make a statement. [57780]

Fiona Mactaggart: A number of Prison Service operational managers currently work in the headquarters of the National Offender Management Service (NOMS), but only one serving governing governor of a public sector prison in England and Wales has previously worked there. None have worked in the offices of regional offender managers.

Prison Visits (Children)

Mr. Bone: To ask the Secretary of State for the Home Department if he will provide crèche facilities for visitors to prisons. [57242]

Fiona Mactaggart: The Government recognise the contribution that appropriate facilities can make to a more positive visiting experience for children.

Responsibility for the provision of facilities for visitors rests with individual prison governors, as they are best placed to assess local needs. Currently over 100 prisons in England and Wales have supervised play facilities.

Prisoners

Mr. Bellingham: To ask the Secretary of State for the Home Department what estimate he has made of the proportion of prison inmates registered with a general practitioner prior to being sent to prison; and if he will make a statement. [58239]

Fiona Mactaggart: The information requested is not collected centrally. Prisoners are asked for their general practitioner registration details at their first reception screening.

Grant Shapps: To ask the Secretary of State for the Home Department what guidance he has issued to the police on the transporting of handcuffed individuals in police cars with regard to the use of seatbelts. [56672]

Hazel Blears: We do not issue guidance on the use of handcuffs. However, the Association of Chief Police Officers (ACPO) have issued general guidance to police officers on the use of handcuffs. This can be found on the ACPO website (www.acpo.police.uk).

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps his Department is taking to reduce the levels of *(a)* suicides and attempted suicides, *(b)* violent attacks and *(c)* self-harm in female prisons. [57812]

Fiona Mactaggart: A broad, integrated and evidence-based prisoner safer custody (an umbrella term for suicide prevention, self-harm management and violence reduction) strategy is in place. The strategy can be summarised as, 'Reducing distress and promoting the well-being of all who live and work in prisons.' It operates by embedding safer custody as a current through every area of prison life—including detoxification, health care, staff training, and the built environment—and applies to all prisoners, regardless of gender.

Meanwhile a specifically targeted suicide prevention and self-harm management strategy has been developed for women prisoners. This builds upon a number of interventions including individual crisis counselling for women prisoners who self-harm; investment and planning to ensure progress on the detoxification strategy in women's prisons; and the introduction of a new training pack for all staff working with women in custody. £2.5 million from the Department of Health has been allocated to women's prisons to be spent on mental health services and NHS mental health in-reach services are now available in all women's prisons.

Comprehensive electronic guidance to staff on managing people who self-harm has been issued; this was developed in close partnership with the Department of Health and the National Institute of Mental Health in England (NIMHE) and aims to be of use to all those working with people who self-harm within a secure environment.

The national Violence Reduction Strategy was launched in May 2004. The national Strategy requires each establishment to have in place a local Violence

Reduction Strategy appropriate to needs. A whole prison approach is encouraged, with the aim of reducing violence and fear of violence. A focus on personal safety, supporting victims, and repairing the physical and emotional harm caused by violence or abuse, links closely with the suicide prevention strategy.

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on prisoners' use of electronic mail facilities while in detention. [58214]

Fiona Mactaggart: Prisoners currently do not have access to these facilities, although a pilot project to test the operational and practical realities of giving prisoners access to email facilities at Wormwood Scrubs prison will begin shortly. Email provides additional facilities for prisoners to maintain contact with family and friends. It will also assist them in gaining employment and other resettlement based activities when preparing for release.

Mr. Bellingham: To ask the Secretary of State for the Home Department in which prison establishments yoga is being taught; at what cost; what assessment he has made of its impact on prisoners; how many participants there are at each relevant establishment; and if he will make a statement. [58226]

Fiona Mactaggart: The information requested is not collected. The provision of alternative or complementary therapies for prisoners is a matter for the national health service primary care trusts responsible for commissioning primary health services at prison establishments.

Dr. Kumar: To ask the Secretary of State for the Home Department what training *(a)* prison officers and *(b)* prison nurses undertake to enable them to deal with the mental welfare of prisoners. [57073]

Fiona Mactaggart: The mental health workforce in prisons is trained alongside mental health professionals in the national health service. The majority of healthcare staff will have already gained registered status prior to working within a prison. A small number of staff, usually health care officers and assistants, undertake pre-registration nurse training courses on secondment from prison.

Mental health awareness training for Prison Service staff falls into two categories. The Government have funded the development of a two-day training course to support the assessment care in custody and teamwork (ACCT) programme, which looks at care planning for at-risk prisoners as part of the Prison Service suicide strategy. This is aimed at Prison Service staff who are going to be ACCT assessors. In addition, we have developed a mental health workbook aimed at the wider custodial workforce. This training is self-directed and is been rolled out initially for six months, to be evaluated, developed and then rolled out fully, so that by April 2007, 20 percent., of staff should have completed a minimum of 10 hours training.

As new roles within mainstream mental health services are developed, these are implemented within prisons where appropriate.

Mr. Amess: To ask the Secretary of State for the Home Department how many prisoners released from foreign prisons were held by British police on their return for *(a)* one hour, *(b)* two hours, *(c)* three hours, *(d)* four hours, *(e)* five hours and *(f)* six hours or more at each airport in the UK in each of the last five years. [56909]

Fiona Mactaggart: The information requested is not collected centrally.

Prisons

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the role of the police in investigating the finding of drugs within the prison estate on *(a)* inmates, *(b)* prison governors, *(c)* prison officers, *(d)* other prison staff and *(e)* visitors. [48424]

Fiona Mactaggart: Arrangements are in place setting when prisons are to contact the police to investigate serious crime including drug-related offences. Police must be contacted if visitors or staff are found to be in possession of classified drugs. In cases where governors believe that referral to the police is not appropriate, it must be considered and agreed by the Director General.

Mr. Llwyd: To ask the Secretary of State for the Home Department whether future market testing of public prisons will be evaluated on *(a)* cost and *(b)* delivery against the existing performance of public sector prisons. [58505]

Fiona Mactaggart: No decisions have been made yet as to future market testing of public sector prisons.

Philip Davies: To ask the Secretary of State for the Home Department pursuant to the Answer of 7 March 2006, *Official Report*, column 1318W, on prisoners, what crimes prisoners have been convicted of who have Sky TV in their cells; and how many have been sentenced to life in prison. [58643]

Fiona Mactaggart: This information could only be provided at disproportionate cost.

Probation Service

Mr. Amess: To ask the Secretary of State for the Home Department how many letters of complaint he has received concerning the Probation Service in *(a)* England, *(b)* Essex and *(c)* Southend in each of the last five years. [46398]

Fiona Mactaggart *[holding answer 30 January 2006]*: The table shows the number of complaints received by the Prison and Probation Ombudsman for England and Wales and Essex since 1 September 2001, the date on which the NPS complaints procedure and the Ombudsman's responsibility for investigating complaints about the probation service were implemented. We do not hold records relating specifically to Southend.

Table 1: Number of complaints made by offenders or their representatives about the Probation Service for England and Wales and Essex, received by the Prison and Probation Ombudsman since 1 September 2001

	Total number received	Total number received—Essex	Total number eligible	Total number eligible—Essex
September 2001 to March 2002	83	3	5	0
April 2002 to March 2003	191	5	31	1
April 2003 to March 2004	279	9	28	3
April 2004 to March 2005	307	5	41	0

The Number Eligible column shows the number of complaints out of all those received, that have been eligible for the Ombudsman to investigate. The Ombudsman's terms of reference (and the NPS complaint procedure) require that all three stages of the complaint procedure must have been completed before the Ombudsman may investigate a complaint. The three stages are: informal investigation by the local office, formal investigation by the Chief Officer or a senior officer nominated by the CO, and finally the appeal stage when a panel of three Board members hears the appeal. The Ombudsman may accept complaints that are referred to him within one month of the complainant receiving the result of the Appeal.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department what representations he has received on the future of the probation service from the United States corrections industry. [57188]

Fiona Mactaggart: We received a number of responses from the public and private sector to the consultation document "Restructuring Probation to reduce re-offending", including one response from the American Probation and Parole Association. The Government's response will be published in due course.

In addition to the formal consultation process, there are a number of established forums through which the National Offender Management Service (NOMS) engages with NOMS service providers from the public, private and voluntary sectors. Through these contacts, some expressions of interest in providing future NOMS services have been received from providers of all sectors. However these indications have been informal and non-specific in nature. In due course a more formal process will be undertaken in accordance with European Union procurement rules.

Security Industry

Mrs. Dorries: To ask the Secretary of State for the Home Department what progress has been made in ensuring all employees in the security industry receive new Security Industry Authority identity cards prior to the 20 March 2006 deadline; and if he will make a statement. [54916]

Paul Goggins: From 20 March, contracted manned guards will be required to be licensed to carry out licensable activities. As at 8 March, 77,895 applications had been submitted by the manned guarding sector to the Security Industry Authority (SIA) and 37,333 had received a licence, with a further 12,244 waiting to go on the system. The SIA are currently issuing around 275 licences per day to manned guards.

To address the backlog of licence applications caused by late applications, the SIA has doubled its processing capacity, and has worked closely with companies to reduce applicant error rates.

Mr. Dismore: To ask the Secretary of State for the Home Department if he will suspend the operational date of 20 March for the new licensing regime for security staff to take account of the backlog of applications not yet processed. [55179]

Paul Goggins *[holding answer 2 March 2006]:* The date of implementation of 20 March 2006 was agreed after consultation with the industry and has been publicised for the last two years. I have made clear on a number of occasions that this date will not be moved.

Mr. Dismore: To ask the Secretary of State for the Home Department if he will revise the Security Industry Authority licensing procedure to make it more user-friendly to applicants; and if he will make a statement. [55180]

Paul Goggins *[holding answer 2 March 2006]:* Operational responsibility for licensing the private security industry lies with the Security Industry Authority (SIA), and it is for them to decide whether and how they might amend the application procedure. The application form is required to capture, as a minimum, details of training, criminality, identity and mental health. The SIA have worked very closely with the industry to identify ways to reduce the rejection rate, and this has resulted in a drop in the rate from 50 per cent. in January 2006 to around 20 per cent. currently.

Mr. Dismore: To ask the Secretary of State for the Home Department when shopping centres were notified by the Security Industry Authority that the new licensing regime applied to them; and if he will make a statement. [55181]

Paul Goggins *[holding answer 2 March 2006]:* The principal responsibility for communicating with buyers of security rests with their supplier, and this has been clear for two years. The Security Industry Authority has in place a comprehensive marketing and communications strategy aimed at suppliers, and supports them by communicating as much as possible with individual companies and the public sector. The aim is to ensure that all individuals and companies who provide security services (including under contract to shopping centres) are aware of their responsibilities and obligations under the Private Security Industry Act 2001.

Mr. Dismore: To ask the Secretary of State for the Home Department what arrangements are in place to enable previous residents of Somalia to satisfy the Security Industry Authority of their lack of a criminal record when applying for a licence to take account of the lack of Government functions in their country; and if he will make a statement. [55233]

Paul Goggins: The Security Industry Authority have systems in place to assist applicants who are required to provide Overseas Criminality Checks (OCC's). This includes alternative arrangements for those individuals from areas where the administration has collapsed to a point where there are no credible official sources of information, where authorities choose not to disclose

records or where there is a risk to the personal safety of an applicant if they make contact with their country of residence.

Mr. Don Foster: To ask the Secretary of State for the Home Department how many applications for door supervisor licences were submitted to the Security Industry Authority in each month since January 2005; and if he will make a statement. [52144]

Paul Goggins: Please see the following table:

Number of door supervisor applications

	Month	*Cumulative*
2004	18,334	18,334
January 2005	2,609	20,943
February 2005	3,225	24,168
March 2005	3,553	27,721
April 2005	3,958	31,679
May 2005	2,531	34,210
June 2005	2,327	36,537
July 2005	1,819	38,356
August 2005	1,711	40,067
September 2005	1,924	41,991
October 2005	1,891	43,882
November 2005	2,448	46,330
December 2005	1,386	47,716
January 2006	1,000	48,716
February 2006	2,129	50,845

Self-Harm (Prisons)

Mr. Bellingham: To ask the Secretary of State for the Home Department what estimate he has made of the number of serial self-harmers in the prison estate; and if he will make a statement. [57771]

Fiona Mactaggart: Relatively few prisoners, the vast majority of whom are female, account for most self-harm incidents across the prison estate. In 2005, 50 prisoners (1 per cent. of individuals responsible for self-harm incidents) accounted for about 25 per cent. of all reported self-harm incidents; 260 prisoners (5 per cent.) accounted for about 50 per cent. The average number of self-harm incidents per individual who has self-harmed is currently about four per year but 23 prisoners had more than 100 recorded incidents.

A broad, integrated and evidence-based prisoner suicide prevention and self-harm management strategy is in place. The strategy can be summarised as, 'Reducing distress and promoting the well being of all who live and work in prisons.' It operates by embedding 'safer custody' as a current through every area of prison life—including detoxification, healthcare, staff training, and the built environment. The key intervention currently being introduced across public and private prisons is the new care-planning system for at-risk prisoners: Assessment, Care in Custody and Teamwork (ACCT). ACCT aims to improve the quality of care by introducing flexible care-planning that is prisoner-centred, supported by improved staff training in assessing and understanding at-risk prisoners.

Comprehensive electronic guidance to staff on managing people who self-harm has been issued; this was developed in close partnership with the Department of Health and the National Institute for Mental Health in England (NIMHE) and aims to be of use to all those working with people who self-harm within a secure environment.

The Prison Service has set up a network of establishments to develop interventions, facilitate evaluation and share good practice around managing prisoners who self-harm. An information leaflet about managing self-harm written by a prisoner for prisoners includes information on how to manage self-injury and how to get help within the prison context. Touch screen technology is being developed in prisons to inform prisoners of where to obtain support and how to support other prisoners.

World Cup

Mr. Hands: To ask the Secretary of State for the Home Department whether he plans to introduce new legislative measures to combat potential hooliganism from English fans at this year's football World Cup. [56341]

Paul Goggins: Refinements to existing football disorder legislation are included in the Violent Crime Reduction Bill. These measures are not essential to our plans for preventing banning order subjects and other risk fans from leaving England and Wales during the World Cup or for minimising the risk of disorder among England fans during the tournament.

Young Offender Institutions

Dr. Vis: To ask the Secretary of State for the Home Department whether new guidelines will be developed for young offender institutions following the guidance from the National Institute for Health and Clinical Excellence on the treatment of children with mental health problems. [56698]

Fiona Mactaggart: The Youth Justice Board works closely with the Department of Health on the provision of health care to young people in custody. They will be considering whether specific additional guidance should be given on this issue.

HEALTH

Agenda for Change Programme

Mr. Stewart Jackson: To ask the Secretary of State for Health what assessment she has made of the effects of the Agenda for Change programme on each grade of NHS staff in the Norfolk, Suffolk and Cambridgeshire Strategic Health Authority. [55735]

Ms Rosie Winterton: The responsibility for the agenda for change programme and its effects on national health service staff lies with the local NHS.

All NHS organisations within the Norfolk Suffolk and Cambridgeshire Strategic Health Authority area have worked in a collaborative way throughout the implementation phase of agenda for change and are continuing this way of working post implementation to ensure that the development of the new pay system, consistency of application and interpretation is maintained and that benefits are realised.

Art Acquisitions

Mr. Spring: To ask the Secretary of State for Health how much was spent on works of art by NHS organisations in Suffolk in each of the past five years. [56360]

Ms Rosie Winterton: Data are not collected centrally on the particular purchase of works of art. However, information is provided annually by National Health Service trusts on the amount invested in arts and art projects including labour, material and resources received from other organisations. This information was first collected in 2002–03 and information covering these returns for 2002–03 through to 2004–05 is shown in the table.

NHS trust investment in art and art projects

£000

Trust name	2002–03	2003–04	2004–05
Suffolk West Primary Care Trust (PCT)	0	0	0
Central Suffolk PCT	0	0	0
Suffolk Coast PCT	0	0	0
Waveney PCT	0	0	0
Ipswich PCT	0	0	0
Ipswich Hospital NHS Trust	0	0	6,712
West Suffolk Hospitals NHS Trust	10,000	0	0
Suffolk Mental Health Partnership Trust	0	0	0

The data provided have not been amended centrally and the accuracy of these data are the responsibility of the provider organisation. Data for 2002–03 and 2003–04 were provided as part of a mandatory data set. The information for 2004–05 was provided by trusts on a voluntary basis as part of the initiative to reduce bureaucracy in the NHS.

Body Mass Index

Steve Webb: To ask the Secretary of State for Health what is the most recent estimate of the average body mass index in *(a)* England, *(b)* each region and *(c)* each strategic health authority. [53839]

Caroline Flint: The most recent data on the mean body mass index (BMI) in England is from the 'Health Survey for England 2004—updating of trend tables to include 2004 data' report. This shows the mean BMI to be 27.1 for men and 26.8 for women in 2004 (weighted figures).

The tables provides the age standardised mean BMI for England in each Government office region and strategic health authorities between 1994 and 2002. The results from the tables are taken from the 'Health Survey for England: Health and lifestyles indicators for Strategic Health Authorities 1994–2002' report. The data shows BMI as a three-year moving average, with the latest data available in this format being 2000–02.

Age standardised mean body mass index (BMI), by year (three-year moving average)

Carers

Mr. Jenkins: To ask the Secretary of State for Health what estimate she has made of the number of people in *(a)* Staffordshire and *(b)* the Tamworth constituency who are *(a)* paid and *(b)* unpaid carers for relatives. [58098]

Ms Rosie Winterton: The information requested on paid carers is not held centrally. The number of unpaid carers as identified in the 2001 census in Staffordshire and Tamworth are available on the Office for National Statistics website at: www.statistics.gov.uk/census2001/profiles/rank/rank_health.asp

Chlamydia

Dr. Stoate: To ask the Secretary of State for Health (1) how many *(a)* people and *(b)* men were tested for Chlamydia by each local National Chlamydia Screening programme area in (i) 2004–05 and (ii) 2003–04; [50681]

(2) what assessment she has made of the extent to which the National Chlamydia Screening programme successfully targets men. [50682]

Caroline Flint: The information requested is shown in the table.

The national chlamydia screening programme provides opportunistic screening for genital chlamydia infection and is offered to all sexually active women and men aged between 16 and 24-years-old attending a variety of health and non health care settings in England.

We have rolled out the screening programme successfully to 25 per cent. of primary care trusts and we expect to see screening begin in most areas in April 2006. This is well ahead of the 2007 target.

The number of programme areas, screening venues and screening tests have increased over time. By the end of the second year, 26 programme areas were in operation and screening occurred in 21 different settings, comprising 872 different venues. Men accounted for 12 per cent. of the total screened. However, provisional data suggest that to December 2005 this figure has increased to 17 per cent.

Men have been screened in a variety of non-traditional settings including universities, military bases, prisons, youth offending institutions, work places, pharmacies, the voluntary sector and postal kits as well as through e-mail. Screening has also taken place in traditional health care settings such as general practice, contraceptive and young people's clinics.

Number of screens in under 25-year-olds outside genitourinary medicine clinics by sex, programme area and year, April 2003 to March 2005

			April 2003 to March 2004			April 2004 to March 2005

Total			1,217	16,176	17,393	7,935	55,336	63,271

Notes:
1. LSL is Lambeth, Southwark and Lewisham
2. The national chlamydia screening programme has currently been rolled out to 26 programme areas (10 areas came on board between April 2003 and March 2004)

Colon Cancer

Mr. Clappison: To ask the Secretary of State for Health pursuant to the Answer of 15 February 2006, *Official Report*, column 2110W, on colon cancer, when the bowel screening programme as described in paragraph 4.64 of the Health White Paper, 'Our Health, Our Care, Our Say', will be fully operational; what the timetable is for the implementation of this programme from April 2006; what proportion of the population aged 58 to 69 years will have a test made available to them; what plans she has to extend the programme to people aged 50 to 58 years; and how many screening centres are to be established to support the programme. [56552]

Ms Rosie Winterton: The Government have stated their commitment to a national bowel cancer screening programme. On 30 January 2006, the new Health White Paper, 'Our health, our care, our say: a new direction for community services' reaffirmed that the programme will be rolled out from April 2006. Departmental budgets for 2006-07 are currently under consideration by Ministers, and resolution is expected by the end of March 2006.

Coronary Heart Disease

Mr. Hancock: To ask the Secretary of State for Health what her strategy is for *(a)* implementing and

(b) monitoring chapter eight of the National Service Framework for Coronary Heart Disease; and if she will make a statement. [55534]

Ms Rosie Winterton: Responsibility for implementing chapter eight of the Coronary Heart Disease National Service Framework (CHD NSF) lies with local national health service service commissioners and providers. "Shifting the Balance of Power" has seen money, control and responsibility pass to local health services so that the communities they serve have greater influence over the way local resources are spent and the way local services are run. This will allow greater scope for locally determined targets and priorities to be matched to local needs. The Department is working with local service providers, commissioners and other key stakeholders to support the NHS in implementing chapter eight.

For successful delivery, there will need to be effective health commissioning through local delivery planning processes, monitored and accountable through primary care trusts and strategic health authorities.

Dentistry

Hugh Bayley: To ask the Secretary of State for Health what the average remuneration per full-time equivalent NHS general dental practitioner in York and Selby was in *(a)* cash and *(b)* real terms (i) in each of the last five years and (ii) at the latest date for which figures are available. [56658]

Ms Rosie Winterton: Average remuneration per full-time equivalent national health service general dental practitioner in the York and Selby Primary Care Trust area alone is not identifiable from data available centrally.

All estimated average annual net incomes, between the financial years 1999–2000 and 2004–05, of general dental service (GDS) dentists with a reasonable commitment to the GDS are shown in the table.

Estimated average GDS net income for dentists with a reasonable GDS commitment[1], 1997–98 to 2004–05, England and Wales

£

Financial year	Estimated average net income (cash terms)	Estimated average net income (real term: 2004–05 prices)
1999–2000	55,700	62,500
2000–01[2]	[3]59,200	[3]65,600
2001–02	60,500	65,400
2002–03	63,300	66,400
2003–04	66,700	68,100
2004–05	70,000	70,000

[1] Dentists with a reasonable commitment to the GDS are defined as dentists with GDS earnings equivalent to at least £40,000 in 1993–94 in fees for treatments and patient capitation. This equivalent is calculated each year by adjusting figures to take into account the effect of fee increases. The equivalent figure for 2004–05 is £59,100.

[2] Commitment payments started in 2001.

[3] Figures since 2000–01 use a different methodology to calculate the contribution from other non- fee/capitation payments.

Note:

Figures converted into real terms using GDP deflator at market prices. Department of Health and NHS Health and Social Care Information Centre analysis of Dental Practice Board payments and HMRC tax data.

Source:

Department of Health and NHS Health and Social Care Information Centre analysis of Dental Practice Board payments and HMRC tax data.

The income figures cover both estimated fees for treatments and patient capitation as well as other estimated payments such as seniority payments and commitment payments and payments for maternity and sickness.

Hugh Bayley: To ask the Secretary of State for Health how much was spent on NHS general dental services in York and Selby in *(a)* cash and *(b)* real terms in each of the last five years. [56659]

Ms Rosie Winterton: Primary dental care services are mainly provided by dentists working within the general dental service (CDS), or personal dental service (PDS) pilots. The CDS is currently a non discretionary service funded from a national budget where expenditure is mainly determined by the volume of national health service work that dentists choose to undertake, rather than by local budget allocations assigned to individual primary care trusts (PCTs). Data on the level of expenditure within the area of the York and Selby PCT, drawn from payments data obtained from the Dental Practice Board, is shown in the tables.

The level of expenditure on community dental services is decided at local level by PCTs.

CDS and PDS dental payments within York and Selby PCT (£ million, cash terms)

	Gross GDS and PDS payments[1,2,3]	Net GDS and PDS payments[4]
2000–01	8.266	5.134
2001–02	8.998	5.715
2002–03	9.520	5.947
2003–04	9.879	6.359
2004–05	10.089	7.050

[1] Gross GDS payments include adult fees (including item of service and continuing care payments), child fees (including item of service and capitation payments), commitment payments and point of treatment check payment training (in 2001 only), seniority payments, maternity/paternity/adoptive leave payments, long term sick leave payments, continuing professional development allowances including travel hours, reimbursement of business rates, vocational training grants, vocational trainee salaries and national insurance contribution costs, clinical audit convenors, clinical audit payments, clinical audit secretarial support and travel expenses. Employer's superannuation costs are excluded.

[2] PDS payment data are included for 2004–05 only and relate to baseline payments or the agreed regular monthly payments made to PDS practices. Reliable PDS data at practice level are not available prior to 2004–05.

[3] Payments are assigned to PCT area on the basis of practice postcode data.

[4] Net payments represent the balance of payments due after taking account of NHS dental charge income collected from patients by dental practices.

CDS and PDS dental payments within York and Selby PCT (£ million, 2004–05 prices[1])

	Gross GDS and PDS payments[2,3,4]	Net GDS and PDS payments[3]
2000–01	8.266	5.134
2001–02	8.998	5.715
2002–03	9.520	5.947
2003–04	9.879	6.359
2004–05	10.089	7.050

[1] Figures have been converted into real terms using 2004–05 gross domestic product deflators, that is, 2004–05 = 100.
[2] Gross GDS payments include adult fees (including item of service and continuing care payments), child fees (including item of service and capitation payments), commitment payments and point of treatment check payment training (in 2001 only), seniority payments, maternity/paternity/adoptive leave payments, long term sick leave payments, continuing professional development allowances including travel hours, reimbursement of business rates, vocational training grants, vocational trainee salaries and national insurance contribution costs, clinical audit convenors, clinical audit payments, clinical audit secretarial support and travel expenses. Employer's superannuation costs are excluded.
[3] PDS payment data are included for 2004–05 only and relates to baseline payments or the agreed regular monthly payments made to PDS practices. Reliable PDS data at practice level are not available prior to 2004–05.
[4] Payments are assigned to PCT area on the basis of practice postcode data.
[5] Net payments represent the balance of payments due after taking account of NHS dental charge income collected from patients by dental practices.

Hugh Bayley: To ask the Secretary of State for Health how many full-time equivalent NHS general dental practitioners there are in York; and how many there were in each of the previous five years. [56660]

Ms Rosie Winterton: I refer my hon. Friend to the reply given on Wednesday 8 March 2006, *Official Report*, column 1613W.

Mr. Ellwood: To ask the Secretary of State for Health how many NHS dentists, excluding principals, assistants and trainees, worked for the Bournemouth primary care trust in each year since 1997. [57123]

Ms Rosie Winterton: Dentists consist of principals, assistants and trainees. The number of national health service dentists within Bournemouth teaching primary care trust (PCT) as at September each year is shown in the table.

Bournemouth teaching PCT

	Number
1997	64
1998	73
1999	75
2000	73
2001	72
2002	76
2003	71
2004	70
2005	74

Notes:
1. Data includes all notifications of dentists joining or leaving the CDS or PDS, received by the Dental Practice Board, up to 19 October 2005. Figures for the numbers of dentists at specified dates may vary depending upon the notification period, for example, data with a later notification period will include more recent notifications of dentists joining or leaving the GDS or PDS.
2. Dentists consist of principals, assistants and trainees. Prison contracts have been excluded from the data.
3. The postcode of the dental practice was used to allocate dentists to specific geographic areas. PCT areas have been defined using the Office for National Statistics all fields postcode directory.
4. Figures have been provided by the NHS Health and Social Care Information Centre. The data source is the Dental Practice Board and the figures are based on the numbers of dentists with open GDS or PDS contracts.
5. A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the PCT. The Dental Practice Board has no information concerning the amount of time dedicated to NHS work by individual dentists.
6. Data on dentists that work only in private practice are not held centrally.
Source:
Dental Practice Board

Geraldine Smith: To ask the Secretary of State for Health what the average salary of an NHS dentist was in the last year for which figures are available. [44655]

Ms Rosie Winterton: Most dentists who provide national health service primary dental care services are not paid on a salaried basis, but through a system of NHS fees and other payments that go towards the costs of running a dental practice as well as the dentist's net income.

The historical estimates of average earnings and expenses for dentists are calculated by the NHS Health and Social Care Information Centre, based on data on gross fees and payments from the Dental Practice Board (DPB) and data from HM Revenue and Customs on expenses.

DPB payment data show that on average, a dentist with a reasonable NHS commitment in 2004–05 in the general dental services (GDS) received gross GDS income of about £154,350. Dentists with a reasonable commitment are defined as those with gross fee earnings of £59,100 or more. These averages covered some 7,640 GDS principal dentists who worked throughout the year 2004–05.

HM Revenue and Customs information from dentists' tax returns show that the average ratio of expenses to gross earnings for a highly committed NHS dentist is around 52 per cent. (2003–04 tax year). The same source gives average net income of a highly committed NHS dentist from all sources as £78,600 in the tax year 2003–04. This information is taken from the tax returns of 392 CDS principal dentists who were in non-associate business arrangements for whom the tax year ended between January and March 2004.

Based on the data from these sources, the Department estimates that a highly committed NHS dentist earns an average income of around £80,000 in 2005–06.

Bob Spink: To ask the Secretary of State for Health how many representations she has received on the proposed changes to the NHS dental contract. [54784]

Ms Rosie Winterton: The Department does not keep data on the precise number of representations received on a specific issue. However, we have received a number of letters, e-mails and telephone calls from stakeholder organisations and from individual dentists about the new contractual arrangements.

We published the draft contract regulations in August 2005 specifically to invite comment and a number of organisations and individual dentists took this opportunity to put forward their views.

Mr. Davey: To ask the Secretary of State for Health what recent representations she has received on the new NHS dentistry contract; and if she will make a statement. [55846]

Ms Rosie Winterton: The Department has received a number of representations from stakeholder organisations and from individual dentists about the new contractual arrangements.

The British Dental Association (BDA) has made recent representations about the contractual requirement for dentists to carry out an agreed number of (weighted) courses of treatment or units of dental activity, in return for their guaranteed annual contract value.

The Department has indicated to the BDA that we regard the new contracts as offering a good deal for dentists. They will have a guaranteed annual contract value based on their current national health service earnings, which give an average net income of £80,000 per year for a committed NHS dentist, for at least 5 per cent. fewer (weighted) courses of treatment compared with the current general dental services system. The Department has expressed concern that the BDA appears to be overlooking the evidence of the personal dental services pilots, which have shown that abolishing the fee-per-item remuneration system, also supports dentists in carrying out simple courses of treatment, with more time available for preventative work.

Miss McIntosh: To ask the Secretary of State for Health how many dentists have signed up to the new NHS dentistry contract in North Yorkshire. [57415]

Ms Rosie Winterton: The information is not available centrally. The new dental contract will be introduced on 1 April 2006.

David Davis: To ask the Secretary of State for Health how many NHS dentists there have been in Haltemprice and Howden constituency in each of the last 10 years. [57860]

Ms Rosie Winterton: The information requested is shown in the table.

General dental services (GDS) and personal dental services (PDS): Number of national health service dentists in Haltemprice and Howden parliamentary constituency as at 30 September each year

	Number
1997	18
1998	18
1999	17
2000	18
2001	21
2002	23
2003	26
2004	28
2005	31

Notes:
1. Data include all notifications of dentists joining or leaving the GDS or PDS, received by the Dental Practice Board, up to 19 October 2005. Figures for the numbers of dentists at specified dates may vary depending upon the notification period, e.g. data with a later notification period will include more recent notifications of dentists joining or leaving the GDS or PDS.
2. Dentists consist of principals, assistants and trainees. Prison contracts have been excluded from the data.
3. The postcode of the dental practice was used to allocate dentists to specific geographic areas. Constituency areas have been defined using the Office for National Statistics all fields postcode directory.

Diabetes

Mr. Dunne: To ask the Secretary of State for Health how many people have been diagnosed with diabetes *(a)* in the area served by Shropshire County primary care trust and *(b)* in each constituency in Shropshire in each of the last five years. [56919]

Ms Rosie Winterton: The figures are not available in the format requested. The table shows the number of people identified by practices as having diabetes. Data from before December 2004 are not available.

Number

Primary care trust (PCT)	*December 2005*	*December 2004*
Shropshire County PCT	10,927	9,345
Telford and Wrekin PCT	6,199	5,458
Total	17,126	14,803

Mr. Lancaster: To ask the Secretary of State for Health how many diabetic nurses are employed by Milton Keynes primary care trust. [54879]

Ms Rosie Winterton: This information is not collected centrally.

The latest census does not separately identify diabetic nurses from the rest of the nursing work force.

Digital Hearing Aids

Mr. Stewart Jackson: To ask the Secretary of State for Health what assessment she has made of the waiting lists for fitting of new digital hearing aids at the audiology department of Peterborough and Stamford Hospitals Foundation NHS Trust; and if she will make a statement. [49289]

Ms Rosie Winterton: The modernising hearing aid services (MHAS) programme run by the Royal National Institute for the Deaf on behalf of the Department has achieved its target for all 164 national health service audiology services to be routinely fitting digital hearing aids by April 2005.

Information relating to waiting times for digital hearing aids at the Peterborough and Stamford Hospitals is a matter for the chair of the Peterborough and Stamford Hospitals NHS Foundation Trust. I have written to Clive Morton informing him of the hon. Member's inquiry. He will reply shortly and a copy of the letter will be placed in the Library. I am informed by the chairman of Monitor, the statutory name for which is the independent regulator of NHS Foundation Trusts, that the trust has made good progress during 2005–06 in addressing the financial deficit which it incurred in 2004–05.

Drug Rehabilitation (Cambridgeshire)

Mr. Stewart Jackson: To ask the Secretary of State for Health how many residential drug rehabilitation places were available in Cambridgeshire in each of the last five years; and if she will make a statement. [54821]

Ms Rosie Winterton: According to the national treatment agency's (NTA) directory of residential services there are no residential drug rehabilitation places in Cambridgeshire. There is a distinction between residential drug rehabilitation places available in an area

and the residential treatment available to the population of that area. Placements are calculated, therefore, by the number of residential placements commissioned by an area's drug action team (DAT) or local social services authority. Figures for Cambridgeshire DAT are shown in the table[1].

[1] The data were first collected from the local DAT as part of the national drug treatment monitoring system for 2003–04.

	Number of placements (actual)
2003–04	12
2004–05	30
2005–06	282

[1] To end of 2005.

Electroconvulsive Therapy

Mr. Amess: To ask the Secretary of State for Health (1) what legislation covers the administration of electroconvulsive therapy in hospitals in England and Wales; and if she will make a statement; [57599]

(2) if she will bring forward legislation to ensure that valid consent is obtained where an individual has the ability to grant or refuse consent to the use of electroconvulsive therapy; and if she will make a statement. [57600]

Ms Rosie Winterton: The Mental Health Act 1983 sets out the circumstances in which people with a mental disorder who are being treated compulsorily under that act may receive electroconvulsive therapy (ECT). The act allows ECT to be given to patients who are under compulsory powers when a patient with capacity consents or if the patient's doctor prescribes it and a second opinion appointed doctor agrees to it. The Government are planning to introduce new mental health legislation as soon as parliamentary time allows.

Health Services (Shropshire/Staffordshire)

Mr. Jenkins: To ask the Secretary of State for Health how many successful clinical negligence claims were made against hospitals trusts under the Shropshire and Staffordshire strategic health authority area in 2004–05. [58102]

Ms Rosie Winterton: There were 19 successful clinical negligence claims made against hospital trusts in the Shropshire and Staffordshire strategic health authority in 2004–05.

Mr. Jenkins: To ask the Secretary of State for Health if she will list the clinical negligence payments made by hospitals trusts under the Shropshire and Staffordshire strategic health authority area in 2004–05. [58103]

Ms Rosie Winterton: The information requested on the clinical negligence payments made by the NHS Litigation Authority (NHSLA) on behalf of hospital trusts within the Shropshire and Staffordshire strategic health authority (SHA) in 2004–05 is shown in the following table.

Clinical negligence payments made by the NHSLA in 2004–05 for all claims against trusts in Shropshire and Staffordshire SHA

£

Member name	Total paid
Burton Hospitals National Health Service Trust	335,088
Mid Staffordshire General Hospitals NHS Trust	652,418
North Staffordshire Combined Healthcare NHS Trust	106,764
Robert Jones and Agnes Hunt Orthopaedic and District Hospital NHS Trust	81,258
Shrewsbury and Telford Hospital NHS Trust	951,905
South Staffordshire Healthcare NHS Trust	33,420
Staffordshire Ambulance Service NHS Trust	0
University Hospital of North Staffordshire NHS Trust	3,515,590

Note:
The data apply to all payments made by NHSLA in 2004–05 regardless of the year of claim.

Hip Replacement (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for Health what the average waiting time for a hip replacement was in the Greater Peterborough primary care partnership area in each of the last five years. [54818]

Ms Rosie Winterton: The information requested is shown in the following table.

Mean and median time waited in days based on elective finished admission episodes (waiting list and booked cases) for hip replacement surgery in North Peterborough and South Peterborough primary care trusts. National health service hospitals, England 2004–05

	Median waiting time (days)
2000–01	259
2001–02	191
2002–03	237
2003–04	211
2004–05	194

Notes:
1. Finished admission episodes:
A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Main operation:
The main operation is the first recorded operation in the hospital episodes statistics (HES) data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, for example time waited, but the figures for all operations count of episodes give a more complete count of episodes with an operation.
3. Time waited (days):
Time waited statistics from HES are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.
4. Ungrossed data:
Figures have not been adjusted for shortfalls in data, that is, the data is ungrossed.
Source:
Hospital Episode Statistics (HES), Health and Social Care Information Centre

Independent Complaints and Advocacy Service

Lynne Jones: To ask the Secretary of State for Health what estimate her Department has made of the start-up

costs of a new provider of the independent complaints and advocacy service in the West Midlands complying with the required model of delivery. [49253]

Ms Rosie Winterton: As part of the tender process the Department required the tenderers to submit details of estimated start-up costs to cover staff transfers from the current service providers, additional recruitment if required, training and development, premises, information technology, transfer of records and any other costs that might be necessarily incurred. For budgetary purposes only, we considered the costs provided to confirm that they were realistic. However, only actual costs incurred will be reimbursed to the service providers. In the case of the West Midlands the estimated set-up costs are 3.5 per cent. of the total five-year contract cost for that region.

Kidney Transplants

Mr. Drew: To ask the Secretary of State for Health how many people in each *(a)* primary care trust area and *(b)* acute trust area are waiting for a kidney transplant. [55364]

Ms Rosie Winterton: This information is not routinely available by primary care trust nor by acute trust area. The number registered[1] for a kidney[2] transplant at 18 February 2006 in the United Kingdom by strategic health authority is shown in the table.

[1] Active and suspended—suspended means the patient has been temporarily removed from the list.

[2] Includes kidney/pancreas.

Strategic health authority	*Number*
Avon, Gloucestershire and Wiltshire	183
Bedfordshire and Hertfordshire	148
Birmingham and the Black Country	356
Channel Islands	14

Mental Health

Tim Loughton: To ask the Secretary of State for Health (1) pursuant to the answer of 23 November 2005, *Official Report*, column 2115W, what estimate she has made of the proportion of those who attended the series of roadshows after the pre-legislative scrutiny of the draft Mental Health Bill who were black and minority ethnic users of mental health services; and how many people attended in total; [47466]

(2) what steps her Department is taking to redraft the draft Mental Health Bill following consultation with black and minority ethnic groups. [47785]

Ms Rosie Winterton: In recent months, we have consulted widely with black and minority ethnic groups as part of the race equality impact assessment. Consultation will continue as part of the process of developing a Mental Health Bill. Approximately 180 people attended the consultation road shows held in November. Of these, one third were service users, mainly from a black and minority ethnic background. Carers from a black and minority ethnic background also attended the meeting, as well as mental health professionals and voluntary organisations representing black and minority ethnic service users and carers.

Officials are discussing options for further REIA consultation with members of the black and minority ethnic health network. The timetable for consultation has been amended to enable further consultation. The race equality impact assessment will be published alongside the bill when it is introduced into Parliament.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 10 January 2006 to the hon. Member for North-West Leicestershire (David Taylor), *Official Report*, column 590W, on the Mental Health Bill, what the structure of the further consultation on the Bill will be; whether it will take the form of a formal consultation; what the duration of the consultation will be; and whether it is her intention to introduce a Mental Health Bill in this session of Parliament. [43636]

Ms Rosie Winterton: We have agreed to extend the consultation which will contribute to the racial equality impact assessment (REIA) on the Mental Health Bill. Consultation is an on-going process and we are currently considering the next steps. Departmental officials are discussing options for further REIA consultation with members of the black and minority ethnic health network and have agreed to amend the timetable for consultation. We intend to introduce a Mental Health Bill into Parliament this session. The race equality impact assessment will be published alongside the Bill when it is introduced in Parliament.

Methylphenidate

Tim Loughton: To ask the Secretary of State for Health how many prescriptions for methylphenidate were written in each of the last five years, broken down by type of methylphenidate. [57234]

Jane Kennedy: It is not known how many prescriptions for methylphenidate drugs have been

written. However, the table shows the total number of national health service prescription items that were written and dispensed in the community in England for the different products of methylphenidate prescribed, including generic versions, in each of the last five years where data are available.

Number of prescription items of Methylphenidate Hydrochloride dispensed in the community in England 2000 to 2004

Thousand

Product name	*2000*	*2001*	*2002*	*2003*	*2004*
Concerta	[1]—	0.1	44.6	134.9	189.2

Prescription cost analysis system, Prescription Pricing Authority.

Detailed information on the number of prescriptions of Methylphenidate at individual preparation level is available from the Department's website at www.dh.gov.uk.

Ministerial Meetings

Mr. Crabb: To ask the Secretary of State for Health (1) when she last met with the Health Ministers in *(a)* the Welsh Assembly Government and *(b)* the Scottish Executive; [58527]

(2) how many times she has met the health ministers in the *(a)* Welsh Assembly Government and *(b)* Scottish Executive since her appointment. [58536]

Mr. Byrne: The Secretary of State for Health has met with the Health Minister for the Scottish Executive once in October 2005. She has yet to meet with the Health Minister for the Welsh Assembly Government.

The Secretary of State and the Department are in regular correspondence with the Scottish Executive and the Welsh Assembly.

Ministerial Travel

Mr. Robathan: To ask the Secretary of State for Health what factors she took into account on 9 March when deciding to take her official car from her Department in Richmond Terrace to Number 10 Downing street. [58694]

Mr. Byrne: The Secretary of State's journey on 9 March to No. 10 Downing street originated at her home.

MRSA

Daniel Kawczynski: To ask the Secretary of State for Health if she will provide additional funding to the Royal Shrewsbury Hospital to tackle MRSA. [56504]

Ms Rosie Winterton: Maintaining hospital hygiene is part of an everyday baseline of activity carried out across the national health service. Against a background of above-inflation levels of investment in this area, all NHS trusts are expected to implement a range of improvements in healthcare, including successful pursuit of trust-based targets for reducing *methicillin resistant staphylococcus aureus* (MRSA) infection. Therefore, there are no plans to provide additional funding for the Royal Shrewsbury Hospital to tackle MRSA.

We continue to monitor individual trust performance and have set up an MRSA improvement programme, funded by the Department, with specialist teams providing tailored support for trusts. This work will reinforce those mutually reinforcing initiatives already in place throughout the NHS. Selection for participation in the programme will depend on a trust's progress towards the MRSA target and other factors.

Neuroblastoma

Mr. Lancaster: To ask the Secretary of State for Health when she will reply to questions 47415 and 47427, on neuroblastoma, tabled by the hon. Member for North-East Milton Keynes on 30 January 2006. [56939]

Ms Rosie Winterton: A reply was given to the hon. Member on Tuesday 21 February 2006, *Official Report*, column 471W.

NHS (Violence)

Dr. Kumar: To ask the Secretary of State for Health what training NHS staff are given to enable them to deal with potentially violent patients and visitors. [57045]

Ms Rosie Winterton: From April 2004, the NHS Security Management Service (NHS SMS) has made available a national syllabus for conflict resolution training (CRT) for all frontline staff and professionals working in the national health service.

This will equip NHS staff with the necessary skills to identify and de-escalate potentially violent situations from occurring. From returns made by health bodies for the last financial year, it is estimated that around 252,000 frontline NHS staff will have been trained by 31 March 2006.

The NHS SMS has also developed a specific training syllabus for staff working in mental health and learning disability settings. Work is also underway to develop a specific CRT syllabus for ambulance personnel.

Organ Donor Cards

Mrs. Moon: To ask the Secretary of State for Health what estimate she has made of the number of people carrying organ donor cards in each year between 1995 and 2005. [55523]

Ms Rosie Winterton: The first organ donor cards, initially for kidneys only, were introduced in 1971. A survey in spring 2003 revealed that 36 per cent. of the 90 per cent. of people who said they supported organ donation in principle said they had or thought they had had (at some time) a donor card.

Although the donor card is still widely available, all recent campaign work has been aimed at encouraging people to register their wishes on the NHS Organ Donor Register. Currently 13,000,558 people—22 per cent. of the United Kingdom population have registered. The Government have set the objective of encouraging 16 million people to register their wishes by 2010. The number registered on the organ donor register from 1994 is shown in the table.

	People Registered (million)
1994	0.14
1995	2.25
1996	3.49
1997	4.22
1998	4.86
1999	7.45
2000	8.01
2001	9.03
2002	10.10
2003	10.91
2004	11.95

Orthodontics

Daniel Kawczynski: To ask the Secretary of State for Health what factors were taken into account when deciding to place orthodontists' remuneration on the same basis as that of dentists under the NHS contract changes. [51920]

Ms Rosie Winterton: The Department's commitment has always been to base contract values for all dentists providing general dental services on their most recent gross earnings. 1 October 2004 to 30 September 2005 is the most recent 12-month period for which data are available.

The new arrangements for orthodontists are not identical to those for general dental practitioners. In each case, the dentist will be guaranteed an annual national health service contract value, paid in 12 monthly instalments. For general dental practitioners, the services to be provided in return are measured through units of dental activity, which correspond to three types of courses of treatment, with a weighting to reflect their relative complexity. For orthodontists, the services to be provided are measured through units of orthodontic activity, with different units to reflect care assessment and care start.

Palliative Care

Mr. Lansley: To ask the Secretary of State for Health if she will make a statement on the commitment contained within the Labour party 2005 election manifesto that investment in palliative care services will double, with particular reference to *(a)* the timescale over which this commitment will be met and *(b)* the size of the budget in the baseline year used for the purposes of the commitment; and whether the commitment will be financed from her Department's Centrally Funded Initiatives and Services and Special Allocations budget. [39347]

Ms Rosie Winterton: In the White Paper "Our health, our care, our say" the Government mapped out a strategy for how we will meet our manifesto commitment on palliative care and set out the key areas of action that we will now develop in partnership with key stakeholders. These are the establishment of end of life care networks; ensuring that all staff who work with people who are dying are properly trained to look after dying patients and their carers; investing in community-based specialist palliative care services and auditing capacity of care provision for disabled children and children with complex health needs. The strategy will be delivered over a three-year period.

In "Commissioning a Patient-Led NHS" we announced that the reconfiguration of primary care trusts (PCTs) would save at least £250 million, which would be channelled back into frontline services. The savings will be available to invest in the local health economy on the agreed Labour party manifesto priorities, including palliative care. Any change in PCT provided services needs to be made by December 2008.

Professional Misconduct

Mr. Willis: To ask the Secretary of State for Health how many health care professionals who have had complaints of *(a)* sexual misconduct and *(b)* inappropriate behaviour upheld by their professional body are in NHS employment. [48216]

Mr. Byrne: National health service employers are responsible for ensuring that their staff do not pose a threat to the safety of patients and for acting on information about the registration status of staff subject to statutory regulation.

Recombinant Factor VIII

Mr. Stephen O'Brien: To ask the Secretary of State for Health if she will list the files and information the Department holds on the supply for use in the UK of Factor VIII and blood and plasma products, including files relating to the source of such products from inmates within the Arkansas prison system, over the last 37 years; and what record she has of files and information once held which are no longer available. [49700]

Caroline Flint *[holding answer 7 February 2006]:* Officials would need to undertake lengthy enquiries to provide the information requested on files held on the supply for use in the United Kingdom of Factor VIII and blood and plasma products, including files relating to the source of such products.

During the HIV litigation many papers were recalled. We understand that papers were not adequately archived and were unfortunately destroyed in the early 1990s.

Officials have also established that documents relating to the advisory committee on the virological safety of Blood were destroyed in error between July 1994 and March 1998.

Salary Statistics

Mr. Andrew Smith: To ask the Secretary of State for Health what the average starting salary was for a newly qualified *(a)* nurse, *(b)* GP, *(c)* hospital doctor and *(d)* laboratory technician in Oxford in each of the last 10 years. [58296]

Caroline Flint: Information specifically on starting pay for nurses, general practitioners, hospital doctors and laboratory technicians by specific area is not collected centrally.

St. Bartholomew's Hospital

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the costs incurred in the private finance initiative project to redevelop St. Bartholomew's and the London NHS Trust as a result of the delay in giving final approval to the project beyond 31 January. [58607]

Jane Kennedy: Since the trust submitted their final business case, they have undertaken additional work with their private sector partners. This has resulted in the annual unitary charge the trust has to pay over the lifetime of the contract being reduced from £116.9 million per annum to £96.6 million per annum. This will save the taxpayer approximately £650 million when measured over the original concession period.

Stroke

Mr. Laurence Robertson: To ask the Secretary of State for Health what assistance her Department offers for the setting up of centres to help the survivors of strokes; and if she will make a statement. [55654]

Ms Rosie Winterton: Provision of services and support for survivors of stroke is the responsibility of local authorities and primary care trusts. Standard five of the older people's national service framework sets out the long-term support that should be provided for stroke patients including social and emotional support to minimise the loss of independence following the stroke, and help manage the consequences of stroke.

Voluntary organisations also have an invaluable role to play in providing support to stroke survivors. We are working closely with voluntary organisations, including The Stroke Association, Connect and Different Strokes, as well as a range of other stakeholders to develop a national stroke strategy. This will look at the provision of services from prevention right through to long-term support.

Trade in Organs

Mr. Drew: To ask the Secretary of State for Health what action her Department takes against those who undertake illicit trade in organs; and what advice she offers to NHS operatives on this issue. [55362]

Ms Rosie Winterton: The Human Organ Transplants Act 1989 prohibits commercial dealings in human organs intended for transplantation and any person suspected of committing an offence under the Act will be investigated. Once commenced, the Human Tissue Act 2004 will repeal and replace the Human Organ Transplants Act 1989. The Human Tissue Act 2004 prohibits commercial dealings in all human material (tissue and organs) for transplantation and a person found guilty of an offence under the Act is liable to a term of imprisonment, a fine or both.

Transplant Surgery

Mrs. Moon: To ask the Secretary of State for Health how many people were on waiting lists for transplant surgery for *(a)* heart, *(b)* liver and *(c)* kidney in each year between 1995 and 2005, broken down by region. [55522]

Ms Rosie Winterton: The following tables show the number registered (active and suspended[1]) for transplant surgery, at 31 December of each year from 1997 for heart, liver and kidney. Similar figures were not routinely collected for 1995 and 1996.

Number registered (active and suspended[1]) for a heart[2] transplant in the United Kingdom at 31 December of each year since 1997, by region[3]

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*
Northern and Yorkshire	51	62	49	61	50	53	54	42	24
Trent	51	45	42	24	5	—	—	—	—
Anglia and Oxford	46	38	37	33	26	40	33	31	33
North Thames	169	145	165	102	72	55	51	61	50
South Thames	10	15	14	6	1	—	—	—	—
North West	59	32	33	17	8	9	12	15	19
West Midlands	18	25	19	22	16	13	12	12	15
Scotland	41	36	32	—	9	5	1	5	3

[1] Suspended means the patient has been temporarily removed from the list.

[2] Includes heart/lung.

[3] Numbers are based on the region of the transplant centre where patient was registered. For heart transplants, three of these centres closed in this period, one only temporarily.

Number registered (active and suspended[1]) for a liver transplant in the UK at 31 December of each year since 1997, by region[2]

	1997	1998	1999	2000	2001	2002	2003	2004	2005
Northern and Yorkshire	29	27	38	30	24	42	46	31	47
Anglia and Oxford	13	18	22	14	9	8	40	11	20

Total	5,597	5,693	5,904	6,126	6,223	6,419	6,558	6,965	7,266

[1] Suspended means the patient has been temporarily removed from the list.
[2] Includes kidney/pancreas.
[3] Numbers are based on the region of the transplant centre where patient was registered. For heart transplants, three of these centres closed in this period, one only temporarily.

Type-2 Diabetes

Mrs. Dorries: To ask the Secretary of State for Health how many children were diagnosed as suffering from type-2 diabetes in each year since 1997; and if she will make a statement. [56148]

Ms Rosie Winterton: The figures are not available in the format requested. The table shows the number of children admitted to hospital each year where type-2 diabetes was recorded in diagnoses fields, including primary diagnoses and any of the secondary diagnoses fields.

All diagnoses count of patient for selected diagnoses—age at start of episode-under 18—national health service hospitals England, 1997–98 to 2004–05

	Patient counts
1997–98	176
1998–99	180
1999–2000	189
2000–01	196
2001–02	242
2003–04	307
2004–05	338

Notes:
1. Patient counts
Patient counts are based on the unique patient identifier hospital episodes statistics identification (HESID). This identifier is derived based on patient's date of birth, postcode, sex, local patient identifier and NHS number, using an agreed algorithm. Where data are incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patient may have episodes in more than one cell.
2. All diagnoses count of patients
These figures represent a count of all patients where the diagnosis was mentioned in any of the 14 (seven prior to 2002–03) diagnosis fields in the HES record.

Hospital Episodes Statistics. NHS Health and Social Care Information Centre

EDUCATION AND SKILLS

Adult Education

Mr. Hurd: To ask the Secretary of State for Education and Skills what the level of funding for adult education was in each London borough in each of the last five years; and what funding is estimated to be for 2005–06. [43452]

Bill Rammell: The Department does not hold figures for adult education funding at local or regional levels. The Department allocates funds for the post-16 education and training sector to the Learning and Skills Council (LSC) working through 47 local offices. Some of the information you require is available on the LSC's website. The LSC was established in 2001 bringing the planning and funding of post-16 education together under one body within a framework set by Government. Mark Haysom, the council's chief executive has written to the hon. Member and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 14 February 2006:

I write in response to your request for information from the Secretary of State for Education about the level of funding for adult education in London. I attach a breakdown of Adult Community Learning (ACL) expenditure for the academic years 2001/2 to 2004/5 and the forecast expenditure for 2005/6 by London Borough.

The LSC took over responsibility for funding ACL from April 2001 when it was established. The funding for 2001/02, the transition year, was set by the Department for Education & Skills. Data for years prior to 2001 is held by the Department.

Finally, it should be noted that this data relates to Adult Community Learning and does not include adult learners attending training courses at Further Education Colleges.

Adult community learning (ACL) allocations by borough from 2001/02 academic year to date, London Central LSC

[1] Forecast.

Assistive Technology

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what transfer of resources she proposes to make in respect of the transfer from April 2006 of responsibility from her Department to local education authorities for the provision of assistive technology to pupils with complex physical, learning and communication disabilities who are presently supported under the Communication Aids Project. [58300]

Maria Eagle: None. We have always made it clear that the Communication Aids Project, which ends in

March 2006, was created to supplement, not replace, provision made locally for school-age children with significant communication difficulties.

Local service providers have a central role in meeting needs, including the needs of individuals with severely impaired communication. Where children are concerned, we would be looking to children's services, through children's trusts, to provide appropriate support and equipment to all disabled children.

Autism

Paul Holmes: To ask the Secretary of State for Education and Skills (1) what steps her Department is taking to promote the publication Autistic Spectrum Disorders: Good Practice Guidance; [58268]

(2) how many copies of Autistic Spectrum Disorders: Good Practice Guidance have been distributed to *(a)* schools and *(b)* local education authorities; and what assessment she has made of the implementation of its recommendations. [58269]

Maria Eagle: Since it was launched in 2002, almost 30,500 copies of the Department for Education and Skills and Department of Health's Autistic Spectrum Disorders (ASDs): Good Practice Guidance have been distributed on request and free of charge. It is not possible to say how many of these sent to private addresses were ordered on behalf of schools and local authorities, however at least 8,500 have gone to schools and at least 3,700 have gone to local authorities. The guidance has also been available on the Department's website since 2002. Three conferences were held in 2003 in London, Nottingham and Leeds to promote the guidance.

Through the work of the Department-funded Special Educational Needs Regional Partnerships the Guidance is being used to audit and develop provision. For example, the West Midlands has developed an early interventions framework for children with ASDs based on the Guidance, the North West is using the guidance to undertake peer supported self-reviews of support services across the region and the South West produced "Aiming High", a video to illustrate the implementation of the guidance in schools. Individual authorities, such as Bolton and Worcestershire, have also worked with the guidance to develop provision in their areas.

The Department will, with the Autism Working Group which developed the Good Practice Guidance, look at how use of the Good Practice Guidance and its effectiveness can be evaluated and what can be done to build on it to encourage more good practice throughout the country.

Counselling

Mr. Sheerman: To ask the Secretary of State for Education and Skills what steps her Department is taking to provide counselling services to young people. [56422]

Maria Eagle: Access to counselling services is available locally through a number of the Department's programmes including the Connexions Service and the Behaviour and Education Support Teams, Learning Support Units and Learning Mentors established as part of the Behaviour Improvement Programme. Schools and colleges also provide or buy in counselling services for their students. Through the Every Child Matters: Change for Children Programme, multi-agency support teams—some incorporating both generalist and more specialist counselling and therapeutic skills—are also developing across local areas. We have provided further encouragement to these developments through our Green Paper, Youth Matters, and the recent establishment of 14 Targeted Youth Support Pathfinders.

Mr. Sheerman: To ask the Secretary of State for Education and Skills how much has been spent on counselling services in schools in each of the last 10 years. [56423]

Maria Eagle: Information on the total sums spent on counselling in schools is not available. Counselling services are decided upon and funded locally from a variety of sources.

Departmental Secondments

Dr. Iddon: To ask the Secretary of State for Education and Skills how many people from science and technology backgrounds have been seconded into the civil service in her Department in each of the last three years. [48409]

Maria Eagle: Secondees to DfES are deployed across all directorates within the Department to meet business needs. There is no current requirement for the Department to collect such data and this information could be obtained only at disproportionate cost.

Education Provision (Hendon)

Mr. Dismore: To ask the Secretary of State for Education and Skills if she will make a statement on levels of school *(a)* attendance and *(b)* exclusions in Hendon. [56755]

Jacqui Smith: In Hendon constituency the rates of authorised absence (percentage of half days missed in 2004/05) were 5.3 per cent. in maintained primary schools and 5.6 per cent. in maintained secondary schools. The comparative rates for unauthorised absence were 0.9 per cent. in primary schools and 1.1 per cent. in secondary schools. The primary school rates for both authorised and unauthorised absence are above the local authority (Barnet) and National averages. Hendon secondary schools were below the National average for authorised and unauthorised absence, but were above the local authority average for unauthorised absence.

In Hendon constituency in 2003/04 (the most recent year for which figures are available) there were no permanent exclusions from maintained primary or special schools, and nine permanent exclusions from maintained secondary schools (0.11 per cent. of the total number of pupils on the school roll in January 2004). Data are given in the table for exclusions from Hendon secondary schools from 1999/2000 to 2003/04. Over the last three years the rates of permanent exclusions in schools in Hendon have been half of those for Barnet LA and for England, however the figures for Hendon are quite small and can fluctuate over the years.

Maintained secondary schools: number and percentage of permanent exclusions

	Hendon parliamentary constituency		Barnet local authority		England[1]	
	Number	Percentage[2]	Number	Percentage[2]	Number	Percentage[2]
1999/00	16	0.20	50	0.24	6,710	0.21
2000/01[3]	23	0.28	50	0.24	7,310	0.23
2001/02[3]	9	0.11	51	0.24	7,740	0.24
2002/03[3]	8	0.10	42	0.20	7,690	0.23
2003/04[3]	9	0.11	42	0.20	8,320	0.25

[1] National figures have been rounded to the nearest 10
[2] The number of exclusions expressed as a percentage of the total number of pupils on the school roll in January of the same school year. Excludes dually registered pupils
[3] There are known quality issues with exclusions data for these years. Figures shown here for Hendon.

Annual Schools Census

Educational Psychologists

Bob Spink: To ask the Secretary of State for Education and Skills how many educational psychologists were employed in each local education authority in each of the last five years. [43920]

Jacqui Smith: The following table provides the number of full-time equivalent educational psychologists employed in each local authority in each January since 1997.

Full-time equivalent number of educational psychologists[1] in local authorities, in England 1997 to 2005

	1997	1998	1999	2000	2001	2002	2003	2004	2005

Examination Results

Dan Norris: To ask the Secretary of State for Education and Skills what were the *(a)* A-level and *(b)* GCSE results for each school in Wansdyke constituency in 1995 and each subsequent year for which data are available; and what the average results were in those years for all schools in (i) Wansdyke and (ii) England. [54363]

Jacqui Smith: The information requested is in the following tables:

The proportion of 15 year old pupils achieving 5 A-C grades in GCSE and equivalent qualifications in schools in Wansdyke parliamentary constituency, 1995 to 2005*

	1995	1996	1997[1]	1998	1999	2000
Broadlands School	27	32	35	40	43	47

[1] See notes for changes to the calculation of GCE/VCE point scores in 2001,2002 & 2003.
[2] 16–18 year old candidates entered for GCE/VCE A level qualifications

GCE/VCE Point score calculations 1994/95–1999/2000: The average GCE A/AS point score per student entered for the equivalent of 2 or more A/AS examinations (figures from 1997/98 include Advanced GNVQs), with a point score based on the following tariff:

Table 1

GCE A level		GCE AS level		Advanced GNVQ	
Grade	Points	Grade	Points	Grade	Points
A	10	A	10	Distinction	18
B	8	B	8		
C	6	C	6	Merit	12
D	4	D	4		
E	2	E	2	Pass	6

2000/01: The average point score per student entered for at least one A level or Advanced GNVQ, based on the points tariff shown in Table 1.

2001/02: The average GCE/VCE A/AS point score per student. The point score for each grade are as follows (based on the UCAS points tariff).

Table 2

GCE/VCE AS level	GCE/VCE A level	VCE Double Award	Points
—	—	AA	240
—	—	AB	220
—	—	BB	200
—	—	BC	180
—	—	CC	160
—	—	CD	140
—	A	DD	120
—	B	DE	100
—	C	EE	80
A	D	—	60
B	—	—	50
C	E	—	40
D	—	—	30
E	—	—	20

2002/03–2004/05: The average GCE/VCE A/AS and key skills point score per candidate. Points are as in Table 2 but with a key skill at Level 3 pass equivalent to 20 points.

Foundation Schools

Mr. Gordon Prentice: To ask the Secretary of State for Education and Skills how many foundation schools have partnership arrangements with *(a)* public and *(b)* private sector organisations. [57419]

Jacqui Smith: Schools of all categories are free to enter into a wide range of partnership arrangements. We do not hold detailed information centrally about the number of schools involved in every type of partnership with public, voluntary and private sector organisations. It is for individual schools' governing bodies to decide whether it is in the best interests of their schools to enter into partnerships.

The specialist schools programme, in particular, provides opportunities for schools to work in partnership with public, voluntary and private sector organisations and with other schools. We expect that over 80 per cent. of all secondary schools will be specialist by September 2006, including a substantial proportion of foundation schools.

More generally, the Government are committed to promoting partnership working through Education Improvement Partnerships (EIPs) or other forms of collaboration where this will deliver better outcomes for children. The EIP prospectus encourages partnerships to consider local needs and make alliances which will support the delivery of the outcomes identified. Partnerships should include all appropriate delivery partners, from the public, private or voluntary sector, dependent on the action which the partnership is undertaking.

Foundation schools may have foundations, that is, charitable bodies which hold their land on trust and appoint governors. Voluntary schools also have foundations. Based on information provided by local authorities, we understand that 96 foundation schools have foundations, comprising around 11 per cent. of the total number of foundation schools.

Funding

Mr. Davey: To ask the Secretary of State for Education and Skills what the total further education budget for 19 plus education was in *(a)* 2004–05 and *(b)* 2005–06; and how much was allocated in each year to 19 to 24-year-olds (i) up to Level 1, (ii) up to Level 2, (iii) up to Level 3 and (iv) up to Level 4. [58198]

Bill Rammell: The total overall spend on all adult programmes for 2004–05 was reported in the Learning and Skills Council's (LSC) Annual Report and Accounts as £2,999 million. The funding allocated for the LSC's major education and training programmes only for adults for 2005–06 is £2,851 million, an increase of £183 million or 7 per cent. on the comparable figure for 2004–05.

Information about the level of qualifications is only readily available for FE colleges and providers from the Individualised Learner Record (ILR). For the most recently completed academic year, 2004/05, spend on young adult learners is as follows:

Spend for 2004/05

£ million

Level	*Age 19 to 24*
Level 1 and below	193.0
Level 2	124.6
Level 3	172.3
Level 4 or higher	6.0
Unknown level	31.6
Grand total	527.5

Source:
ILR 2004/05 outturn

Figures for 2005/06 are not yet available.

GEMS Education

Sandra Gidley: To ask the Secretary of State for Education and Skills what meetings has *(a)* she and *(b)* her officials have had with GEMS Education; and what the purpose was of those meetings. [40815]

Jacqui Smith: In spring 2004 officials met with GEMS after they expressed interest in the Music Manifesto launch. Representatives of the Department met with GEMS on a number of occasions between February 2004 and June 2005 to discuss GEMS' potential involvement in the Academies programme. The first meeting took place on 10 February 2004, and related to the possibility of GEMS sponsoring an Academy in Barking and Dagenham. Two meetings occurred on 14 and 22 April 2004 to discuss this further. Meetings then took place between May 2004 and June 2005 to discuss the possibility of GEMS sponsoring Academies in Milton Keynes. These meetings occurred on: 4 May 2004; 17 June 2004; 18 June 2004; 21 March 2005; 20 May 2005; and 9 June 2005.

Higher Education

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what progress has been made towards the target of *(a)* fair access to higher education and *(b)* reducing rates of non-completion to higher education courses. [58012]

Bill Rammell: In the past few years, we have seen a steady widening of participation in, and improving access to, higher education. Performance indicators published by the Higher Education Statistics Agency show that the proportion of entrants from disadvantaged groups has increased across a range of measures, as set out in the following table.

Proportion of young UK domiciled entrants to full-time first degree courses at UK universities from disadvantaged groups[1]

	Proportion of entrants to university from:			
	State schools	*Lower social classes (IIIM, IV, V)*	*Lower socio-economic groups (4–7)*	*Low participation areas*
1997/98	81.8	24.9	n/a	12.1
1998/99	85.0	25.1	n/a	12.3
1999/2000	84.9	25.3	n/a	12.4
2000/01	85.7	25.4	n/a	12.5

Proportion of young UK domiciled entrants to full-time first degree courses at UK universities from disadvantaged groups[1]

	Proportion of entrants to university from:			
	State schools	*Lower social classes (IIIM, IV, V)*	*Lower socio-economic groups (4–7)*	*Low participation areas*
2001/02	86.0	25.8	n/a	13.1
2002/03	87.2	n/a	28.4	13.3
2003/04	86.8	n/a	28.6	13.9

n/a = not available: The socio-economic group classification was introduced in 2002/03 to replace the social class groupings. The two classifications are not directly comparable. Figures for NI are available separately if needed.

[1] Source—"Performance Indicators in Higher Education", published by HESA

We have also made steady progress on reducing rates of non-completion. The latest available figures published by HESA are shown in the following table:

Percentage of UK domiciled full-time first degree students expected neither to obtain an award nor transfer—higher education institutions in the UK

Students starting courses in:	*Non-completion rate (percentage)*
1996/97	16.0
1997/98	15.9
1998/99	15.8
1999/2000	15.9
2000/01	15.0
2001/02	14.1
2002/03	14.4

Source:
"Performance Indicators in Higher Education", published by HESA. For 2002/03, the projected outcomes summarise the pattern of movements of students at institutions between 2002/03 and 2003/04 and give the outcomes that would have been expected from starters in 2002/03 if progression patterns were to remain unchanged over the next few years. The HESA data show the proportion of entrants who are projected to: obtain a qualification (either a first degree or another undergraduate award); transfer to another HEI; neither obtain a qualification nor transfer (ie fail to complete the course).

Figures published in 2005 by the Organisation for Economic Co-operation and Development (OECD) showed that in 2003 the UK had one of the lowest higher education non-completion rates among OECD countries.

Learning and Skills Councils

Mr. Grogan: To ask the Secretary of State for Education and Skills what the percentage change was in *(a)* 16 to 18 years and *(b)* 19 years plus budgets for learning and skills councils' sub-regions between 2004–05 and 2005–06, listed in ascending order. [39124]

Bill Rammell: I have overall responsibility for the LSC; however the operations of the LSC are managed and overseen by Mark Haysom, the LSC's chief executive. Allocations to regional and sub-regional levels are a matter for the LSC. Mark Haysom, LSC's chief executive has written to the hon. Gentleman with further information and a copy of his reply will be placed in the House Library.

The following table shows the changes in total funding of the LSC between 2004–05 and 2005–06 by region. Note that the LSC are unable to disaggregate all of the funding between youth and adult, as much of the funding allocated to local offices is not specifically age-based. The figures in the table do not include budgets allocated specifically to the LSC's national office and national programmes.

			Percentage change between 2004–05 and 2005–06			
	2004–05 Total programme spend (£)	*2005–06 Total programme budget (£)*	*16–18 (Young people)*	*19+ (Adult)*	*Contributes to both 16–18 and 19+*	*Programme total increase between 2004–05 and 2005–06*

Total	7,707,919	8,229,068	1.2	2.0	3.6	6.8

Letter from Mark Haysom, dated 30 January 2006:

Further to your recent question to the Secretary of State for Education and Skills where you asked what the percentage change was in *(a)* 16 to 18 years and *(b)* 19 years plus budgets for learning and skills councils' sub-regions between 2004–05 and 2005–06, listed in ascending order. on, I am pleased to provide the following information.

The attached tables show the percentage change between the financial years 2004–05 and 2005–06* in;

(a) the LSC's 16–18 budgets;

(b) 19+ budgets;

(c) and those budgets that are attributable to both 16–18 and 19+ provision;

I hope that you find this information helpful.

* The Learning and Skills Council's (LSC) financial year covers the period 1 April to 31 March. Consequently the percentage changes relate to the 2005–06 budget as at 19th December 2005.

Media Coverage

Mr. Davey: To ask the Secretary of State for Education and Skills what analysis of national media coverage of education issues has been commissioned by her Department in the past 12 months. [56884]

Bill Rammell *[holding answer 7 March 2006]:* I refer the hon. Member to the reply given on 27 February 2006, *Official Report*, column 558W.

Prison Education

Mr. Bellingham: To ask the Secretary of State for Education and Skills when she expects the Learning and Skills Council to announce the award of contracts for the provision of education in prisons; what factors have affected the timing of the announcement; and if she will make a statement. [57758]

Phil Hope: The Learning and Skills Council remains on track to confirm the successful tenderers by 31 March as planned. The main factor affecting this timetable is the post-tender negotiation which started on 16 January, to a timetable published on the Learning and Skills Council's website. Once negotiations are successfully concluded, announcements about contract awards can be made.

School Admissions Code

Lynne Jones: To ask the Secretary of State for Education and Skills whether under the Education and Inspection Bill secondary schools will be able to seek reports from primary schools on *(a)* a child's (i) conduct, (ii) motivation and (iii) attendance and *(b)* on parents' attitude. [57292]

Jacqui Smith: Under the Education (Pupil Information) (England) Regulations 2005, when a pupil transfers to a new school, the "old" school must send the pupil's educational record and common transfer file to the new school, within 15 school days. The regulations set out the minimum requirements for information which schools must include in the pupil's educational record and common transfer file. This, and any additional information held by the school, including information on pupil behaviour and attendance, must be transferred to the pupil's new school as part of the educational record. We have no plans to change or expand these requirements under the Education and Inspection Bill.

Provision in the Bill will also strengthen the School Admissions Code by requiring admission authorities to 'act in accordance' with it. In future the Code will

prevent secondary schools from making offers of places dependent on reports from the child's primary school.

School Food

Mr. Gibb: To ask the Secretary of State for Education and Skills what estimate she has made of the cost of implementing the standards of the School Food Trust for food other than lunch in schools. [58621]

Jacqui Smith: The School Food Trust has provided advice to Ministers on standards that should apply to food and drink provided at times other than lunch. We are now seeking views on that advice from a limited number of key stakeholders in education, health and the food industry.

We will develop a full RIA at the point that we seek cross Government clearance on the Department's proposals for new 'other' food and drink standards.

Schools (Brighton and Hove)

David Lepper: To ask the Secretary of State for Education and Skills how much capital funding was allocated to schools in Brighton and Hove in each year since 1996–97. [58670]

Jacqui Smith: Details of capital allocations made to local authorities are held only from 1997–98 onwards. Capital Funding to Brighton and Hove local authority and its schools since 1997–98 are set out in the following table:

	£ million
1997–98	3.9
1998–99	4.5
1999–2000	6.1
2000–01	8.2
2001–02	29.2
2002–03	6.9
2003–04	7.3
2004–05	13.4
2005–06	5.5

Note:
The 2001–02 figure includes £24.5 million for a Private Finance Initiative (PFI) project. The 2004–05 figure includes one off funds for two Targeted Capital Fund projects totalling £6.7 million.

David Lepper: To ask the Secretary of State for Education and Skills how many children were in classes of 31 or more in *(a)* infant schools and *(b)* infant classes in primary schools in Brighton and Hove in each year since 1996–97. [58671]

Jacqui Smith: The requested information is given in the table.

Maintained primary schools [1]: Number and percentage of key stage 1 classes with 31 or more pupils
Position in January each year: 1997 to 2005

n/a = not applicable
[1] Includes middle schools as deemed.
[2] Classes as taught during a single selected period on the day of the census in January.
[3] The number of pupils in classes of 31 or more expressed as a percentage of the total number of pupils in classes.
[4] Includes reception classes.
Source:
Annual Schools Census

David Lepper: To ask the Secretary of State for Education and Skills what the budget was for the Brighton and Hove local education authority in each year since 1996–97. [58673]

Jacqui Smith: The available information is contained within the following table. Similar data are not available before 1999–2000.

Total budgeted education revenue expenditure[1] by Brighton and Hove local authority since 1999–2000[2]

	Budgeted education revenue expenditure[1] (£)
1999–2000[2]	83,170,000
2000–01	91,486,000
2001–02	101,475,000
2002–03	106,440,000
2003–04	114,093,000
2004–05	123,235,000
2005–06	134,422,000

[1] Budgeted education revenue expenditure is drawn from local authorities' Section 52 Budget Statements submitted to the DfES. This is calculated as the gross elements of any grants lines plus the net elements of the remainder of the education revenue budget. Section 52 was introduced for the 1999–2000 financial year and consequently figures are not available prior to 1999–2000.
[2] 1999–2000 figures exclude any budgeted capital expenditure from revenue (CERA).
Note:
Cash figures are rounded to the nearest £1,000 as reported by Brighton and Hove local authority as at 13 March 2006.

Special Educational Needs

Paul Holmes: To ask the Secretary of State for Education and Skills (1) what requirements there are for special educational needs co-ordinators to undergo training in *(a)* special education needs and *(b)* autism; [58147]

(2) whether she plans to introduce minimum standards for training for special education needs co-ordinators. [58155]

Maria Eagle: School-based Special Educational Needs Co-ordinators (SENCOs) are selected and appointed by head teachers. There is no specific SENCO qualification they would be expected to have, although we would normally expect a head to appoint someone with a proven track record of successful working with children with SEN and disabilities. Training arrangements for SENCOs would be for local determination, having regard to the knowledge, skills and experience of the person concerned, and the range and complexity of SEN represented within the school.

The Department's SEN Code of Practice, published in November 2001, contains guidance on the role and responsibilities of SENCOs. The Teacher Training Agency, now the Training and Development Agency for Schools, also published a set of National Standards for SENCOs in 1998.

In collaboration with the National Association for Special Educational Needs (NASEN), the Department recently convened a series of discussion sessions for primary and secondary SENCOs, designed to identify aspects of good practice in relation to the SENCO role. The results of this work are being disseminated through NASEN publications and otherwise.

With regard to autism, in 2002 we issued, in partnership with the Department of Health, Autistic Spectrum Disorder Good Practice Guidance. This offered a series of pointers to good practice aimed at schools and SENCOs.

Mrs. Dorries: To ask the Secretary of State for Education and Skills how many children were educated in special schools in each year since 1997; and if she will make a statement. [58347]

Jacqui Smith: The requested information is given in the table.

Special schools: Number (headcount) and percentage of pupils[1]—position in January each year: 1997 to 2005—England

	Maintained special		*Non-maintained special*	
	Number[1]	*Percentage*[2]	*Number*[1]	*Percentage*[2]
1997	93,020	1.1	5,230	0.1
1998	93,470	1.1	4,960	0.1
1999	93,090	1.1	4,610	0.1
2000	91,800	1.1	4,770	0.1
2001	91,000	1.1	4,600	0.1
2002	89,800	1.1	4,670	0.1
2003	88,930	1.1	4,950	0.1
2004	86,930	1.0	4,840	0.1
2005	85,500	1.0	4,870	0.1

[1] Excludes dually registered pupils.
[2] Pupil numbers have been rounded to the nearest 10.
Note:
The number of pupils in special schools expressed as a percentage of the total number of pupils across all schools.
Source:
Annual Schools Census

Local authorities have a duty to secure sufficient schools for children in their area and in doing so must have particular regard to the need for special educational provision. The Government set expectations as to the quality of this provision, as does Ofsted. But how these expectations are met is a matter for local decision, and for this reason, Government play no role in relation to LA school reorganisations or in respect of decisions to close schools.

Mr. Marsden: To ask the Secretary of State for Education and Skills how many education supervision orders have been carried out for children with a special educational need in England in each of the past five years. [58946]

Jacqui Smith: The Department does not collect data on the number of Education Supervision Orders that are made.

Truancy

Rosie Cooper: To ask the Secretary of State for Education and Skills what assessment she has made of truancy levels in schools in *(a)* West Lancashire, *(b)* Lancashire and *(c)* England. [58487]

Jacqui Smith: The Department does not hold data on the levels of truancy. However, the 2004/05 figures for the percentage of half days missed due to unauthorised absence (of which truancy forms a part) in maintained mainstream schools can be found as follows.

	Primary	*Secondary*
West Lancashire	0.4	1.1
Lancashire	0.34	0.93
National	0.43	1.23

TREASURY

Civil Service Pension Schemes

Mr. Philip Hammond: To ask the Chancellor of the Exchequer (1) what the rates of withdrawal have been from *(a)* the NHS, *(b)* teachers and *(c)* principal civil service pension schemes, broken down by age, sex and duration of service, in each year since 1997; [54232]

(2) pursuant to the answer to the hon. Member for Havant (Mr. Willetts) of 8 November 2005, *Official Report*, column 330W, on pensions, whether the estimate of the proportion of public sector pensionable payroll in future years that relates to scheme members who join after April 2006 was made on the assumption that the probability of leaving service was independent of the length of service; what the evidential basis was for the assumptions underlying the estimate; and what rates of withdrawal from service were assumed. [54464]

Mr. Des Browne: Information is not available in the form requested without disproportionate cost. A note on the actuarial assumptions on future rates of withdrawal from active membership in the occupational pension schemes for the NHS, teachers and civil service will be deposited in the Library including that information which is readily available on recent experience of withdrawal from these schemes. These assumptions were used to estimate the proportion of the combined pensionable payroll relating to scheme members who joined after April 2006.

Inheritance Tax (Northern Ireland)

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer on how many estates in Northern Ireland inheritance tax was payable in *(a)* 1994 and *(b)* 2004. [58062]

Dawn Primarolo: In 2004–05, inheritance tax was due on approximately 500 estates in Northern Ireland. The corresponding figure for 1994 is not available.

International Monetary Fund

Mr. Iain Wright: To ask the Chancellor of the Exchequer what assessment he has made of the recent comments by the Governor of the Bank of England on reform of the International Monetary Fund. [57887]

Mr. Ivan Lewis: The Government believe that strong and effective international institutions make an essential contribution to supporting global stability and growth in the context of the changing global economy. The Government welcome the contribution of the Governor of the Bank of England to the debate about the future of the institutions. As the Chancellor has said for some time, reforms to the International Monetary Fund are needed to ensure it continues to be relevant and effective in ensuring the stability of the international monetary system and of the global economy.

Specifically, IMF surveillance must be reformed to make it credible and authoritative so that it can have maximum impact on countries policies. There must be no possibility of conflict of interests between the IMF's surveillance and lending roles and no perception of political interference with the IMF's surveillance judgments. The Government will make proposals for the IMF to sponsor independent and transparent surveillance of national monetary and fiscal policies.

John Bercow: To ask the Chancellor of the Exchequer what recent representations he has received on reform of the International Monetary Fund. [58849]

Mr. Ivan Lewis: Representations are made to Treasury Ministers and officials on a wide range issues as part of the process of policy development and analysis. As was the case with previous Administrations, it is not the Government's practice to provide details of all submissions made to the Treasury.

The Government continues to believe that strong and effective international institutions make an essential contribution to supporting global stability and growth in the context of the changing global economy. We will continue to work with others to pursue this agenda.

Parents

Danny Alexander: To ask the Chancellor of the Exchequer (1) what the average age of the mother when a child is born to a lone parent was in the last period for which figures are available, broken down by region; and what research he has conducted on the equivalent figures in *(a)* EU and *(b)* G8 countries; [57841]

(2) what proportion of children born to lone parents had the name of the father registered at birth in the last period for which figures are available. [57842]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 15 March 2006:

The National Statistician has been asked to reply to your recent Parliamentary Questions concerning the proportion of children born to lone parents where the name of the father was registered at birth, in the last period for which figures are available and the average age of the mother when a child is born to a lone parent in the last period for which figures are available, broken down by region, and what research has been conducted on the equivalent figures in *(a)* EU and *(b)* G8 countries. I am replying in her absence. (57841, 57842)

Information on the family status of the mother and father is not collected at birth. Although there is no direct count of births occurring to lone mothers, ONS use the number of births that are registered solely in the mother's name, or registered jointly where the parents live at different addresses, as indicative of lone parenthood at the time of birth.

In 2004, just over 111,800 births in the United Kingdom were either sole-registered, or jointly registered at different addresses (16 per cent. of all births). Of these, 55 per cent. were jointly registered, that is, they included the name of the father.

The table shows the mean age of mothers for live births that have been sole-registered or jointly registered to parents living at different addresses.

ONS have not conducted any research on the equivalent figures for the EU or G8 countries. However, you may be interested in an article by the academic, Kathleen Kiernan, entitled 'Childbearing outside marriage in Western Europe' which can be found in Population Trends 98. This was published in Winter 1999 and can be downloaded at the following web address. http://www.statistics.gov.uk/poptrends

Mean age of mother for live births registered by mother alone or jointly registered by parents living at different addresses, United Kingdom 2004

Country and region of mother's residence	*Mean age*
United Kingdom	25.1
England	25.2
Scotland	24.5

Danny Alexander: To ask the Chancellor of the Exchequer (1) what proportion of *(a)* male and *(b)* female lone parents are in (i) part-time and (ii) full-time employment; [57843]

(2) what proportion of *(a)* male and *(b)* female parents who are cohabiting with a partner, whether married or not, are in (i) part-time and (ii) full-time employment; [57844]

(3) how many *(a)* male and *(b)* female parents are who are cohabiting with a partner, whether married or not, of working age are in (i) part-time and (ii) full-time employment. [57845]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 15 March 2006:

The National Statistician has been asked to reply to your Parliamentary Questions about lone parents and parents in couples in employment. I am replying in her absence. (57843, 57844, 57845)

Table 1 shows the levels and percentage of lone parents with dependent children in full-time and part-time employment by gender.

Table 2 shows the levels and percentage of married or cohabiting parents with dependent children, by whether working full-time or part-time by gender.

Table 3 shows the levels of parents in couples of working age with dependent children, in by full-time or part-time employment, by gender.

All 3 tables are covering the latest available period, which is the three months ending November 2005.

Estimates are taken from the Office for National Statistic's Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Table 1: Lone parents[1] aged 16 and over by gender and whether working full or part-time[2]

Thousand and percentage

		Male		*Female*	
Three months ending November 2005:	*Number of lone parents*	*Levels*	*Percentage[3]*	*Levels*	*Percentage[3]*
All lone parents	1,858	166	100.0	1,692	100.0
All in employment[4]	1,026	111	66.7	915	54.1
Full-time	540	94	56.8	445	26.3
Part-time	486	16	9.9	469	27.7

[1] Refers to people who are not married or cohabiting and have dependent children, who are defined as 0 to 15-year-olds, or 16 to 18-year-olds in full-time education.
[2] Based on respondents self-assessment.
[3] As a percentage of all lone parents.
[4] Includes those who did not state whether they worked full or part time.

Private Schools (Charitable Status)

Mr. Hancock: To ask the Chancellor of the Exchequer pursuant to his answer of 6 March 2006, *Official Report*, column 1008W, on independent schools, if he will commission research to determine the extent of the loss to the Treasury each year as a result of the charitable status of private schools. [59163]

Mr. Ivan Lewis: There are no plans to commission such research.

DEPUTY PRIME MINISTER

Affordable Housing

Mr. Hunt: To ask the Deputy Prime Minister what guidance he has issued to local councils on whether they will be obliged to set up accessible homes registers for disabled people looking for affordable homes under the "Disability Discrimination Act 2005". [54740]

Yvette Cooper *[holding answer 2 March 2006]:* The Government recognises the benefits of accessible housing registers. The Code of Guidance on the Allocation of Accommodation (paragraph 6.11) recommends that housing authorities maintain lists of properties that are suitable for people with disabilities and other special needs groups, including accessible or significantly adapted local authority stock, and Registered Social Landlord and private sector properties to which local authorities nominate tenants.

The Office of the Deputy Prime Minister is working together with the Disability Rights Commission to strengthen the guidance on accessible housing registers as part of the revision of allocations code.

Building Regulations

Mr. Drew: To ask the Deputy Prime Minister what estimate he has made of the effect on carbon emissions of *(a)* the extension of new standards for conservatories set out in Part L of building regulations, conservation of fuel and power, announced in September 2005 to all conservatories and *(b)* a requirement that the building of an extension should trigger consequential energy efficiency improvements to the existing building. [53829]

Yvette Cooper: Since 1985, ground floor extensions of buildings by the addition of a conservatory not exceeding 30m^2 have been exempt from Building Regulations. An Initial Regulatory Impact Assessment published by the ODPM in March 2002 assessed the options for potential removal or modification of this exemption but did not include any estimate of the carbon savings.

The draft Regulatory Impact Assessment in the Part L consultation document published in July 2004 estimated carbon savings from work to existing buildings based upon 150,000 domestic extensions and 4 per cent. of the non-domestic stock being refurbished each year. It was not possible to consider the cost and benefits of 'consequential improvements'.

Mr. Amess: To ask the Deputy Prime Minister what recent research he has *(a)* commissioned and *(b)* evaluated into the impact of Part M of the Building Regulations on the design of new housing. [54196]

Yvette Cooper: A programme of research has been commissioned from the Building Research Establishment to evaluate the effect of the introduction in 1999 of controls on the accessibility of new dwellings. An interim report of that programme has been published on the Office of the Deputy Prime Minister's website at: http://www.odpm.gov.uk/index.asp?id=1163117. The final report of the programme is currently being evaluated and is expected to be published soon.

Carriers Use Class Order

Mr. Betts: To ask the Deputy Prime Minister what changes he has made to the Use Class Order for Carriers; and if he will make a statement. [54432]

Yvette Cooper *[holding answer 28 February 2006]:* If the term Carriers refers to goods offices, then they are likely to be classified within the B use class of the Use Classes Order.

There have been no changes relating to the B use class, or any changes relating specifically to Carriers, since the Office of the Deputy Prime Minister was created on 29 May 2002.

Dowry Arrangements

Andrew Gwynne: To ask the Deputy Prime Minister what discussions his Department has had with the Department of Health on the Greater Manchester primary care trust's decision to end the 'in perpetuity' dowry agreements with local authorities. [57823]

Mr. Woolas: The Office of the Deputy Prime Minister has not had discussions with the Department of Health regarding Greater Manchester primary care trust's dowry agreements with local authorities. It is for local authorities and NHS providers to determine the best way to meet the needs of people with learning disabilities in their population. Primary care trusts should continue to transfer to local authorities funding associated with people who used to live in long stay hospitals.

Empty Homes

Mike Penning: To ask the Deputy Prime Minister what the projected running costs are of the Empty Homes Agency's EMPRO website in the financial year 2006–07. [55249]

Yvette Cooper *[holding answer 2 March 2006]:* EMPRO website is administered by the London borough of Hammersmith and Fulham and it is estimated that a minimum of £30,000 will be needed to maintain the website in the financial year 2006–07.

Mike Penning: To ask the Deputy Prime Minister which local authorities have subscribed to the Empty Homes Agency's EMPRO website; and what total fees have been collected. [55250]

Yvette Cooper *[holding answer 2 March 2006]:* Local authorities subscribed to the EMPRO website include Birmingham and the London boroughs of Brent, Ealing, Hammersmith and Fulham, Harrow, Hillingdon, Hounslow and Kensington and Chelsea. The website was developed by local authorities in west London and launched as a pilot project in July 2004, with funding from the Government Office of London. Since then, the website has received fees of £5,000 from Birmingham council.

Mike Penning: To ask the Deputy Prime Minister what assessment he has made of the operation of the Empty Homes Agency's EMPRO website since November 2004; and if he will make a statement. [55251]

Yvette Cooper *[holding answer 2 March 2006]:* The EMPRO website is an innovative way of supporting work to bring empty homes back into use. The website seeks to put potential developers and others who want to purchase empty properties as an investment opportunity in contact with owners who may be persuaded that selling the property is the best course of action to bring it back into use.

Derek Wyatt: To ask the Deputy Prime Minister when he expects the empty property scheme to be implemented by *(a)* Swale borough council and *(b)* Kent county council. [58594]

Yvette Cooper *[holding answer 14 March 2006]:* The Kent Empty Property Initiative, involving Kent county council and the four district councils of Dover, Shepway, Swale and Thanet, was implemented in April 2005 and launched publicly in November 2005. The Initiative has an overall target to bring 372 empty properties back into use by March 2008. From April they will be able to use new powers to bring empty homes back into use when Empty Dwelling Management Orders come into force.

Environmentally Sustainable Housing

Vera Baird: To ask the Deputy Prime Minister what steps he is taking to encourage developers of new housing to build in an environmentally sustainable way. [57921]

Yvette Cooper *[holding answer 13 March 2006]:* The Office of the Deputy Prime Minister has recently approved new building regulations which set mandatory standards that every new home must meet. The regulations, which come in on April 6, raise energy efficiency of new buildings by 40 per cent. compared to 2002.

In addition, in the light of the consultation on the Code for Sustainable Homes which closed on 6 March 2006, the ODPM has decided to strengthen the code to support further improvements in environmental standards of new homes.

The ODPM is also giving consideration to further ways to increase the take-up of the code.

Firefighter Salaries

Mr. Andrew Smith: To ask the Deputy Prime Minister what the starting salary was for newly qualified firefighters in Oxford in each of the last 10 years. [58276]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not hold details regarding the starting salary for newly qualified firefighters in Oxford centrally. The national pay and conditions of firefighters are negotiated by the National Joint Council for Local Authority Fire and Rescue Services. The figures set out show the salary of those firefighters newly becoming qualified/competent (not the starting salary).

From 1996 to 2002 the qualified firefighter rate was as follows:

	Amount (£)
1996	17,823
1997	18,678
1998	19,725
1999	20,121
2000	20,724
2001	21,531
2002	22,392

From 2003 onwards the competent firefighter rate was as follows:

	Amount (£)
2003	23,959
2004	25,000
2005	25,850

Fires

John McDonnell: To ask the Deputy Prime Minister how many *(a)* accidental dwelling fires started by cigarette lighters by (i) children under the age of nine years, (ii) youths aged 10 to 17 years, (iii) adults of 18 plus years and (iv) other of unspecified age and *(b)* related casualties there were in (A) 2004 and (B) 2005. [58339]

Jim Fitzpatrick: The following table shows the data for financial years 2003–04 and 2004–05 in England. Data for calendar year 2005 are not available yet.

Accidental dwelling fires started by cigarette lighters and related casualties by firestarter group, England, 2003–04 and 2004–05

	2003–04			2004–05[1]		
	Fires	*Fatal casualties*	*Nonfatal casualties*	*Fires*	*Fatal casualties*	*Nonfatal casualties*
Total	468	11	244	350	9	195
Child (0–9 years)	339	5	203	225	6	136
Youth (10–17 years)	45	0	13	28	0	10
Adult (18 years and over)	59	5	23	90	3	45
Other	13	0	0	6	0	3
Unknown	11	1	5	2	0	1

Fire and Rescue Service FDR1 returns to ODPM.

Home Energy Efficiency

Mr. Boswell: To ask the Deputy Prime Minister what steps he is taking to encourage consideration of efficiency in the use of *(a)* energy and *(b)* water in the construction of (i) new housing and (ii) commercial facilities in connection with his growth area strategy. [53747]

Yvette Cooper: Last September, I announced that the energy efficiency standards set out in Part L of the Building Regulations are being raised by around 20 per cent. for new housing and by up to 27 per cent. for commercial buildings; these changes come into effect from April 2006. In the response to Barker's review of housing supply published in December 2005 the Office of the Deputy Prime Minister said that the ODPM would also regulate to achieve water efficiency savings. In addition the Code for Sustainable Homes will set environmental performance standards that are higher than those stipulated by regulation.

The Growth Area programme is an opportunity to promote sustainable construction and can encourage higher standards by including sustainability as one of the key criteria for appraising applications for funding and through guidance to Local Delivery Vehicles.

Homelessness

Jim Cousins: To ask the Deputy Prime Minister how many households were accepted as eligible for assistance for homelessness in Newcastle upon Tyne in each quarter from 1 January 2000 to 31 December 2005; and how many households left temporary accommodation in Newcastle upon Tyne in each quarter of the same period. [58675]

Yvette Cooper: The following table presents information reported by Newcastle upon Tyne city council in each quarter since January 2000 on the number of households under homelessness legislation which were accepted as eligible for assistance, unintentionally homeless and in priority need, and consequently owed a main homelessness duty. The table also shows the number of households reported as leaving temporary accommodation which had been arranged by the council, or no longer registered as "homeless at home", during each quarter.

The duty owed by the local authority is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation some authorities arrange for households to remain in their current accommodation (homeless at home), until a settled solution becomes available.

Newcastle upon Tyne city council

	Households accepted[1] as homeless	*Households leaving[2]*
2000		
January-March	98	44
April-June	103	29
July-September	91	28

April-June	143	n/a
July-September	140	77
October-December	161	137

n/a = Information not reported.

[1] Households found to be eligible for assistance, unintentionally unintentionally homeless and in a priority need category and, under 1996 Housing Act provisions, consequently owed a main homelessness duty.

[2] Leaving temporary accommodation secured by the local authority under section 193 of the Housing Act 1996, or no longer registered as "homeless at home" during the quarter, and consequently no longer owed a main duty.

Source:

ODPM P1E Homelessness returns (quarterly)

Housing

Anne Main: To ask the Deputy Prime Minister pursuant to the Answer of 1 December 2005, *Official Report*, columns 681–2W, on housing, whether the figures were *(a)* submitted by each local authority and *(b)* collected by his Department. [54430]

Yvette Cooper: The figures provided on Best Value Performance Indicator (BVPI) 64, were submitted by local authorities who are also responsible for publishing their performance data for BVPIs in their annual Best Value Performance Plans.

Mr. Jim Cunningham: To ask the Deputy Prime Minister how much the Government has made available for housing in Coventry South in the last three years. [55256]

Yvette Cooper *[holding answer 6 March 2006]:* It has not been possible to disaggregate figures for Coventry South. Over the last three years the Office of the Deputy Prime Minister has made available over £18,183,000 to Coventry as a whole. This split is as follows:

	Amount (£)
2003–04	
Housing Annual Capital Guidelines (ACG)— (before the introduction of the Regional Housing Board)	5,096,000
Disabled Facilities Grant (DFGs)	865,000
2004–05	
Regional Housing Board allocations	5,283,000
Disabled Facilities Grant (DFGs)	[1]848,000
2005–06	
Regional Housing Board allocations	5,131,000
Disabled Facilities Grant (DFGs)	960,000

[1] Includes £260,000 Kickstart funding.

Housing Repair Bills

Sarah Teather: To ask the Deputy Prime Minister what was the *(a)* total and *(b)* average repair bill for non-decent (i) private-rented, (ii) owner-occupied, (iii) housing association and (iv) council housing in the last year for which figures are available. [55768]

Yvette Cooper: Data on the average cost to make a property decent by tenure is published in Table 3.1 in the 2001 English House Condition survey main report available from the Office of the Deputy Prime Minister's website at: http://www.odpm.gov.uk/index.asp?id=1155281

This cost covers only the expenditure required to make existing homes decent now and does not take account of work required to ensure current non-decent dwellings remain decent until 2010, work needed to deal with additional dwellings likely to become non-decent between 2001 and 2010 and additional important environmental and security work and disabled adaptations which do not impact on the standard as such.

Inter-council Partnerships

Vera Baird: To ask the Deputy Prime Minister whether he plans to take steps to develop inter-council partnerships among smaller unitary authorities. [57920]

Mr. Woolas *[holding answer 13 March 2006]:* We have launched a public debate about the best governance arrangements for local areas in the future and are interested to hear views on the merits of change and how it might be made. We plan to publish a White Paper on the future of local government in the summer.

Landfill sites

Andrew Gwynne: To ask the Deputy Prime Minister what assessment his Department has made of the suitability of former landfill sites pre-dating the Control of Pollution Act 1974 for built development, with particular reference to new schools. [58000]

Yvette Cooper: Government policy is to bring brownfield land back into beneficial use where appropriate. When new development is proposed local planning authorities have specific responsibilities. These are set out in Planning Policy Statement 23 "Planning and Pollution Control" and its Annex "Development on Land Affected by Contamination". They are expected to pay particular attention to development proposals for sites where there is reason to suspect contamination, such as from former landfill, and where particularly sensitive uses are proposed, including those involving children. When determining planning applications, local planning authorities should be satisfied that the site concerned is suitable for the new use and that the development does not create unacceptable risks. If a local planning authority is not satisfied on the basis of the information provided by the applicant, and available from other sources, including the responses of those consulted, planning permission should be refused.

Newcastle/Gateshead Pathfinder

Jim Cousins: To ask the Deputy Prime Minister if he will place in the Library the agreed Strategic Commission for the Newcastle/Gateshead Pathfinder project; what the allocated programme of expenditure was for the Pathfinder in Newcastle/Gateshead in each Strategic Commission in each year since 2004–05; and what funding is proposed for *(a)* 2006–07 and *(b)* the next three years. [58683]

Yvette Cooper: The future programme and strategic commissions for the Newcastle Gateshead housing market renewal pathfinder have not yet been agreed. I will write to my hon. Friend when an announcement is made.

The total housing market renewal funding for the pathfinder in 2004–05 and 2005–06 to date has been £47,641,250. It is not possible to break this down by strategic commission area as previous funding has not been allocated by the pathfinder on this basis. However, the breakdown by area development framework is shown in the following table, with the near equivalent strategic commission areas shown in brackets.

£

	2004–05	*2005–06*	*Total*
Newcastle East (Byker and Ouseburn and Walker Riverside)	3,894,895	3,135,638	7,030,533
Newcastle North (North Central)	526,718	294,823	821,541
Newcastle West (Scotswood, Benwell and Elswick Discovery Quarter)	10,986,934	9,693,012	20,679,946
Gateshead (Dunston, Teams, Bensham and Saltwell, Felling Bypass, and Deckham)	9,942,974	9,166,256	19,109,230

Planning Appeals

Mr. Pickles: To ask the Deputy Prime Minister what *(a)* instructions, *(b)* advice and *(c)* guidance his Department has issued to the Planning Inspectorate in the last 12 months with regard to speeding up planning appeal considerations. [56105]

Yvette Cooper: The Planning Inspectorate (PINS) was established as an Executive Agency of the Department of the Environment in April 1992. The chief executive is responsible for the effective management of the inspectorate in accordance with the framework document (which is currently under review) and in accordance with the normal civil service rules on propriety and securing value for money.

The Planning Inspectorate is actively managing improvements to its own performance in arranging hearing and inquiry dates in the face of a continuing high level and variety of casework which places conflicting demands on the available inspector resource.

Over the period 2001–02 to 2004–05, there was an increase of 37 per cent. in the number of planning appeals received. A particular feature of the increased work has been the bulge in appeal receipts that arose between November 2003 and May 2004. As a result of the increase in appeal receipts, a backlog developed. The Planning Inspectorate was tasked by the Office of the Deputy Prime Minister with clearing the backlog of cases which has been achieved by policy, procedural and other changes.

As part of the Government's response to Kate Barker's Review of Housing Supply the Planning Inspectorate have adopted a target for planning appeals for proposals for 10 or more dwellings to open a hearing or inquiry within 20 weeks of the start date of the case and, in 80 per cent. of the cases, to issue a decision within 10 weeks of the close of the hearing or inquiry.

Regeneration

Vera Baird: To ask the Deputy Prime Minister what steps he is taking to encourage the regeneration of small town centres in the North East. [57917]

Yvette Cooper *[holding answer 13 March 2006]:* Regional Development Agencies (RDAs) deliver regeneration initiatives on behalf of the Office of the Deputy Prime Minister. The North East's RDA, One NorthEast, has responsibility for delivering physical regeneration and development policies and strategies throughout the region.

The Agency works closely with four Sub Regional Partnerships (Tees Valley Partnership, County Durham Strategic Partnership, Tynewear Partnership and Northumberland Strategic Partnership) to deliver a broad range of physical regeneration projects. These projects are aimed at improving the physical environment, transport and communication links and at increasing the availability of high quality business premises and development sites throughout the region.

All the Sub Regional Partnerships have drawn together their own strategic vision for their areas within the context of the Regional Economic Strategy. They have mapped out action plans and investment programmes for spending the 'single pot' funds delegated to them by One NorthEast from its own budget. Their programmes include other funding available from European and National public sources.

Regional Spatial Strategies

Mr. Clifton-Brown: To ask the Deputy Prime Minister what mechanisms the Government has established to ensure that cross-border issues are taken into account by regional assemblies when considering regional spatial strategies; and if he will make it obligatory for each regional spatial strategy to address cross-border issues. [57363]

Yvette Cooper: Under the Planning and Compulsory Purchase Act 2004, when preparing a regional spatial strategy (RSS) regional planning bodies (RPBs) must have regard to the RSS for each adjoining area. Supporting regulations require RPBs to seek advice from any RPB; local planning authority; county council; parish council; and Regional Development Agency, where any part of their area is in or adjoins the RPB's region. The Countryside Agency; the Historic Buildings and Monuments Commission for England; English Nature; and the Environment Agency, must also be consulted alongside any other body as the RPB considers appropriate.

How policy matters have been taken into account in the draft RSS (including those that cross boundaries) will be addressed at an Examination in Public.

Sleeping Rough

Sarah Teather: To ask the Deputy Prime Minister what definition his Department uses of sleeping rough. [55774]

Yvette Cooper: The definition of sleeping rough used by the Office of the Deputy Prime Minister is: people sleeping, or bedded down, in the open air (such as on the streets, or in doorways, parks or bus shelters); people in buildings or other places not designed for habitation (such as barns, sheds, car parks, cars, derelict boats, stations, or "bashes").

Town and Country Planning Act

Mr. Amess: To ask the Deputy Prime Minister if he will make a statement on the operation of section 78 of the Town and Country Planning Act 1990. [54307]

Yvette Cooper: Section 78 of the Town and Country Planning Act 1990 provides a right to appeal against planning decisions and failure to take such decisions. The right of appeal against refusal of a planning permission is a long-established part of our democratic system. When comprehensive planning controls were first introduced in 1947, Parliament decided that developers should have a right to appeal to the Secretary of State against a decision, or failure to decide an application, which prevented them from developing their land and property as they wished. This right has been carried forward into subsequent legislation and has remained an integral part of the planning system.

Women's Refuges

Jo Swinson: To ask the Deputy Prime Minister what initiatives his Department *(a)* has implemented and *(b)* plans to implement to assist local authorities to make progress towards a target of one women's refuge bed to every 10,000 population. [56576]

Yvette Cooper *[holding answer 6 March 2006]:* Best Value Performance Indicator (BVPI) 225, introduced on 1 April 2005, aims to assess the overall provision and effectiveness of local authority services in England, designed to help victims of domestic violence. It includes 11 questions covering a range of activities and is measured as a percentage score of the number of questions to which an authority can answer yes. Question 2 asks "Is there within the local authority area a minimum of 1 refuge place per ten thousand population?"

In 2003 the Government announced major investment in refuge provision in England in 2003–06. A total of £32.1 million capital has been allocated (£15.7 million through the Housing Corporation and £16.4 million from the Homelessness and Housing Support Directorate in ODPM), providing 427 units of accommodation.

The allocation was based on bids made by housing associations to the Housing Corporation. The bids were needs led and based on local priorities identified by local authorities in consultation with local domestic violence agencies, with priority given to projects arising from local authority housing and homelessness strategy reviews.

FOREIGN AND COMMONWEALTH AFFAIRS

Ascension Island

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's position is on *(a)* granting residents of Ascension Island permanent right of abode, *(b)* granting residents property rights with full legal title, *(c)* granting licences for commercial ventures on the Island, with particular reference to commercial air charters, *(d)* licensing commercial flights between St. Helena and Ascension if the former builds an airport and *(e)* the future of the Island Assembly's taxation and administrative powers; and if he will take steps to codify those powers in an agreement between the Assembly and British Government. [54476]

Mr. Douglas Alexander: I refer the hon. Member to the answers given by my noble Friend, the Foreign and Commonwealth Office Parliamentary Under-Secretary of State, Lord Triesman of Tottenham, on 6 March 2006, *Official Report*, columns 527–29 in response to parts *(a)*, *(b)* and *(d)* of his question.

Regarding the remaining questions, a small number of commercial ventures exist on Ascension Island in addition to the user organisations. There is, at present, no Ascension Island legislation for the licensing of these commercial ventures. The Attorney General of St. Helena and dependencies, in his capacity as Attorney General of Ascension Island, has confirmed that in the event of a commercial dispute, the English Law of Contract would apply. Nor is there local legislation relating specifically to commercial air charters. In the absence of such local legislation, Air Safety Support International would regulate this activity.

The Ascension Island Council does not have taxation and administrative powers—it is an advisory body with executive authority vested in the Governor of St. Helena and dependencies. The Government does not believe there is a need to further codify these powers in an agreement between the Council and the Government.

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs who was consulted on the terms of reference for the 2005 economic study of Ascension Island. [58744]

Mr. Douglas Alexander: The terms of reference were drawn up in close consultation with Government Departments, the governor of Ascension Island, the previous administrator of Ascension Island, and the BBC and Cable and Wireless as user organisations.

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what business case was made by the Overseas Territories Department when requesting authority to commission an economic study of Ascension Island in 2005. [58745]

Mr. Douglas Alexander: The economic study was commissioned by the Foreign and Commonwealth Office (FCO) in order to inform future Government policy towards Ascension Island. The study was intended to identify potential suitable governance models and give a realistic assessment of the possibility of economic development outside of direct Government financing. The study was paid for through the FCO Good Government Fund.

British Beef

Mr. Keetch: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will encourage British embassies and diplomatic missions in Europe to serve British beef. [58384]

Mr. Douglas Alexander: British embassies, high commissions and other diplomatic missions in Europe actively profile British products, including in their commercial and other events. In deciding what food to serve at official functions, each EU post must balance the promotional benefits of serving UK produce with

cost and availability. Our missions will continue to serve UK produce, including British beef, when it represents value for money to the British taxpayer.

Extradition Arrangements

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the United States Administration in relation to the implementation of revised extradition arrangements since 11 September 2001. [58498]

Dr. Howells: My right hon. Friend the Foreign Secretary has had no recent discussions with the US Administration about extradition arrangements.

Guantanamo Bay

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the appropriateness of the methods used by the US authorities to end the recent hunger strike in Guantanamo Bay prison; and if he will make a statement. [57165]

Dr. Howells: Our ambassador in Washington and his team discuss counter-terrorism and human rights issues, including the handling of detainees, with the US authorities on a daily basis. These discussions have included the issue of the hunger strike by a number of detainees in Guantanamo. The US authorities have repeatedly told us that they are concerned to ensure the welfare of the detainees. We will continue to discuss detainee issues with the US authorities as necessary.

Israel (Borders)

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is Government policy to regard the Green Line as the border of Israel. [57436]

Dr. Howells: We continue to believe that, as the Quartet (EU, UN, US and Russia) has consistently made clear, final status issues can only be resolved through negotiations and agreement between the parties themselves. Under Phase III of the Roadmap, both parties will determine their permanent borders through mutual agreement. We share the Quartet's goal of a two-state solution with Israel secure within her borders and Palestine established as a viable, contiguous state. We shall continue to work to this end.

The territory beyond the Green Line, which Israel occupied in June 1967, is occupied territory. UN Security Council Resolution 242 (1967), which the UK supported, calls for the withdrawal of Israeli armed forces from territories occupied in the recent conflict and the termination of all claims of belligerency and respect for and acknowledgement of the sovereignty, territorial integrity and political independence of every state in the area and their right to live in peace within secure and recognised boundaries free from threats or acts of force.

Settlement building on Palestinian land is illegal under international law and settlement construction is an obstacle to peace. The barrier's route should be on or behind the Green Line, and not on occupied territory. Construction of the barrier on Palestinian land is also illegal. We continue to raise both of these issues with the Israeli Government at all levels.

St. Helena

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many cases of cancer there have been on St. Helena over the last 30 years. [56808]

Mr. Thomas: I have been asked to reply.

St. Helena's Senior Medical Officer advises that health data are available only for the years 2000 to 2005. The total number of cases of cancer diagnosed on St. Helena from 2000 to 2005 is 84. This total is broken down by year, as follows:

	Cases of cancer
2000	10
2001	18
2002	12
2003	11
2004	9
2005	24

Data for the years 1975 to 1999 is held only on individual non-electronic health records and could be provided only at a disproportionate cost.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what is the estimated cost of building the airport and associated facilities on St. Helena. [56877]

Mr. Thomas: I have been asked to reply.

Our estimates have not been published, as to do so could commercially prejudice current procurement processes.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan to persuade it to co-operate more fully with the AMIS mission. [55396]

Ian Pearson: We regularly press the Government of Sudan to co-operate fully with the African Union Mission in Darfur (AMIS). My right hon. Friend the Secretary of State for International Development did so during his recent visit to Khartoum, as did my right hon. Friend the Foreign Secretary and my noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, during talks with the Sudanese Foreign Minister in London last month. We will sustain this pressure.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs how the UK Government are responding to the cholera outbreak in Yei, Southern Sudan; and what support is being provided to the Government of Southern Sudan to address potential disease outbreaks. [57179]

Hilary Benn: I have been asked to reply.

DFID has been closely monitoring the cholera outbreak in Southern Sudan since it began in late January. The outbreak started in Yei town in southern Sudan and subsequently spread to Juba and a dozen other towns further east and north. To date (12 March 2006) 212 people have died from the disease from a case load of 6,744. The recent outbreak and its subsequent rapid spread to neighbouring towns underlines the threat of disease while the imminent onset of the rainy season will serve to increase the difficulties faced by vulnerable people.

DFID has been active in supporting the co-ordination of response efforts in the south and in monitoring the situation. The Emergency Preparedness and Response Unit managed by the United Nations Office for the Co-ordination of Humanitarian Affairs (UNOCHA) together with the World Food Organisation (WHO) have been at the forefront of coordinating the response to the outbreak. DFID has been working closely with OCHA providing technical advice, support and funding.

Through the Emergency Response Fund (ERF) of UNOCHA, DFID has provided over $350,000 to eight UN agencies and non-governmental organisations assisting with the response to the cholera outbreak. An additional $750,000 of FID funds remain with the ERF for continued assistance to agencies if the disease spreads further.

To date, the large number of returns of refugees and Internally Displaced People predicted by the UN and others have still not taken place. There is still potential or significant movement in the run up to the rainy season though this is considered unlikely.

The outbreak of cholera has affected the returns programme. The return programme for up to 4000 people from Juba to Bor has been suspended because of fears of further disease transmission. With DFID support, various agencies are responding to the cholera outbreak at Lologo returnee way-station near Juba and at Bor way-station which currently holds approximately 1000 returnees. Other DFID supported initiatives include health education, containment centres, and water and sanitation initiatives.

In addition to supporting such chronic and rapid onset emergencies, the UK is providing early and significant contributions to the UN 2006 Work Plan, from which the UN Humanitarian Co-ordinator has already allocated over $40 million to the South, including an allocation of US$500,000 to the Emergency Response Fund. The UN Humanitarian Co-ordinator additionally holds an emergency reserve of $10 million (to which DFID was a significant contributor) which could be accessed to scale up the response to the outbreak should the need arise.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what contingency plans are in place if the proposed travel ban and freezing of assets of Sudanese Government, militia and rebel leaders are not adopted by the UN Security Council. [57702]

Ian Pearson: At present our efforts are fully focussed on pressing for swift action by the UN Sudan Sanctions Committee, to impose sanctions against those who violate human rights or impede the peace process in Sudan. We will consider how to proceed in the light of developments in New York.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is Government policy to seek to indict those responsible for human rights abuses in Sudan for referral to the International Criminal Court. [58740]

Ian Pearson: The Government has consistently made clear that those responsible for the terrible crimes committed in Sudan should be brought to justice. The UK strongly supported UN Security Council Resolution 1593 that referred the situation in Darfur to the International Criminal Court (ICC).

It is for the ICC to consider the evidence and to make decisions regarding the indictment of specific individuals.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government in *(a)* Khartoum and *(b)* Juba about the fulfilment of the International Criminal Court warrants served on the leaders of the Lord's Resistance Army. [58742]

Dr. Howells: My right hon. Friend the Foreign Secretary and my noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, met with the Sudanese Foreign Minister, Lam Akol, on 3 February 2006. They pressed him to take steps to disarm members of foreign militias and of armed groups, including the Lord's Resistance Army (LRA), and apprehend individuals subject to arrest warrants of the International Criminal Court (ICC).

Our ambassador in Khartoum also stressed the importance of full co-operation with the ICC with regard to warrants served on the LRA, when he met the First Vice President of Sudan and the President of the Government of Southern Sudan, Salva Kiir, in a meeting on 20 December 2005.

The Government will continue to support the ICC as it takes forward its investigation, and to maintain pressure on all parties, including the Government of Sudan, to provide full co-operation as requested by the ICC and the UN Security Council.

Written Answers to Questions

Thursday 16 March 2006

SOLICITOR-GENERAL

Case Adjournments

25. **Rosemary McKenna:** To ask the Solicitor-General what steps the Crown Prosecution Service is taking to reduce the number of unnecessary adjournments in the courts. [58775]

The Solicitor-General: The Charging Programme is a key method of reducing unnecessary adjournments. If the police and CPS can get cases prepared properly before the defendant is charged, the unnecessary delays can be avoided later in the process.

Crown Prosecution Service

26. **John Bercow:** To ask the Solicitor-General what recent assessment he has made of the value for money provided by the Crown Prosecution Service. [58776]

The Solicitor-General: I have regular discussions with the CPS about expenditure, performance and efficiency. Key projects delivering good value for money include charging, greater in-house advocacy and electronic case management.

A recent National Audit Office (NAO) report has provided useful advice on value for money.

Revenue and Customs

27. **Mr. Russell Brown:** To ask the Solicitor-General whether the Revenue and Customs Prosecution Office is meeting its performance targets. [58777]

The Solicitor-General: The Revenue and Customs Prosecutions Office (RCPO) came into being on 18 April 2005. Longer-term performance indicators and targets are being developed as part of the strategic aim to establish RCPO as an effective and fully independent prosecutor.

Currently RCPO is achieving a conviction rate of 88.6 per cent. and guilty pleas are running at 75.9 per cent. For 2005–06 to date, £18 million has been collected in payments from confiscation orders.

Electoral Registrations

28. **Mr. Hands:** To ask the Solicitor-General what assessment he has made of the conduct of prosecutions in relation to the non-completion of electoral registration forms since 1997. [58778]

The Solicitor-General: Prosecutions for election offences are conducted by the Special Crime Division of the Crown Prosecution Service.

If electoral form means the form for registration as an elector, Special Crime Division is unaware of cases having been submitted concerning the non-completion of such forms. It therefore follows that no assessment has been made of them.

Terrorism

Dr. Julian Lewis: To ask the Solicitor-General what his policy is in respect of prosecuting *(a)* citizens of the UK and *(b)* non-UK nationals resident in the United Kingdom who have (i) taken-up arms against UK or other coalition forces and (ii) trained in terrorist camps before returning to British jurisdiction. [58660]

The Solicitor-General: There is no difference in prosecution policy towards the prosecution of either UK or non-UK citizens. All cases sent to the CPS are reviewed in accordance with the Code for Crown Prosecutors whatever the nature of the allegation or the nationality of the suspect. A small number of offences such as murder abroad can only be prosecuted if the perpetrator is a UK citizen.

EDUCATION AND SKILLS

School Repairs (Leicester)

16. **Keith Vaz:** To ask the Secretary of State for Education and Skills if she will visit Leicester to discuss school repairs. [58794]

Jacqui Smith: Leicester City is in Wave 1 of Building Schools for the Future, our strategic programme to transform the secondary-school estate over 15 years. I would be happy to visit Leicester when the first new school is finished. Leicester City and its schools will be allocated over £280 million in this and the next two years to improve and repair their buildings.

Trust Schools

17. **Michael Fabricant:** To ask the Secretary of State for Education and Skills what powers new trust schools will have beyond those already available to foundation schools; and if she will make a statement. [58795]

Jacqui Smith: I refer the hon. Member to the reply I gave earlier today to the hon. Member for Hammersmith and Fulham.

Three-tier Education

18. **Andrew Selous:** To ask the Secretary of State for Education and Skills if she will make a statement on the Government's policy on three-tier education. [58796]

Jacqui Smith: The Government's aim is to ensure every child receives an excellent education tailored to their needs. It is for local authorities to determine the most appropriate organisation for their schools to achieve this aim—including whether to operate a three or two tier organisation. The Education and Inspections Bill reinforces the position of local authorities as the commissioners of education in their areas, and places new duties on them to promote choice and diversity and respond to parental demand when carrying out their responsibilities.

Truancy (West Midlands)

19. **Mr. Jim Cunningham:** To ask the Secretary of State for Education and Skills what the truancy levels in schools in Coventry, South and the west midlands were in the last period for which figures are available. [58797]

Jacqui Smith: The Department does not collect data on the levels of truancy. In 2004/05 the level of unauthorised absence in Primary schools in Coventry South was 0.2 per cent. and for Secondary schools 1.1 per cent. The figures for the West Midlands were 0.37 per cent. for Primary schools and 1.08 per cent. for Secondary schools. Truancy forms only one part of the unauthorised absence figures.

Volunteering

20. **Ms Angela C. Smith:** To ask the Secretary of State for Education and Skills what steps the Government are taking to increase the numbers of young people involved in volunteering activities. [58798]

Beverley Hughes: The Government are working very closely with the Russell Commission to meet the challenge of one million new young people in volunteering and community action over the next five years. We will be building on the success of the Millennium Volunteers programme which has engaged over 240,000 young volunteers since it was launched by this Government in 1999. The recently published "Youth Matters: Next Steps" sets out the strategic direction for this work.

Adult Education

Helen Jones: To ask the Secretary of State for Education and Skills what percentage of adults who enrolled for *(a)* further education courses and *(b)* adult and community learning courses already had qualifications at (i) level 3 or above, (ii) level 2, (iii) level 1 and (iv) below level 1 in the academic year (A) 2002–03, (B) 2003–04 and (C) 2004–05. [58881]

Phil Hope: The Labour Force Survey (LFS) winter quarter can be used to provide estimates of the prior qualification levels of learners on further education (FE) courses and adult community learning (ACL) courses. The estimates corresponding to academic years 2002–03 to 2004–05 are shown in the following table.

Prior qualification level of adult learners in further education and adult community learning institutions, England

Percentage

		LFS quarter	
Institution type	*Winter 2002 (2002/03)*	*Winter 2003 (2003/04)*	*Winter 2004 (2004/05)*
Level 3+			
FE	41	42	39
ACL	42	38	40
Level 2			
FE	31	30	31
ACL	28	26	20
Below level 2[1]			
FE	22	21	23
ACL	21	26	23

Prior qualification level of adult learners in further education and adult community learning institutions, England

Percentage

		LFS quarter	
Institution type	*Winter 2002 (2002/03)*	*Winter 2003 (2003/04)*	*Winter 2004 (2004/05)*
No qualifications[1]			
FE	6	7	7
ACL	9	10	17

[1] For qualification levels below level 2 the categories provided match those used in the LFS, and differ from those requested.

Note:
Adults are defined as men aged 18–64 and women aged 18–59.

Source:
LFS Winter Quarters 2002–04

Basic Skills

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what progress has been made towards *(a)* improving the basic skill levels of adults, *(b)* ensuring that one million adults in the work force achieve NVQ level 2 between 2003 and 2006 and *(c)* increasing participation in higher education for those aged 18 to 30 years by 50 per cent. by 2010. [58013]

Phil Hope: From April 2001 to July 2005,1,275,000 adults have achieved a qualification in literacy, language or numeracy and have counted towards the "Skills for Life" PSA target.

The autumn 2005 Labour Force Survey shows that the number of adults in the work force with a NVQ level 2 or higher qualification has increased by 841,000 since autumn 2002, the baseline for the 2006 milestone of the adult level 2 PSA target.

The Higher Education Initial Participation Rate (HEIPR) measures progress in relation to the target to increase participation in higher education toward 50 per cent. of young people aged 18 to 30. The provisional figure for the HEIPR for 2003/04 was 43 per cent., up from 41 per cent. in 1999/00.

Child Care

Mr. Jenkins: To ask the Secretary of State for Education and Skills what assessment she has made of the availability of child care for parents who work at weekends; and if she will make a statement. [57868]

Beverley Hughes: We do not collect centrally data for the availability of child care for parents who work at weekends. However, the "Repeat Study of Parents' Demand for Childcare (2002)" survey captures information on the use of child care. It reported that around 22 per cent. of lone parent households and 11 per cent. of couples used weekend child care.

The Childcare Bill, which had its 3rd reading in the House of Commons on the 9 March, places a duty on local authorities to secure, as far as is reasonably practicable, sufficient child care in order to enable parents to take up or remain in work or education and training.

Local authorities will be required to assess the needs of parents, including for child care at weekend and other atypical working patterns, and take them into account when deciding how to develop strategies for meeting local need.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many childminders have been registered since the introduction of the new light touch voluntary accreditation scheme announced in Budget 2004. [59083]

Beverley Hughes: 9,102 childminders have registered with Ofsted since 6 April 2005 when voluntary accreditation was introduced. The Childcare Approval Scheme (GAS) is for two groups:

providers of childcare provided in the child's home—for instance a nanny;

and childminders providing care for children over the age of 7.

1,632 carers were approved under the (CAS) in the same period. We do not distinguish between these two groups in the data collection.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what capital investment from her Department has been spent on the provision of child care services for three and four-year-olds; and if she will make a statement. [59084]

Beverley Hughes: The General Sure Start Grant made available £335.8 million capital in 2004–06 for the delivery of children's services. Local authorities have been given the freedom to use funding to develop a range of provision including creating children's centres, expanding playgroups and nurseries; this includes child care provision for three and four-year-olds.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what child care services the additional capital investment in *(a)* 2006–07 and *(b)* 2007–08 will fund; and if she will make a statement. [59085]

Beverley Hughes: The General Sure Start Grant will make available £420.7 million in 2006–07 and £392.4 million in 2007–08 in capital funding. Local authorities have been given the freedom to determine how best to invest these funds to deliver the Ten Year Childcare Strategy, including the development of children's centres, extended schools and other child care.

Children's Centres

Annette Brooke: To ask the Secretary of State for Education and Skills (1) what types of early interventions children's centres are expected to offer families with a disabled child; [58736]

(2) how many disabled children, as defined by the Disability Discrimination Act 1995, have received a service from Sure Start local programmes. [58737]

Beverley Hughes: The Sure Start Children's Centres Practice Guidance, published in November 2005, states clearly that disabled children should be fully included in all services provided by children's centres. It highlights the need to tailor services to meet the needs of individual disabled children. It outlines appropriate services, including: family support, portage and home-visiting; key workers to help parents of severely disabled children access services; therapy; early years provision and information. It also indicates that children's centres should use the Early Support resources and approaches to provide effective early intervention.

Information on how many disabled children have received a service from Sure Start local programmes is not available centrally.

Degree Systems

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills what steps she plans to take to reconcile *(a)* the two year accelerated degrees proposed in the 2003 Higher Education White Paper and *(b)* the five and six year medicine and dentistry courses with the three cycle degree system proposed in the Bologna process. [58978]

Bill Rammell: The Bologna process is about responding to the challenge of globalisation and improving the competitiveness of European higher education. While it seeks to improve the compatibility and comparability of European higher education systems, it is not about harmonisation.

Work on the feasibility of two year accelerated degrees in England is being taken forward through a series of pilot exercises in a number of individual higher education institutions (HEIs). Before we take any decision about enabling HEIs to offer accelerated degrees more widely, we will need to be satisfied that the learning outcomes from such courses are equivalent in terms of the knowledge, competences and skills acquired by students to those of a more traditional course.

Medicine and dentistry courses prepare students not only in the theory of their subject but also give them a range of practical experience leading ultimately to a licence to practise. The arrangements in other European countries are similar. The implications of the Bologna process for medical and dental qualifications also need to be considered alongside EU directives on the mutual recognition of professional qualifications within EU countries. The higher education sector is currently considering, with expert stakeholders from both the medical and dental fields, whether any further action is needed to align these courses more closely to the Bologna principles.

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills what plans she has to protect four-year mechanical engineering courses following the proposed three cycle degree system under the Bologna process. [58980]

Bill Rammell: Four year courses leading to a Masters qualification exist in a number of higher education institutions in several scientific disciplines. I understand that they are popular with both students and employers. Decisions on whether or not to offer such courses are a matter for individual institutions. Provided these courses achieve learning outcomes that are equivalent to those of the more traditional Bachelors/Masters model, that they conform to the Bologna principles.

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills what guidance she has issued to higher education institutions on how best to engage with the Bologna process. [58982]

Bill Rammell: The Department works closely with the sector-wide UK Higher Education (HE) Europe unit to raise awareness of the Bologna process among higher

education institutions (HEIs) in the UK. Last year the Europe unit produced a guide to the Bologna process for the sector. The unit holds regular discussion groups and conferences on Bologna themes and issues policy position statements and newsletters. The Department also works with the network of UK Bologna promoters that is funded by the European Commission. They are based in individual HEIs and are active in supporting the implementation of Bologna process across the UK.

European Institute of Technology

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills what representations she has received from higher education establishments on the European Commission's proposal to establish a European Institute of Technology. [58976]

Bill Rammell: I have received direct representations from Universities UK (UUK) on the Commission's proposal to establish the European Institute of Technology (EIT). I understand that some UK universities also wrote directly to the Commission about this. The universities raised a number of concerns about the proposal, including the risk that the EIT would unhelpfully divert funding from the Framework Programme 7 or the European Research Council.

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills if she will make a statement on the European Commission's proposal to establish a European Institute of Technology. [58981]

Bill Rammell: I refer the hon. Member to the reply given on 27 February 2006, *Official Report*, column 530W.

Exam Results

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 2 February 2006, *Official Report*, column 678W, on exam results, what the average A level attainment of entrants to undergraduate courses leading to qualified teacher status has been in each year since 2002–03, based on the best three qualifications; and what proportion of entrants attained *(a)* at least (i) 360, (ii) 300, (iii) 240, (iv) 180 and (v) 120 and *(b)* fewer than 120 points in their three best A levels in each year since 2002–03. [50633]

Bill Rammell: The information is not held centrally. The data collected by the Higher Education Statistics Agency (HESA) on the highest qualification of undergraduate entrants shows the number of A levels obtained and the total A level tariff score, but because tariff scores are not collected for individual A levels it is not possible to derive the tariff score for the three best A levels.

Labour Market Needs

Helen Jones: To ask the Secretary of State for Education and Skills what forecasts of future skills and labour market needs have been carried out in each of the local Learning and Skills Council areas; and what steps have been taken to act on the data collected. [58885]

Bill Rammell: All local LSCs are required to prepare a plan for each financial year. The plan includes an assessment of the skills and training needed to meet the needs of individuals and employers in the area; and proposals on how the local council intends to carry out its functions, and achieve the objectives and priorities identified in the plan. Plans for 2006–07 are being finalised and will be published on the LSC's website shortly.

Data on skills and labour market needs in each of the local Learning and Skills Council areas is also contained in the Working Futures 2004 to 2014 reports, commissioned by the Sector Skills Development Agency (SSDA), and available on their website at www.ssda.org.uk. Local LSCs will be using this information to inform their plans.

Parliamentary Questions

Mr. Frank Field: To ask the Secretary of State for Education and Skills when she expects to give a substantive answer to question reference 55453, on early years programme funds, tabled by the right hon. Member for Birkenhead on 27 February. [59154]

Beverley Hughes: I replied to my right hon. Friend on 14 March 2006.

Special Advisers (Overseas Visits)

Keith Vaz: To ask the Secretary of State for Education and Skills how many overseas visits special advisers in her Department made in an official capacity since January 2004; what places were visited; and how much each visit cost. [52672]

Ruth Kelly: Since 1999 the Government have published, on an annual basis, the total costs of all ministerial overseas travel and a list of all visits by Cabinet Ministers costing in excess of £500. Copies of the lists are available in the Library of the House. Information for the financial year 2004–05 was published on 21 July 2005, *Official Report*, 158WS. Between 31 January 2004 and 31 January 2006, a special adviser accompanied me on one visit to Brussels. The travel costs of special advisers accompanying Ministers on overseas are included in the annual list of overseas travel by Cabinet Ministers. Information for the financial year 2005–06 is in the process of being collated and will be published when it is ready.

All official travel by special advisers is undertaken in accordance with the guidance set out in the "Ministerial Code" and the "Civil Service Management Code".

Student [illegible]

Tim Farron: To ask the Secretary of State for Education and Skills how many graduates are waiting for their 2004–05 student loan repayments to be transferred from HM Revenue and Customs to the Student Loans Company. [58592]

Bill Rammell *[holding answer 14 March 2006]:* Some borrowers' student loan accounts have not yet been updated with 2004–05 repayment information as there have been some delays in HMRC processing Employer's Annual Returns for 2004–05. HMRC anticipates that the bulk of all 2004–05 Employer's Annual Returns will have been processed by the end of April 2006. We will not know how many accounts are affected by this delay until all returns have been processed, as not all student loan borrowers will have

been due to make repayments. However borrowers who have made repayments will be able to calculate from their payslips amounts they have repaid and thus the balance outstanding.

Sure Start

Chris Ruane: To ask the Secretary of State for Education and Skills how many Sure Start places there are in each local authority area of England; and how many places there are per 10,000 children in each area, ranked in descending order. [57380]

Beverley Hughes: The information requested has been placed in the House Libraries.

Annette Brooke: To ask the Secretary of State for Education and Skills when the Government will report on progress on the Sure Start targets of an increase in the proportion of children with *(a)* satisfactory speech and language development at age two years, *(b)* normal levels of communication, language and literacy at age five years and *(c)* normal levels of personal, social and emotional development for their age; and if she will make a statement. [58730]

Beverley Hughes: The Department for Education and Skills' "Autumn Performance Report 2005" (Cm 6719) explained that the Sure Start targets set in Spending Review 2002 for increases in the proportion of children aged five reaching normal levels of communication, language and literacy and normal levels of personal, social and emotional development for their age, will be measured under Spending Review 2004 public service agreement (PSA) target 1. The baseline and target for PSA target 1 is currently being established and will be available in the next departmental report, which will be published later this year.

The final 2005 figures for the foundation stage profile in England were published in Statistical First Release 03/2006 "Foundation Stage Profile 2005: National Results (Final)" on 16 February 2006, a copy of which is available on my Department's website at www.dfes.gov.uk/rsgateway/

The Sure Start language measure assesses children with satisfactory speech and language development at age two in Sure Start communities. The proportion of children both with high word count scores and whose parents were free of concerns about their child's development rose from 73 per cent. in 2003 to 76 per cent. in 2004. Results for 2005 will be available in the next departmental report.

Teenage Pregnancies

Mr. Stewart Jackson: To ask the Secretary of State for Education and Skills what steps she is taking to reduce the incidence of teenage pregnancy in the eastern region. [57280]

Beverley Hughes: Following the launch of the Government's Teenage Pregnancy Strategy in 1999, each local authority was asked to put in place a strategy to reduce local under-18 conception rates by between 40–60 per cent. by 2010. These local targets underpin the national target to halve England's under-18 conception rate by 2010. Local strategies focus on: improving the effectiveness of sex and relationships education (SRE) in schools; improving young people's access to contraceptive and sexual health advice; and supporting parents so they are better able to talk to their children about relationships and sexual health. This is supported by a national media campaign on local radio and in teen magazines, with key messages on: the benefits of delaying early sex; resisting peer pressure; and promoting condom use among young people who are already sexually active.

Data for 2004 (published in February 2006) shows that since the 1998 baseline year, the under-18 conception rate has fallen by 11.1 per cent. and the under-16 rate has fallen by 15.2 per cent. Both rates are now at their lowest levels since the mid-1980s. The decline in the under-18 conception rate in eastern region over the same period is 13.4 per cent. A full analysis of the causes of teenage pregnancy will be included in a strategy document setting out the next phase of the teenage pregnancy strategy, due to be published shortly.

Top-up Fees

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills what research her Department has commissioned on the likely impact of the new top-up fees regime on the number of EU domiciled students choosing to study at higher education institutions in England. [58979]

Bill Rammell: The Department has not commissioned any research on the impact of the top-up fees regime on the number of EU domiciled students studying at English higher education institutions. However we will continue to monitor student numbers and any trends in applicants from EU countries. The cost of travelling to and living in the UK will continue to be an important factor in any decision taken by EU nationals who wish to study in the UK.

PRIME MINISTER

Aircraft Sales (Iran)

Mrs. May: To ask the Prime Minister on what date he was first informed of the letter written by Mr. David Mills to Baroness Symons in 2002 on Government assistance for the sale of aircraft to Iran. [59093]

The Prime Minister: I have nothing further to add to the letter sent by my right hon. Friend the Foreign Secretary (Jack Straw) to the right hon. and learned Member for Devizes (Michael Ancram) on 24 January 2005.

Alistair Campbell

Mr. Wallace: To ask the Prime Minister what work Mr. Alistair Campbell has undertaken for the Government since January 2005. [58049]

The Prime Minister: I refer the hon. Member to the answer I gave to the hon. Member for New Forest, East (Dr. Lewis) on 20 December 2004, *Official Report*, column 1353W.

Cabinet Discussions (Iran)

Mrs. May: To ask the Prime Minister (1) on what basis the decision was first taken that the right hon. Member for Dulwich and West Norwood (Tessa Jowell) should not participate in Cabinet discussions on Iran; and what the basis is for her continued absence from such discussions; [59090]

(2) on what date the right hon. Member for Dulwich and West Norwood (Tessa Jowell) first absented herself from discussions in Cabinet and Cabinet Committees on matters relating to Iran; [59091]

(3) on what date the decision was taken that the right hon. Member for Dulwich and West Norwood (Tessa Jowell) should not participate in Cabinet discussions about Iran. [59092]

Mr. Andrew Turner: To ask the Prime Minister if he will list the occasions in the current Parliament when members of the Cabinet have withdrawn from discussions in consideration of actual or perceived conflict of interest. [59153]

The Prime Minister: I refer the right hon. and hon. Members to the press briefing given by my official spokesman on 13 March 2006, a copy of which is available on the Number 10 website. Information relating to the proceedings of Cabinet is not disclosed.

Departmental Estate

Mr. Liddell-Grainger: To ask the Prime Minister what the total cost of building work at 10 Downing Street has been in the last three years. [55281]

The Prime Minister: The Downing Street complex, made up of Numbers 10, 11 and 12, is maintained to standards appropriate to its Grade 1/2 listed status in consultation with English Heritage. The building also fulfils an important representational role.

The total cost of refurbishment, maintenance and structural improvements for the whole Downing Street complex in the last three years has been:

	£
2002–03	420,085
2003–04	547,911
2004–05	471,566

Figures for 2005–06 are not yet available.

Honours

Mr. Gordon Prentice: To ask the Prime Minister whether he has been informed by the House of Lords Appointments Committee of the reasons why certain recent nominees for a peerage were rejected; and if he will make a statement. [58989]

The Prime Minister: I refer my hon. Friend to the answer I gave him on 27 February 2006, *Official Report*, column 36W.

Mr. Gordon Prentice: To ask the Prime Minister if he will reconsider his Department's response to the recommendation of the Public Administration Select Committee to set up an independent honours commission; and if he will make a statement. [59001]

The Prime Minister: The Command Paper "Reform of the Honours System" (Cm 6479) sets out the Government position. Copies are available in the Libraries of the House.

In-patient Treatment

Mr. Mahmood: To ask the Prime Minister, how many people were waiting more than 15 months for in-patient treatment in *(a)* March 1997 and *(b)* January 2006. [59752]

The Prime Minister: In 1997 5,733 patients were waiting for more than 15 months. Waiting lists by time band for the period January 2005–06 were published by the Department of Health on 3 March 2006 and can be found on the Department of Health website and in the Library of the House.

In my answer to the right hon. Member for Witney (David Cameron) on 8 March 2006, *Official Report*, column 813, I inadvertently said that almost 300,000 people used to wait more than 15 months for their operation in 1997. This should have referred to the almost 300,000 people who waited more than 6 months for their operation in 1997.

Official Residences

Philip Davies: To ask the Prime Minister when he expects the right hon. Member for Sheffield, Brightside (Mr. Blunkett) to move out of the Home Secretary's official residence. [58562]

Mr. Pickles: To ask the Prime Minister on what date the right hon. Member for Sheffield, Brightside (Mr. Blunkett) left his official residence. [59184]

The Prime Minister: My right hon. Friend has already done so.

Patronage

Mr. Gordon Prentice: To ask the Prime Minister when he expects the House of Lords Appointments Commission to give its approval to the latest list of nominations for the peerage; and if he will make a statement. [57408]

The Prime Minister: I refer my hon. Friend to the answer I gave him on 27 February 2006, *Official Report*, column 36W.

Peerages

Lynne Jones: To ask the Prime Minister what factors he took into account in recommending Sir Nigel Crisp for a peerage; and if he will make a statement. [58212]

The Prime Minister: As I said at Prime Minister's questions on 8 March 2006, *Official Report*, column 813W, Sir Nigel Crisp was a superb public servant who has overseen a transformation in the health service. He will be able to make a significant contribution to the work of the House of Lords.

State Opening of Parliament

Daniel Kawczynski: To ask the Prime Minister what recent discussions he has had on the Sovereign's role in the State Opening of Parliament. [57341]

The Prime Minister: Information relating to internal meetings, discussion and advice is not disclosed as to do so could harm the frankness and candour of internal discussion.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Flood Prevention

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs if she will increase expenditure on flood risk prevention measures, including the maintenance of existing defences. [56929]

Mr. Morley: Government funding (central and local) for flood and coastal erosion risk management has increased from £307 million in 1996–97 to an estimated outturn of some £600 million in 2005–06. Defra funding allocations have been fixed up to 2007–08 and for later years will be considered in the Government's Comprehensive Spending Review in 2007.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what percentage margin of error she has allowed for her predictions of sea level rise on the East coast of England over the next *(a)* 10, *(b)* 20, *(c)* 50 and *(d)* 100 years; [56931]

(2) what the average level of sea rise was over the last 10 years on the East coast of England due to *(a)* climate change and *(b)* isostatic change; and what estimate she has made of the rise over the next (i) 10, (ii) 20, (iii) 50 and (iv) 100 years; [56935]

(3) what criteria were used in making the decision to require the Environment Agency and other operating authorities to assume that isostatic change on the East coast will be 1.5 mm a year; and what account was taken of the latest UK Climate Change Impacts Programme data in making the decision. [56936]

Mr. Morley: The Department does not issue predictions over these time periods. The UK Climate Impacts Programme (UKCIP) is funded by Defra and based at the university of Oxford. Their projections for sea level rise were last updated in November 2005 and are given in the form of ranges. For Eastern England these were from 17 cm (low emissions of "greenhouse" gases, lowest estimate) to 77 cm (high emissions, highest estimate), including isostatic subsidence of 0.8 mm per year, for the period from 1975 to 2085. (The years 1975 and 2085 are the mid-points of the periods to which these estimates relate—1961–90 and 2071–2100 respectively.)

These ranges indicate the uncertainty inherent in such predictions which increases the further into the future one attempts to predict. There is significant inter-annual fluctuation in sea levels due to long-term tidal cycles and meteorological effects. It is not therefore helpful to look at relatively short-term changes over a single decade. The underlying rate of relative sea level rise in South and East England that takes account of both land level change and sea level rise has been of the order of 2 mm per year for recent decades.

The Department used the range of estimates published in the UKCIP 2002 report (from 22 cm to 82 cm for Eastern England for the period 1975 to 2085, including isostatic subsidence of 1.2 mm per year) as the basis of recommended allowances for use in the design and appraisal of coastal defences over the next 50 years that aim to balance appropriate precaution with the need to avoid expenditure on unnecessary works. For Eastern England the recommended allowance is 6 mm per year or 48 cm for the period 1975 to 2055 compared to the UK CIP estimate under high emissions of 42 cm for the same period. We are in discussion with the Environment Agency regarding appropriate allowances for the latter part of the century and expect to issue further interim guidance later in the year.

The changes between the UKCIP 2002 and 2005 estimates reflect changes in the isostatic (land movement) estimates. The main source on long term land movement in the UK, used as the basis for this recommendation and the UKCIP reports is the work of Ian Shennan at Durham university. The Defra recommended allowances have not been changed to reflect the 2005 change in estimate of land subsidence in Eastern England published by UKCIP. This and other evidence will be considered when the allowances are next reviewed but it is clear that they still represent a reasonably precautionary approach to the middle of the century. In view of the long term nature of coastal risk management investments and the time taken for project development, it is desirable that there should not be frequent fluctuations in the Defra recommended allowances.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Treasury on setting a figure of 4.5 mm a year for sea level rise over the next 100 years for every tidal location in the UK as the basis for developing flood management strategies and shoreline management plans. [56932]

Mr. Morley: Defra has not had any specific discussions with HM Treasury on any particular estimates of sea level rise. The 4.5 mm per year is the average predicted sea level rise for every tidal location in England and Wales. This allowance is adjusted for long term land movement. The guidance was reviewed in 2003 and no changes were recommended. These allowances are published on our website and are subject to periodic reviews.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the degree of variation between national and local data on sea level rise *(a)* along the Suffolk coast and *(b)* in Suffolk estuaries; and if she will take steps to measure local variations. [56933]

Mr. Morley: No specific studies of these local variations have been made by Defra, though the national studies supported by the Department take account of data from the national network of tide gauges, including those at Lowestoft and Felixstowe. There are no plans for more local studies. They would be matters for the local operating authorities to consider, though caution would be needed in ensuring that any apparent short-term local trends were representative of wider underlying changes.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what account is taken in the allocation of capital grants for flood and river defence schemes between coastal and inland flood defence projects of *(a)* national priorities for protecting parts of the coast within areas of outstanding natural beauty and *(b)* maintaining high levels of employment and economic activity within these areas. [56963]

Mr. Morley: In order to be eligible for Defra grant, capital improvement projects must satisfy basic technical, economic and environmental criteria and the priority score requirement for the year in which they start.

Economic justification for proposed investment should as far as possible take into account benefits arising from protection of all assets, including those relating to the environment and economic activity such as tourism. Higher benefits in relation to costs will tend to increase a proposed project's priority for funding. No specific extra priority is given in the scoring system to projects which would reduce flood risk to areas of outstanding natural beauty but such a benefit could be included in the scoring system insofar as it could be quantified. The scoring system does not allocate grant between coastal and inland sites. Individual projects are considered equally for grant using the same criteria regardless of location.

It is important to note that the priority scoring system does not attempt to determine the need for defences in an absolute sense but to prioritise proposed projects so that finite funding is allocated to best effect nationally.

Flood Insurance

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what representations her Department has received on the availability of insurance to those who have been affected by flooding; [59438]

(2) what steps she plans to take to ensure that *(a)* commercial and *(b)* domestic properties in areas prone to flooding can obtain insurance cover; [59439]

(3) what discussions she has had with *(a)* the Chancellor of the Exchequer and *(b)* the Secretary of State for Trade and Industry on insurance for properties prone to flooding. [59440]

Mr. Morley: The Government continue to work with the Association of British Insurers (ABI) with a mutual aim of continuing affordable domestic flood cover into the future. The ABI has agreed and published on their website a "Statement of Principles" which sets out the commitments made by the insurance industry to maintain flood insurance cover for the majority of domestic and small business properties at risk in association with commitments made by the Government on flood risk management.

Decisions by insurers are risk-based and unfortunately the industry is not able to provide insurance cover to 100 per cent. of properties at risk. Representations have been received relating to cases where people have experienced problems in obtaining insurance cover. However, the number of such representations is in line with our understanding that cover has continued to be available at competitive cost to the vast majority of properties in areas at risk of flooding.

Policy on insurance in general is a matter for Treasury. Officials from Treasury are included in our discussions with ABI but otherwise I have had no specific discussions on the matter with either the Chancellor or the Secretary of State for Trade and Industry.

Mobile Telephone Masts (Guildford)

Anne Milton: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department has issued notice of contractual terminations to mobile phone companies relating to mobile telephone masts located in her departmental offices in Epsom Road, Merrow, Guildford. [58048]

Jim Knight: The Department has not issued a notice of termination to any mobile phone company in relation to telephone masts at its Epsom Road, Guildford offices.

A lease expires on 10 July 2006 and appropriate discussions will commence with the provider prior to that date.

Pandemic Influenza

Sir John Stanley: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she plans to take to ensure continuity of satisfactory water supplies in the event of an outbreak of pandemic influenza; and if she will make a statement. [58262]

Mr. Morley: My Department has liaised closely with water companies about their preparedness in the event of a flu pandemic. Water companies are aware of the Department of Health's influenza pandemic plan and are able to access it. They know the minimum staffing levels required for their key functions and they have taken this issue into account in their business continuity plans to ensure that they will have sufficient manpower available to maintain the delivery of water supplies.

Pollution

Mrs. Dorries: To ask the Secretary of State for Environment, Food and Rural Affairs what monitoring the Government undertakes of nitrous oxide levels in water supplies in *(a)* Bedfordshire and *(b)* England; and if she will make a statement. [58545]

Mr. Morley: Nitrous oxide is a trace gas in the atmosphere. It is produced naturally mainly by the bacteriological breakdown of nitrogen in oceans and the soils of rainforests. Its common name is "laughing gas" and it is best known for its use as an anaesthetic in clinical dentistry. Approximately 65 per cent. of nitrous oxide emissions are accounted for by natural processes, the remainder is due to man's activities such as artificial fertilisers, manure fertilisers, fossil fuel combustion degradation (and nylon production. Other uses of nitrous oxide are as a propellant in aerosol cans, in place of CFCs and it is occasionally used in the fuel lines of racing cars to enhance acceleration.

Drinking water supplies in England and Wales are tested for only those substances of relevance to public health. Tests are done routinely for nitrate and nitrite but not for nitrous oxide. The World Health Organisation has not found it necessary on health grounds to set a guideline value for nitrous oxide in drinking water. Likewise there is no standard set in the EU Drinking Water Directive and no requirement in the drinking water regulations for England and Wales for water companies to monitor drinking water supplies for nitrous oxide. Details of nitrate and nitrite standards and concentrations in drinking water are published on the website of the Drinking Water Inspectorate www.dwi.gov.uk. Consumers in Bedfordshire can obtain the most up to date drinking water quality testing results for their homes and workplaces directly from their local water company.

Because nitrous oxide is a greenhouse gas, environmental scientists have shown an interest in its concentration in the water environment. A correlation between the natural water concentrations of nitrate and nitrous oxide is recorded in the scientific literature pointing towards nitrification in soil as a main production mechanism of nitrous oxide in groundwater. However, nitrous oxide is not only produced as an intermediate step in the process of nitrification of ammonia in the presence of oxygen but it is also produced by denitrification of nitrate in the absence of oxygen. A NERC funded study of groundwater concentrations in the R. Bure catchment area of Norfolk was undertaken by University of East Anglia in 2001. The Environment Agency is responsible for determining the monitoring requirements for rivers and groundwater in England and Wales.

Renewable Energy

Mr. Soames: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what her Department's policy is on biofuels; [57787]

(2) what support her Department gives to the agricultural sector to grow and process alternative crops for renewable energy; [57788]

(3) what steps she is taking *(a)* to promote alternative crops for renewable energy and *(b)* to encourage the establishment of biofuel processing plants in England; [57789]

Mr. Jeremy Browne: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps she is taking to promote oilseed rape and sugar beet farming for the biofuels industry in rural areas; [58371]

(2) what steps she is taking to promote the domestic biofuels industry in the UK. [58372]

Mr. Morley: Bio-energy has an important role in supporting the Government's objectives for improving sustainability, reducing the impact of climate change, farm diversification and supporting rural jobs and areas.

Farmers growing certain crops for transport biofuels or the generation of heat and electricity can receive the single payment for crops on set-aside land or where the €45/ha energy aid payment is claimed for crops on non set-aside land. Grants are available to farmers to establish energy crops for heat and power generation and to develop supply chains for energy crops and wood fuel, from harvest and processing through to delivery to end-users. Research has been commissioned to improve pest and disease resistance and crop yields.

The production of transport biofuels is supported through the 20 pence per litre cut in the duty rate for biodiesel and bioethanol. This has brought forward sales amounting to around 0.25 per cent. of all road fuel sales. In order to further develop supply, the Government have announced that a renewable transport fuels obligation will be introduced. This will require 5 per cent. of road fuel to come from a renewable source by 2010. Other measures are being considered, such as duty incentives to encourage the mixing of biomass with hydrocarbons in the conventional refinery process, and an enhanced capital allowance scheme for the cleanest biofuels processing plants. The latter scheme would allow the cost of capital assets to be written off against taxable profits. Regional support grants for capital investment in production plants are already available. A number of companies are either building, or have plans to build, biofuel processing plants that will include UK-grown oilseed rape, wheat or sugar beet as a feedstock.

£66 million has been allocated to develop markets for biomass, including energy crops, in heat and electricity generation. Electricity suppliers are required to source 15 per cent. of their electricity from renewables, including energy crops, by 2015. Co-firing of energy crops with fossil fuels in conventional power stations is developing. A cross-departmental team is looking at the recommendations of the Biomass Task Force on ways to overcome the barriers to developing biomass heat and power. The Government will publish a full response by the end of April.

Rights-of-way Modification Orders

Mr. Jenkins: To ask the Secretary of State for Environment, Food and Rural Affairs what average length of time local authorities in England took to make rights-of-way modification orders in 2004–05; how many orders Staffordshire has outstanding; and what percentage of orders were successful. [57852]

Jim Knight: Local highway authorities are responsible for the management of rights of way and all information relating to modification orders is held by the authorities, rather than central government. Information on the length of time for local authorities in England to make modification orders and the percentage of successful orders could be gathered only at disproportionate cost.

Under schedule 5 of the Countryside and Rights of Way Act 2000 surveying authorities had until 31 December 2005 to establish a register of definitive map modification order applications. Staffordshire has 287 outstanding applications.

Climate Change

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* minimum and *(b)* maximum temperature change the Hadley Centre has predicted for each decade of the next 100 years. [59054]

Mr. Morley: The Hadley Centre has provided Defra with scenarios of global and UK temperature change, based on possible future greenhouse gas emissions generated by Intergovernmental Panel on Climate Change marker emissions scenarios; and scaled from the UKCIP02 scenarios for the 21st century. The IPCC emissions scenarios range from a low population growth, clean technology, convergent world (B1), to a high population growth, energy intensive technology world (A1FI). Forecast temperature changes derived in this way are subject to uncertainties in future emissions and in climate modelling. However, they provide a range of plausible futures. It is important to note that no one scenario is considered any more likely than any other.

Estimates of global and UK minimum and maximum temperature changes consistent with IPCC scenarios and Hadley Centre model predictions are shown below. These are based on one model from the Hadley Centre and show a smaller range of temperature change than in the IPCC Third Assessment Report. The temperature increases shown below are relative to 1961–90 mean temperatures (effectively relative to 1975 and hence the apparent large initial rise between then and the mid-2010s). The global temperature rise between 1900 and 1975 of approximately 0.2 °C needs to be added in order to estimate changes relative to pre-industrial temperature levels.

	Low[1]		*High*[2]	
Decade	*Global*	*UK*	*Global*	*UK*
2010	0.6	0.6	0.7	0.7
2020	0.8	0.8	1.0	0.9
2030	1.0	1.0	1.3	1.2
2040	1.2	1.2	1.7	1.6
2050	1.5	1.4	2.2	2.1
2060	1.7	1.6	2.8	2.6
2070	1.9	1.8	3.4	3.1
2080	2.1	2.0	4.0	3.7
2090	2.2	2.1	4.6	4.3

[1] Minimum (Scenario B1) Temperature Rises (°C)
[2] Maximum (Scenario A1FI) Temperature Rises (°C)

TRANSPORT

Aviation White Paper

Mark Lazarowicz: To ask the Secretary of State for Transport how he plans to meet the commitment in the 2003 Aviation White Paper to report by the end of 2006 on progress on the policies and proposals in the Paper. [53342]

Ms Buck: The Department for Transport expects to publish a Progress Report on the Air Transport White Paper (ATWP) by the end of 2006. It is expected to report on progress so far, take account of developments since publication, and set out what remains to be done in implementing the ATWP strategy. Work on the Report is currently at the stage of scoping and planning.

Crossrail

Andrew Rosindell: To ask the Secretary of State for Transport if he will ensure that the Crossrail fleet is built in Great Britain. [55272]

Derek Twigg: All procurement in the Crossrail project, including rolling stock, will be undertaken in accordance with the EU procurement rules with the aim of obtaining value for money for the public.

Departmental Staff

Mr. Llwyd: To ask the Secretary of State for Transport how many jobs in his Department have been relocated to Wales since 2001. [57672]

Ms Buck: No jobs have been relocated to Wales since 2001.

However, in association with the Department's shared services programme, we expect some 250 full time equivalent staff to be employed in a new shared services centre in Swansea over the next three years. Some of these posts are expected to be filled by Departmental staff relocating from outside Wales.

Engagements

Sarah Teather: To ask the Secretary of State for Transport how many *(a)* public speeches and *(b)* official visits he has made on departmental business since 5 May 2005; and how many letters he sent in this period. [55711]

Ms Buck: In his capacity as Secretary of State for Transport, my right hon. Friend the Secretary of State has made *(a)* 31 public speeches as well as various debates in the House; and *(b)* 24 visits; and he has sent approximately 2,450 letters, since 5 May 2005. This is in addition to his responsibilities as Secretary of State for Scotland, which will be outlined in a separate response.

All visits and speeches are conducted in line with the ministerial code. Other Ministers in the Department will also have made speeches, undertaken official visits as well as sending many letters.

Pensioners Concessionary Travel

Rosie Cooper: To ask the Secretary of State for Transport what funding has been allocated to each local authority for the provision of free off-peak bus travel for pensioners from April 2006; and whether this funding is ringfenced. [58421]

Ms Buck: The Government are providing an extra £350 million for 2006–07 through the formula grant system. The general consensus is that this will be sufficient in aggregate to fund the additional cost to local authorities. This funding is unhypothecated; therefore the funding for concessionary fares is not separately identified to local authorities.

Private Office

Sarah Teather: To ask the Secretary of State for Transport what the cost of his private office was in the last year for which figures are available. [55723]

Ms Buck: The final out-turn for the running costs of the office for my right hon. Friend, the Secretary of State, for 2004–05 was £0.5 million.

Railways

Stephen Hammond: To ask the Secretary of State for Transport (1) what discussions he has had with GNER on the east coast main line service out of King's Cross in 2005; [55903]

(2) when he was first informed that GNER had made significant donations to the Labour party in the fourth quarter of 2005; [55905]

(3) what meetings *(a)* Ministers and *(b)* departmental officials have had with GNER in (i) the last quarter of 2005, (ii) the first three quarters of 2005 and (iii) 2006; [55906]

(4) what hospitality *(a)* Ministers and *(b)* officials have received from GNER in (i) 2005 and (ii) 2006; [55907]

(5) when he was first informed that GNER had increased its donation to the Labour party in the period immediately prior to the re-awarding of its franchise. [55908]

Derek Twigg: The Secretary of State had no knowledge of the GNER donation until a report appeared in a newspaper on 28 February 2006.

In accordance with Treasury guidelines and departmental procedures, Ministers are kept separate from, and take no part in commercial negotiations in the franchise process. Commercial negotiations are the responsibility of a small team of officials and their advisers. The identity of bidders and their progress through the evaluation and selection processes is restricted to this team.

Ministers and officials meet on many occasions with rail franchisees. Matters discussed at many of them are confidential for commercial or other reasons.

No hospitality was received from GNER except for a cup of coffee at Kings Cross main line station provided for the Secretary of State when he took part in a ceremony to mark the completion of the upgrading of GNER mallard trains in December 2005.

Mark Hunter: To ask the Secretary of State for Transport by how much the cost of a standard return rail ticket between Stockport and London Euston purchased on the day of travel has changed since 1997. [52489]

Derek Twigg: The Department has details of individual fares for 1995, but not 1997. Stockport-London fares have changed as follows since 1995:

£

As at January each year	*Standard Open Return*[1]	*Saver Return*[2]	*Advance purchase return*[3]
1995	95	44.50	[4]from 19
2006	202	57.20	[5]from 25

[1] Used by approximately 10–15 per cent. of passengers
[2] Used by approximately 55–60 per cent. of passengers
[3] Used by approximately 25–30 per cent. of passengers
[4] Book 14 days in advance
[5] Book by 18:00 hours day before

Both the Saver Return (a flexible standard class off-peak ticket) Standard Open Return (a fully-flexible ticket, valid at any time including Monday-Friday business peaks) can be bought on the day of travel. The cheapest advance purchase fares can now be booked until 18:00 hours the day before travel.

The first phases of the 7.6 billion modernisation of the West Coast Main Line are now complete, and new Pendolino trains have been introduced providing a half hourly service from Manchester and Stockport to London. All that has to be paid for.

Chris Grayling: To ask the Secretary of State for Transport what proportion of delays on the rail network he attributes to *(a)* Network Rail and *(b)* train operating companies (i) since the creation of Network Rail and (ii) between 2000 and the Railtrack administration order coming into effect. [54952]

Derek Twigg: In the year leading up to the Railtrack Administration order (October 2001), 61 per cent. of train delays was attributed to Railtrack and 39 per cent. to train operators. Under Network Rail, this proportion has changed to 53 per cent. for Network Rail and 47 per cent. for train operators in the most recent 12-month period.

Since Network Rail took over responsibility for the railway infrastructure in 2002, it has reduced its delays to passenger services by 32 per cent. In the same time period, the public performance measure of trains running punctually has improved from a low of 78.6 per cent. and is currently running at 85.8 per cent.

Mr. Streeter: To ask the Secretary of State for Transport what assessment he has made of the economic impact on Plymouth of the proposed new First Great Western timetable. [57903]

Derek Twigg *[holding answer 13 March 2006]:* The Strategic Rail Authority and the Department for Transport in preparing the specification for rail franchises assess the financial effects, value for money, user and non user economic benefits that are generated by the franchise specification.

Mr. Jenkins: To ask the Secretary of State for Transport what assessment he has made of the *(a)* reliability, *(b)* punctuality and *(c)* frequency of trains running to and from Staffordshire; what plans he has to improve those services; and if he will make a statement. [58077]

Derek Twigg: Network Rail monitors the reliability and punctuality of services for all franchised train operating companies. Data are not available by geographical county, however details of recent performance by those train operating companies providing services in Staffordshire is summarised as follows.

Percentage

Operator	Public performance measure (PPM) Period 11 (8 January 2006 to 4 February 2006)	Difference from period 11 last year	Moving annual average	Cancellations Period 11 (8 January 2006 to 4 February 2006)	Difference from period 11 last year
Central trains	84.5	[1]9.5	77.6	2.8	[1]0.6
Virgin cross country	86.9	[1]4.3	80.5	3.9	[2]—
Virgin west coast	91.6	[1]22.9	82.7	1.1	[1]2.1

[1] Better.
[2] Same.

My right hon. Friend the Secretary of State announced on 18 October 2005 proposals to re-map the existing franchises in the Midlands. This change is designed to improve the efficiency and performance of the railways, achieving savings through economies of scale and improving service to customers. This will also encourage better joint working between Network Rail and TOCs to deliver an improved service to customers. Also, work has started on four tracking the West Coast Main Line between Rugeley and Tamworth. This will greatly enhance route capacity and overall reliability.

Tom Brake: To ask the Secretary of State for Transport if he will list the definitions of Act of God used by the train operating companies in relation to train cancellations. [58419]

Derek Twigg: The rail industry's classification used for train delays and cancellations does not use the term 'Act of God'. Events which cause train cancellations are attributed to a specific cause wherever known. This is done in order to help train companies understand the root causes, and to use the information to reduce such incidents in the future

Railway Stations

Mr. Greg Knight: To ask the Secretary of State for Transport what proportion of railway stations are covered by closed circuit television equipment; if he will list the stations so covered; what plans are in place to provide CCTV equipment for the remainder; and if he will make a statement. [56494]

Derek Twigg: Station security, including the installation and operation of closed circuit television (CCTV) equipment is a matter for train operators in conjunction as necessary with the British Transport police. Approximately one third of the 2,500 stations nationally, and over half of the 300 national rail stations in London, now have CCTV. This number is steadily increasing as operators and Transport for London continues to invest in increased security.

The Department is ensuring that tough new security standards covering stations, policing and CCTV are to be incorporated into contracts every time a franchise is renewed.

Mr. Martlew: To ask the Secretary of State for Transport if he will list the railway stations in Cumbria which do not have *(a)* waiting rooms, *(b)* toilets and *(c)* disabled access; and if he will make a statement. [58588]

Derek Twigg: There are 44 railway stations in Cumbria that do not have either *(a)* a waiting room, *(b)* toilets or *(c)* disabled access. These are in the following list:

Armathwaite
Arnside
Askam
Aspatria
Barrow in Furness
Bootle
Brampton (Cumbria)
Braystones
Burneside
Cark-in-Cartmel
Carnforth
Corkickle
Dalston
Dalton-in-Furness
Dent
Drigg
Flimby
Foxfield
Garsdale
Grange O Sands
Green Road
Harrington
Kendal
Kents Bank
Kirkby Stephen
Kirkby-in-Furness
Langwathby
Lazonby and Kirkoswald
Marypot
Millom
Nertherown
Parton
Ravenglass for Eskdale
Roose
Seascale
Sellafield
Silecroft
St. Bees
Staveley
Ulverston
Wetheral
Wigton
Windermere
Workington

A detailed breakdown of which of these facilities are, or are not available at each of these stations, has been placed in the Libraries of the House.

Tom Brake: To ask the Secretary of State for Transport what budget has been allocated for each of the next three years to make railway stations comply with the Disability Discrimination Acts (DDAs) of 1995 and 2005; how much has been spent in each of the last 10 years on making railway stations DDA compliant; which stations have received dedicated funding; how much has been spent on each such station; and what estimate he has made of the amount that needs to be spent on railway stations to make them all DDA compliant. [58418]

Derek Twigg: It is for station operators to meet the requirements of Part 3 of the Disability Discrimination Act 1995 with regard to access for disabled people. The Act requires them to take reasonable steps to ensure that disabled people do not find it impossible or unreasonably difficult to access their services by removing or altering physical features, by finding a way to avoid them, or by providing the service by a reasonable alternative means. It is therefore not simply a case of making physical alterations to stations, but rather taking such action as is reasonable for any particular station.

We do not hold any central records of how much has been spent improving accessibility at individual stations over the last 10 years, or of which stations have received such improvements.

We do, however, recognise that station access is a key issue in making the railway system accessible to disabled people. We will be publishing a strategy for rail accessibility shortly which will include details of how the £370 million Access for All funding will be targeted to deliver access improvements at stations over the next 10 years.

Mrs. James: To ask the Secretary of State for Transport if he will make a statement on his Department's work with *(a)* Network Rail and *(b)* train operating companies to reduce petty crime at major rail stations. [56126]

Derek Twigg: The Department continues to work with Network Rail, train operators and others, including the British Transport police, the Office of Rail Regulation and local authorities, to reduce crime as well as the fear of crime wherever it occurs on the transport network.

Chris Grayling: To ask the Secretary of State for Transport if he will list each Government-funded station redevelopment project announced since 1997; what the *(a)* initial cost estimates and *(b)* target completion dates of each was; and what the latest (i) cost estimate and (ii) target completion date is for each uncompleted project. [54993]

Derek Twigg: Funding for the majority of heavy rail station re-development schemes has been provided and managed by Railtrack and more recently Network Rail along with the Passenger Transport Executives, the Scottish Executive, Welsh Assembly Government and Transport for London. The department does not hold records of such expenditure by these organisations.

Regeneration (Teesside)

Vera Baird: To ask the Secretary of State for Transport what assessment he has made of the impact on regeneration in Teesside in the last two years of the use of Article 14 directives. [57141]

Dr. Ladyman *[holding answer 9 March 2006]:* Article 14 directions give the Highways Agency time to discuss with the developer and the local planning authority the implications of development proposals on the trunk road network, and to agree acceptable solutions.

Use of this process has meant that the Highways Agency has been able to reach a satisfactory outcome on all regeneration proposals in Teesside that they have been involved in over the last two years. The Article 14 directives have had a positive impact by enabling the appropriate mitigation measures to be put in place ensuring the safe and efficient operation of the trunk road network has been maintained. These measures have included capacity improvements to the highways, and Travel Plan initiatives such as new public transport services to support the developments.

The alternative to using Article 14 in this way would be to direct refusal of the application due to insufficient information. This would cause significant delay to the regeneration proposals and adversely affect the local economy.

Four Article 14 directions are still in force in the North East region. The current situation on these is:

Derwent West Bank, (A1 Gateshead)—Highways Agency responded to comments by developers consultants in March 2005. The Highways Agency is still awaiting reply from the developers.

A1 Fifth Avenue Business Park (A1 Gateshead)—Highways Agency have agreement reached with the developer on way forward, outcome depends on further negotiations between the planning authority and the developer on work on local roads.

Corus Pipe Mill (A19 Stockton-on-Tees)—Stockton borough council (planning authority) have expressed appreciation for the Highways Agency's positive and pro-active approach in brokering a solution. They are awaiting final agreement on the improvement measures.

Rainton Business Park (A1 and A19 Sunderland)—Highways Agency awaiting a revised Transport Assessment.

In the last two years the Highways Agency have received 87 planning applications in Teeside and have only issued three directions of refusal.. These were for a cattery, a free standing trailer sign, and a detached dwelling.

Road Safety

Tom Brake: To ask the Secretary of State for Transport how many staff in *(a)* his Department, *(b)* the Highways Agency and *(c)* other agencies and organisations funded by his Department work on (i) road safety issues and (ii) rail-related safety issues. [57817]

Ms Buck: The Department and its Agencies employee 18,722 staff as of 31 December 2005.

A large number of staff work in Divisions which have partial interest and/or responsibilities for Road or Rail Safety. Some where we can identify specific Road or Rail safety roles are as follows.

	Number
Road Safety	
Road and Vehicle Safety and Standards	2
Road Safety and Standards	16
Safety Camera Programme Office	8
Uniformed Traffic Officers	826
Rail Safety	
Rail Accident investigation Branch	44
Rail Standards and Safety	7

Of the remaining Departmental staff, a number will be working in areas that promote Road or Rail Safety in line with DfT public service agreements, but it is not possible to provide the information in the format requested as the information is not held centrally and to do so would be at a disproportionate cost.

Transport Services (Greater Manchester)

Andrew Gwynne: To ask the Secretary of State for Transport what progress has been made in implementing the South East Manchester Multi Modal Study in *(a)* Tameside metropolitan borough and *(b)* Stockport metropolitan borough; and if he will make a statement. [57815]

Ms Buck: Progress made on implementation of the major and minor elements of the strategy and the implementation of some of the major schemes arising from the South East Manchester Multi Modal Study in both *(a)* Tameside metropolitan borough and *(b)* Stockport metropolitan borough is highlighted in the Greater Manchester Local Transport Plan.

I understand that further details of progress will be available shortly, as part of the SEMMMS Implementation strategy document, to be published as part of the Greater Manchester Authorities final Local Transport Plan 2 submission.

In addition, we are currently considering the scheme appraisal and bid for funding for SEMMMS New Relief Road and hope to make an announcement in due course.

Andrew Gwynne: To ask the Secretary of State for Transport what discussions his Department has had with Stagecoach Manchester on their bus strategy for South Manchester. [57820]

Ms Buck: Stagecoach provided the Department—and other stakeholders—with details of their alternative bus strategy. Mr. Brian Souter, Chief Executive of Stagecoach Group, has also discussed this strategy at meetings with myself and with the Secretary of State. No discussions of a more detailed nature have occurred.

Andrew Gwynne: To ask the Secretary of State for Transport what assessment he has made of the *(a)* potential effect of the proposed Hazel Grove A6 Bypass in redirecting Manchester-bound traffic onto the M60 motorway and *(b)* potential consequential impact on the capacity of the M60/M67/A57 Denton interchange. [57980]

Dr. Ladyman: An outline assessment has been undertaken into the potential impacts of the A6 Hazel Grove Bypass and other South East Manchester Multi Modal Study road schemes on the M60 and the M60/M67/A57 Denton Interchange. I understand that the Greater Manchester local authorities are in the process of updating their transport model which will allow a more detailed appraisal of these and other impacts to be assessed.

Trunk Roads (Lancashire)

Mr. Evans: To ask the Secretary of State for Transport what his projections are for traffic growth on trunk roads in Lancashire in each of the next 10 years. [59027]

Dr. Ladyman: We do not have projections specifically related to trunk roads in Lancashire. However demand for car trips to and from Lancashire is projected to increase by around 7 per cent. over the next 10 years.

TREASURY

Biofuels

Mr. Jeremy Browne: To ask the Chancellor of the Exchequer what plans the Government have to increase the duty concession for biofuels after 2008. [58373]

John Healey: The Chancellor considers all relevant economic, social and environmental factors when deciding taxation policy.

Any changes will be announced by the Chancellor in the context of his Budget Statement.

Correspondence

Mr. Andrew Turner: To ask the Chancellor of the Exchequer when HM Revenue and Customs will reply substantively to the letter from the hon. Member for the Isle of Wight dated 1 December 2005, to which an acknowledgement was sent on 7 December 2005. [59045]

Dawn Primarolo: The Chairman wrote to the hon. Member on 2 March 2006.

Departmental Expenditure

Keith Vaz: To ask the Chancellor of the Exchequer (1) how many Government Departments overspent in each year between 1997 and 2005; [59494]

(2) what the combined overspend of all Government Departments was in each year between 1997 and 2005; [59495]

(3) what the total budgets are for each Government Department in the 2005–06 financial year. [59497]

Mr. Des Browne: Final provision and outturn for departmental budgets is published in the Public Expenditure Statistical Analysis each year. Departmental plans for 2005–06 are published in Spring Supplementary Estimates.

Departmental Staff

Keith Vaz: To ask the Chancellor of the Exchequer how many visits special advisers in his Department made in an official capacity *(a)* in the UK and *(b)* abroad since 2000; what places were visited; and how much each visit cost. [52675]

John Healey: Since 1999 the Government have published, on an annual basis, the total costs of all ministerial overseas travel and a list of all visits by Cabinet Ministers costing in excess of £500. Copies of the lists are available in the Library of the House. Information for the financial year 2004–05 was published on 21 July 2005, *Official Report*, column 158WS. The Treasury's records show that the Chancellor's and the Chief Secretary's Special Advisers made no overseas visits in 2004–05 other than in the company of Ministers, and the costs of the their overseas travel are included in the annual list of overseas travel by Cabinet Ministers. Information for the financial year 2005–06 is in the process of being collated and will be published when it is ready.

For the cost of special advisers' overseas travel for years 2000–01, 2001–02, 2002–03 and 2003–04, I refer respectively to the answer given to the former hon. Member for Westmorland and Lonsdale (Mr. Collins) on 25 March 2002, *Official Report*, column 734W, and the answers given to the hon. Member for Chichester (Mr. Tyrie) on 19 June 2002, *Official Report*, column 389W, 15 September 2003, *Official Report*, column 603W and 9 December 2004, *Official Report*, column 655W.

Information regarding special advisers' domestic travel could be provided only at disproportionate cost. All travel by special advisers is undertaken in accordance with the guidelines set out in the "Ministerial Code" and the "Civil Service Management Code".

Drug-related Deaths

Mr. Lansley: To ask the Chancellor of the Exchequer pursuant to the answer of 23 January 2006 to the hon. Member for Woking (Mr. Malins), *Official Report*, columns 1731–32W, on drug-related deaths, if he will break down the number of deaths which occurred in each year since 1997 by *(a)* adults and *(b)* children. [58567]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 16 March 2006:

The National Statistician has been asked to reply to your recent question (pursuant to the answer of 23rd January 2006 to the hon. member for Woking, Official Report, columns 1731–2W, on drug related deaths) seeking a break down of the number of deaths which occurred in each year since 1997 by *(a)* adults and *(b)* children. I am replying in her absence. (58567)

The previous answer gave figures to 2003. The most recent year for which figures are now available is 2004. The table below shows the number of deaths for which the underlying cause was drug poisoning, where any drug controlled under the Misuse of Drugs Act were mentioned on the death certificate by age group for the years 1997 to 2004.

Deaths from drug-related poisoning[1] involving illegal substances[2] in (a) adults and (b) children
England and Wales, 1997 to 2004[3]

	(a) adults aged 16 and over	*(b) children aged under 16*	*All ages*
1997	1,201	3	1,204
1998	1,346	3	1,349
1999	1,468	3	1,471
2000	1,567	4	1,571
2001	1,529	6	1,535
2002	1,428	2	1,430
2003[4]	1,126	3	1,129
2004	1,301	4	1,305

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 292, 304, 305.2–305.9, E850-E858, E950.0-E950.5, E962.0 and E980.0-E980.5 for 1994 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) codes F11-F16, F18- F19, X40-X44, X60-X64, X85 and Y10-Y14 from 2001 onwards.

[2] Includes deaths where the underlying cause was drug-related poisoning and a drug controlled under the Misuse of Drugs Act 1971 was mentioned on the death record.

[3] Figures are for deaths occurring in each calendar year.

[4] Figures for 2003 have been corrected from those previously published due to an error in the coding of drug misuse deaths for that data year. This was reported in Health Statistics Quarterly 29, which was released on 23 February 2006.

Earnings Statistics

Rosie Cooper: To ask the Chancellor of the Exchequer what the average earnings were of full-time employees in West Lancashire constituency in April of each year since 2000. [58420]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 March 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average earnings were of full-time employees in West Lancashire constituency in April of each year since 2000. (58420)

Average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full time employees on adult rates whose pay for the survey period was not affected by absence. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed and people who do unpaid work.

I attach tables showing Average Gross Weekly Earnings by parliamentary constituency for the years 2000 to 2005 for Full Time Employees on Adult Rates. These statistics are also available on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vInk = 13101.

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Gross weekly(£) pay for full-time employee jobs[1] by place of work

West Lancashire	Median	Mean
2000	*363.2	*429.5
2001	*356.5	*399.2
2002	*360.6	**469.9
2003	*351.0	*420.9
2004	*403.3	*456.4
2004[2]	*399.5	*469.1
2005	*420.4	**520.6

[1] Employees on adult rates whose pay for the survey day-period was not affected by absence.
[2] Includes supplementary survey data.
Guide to quality:
The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value the higher the quality.
The true value is likely to lie within ± twice the CV e.g. for an average of 200 with a CV of 5%, we would expect the population average to be within the range 180 to 220.
Key:
CV ⩽ 5 percent.
* = CV > 5% and ⩽ 10%
** = CV > 10% and ⩽ 20%
The median replaces the mean as the headline statistic. The weighted mean is the sum of the weighted values divided by the sum of the weights. The median is the value below which 50 per cent. of employees fall. It is preferred over the mean for earnings data as it is influenced less by extreme values and because of the skewed distribution of earnings data.
Source:
Annual Survey of Hours and Earnings, Office for National Statistics.

Gross weekly(£) pay for full-time employee jobs[1] by place of residence

West Lancashire	Median	Mean
2000	—	—
2001	—	—
2002	*396.1	*460.2
2003	*401.0	*474.1
2004	*411.6	*485.3
2004[2]	*396.0	*481.6
2005	**416.9	491.1

[1] Employees on adult rates whose pay for the survey day-period was not affected by absence.
[2] Includes supplementary survey data.
Guide to quality:
The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value the higher the quality.
The true value is likely to lie within ± twice the CV e.g. for an average of 200 with a CV of 5%, we would expect the population average to be within the range 180 to 220.
Key:

Employment (Stroud)

Mr. Drew: To ask the Chancellor of the Exchequer how many people in Stroud constituency *(a)* under and *(b)* over the age of 25 years were long-term unemployed in each year since 1997; and how many people in each age group participated in the New Deal in each year. [58710]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 16 March 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (58710)

The Office for National Statistics (ONS) compiles statistics of unemployment for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

However, for the Stroud parliamentary constituency, sample numbers are insufficient to provide the estimates requested.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 1, attached, shows the annual average number of JSA claimants, aged under 25, and aged 25 and over, resident in the Stroud constituency, who were claiming for over 12 months, since 1997.

The Department for Work and Pensions compiles statistics of those participating in the New Deal. Table 2, attached, the number of individual starts and individual jobs for the New Deal for Young People and for the New Deal for 25 plus, for participants resident in the Stroud constituency since the programmes were introduced in 1998.

Table 1: JSA claimants resident in the Stroud parliamentary constituency

	Long-term (claiming over 12 months)[1]	
Annual average	Aged under 25	Aged over 25
1997	60	390
1998	25	220
1999	—	195

BEST COPY AVAILBLE

Energy/Water Efficiency

Alan Simpson: To ask the Chancellor of the Exchequer how many approved private finance initiative schemes for the 2004–05 financial year included energy self-generation and water recycling measures; and what proportion this represented of total approvals. [58723]

John Healey: The Treasury does not hold this information.

Fuel Suppliers (Windfall Tax)

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what plans he has for a windfall tax on fuel suppliers. [58389]

John Healey: The Chancellor considers all relevant economic, social and environmental factors when deciding taxation policy. Any changes will be announced by the Chancellor in the context of his Budget Statement.

Hedge Funds

Mr. Kilfoyle: To ask the Chancellor of the Exchequer what plans he has to regulate hedge funds. [58512]

Mr. Ivan Lewis: Hedge fund managers based in the UK have to be authorised and regulated by the FSA under the Financial Services and Markets Act 2000. Once authorisation has been obtained, firms have to continue to comply with the FSA's high level standards, covering principles for business, senior management systems and controls, code of practice for approved persons, and fit and proper tests, in additional to financial and business standards relevant to their specific business.

Where the funds that these types of firms manage are domiciled outside the UK (as is often the case), the regulation and supervision of the funds themselves is outside the FSA's legal jurisdiction. As such funds typically invest in more complex and innovative products, which are high risk in nature, they are not considered to be suitable for retail investors and are aimed at high net worth individuals or institutional investors with an initial minimum investment of at least $100,000.

The FSA has established a specialist hedge fund supervision team.

Incentive Tools

Mr. Todd: To ask the Chancellor of the Exchequer whether he has appraised the use of incentive tools applied to public service proposed in Incentives for Change, published by the Public Services Productivity Panel. [58948]

Mr. Des Browne: HM Treasury, HM Customs and Excise and the Department of Work and Pensions jointly sponsored research by the University of Bristol into the impact of the Incentives for Change report of the Public Services Productivity Panel, based on trials in C&E and DWP. This research was completed in 2005.

The appraisal demonstrated that the team based incentives approach had mixed results within different teams, outputs and organisations. While there was evidence of a positive effect in some teams or when measured against some outputs it was also evident that to be successful incentive schemes must be varied and matched to organisational needs and circumstances and targeted on specific delivery priorities. There is no one-size fits all solution. The use of team based incentives is now one of many tools available to public sector employers.

Inland Revenue Staff

Robert Key: To ask the Chancellor of the Exchequer when he will announce his decision on relocation of Inland Revenue staff from Alexandra House, Salisbury following the termination of the lease at the end of March. [59018]

Dawn Primarolo: HMRC occupy Alexandra House, Salisbury under a Memorandum of Terms of Occupation (MOTO) with HM Courts Service. They have not served notice on us.

HMRC are currently reviewing all its offices and only once they have carried out a detailed social, economic and service delivery impact assessment will they consider moving work away from some locations.

Insurance Premium Tax

Gregory Barker: To ask the Chancellor of the Exchequer what estimate he has made of the amount of insurance premium tax due which has not been paid in the last 10 years. [58994]

Mr. Ivan Lewis: No estimate has been made of the amount of insurance premium tax due which has not been paid in the last 10 years.

Planning Gain Supplement

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to his answer of 6 March 2006, *Official Report*, column 1106W, on the planning gain supplement, how many responses were submitted to the Government's consultation by 27 February 2006. [59174]

John Healey: Approximately 800 responses to the consultation have been received. A summary of these responses will be published in due course.

Population Statistics

Rosie Cooper: To ask the Chancellor of the Exchequer (1) what his estimate is of the current population of each ward in the West Lancashire constituency based on *(a)* the 2001 Census, *(b)* electoral rolls and *(c)* health service users; and what projections he has made for the next five years; [58424]

(2) what assessment he has made of the accuracy of census figures for *(a)* West Lancashire constituency and *(b)* Lancashire in each of the last two censuses; and if he will make a statement. [58425]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, 16 March 2006:

As National Statistician, I have been asked to reply to your questions concerning the following:

1. Estimates of the current population of each ward in the West Lancashire constituency based on *(a)* the 2001 Census, *(b)* electoral rolls and *(c)* health service users; and projections for the next five years. (58424)

2. The assessment made of the accuracy of census figures for *(a)* West Lancashire constituency and *(b)* Lancashire in each of the last two censuses. (58425)

3. The population of *(a)* West Lancashire district and *(b)* each ward in the district according to (i) figures from the 2001 Census, (ii) most recent electoral rolls and (iii) most recent figures for health service users; and what projections have been made for the next five years. (58582)

The tables attached provide the information you have requested. Data for wards in West Lancashire constituency are shown in Table 1, data for West Lancashire district are shown in Tables 2 and 3, and data for wards in West Lancashire district are shown in Table 4.

Table 1 provides the most recent ward population estimates for West Lancashire constituency. The closest available geography to current electoral wards, for which population estimates are available, is Census Area Statistics (CAS) wards. This geography was created for outputs from the 2001 Census and is based mainly on 2003 electoral wards. The CAS ward level population estimates have been published with the status of "experimental statistics". Therefore, the estimates, should be treated with some care.

The latest available ward electorate counts are for December 2004 and are shown in Table 1 for West Lancashire constituency and Table 4 for West Lancashire district. The ward electorate counts are for parliamentary electors, including attainers. Local government electorate counts are not available at ward level.

It should be noted that the number of people eligible to vote is not the same as the resident population aged 18 and over.

There are numerous reasons for this. For example not everyone who is usually resident is entitled to vote (foreign citizens from outside of the EU and Commonwealth, prisoners, etc. are not eligible), some people do not register to vote and people who have more than one address may register in more than one place. Further, there is inevitably some double counting of the registered electorate as electoral registration officers vary in how quickly they remove people from the registers after they have moved away from an area or after they have died. These factors have a differential impact from area to area.

The latest available ward patient register counts are for 2004 and are shown in Table 1 for West Lancashire constituency and Table 4 for West Lancashire district. It should be noted that patient register counts differ from estimates of the usually resident population for a number of reasons. Patient registers include people who are in the country for at least three months, whereas, population estimates are based on a usual residence definition requiring a stay of 12 months or more. The patient registers exclude individuals who are ineligible to be registered with a GP. People may be on a patient register after having left the country and not deregistered with their GP; similarly people may have moved to another area and not re-registered. Some patients may have more than one NHS number e.g. they may have been issued a temporary number for a short period. Again, these factors have a differential impact from place to place.

The ONS does not produce projections of population at ward level.

Official assessments of the quality of the 1991 Census were published in the 1991 Census General Report (ISBN 0–11–691616–8) and User Guide 58 (Under coverage in Great Britain). These were earned out at national level and no assessment of quality was made for individual Local Authorities. The General Report is held in the House of Commons Library and User Guide 58 may be obtained from Census Customer Services—email census.customerservices@ons.gov.uk

The 1991 Census Validation Survey assessed the coverage of the Census and the quality of the Census information recorded about those people who were successfully enumerated. The 1991 Census Validation Survey: Quality Report (ISBN 0–11–691688–5) and 1991 Census Validation Survey: Coverage Report (ISBN 0–11–691591–9) are held in the House of Commons Library.

Following the 2001 Census for England and Wales, ONS undertook an extensive programme of work to investigate the reasons for the difference between the 2001 Census and the mid-year population estimates (MYEs) at both national and local levels. This research included a series of Local Authority studies carried out in 2004 which were designed to improve the MYEs in the areas that proved hardest to count in the Census. An extensive review was carried out for 32 local authorities to assess whether there was evidence that the population might have been under- or over-estimated. Included in this review was the Unitary Authority of Blackburn with Darwen, which prior to administrative boundary changes on 1 April 1998 was within the administrative boundaries of Lancashire. Blackpool at this time also became a Unitary Authority.

The results of the 2004 Local Authority studies showed that better estimates of the population could be made in 15 local authority areas and an adjustment was made to the MYEs in these areas. For the great majority of areas, including Blackburn with Darwen, it was found that the 2001 Census-based population estimate remains the best estimate of the population.

A full report on these Local Authority Studies can be found at: www.statistics.gov.uk/downloads/theme_population/LAStudy_FullReport.pdf

The detailed report for Blackburn with Darwen can be found at: www.statistics.gov.uk/downloads/theme_population/LAStudy_Blackburn_with_Darwen.pdf

The Census 2001 Quality report for England and Wales provides information about all aspects of quality relating to the 2001 Census. It provides an overview of the quality issues and the studies and analyses that have been carried out to improve the quality of census data. The Quality report is held in the House of Commons Library or can be downloaded from www.statistics.gov.uk/census2001/proj_qr.asp

Additional information pertaining to the quality of results from the 2001 Census for local areas can be found at: www.statistics.gov.uk/census2001/stat_methods_qual.asp

Table 2 provides population projections for mid-2005 to mid-2010 for West Lancashire district, for comparison the mid-2004 population estimate is also included. These projections are based on mid-2003 population estimates and are the latest projections available. They assume that local trends in fertility, mortality and migration over the reference period 1999 to 2003 will continue into the future. They, therefore, may not be directly comparable with the mid-2004 population estimate.

Table 3 provides the 2001 Census population count, electorate count for December 2005 and patient register count for July 2004 for West Lancashire district.

Table 4 provides the 2001 Census population count, electorate count for December 2004 and patient register count for July 2004 for wards in West Lancashire district.

Table 1: Wards in West Lancashire constituency: Population estimates, electorate counts (December 2004), and patient register counts (July 2004)

Ward name	Population estimate mid-2002	Parliamentary electors December 2004	Patient register July 2004
Ashurst	6,700	4,896	6,889
Aughton and Downholland	5,600	4,626	5,729
Aughton Park	3,900	3,139	4,008
Bickerstaffe	2,100	1,678	2,062
Birch Green	4,400	3,090	4,758
Burscough East	3,600	3,188	3,961
Burscough West	5,100	3,932	5,205
Derby	6,100	4,580	5,828
Digmoor	4,500	3,204	4,779
Halsall	1,900	1,803	2,155
Knowsley	5,600	4,614	5,714
Moorside	4,100	2,866	4,471
Newburgh	2,000	1,718	2,125
Parbold	4,000	3,191	4,029
Scarisbrick	3,500	3,047	3,771
Scott	5,700	4,610	5,821
Skelmersdale North	4,100	3,163	4,425
Skelmersdale South	6,400	5,031	6,677
Tanhouse	4,000	3,346	4,905
Up Holland	6,000	4,954	6,376
Wrightington	4,000	3,436	4,317

Notes:
1. The mid-2002 ward population estimates are consistent with the published mid-2002 local authority estimates (September 2004 revisions) and have been rounded to the nearest hundred.
2. Parliamentary electors are those people who are entitled to vote in parliamentary elections at Westminster and who meet the residence qualification. Those include overseas voters but exclude Peers and European citizens.

Property Sales

Mr. Pickles: To ask the Chancellor of the Exchequer what estimate he has made of the number of properties sold in *(a)* England, *(b)* Wales and *(c)* Scotland in each year since 1997. [59177]

Dawn Primarolo: Estimates of the number of properties sold in England, Wales and Scotland are given in the following table:

Thousand

	1997	1998	1999	2000	2001	2002	2003	2004
England	1,377	1,289	1,437	1,369	1,386	1,513	1,271	1,693
Wales	67	65	68	62	73	70	70	94
Scotland	n/a	n/a	n/a	148	153	167	171	172

n/a = not available

Stamp Duty

Mr. Mark Field: To ask the Chancellor of the Exchequer what projections he has made for revenue from stamp duty on share transactions in each of the next three financial years. [58928]

Mr. Ivan Lewis: Estimated and projected revenues for total Stamp Taxes in 2005–06 and 2006–07 are published in Table B14 of the pre-Budget 2005 report. The components of these estimates which relate to Stamp Taxes on share transactions are as follows:

Stamp Taxes on share transactions

	(£ billion)
2005-06	3.2
2006–07	3.6

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer what proportion of time on average his Department's computer system has been accessible to staff working in the Tax Credit Office in each year since 2003–04. [56944]

Dawn Primarolo: In 2003–04 the computer system was available for 98 per cent. of the time when availability was planned. The equivalent figure for 2004–05 and for 2005–06 to date was 99 per cent. As is the case with any large IT system of this sort, there are also occasional periods of planned downtime which are required for maintenance and enhancements, but the Department endeavours to schedule these outside peak periods and keep them to a minimum.

Rosie Cooper: To ask the Chancellor of the Exchequer how many cases of forged tax credits resulting in prosecution have been reported to Jobcentre Plus in West Lancashire in the last 12 months. [58426]

Dawn Primarolo: There have been no cases of forged (fraudulent) tax credit claims resulting in a prosecution relating to Jobcentre Plus in West Lancashire in the last 12 months.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what the administrative cost of delivering tax credits was in each year since the system was introduced, broken down by main category of expenditure including *(a)* IT and *(b)* staff costs. [59081]

Dawn Primarolo: Analysis in the form requested was not maintained by the Inland Revenue. The gross cost of paying and managing tax credits in each year since the system was introduced is contained in the following publications, copies of which are available in the Library of the House.

1999–2000—Note 3, Trust Statement, Department of Inland Revenue Annual Report year ending 31 March 2000, page 83

2000–01—Note 3, footnote 1, Trust Statement, Department of Inland Revenue Accounts 2001–02, page 45

2001–02—Note 4*(b)*, Trust Statement, Department of Inland Revenue Accounts 2002–03, page 56

2002–03—Note 3 (iv), Trust Statement, Department of Inland Revenue Annual Report and Accounts year ending 31 March 2004, page 104

2003–04—Note 3 (iv)v Trust Statement, Department of Inland Revenue Annual Report and Accounts year ending 31 March 2004, page 104

2004–05—Note 3.4, Trust Statement, Department of Inland Revenue Accounts 2004–05, page 78.

Tax Returns

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer whether there are circumstances in which HM Revenue and Customs allows a public or private body to carry over its *(a)* pay-as-you-earn tax and *(b)* national insurance contributions payments to the following financial year. [57448]

Dawn Primarolo: Employers are obliged to pay over deductions from employees' wages in respect of tax and national insurance contributions to Her Majesty's Revenue and Customs (HMRC) within 14 days of the end of the relevant Income Tax month ending on the 5th of each month (or 17 days if paid by an approved electronic payment method). HMRC is however prepared to help and support employers experiencing temporary financial difficulties by considering delayed payment in settlement of liabilities. Different circumstances apply to individual cases so each case has to be dealt with on merit.

Trade Balance

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer what assessment he has made of the medium-

term effect of the recent trends in the balance of trade on the British economy. [58634]

John Healey: The trade in goods and services deficit was £47.1 billion in 2005, or 3.9 per cent. of GDP, compared to 3.4 per cent. in 2004. Despite the recent widening of the trade deficit, the UK's external position remains healthy. The current account deficit for the first three quarters of 2005 was 2.0 per cent. of GDP compared with 5.1 per cent. in 1989, and can be readily financed.

Winter Mortality Rates

Rosie Cooper: To ask the Chancellor of the Exchequer what the excess winter mortality *(a)* rate and *(b)* numbers were for (i) those aged 65 to 80, (ii) those aged over 80, and (iii) all ages in (A) England and (B) West Lancashire in each of the last five years; and if he will make a statement. [58580]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 16 March 2006:

The National Statistician has been asked to reply to your recent question concerning what the excess winter mortality *(a)* rate and *(b)* numbers were for (i) those aged 65 to 80 years, (ii) those aged over 80 years, and (iii) all ages in (A) England and (B) West Lancashire, in each of the last five years. I am replying in her absence. (58580)

Available figures on excess winter deaths (the excess number of deaths each winter compared to the average during other months of the year) for the age groups and areas requested are included in the table below. The table gives the excess winter mortality (EWM) index, which is calculated as the excess number of winter deaths divided by the average number of non-winter deaths, expressed as a percentage.

The latest available figures for England are for 2004/2005. These are provisional and are not available for areas smaller than Government Office Regions. The latest available figures for West Lancashire local authority are for 2003/2004.

Excess winter deaths[1] for persons by age group and area of residency, 1999–2000 to 2004–05

	65–79		80 and over		All ages	
	(a) EWM index[2]	*(b) number*	*(a) EWM index[2]*	*(b) number*	*(a) EWM index[2]*	*(b) number*
England[3]						
1999–2000	25.8	14,820	37.9	27,270	29.1	45,650
2000–01	11.9	6,570	20.2	15,080	14.8	23,290
2001–02	12.8	6,840	22.7	17,260	16.4	25,790
2002–03	11.6	6,060	18.9	14,820	14.3	22,620
2003–04	11.7	5,950	18.2	14,470	13.9	21,930
2004–05[4]	15.1	7,400	25.3	19,600	19.6	29,700
West Lancashire						
1999–2000	11.0	20	26.6	40	18.4	70
2000–01	21.1	30	40.6	70	27.8	100
2001–02	16.0	20	22.2	40	12.5	50
2002–03	6.7	10	1.8	0	7.5	30
2003–04	2.5	0	10.4	20	6.0	20

[1] Excess winter deaths are defined as the difference between the number of deaths during the four winter (December to March) and the average number of deaths during the preceding four months (August to November) and the following four months (April to July). Figures for 1999–2000 to 2003–04 are final estimates rounded to the nearest 10.

[2] The excess winter deaths index is calculated as the excess number of winter deaths divided by the average number of non-winter deaths, expressed as a percentage.

[3] Data are based on occurrences of death each month.

[4] Figures for 2004–05 are provisional These are rounded to the nearest 100 for England.

INTERNATIONAL DEVELOPMENT

Debt Write-off

Mr. Hepburn: To ask the Secretary of State for International Development (1) which countries have had 100 per cent. of their debts written off by the UK since 1997; [57214]

(2) what the total amount of third-world debt written off by the UK has been since 1997. [57215]

Hilary Benn: The UK is committed to the goal of 100 per cent. debt relief for the poorest countries that will use the savings for poverty reduction. Bilateral (government-government) debt owed to the UK comprises debt owed to the Export Credits Guarantee Department (ECGD), CDC (formerly know as the Commonwealth Development Corporation) and aid debts owed to DFID. A detailed explanation of the various kinds of debt relief can be found in the DFID report 'Statistics on International Development', copies of which are in the Libraries of the House.

Debt relief for the poorest, most indebted countries (most of which are in sub-Saharan Africa) is given primarily through the heavily indebted poor countries (HIPC) initiative. Detailed information on debt relief being given to HIPCs can be found in the World Bank and IMF HIPC Status of Implementation report of August 2005, which is available at the following website address:

http://siteresources.worldbank.org/INTDEBTDEPT/ProgressReports/20659519/081905.pdf

We continue to press for the full implementation of the heavily indebted poor countries (HIPC) initiative, and meet and exceed our debt cancellation obligations under the initiative. The UK writes off 100 per cent. of bilateral debts for HIPC countries when they complete the initiative and holds in trust any debt service payments received from HIPC countries that have not yet qualified for debt relief, to be returned for spending on poverty reduction once they qualify.

16 of the 18 HIPCs that have completed the HIPC initiative have had ECGD debt cancelled since 1997 (a total of £1,081.6 million). These countries are Benin, Bolivia, Burkina Faso, Ethiopia, Ghana, Guyana, Mali, Madagascar, Mauritania, Mozambique, Nicaragua, Niger, Senegal, Tanzania, Uganda and Zambia. Honduras and Rwanda have also completed the initiative, but had no debts to the ECGD.

A further £11 million, the UK's share of loans made jointly with European Economic Community (EEC) partners in 1978, has been written off for the Completion Point HIPCs.

The UK has cancelled 100 per cent. of loans, totalling £46.9 million, held by CDC for Completion Point HIPCs Ghana, Honduras, Tanzania and Uganda. We have also cancelled 100 per cent. of CDC debt for Pakistan, totalling £23.1 million.

DFID cancelled the vast majority of aid loans prior to 1997 (totalling £1.2 billion). Since 1997, the UK has cancelled 100 per cent. of bilateral aid loans (totalling £57.7 million) for Barbados, Dominica, Grenada, Mauritius, the Solomon Islands, St. Lucia, St. Vincent and the Grenadines, Tonga and the Turks and Caicos Islands under the Commonwealth Debt Initiative. We have also cancelled 100 per cent. of bilateral aid loans worth £4.9 million to Nigeria.

The largest ever single debt deal for an African country was agreed by the Paris Club group of bilateral Government creditors for Nigeria in 2005, resolving 100 per cent. of Nigeria's debts to Paris Club, and writing off $18 billion worth of debt stock. The UK share of this write-off was £2.8 billion. A Paris Club debt deal for Iraq in 2005 wrote off 80 per cent. of that country's debt (60 per cent. of which has so far been delivered), with the UK agreeing to write off a total of $1.4 billion as part of this.

In additional to this bilateral debt cancellation, the UK will also play its full part in financing 100 per cent. multilateral debt cancellation at the World Bank and the African Development Bank proposed by the G8. We have also committed to pay our share (10 per cent.) of debt service payments owed to the concessional lending arms of the World Bank and the African Development Bank on behalf of qualifying countries that are not eligible for this initiative.

Financial Irregularities

Anne Main: To ask the Secretary of State for International Development how many cases of financial irregularities have been recorded in his Department in each of the last five financial years; and if he will make a statement. [57551]

Hilary Benn: The following table shows the number of cases of financial irregularities recorded in DFID in each of the last financial years:

Financial year	*Number of cases*	*Total value (£)*
2000–01	11	18,000
2001–02	13	89,000
2002–03	15	104,000
2003–04	17	406,000
2004–05	24	158,000

DFID is committed to ensuring that its resources will be used only for the purposes intended. We have clear anti-fraud policies and fraud response plans and have created avenues for staff and external parties to report their suspicions of fraud. The number of cases coming to light has increased year-on-year has is part due to improved reporting procedures and enhanced fraud awareness training, which is now provided to all staff as part of their induction to DFID.

Lesotho

Chris Ruane: To ask the Secretary of State for International Development what steps his Department has taken to develop twinning and partnership arrangements between Lesotho and the UK. [56204]

Hilary Benn: I refer my hon. Friend the Member for Vale of Clwyd to the response I gave on 7 March 2006, *Official Report*, column 1387W.

Nepal

Mr. Andrew Smith: To ask the Secretary of State for International Development what aid his Department provides for programmes to support children orphaned or displaced by the civil war in Nepal. [58019]

Mr. Thomas: The continuing conflict in Nepal is directly responsible for increases in the number of children being orphaned and/or displaced.

During 2003–05, DFID provided £720,000 to Save the Children for a programme to assist children affected by armed conflict. The programme helped establish protection committees and child protection officers in those districts most impacted by the conflict. It also created information systems to monitor child movements, provided direct support to 10,000 separated and vulnerable children and support for the repair and maintenance of schools and health posts.

DFID's Community Support Programme, which provides for small scale infrastructure improvements at a community level has provided funds to 20 schools in 5 districts in the Mid and Far West of Nepal, to ensure that internally displaced children can continue their education in their new locations, by increasing the number of class rooms. Our support for the Education For All programme, alongside the World Bank and other bilateral donors, is aimed at supporting progress towards the education Millennium Development Goals for all children in Nepal.

DFID has also provided financial support to the Women's Commission for Refugee Women and Children's Watch list. The Children's Watch list aims to provide a monitoring and reporting structure to detail key factors related to the impact or threat of armed violence on children and to strengthen regional and international networks of NGOs to work more effectively to protect children.

Our support for UNICEF has enabled them to develop their knowledge base and to advocate for the promotion and protection of the rights of children caught in armed conflicts around the world, including in Nepal.

Adam Price: To ask the Secretary of State for International Development what loans have been approved in relation to Nepal in the last two years; and what conditions have been attached to each loan. [58234]

Mr. Thomas: DFID only provides grants to Nepal, but loans are provided by international financial institutions of which the UK is a shareholder. The following loans have been approved by these institutions since 15 March 2004:

World Bank

Health Sector programme (US$ 10 million loan). This programme seeks to address inequities and improve public health services in Nepal. The loan (and US$ 40 million grant) has the following conditions: the budget allocated to the Ministry of Health shall not be less than 5 per cent. of the total government budget in each year; the Ministry of Health will organise twice yearly joint reviews to review work-plans and budgets; the Ministry of Health will submit progress reports and plans to the World Bank before the joint reviews; and annual financial audit reports will be carried out by an independent auditor within 12 months of the end of the fiscal year.

Education for All programme (US$ 50 million loan). This programme aims to improve access to, and benefit from basic, and primary education for children, especially girls and children from disadvantaged groups, and from literacy programmes for poor adults. The loan conditions are: the development and adoption of an operational manual for the administration of school grants; the provision of trimester financial monitoring reports and annual financial audits within specified periods; establishment of a programme management committee; the government to ensure that schools receiving grants carry out social audits; the Ministry of Education to implement activities under the environmental management and vulnerable communities development plans; the government to ensure that sufficient staff and consultants are available to manage textbook development, production and distribution; the government shall produce a pre-qualified list of non-governmental organisations to provide support services; and the government shall provide annual work plans and budgets for the basic and primary education programme.

Second Rural Water Supply and Sanitation Project (US$ 25.3 million loan). This project will improve rural water supply and sanitation sector institutional performance and support communities to plan, implement, and operate drinking water and sanitation facilities. There are no conditions attached to this loan.

Asian Development Bank

Gender Equality and Empowerment of Women project (US$ 10 million loan). The project is designed to facilitate a process of social, economic, legal and political empowerment of poor rural women. The loan conditions concern: the establishment of project management and co-ordination arrangements; adequate counterpart funding; the use of poverty and social mapping; the targeting of support on dalits (disadvantaged castes) and ethnic minorities; changes in laws relating to discrimination against women, domestic violence and the activities of the National Women's Commission and the National Dalit Commission; the exemption of women's savings and credit clubs from particular articles of the central bank act; and completion of an institutional audit for the Department of Women Development and preparation of human resource and professional development plans.

Skills for Employment project (US$ 20 million loan). The project aims to increase access to quality demand-driven skills training. The loan conditions require the establishment of a project implementation unit and project steering committee; approval of technical education policy and plans; inclusion of districts based on poverty and deprivation criteria; and targeting on women and dalits.

Community-Managed Irrigated Agriculture Sector project (US$ 20 million loan). The Project will enhance the livelihood of rural smallholders by improving the performance of the existing farmer-managed irrigation systems suffering low productivity and poverty in the Central and Eastern Development regions of Nepal, while establishing sound service delivery mechanisms and community institutions to support this end. The loan conditions concern the establishment of a project management office; acceptable contracting arrangements between central government and the district development committees and consultants; appropriate policy and institutional reforms; adequate sub-project selection criteria; farmer contributions; financial management systems; adherence to laws on land acquisition and resettlement; environmental management and gender targeting.

Sub-regional Transport Facilitation project (US$ 20 million loan). The project will improve transport infrastructure and trade facilitation arrangements between Nepal and neighbouring countries. The loan conditions concern compliance with land acquisition and resettlement policy; adequate procurement standards for the selection of management consultants; environmental management; introduction of tolls to cover maintenance; provision of counterpart funds; adherence to vehicle load enforcement measures; the opening hours of customs posts and independent technical audits.

Decentralized Rural Infrastructure and Livelihoods project (US$ 40 million loan). The project aims to achieve sustainable increased access to economic and social services, and enhanced social and financial capital for people in 18 poor and remote districts. The loan conditions concern the finalisation of policy on local infrastructure development; counterpart funding; the use of project agreements between district government and communities on financing and construction standards; appropriate sub-project selection criteria including resettlement issues; adherence to road maintenance and environmental standards; adherence to labour laws and project gender action plan; provision of implementation and monitoring plans; and the opening of a project account at the central bank.

Water (Millennium Development Goal 7)

Tony Baldry: To ask the Secretary of State for International Development what steps are being taken to ensure that *(a)* Millennium Development Goal 7 is met in East Africa and *(b)* targets to increase sustainable access to drinking water are met. [58493]

Hilary Benn: DFID is undertaking work in East Africa on Millennium Development Goal (MDG) 7, which aims to ensure environmental sustainability.

DFID has provided assistance in the preparation of poverty reduction strategies for Uganda and Tanzania so that relevant environmental issues are more appropriately reflected. Similarly, DFID Kenya, through the Poverty Environment Initiative (PEI), is supporting more effective integration of environmental issues into national and district planning and policy processes to implement the Economic Recovery Strategy for Employment and Wealth Creation.

At a regional level, we are supporting the Nile Basin Initiative. This promotes greater co-operation and more sustainable management and use of the river Nile resources among riparian states, including East African countries.

In line with G8 commitments on climate change, we are also contributing to international efforts to strengthen existing climate institutions in Africa, including in East Africa, through the regional implementation plans of the Global Climate Observation System.

The MDG target of halving the proportion of people without access to safe water by 2015 is on track to be met globally, but not in sub-Saharan Africa and parts of Asia. Provision of clean and affordable water and sanitation is central to DFID discussions with developing country Governments. Our approach is to help developing country Governments to implement their own plans, both by direct financing and providing technical know-how. We are also taking steps to make the international system, particularly the UN, more effective, through our support to UN-Water, and to the Joint Monitoring Programme that measures global progress towards access to safe water and basic sanitation.

DFID is committed to doubling spending on water in Africa to £95 million by 2008. We are now actively involved in seven African countries (Ethiopia, DRC, Malawi, Mozambique, Rwanda, Tanzania and Zambia), up from only two countries, two years ago; and through our funding of other agencies' programmes, we reach many other countries. For example, the EU plans to provide 10 million people with access to water and a further five million to sanitation by 2010 through projects it has recently approved through the Water Facility.

For more information see DFID's Water Action plan, published in March 2004 (http://www.dfid.gov.uk/pubs/files/dfid-water-action-plan.pdf), and the regular updates of progress against the plan, the next being due at the end of March 2006.

Water Fund Programme

Tony Baldry: To ask the Secretary of State for International Development how much the Government has given to the Water Fund Programme in each of the last five years. [57454]

Mr. Thomas: DFID has not funded and is not aware of the Water Fund Programme.

TRADE AND INDUSTRY

Distraction Crime

Mr. Bone: To ask the Secretary of State for Trade and Industry if he will bring forward proposals to tackle distraction crime associated with cold calling. [59191]

Mr. Sutcliffe: Distraction crime is a mater for the Home Office. The DTI is currently working on how to implement the Unfair Commercial Practice Directive.

Energy Review

Mr. Chope: To ask the Secretary of State for Trade and Industry pursuant to his answer of 13 February 2006, *Official Report*, column 1644W, on the Energy Review, when the latest projections will be published; and if he will place a copy in the Library. [58663]

Malcolm Wicks: Our latest energy and emissions projections were published on 16 February 2006. They can be found on the DTI website at:

http://www.dti.gov.uk/energy/sepn/uep_feb2006.pdf.

A hard copy is also available in the Libraries of the House, in the statistics section under the title "UK Energy and CO_2 Emissions Projections: Updated Projections to 2020".

European Energy Grid

Mr. Drew: To ask the Secretary of State for Trade and Industry what the Government's policy is on a single European energy grid. [57171]

Malcolm Wicks: Greater integration of energy networks across the EU is needed to support the development of the internal market and to ensure security of supply. Achieving such integration requires an increase in cross-border trading and infrastructure to allow energy to flow to meet demand. The Government have strongly supported the development of thinking on this subject and will be pressing for action at both the Energy and Spring European Councils.

Fusion Research

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry how much the Government have spent on fusion research at Culham *(a)* directly and *(b)* through its contribution to EU programmes in the last 10 years. [58299]

Barry Gardiner: The information is as follows:

(a) UK Government expenditure on fusion research at Culham in the last 10 years is given in the table. This covers funding for the UK's own national research programme and for the UK's contributions to the operation of the Joint European Torus (JET).

	£ million
1995–96	15.7
1996–97	12.1
1997–98	16.6
1998–99	12.6
1999–00	14.3
2000–01	17.0
2001–02	14.4

	£ million
2002–03	14.6
2003–04	15.6
2004–05	19.5

(b) Fusion research at Culham has also benefited from funding from EURATOM and from contributions from other European fusion programmes. Funding has been received for both the UK's own programme of research and for the operation of JET. Until the end of 1999, the JET Joint Undertaking was responsible for the operation of JET at Culham, and its income in million ECUs from EURATOM and from other European fusion programmes was approximately as follows:

	ECU million
1995	74
1996	67
1997	69
1998	68
1999	69

EURATOM's funding of the UK's own programme of research from 1995–96 to 1998–99 was as follows:

	£ million
1995–96	2.8
1996–97	3.9
1997–98	3.8
1998–99	3.8

Since January 2000, UKAEA has assumed responsibility for the operation of JET as a facility for fusion scientists from around Europe (including the UK). Funding received by UKAEA from EURATOM for both the operation of JET and the UK programme of fusion research at Culham since 2000 is shown in the table. (Note, however, that these totals include some funding for JET from other European fusion programmes. They also include the UK's host contribution to JET, also in the figures in part *(a)*, which varies from year to year but is typically around £6 million.)

	£ million
1999–00	10.1
2000–01	36.4
2001–02	39.6
2002–03	36.4
2003–04	42.8
2004–05	47.2

The UK contributes to EURATOM fusion budget through its share of the funding of the European Union. The latter varies year-on-year and is typically in the region of 13 per cent.

Futures and Options Association

Sir Robert Smith: To ask the Secretary of State for Trade and Industry what progress has been made on implementing the outcomes resulting from his Department's participation in the Futures and Options Association's power trading forum round table on 6 November 2005. [58337]

Malcolm Wicks: Following the Future and Options Association's (FOA) Roundtables on gas and power, held on 1 November and 24 November 2005 respectively, the FOA, working closely with my Department and Ofgem, are taking forward work on a number of priority actions including:

To establish a Steering Group to assess the viability of and, as appropriate, take forward the establishment of an auction market for the trading of UK power;

To respond to the recent Government announcement for reviewing its energy policy, particularly in the context of appropriate market mechanisms, and to brief MPs on energy issues (FOA organised a roundtable under the auspices of the Associate Parliamentary Group on Wholesale Financial Markets and Services on 6 March);

To hold a further roundtable for brokerage houses and investment banks to ascertain their views on the state of the energy market;

To meet with users and groups of users (e.g. CBI) to explain the changing regulatory position to them, ascertain their concerns over the state of the energy market, and to help develop an appropriate introductory training programme for industrial and commercial users on the basic principles of risk management.

Gas Imports

John Hemming: To ask the Secretary of State for Trade and Industry what increases in capacity to import gas are planned for winter 2006–07. [59147]

Malcolm Wicks: There are currently three import projects due to commission for winter 2006–07. The projects are: the new Langeled pipeline from Norway, a new interconnector between Great Britain and the Netherlands and a further upgrade to the existing Interconnector between Great Britain and Belgium. The three projects when fully operational are expected to increase Great Britain's maximum daily import capacity by 133 million cubic metres.

Military Equipment Exports

Andrew George: To ask the Secretary of State for Trade and Industry whether he has made an assessment of whether UK-owned companies are using foreign subsidiaries to export military equipment to countries which would not be approved for export under UK and EU regulations. [57423]

Malcolm Wicks: No. The Government controls exports from the UK and trafficking and brokering activities as specified in its export control legislation. Beyond this the Government does not control the activities of UK companies or their subsidiaries. Exports from other destinations are a matter for the governments of those destinations.

Post Offices

Rosie Cooper: To ask the Secretary of State for Trade and Industry (1) how many post offices in West Lancashire constituency receive rural support funding; [58432]

(2) what the value is of the subsidy his Department proposes to pay during the 2006–07 financial year to Post Offices Ltd. for the maintenance of *(a)* rural and *(b)* other post offices in West Lancashire. [58438]

Barry Gardiner: The Government's annual funding of up to £150 million helps Post Office Ltd. to maintain non-commercial rural post offices. The funding supports the costs associated with maintaining the rural network, for example, fixed pay to sub-postmasters and cash distribution costs. It is not a fund that supports individual post offices and cannot be disaggregated by constituency.

Wave Power

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry pursuant to his Answer of 30 January 2006, *Official Report*, columns 113–4W, on wave power, what funding his Department has allocated for wave energy research and development projects in each year since 2000. [58335]

Malcolm Wicks *[holding answer 14 March 2006]:* The following table shows the amount spent on wave energy research and development projects in each year since 2000. The total is less than the amount endorsed (provided in the answer referred to in this question) as some projects are still ongoing and some have spent less than the amount allocated to them.

Year in which invoices were paid	*Spend (£)*
2000	184,452
2001	633,247
2002	688,983
2003	1,994,102
2004	666,891
2005	142,748
2006	150,595
Total	4,461,018

Wind Farms

Mr. Evans: To ask the Secretary of State for Trade and Industry if he will list the applications for wind farm developments in Lancashire which have been submitted to his Department for decision. [57634]

Malcolm Wicks *[holding answer 10 March 2006]:* Only one at Scout Moor, near Rochdale and Rossendale, which was granted consent on 25 May 2005.

DEFENCE

Afghanistan

Mr. MacDougall: To ask the Secretary of State for Defence how many British service men and women are serving in Afghanistan. [58094]

Mr. Ingram *[holding answer 14 March 2006]:* As of 13 March 2006, there were just over 2,300 British service personnel serving in Afghanistan.

C130J Programme

Mr. Hancock: To ask the Secretary of State for Defence why the classified programme on C130J referred to in Chapter 18 of the Ministry of Defence's annual report and accounts was cancelled; what assessment has been made of the operational implications; and if he will make a statement. [52270]

Mr. Ingram: This programme was cancelled in light of emerging costs and competing priorities. The impact on operations was assessed and steps were taken to provide the capability where appropriate.

Sudan

Mr. Clifton-Brown: To ask the Secretary of State for Defence whether plans are in place to deploy British troops to Darfur; and if he will make a statement. [57713]

Mr. Ingram: Four British troops are currently deployed in support of the African Union Mission in Sudan (AMIS).

One United Kingdom logistics specialist has been deployed, as an advisor, to the Joint Logistics Operation Centre, El Fashir in Darfur; one UK NATO officer has deployed and is fulfilling the liaison role between NATO and the African Union (AU); one UK NATO officer and one UK NATO non-commissioned officer have been deployed and are assisting with the coordination of strategic lift to AMIS.

At present, there are no plans to deploy any further military personnel to Darfur, however, any requests from the AU for additional support would be considered on a case-by-case basis.

Decommissioning

Mr. Hancock: To ask the Secretary of State for Defence what assessment he has made of the impact on capability of the recent decommissioning of *(a)* RFA Grey Rover and *(b)* HMS Spartan; and if he will make a statement. [57666]

Mr. Ingram: The rationale behind the reduction in the number of Royal Fleet Auxiliaries and attack submarines was explained in the Defence White Paper on the Strategic Defence Review and the Defence White Paper: Future Capabilities (Command 04/72).

Dismounted Countermine Capability

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will make a statement on progress towards meeting the UK's dismounted countermine capability requirement. [54343]

Mr. Ingram: The Dismounted Countermine Capability programme (DCMC) will provide dismounted personnel with an improved capability to locate and deal with anti-personnel and anti-tank mines. Progress is proceeding according to plan: an Invitation to tender was issued to four companies on 19 December 2005 with bids expected back for assessment on 10 March 2006. The programme is currently on course to meet its next major milestone, submission of a Main Gate Business Case in July 2006 seeking approval for demonstration and manufacture.

Drugs

Mr. Moore: To ask the Secretary of State for Defence how many personnel in each of the Services were subject to tests for illegal drug use in each quarter of each of the last five years. [58314]

Mr. Touhig *[holding answer 10 March 2006]:* The number of personnel in the Army and the RAF who were subject to Compulsory Drug Tests (CDT) for illegal drug use in each quarter of each of the last five years are shown in the tables below (the figures in the case of the Army are correct within plus or minus 100). The breakdown by quarter is not available for the Royal Navy and totals are shown for each year only.

Army personnel tested for illegal drugs by CDT teams 2001–05

	Q1	Q2	Q3	Q4	Total
2001	27457	23158	21420	21490	93525
2002	23000	19477	18752	23263	84492
2003	25644	20656	21808	19454	87562
2004	25457	21419	20803	19375	87054
2005	24869	23341	19039	22152	89401

RAF personnel tested for illegal drugs by CDT teams 2001–05

	Q1	Q2	Q3	Q4	Total
2001	2758	2834	3683	4126	13401
2002	2147	3418	2687	2844	11096
2003	2652	2360	4433	4125	13570
2004	1667	3519	2973	3673	11832
2005	2476	4491	2963	2878	12808

RN personnel tested for illegal drugs by CDT teams 2001–05

	Q1	Q2	Q3	Q4	Total
2001	U/K	U/K	U/K	U/K	12892
2002	U/K	U/K	U/K	U/K	12901
2003	U/K	U/K	U/K	U/K	13803
2004	U/K	U/K	U/K	U/K	12192

Eurofighter

Paul Flynn: To ask the Secretary of State for Defence how many Eurofighters have been ordered by the UK; and what his latest estimate is of the expected price per aircraft. [57989]

Mr. Ingram: The UK has 144 Eurofighter-Typhoon Tranche 1 and 2 aircraft on order. This forms part of the 384 aircraft currently under contract by the four partner nations. The unit production cost of Tranche 1 and 2 Typhoon, as published in Major Projects Report 2005, is £64.8 million.

HMS Endurance

Mr. Ancram: To ask the Secretary of State for Defence what the nature of repairs required by HMS Endurance are that necessitated the ship docking at Puerto Belgrano in Argentina. [58990]

Mr. Ingram: HMS Endurance had developed a rudder defect which required repair in dry dock for a short period before the ship could continue her operational programme. The work is being undertaken in the Puerto Belgrano Naval Base in Argentina, which is the nearest dry dock with the requisite facilities.

Iraq

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will make a statement on training given by the Royal Navy to the Iraqi navy since 2003. [58259]

Mr. Ingram *[holding answer 15 March 2006]:* The Iraqi navy (formerly the Iraqi Coastal Defence Force) has made significant progress since 2003 under the auspices of the Royal Navy and Coalition partners. The UK has played a lead role in this development by providing a Naval Assistance and Training Team of almost 50 personnel at Umm Qasr Naval Base, officer training at Britannia Royal Naval College Dartmouth, and seaborne support to the Iraqi navy and Marines during maritime security operations in the northern Arabian Gulf.

Mr. Moore: To ask the Secretary of State for Defence how many soldiers on operational tour in Iraq went absent without leave in each quarter since January 2004. [58312]

Mr. Touhig: There have been no reports of soldiers on operational tour in Iraq going absent without leave (AWOL) over the period in question. However, this does not include those individuals who may have gone AWOL while returning partway through their tour of Iraq on rest and recuperation or for other reasons; this level of data is not held centrally and could be provided only at disproportionate cost.

Joint Strike Fighter Programme

Mr. Borrow: To ask the Secretary of State for Defence how many meetings *(a)* he, *(b)* his Ministers and *(c)* staff from his Department have had with (i) US defence officials and (ii) members of Congress to discuss the Joint Strike Fighter programme; and what the purpose of these meetings was in each case. [57833]

Mr. Ingram: I refer my hon. Friend to the statement made in my answer of 3 March to the hon. Member for Gravesham (Mr. Holloway), *Official Report*, column 1000W, and to my answer of 23 January to the right hon. Member for Fylde (Mr. Jack), *Official Report*, column 1714W. Regular discussions take place at all levels with the US Administration on all aspects of the Joint Strike Fighter programme. Ministry of Defence and other Ministers continue to raise project issues during their discussions with key members of the US Administration, including testimony by my noble Friend the Minister for Defence Procurement (Lord Drayson) and the Chief of the Air Staff to the Senate Armed Services Committee on 14 March.

Nurses

Mr. Moore: To ask the Secretary of State for Defence what the *(a)* establishment and *(b)* number of staff in post of nurses is in each of the services. [58309]

Mr. Touhig: Available information on nursing service strength and requirement for each of the services is given in the following table[1].

[1] Figures comprise Trained UK Regular Forces and FTRS (Full Time Reserve Service) personnel. They include Registered General Nurses (RGN) and Mental Health Nurses (RMN).

As at 1 January 2006

Number

	Trained strength	Requirement[1]
Naval service[2]	290	330
Officers	90	110
Other ranks	200	220

As at 1 January 2006

Number

	Trained strength	*Requirement*[1]
Army[3,4]	840	1,080
Officers[5]	270	380
Other ranks	570	690
Royal Air Force	420	430
Officers[6]	120	130
Other ranks	300	300

[1] Requirement is establishment and manning and training margin (MTM).
[2] Queen Alexandra's Royal Naval Nursing Service (QARNNS).
[3] Queen Alexandra's Royal Army Nursing Corps (QARANC).
[4] Army requirement is based on the Regular Army Liability 09.
[5] Figures exclude the ranks Colonel and above.
[6] Princess Mary's Royal Air Force Nursing Service (MRAFNS).
Source:
DASA (Tri-Service)

In light of current operational planning assumptions, the tri-Service manning requirement for the Defence Medical Services (DMS) is currently under review. As a result, the total DMS requirement figures are expected to decrease in the near future.

All figures have been rounded to the nearest 10. Due to the rounding methods used, figures may not always equal the sum of the parts. When rounding to the nearest 10, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias.

Prisoners of War

Mr. Harper: To ask the Secretary of State for Defence pursuant to his oral statement of 12 December 2005, *Official Report*, columns 1119–21, on former Far East Prisoners of War and Civilian Internees (Ex Gratia Scheme), when he expects the review *(a)* to be completed and *(b)* to report to Ministers; and when he expects to make a statement to the House. [58965]

Mr. Touhig: I expect to receive a report setting out the conclusions of the review before the end of March and to make a statement to the House regarding its findings in a similar time scale.

Mr. Harper: To ask the Secretary of State for Defence pursuant to the written statement of 30 January 2006, *Official Report*, columns 2–3WS, on the Far East Prisoners of War and Civilian Internees (FEPOW) Scheme, when he expects the independent investigation being conducted by Mr. David Watkins *(a)* to be completed and *(b)* to report to Ministers; and when he expects to make a statement to the House. [58966]

Mr. Touhig: The independent investigation I announced in my statement to the House on 30 January is making good progress. I expect David Watkins to give me his final report by the end of June. I will make a statement about its findings as soon as I have considered these and decided how to respond to any recommendations that he may make.

Queen Alexandra's Royal Naval Nursing Service

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* actual strength and *(b)* establishment is of (i) nurses and (ii) nursing officers in the Queen Alexandra's Royal Naval Nursing Service. [57483]

Mr. Touhig: The information requested is shown in the following table.

As at 1 January 2006

	Naval Nurses	*Nursing Officers*
Total Strength	240	90
Untrained	40	[1]—
Trained	200	90
Trained Requirement	220	110

[1] Numbers less than five.

Notes:
1. In light of current operational planning assumptions, the tri-Service manning requirement for the Defence Medical Services (DMS) is currently under review. As a result, the total DMS requirement figures are expected to decrease in the near future.
2. Numbers have been rounded to the nearest 10. Numbers ending in five have been rounded to the nearest even multiple of 10.
3. Figures given are all regular service personnel—none of the current full-time Reserve Service personnel are Naval Nurses/ Nursing Officers.

Defence Science and Technology Laboratory

Mr. Gray: To ask the Secretary of State for Defence (1) what assessment he has made of the suitability of RAF Lyneham for the Defence Science and Technology Laboratory; [57390]

(2) what assessment he has made of the merits of the collocation of the Defence Science and Technology Laboratory with *(a)* the Defence Logistics Organisation and *(b)* the Defence Procurement Agency. [57391]

Mr. Ingram *[holding answer 10 March 2006]:* As a result of a detailed study in 2003, including inter-departmental consultation, it was decided that the Defence Science and Technology Laboratory (Dstl) Trading Fund should undertake a major consolidation of its staff and activities onto three of its existing sites: Porton Down, in Wiltshire, Portsdown West in Hampshire, and Fort Halstead in Kent. The aim was—and remains—to create an integrated laboratory where different technical teams can work closely together with greater synergy and thereby improve the support Dstl gives to its customers in MOD and elsewhere in Government.

Dstl does not currently operate from sites occupied by the Defence Logistics Organisation or Defence Procurement Agency. The additional costs and disruption to operations of collocating at entirely new sites were judged to greatly outweigh the limited benefits that might have resulted. Such a step was, in practice, unlikely to achieve the required business objectives.

Royal Navy

Dr. Fox: To ask the Secretary of State for Defence what is the *(a)* actual strength and *(b)* establishment of (i) engineering technicians, (ii) operator mechanics and (iii) communication technicians in the Royal Navy. [57484]

Mr. Touhig: The information requested is shown in the following table.

	As at 1 January 2006				
		Regular Strength			
	Total Strength	Untrained	Trained	FTRS	Trained Requirement
Eng Techs, Arts and Mechs	11,210	1,660	9,390	160	9,900
(Technicians)	400	380	30	0	2,300
(Artificers)	5,430	1,050	4,280	100	4,050
(Mechanics)	5,380	230	5,090	60	3,560
Operator Maintainers	6,980	480	6,430	70	6,550
Communications Technicians	310	40	270	[1]—	230

[1] Less than five.

Notes:

Engineering Technicians are new branches which are being formed by the merger of the old artificer and mechanics branches. This process is still in transition, so to get a clear picture of strengths against requirement it is necessary to look at all three groups together.

Numbers have been rounded to the nearest 10. Numbers ending in five have been rounded to the nearest even multiple of 10

The trained strength and the FTRS (full-time Reserve Service) are both used to fill trained requirement posts.

Veterans Day

Mr. Harper: To ask the Secretary of State for Defence what preparations have been made for Veterans Day on 27 June. [58090]

Mr. Touhig *[holding answer 13 March 2006]:* The decision to hold an annual Veterans Day was announced on 13 February, and I wrote to hon. Members on 23 February to advise them that this would be on 27 June each year. Detailed planning is now well advanced and I will make a further statement shortly setting out our intentions.

Mr. Harper: To ask the Secretary of State for Defence when his Department made the decision to hold a Veterans Day on 27 June. [58092]

Mr. Touhig *[holding answer 13 March 2006]:* The decision to hold an annual Veterans Day was announced on 13 February, and I wrote to hon. Members on 23 February to advise them that this would be on 27 June each year. There will be a free event in London linked to the celebrations of the 150th Anniversary of the Victoria Cross, which we hope will attract school children, veterans and other members of the public. It is hoped that events will also be held in other parts of the country on or around 27 June celebrating the contribution that veterans of all ages have made to our Nation. Further details will be published shortly.

SCOTLAND

Energy/Water Efficiency

Alan Simpson: To ask the Secretary of State for Scotland what proportion of the Department's building programme budget was allocated to *(a)* energy self-generation and *(b)* water recycling measures in the 2004–05 financial year. [58755]

David Cairns: The Scotland Office does not have a building programme.

Lockerbie

Mr. Mullin: To ask the Secretary of State for Scotland what discussions he has had with the Scottish Executive regarding the implications of the actions of the Scottish Criminal Records Office in the case of the Shirley McKie case for the Lockerbie convictions; and if he will make a statement. [57646]

David Cairns: The work of the Scottish Criminal Records Office is a matter for the Scottish Executive.

CULTURE, MEDIA AND SPORT

Casinos (Manchester)

Mr. Leech: To ask the Secretary of State for Culture, Media and Sport what representations have been received by her Department *(a)* in favour of and *(b)* opposed to a Destination Casino for the City of Manchester. [58859]

Mr. Caborn: A number of representations have been received in support of a regional casino in East Manchester. These include representations from New East Manchester Ltd. and the hon. Members for Manchester, Central and Manchester, Blackley.

Mr. Leech: To ask the Secretary of State for Culture, Media and Sport what discussions *(a)* she and *(b)* her officials have had with Manchester City Council regarding their proposals for a Destination Casino in East Manchester. [58862]

Mr. Caborn: We have no record of any discussions with Manchester City Council about a regional casino in East Manchester.

My right hon. Friend the Secretary of State has established an independent Casino Advisory Panel to advise her on the areas where the 17 new casinos permitted by the Gambling Act 2005 should be located.

The deadline for local authorities to submit their proposals to the Panel is 31 March. Any local authority that wishes to make its case to the Panel, for one or more casinos in their area, may do so. The Panel will make its recommendations by the end of 2006.

English Heritage

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport how many properties *(a)* owned and *(b)* managed by English Heritage she has visited as part of her official duties in each of the past five years. [58887]

Mr. Lammy: I refer the hon. Member to my answer to the hon. Member for Romford (Andrew Rosindell) on 20 December 2005, *Official Report*, column 2659W. I and my predecessors have regularly visited English Heritage and other heritage sites in the last five years.

Mr. Dismore: To ask the Secretary of State for Culture, Media and Sport if she will publish the consultants' reports prepared in the development of the forthcoming Heritage White Paper; and if she will make a statement. [59080]

Mr. Lammy: Two independent studies have been commissioned as part of the ongoing heritage protection review. An evaluation of eight of the English Heritage pilot projects set up to test out review recommendations, and an evaluation of the likely impact of proposals on local authorities based on a literature review and 16 case studies. Neither is yet complete. When they are, it is intended that the final reports will be sent to all those who participated and made publicly available but not formally published. The findings from both reports will be reflected when my Department publishes detailed policy proposals for reforming the heritage protection system later this year.

Gambling

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with *(a)* the Treasury and *(b)* the Office of the Deputy Prime Minister on the implementation of the Gambling Act 2005. [59042]

Mr. Caborn: My right hon. Friend the Secretary of State regularly discusses a range of issues with colleagues in other Departments.

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of problem gamblers. [59094]

Mr. Caborn: The current estimate is that 0.6 per cent. of the adult population are problem gamblers. This figure is drawn from the most recent authoritative research: Kerry Sproston, Bob Erens and Jim Orford (2000): "Gambling Behaviour in Britain: Results from the British Gambling Prevalence Study" (National Centre for Social Research, June 2000). During the coming year, and before the Gambling Act 2005 is implemented, the Gambling Commission will be conducting new research into the prevalence of problem gambling.

Junk Food Advertising

Mary Creagh: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the Office of Communications (Ofcom) on the publication of the Ofcom consultation on junk food advertising aimed at children. [58874]

James Purnell: Ministers and officials have had a number of discussions with Ofcom about the publication of its consultation on broadcast food promotion to children.

Swimming Pools

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many local authority *(a)* 50, *(b)* 25 and *(c)* under 25 metre swimming pools were (i) opened and (ii) closed in each year since 1997; and if she will make a statement. [58718]

Mr. Caborn: Access to good quality sporting provision, including swimming pools, is an essential part of enabling people to lead healthier lives and to participate in sport. There are currently over 4,400 swimming facilities across England which are open to the public.

The table sets out the numbers of 50 metre, 25 metre and below-25 metre local authority owned swimming pools which have opened in each year since 1997. Information has been derived from the Active Places database. In addition, a further five local authority pools are planned to open in 2006.

Information on closures of pools is not available for each year since 1997. However, in 2004, 10 local authority owned swimming pools closed—four of 25 metres' length and six of less than 25 metres. 18 pools closed in 2005—seven of 25 metres' length and 11 of less than 25 metres. As the following table shows, in the same period 41 local authority owned pools across 27 sites were opened, demonstrating a net increase in provision over the two years.

Number of openings of local authority owned swimming pools since 1997

	50m pools	*25m pools*	*< 25m pools*
1997	—	11	20
1998	—	8	16
1999	—	5	10
2000	2	7	15
2001	—	9	17
2002	—	18	35
2003	—	15	24
2004	—	9	16
2005	—	6	10

CABINET OFFICE

Civil Service Pay

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster (1) what are the average salaries of *(a)* all civil servants, *(b)* full-time civil servants and *(c)* part-time civil servants, broken down by (i) pay band and (ii) sex; [59436]

(2) what the average salary is of *(a)* male and *(b)* female civil servants. [59437]

Mr. Jim Murphy: Latest published information on average salaries for civil servants is published in Civil Service Statistics 2004. Table F covers permanent non-industrial staff by gross salary band gender, full-time, part-time and full-time equivalent basis.

This table also shows the median, upper and lower quartiles of salaries. This information is available in the Library and on the at the Cabinet Office Statistics website at http://www.civilservice.gov.uk/management/statistics/publications/xls/report_2004/table_f.xls.

Social Exclusion

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what funding streams his Department plans to finance in 2006–07 to tackle social exclusion. [56224]

Mr. Jim Murphy: The Cabinet Office coordinates policy and operations across Government through the secretariats and the Government Communication Unit. It seeks to improve delivery by building capacity in Departments and the public services.

There are currently no funding streams planned within Cabinet Office which will be solely dedicated to tackling social exclusion. However, a key theme of the Transformational Government strategy is tailoring services to the needs of customers and increasing accessibility through the use of digital channels.

DEPUTY PRIME MINISTER

Correspondence

Derek Wyatt: To ask the Deputy Prime Minister how many letters have been sent between his Department and the Kent Science Park since July 2004. [55406]

Jim Fitzpatrick: I understand that two letters have been sent by my Thames Gateway Delivery Unit to Kent Science Park direct and one letter has been received from Kent Science Park.

Departmental Staff

Mr. Llwyd: To ask the Deputy Prime Minister how many jobs from his Department have been relocated to Wales since 2001. [58503]

Jim Fitzpatrick: None from the Office of the Deputy Prime Minister (central), but the Planning Inspectorate has created 5 posts in Wales since 2001.

Government Office for the South West

Mr. Ellwood: To ask the Deputy Prime Minister how much it has cost to run the Government Office for the South West in each of the last five years; and how many staff were employed at that Office in each year. [58929]

Jim Fitzpatrick: The total running costs and the number of staff employed in the Government Office for the South West for the last five years are listed in the following table:

	Budget (£)	*Staff (FTE)*
2001–02	10,494,490	388
2002–03	11,883,418	391
2003–04	13,858,840	366
2004–05	14,434,570	359
2005–06	14,789,320	348

FTE = Full time equivalent

Greater Manchester

Andrew Gwynne: To ask the Deputy Prime Minister whether his Department has had discussions in respect of reorganising local government *(a)* structures and *(b)* functions of the metropolitan districts of Greater Manchester. [58002]

Mr. Woolas: My right hon. Friend, the Minister for Communities and Local Government visited Manchester last year as part of his programme of City Summits. Since then the Department has held follow up meetings, at which a range of topics have been discussed and may have included, on occasion, the structures and functions of the metropolitan districts of Greater Manchester.

Housing (Coventry, South)

Mr. Jim Cunningham: To ask the Deputy Prime Minister what money is available for housing associations to build houses in Coventry South in each of the next three financial years. [55255]

Yvette Cooper: The Housing Corporation has submitted the National Affordable Housing Programme for the next two years for approval. It is anticipated that announcements will be made shortly. The Office of the Deputy Prime Minister will be in a position to confirm the allocation made to Coventry when the announcement is made. The allocation for Coventry is not split between the North and South of the city.

Local Vision Programme

Mr. Pickles: To ask the Deputy Prime Minister what plans the Government have to amend the governance of the English regional chambers as part of his Department's local vision programme. [56181]

Yvette Cooper: In the context of the recommendation, made by Kate Barker in the Review of Housing Supply, that Regional Housing Boards and Regional Planning bodies be merged, the Government asked the Regional Assemblies for details of how they might assume this merged responsibility and to confirm that they have streamlined decisions making processes in place and provide for broad representation among members from across their regions and sub-regions. Beyond this the Government have no plans to further review the governance arrangements of assemblies.

Planning Policy Statement 3

Mr. Pickles: To ask the Deputy Prime Minister if he will place in the Library copies of each response to his Department's consultation on Planning Policy Statement 3. [56102]

Yvette Cooper: The aim is to publish Planning Policy Statement 3: Housing in its final form in the summer, at which time the Office of the Deputy Prime Minister will place copies of the responses it received in its Library. Coinciding with this, in accordance with current practice, a list of those responses will also be provided to the Library of the House.

Thames Gateway

Sarah Teather: To ask the Deputy Prime Minister (1) if he will estimate the likely cost to public funds associated with the Thames Gateway regeneration project, including costs in respect of additional urban centre renewal and management, site acquisition and decontamination, flood defence and new transport infrastructure; [50166]

(2) if he will estimate the expenditure likely to be required to deliver the expansion of *(a)* public services and *(b)* utilities in each district of the Thames Gateway as a consequence of his plans for the area. [50167]

Yvette Cooper: Between 2003 and 2006, the Government will have spent approximately £6 billion in the Thames Gateway. A breakdown of these expenditures is included in the publication "Creating Sustainable Communities: Delivering the Thames Gateway".

Sarah Teather: To ask the Deputy Prime Minister if he will ensure that expected population growth within Thames Gateway as a consequence of his plans for the area is taken into account in the determination of the budgets of local authorities. [50168]

Yvette Cooper: The Local Government Finance Settlements for 2006–07 and 2007–08 laid before the House on 31 January 2006 include the use of population projections as the dominant data drivers of population in the settlements. The population projections used are Office for National Statistics (ONS) trend based projections based on the ONS mid-2003 population estimates. This will make the settlement more forward-looking as the projections reflect demographic trends seen in an area.

As part of its response to the independent review of housing supply produced by Kate Barker, the Government has announced that there will be further consultation this year on housing and planning incentives for local authorities, and a cross-cutting review within the 2007 Comprehensive Spending Review to ensure that appropriate infrastructure will be provided to support housing and population growth. The review will: determine the social, transport and environmental infrastructure implications of housing growth in different spatial forms and locations; establish a framework for sustainable and cost-effective patterns of growth, including by examining the use of targeted investment through the Community Infrastructure Fund and Growth Areas funding to support the fastest-growing areas; and ensure that departmental resources across Government are targeted appropriately for providing the national, regional and local infrastructure necessary to support future housing and population growth.

Sarah Teather: To ask the Deputy Prime Minister whether the Government has *(a)* estimated how much affordable key worker housing will need to be made available in the Thames Gateway to meet the staffing needs of frontline public services and *(b)* assessed where such housing will be required; and what assessment the Government has made of whether sufficient resources have been identified to provide for that housing. [50197]

Yvette Cooper: A target has been set that at least 120,000 homes will be built across the Thames Gateway of which at least 35 per cent. will be affordable for rent or purchase by first time buyers including key workers. This target is set out in "Creating Sustainable Communities: delivering the Thames Gateway".

Planning Policy Guidance Note 3: Housing (PPG3) advises that assessments of housing need, including affordable key worker housing and family housing, are matters for local authorities to undertake in the light of their local circumstances. These assessments help authorities to identify where such housing is required as part of preparing their development plan policies.

Key Worker Living has provided funding for 1,105 new homes for key workers in the Thames Gateway from 2004–06 Housing Corporation Approved Development Programme. Future funding levels will be confirmed when the results of the National Affordable Housing Programme are announced in March 2006.

Town and Country Planning Act

Mr. Amess: To ask the Deputy Prime Minister (1) if he will make a statement on the operation of section 97 of the Town and Country Planning Act 1990, as amended; [54202]

(2) if he will list the occasions when he has revoked planning permission under section 100 of the Town and Country Planning Act 1990, as amended, since 1997; [54203]

(3) what recent representations he has received about his powers under section 100 of the Town and Country Planning Act 1990, as amended; and if he will make a statement. [54204]

Yvette Cooper: Local planning authorities have power under s97 of the Town and Country Planning Act 1990 to make an order revoking or modifying a planning permission, prior to it being implemented, where they consider it expedient to do so. They should have regard to the development plan and to any other material consideration. This is not a routine justification since the fact that planning permission was granted indicates that the development was considered acceptable at the time. If an order is opposed, it has to be confirmed by the Secretary of State before it can take effect.

The Secretary of State has power, under s100 of the Town and Country Planning Act 1990, to revoke or modify a planning permission granted by a local planning authority. Revocation or modification can only be made before a planning permission is implemented. The Secretary of State can use these powers as he thinks fit, after consultation with the local planning authority. Such intervention by the Secretary of State can only be justified in exceptional circumstances. However, the Secretary of State will generally use this power only if the original decision is judged to be grossly wrong, so that damage is likely to be done to the wider public interest.

Where orders come before the Secretary of State the decision will be taken only after considering the evidence by way of written representations, a hearing or a public local inquiry. The more controversial cases will almost inevitably go to inquiry.

Since 1997 the Secretary of State has used this power on 5 March 1998 to make a modification order to remove A1 retail use from outline planning permission for an industrial site granted by Alnwick district council and on 9 March 2000 to make a revocation and a modification order in respect of proposals for a factory outlet shopping village in an isolated location in Restormel, Cornwall.

The Office does not record representations received about the powers of the Secretary of State to revoke planning permissions.

Water Usage

Mr. Hollobone: To ask the Deputy Prime Minister what plans are in place to include water use reduction measures in building regulations. [53833]

Yvette Cooper *[holding answer 27 February 2006]:* We intend to regulate to reduce water use in new buildings. We are currently reviewing Building and Water Fitting Regulations with the Department for Environment, Food and Rural Affairs and expect to publish detailed proposals later in the year.

CONSTITUTIONAL AFFAIRS

Courts (Sitting Hours)

Mr. Bellingham: To ask the Minister of State, Department for Constitutional Affairs what plans she has to extend the sitting hours of criminal courts; and if she will make a statement. [58649]

Ms Harman: The Government's "Supporting Magistrates Courts to provide Justice" White Paper" published on 7 November 2005, states that the Government believe that greater flexibility should be introduced for magistrates court sitting hours where practical arrangements can be agreed locally with other key criminal justice system agencies. It sets out the need for magistrates courts to sit for a minimum of five hours per day, for each day that the courts are open.

Electoral Commission

Julie Morgan: To ask the Parliamentary Under Secretary of State, Department for Constitutional Affairs what recent assessment she has made of the operation of the Electoral Commission. [53921]

Ms Harman *[pursuant to the reply, 28 February 2006, Official Report, c. 121]:* My previous answer stated that the Electoral Commission is an independent body established by Parliament reporting to the Speaker's Committee. Should they so wish, Members of Parliament may meet with Representatives of the Electoral Commission to discuss its work in areas such as electoral registration, election fraud and registration of service voters, so we have that additional transparency. Further to this Members of Parliament can ask the Speaker's Committee about the Commission's work.

Freedom of Information

Andrew Gwynne: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 16 February 2006, *Official Report*, column 2193W, on freedom of information, if she will bring forward legislation to include sports trusts providing services on behalf of a local authority within the Freedom of Information Act 2000. [58415]

Ms Harman: We are currently evaluating the impact of the FOI Act 2000 on those public bodies covered by the legislation. This evaluation will inform consideration of how best to use the power contained in Section 5 of the Act which provides for extension of coverage.

Immigration Judges

Clare Short: To ask the Minister of State, Department for Constitutional Affairs what monitoring is undertaken of the decisions of individual immigration judges; and whether the results indicate that decision-making is consistent. [58554]

Bridget Prentice: Immigration Judges are independent members of the Judiciary, and as such it would be inappropriate for the Asylum and Immigration Tribunal (AIT) to monitor or comment upon individual judicial decisions. Immigration Judges determine appeals based on their own findings of fact and by applying the law as established to that particular claim. Current case law and country guidance notes are available for Immigration Judges' reference in ensuring consistency of approach in determining appeals that raise similar issues.

Within the AIT, a judicial management structure has been formed through the introduction of Designated Immigration Judges (DIJ) at each of the Tribunal's hearing centres. DIJ's guide and support small teams of Immigration Judges together with conducting regular appraisals with Immigration Judges. The judicial structure seeks to ensure that all judiciary have the resources and legislative knowledge to continue to produce high quality decisions within the Tribunal.

Job Relocation (Wales)

Mr. Llwyd: To ask the Minister of State, Department for Constitutional Affairs how many jobs in her Department have been relocated to Wales since 2001. [57694]

Ms Harman: No DCA jobs have relocated to Wales since 2001.

Voter Registration

Mr. Djanogly: To ask the Minister of State, Department for Constitutional Affairs how many people have been penalised under the Representation of the People Regulations 2001 for failing to return voter registration forms since 2001, broken down by *(a)* region and *(b)* county. [57895]

Ms Harman: Information on the number of prosecutions for this offence is not collected centrally or by region and county.

WORK AND PENSIONS

Benefits

Rosie Cooper: To ask the Secretary of State for Work and Pensions how many people in West Lancashire constituency have received *(a)* widow's benefit, *(b)* housing benefit, *(c)* council tax credit and *(d)* income support in each year since 1997. [58517]

Mr. Plaskitt: Widows benefit is not available broken down geographically prior to 1999. Housing benefit and council tax benefit figures are not available broken down by parliamentary constituency; local authority figures have been provided.

The available information is in the tables.

Widows benefit and bereavement benefit claimants in the Lancashire West parliamentary constituency: each August 1999–2005

	Widows benefit	Bereavement benefit
August 1999	500	n/a
August 2000	500	n/a
August 2001	400	n/a
August 2002	400	100
August 2003	300	100
August 2004	300	100
August 2005	300	100

n/a = Figures not applicable

Notes:

1. Numbers are rounded to the nearest hundred.
2. Bereavement benefit, which replaced widows benefit for new claims, was introduced in April 2001.

Source:

DWP Information Directorate Work and Pensions Longitudinal Study 100 per cent.

Housing benefit and council tax benefit case loads: West Lancashire district council; each August from 1997 to 2005

	Housing benefit	Council tax benefit
August 1997	8,000	11,000
August 1998	8,100	10,900
August 1999	7,800	10,600
August 2000	7,200	9,700
August 2001	7,100	9,600
August 2002	6,700	9,100
August 2003	6,600	9,100
August 2004	6,700	9,600
August 2005	6,500	9,500

Notes:

1. The data refer to benefit units, which may be a single person or a couple.
2. Figures have been rounded to the nearest hundred.
3. Council tax benefit totals exclude any second adult rebate cases.
4. Housing benefit figures exclude any extended payment cases.

Source:

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. case load stock-count taken in August 1997 to August 2005.

Income support claimants (excluding minimum income guarantee) in the Lancashire West parliamentary constituency; each August from 1997 to 2005

	Number
August 1997	4,100
August 1998	3,700
August 1999	4,100
August 2000	4,000
August 2001	4,000
August 2002	3,900
August 2003	3,800
August 2004	3,600
August 2005	3,400

Notes:

1. Figures for August 1999 to August 2005 are from the DWP 100 per cent. Work and Pensions Longitudinal Study, while figures for August 1997 and August 1998 are derived by applying 5 per cent. proportions to 100 per cent. totals.
2. Figures have been rounded to the nearest hundred.
3. Income support figures exclude minimum income guarantee (MIG); pension credit replaced MIG on the 6 October 2003 and ended IS entitlement to customers aged 60+. Pension credit cases are not included in the figures in the table.

DWP Work and Pensions Longitudinal Study (WPLS) and DWP Information Directorate 5 per cent. samples

Dr. Cable: To ask the Secretary of State for Work and Pensions what action the Government are taking to encourage local authorities to develop strategies aimed at promoting take-up of benefits; and what national assessment has been made of the strategies already in place. [55932]

Mr. Plaskitt: For the third year running, we are working with local authorities' in running publicity and marketing take up campaigns, aimed at getting people who are entitled to council tax benefit to claim it.

People claiming pension credit can now claim housing benefit and council tax benefit at the same time. The Pension Service takes their details over the telephone and fills in a three page claim form on their behalf, so all they have to do is check and sign it before sending it on to the local authority for processing.

Although no national assessment has been made, evaluation from last year's awareness campaign revealed that before the campaign, 13 per cent. of respondents knew something about council tax benefit; this was 29 per cent. after the campaign. The corresponding figures for people aged 65 and over were 27 per cent. and 50 per cent. respectively.

The housing benefit/council tax benefit performance standards, against which local authorities are inspected by the Benefit Fraud Inspectorate and assessed for the comprehensive performance assessment, require local authorities to have a strategy to encourage take-up. Their activities should go beyond the first step of raising awareness and should include targeted campaigns and partnership working with other stakeholders such as The Pension Service and voluntary agencies to maximise take up of all benefits.

In addition, when pension credit was introduced in October 2003, we invested almost £0.5 billion a year in increasing the amounts on which housing benefit and council tax benefit are based. This meant that around 2 million pensioner households became either entitled to council tax benefit for the first time or qualified for more help.

Dr. Cable: To ask the Secretary of State for Work and Pensions what assessment has been made in terms of each of the non-contributory benefits of the proportion of people who are entitled to access benefits who fail to do so; what measures are in place to encourage awareness of and access to those schemes and benefits, with particular reference to people who *(a)* are not able to read and *(b)* are not on the electoral roll. [55933]

Mr. Plaskitt: The latest available information is in "Income Related Benefits Estimates of Take Up in 2003/2004", a copy of which is in the Library.

There are no specific awareness schemes aimed at people who are not on the electoral roll, but we do all we can to ensure that people are aware of the benefits to which they are entitled and how to claim them. For example, for the third year we are running publicity and marketing take-up campaigns with local authorities' support, aimed at getting people who are entitled to, but not getting, council tax benefit to claim it.

The Pension Service has also written to every pensioner household to tell them about pension credit. It has done this through a number of campaign

initiatives such as the "You're Missing Out" direct mailings targeted at 1.5 million people most likely to be entitled. Direct mailings are issued using the latest addresses held within departmental records and are not dependent on electoral rolls. If a customer does not respond to the direct mailing, this will be followed up with a telephone call and if the customer can not be contacted by phone or does not wish to use the phone to conduct their business, the Pension Service will undertake a home visit to discuss entitlement to pension credit and any other service or benefit to which the customer may be entitled.

For customers who are unable to read, pension credit has been advertised on national and regional TV and radio. Pension credit leaflets are published in audio format. In addition, the Pension Service local service works closely with community partners to capture a much wider customer base and reach some of the most vulnerable pensioners in order that they receive their entitlement to pension credit and any other benefits and services.

Income support and jobseeker's allowance information is available to customers through leaflets and posters in Jobcentre Plus offices, and through a number of community partners, such as citizens advice bureaux and GPs' surgeries. Information is also available on the Jobcentre Plus and Department for Work and Pensions websites. Leaflets are also published in audio format for customers unable to read.

Helen Goodman: To ask the Secretary of State for Work and Pensions where *(a)* claimants and *(b)* recipients of (i) Child Benefit, (ii) Child Support, (iii) Severe disablement allowance, (iv) Industrial injuries benefit, (v) Income Support, (vi) Jobseeker's Allowance, (vii) Job Grant, (viii) Earnings top up (ix) Statutory sick pay, (x) Statutory Maternity Pay, (xi) Maternity allowance, (xii) Incapacity elements, (xiii) child elements in Income Support, (xiv) state pensions, (xv) non-contributory state pension, (xvi) Christmas Bonus, (xvii) pension credit, (xviii) TV licences for over 75s, (xix) widow's benefit, (xx) War Pensions, (xxi) Winter fuel payments, (xxii) bonuses and payments from the Social Fund, (xxiii) Crisis Loans, (xxiv) funeral payments, (xxv) Attendance Allowance, (xxvi) Disability Living Allowance, (xxvii) Disability Working Allowance, (xxviii) Carer's Allowance, (xxix) Invalid Care Allowance, (xxx) Vaccine Damage Payments, (xxxi) Motability specialised vehicles, (xxxii) council tax benefit, (xxxiii) Housing Benefit and discretionary housing payments, (xxxiv) Independent Living Funds, (xxxv) New Deal allowances and credits, (xxxvi) over 65s payment, (xxxvii) over 70s payment, (xxxviii) Guardian's allowance and (xxxix) Child's Special Allowance who live in County Durham may go to receive face-to-face advice from departmental staff about their entitlements and circumstances. [48546]

Margaret Hodge *[holding answer 9 February 2006]:* Jobcentre Plus offices and The Pension Service Local Service Information Points in County Durham will provide personal advice on those benefits listed that are administered by DWP.Jobcentre Plus is in the process of transforming the way in which it delivers its services to customers. In County Durham Jobcentre Plus services are now delivered from a network of ten newly equipped Jobcentre Plus offices in Bishop Auckland, Chester le Street, Consett, Crook, Durham, Newton Aycliffe, Peterlee, Spennymoor, Stanley and Seaham. All these offices provide a face-to-face service and will offer appropriate advice about benefit entitlements.

In addition to the personal service provided through Jobcentre Plus offices improvements to be introduced in 2006 will allow customers to access services through the telephone and through the Internet.

The Pension Service provides assistance to those customers who are unable to conduct their business over the telephone and require face-to-face contact. Home visits are carried out through 'Local Service' which is the visiting arm of the Pension Service. Customers can also make appointments to visit one of the regular sessions held by Local Service, referred to as 'Information Points', in places that they are familiar with, such as Age concern and CAB outlets, local libraries and community centres, local hospitals and residential homes. In County Durham there are Information Points in Bishop Auckland and Chester-le-Street.

The following benefits listed are not administered by DWP but signposting advice is available from Jobcentre Plus and The Pension Service:

Child Benefit, Child Support, TV licences for over 75s, Motability Specialised vehicles, Independent Living Funds, Guardian's Allowance.

Earnings Top Up is no longer available, and income related benefits whilst in employment are now covered by Tax Credits.

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to the answer of 27 February 2006, *Official Report*, column 246W, on housing benefit, whether his Department holds copies of the responses to the Housing Green Paper, "Quality and Choice: A Decent Home for All", relating to the modernisation of housing benefit. [57958]

Mr. Plaskitt: The Department for Work and Pensions does not hold copies of the responses. The then Departments of the Environment Transport and the Regions (DETR) and Social Security issued the Housing Green Paper—"Quality and Choice; A Decent Home for All" in April 2000. DETR (now Office of the Deputy Prime Minister) officials collated responses to the Green Paper and published the results in December 2000.

Danny Alexander: To ask the Secretary of State for Work and Pensions what the cost is to date of the Pathfinders pilots of local housing allowance in each pathfinder area; and how much of this cost was met *(a)* by the benefit authority and *(b)* from central funds. [56282]

Mr. Plaskitt: The total benefit expenditure (AME) on the local housing allowance and the total local housing allowance benefit subsidy from central Government in 2004–05 are presented by Pathfinder area in table 1. These costs do not represent the additional benefit costs due to the local housing allowance and a large proportion of these costs would have been incurred under the current housing benefit scheme had the local housing allowance not been introduced in these Pathfinder areas.

Table 1: Total benefit expenditure on the local housing allowance in Pathfinder areas, 2004–05

£

	Total LHA expenditure	Total LHA subsidy from central Government	Expenditure met by local authority
Blackpool	26,698,000	26,453,000	245,000
Brighton	53,759,000	52,674,000	1,085,000
Conwy	5,632,000	5,532,000	100,000
Coventry	13,590,000	13,333,000	257,000
Edinburgh	34,820,000	34,102,000	718,000
Leeds	19,363,000	19,086,000	278,000
Lewisham	24,455,000	24,234,000	221,000
North East Lincs	15,015,000	14,797,000	218,000
Teignbridge	6,133,000	6,055,000	78,000
Total	199,465,000	196,266,000	3,199,000

Note:
Expenditure figures are rounded to the nearest £000.
Source:
LHA1 forms

Information on the total administration costs (DEL) of each of the Pathfinder areas is not available. Information on the administration costs funded by central Government for the local housing allowance alone is also not available at local authority level. Pathfinder local authorities receive funding based on what it is reasonably expected to cost them in administering the local housing allowance. All Pathfinders are receiving additional funding to implement the local housing allowance, run the Pathfinder project, contribute to the evaluation activity and procure the necessary software. Table 2 provides the breakdown of this additional funding for each year since the introduction of the local housing allowance.

Table 2: Additional administrative expenditure on the local housing allowance in Pathfinder areas

£

	2003–04	2004–05	2005–06
Blackpool	415,000	305,000	272,000
Brighton	392,000	355,000	256,000
Conwy	197,000	194,000	116,000
Coventry	199,000	217,000	119,000
Edinburgh	245,000	191,000	168,000
Leeds	207,000	235,000	221,000
Lewisham	317,000	229,000	184,000
North East Lincs	253,000	231,000	225,000
Teignbridge	189,000	94,000	111,000
Total	2,416,000	2,051,000	1,671,000

Notes:
1. Expenditure figures are rounded to the nearest £000.
2. Of the total figures in this table, IT expenditure accounts for £1,281,000 in 2003–04, £64,000 in 2004–05 and £26,000 in 2005–06.

Child Support Agency

Ben Chapman: To ask the Secretary of State for Work and Pensions what payment has been made to the contractor who supplied the Child Support Agency's updated IT system; and if he will make a statement. [53739]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Hilary Reynolds:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. The Chief Executive is currently unavailable as he is communicating the Operational Improvement Plan to all Agency staff, I am therefore responding on his behalf.

You asked the Secretary of State for Work and Pensions what payment has been made to the contractor who supplied the Child Support Agency's updated IT system; and if he will make a statement.

The Child Support Agency's new IT system (CS2) was provided by Electronic Data Systems (EDS) under the Child Support Reform (CSR) contract for IT services. The Agency's administrative accounts confirm charging of £133 million for the delivery and operation of CS2 between January 2003 and August 2005 under the CSR contract.

In August 2005, the Department agreed a general realignment of its IT contracts with EDS. As part of this realignment from August 2005 the Agency no longer receives invoices from EDS, instead the Department is charged centrally. The Department's businesses are currently agreeing the accounting methodology and principles for recharging EDS costs. Information on charging for CS2 since August 2005 will be available after the financial year end when the Agency's accounts are compiled and audited.

I hope you find this response helpful.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many current Child Support Agency cases are regarded as linked cases; and what his definition is of a linked case. [54237]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Hilary Reynolds:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on leave, I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, how many current CSA cases are regarded as linked cases; and what is his definition of a linked case.

The Agency regards a case as "linked" when it is associated in some way with another case.

Linked cases can be:

Old scheme cases linked to other old scheme cases on the old computer system (CSCS),

New scheme cases linked only to other new scheme cases; and

Old scheme cases linked to new scheme cases.

Links to new child support applications can be further divided into 'relevant' or 'non-relevant':

Relevant links are ones where the new application will have a financial impact on the linked case. This will occur when either the non-resident parent or the parent with care in a new scheme application is also the non-resident parent or parent with care in another case.

Non-relevant links are ones which will not affect the calculation, such as an address already held on file as one previously occupied by an existing or former client.

When a new child support application is made, one or more links may be established to existing cases. If a link is established to one or more cases on the old system (CSCS), then these will be transferred to the new computer system (CS2), along with any further cases that are linked to this chain. This is known as reactive migration. Where the links are relevant (as defined above), the old scheme cases in question will also be converted to the new scheme. This is called reactive conversion.

It is not currently possible to say how many old scheme cases have links to other old scheme cases, and neither is it possible to say how many new scheme cases have links to other new scheme cases. Information is, however, available for old scheme cases with links to new scheme cases.

As at the end of December 2005:

There were 305,000 old scheme cases on the new computer system (CS2). These are cases that have been reactively migrated due to being linked to new scheme cases.

Of those old scheme cases that had been reactively migrated from the old system to the new system, we estimate that around 35,000 cases had relevant links to new scheme cases and have now been converted. We estimate that a further 50,000 cases also have relevant links and are currently awaiting conversion.

I hope you find this helpful

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what *(a)* national and *(b)* local targets have been set for call centre performance on (i) the legacy Child Support Computer System and (ii) the new CS2 system in the Child Support Agency; and what the performance against such targets has been for each measurement period within the last three years for which data is available. [54240]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Hilary Reynolds:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on leave, I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, what *(a)* national and *(b)* local targets have been set for call centre performance on (i) the legacy Child Support Computer System and (ii) the new CS2 system in the Child Support Agency; and what the performance against such targets has been for each measurement period within the last three years for which data is available.

The Agency currently has two telephony targets. These apply to new system (CS2) calls only:

No less than 85 per cent. of CS2 calls available to staff should be answered.

New system calls should be answered within an average of 2 minutes.

In addition, there are a further two targets that are internal to the National Helpline (the Agency's telephony service). These are:

No less than 85 per cent. of old system (CSCS) calls available to staff should be answered.

Old system calls should be answered within an average of 50 seconds.

The Agency has seven call centres, based in Dudley, Hastings, Falkirk, Plymouth, Birkenhead, Belfast and Liverpool. Telephony targets apply at local and national level, and performance against these is shown in the attached tables.

I hope you find this helpful.

Table 1: Target: No less than 85 per cent. of CS2 calls available to staff should be answered

	Dudley	Hastings	Falkirk	Plymouth	Birkenhead	Belfast	Liverpool	Agency
CS2 calls answered as a percentage of calls available to staff								
2003–04	n/a	n/a	n/a	n/a	n/a	n/a	n/a	78
2004–05	85	85	84	84	82	79	75	83
April-December 2005	87	90	92	91	90	90	78	90

Notes:

1. Performance against this target is derived by measuring the percentage of calls that are answered, of those available to staff. For CS2, these are calls that connected to the queue for an agent, after navigating the automated/touch tone part of the process.
2. Performance for 2003–04 is only available for the Agency as a whole and cannot be separated down into separate call centres.
3. Robust data for CS2 is available only from July 2003. Therefore the figure for Agency performance in 2003–04 is based on data for July-March only.
4. Percentages are rounded to the nearest 1 per cent.

Table 2: Target—No less than 85 per cent. of CSCS calls available to staff should be answered

	Dudley	Hastings	Falkirk	Plymouth	Birkenhead	Belfast	Liverpool	Agency
CSCS calls answered as a percentage of calls available to staff								
2003–04	72	68	84	72	71	50	80	71
2004–05	82	82	88	82	80	79	90	85
April-December 2005	83	86	93	91	90	90	94	91

Notes:

1. Performance against this target is derived by measuring the percentage of calls that are answered, of those available to staff.
2. Percentages are rounded to the nearest 1 per cent.

Table 3: Target: Calls regarding CS2 cases should be answered within two minutes

	Dudley	Hastings	Falkirk	Plymouth	Birkenhead	Belfast	Liverpool	Agency
Time taken to answer CS2 calls, in minutes								
2003–04	02:17	02:15	01:43	02:49	02:31	02:41	n/a	2.22
2004–05	01:58	02:21	02:24	02:35	02:33	03:09	01:15	2.29
April-December 2005	01:45	01:22	01:18	01:24	01:30	01:35	02:00	1.29

Notes:

1. Performance against this target is measured by considering the time taken for calls to be answered from the moment at which they are available to staff to be answered. For CS2 calls, this excludes the time taken by customers to navigate the automated/touch tone part of the process.
2. The time taken to answer CS2 calls in Liverpool is not available for 2003–04.
3. Figures are presented as minutes and seconds, and are rounded to the nearest second.

Table 4: Target: Calls regarding CSCS cases should be answered within 50 seconds

	Dudley	*Hastings*	*Falkirk*	*Plymouth*	*Birkenhead*	*Belfast*	*Liverpool*	*Agency*
Time taken to answer CSCS calls, in minutes								
2003–04	01:18	02:25	00:55	01:49	02:28	05:22	01:27	2.12
2004–05	00:31	01:08	00:36	01:13	01:18	01:05	01:12	0.56
April-December 2005	00:28	00:41	00:23	00:31	00:36	00:34	00:36	0.32

Notes:
1. Performance against this target is measured by considering the time taken for calls to be answered from the moment at which they are available to staff to be answered. There is no automated/touch tone system for CSCS calls.
2. Figures are presented as minutes and seconds, and are rounded to the nearest second.

Anne Milton: To ask the Secretary of State for Work and Pensions pursuant to the answer of 10 January 2006, *Official Report*, column 611W, on the Child Support Agency, what targets are in place for the processing of the backlog of applications. [45646]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

To ask the Secretary of State for Work and Pensions, pursuant to the Answer of the 10th January 2006 *Official Report* column 611W on the Child Support Agency what targets are in place for the processing of the backlog of applications.

The Child Support Agency is making every effort to reduce the backlog of applications.

Between January and December 2005, the number of outstanding un-cleared potential applications across both the old and the new schemes fell by 10 per cent, from over 362,000 to 327,000 (figures rounded to the nearest thousand).

Volumes of uncleared new scheme applications have stabilised and are no longer growing. Indeed, they fell by 2 per cent. between April and December 2005, standing at 259,000 at the end of the period.

In the Operational Improvement Plan announced by the Secretary of State on 9th February 2006, the Agency set itself the target of reducing the backlog of applications to the point where, by March 2009, 80% of applications will be cleared within 12 weeks and there will be no backlog in this area.

I hope you find this helpful.

Jobcentre Plus

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions (1) when he expects the planned roll out of Jobcentre Plus benefit delivery centres to be completed; [54248]

(2) if he will make a statement on the transitional arrangements for benefit claim processing that are in place prior to the roll out of Jobcentre Plus Benefit Delivery Centres. [54249]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your questions asking when he expects the planned roll out of Jobcentre Plus Benefit Delivery Centres to be completed and if he will make a statement on the transitional arrangements for benefit claim processing that are in place prior to the roll out of Jobcentre Plus Benefit Delivery Centres. These are issues which fall within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

We expect to compete the roll out of the Benefit Delivery Centres by March 2008.

The move to Benefit Delivery Centres involves detailed implementation plans for each site. These include ensuring the minimum disruption to performance and customer service.

For customers, the main impact will be the introduction of a new 0845/0800 telephone contact number and a new postal address. Customers will receive mailings about this, and there will be publicity campaigns in Jobcentre Plus outlets, other Government Departments and outlets which customers may use to obtain contact details — for example GP's surgeries, Local Government Offices, Citizen Advice Bureaux.

I hope this is helpful.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions which Jobcentre Plus offices carry out benefit claim processing; and how many staff are employed for the purpose of processing benefit claims in each such office. [54251]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking which Jobcentre Plus offices carry out benefit claim processing and how many staff are employed for the purpose of processing benefit claims in each such office. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

At September 2004 benefit processing took place in approximately 650 sites. Since that date, as part of the rationalisation of the Jobcentre Plus business and estate, the number of sites processing claims has reduced to approximately 450.

We have now shared the planned implementation of the Benefit Delivery Centres with the first Centre due to go-live in April this year. By March 2008 processing will be carried out in 77 sites as previously announced.

The information requested on staffing is not available. Jobcentre Plus keeps staffing records by grade and location, but not by job role in each location.

Lone Parents

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of lone parents moved from income support to *(a)* incapacity benefit, *(b)* jobseeker's allowance, *(c)* other out-of-work benefits and *(d)* employment when their youngest child reached 16-years-old in the last period for which figures are available; and if he will make a statement. [55072]

Mr. Plaskitt: Between August 2003 and August 2004, the number of lone parents that left income support within three months of their youngest child turning 16 was 15,400. 16 per cent. of these did not move to an out-of-work benefit. We do not currently have robust data that would allow us to estimate how many of those who have not returned to benefit have entered employment.

The proportion of those moving to out-of-work benefits is in the table.

Proportion of lone parents leaving income support within three months of their youngest child reaching 16

Benefit[1]	*Percentage*
Jobseekers Allowance	61
Incapacity Benefit	13
Income Support	5
Income Support (with a Disability Premium)	5
No benefit claim	16
Total	100

[1] The benefit has been taken to be the first benefit spell a customer has had after their child reaches 16.

Notes:

1. A customer may have an overlapping claim for income support and incapacity benefit. For this reason the proportion moving to an out-of-work benefit due to health condition or disability is 18 per cent.
2. A time period of three months around the date where the claimant's youngest child turns 16 has been used to assume that any claimant leaving income support in this period is doing so because their youngest child has turned 16.
3. The figures presented show all those who left income support between August 2003 and August 2004 and tracked for one year.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what discussions the Government has had with *(a)* coalition partners in Afghanistan and *(b)* the Afghan Government concerning alternative methods of poppy eradication in Afghanistan; [58631]

(2) what assessment his Department has made of the feasibility of the use of *(a)* chemical eradication and *(b)* incineration in the destruction of poppy crops in Afghanistan. [58632]

Dr. Howells: The UK believes that the Government of Afghanistan's recently updated National Drug Control Strategy represents the best means of securing a sustainable reduction on the production and trafficking of opiates in Afghanistan. The strategy highlights four key priorities. These are: disrupting the drugs trade by targeting traffickers and their backers; strengthening and diversifying legal rural livelihoods; reducing the demand for illicit drugs and treatment of problem drug users; and developing effective state institutions to combat drugs at the central and provincial level. The strategy also states that there is a role for targeted ground-based eradication where alternative livelihoods exist, in order to incentivise the shift away from poppy cultivation. As key partner nation for counter narcotics, the UK is committed to helping Afghanistan deliver its National Drug Control Strategy and to co-ordinating international assistance in support of the strategy.

The UK is supporting the Government of Afghanistan to deliver viable commercial crops as feasible economic alternatives to poppy. Farmers also need access to credit, land and markets, alternative employment opportunities, infrastructure, such as irrigation and roads to help grow and transport produce, and Government emergency mechanisms to ensure food security. Targeted ground based eradication is necessary to inject risk into the system and encourage farmers to give up growing poppy.

Neither chemical eradication nor incineration of poppy crops are viable options in Afghanistan. Spraying chemicals or burning fields will not give accurate enough targeting to ensure that only those cultivators who have access to alternative livelihoods have their crops destroyed. There would also be concerns about the risks that both chemicals and incineration pose to the environment and human health.

Al-Qaeda

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports that al-Qaeda is seeking to re-establish a presence in *(a)* Somalia, *(b)* Ethiopia and *(c)* Sudan; and what steps are being taken by his Department to counter such re-establishment. [58830]

Dr. Howells: Al-Qaeda and related groups continue to pose a significant global threat, including to British interests in Somalia, Sudan and Ethiopia. We continuously assess the threat from al-Qaeda and al-Qaeda related terrorist cells, but do not publish these assessments.

We work with other governments in tackling international terrorism including Somalia, Sudan and Ethiopia. International efforts have inter alia led to the disruption of terrorist operations, and the planning, financing and support for such operations in the region.

Burma

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of recent reports that the military junta in Burma has been sending troops into battle under the influence amphetamines. [58800]

Ian Pearson: We are aware of press reports that the military regime in Burma has been sending troops into battle under the influence of amphetamines, but have no information to substantiate these reports.

Correspondence

Stewart Hosie: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter dated 6 April 2005 from Nicola Sturgeon, MSP for Glasgow region, regarding Ali Javaid Pal and Shamshad Perveen. [58306]

Dr. Howells: UKvisas replied on 22 June 2005, but addressed this to my hon. Friend the Member for Glasgow, Central (Mr. Sarwar) in error and sent it to the Scottish Parliament in Edinburgh. UKvisas apologises for this error. UKvisas will now confirm the current

validity of the information in this letter and send it to Nicola Sturgeon, the Member of the Scottish Parliament for Glasgow, within seven days.

European Employment Practices

Mr. Chope: To ask the Minister of State for Foreign and Commonwealth Affairs if he will make representations to the Spanish government to allow Spanish nationals in the UK to undertake conveyancing in Spain. [58606]

Bridget Prentice: I am replying as this question falls within my Department's responsibility.

Conveyancing in Spain can only be practised by notaries who are also Spanish. The UK Government and the European Commission are aware of this situation and the European Commission is investigating whether this is in breach of competition rules.

Holy See

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will make a statement on the operation of the Lateran Treaty; [55815]

(2) what consultations he undertook before closing the offices of the British embassy to the Holy See; and if he will make a statement; [55816]

(3) what recent representations he has received about the closure of the offices of the British embassy in the Holy See; if he will place in the Library copies of such representations; and if he will make a statement; [55817]

(4) what discussions he has had with the Vatican about the closure of the offices of the British embassy in the Holy See; and if he will make a statement; [55818]

(5) if he will make a statement on the future of the British embassy in the Holy See; [55819]

(6) how many staff were employed by the British embassy in the Holy See in each year since 1997; at what grade each was employed; and how many were locally engaged staff; [55820]

(7) what estimate he has made of the savings to his Department of the closure of the offices of the United Kingdom embassy to the Holy See; and if he will make a statement; [55839]

(8) what discussions he has had with Cabinet colleagues about the closure of the offices of the British embassy in the Holy See; and if he will make a statement. [55861]

Mr. Douglas Alexander: The Lateran Treaty comprises three agreements dating from 11 February 1929. They provided for the mutual recognition of the Kingdom (later the Republic) of Italy and the Holy See. The UK is not a party to those agreements and as such their operation is a matter for the Holy See and the Republic of Italy.

As my right. hon. Friend the Foreign Secretary said in his Written Statement on 15 December 2004, *Official Report*, column 138WS, "there is no question of closing our embassy to the Holy See". It remains an important part of our overseas network.

The embassy was, however, relocated in July 2005 from its rented offices in Via Condotti, to the compound where our embassy to the Republic of Italy is located. That decision was taken as a result of security concerns and in order to improve efficiency. The move took place with the prior consent of the Holy See. Our embassy to the Holy See remains separate from our embassy to Republic of Italy, with a separate building, flag and plaque. We estimate annual savings on rent to be €59,000.

On the question of staffing, the new ambassador was appointed through open competition last year. The appointment was warmly welcomed by Cardinal Cormac Murphy O'Connor, the Archbishop of Westminster.

Following an internal review of the embassy in 2005, a reduction was made of the equivalent of one part-time member of staff. Before the review and from 2001 the ambassador was supported by a part-time Deputy Head of Mission, a full-time locally engaged assistant and two part-time locally engaged support staff. (Between 1997 and 2000 the Deputy Head of Mission worked full-time). The ambassador is now supported by a full-time locally engaged political officer and a full-time locally engaged assistant/support officer.

International Criminal Court

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken by his Department to ensure that the International Criminal Court is able to fulfil its mandate. [58858]

Dr. Howells: The UK is a firm supporter, in principle and in practice, of the International Criminal Court (ICC), and is committed to respecting the court's independence. From time to time, the ICC requests assistance from states parties, either in relation to an ongoing investigation or in relation to the wider functioning of the court. To protect the integrity of the court's investigations, it would not be appropriate to comment on their operational aspects nor to reveal what support the UK has provided in response to ICC requests. The UK remains ready to consider any specific request put forward by the court.

More broadly, the UK supports the functioning of the court in a number of key areas. A generic witness relocation agreement was concluded with the court in November 2004, and an exchange of letters on information-sharing was signed in August 2005. Negotiations on an agreement, at the court's request, on the enforcement of sentences are well advanced.

The Government will continue to support the ICC as it takes forward its investigations, and to maintain political pressure on all parties to provide full co-operation to the ICC.

Besides our contribution to the general budget of the ICC (£5.8 million), the UK contributed £110,000 in 2005 to activities relating to the ICC. We continue to lobby Governments around the world to accede to the Rome Statute and widen the jurisdiction of the court.

Iran

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether Iran has any undeclared centrifuge production capacity; and if he will make a statement. [56114]

Mr. Straw: We have no evidence that Iran has any undeclared uranium centrifuge enrichment capability. However, the International Atomic Energy Agency's report of 27 February notes that

> "the Agency is not at this point in time in a position to conclude that there are no undeclared nuclear materials or activities in Iran",

and that

> "In the case of Iran, this conclusion can be expected to take even longer in light of the undeclared nature of Iran's past nuclear programme, and in particular because of the inadequacy of information available on its centrifuge enrichment programme".

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of whether Iran has recommenced *(a)* manufacture and assembly of gas centrifuge components and *(b)* installation of gas centrifuges at its Natanz facility; and if he will make a statement. [56115]

Mr. Straw: The Iranian Government has informed the International Atomic Energy Agency that it intends to recommence manufacture, assembly and installation of gas centrifuges or related components at Natanz. We cannot confirm whether they have yet done so. We believe that this would be an unhelpful development, which would do little to restore international confidence that Iran's nuclear programme is for purely peaceful purposes.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of how close to completion the Iranian pilot-scale centrifuge plant at Natanz is; and if he will make a statement. [56116]

Mr. Straw: Iran has continued construction of the buildings for both the pilot fuel enrichment plant (PFEP) and the fuel enrichment plant (FEP) at Natanz. Since the International Atomic Energy Agency (IAEA) seals were removed on 11 January, Iran has resumed work on the gas handling system at the PFEP and has begun installing and testing P-1 centrifuges in cascades of up to 20 machines. Iran has informed the IAEA that it intends to commence installation of the first 3000 P-1 machines at the FEP in the fourth quarter of 2006.

We believe that continued enrichment activity, on any scale, would allow Iran to take significant steps towards mastering the technology. Given Iran's past history of concealment and deception and its failure to take the steps necessary to begin rebuilding international confidence in the exclusively peaceful nature of its nuclear programme, persisting with this activity will increase international concern and make reaching a long term agreement more difficult. In its resolution adopted on 4 February 2005, the IAEA Board of Governors reiterated its call for Iran to re-establish full and sustained suspension of all enrichment-related and reprocessing activities, including research and development.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the current installed capacity of the Natanz pilot plant; and if he will make a statement. [56117]

Mr. Straw: A number of single centrifuges, as well as two test cascades, of 10 and 20 enrichment centrifuges respectively, are currently installed at the Natanz pilot plant.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Iran's development of gas-centrifuge uranium enrichment technology; and if he will make a statement. [56118]

Mr. Straw: Iran's gas-centrifuge technology, in particular the designs for P1 and P2 centrifuges, was acquired with assistance from an international proliferation supply network. The International Atomic Energy Agency (IAEA) have reported that Iran has conducted small scale enrichment activities at the Kalaye Electric facility in Tehran, and subsequently constructed a test cascade at Natanz which operated briefly in 2003. On 3 January 2006, Iran announced its intention to resume industrial scale enrichment.

The IAEA Director General has recently reported to the IAEA Board of Governors that Iran had worked on an indigenous modified P2 design. His report also noted that

> "although some progress has been made since November 2004 in the verification of statements by Iran regarding the chronology of its centrifuge enrichment programme, the Agency has not yet been able to verify the correctness and completeness of Iran's statements concerning those programmes."

Iran has no civil requirement for the uranium conversion facility at Esfahan or for the enrichment facility at Natanz. Most countries have concluded that it does not make economic sense to develop costly conversion and enrichment facilities to support a small number of power reactors. In any case, the Russians have contracted to supply fuel for 10 years to Iran's only reactor under construction at Bushehr; and have offered to continue supply for the lifetime of the reactor if the Iranians so choose.

Patrick Mercer: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government supports sanctions against Iran in relation to its nuclear programme; and if he will make a statement. [57872]

Dr. Howells: We supported the decision of the International Atomic Energy Agency's (IAEA) Board of Governors in February to report the question of Iran's nuclear programme to the United Nations Security Council. We are now consulting Security Council partners about next steps. We expect the Security Council to respond to the actions taken by Iran. Speculation about possible United Nations sanctions is premature. But Iran should be under no doubt that, if it continues to defy the international community, the Security Council will respond. Iran needs to take the steps deemed necessary by the IAEA Board in its 4 February resolution, including reinstating a full and verifiable suspension of all enrichment-related and reprocessing activity.

Patrick Mercer: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with officials from the International Atomic Energy Agency (IAEA) on Iran's nuclear enrichment policy; what the UK position on this was at the IAEA meeting in Vienna; and what steps the Government plans to take in relation to Iran's nuclear programme. [57874]

Dr. Howells: My right hon. Friend the Foreign Secretary and senior Foreign and Commonwealth Office (FCO) officials are in regular contact with the Director-General of the International Atomic Energy Agency (IAEA) and his staff.

At the IAEA Board of Governors meeting on 8 March, the British ambassador to the IAEA made a statement on behalf of the UK, France and Germany. This noted our serious concern at Iran's failure to take the steps deemed necessary by the Board, and stated that the time had come for the United Nations Security Council to reinforce the authority of the IAEA and the Board's resolutions. The full text of the statement is available on the FCO website:

http://www.fco.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1007029391629&a=KArticle&aid=1140688366394

The IAEA Board agreed at its meeting on 4 February that the Security Council should become involved. We are discussing next steps with Security Council members and other international partners.

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has *(a)* issued guidance to and *(b)* received requests for advice from sporting and cultural bodies on maintaining links with Iran. [58992]

Dr. Howells: The Foreign and Commonwealth Office (FCO) does not issue guidance of this kind, but we encourage people to people contacts with Iran and do what we can to facilitate this. Individuals or groups requesting travel advice are directed to the relevant section of the FCO website, which is updated regularly. Sporting and cultural groups seeking advice on other issues are normally directed to the country pages for Iran on the FCO website or to the British Council, or are briefed by officials depending on the nature of the enquiry.

Mauritania

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to help the Mauritanian authorities to reduce the number of people attempting to enter the European Union illegally from Mauritanian *(a)* territory and *(b)* waters. [58716]

Dr. Howells: The Government's assistance to Mauritania on migration has been channeled through the EU. We are currently engaged in dialogue with EU partners, and both source and transit countries, which will include Mauritania, on how best to meet this challenge. Mauritania will be invited to the Euro-African regional conference on Migration in Rabat in July. I have set out in more detail the action the UK is taking in my answer to the hon. Member on 16 February 2006, *Official Report*, columns 2287–88W.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will establish an embassy in Nouakchott. [58717]

Dr. Howells: At present, the Government have no plans to open an embassy in Nouakchott.

Sexual Violence

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken by his Department to support the work of the International Criminal Court in investigating and prosecuting sexual violence against women. [58833]

Dr. Howells: The Rome Statute of the International Criminal Court (ICC) makes full provision for the prosecution of sexual violence against women. Crimes under the jurisdiction of the ICC include, among others, rape, sexual slavery, enforced prostitution, forced pregnancy, enforced sterilisation, and other forms of sexual violence of comparable gravity.

The prosecutor of the ICC has launched investigations into the situations in Northern Uganda, the Democratic Republic of Congo and Darfur, in Sudan. The precise details of the investigations are a matter for the prosecutor and the UK is committed to respecting the court's independence. However, the warrants issued in October 2005 against members of the Lord's Resistance Army, under the investigation into the situation in Northern Uganda, included counts relating to sexual violence.

The United Kingdom is a strong supporter, in principle and in practice, of the ICC. We will continue to support the ICC as it takes forward its investigations, and to maintain political pressure on all parties to provide full co-operation to the ICC. Besides our contribution to the general budget of the ICC (£5.8 million), the UK contributed £110,000 in 2005 to activities relating to the ICC.

UK Nationals (Overseas Prisons)

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* male and *(b)* female United Kingdom nationals are serving prison sentences in foreign jurisdictions. [58172]

Dr. Howells: The total number of British nationals in detention overseas on 31 March 2005 was 2,764 of which 2,459 are males and 305 are females. This number includes all categories of detainees (with the exception of immigration detainees) including those who have been sentenced. It would incur disproportionate costs to establish a figure for just those who have been sentenced. 1,266 (46 per cent.) of those held in detention are there on drug related charges of which 1,068 are males and 198 are females.

UK Overseas Missions

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK overseas missions have amalgamated over the last nine years. [58627]

Mr. Straw: The Foreign and Commonwealth Office (FCO) has closed six British embassies and four British high commissions since 1997. The British embassy at Abidjan, Cote d'Ivoire has remained temporarily closed since 1 April 2005. This is due to the uncertain security situation there. The following table gives details of the missions closed permanently and the missions now accredited there.

	Cross accreditation to embassy/high commission
British embassy closed	
2003–04	
Bamako, Mali	Dakar, Senegal
San Salvador, El Salvador Tegucigalpa, Honduras	Guatemala City, Guatemala
Managua, Nicaragua	San Jose, Costa Rica
2005–06	
Antananarivo, Madagascar	Port Louis[1], Mauritius
Asuncion, Paraguay	Buenos Aires, Argentina
High commissions closed	
2005–06	
Maseru, Lesotho Mbabane, Swaziland	Pretoria[1], South Africa
Nassau, Bahamas	Kingston[1], Jamaica
Port Vila, Vanuatu	Suva[1], Fiji
Missions due for closure:	*Cross accreditation to:*
British high commission at Nuku' alofa, Tonga[2]	Suva[1], Fiji
British embassy at Dili, East Timor[3]	Jakarta, Indonesia

[1] High commissions.
[2] Closed to the public from 20 March 2006.
[3] Closed to the public from 14 July 2006.

During the same period, the FCO opened six British embassies and one British high commission. This is all part of the FCO's process of realigning resources with its strategic priorities.

HOME DEPARTMENT

Alcohol (Under-age Consumption)

Jim Cousins: To ask the Secretary of State for the Home Department how many people were prosecuted in courts in Newcastle for *(a)* selling alcohol to persons under 18 years for consumption on the premises and *(b)* selling alcohol from wholesalers to a person under 18 years in each year since 2001. [58665]

Paul Goggins: The information from the court proceedings database held by the Office for Criminal Justice Reform is contained in the table and gives the number of defendants prosecuted in Newcastle-upon-Tyne magistrates court for the sale of alcohol to minors, from 2001 to 2004.

The offence of selling alcohol to persons aged under 18 years of age was introduced to the penalty notice for disorder (PND) scheme from 1 November 2004 aimed at staff working in licensed premises found to commit this offence. It is not possible to identify PNDs issued in Newcastle because centrally available data is not broken down to this level of detail.

The Licensing Act 2003 came into force on 24 November 2005. Data for 2005 will be available in autumn 2006.

Number of defendants prosecuted at magistrates courts for offences relating to sale of alcohol to minors in Newcastle-upon-Tyne, 2001 to 2004[1]

Offence description	*Offence Act*	*Year*	*Prosecuted*
Agent knowingly selling to, knowingly allow consumption by or allowing any person to sell, intoxicating liquor to a person under 18. Selling etc. intoxicating liquor to person under 18 for consumption on the premises	Licensing (Occasional Permissions) Act 1983 Schedule (Sec 3) para 4(1) Licensing Act 1964 Sec 169(1)	2001 2002 2003 2004	0 3 21 23
Wholesaler selling intoxicating liquor to a person under 18	Licensing Act 1964 Sec 181 A(1) as added by Licensing Act 1988 Sec 17	2001 2002 2003 2004	0 0 0 0

[1] These data are on the principal offence basis.
Source:
RDS—Office for Criminal Justice Reform.

Child Pornography

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many people have been convicted of accessing child pornography on the internet in the West Midlands in the last 12 months. [57811]

Paul Goggins *[holding answer 15 March 2006]:* The court proceedings database held by the Office for Criminal Justice Reform shows that two people were convicted of the possession of an indecent photograph of a child in the West Midlands in 2004.

Data for 2005 will be available in the autumn of 2006.

Correspondence

Mr. Winnick: To ask the Secretary of State for the Home Department when he will reply to the letter of 26 January, reference M2213/6, from the hon. Member for Walsall, North regarding a constituent. [57805]

Mr. McNulty *[holding answer 13 March 2006]:* I replied to my hon. Friend on 10 March 2006.

Drug Treatment Programmes

Mr. Bellingham: To ask the Secretary of State for the Home Department what proportion of drug treatment

orders in England and Wales were successfully completed in each year since 1997; and if he will make a statement. [58216]

Fiona Mactaggart: Completion rates for drug treatment and testing orders, and since April 2005 the drug rehabilitation requirement of the community order, have only been measured by the national probation directorate since 2004–05. Completion rates are continuing to rise from 28 per cent. in 2003, as reported in the Public Accounts Committee DTTO report, to 36 per cent. in 2004–05 (exceeding the inaugural 35 per cent. completion target) and 39 per cent. so far this year. We know from research that offenders who complete the order have significantly lower reconviction rates (53 per cent.) than those that don't (91 per cent.).

Home Detention Curfews

Philip Davies: To ask the Secretary of State for the Home Department what procedures are used to monitor offenders on home detention curfew schemes operated by Group 4 Securicor. [58552]

Fiona Mactaggart: Offenders on Home Detention Curfew are continuously monitored during their curfew period, which must be for a minimum of nine hours a day. Staff from Group four Securicor will visit the offender at the curfew address on the day of release from prison to install the monitoring equipment. This uses radio frequency transmissions to determine whether the offender is present at the curfew address during the curfew period. Absences during curfew, or damage to the equipment, register automatically at the monitoring centre operated by Group four Securicor, who will respond with a telephone call and a visit if necessary. Once the threshold for breaching the offender is reached, Group four Securicor will report the breach to the Home Office release and recall section for further action.

Philip Davies: To ask the Secretary of State for the Home Department who decides which offenders are placed on the home detention scheme operated by private security companies. [58553]

Fiona Mactaggart: Governors, and controllers of contracted prisons, are responsible for the decision whether to grant the early release of prisoners under the Home Detention Curfew scheme subject to their meeting the eligibility criteria set out in statute and in Home Office guidance.

Mr. Bellingham: To ask the Secretary of State for the Home Department what processes are in place to inform prison governors of reasons why home detention curfews are breached; and if he will make a statement. [58207]

Fiona Mactaggart: When an offender is recalled to prison for breaching the conditions of HDC licence, the release and recall section in the Home Office issues a revocation order which is sent to the area command unit of the police force and also to the prison that released the offender. This is accompanied by an information sheet that gives reasons for the recall.

Mr. Bellingham: To ask the Secretary of State for the Home Department (1) what steps he is taking to improve the Prison Service's management of home detention curfew preparations; and if he will make a statement; [58237]

(2) what plans he has to review the processes involved in the management of the home detention curfew schemes; and if he will make a statement. [58242]

Fiona Mactaggart: The home detention curfew scheme is kept under continuous review to ensure that it is operated as efficiently as possible by staff in prisons (both public and private) and in the National Offender Management Service headquarters. Public protection is paramount and any changes to the scheme are only made after full consideration of the implications for public safety.

Police

Mr. Andrew Smith: To ask the Secretary of State for the Home Department how many police officers were employed by the Thames Valley police authority in each of the last 10 years; and how many of these were deployed to work in Oxford City. [58275]

Hazel Blears: The available information is provided in the table. Data is collected by Basic Command Unit (BCU) and the Oxford BCU is fully coterminous with Oxford City boundaries. BCU data is only available from 2003.

Police officer strength (full-time equivalent) (1995–2005)

As at 31 March each year	*Oxford*[1]	*Thames Valley*[2]
1995	—	3,854
1996	—	3,674
1997	—	3,695
1998	—	3,776
1999	—	3,748
2000	—	3,740
2001	—	3,703
2002	—	3,762
2003	317	3,833
2004	336	4,034
2005	328	4,114

[1] FTE includes those on career breaks or maternity/paternity leave. Data only available from 2003
[2] FTE excludes those on career breaks or maternity/paternity leave

Rosie Cooper: To ask the Secretary of State for the Home Department how many police officers there were in *(a)* West Lancashire constituency, *(b)* Lancashire and *(c)* England and Wales in each year since 1997. [58473]

Hazel Blears: The available information is provided in the table. Information for West Lancashire is only available from 2003.

Police officer strength by year (1997–2005)

			Full-time equivalent
As at 31 March each year	*Lancashire Western*[1]	*Lancashire*[2]	*England and Wales*[3]
1997	—	3,247	127,158
1998	—	3,257	126,814
1999	—	3,245	126,096
2000	—	3,179	124,170
2001	—	3,255	125,682

Police officer strength by year (1997–2005)

Full-time equivalent

As at 31 March each year	*Lancashire Western*[1]	*Lancashire*[2]	*England and Wales*[3]
2002	—	3,304	129,603
2003	494	3,339	133,366
2004	523	3,550	139,200
2005	553	3,551	141,230

[1] FTE includes those on career breaks or maternity/paternity leave. Data only available from 2003.
[2] FTE excludes those on career breaks or maternity/paternity leave
[3] Figures include those on Secondment to NCIS, NCS and Central Services. FTE excludes those on career breaks or maternity/ paternity leave.

Annette Brooke: To ask the Secretary of State for the Home Department what training is given to police officers in England and Wales on *(a)* Special Measures contained in the Youth Justice and Criminal Evidence Act 1999, *(b)* identification of vulnerable victims of crime and *(c)* interview and communication methods for vulnerable victims to enable them to comply with the Code of Practice for Victims of Crime which comes into force in April. [55386]

Hazel Blears *[holding answer 2 March 2006]:* Training of police officers is the responsibility of individual Chief Officers of Police. All police officers were made aware of the introduction in 2002 of special measures in the Youth Justice and Criminal Evidence Act 1999. To support the police, the Home Office issued training materials (Recognising Capability), guidance on identification (Vulnerable Witnesses: a Police Service Guide) and guidance on video-recording interviews with vulnerable or intimidated witnesses (Achieving Best Evidence).

A requirement for the police to undertake a witness' needs assessment has been introduced by the 'No Witness No Justice' project, which includes consideration of vulnerability and intimidation (this requirement is also now in the Code of Practice for Victims of Crime). Training materials were issued to all forces by Centrex at the end of 2004.

In February, in support of the Victim's Code, the Home Office issued to all forces in England and Wales an e-learning package for frontline police officers, which includes a training module on special measures.

Prison Visitors

Mr. Harper: To ask the Secretary of State for the Home Department what guidance his Department has given to prisons in England and Wales regarding the fingerprinting of visitors. [58656]

Fiona Mactaggart *[holding answer 14 March 2006]:* The authority for prisons to request and take personal biometric measurements is contained within Prison Rule 71 amended in 2005. It states:

> "any person or vehicle entering or leaving a prison may be stopped, examined and searched and in addition any such person may be photographed, fingerprinted or required to submit to other physical measurement".

Any measurement taken electronically has to be held, stored, and then deleted in accordance with Prison Service Orders 9010 Information Technology Security and 9020 Data Protection Act which are available at all prison establishments.

36 prisons in England and Wales have introduced electronic biometric entry systems for visitors. The prisons are: Albany, Altcourse, Ashfield, Belmarsh, Bedford, Blakenhurst, Bronzefield, Camphill, Coldingley, Doncaster, Dovegate, Forest Bank, Frankland, Full Sutton, Garth, Glen Parva, Holme House, Leeds, Leicester, Lewes, Lincoln, Lindholme, Liverpool, Long Lartin, Lowdham Grange, Manchester, Moorland, Nottingham, Parkhurst, Peterborough, Risley, Wakefield, Wellingborough, Whitemoor, Woodhill, and Wormwood Scrubs.

The majority of these systems require the visitor to give both a photographic facial image and an electronic fingerprint biometric which are used confirm the visitors identification every time the visitor enters or leaves the prison.

Prisoners

Mr. Bellingham: To ask the Secretary of State for the Home Department how many prisoners have a severe and enduring illness; and if he will make a statement. [58215]

Fiona Mactaggart: The NHS Plan (Department of Health, 2000) estimated that, at any one time, 5,000 of the prison population will have a severe mental illness, although not all of the 5,000 will be acutely ill at the same time.

Source:
This figure was derived from the survey Psychiatric morbidity among prisoners in England and Wales, Office for National Statistics (ONS), 1998.

Prisons

Philip Davies: To ask the Secretary of State for the Home Department how many laptop computers the Prison Service has purchased for use by prisoners in each of the last eight years. [58564]

Fiona Mactaggart: 73 laptop computers were purchased in 2005–06 for prisoner legal work under Prison Service Instruction 20/2005, Access to Justice. Data on the number of laptops purchased before 2005–06 could only be provided at disproportionate cost.

Security Industry Authority

Mr. Dismore: To ask the Secretary of State for the Home Department whether those who have been accepted for a licence by the Security Industry Authority (SIA), but who have yet to receive their licence from the SIA, will be able to work as security guards after 20 March; and if he will make a statement. [55177]

Paul Goggins *[holding answer 2 March 2006]:* The issue of compliance with the requirements of the Private Security Industry Act is a matter for the Security Industry Authority (SIA) who retain operational responsibility. They continue to work with their partners and law enforcement agencies such as the police, and local authorities on matters of compliance. Any individual undertaking licensable activity without a licence from 20 March will be committing a criminal offence and be liable to prosecution.

On 7 March, the SIA made an announcement regarding its enforcement policy. The SIA have stated that they will take a proportionate and reasoned approach to enforcement. Information about the SIA's enforcement policy can be found at www.the-sia.org.uk

Skills for Justice

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the work of Skills for Justice; and if he will make a statement. [58222]

Hazel Blears: Sector Skills Councils (SSCs) are licensed by the Secretary of State for Education and Skills, in consultation with Ministers in Scotland, Wales and Northern Ireland and are subject to twice-yearly comprehensive performance reviews to assess their ongoing capacity and capability to deliver their objectives.

The work of Skills for Justice is overseen by the Sector Skills Development Agency (SSDA) which, in conjunction with the relevant department for each sector, funds, supports and monitors the performance of all SSCs in order to ensure quality and consistent standards across the network. Furthermore, the agency seeks to promote best practice through the sharing of findings between different sectors.

The Home Office has made no formal assessment of the work of Skills for Justice.

Young Offenders

Rosie Cooper: To ask the Secretary of State for the Home Department what *(a)* support services and *(b)* training are available to help children of school age who have been convicted of a crime in (i) West Lancashire constituency and (ii) England. [58521]

Fiona Mactaggart: I refer my hon. Friend to the reply I gave to the hon. Member for Ruislip-Northwood on 16 January 2006, *Official Report* column 1152W.

Youth Justice

Mr. Bellingham: To ask the Secretary of State for the Home Department what recent assessment he has made of youth recidivism; and if he will make a statement. [58650]

Fiona Mactaggart: The most recent information on the re-offending of juveniles was published in February 2005 as 'Juvenile reconviction: results from the 2003 cohort'. Home Office On Line Report 08/05. The report is available on line at: http://www.homeoffice.gov.uk/rds/onlinepubs1.html.

Results for the 2004 cohort will be published in spring, 2006.

HEALTH

A and E Targets

Rosie Cooper: To ask the Secretary of State for Health what progress has been made towards the accident and emergency waiting time target. [54255]

Jane Kennedy: At the end of 2002, almost a quarter of patients spent more than four hours in accident and emergency (A&E) departments. Latest published figures show that over 98 per cent. of people are now seen and treated in less than four hours, with well over half in and out in less than two hours.

The target that patients should be seen, treated and discharged, admitted or transferred within four hours has been met. Since the end of March 2005, 98 per cent. has been achieved or slightly exceeded. From 2005, the target became an ongoing operational standard.

Information on the total time patients spend in A&E departments from arrival to admission, transfer or discharge is routinely published on the Department's website at: www.performance.doh.gov.uk/hospitalactivity/data_requests/index.html.

Benzene Contamination

Mr. Lansley: To ask the Secretary of State for Health what recent discussions *(a)* her Department and *(b)* the Food Standards Agency has had with the Food and Drug Administration in the United States on the levels of benzene in soft drinks; and if she will make a statement. [58566]

Caroline Flint: The Food Standards Agency contacted the United States Food and Drugs Administration (FDA) following reports that they were investigating levels of benzene in soft drinks. The FDA confirmed that they are conducting a survey of soft drinks containing benzoate and ascorbic acid and will be assessing the results to determine whether there is a need for further action.

Brighton and Sussex University Hospitals Trust

Mr. Soames: To ask the Secretary of State for Health if she will make a statement on the financial position of the Brighton and Sussex University Hospitals NHS Trust. [58161]

Caroline Flint: It is the responsibility of strategic health authorities (SHAs) to deliver overall financial balance for their local health communities.

Brighton and Sussex University Hospitals National Health Service Trust was forecasting, at month six, a deficit of £13.6 million for the financial year 2005–06.

Surrey and Sussex SHA continues to work closely with the trust in order to achieve financial balance.

In order to assist the NHS organisations that have the greatest financial problems, the Secretary of State announced turnaround teams in a written ministerial statement on 1 December 2005, *Official Report*, column 37WS.

Cancer Treatment (Waiting Times)

Mr. Baron: To ask the Secretary of State for Health what recent estimate she has made of the average waiting times for *(a)* cancer surgery and *(b)* chemotherapy. [58955]

Ms Rosie Winterton: We do not collect separate data on waiting times for cancer surgery or chemotherapy. The NHS Cancer Plan set out maximum waiting time

targets of two months from urgent referral to first treatment and one month from diagnosis to first treatment to be achieved for all patients treated from 1 January 2006. These targets apply to surgery and chemotherapy where they are the first definitive cancer treatment.

Data showing progress towards the achievement of these targets show that from October to December 2005, 96.8 per cent. of patients received their first treatment within one month of diagnosis with cancer and 83.9 per cent. of patients received their first treatment within two months of urgent referral by their general practitioner.

Mr. Baron: To ask the Secretary of State for Health when she expects the NHS to meet the two-month target for cancer patients in respect of minimum waiting time from urgent GP referral to first episode of treatment. [58956]

Ms Rosie Winterton: The target of a maximum two-month wait from urgent general practitioner referral to first treatment for all cancer patients was put into place at the end of December 2005 and should be met for all cancer patients treated from 1 January 2006. The first quarter's data, for the period January to March 2006, will be used to assess performance against these targets and will be available in June 2006.

Cheshire and Merseyside Strategic Health Authority

Rosie Cooper: To ask the Secretary of State for Health how many people are working in *(a)* the Cheshire and Merseyside strategic health authority and *(b)* Southport and Ormskirk hospital trust; how many were working in each (i) in October 2005 and (ii) at its inception; and what the associated staff costs were for each organisation in each case. [56401]

Mr. Byrne: Information is not held in the format requested. However, the following tables show all national health service staff by selected group, for Cheshire and Merseyside strategic health authority (SHA) as at 30 September 2002 and 30 September 2004; all NHS staff by selected group, for Southport and Ormskirk hospital NHS trust as at 30 September 1999 and 30 September 2004; staff costs for Cheshire and Merseyside SHA, in 2002–03 and 2004–05; and staff costs for Southport and Ormskirk hospital NHS trust, in 1999–2000 and 2004–05.

NHS staff—selected groups for Cheshire and Merseyside SHA, as at 30 September each specified year

Numbers (headcount)

	All NHS staff	*of which: All doctors*[1]	*of which: All general practitioners (GPS)*[2]	*Hospital and community health staff (HCHS) doctors and dentists*[1]	*HCHS non-medical staff*
2002	487	59	0	59	428
2004	239	30	0	30	209

[1] Excludes hospital practitioners and clinical assistants, most of these also work as a GP.
[2] All GPs include contracted GPs, personal medical service (PMS) others, general medical service (GMS) others, GP registrars and GP retainers.
Note:
Practice staff includes practice nurses, direct patient care staff, administrative and clerical and other.

Audited summarisation schedules of the Southport and Ormskirk Hospital NHS Trust 1999–2000 and 2004–05

Rosie Cooper: To ask the Secretary of State for Health what estimate she has made of the likely cost of redundancies in *(a)* Cheshire and Merseyside strategic health authority and *(b)* primary care trusts within Cheshire and Merseyside strategic health authority as a result of planned hospital mergers. [56558]

Mr. Byrne: There are currently no definite proposals for hospital trust mergers in the Cheshire and Merseyside strategic health authority area.

Child Protection

Tim Loughton: To ask the Secretary of State for Health what steps her Department takes to check whether individuals employed to work with children in the NHS through employment by an agency have been *(a)* on her Department's list of individuals who are considered unsuitable to work with children and *(b)* on the sex offenders register. [47775]

Mr. Byrne: Full guidance on pre-appointment checks for national health service staff was issued by NHS employers in May 2005. The guidance covers the full range of checks required before appointments in the NHS can be confirmed, including checks with regulatory bodies (for professional staff), references, occupational health checks and Criminal Record Bureau checks. The guidance applies to all staff, whether directly employed by the NHS or not, including temporary agency staff and contractor staff and

volunteers. Compliance with this guidance is monitored by the Healthcare Commission as part of the Commission's monitoring of the "Standards for Better Health", which include a standard for staff recruitment checks.

Chlamydia

Sandra Gidley: To ask the Secretary of State for Health whether there are plans to extend the Boots NHS chlamydia screening initiative in London to other parts of the country. [55023]

Caroline Flint: An evaluation of the chlamydia screening pathfinder project is being carried out concurrently with the London pilot. Decisions about whether to extend the scheme nationally will be made once the evaluation has reported.

Contraception

Mr. Amess: To ask the Secretary of State for Health how many morning-after pills have been distributed by North Devon primary care trust in each of the last 48 months. [57593]

Caroline Flint: The information available is shown in the following tables. Information on emergency hormonal contraception supplied under a patient group direction, by school nurses and pharmacists is not held centrally.

Occasions on which hormonal post-coital contraceptives dispensed at family planning clinics in North Devon primary care trust (PCT), 2001–02 to 2004–05

Dentistry

David Taylor: To ask the Secretary of State for Health what impact she expects the introduction of the general dental services contract will have on the availability of free dental treatment for school-age NHS patients in North West Leicestershire. [58987]

Ms Rosie Winterton: The new general dental services contract does not alter eligibility for free national health service dental treatment for children under 18.

Under the wider dental reforms being implemented from 1 April, it is for primary care trusts to commission and develop services in ways that best meet the needs of their local populations.

The new contracts are designed to promote new ways of working, based on the expert clinical guidelines produced by the National Institute for Health and Clinical Excellence, that should, over time, support dentists in seeing a greater range of both adult and child patients, thereby improving access to dentistry.

Elder Abuse

Sandra Gidley: To ask the Secretary of State for Health what steps she is taking to ensure that effective vetting and barring mechanisms are in place to protect older people at risk of abuse. [46553]

Mr. Byrne: The Protection of Vulnerable Groups Bill, published on 1 March, proposes to extend coverage of the existing barring schemes, to provide a more comprehensive and consistent measure of protection for vulnerable groups across social care, the national health service and beyond. Subject to the successful passage through Parliament of the bill, staged implementation of the new scheme will begin in 2007 with the bulk of the scheme rolled out in 2008.

Food Labelling

Ian Lucas: To ask the Secretary of State for Health what assessment she has made of the efficacy of a food labelling system based on *(a)* guideline daily amounts and *(b)* a multiple traffic lights system. [57645]

Caroline Flint: The Food Standards Agency (FSA) has undertaken a comprehensive research programme that looked at the efficacy of a number of different signposting formats. This evidence demonstrated that traffic light colours were a more effective means of providing at a glance information to consumers than purely numerical information.

The FSA board has taken the research and the feedback from an extensive stakeholder consultation before finalising its recommendation for front of pack signpost labelling which incorporates the following core elements:

Separate information on: fat, saturated fat, sugar and salt;

Use of red, amber or green colour coding to provide at a glance information on the level, that is, whether high, medium or low, of individual nutrients in the product;

Provision of information on the levels of nutrients present in a portion of the product; and

Use of the nutritional criteria developed by the FSA.

The FSA recognised that companies might want to include additional information, such as on guideline daily amounts.

Food Supplements

Mr. Stephen O'Brien: To ask the Secretary of State for Health what her objectives are for the further negotiations in the EU on the proposed regulation on nutrition and health claims made on foods. [57506]

Caroline Flint: During the second reading of the proposal, the Government's objective will be to ensure a regulation which provides consumer protection but is also proportionate and does not place unnecessary burdens on businesses.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what impact assessment was carried out by the European Commission on the proposed EU regulation on nutrition and health claims made on foods. [57507]

Caroline Flint: The text of the proposal, deposited for scrutiny in both houses under Explanatory Memorandum 11646/03 in August 2003, included an impact assessment by the European Commission. A regulatory impact assessment (RIA) prepared by the Food Standards Agency was also deposited at the same time.

The Government's RIA has been and will continue to be updated and revised to reflect progress in the negotiations on this proposal and information received from consultations with stakeholders. The most recent version was copied to the Chairmen of the European Scrutiny Committees of both Houses in April 2005.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what discussions her Department has had with other EU member states on their requirements for inclusion on the register for health claims under the proposed EU regulation on nutrition and health claims made on foods. [57508]

Caroline Flint: EU member states are focused on the continuing negotiations more than on the detailed application of future requirements. Nevertheless, officials of the Food Standards Agency will continue to informally engage with other EU member states to seek a consistent and proportionate approach to compiling lists of specific health claims for submission to the European Commission.

Health Services (Capital Expenditure)

Mr. Harper: To ask the Secretary of State for Health (1) what funding for capital expenditure on health services was allotted to each primary care trust in each of the past five years expressed *(a)* in cash terms and *(b)* as a percentage of the total; [55473]

(2) what funding each primary care trust will receive for *(a)* capital expenditure and *(b)* revenue expenditure on health services in 2006–07; and how much each trust received in (i) capital expenditure and (ii) revenue expenditure in 2005–06. [55583]

Mr. Byrne: The information requested has been placed in the Library.

However, we have only been able to supply four years worth of data. 2003–04 was the first year that capital allocations were made to primary care trusts. Prior to 2003–04, capital was allocated to regional offices, and they allocated to organisations in their patches.

Herceptin

Mr. Stewart Jackson: To ask the Secretary of State for Health if she will take steps to make Herceptin available for the treatment of early stage breast cancer patients in the West Anglia Cancer Network area; and if she will make a statement. [55699]

Ms Rosie Winterton: The responsibility for local health services now lies with the local national health service and it is for primary care trusts (PCTs) in conjunction with strategic health authorities and other local stakeholders to plan and develop services to meet the needs of their local populations. As such, it is not appropriate for Ministers to intervene in local decision making.

Policy on Herceptin for early stage breast cancer was published in the Chief Executive's bulletin on 10 November 2005 which is available on the Department's website at:

www.dh.gov.uk/PublicationsAndStatistics/Bulletins/ChiefExecutiveBulletin/BulletinCE/fs/en?CONTENT_ID=4122883&chk=85YQSF#5491542.

The advice remains unchanged in that

it is down to individual clinicians to decide whether to prescribe Herceptin for a patient who has tested HER2 positive after discussions about potential risks and taking into account her medical history;

PCTs should not refuse to fund Herceptin solely on the grounds of its cost; and

PCTs should not rule out treatments on principle but consider individual circumstances.

Kettering General Hospital

Mr. Hollobone: To ask the Secretary of State for Health what the purpose was of her predecessor's visit to Kettering General Hospital in February; and from which budget the cost of his transport was met. [29021]

Mr. Byrne *[holding answer 16 November 2005]:* The visit by the Secretary of State for Defence to Kettering General Hospital was to highlight plans to reduce waiting times to a maximum of 18 weeks end-to-end. The cost of providing an official car was met by the Government in accordance with paragraph 17 of Travel by Ministers'.

Medicines

Mr. Todd: To ask the Secretary of State for Health when she expects to announce the outcome of the consultation by the Medicines and Healthcare Products Agency on the Medicines (Fees) Regulations. [53855]

Jane Kennedy: The consultation period on proposals to increase fees payable to the Medicines and Healthcare products Regulatory Agency (MHRA) ended on 3 February with a total of 66 replies being received. The great majority of responses coming from pharmaceutical companies or pharmaceutical industry associations. Of the 66 responses, 57 stated that they did not support the proposed fee increases. The majority of these responses stated that they supported the work of the MHRA and the need for the Agency to be properly funded in order to deliver its responsibilities effectively, but pointed out that fee increases of the level proposed were not warranted without a commensurate improvement in service levels received by companies. Many responses expressed concern about current levels of service, including slow turnaround of licence applications and variations. A more detailed account of

the responses received can be found on the Agency's website (www.mhra.gov.uk) and copies of the replies (excluding those which have been made in confidence) can be obtained from the Agency directly.

The proposals to introduce a new national scheme for homoeopathic products has been delayed until later this year. The implementation date will be announced in due course. The consultation responses on those fees will therefore be considered separately.

We have considered carefully the replies received to the consultation exercise. There have been a number of enhancements to the ways in which the Agency undertakes its responsibilities to protect public health through assuring the safety, quality and efficacy of medicines in the UK. Some of these have come as a result of revised European legislation, others from improvements in monitoring the safety of medicines, including recommendations from the Health Select Committee Report on the Influence of the Pharmaceutical Industry (published 5 April 2005). These changes, alongside infrastructure costs such as pension contributions, and the fact that fee levels were frozen in 2005–06, have led to the additional costs to be recouped from fee income. The Agency, as a Government trading fund, is under an obligation to recover costs fully from its income from fees.

I have concluded that the fees increases are justified and have today approved the regulations to be laid before the House, for implementation from 1 April 2006. I have, however, taken due note of the concerns expressed in the consultation about the Agency's service levels. It is reasonable that in return for increased fees, companies should expect to see improvements in the way that their business is handled. The MHRA will therefore be working with the main industry associations on how to monitor service levels, and how to ensure that changes in the Agency's information systems and organisational structure deliver the intended benefits in terms of efficiency and speed of decision-making. I will ask the Agency to report to me regularly on progress.

NHS Direct

Mr. Harper: To ask the Secretary of State for Health what the role is of the NHS Direct helpline; what assessment she has made of its effectiveness; and if she will make a statement. [52767]

Mr. Byrne: NHS Direct is a nationwide, nurse led, health advice and information service, which includes 24-hour telephone service, website and digital television access to health advice, information and support to people across the country. The service aims to help people make choices about their own healthcare and where necessary guide them to the most appropriate level of care to meet their needs, for example, out-of-hours, general practitioner practice or accident and emergency.

The National Audit Office and the Commission for Health Improvement have both published reports on NHS Direct, which are available from the relevant organisation's websites.

Ministers and departmental officials meet with NHS Direct to review their performance against a set of key performance indicators.

Nutrient Profiling

Helen Southworth: To ask the Secretary of State for Health what progress has been made towards clear labelling of prepared foods which includes full ingredient and nutritional information and traffic light indications for fat, sugar and salt content. [57558]

Caroline Flint: Responsibility for food labelling lies with the European Union and the rules are harmonised across Europe.

The European Commission is undertaking a comprehensive review of food labelling legislation and is currently consulting on a discussion document that sets out to establish the scope and structure of future food labelling legislation, including ingredient and nutrition labelling.

At their meeting on 9 March, the Food Standards Agency board recommended businesses adopt four core principles for front of pack simplified nutrition labelling which uses traffic light colours to indicate whether levels of fats, saturated fat, sugar and salt in processed foods are low, medium or high.

Organ Donor Cards

Mrs. Moon: To ask the Secretary of State for Health how much was spent in each year between 1995 and 2005 on publicising the carrying of organ donor cards. [55524]

Ms Rosie Winterton: Specific expenditure for each year between 1997 to 2003 on publicising the carrying of organ donor cards is shown in the table.

	Cost (£ million)
1997–98	0.44
1998–99	1.53
1999–2000	0.93
2000–01	0.88
2001–02	0.90
2002–03	0.90
Total	5.58

We do not hold records on expenditure for 1995–96 and 1996–97.

Responsibility for promoting organ donation and encouraging people to join the NHS Organ Donor Register was given to UK Transplant from April 2003 by the Department. The budget allocated to UK Transplant for publicising organ donation was as follows:

	£
2003–04	827,000
2004–05	827,000
2005–06	827,000

Pandemic Influenza

Sir John Stanley: To ask the Secretary of State for Health what steps she will be taking to ensure that

Tamiflu is available to individuals within 48-hours of the onset of symptoms in the event of an outbreak of pandemic influenza; and if she will make a statement. [58261]

Ms Rosie Winterton: In September 2005, the Department published a framework for the national health service regarding storage and distribution of antivirals. This is available on the Department's website at:
www.dh.gov.uk/pandemicflu, and provides guidance to support the development of local plans by the NHS to make those medicines available for the treatment of patients. The overall aim is to ensure that antiviral medicines are available to treat patients suffering from influenza within 48-hours of the onset of symptoms.

The Department continues to work with the NHS in order to help them develop local plans.

Sir John Stanley: To ask the Secretary of State for Health what the Government's policy is on the procurement of a generic vaccine to provide some degree of immunity in the event of an outbreak of pandemic influenza; and if she will make a statement. [58263]

Ms Rosie Winterton: There is no 'generic' vaccine currently available that could protect against any pandemic virus. At present, a pandemic vaccine cannot be manufactured until the exact flu strain is known and it will take around four to six months after a pandemic has emerged until the first stocks of a vaccine will be available. The time taken in producing a vaccine reflects the complex nature of vaccine manufacture.

We have invited manufacturers to tender for a contract to supply 120 million doses of pandemic flu vaccine once the pandemic strain is known. The proposal to purchase in advance the capacity needed to make pandemic flu vaccine is designed to ensure that an effective vaccine is available for use in the United Kingdom as quickly as possible after a flu pandemic starts.

We have ordered 3.7 million doses of human H5N1 vaccine and we expect to receive stocks by October 2006. Supplies may be used to conduct further research on the immune responses generated by these vaccines. These stocks could also be used to vaccinate frontline healthcare workers before a specific pandemic vaccine can be developed.

Parliamentary Questions

Dr. Iddon: To ask the Secretary of State for Health when she will reply to question 33912, tabled on 29 November 2005 by the hon. Member for Bolton South East about his constituent, Dr. R. Henman. [56686]

Jane Kennedy: A reply was given on 7 March 2006, *Official Report*, column 1242W.

Mr. Wallace: To ask the Secretary of State for Health when she will answer Question 51575, tabled on 9 February by the hon. Member for Lancaster and Wyre for named day answer on 13 February. [58189]

Jane Kennedy *[holding answer 13 March 2006]:* A reply was given on 9 March 2006, *Official Report*, column 1777W.

Sexual Health

Mr. Pope: To ask the Secretary of State for Health when she is planning to launch the Government's next campaign on sexual health and chlamydia awareness. [57581]

Caroline Flint: Our current plans are to aim to launch the next sexual health campaign later this year.

We have rolled out the national chlamydia screening programme (NCSP) successfully to 25 per cent. of primary care trusts and we expect to see screening in many other areas to begin in April 2006. This is well ahead of the 2007 target.

The NCSP provides opportunistic screening for genital chlamydia infection and is aimed at all sexually active women and men aged between 16 and 24-years-old attending a variety of health care settings in England.

Young Carers

Tim Loughton: To ask the Secretary of State for Health what steps her Department takes to *(a)* identify and *(b)* support carers aged 18 to 25 years; and if she will make a statement. [51446]

Mr. Byrne: The Department seeks to support all carers though legislation which has strengthened the rights of carers to an assessment of their own needs as carers and involves the right to a carer's assessment. The Department's policies for carers' services apply equally to carers of all ages, including those aged 18 to 25 years.

In our White Paper, "Our health, our care, our say", we commit ourselves to a new deal for carers.

We will:

Update and extend the Prime Minister's strategy for carers and encourage councils and primary care trusts to nominate leads for carer's services;

Establish a helpline to offer advice to carers;

Ensure that, in each council area, a short-term, home based respite support to carers in crisis or emergency situations is established;

Allocate specific funding for the creation of an expert carers programme which will provide training for carers to develop the skills they need to take greater control over their own health and the health of those in their care.

NORTHERN IRELAND

'R' Drivers

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the Answer of 27 February 2006, *Official Report*, column 352W, on 'R' Drivers, what steps are being taken to reduce the number of 'R' drivers issued with fixed penalty notices in Northern Ireland; and how many 'R' drivers have had *(a)* their licences revoked and *(b)* their period of restriction extended as a result of excess speed in each of the last five years. [58325]

Angela E. Smith: While activities are not specifically targeted at reducing the number of 'R' drivers issued with fixed penalty notices, the Department of the Environment's road safety promotional campaigns

addressing the main causes of death and serious injury, including speed, are developed to particularly target the 17–24 age group. As part of its road safety education programme in post-primary schools, the Department promotes the timetabling of Road Traffic Studies and GCSE Motor Vehicle and Road User Studies and provides appropriate support, training, teaching materials and resources. The Department also offers a Driver Training Scheme for 17–18 year olds who hold a valid provisional licence. These activities all encourage young drivers and potential drivers to be safer road users.

The statistics requested at *(a)* and *(b)* are not readily available and the Department will write to the hon. Gentleman with this information. In the case of *(b)*, it should be noted that there is no legislative provision to extend the specified period of restriction as the result of a disqualification or revocation. Any time during which a person is disqualified from holding or obtaining a licence, or holds only provisional entitlement, is disregarded for the purposes of calculating the end of the specified period of restriction. The information which will be provided to the hon. Gentleman will therefore be the number of *(a)* 'R' drivers revoked in the last 5 years and *(b)* 'R' drivers revoked on grounds of excess speed.

Air Ambulance

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many patients have been transported by air ambulance in each of the last five years in Northern Ireland. [58141]

Mr. Woodward: There is no air ambulance service currently operating in Northern Ireland. The Northern Ireland Ambulance Service (NIAS) defines an "air ambulance" as a planned inter-hopsital transfer service of patients by air. Health and social services boards occasionally transfer patients between hospitals by air, using the services of private companies and the RAF.

The following table shows number of patients transported by air by HSS boards in the last five years.

Number

	NHSSB	*SHSSB*	*EHSSB*	*WHSSB*
2001–02	11	20	14	14
2002–03	13	10	23	7
2003–04	13	5	19	17
2004–05	13	18	18	12
2005–06	17	15	25	7
Total	67	68	99	57

NIAS engages the Martime Coastguard Agency on occasions when it is necessary to evacuate a casualty from a scene using a helicopter. The following table shows number of patients evacuated from incidents in the last three calendar years. NIAS systems do not allow for collation of incidents prior to 2004.

Number

2004	21
2005	18
2006	8
Total	47

Animal Cruelty

Dr. McCrea: To ask the Secretary of State for Northern Ireland what plans he has to increase sentences for those found guilty of cruelty to animals in Northern Ireland. [58126]

Angela E. Smith: The Department of Agriculture and Rural Development is finalising a review of Northern Ireland animal welfare legislation in order to identify measures which may be necessary to strengthen powers and penalties to deal with abuses of animal welfare in Northern Ireland. Following this review, steps will be taken to update current legislation and to introduce new powers and penalties to deal with new types of offences.

It is planned to consult stakeholders after Easter on proposals to strengthen animal welfare legislation in Northern Ireland.

Correspondence

Lady Hermon: To ask the Secretary of State for Northern Ireland when he will reply to the letter to him dated 11 November 2005 from the hon. Member for North Down in relation to the mental health unit at Ards Hospital. [57054]

Mr. Woodward: A reply will be issued this week.

Assembly Ombudsmen

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many cases the Northern Ireland Assembly Ombudsman has *(a)* been asked to deal with and *(b)* investigated in the last two years. [57967]

Angela E. Smith: I understand that the Northern Ireland Ombudsman has written to the hon. Gentleman. A copy of the letter has been placed in the Library.

Asylum and Immigration

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many asylum and immigration applications are outstanding in Northern Ireland. [58136]

Mr. McNulty: I have been asked to reply.

Information on how many asylum and immigration applications are outstanding in Northern Ireland is not available and could be obtained only at disproportionate cost.

Information on asylum and immigration is published annually. Copies are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at

http://www.homeoffice.gov.uk/rds/immigration1.html

Autism

Dr. McCrea: To ask the Secretary of State for Northern Ireland what provision the Government have made in Northern Ireland for children with autism in each of the last five years. [58129]

Mr. Woodward: Within the Department of Health, Social Services and Public Safety (DHSSPS), funding for autistic spectrum disorders falls within the learning

disability programme of care and it is not possible to detail specifically what was made available for children with autism. However, DHSSPS Priorities for Action 2004–05 required Health and Social Services (HSS) boards and trusts to establish multidisciplinary diagnostic, assessment and early intervention teams and as a result, in 2004–05, an additional £500,000 recurrent funding was allocated to HSS boards for this purpose.

The Department of Education has advised that in the years 2003–04 and 2004–05 and additional £770,000 and £955,000 respectively was made available for children with autism.

Avian Influenza

Dr. McCrea: To ask the Secretary of State for Northern Ireland what recent steps the Government has taken to prevent an outbreak of avian influenza in Northern Ireland. [58138]

Angela E. Smith: The Department of Agriculture and Rural Development (DARD) is constantly monitoring developments and reviewing the risk of Avian Influenza being introduced to Northern Ireland. The precautionary actions taken to date include a ban on the importation of live birds and products from Avian Influenza affected areas, strengthened controls on imports of captive birds, wild bird surveillance, a ban on bird gatherings except under DARD licence, and the requirement for all bird keepers to register with the Department. Extensive guidance advice has been issued to bird keepers, directly, through stakeholder organisations and through the DARD website, on biosecurity measures including on how to plan for housing birds in the event of an outbreak. In addition, the Department has enhanced its checks at ports and airports to help prevent the possible introduction of Avian Influenza. DARD has a contingency plan in place which is being continually reviewed and updated. This plan would be invoked immediately if there was an outbreak.

DARD is continuing to work closely with key stakeholders, including industry representatives, representatives of bird hobby organisations and wild bird interest groups. DARD and the Department of Health Social Services and Public Safety are working together to ensure that appropriate measures are taken in respect of the implications of Avian Influenza for public health. DARD is also continuing to work closely with the Department of the Environment Food and Rural Affairs and with the Department of Agriculture and Food in the Republic of Ireland in taking measures to deal with the threat of Avian Influenza.

Beef

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps the Government is taking to promote Northern Ireland beef internationally. [58134]

Angela E. Smith: I fully appreciate the importance, to the local beef industry, of last week's long awaited EU decision to lift the export ban on UK beef and cattle. Industry stakeholders and Government have worked tirelessly together to achieve this.

The Government have been proactive in recent months in undertaking a wide range of vital preliminary work in readiness for the lifting of the ban, including; commissioning extensive research into export market opportunities and assessing the export potential of Northern Ireland companies; the provision of access to Food From Britain's world-wide network of international buyer contacts; and, funding a three year, £1.2 million, Beef Market Restoration Programme, carried out by the Livestock and Meat Commission, a major element of which aims to assist local companies develop successful export businesses in the long-term.

Under current EC State Aid Rules, the spending of public money on any promotional activity is severely restricted, and Government support for promotion based solely on product origin is banned. However, I can assure the right hon. Gentleman that Government will, continue to make every effort to facilitate the complex and lengthy State Aid approval process in order to maximise benefits to industry.

Belfast International Airport

Dr. McCrea: To ask the Secretary of State for Northern Ireland what initiatives the Government have undertaken to promote Belfast International Airport. [58117]

Mr. Woodward: Government supports the continuing growth of Belfast International Airport, as outlined in the Air Transport White Paper 2003. However, further development of the airport and promotion of its business are matters for its private sector owner.

In common with the other two commercial airports in Northern Ireland, Belfast International Airport has benefited in the past from the Government's Air Route Development Fund. With its assistance routes have been developed to New York, Paris, Rome, Berlin, Geneva and Nice.

Bioscience and Technology Institute

Rev. Ian Paisley: To ask the Secretary of State for Northern Ireland what public funding has been allocated to MTF, and associated companies, in relation the Bioscience and Technology Institute project. [59667]

Angela E. Smith: Public funding paid in relation to the Bioscience and Technology Institute totalled £2,175,000. All of this public funding was paid to the Bioscience and Technology Institute, and none directly to MTF Chartered Accountants or associated companies.

Bovine TB

Mr. Drew: To ask the Secretary of State for Northern Ireland pursuant to the Answer of 1 March 2006, *Official Report*, column 776W, to the hon. Member for South Down (Mr. McGrady), on bovine tuberculosis, what steps he is taking to reduce the differences between the first and second tests. [58376]

Angela E. Smith: The difference in the test results may be due to variation in the intradermal comparative test

itself or as a result of the animal response to the test. To minimise any difference due to the former, the Department of Agriculture and Rural Development (DARD) issues precise instructions to testing veterinary surgeons on the technique to be used, and testing veterinary surgeons are specifically trained, monitored and supervised in this.

Variation in the animal response is recognised and is the reason for such sequential testing. DARD is currently carrying out a pilot exercise to investigate the potential use of the gamma interferon blood test to assist in the detection of bovine TB in certain circumstances in Northern Ireland.

Brain Tumours

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps are being taken to *(a)* reduce waiting times and *(b)* increase access to radiotherapy for brain tumour patients in Northern Ireland. [58140]

Mr. Woodward: There is no evidence to suggest that there is any difficulty accessing radiotherapy services in Northern Ireland.

A national audit of radiotherapy waiting times has recently been carried out by the Royal College of Radiologists. Data were collected for all patients who commenced treatment in Northern Ireland during the week beginning 26 September 2005. The results confirm that waiting times for all radiotherapy patients, including patients with brain tumours, in Northern Ireland were in line with national guidelines.

Civil Service (Travel Expenses)

Lady Hermon: To ask the Secretary of State for Northern Ireland how much has been spent on travel expenses by each Department of the Northern Ireland Civil Service in each year since 2000. [57064]

Mr. Hanson: The following table provides a breakdown of the costs for each financial year from 1999–2000 to date for the 11 Departments and the NIO.

The breakdown of figures are provided by financial year rather than calendar year as all financial information, including travel costs, is held by Departments by financial year.

Costs include all travel by Standard Mileage rate, Public Transport rate, air, rail, sea, bus and cycle travel. Figures also include car parking costs.

Travel costs by Financial Year

£

	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*	*2005–28 February 2006*
DARD	2,689,913.53	2,908,586.29	3,144,327.44	2,631,764.34	3,183,046.83	3,220,450.96	2,861,958.41
DCAL	[1]n/a	103,052.00	138,737.00	125,820.00	94,912.00	85,006.00	83,314.00
DE	407,536.94	393,362.15	410,744.58	389,922.89	420,634.88	404,826.70	312,497.06
DEL	819,084.00	774,361.00	675,859.00	730,847.00	730,951.00	792,316.00	465,581.00
DFP	[2]n/a	811,049.00	850,128.00	871,469.00	769,208.00	838,055.00	742,079.00
DHSSPS	526,790.00	391,510.00	444,509.00	438,984.00	521,337.00	467,161.00	392,796.00
DSD	1,174.38	110,947.07	193,239.81	184,327.26	237,876.01	271,347.87	167,519.06
OFMDFM	[3]n/a	456,049.01	514,099.53	591,976.99	385,243.[illegible]	364,494.23	231,091.57
DETI	1,005,404.22	1,137,531.24	1,099,968.99	394,951.54	386,164.[illegible]	389,030.27	294,185.32
NIO	1,195,107.00	1,236,743.00	1,299,549.00	1,474,632.00	1,463,167.00	1,359,458.00	1,064,841.00
DRD	60,729.00	203,424.00	185,461.00	188,145.00	156,195.00	153,596.00	124,876.00
DOE	56,250.00	181,911.00	139,706.00	171,344.00	198,612.00	191,316.00	206,512.00

[1] DCAL travel would be included in the figures for DARD, DENI and DOE.
[2] DFP costs are not available on the accounting system. To provide figures would require a manual check at disproportionate cost.
[3] OFMDFM would have been processed by DFP.

Civil Service Pensions

Sammy Wilson: To ask the Secretary of State for Northern Ireland if he will take steps to include in the Civil Service Pension Scheme survey interviewers who work for Government departments and agencies in Northern Ireland. [57847]

Mr. Hanson: Survey interviewers are remunerated on a fee-paid basis and as such are not included in the Civil Service Pension Scheme. Their terms of appointment specify that they are outwith Civil Service superannuation arrangements.

Dental Access Centres

Dr. McCrea: To ask the Secretary of State for Northern Ireland what plans he has to increase the number of NHS dental access centres in Northern Ireland. [58130]

Mr. Woodward: There are no health service dental access centres in Northern Ireland and, at present, I have no plans to introduce any.

General dental practitioners are the main providers of dental services in Northern Ireland. There is approximately one general dental practitioner for every 2,400 people in Northern Ireland. This compares to one practitioner for every 2,773 people in England, Scotland and Wales.

The full range of dental services they provide is supplemented by the Community Dental Service, operating under the control of health and social services trusts, which has a specific role in treating patients with learning difficulties and screening school children. The Community Dental Service also acts as a 'safety net' in circumstances where the services of a general dental practitioner cannot be obtained.

My Department has developed a new primary care dental strategy, which was issued for consultation on 13 December 2005. This sets the oral health agenda for

the next 10 years. It identifies the oral health needs of the Northern Ireland population, determines desired outcomes and identifies areas where oral health can link into the wider health agenda. The strategy has been developed around the local commissioning of services, where commissioners would be responsible for the delivery of primary care dental services to their population in keeping with local needs.

Departmental Refreshments

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much was spent on refreshments in each department for which he has responsibility in each of the last three years. [53242]

Mr. Hanson: All departments, including the Northern Ireland Office, replied that they were unable to distinguish between money spent on refreshments and other hospitality costs, due to the way in which spend is coded. The total spend on hospitality, which includes refreshments over the last three financial years was:

	£
2002–03	926,703
2003–04	949,823
2004–05	897,409

To obtain the costs incurred on refreshments separately could be done only at disproportionate cost.

Employment Statistics

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many people receiving benefits moved back into employment in Northern Ireland in the last three years for which figures are available. [52974]

Mr. Hanson: Comprehensive information on the flows of all customers into employment by benefit is not currently available. A new system capable of providing this data is being developed and is scheduled to be in place by summer 2006.

In the interim, information on flows to employment is available for Jobseekers Allowance (JSA) and New Deal programmes and is shown as follows:

	Calendar years		
	2003	*2004*	*2005*
Jobseekers Allowance (JSA)			
Flows into work[1]	31,241	27,766	25,255

[1] This information is based on self-reported data volunteered by claimants of JSA at the point of terminating their claim to benefit.

	Financial years		
	2002–03	*2003–04*	*2004–05*
New Deal for 18–24 year olds (moving into unsubsidised employment.)	2,213	2,190	1,977
New Deal for 18–24 year olds (moving into unsubsidised and subsidised employment.)	2,398	2,400	2,168
New Deal 25+ (moving into unsubsidised employment.)	1,659	1,329	1,249
New Deal 25 + (moving into unsubsidised and subsidised employment.)	1,374	1,490	1,411
New Deal for Disabled People	444	509	482
New Deal for Lone Parents (moving into part-time employment)	249	167	170
New Deal for Lone Parents (moving into full-time employment)	1,967	1,227	1,171
Bridge to Employment	376	440	603

Food Retail Sector

Dr. McCrea: To ask the Secretary of State for Northern Ireland what policies have been put in place to promote and support small businesses in the food retail sector in Northern Ireland. [58116]

Angela E. Smith: It is not Government policy to provide direct financial assistance to established small businesses in the retail sector (including food retail). Such assistance is limited to sectors with the potential to export such as manufacturing (including food processing) and tradeable services. Support is, however, available to individuals starting a business in food retail through the "Start a Business Programme" (SABp), delivered on Invest NI's behalf by Enterprise Northern Ireland. Government also supports Sector Skills Council (SSCs) to identify and address skills needs. These include Improve Limited, for the food processing sector, and Skillsmart, for the retail sector. The SSCs are required to work with Government, educators and employers to meet these skill needs.

Global Point (Newtownabbey)

Dr. McCrea: To ask the Secretary of State for Northern Ireland for what reasons the building of industrial premises on grounds at Global Point, Newtownabbey, has not begun; and when he expects the first sod to be cut at the site. [58123]

Angela E. Smith: Further development at Global Point, including the building of industrial premises, is not expected until after the Public Inquiry into the Belfast Metropolitan Area Plan is completed. The draft Belfast Metropolitan Area Plan (BMAP) is a material consideration in determining current planning applications for Global Point. No decision has yet been reached in respect of the proposals.

Planning Service published a Plan Amendment to BMAP on 14 February 2006 which has addressed some of the issues raised in earlier consultations. Its publication initiated an 8-week consultation period which expires on 11 April 2006.

Planning Service will, in the near future, formally request the Planning Appeals Commission (PAC) to hold a public inquiry into the objections and counter objections. Timetabling for the Public Inquiry is the responsibility of the PAC, which is an independent body.

Greencastle-Magilligan Ferry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what percentage of the vehicular traffic using the Greencastle-Magilligan ferry in 2005 originated in *(a)* Northern Ireland and *(b)* the Republic of Ireland. [57742]

Mr. Woodward: Limavady borough council advise that for the period July 2005 to 7 March 2006 81,259 vehicles used the Greencastle-Magilligan ferry of which 43 per cent. originated in Northern Ireland and 57 per cent. originated in the Republic of Ireland. Figures in the format requested for all of 2005 are not available.

Health and Social Services Councils

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland, pursuant to his Answer of 7 March 2006, *Official Report*, column 1324W, on Health and Social Services Councils, what percentage of the population of each Board area each figure represents. [59366]

Mr. Woodward: The information in the table shows the number of people assisted by the Health and Social Services Councils and the percentage population of the relevant Board area that these figures represent.

	NHSSC		*EHSSC*		*SHSSC*		*WHSSC*	
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
2002–03	675	0.16	n/a	n/a	84	0.03	n/a	n/a
2003–04	804	0.19	1,176	0.18	100	0.03	40	0.01
2004–05	803	0.19	1,442	0.22	100	0.03	42	0.02

n/a = Not available.

Hospital Doctors

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many junior house doctors there were in Northern Ireland in each of the last five years. [58576]

Mr. Woodward: The information requested is presented in the following table:

Junior House Doctors employed within the NI HPSS as at September 2001–05

	Medical Department				*Dental Department*		*Total*	
	PRHO		*SHO*		*PRHO/SHO*		*PRHO/SHO*	
As at September each year:	*Headcount*	*WTE*	*Headcount*	*WTE*	*Headcount*	*WTE*	*Headcount*	*WTE*
2001	188	188.0	720	710.2	16	16.0	924	914.2
2002	214	213.5	725	718.7	19	19.0	958	951.2
2003	223	223.0	810	806.3	18	18.0	1,051	1,047.3
2004	222	222.0	862	859.1	20	20.0	1,104	1,101.1
2005	234	234.0	882	877.4	21	21.0	1,137	1,132.4

Notes:
PRHO = Pre-Registration House Officer / Post-Registration House Officer
SHO = Senior House Officer
WTE = Whole-Time Equivalent
Source:
Human Resource Management System

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many patients on average are looked after by junior house doctors *(a)* during the day and *(b)* at night in (i) the Royal Victoria hospital, (ii) the City hospital, (iii) the Ulster hospital, (iv) Whiteabbey hospital, (v) Altnagelvin hospital, (vi) Craigavon hospital and (vii) Daisyhill hospital, Newry in the latest period for which figures are available. [58577]

Mr. Woodward: Information on the number of patients on average who are looked after by junior house doctors *(a)* during the day and *(b)* at night is not available. Information is available on the number of junior house doctors working in each hospital at September 2004 as is the number of admissions to each hospital over the course of the year 2004–05. From this information the average number of admissions to each hospital per junior house doctor can be calculated and is shown in the following table for the year 2004–05. It should be noted that not all admissions will have been treated by a junior house doctor.

Average number of admissions[1] in 2004–05 per WTE junior house doctor[2]

Hospital	*Number*
Royal Victoria Hospital	322
Belfast City Hospital	682
Ulster Hospital	463
Whiteabbey Hospital	369
Altnagelvin Hospital	475
Craigavon Hospital	454
Daisy Hill Hospital	687

[1] Deaths and discharges from hospital used as an approximation for admissions.

[2] The number of whole-time equivalent staff used in calculation.

Source:
Hospital In-patients System and Human Resource Management System.

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many consecutive nights on average were worked by junior house doctors in Northern Ireland in the latest period for which figures are available. [58578]

Mr. Woodward: The information requested is not available. The Department monitors compliance with the European working time directive (EWTD) for junior doctors but the monitoring confines itself to the parameters of the directive—total hours worked, allowing 11 hours off work in any 24 hour period. It further requires a 24 hour period off work in any seven days or alternatively 48 hours in 14 days. This allows for a wide range of working patterns. The EWTD does not state any requirement with respect to working on consecutive nights. The last monitoring round (autumn 2005) demonstrated 73 per cent. compliance with the directive.

Illiteracy

Sammy Wilson: To ask the Secretary of State for Northern Ireland what steps the Government are taking to tackle illiteracy in Northern Ireland. [58349]

Angela E. Smith: The Essential Skills Strategy, launched by the Department for Employment and Learning in October 2002, aims to support adults throughout Northern Ireland to improve their literacy and numeracy skills.

The Strategy is designed to increase awareness and encourage learners most in need to participate in provision, progress their skills and gain recognised qualifications. Learning takes place in a variety of contexts including, for example, in the workplace, the family and communities, to ensure it is flexible and meets the needs of the learner. Tutor education has also been supported to raise the quality of teaching across Essential Skills provision.

The Department has met, and exceeded, its interim target of supporting 25,000 Essential Skills learners by March 2005.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what the illiteracy rate was in *(a)* Northern Ireland and *(b)* each constituency in Northern Ireland in the latest period for which figures are available. [58350]

Angela E. Smith: I refer the hon. Member to the reply I gave my hon. Friend the Member for Strangford (Mrs. Robinson) on 7 February 2006, *Official Report*, column 1144W.

Medicine Reviews

Dr. McCrea: To ask the Secretary of State for Northern Ireland (1) what assessment he has made of the potential impact on costs in Northern Ireland of ensuring *(a)* that patients comply with dosing regimens and *(b)* that effective medicine review processes are carried out; [58179]

(2) what estimate he has made of the cost impact on the NHS of the effective use of medicine reviews by pharmacists and GPs in Northern Ireland. [58175]

Mr. Woodward: The Department of Health, Social Services and Public Safety and the Health and Personal Social Services are pursuing a number of integrated initiatives targeted at delivering savings in expenditure on pharmaceutical products amounting to £55 million by 2007–08. Some of these are designed to enable patients, supported where appropriate by professional advice, to use their medication more effectively and thereby improve their quality of care, and these are estimated to deliver savings in the order of £16 million by 2007–08.

NHS Dentistry

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the average cost was of a national health service dental check-up in Northern Ireland in each of the last five years. [58144]

Mr. Woodward: There are three levels of cost for a health service dental examination, depending on the intensity of the examination. The vast majority of examinations are at the lower level. Details of the cost to patients of each type of examination are set out in the following table.

£

	Clinical examination	*Extensive clinical examination*	*Full case assessment*
2001–02	5.12	7.40	16.08
2002–03	5.32	7.96	16.64
2003–04	5.48	8.20	17.16
2004–05	5.64	8.44	17.64
2005–06	5.84	8.72	18.24

Older People

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many primary care trusts in Northern Ireland have an integrated falls and osteoporosis service as required by the national service framework for older people in Northern Ireland. [58174]

Mr. Woodward: The national service framework for older people does not apply in Northern Ireland. However, the Department published a 'Home Accident Prevention Strategy' in November 2004, which includes a target to reduce by 25 per cent. the number of older people admitted to hospital as a result of falls by 2009.

The HSS trusts in Northern Ireland are working to develop integrated services to achieve the target and progress is being monitored by a multi-agency Home Accident Prevention Strategy Implementation Group which was established to oversee the implementation of the strategy and to report annually to the Ministerial Group on Public Health.

Osteoporosis

Dr. McCrea: To ask the Secretary of State for Northern Ireland what assessment he has made of the potential impact of Our Health, Our Care, Our Say on *(a)* the management of osteoporosis, *(b)* patient choice and *(c)* the number of osteoporotic fractures in Northern Ireland. [58180]

Mr. Woodward: The White Paper "Our health, our care, our say: a new director for community services", sets out the Department of Health's policy for the development of primary, community and social care services in England.

In Northern Ireland, the overall direction of travel for primary health and social care services over the next two decades was set out in the Department's primary care strategic framework, "Caring for People Beyond Tomorrow", which was published in October 2005. The framework provides for greater patient choice and for the development of programmes for the better management of a range of chronic conditions. It also sets out a plan detailing actions to be taken over the next few years and development in England will be considered as the detailed implementation of the framework is taken forward.

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will take steps to increase the information and support offered to osteoporosis sufferers in Northern Ireland. [58181]

Mr. Woodward: My Department is raising awareness of osteoporosis through a range of strategies and action plans designed to encourage regular exercise, a balanced diet, smoking prevention/cessation and a responsible approach to alcohol consumption.

The Health and Personal Social Services in Northern Ireland currently provide a wide range of information and support to people with osteoporosis. This includes lifestyle advice such as the need to sustain an adequate diet including calcium and vitamin D, information and advice about preventing falls, and the use of medicines both to treat osteoporosis or to prevent it. The forms of intervention and support used in connection with osteoporosis depend on a number of factors, including whether it is to prevent or treat osteoporosis, the risk factors involved, the age and gender of the individual patient, the propensity to fracture and the extent of co-existing disease.

Outdoor Events

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what guidance he has issued to local councils in Northern Ireland on contracts offered to private firms in respect of large-scale outdoor events. [57676]

Angela E. Smith: The Department of the Environment has issued no specific guidance relating to contracts offered to private firms in respect of large-scale outdoor events. However, councils have access to guidance on public procurement policy on the Central Procurement Directorate website.

Pensions

David Simpson: To ask the Secretary of State for Northern Ireland what percentage of the workforce in Northern Ireland he estimates to be making *(a)* no provision for retirement pension and *(b)* insufficient provision for retirement pension. [57623]

Mr. Hanson: Results from the Family Resources Survey 2004/05 show that 3.5 per cent. of the Northern Ireland workforce has no provision for state pension. 47.4 per cent. of the workforce has no provision for private pensions and 2.9 per cent. has no provision for, either, state pension or private pensions.

Data are not available to enable an estimate to be made of the percentage of the workforce in Northern Ireland making insufficient provision for retirement pension.

Notes:

1. Figures refer to persons from working age 20 to state pension age who are either full or part-time employed (whether employees or self-employed) and do not include those not working.
2. Estimates are taken from the Family Resources Survey 2004/05 which is the latest year for which data are available.
3. Members who are contributing to a private pension scheme include those who are building up rights within a salary related scheme, those who are currently contributing to a scheme or whose employer makes a contribution on their behalf. Private pension refers to an occupational, personal or stakeholder pension scheme.
4. Individuals who contribute to both occupational and personal schemes are counted only once in these estimates.

Planning Applications

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the change was over the previous year in the numbers of planning applications submitted in *(a)* 2000 and *(b)* 2005 in Northern Ireland; and what the change was between 2000 and 2005. [58069]

Angela E. Smith: The information is as follows:

(a) The difference in the numbers of planning applications received in 1999–2000 compared to those in 2000–01 was an increase of 1,539 representing a 7 per cent. increase on the previous year.

(b) The difference in the numbers of planning applications received in 2003–04 compared to those in 2004–05 was an increase of 3,244 representing a 10 per cent. increase on the previous year.

The overall difference in the numbers of planning applications received in 2000–01 and 2004–05 was an increase of 12,563 representing a 53 per cent. increase over the period.

Primary Schools (Absenteeism)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average absenteeism rate was per 1,000 pupils in primary schools in Northern Ireland in each of the last 10 years. [57977]

Angela E. Smith: Figures for 2004–05 are not yet available. The requested information for the previous years is as follows:

Academic year	*Average absenteeism rate per 1,000 pupils*
1995–96	61
1996–97	57
1997–98	58
1998–99	55
1999–2000	53
2000–01	52
2001–02	50
2002–03	56
2003–04	52

Pupil Funding

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will take steps to increase the average funding per schoolchild in Northern Ireland. [58124]

Angela E. Smith: I have already taken steps to increase the funding for school pupils in Northern Ireland. In 2006–07 the Department of Education's recurrent budget for schools and related support services has increased by 4.4 per cent. at a time when pupil numbers are falling. Funding for schools' delegated budgets is rising by £41 million in 2006–07—an increase of 5.4 per cent. in per pupil terms—and funding for Education and Library Board budgets for school related services is increasing by £14 million, or 4 per cent. In addition, school children will benefit from the Children and Young People Funding Package, announced on 8 March, which is providing new funding totalling £61 million for a range of services over the next two years.

Recycling

Dr. McCrea: To ask the Secretary of State for Northern Ireland what plans he has to increase *(a)* recycling and *(b)* composting in Northern Ireland. [58132]

Angela E. Smith: A number of new initiatives, measures and targets aimed at increasing recycling and composting across Northern Ireland have been incorporated in the new Waste Management Strategy, scheduled for publication on 30 March 2006.

Regional Aid (Warrenpoint)

Mr. Chope: To ask the Secretary of State for Northern Ireland whether he proposes to seek clearance by the European Commission to grant regional aid to the port of Warrenpoint; how much regional aid he proposes to grant the port; for what purposes the regional aid is intended to be used; and whether the grant would be repayable. [58604]

Mr. Woodward: Warrenpoint Harbour Authority is seeking grant support towards a deep-water quay and the upgrading of the RoRo facility in order to maintain existing trade. Final decisions have not yet been taken on whether to grant aid the port and on what conditions, including any clawback arrangements, might be made. Decisions will be taken in light of economic and financial considerations and statutory requirements. Depending on the decisions taken clearances will be sought from the European Commission as necessary. A provisional allocation of £13.4 million has been included in the current departmental budget.

Road Service

Mark Durkan: To ask the Secretary of State for Northern Ireland what plans Road Service has to improve the footpath along Strabane Old Road, Derry. [58625]

Mr. Woodward: The Chief Executive of Road Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin, dated 16 March 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what plans Road Service has to improve the footpath along Strabane Old Road, Derry.

As this issue falls within my responsibility as Chief Executive of Roads Service, I have been asked to reply.

I can advise that there are no plans to carry out any significant maintenance or resurfacing works to the footways along the Strabane Old Road. Staff will, however, continue to carry out regular inspections to identify any future deterioration and will subsequently arrange for remedial works to be undertaken if required.

I hope this information is helpful.

School Buildings (Finance)

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many school buildings in Northern Ireland have been *(a)* provided and *(b)* commenced in each of the last five years using public private partnership financing. [58128]

Angela E. Smith: There have been four schools built in Northern Ireland using public private partnership (PPP) funding. Three of these have become operational since 2001: Wellington College, Belfast and Balmoral High School, Belfast, opened in January 2002; and St. Genevieve's High School, Belfast opened in February 2002. Since 2001, 10 projects involving 30 schools have been announced as PPP projects and are at various stages of the procurement process, prior to agreement of contracts.

Procurement routes for the schools included in the Capital Allocations announcement on 1 March will be determined shortly by the Department of Education and the Strategic Investment Board.

School Buses (Overcrowding)

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will ask the Children's Commissioner to undertake an urgent review of overcrowding on buses transporting school children in Northern Ireland. [58120]

Angela E. Smith: The Commissioner for Children and Young People (Northern Ireland) Order 2003 sets out the functions of the Commissioner who is independent of Government. The Commissioner has a specific duty to keep under review the adequacy and effectiveness of law and practice relating to the rights and welfare of children and young people. Clearly, how the Commissioner exercises that duty is a matter for him. A high level economic appraisal of the four main recommendations of the Northern Ireland Assembly's Inquiry into home to school transport was completed recently and included the abolition of '3 for 2' and the introduction of 'no standing'. We are currently considering how to take this issue forward.

School Vandalism

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much was spent on repairing damage to schools caused by vandalism in each of the education and board areas in Northern Ireland in 2005. [57969]

Angela E. Smith: The costs of repairing vandalism met by each Education and Library Board in controlled and maintained schools in 2005 are as follows.

	£
Belfast	125,861
Western	48,117
North Eastern	155,249
South Eastern	116,731
Southern	170,000

The cost of vandalism to voluntary grammar and grant maintained integrated schools is not available. Such costs are borne by individual schools from their LMS budget(s) or are the subject of insurance claims.

Sexually Transmitted Diseases

David Simpson: To ask the Secretary of State for Northern Ireland how many cases of *(a)* HIV, *(b)* chlamydia, *(c)* gonorrhoea, *(d)* syphilis, *(e)* genital warts and *(f)* genital herpes there have been in Northern Ireland in each of the last 10 years. [57621]

Mr. Woodward: The number of cases of *(a)* HIV, *(b)* chlamydia, *(c)* gonorrhoea, *(d)* syphilis, *(e)* genital warts and *(f)* genital herpes, seen at genito-urinary medicine clinics in Northern Ireland, in each of the last 10 years is presented in the following table.

	(a) HIV	*(b) Chlamydia*	*(c) Gonorrhoea*	*(d) Syphilis*	*(e) Genital Warts*	*(f) Genital Herpes*
1996	16	n/a	n/a	n/a	n/a	n/a
1997	9	n/a	n/a	n/a	n/a	n/a
1998[1]	9	906	100	8	3,934	293
1999	14	1,019	147	15	3,101	311
2000	19	1,297	181	6	3,030	411
2001	20	1,300	198	20	2,931	434
2002	27	1,552	154	27	3,002	397
2003	32	1,816	193	25	2,948	359
2004	63	2,051	159	69	2,798	328
2005[2]	53	1,757	201	68	2,399	265

[1] 1998 calendar year data is unavailable for *(b)* to *(f)*. Figures shown are for the financial year 1998–99.
[2] Information for 2005 is for 1 January to 30 September only, and is provisional, only for *(b)* to *(f)*.
Note:
1. Information for *(b)* to *(f)* is not available for calendar years 1996 and 1997.
Source:
Communicable Disease Surveillance Centre Northern Ireland (CDSC (NI)).

Social Security Fraud

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people were convicted of social security fraud in Northern Ireland in 2005. [58068]

Mr. Hanson: 253 people were convicted for social security fraud in Northern Ireland for the period 1 January 2005 to 31 December 2006.

Sperrin Lakeland Health and Social Care Trust

David Simpson: To ask the Secretary of State for Northern Ireland what the religious breakdown is of each grade of employee in the Sperrin Lakeland Health and Social Care Trust. [58324]

Mr. Woodward: The information requested is not available in the format requested. However the information is available by Terms and Conditions Group and is presented in the following table.

Religious breakdown of staff employed within the Sperrin Lakeland HSS Trust by Terms and Conditions Group as at March 2005

	Protestant		*Catholic*		*Unknown*	
TC Group	*HC*[1]	*WTE*[2]	*HC*[1]	*WTE*[2]	*HC*[1]	*WTE*[2]
Admin and Clerical	211	188.14	331	293.04	9	6.15
Ancillary and General	408	187.89	657	265.60	35	10.98
Nursing and Midwifery	698	328.54	1820	867.63	90	36.93
Social Services	95	83.29	259	223.57	16	11.77
Professional and Technical	98	84.69	202	177.12	8	6.09
Medical and Dental	27	21.27	44	36.02	97	92.08
Total	1,537	893.82	3,313	1,862.98	255	164.00

[1] Headcount.
[2] Whole-Time Equivalent.

Sperrin Lakeland HSS Trust.

Student Drop-outs

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the Answer of 27 February 2006, *Official Report*, columns 396–7W on student drop-outs, what steps are being taken to reduce the number of students dropping out of their courses. [58278]

Angela E. Smith: All further education students have an Individual Student Learning Agreement aimed at reducing the number of students failing to complete courses, through improved initial assessment to identify students' needs and by providing ongoing advice and support. In addition, a Performance Related Pay Scheme for College Directors was introduced in 2003–04 academic year, a requirement of which is for Directors to seek to improve the retention rates of students.

Teenage Pregnancy

David Simpson: To ask the Secretary of State for Northern Ireland what the estimated average cost to public funds is of a teenage pregnancy in Northern Ireland. [57615]

Mr. Woodward: The Centre for Economic and Social Exclusion in 2000 estimated the cost to the Exchequer (unemployment benefits and administration costs, plus tax revenue foregone) at £17,820 per unemployed person[1]. Updating this figure for general inflation to 2004–05, the cost becomes £20,150.

[1] Bivand, P. Centre for Economic and Social Exclusion, 2000

David Simpson: To ask the Secretary of State for Northern Ireland what the conception rate was for 16 year olds and under in each of the last five years in Northern Ireland. [57616]

Mr. Woodward: The information requested is not available. Only the number of births by age is collected.

David Simpson: To ask the Secretary of State for Northern Ireland what the conception rate was for *(a)* 19, *(b)* 18, *(c)* 17, *(d)* 16, *(e)* 15 *(f)* 14 and *(g)* 13-year-olds in each of the four health boards in each of the last 10 years. [57617]

Mr. Woodward: The information requested is not available. Only the number of births by age is collected.

Teenage Sexual Activity

David Simpson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of sexually active 15-year-olds in Northern Ireland in each of the last five years. [57618]

Mr. Woodward: The information is not available. However, a school-based survey of young people's behaviour and attitudes undertaken by the Central Survey Unit of the Northern Ireland Statistics and Research Agency in 2000 and 2003 indicated that of those who answered the question on sexual experience 13.0 per cent. of 15-year-old girls in 2000 and 14.3 per cent. of 15-year-old girls in 2003 had experienced sexual intercourse.

Traffic Survey (Greenhaw Road)

Mark Durkan: To ask the Secretary of State for Northern Ireland when the last traffic survey on the Greenhaw Road was carried out; and what the main findings of the survey were. [58739]

Mr. Woodward: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin, dated 16 March 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding when the last traffic survey was carried out on the Greenhaw Road; and what were the main findings of the survey.

As this issue falls within my responsibility as Chief Executive of Roads Service, I have been asked to reply.

The most recent traffic survey on Greenhaw Road, Derry, was carried out on 20 October 2004, as part of the data collection for the Derry Transport Study.

The survey showed that during peak hour times the following number of vehicles used Greenhaw Road:

	AM Peak (08:15–09:15)	*PM Peak (17:15–18:15)*
Westbound (i.e. towards Racecourse Road)	277	407
Eastbound (i.e. towards Culmore Road)	257	374

I hope this information is helpful.

Young People

Chris Ruane: To ask the Secretary of State for Northern Ireland how many young people were not in employment, education or training in each *(a)* ward, *(b)* county and *(c)* constituency in Northern Ireland in each of the last 20 years. [55551]

Mr. Hanson: It is not possible to answer the question exactly as asked. The tables giving the number of 16 to 24-year-olds who are not in employment, education or training in each Local Government District, Parliamentary Constituency and Electoral Ward in Northern Ireland from the 2001 Census, have been placed in the Library. Sample surveys, that can provide time series statistics, cannot provide robust estimates for the small areas requested.

Written Answers to Questions

Friday 17 March 2006

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on whether poultry kept in a control area as pets or for a hobby and which have been vaccinated against H5N1 avian influenza should be culled. [55413]

Mr. Bradshaw: No birds in the UK have been vaccinated against avian influenza. Although vaccination offers potential disease control benefits, at the current level of risk, available vaccines are too limited to provide a fully effective or efficient solution.

In the event of an avian influenza outbreak, we would control the disease by culling all birds on any infected premises and dangerous contacts. Depending on veterinary risk assessment advice, additional strategies could include a cull of flocks in the immediate area to prevent the spread of disease. These arrangements are described in Defra's published Animal Disease Contingency Plan.

Bovine TB

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the wild mammal species where mycobacterium bovis has been found in each of the last 10 years; and if she will make a statement. [57607]

Mr. Bradshaw: The main wildlife reservoir of bovine tuberculosis in the UK is in badgers. Wild deer are the other significant wildlife reservoir though experts believe they generally present less of a disease risk to cattle than badgers do.

"The status of Mycobacterium bovis infection in British wild mammals: a review" contains detailed information on the prevalence mycobacterium bovis in wild mammals. A copy of this has been deposited in the House Library.

Further information can be found in the Central Science Laboratory report: the risk to cattle from wildlife species other than badgers in areas of high herd breakdown risk. This is available on the Defra website at: http://www2.defra.gov.uk/research/project_data/More.asp?I=SE3010&M=KWS&V=se3010&SCOPE=

Cetacean By-catch

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of *(a)* cetacean strandings and *(b)* cetacean by-catch (i) inside and (ii) outside the 12 mile zone following the 12 mile fair trawl prohibition. [28004]

Mr. Bradshaw *[holding answer 11 November 2005]:* We have recently published on the Defra website a report on Defra-funded research conducted by the Sea Mammal Research Unit (SMRU) on by-catch observations and mitigation work in the UK bass pair trawl fishery. A copy of this report will also be placed in the Library of the House. Since the introduction of the 12 mile pair trawl prohibition, no pair trawl activity has taken place within-12 miles. As the SMRU report outlines, common dolphin by-catch in this fishery has reduced from 429 animals in the 2003–04 season to 139 in the 2004–05 season.

In addition, we have in place observer schemes to monitor by-catch in other fisheries which may be responsible for by-catch both inside and outside 12 miles. The first report from this work also being conducted on our behalf by SMRU is due in spring 2006.

Strandings data is obtained under the Defra-funded Cetacean and Turtle Strandings Scheme, carried out by the Natural History Museum in partnership with the Institute of Zoology and Scottish Agricultural College. Cetacean strandings have shown a steep decline this year in the area covered by the 12 mile pair trawl prohibition. Between 1 January and 18 July 2005, there were 68 common dolphin strandings in Cornwall, Devon and Dorset compared with 178 for the same period in 2004.

Dangerous Dogs Act

Mr. Graham Stuart: To ask the Secretary of State for Environment, Food and Rural Affairs whether she plans to review the Dangerous Dogs Act 1991; and if she will make a statement. [59108]

Mr. Bradshaw: There are no plans to review the Dangerous Dogs Act 1991.

Illegal Meat Imports

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will estimate the total amount in tonnes of illegal meat imports that have entered the EU from countries with *(a)* foot and mouth disease and *(b)* avian influenza in each year since 1997; [58618]

(2) if she will estimate the total amount in tonnes of illegal meat imports that have entered *(a)* the UK and *(b)* the EU in each year since 1997; [58619]

(3) what estimate she has made of the total amount of illegal meat seized at each UK *(a)* seaport, *(b)* airport and *(c)* border crossing point between 1997 and 2003; [58664]

Mr. Bradshaw: The estimates requested have not been made. However, since April 2001, seizures of illegal meat imported into the UK have been recorded and are shown in the following table:

Period	*Seizures in kilograms*
1 April 2001–31 March 2002	18,955
1 April 2002–31 March 2003	31,301
1 April 2003–31 March 2004	72,734
1 April 2004–31 March 2005	78,664

We do not have figures on the amount of illegal meat imports entering the EU.

Landfill (Hazardous Waste)

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs how many hazardous waste landfill sites are available for use in each region of England. [58408]

Mr. Bradshaw: The following table shows the number of permitted hazardous landfill sites and separate cells for stable, non-reactive hazardous waste available for use in each of the seven English regions of the Environment Agency.

Region	*Hazardous landfill sites*	*Stable non-reactive hazardous waste cells*
Anglian	2	2
Midlands	2	6
North East	3	4
North West	3	3
South West	1	3
Southern	1	1
Thames	1	1
Total	13	20

Nappies

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken since 1997 to promote the use of reusable nappies amost new parents. [56453]

Mr. Bradshaw: The Strategy Unit Report "Waste Not Want Not" published in 2002 recommended that the Waste and Resources Programme (WRAP) should take forward a programme of work to increase awareness about re-usable nappies.

WRAP received funding for a period of three years from April 2003 to March 2006. The aim of the WRAP initiative was to provide support to schemes run by local authorities and re-usable nappy businesses. In addition it provides information about re-usable nappies to parents and health professionals.

Rats

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the rat population in England in each year since 1997. [57440]

Mr. Bradshaw: I refer the hon. Member to the reply I gave on 19 November 2003, *Official Report*, column 906W.

The only recent objective national survey of rat presence is within the English House Condition Survey (EHCS). The 2001 survey revealed that 0.3 per cent. of properties had rats indoors and 2.9 per cent. had rats present outside.

A copy of the report can be found at the following weblink: http://www.defra.gov.uk/wildlife-countryside/vertebrates/reports/English-house-survey-rodent-report.pdf.

Recycling (Herefordshire)

Mr. Keetch: To ask the Secretary of State for Environment, Food and Rural Affairs whether Herefordshire council has achieved its target of reducing the amount of waste produced per person, per year to 2000–01 levels. [56724]

Mr. Bradshaw: The target referred to is locally set, part of the joint Municipal Waste Management Strategy for Herefordshire and Worcestershire, 2004–34, and Defra cannot comment on this. However, results taken from the Office of the Deputy Prime Minister and Audit Commission Best Value Performance Indicator 84 show that 538 kg of household waste was produced per person in 2000–01 for Herefordshire. The latest available corresponding results for 2004–05 show 528 kg of household waste was produced per person.

TRANSPORT

A47 Multi-modal Study

Mr. Fraser: To ask the Secretary of State for Transport what the cost was of completing the A47 Norwich to Peterborough multi-modal study. [59619]

Dr. Ladyman: The cost of the A47 Norwich to Peterborough multi-modal study funded by the Department for Transport was £0.9 million.

A47/A11

Mr. Fraser: To ask the Secretary of State for Transport what representations he has received from the *(a)* East of England Regional Assembly and *(b)* East of England Regional Development Agency on improvements to the (i) A47 and (ii) A11. [59628]

Dr. Ladyman: We have recently received the advice from the East of England Regional Partnership Group on their transport priorities, including improvement schemes on both the A47 and A11. The Regional Partnership Group includes both *(a)* the East of England Regional Assembly and *(b)* East of England Regional Development Agency within its membership.

Aircraft Landings

Mr. Moore: To ask the Secretary of State for Transport on how many occasions since 1 January 2001 registered aircraft *(a)* N2189M, *(b)* N8183J, *(c)* N970SJ, *(d)* N129QS, *(e)* N368CE and *(f)* N85VM have landed at British airports; and what their (i) origin and (ii) destination was in each case. [57681]

Mr. Darling: None of the information held by my Department provides evidence that these flights were involved in rendition. The British Government is not aware of any cases of rendition through the UK since May 1997, apart from the two cases in 1998 about which the Foreign Secretary has informed Parliament. Since before 9/11 we have worked closely with the US to achieve our shared goal of fighting terrorism. As part of that close co-operation, we have made clear to the US authorities, including in recent months:

(i) that we expect them to seek permission to render detainees via UK territory and airspace (including Overseas Territories);

(ii) that we will grant permission only if we are satisfied that the rendition would accord with UK law and our international obligations, and

(iii) how we understand our obligations under the UN Convention Against Torture.

I refer to my right hon. Friend the Foreign Secretary's written ministerial statement of 20 January 2006, *Official Report*, columns 37–8WS and written answer of 6 February 2006, *Official Report*, column 784–5W.

Foreign aircraft are required by the Chicago Convention to seek the prior permission of the state before operating commercial flights into another country. Aircraft operating commercial flights to and from UK airports need operating permits from my Department. Our database shows that three of these six aircraft have operated commercial flights in the UK since 1 January 2001. Details are given as follows.

Aircraft/date	*Route*
N129QS	
30 June 2003	Paris—Luton
23 February 2005	Washington DC—Stansted—Riyadh
28 May 2005	Stansted—Washington DC
27 June 2005	Luton—Tel Aviv
15 December 2005	Heathrow—Barbados
N970SJ	
4 September 20–03	Caracas—Luton
5 February 2004	Madrid—Luton
N368CE	
6 May 2004	Newark—Stansted
24 July 2004	Liverpool—Newark

There is no requirement for operating permits for non-commercial flights. However, a flight plan must be filed for all flights that cross international borders. Flight plans are filed with Eurocontrol and I agreed that they should release data to Dick Marty, Chair of the Legal Affairs and Human Rights Committee of the Council of Europe, in order to contribute to the inquiry into rendition and 'secret prisons' undertaken by the Parliamentary Assembly of the Council of Europe. Eurocontrol released data from all its member states to the Parliament on a confidential basis on 23 January. In agreeing to release I asked for a copy of the UK data which I received in late January. The data shows that four of the six aircraft have also landed in the UK as non-commercial flights. Details are as follows.

The information we hold on these flights does not include details of passengers or purpose of flight, as this information is not routinely collected.

Greater Manchester (Roads)

Mr. Leech: To ask the Secretary of State for Transport what discussions *(a)* he and *(b)* his officials have had with (i) Greater Manchester Passenger Transport Authority and (ii) Greater Manchester Passenger Transport Executive on (A) congestion charging and (B) road user pricing in Greater Manchester. [58868]

Dr. Ladyman: My right hon. Friend the Secretary of State announced on 28 November 2005, *Official Report*, column 3WS, that the authorities of Greater Manchester had been awarded development funding to consider how local demand management and better public transport could together improve travelling conditions for local people. As with the other six areas

BEST COPY AVAILBLE

to receive this funding, local road pricing forms part of Greater Manchester's consideration of demand management options.

In this context, officials and Ministers are having regular meetings with the Greater Manchester authorities, including representatives from the Passenger Transport Executive and Authority.

Mersey Gateway Project

Chris Grayling: To ask the Secretary of State for Transport whether it is his policy to fund the Mersey Gateway project. [59187]

Dr. Ladyman: Officials are currently considering Halton borough council's proposals for the Mersey Gateway. We hope to make a decision on the scheme in due course.

Railways

Mr. Jenkins: To ask the Secretary of State for Transport what subsidy was given to *(a)* all train operating companies and *(b)* train operating companies running to and from Staffordshire in each of the last five years for which figures are available; what he expects the subsidy to be in the next three years; and if he will make a statement. [58075]

Derek Twigg: Please see the following table and notes.

	2001	*2002*	*2003*	*2004*	*2005*	*2007*	*2008*	*2009*
Central Trains	131.6	124.0	114.7	148.2	176.3	[1]	[1]	[1]

[1] The current Central Trains franchise expires on 31 March 2006. Discussions continue over future provision of services.
[2] Negotiations are continuing with Virgin West Coast and Virgin Crosscountry over the level of subsidy they will receive in future years.
[3] Primary responsibility for the Arriva Trains Wales and First ScotRail franchises now rests with the National Assembly for Wales and Transport Scotland (an executive agency accountable to Scottish Ministers) respectively.
Note:
The answer identifies train operating companies (and their predecessors) currently operating rail services in Staffordshire. First ScotRail operates through Staffordshire but has no scheduled station stops within the county.

Mr. Greg Knight: To ask the Secretary of State for Transport what assessment he has made of the levels of passenger satisfaction for each train operating company; how this information informs decisions on *(a)* the shape of railway franchises and *(b)* the assessment and award of franchises; and if he will make a statement. [56492]

Derek Twigg: The National Passenger Survey (NPS) provides an assessment of passengers' satisfaction with rail travel across all current Train Operating Companies. The fieldwork for this survey is carried out by Passenger Focus, who publish the results on their website www.passengerfocus.org.uk.

While the overall standards of service passengers wish to see (or experience) illustrated by NPS will form part of the overall specification for a franchise, bidders proposals for each franchise are judged against their ability to deliver the specification for the franchise being tendered.

Mr. Laurence Robertson: To ask the Secretary of State for Transport what restrictions he has placed on increases in the number of trains run by train operating companies; and which of these restrictions apply to trains running to and from Gloucestershire. [56515]

Derek Twigg: The Department for Transport (DfT) encourages franchised train operators to operate additional trains, above the minimum specified in the contract for the franchise.

The additional trains can only operate if Network Rail is able to accommodate them on the rail network without detriment to other operators, if the relevant Track Access Agreement is approved by the Office of Rail Regulation, and that the additional trains have no subsidy payment implications for DfT. This position applies in Gloucestershire and elsewhere on the rail network.

Renewable Transport Fuels Obligation

Mr. Jeremy Browne: To ask the Secretary of State for Transport (1) for what reasons the Government target for Renewable Transport Fuels Obligation in 2010 is 0.75 per cent. below the target in the EU [illegible] fuels directive;

(2) for what reasons the UK did not meet the target of 2 per cent. biofuel inclusion for 2005; [5836[illegible]]

(3) what steps he is taking to ensure that the capacity of domestic biofuels industry will be sufficient to meet the Renewable Transport Fuel Obligation, which comes into force in 2008. [58370]

Dr. Ladyman: The EU Biofuels Directive allows member states to set their own indicative targets for biofuel sales. Starting from a low base, total UK sales in 2005 were equivalent to 0.24 per cent. of overall road fuel sales, representing a six fold increase on 2004. Some other member states with an established biofuels production industry were able to meet higher targets, but many are in a similar position to the UK.

The Renewable Transport Fuels Obligation will provide the long-term market certainty industry requires in order to commit the necessary investment in the domestic biofuels industry. In addition, the Government will introduce enhanced capital allowances for the cleanest biofuels production plants from next year, subject to state aids approval.

The level of obligation has been set at 5 per cent. for 2010 because this is currently the maximum permitted blend of biofuel allowed under EU fuel quality standards for petrol and diesel. We will look to move beyond 5 per cent. as soon as these standards allow.

Severn Tunnel

Mr. Drew: To ask the Secretary of State for Transport what measures he plans to take to mitigate the impact of rises in sea level and dramatic weather events on the Severn Tunnel. [58873]

Derek Twigg: This is an operational matter for Network Rail. I have asked Network Rail to reply directly to my hon. Friend.

Speed Limits

Tom Brake: To ask the Secretary of State for Transport what checks are undertaken by his Department to ensure that displayed speed limit signs conform with actual speed limits. [58953]

Dr. Ladyman: Individual traffic authorities are responsible for ensuring that displayed speed limit signs conform with actual speed limits.

DEFENCE

Air Traffic Control

Dr. Fox: To ask the Secretary of State for Defence what assessment he has made of the impact on UK military aviation of the European Commission's proposals to harmonise air traffic control charges. [57471]

Mr. Ingram: Under the existing Eurocontrol Multilateral Agreement for Route Charges, the United Kingdom has exempted all military flights flown in UK airspace. The current draft text of the Single European Sky (SES) Implementing Regulation on air navigation charges reflects the existing Eurocontrol policy and UK intends that this exemption will remain. However, as a result of the SES Implementing Regulation, where a member state chooses to exempt a class of aircraft, the state is responsible for reimbursing the air navigation service provider for the service they provide.

The Ministry of Defence has contributed to an impact assessment of the effect of the SES Regulation carried out by the Department for Transport. This has identified that the cost of providing air navigation services to military users in the UK is approximately £9.9 million (2004 prices). Work is under way to identify a cost neutral solution for military aviation based on the contribution made to UK air navigation services by military air traffic control.

Armed Forces Pay Review

Mr. Moore: To ask the Secretary of State for Defence what the manning shortfall is at each of the operational pinch points identified by the Armed Forces Pay Review Body in their report of February 2006, Cm 6740, for *(a)* officers and *(b)* other ranks in each of the Services. [58304]

Mr. Ingram: The pinch points lists and data that was supplied as evidence to the Armed Forces' Pay Review Body dates from April 2005. The current lists, that were supplied recently to the House of Commons Defence Committee, are shown in the table. They cover all ranks and additionally show the manning level of the Manning Pinch Point (MPP) trade as a percentage of the requirement. Officer branches are shown in italics.

Naval Service

Serial	Branch/trade	Manning level (%)
	(MPPs comprise around 18 per cent. of RN and 9 per cent. of RM manpower requirement)	
1.	Aircrew (Rotary Wing)	
	Merlin Pilot	76
	Merlin Observer	57
	Merlin Aircrewman	70
2.	Fast Jet Pilots	79
3.	Junior Submarine Warfare Officers	71
4.	Junior Hydrographical/Meteorological Officers	53
5.	Submarine Steward (required for secondary duties)	85
6.	Submarine/Communications Ratings	
	Petty Officer	86
	Leading Hands	48
	Able Seaman	[1]114
7.	Fighter Controllers	77
8.	Surface Ship and Submarine Junior Warfare Ratings	[1]106
9.	Air Engineering Junior Ratings	75
10.	Submarine Nuclear Watchkeeper Senior Ratings	69
11.	Royal Marines Junior Ranks	88
12.	Mine Clearance Divers Junior Ratings	75

[1] Some trades are manned at over 100 per cent. yet appear as MPP trades by virtue of over-commitment on operations or to fill shortfalls elsewhere.

Army

Serial	Branch/trade	Manning level (%)
	(MPPs comprise around 15 per cent. of Army manpower requirement)	
1.	Vehicle Mechanic	81
2.	Recovery Mechanic	73
3.	Armourer	81
4.	Ammunition Technician	62
5.	Chef	91
6.	Petroleum Operator	84
7.	Explosive Ordnance Disposal	74
8.	Clerk of Works	82
9.	Military Engineer	
	Fitter	92
	C3S	81
	Geographic	78
10.	Information Systems Engineer	79
11.	Operator Military Intelligence	83
	Operator Military Intelligence (Linguist)	98
	Operator Military Intelligence (HUMINT)	34
12.	Anaesthetist	51
13.	Radiologist	0
14.	Orthopaedic Surgeon	53
15.	General Surgeon	40
16.	General Medical Practitioner	58
17.	Nurse	
	General Duties Officer	67
	General Duties Soldier	64
	Accident and Emergency	8
	Intensive Theatre Unit	4

RAF

Serial	Branch/trade	Manning level (%)
	(MPPs comprise around 37 per cent. of RAF manpower requirement)	
1.	Squadron Leader Flying Branch	93
2.	Junior Officer Pilots	93
3.	Junior Officer Weapon Support Officer	93
4.	Operations Support Branch (Fighter Control)	79
5.	Operations Support Branch (Regiment)	90
6.	Operations Support Branch SB (Provost/Security)	87
7.	Engineer	93
8.	Administration (Secretarial)	89
9.	Administration (Catering)	89
10.	Administration (Physical Education)	92
11.	Administration (Training)	87
12.	Medical	84
13.	Medical Support	83
14.	Dental	92
15.	Chaplains	88
16.	Legal	91
17.	Weapons Support Operator (Linguists)	53
18.	Weapons Support Operator (Air Loadmaster)	94
19.	General Technician Electronics	91
20.	Environmental Health Technician	87
21.	Gunner	95
22.	Air Traffic Control/Flight Operations Manager/ Flight Operations Assistant	94
23.	Aero Systems Manager/Operator	95
24.	Air Cartographer	93
25.	Medical Administrator/ Assistant	93
26.	Psychiatric Health Technician	78
27.	Staff Nurse	75
28.	Dental Technician	78
29.	Dental Hygienist	58
30.	Laboratory Technician	78
31.	Radiographer	63
32.	Operating Theatre Technician	87
33.	Movements Operator/Controller	[1]1,01
34.	Mechanical Transport Technician	[1]1,01
35.	Mechanical Transport Driver	[1]1,02
36.	Fire Fighter	96

Cluster Munitions

Mr. Drew: To ask the Secretary of State for Defence what assessment he has made of the failure rate of cluster munition BL755; and if he will end its use by UK forces. [58611]

Mr. Ingram: The RAF currently operates two variants of the BL755 cluster bomb. The original BL755 and the Radar BL755 (RBL755). Recent statistics for both variants show an overall failure rate of approximately 6 per cent. which is in line with expectations.

On current plans both the BL755 and the RBL755 cluster bomb will be withdrawn from service with the RAF before the end of this decade.

Fleet Apache Helicopters

Paul Flynn: To ask the Secretary of State for Defence what the *(a)* total cost and *(b)* cost per aircraft was of the Fleet Apache helicopters. [57988]

Mr. Ingram *[holding answer 15 March 2006]:* 67 Apache AH Mk1 helicopters were procured for the Army. The total procurement cost for these aircraft, which includes some support equipment and a two and half year contractor logistic support package but excludes the supporting PFI training contract, was £2.5 billion. This equates to approximately £37 million per aircraft.

Fort Halstead

Mr. Gray: To ask the Secretary of State for Defence what the disposal value was of Fort Halstead near Sevenoaks, Kent when it was sold to QinetiQ; what price QinetiQ obtained for Fort Halstead; and what consideration he has given to renting Fort Halstead from its owners to accommodate the Defence Scientific and Technical Laboratory. [58891]

Mr. Ingram *[holding answer 16 March 2006]:* The overall agreement for the privatisation of the former Defence Evaluation and Research Agency included £38 million to cover the value of Fort Halstead.

This figure was based on advice from independent valuers. The site forms part of a sale and leaseback arrangement with QinetiQ, which allows the Defence Science and Technology Laboratory (DSTL) to remain at Fort Halstead for the time being. However, the lease structure allows QinetiQ to rationalise its land holdings at Fort Halstead and provide funding for the eventual re-provision of facilities for DSTL.

The price obtained by QinetiQ for land at Fort Halstead is a matter for them as a private company; any questions should be referred to the Chief Executive at the following address:

Graham Love
Chief Executive
QinetiQ Ltd.
Cody Technology Park
Building A1
Ively Road
Farnborough
Hampshire GU140LX

Meat Sourcing

Bill Wiggin: To ask the Secretary of State for Defence (1) how much of the *(a)* beef, *(b)* pork and *(c)* lamb consumed by the armed forces in the last period for which figures are available was (i) British and (ii) non-British in origin; from which countries the non-British meat was obtained; and how much in each category came from each country; [58878]

(2) how much *(a)* beef, *(b)* pork and *(c)* lamb the Ministry of Defence was purchased for consumption by the armed forces in each of the last three years. [58879]

Mr. Ingram: The approximate annual quantity of beef supplied to UK based armed forces in each of the last three years was 1,550 tonnes. Some 800 tonnes of pork and 500 tonnes of lamb (including mutton) were also supplied in the same period.

In the last financial year, 42 per cent. (approximately 650 tonnes) of the beef supplied to the UK based armed forces was of British origin, while non-British beef (approximately 900 tonnes) was obtained from South America.

In the same period, 100 per cent. of pork and 5 per cent. of lamb was of British origin. Non-British lamb (approximately 460–490 tonnes) was obtained from South America and Australasia.

Merlin Helicopters

Paul Flynn: To ask the Secretary of State for Defence what the *(a)* total cost and *(b)* cost per aircraft was of the Royal Navy's fleet of Merlin Mark 1 helicopters. [57954]

Mr. Ingram: The Royal Navy Merlin Mkl helicopter was acquired through a combined development and production contract which did not specify a unit production cost. However, for internal resource accounting purposes we have estimated the attribution of the contract prices between development and production.

On this basis, the 44 Merlin Mkl aircraft procured for the Royal Navy cost an estimated £1.7 billion. This figure includes the production and integration costs for the mission avionics system and Aircraft Support and Servicing Equipment (ASSE). The average cost per aircraft was approximately £39 million. The engines for the Merlin MK1 were contracted for separately at a cost of £1.7 million per aircraft.

Mine Clearance (Falkland Islands)

Mr. Drew: To ask the Secretary of State for Defence whether the UK plans to seek an extension of the deadline under the Ottawa Convention in relation to clearing mines from the Falklands Islands. [58614]

John Reid: Under the Ottawa Convention, the UK is required to clear all anti-personnel mines from its territory by March 2009. The only UK territory affected is the Falkland Islands.

Under Article 5, State Parties are entitled to submit a request for an extension of the deadline for a period of up to 10 years provided they have good cause.

Discussions are taking place with the Government of Argentina to agree a joint feasibility study on clearance of anti-personnel mines in the Falkland Islands, including a field survey of the islands. Decisions on the time scale for clearance will be made once the results of the feasibility study are known.

TREASURY

Call Centres

Mr. Laws: To ask the Chancellor of the Exchequer pursuant to the answer of 10 March 2006, *Official Report*, columns 1801–02W, on call centres, how many and what proportion of calls to his Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date were (i) handled by an adviser, (ii) received but abandoned and (iii) received an engaged tone in each year, broken down by contact centre. [59417]

Dawn Primarolo: The breakdown of information requested is not readily available and could be provided only at disproportionate cost.

Continental Shelf Receipts

Mr. Salmond: To ask the Chancellor of the Exchequer how much the Government paid to *(a)* the Isle of Man and *(b)* Northern Ireland in respect of UK Continental Shelf receipts in each year since 1976. [58292]

Malcolm Wicks: I have been asked to reply.

The following table shows how much the Government have paid to *(a)* the Isle of Man and *(b)* Northern Ireland in respect of UK Continental receipts since 1976.

Payments to Isle of Man and Northern Ireland

£000

	Isle of Man	*Northern Ireland*
1975–76	18	509
1976–77	23	638
1977–78	76	2,066
1978–79	236	6,448
1979–80	328	8,169
1980–81	493	11,600
1981–82	2,994	39,404
1982–83	1,684	38,801
1983–84	2,484	42,966
1984–85	2,763	51,174
1985–86	2,786	80,511
1986–87	1,129	58,386
1987–88	1,202	26,429
1988–89	795	29,360
1989–90	688	16,972
1990–91	750	16,903
1991–92	599	17,566
1992–93	613	15,930
1993–94	863	17,262
1994–95	779	15,558
1995–96	669	15,638
1996–97	43	18,701
1997–98	0	14,379
1999–2000	0	10,318
2000–01	0	11,474
2001–02	0	16,108
2002–03	0	16,224
2003–04	0	13,176
2004–05	0	2,902

Obstacles to Mobility Study

Mark Durkan: To ask Mr Chancellor of the Exchequer what plans his Department has to implement the recommendations of the Obstacles to Mobility Study commissioned by the North-South Ministerial Council. [55870]

Angela E. Smith: I have been asked to reply.

The report of the Obstacles to Mobility Study was published in November 2001. The NSMC considered the report in June 2002 and its conclusions on the consultants' recommendations were published on the NSMC website www.northsouthministerialcouncil.org. At that time, NSMC decided that no further action should be taken on 8 of the 50 recommendations. Of the remainder, 13 recommendations have been implemented to date and work is ongoing to progress 29.

Tax Credits

Danny Alexander: To ask the Chancellor of the Exchequer what the average amount of working tax credit entitlement is, broken down by age of claimant. [57962]

Dawn Primarolo: The average finalised annualised entitlement to working tax credit, for 2003–04, is tabled as follows.

£

	Average working tax credit entitlement for:		
	Families receiving both working and child tax credit (annualised)[1]	*Families receiving working tax credit only (annualised)*[1]	*All tax credit receipients receiving WTC (annualised)*[1]
Under 20	3,575	3,788	3,587
20–24	3,218	3,514	3,228
25–29	2,826	1,590	2,713
30–34	2,566	1,655	2,518
35–39	2,403	1,689	2,373
40–49	2,232	1,636	2,181
50–59	2,167	1,892	2,067
60 and over	2,091	2,057	2,069
All	2,458	1,800	2,390

[1] The calculation of annualised 2003–04 entitlements includes awards that stopped or started during the year as they were contained in the snapshots taken throughout the year, which were used to produce the average entitlement per family. (For further details see introduction of 'Child and Working Tax Credit Statistics Finalised Annual Awards 2003–04').

Note:
Working tax credit will also include the child care element.

Tuberculosis

Julie Morgan: To ask the Chancellor of the Exchequer what steps he is taking to encourage support for the implementation of the Global Plan to Stop Tuberculosis 2006 to 2015. [59334]

Mr. Ivan Lewis: The UK fully supports the Global Plan to Stop Tuberculosis for 2006–15, which sets out a strategy to treat 50 million people and prevent 14 million deaths over the next 10 years. At the launch of the plan at the World Economic Forum in Davos in January, the Chancellor called for G8 countries to designate tuberculosis a top priority at the St. Petersburg summit in July, and to pledge new funding to implement the Global Plan. At Davos, the Chancellor also announced £41.7 million of funding for India's Revised National Tuberculosis Control Programme.

Throughout the preparations for the G8 meeting the UK will continue to encourage G8 partners fully to fund tuberculosis control as part of the comprehensive package of measures agreed at the Gleneagles summit in July 2005. In addition, the UK will push for long-term adequate financing to the Global Fund to fight AIDS, TB and malaria (GFATM), as well as the development of innovative financing mechanisms to scale up the resources available for development. Last year the UK doubled its funding to the GFATM, and will provide £100 million in both 2006 and 2007.

Julie Morgan: To ask the Chancellor of the Exchequer whether a commitment was made at the meeting of G8 Finance Ministers in February on funding for the Global Plan to Stop Tuberculosis 2006 to 2015. [59344]

Mr. Ivan Lewis: There was no specific agreement or commitment at the G8 Finance Ministers' meeting in Moscow in February on funding for the Global Plan to Stop Tuberculosis for 2006–15, which sets out a strategy to treat 50 million people and prevent 14 million deaths over the next 10 years. The UK fully supports the plan and at its launch plan at the World Economic Forum in Davos in January, the Chancellor called for G8 countries to designate tuberculosis a top priority at the St. Petersburg summit in July, and to pledge new funding to implement the Global Plan. At Davos, the Chancellor also announced £41.7 million of funding for India's Revised National Tuberculosis Control Programme.

Throughout the preparations for the G8 meeting the UK will continue to encourage G8 partners fully to fund tuberculosis control as part of the comprehensive package of measures agreed at the Gleneagles summit in July 2005. In addition, the UK will push for long-term adequate financing to the Global Fund to fight AIDS, TB and malaria (GFATM), as well as the development of innovative financing mechanisms to scale up the resources available for development. Last year the UK doubled its funding to the GFATM, and will provide £100 million in both 2006 and 2007.

CULTURE, MEDIA AND SPORT

English Institute of Sport

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what independent assessment of the performance of the English Institute of Sport has been undertaken; and if she will publish the findings. [58478]

Mr. Caborn: An external review of the English Institute of Sport was conducted by KPMG in June 2003. No independent performance assessment has been carried out but a service level agreement exists between Sport England and the English Institute of Sport which includes Key Performance Indicators.

Financial Irregularity

Anne Main: To ask the Secretary of State for Culture, Media and Sport how many cases of financial irregularities have been recorded in her Department in each of the last five financial years; and if she will make a statement. [57549]

Mr. Lammy: The available information for the Department and the Royal Parks Agency (RPA) is set out in the table.

Financial year	*Financial irregularities*
2000–01	0
2001–02	1
2002–03	2
2003–04	1 (in the RPA)
2004–05	0

Gambling

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what research her Department has conducted into the impact of the introduction of regional casinos. [59639]

Mr. Caborn: Our intention is to ask the Gambling Commission to make an assessment of the impact of the introduction of all three categories of new casino permitted by the Gambling Act 2005 no earlier than three years after the award of the first premises licence. We will ask the Commission to advise on whether the

introduction of the new types of casino has led to an increase in problem gambling or is increasing that risk. We will also want to assess what the regeneration and other economic outcomes have been.

Iran

Mr. Gauke: To ask the Secretary of State for Culture, Media and Sport what representations she has received on cultural and sporting sanctions against Iran. [58872]

Tessa Jowell: The Department has received no such representations.

Mr. Gauke: To ask the Secretary of State for Culture, Media and Sport what steps she has taken to improve the UK's cultural links with the Iranian people. [59041]

Tessa Jowell: A number of UK cultural institutions have good working relations with their counterparts in many countries in the world, including Iran.

Public Libraries

Mr. Fallon: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to ensure that her Department is kept fully informed of proposed public library closures and the reasons for them. [59142]

Mr. Lammy *[holding answer 16 March 2006]:* The Museums, Libraries and Archives Council (MLA) are DCMS' lead advisors in this area and, through their regional office network, take a strong interest in the activities of the 149 library authorities in England.

My Department and the MLA are in contact with individual authorities as and when appropriate.

Sport

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what research she has *(a)* commissioned and *(b)* assessed on the financial contribution made by sport to the UK economy. [59663]

Mr. Caborn: No such research has been commissioned on a UK-wide basis. In June 2003, Sport England published the report, "The Value of the Sports Economy in England", which presented a summary of the value of the sports economy to the economy in England. The data in the report relates to 2000, the last year for which comprehensive data was available. The report found that sport generated more than £9.8 billion in value added to the economy in England, approximately 1.5 per cent. of total gross value added (GVA) for England. The breakdown according to sector is as follows:

	Value added (£ million)
Commercial sport	3,553
of which:	
Spectator sports	709
Participation sports	380
Retailing	966
Sport-related manufacturing	840
Commercial non-sport	4,226
of which:	
Higher education establishments	422
Voluntary sector	1,215
Local Government	844
Total	9,838

Sport England has commissioned its Research Collaborating Centre for Sport and the Economy at Sheffield Hallam university to prepare an updated report of the economic value of sport in England and the English Regions to be published later this year.

WORK AND PENSIONS

Benefits (Fife)

Mr. MacDougall: To ask the Secretary of State for Work and Pensions how many people in *(a)* Fife and *(b)* Glenrothes are in receipt of (i) income support and (ii) disability benefit. [57738]

Mr. Plaskitt *[holding answer 10 March 2006]:* The information is in the table.

Income support and disability living allowance claimants: Fife council area and the Glenrothes parliamentary constituency; August 2005

	Income support	*Disability living allowance*
Fife council	13,100	19,500
Glenrothes constituency	4,500	6,500

Notes:

1. Figures have been rounded to the nearest hundred.
2. Disability living allowance totals show the number of people in receipt of an allowance, and excludes people with entitlement where the payment has been suspended, for example if they are in hospital.
3. People can claim both income support and disability living allowance so the figures will contain an amount of overlap.

Source:

DWP Work and Pensions Longitudinal Study.

Carers

Mr. Paul Murphy: To ask the Secretary of State for Work and Pensions what *(a)* benefits and *(b)* other assistance is offered by the Government to those who act as carers for ill or disabled relatives; what measures are in place to encourage higher levels of take-up of this support; and if he will make a statement. [55828]

Mrs. McGuire: Depending on their personal circumstances, carers have access to the full range of social security benefits. Those who provide regular and substantial care of at least 35 hours a week for a severely disabled person receiving attendance allowance or the equivalent rates of the disability living allowance care component can be entitled to a carer's allowance and if on a low income, to the carer premium in the income-related benefits or the carer's additional amount in pension credit.

Information and advice about entitlement to carer's allowance and other benefits are available from a range of outlets including social security offices, Jobcentre Plus offices, DWP and other helplines, DWP and other internet sites, local authorities, Citizens Advice and welfare benefit offices, public libraries, health clinics, doctors' surgeries and health visitors. Officials from the Department's disability and carers service also discuss carer's allowance at outreach events throughout Great Britain.

This Government has recognised the contribution and concerns of carers through the National Carers' Strategy published in 1999. We have increased the funding available to support carers from £20 million in 1999 to £185 million in 2005–06, providing an extra £635 million for carers. We have announced our intention to continue the funding at £185 million a year until at least 2007–08. This means that, by 2008, we will have invested just over a billion pounds in support for carers.

Local authorities should be taking the needs of carers into account when planning and commissioning all services. Their role is crucial in promoting independence in individuals wishing to remain in the community both as part of the care team and as individuals in their own right.

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people were receiving carers allowance in the latest period for which figures are available; and how many *(a)* adult dependants and *(b)* children there were in each claimant's family. [56289]

Mrs. McGuire: At 31 August 2005, the latest date for which information is available, carer's allowance was in payment to around 441,400 carers, of whom 14,600 received an increase for a dependent adult and 12,900 received an increase for a dependent child[1]. Details of the numbers of adult dependants and children in the families of carer's allowance recipients are not available. Increases for dependent children were replaced by the child tax credit for new claims from 6 April 2003.

DWP Information Directorate

Disability Living Allowance

Danny Alexander: To ask the Secretary of State for Work and Pensions what the cost has been of lowering the qualifying age limit for the mobility component of disability living allowance from five to three years of age in each year since the change was made. [56279]

Mrs. McGuire: The estimated cost of lowering the age limit for entitlement to the higher rate mobility component of disability living allowance was £14 million in 2001–02 and £15 million in each of the subsequent years[1]. The lower age limit for entitlement to the lower rate mobility component remains at five years of age because all children under that age need guidance or supervision from another person when walking out of doors on unfamiliar routes.

[1] All estimates are based on data from the Work and Pensions Longitudinal Study, except for August 2001 to February 2002, which are based on 5 per cent. samples.

Jenny Willott: To ask the Secretary of State for Work and Pensions how many people in Wales who live in special accommodation receive *(a)* disability living allowance care component at the (i) lower rate, (ii) middle rate and (iii) higher rate and *(b)* attendance allowance at the (A) lower rate and (B) higher rate; and if he will make a statement. [56495]

Mrs. McGuire: The administration of disability living allowance is a matter for the chief executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member.

Letter from Terry Moran:

You asked the Secretary of State for Work and Pensions, how many people in Wales who live in special accommodation receive *(a)* disability living allowance care component (i) lower rate (ii) middle rate and (iii) higher rate and *(b)* attendance allowance (A) lower rate and (B) higher rate.

The Minister for Disabled People, Anne McGuire MP, promised you a reply from the chief executive of the Disability and Carers Service.

The information is not available/held centrally and could only be obtained at disproportionate cost.

I am sorry I cannot be more helpful.

Health-related Benefits

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions how many people in the *(a)* 18 to 24, *(b)* 25 to 39, *(c)* 40 to 54 and *(d)* 55 to 65 years age band were in receipt of (i) disability allowance, (ii) invalid care allowance, (iii) carer's allowance, (iv) incapacity benefit and (v) other health-related benefit in each year since 2000; and what percentage of the total population of the Crosby constituency this represented in each case. [56994]

Mrs. McGuire: The administration of disability living allowance is a matter for the Chief Executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member

Letter from Terry Moran:

You asked the Secretary of State for Work and Pensions, how many people in the *(a)* 18 to 25 *(b)* 25 to 40 *(c)* 40 to 55 and *(d)* 55 to 65 years age band were in receipt of (i) disability allowance (ii) invalid care allowance (iii) carer's allowance (iv) incapacity benefit and (v) other health-related benefit; and what percentage of the total population of the Crosby constituency this represented in each case in each year since 2000.

The Minister for Disabled People, Anne McGuire MP, promised you a reply from the Chief Executive of the Disability and Carers Service.

As this Information has previously been supplied, may I refer you to the written answer I gave on 15 February 2006, *Official Report*, volume 442, columns 2166 to 2171.

I hope this is helpful.

Hearing Disabilities

Lynne Featherstone: To ask the Secretary of State for Work and Pensions what steps the Government are taking to ensure that people with hearing disabilities are not discriminated against when trying to find employment; and if he will make a statement. [59025]

Mrs. McGuire: A person who has a hearing impairment which meets the definition of disability under the Disability Discrimination Act 1995 is already protected by the employment provisions in part 2 of the Act. These provisions provide comprehensive protection against disability discrimination in recruitment and employment. They make it unlawful to discriminate directly against a disabled person because of their disability, or to treat them less favourably for a reason related to their disability.

Furthermore, they require an employer to make reasonable adjustments to job application or selection processes, and to premises, practices or procedures, if these would otherwise put a disabled person at a substantial disadvantage.

BEST COPY AVAILBLE

On 1 October 2004, we extended the employment provisions to include small employers and to all previously excluded occupations except service in the armed forces. We have been undertaking a series of wide-ranging awareness-raising campaigns to help employers to understand and fulfil their duties under the Act. The current campaign was launched in December 2005 and runs to May 2006. The campaign brochure and website include examples of adjustments which it might be reasonable for an employer to make to assist a hearing-impaired person.

Incapacity Benefit

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will estimate the cost of disregarding for all benefits earned income up to the value of £80.80 from therapeutic work activity undertaken by claimants of incapacity benefit. [56281]

Mrs. McGuire: The information necessary to make such an estimate is not available.

Mr. Soames: To ask the Secretary of State for Work and Pensions how many people in Mid Sussex parliamentary constituency were claiming incapacity benefit in the latest period for which figures are available. [58167]

Mrs. McGuire: As at August 2005, there were 2,100 people in claiming incapacity benefit and severe disablement allowance in the Mid Sussex parliamentary constituency.

Justine Greening: To ask the Secretary of State for Work and Pensions how many incapacity benefit claimants in Putney constituency have been in receipt of the benefit for *(a)* less than six months, *(b)* between six months and one year, *(c)* one to three years, *(d)* three to five years and *(e)* five years or more; and if he will make a statement. [57182]

Mrs. McGuire: The available information on the number of people claiming incapacity benefit and severe disablement allowance is in the table.

Incapacity benefit and severe disablement allowance claimants in the Putney parliamentary constituency; by duration as at August 2005

	Number
All durations	2,900
Up to 6 months	300
6 months up to 1 year	200
1 year and up to 3 years	600
3 years and up to 5 years	400
5 years and over	1,500

Notes:
1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.
2. 'Claimant' figures include all incapacity benefit (IB) and severe disablement allowance claimants, including IB credits only cases.

Source:
Work and Pensions Longitudinal Study 100 per cent. data

Mr. Drew: To ask the Secretary of State for Work and Pensions if he will list the most common medical conditions for which incapacity benefit claimants in Stroud constituency receive the benefit. [57227]

Mrs. McGuire: The available information on the primary diagnosis for incapacity benefit and severe disablement allowance claimants is in the table.

Incapacity benefit and severe disablement allowance claimants in the Stroud parliamentary constituency; by primary diagnosis, August 2005

	Number
All Diagnoses	3,000
Neoplasms	100
Endocrine, Nutritional and Metabolic Diseases	—
Mental and Behavioural Disorders	1,200
Diseases of the Nervous System	200
Diseases of the Circulatory System	100
Diseases of the Respiratory System	100
Diseases of the Digestive System	—
Diseases of the Musculoskeletal system and Connective Tissue	500
Symptoms, Signs and Abnormal Clinical and Laboratory findings, not elsewhere classified	400
Injury, Poisoning and certain other consequences of external causes	200
Other Diagnoses	200

Notes:
1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.
2. "—" denotes nil or negligible.
3. 'Claimant' figures include all incapacity benefit (IB) and severe disablement allowance cases, including IB credits only cases.
4. All diagnoses are coded using the International Classification of Diseases, 10th Edition, published by the World Health Organisation.

Jobcentre Plus

Mr. Malik: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of job losses in Jobcentre Plus offices in Dewsbury constituency which may result from his Department's modernisation and efficiency programme. [51935]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to my hon. Friend.

Letter from Lesley Strathie:

The Secretary of State for Work and Pensions has asked me to reply to your question asking what estimate he has made of the number of job losses in Jobcentre Plus offices in Dewsbury constituency which may result from his Department's modernisation and efficiency programme. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

As announced in the 2004 Spending Review, the Department has plans to reduce overall staff numbers by 30,000 by 31 March 2008. Our staffing plans for Dewsbury take account of the challenging headcount targets Jobcentre Plus has to meet annually up to 2008 as part of the wider DWP Efficiency Challenge.

The number of Jobcentre Plus full-time equivalent staff in Dewsbury reduced from 120.5 at the end of April 2005 to 105.8 on 31 January 2006, an overall reduction of 12 percent.

The budget allocation 2006/07 for the West Yorkshire District, which includes Dewsbury, has yet to be finalised. At the moment planning assumptions are that staffing in West Yorkshire will reduce further by approximately 5 per cent. by the end of 2006/07.

Pathways to Work

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many *(a)* claimants and

(b) volunteers participated in each phase of each Pathways to Work pilot in the most recent year for which figures are available. [51975]

Margaret Hodge: The information requested has been placed in the Library.

State Pension

Mr. Drew: To ask the Secretary of State for Work and Pensions what advice he received from the Government Actuary on the reduction of national insurance contributions for those contracted out of the state second pension; what rebate the Treasury allows; and if he will make a statement. [59047]

Mr. Timms: A report by the Government Actuary setting out his recommendations on the reduced rates of national insurance contributions, rebates and minimum contributions that should apply from April 2007 was laid before Parliament on 1 March 2006. Decisions on those reduced rates, rebates and minimum contributions are for the Secretary of State and his report together with a draft Order setting out his proposals was also laid before Parliament on 1 March. There will be an opportunity for both Houses to debate the details set out in the draft Order before it is made.

Mike Penning: To ask the Secretary of State for Work and Pensions whether UK citizens who have paid the necessary national insurance and taxes in the UK and are resident in Spain are entitled to receive a full state pension; what other benefits and services they are entitled to; and if he will make a statement. [59421]

Mr. Timms: Under EC law on the co-ordination of social security, UK citizens residing in Spain:

(a) receive their entitlements to UK State pension, including annual up-ratings, in full;

(b) are eligible for winter fuel payments if aged 60 or over provided they became entitled before leaving the UK;

(c) if entitled to bereavement benefits, receive them at the same rate as if they were living in the UK;

(d) can receive incapacity benefit (payable to people under pension age who are incapable of work) if they became entitled before leaving the UK or, in certain circumstances, if the incapacity began after they have moved to Spain

(e) can receive industrial injuries disablement benefit for an industrial accident or disease contracted in the UK;

(f) are entitled to Spain's health care on the same basis as Spanish nationals, at the UK's expense, if they receive a state pension, bereavement benefit, incapacity benefit or industrial injuries disablement benefit only from the UK;

(g) can receive child benefit and, depending on their income, child tax credit if they are receiving UK State pension, bereavement benefit, or incapacity benefit;

(h) can, if under state pension age, receive contributory jobseeker's allowance on the basis of recent national insurance contributions for up to three months if they are looking for work in Spain;

(i) can receive maternity allowance on the basis of recent earnings in the UK.

Depending on what provision Spain makes for its residents, UK citizens living there may receive some benefits or services from Spain.

Welfare Reform Green Paper

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what effect he expects the new employment and support allowance proposed in the Green Paper "A New Deal for Welfare: Empowering People to Work" to have on the number of claimants subject to means testing in each year from 2008 to 2018. [51985]

Margaret Hodge: Analysis on the number of claimants subject to means testing is not currently available up to 2018. Claimants will be able to access either the contributory or income related strand of the proposed employment and support allowance depending on their contribution history and personal circumstances.

FOREIGN AND COMMONWEALTH AFFAIRS

Africa

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the environmental impact of oil exploration and extraction in Africa. [58844]

Ian Pearson: The Government works with African Governments, international oil companies and other partners to mitigate some of the negative impacts associated with oil exploration and extraction. We continue to encourage producer countries within Africa to set clear and rigorous environmental standards by which the oil industry must operate. Similarly, we continue to promote the requirement for international oil and gas companies to operate to international standards across Africa.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact of oil exploration and extraction in *(a)* Tanzania, *(b)* Uganda, *(c)* Cameroon and *(d)* Chad upon (i) poverty reduction, (ii) good governance, transparency and corruption and (iii) human rights. [58839]

Ian Pearson: Tanzania and Uganda have relatively low levels of activity in the oil sector and it is too early to judge what future impact there may be of increased activity in the sector.

We judge the prospects for economic growth and prosperity through oil exploration and extraction in Chad as positive. We are committed to ensuring that poverty reduction, good governance, transparency, corruption and human rights are addressed through the Extractive Industries Transparency Initiative (EITI) mechanism, which Chad has signed up to but is yet to implement. We encourage the Government of Chad to work with the World Bank in relation to current differences in order to address its current financial crisis, while protecting its poverty reduction programmes.

We welcome the Government of Cameroon's commitment to the EITI process and encourage full implementation to ensure that oil revenues are committed to the betterment of the people. Cameroon is also heavily committed to a Poverty Reduction and Growth Facility programme and starting debt relief. As

a part of this process and in support of good governance targets, the international financial institutions carefully monitor Cameroon's revenue and expenditure records.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the government of *(a)* Tanzania, *(b)* Uganda, *(c)* Cameroon and *(d)* Chad regarding (i) good governance and (ii) corruption. [58840]

Ian Pearson: Our High Commission in Dar es Salaam has had recent discussions with, among others, the President, Prime Minister and Foreign Minister of Tanzania. On each occasion, High Commission officials commended the high priority given by the new Tanzanian Government to the promotion of good governance, notably on Zanzibar, and the fight against corruption.

On 7 March, our High Commissioner in Kampala took part in discussions with President Museveni which covered the conduct of the recent elections and the need to promote good governance. The UK is a leading member of the anti-corruption donor group which has regular discussions with the Government about corruption, including on the recent problem of financial mismanagement of Global Fund resources.

My noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, met with Prime Minister Inoni of Cameroon on 7 March. He praised the Government of Cameroon's recent commitment to tackling corruption and encouraged them to continue the progress they have made towards improved governance.

The focus of our discussions with Chad is through the EU and the Heads of Mission of member states who are resident in N'Djamena. Governance and corruption issues are an important part of the EU/Chad agenda.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact of oil exploration and extraction in *(a)* Equatorial Guinea, *(b)* Saõ Tomé, *(c)* Congo-Brazzaville, *(d)* Gabon and *(e)* Madagascar upon (i) poverty reduction, (ii) good governance, transparency and corruption and (iii) human rights. [58842]

Ian Pearson: We encourage Equatorial Guinea, Sao Tome, Congo-Brazzaville, Gabon and Madagascar to adopt and implement the principles enshrined in the Extractive Industries Transparency Initiative (EITI), which will help promote poverty reduction, good governance, transparency and human rights.

We welcome the fact that Gabon and Equatorial Guinea have committed themselves to EITI. We encourage all states with extractive industries to do so.

Alcoholic Beverages (Government Stock)

Mrs. Villiers: To ask the Secretary of State for Foreign and Commonwealth Affairs what the estimated value is of central Government's stock of alcoholic beverages; and how many bottles of *(a)* wine, *(b)* beer, *(c)* spirits and *(d)* other alcoholic beverages are held by the Government for entertainment and other purposes. [59039]

Mr. Straw: The Foreign and Commonwealth Office is responsible for the administration of the Government Hospitality wine cellar. The cellar contains a mixture of fine and beverage wines, spirits, liqueurs and beers. The current estimated value is approximately £640,000, based on cost price. The cellar contains just under 35,000 bottles, of which fewer than 300 are spirits and liqueurs. Beer is not held in large quantities, and is bought on an ad hoc basis, depending on requirements.

Chad

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to help defend democracy in Chad. [58904]

Ian Pearson: The Foreign Minister of Chad, Allammi Ahmad, called on our Permanent Representative to the United Nations in New York on 9 January 2006. They discussed the security situation on the Chad/Darfur border and the negative impact it is having on the fragile democracy within Chad. We encouraged the Government of Chad to act with restraint.

There is no resident UK mission in N'Djamena so our main engagement in-country is through resident EU Heads of Mission. Governance is part of the EU/Chad dialogue.

Chad is due to hold Presidential elections in May 2006. The UK calls upon the Chadian authorities to ensure that the elections are peaceful, free and fair.

Chad-Cameroon Pipeline

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received regarding the Chad-Cameroon pipeline; what assessment he has made of its operation; and what assessment he has made of its impact on *(a)* poverty reduction, *(b)* good governance, transparency and corruption, *(c)* human rights and *(d)* civil society. [58841]

Ian Pearson: We have received representations from the World Bank and Amnesty International on the Chad-Cameroon pipeline.

The UK supports the Chad-Cameroon pipeline project and believes it will offer developmental as well as energy security and strategic benefits to Chad; it will also bring economic benefit to Cameroon. We encourage both governments to deliver these benefits while ensuring respect for human rights, local governance, and the local environment.

Departmental Security Staff

Mr. Andrew Turner: To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage of his Department's security staff will be licensed before the Security Industry Authority's licensing deadline of 20 March 2006. [59553]

Mr. Straw: The Foreign and Commonwealth Office security guards are provided by an external contractor (Pegasus Security Group).

90 per cent. of guards applied for the Security Industry Authority licence in August/September 2005, and the remaining 10 per cent. applied subsequently to

joining Pegasus after September. Approximately 7 per cent. of guards have received licences to date, 85 per cent. have received confirmation of the criminal record check and are waiting to receive the licence.

Eritrea/Ethiopia

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what part the UK is playing in the peace talks between Eritrea and Ethiopia. [58741]

Ian Pearson: We strongly support the US initiative aimed at resolving the border dispute between Ethiopia and Eritrea and are in close touch with the US as this proceeds. In our bilateral contacts with the parties, we have urged them to respond positively, most recently when my noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, met the Ethiopian ambassador on 14 March. We welcomed the recent meeting of the Boundary Commission in London and the agreement to meet again in April.

Iran

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the deuterium-labelled compounds that are supplied by the UK to Iran under the humanitarian exemptions to UK sanctions on trade with Iran. [58230]

Mr. Straw: There have been none.

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on the provision by the BBC of a 24-hour satellite television service broadcasting to Iran in Farsi. [59046]

Mr. Straw *[holding answer 16 March 2006]:* In October 2005, the BBC World Service announced that it intended to explore the development of a Farsi TV service as part of its 2010 strategy for a tri-media presence (radio, online and television) in its priority languages. The World Service maintains a regular dialogue with the Foreign and Commonwealth Office about its priorities. This has included discussion of its aspiration to add TV to its radio and online services in Farsi.

Jericho Prison

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the decision to withdraw the UK monitors from Jericho prison was made after notice had been given to the House on 13 March of a written ministerial statement on occupied territories to be made on 14 March. [59564]

Dr. Howells: The decision to withdraw was taken before notice was given to the House of a written ministerial statement. The letter to President Abbas on 8 March made clear that if the Palestinian Authority (PA) did not come into full compliance with the Ramallah Agreement; make substantive improvements to the security of the monitors; or come to a new agreement with the Government of Israel, we would have to terminate our involvement and withdraw with immediate effect. Our consul general in Jerusalem called President Abbas' office four times between the letter being delivered and the withdrawal of the monitors, noting the urgency and importance of this letter. No action was taken by the PA.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether any representative of the Government made contact with the Israeli *(a)* Government and *(b)* other agencies in the period between the decision to withdraw UK monitors was taken and the action taken by the Israeli Defence Force on 14 March 2006. [59565]

Dr. Howells: There was no collusion with Israel about the date of withdrawal of the monitors from the mission. As the Ramallah Agreement is between Israel and the Palestinian Authority we were obliged to inform Israel of the letter given to President Abbas. On 8 March, our ambassador in Tel Aviv informed the Israeli authorities that if the conditions laid out in the letter were not met, we would have to withdraw with immediate effect. No date or timing for withdrawal was provided to the Israeli authorities. We informed both the Palestinian and Israeli authorities immediately after we withdrew the monitors from the mission.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* developments and *(b)* intelligence prompted the final decision to withdraw UK monitors from the Jericho Monitoring Mission on 14 March 2006. [59566]

Dr. Howells: As my right hon. Friend the Foreign Secretary made clear in his statement to the House of Commons on 29 April 2002, *Official Report*, column 661–69, it was the prime responsibility of the Palestinian Authority (PA) to ensure the personal security of the United States and United Kingdom monitors. Over the last months it became increasingly clear that the PA were unable to do this. While we are unable to comment on the specific nature of any intelligence, there were a number of developments which caused concern.

In 2005, we received two independent reports which noted that security for the monitors was not adequate. Towards the end of 2005 the risk to our monitors increased: the prison became overcrowded; there were riots inside and outside the prison; there were kidnaps of British nationals in Gaza and in December the Popular Front for the Liberation of Palestine kidnapped two teachers demanding the release of Ahmed Sa'adat, one of the prisoners. On 15 December 2005, we informed the PA that unless the safety of our monitors could be improved we would have to withdraw. We proceeded to raise this issue frequently with the PA leading to the letter being delivered to President Abbas on 8 March.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what indications of the timing of the withdrawal of the UK monitors at Jericho prison were given to the *(a)* Israeli authorities and *(b)* Palestinian Authority following the joint UK/US letter of 8 March 2006 to President Abbas. [59567]

Dr. Howells: The letter to President Abbas on 8 March, made clear that if the Palestinian Authority (PA) did not come into full compliance with the Ramallah Agreement; make substantive improvements to the security of the monitors; or come to a new agreement with the Government of Israel, we would

have to terminate our involvement and withdraw with immediate effect. Our consul general in Jerusalem called President Abbas' office four times between the letter being delivered and the withdrawal of the monitors, noting the urgency and importance of this letter. No action was taken by the PA.

As the Ramallah Agreement is between Israel and the PA we were obliged to inform Israel of the letter given to President Abbas. On 8 March, our ambassador in Tel Aviv informed the Israeli authorities that if the conditions laid out in the letter were not met, we would have to withdraw with immediate effect. Both the Israeli and Palestinian authorities were informed immediately after the monitors left the mission.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he made of the possible alternative measures to safeguard the lives and welfare of the prisoners detained at Jericho prison once the UK monitors had left. [59568]

Dr. Howells: We withdrew from the mission because the Palestinian Authority (PA) was unable to provide adequate security for our monitors. The PA was also responsible for the security of the Palestinian prisoners.

Once we had withdrawn our monitors and it became clear that Israel had taken action to detain the prisoners, my right hon. Friend the Foreign Secretary called Israeli Foreign Minister Livni to urge restraint. In addition, our ambassador in Tel Aviv also called the Israeli authorities on two separate occasions to ask for assurances that the prisoners would not be harmed.

The six prisoners are unharmed and are now being held by the Israeli authorities. Our ambassador in Tel Aviv spoke with the Israeli authorities on 15 March to: request access to the ex-Jericho prisoners by representatives of the International Committee of the Red Cross (ICRC); seek assurances that the prisoners would have access to lawyers; and that any trial for the prisoners would be fair and transparent.

Nigeria

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received regarding sectarian violence in Nigeria. [58804]

Ian Pearson: Hon. Members, members of the public and civil society and faith based organisations have written to us about sectarian violence in Nigeria. We regularly raise such incidents with the Nigerian Federal and State authorities. We also fund projects to build trust between the various communities in Nigeria, including the work of the International Centre for Reconciliation to promote understanding between Christians and Muslims in Northern Nigeria.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Government of Sudan on the expulsion of Samaritans Purse from the Beja area; and what assessment he has made of the humanitarian implications. [58525]

Ian Pearson: The non-governmental organisation 'Samaritan's Purse' have told us that they have not been expelled from Eastern Sudan, but that access to the Beja areas remain difficult. Numerous attempts to improve the effectiveness of the humanitarian response and reduce logistical constraints by accessing these areas from Sudan have not been successful. Eritrea remains the only point of access to provide humanitarian assistance to vulnerable populations in these regions. We have made clear to all parties that humanitarian agencies must be given unimpeded access to conduct their work. My right hon. Friend the Secretary of State for International Development discussed in detail the issue of humanitarian access with the Government of Sudan during his visit to Sudan on 21–23 February.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the African Union regarding support for a UN protection force for Darfur. [58815]

Ian Pearson: We have encouraged the African Union (AU) to support the transition of the African Union Mission in Sudan (AMIS) to the UN. The AU's Political and Security Commission (PSC) decided on 10 March to support this in principle. The PSC also requested the Chairman of the AU to work closely with the UN Secretary General on joint planning for handover. We are discussing with the UN and the AU the possible size, mandate and composition of the mission. We are pressing for the handover to take place when AMIS' current mandate expires at the end of September 2005.

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he supports UN Secretary-General Kofi Annan's request for extra troops to be sent under NATO or UN command to Darfur. [58903]

Ian Pearson: We support the early establishment of a UN operation in Darfur. The African Union's (AU) Political and Security Commission (PSC) decided on 10 March to support, in principle, the transition of the AU Mission in Sudan (AMIS) to the UN. The PSC also requested the Chairman of the AU to work closely with the UN Secretary General on joint planning. This planning is already underway, and an assessment mission is scheduled to visit Sudan on 31 March. Following this mission, discussion will start on the possible size, mandate and composition of the mission. We are providing an expert to the UN to assist with the task. We are pressing for the handover to take place when AMIS' current mandate expires at the end of September 2005.

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to try to prevent the problems being experienced in Darfur from crossing over into Chad. [58905]

Ian Pearson: We remain concerned by the security situation in Darfur and Chad, especially along the Chadian border. Rebel groups and militia from both Chad and Sudan regularly cross the border. As part of the African Union Mission in Sudan's (AMIS) deployment in Darfur, a component is deployed around the Darfuri refugee camps in Eastern Chad, and conducts patrols in border areas. The UK fully supports AMIS and we are providing more than £50 million to

the mission. We welcome the peace agreement signed by the Presidents of both Sudan and Chad in Libya on 8 February. We call on the parties to honour it.

World Bank

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the World Bank regarding the tackling of corruption. [58831]

Ian Pearson: My right hon. Friend the Foreign Secretary, regularly discusses the issue of corruption with the UK's international partners. These have included the World Bank although the Foreign and Commonwealth Office is not the World Bank's principal British interlocutor. HM Treasury holds more regular discussions with the World Bank including on tackling corruption. My right hon. Friend the Foreign Secretary supports the World Bank's move to mainstream anti-corruption activities in its Country Assistance Strategies.

Zimbabwe

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the Government has had with the Government of *(a)* Mozambique, *(b)* Botswana, *(c)* South Africa and *(d)* Zambia on the number of refugees arriving in their countries from Zimbabwe. [58899]

Ian Pearson: Our posts in these countries regularly discuss Zimbabwe with their host Governments, including the destabilising impact the Zimbabwe refugee problem is having on them. We also take every opportunity to reinforce to African Governments the UK's concerns about the damage Zimbabwe is causing to the region. My noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, discussed these issues with a range of South African Government leaders during his visit from 2–4 March.

TRADE AND INDUSTRY

Corporate Behaviour

John Bercow: To ask the Secretary of State for Trade and Industry what steps are being taken by his Department to ensure that British companies comply with international guidelines on corporate and social responsibility. [55512]

Malcolm Wicks: We are committee to ensuring that UK companies apply high standards of corporate behaviour by addressing their environmental and social impacts wherever they operate, including adhering to relevant internationally agreed norms and initiatives. We have set out our approach to encouraging environmentally and socially responsible practice in our International Strategic Framework on Corporate Social Responsibility published in March 2005.

We already support a range of international initiatives which encourage high standards of corporate behaviour. For example, we promote the OECD guidelines for Multinational Enterprises which reflect the high expectations of business and set out clear standards for their performance including on social and environmental issues. We have written to FTSE 100 companies to raise awareness of the Guidelines.

We also support the UN Global Compact, an agreement between the UN and business to uphold and promulgate a set often principles covering human rights, labour rights, environmental protection and combating corruption.

John Bercow: To ask the Secretary of State for Trade and Industry what recent representations he has received on corporate and social responsibility. [55513]

Malcolm Wicks: DTI continues to coordinate across Government to work closely with business to create the right framework to encourage companies to make socially responsible practice an integral part of their business operations, to the benefit of both society and business. We have worked to establish the CSR Government website and the CSR Academy which provides companies with skills to take forward CSR, and have funded the Corporate Responsibility Index run by Business in the Community to encourage companies to adopt CSR and benchmark themselves against other companies.

As part of this work Ministers have met with a number of businesses, business representative organisations and other key partners. Ministers have addressed a number of major conferences on this issue including the one we organised as part of the UK Presidency.

Default Retirement Age

Mr. Gerrard: To ask the Secretary of State for Trade and Industry what assessment he has made of the possible effect of the European Court of Justice ruling in Werner Mangold *v.* Rudiger Helm (Case C—144/04, 22 November 2005) on his Department's proposals for a default retirement age. [58685]

Mr. Sutcliffe: The Mangold judgment confirmed that the directive allows for direct discrimination provided the act meets a legitimate aim and it is proportionate and necessary. The default retirement age meets these requirements.

The court in Mangold also stated that member states unarguably enjoy broad discretion in their choice of the measures capable of attaining their objectives in the field of social and employment policy, within which the default retirement age lies.

Domestic Electricity Generation

Keith Vaz: To ask the Secretary of State for Trade and Industry what steps his Department is taking to encourage households to generate their own electricity. [58731]

Malcolm Wicks: We have taken several steps to encourage households to install microgeneration technologies that can generate electricity. For example we have

- Provided £41 million of support for solar power projects and £12.5 million of support for household and community renewables projects through the Clear Skies Initiative (which supports both heat an electricity generating technologies).

Committed a further £30 million to fund the Low Carbon Buildings capital grant programme, which will take over from Clear Skies and the Major PV Demonstration Programme in April 2006.

Ensured that most microgeneration technologies benefit from a 5 per cent. VAT level.

Amended the Renewables Obligation Order to make it easier for smaller generators to claim Renewable Obligation Certificates for the electricity they are generating from renewable sources.

We are also supporting the Climate Change and Sustainable Energy Bill, which contains several measures to assist the development of microgeneration, including a power for the Government to implement a scheme to reward the export of electricity from microgenerators, should the energy industry fail to develop such a scheme within 12 months from when the Act comes into force.

Future steps we will be taking to encourage the development of microgeneration will be outlined in our strategy for the promotion of microgeneration, which will be published by the beginning of April.

Energy Bills

Jenny Willott: To ask the Secretary of State for Trade and Industry what the average annual energy bill was per household in *(a)* Wales, *(b)* England and *(c)* Scotland in each of the last three years; and if he will make a statement. [58760]

Malcolm Wicks: The average annual household energy bill for the past three years is available regionally for England, Wales and Scotland. The data presented as follows is for standard credit customers. This data is in cash terms and has not been adjusted for inflation.

Bill amount (£)

	Gas			Electricity			Total		
	2003	*2004*	*2005*	*2003*	*2004*	*2005*	*2003*	*2004*	*2005*
England									
Birmingham	324	333	387	238	247	279	562	580	666

Chris Ruane: To ask the Secretary of State for Trade and Industry what was the *(a)* cost in real terms and *(b)* percentage increase on the previous year of (i) gas and (ii) electricity prices in each year since the industries were privatised. [58704]

Malcolm Wicks: Prices for gas and electricity are shown for domestic and industrial consumers. The average annual prices for each fuel since 1990 in pence per kilowatt-hour (p/kWh) are as follows. These are in real 2005 price terms and have therefore been adjusted for inflation.

Table 1: Energy prices in real 2005 prices

	Domestic (p/kWh)		*Industrial (p/kWh)*	
	Gas	*Electricity*	*Gas*	*Electricity*
1990	2.4	10.1	1.2	6.1
1991	2.4	10.5	1.2	5.9
1992	2.3	10.6	1.2	6.0
1993	2.2	10.3	1.1	6.1
1994	2.3	10.5	1.1	5.8
1995	2.3	10.3	0.9	5.6
1996	2.2	9.9	0.7	5.2
1997	2.1	9.2	0.7	4.8
1998	2.0	8.5	0.7	4.6
1999	2.0	8.2	0.7	4.5
2000	1.9	8.0	0.7	4.2
2001	1.9	7.7	1.0	3.9
2002	2.0	7.5	1.0	3.7
2003	1.9	7.4	1.0	3.5
2004	2.0	7.7	1.0	3.7
2005	2.2	8.2	1.2	4.6

Percentages real terms year-on-year changes for gas and electricity prices are shown for domestic and industrial consumers.

Table 2: Year-on-year price changes since 1990

Percentage

	Domestic (p/kWh)		*Industrial (p/kWh)*	
	Gas	*Electricity*	*Gas*	*Electricity*
1990–91	0	+3	-5	-3
1991–92	-4	+1	0	+2
1992–93	-6	-3	-4	+2
1993–94	+4	+2	-1	-5
1994–95	+1	-1	-15	-4
1995–96	-3	-4	-29	-7
1996–97	-4	-8	+2	-8

Table 2: Year-on-year price changes since 1990

Percentage

	Domestic (p/kWh)		*Industrial (p/kWh)*	
	Gas	*Electricity*	*Gas*	*Electricity*
1997–98	-6	-7	+3	-4
1998–99	-3	-3	-3	-2
1999–2000	-4	-3	+7	-8
2000–01	0	-3	+38	-5
2001–02	+3	-3	-5	-5
2002–03	-1	-2	0	-6
2003–04	+5	+4	+8	+6
2004–05	+10	+7	+18	+23

Chris Ruane: To ask the Secretary of State for Trade and Industry how many times *(a)* his Department and *(b)* Ofgas has (i) approved and (ii) not approved increases in gas and energy prices since privatisation. [58705]

Malcolm Wicks: Neither Government nor Ofgem, the industry regulator, have a role in approving increases in gas prices and energy. Gas and energy prices are determined by the operation of fully functioning gas and electricity markets. Ofgem works to ensure that those markets operate effectively and monitors the conduct of companies within the market, in order to protect the interests of customers.

Exports/Inward Investment

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry what assessment he plans to make of the UK's inward investment and export promotion policy in comparison with those of the UK's major competitors in the EU. [58633]

Ian Pearson: UK Trade and Investment is in regular contact with inward investment and trade promotion organisations in the EU. Work to benchmark the promotional activities of the main European Investment Promotion Agencies is currently under way. On the trade side, UKTI has contributed to several benchmarking studies in recent years and is currently assessing options for further work in this area.

Fuel Poverty

Sir Robert Smith: To ask the Secretary of State for Trade and Industry what steps his Department has taken to reduce the number of domestic energy consumers living in fuel poverty. [57793]

Malcolm Wicks: Fuel poverty is devolved, so the Scottish Executive, the Welsh Assembly Government and the Department for Social Development are responsible for tackling fuel poverty in Scotland, Wales and Northern Ireland respectively. The Department for Environment, Food and Rural Affairs is responsible for the Government's main fuel poverty programme in England, Warm Front.

The Department of Trade and Industry has a number of policies to tackle the issue of fuel poverty. It has liaised closely with energy suppliers on the development of the Home Heat Helpline, which provides vulnerable customers and their representatives with a central point of information relating to the help available from their energy supplier and Government. It has encouraged the introduction of social tariffs and price freezes for fuel poor and low income customers. It is also working to build up networks to deliver energy-related assistance with the voluntary sector.

The Department's Design and Demonstration Unit is a team of private sector secondees that works in support of Energy White Paper objectives. As part of the unit's work, it has designed and delivered projects to provide gas connections to deprived communities, and it is now developing community projects utilising renewable technologies.

The Department is also taking forward work in the context of the Energy Review on the best way to tackle fuel poverty in the light of rising energy prices.

Alan Simpson: To ask the Secretary of State for Trade and Industry what assessment he has made of the additional measures and resources needed to meet fuel poverty targets to take into account increases in household fuel bills since 2003. [58735]

Malcolm Wicks: Work on the best way to tackle fuel poverty in the light of rising energy prices is being taken forward in the context of the Energy Review.

Jenny Willott: To ask the Secretary of State for Trade and Industry (1) what estimate his Department has made of the potential effect on the *(a)* number and *(b)* proportion of pensioners in Wales that will be living in fuel poverty after the gas price increases planned by energy companies in March; and if he will make a statement; [58725]

(2) how many and what proportion of pensioners in Wales were living in fuel poverty in the latest period for which figures are available; and if he will make a statement. [58726]

Malcolm Wicks: Fuel poverty is devolved to the Welsh Assembly Government, and falls within the portfolio of the Minister for Social Justice and Regeneration.

The first indications from the Assembly Government's Living in Wales survey are that around 130,000 households were living in fuel poverty in 2004, which represents 11 per cent. of Welsh households.

A full report analysing the fuel poverty statistics by categories such as household age and composition, property age and type is being commissioned. This report will update the fuel poverty figure to take into account increases in incomes and fuel prices since the property survey took place. The report will also model future fuel prices to produce scenarios of the number of households who might be in fuel poverty to 2010.

Jenny Willott: To ask the Secretary of State for Trade and Industry (1) how many people in Wales are living in fuel poverty; and if he will make a statement; [58758]

(2) what estimate his Department has made of the number of people who will be living in fuel poverty in Wales after the gas price increases announced by energy companies in March 2006; and if he will make a statement. [58759]

Malcolm Wicks *[holding answers 15 March 2006]:* Fuel poverty is devolved to the Welsh Assembly Government, and falls within the portfolio of the Minister for Social Justice and Regeneration.

The first indications from the Assembly Government's Living in Wales survey are that around 130,000 households were living in fuel poverty in 2004, which represents 11 per cent. of Welsh households.

A full report analysing the fuel poverty statistics by categories such as household age and composition, property age and type is being commissioned. This report will update the fuel poverty figure to take into account increases in incomes and fuel prices since the property survey took place. The report will also model future fuel prices to produce scenarios of the number of households who might be in fuel poverty to 2010.

ICI (Child Labour)

John Bercow: To ask the Secretary of State for Trade and Industry what recent discussions he has had with ICI regarding *(a)* child labour and *(b)* its fulfilment of its corporate and social responsibility. [58850]

Alun Michael: I have not met ICI over the last year.

Imported Manufactured Goods

Mr. Heathcoat-Amory: To ask the Secretary of State for Trade and Industry what the *(a)* name and *(b)* composition is of the EU committee which sets the tariff rates for imported manufactured goods. [59267]

Ian Pearson: The EU tariff regime was negotiated and agreed when the European Community was first set up. Amendments to the EU tariff can be made by a number of different EU Council working groups or committees but would most likely be made through either the "Article 133" or the "Customs Union" committees. These committees are made up of representatives of the European Commission, member states and the European Council Secretariat. In all cases, changes would have to be formally approved at a meeting of the European Council of Ministers.

Industrial Diseases

Rosie Cooper: To ask the Secretary of State for Trade and Industry how many coal health claims for vibration white finger from residents of *(a)* Lancashire and *(b)* West Lancashire have been processed; and how many are still outstanding from West Lancashire. [58518]

Malcolm Wicks: 590 vibration white finger claims have been registered from Lancashire[1] and 31 from West Lancashire of which 11 have not yet been settled.

Internet

Mr. Ellwood: To ask the Secretary of State for Trade and Industry when he last met the Internet Corporation for Assigned Names and Numbers to discuss the monitoring of the internet. [57000]

Alun Michael: DTI Ministers have not met the Internet Corporation for Assigned Names and Numbers (ICANN), the US-based private-sector company responsible for the international coordination of the Internet domain name and addressing system, but DTI officials represent the UK on ICANN's governmental advisory committee, which is the channel for governments to comment on public policy issues arising from ICANN's work.

Last November I had useful discussions with representatives of Nominet, the not-for-profit membership organisation that runs the registry for internet names under dot.uk, to hear their views about the international aspects of the domain name system in advance of the World Summit on Information Society in Tunis.

Job Relocation (Wales)

Mr. Llwyd: To ask the Secretary of State for Trade and Industry how many jobs in his Department have been relocated to Wales since 2001. [57693]

Alan Johnson: DTFs relocation programme covers both the core Department and its agencies and sponsored bodies. The Department's SR04 target was to have relocated 85 posts out of London and the south east by 31 March 2008 and a further 600 posts by 31 March 2010, a total of 685 posts overall. So far we have relocated 194 posts of which 31 posts have been relocated to Wales consisting of; 15 Human Resources posts to shared offices at Companies House in Cardiff and 16 posts to the Patent Office in Newport. A further one Legal enforcement post outside of the relocation programme has been relocated to shared offices at Companies House.

Low Carbons Building Programme

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry when the Low Carbon Buildings Programme will start. [59086]

Malcolm Wicks *[holding answer 16 March 2006]:* The Programme will be launched in early April. The precise date will be announced a soon as possible following discussions with the selected management contractor.

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry what the budget is for household grants under the Low Carbon Buildings Programme in 2006–07. [59087]

Malcolm Wicks *[holding answer 16 March 2006]:* We are currently finalising the programme, which includes an informal consultation with key stakeholders and will be making an announcement shortly.

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry when he expects EU State Aid clearance for the Low Carbon Buildings Programme. [59088]

Malcolm Wicks *[holding answer 16 March 2006]:* We have provided the Commission with some additional information at their request and we are awaiting their decision.

North West Regional Development Agency

Rosie Cooper: To ask the Secretary of State for Trade and Industry how many new jobs have been created by the work of the North West regional development agency in the last five years, broken down by county. [58439]

Alun Michael: Jobs created or safeguarded (NWDA gross attributed outputs) are shown in the following table.

Sub region	*2003–04*	*2004–05*	*2005–06 forecast outturn*
Cheshire	147	683	733
Cumbria	1,220	1,497	1,808
Greater Manchester	1,709	1,882	1,497
Merseyside	3,461	2,524	2,349
Lancashire	3,217	2,550	2,733
Regional projects	4,889	2,132	4,272
Total	14,641	11,267	13,392

Note:

Information was not collated by county before 2003–04, but the total figure for 2001–02 was 29,523 and the figure for 2002–03 was 24,067

Rosie Cooper: To ask the Secretary of State for Trade and Industry what the cost of capital assistance provided by the North West Regional Development Agency has been in the last five years, broken down by county. [58440]

Alun Michael: The North West Regional Development Agency has provided capital assistance across the region in the last five years as follows:

£000

County	*2001*	*2002*	*2003*	*2004*	*2005*
Cheshire and Warrington	1,081	1,322	5,993	11,602	6,006
Cumbria	8,790	8,867	16,976	18,020	11,077
Greater Manchester	71,879	59,338	60,764	44,879	46,890
Lancashire	5,032	11,913	31,483	40,564	15,437
Merseyside	28,731	41,986	70,331	26,500	48,818
Regional	9,589	6,165	11,164	14,227	17,602
Grand total	125,101	129,592	196,711	155,793	145,830

Rosie Cooper: To ask the Secretary of State for Trade and Industry how many flagship sites the North West Regional Development Agency controls; and what estimate he has made of the capital cost of each. [58441]

Alun Michael: The North West Regional Development Agency has land holdings in seven of the 25 strategic regional sites identified in the Regional Economic Strategy. Its total investment in each of them is as follows:

	£ million
Kingsway Business Park, Rochdale	34
Twelve Quays, Birkenhead	3
Daresbury Park, Halton	40
Liverpool Science Park	57
The Estuary, Liverpool	24
Wirral International Business Park	10
Central Park, Manchester	25

Rosie Cooper: To ask the Secretary of State for Trade and Industry how many complaints have been received from companies by the North West Regional Development Agency in the last five years; and what action was taken in each case. [58442]

Alun Michael: In 2001 two complaints were received from two different companies to which the chief executive responded in writing explaining the Agency's position.

Nuclear Decommissioning

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what estimate he has made of the decommissioning costs of each nuclear power plant in Scotland; and if he will make a statement. [57200]

Malcolm Wicks *[holding answer 9 March 2006]:* The Nuclear Decommissioning Authority (NDA) assumed responsibility for the decommissioning and clean up of the UK's civil nuclear legacy on 1 April 2005. There are three sites in Scotland for which the NDA have responsibility: Chapelcross, Dounreay, and Hunterston A. Dounreay, however, was established as a research reactor site with fuel treatment facilities and not for electricity power generation. The total estimated decommissioning cost in respect of each power plant site is given in the NDA's draft Strategy as follows:

	£ billion
Chapelcross	1.663
Hunterston A	1.214
Dounreay	2.908

The draft Strategy is available through the NDA web site at: www.nda.gov.uk

Nuclear Power

Mr. Boris Johnson: To ask the Secretary of State for Trade and Industry what plans he has to increase the supply of UK-trained personnel in the field of nuclear power generation. [58974]

Malcolm Wicks: Cogent, the Sector Skills Council for the nuclear industry, is working with employers to ensure that skills levels meet employers needs.

Mr. Boris Johnson: To ask the Secretary of State for Trade and Industry what estimate he has made of availability of trained personnel in the field of nuclear power generation. [58977]

Malcolm Wicks: Cogent Sector Skills Council was launched in March 2004 tasked with taking a strategic view of the nuclear sector to ensure that education and training can meet the nuclear employers' current and future needs.

Cogent have recently undertaken a review of the labour market in the nuclear industry. The draft Skills Needs Assessment document which sets out the position of skills in the nuclear industry, along with the other industry sectors that Cogent covers, can be found on the Cogent web site at: http://www.cogent-ssc.com/pdf/SNADRAFTFORCONSULTATION170206v2.pdf

Pandemic Influenza

Sir John Stanley: To ask the Secretary of State for Trade and Industry what steps he will be taking to ensure continuity of satisfactory fuel supplies in the event of an outbreak of pandemic influenza; and if he will make a statement. [58260]

Malcolm Wicks *[holding answer 16 March 2006]:* Individual oil companies continue to review and update their business continuity plans, based on advice provided by the Department of Health, in order to protect the health of their staff and maintain the supply of fuel. The representative trade associations are working closely with the industry in order to share best practice in this area. The Department is continuing to monitor the situation closely.

In the event of a significant disruption to the supply of fuel the Government has contingency plans to control the production, supply, distribution and use of fuel. A description of the Downstream Oil Emergency Response Plan was made public in July 2005.

Professional Institutes

Alison Seabeck: To ask the Secretary of State for Trade and Industry which learned institutes are recognised by his Department as professional bodies. [57350]

Alan Johnson: The Department works with a number of organisations, many of which might be termed learned institutes or professional bodies. Whilst no register exists that defines what might be termed a learned institute or a professional body, many bodies have sought a Royal Charter and are regulated through the Privy Council. Other highly respected learned and professional bodies have chosen to stay independent.

Renewable Electricity

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry what the Government's target is for renewable electricity generation in each region by 2020; what steps he expects to be taken to achieve this; and whether offshore facilities are included in this target. [57361]

Malcolm Wicks: The Government set out in the 2003 Energy White Paper its national aspiration that renewables should provide 20 per cent. of UK electricity supply in 2020.

In support of this objective, planning policy statement (PPS) 22 states that regional spatial strategies (RSS) in England should include renewables targets for 2010 and 2020, based on an assessment of the renewable resource potential in the region. These targets

> "should be regularly reviewed and revised upward (if they are met) subject to the region's renewable energy resource potential and the capacity of the environment in the region for further renewable energy developments".

While the Government will have a view on the suitability of individual targets, the targets themselves are developed by the region, based upon the normal process of consultation and public inquiry. Regional planning bodies lead the preparation of RSSs—though a variety of bodies may be involved in developing the targets.

Renewable Energy

Keith Vaz: To ask the Secretary of State for Trade and Industry how many households installed wind turbines in each year between 2000 and 2005. [58732]

Malcolm Wicks: Under the Clear Skies Programme, which started in 2003 and provides grant support for the installation of wind turbines, the following numbers were installed.

	Number
2003	36
2004	48
2005	[1]129

[1] Accepted for a grant, of which 36 have been installed and had the grant paid.

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry how much grant funding was directed towards household micro-renewable energy projects in 2005 under the Clearskies and Solar Photovoltaics Major Demonstration programmes. [59089]

Malcolm Wicks *[holding answer 16 March 2006]:* Under Clear Skies £398,110 of grants have been offered to householders in 2005.

Under the Solar Photovoltaics Major Demonstration Programme £2,232,574 of grants have been offered to householders in 2005.

Scottish Illegal Money Lending Unit

Mr. Tom Harris: To ask the Secretary of State for Trade and Industry what plans the Government have to extend funding of the Scottish Illegal Money Lending Unit after 31 March 2007. [58973]

Mr. Sutcliffe: The pilots set up in Glasgow and Birmingham to tackle illegal money lending were set up as a time limited project. However I fully support the work of the pilots to date and we recently extended the funding by seven months to run until 31 March 2007. Decisions on further funding have to be taken in the context of the evaluation of the project, which is currently under way, and the department's wider responsibilities and commitments. I am not yet able to commit to further funding of the project but can assure you that I am giving the matter full consideration.

South West Regional Development Agency

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry how much has been invested in the *(a)* Objective 1 area and *(b)* Objective 2 area by the South West Regional Development Agency since it was set up. [55268]

Alun Michael: I am advised by the South West of England Regional Development Agency that it approved expenditure in Objective 1 areas of £116.4 million since 1999–2000 and £137 million since 1999–2000 in Objective 2 areas. These figures do not capture the total percentage of SWRDA's project and programme expenditure that benefits these areas as they are also assisted substantially from a range of regional projects and programmes funded by SWRDA, where expenditure is not directly attributable to individual areas.

Sustainable Building

Alan Simpson: To ask the Secretary of State for Trade and Industry what proportion of the Department's building programme budget was allocated to *(a)* energy self-generation and *(b)* water recycling measures in the last financial year. [58752]

Alan Johnson: The 2005–06 building programme for the DTI HQ estate did not contain any provision for water recycling or energy self generation. However the Department continues to reduce its water consumption through other water saving measures and is now close to the government target of 7.7 cu m per capita. The DTI is also actively looking at the potential for micro generation in its main buildings and this is currently the subject of a detailed feasibility study through the Carbon Trust.

Vanity Publishing Industry

Mr. Oaten: To ask the Secretary of State for Trade and Industry what steps he is taking to regulate the vanity publishing industry. [58991]

Alun Michael *[holding answer 16 March 2006]:* While the Government have no plans to introduce legislation specific to vanity publishing, existing legislation offers protection in respect of abuses which may be associated with such publishing.

The Trade Descriptions Act 1968 makes it an offence for traders knowingly or recklessly to make a false or misleading statement about the services they provide.

Under the Misrepresentation Act 1967 a contract may be cancelled and damages claimed if an author enters into a contract as a result of misrepresentation.

The Supply of Goods and Services Act 1982 requires traders to provide services with reasonable care and skill. Failure to do so would be a breach of contract which would allow damages to be sought in a civil court.

Wind Farms

Mr. Beith: To ask the Secretary of State for Trade and Industry what the processes are by which his Department will assess local opinion on the wind farm proposals in Northumberland which are to be determined by the Department. [56482]

Malcolm Wicks *[holding answer 13 March 2006]:* There is a statutory requirement for notice of an application to my right hon. Friend the Secretary of State under section 36 of the Electricity Act 1989 to be advertised both locally and in the London Gazette. Developers are also asked to advertise in a national newspaper of their choice and to post notices in prominent positions in the locality of a proposed development. A period of not less than 28 days from the latest date of publication is given for local people to make their representations to my right hon. Friend the Secretary of State.

The local planning authority in whose area the application is sited are also consulted. Their views, and those of individuals and local communities, will be taken into account by my right hon. Friend the Secretary of State. He will also seek advice from statutory bodies such as the Environment Agency and the relevant countryside, nature conservation and heritage bodies before making a decision.

HEALTH

Audiology

Dr. Stoate: To ask the Secretary of State for Health how the formula for allocating funds to individual audiology service providers in England for the delivery of the Modernising Hearing Aid Service programme is drawn up; and if she will make a statement. [55244]

Mr. Byrne: The Royal National Institute for the Deaf managed the modernising hearing aid services programme, on behalf of the Department, including allocating funds to individual audiology service providers.

The programme was completed in March 2005 with identified allocations repeated in 2005–06 to further embed the programme. It is for national health service providers to determine the allocation of funds from 2006–07.

BRCA1 Testing

Sandra Gidley: To ask the Secretary of State for Health what assessment she has made of the time women wait for diagnostic test results following BRCA1 testing. [59217]

Ms Rosie Winterton: The Department does not collect routine data on the waiting time between taking a sample from a patient for a genetic test, such as a BRCA1 test, to the reporting of the result to the patient.

The ability to test for breast cancer pre-disposition genes has led to a significant increase in work load for genetic services. We are aware that in some instances patients have had lengthy waits and we understand the anxiety associated with this. This Government had already invested £11 million in specialised genetics services since 2001. The genetics White Paper 'Our inheritance, our future' (2003) announced a further £18 million specifically to upgrade national health service genetics laboratories in England. BRCA testing is one of the areas that is benefiting from this investment. Laboratories are now becoming equipped to deal with higher volumes of tests more quickly.

The White Paper said that as a result of this increase in laboratory capacity we expect that by 2006 genetic test results should be available:

within three days where the result is needed urgently, for example for prenatal diagnosis;

within two weeks where the potential genetic mutation is already known, for example because another family member has already been tested; and

within eight weeks for unknown mutations in a large gene, such as BRCA1.

Breast Cancer

Sandra Gidley: To ask the Secretary of State for Health what the average waiting time for radiotherapy following breast cancer was in each NHS trust in the last period for which figures are available. [59220]

Ms Rosie Winterton: Data on waiting times for radiotherapy is not collected centrally. The NHS Cancer plan set out maximum waiting time targets for cancer treatment which may include radiotherapy where this is given as a first definitive treatment. From December 2001, there is a one month maximum wait from diagnosis to first treatment for breast cancer and a maximum two month wait from urgent referral to treatment for breast cancer.

In the last quarter, October to December 2005, 98.9 per cent. of women received their first treatment within a month of diagnosis with breast cancer and 98.1 per cent. of women were treated for breast cancer within two months of urgent referral by their general practitioner.

Burntwood, Lichfield and Tamworth Primary Care Trust

Mr. Jenkins: To ask the Secretary of State for Health how many patients were referred to hospital by general practitioners in the Burntwood, Lichfield and Tamworth Primary Care Trust in each year since the primary care trust was established; how many spent at least 24 hours in hospital in each year; and if she will make a statement. [58107]

Ms Rosie Winterton: The information is not available in the format requested. However, the number of general practitioner (GP) referrals at commissioner level for Burntwood, Lichfield and Tamworth Primary Care Trust from 2002–03 is shown in the table.

Collection year/quarter	*GP written referrals (by commissioner)*
2002–03

Children's Hospices

Bob Spink: To ask the Secretary of State for Health if she will visit Little Havens children's hospice in Castle Point to discuss funding. [55062]

Mr. Byrne: I will be meeting shortly with a representative from Little Haven hospice.

Colon Cancer

Mr. Clappison: To ask the Secretary of State for Health pursuant to the answer of 15 February 2006, *Official Report*, column 2110W, on colon cancer, how

many people have been screened under the pilot for bowel cancer screening since 2000; how many of the people subject to screening were subsequently diagnosed with bowel cancer; how many were found to be suffering from bowel polyps; and if she will publish the research and independent evaluation of the project. [57082]

Ms Rosie Winterton: Since the English bowel cancer screening pilot began in Rugby on 6 September 2000, nearly 204,000 people have been screened. 217 people have been diagnosed with bowel cancer, and 959 have been diagnosed with bowel polyps. The final report on the independent evaluation of the first phase of the pilot was published in May 2003, and is available on NHS Cancer Screening Programme's website at: www.cancerscreening.nhs.uk/bowel/pilot-evaluation.html

The report of the evaluation of the second phase of the pilot is currently being peer reviewed, and will be made available in due course.

Colorectal Cancers

Mr. Clappison: To ask the Secretary of State for Health what progress has been made in implementing *(a)* the National Institute for Health and Clinical Excellence (NICE) guidance Improving Outcomes in Colorectal Cancers and *(b)* the developmental standards relating to colorectal cancer set out in the NICE report National Standards, Local Action. [57378]

Ms Rosie Winterton: "Guidance on Improving Outcomes in Colorectal Cancers" was issued by the Department in November 1997. It was updated by the National Institute for Health and Clinical Excellence (NICE) in May 2004.

The recommendations set out in the original guidance were converted into a series of measures that have been included in the Manual for Cancer Services, 2004. These measures are currently being updated to take into account the NICE update.

The manual is aimed at all commissioners and providers of national health service cancer services to support self-assessment and peer review. A national programme of cancer peer review is currently under way. This process seeks to accelerate the pace of improvement in the quality of cancer services across the whole system of patient care. All 34 cancer networks in England are due to have been peer reviewed by the end of November 2006.

Following each visit, a local peer review report is produced. These reports are in the public domain so interested parties can see how their local cancer services are progressing. They will be able to see progress in terms of different types of cancers such as bowel cancer.

Once this round of peer review is complete, the cancer action team will produce a national report summarising the outcomes of peer review. This will include a summary of the national position on bowel and other cancers.

"National Standards, Local Action" was issued by the Department in July 2004 and the implementation of NICE guidance is one of the developmental standards set out in this document. The Healthcare Commission is responsible for assessing progress of healthcare organisations towards achieving developmental standards, and they will be consulting on its proposals for assessing these standards shortly. However, the results of the cancer peer review will be shared with the Healthcare Commission to support them in this work.

Coronary Heart Disease

Steve Webb: To ask the Secretary of State for Health what steps are being taken to implement the new chapter eight of the Coronary Heart Disease National Service Framework. [58902]

Ms Rosie Winterton: Responsibility for implementing chapter eight of the coronary heart disease national service framework (CHD NSF) lies with local national health service commissioners and providers. "Shifting the Balance of Power" has seen money, control and responsibility pass to local health services so that the communities they serve have greater influence over the way local resources are spent and the way local services are run. This will allow greater scope for locally determined targets and priorities to be matched to local needs. The Department is working with local service providers, commissioners and other key stakeholders to support the NHS in implementing chapter eight.

For successful delivery, there will need to be effective health commissioning through local delivery planning processes, monitored and accountable through primary care trusts and strategic health authorities.

Dentistry

Mr. Lansley: To ask the Secretary of State for Health how many units of dental activity she estimates were provided by dentists operating *(a)* personal dental services contracts and *(b)* general dental services contracts between 1October 2004 and 30 September 2005. [36436]

Ms Rosie Winterton: The system of monitoring general dental services (CDS) contracts and personal dental services (PDS) agreements on the basis of units of dental activity will begin from April 2006. Units of dental activity are a measure of the courses of treatment provided by dentists, with different weightings to reflect the relative complexity of three broad categories of courses of treatment.

For dentists working in the CDS during the reference period 1 October 2004 to 30 September 2005 who have a current GDS contract or PDS agreement, the Dental Practice Board has used data on non-orthodontic courses of treatment, together with assumptions about reasonable numbers of examinations for registered children who have had no other treatment reported, to produce recommended levels of units of dental activity for 2006–07, which will be subject to a five per cent, reduction. Using this methodology, the total estimated units of dental activity for the reference period were 73.4 million.

For dentists with PDS pilot agreements, the Dental Practice Board has provided primary care trusts with available data on courses of treatment reported during the reference period, with an estimated conversion to units of dental activity. It is not possible to estimate the total units of dental activity provided during the period, as the data are not complete and there is often a

significant time lag between activity taking place and being recorded. Activity at the start of a PDS scheme may also not be typical of ongoing activity.

Dr. Cable: To ask the Secretary of State for Health how many dental practices had recourse to the NHS arbitration process in each of the last five years. [49847]

Ms Rosie Winterton: No dentists have sought to make use of the national health service arbitration process over the last five years.

Julia Goldsworthy: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Bridgend (Mrs. Moon) of 2 February 2006, *Official Report*, column 715W, on dentistry, if she will make a statement on the review of children's dental health the National Screening Committee is undertaking. [55886]

Ms Rosie Winterton *[holding answer 6 March 2006]:* The national screening committee has commissioned an evaluation of dental screening in schools, with particular regard to its effect in reducing dental decay and improving attendance at general dental practices. At the same time, we are undertaking a wide-ranging programme of reforms to national health service dentistry to improve access to services for people of all ages. Implementation of these reforms will provide a sound basis for identifying the models of service that most effectively meet the oral care health needs of children.

Mr. Davey: To ask the Secretary of State for Health what assessment she has made of the effect on the number of NHS dentists of the new contracts. [55844]

Ms Rosie Winterton: The new contracts are not in themselves expected to have a significant effect on the number of national health service dentists. The current indications from the NHS are that the great majority of NHS dentists will agree new contracts.

From April 2006, primary care trusts (PCTs) will have devolved responsibility and ring-fenced budgets for commissioning primary dental services. This means that if a dentist chooses not to take up the new contract, the resources stay with the PCT to be re-invested in local dental services.

Miss McIntosh: To ask the Secretary of State for Health if she will make a statement on NHS dentistry services in North Yorkshire. [57417]

Ms Rosie Winterton: Across the North and East Yorkshire and Northern Lincolnshire strategic health authority (SHA) area the number of general dental services (GDS) and personal dental services (PDS) registrations/PDS patients seen has increased by 26,994 (3.2 per cent.) between December 2004 and December 2005. This rate of increase is above the national average for England. There has been an increase of 45 in the number of GDS and PDS dentists working in the SHA area in the same period.

Mr. Laurence Robertson: To ask the Secretary of State for Health what estimate she has made of the number of people who will be registered with NHS dentists in each of the primary care trusts in Gloucestershire in each of the next three years; and if she will make a statement. [57578]

Ms Rosie Winterton: The Department has not made an estimate of the number of people who will be registered with national health service dentists in each of the primary care trusts in Gloucestershire in each of the next three years.

The current system of NHS registration measures the numbers of patients who attend an NHS dentist at least once within the most recent 15-month period. Current levels of registration are shown in the table. The dentistry reforms being implemented from April 2006 are designed to promote new ways of working that will enable dentists to see a greater range of patients within a given period.

Number of people registered with an NHS dentist in each of the primary care trusts in Gloucestershire as at 30 September in each specified year is shown in the following table.

Primary care trust	*2003*	*2004*	*2005*
Cheltenham and Tewkesbury	65,832	63,742	62,221
West Gloucestershire	62,391	65,265	69,495
Cotswold and Vale	67,377	67,416	70,959

Notes:

1. Personal dental service (PDS) schemes have varying registration periods. To ensure comparability with corresponding general dental service (GDS) data, PDS registrations are estimated using proxy registrations, namely the number of patients seen by PDS practices in the past 15 months. There will be a break in the registrations series at the point at which PDS schemes were introduced as the proxy registrations build up. Falls in registration rates will be particularly pronounced in the financial year 2004–05, when the majority of PDS schemes were introduced.
2. Data for 2003 and earlier do not include those PDS schemes that do not have any registrations, for example, dental access centres, and is therefore not directly comparable with 2004 and 2005 data.

Source:

Dental Practice Board

David Davis: To ask the Secretary of State for Health what measures she is taking to increase availability of NHS dentists in Haltemprice and Howden constituency. [57859]

Ms Rosie Winterton: Across the East Yorkshire primary care trust (PCT) area the number of general dental service (GDS) and personal dental service (PDS) registrations/PDS patients seen has increased by 2,003 (2.9 per cent.) between December 2004 and December 2005. This rate of increase is above the national average for England. The number of GDS and PDS dentists working within the East Yorkshire PCT has increased by six. The PCT continues to work with local dental practices both in supporting them in moving over to the new PDS contract and to encourage further growth.

Mr. Jenkins: To ask the Secretary of State for Health what representations she has received from dentists on the implementation of the new dental contract in Staffordshire. [58099]

Ms Rosie Winterton: The Department has received a number of representations from stakeholder organisations and from individual dentists about the new contractual arrangements.

The British Dental Association (BDA) has made recent representations about the contractual requirement for dentists to carry out an agreed number of (weighted) courses of treatment or units of dental activity in return for their guaranteed annual contract value.

The Department has indicated to the BDA that we regard the new contracts as offering a good deal for dentists. They will have a guaranteed annual contract value based on their current national health service earnings, which give an average net income of £80,000 per year for a committed NHS dentist, for at least five per cent, fewer (weighted) courses of treatment compared with the current general dental services system. The Department has expressed concern that the BDA appears to be overlooking the evidence of the personal dental services pilots, which have shown that abolishing the fee-per-item remuneration system, also supports dentists in carrying out simple courses of treatment, with more time available for preventative work.

Mr. Stewart Jackson: To ask the Secretary of State for Health what assessment she has made of the availability of free dental care for children within Peterborough constituency. [58151]

Ms Rosie Winterton: Dentists working in the salaried primary care dental services examine schoolchildren at least three times in their school career. They also contribute to regular surveys, which have shown that the oral health of children is improving.

Where dentists advise that treatment is necessary, children under 16 and young people aged 16, 17 and 18 who are in full time education are exempt from charges for national health service dental treatment.

Recent and ongoing action to improve access to NHS dentistry, including the recruitment of the equivalent of over 1,450 additional dentists, the establishment of a new university dental school and the introduction of local commissioning responsibilities for primary care trusts, will benefit both children and their families.

Electroconvulsive Therapy

Mr. Amess: To ask the Secretary of State for Health how many NHS staff have been investigated for allegedly administering electroconvulsive therapy *(a)* without obtaining the consent of the individual and *(b)* having obtained consent by pressure or coercion in each of the last five years for which information is available. [57601]

Ms Rosie Winterton: The information requested is not available centrally.

Geneticists (Waiting Times)

Sandra Gidley: To ask the Secretary of State for Health what assessment she has made of the waiting time for an appointment with a geneticist; and if she will make a statement. [59216]

Ms Rosie Winterton: The Department does not collect routine data on the waiting time for a first appointment with genetics services.

There are practical issues that may contribute to the wait for an appointment with a consultant clinical geneticist. For example, in the case of individuals concerned about their inherited risk of developing breast cancer a detailed investigation of their family history including occurrence and age at onset of any relevant cancers in the family will be required. Verifying this information is necessary before a meaningful first appointment can take place to assess the individual's risk and to decide whether it would be appropriate to offer a genetic test.

Haemodynamic Fluid Optimisation

Mr. Lansley: To ask the Secretary of State for Health (1) what assessment she has made of the *(a)* cost to the NHS and *(b)* clinical effects of the use of haemodynamic fluid optimisation; [51889]

(2) what assessment she has made of the *(a)* cost-effectiveness and *(b)* clinical-effectiveness of oesophageal doppler monitoring; [57656]

(3) what recent estimate she has made of the level of use of oesophageal doppler monitoring in NHS hospitals in England; whether she plans to increase this level of use; what representations she has received on this matter; what the content of these representations was; and if she will make a statement. [57723]

Ms Rosie Winterton: The National Institute for Health and Clinical Excellence (NICE) is the body charged with appraising new and existing health technologies for use in the national health service. NICE currently has no plans with regard to an appraisal of oesophageal doppler probe haemodynamic optimisation and the Department has no plans to ask it to do so.

The Department has not made an estimate of the use of oesophageal doppler monitoring in NHS hospitals in England and has not received any representations on this matter.

Dr. Gibson: To ask the Secretary of State for Health (1) if she will assess the use of haemodynamic optimisation for patients *(a)* before, *(b)* during and *(c)* after operations; and if she will make a statement; [47830]

(2) if she will assess the potential effect on *(a)* NHS finance and *(b)* the numbers of patients treated from using haemodynamic optimisation within the NHS; [47831]

(3) if she will meet the manufacturers of haemodynamic optimisation equipment to discuss its role in the NHS; and if she will make a statement; [47832]

(4) what estimate she has made of the *(a)* cost and *(b)* savings to the NHS of standardising the provision of oesophageal Doppler probe haemodynamic optimisation during and post surgery throughout England; and what the cost is per patient of oesophageal Doppler probe haemodynamic optimisation; [53426]

(5) what representations she has received regarding oesophageal Doppler probe haemodynamic optimisation; [53427]

(6) what discussions she has had with *(a)* health service and *(b)* funding managers regarding the introduction of oesophageal Doppler probe haemodynamic optimisation during and post surgery; [53428]

(7) if she will introduce oesophageal Doppler probe haemodynamic optimisation as a standard treatment during and post surgery throughout the NHS. [53429]

Ms Rosie Winterton: The National Institute for Health and Clinical Excellence (NICE) is the body charged with appraising new and existing health technologies for use in the national health service. NICE currently has no plans with regard to an appraisal of oesophageal Doppler probe haemodynamic optimisation and the Department has no plans to ask it to do so.

The Department has not received any representations regarding oesophageal doppler probe haemodynamic optimisation and there are no plans to meet with the manufacturers of oesophageal doppler probe haemodynamic optimisation equipment to discuss its role in the NHS.

The Department has not had any discussions with the NHS and funding managers regarding the introduction of oesophageal Doppler probe haemodynamic optimisation during and post surgery, and no estimates of costs or the number of patients treated have been made.

Health Care (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Health what grants have been provided to help patients accessing sexual health services in Tamworth. [53405]

Ms Rosie Winterton: Primary care trusts (PCTs) are responsible for delivering sexual health services to their local populations and resource this from their baselines allocations. In February 2005, individual PCTs, including those covering the Tamworth area were notified of their additional choosing health revenue allocation for sexual health. In 2006–07, an extra £91.5 million will be allocated to PCTs for sexual health modernisation which includes funding for chlamydia screening, genito-urinary medicine and reproductive health. A further £111.5 million will be allocated in 2007–08. Also, an extra £15 million for capital was allocated this financial year for sexual health services and a further £25 million allocated in 2006–07.

Data on spend on sexual health services in each PCT is not collected centrally.

Health Education

Anne Milton: To ask the Secretary of State for Health what assessment the Government has made of the effectiveness of educating the public on health issues through media campaigns *(a)* on television, *(b)* in newspapers and magazines, *(c)* on billboards and *(d)* on radio. [50566]

Mr. Byrne: The Department utilises a range of media across different campaigns. Our media schedules are developed following consideration of our audience, and the appropriate means of reaching. For example, national television and press are appropriate for mass public awareness. We assess the contribution of different media, but our evaluation of any given campaign will look at the totality of media deployed.

Herceptin

Mr. Lansley: To ask the Secretary of State for Health whether she has instructed primary care trusts that they should have regard to the UK Clinical Guidelines on the use of Adjuvant Trastuzumab (Herceptin) with or following chemotherapy in HER-2 positive early stage breast cancer published by the National Cancer Research Institute in deciding whether they should make Herceptin available to patients. [59664]

Ms Rosie Winterton: Primary care trusts have not been instructed to have regard to the National Cancer Research Institute guidelines. However, they have been alerted to them. A short article was included in NHS chief executive's Bulletin: Issue 300, circulated on 13 January 2006. This stated that:

> "The National Cancer Research Institute has produced a UK Clinical Guideline on the use of Herceptin for early breast cancer. This provides useful information to those considering prescribing Herceptin for this indication in advance of a decision on licensing and the publication of NICE guidance."

A link to the guideline was also provided.

Hospital Admissions (Alcohol-related)

Mr. Stewart Jackson: To ask the Secretary of State for Health how many admissions to hospital with an alcohol-related diagnosis via accident and emergency departments there were in the *(a)* Norfolk, Suffolk and Cambridgeshire Health Authority area and *(b)* Peterborough and Stamford Hospitals NHS Foundation Trust area in each year between 1997 and 2005. [57193]

Ms Rosie Winterton: The information requested is shown in the tables.

Counts of finished admission episodes where there was a primary diagnosis code for selected alcohol related diseases[1] and admission methods[2] in Norfolk, Suffolk and Cambridgeshire strategic health authority (SHA)

National health service hospitals, England 1997–98 to 2004–05

	Finished admission episodes
1997–98	576
1998–99	615
1999–2000	747
2000–01	754
2001–02	741
2002–03	660
2003–04	936
2004–05	1,080

Notes:

1. Alcohol related diseases defined as following ICD-10 codes recorded in primary diagnosis:

F10: Mental and behavioural disorders due to use of alcohol

K70: Alcoholic liver disease

T51: Toxic effect of alcohol

2. Selected methods of admission:

Emergency (via accident and emergency (A&E) services including the casualty department of the provider) Emergency (other means, including patients who arrive via A&E department of another health care provider)

Counts of finished admission episodes where there was a primary diagnosis code for selected alcohol related diseases[1] and admission methods[2] in Peterborough Hospitals NHS Trust NHS hospitals, England 1997–98 to 2004–05

	Finished admission episodes
1997–98	71
1998–99	56
1999–2000	58
2000–01	70
2001–02	85
2002–03	66
2003–04	134
2004–05	155

[1] Alcohol related diseases defined as following ICD-10 codes recorded in primary diagnosis:
F10: Mental and behavioural disorders due to use of alcohol
K70: Alcoholic liver disease
T51: Toxic effect of alcohol
[2] Selected methods of admission:
Emergency (via A&E services including the casualty department of the provider)
Emergency (other means, including patients who arrive via A&E department of another health care provider)
Notes (general):
Finished admission episodes
A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Diagnosis (primary diagnosis)
The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episodes statistics (HES) data set and provides the main reason why the patient was in hospital.
Ungrossed data
Figures have not been adjusted for shortfalls in data, that is, the data is ungrossed.
Primary care trust (PCT) and strategic health authority (SHA) data quality
PCT and SHA data was added to historic data years in the HES database using 2002–03 boundaries, as a one-off exercise in 2004. The quality of data on PCT of treatment and SHA of treatment is poor in 1996–97, 1997–98 and 1998–99, with over a third of all finished episodes having missing values in these years. Data quality of PCT and general practitioner (GP) practices and SHA of GP practice in 1997–98 and 1998–99 is also poor, with a high proportion missing values where practices changed or ceased to exist. There is less change in completeness of the residence-based fields over time, where the majority of unknown values are due to missing postcodes on birth episodes. Users of time series analysis including these years need to be aware of these issues in their interpretation of the data.

Infertility Treatments

Michael Fabricant: To ask the Secretary of State for Health if she will make a statement on the availability of *(a)* infertility treatment and *(b)* IVF treatment on the NHS in South Staffordshire. [57876]

Ms Rosie Winterton: Information about the number of patients receiving national health service infertility treatment is not collected centrally. The primary responsibility for the provision of these services rests with the NHS at local level. The consideration that primary care trusts give to this is part of the range of factors that they take into account, in liaison with local health bodies and patient groups, in deciding their policy on the provision of treatment services for their locality. This policy should reflect local health needs and priorities.

Macular Degeneration

Andrew Rosindell: To ask the Secretary of State for Health (1) what the cost to the NHS was in 2004–05 of treating individuals with age-related macular degeneration; and if she will make a statement on recent advances in the treatment of age-related macular degeneration; [52404]

(2) if she will make a statement on the introduction of photo dynamic therapy for age-related macular degeneration on the NHS. [52406]

Ms Rosie Winterton: The National Institute for Health and Clinical Excellence (NICE) issued its guidance on photodynamic therapy on 24 September 2003. Implementation of the NICE guidance was co-ordinated by local specialist commissioning groups and all primary care trusts are funding photodynamic therapy treatment for patients with both the wholly classic and predominantly classic forms of age-related macular degeneration.

We do not hold data on the cost to the national health service of treating individuals with age-related macular degeneration (AMD) in 2004–05.

Several new drugs are in the process of being licensed for the treatment of AMD. Pegaptanib and anecortave acetate were referred to NICE as part of its 10th wave. Guidance is expected in August 2007.

Mal de Debarquement Syndrome

Mr. Evennett: To ask the Secretary of State for Health what representations she has received on Mal de Debarquement Syndrome; what research she has commissioned on the syndrome; and if she will make a statement. [59748]

Mr. Byrne: I am not aware of receiving any representations on this rare condition, other than questions from Members earlier in this year on 16 January 2006, *Official Report*, column 1066W and on 30 January 2006, *Official Report*, column 172W.

The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

National Radiotherapy Advisory Group

Mr. Baron: To ask the Secretary of State for Health when she expects the national radiotherapy advisory group to report. [58954]

Ms Rosie Winterton *[holding answer 16 March 2006]:* We expect the national radiotherapy advisory group to report to Ministers later this year.

PCT Finances

Mr. Spellar: To ask the Secretary of State for Health how much will be taken from next year's budgets of primary care trusts (PCTs) in Birmingham and the black country to cover deficits in other PCTs in the West Midlands. [58501]

Ms Rosie Winterton: The amount of reserve to be banked and the terms of the agreement will be agreed by national health service organisations with their strategic health authority (SHA). SHAs are responsible for the financial management of the organisations within their area and for delivering financial planning targets agreed with the Department.

Prostate Cancer

Mr. Hollobone: To ask the Secretary of State for Health (1) what the research budget for prostate cancer is for 2006–07; and when she next expects to review funding for such research; [59148]

(2) what discussions she has had on hosting a global summit in the UK on prostate cancer testing; [59149]

(3) what recent research she has evaluated on new screening tests for prostate cancer. [59155]

Ms Rosie Winterton *[holding answer 16 March 2006]:* The NHS Prostate Cancer Programme confirmed the NHS Plan commitment to increase the Department's funding for directly commissioned prostate cancer to £4.2 million by 2003–04. The Department's expenditure on directly commissioned prostate cancer research was £4.3 million in 2003–04, and £4.4 million in 2004–05. Expenditure in future years will depend on the quality of research proposals received.

The Government are committed to introducing a national population screening programme for prostate cancer if and when screening and treatment techniques are sufficiently well developed for such a programme to be introduced.

The Department is supporting the development of screening technology for prostate cancer by having a comprehensive research strategy into all aspects of prostate cancer. We are jointly with other National Cancer Research Institute (NCRI) members funding two NCRI prostate cancer research collaboratives and the Department is funding half of the total £7.4 million cost.

The research undertaken by the collaboratives covers all aspects of prostate cancer and has already generated the groundbreaking discovery of the overactive E2F3 gene in prostate cancer tumours. This discovery provides the potential not only to identify those at risk of developing the disease, but for the first time allows the prediction of how aggressive the cancer will be. Research is under way to turn this into a diagnostic test so that we can identify those patients whose prostate cancers are aggressive and urgently need treatment.

It is important to note that in order for a screening technology to contribute to saving lives it is essential for there to be effective treatments for the disease detected. That is why the Department is funding a £20 million trial of treatments for prostate specific antigen (PSA) screen-detected early prostate cancer (the ProtecT trial).

Phase one of the trial showed that such a trial was feasible in the United Kingdom and that the majority of men recruited agreed to take part in a three-arm trial, comparing active monitoring, surgery or radiotherapy as treatment options. The primary end-point for phase two is survival to 10 years, with secondary end-points including disease progression, morbidity, quality of life impact, sensitivity/specificity of diagnostic tests and associated basic science research.

Since 2004, the ProtecT trial has been extended to evaluate the impact of screening using the PSA test by establishing a control arm to the study. Half of the men in the control study will be PSA tested and the other half not. All men in the study will be flagged with the national health service central registry and cancer registries to ensure notification of death and cancer.

On behalf of the prostate cancer advisory group, discussions are ongoing with the NCRI and the prostate cancer research collaboratives with a view to hosting in the UK a global summit on prostate cancer testing.

Mr. Baron: To ask the Secretary of State for Health what steps her Department is taking to promote research to find a new diagnostic test for prostate cancer. [59949]

Ms Rosie Winterton: I refer the hon. Member to the reply I gave on 23 November 2005, *Official Report*, column 2120W.

Reconstructive Breast Surgery

Sandra Gidley: To ask the Secretary of State for Health what assessment she has made of the number of patients offered reconstructive breast surgery after a mastectomy; and if she will make a statement. [59219]

Ms Rosie Winterton: The Department has not made an assessment of the number of patients offered reconstructive breast surgery after a mastectomy.

However, the National Institute for Health and Clinical Excellence's (NICE) guidance on 'Improving Outcomes in Breast Cancer' (August 2002), recommends that surgeons should discuss breast reconstruction with all patients.

Implementation of NICE guidance is a developmental standard as set out in 'National Standards, Local Action' published by the Department in July 2004. The Healthcare Commission is responsible for assessing progress of health care organisations towards achieving developmental standards. The Healthcare Commission is currently consulting on its proposals for assessing these standards.

Section 64 Funding

Lynne Featherstone: To ask the Secretary of State for Health how many voluntary organisations were waiting for a decision on the continuation of Section 64 funding on the last date for which figures are available; and if she will make a statement. [55955]

Mr. Byrne: The number of voluntary organisations waiting for confirmation of continuing grants from the Section 64 General Scheme of Grants for 2006–07 is 308.

Surgical Procedures

Dr. Gibson: To ask the Secretary of State for Health how many patients in the NHS have received oesophageal Doppler probe haemodynamic optimisation during and post surgery in each of the last five years. [53425]

Ms Rosie Winterton: This information is not collected centrally.

Mr. Hollobone: To ask the Secretary of State for Health what plans she has to encourage the adoption of haemodynamic optimisation for surgical procedures. [53835]

Ms Rosie Winterton *[holding answer 27 February 2006]:* All hospitals will have a variety of haemodynamic monitoring equipment available (invasive/non-invasive) to monitor haemodynamic status of the patients. This will in turn provide the information clinicians require to optimize medical treatment for a variety of medical conditions.

West Lancashire Primary Care Trust

Rosie Cooper: To ask the Secretary of State for Health how many NHS patients were registered with NHS general dental practitioners in the West Lancashire Primary Care Trust area in each year since 1997. [58490]

Ms Rosie Winterton: The information requested is shown in the table.

General dental services (GDS) and personal dental services (PDS): Number of patients registered with a national health service dentist in West Lancashire Primary Care Trust as at 30 September in each specified year

	Number of patients registered
1997	55,526
1998	48,306
1999	49,393
2000	51,708
2001	50,313
2002	52,575
2003	53,608
2004	55,231
2005	60,640

Notes:
1. PDS schemes have varying registration periods. To ensure comparability with corresponding GDS data, PDS registrations for established PDS practices are estimated using proxy registrations, namely the number of patients seen by PDS practices in the past 15 months.
2. Data for 2003 and earlier do not include those PDS schemes that do not have any registrations, for example dental access centres, and is therefore not directly comparable with 2004 and 2005 data.

Dental Practice Board

INTERNATIONAL DEVELOPMENT

Afghanistan

John Bercow: To ask the Secretary of State for International Development what assessment he has made of the impact of Taliban attacks upon the education system in Afghanistan. [58808]

Hilary Benn: Statistics on Taliban attacks upon the education system are being gathered by the British Embassy in Kabul for security purposes. Attacks on schools from anti-Government elements are increasing, but it is not possible attribute all of these to the Taliban. In 2006 to date, at least 114 schools have been destroyed, and 18 teachers, 24 students, and six school officials killed. This is a large increase compared to previous years. In 2002 the total number of incidents recorded targeting schools was 9, in 2003 and 2004 it was around 45 per year, and in 2005 it was 99.

John Bercow: To ask the Secretary of State for International Development what steps are being taken by his Department to improve the education system in Afghanistan. [58822]

Hilary Benn: DFID has not provided direct assistance to the education sector in Afghanistan, with the exception of very limited support (£47,000) for primary education of refugees in 2001–02. However, through our funding to the Afghanistan Reconstruction Trust Fund (ARTF), DFID supports the Government of Afghanistan's budget, which finances significant expenditure in the education sector. Since 2002–03 the operating budget for education as a whole has risen by 250 per cent.. Overall civil service numbers have remained stable, but there has been a major increase in the number of teachers, who constitute one of the largest portions of the civil service. DFID's contribution to the ARTF, to which we are the biggest donor, has thus played a big part in increasing the number of children in school since 2002.

Support to development projects in the education sector was budgeted to rise by 60 per cent. in 2005–06. Other donors have taken the lead in providing direct support to the education sector, including the World Bank, the United States Agency for International Development, Denmark, and United Nations Agencies. The UK is therefore also supporting the education sector in Afghanistan through its contributions to multilateral agencies. Through donor support to the education sector, over a thousand schools have been built or rehabilitated since 2001, which has enabled the enrolment of 5.6 million children, 37 per cent. of them girls.

Asian Tsunami

John Barrett: To ask the Secretary of State for International Development if he will make a statement on the progress of reconstruction in the regions affected by the tsunami. [55326]

Mr. Thomas: It is important that post tsunami reconstruction is properly co-ordinated and meets the requirements of the Governments and those in most need. We have been working closely with the affected country Governments and other donors and agencies to ensure that necessary needs are met.

DFID allocated £65 million to meet longer-term reconstruction needs, the bulk of which has been committed to Indonesia.

Reconstruction in Indonesia is gathering momentum and the detailed preparation and community planning processes carried out throughout last year have laid a good foundation for further progress this year, particularly in the area of reconstruction of infrastructure, including housing. DFID is working through the Multi Donor Fund to support the rebuilding of infrastructure, which continues to remain the top priority of donors amongst fears of escalating cost of building materials, which mean that earlier estimates on numbers of houses to be built by donors and non-governmental organisations (NGO)s are being revised down. DFID will work with the Government

of Indonesia and other donors through the fund to ensure that the continuing needs of Acehnese are met despite these challenges. The restoration of livelihoods, including cash for work, training and micro-finance schemes is also a high priority for this year. DFID is supporting this area through the United Nations Development Programme (UNDP), which is working with a number of local and international NGOs.

There were no shortages of resources for reconstruction in Sri Lanka. Following its substantial support for the relief effort, DFID's focus in the reconstruction phase for Sri Lanka has been to build capacity in country to manage the longer term recovery effort and £2.8 million has been committed towards this, in addition to the £45 million debt relief which is being provided by the UK over the next 10 years.

By the end of 2005 in Sri Lanka, over 53,000 transitional homes had been built and fewer than 150 families remained in tented accommodation. In addition to houses built by NGOs, a 'home owner' driven approach allows people to take ownership of rebuilding their homes and rebuilding their lives—in effect helping them to help themselves.

Progress is being made with the fishing industry, which is of key importance to the livelihoods of many affected families. 70 per cent. of people whose main source of income is from fishing have now regained some source of income and the Sri Lankan Government expect the fishing industry to have recovered by the end of 2006.

Recovery in India is proceeding and our support to long-term reconstruction, through the UN Country Team, followed a multi agency (the UN, the World Bank and the Asian Development Bank) assessment of reconstruction needs in affected areas. DFID has contributed £3 million for technical assistance to help ensure effective, transparent and equitable programming of tsunami reconstruction funds.

The Government of the Maldives have set up a Tsunami Relief and Rehabilitation Fund (TRRF) to receive resources from local and international sources and to channel these for relief and reconstruction. The international community has provided significant financial and technical support through the World Bank and EU, to the Maldives to help the reconstruction effort.

The Government are using their tsunami reconstruction program to implement their long-term development strategy of resettling and concentrating the population in a few 'focus' islands. This includes improving services in heath and education and protecting them from rising sea levels.

Burma

John Bercow: To ask the Secretary of State for International Development pursuant to Article 5 of the EU common position on Burma, what form decentralised co-operation with local civilian administrations takes on the ground; and which bodies, organisations and departments qualify as local civilian administrations. [52206]

Mr. Thomas: The majority of DFID assistance in Burma is implemented through UN agencies and international non-governmental organisations. However, as part of our humanitarian support in response to the HIV and AIDS epidemic in Burma, a small amount of funding (less than 7 per cent. of our total expenditure on HIV and AIDS) is used for service delivery through Burmese Government technical teams. These carry out specific and crucial work, for example the blood safety testing, national and local surveillance of HIV prevalence, and the township STD (Sexually Transmitted Disease) teams under the National AIDS Programme. Decisions on funding are taken after careful analysis of the team and its activities. Funds are managed by the UN, which is directly responsible for all procurement and are subject to audit. They do not pass through the Burmese Government budget.

John Bercow: To ask the Secretary of State for International Development what the annual EU aid budget for Burma was in each of the last five years; how much of that budget was contributed by the UK in each year; and how much of that budget was unspent in each year. [52210]

Mr. Thomas: The European Commission has not had an annual aid budget for Burma over the last five years. Commitments have been made through the European Commission Humanitarian Office (ECHO), for funding for work on HIV and AIDS, and through EC calls for proposals.

EC aid to Burma, 2000–04

	2000	2001	2002	2003	2004
Commitments (£ million)	6.93	3.98	14.44	9.61	17.24
Disbursements (£ million)	1.73	4.29	9.23	9.40	8.93
UK percentage share	19.66	18.69	19.42	18.12	17.52

Note:
Technical note: under the EC accounting system, commitments represent a firm obligation to provide specified assistance. Disbursements record the actual amount of funds spent in a specific year. In-year commitments and disbursements are very rarely the same, due to unpublished de-commitments, and delays or problems in project approval or implementation.
Source:
EC Annual Reports

Departmental Energy Costs

Mrs. Villiers: To ask the Secretary of State for International Development how much was spent by his Department on *(a)* gas and *(b)* electricity in 2004–05. [51775]

Mr. Thomas: In 2004–05, DFID's domestic gas and electricity costs were:

(a) Gas—£137,242.00

(b) Electricity—£409,620

We are unable to provide costs for all DFID's overseas offices as in some cases, utilities are paid through local service level agreements to the Foreign and Commonwealth Office (FCO) and cannot therefore be disaggregated. The costs for the remaining offices cannot be broken down between gas and electricity, but have a combined cost of £274,130.

Disaster Relief

John Barrett: To ask the Secretary of State for International Development what discussions he has had

with international partners and the United Nations regarding the UN's role in the co-ordination of disaster relief. [55323]

Mr. Thomas: In December 2004, my right hon. Friend, the Secretary of State for International Development, proposed a package of reforms to the international humanitarian system to improve the quality, timeliness, and co-ordination of response to emergencies. These are now being led by the United Nations. Two of the reforms are strengthening the role, remit, and authority of the UN Humanitarian Co-ordinator at country level, and development of pooled donor funds behind the Humanitarian Co-ordinator to disburse on the most urgent unmet needs.

A third key reform is the establishment of a new Central Emergency Response Fund (CERF) to enable UN humanitarian agencies to respond quickly to sudden crises without having to wait for donor funds to arrive first, and to ensure essential humanitarian activities take place in ongoing under-funded, or "forgotten" crises.

During 2005, DFID Ministers and senior officials held a range of discussions about the role of the UN in co-ordination of disaster relief with international partners, including European Union member states, the G8 countries, and with the United Nations, (particularly the Under-Secretary-General for Humanitarian Affairs, Jan Egeland, as Head of the Office for the Co-ordination of Humanitarian Affairs), and heads of key agencies including UNICEF, the United Nations High Commissioner of Refugees (UNHCR), and the World Food Programme (WFP). In addition, the matter was discussed at the meeting of the UN Economic and Social Council in July 2005, and at the Millennium Review Summit in September 2005.

Fairtrade Products

Anne Main: To ask the Secretary of State for International Development what assessment he has made of the effect of the sale of Fairtrade products on the economies of developing countries; and if he will make a statement. [57555]

Mr. Thomas: Fairtrade can make a real contribution towards helping poor people to trade their way out of poverty. There are now over 800 certified Fairtrade product lines and sales are growing. In 2004, the estimated UK retail sales of Fairtrade products was £140 million, about a 50 per cent. increase on 2003. This makes the UK the largest market for Fairtrade in Europe.

By building more equitable trading partnerships between North and South, by securing the rights for, and offering better prices to, disadvantaged southern producers, Fairtrade is helping poor producers capture more of the gains from trade, which is a key objective of the Department for International Development. There are over 400 producer groups involved in Fairtrade certified production across the developing world, detailed evaluation of the impacts of this would be difficult but it is estimated that the benefits of Fairtrade reach around five million people in developing countries.

The UK Government are a strong supporter of Fairtrade products. Many Government Departments, including DFID, use Fairtrade tea and coffee. And DFID supports initiatives to help more producers benefit from Fairtrade certification and develop new products. DFID has given over £1 million to the Fairtrade Foundation to help spread awareness of Fairtrade and develop new products.

Global Fund

Andrew George: To ask the Secretary of State for International Development what recent assessment he has made of the effectiveness of the Global Fund to Fight AIDS, Tuberculosis and Malaria in achieving the purpose for which it was set up. [53284]

Mr. Thomas: The Global Fund to Fight AIDS, TB and Malaria was set up in January 2002, to date, US $8.5 billion has been pledged to the Global Fund through to 2008. Of this, the Fund has approved US $4.9 billion to over 350 grants in 131 countries. As of 27 January 2006, US $2 billion has been disbursed to public and private recipients.

The Global Fund describes its results on its website www.theglobalfund.org In addition each month it publishes a monthly report. Expected outcomes after five years of grants include:

More than 1.8 million people on antiretrovirals

Over one million orphans supported;

Five million additional TB cases treated;

109 million bed nets financed to protect families from malaria.

The January 2006 report specifically focuses on a few countries: in Bangladesh over 5,000 people have been trained to deliver youth education for the prevention of HIV and AIDS, and in Nicaragua 82,000 insecticide-treated bed nets have been distributed across 36 municipalities.

To ensure that grant funding continues to go where it is being managed and spent effectively, only grants with satisfactory performance measured against agreed targets continue to receive funding for the remaining years of the grant. To date, the Global Fund Board has approved 107 requests for phase 2 funding worth US $1.1 billion.

An effective fund means working with international and national development partners to combat AIDS, TB and malaria. There have been a number of initiatives in the last year to move this forward. Examples include the Global Task Team on Improving AIDS Co-ordination Among Multilateral Institutions and International Donors, the Replenishment Conferences and the Best Practise Principles for Global Health Partnerships presented at the High Level Forum for Health. As a result of these initiatives we are seeing the Global Fund further increase its effectiveness.

The UK uses its position on the Board to work with the Fund and others to ensure the Global Fund is operating effectively.

Green Minister

John Barrett: To ask the Secretary of State for International Development what work his Department's Green Minister has undertaken in that capacity in recent months. [55352]

Mr. Thomas: Following the establishment of the Energy and Environment (Sustainable Development) Sub-Committee, "Green" Ministers are now referred to as Sustainable Development Ministers. Sustainable Development Ministers have responsibility for sustainable development policy and operations. In this role, the Parliamentary Under-Secretary of State has undertaken a number of activities in recent months including:

Policy:

Approval of DFID's Sustainable Development Action Plan

Approval of the Policy Paper: DFID's Approach to the Environment

Meeting with the Development-Environment Group of NGOs to launch the Policy Paper: DFID's Approach to the Environment and to discuss DFID's planned new White Paper

Meeting with Minister Elliot Morley in his capacity as Chair of the Energy and Environment (Sustainable Development) Committee to discuss DFID's progress in implementing the UK Sustainable Development Strategy, DFID/DEFRA collaboration on international environment and sustainable development processes, the UK Natural Resources Plan, UN Reform and International Environmental Governance and logging.

Operations:

Agreement to proposed energy efficiency measures for DFID offices for winter 2005–06

Acceptance of the findings of the Fourth Annual Sustainable Development in Government Report (SDIG 2005)

Agreement to meet with the Chair of the Sustainable Development Commission to further discuss the Sustainable Development in Government Report 2005 findings and areas for improvement.

Growth and Poverty Reduction

Nick Harvey: To ask the Secretary of State for International Development what research of the impact of varietal genetic use restriction technologies on ecology, socio-economic factors and culture was assessed during the drafting of Growth and Poverty reduction: the role of agriculture; and if he will place copies of that research in the Library. [55282]

Mr. Thomas: DFID's Agriculture Policy Paper, 'Growth and poverty reduction: the role of agriculture', makes no reference to genetic use restriction technologies (GURTs). DFID's view, expressed in this paper, is that a wide range of agricultural technologies will be needed to tackle poverty and hunger, from traditional knowledge to sophisticated plant breeding. DFID puts priority on improving poor farmers' access to technology, to enable them to make their own choices matched to need.

This approach was informed by, amongst other sources, a background review paper, Technology and its contribution to pro-poor agricultural development', which has been in the public domain since mid 2004 and can be found at http://dfid-agriculture-consultation.nri.org. I have arranged for copies of the document entitled 'Technology and it's contribution to Pro-Poor Agricultural Development' be placed in the Libraries of the House.

DFID's Agriculture policy paper does, however, recognise that there are both potential benefits and risks associated with gene technologies and GM crops, and argues that developing countries should be able to make their own informed choices. To this end, DFID has worked with the Department for the Environment and Rural Affairs (DEFRA), other government departments and the international community to establish the Cartagena Protocol on Biosafety, under the Convention on Biological Diversity (CBD).

As a party to the CBD, the UK Government agreed in 2000 to take a precautionary approach to the use of GURTs while research into the possible impacts of these technologies was carried out. It is expected that at the CBD meeting on 19–31 March this year, signatories to the convention will consider emerging research on the impacts of GURTs, including a progress report by the Convention's scientific sub-group. The UK Government have considered this research and do not propose to change their position on a precautionary approach to the use of GURTs. Parties to the CBD will also address capacity building for decision making in developing countries.

India

John Bercow: To ask the Secretary of State for International Development what steps are being taken by his Department to assist women and children who have been victims of sexual exploitation in India. [58807]

Mr. Thomas: DFID India recognises that existing gender relations contribute to sexual exploitation in India. DFID India supports Government, and engages with various partners and agencies, to address these issues and broader questions of social exclusion including gender inequality.

DFID India's £75 million strategic partnership with UNICEF, announced on 13 March 2006, will include activities aimed at addressing social exclusion and securing child rights. DFID India's Poorest Areas Civil Society Programme supports Save the Children, India, which has a programme aimed at combating trafficking and sexual exploitation of women and children in Maharashtra. DFID India is also working with partners to help the Government of India formulate prevention strategies to address the issue of female foeticide. Finally, DFID India's dialogue with Oxfam focuses on addressing violence against women.

Iraq/Afghanistan

Mr. Moore: To ask the Secretary of State for International Development how many international humanitarian organisations are operating in *(a)* Iraq and *(b)* Afghanistan; and how many personnel are employed by such organisations in each country. [58719]

Hilary Benn: A number of major international aid organisations, US Government organisations, and United Nations agencies are providing humanitarian assistance in Iraq.

Major international non-governmental organisations working in Iraq include the American Friends Services Committee (AFSC), CARE, Catholic Relief Services, Church World Service, Lutheran World Relief, Medecins Sans Frontieres (MSF), the Human Rights Watch (HRW), the International Committee of the Red Cross (ICRC), the International Federation of Red Cross and Red Crescent Societies (IFRC), Oxfam International, the US Committee for Refugees, and World Vision International. There are also over 2,500 local Iraqi non-governmental organisations (NGO)s.

Key United States organisations operating in Iraq include the United States Agency for International Development (USAID), the US Department of Agriculture, the US Office of Foreign Assets Control, and the US Office of Humanitarian Assistance and Mine Action. The following United Nations agencies are also providing humanitarian assistance: the UN Assistance Mission for Iraq (UNAMI), the UN Electronic Mine Information Network (UN E-Mine), the UN Children's Fund (UNICEF), the UN Development Programme (UNDP), the UN High Commissioner for Refugees (UNHCR), the World Food Programme (WFP), and the World Health Organisation (WHO).

Identifying the total number of international humanitarian organisations working in Iraq, and giving their staff numbers, is information that could be gathered only at a disproportionate cost.

Since the law on non-governmental organisations working in Afghanistan was passed by the Afghan Government in June 2005, a total of 189 international non-governmental organisations have registered with the Afghan Government. Identifying which of these organisations are doing humanitarian rather than other work and giving their staff numbers is information that could be gathered only at a disproportionate cost.

Latin America

John Bercow: To ask the Secretary of State for International Development what steps are being taken by his Department to promote and support good governance in Latin America. [52200]

Mr. Thomas: Governance is central to DFID's engagement in Latin America. Our focus on poverty and exclusion means that we are committed to embedding principles of transparency, accountability, representation and democratic development in Latin America. DFID promotes good governance through various channels: directly with Latin American Governments, through the International Finance Institutions, via support to Civil Society organisations and through global initiatives.

During 2005–06, DFID supported governance initiatives through its Latin America regional programmes and through bilateral programmes in Nicaragua, Brazil and Bolivia. A new programme was established with the Inter-American Development Bank (IDB) and the World Bank (WB) to take forward work on governance in Latin America—the Accountable and Responsive Public Sector Management and Political Systems Programme (£7.5 million over four years). This programme aims to enhance the impact of the IDB and WB on the ability of poor people to shape, participate in and benefit from more accountable and responsive public sectors and political systems. The programme will support governance reform agendas in the World Bank and IDB. DFID supports the work of civil society on governance and other areas through Partnership Programme Agreements with six international NGOs and through the Civil Society Challenge Fund. We work with the Foreign and Commonwealth Office (FCO) and the Ministry of Defence (MOD) on the Global Conflict Prevention Pool for Latin America.

Recent work supported by DFID on governance in Latin America includes:

Financial Accountability and Transparency work in Nicaragua with the National Comptroller's Office and the audit of municipal accounts to improve transparency and citizen monitoring. In Brazil, our work has promoted Public Audit as a tool of citizen participation. In Central America, we are working with other donors on a Programme of Fiscal Reform. In Peru, we contribute to implementing greater transparency in respect of extractive industries resulting from the signing in 2005 of the EITI (Extractive Industries Transparency Initiative) Agreement by Peru.

Strengthening political institutions and processes has included support to the Central America Political Parties Initiative; strengthening the ability of citizens to voice their demands to Government through work with civil society groups in a number of countries; and work with the EC seeking to reinforce law and democracy in Colombia. With the IDB and WB, we contribute to the development and use of analytical tools that will improve understanding of the political context and incentive structures within countries, including through Governance Reviews in the Andes Region. Work on the politics of the budget process in Latin America is ongoing.

Conflict and Human Rights work has included Police Human Rights Training in Venezuela and support to a national centre in Peru to professionalise the management and reduction of conflict.

Strengthening demand for good governance through voice and accountability, includes support to civil society organisations to improve oversight of Highly Indebted Poor Countries funds and work in the Andean Region for poor and excluded people to get state identity cards (Right to Identity). An identity card allows a person to be officially recognised by the state and enables then to vote and access education and health services.

Madagascar

Ben Chapman: To ask the Secretary of State for International Development (1) what arrangements were made for the continuation of bilateral development assistance to Madagascar when the decision was taken to transfer responsibility for the administration of the Small Grants Scheme to the Foreign Office; [57856]

(2) what responsibilities for development in Madagascar his Department has taken over from the Small Grants Scheme since its discontinuation; [57857]

(3) what forms of bilateral development assistance were provided to Madagascar before the announcement of the decision to close the British Embassy. [57858]

Hilary Benn: I refer my hon. Friend to the responses I gave on 30 January and 13 March 2006; *Official Report*, columns 13W and 1938W respectively.

Malawi

Mr. Martyn Jones: To ask the Secretary of State for International Development what *(a)* mechanisms and *(b)* funding are in place to develop twinning and civic co-operation between the UK and Malawi. [58200]

Hilary Benn: DFID funded the Commonwealth Local Government Good Practice Scheme, launched in 1998, which supported 30 technical co-operation projects between local authority partners in Commonwealth countries. In Malawi, these were Crawley borough council with Lilongwe, South Staffordshire borough council with Zomba, and East Staffordshire county council with Blantyre city council. An evaluation of the scheme in 2000 recommended that it focus on selected countries, of which Malawi is not one, although some of the links are still active, such as that between East Staffordshire and Blantyre. In addition, DFID funds, through a Strategic Grant Agreement, the secretariat of the UK Local Government Alliance for International Development, which encourages UK local authorities to engage more closely with international development issues, including through technical cooperation links with local authorities in developing countries.

The Scottish Executive and Malawi signed a Co-operation Agreement in November 2005 which encourages Scottish organisations and individuals to make links with organisations in Malawi. This policy is supported by the Scottish Executive's International Development Fund. Scottish non-governmental organisations (NGO)s with a Malawian partner are eligible to bid for funds assuming they meet basic criteria in line with the Co-operation Agreement. There are also health links between several UK national health service trusts and tertiary and training health institutions in Malawi.

While civic and town twinning are not priorities for DFID's bilateral programme with Malawi, the British High Commission supports and facilitates existing links between towns and churches through representation at ceremonies to donate equipment and assisting with inquiries from institutions in the UK or Malawi wishing to set-up a twinning arrangement. DFID advises UK institutions seeking to develop links with Malawian institutions to collaborate with other development partners and to align with Malawi's own strategies, priorities and funding mechanisms.

Maldive Islands

Andrew George: To ask the Secretary of State for International Development (1) what support his Department has offered to assist post-tsunami reconstruction work in the Maldives; how much has been spent; what projects have been completed; and what projects are yet to be completed; [56136]

(2) what recent assessment he has made of the progress of *(a)* the Maldives Government and *(b)* international donors and institutions in eradicating poverty in the Maldives; [56153]

(3) what efforts his Department has made to ensure that *(a)* UK and *(b)* EU funds offered to assist with tsunami reconstruction in the Maldives have been properly audited; [56152]

(4) what conditions the UK Government have attached to *(a)* technical assistance offered to the Maldives Government and *(b)* the work which Hill and Knowlton is undertaking for that Government; [56139]

(5) what assessment he has made of the *(a)* transparency and *(b)* impact of UK Government aid programmes offered to the Government of the Maldives. [56138]

Mr. Thomas: The information is as follows.

Support for reconstruction following tsunami

Following the tsunami the UK provided emergency humanitarian assistance directly to the Maldives totalling £1.6 million and included funding to a number of UN agencies (the United Nations Environment Programme, the United Nations Development Programme, the World Health Organisation and UNICEF). The activities funded included: emergency waste management; restoration of livelihoods; disaster preparedness; water and sanitation.

DFID provides support to the Maldives through the European Commission, the World Bank and the Asian Development Bank.

The Government of the Maldives has set up a Tsunami Relief and Rehabilitation Fund (TRRF) to receive resources from local and international sources and to channel these for relief and reconstruction. The Asian Development Bank and the World Bank have helped the Government to ensure that procedures used in the TRRF are compatible with international standards. The Government of the Maldives are using the reconstruction programme to implement their long-term development strategy of resettling and concentrating the population in a few focus islands. This includes improving services in health and education and protecting them from rising sea levels.

Under its 2005–06 tsunami indicative programme, the European Commission (EC) pledged €16 million to the Maldives. The UK share of the EC assistance is 18 per cent. Of the €16 million, €2 million will be channelled to a United Nations Development Programme (UNDP) led programme to restart livelihoods and repair housing on the damaged atolls. The remaining €14 million will be channelled through the TRFF via the World Bank.

Eradicating poverty in the Maldives

The Maldives has had much success in tackling poverty to date, with a GNI per capita income of $2,300 per annum. There has been a significant reduction in income poverty, decline in maternal and infant mortality and increase in school enrolments. It is clear that the tsunami will have temporarily affected future progress. Funding provided by the EU post tsunami forms part of the EU's ongoing development assistance for the Maldives and will cover the heightened development needs of the country post tsunami and also longer term development planned before the tsunami.

Auditing funds, transparency and impact of UK aid programmes

The fact that much of DFID's relief and recovery assistance is being channelled through familiar partner organisations, including NGOs, helps ensure the funds are spent effectively. Individual agencies providing relief and reconstruction assistance are expected to have set their own targets for monitoring, taking into account the needs assessments undertaken by the Maldives' Government. In line with the Charity Commission's Statement of Recommended Practice 2004 annual reporting on progress and activities will be provided against their stated objectives.

The European Commission (EC) has also played an important role by gathering data on individual member states humanitarian, rehabilitation and reconstruction funding and putting this on their website.

The EC and the World Bank have undertaken joint evaluations of the national reconstruction plan (TRRF), as well as assisting the Government of Maldives in taking corrective measures when needed. We will continue to ensure that monitoring and technical assistance provided to the Maldives is in line with EU and UK policy. Regular monitoring of the TRRF will provide donors with the structure and opportunity to assess the impact and effectiveness of the support provided.

UK conditions

Aside from support directed through multilateral institutions, the UK also provides limited non-humanitarian assistance, from programme budgets or the Small Grants Scheme to support individual projects that further Foreign and Commonwealth Office (FCO) and or/DFID objectives.

We understand that the relationship between the Government of the Maldives and Hill and Knowlton is a commercial one to which we are not a party.

Nepal

Clare Short: To ask the Secretary of State for International Development if he will cease to engage with state institutions in Nepal and seek other means of delivering assistance to the people of Nepal. [59355]

Mr. Thomas: Since King Gyanendra suspended democratic rule on 1 February 2005, the DFID programme in Nepal has been kept under review. DFID has looked carefully at the effectiveness of the different aid instruments we use to deliver development assistance and the risks posed to field staff.

We continue to use financial aid in health, education and agriculture, where in my judgment it remains possible to help poor people and contribute to progress towards the Millennium Development Goals (MDGs) by channelling resources through Government. However, the political context and the conflict do adversely affect the performance of these programmes and we are currently closely monitoring possible increases in fiduciary risk in relation to government programmes. In other areas such as forestry, infrastructure, water, community support, anti-corruption, support to democratic groups and peace-building, we are channelling funds through DFID managed Technical Co-operation, through national NGOs or directly to communities.

DFID will shortly take stock of the political and conflict situation in Nepal and the outlook for development work, taking account of fiduciary and other risks and will consider how best we can continue to sustain essential services to the poor, and contribute to progress towards the MDGs and to a future peaceful and democratic Nepal.

Population Control Policies

John Bercow: To ask the Secretary of State for International Development what recent discussions he has had with the Government of India regarding population control policies. [58803]

Mr. Thomas: DFID's India country office, had discussions with Government of India (GoI) on population stabilisation issues in February 2006 in the context of the multi-donor review mission of the Reproductive and Child Health Programme, phase-2 (RCH-2). RCH-2, launched in April 2005, is the GoI's key programme to achieve the Millennium Development Goals (MDG)s for reducing maternal and child mortality. Population stabilisation is one objective of the overall programme through promoting the principal of choice: allowing couples to choose family size and spacing.

The multi-donor mission was satisfied that the frontline workers in the health Department do not have any 'targets' for controlling population. The current programme, based on the GoI's National Population Policy 2000, is free of targets. It is based on voluntary choices to address the unmet need for contraception with a focus on improving the quality of services. Many states in India are piloting innovative approaches of partnership with the private sector in order to expand the scope and reach of contraceptive services. Some of the state Governments, such as Madhya Pradesh have reversed their earlier decision to debar individuals with more than two children from standing for elections to local governing bodies. Legislation has now been passed by the Madhya Pradesh Government permitting individuals to take office in local governing bodies irrespective of their family size.

Further information on India's National Population Policy is available on the website: http://mohfw.nic.in

South Asian Earthquake

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development if he will make a statement on his Department's work in relief and reconstruction following the South Asian earthquake. [56976]

Mr. Thomas: The Government are working hard to help Pakistan recover from the earthquake. DFID has pledged a total of £58 million to meet relief needs, of which £53.3 million has been programmed to specific relief actions, and a further £70 million towards reconstruction. The European Commission has pledged €93.6 million (around £63.7 million) to relief and

reconstruction. The UK's share of this is around £11 million. We are the second largest donor to the relief effort.

DFID provided more than £2.4 million worth of urgently needed relief items, including 9,000 winterised tents, 32,000 tarpaulins, 19,700 collapsible 10-litre jerry cans, 36,000 blankets and 38,000 pieces of plastic sheeting. DFID has sent a total of 15 relief flights, including Ministry of Defence airlifts of priority relief items such as water and rations, and has funded 78 relief flights on behalf of the Disasters Emergency Committee to ensure that money raised by the public is spent on relief items and not transportation.

As part of the overall £58 million pledge, DFID has allocated over £19 million in support of the UN's relief effort. This includes £1 million to the World Food Programme (WFP) for helicopters, logistics support, vehicles, and coordination and £1.7 million to United Nations Humanitarian Air Service (UNHAS) for helicopters. DFID further supported UN activities through a £2 million pledge in support of the NATO airlift, transporting relief items from UN warehouses in Europe and the Middle East to Pakistan, and further DFID support to helicopter provision including three Chinook helicopters provided through the Ministry of Defence from 26 October until 28 November. DFID support to helicopter provision did not reduce at this point, but instead, at the request of WFP, DFID contracted four helicopters for four months, starting from 24 November 2005 as part of a £5.5 million package of support to UNHAS.

DFID also provided funding for an 86 strong team drawn from 59 Independent Commando Squadron Royal Engineers, deployed under NATO command, to undertake emergency shelter building operations in remote high-altitude areas in the Bagh region. The Royal Engineers unit are highly specialist troops who are trained to operate in winter and mountainous conditions.

DFID is one of the largest bilateral donors for reconstruction, and is a trusted partner of the Government of Pakistan. We committed £70 million for reconstruction at the Donors' Conference last November. DFID Pakistan will undertake programming for this during March, leading to preparation of a Programme Memorandum for Ministers approval during April. DFID funds are likely to be routed through the Government of Pakistan for general reconstruction purposes as well as some more specific technical assistance funds for capacity building and disaster risk reduction.

We are providing technical support to the Earthquake Rehabilitation and Reconstruction Authorities (ERRA) to draw up a master plan for implementation and monitoring of the overall reconstruction programme. DFID support to the Government of Pakistan also includes developing a single, comprehensive monitoring and evaluation framework, providing the Pakistani authorities and donors with a common framework, ensuring no duplication of effort.

The first £5 million tranche of DFID's support for reconstruction is available immediately. We have consulted with international programme partners in Pakistan and the Governments of Azad, Jammu and Kashmir (AJK) and the North West Frontier Province (NWFP) about how the £5 million can best be deployed for immediate reconstruction purposes. In light of these consultations, we will be making the following allocations:

Up to £4 million for reconstructing critical bridges in the affected area;

Up to £800,000 to the United Nations educational, Scientific and Cultural Organisation (UNESCO) for training teachers and administrators, in order to underpin support for rehabilitation of the education sector;

Up to £200,000 for TB prevention services and mental health support services in the earthquake affected areas.

Martin Salter: To ask the Secretary of State for International Development what plans he has for continued assistance for the people of the areas of Pakistan and Kashmir affected by the South Asian earthquake. [58451]

Mr. Thomas: DFID is playing, and will continue to play, a substantial role in helping Pakistan recover from the devastating earthquake of 8 October 2005. Our £58 million contribution for the relief effort is the second largest by any bilateral donor, after the United States.

At the donors' conference in Islamabad on 19 November last year, I pledged DFID support of some £70 million for reconstruction and rehabilitation, making the total UK contribution for relief and reconstruction some £128 million. We are providing support over the next three years, in close consultation with the Government of Pakistan and key donor partners. The UK support will, along with contributions from the World Bank, the Asian Development Bank, the UN and others, help make a very real difference rehabilitating the earthquake affected areas and restoring livelihoods. We will be flexible and keep our assistance under review, in light of progress with reconstruction in the next three years.

CABINET OFFICE

Hannington Radio Station

Norman Baker: To ask the Chancellor of the Duchy of Lancaster for what reason the Cabinet Office retains a transmission mast at Hannington Radio Station, Hampshire; to what purpose each of the out-buildings on this site is put; and if he will make a statement. [57861]

Mr. Jim Murphy: The freehold of Hannington Radio station was transferred to the Cabinet Office in 2001 as part of a Machinery of Government transfer. The Cabinet Office currently uses the site as a storage facility for office furniture and equipment. The other out buildings on the site are used by a small number of public and private sector companies and organisations who are engaged in broadcasting and associated activities.

Mobile Phones

Peter Viggers: To ask the Chancellor of the Duchy of Lancaster what guidance is given to Ministers about the use of mobile telephones for transacting Government business. [59577]

Mr. Jim Murphy: Government Ministers are given guidance on their responsibility for maintaining the security of government business which includes the appropriate use of mobile telephones. It would not be appropriate to discuss the detail of security guidance.

PRIME MINISTER

Alistair Campbell

Norman Baker: To ask the Prime Minister whether Mr. Alistair Campbell retains security clearance for 10 Downing street. [59423]

The Prime Minister: It has been the practice of successive governments not to comment on security issues,

Anniversary

Norman Baker: To ask the Prime Minister whether he plans to commemorate his anniversary of 10 years as Prime Minister. [59422]

The Prime Minister: I focus on delivering the Government's manifesto commitments.

Cabinet Discussions

Mrs. May: To ask the Prime Minister which Ministers are prevented from participating in Cabinet discussions because of a declared interest; and on what subjects. [59434]

The Prime Minister: I refer the right hon. Member to the press briefing given by my official spokesman on 13 March 2006, a copy of which is available on the No. 10 website. Information relating to the proceedings of Cabinet are not disclosed.

Downing Street (Events)

Norman Baker: To ask the Prime Minister if he will list official events held in 2005 at 10 Downing street to which individuals other than hon. Members and officials were invited where the total numbers present exceeded 30. [59425]

The Prime Minister: The programme of events at No. 10 is designed to give access to as many people as possible and includes regular children's tea parties and receptions for a wide cross-section of the community.

I have placed a list of official and charity receptions held at 10 Downing street in 2005 in the Library of the House. The costs of the charity receptions are funded by the charities involved. As was the practice under previous administrations, I have hosted a number of political events at Downing street. The costs of these were met by the Labour Parry.

Lord Levy

Norman Baker: To ask the Prime Minister if he will list the activities he has asked Lord Levy to carry out for him since 1 May 2005. [59424]

The Prime Minister: In his capacity as Prime Minister's envoy, Lord Levy undertakes meetings to exchange views on a range of issues, including the Middle East Peace Process, Latin America and Kazakhstan.

Lord Levy's diary is regularly published by the Foreign and Commonwealth Office and is available on their website. The latest version will be published shortly.

DEPUTY PRIME MINISTER

Adapted Housing

Daniel Kawczynski: To ask the Deputy Prime Minister if he will provide additional funding to local authorities for the provision of adapted housing for sufferers of motor neurone disease. [55793]

Yvette Cooper: The Disabled Facilities Grant (DFG) programme provides financial assistance to individuals to adapt their homes and enable them to live as independently as possible. The grant is subject to a means test to ensure that help goes to those in most need. Government funding for DFG in 2006–07 will be £121 million, an increase of 17 per cent. on the previous year.

However, the Government are determined to ensure that grants are paid expeditiously, particularly where people are suffering from degenerative conditions and need urgent help. We are undertaking a wide-ranging, interdepartmental review of the DFG programme and a consultation paper detailing the Government's proposals for change will be issued shortly.

Building Regulations

Graham Stringer: To ask the Deputy Prime Minister if he will introduce building regulations to control standards and safety during the installation of oil-fired appliances and oil storage equipment. [57809]

Yvette Cooper *[holding answer 13 March 2006]:* Such regulations already exist as part J of the Building Regulations.

Consultants and Advisers

Mike Penning: To ask the Deputy Prime Minister pursuant to his answer of 14 March 2006, *Official Report*, column 2142W what estimate he has made of the cost of providing the information in each of the three categories required. [59556]

Jim Fitzpatrick: None. As I indicated in my earlier answer of 14 March this information is not held centrally. To obtain this information would require the Office to ask individually every one of its staff, the consultants and paid advisors it employs. We could not insist that this information is provided and consequently could not be confident in its coverage or accuracy.

Council House Sales

Mr. Love: To ask the Deputy Prime Minister what was the total income in capital receipts from the sale of council housing under the right-to-buy scheme in each Government Office Region in 2004–05. [58674]

Yvette Cooper: Figures for the right-to-buy capital receipts in 2004–05 by Government Office Region can be found on the Office of the Deputy Prime Minister's website http://www.odpm.gov.uk/pub/383/Table648Excel545Kb_idl156383.xls.

Mr. Love: To ask the Deputy Prime Minister if he will require each local authority to submit a report to his Department setting out the capital programmes it funds using the 25 per cent. of retained capital receipts from the sale of council housing under the right-to-buy scheme. [58691]

Yvette Cooper: We do not intend to require authorities to submit such a report to the Office of the Deputy Prime Minister.

Development Land Tax

Tim Farron: To ask the Deputy Prime Minister what recent assessment his Department has made of the proposed development land tax; and if he will undertake a review to evaluate the potential impact of such a tax on future investment in affordable homes in rural constituencies. [58997]

Yvette Cooper *[holding answer 16 March 2006]:* The consultation document on the Planning-gain Supplement (PGS), published on 5 December 2005, sets out the Government's proposals based on work by HM Treasury, HM Revenue and Customs and the Office of the Deputy Prime Minister. We are currently considering the responses received to the consultation, which will help to inform further work looking at the detailed impacts of the planning-gain supplement on different types of development and on different site types.

This work will include examining further any impacts on the process by which affordable housing is delivered, including in rural areas. The consultation document proposes that affordable housing currently provided through the planning process should continue to be delivered through section 106 planning obligations.

Environmentally Sustainable Housing

Vera Baird: To ask the Deputy Prime Minister what steps he is taking to encourage the use of microgeneration in new build housing. [57922]

Yvette Cooper *[holding answer 13 March 2006]:* The Government recently announced that they will strengthen the Code for Sustainable Homes. For example, in order to further promote on-site energy generation, new homes that use micro-renewable technology such as wind turbines and solar panels will also gain extra points in the code.

The Government are also supporting amendments to the Climate Change and Sustainable Energy Private Members Bill to further support micro-renewable technology, encourage more action on micro-generation by local authorities, and improve compliance with building regulations.

Home Buyers Packs

Mr. Pickles: To ask the Deputy Prime Minister what estimate his Department has made of *(a)* the cost excluding VAT of a home condition report for larger, detached properties and *(b)* the minimum and maximum costs of producing such a report. [59122]

Yvette Cooper: The cost of the home condition report (HCR) will be set by the market, as is the case with the survey products available to consumers now, and we have not estimated a minimum or maximum cost. Our estimate of £300 (less VAT) is based on the cost of a report on a three bedroom semi-detached house in average condition located in a provincial town. A report on a larger property would be likely to cost more depending on its complexity.

Mr. Pickles: To ask the Deputy Prime Minister what estimate his Department has made of *(a)* the cost excluding VAT of a home information pack for larger, detached properties and *(b)* the minimum and maximum costs of producing such a pack. [59123]

Yvette Cooper: The cost of the pack will be determined by the market. We have not produced a range of assessments but estimate that a home information pack will cost between £600 and £700 for the average home. The most expensive elements of the pack are likely to be the home condition report (HCR) and local searches. The cost of the HCR will vary according to a number of factors, as is the case with surveys now. Local searches are usually charged at a standard rate by search providers, regardless of the size of the home in question.

Homelessness

Richard Burden: To ask the Deputy Prime Minister what assessment he has made of the contribution of the National Rent Deposit Forum to developing best practice in the reduction and prevention of homelessness; and if he will make a statement on his Department's policy on the future of the service. [58173]

Yvette Cooper: The Office of the Deputy Prime Minister strongly encourages local authorities to establish rent deposit schemes and did fund the National Rent Deposit Forum (NRDF) in 2005–06 to enable the Forum time to develop an on-going strategy to sustain the organisation. Officials have also met with the NRDF and provided advice on possible ways forward, for example merging with other homeless charities, generating additional income and /or extending its membership base. I understand however that the NRDF has decided to close. This is a time when the number of rent deposit schemes has increased and been mainstreamed within housing advice and homelessness prevention. Recent local authority homelessness survey returns summarised in "Survey of English Local Authorities About Homelessness Policy Briefing 13" which is available on the ODPM website showed that 87 per cent. of responding local authorities have established rent deposit/bond schemes as part of their homelessness prevention services. It is unfortunate that as a membership organisation that should exist on the basis of services it offers to members the NRDF was not able to benefit from the increase in rent deposit schemes.

Under the provisions of the Housing Act 2004, the Government are introducing tenancy deposit protection, which is scheduled to come into force in October 2006. It will apply to assured shorthold tenancies in England

and Wales. Following a consultation that ended on 1 February 2006, the Government are preparing the secondary legislation required to commence the schemes. A competitive tendering exercise is under way to select suppliers to run the schemes and award contracts in early summer 2006.

Housing

Andrew Gwynne: To ask the Deputy Prime Minister what assessment he has made of the effect of the house building moratorium in Stockport on *(a)* the amount of new housing available and *(b)* the prices of homes in the metropolitan borough of Stockport. [57824]

Yvette Cooper: There is no house building "moratorium" in Stockport. The Regional Spatial Strategy imposed a 15 per cent. across the board reduction in the rate of growth of new house building in the North West region.

Stockport Borough Council's Annual Monitoring Report shows that at 31 March there were outstanding planning permissions for 2,784 dwellings. It also estimated that around 410 dwellings would be built 2005–06, compared to the Borough's allocation of 220 dwellings a year in the Regional Spatial Strategy for the North West.

The Regional Spatial Strategy for the North West is being reviewed. The Government set out proposals to increase house building across the country.

Rosie Cooper: To ask the Deputy Prime Minister how many new homes he expects to be built in West Lancashire in *(a)* 2006–07 and *(b)* each of the following three years. [58411]

Yvette Cooper: The West Lancashire district council's annual monitoring report predicts that 339 dwellings will be built 2006–07 and a similar number in each if the next three years. These might change as the regional spatial strategy for the North West is reviewed.

Rosie Cooper: To ask the Deputy Prime Minister how much the Government have made available for housing in West Lancashire in the last three years. [58430]

Yvette Cooper: The Government have made £2,597,000 available to West Lancashire district council over the period 2004 to 2006–07 via the Housing Capital Allowance.

In addition, £824,000 was made available to the council under the Disabled Facilities Grant over the same period to cover the capital costs of installing modifications to meet the needs of the disabled.

An £8,449,000 subsidy has also been provided to the Council's Housing Revenue Account over 2004–05 to 2005–06 under the Major Repairs Allowance.

Rosie Cooper: To ask the Deputy Prime Minister what money is available for housing associations to build houses in West Lancashire in each of the next three financial years. [58431]

Yvette Cooper: The Housing Corporation has yet to announce capital allocations for housing association schemes in West Lancashire. An announcement is expected shortly.

Mr. Leech: To ask the Deputy Prime Minister what steps his Department is taking to encourage the building of more social rented housing in Manchester, Withington. [58871]

Yvette Cooper: Allocations to Manchester City Council of capital funding for housing purposes over the period 2003–04 to 2005–06 total £152.4 million.

In addition, to support the provision of affordable rented housing provision in the Manchester local authority area, the Housing Corporation, through its Approved Development programme has provided 831 units between 2002 and 2005 at a cost of £57.2 million. In the 2004–06 programme, the Housing Corporation allocated over £2 million to the Moorbank scheme in the Manchester Withington constituency, which provided a further 16 family units to assist homeless households.

Mr. Spring: To ask the Deputy Prime Minister what assessment he has made of the likely effects on potential housing developments on airfields in East Anglia of the proposed change in the definition of brownfield in the Planning Policy Guidance Note 3. [59571]

Yvette Cooper: The proposed changes reflected in Annex A of draft Planning Policy Statement 3: "Housing" were not intended to affect the application of the definition of previously-developed land to airfields, whether they be in East Anglia or elsewhere in England. Specifically they do not seek to change policy in relation to the potential development of airfield sites for housing.

Land Disposal

Lynne Jones: To ask the Deputy Prime Minister what guidance is given to local authorities on the disposal of land and other assets at less than market value. [58217]

Yvette Cooper: Guidance on the disposal of local authority land for less than the best consideration that can reasonably be obtained is set out in the Office of the Deputy Prime Minister's Circular 06/2003, Local Government Act 1972:General Disposal Consent (England) 2003. The specific consent of the Secretary of State, my right hon. Friend the Deputy Prime Minister is required if the undervalue in the proposed transaction is more than £2 million.

Landfill sites

Andrew Gwynne: To ask the Deputy Prime Minister what regulations are in place governing development and planning control procedures in respect of planning applications on former landfill sites which pre-date the Control of Pollution Act 1974. [58001]

Yvette Cooper: The responsibilities of all concerned in bringing forward and approving development on sites where contamination might be present are set out in Planning Policy Statement 23 "Planning and Pollution Control" and its Annex "Development on Land Affected by Contamination". Potential developers will need to satisfy the local planning authority concerned that unacceptable risk from contamination will be successfully addressed through remediation. Environmental impact assessment requirements will apply if the development is likely to have significant environmental effects. Local planning authorities themselves are expected to plan for land uses that are appropriate in the light of all the

relevant circumstances, including known or suspected contamination and, when determining planning applications, be satisfied that the site concerned is suitable for the new use and that the development does not create unacceptable risks. Planning conditions may require that land is remediated in the course of development to an appropriate standard, taking account of its intended use, and that, if necessary, is properly maintained subsequently. The Environment Agency is likely to be consulted on the redevelopment of former landfill sites and may require specific applications for authorisations within the pollution control framework it operates. The Building Regulations 2000 include requirements to protect buildings from the effects of contamination.

Park Homes

Mr. Harper: To ask the Deputy Prime Minister when his Department will consult on the reform of the commission payment mechanism for Park homes; and if he will make a statement. [58590]

Yvette Cooper *[holding answer 14 March 2006]:* Provisions in the Mobile Homes Act 1983 entitle park owners to receive a commission on the sale of a park home, not exceeding a rate specified by the Secretary of State. The current maximum rate is 10 per cent. and is specified in the Mobile Homes (Commissions) Order 1983. We are planning to issue a consultation paper shortly which will suggest possible changes to the commission rate.

Planning

Mr. Steen: To ask the Deputy Prime Minister how many building applications have been refused by local authorities in *(a)* the South West, *(b)* the South East, *(c)* the Midlands, *(d)* the North West and *(e)* the North East on the basis of a conflict with sustainability objectives contained in section 19(5)*(a)* of the Planning and Compulsory Purchase Act 2004. [59370]

Yvette Cooper: Statistics on the reasons for local authority decisions on planning applications are not held centrally and could be provided only at disproportionate cost.

Mr. Andrew Turner: To ask the Deputy Prime Minister if he will list the applications for the development of *(a)* supermarkets and *(b)* large stores that (i) he and (ii) his inspector has granted on appeal in each of the last five years. [59095]

Yvette Cooper *[holding answer 16 March 2006]:* The information requested is as follows.

Supermarket and large store appeals decided during the period 1 January 2001 to 31 December 2005

	Decided by the First Secretary of State		
Development	*Allowed*	*Dismissed*	*Total*

Religious Iconography

David T.C. Davies: To ask the Deputy Prime Minister how many *(a)* churches, *(b)* synagogues and *(c)* mosques have applied for planning permission to erect or display religious iconography deemed to be advertising under the Town and Country Planning Act 1990 on or around their premises in each of the past five years; and how many of these applications have been successful. [57818]

Yvette Cooper: The information requested is not held centrally, and could be provided only at disproportionate cost.

Security Staff

Mr. Andrew Turner: To ask the Deputy Prime Minister what percentage of his Department's security staff will be licensed before the Security Industry Authority's licensing deadline of 20 March 2006. [59555]

Jim Fitzpatrick: The percentage of the Office of the Deputy Prime Minister's security staff who will be licensed before the Security Industry Authority's licensing deadline of 20 March 2006 are as follows:

ODPM London HQ buildings—92 per cent. (the remainder will be licensed within 16 weeks)

ODPM Agencies:

Fire Service College—100 per cent. (all are already licensed)

Planning Inspectorate (PINS)—100 per cent. (all are already licensed)

Queen Elizabeth II Conference Centre (QEIICC)—11 per cent. (the remainder will be licensed within 16 weeks)

This answer does not include buildings occupied by the Government Offices, who carry out functions on behalf of 10 Government Departments.

Stock Transfers

Lynne Featherstone: To ask the Deputy Prime Minister whether the Government plans to take steps to ensure that local authorities which set up arm's length management organisations to manage their housing stock cannot be legally challenged on the grounds of unfair restrictions on trade should they fail to invite private sector bidders to tender for the management contracts; and if he will make a statement. [59024]

Yvette Cooper: In the light of the recent European Court of Justice Case C-458/03 *Parking Brixen GmbH v. Gemeinde Brixen and Stadtwerke Brixen AG* (Brixen judgment) it remains our view that if set up within the boundaries set out in ODPM Guidance on ALMOs, ALMOs could be classified as "in house" provision and as such exempt from a competitive procurement procedure.

Therefore where the ODPM guidance is followed the contracting of the service should not be legally challenged on the grounds of unfair restrictions on trade should they fail to invite private sector bidders to tender for the management contracts.

Where a local authority and its ALMO are considering any future developments or extensions to the role of ALMOs they will have to have regard to the Brixen judgment.

Store Size

Mr. Jenkins: To ask the Deputy Prime Minister how many stores with a floor area of *(a)* more than 3,000 square feet and *(b)* less than 3,000 square feet operate in (i) England and Wales and (ii) Scotland. [58111]

Yvette Cooper: The ODPM produces estimates of commercial and industrial floorspace from data received from the Valuation Office Agency (VOA). Using these data, there were 490,603 retail premises of less than 3,000 square feet (278.7 square metres) and 57,618 premises that were greater than or equal to 3,000 square feet in England and Wales at 1 April 2005 (the latest available data).

Retail premises are those that provide goods and services to the public. They include supermarkets, corner shops, local post offices, financial and professional services (such as banks and building societies), food and drink establishments and other uses typically found in shopping centres. The figures exclude most public houses, car showrooms and garden centres.

These figures are based on floorspace information for retail premises as collected by the VOA under their responsibility for assessing the non-domestic properties in England and Wales that are liable for business rates.

The VOA does not collect floorspace information for Scotland, so no comparable estimates are available from the ODPM.

Tenure Reform

Margaret Moran: To ask the Deputy Prime Minister what plans the Government has for tenure reform. [55681]

Yvette Cooper: The Office of the Deputy Prime Minister plans to give careful consideration to proposals by the Law Commission for tenure reform when the ODPM can see how these are reflected in the draft Bill that they are planning to publish this spring.

Urban Community Initiative

Mr. Ellwood: To ask the Deputy Prime Minister how much money has been allocated to Dorset from the Urban Community Initiative. [58930]

Yvette Cooper: The Urban II Community Initiative supports programmes in a limited number of specified urban areas in England, with no more than one programme per region. The programmes, including their geographical coverage, were agreed with the European Commission at the start of the 2000–06 programming period. There are no such programmes in Dorset.

NORTHERN IRELAND

Bullying

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps the Department of Education is taking to tackle bullying on school buses. [58053]

Angela E. Smith: The Department of Education actively promotes the development of anti-bullying initiatives through its anti-bullying programme. These apply to all forms of bullying whether in the classroom or getting to and from the school.

One particular initiative is the Safe Transport Working Group which was set up under the umbrella of the Ballymena Community Safety Partnership. This involves a range of interested agencies, including education and the police, in an effort to develop a co-ordinated approach to tackling bullying and other forms of anti-social behaviour en route to and from schools in the Ballymena area.

I understand that the working group will be reviewing their work and reporting on the project to the Northern Ireland Anti-Bullying Forum for their consideration.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what progress is being made in the development of anti-bullying campaigns in primary schools in Northern Ireland. [58064]

Angela E. Smith: The Department of Education actively promotes the development of anti-bullying initiatives in both the primary and post primary sectors through its anti-bullying programme. The main developments of anti-bullying initiatives specific to the primary sector are as follows.

In 2005, following on from previous bullying research which was published in 2002, the Department commissioned the University of Ulster to undertake a further study into the extent and nature of bullying in schools in Northern Ireland. Approximately 60 primary schools are directly participating in the research; the final report is scheduled for completion in November 2006.

Also in 2005, a 'Primary Pack' was produced which included the production of materials specifically for primary schools to tackle bullying. This work was pursued in partnership with the education and library boards and voluntary sector organisations with a keen interest in tackling bullying. Feedback on the materials has been positive.

Children and Young People

Mark Durkan: To ask the Secretary of State for Northern Ireland when the Children and Young People's funding package he announced recently will be made available; what the criteria are for gaining access to that funding; and to whom funding applications should be made. [58876]

Angela E. Smith: My Department and the other key Departments responsible for the implementation of the Children and Young People funding package are currently working to finalise the delivery mechanisms for each element of the package, including the associated criteria and processes for the distribution of funds. It is hoped to announce details shortly and for the funding to issue as soon as possible thereafter.

Civil Partnership Ceremonies

Lady Hermon: To ask the Secretary of State for Northern Ireland how many civil partnership ceremonies have taken place in each district council area since they became legal in Northern Ireland. [57057]

Mr. Hanson: The first Civil Partnership Registrations took place in Northern Ireland on 19 December 2005. Statistics on civil partnerships in Northern Ireland will be published in the Registrar General's Quarterly and Annual Reports. As in England and Wales it is planned that statistics will be made available for Registration Districts where more than five civil partnerships take place. Between 19 December 2005 and 6 March 2006 there have been 33 civil partnership registrations in Northern Ireland of which 15 took place in the Belfast Registration District.

Dissident Republican Paramilitaries

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 27 February 2006, *Official Report*, column 364W, on dissident republican paramilitaries, what new information came into his possession between 11 January and 27 February on dissident recruiting. [58281]

Mr. Woodward: In my answer of 27 February 2006, I advised that the recently published IMC report indicated that there is evidence that dissident republican groups are attempting to recruit members. I based my information on the eighth IMC report which was published on 1 February 2006.

Filling Stations

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps he is taking to introduce a licensing system in Northern Ireland for the ownership of filling stations. [58499]

Angela E. Smith: Proposals to streamline and tighten the petrol licensing regime are currently being considered. The current petrol licensing regime in other jurisdictions, such as GB and ROI, are being reviewed to identify best practice and learn lessons.

Key Stage 3 Curriculum

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many *(a)* employers and *(b)* parents were consulted by the Council for the Curriculum, Examinations and Assessment in respect of the Key Stage 3 curriculum proposals for Northern Ireland. [58684]

Angela E. Smith: CCEA undertook extensive consultation on its Key Stage 3 proposals in autumn 2003. It is not possible to identify the numbers of employers or parents who took part, as the consultation took a wide variety of forms. These included focus group meetings and briefings with key stakeholders including parents and business leaders. The consultation was widely publicised in the media and consultation materials were made available in a wide range of formats to facilitate responses. The consultation was independently evaluated by the Consultation Institute and was described as 'excellent'.

Packaging

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he is taking to reduce the amount of packaging being used for commercial products in Northern Ireland. [58133]

Angela E. Smith: It is the responsibility of the commercial sector to reduce the amount of packaging being used for commercial products in Northern Ireland, and government regulates businesses through legislation to ensure that companies take their producer responsibility obligations seriously.

Government also support companies to reduce their packaging through sponsorship of programmes and initiatives which enhance awareness, encourage good practice and design innovation.

The "Courtauld Commitment", an initiative developed by Waste and Resources Action Programme, which aims to design out packaging waste growth by 2008 and deliver absolute reductions in packaging waste by 2010, enjoys the support of major retailers represented in Northern Ireland.

Planning Appeal Commission

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many Planning Appeal Commission hearings took place in Northern Ireland during 2005; and how many involved a commissioner from outside Northern Ireland. [58070]

Angela E. Smith: The Planning Appeals Commission is a tribunal non-departmental public body, and the Chief Commissioner has written to the hon. Gentleman in the following terms:

"During the period 1 January 2005 to 31 December 2005 the Commission held 315 appeal hearings. This figure comprised 54 Formal Hearings and 261 Informal Hearings. A total of 19 of these hearings were presided over by Commissioners who reside outside of Northern Ireland."

Police Service of Northern Ireland

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what further steps he is taking to increase the number of Catholics in the Police Service of Northern Ireland; and if he will make a statement. [56547]

Mr. Woodward: In 1998 when the Patten Commission was conducting its investigation, only 8.3 per cent. of regular officers were from the Roman Catholic community. In less than five years under the temporary 50:50 provisions Catholic composition among regular officers has risen to 19.45 per cent. with 2,172 recruits having been selected for appointment on a 50:50 basis. In the same time female composition has also risen from 13 per cent. to 20.21 per cent. Our goal is to increase Catholic representation to 30 per cent. by 2010–11; the date envisaged by Patten to achieve this aim. I am pleased to say that we are very much on target to reach this goal with a further interim target of 23.5 per cent. set for March 2008.

In terms of the steps taken to recruit police officers, the Oversight Commissioner has commented that the advertising programme has been both imaginative and assiduous. It has varied between competitions, but has included press, television, billboard, cinema and online advertising, all designed to reach groups currently under-represented in the police service. The responses from all communities have been extremely positive and the results have exceeded expectations. In an effort to adapt the volume of applicants to the number of recruits that can actually be appointed to training, television advertising has now been eliminated, and the number of press insertions reduced.

The Oversight Commissioner found that in addition to a large number of Northern Ireland applicants, applications have been received from Great Britain and the Republic of Ireland, as well as from a number of other countries. Nearly 25 per cent. of all applicants entering training are graduates.

The Government recognises that 50:50 recruitment is an exceptional means of addressing an exceptional problem and we firmly believe that these temporary provisions are justified to rectify an acute historical imbalance in the composition of the police service. These exceptional measures are reviewed triennially and will expire unless specifically renewed by an order made by the Secretary of State. Section 47 of the 2000 Act was last renewed by the Police (NI) Act 2000 (Renewal of Temporary Provisions) Order 2004 allowing for their continuation until 28 March 2007.

Population Statistics (Lagan Valley)

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what the numerical and percentage increase in the total population in Lagan Valley constituency has been in each year since 2001. [59097]

Mr. Hanson: The table below gives the official estimate of the resident population in Lagan Valley Parliamentary Constituency from mid-year 2001 to mid-year 2004. Also included are the numerical and percentage increases for each one-year period.

	Population estimate at 30 June	*Annual increase from previous year*[1]	*Annual percentage increase from previous year*
2001	102,000	—	—
2002	102,900	800	0.8
2003	103,500	600	0.6
2004	104,600	1,100	1.1

[1] Data may not add due to rounding.

School Meals

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what percentage of pupils in post-primary level schools in each of the education and library board areas in Northern Ireland received free school meals in 2005. [59367]

Angela E. Smith: The requested information is as follows:

Post-primary pupils receiving free school meals in 2005

Education and library board	*Average percentage*
Belfast	17.2
Western	20.8
North-Eastern	10.4
South-Eastern	10.2
Southern	16.2
Northern Ireland	14.9

Schools (Extended Hours)

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many schools in each Northern Ireland parliamentary constituency offer extended hours from 8:00 a.m. to 6:00 p.m. [58119]

Angela E. Smith: My Department does not currently hold the information requested and it could only be obtained within the timescale for reply at disproportionate cost. However, an important aspect of the 'Extended Schools' element of the Children and Young People Funding Package will be a baseline survey in order to identify exactly how many schools in Northern Ireland currently offer an extended school service.

Serious Organised Crime

Miss McIntosh: To ask the Secretary of State for Northern Ireland what assessment he has made of the involvement of paramilitary groups in serious organised crime. [57682]

Mr. Woodward: The eighth report of the Independent Monitoring Commission, published on 1 February 2006, provided a clear assessment of the activities of all paramilitary groups up to the end of November. The latest report, published on 8 March, stated that PIRA no longer pose a paramilitary threat.

Speeding Fines

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much revenue was generated by speeding fines in Northern Ireland for the 12-month period ended 31 December *(a)* 2004 and *(b)* 2005. [57677]

Mr. Woodward: The revenue generated by speeding fines in the years requested is as follows:

	Fixed penalty notices (Number)	*Fine levied per FPN (£)*	*Revenue generated (£)*
2004	12,016	60	720,960
2005	11,515	60	690,900

Statistics and Research Agency

Sammy Wilson: To ask the Secretary of State for Northern Ireland whether students working in the Northern Ireland Statistics and Research Agency are paid for bank holidays. [57846]

Mr. Hanson: I can confirm that full-time one year placement students employed by the Department of Finance and Personnel are paid for bank holidays.

Sammy Wilson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 16 January 2006, *Official Report*, column 990W, on the Northern Ireland Statistics and Research Agency, for what reasons the interviewers are employed under terms and conditions different from those of other part-time staff of the agency. [58060]

Mr. Hanson: Survey interviewers are fee-paid staff employed under a non-guaranteed hours contract. Their terms and conditions reflect the nature of the work they undertake.

HOME DEPARTMENT

Alcohol-related Offences

Mr. Kemp: To ask the Secretary of State for the Home Department how many fixed penalty notices were issued for *(a)* consumption of alcohol by and *(b)* selling alcohol to under age people in (i) Sunderland city council area and (ii) Houghton and Washington, East constituency in each of the last five years. [57687]

Paul Goggins: It is not possible to identify the number of penalty notices for disorder issued in the Sunderland city council area and Houghton and Washington, East constituency area because centrally available data are for police force areas and are not broken down to that level of detail.

Mr. Wills: To ask the Secretary of State for the Home Department how many fixed penalty notices were issued in Swindon for alcohol-related offences between 12 November and 24 December *(a)* 2004 and *(b)* 2005. [57379]

Paul Goggins: It is not possible to identify the number of penalty notices for disorder issued in Swindon because centrally available data are for police force areas as a whole and are not broken down to that level of detail.

Animals in Research

John Robertson: To ask the Secretary of State for the Home Department how many individual animals were used in regulated procedures under the Animals (Scientific Procedures) Act 1986 in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland in 2004–05. [57366]

Andy Burnham: The latest statistical information for England, Scotland and Wales is available in the 'Statistics of Scientific Procedures on Living Animals Great Britain2004 (Cm 6713)'. Information relating to the number of animals used for scientific procedures can be found in Table 1a. As the Animals (Scientific Procedures) Act 1986 is administered by the Home Office for England, Wales and Scotland the data in the 'Great Britain' report is not broken down into the constituent geographical areas. Provision of the separate data for England, Scotland and Wales has, therefore, required a special exercise. The figures provided in the table are our best estimate of the number of animals used in each area and may be subject to a margin of error because our systems are not set up to provide a breakdown of data along the lines requested. The figures are as follows:

Country	*Number of animals*
England	2,378,920
Scotland	391,034
Wales	8,738
Total	2,778,692

Statistical information for Northern Ireland is published separately in the Statistics of Scientific Procedures on Living Animals Northern Ireland. The 2004 statistics for Northern Ireland will be published shortly.

Asylum Seekers

Damian Green: To ask the Secretary of State for the Home Department how many asylum seekers had been receiving National Asylum Support Service support on 31 December 2005 for more than *(a)* three months, *(b)* six months, *(c)* one year and *(d)* two years. [58201]

Mr. McNulty: Information on the period of time an asylum seeker or unsuccessful asylum seeker is supported by the National Asylum Support Service (NASS) is not centrally collected.

The numbers of asylum seekers supported by NASS are published on a quarterly and annual basis and show the numbers supported on that day only.

Asylum seekers may receive support while their initial claim is being decided. Once a decision is made on a claim, support for single applicants and childless couples is terminated.

Families with children under the age of 18 continue to receive support even if their claim is determined as unsuccessful. The most recent publication covering the fourth quarter of 2005 and further historical publications are available on the Home Office Research Development and Statistics website at: http://www.homeoffice.gov.uk/rds/immigration1.html

Bashkim Bushati

Tony Baldry: To ask the Secretary of State for the Home Department when Bashkim Bushati, reference B1022306, in HMP Bellingdon will be deported from the United Kingdom. [57790]

Mr. McNulty: Mr. Bushati was deported from the United Kingdom on 8 March.

Cell Sharing

Mr. Bellingham: To ask the Secretary of State for the Home Department how many prisoners have been doubled-up in cells meant for one inmate at each prison for each of the last 36 months; and if he will make a statement. [57769]

Fiona Mactaggart: The tables which highlight the information that is available for the last 36 months on the number of prisoners held "doubled" in accommodation designed for one prisoner will be placed in the Library.

Drug Treatment Programmes

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the outcomes of drug treatment programmes in prisons in England and Wales; and if he will make a statement. [58213]

Fiona Mactaggart: Research evidence shows that drug treatment can lead to a significant reduction in drug taking and associated offending.

In prisons, research into the effectiveness of drug interventions shows that completion of an intensive treatment programme can lead to significantly lower rates of reconviction (up to 10 per cent.) after two years, provided treatment was continued on release.

Electronic Tagging

Philip Davies: To ask the Secretary of State for the Home Department which private companies are contracted by the Home Office to provide electronic monitoring of offenders; and what the value of the contracts with each company is for 2005–06. [58563]

Fiona Mactaggart: Group four Securicor and Serco Ltd currently provide electronic monitoring services under contract to the Home Office.

The value of the contracts will depend on the number of persons monitored each year. The latest available information suggests that in the financial year 2005–06 the value of the contracts awarded to each supplier, broken down by contract area, is expected to be as in the following table:

Contract area	*Contractor*	*Value (£ million)*
North East & North West	Group four Securicor	14.7
East Midlands, Yorkshire & Humberside	Group four Securicor	11.3
South East & South West	Group four Securicor	10.0
London & Eastern	Serco Ltd	12.6
West Midlands & Wales	Serco Ltd	8.7

Philip Davies: To ask the Secretary of State for the Home Department how many times each of the companies contracted to provide electronic monitoring of offenders has failed to meet the criteria specified by his Department. [58644]

Fiona Mactaggart: The Home Office audits the performance of the electronic monitoring contractors against 19 service levels each month. The table shows the number of service levels that each contractor has failed to meet since April 2005.

	Group four Securicor	*Serco Ltd*
April 2005	3	2
May 2005	4	2
June 2005	3	1
July 2005	1	3
August 2005	1	2
September 2005	2	2
October 2005	2	1
November 2005	1	3
December 2005	1	3
January 2006	1	2

Home Detention Curfews

Mr. Bellingham: To ask the Secretary of State for the Home Department what steps he is taking to improve the consistency of initial assessments by prison governors for home detention curfew arrangements; and if he will make a statement. [58240]

Fiona Mactaggart: Where a prisoner is eligible to be considered for release on HDC the Governor will consider suitability based on the merits of each individual case. Where the Governor considers there is a significant risk to the public or risk of reoffending on HDC or that the prisoner is likely to breach the curfew conditions, then release will not be granted. In order to assist Governors inform their future decisions, when offenders are recalled from HDC the releasing prison is now provided with copies of the revocation order and a police information sheet which provides details of the reasons for recall.

Immigration Detention Centres

Damian Green: To ask the Secretary of State for the Home Department what percentage of those held in immigration detention centres on 31 January were held under the Fastrack scheme. [58206]

Mr. McNulty: Internal Management information shows that on 31 January 2006, 18 per cent. of those held in immigration detention centres were held under the Fast Track process.

This figure does not constitute part of the National Statistics.

Published statistics on immigration and asylum are available on the Home Office's Research Development and Statistics website at: http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Andrew Smith: To ask the Secretary of State for the Home Department how many cases of *(a)* suicide, *(b)* attempted suicide and *(c)* self-harm there have been in immigration detention centres for each of the last three years; and how many detainees are on suicide watch. [58336]

Mr. McNulty: There has been one death in the detention estate in the last three years where the coroner has recorded a verdict of suicide. We await the coroner's verdict in a further five cases of apparently self-inflicted death.

We do not keep records of attempted suicides rather self-harm attempts. No figures are available for 2003–04. Figures for 2004–05 and 2005–06 to 31 January 2006 are reproduced as follows.

At 18:00 on 12 March, there were 35 detainees on self-harm watch in the detention estate.

	1 April 2004 to 31 March 2005		*1 April 2005 to 31 January 2006*	
Immigration Removal Centre	*Number of individuals on formal self-harm at risk*	*Number of incidents of self-harm requiring medical treatment*	*Number of individuals on formal self-harm at risk*	*Number of incidents of self-harm requiring medical treatment*
Campsfield House	33	19	33	12
Colnbrook[1]	95	34	584	74
Dover	72	28	74	22
Dungavel	127	1	93	0
Harmondsworth	192	39	376	38
Haslar	44	8	29	1
Lindholme	24	2	10	4
Oakington	57	15	58	16
Tinsley House	91	8	40	3
Yarl's Wood	123	7	170	15

[1] Opened August 2004.

Indefinite Leave to Remain

Damian Green: To ask the Secretary of State for the Home Department how many individuals were granted indefinite leave to remain under family applications in 2005. [58197]

Mr. McNulty: During 2005, 11,280 principal applicants and a further 23,000 dependants were granted indefinite leave to remain under the Family ILR Exercise. This information is based on internal management information.

Damian Green: To ask the Secretary of State for the Home Department how many holders of student visas applied *(a)* successfully and *(b)* unsuccessfully for the right to remain in the UK in a different category in 2005. [58204]

Mr. McNulty: Provisional management information suggests that of those foreign nationals who were holders of student visas in the UK in 2005 and applied to remain here under a different category other than asylum, *(a)* about 7,740 of them were successful and *(b)* about 1,090 were unsuccessful.

National Asylum Support Services

Damian Green: To ask the Secretary of State for the Home Department how many individuals were covered by family applications for National Asylum Support Services support in 2005. [58203]

Mr. McNulty: In 2005, NASS received 27,155 applications for support, of these 4,830 were from family groups. The number of individuals that were covered by the family applications was 14,240.

The numbers of asylum seekers supported by NASS are published on a quarterly and annual basis. The most recent publication covering the fourth quarter of 2005, and further historical publications are available on the Home Office Research Development and Statistics website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Prison Suicide

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will publish the *(a)* agenda and *(b)* minutes of the Ministerial Round Table discussions on suicides in prisons; and if he will make a statement. [57762]

Fiona Mactaggart: I will write to the hon. Member with the agenda and outcomes of the most recent Ministerial Roundtable on suicide in prisons. There are no current plans for these to be published in full as the group shares issues frankly and in confidence. If the minutes were to be published it could affect the nature of the group. My Ministerial Colleague, Baroness Scotland, who is the Chair of the Roundtable, will however ask that the group discusses its position on this issue at the next meeting.

The Roundtable last met on eight March 2006 at HMP Wormwood Scrubs. The key focus of the agenda was 'Reducing Violence and Fear of Violence in Prisons.' There were also the regular reports from Roundtable members and from officials. Previous discussions have focused on 'Care and Health Interventions,' 'Suicide Prevention Strategy Development,' 'Families, Deaths in Custody and their Prevention' and 'Suicide Prevention and Self-Harm Management among Women Prisoners.'

Prison Visits (Children)

Mr. Bone: To ask the Secretary of State for the Home Department what funds were provided by the prison service for facilities for children visiting prisons in the last year for which figures are available. [57241]

Fiona Mactaggart: There are no centrally collated figures on the money spent across the prison estate to provide facilities for children visiting prison.

The responsibility for funding decisions rests with individual Prison Governors, as they are best placed to assess local needs.

Prisoner Pay

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the impact of relative pay rates for inmates on participation in education provision within the prison estate; and if he will make a statement. [57777]

Fiona Mactaggart: No data is collected centrally that allows an assessment of the impact of relative pay rates for inmates on participation in education within the prison estate. The Green Paper 'Reducing Re-Offending Through Skills and Employment' (December 2005) makes clear that prison pay regimes should ensure that there are no barriers to involvement in learning and skills activity.

Prisoners

Dr. Kumar: To ask the Secretary of State for the Home Department how many incidents of *(a)* suicide, *(b)* murder, *(c)* violent attack and *(d)* self harm were recorded in (i) men's prisons, (ii) women's prisons and (iii) young offender institutions in (A) England, (B) the North East and (C) the Tees Valley in each year since 1997. [57071]

Fiona Mactaggart: The information requested with respect to deaths is provided in table A.

The information requested with respect to serious assaults is provided in table B.

An assault is classified as 'serious' if it:

is a sexual assault, or—results in detention in outside hospital as an in-patient, or

requires medical treatment for concussion or internal injuries, or—is a fracture, scald or burn, stabbing, crushing, extensive or multiple bruising, black eye, broken nose, lost or broken tooth, cuts requiring suturing, bites, temporary or permanent blindness.

For the information requested with respect to self-harm, please see 16 March 2006, *Official Report*, column 2117.

Prisons

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on changes in prison management systems over the last 10 years. [58647]

Fiona Mactaggart: Since 1997, the Government have placed an increasing emphasis on addressing the causes and effects of offending behaviour. The 1998 comprehensive spending review (CSR) provided the first large scale, discrete investment in prison regimes, to allow prisoners to address offending behaviour and help with rehabilitation. This has been reinforced in subsequent spending reviews. Since 2002, partnerships with the Departments of Health and Education and Skills, which have transferred the budgets and policy responsibility from the Prison Service, have put provision of prisoners' health care and education on a par with that of the rest of society, to ensure equality and continuity of care and opportunity inside and outside of prison.

The Youth Justice Board (also established as one of the outcomes of the 1998 CSR) has concentrated resources and efforts across the criminal justice system to help address the specific issues and problems associated with juveniles in a positive and constructive way. The new commissioning arrangements currently being designed and implemented in the new National Offender Management System, will allow regional offenders managers to similarly positively address the issues of adult offenders, both in custody and when held under community sentences.

Race Relations (Amendment) Act

Mr. Boswell: To ask the Secretary of State for the Home Department what assessment he has made of compliance by Government Departments with their duties under the Race Relations (Amendment) Act 2000; and if he will make a statement. [56245]

Paul Goggins: The Government are wholly committed to reducing inequalities experienced by people because of their race. The Race Relations (Amendment) Act requires all Government Departments to publish Race Equality Schemes which lay out how they will incorporate measures to tackle inequalities as part of their policy development and service delivery. Individual departments, with whom responsibility for complying with the duties lies, are currently carrying out a detailed assessment of their own compliance.

The Home Office has been working with Government Departments to improve their compliance with the Race Equality Duty and will continue to do so.

Safer Cells Programme

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the safer cells programme. [57763]

Fiona Mactaggart: The continued introduction of safer cells across the prisons estate is based on a policy set out in December 2003 by the Prison Service Investment Board (PSIB). This states that for new accommodation in existing public prison establishments, all Category A, Category B and local prisons would be fitted 100 per cent. with full specification safer cells; Category C prison establishments would be fitted 25 per cent. with full specification safer cells; while RTUs ('ready to use') and MTUs (modular temporary units) would not generally be fitted with full specification safer cells and risks would be managed operationally. The PSIB further agreed that, for refurbished accommodation in local prison establishments, consideration should always be given to include safer cell provision in all business cases commissioned by the Estates Planning Committee.

Some issues around ventilation in safer cells were raised during the independent evaluation of safer cells, carried out by the Jill Dando Institute of Crime Science in 2003, as a result of which the Prison Service has developed an alternative safer ventilator design. The evaluation concluded that safer cells have much to commend them. Three prisoners stated to evaluators that being in a safer cell had prevented them from killing themselves.

Security Industry

Mrs. Dorries: To ask the Secretary of State for the Home Department how many applications have been submitted for *(a)* those employed in Cash and Valuables in Transit, *(b)* door supervisors, *(c)* vehicle immobilisers, *(d)* close protection operatives, *(e)* CCTV operatives and *(f)* security personnel since the establishment of the Security Industry Authority; how many applications have been (i) granted and (ii) refused in each case; and if he will make a statement. [54933]

Paul Goggins: Details of licensing statistics are available via the Security Industry Authority website www.the-sia.org.uk. As at 8 March, the numbers, including applications are set out in the following table.

	Applications:			
	Received	*Granted*	*Refused*	*Being processed*
Cash and valuables in transit	7,391	5,927	37	1,427
Door supervisors	51,301	40,417	2,593	8,291
Vehicle immobilisers	1,710	1,270	83	357
Close protection	274	36	0	238
CCTV	683	60	1	622
Security guards	57,303	31,310	456	25,537
Awaiting processing	16,497	n/a	n/a	n/a
Grand total	135,159	79,020	3,170	36,472

UK Airports

Lynne Featherstone: To ask the Secretary of State for the Home Department what guidelines the Government have issued on the holding of newly arrived visitors to the UK at airports; if he will place a copy of the guidelines in the Library; and if he will make a statement. [59035]

Mr. McNulty: Guidance to immigration officers on making decisions on whether to hold newly arrived visitors to the UK at airports is contained in chapter 31 of the Immigration Directorate's Instructions (IDIs). This document is maintained and updated as electronic guidance and is available from the IND website.

Under-age Drinking

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what percentage of retail outlets in Coventry South have been successfully prosecuted for selling alcohol to minors in each year since 2004. [57813]

Paul Goggins: Data from the Court Proceedings Database held by the Office for Criminal Justice Reform shows that in Coventry petty sessional area, 11 defendants were convicted for the sale of alcohol to minors in 2004, of which none were recorded as businesses. It is not possible to identify convictions in Coventry South as the data is not broken down to this level of detail.

The offence of selling alcohol to persons aged under 18 years of age was introduced to the penalty notice for disorder scheme from 1 November 2004 aimed at staff working in licensed premises found to commit this offence. It is not possible to identify those prosecuted or

issued with PNDs in the Coventry South constituency because centrally available data is not broken down to that level of detail.

The Licensing Act 2003 came into force on 24 November 2005. Data for 2005 will be available in autumn 2006.

War Crimes

Dr. Starkey: To ask the Secretary of State for the Home Department what assurances were given by *(a)* Ministers and *(b)* officials in his Department to Israeli Foreign Minister Tzipi Livni during her visit last week in relating to the issuing of arrest warrants against (i) Brigadier-General Aviv Kochavi and (ii) any Israeli citizen accused of war crimes. [57446]

Andy Burnham: None, no Ministers or officials from the Home Office met the Foreign Minister during her visit.

Mr. Amess: To ask the Secretary of State for the Home Department (1) if he will make a statement on the operation of the War Crimes Act 1991; [57603]

(2) how many *(a)* males and *(b)* females have been prosecuted under section 1 of the War Crimes Act 1991 in each year since the Act came into force. [57604]

Andy Burnham: The War Crimes Act 1991 was passed by Parliament to allow the prosecution of war crimes committed during the Second World War in Germany or German occupied territory by people who are now British citizens or resident in the UK.

The Metropolitan Police War Crimes Unit, which disbanded in 1999, conducted enquiries into a large number of cases arising from the 1989 Report of the War Crimes Inquiry and elsewhere. Most cases did not lead to criminal proceedings because either the suspect was no longer alive or there was insufficient evidence for prosecution. There has been one conviction under the Act. Anthony Sawoniuk was sentenced to life imprisonment in 1999 and died in custody in 2005. In one other prosecution, against Syzmon Serafinowicz in 1997, the court found the defendant unfit to plead and the then Attorney General entered a Nolle Prosequi (permanent stay of prosecution).

The Metropolitan Police continues to have lead responsibility for the investigation of allegations of war crimes under the Act. defendant unfit to plead and the then Attorney General entered a Nolle Prosequi (permanent stay of prosecution). The Metropolitan Police continues to have lead responsibility for the investigation of allegations of war crimes under the Act.

Witness Protection

Mr. Djanogly: To ask the Secretary of State, in what circumstances public access to criminal courts may be restricted to protect witnesses; and if she will make a statement. [57849]

Fiona Mactaggart: Openness of judicial proceedings is a fundamental principle of the criminal justice system. However, courts have common law powers to restrict public access to proceedings where it is deemed necessary for the administration of justice and to ensure that justice is done, such as for witness protection.

Section 25 of the Youth Justice and Criminal Evidence Act 1999 enables the court to exclude the public (apart form one press representative) in a case involving a vulnerable or intimidated witness, where the case involves a sexual offence or.intimidation.

There are also provisions in the Official Secrets Acts 1920 and 1989 which empower the court to exclude the public on grounds of national safety in prosecutions under those Acts.

Young Offenders

David Davis: To ask the Secretary of State for the Home Department what proportion of people detained in young offenders institutions have received *(a)* rehabilitative treatment and *(b)* educational training on leaving that institution in each of the last eight years. [42166]

Fiona Mactaggart: The information requested is not collected centrally.
